DEPARTMENT OF EDUCATION

OF THE PROVINCE OF BRITISH COLUMBIA

One Hundred and Second Annual Report

JULY 1, 1972, TO JUNE 30, 1973

By the Honourable the Minister of Education

Printed by K. M. MacDonald, Printer to the Queen's Most Excellent Majesty
in right of the Province of British Columbia.
1973

To the Honourable WALTER S. OWEN, Q.C., LL.D.,
Lieutenant-Governor of the Province of British Columbia.

MAY IT PLEASE YOUR HONOUR:

I beg respectfully to present the One Hundred and Second Report of the Department of Education.

EILEEN E. DAILLY
Minister of Education

PERSONNEL, JUNE 30, 1973

Minister of Education:
THE HONOURABLE EILEEN E. DAILLY

Executive Assistant:
MRS. H. M. FREEZE

Deputy Minister of Education:
J. PHILLIPSON, B.A., B.ED.

Superintendents of Educational Services:

Administrative Services:
J. L. CANTY, B.A., M.ED.

Instructional Services:
J. R. MEREDITH, B.A., M.ED.

Field Services:
W. D. REID, B.A., M.ED.

Post-secondary Education:
A. E. SOLES, B.A., M.ED.

Financial Services:
J. R. FLEMING, B.A.

Special Services:
J. WALSH, B.SC., M.ED.

Administrative Services:

Senior Administrative Officer: F. J. KEOGH, DIP.SCH.ADMIN.
Assistant, School Board Affairs: R. S. PRICE, B.A., B.COM.
Director of School Planning: F. B. SIMPSON, M.R.A.I.C., A.R.I.B.A.
Assistant, School Construction: H. R. JORDAN.
Personnel Officer: J. A. HOLMES.

Field Services:

Director of Home Economics: MISS J. R. IRVINE, B.SC.
Inspectors of Home Economics: MISS J. CAMPBELL, B.SC., M.A., DIP.ED., MRS. H. KRUEGER, B.SC.
Director, Vocational and Industrial Education: J. JUPP.
Inspectors of Technical Classes: M. J. C. TIDMARSH, R. C. SMITH.

Financial Services:

Assistant Comptroller of Expenditure: I. VALEN, C.G.A.
Senior Audit Accountant: G. GAMBLE, R.I.A.

Instructional Services:

Director of Audio-Visual Services: B. A. BLACK.
Director of Curriculum Development: W. B. NAYLOR, B.A.
Assistant Director of Curriculum: W. D. OLIVER, B.A.
Director of Curriculum Resources: D. W. C. HUGGINS, C.G.A.
Registrar and Director of Examinations and Teacher Certification: E. A. KILLOUGH, B.ED., M.A.
Assistant Director, Teacher Certification: E. D. CHERRINGTON, B.A.
Assistant Director, Examinations: H. C. D. CHALMERS, B.SC., PH.C.
Director of Research and Standards: C. B. CONWAY, B.SC., M.S., D.PÆD.
Research Officer: R. C. MAY, B.A., M.SC.
Librarian: MRS. A. ARMSTRONG, B.A.

Post-secondary Education:

Director of Academic Programmes: J. F. NEWBERRY, B.ED., M.ED., PH.D.
Director, Planning and Research: D. S. MCLELLAND, M.R.A.I.C.
Director, Finance and Administration: R. A. MUNRO, B.COM., C.A.

Technical-Vocational:

Assistant Superintendent: V. E. RICKARD, B.ED.
Co-ordinator of Adult Technical and Vocational Training: D. G. ANSTEY.
Supervisor, Adult Technical and Vocational Education: P. C. MACGREGOR.
Director, Division of Technical and Vocational Curriculum: D. N. FRANKLIN.

Special Services:

Director of Correspondence Education: J. R. HIND, B.A., B.PÆD.
Co-ordinator of Guidance Programmes: P. J. KITLEY, B.A., M.A.
Public Relations Administrative Officer: S. R. HALTON, B.A.

