Report of the Superintendent of Education, 1963/64

EDUCATION OFFICE,
VICTORIA, B.C., January, 1965.

To the Honourable Leslie Raymond Peterson,
Minister of Education.

SIR,—I beg to submit herewith the Ninety-third Annual Report of the Public Schools of British Columbia for the school-year ended June 30, 1964.

ENROLMENT

The enrolment in the schools of the Province increased during the year from 358,905 to 378,641, and the average daily attendance increased from 332,584 to 348,472. The percentage of the regular attendance was 92.03.

The number of pupils enrolled in the various classes of schools is shown hereunder:—

Type of School	Number of Pupils Enrolled		
	Municipal	Rural	Total
Senior secondary	2,998	220	3,218
Junior-senior secondary	62,234	400	62,634
Junior secondary	23,924	512	24,436
Elemenary-senior secondary	33,328	3,181	36,509
Elementary-junior secondary	25,448	1,578	27,026
Elementary	219,998	4,820	224,818
Totals	367,930	10,711	378,641

In addition to the number given above, there were enrolled:—	
In the Secondary School Correspondence classes, regular students (exclusive of the 6,212 officially registered in other schools)	2,507
In the Elementary School Correspondence classes, regular students	843
Under section 20 of the *Public Schools Act*, pupils receiving instruction	82
	3,432
Adult education—	
Canadian Vocational Training Programme	7,587[1]
Night schools	78,461[2]
Vancouver School of Art	259
Vancouver Vocational Institute	6,981[3]
Secondary School Correspondence (adults only)	8,555
Elementary School Correspondence (adults only)	230
Carried forward	105,505

[1] Day, 5,023; night, 2,564.
[2] Includes 60,951 non-vocational.
[3] Day, 3,576; night, 3,405.

Brought forward	105,505
Adult education—*Continued*	
Number of participants in recreational programme	1,016,632[4]
Vocational teachers-in-training (summer session)	78
University of Victoria	1,121[5]
University of British Columbia	4,500[6]
	1,127,836

[4] This figure does not include Vancouver.

[5] This figure does not include the following enrolments: 1963 summer session (credit and non-credit), 963; 1963 extra-sessional (evening division), 407.

[6] This figure does not include the following enrolments: 1963 summer session, 5,463; 1963/64 extra-sessional classes, 1,557; correspondence courses, 1,373.

DISTRIBUTION OF PUPILS BY GRADE AND SEX

The following table shows the number of boys and girls enrolled in each grade for the school-year 1963/64:—

Grade	Boys	Girls	Total
Kindergarten	4,912	4,824	9,736
Grade I	20,011	18,318	38,329
Grade II	18,396	17,169	35,565
Grade III	17,693	16,833	34,526
Grade IV	17,145	16,358	33,503
Grade V	16,562	15,414	31,976
Grade VI	15,746	14,903	30,649
Grade VII	15,035	14,498	29,533
Grade VIII	14,703	14,021	28,724
Grade IX	14,117	13,565	27,682
Grade X	13,512	12,839	26,351
Grade XI	11,538	11,337	22,875
Grade XII	8,683	8,237	16,920
Grade XIII	1,865	1,094	2,959
Special or occupational	5,937	3,376	9,313
Totals	195,855	182,786	378,641

DISTRIBUTION OF TEACHERS AND PUPILS ACCORDING TO THE DIFFERENT CLASSES OF SCHOOLS

The number of teachers employed in the different classes of schools, the number of pupils enrolled in each class of school, and also the average number of pupils per teacher are shown in the following table:—

Type of School	Number of Teachers			Total Enrolment	Percentage of Total Enrolment	Average Enrolment per Grade Teacher
	Grade Teachers	Special Instructors	Total			
Senior secondary	109	39	148	3,218	0.85	29.52
Junior-senior secondary	2,027	774	2,801	62,634	16.54	30.90
Junior secondary	817	309	1,126	24,436	6.45	29.91
Elementary-senior secondary	1,212	361	1,573	36,509	9.64	30.12
Elementary-junior secondary	905	211	1,116	27,026	7.14	29.86
Elementary	6,895	536	7,431	224,818	59.38	32.61
Unclassified	.....	220	220	.....	.....	.....
Totals	11,965	2,450	14,415	378,641	100.00	31.65

TEACHERS' CERTIFICATES

The following table shows the number of teachers employed and also the number with or without university degrees:—

Type of School	Number of Teachers		
	With Degrees	Without Degrees	Total
Senior secondary	131	17	148
Junior-senior secondary	2,082	719	2,801
Junior secondary	720	406	1,126
Elementary-senior secondary	979	594	1,573
Elementary-junior secondary	518	598	1,116
Elementary	1,254	6,177	7,431
Unclassified	130	90	220
Totals	5,814	8,601	14,415

COMPARISON OF ENROLMENT AND EXPENDITURE FOR PUBLIC EDUCATION

The enrolment in the schools of the Province for the various years since 1877/78 and also the cost of maintaining them are shown in the following exhibit:—

School-year	Number of Teachers Employed	Number of School Districts	Aggregate Enrolment	Average Daily Attendance	Percentage of Attendance	Government Expenditure for Education	Total Expenditure for Public Schools
1877/78	56	45	2,198	1,395	63.49	$48,411.14[1]	.....
1882/83	69	59	2,693	1,383	51.36	60,758.75[1]	.....
1887/88	128	104	6,372	3,093	48.54	113,679.36[1]	.....
1892/93	267	169	11,496	7,111	61.85	174,775.43	$215,056.22[2]
1897/98	429	213	17,648	11,055	62.64	290,255.26	425,555.10
1902/03	607	268	24,499	16,357	66.76	473,802.29	604,357.86
1907/08	816	189	33,314	23,195	69.62	544,671.60	1,220,509.85
1912/13	1,597	359	57,608	43,274	75.12	1,663,003.34	4,658,894.97
1913/14	1,859	374	62,263	49,377	79.30	1,885,654.11	4,634,877.56
1917/18	2,246	575	67,516	54,746	81.09	1,653,796.60	3,519,014.61
1922/23	3,118	744	94,888	77,752	81.94	3,176,686.28[3]	7,630,009.54[3]
1927/28	3,668	788	108,179	91,760	84.82	3,532,518.95[3]	9,261,094.98[3]
1928/29	3,784	792	109,588	94,410	86.17	3,765,920.69[3]	11,149,996.27[3]
1929/30	3,854	803	111,017	96,196	86.65	3,743,317.08[3]	10,008,255.66[3]
1930/31	3,948	811	113,914	99,375	87.23	3,834,727.19[3]	10,061,387.99[3]
1931/32	3,959	830	115,919	103,510	89.29	4,015,074.37[3]	9,719,333.81[3]

[1] The total expenditure for public schools borne by the Government.

[2] This amount does not include the expenditure (not available) made for incidental expenses in city school districts.

[3] This amount includes the annual grant from the Government to the Provincial University.

[4] This amount on calendar year 1955, exclusive of capital expenditure from by-law funds.

[5] This amount on calendar year 1956, exclusive of capital expenditure from by-law funds.

[6] This amount on calendar year 1957, exclusive of capital expenditure from by-law funds.

[7] This amount on calendar year 1958, exclusive of capital expenditure from by-law funds.

[8] This amount on calendar year 1959, exclusive of capital expenditure from by-law funds.

[9] This amount on calendar year 1960, exclusive of capital expenditure from by-law funds.

[10] This amount on calendar year 1961, exclusive of capital expenditure from by-law funds.

[11] This amount on calendar year 1962, exclusive of capital expenditure from by-law funds.

[12] This amount on calendar year 1963, exclusive of capital expenditure from by-law funds.

NUMBER OF SCHOOL DISTRICTS

The following table shows the number and classes of school districts in which expenditure for school purposes was made during the school-year 1963/64:—

Municipal school districts	73
Rural school districts	27
Total number of districts	100

SENIOR SECONDARY SCHOOLS

The enrolment in senior secondary schools during the school-year was 3,218; of this number, 1,992 were boys and 1,226 were girls. The number of schools, number of divisions, number of teachers, and the enrolment for the school-year 1963/64 in each district are shown in the following table:—

District Number and Name	Number of Schools	Number of Divisions	Number of Teachers	Number of Pupils
39. Vancouver	1	43	54	1,275
41. Burnaby	1	37	51	1,076
52. Prince Rupert	1	9	14	285
62. Sooke	1	7	13	220
63. Saanich	1	13	16	362
Totals	5	109	148	3,218

JUNIOR-SENIOR SECONDARY SCHOOLS

The enrolment in junior-senior secondary schools during the school-year was 62,634; of this number, 32,201 were boys and 30,433 were girls. The number of schools, number of divisions, number of teachers, and the enrolment for the school-year 1963/64 in each district are shown in the following table:—

District Number and Name	Number of Schools	Number of Divisions	Number of Teachers	Number of Pupils

Totals	1,368	14,415	378,641	195,855	182,786	348,472.33

TEACHERS' SALARIES BY TYPE OF SCHOOL

The following table shows the highest, lowest, and average salary (in dollars only) paid to teachers in each type of school, grouped into grade teachers, supervising principals, and special instructors. Teachers earning less than $1,000 are excluded.

Grade Teachers

Type of School	Number Employed	Low Salary	High Salary	Average Salary
Senior secondary	109	$4,650	$11,567	$7,688
Junior-senior secondary	2,028	3,060	14,352	7,064
Junior secondary	817	2,102	9,880	6,457
Elementary-senior secondary	1,214	2,612	11,962	6,610
Elementary-junior secondary	905	2,772	10,912	6,030
Elementary	6,895	1,875	11,806	5,338

Supervising Principals

Senior secondary	5	$10,771	$14,353	$12,496
Junior-senior secondary	85	9,260	14,909	12,187
Junior secondary	42	9,230	13,536	11,372
Elementary-senior secondary	51	8,875	14,917	11,728
Elementary-junior secondary	36	6,622	13,736	11,551
Elementary	188	6,640	14,445	11,014

Special Instructors

Senior secondary	34	$4,450	$12,143	$8,290
Junior-senior secondary	688	1,170	12,254	7,652
Junior secondary	267	2,447	11,397	7,064
Elementary-senior secondary	308	1,067	12,648	7,591
Elementary-junior secondary	175	1,120	11,665	7,270
Elementary	348	1,054	12,408	4,761
Unclassified	220	1,343	15,792	8,489

SALARY CLASSIFICATION

Distribution of teachers by $100 salary-groups, including principals, supervising principals, and part-time teachers:—

Salary Range	Number of Teachers
Under $1,200	23
$1,200–$1,299	4
1,300– 1,399	6
1,400– 1,499	4
1,500– 1,599	4
1,600– 1,699	7
1,700– 1,799	6
1,800– 1,899	8
1,900– 1,999	9
2,000– 2,099	12
2,100– 2,199	10
2,200– 2,299	7
2,300– 2,399	7
2,400– 2,499	15
2,500– 2,599	13
2,600– 2,699	10
2,700– 2,799	7
2,800– 2,899	16
2,900– 2,999	14
3,000– 3,099	61
3,100– 3,199	81
3,200– 3,299	70
3,300– 3,399	68
3,400– 3,499	36
3,500– 3,599	88
3,600– 3,699	142
3,700– 3,799	271
3,800– 3,899	204
3,900– 3,999	275
4,000– 4,099	228
4,100– 4,199	316
4,200– 4,299	251
4,300– 4,399	292
4,400– 4,499	231
4,500– 4,599	338
4,600– 4,699	288
4,700– 4,799	313
4,800– 4,899	200
4,900– 4,999	349
5,000– 5,099	296
5,100– 5,199	313
5,200– 5,299	382
5,300– 5,399	263
5,400– 5,499	290
5,500– 5,599	273

Teachers	Number of Salary Range
$5,600–$5,699	516
5,700– 5,799	701
5,800– 5,899	342
5,900– 5,999	327
6,000– 6,099	212
6,100– 6,199	157
6,200– 6,299	538
6,300– 6,399	192
6,400– 6,499	198
6,500– 6,599	160
6,600– 6,699	97
6,700– 6,799	174
6,800– 6,899	120
6,900– 6,999	106

EXPANSION IN EDUCATION

During the school-year 1963/64 virtually every aspect of education was affected and some outstanding developments occurred in the Provincial educational system.

The necessary changes in the elementary- and secondary-school curriculum have been proceeding in an orderly manner since 1961, following the submission of the Report of the Royal Commission on Education. The academic-technical programme for Grades XI and XII is now being finalized, while other programmes of a vocational nature are in advanced stages of development. In this connection, during the summer of 1963 workshops were held at the Burnaby Vocational School to draft new courses for the commercial, industrial, community services, and visual and performing arts programmes. During 1964 this work was continued and will be completed by the summer of 1965, when attention will be focused on vocational agriculture. This will complete the original pattern for reorganizing or modifying the curriculum for the senior secondary schools of the Province. As a result of such developments, the holding power or the retention of pupils in the secondary schools should continue to increase. The public-school system is already retaining about 70 per cent of its pupils to the Grade XII level. It can confidently be expected that in the future all but a very small group of pupils will complete some type of programme by the end of Grade XII and the first students will graduate on it in June of 1967. All of these new programmes and courses at both the junior- and secondary-school level are designed to give greater purpose and meaning to the studies of all types of pupils in the secondary schools.

The Provincial regional vocational schools have the responsibility for specific trades training, retraining and pre-apprenticeship training, rehabilitative training, and up-grading in a variety of skills to meet the immediate man-power needs of industry and commerce. Regional vocational schools are already in operation in Burnaby, Nanaimo, Prince George, Kelowna, Nelson, and Victoria (pilot project), and Vancouver Vocational Institute in Vancouver. Plans are in hand for similar schools in Dawson Creek, Victoria, Kamloops, and Terrace. These 10 regional vocational schools, when completed, should serve the occupational needs of the Province adequately for some years to come.

The British Columbia Institute of Technology has been completed and will admit its first students in September of 1964. It will accommodate approximately 1,500 students in a two-year programme and is designed to give secondary-school graduates an opportunity to obtain training within the Province in some 17 technologies appropriate to their needs. The institute is a very new, significant, and practical development in the field of post-secondary education.

Some progress has been made toward establishing district and regional colleges in the West Kootenay and Okanagan regions and in the City of Vancouver. The proposed Vancouver District College will admit its first students in 1965, while the West Kootenay College expects to open in September, 1966. In the Okanagan Valley initial planning is being done to establish a regional college in that area. All of these colleges will offer two-year academic programmes as well as a variety of other programmes of a post-secondary nature in keeping with the needs of the particular area to be serviced.

Three public universities—the University of British Columbia, the University of Victoria, and Simon Fraser University—are engaged in building programmes in various stages, while the private university, Notre Dame University of Nelson, is likewise developing its facilities. In particular Simon Fraser University is making rapid progress in the construction of new buildings in preparation for receiving its

first students in September, 1965. While these universities will expand their undergraduate programmes, the University of British Columbia has announced an increased emphasis in the area of postgraduate work and in the greater development of its professional schools. It is anticipated that all four of these institutions will develop their individual characteristics through diversity, yet they will retain sufficient uniformity through mutual evaluation and discussion.

In order to facilitate the work of the universities and the junior colleges, an Academic Board was established in November, 1963. This Board will have the responsibility for co-ordinating the various programmes and for research as to the future needs of higher education in the Province. The Board is already making an important contribution in advising the Honourable the Minister on various aspects of higher education.

It would appear, then, that at all levels of public education much progress is being made and that great care is being taken to see that all young people in the Province receive the type of instruction most appropriate to their requirements, for no educational system should neglect either the young person of low scholastic aptitude or the student who is capable of the most advanced postgraduate work. In all these aspects of education the youth of British Columbia is being well served.

SPECIAL TRANSFERS AND SENIOR STAFF CHANGES

In June of 1964, Mr. G. W. Graham, formerly Assistant Superintendent (Administration), and Mr. E. E. Hyndman, former Chief Inspector, transferred to the field as District Superintendents of Schools, the former being assigned to School District No. 38 (Richmond), and the latter to School District No. 62 (Sooke). During the period they were in the Department each man, in his way, made a marked contribution to education in this Province.

Mr. Graham, among his many and varied duties, was concerned mainly with school planning and school construction in all its aspects. In this role he had the respect of the School Boards of the Province by his honest and fair-dealing practices. To a considerable degree he was also responsible for outlining proposed legislation in respect to the public-school system of the Province. He was a loyal and co-operative member of the Department who will be greatly missed by his colleagues.

Mr. Hyndman, who became Chief Inspector in 1958, began his work by organizing the Province into supervisory zones in order to work more effectively with District Superintendents and School Boards. During the six years he served as Chief Inspector he won the confidence and esteem of the various groups with whom he had to deal and was generally respected for his practical philosophy of education. In addition to his regular work, he was responsible for setting up the annual Departmental conference and for directing the biennial principals' conference.

Both Mr. Graham and Mr. Hyndman will continue to be associated with the Department, but in a different capacity. Their wide range of friends throughout the Province will wish them well in their new responsibilities.

Dr. W. A. Plenderleith became Assistant Superintendent in charge of Administration in June, 1964, in succession to Mr. G. W. Graham. Dr. Plenderleith came into the Department in 1933 as a Provincial School Inspector and was assigned to the Peace River Inspectorate. He subsequently became director of the experimental larger administrative unit in that area. He also served in a similar capacity as director of the Matsqui-Sumas-Abbotsford and Nanaimo units. Following a short period as Inspector of Schools for the Saanich and Sooke School Districts, he came into the Department in 1954 as Co-ordinator of Special Services. Dr. Plenderleith is a graduate of the University of British Columbia and holds postgraduate degrees

in education from the University of Alberta and the University of Toronto. He is the author of the Plenderleith Report pertaining to New Brunswick, and on the basis of the recommendations contained therein, that Province organized larger administrative areas.

Mr. Johann Phillipson, District Superintendent of Schools at Prince George, replaced Dr. Plenderleith as Co-ordinator of Special Services. Mr. Phillipson, who was appointed a District Superintendent in 1958, served as District Superintendent of Schools in Prince Rupert until 1961, when he was transferred to Prince George. Mr. Phillipson is a graduate of the University of British Columbia and later received a Bachelor of Education degree. He is a past president of the British Columbia Teachers' Federation.

Mr. W. D. Reid became Chief Inspector of Schools in June, 1964, succeeding Mr. E. E. Hyndman. Mr. Reid joined the Department in 1956 and served as a District Superintendent of Schools at Campbell River. In 1960 he was appointed District Superintendent of School District No. 37 (Delta) and the University Hill School District. Mr. Reid received his early education in Victoria and attended Victoria Normal School. In 1946 he graduated from the University of British Columbia and in 1961 received his Master of Education degree from the University of Washington. He served in the Canadian Army overseas, holding the rank of captain.

NEW APPOINTMENTS

Three District Superintendents of Schools were appointed in May, 1964. These were as follows: Mr. Patrick Grant, principal of the Cranbrook Senior Secondary School at Cranbrook; Mr. Douglas Feir, principal of the Grand Forks Senior Secondary School, Grand Forks; and Mr. John Leslie Canty, principal of the North Delta Secondary School. These men have had many years' successful experience in both elementary and secondary schools and come to the Department with excellent records.

Other appointments made by the Department of Education include Mr. Ross Hind as Director of the Secondary School Correspondence Branch. Mr. Hind was formerly school principal and came into the Department in 1953 as Assistant Registrar. In 1963, upon the retirement of Dr. Edith Lucas, he succeeded to the directorship. Mr. Edward Killough was appointed Assistant Registrar in succession to Mr. Hind. Mr. Killough began his teaching career at Prince George Senior Secondary School and subsequently taught at Windsor Secondary School, North Vancouver.

Mr. James Cairnie and Mr. John McLoughlin, of Victoria and Peace River South respectively, were seconded to the Department of Education in June, 1964, to assist in the work of curriculum development during the school-year 1964/65. For the third successive year, personnel from elementary and secondary schools have been loaned to the Department to help in curriculum revision during the period of reorganization of the elementary- and secondary-school programmes.

RETIREMENTS

Two members of the Department of Education retired during the school-year—Dr. Edith Lucas, Director of Secondary School Correspondence, and Lieut.-Col. John Napier Burnett, District Superintendent of Schools, Richmond.

Dr. Lucas is a distinguished scholar as well as an administrator of note. She obtained her B.A. degree with honours in French and Latin from the University of British Columbia and upon graduation was awarded the Governor-General's Gold Medal. Later she attended the University of Paris under the terms of the Nichol

Scholarship and received the degree of Docteur ès Lettres. Upon her return to British Columbia she became principal of the Prince Rupert High School, and in 1941 she was appointed Director of the Secondary School Correspondence Branch in Victoria. The Secondary School Correspondence Branch was greatly expanded during her tenure of office and became known throughout the North American Continent for its high standards. On a number of occasions her advice and judgment were sought by other Provinces and States. In 1961 Dr. Lucas was granted leave to go to Jamaica to establish a secondary-school correspondence programme in that country. She was an indefatigable worker and was dedicated to education as few people are. Her contribution stands as a lasting monument to her ability and scholarship.

Following a period of activity in education of over 40 years, Lieut.-Col. John Napier Burnett retired at the close of the school term in 1964. His teaching career, prior to his coming to the Department in 1939, was confined to Vancouver, where he taught and was principal of a number of schools in that city. Although he was appointed a Provincial School Inspector in 1939, because of his involvement in war service he did not assume his duties until 1944. He served successively in Penticton, Kamloops, and Richmond as Inspector and District Superintendent of Schools. During his career in education he was president of the British Columbia Teachers' Federation, president of the British Columbia School Inspectors' Association, and president of the Alumni Association of the University of British Columbia. For many years he was also assistant chairman of the board of management at Jericho Hill School. He was always interested in the Parent-Teacher Federation and encouraged the programme of the federation in his various districts. Lieut.-Col. Burnett has left behind him a very complete record of service to education, not only in Richmond, but in the Province as a whole. Over the years his contributions have been many and varied. His influence on education has been both beneficial and permanent.

OBITUARY

During the year the Department of Education suffered a severe loss in the death of John Robert Kirk, District Superintendent of Schools, Chilliwack. Mr. Kirk obtained his early education in the elementary and secondary schools of Newton, Cloverdale, and New Westminster, and later attended the Victoria Normal School. He taught in various elementary schools in Surrey from 1933 to 1937. From 1937 until his appointment as a District Superintendent, he was on the teaching staff of the New Westminster school system, where he was for one year principal of the Duke of Connaught High School. In 1954 he was appointed a District Superintendent of Schools and served at Trail, Kimberley, and subsequently at Chilliwack, where he had been District Superintendent for six years prior to his death. He was a graduate of the University of British Columbia and obtained his M.A. degree in education at the University of Washington. During his career he lectured at Summer School sessions at the University of British Columbia and served on mathematics revision committees, where his special knowledge and experience contributed to the advancement of education. Mr. Kirk led a very active life and was prominent in community affairs as well as in the professional field. His competence and leadership as a District Superintendent were widely acknowledged.

CONFERENCES

A successful three-day Departmental conference was held during the Easter vacation, 1964. The emphasis at this conference was devoted to various aspects of

the new secondary-school organization and revised curriculum content. Representatives from the Colleges of Education participated in the conference along with the District Superintendents of Schools and members of the Department. The major responsibility for directing this successful event fell to the lot of Mr. E. E. Hyndman, former Chief Inspector of Schools.

The fourth biennial conference of principals and vice-principals, held in the summer of 1964, is included in this Report, since all of the planning and the arrangements for the conference were made in the previous school-year. As in the past, four major groups involved in education — namely, the British Columbia School Trustees' Association, the British Columbia Teachers' Federation, the College of Education (U.B.C.), and the Department of Education—sponsored the conference. Altogether, 85 principals and vice-principals were in attendance on the campus of the University of British Columbia, where facilities were provided in terms of conference rooms, library, recreational facilities, and dormitory accommodation. The central theme of the conference in 1964 was "The Role of the Principal in School Organization." The credit for the successful direction of this conference must go to Mr. E. E. Hyndman, Chief Inspector, and to Dr. Walter Hartrick of the College of Education, University of British Columbia, who organized the programme which provided a stimulating and informative experience for all those who were fortunate enough to be in attendance.

ACKNOWLEDGMENTS

The school-year 1963/64 was an exceptionally busy period, not only because of the continuing reorganization of the elementary- and secondary-school programme, but also owing to developments in the field of higher education and in the expansion of facilities in the vocational and technical field. Near the close of the year some staff reorganization occurred within the Department, previously referred to in this Report. In this connection I am deeply indebted to everyone for their patience, understanding, and co-operation. Throughout the year an immense amount of work was accomplished, and I am grateful for the contribution made by every member of the staff.

I have the honour to be,

Sir,

Your obedient servant,

J. F. K. ENGLISH,

Superintendent of Education.

ADMINISTRATION BRANCH

REPORT OF G. W. GRAHAM, B.A., ASSISTANT SUPERINTENDENT OF EDUCATION (ADMINISTRATION)

Provincial legislation places the operation and maintenance of the public schools under the jurisdiction of the locally elected Boards of School Trustees of the school district. There are 83 large school districts in the Province; these include 72 classified as municipal school districts because they include a municipality within their boundaries, and 11 are classified as rural school districts. In the more isolated sections of the Province there are 18 small school districts, commonly referred to as unattached school districts. These include the Municipal School District of Zeballos. With the exception of Tahsis and University Hill, each unattached school district contains one school.

A School Board may be composed of three, five, seven, or nine trustees, as determined by the Minister of Education. There are at present 15 Boards with nine trustees, 38 Boards with seven trustees, 28 Boards with five trustees, and 4 Boards with three trustees. A trustee is elected for a two-year term of office.

The election of trustees within a municipality is in accordance with the *Municipal Act,* and the election of trustees within the rural area of a school district is in accordance with the *Public Schools Act.* This allows rural trustees to be elected at large in the rural area of the school district or in an attendance zone, or to be elected by representatives who were elected at annual meetings of attendance areas. There has been no appreciable trend toward election at large, and, as in previous years, the Minister of Education has been called upon to appoint many attendance-area representatives because of the failure of voters to elect representatives.

Five of the unattached school districts have School Boards, while the remaining 13 are administered by Official Trustees appointed by the Council of Public Instruction.

School construction continues throughout the Province on the trend which has been established over the past decade.

The Province meets at least 50 per cent of the capital costs of that which it considers as essential for school-sites, buildings, and equipment. While the essential requirements for schools have been determined for the sharing of costs, a School Board may, when planning its building, add features and details for which the Department does not share the cost. Because capital funds are provided by the sale of school-district debentures, two types of referenda are submitted to the electors; those which are eligible for Government grant and those which are not eligible for Government grant. Funds provided under the respective classification are commonly referred to as shareable and non-shareable capital funds.

During the school-year 53 referenda were submitted for approval by Order in Council. The electors of the respective school district approved 48 of these, totalling $46,000,000. The number of school contracts let for this same period total $12,-500,000. The trend would indicate that the volume of school consrtuction will increase.

The School Planning Division continues to provide Department plans for elementary schools when requested by school districts. The volume of work undertaken remains fairly constant at approximately $2,000,000 per year.

All pupils who live in isolated areas where neither school accommodation nor transportation is available may apply for correspondence work from the Correspondence Branch of the Department. In conjunction with the Correspondence Branch, and under section 20 of the *Public Schools Act,* if four or more pupils in Grades I to X, inclusive, are assembled for the regular school hours and are tutored by a qualified instructor, the Province may make a grant of $15 per month toward the salary of the instructor for each pupil doing satisfactory work. There were 15 classes enrolling 77 pupils in operation this year. While it is required that instructors of elementary grades must have completed secondary school and instructors of secondary grades must have a teacher's certificate or two years of university training, it is very difficult to attain this standard.

The trend towards integration of Indian children into the public-school system continues. Where such is undertaken by School Boards it is customary for the Federal Government to contribute toward the capital cost of the accommodation required. This is done through direct agreement with the School Board of the district. There are 2,200 Indian pupils enrolled in the public schools in 63 of the 83 large school districts, and in 8 of the 17 unattached school districts. The majority of this enrolment is in the school districts along the Coastal area of the Province, however, the enrolment of Indian children in the Interior school districts of Lillooet, South Cariboo, Fraser Canyon, Merritt, Keremeos, Enderby, Barriere, and Chilcotin is appreciable. When Indian children attend public school the Federal Government pays a tuition fee of $25 per month per child as per the agreement between the Provincial and Federal Government.

Similar patterns of agreement exist between the School Boards, the Department of National Defence, and the Province, when the pupils from National Defence Bases attend the public schools.

CURRICULUM AND GENERAL EDUCATIONAL SERVICES

Instructional Services

REPORT OF F. P. LEVIRS, M.A., M.S.(Ed.), ASSISTANT SUPERINTENDENT OF EDUCATION (INSTRUCTIONAL SERVICES)

Instructional services include the work of the following divisions, each of which has its own director and submits its own annual report: Curriculum; Tests and Standards; Secondary School Correspondence; Elementary School Correspondence; Visual Education; School Broadcasts; Home Economics; Jericho Hill School; and the Textbook Branch. In addition, there are aspects of instructional services that do not readily fall under any of the above-named divisions; these form the substance of this report.

Accreditation of Schools

The Accrediting Committee considered 95 applications for accreditation, accrediting 52 schools as follows: 6 for four years; 24 for three years; 8 for two years, and 14 for one year. Three schools were accredited for the first time and three returned to the list of accredited schools after suggested improvements had been made. No school was dropped from the list. The total number of accredited schools is now 108, a gain of 5 over the previous year. Consolidation of schools accounts for the loss of one school in the total calculation.

Adult Education

On the interrupted general programme for adults, the offering of secondary-school courses for credit was approved in various night schools and adult day schools as follows:—

Year	School Districts	Schools	Courses
1963/64	25	27	215
1962/63	25	27	221

Teacher Qualifications

The shortage of teachers fully qualified to teach in secondary schools is still great and shows no major sign of diminishing. There were 167 teachers with only elementary certificates (less than four years of training) teaching academic subjects in Grade X and higher levels. Of these, all but 32 had improved their standing in the last five years and 74 had taken one or more courses within the last year. Distribution of the teachers by certification is shown in the table below:—

Year	Number with Certificate Shown				Totals
	EA	EB	EC	ET	
1963/64	69	72	5	21	167
1962/63	67	64	4	8	143

Distribution of Grade VIII Pupils in Programmes

According to reports submitted by District Superintendents in June, 1963, 25,077 pupils in Grade VII classes were recommended for the regular Grade VIII programme, 1,367 recommended to take the Occupational programme, and 1,758 were asked to repeat Grade VII. The comparable figures in 1962 were: 24,564, 1,550, and 1,821.

In September of 1963, there were 28,292 Grade VIII pupils on the regular programme and, of these, 26,705 were receiving instruction in French 8. The number on the first year of the Occupational Programme was 2,219. Comparable figures for September of 1962 were: 27,850, 25,695, and 2,457.

Most Frequently Chosen Advanced Electives

The 10 advanced electives most frequently chosen by students were, in order of rank: Chemistry 91, Biology 91, Mathematics 91, English 91, Physics 91, Geography 91, English 93, History 91, Home Economics 91, and French 92. The only change from the previous year was in the order of the first three, with Chemistry coming up from third place to thrust down Biology and Mathematics.

Grade VII Departmental Examinations

Although most districts used their own examinations, the Department continued to supply final examinations prepared by experienced teachers to those districts asking for them. The table below shows the number of Departmental examinations written:—

Subject	Number of Papers Written 1964	1963
English—		
Reading and literature	7,121	9,718
Grammar, usage, composition	11,402	11,083
Vocabulary, dictation, word study	11,965	10,114
Mathematics—		
Computation	9,408	11,103
Problems	9,472	10,255
Social studies	11,790	7,454
Science	11,499	7,532

Organization of Secondary Schools

As the new organization began to take hold in elementary and junior secondary schools and junior secondary schools, the trends to establish both full secondary schools and junior secondary schools became clear. Types of organization are shown below:—

Types	Number of Schools 1963	1962
Senior secondary	4	4
Secondary	87 (54)	78
Junior secondary	46 (34)	24
Elementary and secondary	73 (44)	81
Elementary and junior secondary	58 (17)	77
	268	264

(The figures in parentheses show the number enrolling all grades in the category given; for example, secondary VIII–XII inclusive.)

The size of schools, with reference only to their enrolment of secondary pupils, is shown below:—

Enrolment	Number of Schools 1963	1962
Over 2,000	1	1
1001–2000	28	29
501–1000	80	69
251–500	60	66
101–250	39	39
51–100	23	25
Under 51	37	35
	268	264

The number of Grade VIII pupils in small elementary school dropped to 123 from 246 in the previous year. It is unlikely that this figure will decrease further, as there will always be some pupils taking Grade VIII correspondence courses in isolated elementary schools.

The number of Grade VII pupils still enrolled in secondary schools dropped to 8,449 from 12,902. There was also a significant drop from 26,647 to 15,787 in the total number of elementary pupils enrolled in schools also housing secondary pupils. This is half the number of only two years ago.

The hypothetical median British Columbia secondary school enrols 387 secondary pupils and has a total instructional staff of about 17.5 teachers.

Grade XIII Enrolments

In spite of increased accommodation at the universities, these enrolments continue to climb, as shown in the table below:—

	1963	1962
Number of districts with Grade XIII	37	35
Number of schools	40	40
Enrolment	2,957	2,732

Kindergartens

Kindergartens also grew in number and enrolment, as follows:—

	1963	1962
Number of districts with kindergartens	20	14
Number of schools	127	99
Enrolment	9,119	7,206

Classes on the Occupational Programme

With this special programme in its second official year, its expansion was noticeable, as follows:—

Year	Districts	Schools	Teachers	Pupils
1963/64	53	95	174	2,984
1962/63	65	118	267	4,629

Schools for Trainable Retarded Children

With the provision of grants for kindergarten children, a new factor appeared for the first time in enrolments of schools operated by the Association for Retarded Children:—

Year	Districts	Schools	Enrolment of Pupils in Relation to Grants			
			Fully Eligible	Kinder-garten	Ineligible	Total
1963/64	40	42	482	22	43	547
1962/63	32	35	433	—	43	476

As there were 376 pupils also enrolled in public day-school classes in 10 school districts, the total number of trainable retarded pupils in day schools was 923, as compared with 814 in the previous year.

School Population Growth

The percentage of school population growth over certain periods is shown below:—

Period	Percentage Growth
1957/58 to 1962/63	30
1956/57 to 1961/62	31

During the period 1957/58 to 1962/63, the 10 fastest growing school districts were: Atlin, 209 per cent; Chilcotin, 149 per cent; Merritt, 130 per cent; Golden, 98 per cent; Fort Nelson, 89 per cent; Delta, 85 per cent; Coquitlam, 84 per cent; Peace River North, 83 per cent; Muchalat, 83 per cent; Quatsino, 77 per cent.

Special Classes in Public Schools

Enrolments as reported on September 30 are shown in the following table:—

Type of Class	Number of Teachers		Number of Pupils	
	1963	1962	1963	1962
Slow learners	238	210	3,378	2,971
Remedial training	29	30	403	441
Home instruction[1]	7	6	.....	.....
New Canadians	11	10	177	158
Rehabilitation centres	6	6	69	61
Hospitals	13	13	339	273
Visually handicapped	2	2	15	16
Preventorium	2	2	20	23
Detention home	2	2	12	15
Emotionally disturbed	7	5	70	55
Mentally retarded	36	32	376	332
Speech[1]	2	2	.....	.....
Hard of hearing	3	2	30	19
Totals	348	322	4,889	4,364

[1] Enrolment varies greatly.

Local Supervisory Personnel

The following table shows the number of district teachers employed in supervisory and special capacities as at September 30th:—

	1963	1962
Directors of instruction	20	19
Supervisors of instruction	81	75
Teacher consultants	19	15
Special counsellors	34	34
District teachers other than relieving teachers	45	32
Totals	199	175

Entitlement of Teachers

The total number of teaching positions within entitlement for purposes of grant and the number established over and above entitlement by local districts, as at September 30th, are shown below:—

	1963	1962
Teaching positions within entitlement	14,069.35	13,278.73
Teaching positions over entitlement	263.2	237.27
Totals	14,332.55	13,516.00

Additional Activities

Work in connection with the reorganization of the school system has been the chief activity in this Branch. Complete plans have now been issued, although much still remains to be done in the fields of course planning and curriculum revision. Most of this is covered in the Division of Curriculum report.

Division of Curriculum

REPORT OF J. R. MEREDITH, B.A., B.Ed., M.Ed., DIRECTOR

The year 1963/64 was a year of intensive work in the revision and reorganization of the curriculum for the public schools of British Columbia. Seventeen specific subject revision committees met frequently during the year. In addition, the two Professional Committees concerned with the elementary- and the secondary-school curriculum met every month. A total of 133 persons were involved as members of these committees. Over 150 meetings were held in the 10-month period from September, 1963, to June, 1964. In terms of the total number of member-hours, these meetings represent close to 3,000 hours of curriculum-development work. These figures do not include the work of other committees, such as the School Library Book Selection Committees, who work during the year on services related to the curriculum. It may be of some significance to note that the assistance given by members of all these committees is voluntary and for the most part is given outside of the regular working-day.

The programme of revision and reorganization is under the general direction of the Assistant Superintendent (Instruction) and the Director of Curriculum and a small office staff. To assist in this work two special curriculum consultants were engaged on a temporary basis with the co-operation of the Boards of School Trustees for the school districts of Vancouver and Burnaby. The two consultants were Mr. J. S. Church (Vancouver) and Mr. E. L. Thomas (Burnaby). Both Mr.

Church and Mr. Thomas gave invaluable assistance to the Division. Their contribution to education in co-ordinating committee work and in giving leadership to particular revisions is very much appreciated.

Course Revisions and Textbook Changes

The following summarizes the particular revisions undertaken during the year:—

(1) Revision in the programme for reading, spelling, writing, and composition in Grades I to VII was begun. The Grade I year of this programme was completed with new prescribed readers for September, 1964.

(2) Revision in the elementary-school arithmetic programme was continued and a new course with a new prescribed text was developed for Grade VI for September, 1964.

(3) A study of the schedule of time-allotments for elementary-school subjects was undertaken and revisions were recommended to allow for increased attention to the subjects of English and Arithmetic and for increased flexibility in time-tables for particular classes.

(4) Revision of the secondary-school English programme was continued and a new course with 10 new texts was completed for Grade IX for September, 1964.

(5) Revision of the secondary-school mathematics programme was continued and new courses for Grade X and Grade XIII were completed with new texts for September, 1964.

(6) Revision of the junior secondary-school science programme was begun.

(7) Revision of the junior secondary-school French programme was continued and a new course was completed with new texts for Grade X for September, 1964.

(8) Revision of the Physics courses for Grades XI and XII was undertaken and a new course for Grade XI was completed with new texts for September, 1964.

(9) Revisions of the Chemistry and Biology courses for Grades XI and XII were begun.

(10) Revision of the courses in German for Grades IX to XII were begun.

(11) A new three-year programme was completed, called the Occupational Programme, for pupils entering secondary school but unable to benefit from the regular curriculum.

(12) Experimental work in the teaching of music was undertaken.

(13) A workshop was held for the purpose of developing new or revised courses in general vocational fields as a part of the reorganization of the secondary-school curriculum. A total of 17 such courses was prepared in draft form under the direction of this Division with the assistance of the Division of Technical and Vocational Education.

Most of the foregoing revisions involved changes in prescribed textbooks. A total of 30 new titles was selected, prescribed, and provided to schools. The majority of these were replacing texts which were out of date or out of print. The others were additional texts for new courses such as English.

Curriculum Reorganization

Some of the foregoing revisions and textbook changes were undertaken as part of a continuing programme of keeping the curriculum up to date. Most, however,

are directly related to the findings of the Royal Commission on Education. One of the most significant recommendations of the Commission had to do with the reorganization of the secondary school. A detailed plan for the new junior secondary school, Grades VIII to X, was completed in 1962. During the year 1963/64, specific attention was given to planning the details of the new senior secondary school. These plans were virtually completed and will be implemented at the Grade XI level in September, 1965.

Information and Related Services

In addition to specific revision and reorganization work the Division also undertook certain informational services, including the preparation and distribution of curriculum guides, lists of recommended library books, and the preparation and distribution of the regular curriculum, administrative, announcement, and teaching-aid circulars of the Department of Education. The mailing list of those receiving this material now numbers close to 2,000.

Related work included participation in the Canadian Education Association Short Course for Superintendents, provision of addresses for various public and professional groups, and occasional attendance at educational conventions and conferences.

Acknowledgment

A specific word of acknowledgment and appreciation should be extended to the members of the Department committees and the staff of other Divisions of the Department. The assistance of these individuals has greatly facilitated the work of this Division and has made a significant contribution to the improvement of the curriculum.

SPECIAL SERVICES

REPORT OF WILLIAM A. PLENDERLEITH, M.A., D.PÆD., F.R.S.A., F.C.P., CO-ORDINATOR OF SPECIAL SERVICES

The Conveyance of School-children

The following statistics indicate details connected with the conveyance of school-children during the school-year 1963/64:—

Items		1963/64
1. Number of large school districts providing transportation		80
2. Number of unattached districts providing transportation		2
3. Total number of vehicles		590
(*a*) District-owned	435	
(*b*) Contract	149	
(*c*) Other (water taxis, etc.)	6	
4. Total daily approved mileage (miles)		34,447
(*a*) Average distance per vehicle (miles)		58.4
(*b*) Average number of trips per vehicle		2.0
5. Total number of daily trips by all vehicles		1,172
Average distance per single trip (miles)		14.7
6. Total number of pupils carried daily		50,648
(*a*) Elementary	24,304	
(*b*) Secondary	26,344	
7. Average number of pupils carried per vehicle		85.8
8. Average number of pupils carried per route		43.2

Transportation Assistance

In addition to the operation of regular school transportation services, each School Board is empowered to make a grant to parents who provide their own transportation for their children. These grants are given in cases where there are insufficient pupils beyond Departmental walk limits to establish a regular bus route.

During the school-year, 2,000 pupils from 67 districts utilized this means of conveyance at a total cost of $302,159.