District Superintendents of Schools:

K. F. ALEXANDER, B.SC., B.ED., Mission City.
N. A. ALLEN, B.A., West Vancouver.
W. W. BALDRY, B.A., M.ED., Kitimat.
J. E. BEECH, B.A., B.ED., White Rock.
G. C. BISSELL, B.A., B.ED., Castlegar.
R. S. BOYLE, B.A., B.ED., Qualicum Beach.
C. A. BRUCE, B.A., B.ED., Kamloops.
J. J. BURDIKIN, B.A., M.ED., A.C.E., Smithers.
A. D. CAMPBELL, B.A., B.ED., Vanderhoof.
D. H. CAMPBELL, B.A., B.ED., Oliver.
R. B. COX, B.A., Courtenay.
H. E. CULLIS, B.SC., M.A., Squamish.
C. CUTHBERT, B.ACC., B.ED., M.ED., Langley.
D. E. A. ELDRED, B.ED., M.ED., Grand Forks.
J. M. EVANS, B.A., M.ED., Surrey.
D. L. FEIR, B.A., M.A., Quesnel.
H. C. FERGUSON, B.A., Powell River.
R. E. FLOWER, B.A., B.ED., Williams Lake.
W. B. FROMSON, B.A., B.ED., North Vancouver.
S. J. GRAHAM, B.A., New Westminster.
P. C. GRANT, B.A., B.ED., Vernon.
R. R. HANNA, B.A., B.ED., Sechelt.
D. L. HARTWIG, B.A., Fernie.
W. L. B. HAWKER, B.A., B.ED., Maple Ridge.
C. HOLOB, B.S.A., M.ED., Richmond.
C. HOPPER, B.ED., M.ED., Hope.
R. W. HUESTIS, B.COM., B.ED., Port Hardy.
W. B. JOHSTON, B.ED., M.ED., Trail.
E. E. LEWIS, B.A., B.PÆD., Sidney.
A. J. LONGMORE, B.A., B.ED., M.ED., Victoria.
R. F. LUCAS, B.A., B.ED., M.ED., Prince Rupert.
W. E. LUCAS, B.A., B.PÆD., North Vancouver.
R. G. LYON, B.ED., M.ED., Port Alberni.
J. T. MCBURNEY, B.COM., M.ED., Fort Nelson.
D. E. MCFEE, B. A., M.A., Merritt.
A. P. MCKAY, B.COM., M.ED., Revelstoke.
C. S. MCKENZIE, B.A., Delta.
D. H. MACKIRDY, D.F.C., B.A., B.Ed., M.ED., Duncan.
P. G. MCLOUGHLIN, B.A., DIP.ED., B.ED., Fort St. John.
J. I. MACDOUGALL, B.A., M.A., M.ED., D.PÆD., Chilliwack.
E. A. MAGLIO, B.COM., B.ED., Dawson Creek.
F. T. MIDDLETON, B.A., B.ED., Creston.
W. J. MOUAT, B.A., M.ED., Abbotsford.
G. H. NELSON, B.A., B.ED., Penticton.
F. J. ORME, B.A., B.PÆD., Kelowna.
G. M. PATON, B.A., B.ED., M.ED., Coquitlam.
P. B. PULLINGER, B.A., B.ED., Sooke.
W. F. RAMSAY, B.A., B.ED., Relieving District Superintendent, Victoria.
C. T. RENDLE, B.A., Burnaby.
A. C. RUTLEDGE, B.ED., M.ED., Kimberley.
H. SAYERS, M.A., M.ED., Cranbrook.
D. R. SMYTH, B.P.E., M.ED., Terrace.
E. C. STEWART, B.A., B.ED., Lake Cowichan.
C. I. TAYLOR, B.A., B.ED., Campbell River.
M. V. THORSELL, B.A., M.ED., Jericho Hill Schools.
D. P. TODD, B.A., B.ED., Prince George.
D. N. WEICKER, B.A., B.ED., M.ED., Nanaimo.
C. C. WRIGHT, B.A., Salmon Arm.
W. J. ZOELLNER, B.A., B.ED., Nelson.

STATISTICAL TABLES:

See page 47 for details.

Report of the Deputy Minister of Education

The 1972/73 school-year, which ended on June 30, was a significant one for education in British Columbia in so far as many changes were made and many innovative policies given fresh impetus. Most were designed with a view to improving and broadening learning situations through curriculum developments and practices, and through the provision of more financial support to school districts. Most are mentioned and many described in other sections of this Report.

Among specific amendments to the *Public Schools Act* passed at Legislature sessions in the fall of 1972 and the spring of 1973 were:

The referendum requirement for school boards whose budgets exceeded 110 per cent of the previous year's was eliminated.

The number of pupils constituting an elementary-school instructional unit was reduced from 30 to 25.

Free collective bargaining between teachers and school boards was established.

Provision of kindergartens by all school districts by September 1975 was made mandatory, with deferment after September 1973 only with ministerial approval. Attendance was not made compulsory.

Local appointment of District Superintendents of Schools was authorized for districts having a minimum of 20,000 pupils.

School boards were authorized to enter into agreements with municipalities or regional districts to build, maintain, or operate joint facilities for community use.

School boards were authorized to allow school buses to be used for pupils' field trips or to rent them to recreation commissions, parks boards, or similar bodies for use outside school-hours.

The Provincial Government was empowered to pay 100 per cent of the capital costs of approved college facilities.

Among changes effected in the Public Schools Act Regulations were the abolition of corporal punishment, an increase in the amount of sharable boarding allowances, and increased allowances for classes in remote areas.

Education Commission

During the Spring 1973 Session of the Legislature the Minister of Education announced that she would establish an Education Commission to examine the education system on a continuing basis, involve the public in the examination and, in time, make recommendations to the Government for changes. The position was filled by John Bremer, who began to function as Commission of Education later in the spring.

National Involvement

There has been a marked increase in the involvement of Department personnel with respect to national activities. Representation on various committees of the Council of Ministers of Education of Canada has been strengthened, with the result that the Department is participating in matters involving the total Canadian educational scene. The same applies to meetings of the Secretary of State and Canada Manpower.

Communications

A publication *Open Line* was initiated as a means of communication between the Department and others involved in education. It was well received by trustees and teachers and is planned to continue publication in order to fill the communications needs of the Department. Also, as a means of informing the public of educational trends, the permanent exhibit in the British Columbia Pavilion in the Pacific National Exhibition grounds was rebuilt.

Research

Support was given to a number of "action research" projects to enable teachers to develop ideas which will assist with instruction at the classroom level. Significant financial support was given to the Educational Research Institute of British Columbia, Project Canada West, and the Laboratory fof Educational Advancement, Research, and Needs.

Teaching of French

An increased effort was placed on the teaching of French with emphasis on its conversational aspect. Significant amounts of money were allocated to school districts, through agreement with Canada, to purchase audio-visual materials, to promote workshops, and in various ways to assist teachers. An exchange of 25 teachers of French in British Columbia with 25 teachers of English in Quebec was carried out in co-operation with the Quebec Ministry of Education. This was considered to be a successful programme worthy of continuation.

Enrolment Trends

It is of interest to note that the Kindergarten to Grade XII enrolment increased by 2,583—the smallest increase in more than 30 years.

Elementary (K–VII) enrolment dropped for the second consecutive year. The decrease of 1,585 pupils would have been even greater if kindergarten enrolment had not increased by 2,560. Grades I to VII enrolment actually declined by 4,145 pupils, thus reflecting the decrease in the number of births which began in 1961.

Secondary (VIII–XII) enrolment increased by 2.1 per cent or 4,168 pupils over the previous year.