Table of Transportation Costs

The following table indicates the relationship between the total district expenditure and the total conveyance costs over the past eight years:—

Calendar Year	Total District Expenditures	Conveyance Costs	Conveyance Costs as a Percentage of District Expenditures
1956	$69,234,423	$1,918,902	2.8
1957	80,966,873	2,104,443	2.5
1958	91,279,662	2,236,918	2.4
1959	105,044,901	2,340,813	2.2
1960	118,269,991	2,477,202	2.1
1961	127,616,486	2,611,370	2.0
1962	136,432,687	2,721,510	2.0
1963	150,790,702	2,886,696	1.9

School Dormitories

In many isolated rural sections of the large school districts, it is impossible for the School Boards to provide transportation services for secondary pupils who desire to attend centralized secondary schools. In order to enable these pupils to attend secondary schools that offer a full high-school programme, authority to operate school dormitories is given to School Boards.

The following table provides data respecting the dormitories that were in operation during 1963/64:—

School District Number and Name	Capacity		Occupancy 1963/64		Staff		Grade Limits Accommodated	
	Boys	Girls	Boys	Girls	Full Time	Part Time	From	To
24. Kamloops	15	14	15	10	1	1	X	XIII
27. Williams Lake	23	25	18	17	2	1	VIII	XII
100 Mile	20	20	10	7	2	—	VIII	XII
28. Quesnel	18	18	12	16	2	—	VIII	XII
29. Lillooet	20	20	17	4	2	1	VIII	XII
56. Vanderhoof	20	24	16	7	2	1	VIII	XII
57. Prince George	45	45	22	23	3	1	VIII	XIII
58. McBride	16	12	16	8	2	—	VIII	XII
59. Peace River South	32	34	21	18	3	3	VIII	XIII
60. Peace River North	45	45	43	38	4	—	VIII	XII
64. Gulf Islands	11	11	8	8	2	—	IX	XII
Totals (11)	265	268	198	156	25	8	VIII	XIII

Boarding Allowances

For pupils who are unable to take advantage of transportation or dormitization, the School Board is empowered to provide a boarding allowance. Under this arrangement a pupil can receive up to $30 per month on a basis shared by the Department of Education. During the past school-year 1963/64, there were 619 pupils from 58 school districts who received a total of $183,850 in such boarding allowances.

Jericho Hill School Advisory Board

This Board consists of representatives from the Deaf and the Blind Parent-Teacher Association, the Vancouver School Board, and the Department of Education.

The Advisory Board met once each school month during 1963/64 and provided monthly reports to the Department respecting the operation of the Jericho Hill School.

The accompanying report of Dr. C. E. MacDonald, the Superintendent of the Jericho Hill School, contains the pertinent statistics relating to the enrolment in the school.

DIVISION OF TESTS AND STANDARDS

REPORT OF C. B. CONWAY, B.Sc., M.S., D.PÆD., DIRECTOR

In the school-year 1963/64 nine scholastic aptitude and achievement tests were administered to 31,613 Grade VII pupils and 2,687 pupils enrolled in one or more Grade XIII subjects. The Grade VII pupils that were tested included: 29,204 in the five categories of B.C. public schools that enrol Grade VII; 22 in a boys' industrial school; 1,724 in B.C. private schools that applied to be tested; 406 in B.C. Indian schools; and 257 in schools in the Yukon Territory.

The scholastic-aptitude test that was administered in Grade VII was the Henmon-Nelson Test of Mental Ability, Grades 6–9, Form A; the achievement tests were the reading comprehension, vocabulary, spelling, language, and arithmetic reasoning and computation sub-tests of the Stanford Achievement Test, Advanced Form L. In both cases B.C. pupils' scores were considerably higher than those of the U.S. pupil population on which the tests were standardized. The median M.A. on the Henmon-Nelson test was 14–9 on March 11th, the median I.Q. was 112, and with a norm of 7.6 the B.C. achievement means ranged from 8.2 to 9.1 in terms of grade equivalents. The scholastic-aptitude norms were almost identical to those obtained from the Henmon-Nelson Form B in 1962, which indicates that a true population difference probably exists and that the two forms are truly equivalent.

Within the Province the usual trend occurred from the south-west corner of the Province in a northerly and easterly direction. Mean stanine value for geographical regions were as follows:

British Columbia Grade VII Averages (Stanines) by Geographical Regions

Geographical Region	Scholastic Aptitude			Total Achievement		
	N	Mean	Rank	N	Mean	Rank
V. Vancouver Island	5,114	5.15	(2)	5,127	5.13	(1)
IVA. Greater Vancouver	9,696	5.17	(1)	9,719	5.11	(2)
III. Okanagan and Kettle Valley	1,836	4.98	(3)	1,839	4.98	(3)
VII. Central Coast	400	4.61	(9)	396	4.94	(4)
II. West Kootenay	1,428	4.90	(5)	1,425	4.92	(5)
IV. Lower Mainland	5,022	4.94	(4)	5,012	4.90	(6)
I. East Kootenay	735	4.71	(7)	740	4.83	(7)
VI. South Central	1,249	4.64	(8)	1,258	4.71	(8)
X. Peace River and north-east	663	4.76	(6)	669	4.50	(9)
VIII. Central British Columbia	1,490	4.49	(10)	1,497	4.46	(10)
IX. North-western British Columbia	661	4.25	(11)	660	4.42	(11)
Total, British Columbia public schools	28,294	4.99	—	28,342	4.97	—

The scholastic aptitude of Grade XIII students of 1964 proved to be almost identical to that of the students tested in 1960, although the number tested increased from 1,676 to 2,687. Two tests were administered this year to equivalent half samples so that comparable data may be obtained in the future if either test is used. The purpose of this testing, which is repeated at intervals of three or four years, is to control over-all graduation standards and the relationship of one subject to another. Remarkable consistency in the selectivity of different courses has been shown over the 12-year period during which the testing has been carried on. For example, making allowance for the 4.2-month interval in testing between 1960 and 1964, the following results were obtained:

Selectivity of Certain Grade XIII Subjects as Indicated by Mean Scholastic-aptitude Scores of Students Enrolled

Course	Number Tested, 1964	Dominion Group Test Raw Score Means		Mean I.Q.	
		March, 1964	November, 1960	March, 1964	November, 1960
French 120	342	54.1	51.7	119.1	119.5
Physics 101	785	52.8	52.4	117.8	118.8
Chemistry 101	1,246	51.8	51.2	116.9	117.9
Mathematics 101	1,836	51.1	50.5	116.3	117.2
English 100	1,010	50.3	49.2	115.8	115.8
French 110	1,009	48.9	48.3	114.9	114.8
Biology 100	671	46.9	45.3	112.9	112.0

The mean D.G.T.L.C. I.Q. of Grade XIII students was 115.8 in 1964, which may be compared with the mean of 115.7 for Grade XIII in 1960 and the mean of 115.1 obtained for Grade XII University Programme students in 1958.

An increasing tendency for those on the academic programme to make Grade XIII the terminal year of secondary school rather than the first year of college is becoming evident. Preliminary enrolment in September, 1964, is 3,686 versus 2,957 in 1963 and 1,383 in 1960. As this four-year increase corresponds only to the first small expansion in the post-war elementary school population it is largely the result of increasing retention rather than increasing population. While the corresponding elementary grade base rose 27.5 per cent, Grade XIII retention has risen 110 per cent. We now have 15.2 per cent of our elementary-school population entering Grade XIII. It is also interesting to note that B.C. Grade XIII enrolment plus " first-year " university in the fall of 1964 is approximately the same as the June total of university-programme graduates. Obviously the number of students withdrawing after completing U.P. Grade XII is no greater than the number of adults, repeaters, non-residents, and students with interrupted programmes who return.

Retention to Grade XII has also, of course, been rising rapidly. When this is combined with the effect of the first post-war wave of births we may forecast that the increase in enrolment in Grade XII in 1964/65 will be the greatest on record.

Year of Enrolment in Grade XII	Mean Enrolment in Corresponding Grades II to VI	Grade XII June Enrolment	Retention Per Cent to Grade XII	University Programme Graduates
1969/70	*31,200*	*22,500*	*72*	*8,600*
1965/66	27,768	*20,000*	*72*	*7,690*
1964/65	27,708	*19,900*	*72*	*7,675*
1963/64	24,311	16,770	69	6,752
1962/63	20,903	14,541	70	5,800
1961/62	20,528	13,595	66	5,543
1960/61	20,261	12,912	64	5,514
1957/58	16,343	9,012	55	3,976
1954/55	13,313	7,024	53	*2,880*
1951/52	11,411	5,572	49	2,285

Italized figures are estimates.

The revision of data-processing operations and programmes occupied a large part of the staff time in 1963/64. The pre-existing I.B.M. 650 programmes were made obsolete by the installation of 1403 and 1620 computers and some 30 pro-

grammes and sub-programmes had to be rewritten and tested. They cover a variety of operations: Assigning pupil-code numbers, calculating chronological ages, converting aptitude scores to M.A.'s and I.Q.'s, converting achievement scores to stanines, calculating percentiles, producing frequency distributions and class records, and a variety of class, school, and school-district summaries.

Three emergency plans for scaling university entrance and senior matriculation examinations were prepared in June and early July, and with the assistance of West Coast Data Processing Ltd. and the Provincial Data Processing Branch the scaled scores were produced for 80,660 papers in 37 examinations for June and 17 for August. This represented an increase of 12 per cent over 1963 and, although all scaling deadlines were met in 1964, the increase to about 94,000 papers expected this year makes revision of marking procedures as well as further mechanization of score-handling imperative.

HOME ECONOMICS

REPORT OF MISS MILDRED C. ORR, B.A., B.S., DIRECTOR

During the 1963/64 session, the total number of pupils enrolled in Home Economics courses in the public schools of British Columbia was 44,326, showing an increase of 5,991 pupils (15.6 per cent) over the total number enrolled the previous year.

The enrolment by courses is as follows:—

Home Economics 8	13,443	Home Economics 30	5,057
Foods and Nutrition 9, Clothing and Textiles 9	10,695	Home Economics 31	273
		Home Economics 32	155
		Home Economics 91	3,315
Home Economics 20	6,234	Home Economics 23	577
Home Economics 21	575	Home Economics 24	777
Home Economics 22	292	Home Economics 26	717
Occupational 1, 2, 3			1,922
Cooking and Food Service 9			246
Special, remedial or slow learners			16
Jericho Hill School			32

In addition to the above totals, some senior individual pupils are enrolled in Home Economics Correspondence Courses. Also, in some secondary schools where the Home Economics teacher has limited training in the subject, Home Economics classes are enrolled with the Secondary School of Correspondence for their Home Economics courses which are carried on in the school under a supervising teacher. In 1963/64, all pupils taking Home Economics at the Alert Bay Elementary Secondary School were enrolled with the Secondary School of Correspondence because District No. 73 (Alert Bay) had not been able to secure a Home Economics teacher.

The number of public schools with Home Economics departments in operation in the Province is 209. In the Coquitlam School District, one new school—Sir Frederick Banting Junior Secondary—was opened in September, 1963, and a new building with two Home Economics rooms, was opened and operated in conjunction with the Port Coquitlam Secondary School.

The total number of Home Economics rooms in use in the schools was 419, showing an increase of 16 over the total number for last year. The Home Economics departments in the various schools varied in size from one to six rooms, the greatest number of departments having two rooms in operation.

There were 389 teachers of Home Economics employed in the public schools throughout the Province, showing an increase of 19 teachers over the previous year. Of these, 225 held Bachelor of Home Economics or equivalent degrees in Home Economics.

Fully qualified Home Economics teachers are still needed, the demand exceeding the supply.

Through the co-operation of the University of British Columbia and the Department of Education, Summer Session courses were continued for the Home Economics graduates wishing to take teacher-training through Summer Sessions, and for certificated elementary or academic teachers wishing to become qualified to teach Home Economics. For part of each week of Summer Session, either the

Provincial Director of Home Economics or Miss Jean Campbell, Inspector of Home Economics, was on campus for interviews with teachers and prospective teachers of Home Economics.

Foods and Nutrition 9, and Clothing and Textiles 9, which were introduced in Grade IX in September, 1963, were prepared as semester-type courses to provide flexibility in time-tabling. Each of these courses may be taken as an entire course in one year, or Part A of each course may be taken by Grade IX pupils and Part B of each course may be taken by Grade X pupils. Cooking and Food Service 9 for boys was also introduced at the Grade IX level in September, 1963. In September, 1964, the use of the above courses will be extended to the Grade X level.

A Home Economics Curriculum Revision Committee prepared the Child Care 9 course outline, which is to be introduced in September, 1964. This is an elective course for pupils of Grades IX and X.

The third-year level of the occupational programme was introduced in schools where this programme had been offered previously at the first- and second-year levels. A unit on "Food Service" is included in the third-year level of the Secondary School Occupational Programme, 1964 (preliminary edition), to serve as a possible model for development of units related to other occupational areas.

During 1963 and 1964 the Director of Home Economics acted on the Vocational Curriculum Committee as consultant, co-chairman, and chairman for the Vocational Community Services Programme Committee. In 1964, Miss Jean Irvine, Inspector of Home Economics, served as a consultant on the Community Services Programme Committee.

The Advisory Home Economics Equipment List was updated in the fall of 1963, to meet the needs of the new courses of the junior secondary programme and in consideration of current trends in Home Economics teaching methods. Copies were distributed to District Superintendents of Schools, secretaries of School Boards, principals, and teachers of Home Economics in the Province.

In September, 1963, the office of the Division of Home Economics was moved to 516 Michigan Street, Victoria.

The annual conference with the City Supervisors of Home Economics for Vancouver and Victoria, was held in Victoria, in January, 1964.

On invitation, the Director of Home Economics met with and spoke to the Victoria Home Economics teachers, and the fourth-year Home Economics students and teacher trainees at the University of British Columbia. The Director also participated in teachers' conventions at Creston, Surrey, and Fraser Valley East.

Half-day conference-workshops have proven helpful in orienting teachers in the philosophy and objectives of the secondary-school Home Economics programme and in assisting the teachers in organizing and implementing revised and new courses. Conference-workshops were held in the following school districts: Abbotsford, Campbell River, Castlegar, Courtenay, Chilliwack, Kamloops, Kelowna, New Westminster, North Vancouver, Penticton, Salmon Arm, Surrey, and Vernon.

CORRESPONDENCE SCHOOLS

Secondary School Correspondence Branch

REPORT OF J. R. HIND, B.A., B.PÆD., DIRECTOR

The aims and regulations of the Branch are set forth in the booklet Regulations and Detail of Courses, which is released annually in the month of July.

The Branch is committed to instruction by mail of persons in a number of age and other categories who for a variety of reasons cannot obtain normal classroom assistance at a grade level and in a particular subject-field, or are unable to attend day or adult classes as conducted by School Boards.

The scope of the service during 1963/64 is indicated in the following:—

ENROLMENT

(*a*) *By Age.*—Range from 12 to 81 years:—

	1962/63	1963/64
Under 19 years of age	8,971	8,719
19 years and older	8,694	8,555
Totals	17,665	17,274

(*b*) *By Residence.*—" Outside " students lived in such distant places as Pakistan, Okinawa, Spain, South Africa, Chile, and Malaya:—

British Columbia	16,292
Canada, other than British Columbia	789
Outside Canada	193

(*c*) *In Schools.*—Certain pupils were unable to obtain normal classroom instruction in particular courses, as follows:—

Small secondary schools (fewer than 140 students in Grades IX–XII)	1,304
Large secondary schools (more than 140 students in Grades IX–XII)	3,445
Private schools	481
Total	5,230

The reasons accepted as a basis for service to these students and the numbers involved follow:—

Courses not offered in school	3,360
Time-table difficulties	884
Failure in the course	773
Other	213

(*d*) *By Grade.*—Students were included in this grouping when they were enrolled in four or more courses at a grade level, as follows:—

Grade VIII	382
Grade IX	780
Grade X	1,267
Grade XI	1,655
Grade XII	1,765
Grade XIII	642

(*e*) *By Special Arrangement.*—Certain students were exempted from enrolment fees in the value of $53,585. This service is an effort to overcome disparity in educational opportunity and is also a rehabilitation measure. It was extended as follows:—

Illness	478
Needed at home	15
Living too far from a school	493
Correctional institutions	1,020
Social Assistance	214
Unemployed persons	102

(*f*) *Of Adults:*

(i) This group comprised 49.5 per cent of the total enrolment.

(ii) The service included the evaluation of school documents in terms of the University and General Programmes as they apply to adults. Approximately 6,000 such evaluations were prepared.

(iii) Adults in the 70–80 age-grouping frequently enrolled in Art, English, and other courses for personal improvement generally.

Instruction

(*a*) The highly competent instructional staff consisted of an inside staff of two Grade VIII instructors and an outside staff of 93 responsible for one or more courses as offered by the Branch.

(*b*) The outside staff consisted of 62 in the Victoria area and 31 in Vancouver. Included in the outside staff were three instructors responsible for assistance to new Canadians.

(*c*) In 1963/64 209,837 papers were graded and corrected as compared with 203,513 in 1962/63. This represented an increase of 6,324 papers or 3.1 per cent.

(*d*) Course writers attached to staff were available at all times for counsel and assistance to instructors and for adjudication of student-papers as required.

Courses

(*a*) The total number of courses offered was 120.

(*b*) New courses were prepared and introduced as follows: English Literature 8, English Language 8, Social Studies 8, Guidance and Health 8, Mathematics 8, Science 8, Mathematics 9, French I (9), English Language 20, and Latin 20.

(*c*) The work of course writing and revision was shared by four course writers attached to the Branch and certain outside writers working on a temporary basis.

(*d*) A total listing of the courses offered by the Branch and the enrolment in the subject-field follows:—

(i) *Secondary-school Subjects:*

Agriculture I (10), 20, 38, 39	349
Art I (10), 20, 39	493
Auto mechanics 20, 30	743
Bible Literature	7
Biology 91	250
Bookkeeping 34, 91	649
Business Arithmetic 9 (formerly Mathematics 12)	740
Business Fundamentals 24	285
Chemistry 91, 101	289

(i) *Secondary-school Subjects*—Continued

Clothing and Textiles I	709
Diesel Engines 91	12
Economics 92	103
Electricity 20	160
English Literature 8, 9 (10), 20, 30, 40, 100	2,590
English Language 8, 9 (10), 20, Remedial, 30, 40, 101	3,180
English and Citizenship 19, 29	333
English 32	28
English 91	251
English 93 (Business English)	96
English 99 (Short-story Writing)	78
Extramural Music I (11), 21	5
Foods and Nutrition I	371
Forestry 30	165
Frame-house Construction 20	37
French 8, I, 10, 20, 91, 92, 110, 120	877
Geography 91	189
German I (10), 20, 90, 91, 92, 110, 120	608
Guidance and Health 8, 9 (10), 20, 30	683
History 91, 101, 102	552
Home Furnishing 23	46
Homemaking 20, 30, 91	371
Latin I (10), 20, 91, 92, 110, 120	475
Law 93	291
Mathematics 8, 9, 10, 20, 30, 91, 101	3,787
Mechanical Drawing 8, I (10), 20	88
Physics 91, 101	147
Practical Arithmetic 9	397
Radio and Wireless 30	205
Record-keeping I (11)	133
Science 8, 9 (10), 20	920
Secretarial Practice 92	55
Shorthand 21, 31	306
Social Studies 8, 9 (10), 20, 30, 32	1,705
Spanish I (10), 20, 91, 92, 110, 120	303
Typewriting I (10), 20	217

(ii) *Vocational Non-credit Courses:*

Air Navigation I and II	20
Dressmaking	27
Electricity for the Building Trades	126
Glove-making	11
House Painting and Decorating	14
Industrial Mathematics	220
Mathematics for Second-class Stationary Engineering	91
Spherical Trigonometry	9
Steam Engineering, Fourth Class	287
Steam Engineering, Third Class	107
Steam Engineering, Second Class	36
Stationary Engineering, First Class	19
Steam Heating for Plant Operators	68

Elementary Correspondence School

REPORT OF ARTHUR H. PLOWS, B.Ed., DIRECTOR

During the school-year 1963/64, school-aged pupils totalling 925 were registered in Elementary Correspondence School. Of these, 806 were registered at Victoria and 119 at Pouce Coupe in the Peace River District.

The following tables show the active monthly enrolments by grades at each of the two centres:—

ENROLLED AT VICTORIA

Month	Grade I	Grade II	Grade III	Grade IV	Grade V	Grade VI	Grade VII	Total
September	94	81	69	77	79	53	73	526
October	102	83	78	83	84	57	83	569
November	107	87	83	83	86	64	94	604
December	107	86	80	90	87	70	100	620
January	110	86	81	91	87	71	102	628
February	112	83	76	91	82	78	101	623
March	116	82	79	92	83	81	100	633
April	115	81	74	89	90	79	100	628
May	108	78	76	91	85	80	102	620
June	100	83	75	96	85	83	105	627

ENROLLED AT POUCE COUPE (PEACE RIVER BRANCH)

September	8	10	9	12	8	5	4	56
October	10	12	8	14	9	9	5	67
November	12	12	10	15	9	11	7	76
December	12	13	9	15	10	11	10	80
January	20	20	8	20	11	15	13	107
February	20	19	8	20	10	14	12	103
March	19	19	7	19	10	14	12	100
April	20	19	8	19	10	16	11	103
May	20	19	8	19	9	17	11	103
June	20	19	9	18	9	17	11	103

The number of papers of regular pupils marked at the two centres was as follows: Victoria, 113,634; Pouce Coupe, 16,784; total, 130,418.

In addition to above numbers, adult students enrolled in courses Grades III to VII, inclusive, totalled 230, and 7,121 papers were marked.

In all, courses were provided for 1,155 persons, and 137,539 papers were marked.

The average number of papers marked per instructor was 11,003. The average number of papers submitted per pupil was 150, as compared with an average of 133 in 1962/63.

As additional services, kindergarten kits were supplied to 126 pre-school-age children, and instruction kits for teaching illiterate adults were sent in 29 cases.

Authorized under section 20 of the *Public Schools Act*, correspondence instruction classes were established at 16 centres with a total enrolment of 82 pupils.

During the school-year, entirely new courses in Grade III Arithmetic and Language and in Grade I Reading were written. Minor revisions were made in three other courses.

Effective September 1, 1963, the Secondary School Correspondence Branch took over the administration of Grade VIII courses. Two instructors were transferred from Elementary Branch to Secondary Branch in August, 1963.

Since September, 1963, therefore, the Victoria staff of this Branch has consisted of a Director, 11 instructors, and a clerical staff of five; at Pouce Coupe, one instructor and one instructor-clerk.

DIVISION OF SCHOOL BROADCASTS

REPORT OF MARGARET A. MUSSELMAN, B.A., DIRECTOR OF SCHOOL BROADCASTS

Programmes Presented

Radio

Provincial programmes (planned, prepared, production supervised, and results evaluated)	100
Western regional programmes (planned and prepared content, supervised production, and evaluated results)	43
Western regional programmes (analysed scripts and evaluated results)	27
National programmes (gave suggestions and advice in planning, and evaluated results)	49
Total number of radio programmes made available for classroom and home student participation	219

Television

Western regional (British Columbia was responsible for 13 of the 28 telecasts)	28
National (assistance given in advice, in evaluating, and in the distributing of guide material)	83
Total number of telecasts available	111

Manuals and Guides (Prepared and Distributed)

British Columbia Teachers' Bulletins	12,000
Junior music	40,000
Intermediate music	50,800
Ecoutez	15,000
Calling Young Canada (distributed only)	7,000

Demonstration Classes

Classes were conducted during winter and summer courses in Victoria and Vancouver Colleges of Education.

Extent of In-school Participation in British Columbia

(From records incomplete up to August 3, 1964.)

	Number	Per Cent
Number of schools reporting	1,186	84.71
Number of reporting schools using radio broadcasts	760	64.08
Divisions of reporting schools using radio broadcasts	3,434	.....
Students of reporting schools using radio broadcasts	108,648	.....

	Number	Per Cent
Number of reporting schools using television broadcasts	168	14.15
Divisions of reporting schools using television broadcasts	632	.....
Students of reporting schools using television broadcasts	20,122	.....

INCREASE IN USE OF SCHOOL BROADCASTS

(From 1962/63 (August 14) to 1963/64 (August 3).)

	Radio*	Television
Schools using	27	50
Classes using	302	240
Students using	6,016	7,769

* Schools taping radio broadcasts for use at more convenient times have in several known instances not included records of use. This may be one factor in apparent decrease. Another factor is the increase in use of television.

EXTRA ACTIVITY

This office, at the request of the Federal Department of External Affairs, hosted Mr. George Smalling of Jamaica during the months of June and July. The purpose was to allow Mr. Smalling to observe procedures in programme planning and preparation for educational television.

DIVISION OF VISUAL EDUCATION

REPORT OF J. R. POLLOCK, B.A.Sc., DIRECTOR

Submitted herewith is the circulation report of the Division of Visual Education covering the period September 1, 1963, to August 31, 1964.

District Number and Name	Number of Motion Pictures Supplied	Number of Filmstrips Supplied
1. Fernie	197	69
2. Cranbrook	133	102

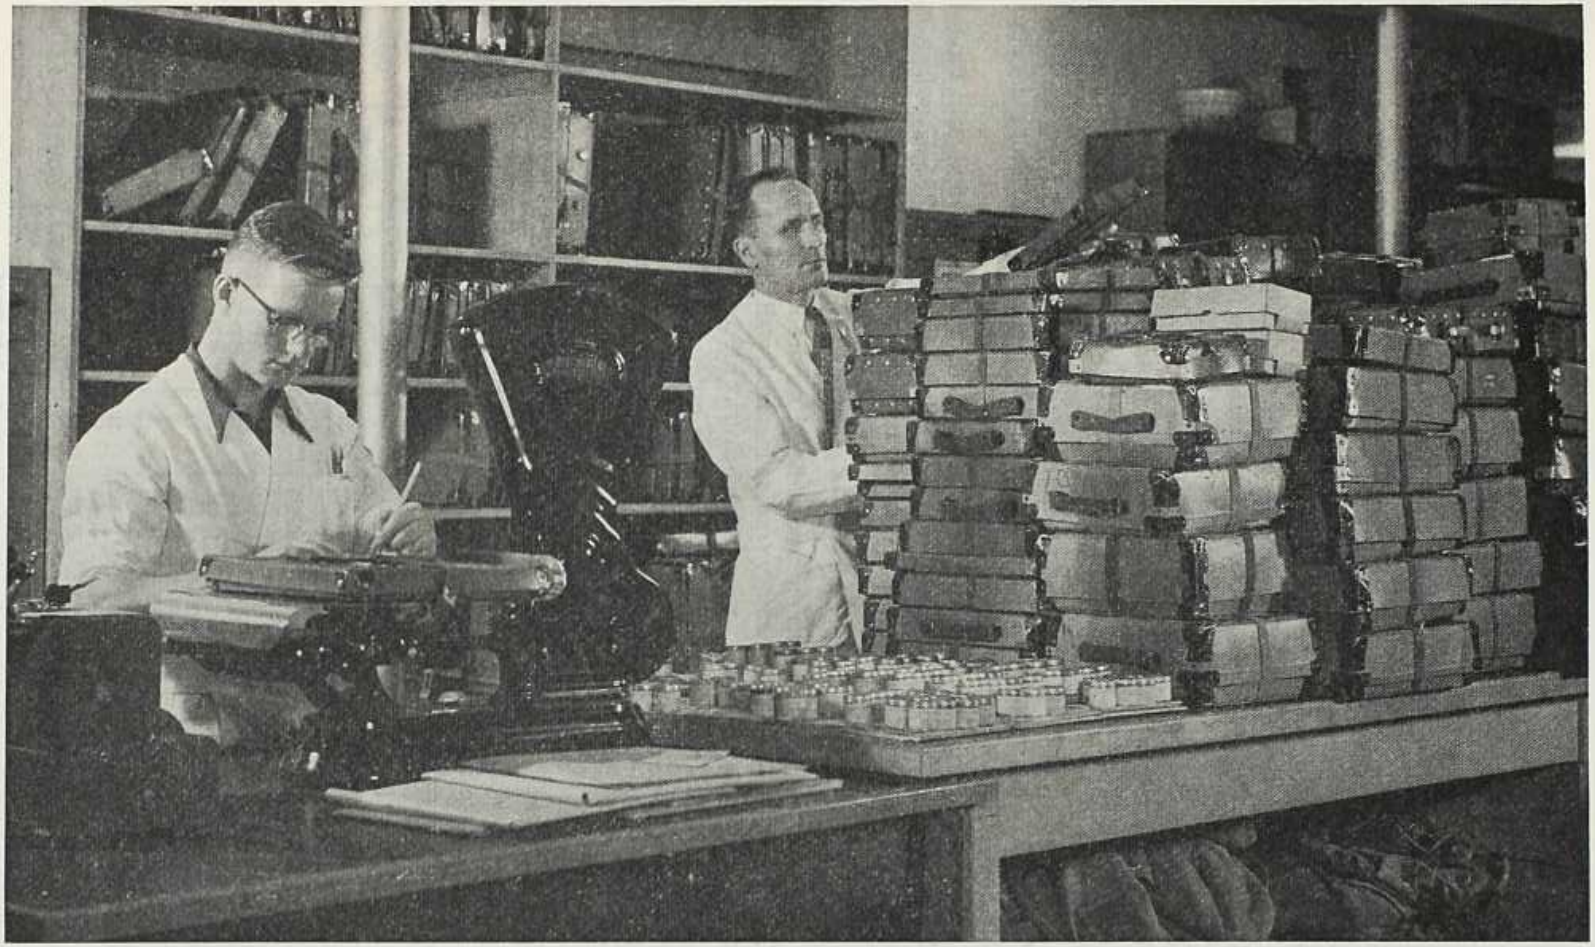
Totals	35,913	34,884

The library contains 3,500 motion pictures and 7,620 filmstrips.

Eleven hundred and eighty-six out of 1,412 public schools in the Province registered for service.



Preparing a shipment of films for schools.

TEXTBOOK BRANCH

REPORT OF BASIL R. WILSON, DIRECTOR

Once again this year the Textbook Branch has had a successful year in that all purchase orders and requisitions for " Free " and " Rental Plan " textbooks received were promptly completed.

During the school-year 1963/64, 4,957 requisitions for free books and supplies required for the use of students enrolled in Grades I to VI in the schools of the Province were received and completed at a total cost to the Free vote of $569,850.25. This is a slight decrease of approximately 2 per cent in the number of requisitions received and the total expenditure for books and materials supplied.

In the same period 22,209 purchase orders were received and completed; the value of these orders being $1,056,500.39.

During the year 2,973 requisitions were received for textbooks to be issued on the Rental Plan in Grades VII through XIII, this being only 14 requisitions less than the number of requisitions received and serviced last year.

Collections for textbook rental fees, books lost or damaged and paid for by students, and remittances covering fire losses amounted to $821,235.32, which is an increase in moneys collected of $34,732.30 or 4.42 per cent.

Refunds of rental fees to students who left the British Columbia school system increased by $1,329.90 or 14.67 per cent to a total of $10,392.35.

The Library Service Division received and serviced 619 purchase orders for 19,717 library books, supplementary reading material, wall maps, and globes. These orders were received from the various school-district offices throughout the Province.

To complete these orders, 1,548 purchase orders were placed with numerous publishing houses throughout Canada and the United States. To carry out this part of the operation, four people are employed on a permanent basis, and are assisted from time to time, as the occasion warrants, by other members of the staff.

Four warehouse men are employed in the shipping room on a permanent basis, and were assisted by a maximum of 24 men during the peak periods.

The total weights and quantities shipped via various general shipping agencies are shown in the following tabulation:—

	Freight		Express		Mail		Cost
	Pieces	Weight (Lb.)	Pieces	Weight (Lb.)	Pieces	Weight (Lb.)	
July	8,209	518,290	5	143	1,088	3,140	472.13
August	14,835	760,270	25	648	1,468	4,037	646.01
September	5,212	247,780	58	1,717	3,873	11,085	1,662.78
October	1,228	55,090	29	523	3,344	9,701	1,455.25
November	468	13,950	29	479	3,997	7,093	1,063.99
December	293	10,860	7	291	1,610	3,662	549.36
January	466	17,750	9	415	2,031	5,553	832.95
February	475	20,100	5	143	3,000	4,679	702.60
March	176	7,930	13	355	1,469	3,447	517.27
April	183	7,390	11	257	2,166	4,310	646.57
May	161	8,040	16	384	3,639	4,706	705.82
June	728	35,120	11	193	3,133	4,153	622.92
Totals	32,434	1,702,570	218	5,548	30,818	69,013	9,877.55

Total pieces, 63,470; total weight, 1,777,131 pounds; total cost of mail, $9,877.55.

Because of the very large numbers of textbooks being loaned to students throughout the schools of the Province, it is inevitable that some of these books may be slightly damaged or may start to come apart for one reason or another. Teachers are encouraged to salvage these books and send them in to be repaired. During the year 1963/64, books to the value of $284,509.68 were recovered at a cost of $124,-375.69. These books were then re-issued to the schools.

Once again I wish to take this opportunity to express my sincere appreciation for the willing co-operation that has been given by each member of the staff, and to express my thanks for the help and consideration that we have all enjoyed from the school authorities throughout the Province.

BALANCE-SHEET, MARCH 31, 1964

Assets

INSPECTION OF SCHOOLS AND SCHOOL SERVICES

REPORT BY E. E. HYNDMAN, B.A., B.PÆD.,
CHIEF INSPECTOR OF SCHOOLS

The 1963/64 school-year provided more than the usual number of incidents, problems, and opportunities. Because this division reports on the work of instruction for nearly 400,000 pupils in public schools and the supervision of 14,650 teachers it can only indicate the general trends and the more significant developments as they have been observed or reported by the District Superintendents.

ORGANIZATION

Fifty-five Provincial District Superintendents and six officers of equivalent rank employed by the Vancouver School Board served in the dual role as field officers of the Department of Education and as educational leaders for their School Boards. The number was increased by two over last year to compensate for the supervision of 800 additional teachers. The three new appointments, including a replacement for Mr. C. E. Clay, who retired, were Mr. A. J. Longmore, Mr. C. A. Bruce, and Mr. D. N. Weicker, who were placed in their superintendencies at Vanderhoof, Revelstoke, and Fort St. John respectively. Transfers of District Superintendents were made with the participation of the School Boards, resulting in the selection of Mr. L. A. Matheson by the Penticton School Board and Mr. W. B. Fromson by the North Vancouver School Board. This procedure, in which the School Boards choose their District Superintendent from the 55 highly qualified and richly experienced candidates, ensures effective leadership at the local level. The fine relationship which exists between District Superintendents and their School Boards is an indication that the procedure should be continued. All the District Superintendents assigned to districts were appointed executive officers by their School Boards in accordance with section 11 of the *Public Schools Act* and received administration allowances.

The headquarters and field staffs were shocked by the sudden deaths of Mr. John G. Kirk, District Superintendent for Chilliwack, in February, and Mr. A. E. Henderson, Inspector of Schools for Vancouver, in March. Both were outstanding educators in this Province and were making contributions that will be greatly missed. Severe illnesses handicapped two other members of the field staff but, fortunately, they returned to regular duties during the year. To meet these emergency situations, Mr. A. Turnbull was recalled from retirement to serve again as a District Superintendent of Schools. Mr. D. N. Weicker, District Superintendent in Fort St. John, was asked to include McBride in his superintendency for several months. Mr. W. J. Logie added the West Coast Unattached Schools to his regular assignment. Temporarily, Mr. Gurney included School District No. 70 (Alberni) in his Qualicum Superintendency and the Chief Inspector was assigned to School District No. 79 (Ucluelet-Tofino) in addition to his regular duties. The Chief Inspector was also assigned to Chilliwack for two months until the School Board made the selection of a replacement for the late Mr. Kirk. Mr. D. G. Chamberlain completed the year in the Chilliwack Superintendency.

IN-SERVICE EDUCATION

Annual Departmental Conference.—This division has been responsible for the organization of the annual conference to integrate the work of the headquarters and

field staffs and to bring understanding of their special problems. The three-day conference held in the S. J. Willis Junior Secondary School in April had one day each assigned to the topics: School Organization, Curriculum, and Special Education. Papers were prepared by Superintendents of Schools, Messrs. Lucas, MacKenzie, Marriott, Grant, McKenzie, Pritchard, and Stibbs; by teaching and supervising personnel, Dr. Wormsbecker and Messrs. Cullen, Welch, Heisler, and Thomas; by University representatives, Drs. Foord and Hartrick and Deans Scarfe and Gilliland. Headquarters members who prepared papers included Dr. English and Messrs. Levirs, Graham, and Meredith. This conference served a very useful purpose in clarifying the developments in public education for those senior officials who are responsible for making the changes effective in the schools throughout the Province.

Arithmetic and Reading Workshops.—In co-operation with the publishers of the Arithmetic Text for Grade IV and the Readers for Grade I, together with the B.C. Teachers' Federation, workshops were arranged throughout the Province in September and June. Mrs. Irene Richmond, consultant and arithmetic specialist, addressed teacher groups in a number of centres to prepare teachers for the new Elementary Arithmetic course which was begun this year. Miss Barbara Sibbald, a reading specialist, spent two weeks in a series of meetings from Northern British Columbia to Vancouver Island and gave an introduction to the new Grade I Reader.

Workshops in Special Education.—The Retarded Children's Association requested assistance in arranging workshops in special education for four areas of the Province. The programme was broadened to include speakers and consultants for the trainable retarded, the educable retarded, and the occupational classes. Workshops in Nanaimo, Kelowna, Prince George, and Trail were given good support and were well received both by those who attended from the public schools as well as those from the Association schools. This first effort to integrate the work of teachers in these three areas was valuable and a credit to Mr. K. Jackson, chairman of the Education Committee, and Dr. D. McGann, consultant of the Retarded Children's Association.

Seminars in Vocational Education.—Changes in terminology, curriculum, or organization place an obligation on the educational leader to make others aware and ensure public understanding of the proposed programmes in the secondary schools. This division was associated with a seminar on vocational education that was organized in Kamloops, where misconceptions had led to the failure of a referendum. The afternoon and evening sessions encouraged attendance of administrators, trustees, teachers, counsellors, and interested parents. The purpose of these seminars to distinguish between the roles of Provincial Vocational Schools and the vocation programmes in secondary schools was achieved.

Zone Conferences of District Superintendents.—Fall and spring meetings of superintendents were held in six areas of the Province. During the past school-year, groups convened in the following centres: Prince Rupert, Prince George, Kamloops, Langley, Courtenay, Nanaimo, Abbotsford, Nelson, Creston, and Salmon Arm. These meetings proved to be effective in providing a liaison between headquarters and district staff. Two meetings were attended by Mr. G. W. Graham, Assistant Superintendent of Education (Administration), and one by Mr. F. P. Levirs, Assistant Superintendent (Instruction). Several professional studies were undertaken by the superintendents through their zone meetings: Teacher recruitment, pupil retention, criteria for organization of junior secondary schools, zone Grade VII examinations, and others. The meetings were invaluable for providing explanations of new developments in education and opportunities for discussions on local problems.

Biennial Conference for Principals.—Under the joint sponsorship of the Department of Education, the Teachers' Federation, the Trustees' Association, and the University of British Columbia, the conference was held on the University campus in the last two weeks in July. Since the theme was " The Organization of Schools," it provided a timely study of the changing curriculum and school organization in this Province. It gave valuable opportunities for almost 80 principals, representing most parts of the Province, to study in depth the new school organizations, their purposes, and their structures. Dr. Walter Hartrick, as director of the conference, gave effective leadership and was able to obtain the assistance of outstanding visiting professors of education. Three members of the Department gave papers: Mr. F. P. Levirs, Assistant Superintendent; Mr. W. J. Mouat, District Superintendent; and Mr. E. E. Hyndman, Chief Inspector of Schools. Mr. K. F. Alexander, District Superintendent for Mission, was secretary, and Messrs. Marriott and Paton were consultants.

Conferences of School Administrators.—Organizations of principals and school administrators have been established under their professional association in a number of areas of the Province. Each year members from headquarters are requested to attend conferences and to give addresses on matters of current interest. This provides a challenging opportunity for the Department to give leadership in professional matters. During the past year this division was associated with the Cariboo-Main Line Conference of School Administrators while other Department officials addressed meetings of the Northern British Columbia Administrators, the Okanagan Administrators, the Metropolitan Administrators and the Kootenay Administrators.

Conferences and Workshops in Physical Education.—An active interest in Physical Education by the College of Education, the School of Physical Education, and the Community Programmes Branch was responsible for several in-service education projects. Professor Lorne Brown of the College of Education convened a Conference on Physical Education and Health on the University of British Columbia campus. This utilized the resources of the University, outstanding teachers, and representation from this division to discuss problems and procedures in Physical Education.

The Community Programmes Branch provided assistance in a workshop organized by the District Superintendent for teachers of the Nelson elementary schools. The use of College of Education instructors and experienced teachers and supervisors of Physical Education gave a stimulating experience to these teachers and was emulated in several other school districts.

Supervision

School District Survey.—A school district evaluation was made and a report was prepared on the total operation in School District No. 27 (Williams Lake) at the request of the Board of School Trustees. A total of seven District Superintendents, the Co-ordinator of School Services, and the Chief Inspector of Schools examined the administrative practices and the instructional procedures throughout the whole district. An evaluation was made of all aspects of local public education and suggestions and recommendations were made to guide the Board, the administrators and teachers in their activities. The report was considered to be valuable by the Williams Lake School Board and its officers. In addition, the format and the criteria used in this team approach have proved to be interesting and useful to other District Superintendents and School Boards.

Evaluation of Teachers for the Department of External Affairs.—For the second year this division has co-operated with the Federal Department by interview-

ing and screening applications for appointment under External Aid. Forty-five candidates were interviewed by a committee which included Lieut.-Col. J. N. Burnett, Superintendent of Schools, Richmond; Mr. S. Evans, Assistant General Secretary, B.C. Teachers' Federation; and the Chief Inspector. The quality of applicant for service in underdeveloped countries was most noteworthy. Many teachers in British Columbia indicated a willingness to serve mankind at personal sacrifice.

Inspection of Teachers in Other than Public Schools.—(*a*) Indian day schools, on the request of the Federal authority, are visited and reported on by the District Superintendents. There is a noteworthy trend toward integration in those areas where public schools are close at hand. However, many of these schools are quite isolated and must continue to operate as separate schools. Following one or more visits to these schools, 89 reports were written during the past school-year by District Superintendents.