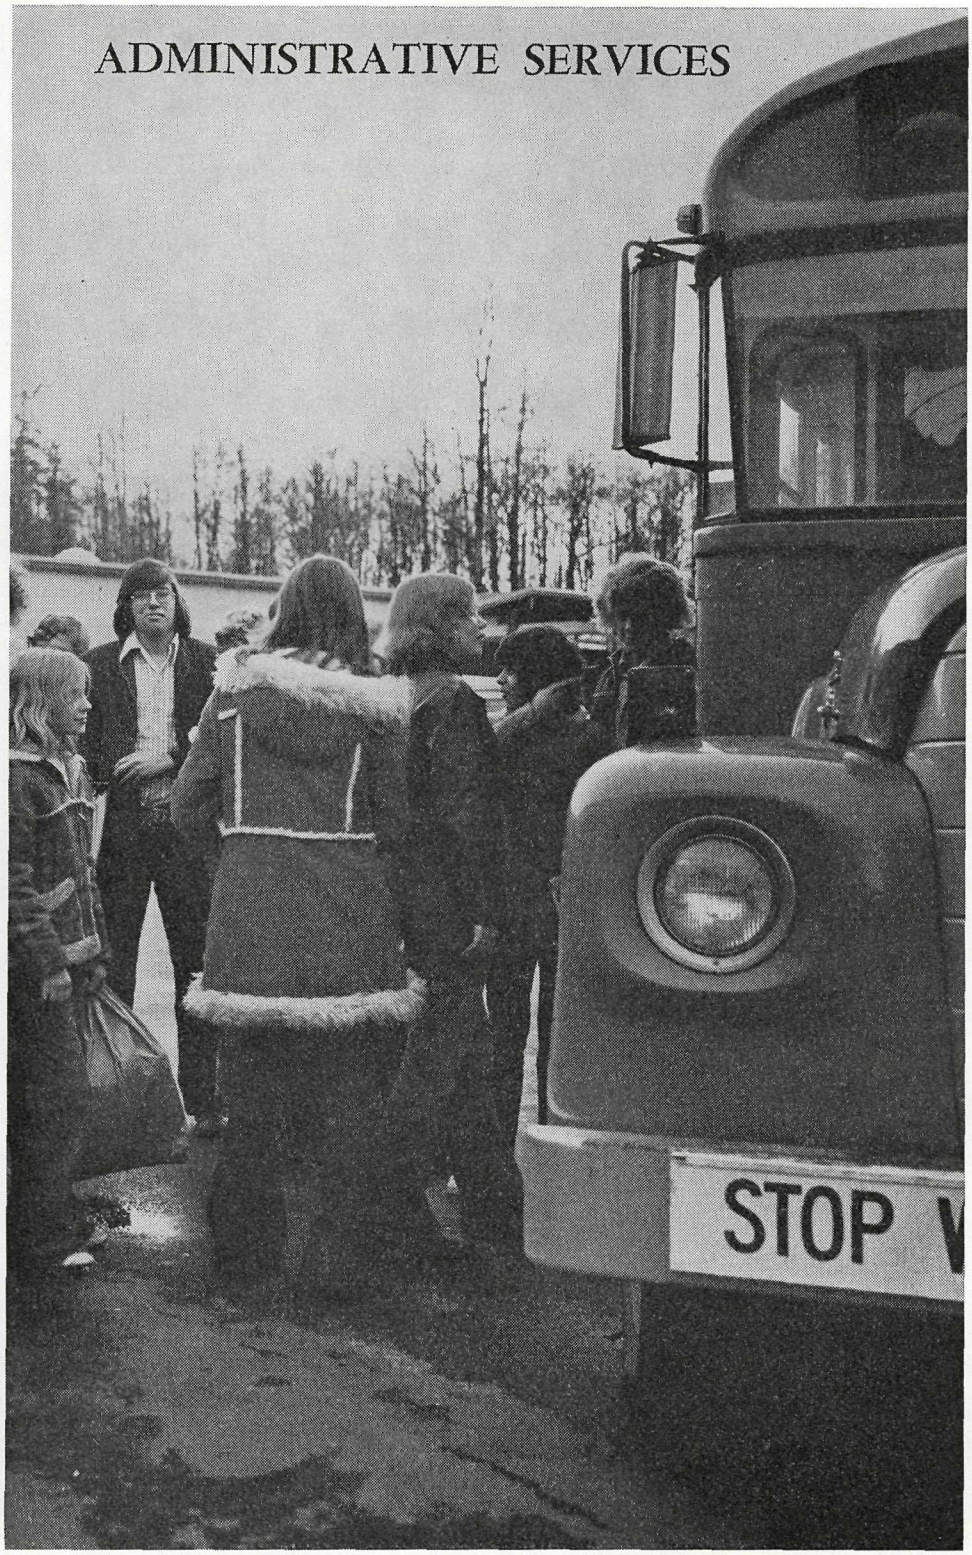
Teacher Data

The numerical increase of 75.7 (0.3 per cent) full-time equivalent teachers from the 22,891.1 of June 1972 to the 22,966.8 of June 1973 is the smallest since the number of teachers actually decreased by 169 from June 1942 to June 1943.

The percentage of teachers (including part-time teachers) with at least one university degree was 64.0 per cent in June 1973, up almost 4 per cent from the high of 60.4 per cent in June 1972.

The percentage of teachers (including part-time teachers) with a professional certificate (or its equivalent) increased 4 per cent from 65 per cent in June 1972 to 69 per cent in June 1973.

ADMINISTRATIVE SERVICES



DIVISION OF ADMINISTRATIVE SERVICES

A number of changes, both major and minor, in the functions of the Division of Administrative Services were announced during the 1972/73 school-year, and the staff of the Division was augmented to enable it to offer better service to the school system.

The most significant change was the introduction of the Essential Instructional Facilities Programme, generally referred to as the 1–3–5 Programme, early in 1973. The 1–3–5 Programme required that the school districts, in consultation with the Department, develop in some detail a three-year programme of facility planning, with a less-detailed forecast for a further two years, so that provisions can be made for the necessary financing. A review of the planning programme is required prior to the implementation of each year's building programme.

As a result of this development, most school districts were visited by one of three survey teams. Each team, whenever possible, consisted of an educator, a member of the School Planning Branch, and a specialist in the administrative/financial area. The task of the teams was twofold—to assist the boards in assessing needs for three to five years instead of only one year, and to indicate to the boards building projects which would, if future needs developed, be acceptable to the Department for grant purposes. In addition, each district was assisted in planning its financing, within existing borrowing authority whenever possible, so that additional borrowing could be reduced to a minimum.

During the summer and fall of 1972 the last essential building programme survey for the Province was conducted by the Division. Discussions took place with all school boards and most areas of the Province were visited. It resulted in school boards placing referenda before their owner-electors totalling $65,427,395, of which $54,651,845 received the necessary affirmative votes. The balance of the required capital funds for the approved essential projects was available from previously approved referenda.

Meanwhile, capital expenditures for the 1971 calendar year (section 190 approvals) were finalized:

	$
Site purchase and improvement	4,097,391
Buildings (construction)	45,614,586
Equipment	7,449,811
Plans and supervision	2,721,129
	59,882,917

The Division's School Planning Branch continued to monitor school building activity in the Province by inspection and approval of plans for all school construction, whether new buildings or renovation. During the calendar year 1972, contract documents for approximately 260 major projects were processed. The Branch also prepared plans and specifications for a number of individual school buildings and supervised their construction.

Toward the end of the year the first steps were taken to establish an Advisory and Consultative Committee to the Director of the School Planning Branch. This Committee, consisting of representatives of the BCSTA, the BCTF, the Architectural Institute of British Columbia, the B.C. Construction Association, and the School Plant Officials Association should prove invaluable both as a means of communica-

tion with the field and as a means of providing assistance to the Department as it continues its revision of standards with respect to school building and administrative procedures.