(*b*) Supervision of teachers in public institutions is normally the function of the closest District Superintendent. The academic teachers in the Haney Correctional Institute were inspected by the District Superintendent in Haney. The teachers in the Jericho Hill School came under the direct supervision of the Chief Inspector. Academic teachers in H.M.C.S. Naden were inspected by headquarters staff. Reports were prepared for the two academic teachers in the Willingdon School for Girls by the Chief Inspector.

(*c*) Teachers in private schools who sought permanent certificates were visited on request and their suitability for certification was reported to the Registrar. Approximately 20 such inspections were made this year either by the District Superintendent or the Chief Inspector.

Reporting on Teachers in Public Schools.—In the last few years there has been a significant change in the formal reports on teachers both in their purpose as well as in their nature. The written report is a part of the total supervisory programme which includes in-service education, consultation, and a wide range of assistance to the teacher. The report, therefore, is being written to help improve instruction. In essence, it describes "what" exists in the learning situation (the organization, the procedures, the achievement, etc.), "why" it exists, and "how" it may be strengthened. Treatment is more difficult than diagnosis. Usually the report follows several visits and discussions with the district supervisory staff and the principal of the school. The resources of the district are thus integrated to provide assistance. Nevertheless, there has been no change in the responsibility of the District Superintendent for the quality of instruction in his district. In order to ensure that effective assistance is given, he must know where the weaknesses lie and what difficulties exist. There is a limitation to the amount of delegation that may wisely be given to district supervisory staff and school principals.

During the 1963/64 school-year, 3,903 formal reports on teachers were submitted. This represents slightly more than one-quarter of the teachers. While every teacher in her probationary year received a report, relatively few of those on permanent staff did. When it was noted that some districts were having difficulty in maintaining even this proportion of reports, the relieving District Superintendent gave assistance. The appointment of Directors of Instruction, effective on September 1st, will make it possible to provide more reports on teachers in Coquitlam, Burnaby, Abbotsford, Kelowna, and South Peace River.

Significant Developments Reported by District Superintendents

Recruitment of Teachers.—This major concern of the School Boards in many parts of the Province, but particularly in Northern British Columbia, has been reported by the District Superintendent of Schools. The aim of many of these Boards has been to increase the pool of available teachers by drawing graduates into the profession by various inducements. Others sought to attract teachers to their districts by a programme of internship. One School Board, with the co-operation of the Department of Education, sent the District Superintendent to the United Kingdom to recruit teachers. In addition, representatives of these School Boards met with the Department of Education and the Schools of Education for three universities to make known their problems in recruitment.

Integration of Indian Day Schools.—Since the first integration of an Indian day school and a public elementary school in Port Essington in 1947, the process has continued steadily. It is interesting to note that the reports this year indicate that no less than seven districts have extended the integration. These include Lillooet (Mount Currie), Howe Sound (Seton Lake), Ucluelet, Cowichan, Alert Bay, Quatsino, and the Queen Charlotte Islands. The trend of Indian education throughout the Province was expressed in one report: "At present all Indian children in School District No. 74 are being educated in public schools if they are within commuting distance, and only one Indian day school exists."

Curriculum Developments.—In the final analysis the District Superintendents are responsible to both the Department and their School Boards for ensuring that their teachers understand the new programmes and are prepared to carry them out. The extraordinary amount of curriculum change has resulted in unprecedented demands on the local facilities. There have been gratifying illustrations of co-operation by the locals of the teachers' professional organizations, the School Boards, and the local supervisory staffs. The activity of the British Columbia Teachers' Federation in fields of in-service education can only be appreciated by observing their activities over the whole Province in co-operation with their local associations. They have demonstrated a high level of professional responsibility. Equally noteworthy has been the eagerness with which individual School Boards have assisted, both financially and otherwise. This climate of goodwill has encouraged the growth of in-service programmes in most of the 83 school districts. Extensive programmes are noted in the Vancouver, Coquitlam, Prince George, Richmond, and Trail reports. Richmond has organized an in-service programme "for all curriculum courses that are to be revised in 1964/65." The preparation of teachers for the newly established kindergartens in Coquitlam was reported. The Superintendent of Schools for Vancouver emphasized the importance of in-service education for parents and the general public; "the entire community must be made more aware of the changes in secondary education and the advantages to the students if they select their programmes wisely."

Experimentation.—It has been said that the vigour and vitality of a school system will only continue where there is opportunity for growth and experimentation. At no time have there been more formal or informal experimental projects in British Columbia schools. These include evaluating textbooks, trying out time-tables and school organizations, testing teaching procedures, developing new courses, and trying out new equipment. Several districts have been experimenting with continuous promotion for the elementary grades; the late Mr. J. G. Kirk initiated a study which other districts found useful. A few of the experimental projects reported were: Programmed learning in Vancouver; team teaching in Prince George, Castlegar, and Vancouver; television in Kamloops and Langley; the Folkner method in short-

hand in Vancouver; the International Teaching Alphabet in Belmont Park; and language laboratories in Kitimat, Vancouver, and Prince George.

Studies, experimental in nature, are being made by principals in fields of programming and time-tabling for the junior secondary schools. There is much more ingenuity being manifested both to ensure effective use of school time as well as to provide qualifying options in a wide choice of programmes for the new senior secondary school.

There is ample evidence to support the viewpoint that the Provincial outline for school organization, curriculum, and teaching procedures provides room for local ingenuity and experimentation. There is evidence, too, that teachers and administrators have the professional sense of responsibility to ensure the experiment is worth while and is not prejudicial to the children. The Superintendent of Schools for Burnaby reported, " Controlled experimentation and individual teacher initiative will continue to be encouraged as long as such activities contribute to and do not detract from the welfare of the pupils involved."

Conclusion

A noteworthy development in education has been the increasing participation of District Superintendents in Provincial projects. With the consent and support of their School Boards, who recognize that this participation is a means of giving a local influence, the District Superintendents have been appointed to committees in curriculum and administration that are Provincial in nature. District Superintendents are represented on both Elementary and Secondary Curriculum Advisory Committees. They are serving as chairman on the Secondary Vocational Planning Committee, the Commercial Curriculum Committee, the Fine Arts Curriculum Committee, and the Language Arts Curriculum Committee. They filled significant positions on the University Entrance and Senior Matriculation Examination Marking Committees, as Officer in Charge of Administration, chairman and members of adjudication committees, and chairman of marking committees. In addition, they served on a number of *ad hoc* committees which had a Provincial rather than a local purpose.

This development is significant not only because the talents of these experienced educators are being fully utilized but also because the District Superintendents provide a practical and local viewpoint.

Although difficulties and problems have inevitably developed in a few of the many classrooms during the year, nevertheless, there is an excitement and an enthusiasm among teachers that is gratifying. Not only are the new programmes and organizations being readily accepted but the professional challenge to prepare themselves for their duties has led to an unprecedented amount of in-service education. There is good reason for pride and satisfaction in the teachers of this Province.

The zeal with which teachers have accepted their responsibilities has been matched by the School Boards in their eagerness to provide the means for the new programmes. Without exception the reports of the District Superintendents compliment their trustees on their fine accomplishments and dedicated interest in education.

My personal associations during the past year with teachers, principals, trustees, District Superintendents, secretary-treasurers, College of Education personnel in both the University of British Columbia and Victoria University, the administrative staffs of the B.C. Teachers' Federation and the B.C. School Trustees' Association, the Retarded Children's Association, my colleagues of the Department, and the Deputy Minister, have been pleasurable and satisfying. Sincere appreciation is felt for many courtesies and kindnesses, for co-operation and assistance, for encouragement and inspiration.

TEACHER RECRUITMENT

REPORT OF PHILIP J. KITLEY, M.A., CO-ORDINATOR

Future Teachers Clubs

The most obviously productive part of the work of teacher recruitment lies in the activities of Future Teachers Clubs. In general, these are made up of Grade XII or Grade XIII pupils who are interested in exploring the possibility of entering the teaching profession. Ordinarily a school staff member acts as club sponsor, but in a number of cases school principals have undertaken this important work.

Of the 165 senior secondary schools in the Province, 109 had Future Teachers Clubs this year, one more than the year previous. Total club membership was 2,001 at year end, a year's increase of just over 10 per cent. Official club meetings were generally held during the noon hour, average number being about 12. The focus of club activity is usually a programme of classroom visiting. In this, club members observe, question, and sometimes participate in classroom activities. An average of approximately five hours was spent by clubs in classroom visiting, although only just over half the clubs made only one visit.

A valuable feature of this kind of pre-training familiarization is that pupils are enabled to determine more exactly whether or not they should choose teaching as a profession. If a pupil discovers prior to graduation from senior secondary school that he might be better suited in some other occupation, he saves himself and the university both time and money. It is significant that this year about 73 per cent of club members indicated their decision to enter a programme of teacher preparation.

In order to assist Future Teachers Clubs, the Department of Education prepared and distributed to each member a booklet entitled " Teaching in British Columbia." This contained such basic information as general details of the teacher preparation programme, costs and possible financial assistance, as well as notes on qualities desirable in a teacher, the advantages and rewards of teaching, and other details. A club handbook was also made available to club sponsors and officers, giving suggestions for forming and conducting clubs and developing club programmes.

Other materials such as membership cards were also supplied to club members, and a kit of informational and programme material was sent to each club sponsor. During the year three issues of a club newsletter went to all club members. This aims at keeping members up to date and giving programme suggestions. A central Future Teachers Club library was also developed, to provide further resources for club members.

Material prepared for the use of Future Teachers Clubs was further used in promotional work during the year. Many inquiries come from all over the Province as well as from other parts of Canada and the world, concerning opportunities for teaching in British Columbia. In many cases such material as " Teaching in British Columbia " is sent out in reply. This booklet was also supplied in quantity to the University of British Columbia, the University of Victoria, and the British Columbia Teachers' Federation, for use in counselling. In addition, school trustees were for the first time provided with copies. School guidance departments were also supplied with copies. At least 4,000 copies of this booklet were distributed in total.

This Branch participated in the Provincial Future Teachers Conference held at the University of British Columbia, January 24 and 25, and the Co-ordinator helped arrange a programme for club sponsors at that time. He also assisted in the organization of the Greater Victoria Conference held at the University of Victoria on the afternoon of May 4. In addition he attended and addressed an East Kootenay Future Teachers Conference at Cranbrook, May 9. In addition to these, he visited and spoke to 13 individual clubs.

Advisory Committee on Teacher Recruitment

There were three meetings of this committee which includes representatives of the universities, the British Columbia Teachers' Federation, the British Columbia School Trustees Association, and the District Superintendents of Schools. The committee serves as a clearing house for information on recruitment activities and as a source of ideas for further consideration and action.

Survey of Potential Teacher Material

As a result of a brief presented to the Joint Board of Teacher Education by the School Board of School District No. 57, a committee was set up, under the chairmanship of Dean N. V. Scarfe, to study teacher supply. Following a preliminary report, the Co-ordinator of Teacher Recruitment was added to the committee and requested to conduct a survey to discover the Province's potential supply of people with a suitable university degree, who might be interested in teaching. This was done, with the assistance of the Registrar of the Department of Education. A preliminary count revealed 495 persons who were interested in teaching. However, for such varied reasons as lack of continuing interest or incomplete university prerequisites, this number was reduced to 111. The major obstacles to training for respondents proved to be inability to take a full year of university work at one time, inability or unwillingness to move to those parts of the Province most in need of teachers, or lack of necessary finances. The assistance of District Superintendents of Schools was enlisted in obtaining specific and detailed information from respondents, but since little time remained in the school-year, there were still a number of gaps in the survey as the year closed. It was anticipated that further information would have to be obtained before a final report could be given.

Information for University Students

During February and March addresses were given to 22 groups of undergraduates at the University of British Columbia regarding the need for teachers and opportunities in teaching. The Co-ordinator also participated in "Trustee Day" activities, both at the University of British Columbia and the University of Victoria.

For two weeks in the summer, interviews were arranged with students attending the Summer Session, and anxious to have information about teacher-education programmes, certification, and available teaching positions.

Teacher Certification Survey

As had been noted in former years, certification of British Columbia teachers continued to show improvement. The following data are extracted from the complete survey:—

Certificate	Total Number of Active Teachers			
	1961/2	1962/3	1963/4	Average Change (Decrease (−), Increase (+))
PA	1,901	1,863	1,861	−20
PB (SB)	2,701	3,021	3,426	+362
PC (SC)	864	1,018	1,199	+167
EA	1,538	1,729	2,004	+233
EB	4,632	4,794	4,877	+122
EC	929	836	714	−107

Apart from the PA certificate, greater increases can be noted in the higher categories than in the lower ones. In fact the EC category is tending to disappear.

Teacher Supply

A continuous survey was conducted during July and August to ascertain the areas of greatest shortage of teachers. The situation proved particularly critical in 1963, especially in some school districts and in certain specialist areas of teaching.

Teachers' Scholarships

Scholarships were awarded to the following, for outstanding contributions to classroom teaching: T. B. A. Beames, Lake Cowichan Secondary, Lake Cowichan; J. H. House, Balmoral Junior Secondary, North Vancouver; and D. V. Parker, Lansdowne Junior Secondary, Victoria.

Guidance

Two guidance bulletins were issued to counsellors and guidance teachers during the year, and just under 50 separate items of occupational and other guidance material were also sent to schools. In addition, a great many individual questions were dealt with. Visits were made to guidance teachers and counsellors at 11 schools. Assistance was given the Division of School Radio and Television Broadcasts regarding a projected television series dealing with problems of entry into the world of work. Assistance was also given the B.C. Products Bureau of the Vancouver Board of Trade in planning and presenting two "Business-Education" conferences, the aim being mutual exchange of questions and information between school counsellors and representative businessmen interested in the school supply of potential employees. This is a continuing project which may be expected to develop further.

The Co-ordinator was privileged to be able to initiate and conduct a course in group-guidance methods at the University of Victoria during July.

Sundry other meetings and conferences were attended during the year with the general aim of developing an understanding of the implications of the school guidance programme.

TECHNICAL AND VOCATIONAL EDUCATION

REPORT OF J. S. WHITE, DIRECTOR OF TECHNICAL AND VOCATIONAL EDUCATION AND REGIONAL DIRECTOR FOR CANADIAN VOCATIONAL TRAINING.

Adult vocational and technical training, all of which constitutes a huge programme under the joint Federal-Provincial Training Agreement, continues at a rapid and ever-increasing rate across Canada as a whole, and the Province of British Columbia is playing its full part in providing more and more facilities both to meet existing demands and to cater for estimated future needs. In addition to the construction and operating of Provincial regional vocational schools, vocational training facilities are provided at the secondary-school level and plans have either been completed or are in process to provide or expand such facilities in Alberni, Vancouver, North Vancouver, Penticton, Trail, Nanaimo, and Richmond. Other areas are in the early planning phase.

The extension to the British Columbia Vocational School—Nanaimo was opened early in the school-year, and the addition to the Prince George School progressed toward its planned opening in the 1964/65 year, as did the new school at Kelowna, which opened its doors in January, 1964. Construction of the British Columbia Institute of Technology was well in hand, and enrolments reflected considerable interest in this new area of training in British Columbia. The first class commenced in May in the field of Medical Laboratory. Further details of enrolment are provided later in this report.

Finally, an ex-R.C.A.F. site at Dawson Creek was acquired, and plans are under way to transform and develop this into a new vocational school.

Report of Inspectors of Technical Classes

New facilities for teaching Industrial Education classes have been provided in Surrey, Saanich, Delta, McBride, Hope, Ucluelet, Coquitlam, and Vancouver.

During the past year the revised courses for junior secondary schools have been in use for the first time. The courses include Woodwork, Metalwork, Electricity, Power Mechanics, and Graphic Arts. To make these courses effective, our equipment lists had to be brought up to date to include the additional equipment required. Shop plans were redrawn to provide better teaching and working conditions.

In July of 1963, course-writing teams met to plan the new courses for the senior secondary schools, to be ready for use in September, 1965. During July of this year the teams will meet again. It is hoped that the courses can be completed, equipment lists revised, and, if necessary, new shop plans prepared.

Since 1956 our teaching staff has increased by over 200 teachers. The number of Industrial Education teachers required to staff our schools is now 515. Forty-five men were trained this year as Industrial Education teachers. Several will continue training this fall at the University of British Columbia, and the remainder have accepted teaching positions.

Tourist Services Training

Various courses were conducted in relation to this area of training as follows: Waitress Training at Chilliwack, Revelstoke, Courtenay, Vancouver, Penticton, Victoria, Port Alberni, and Duncan; Catering Management at Hope, Kamloops,

Duncan, Nanaimo, Courtenay, Chilliwack, and Vancouver; Bartenders at Victoria; Food Preparation and Menu Planning at Vancouver; Tourist Counsellors Course at Burnaby; and Room Maids at Victoria. Enrolments: Room maids, 12; waitresses, 165.

In several cases, and in spite of certain local requests to conduct some courses, a lack of trainees forced cancellation of the proposed classes.

Supervisory Training

Fundamentals of Management

The Fundamentals of Management is a programme offered to industry and business at the middle management level and is aimed at meeting the needs of the management team.

During the past 12 months the programme has enjoyed the fullest co-operation from private and corporate business and industry, from associations and Government agencies, and from departments at Federal, Provincial, and municipal levels.

The need for training the foreman, the superintendent, the department manager, and other specialized people such as engineers and technicians in the matter of handling people effectively continues to exist. This need is being experienced by management each time the courses of this programme are offered. Because overenrolment for each course occurred during the fall and spring programmes, it was necessary to schedule extra sessions to meet the demand.

The Work Study Course, covering one week of appreciation of this new and vital subject, is now extremely popular in the industry and business groups. It is here that many company engineers and technical people are taking the opportunity of this one-week exposure to the techniques of Work Study. The British Columbia Institute of Technology is offering extended training in its regular curriculum for technicians. Some forecast on this subject would indicate that work study departments will be set up by many large and small businesses throughout the Province during the next five years. Some training is essential at the supervisory-middle management level is the over-all programme is to succeed, and this is being met by the one-week Work Study programme. For information write to the Conference Chairman, Department of Education, 3650 Willingdon Avenue, Burnaby 2, B.C. The following is a summary of attendance:—

	Number of Courses	Attendance
Communications and Human Relations	4	92
Work Study	4	73
Company-operated courses	21	248
Totals	29	413

Small-business Management Training

This new programme, launched during the year, became immediately successful. The response from small businesses throughout the Province indicates the need for help in training in the courses offered—Management Accounting, Record-keeping, Purchasing, Retailing, and Marketing.

To initiate the programme, three-day training seminars were organized in the Lower Mainland-Vancouver Island area, the Kootenay District, and the Prince George area. Attending these sessions were the local representatives of business, including Boards of Trade and service clubs. Also in attendance were the Directors of Adult Education and selected instructors for the individual courses. Following

these orientation and instructor-training programmes, each area commenced to offer courses to small business. The attendance at these was as follows:—

Seminars:	Number Attending
Vancouver	26
Nelson	25
Prince George	29

Courses:	Number of Courses	Attendance
Record-keeping	10	195
Retailing	7	132
Management Accounting	4	47
Marketing	3	48
Totals	24	422

Management Accounting Review

A special one-day seminar was held in Vancouver on June 2nd for review of this material. In attendance were all those who had instructed the course and some new instructors who plan to teach the course in 1964/65.

Forestry Training

This training is held at the Green Timbers School, North Surrey, by the Department of Lands, Forests, and Water Resources, and is assisted financially under the Federal-Provincial training programmes. The courses extend from a three-day course to a two-month course.

Automotive Air Brakes

Thirty-eight candidates successfully gained their certificates in this course.

Court Reporters

This course was held during the first three months of 1964 but was terminated due to a lack of candidates.

Courses Under Development

Requests are received from many sources to establish new courses of training, and it is the duty of the Co-ordinator of Technical and Vocational Training to investigate such requests and needs. The following courses were reviewed with the several interested agencies; for example, Department of Labour, National Employment Service, and Department of Indian Affairs:—

(1) Basic Training for Skill Development in Vancouver, Prince George, Port Alberni, and Penticton.
(2) A Commercial Course in Kamloops.
(3) A Beverage Dispensers Course in Victoria.
(4) A Building Maintenance Course in Burnaby.
(5) A Service Station Attendants Course in Burnaby.
(6) A Draughting Course in Burnaby.
(7) A Diamond Drillers Course in Nanaimo.
(8) Waitress Training Courses in various centres throughout the Province.
(9) A Log Loading Course in Nanaimo.

(10) A Meat Cutting Course in Burnaby.
(11) A Taxi Drivers Course in Vancouver.
(12) A Social Workers' Assistants Course in Vancouver.
(13) A Food Service Supervisors Course in Vancouver.
(14) A Tire Repair Course in Nanaimo.
(15) A Recreational Supervisors Course in Nanaimo.
(16) Expansion of the Power Sewing Course in Vancouver.
(17) A Professional Housekeepers Course in Vancouver.

Of these, a course in Basic Training for Skill Development has been initiated at the British Columbia Vocational School—Prince George, in School District No. 15 (Penticton), School District No. 70 (Port Alberni), and continued at the British Columbia Vocational School—Victoria and the Vancouver Vocational Institute.