Concurrently the first major step was taken in the revision of the School Building Manual with the publication in March 1973 of an Administrative Circular which substantially modified the basis of Departmental approval for new elementary schools and major additions to existing schools. Recognizing the need for flexibility in the size of instructional space, as well as the need for the traditional type of classroom, the provision for standard classrooms only has been replaced with an allowance based on square footage per pupil, together with a requirement that buildings must be designed so that modifications in the interior arrangements can take place with minimum cost and dislocation of pupils.

At the same time an important amendment to section 171 of the Act authorized boards to enter into the joint construction and operation of school-community facilities. The impact of this amendment had not yet begun to be felt by the end of the 1972/73 school-year, but it is evident that it will be one of the more significant changes made during the year. Preliminary indications show that boards and communities are interested both in modifying standard school facilities so that they can be of greater community use and in providing, in co-operation with the communities, additional facilities which will be of value in the instructional programme, particularly in physical education, drama, and music.

School Board Organization

During the school-year ended June 30, 1973, part of School District No. 67 (Ladysmith) was amalgamated with School District No. 65 (Cowichan) and part with School District No. 68 (Nanaimo). This reduced the number of school districts in the Province to 74, all but one of which have elected school boards. One has an official trustee. At the end of June there were 69 municipal school districts and five rural districts.

There were no three-member boards. Twenty-one boards had five-members, 36 had seven-members, and 16 had nine-members.

Transportation, Conveyance of Pupils

The following statistics give details of the conveyance of school-children during the 1972/73 school-year:

1. Number of large school districts providing transportation		70
2. Total number of vehicles		896
(*a*) District-owned	653	
(*b*) Contract	239	
(*c*) Other (water taxis, etc.)	5	
3. Total daily approved mileage		64,511
4. Total number of pupils carried daily		91,770

Transportation assistance is made available to the parents of pupils who reside in isolated areas of the Province where there are insufficient pupils to establish a bus route or a school with the appropriate grade. In the 1972/73 school-year the Province shared in $436,140 of transportation assistance for 2,414 pupils in 60 school districts.

Boarding Allowances and Dormitories

A school board may provide boarding allowances for pupils who are not able to utilize transportation or dormitory facilities. Although a board may pay an allowance it considers appropriate, the amount which the Department would accept as eligible for Provincial grants was increased in January from $40 to $50 per month. In the school-year ended in 1973 the Province shared in boarding allowances for 455 pupils in 36 school districts at a cost of $162,030.

The continued extension of transportation routes, together with a population growth sufficient, in some areas, to permit the establishment of a school, have resulted in a further reduction in the number of pupils who require accommodation in dormitories. Dormitory data will be found among the statistical tables in this Report.

STAFF APPOINTMENTS AND PROMOTIONS

Headquarters

John Walsh promoted to the position of Superintendent of Special Services from Superintendent, Jericho Hill School.

S. E. Espley appointed to the position of Executive Secretary to the Commission on Education, from Superintendent, Financial Services.

J. R. Fleming appointed to the position of Acting Superintendent of Financial Services.

V. E. Rickard promoted to the position of Assistant Superintendent, Technical-Vocational Services, Post-secondary Education.

Mrs. H. M. Freeze appointed to the position of Ministerial Executive Assistant.

Dr. J. F. Newberry promoted to the position of Director of Academic Programmes, Post-secondary Education.

R. A. Munro promoted to the position of Director of Finance and Administration, Post-secondary Education.

D. S. McLelland, formerly with the Department of Public Works, appointed to the position of Director of Planning and Research, Post-secondary Education.

J. A. Holmes, formerly with the Civil Service Commission, appointed to the position of Departmental Personnel Officer.

Field

J. J. Burdikin appointed to the position of District Superintendent of Schools, Smithers.

D. L. Hartwig appointed to the position of District Superintendent of Schools, Fernie.

R. W. Huestis appointed to the position of District Superintendent of Schools, Vancouver Island North.

E. A. Maglio appointed to the position of District Superintendent of Schools, Peace River South.

J. T. McBurney appointed to the position of District Superintendent of Schools, Fort Nelson.

D. R. Smyth appointed to the position of District Superintendent of Schools, Skeena-Cassiar.

H. Sayers appointed to the position of District Superintendent of Schools, Cranbrook.

W. G. Bateman promoted to the position of Vice-Principal, B.C. Vocational School, Burnaby.

Retirements

Miss M. E. J. Speed, Supervisor of Course Writing (Correspondence), after 31 years of service.

E. E. Hyndman, District Superintendent of Schools, School District No. 62 (Sooke), after 28 years of service with the Department.

C. T. Rendle, District Superintendent of Schools, School District No. 41 (Burnaby), after 23 years of service with the Department.

Miss M. A. S. Musselman, Assistant Registrar (Teacher Certification), after 20 years of service.

F. J. Orme, District Superintendent of Schools, School District No. 23 (Central Okanagan), after 19 years of service with the Department.

J. E. Beech, District Superintendent of Schools, School District No. 26 (North Thompson), after 17 years of service with the Department.

J. S. White, Superintendent of Technical-Vocational Services, after 17 years of service.

J. S. Baker, Instructor 3, B.C. Vocational School, Burnaby, after 15 years of service.

D. H. Campbell, District Superintendent of Schools, School District No. 14 (South Okanagan) and School District No. 16 (Keremeos), after 15 years of service with the Department.

R. L. Guppy, Instructor 3, B.C. Vocational School, Burnaby, after 14 years of service.

W. R. Thomas, Instructor 3, B.C. Vocational School, Burnaby, after 13 years of service.

W. R. Brown, Vice-Principal (Acting), B.C. Vocational School, Burnaby, after nine years of service.

D. L. Feir, District Superintendent of Schools, School District No. 28 (Quesnel), after nine years of service with the Department.