Enrolments not recorded by schools elsewhere in this report are shown as follows:—

	Number Enrolled	Number Completed
Basic Training for Skill Development:		
Penticton School District	23	15
Port Alberni School District	17	11
Commercial: Kamloops Business School	42	7
Beverage Dispensers: British Columbia Vocational School —*Victoria*	39	39

The Draughting and Meat Cutting Courses will commence at the British Columbia Vocational School—Burnaby in September, 1964.

In addition, indications are that approval will be sought to operate a Tire Repair Course at the British Columbia Vocational School—Nanaimo.

Further, the following courses are part of a continuing programme, and the involvement of the Co-ordinator is in an advisory capacity: (1) Waitress Training, (2) Room Maid Training, and (3) Power Sewing.

The Social Workers' Assistants Course, Food Service Supervisors Course, Recreational Supervisors Course, Professional Housekeepers Course, and the Taxi Drivers Course are still being investigated, and at the present time there is not enough data available to state positively that these courses will be proposed for acceptance to the responsible authorities.

Division of Vocational Curriculum Development

The work of the Division during 1963/64 was primarily directed toward the development of courses and instructional materials for the regional vocational schools.

Course Outlines

Courses were developed in the following areas: Heavy-duty repair (pre-apprenticeship and apprenticeship training), cook training, parks gardening (pre-apprenticeship and apprenticeship training), timekeeping, auto-body repair trade (pre-apprenticeship and apprenticeship training), travel counsellor's training, plastering, machine-shop training (first draft only), machinery-repair trade (draft only), beauty culture, diamond-drill operators (pre-employment and trade extension), building and service workers, millwright (apprenticeship training), and log-loading and shovel operators.

The Division assisted in the development of vocational programmes for the senior secondary schools in the commercial, industrial, and community services areas.

Examinations and Achievement Record Books

In co-operation with the Apprenticeship Branch, an interprovincial examination was developed for the bricklaying trade for use in all Provinces in Canada. Achievement record booklets were printed for use in 27 different areas, and instructional materials of a wide variety were produced in 16 different areas, some of these being distributed across Canada.

In co-operation with the Tourist Services Consultant, several informational materials were produced; for example, a Quantity Recipe Manual and a Waiter-Waitress Manual.

Publicity Materials

In co-operation with the Vancouver Vocational Institute, a prospectus outlining the programmes was developed, and 12,000 copies were produced. In addition, approximately 7,500 flyers for each of 30 different courses were designed and printed, and a press release kit folder was designed and produced for the British Columbia Institute of Technology.

Publicity materials produced by this Division are distributed to District Superintendents, principals, counsellors, and Industrial Education instructors throughout the Province. In addition, selective distribution is made throughout Canada. The mailing list comprises over 2,000 names.

The booklet "Vocational Schools Announcement," outlining programmes in each regional school, was produced, and 15,000 copies were distributed.

The Division designed and produced programmes for official openings of the following British Columbia Vocational Schools: Nanaimo, Nelson, Prince George, and Kelowna.

The library facilities of the Division continued to grow during the past year. The services have been widely used by persons preparing course outlines, instructors preparing instructional materials, and students of the British Columbia Vocational School—Burnaby.

The Division participated in the development of a booklet depicting outsanding Industrial Education projects. The booklet is distributed to all Superintendents, principals, and Industrial Education persons.

BRITISH COLUMBIA VOCATIONAL SCHOOL—NANAIMO

Student enrolment increased from 546 to 745 during the last school-year. This increase was the result of the addition of Cook Training, Beauty Culture, and Secretarial Courses, as well as a 50-per-cent increase in the number of apprentices going through the school. The percentage ratio of drop-outs increased slightly, from 4.9 to 5.3 per cent. This was caused by the fact that we allowed almost any person who appeared eligible to take the Industrial First Aid and Timekeeping Course. As a result, we found it was necessary to terminate the training of 16 of these people after a short try-out in the course. Drop-outs in Upgrading and Pipeline Welding have not been counted for obvious reasons.

A pilot programme in Shovel Operating and Log Loading was started in May, 1964. It would appear that this course should provide the same service to industry that the other courses at this school are doing.

Placement this year has far exceeded our expectations, as can be seen from the statistical table. The number shown as placed are the actual known placements. There will be others who did not notify the school when they found employment. In this regard it should be pointed out that both business and industry are beginning to appreciate the British Columbia Vocational School—Nanaimo as a source of

Practical nursing, British Columbia Vocational School—Nanaimo.

Commercial, British Columbia Vocational School—Nanaimo.

supply for their requirements in filling vacancies on their staff. In most cases they rely on our judgment to select a person to suit their needs.

The new buildings are now in use and greatly appreciataed by both staff and students. They have provided for a further expansion and an increase in the calibre of our training programme.

Courses in Log Loading, Front End Loading, Tire Repair, and a second General Welding Class are definitely planned for 1964/65. The former two courses are being put on under Programme IV for the logging industry and the longshoremen of British Columbia. The automotive and heavy-duty apprentice programme will be expanded from the 21 classes offered this year to 33 classes in 1964/65.

NOTE.—The placement figures are positive known placements.

BRITISH COLUMBIA VOCATIONAL SCHOOL—KELOWNA

The Honourable W. A. C. Bennett, Premier of British Columbia, officiated at the opening ceremonies for the British Columbia Vocational School—Kelowna on Saturday, June 27, 1964. However, the school had been in operation since September 30, 1963.

The school has a student capacity of approximately 400 day students. The staff consisted of the principal, nine instructors, two clerical staff, a truck-driver, and a storeman. Total student enrolment on opening was 103. Five pre-employment and three pre-apprentice classes commenced training in the new vocational school.

As a result of a number of requests, courses commenced in November in Arc Welding, Oxy-acetylene Welding, and the popular Automotive Refresher Course. Later a third Welding Upgrading Course was added to the night-school programme.

As of June 30th, 287 students have attended day school plus 63 night school, for a grand total of 350 in the first nine months of operations. A few students found that their selected course required skills beyond their capabilities and therefore dropped out or transferred to another more suitable course. However, the great majority of students found vocational training a real challenge to their interests and

abilities. With this training they have something the employer will buy. To the best of our knowledge, every graduate from this school is now employed at his trade, the majority in British Columbia.

Commencing August 31st, pre-apprentice carpentry students will start their training in this school. The equipment has been ordered, and a trained instructor has been engaged. Applications for this type of training, as for other courses, are being received daily.

Surveys for possible new courses are being conducted. The Basic Training for Skill Development Course is now under study. This course is designed to assist those who left the public-school system with less than a Grade X education, the minimum requirement for admission into most vocational courses. Such a course would be beneficial to many who are having difficulty retaining steady employment. After obtaining academic upgrading, they would have the necessary qualification for entrance to vocational institutions.

This school operates a 5½-month Auto Body Repair Course and an 11-month Machinery Repair Course. These are unique in that they are not offered in any of the other British Columbia Vocational Schools. The first class of Auto Body Repair started with 13 applicants, whereas the Machinery Repair had only eight. These numbers are to be expected until the courses become known. For this fall we have received sufficient applicants for full classes, and more applications are being received. Possibly the Machinery Repair is one of the finest courses offered to potential mechanics. This is a basic course in gasoline, diesel, and air-cooled engines, transmissions, running-gear, hydraulics, and 70 hours in both arc and acetylene welding. Following the training period, the graduates may take employment as apprentices in automotive, heavy-duty mechanics, welding, or machinery repair. The course is geared to establish a sound foundation before specialization. Young men under 20 years of age and mechanically inclined are urged to give this course due consideration.

Student Enrolment

	On Opening, Sept. 30, 1963	New Enrolments	Total to June 30, 1964
Day School			
(*a*) Pre-employment:

Totals, day school	103	184	287
Night School			
(*a*) Automotive Refresher	—	—	21
(*b*) Welding (three classes)	—	—	42
Total, night school	—	—	63

Total enrolment of day and night schools to June 30, 1964, 350.

During the year the principal visited, at least once, all secondary schools in the Similkameen, Okanagan, and Mainline areas. In most schools a 20- to 30-minute

talk on vocational training was given to the Grade X–XII group. Vocational information was left at each school. The principal has spoken to several Chambers of Commerce, Rotary Clubs, and similar groups in regard to the vocational-school programme. Numerous organizations, groups, and individuals have toured the school during the day or evening. Several schools have sent bus loads of students to tour and obtain first-hand information.

The equipment and training facilities are modern, extensive, and of superior quality. The best is being provided, and the standard of graduates to date appears to be attaining the qualities which meet the aims of vocational training.

British Columbia Vocational School—Nelson

Delay in construction prevented the opening of this school until January 20, 1964. On that date, however, classes began and operated continuously to the end of the school-year.

Student Enrolment

Enrolment	Number Enrolled	Number Completed	Number Discontinued	Balance Still in Training
Kootenay School of Art	24	16	—	8
Beauty Culture	11	10	1	—
Commercial	13	10	3	—

Pre-apprentice Heavy Duty Mechanics	15	15	—	—
Pre-apprentice Millwright	11	10	1	—
Totals	131	79	10	42

Although there was no possibility of offering night classes during this half-year of operation, the school made itself felt in the community in several ways, including exhibitions of art work, both local and on exchange with other art schools and circuits; by demonstration to welders in the region of advanced welding techniques; by provision of accommodation for Advisory Committee and Selection Committee meetings; by staff participation in meetings called by various organizations to inform the public about the school; and by tours of the school.

British Columbia Vocational School—Prince George

Phase 2 of the school was ready for classes in September, 1963. New courses offered included Commercial (General), Commercial (Secretarial), Practical Nursing, and Millwrighting. The welding class was able to move into its new shop at this time.

In February, 1964, a Basic Training for Skill Development Course was added to the school's programme.

Night-school courses offered in 1963/64 included Lumber Grading (sponsored by the Northern Interior Lumbermen's Association), Third Class Stationary Steam Engineering, Automotive Theory (preparatory to the tradesmen's qualifying examination), Draughting and Blueprint Reading, and Welding (including arc, gas, inert gas procedures, and upgrading).

A considerable expansion of the night-school programme is planned for the coming year. In response to public demand, new courses in commercial subjects, telecommunications, industrial first aid, and other subjects will be established.

Placement of students in employment has been good. Not more than three or four of the school's graduates are unemployed as of June 30, 1964. Most graduates have been placed through the school, the National Employment Service, and the

apprenticeship counsellor. Employer satisfaction is good, and several employers have requested additional students when they are available.

Course Activities

As part of the training programme, some of the classes are able to undertake projects of use and value to the community or the school. Some of the more pertinent of these projects are listed below.

Heavy Equipment Operators.—Several road-building projects for the Department of Highways; clearing and grading of two school grounds; clearing and grading of a parking-lot for the Prince George Regional Hospital (to be completed in the fall of 1964); earth-moving for construction of a Soap Box Derby hill; grading and topsoil-spreading at the Anglican Church; excavation of United Church manse basement, including clearing and grading; and clearing and grading of two playgrounds.

A programme subsidiary to the Heavy Equipment Operator's Course was established in January, 1964. To assist the instructor, two students were accepted as heavy equipment maintenance and repair trainees. Their work was successful, and four more suitable men began training in this programme between April 1st and June 1st.

A short Heavy Equipment Operator's Course, which was offered from April 1st to June 30th, was highly successful, mainly because most of the equipment was available for the period required. Without the service provided by the Maintenance men, the school would not have been able to offer an adequate Operator's course.

No difficulty was experienced in placing the Maintenance men in employment. In fact, some local employers had to be persuaded to allow these men to complete the programme before hiring them.

Automotive Mechanics.—During the year 105 job orders have been issued. These include all types of automotive service, from lubrication and wash jobs to complete mechanical rebuilding. All the vehicles issued to the school have been kept in first-class condition by the Automotive classes.

Heavy Duty Mechanics.—All the engine work necessary on school equipment has been done by Heavy Duty Mechanics classes. Some difficulty has been experienced in finding suitable projects for this class because of the expense involved in idling this type of equipment.

Millwrighting.—This class built a complete sawmill under the direction of its instructor and a representative of the supplier. Additionally, a portable mill, owned by the Provincial Gaol (Prince George), was rebuilt as a training project. Several smaller projects were also done for local firms.

All the shop courses have been able from time to time to provide consultative services to local industry to solve problems that might otherwise have involved them in considerable expense. All classes, both classroom and shop courses, have been able to undertake a limited number of field trips, whilst instructors have also invited local experts to visit classes as guest lecturers, for the mutual benefit of both visitors and students.

Lumber Grading.—Additionally, two classes in Lumber Grading were sponsored and directed by the Northern Interior Lumbermen's Association, and 78 men were trained. About one-half passed the final examination successfully.

The first tradesmen's qualifying examination held in the Interior of the Province was given at this school on April 28th and 29th. Exact figures have not been supplied by the Department of Labour, but over 40 men wrote the examinations at that time. A supplementary examination was held in July, and an additional 31 men wrote that examination. All the night-school students who had completed the

Automotive Theory Course were able to attend one of these examinations. The number of successful candidates is not available at this time.

Principal's Activities

Nine schools were visited during the year, and addresses made to senior classes with the object of recruiting suitable candidates for courses at this school, and addresses made to 14 different service and other groups.

In addition, many local groups toured the school and included most of the local P.-T.A. groups, service clubs, interested parties, and many individuals who wished to see the facilities available. No precise figures can be given on the number of visitors to the school, but a conservative estimate would be over 2,000. This does not include at least 400 people who toured the school during the official opening.

The principal also visited all four of the hospitals presently training practical-nursing students during the year. These are Prince George Regional Hospital; St. Joseph's Hospital, Dawson Creek; G. R. Baker Memorial Hospital, Quesnel; and Cariboo Memorial Hospital, Williams Lake.

For a short time, students were placed at the Vanderhoof Hospital, but this proved to be too small to offer the necessary training, and the students were withdrawn.

Official Opening

The official opening of this school was held on June 17, 1964. The Honourable Ray Williston, Minister of Lands, Forests, and Water Resources, opened the school in the presence of the Honourable Leslie R. Peterson, Minister of Education; the Honourable William Chant, Minister of Public Works; Mr. J. S. White, Director, Technical Branch, Department of Education; and other Departmental and Governmental officials.

Conclusion

Enrolments in all courses have been good, and job placement of graduates has been very satisfactory.

Considerable public interest has been shown in all the courses offered by the school. Some thought has been given to expanding the number of student places available in the Commercial (General) and Heavy Equipment Operator's Courses.

[1] This course commenced April 16, 1963, and terminated September 13, 1963.

[2] This course consisted of two classes, both of them being four weeks in length. The course started January 6, 1964, and terminated February 28, 1964.

[3] Of the 25 students who have withdrawn from the course prior to completion, information we obtained through seeing the students and talking to them indicates that probably most of them obtained employment. It is difficult to state that they obtained employment because of having taken this course.

Day-school Enrolment

Medical Laboratory Technology: Number enrolled May 4, 1964, 36; number withdrawn to June 30, 1964, 2; number enrolled June 30, 1964, 34.

Applications for enrolment in the following technologies are being received and evaluated with a view to acceptance of up to the following maximum number of students by the opening date, September 8, 1964:—

Science Technologies:	
Building	30
Chemical and Metallurgical	30
Civil and Structural	30
Electrical and Electronics—	
Electrical Option	15
Electronics Option	45
Food Processing	20
Forestry	30
Forest Products Utilization	30
Gas and Oil	30
Instrumentation and Control	30
Mechanical	45
Mining	30
Surveying	30
Business Technologies:	
Business Management	120
Broadcast Communications—	
Production Option	18
Technical Option	12
Hotel, Motel and Restaurant Management	30
Medical Radiography Technology (opening date October 5th)	25

Staff recruitment is proceeding satisfactorily, and the new buildings are being equipped for the opening of classes.

COMMUNITY PROGRAMMES BRANCH

J. H. PANTON, M.Sc., DIRECTOR

The unprecedented development and growth of adult education, and the expansion of services to sports and fitness as a result of the *National Fitness and Amateur Sports Act*, confronted the Community Programmes Branch with its major problems of 1963/64.

Although the number of Recreation Commissions did not increase greatly, leadership services and the addition of a Provincial summer school greatly expanded the work of the Branch. The leadership services expanded in all phases of Community Programmes Branch work; this was most apparent during the past year in adult education and sports and fitness.

Growth chart for Recreation Commissions in British Columbia to March 31, 1964, follows:—

1954	86	1960	281
1955	140	1961	307
1956	183	1962	332
1957	216	1963	351
1958	250	1964	359
1959	266		

Services extended by the Community Programmes Branch to British Columbia communities are as follows:—

(1) Advice to public agencies and individuals on recreational matters by a staff of regional recreation consultants.
(2) Fitness and Amateur Sports Division, which provides special service to sports organizations, communities, and schools.
(3) Adult Education Division, which provides grants, consultation, clinics, and conferences to School Board adult education divisions.
(4) Aid in recreation to the blind through White Cane Clubs organized by staff member Mr. Joseph Lewis.
(5) Large and comprehensive library of books, booklets, films, and filmstrips on innumerable recreation topics.
(6) Drama library—materials and advisory services.
(7) Leadership training through workshops, conferences, clinics, regional schools, and a Provincial summer school.
(8) Grants-in-aid to Recreation Commissions on behalf of full-time recreation directors, and to aid with the expenses of public recreation programmes.
(9) Responsible for educational sessions and resource personnel at Annual British Columbia Recreation Conference.
(10) Special grants to those Recreation Commissions who conduct summer swimming and playground programmes.

Recreation Commissions

The following is a list of Recreation Commissions in British Columbia and the annual Provincial Government grant allocated for the year:—

* Commissions receiving grants for directors' salaries.
† Inactive Commissions.

Recreation Commission	Annual Grant
Abbotsford	No grant
Adams Lake	$300.00
Ainsworth	300.00
*Alert Bay	1,080.00
Alexandria	300.00
Alexis Creek	240.00
Argenta-Johnsons Landing	300.00
Armstrong	600.00
Arrowhead-Sidmouth	180.00
Arrow Park West	180.00

During the year 43 Recreation Commissions were inactive or not receiving a grant. A Commission becomes inactive for several reasons, such as inadequate leadership and poor community support. However, in most cases they return to active work with a change in personnel. Inactive Recreation Commissions receive

Community Programmes Branch information and special attention from the field staff.

Information taken from Recreation Commission reports is indicative of the importance attached to recreation in most communities. Because the reports do not include many areas of recreation, such as private agencies, clubs, commercial recreation, and all activities not under the jurisdiction of Recreation Commissions, any figures from the reports are not a true picture of total community recreation. The activities reported numbered 6,591 and 1,016,632 participated. The number of participants includes many who would be in several activities and is not the number of different people.

Although a true picture is difficult to obtain, and there are many discrepancies in reporting, the reports do indicate the interest and importance attached to community recreation programming.

Community grants are based on such factors as size of community, personnel employed, type of programme, activity of the Recreation Commission, and financial contribution by the Recreation Commission.

Staff

There was only one staff change during the year. Mr. D. J. Gillies resigned in March of 1963, and Mr. M. E. Gordon was appointed effective June 1, 1963. Mr. Gordon is a recreation graduate of the University of British Columbia and is located at Nelson to serve the Kootenay region.

In March the Community Programmes Branch consultants were given the responsibility of organizing Centennial Committees throughout the Province. They will be associated with Centennial work on the Community Organizations Committee until 1968; this will greatly increase their work.

The seven members of the field staff have large areas to cover and many communities to serve. Their duties require many week-end meetings, much night work and travel. The growth of Community Programmes Branch services and the additional load of Centennial organization will be a strain on the Branch for the next three years.

In 1963/64 the field staff made 1,388 visits to communities and travelled 67,632 miles. They are effectively discharging ever-increasing duties, which are the consequence of an expanding programme. The Community Programmes Branch staff and their locations are as follows:—

A. L. Cartier, Victoria—Adult Education.
K. K. Maltman, Vancouver—Sports and Fitness.
T. Ruben, Abbotsford—Fraser-Sechelt.
E. W. Mayers, Kamloops—Central British Columbia.
G. J. Pynn, Victoria—Vancouver Island.
D. M. McCooey, Smithers—North-west British Columbia.
J. M. MacKinnon, Kelowna—Okanagan-Similkameen.
R. C. Davis, Quesnel—North-east British Columbia.
M. E. Gordon, Nelson—Kootenays.
Miss A. F. Adamson, Victoria—Drama.

Leadership

The Community Programmes Branch provides its most important service through leadership activities. This has been greatly expanded through the Adult Education and Sports and Fitness offices. The necessity for skilled leaders, both volunteer and paid, cannot be over-emphasized. The Branch has developed a

Provincial system of regional workshops and clinics; there are numerous local clinics and conferences designed to discuss and promote leadership.

A Provincial summer school for recreation leaders was held in Kelowna from July 8th to 13th, inclusive. The school was designed to encourage and promote a better approach to leadership in recreation, and to give community leaders an opportunity to acquaint themselves with new trends, obtain information, and discuss the philosophy and leadership of community recreation.

Recreation leadership training is the most important area of Branch responsibility, and it requires the attention of governments at all levels. The Community Programmes Branch continued to give priority to the development of these services.

Leadership Statistics

(Total cost, $5,437.73.)

Course	Number Attending	Number of Instructors
Community and Its Development	13	3
Sports	23	7
Fitness Programming	13	4
Camping	9	3
Aquatics[1]	—	—

[1] Aquatics Course was held separately from the regular school. Twelve people were assisted financially by the Community Programmes Branch. Course was held in June at Camp Kopje, Okanagan Centre.

Special grants to communities conducting playground programmes and swimming instruction and water safety totalled $6,904. One hundred and six communities received this aid. One hundred and two aquatic and 33 playground programmes were assisted. These grants are provided to encourage community activity in these extremely important aspects of recreation.

The Annual Provincial Recreation Conference is also a major project for the Community Programmes Branch. The Branch is responsible for the educational sessions and the resource personnel. The conference is also part of the B.C.R.A. annual meeting and provides excellent learning opportunity for professional people, Recreation Commission personnel, and municipal councillors with recreation responsibilities. The 1963 conference was held in Courtenay, and was attended by 195 people representing 88 Recreation Commissions and communities.

Library Services

The film library is located in Vancouver and maintained by the Visual Education Division. The book library was kept up to date with 195 new additions.

Library Statistics

New books purchased	195
New films purchased	12
Number of books circulated	526
Number of films circulated	508

Publications

The Community Programmes Branch bulletin, which is published quarterly, has become an important reference source and provides a very good medium of communication with Recreation Commissions. Six hundred copies of each issue are published and distributed to each Recreation Commission, School Superintendents, Adult Education Directors, and a mailing list of over 75.

The Community Programmes Branch guide and brochure were revised in March of 1964.

Provincial Advisory Board

Members of the Provincial Advisory Board on Adult Education and Recreation are as follows: Mr. B. M. Baker, Kelowna (Chairman); Dr. B. E. Wales, Vancouver; Mr. A. T. Alsbury, Vancouver; Mrs. W. Saxton, Ucluelet; Dr. A. W. Mooney, Vanderhoof; Mr. P. F. McIntyre, Victoria; Mr. L. J. Wallace, Victoria; Mr. R. H. Reeve, Victoria (term concluded December 31, 1963); Prof. R. F. Osborne, Vancouver; Mr. E. Whitehead, Vancouver (term concluded December 31, 1963); Dr. J. F. K. English, Victoria.

The Board met twice during the fiscal year—September 17, 1963, and February 14, 1964.

The Board was appointed to act in an advisory capacity to the Department of Education concerning policy and procedure as related to the Community Programmes Branch. The Board meets periodically to hear reports from the Community Programmes Branch, which outlines problems and requirements. The Board then discusses any aspects of the Branch it deems necessary and submits recommendations to the Deputy Minister.

Drama

Drama continues to flourish in British Columbia. The trend in adult clubs is to leave the one-act field and concentrate on three-act plays, with the result that drama festivals in the more populated areas of the Province tend to have fewer entries. However, in the outlying districts where there are more inexperienced groups, the one-act play continues to dominate the picture.

School festivals are on the increase, due in part to the interest inspired by visits of groups such as Holiday Theatre and the Bastion Theatre. Also, more teachers with experience are keen to impart their knowledge and enter festivals for adjudication and competition.

Drama festivals continue to be a stimulus, and this spring 35 were held—12 for participation by schools, 15 for adult entries, and 8, combined with music, drama, and speech arts, were open to all ages and groups.

Major festivals and activities were as follows:—

(1) Provincial One-act Festival at Nanaimo. Won by Vernon Little Theatre. Adjudicator—Mr. G. Peacock, Edmonton.

(2) Dominion Drama Festival Three-act Regional in Vancouver. Won by North Kamloops P.-T.A. Theatre Wing. This group took part in the Canadian finals in Charlottetown.

(3) Provincial tours by Holiday Theatre and the Bastion Theatre in Victoria with programmes for schools, the latter on the Island only. The programmes were a great help to school drama.

The Drama Division of the Community Programmes Branch appoints adjudicators for all drama festivals held in British Columbia. An extensive service for leadership training is supplied through clinics and workshops, which are included in the statistics for this service under leadership. This is an invaluable asset to the promotion of drama in the Province.

The British Columbia Drama Association, under the chairmanship of Mr. W. J. Zoellner, is a parent body to the drama clubs throughout the Province. The Community Programmes Branch works closely with the British Columbia Drama Association in festival and leadership promotion.

The drama library, with its 15,000 books, is in constant use. Groups continue to borrow plays and books on theatre for production and study. Over 8,000 books, pamphlets, magazines, etc., were sent to the schools, teachers, organizations, individuals, etc. This vital service is especially appreciated where there is little money for purchase of necessary books. Stage equipment (curtains, lights, rheostats) is still required by small unequipped schools and halls, although most groups are purchasing the necessary equipment with profits from their productions.

Well over 200 adult and school drama groups produce from one to six plays throughout the year. Many also present to the community an annual concert, pantomine, or other form of entertainment.

A very significant development in British Columbia drama is the increase in drama facilities. Several communities now have their own buildings, such as Vernon, Kelowna, White Rock, and Chilliwack. The growth of community drama will be greatly enhanced through facility development.

The Drama Division of the Branch is closely associated with all drama in the Province, and the library resources are available to both professional and amateur groups.

Adult Education Division (Night Schools)

(A. L. Cartier, M.A.)

In the past five years the enrolment in public-school adult education programmes has doubled from 39,000 to 78,000. The total enrolment increased last year by 11 per cent. This increase is accounted for by a 37-per-cent increase in the number of adults taking academic courses for credit, and by a 23-per-cent increase in the number enrolled in vocational classes. A breakdown of enrolment figures is given below.

Adult Day Schools

The King Edward Adult School in Vancouver has inspired interest and similar initiative across Canada. Here in British Columbia, similar full-time day schools have been established in Kamloops, Penticton, Victoria, and Port Alberni. Plans are under way for similar developments at Terrace, Prince Rupert, and Vernon. These classes are organized to use existing facilities, usually on a second-shift basis. They provide an opportunity for adults to use leisure time to prepare themselves for better future employment or for further education.

Small-business Management Programme

The small-business management programme, a joint project with the Federal Department of Labour, was started in September of 1963 and built up to 41 classes with over 1,000 owner-managers enrolled.

In order to prepare Adult Education Directors to develop the programme locally and to train instructors in appropriate instructional techniques, regional workshops were held in Vancouver, Nelson, and Prince George.

Mr. Cartier, who acts as Provincial supervisor of the small-business programme, attended a two-week workshop for Provincial supervisors in Ottawa in June.

Programme for Indians—Leadership and Community Development

Native Indians are beginning to participate more and more in the regular night-school classes. However, special classes have been organized for them in Duncan and Hazelton. These classes have been in basic education and homemaking.

The Community Programmes Branch has also collaborated with U.B.C. Extension in conducting a series of leadership workshops for Indian Affairs Branch staff and for Indian chiefs and counsellors. Three such workshops have been held this year on Vancouver Island, one at Merritt, and one at Prince Rupert.

During the year an arrangement for a community development project at Port Simpson has been negotiated. The Port Simpson Band, the Federal Indian Affairs Branch, and the British Columbia Department of Education will share equally in the cost of providing a community development consultant for the area for a period of three years. His function will be to help the band members to discover how they can best use all the resources at their command in order to improve their standard of living and thus become self-sufficient.

In-service Training of Directors and Instructors

One and two-day conferences for Adult Education Directors were held at Creston, Nelson, Williams Lake, Nanaimo, and in the Fraser Valley. These conferences have been concerned with developing better administrative practices and improving adult education programmes. A new development this year has been the organization of workshops for instructors in order to train them in good instructional techniques in the teaching of adults. Workshops for instructors were held last year, in Victoria, Vancouver, Penticton, Surrey, Terrace, and Kelowna.

Community Leadership Training

A start has been made in conducting courses or workshops in leadership skills for community leaders, especially in the areas of recreation and voluntary organizations.

A successful week-long leadership training programme formed part of the Community Programmes Branch summer school in Kelowna. Some shorter week-end leadership workshops are planned for the fall in the Cariboo and Peace River areas in conjunction with Community Programmes Branch regional recreation conferences.

Summary Showing Trends in Number of School Districts Participating, Number of Instructors and Classes

Year	Number of School Districts	Number of Enrollees	Number of Instructors	Number of Courses
1953/54	49	19,969	842	.....
1954/55	55	22,280	948	.....
1955/56	57	29,335	1,186	.....
1956/57	60	33,565	1,328	.....
1957/58	62	36,611	1,401	.....

Totals	1,002	880	17,510

NON-VOCATIONAL PROGRAMME

Academic (for credit)	467	477	15,211
English and Citizenship	107	107	2,197
Liberal Studies (non-credit)	255	238	6,445
Fine Arts	253	193	4,129
Domestic Arts	599	417	8,484
Hobbies and Crafts	380	333	5,971
Parent Education	169	146	3,306
Recreation and Fitness	355	294	6,659
Miscellaneous	469	369	8,549
Totals	3,054	2,574	60,951

Total enrolment, 78,461.

The continued growth of adult education, particularly in the vocational and academic fields, is an indication of the growing emphasis which our society is putting upon serious adult education. Through adult education we make better use of our educational facilities, develop the talents of our people, and build a society that passes on to the coming generation a sense of the value of learning.

Amateur Sports and Fitness Division

(K. K. Maltman, B.P.E., Co-ordinator)

Although agreements between the Federal and Provincial Governments were not signed until late in the year, and subsequent problems precluded approval of projects until late in the fiscal year, the Sports and Fitness Office of the Community Programmes Branch was able to provide extensive aid to sports bodies.

The interest of sports people and the number of activities aided throughout the Province through this office indicates a new era of sports and fitness growth in British Columbia.

Communications

A large volume of information sent to sports bodies and Recreation Commissions resulted in a great increase in requests for aid. Twice the volume of mail was handled over the previous year.

Many sports groups used the office for mimeographing; compilation of information; typing of minutes, constitutions, brochures, etc. This has proven to be a greatly appreciated service in British Columbia.

Bursaries and Scholarships

Three thousand five hundred dollars was made available to seven individuals enrolled in physical education and recreation courses at Canadian universities.

Conference

Two hundred and fifty sports and recreation people attended the Second Annual Sports and Fitness Conference in New Westminster. The major accomplishment of the conference was the establishment of a steering committee to work on the formation of a British Columbia Sports Federation.

The total cost of the conference was $3,007.43. This was a Federal-Provincial project.

Physical Education Workshops

Five elementary-school Physical Education Workshops were organized through this office and the School District Superintendents. The statistics are included in the leadership section of this report.

The Physical Education Workshops were conducted by highly qualified Physical Education personnel and met with enthusiastic approval. Miss Wiseman, of the University of British Columbia; Miss Ririe, of the University of Utah; and Mr. E. Mansouri, of Nelson, were the resource personnel.

Research

Aid was given to Dr. S. R. Brown, of the University of British Columbia, to conduct fitness tests on students at Shawnigan Lake School. Compilation of data was not possible until conclusion of tests in May of 1964.

Total cost of research aid was $202.30.

Leadership Clinics and Workshops (Not Including Physical Education Workshops)

Activity	Community	Cost	Participants
Synchronized swimming	Hollyburn Winter Club	$275.00	—
Wrestling	Nelson	70.25	17
Swimming and conditioning	University of British Columbia	76.35	100
Basketball referees	Quesnel Secondary School Gymnasium	34.00	6
Ski school and instructors' training-school	Penticton	80.00	55
Federal-Provincial Project No. 24	Michigan State University	292.14	—
Women's basketball (two lectures, one clinic)	Vancouver	275.00	—
All-native basketball tournament	Prince Rupert	171.00	—
Tennis	Kelowna	83.05	84
Baseball	Cranbrook	105.38	21
Lacrosse	Oliver	61.45	30
Tennis	Cranbrook	114.75	—
Football	Vancouver	77.98	16
Tennis	Quesnel	88.00	50
Gymnastic coaching	University of British Columbia	200.00	—
Wrestling	Vancouver	150.00	—
Basketball referees	University of British Columbia	200.00	52
British Columbia volleyball	Quesnel	123.10	24
Ski-ing	Kimberley-Wells-Prince George	600.00	200
Gymnastics-calisthenics	Richmond	503.50	200

The expansion of service to sports and fitness in British Columbia, through this office, has resulted in greatly increased interest in sports leadership training. As a result, most Provincial sports governing bodies are requesting increased aid for clincs, workshops, schools, clerical and advisory services.

JERICHO HILL SCHOOL

(A Special School for Aurally or Visually Handicapped Children)

REPORT OF C. E. MacDONALD, LL.B., B.S., LL.D., SUPERINTENDENT

The enrolment for the 1963/64 school-year reached a new high, which was distributed as follows:—

	Day	Resident	Total
Blind and partial sighted	45	61	106
Deaf or hard of hearing	103	124	227
Deaf and blind	3	—	3
Totals	151	185	336

Nineteen blind pupils were from the Province of Alberta. Of the total enrolment, 127 pupils were boys and 159 were girls. During the course of the year, 31 pupils graduated, transferred, or left for one reason or another.

General Remarks

School reopened with nine new teachers and three resident instructors. Mrs. Ada McGregor retired as nurse-matron and was succeeded by Miss A. G. Pert. Mr. Eric Cardinall exercised part-time supervision of the resident instructors at the outset and was replaced later in the year by Mr. Glenn Parkinson.

The number of Jericho Hill School graduates attending Gallaudet College was increased this past year by one. Miss Ellen Hughes, of Port Coquitlam, was accepted for full freshman standing, as had been the other three in the preceding year.

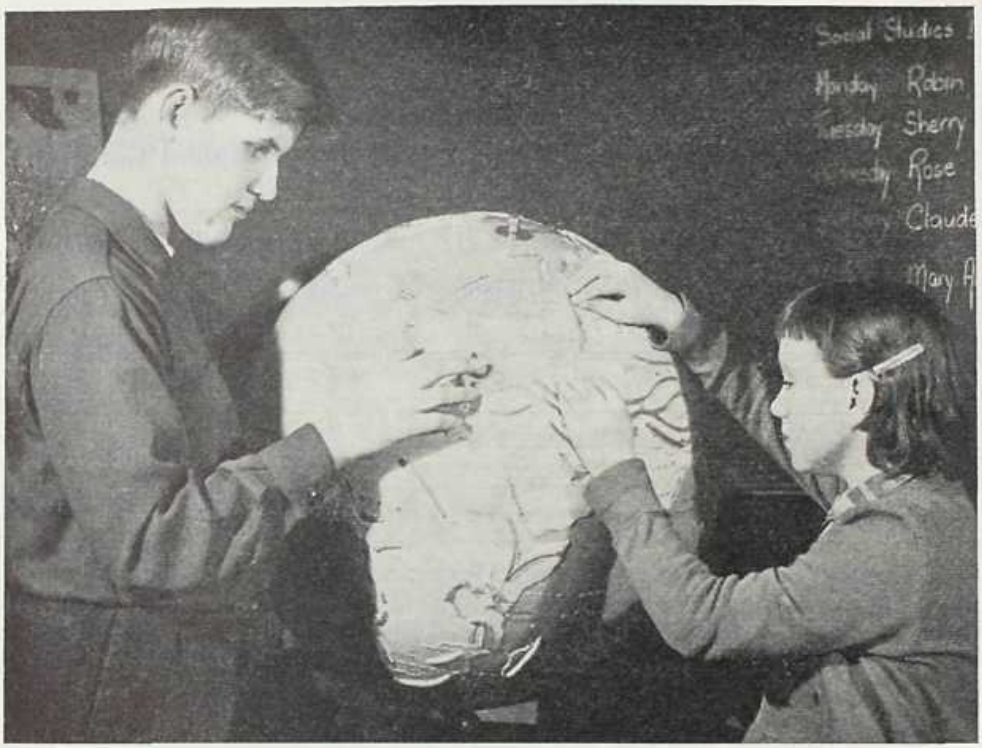
Four seniors from this School and two from regular secondary schools successfully passed the spring Gallaudet College entrance examinations. This brings to 10 the number of British Columbia students who will be attending the college for deaf in Washington, D.C., this fall.

Mr. Theo Thomas, a teacher of the blind in New Zealand, spent four days visiting our school en route home after an 18-month tour of schools for the blind in Europe and this continent. He has since been appointed headmaster of the school for the blind in Auckland.

The need for services of a counsellor for deaf adults and senior pupils received serious consideration and was discussed at length with Mr. Jack White, Director of Technical and Vocational Education. It was decided to continue with the services available through Mr. Clarence Bradbury's rehabilitation department and the British Columbia youth counselling service. If and when the vocational school for handicapped becomes operative, a special counsellor would then be considered.

Concern was expressed by a few staff members of the Canadian National Institute for the Blind with regard to some elementary blind children not in Jericho Hill School who do not have all the books required to keep up with sighted classes in public schools. After due consideration, the following two major decisions were reached with respect to this problem:—

(1) Because of curriculum changes and the importance of learning special braille in Grade X for algebra and chemistry, along with geometry study procedures, students on the Academic Programme should not transfer to sighted schools until completion of Grade X.



Teaching geography to the visually handicapped, Jericho Hill School.

New dormitory, Jericho Hill School.

(2) Where other than senior secondary pupils are attending sighted schools, the Canadian National Institute for the Blind may deal with the blind client as it sees fit, and the School will assist according to its capabilities, as heretofore.

Around the beginning of February, work was commenced on the construction of a 20-classroom Home Economics-Industrial Arts building for the deaf. This unit is to be completed early in 1965.

The new boys' residence was officially opened on February 29th and named Tyler House, after Mrs. Annie B. Tyler, who served the school as supervisor and matron from 1923 until retirement in 1949. In addition to living-in accommodation, there are craft rooms, a recreational room, hobby rooms, a television room, study areas, and a meditation room where personal problems may be resolved in quiet surroundings.

The opening ceremony was not confined entirely to the new residence. Recognition was given to Miss Mabel N. Blake, teacher and vice-principal from 1922 to retirement in 1952. The present building for blind students, previously referred to as the Braille Building, was named Blake Hall.

Tyler House was officially opened by the Honourable W. N. Chant, Minister of Public Works. Special guests included the Honourable Robert A. Bonner, Attorney-General; the Honourable Ralph Loffmark, Minister of Industrial Development, Trade, and Commerce; Dr. William Plenderleith, Chairman of the School Advisory Committee; Col. J. N. Burnett, Superintendent of Richmond School District; Mr. A. E. Webb, Deputy Minister of Public Works; Rev. Francis Bruce, president of Vancouver and District Council of Churches; Dr. C. E. MacDonald, Superintendent of Jericho Hill School; Mr. D. McEwen, president of the P.-T.A. Deaf Department; and Mrs. W. Chilton, president of the P.-T.A. Blind Department.

Early in the spring a 6-foot steel mesh fence was erected 10 feet in from our property-line along Eighth Avenue and along the west boundary of the school grounds. A portion of the south-west corner is on loan to Vancouver Parks Board as a public viewing area.

Amongst our seniors this year, we had seven graduates from the Deaf Department. In addition, there were five " leavers " and five blind and two deaf to be transferred in September to sighted secondary schools or to other schools for the deaf.

At the close of school, our blind pupils' band, under the direction of Mr. Cliff Bryson, was flown to Los Angeles to play at the 49th International Kiwanis Convention. The reception accorded them was tremendous. For our children it was truly a dream come true.

I wish to thank the Department of Education, the Advisory Committee, and staff for splendid support received throughout the school-year.

OFFICE OF REGISTRAR AND DIVISION OF EXAMINATIONS

REPORT OF HARRY M. EVANS, B.A., REGISTRAR

For reference convenience this report includes data covering a number of years.

Teacher Registration and Certification

I. Each teacher employed in the public schools must hold a valid certificate, and this office must establish certification and classification, maintaining an individual record for each person, including teaching service. The following chart shows developments in the past 10 years, and indicates that the number of individual service records to be maintained has increased by over 91 per cent in this period.

1	1953/54	1954/55	1955/56	1956/57	1957/58	1958/59	1959/60	1960/61	1961/62	1962/63	1963/64
2a	7,560	8,223	8,757	9,482	10,119	10,856	11,547	12,148	12,815	13,624	14,470
2b	154	229	176	221	297	332	369	327	254	336	376
2c	444	663	534	725	637	737	691	601	667	809	846
2d	6.2	8.8	6.5	8.3	6.7	7.3	6.4	5.2	5.5	6.3	6.2
3a	965	974	(?)	1,135	1,165	1,270	1,357	1,356	1,503	1,562	1,715
3b	13.6	12.9	(?)	13.0	12.3	12.6	12.5	11.7	12.4	12.2	12.6
4	...	...	287	310	313	348	388	317	385	418	404
5a	1,409	1,637	(?)	1,860	1,802	2,007	2,048	1,957	2,170	2,371	2,561
5b	19.8	21.7	(?)	21.2	19.0	19.8	19.0	16.9	17.9	18.5	18.8

1. School-year.

2a. Teachers employed, as at October, from district nominal rolls. Includes regular staff of Vancouver Vocational Institute, Vancouver School of Art, and up to 1955/56, a portion of Victoria College. Includes supervisors, consultants, relieving teachers, etc.

2b. Numbers with temporary certificates or letters of permission for lack of qualifications, or qualified but over age, included in 2a. A change in age regulations occurred for 1955/56 and continued thereafter.

2c. Increase in teachers employed.

2d. Percentage increase in teachers employed.

3a. Numbers who were teaching as at June 30th in previous school-year, not teaching in November of year shown; that is, drop-outs.

3b. Drop-outs as a percentage of numbers employed in previous year.

4. Numbers who left positions during the school-year shown.

5a. Numbers of teachers needed in September of year shown to staff new positions and replace drop-outs from June previous; that is, teacher demand. This does not include replacements for staff changes during the school-year.

5b. Teacher demand for September as a percentage of numbers employed in previous year.

In 1963/64 there was an increase in the number of temporary certificates or letters of permission issued, reaching its highest point in numbers, but with a percentage of teachers employed less than in some years. Many of these persons so employed had undertaken a year of teacher-training but had not qualified fully for certification. The number of drop-outs rose significantly for this year, as did the numbers of teachers employed.

II. During the period up to the end of 1955/56, teacher-training was carried out in normal schools or in the one-year course for graduates at the University. Enrolments, therefore, in such one-year courses were easy to determine. Since 1956/57 such training has been in the faculties of education of the universities, and enrolment figures are more difficult to relate to completion of a basic teacher-training programme as enrolments cover all years of training. The following charts, however, covering some 14 years, permit of useful comparisons.

	1949/50			1950/51			1951/52			1952/53			1953/54			1954/55			1955/56

References: M.=male; F.=female; T.=total.

1. Teacher-training enrolments, in all years; (a) elementary training, (b) secondary training, (c) total.
2. Enrolled in training programmes likely leading to a certificate at end of year. (This base changed from previous reports.)
3. Listed by training-college at close of year, and teaching considered likely (includes those who may be considered for temporary certificates, but not those who failed the year or failed practice teaching and a limited number of special cases)—*prior to summer session and supplementals.*
4. Number of those listed in 3 who were teaching as at November in school-year following training; (a) numbers with regular certificates, (b) numbers with temporary certificates, (c) total—after summer session and supplementals.
5. Numbers of those listed in 3; (a) not teaching as at November but certificates issued, (b) not teaching and no certificates issued or requested, (c) total not teaching.

NOTE.—The above do not include those taking emergency Industrial Arts and summer-session Home Economics training programme. The discrepancy between the total of 3c and totals of 4c plus 5c arise from the fact that some not included in 3c passed further work to be included in 4c plus 5c.

III. The following table shows the certificate classifications awarded those in the training-college in the year shown who were teaching in November of the year following; that is, actual supply from the training-college. Note that E-C supply dropped from 221 in 1959 to 99 in 1963, whereas E-B and E-A supply rose respectively from 292 and 68 to 357 and 199. Similarly, P-C and P-B supply rose from 58 and 155 to 133 and 256 respectively. (It should be noted that these figures include certificated teachers who may have left teaching to return for further winter-session training in the Faculty of Education in the year shown.)

IV. The following chart shows the certificate classification of those in the training-college in the year shown who were not teaching in November following. E-T and S-T indicate that had the individual taught a letter of permission would have been required. The figures do not include those who would not have received a certificate or been considered for a letter of permission nor those in programmes not normally leading to certification; for example, first-year elementary, various years secondary. Note that the numbers of persons eligible for a certificate who did not enter teaching the September following rose from 201 in 1959 to 539 in 1963, and that in the same period the level of certificate classification of these individuals rose significantly. The figures reflect the decision of trainees to undertake extended training for higher qualifications before commencing teaching, evident in other figures available. The process, temporarily at least, is aggravating numerical supply in terms of demand but fortunately is creating a pool of longer-trained persons who may be expected to enter teaching within the next year or two, thereby increasing numerical supply and quality supply.

V. From the preceding tables can be calculated supply from the training-colleges as a percentage of demand:—

	1953/54	1954/55	1955/56	1956/57	1957/58	1958/59	1959/60	1960/61	1961/62	1962/63	1963/64
1a	668	553	831	960	607	776	1,034	1,242	1,524	1,655	1,733
1b	649	522	816	920	525	605	833	940	1,066	1,082	1,096
2	1,409	1,637	(?)	1,860	1,802	2,007	2,048	1,957	2,170	2,371	2,561
3a	47.4	33.8	(?)	51.6	33.7	38.7	50.5	63.5	70.2	69.8	67.7
3b	46.1	31.9	(?)	49.5	29.1	29.9	40.7	48.0	49.1	45.6	42.8

1a. Numbers in training-college listed in June previous as likely available to teach in September of school-year shown.

1b. Numbers in training-college in June previous actually teaching in October of school-year shown.

2. Numbers needed in September to staff new positions and replace drop-outs from June previous; that is, teacher demand. This does not include further replacements required during the school-year.

3a. Numbers listed in training-college in June as a percentage of demand; that is, 1a as a percentage of 2.

3b Numbers from training-college who taught, as a percentage of demand; that is, 1b as a percentage of 2 —actual training-college supply as a percentage of demand.

VI. The employment of teachers with temporary certificates in 1959/60, as at October 31st, was as follows:—

	Temporary Elementary			Temporary Secondary				
	E-T	E-C	Total	S-T	S-C	S-B	V-C	Total
Elementary schools	127	13	140	9	2	----	----	11
Secondary schools	82	1	83	83	8	2	8	101
Totals	209	14	223	92	10	2	8	112
Vancouver School of Art	8	----	8	----	3	----	----	3
Vancouver Vocational Institute	----	----	----	----	----	----	23	23
Grand totals	217	14	231	92	13	2	31	138
All schools	----	----	----	----	----	----	----	369

Of the 369 persons with temporary certificates (letters of permission) in 1959/60, 335 were in regular public schools. In 1960/61 the total was 327, with 285 in public schools, in 1961/62 the total was 254, with 228 in public schools; in 1962/63 the total was 336, with 312 in public schools; and in 1963/64 the total was 376, with 345 in public schools.

VII. Since 1955 the Department of Education has co-operated with School Boards to obtain teachers from the United Kingdom, and in 1955 to 1960, inclusive, sent an interviewing officer in the early spring to select and recommend individuals for appointments. The procedure changed in 1961, and no interviewing officer proceeded overseas. An extensive file of material is provided to each applicant, with information concerning specific vacancies. Certification and experience are recorded and assistance given to applicants and Boards to assist in appointments. The numbers who have arrived under the immigration plan have been as follows:—

	School-year								
	1955/56	1956/57	1957/58	1958/59	1959/60	1960/61	1961/62	1962/63	1963/64
Elementary	21	30	48	61	33	35	20	19	32
Secondary	41	35	33	30	35	27	9	15	14
Totals	62	65	81	91	68	62	29	34	46

VIII. Teacher-exchange applications proceed through this office. The numbers of applications from British Columbia teachers annually exceed the exchange positions available. Exchanges in recent years were as shown:—

	School-year								
	1955/56	1956/57	1957/58	1958/59	1959/60	1960/61	1961/62	1962/63	1963/64
United Kingdom	22	22	23	26	26	28	23	22	22
Interprovincial	4	4	1	2	2	1	1	—	1
Elsewhere	3	5	1	1	—	1	1	1	—
Totals	29	31	25	29	28	30	25	23	23

IX. Annually several thousand teachers' certificates have been issued to new teachers and to those who have qualified for permanent certification or for higher certification. Evaluations are completed for many teachers from other Provinces or countries who have submitted credentials for this purpose; a goodly number do not arrive. General inquiries are considered from outside teachers, numbering in the thousands. In addition, there are many inquiries from British Columbia teachers for evaluations, certification or experience changes, and assistance in learning of specific requirements or suitable training programmes.

Since 1958 an individual teacher-docket system has been possible, leading to significant improvement in correspondence handling. There is some difficulty in keeping up with significant annual correspondence volume increase.

Division of Examinations

I. There has been a significant increase in examinations over the years. This Division has arranged for the preparation, printing, and distribution of the June University Programme (Grade XI–XII) and for the June and August Grade XIII examinations. Considerable administrative time is involved. It is also responsible for arrangements for marking, tabulating, and releasing results, appeals, and maintenance of records. The following tables give significant data:—

Number of Markers

	1953/54	1954/55	1955/56	1956/57	1957/58	1958/59	1959/60	1960/61	1961/62	1962/63	1963/64

Grade XIII	1,164	1,262	1,537	1,434	1,315	1,352
Totals	5,342	7,247	7,782	7,312	1,315	1,352

Number Completed in August

University Entrance	534	882	993	712	———	———
Grade XIII	132	161	210	172	189	219
Totals	666	1,043	1,203	884	189	219

Total University Entrance and Grade XIII papers for June and August, 1953/54 to 1963/64, were as follows: 1953/54, 27,943; 1954/55, 30,894; 1955/56, 32,255; 1956/57, 35,460; 1957/58, 43,184; 1958/59, 52,862; 1959/60, 62,514; 1960/61, 69,926; 1961/62, 73,891; 1962/63, 72,080; (with University Entrance August examinations discontinued); 1963/64, 80,667.

II. For 1963/64, examinations were prepared for June in 21 University Programme subjects and for June and August in 19 Grade XIII subjects. In June, 1964, 186 regular and 10 special examination centres were established in the Province and 45 outside British Columbia, with the farthest-removed centres being in Germany, Thailand, and Taiwan.

III. There has been a very heavy increase in the number of requests for evaluations of academic standing from those who wish to enrol in British Columbia secondary schools or to take night-school or private-study courses to complete requirements, as well as from those who wish to undertake nurse's training or enter

similar professional courses. A very large number of persons has sought evaluations and permission to follow the Interrupted Programme for Adult Students. These numbers are increasing rapidly every year with expansion in the number of areas offering academic courses through night schools.

IV. *Scholarship Awards, 1964.*—For many years the Department of Education announced, on behalf of the University of British Columbia, the names of winners of the 15 General Proficiency Scholarships for University Entrance awarded jointly by the University and Chris Spencer Foundation. It also announced the winners of the six Royal Institution Scholarships for Grade XIII. In 1964 and following years such announcements are made by the University of British Columbia.

The top-ranking scholarship candidates for 1963/64 on Departmental examinations appear below in academic order:—

Name	School	Per Cent
University Programme		
Edna Irene Shepherd (winner of the Governor-General's Silver Medal)	Alberni District Secondary	95.125
Brian Arthur White (winner of the Governor-General's Bronze Medal)	Victoria Secondary	94.125
Stephen Alan Bigsby	Oak Bay Secondary	94.000
Ronald Ian Clemett	Como Lake Senior Secondary	93.875
Margaret Amare Bowles	Norfolk House	93.375
Felicia Sharon Folk	Eric Hamber Secondary	93.250
Robert Allan Jones	West Vancouver Secondary	92.875
Margaret Maureen Mitchell	Max Cameron Secondary	92.375
Katherine Kennedy Housser	Strathcona Lodge	92.250
Bruce Alexander Hodgson	North Vancouver Senior Secondary	92.000
Kenneth John MacDonald	Oak Bay Secondary	91.875
Margaret Anne Balf	Kamloops Secondary	91.750
Robert Alexander Mitchell	Victoria Secondary	91.625
Robert Martin Frankenburg	Magee Secondary	91.500
Mary Elizabeth Jenkins	Argyle Secondary	91.375
Frank Graham Sommer	Oak Bay Secondary	91.375
Sandra Mary Irvine	J. Lloyd Crowe	91.250
William Garry W. MacPherson	Kitsilano Secondary	91.250
Sharon Elaine Camsusa	Claremont Senior Secondary	91.000
Heather Elizabeth Hudson	West Vancouver Secondary	91.000
Pauline Karen Friedrich	Sir Winston Churchill	90.875
Mary Anne G. Johnson	Sir Charles Tupper Secondary	90.750
Walter Julian MacFarlane	Argyle Secondary	90.625
Dorothy Margaret Mills	Burnaby North Secondary	90.625
Wayne Bruce Adams	Victoria Secondary	90.500
Linda Margery Gravlin	Burnaby Central Secondary	90.500
Janet Louise Hudson	Norfolk House	90.500
Tetsuo Inouye	Vernon Secondary	90.250
Brian Frederick Causey	Britannia Secondary	90.125
Peter Fominoff	W. E. Graham Elementary-Secondary	90.125
Kathleen Brenda Greening	Queen Elizabeth Secondary	90.125
Heather Anne Robertson	Oak Bay Secondary	90.125
Moira Katharine Henderson	North Vancouver Senior Secondary	90.000
Ann Lorraine Taylor	Crofton House (private)	90.000
Billie Ann Palsson	Lake Cowichan Secondary	89.875
John Bateman Anderson	Victoria Secondary	89.750
Donald Leslie Jackson	Argyle Secondary	89.625
Mary Carol Robinson	Como Lake Senior Secondary	89.625
Susan Jane Rowley	Magee Secondary	89.625
John Bruce Wallace	Oak Bay Secondary	89.625
Grade XIII		
Steven Douglas Bridger	Magee Secondary	93.100
Donald William Cockfroft	Magee Secondary	89.300
Richard John Balf	Kamloops Secondary	88.600
Mary Katharine White	Magee Secondary	87.700
Linda Kathleen Loney	Delta Secondary	86.200
Marc Christopher Morris	West Vancouver Senior Secondary	85.900
Ellen Gale Gordon	Magee Secondary	85.600
Bradley Clarence Richardson	North Vancouver Senior Secondary	85.400

Name	School	Per Cent
Grade XIII—Continued		
Peggy Louise Smith	Cowichan Senior Secondary	85.400
Carolyn Joyce Batiuk	J. Lloyd Crowe Senior Secondary	85.300
Gordon Allan Filek	Kamloops Secondary	85.300
Norman Laurie John	King Edward Adult Education Centre	85.300
John Wilfred Scott	Kamloops Secondary	85.000
Collin George Milne	Prince George Secondary	84.400
Kathleen Jennifer Wright	Magee Secondary	84.400
Robert William Harrison	Courtenay Secondary	84.200
Lorna Joy Laitinen	Salmon Arm Secondary	83.900
Tom Ralph Fletcher	King Edward Continuing Education Centre	83.700
Cheryl Dawn McGarrigle	Alberni District Secondary	83.300
John Michael Stranne	J. Lloyd Crowe Secondary	83.300
Douglas William Whitehead	Mount Elizabeth Secondary	83.300

Financial Assistance

I. In 1959, for the first time in British Columbia, the Government entered the field of extensive scholarship awards to secondary-school graduates, Grade XIII students, and to students of the University of British Columbia and Victoria College. To qualify to receive an award in 1964, candidates must be domiciled in the Province, are required to apply, and must undertake a full-year winter-session undergraduate programme at the University of British Columbia or University of Victoria or in Grade XIII in public secondary schools of the Province, or approved full-year winter-session undergraduate programme at the Notre Dame University of Nelson. Selection of winners is made on the basis of the final examinations of Grade XII or Grade XIII or of the Universities of British Columbia or Victoria or Notre Dame. There are two awards—first class, for all students who obtain an average of 80 per cent or higher based on a full year's programme, and second class, available for up to 2,500 top-ranking students with high second-class standing. The second-class awards are divided among GradeXII (University Programme), Grade XIII, Universities of British Columbia, Victoria, Notre Dame undergraduate students, and among the various faculties and groups roughly proportionate to enrolment. First-class awards amount to one-half the tuition fee of the next year of undergraduate study, and second-class awards similarily to one-third the tuition fee. An average of at least 70 per cent, subject to minimum adjustment for certain groups, is required for a second-class award. Awards vary in amount, depending on the institution and faculty attended.

The plan commenced with those writing examinations at the end of 1958/59, with awards being made to those who would undertake training in 1959/60, and has continued similarly annually with an increase in 1963 from 2,000 to 2,500 for second-class awards and with broader provision made this year for awards for study to be taken at Notre Dame University.

Candidates writing University Programme or Grade XIII examinations apply through the Division of Examinations, and university students through their respective Universities. All application are then considered by the Scholarship Selection Committee, representative of the Universities of British Columbia and of Victoria, and the Department of Education, chaired by the Registrar. Notification to all candidates is made from the Registrar's office, with cheques issued through the Departmental Comptroller.

Figures covering Government of British Columbia scholarships follow, based on applications received:—

Examination Year	Original Applications				Final Awards			
	Number Received	Eligible	First Class	Second Class	Total	First Class	Second Class	Amount
1958/59	2,703	1,860	552	1,308	1,782	531	1,251	$229,175.16

First class (80 to 100 per cent)	26	37	33	37	51	54
Second class (70 to 79.9 per cent)	104	133	169	213	173	186
Ineligible	100	170	271	279	261	297
Total applications	230	340	473	529	485	537

To assist local school authorities, complete tabulations showing schools concerned and final academic averages obtained by all Provincial Grade XII and Grade XIII scholarship candidates were provided to the District Superintendents of Schools. In 1964, using I.B.M. tabulations, listed were distributed showing all scholarship candidates in the school district, arranged by schools. Successful candidates were arranged in academic rank and non-successful candidates alphabetically.

II. The Provincial Government, with some assistance from the Federal Government, annually provides Government bursaries to assist students to undertake further training. An average of 65 per cent is required, together with evidence of financial need. Assessment is based on the last academic studies undertaken. Awards vary from $50 to $300, depending on academic standing and need, with most awards in the range $100 to $150. These awards may be made available to those undertaking undergraduate university studies within the Province (Universities of British Columbia, Victoria, and Notre Dame), recognized nurse's training in the Province, and for recognized university study outside British Columbia in undergraduate courses of training not available in this Province; for example, veterinary science.

All bursary applications proceed through the Registrar's office, and Bursary Selection Committees, representative of the universities and chaired by the Registrar, determine awards. Notification to all candidates is made from this office, with cheques issued through the Departmental Comptroller.

Figures covering Government bursaries follow, based on applications received by the deadline. A relatively large number of applications cannot be considered because of late submission.

Year	Original Applications		Final Awards	
	Number Received	Eligible	Number	Amount
1959	821	693	653	$82,650
1960	1,071	904	865	113,465
1961	1,395	1,171	1,125	133,145
1962	1,426	1,199	1,168	140,285
1963	1,886	1,619	1,574	152,680
1964	2,411	1,966	——	——

III. In 1959 a significant change was made in respect of loan assistance. By amendment to the *British Columbia University Act,* authority was given for establishment of the Student Aid Loan Fund of up to $2,000,000. A joint committee, composed of two representatives of the University and two representatives of the Department of Education (at present the Registrar and the Departmental Comptroller), authorizes loans. The Department of Education no longer provides loans. Loan assistance may be provided to undertake undergraduate training at the University of British Columbia, University of Victoria, the Vancouver School of Art, or recognized university undergraduate training outside the Province when such training is not available in British Columbia. Loan awards have been as follows:—

For Year	Number of Awards	Amount
1959/60	843	$397,570
1960/61	842	435,130
1961/62	875	475,186
1962/63	694	389,378
1963/64	844	457,239
Totals	4,098	$2,154,503

Strathcona Trust

For many years the Province has participated in the Strathcona Trust. An annual grant has been received, in recent years approximating $1,600, with the moneys to be utilized to encourage physical fitness in the schools and cadet-training and rifle shooting. Cadet awards have been made to the four leading corps for proficiency, to the National Cadet Camp, to the annual Cadet Trades Training Camp at Vernon, for cadet rifle-shooting competition, and to British Columbia cadets attending Bisley.

Physical Education Shield awards have been provided for each district superintendency, with four in Vancouver and two in Victoria, for presentation to the schools showing the greatest proficiency or the most significant improvement. These awards were discontinued at the end of 1959/60, with the shield to be retained by the winning school and utilized for internal competition within the school.

To recognize and encourage physical education, Strathcona Trust bursaries have been provided in recent years to teachers wishing to undertake further undergraduate course work in physical education. These bursaries recently have been $125 in value. Five awards were made on 1958/59 standings, five on 1959/60, six on 1960/61, five on 1961/62, five on 1962/63, and five on 1963/64.

The Local Committee, Strathcona Trust for British Columbia, administers the moneys received, and consists of military representatives and representatives of the Department of Education. The Registrar has continued as Secretary, Local Com-

mittee, for some years and is British Columbia representative on the Executive Council, Strathcona Trust Fund.

Certification of Professional Librarians

New regulations for the certification of professional librarians became effective in November, 1954. The Registrar acts as Secretary, Board of Examiners for Certification of Professional Librarians, maintains records, and issues certificates authorized. Since new regulations were introduced, the numbers of certificates issued were as follows: 1955, 57; 1956, 62; 1957, 16; 1958, 18; 1959, 10; 1960, 17; 1961, 10; 1962, 40; 1963, 7.

EDUCATION OF SOLDIERS' DEPENDENT CHILDREN ACT

REPORT OF MRS. FREDA KINSMAN, SECRETARY TO THE COMMISSION

During the school-year 1963/64 a total of 389 applications was considered by the Commission. Of these, 53 were turned down, the chief reason being that family income was higher than that set by the Commission for grant purposes. Three hundred and thirty-six applications were approved for grants, an increase of 93 over the previous year.

Students were distributed by grades as follows: Grade IX, 89; Grade X, 87; Grade XI, 98; Grade XII, 56; Occupational II and III, 6. During the year 15 students dropped out and grants were discontinued.

The students in the greatest financial need received $80 for the year; the balance received $70.