K. C. Henderson, Stockman, B.C. Vocational School, Burnaby, after six years of service.

25-year Continuous Certificates

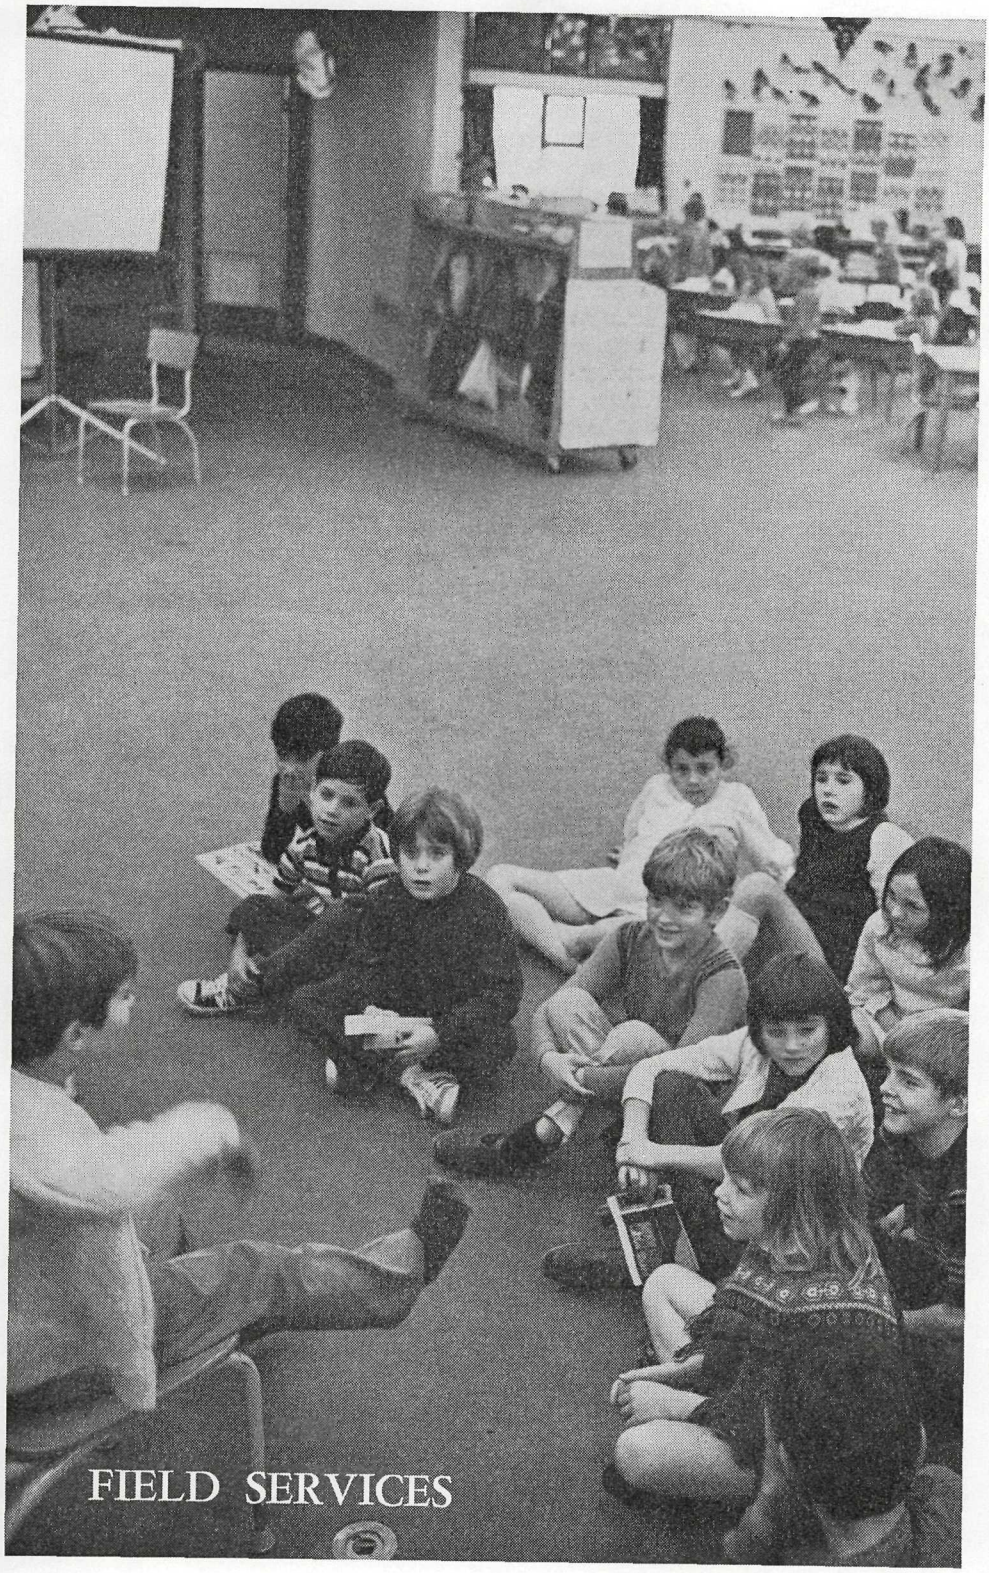
C. H. Banks, N. D. Daggett, S. E. Espley, J. R. Meredith, T. Scott, Miss J. D. Wardhaugh, G. L. Armitage, W. A. Alcombrack.

Executive Development Training Plan Graduate

R. C. May.

Public Administration Course Graduates

D. A. Bland and Miss D. A. Milner.



FIELD SERVICES

DIVISION OF FIELD SERVICES

The Division of Field Services is primarily concerned with the operation of school districts in the Province of British Columbia. The Division is staffed in the field by 57 District Superintendents of Schools, each assigned one or more school districts. Each District Superintendent was also appointed as an executive officer of the school board, or school boards, with which he worked. The headquarters staff consists of the Superintendent, the Director of Home Economics and two advisors, and the Director of Industrial Education and two inspectors of technical education.

Thus, much of the Division's effort was directed toward liaison and inspection. During the year the Superintendent organized and attended workshops for District Superintendents in six zones: Vancouver Island, the Fraser Valley, the Kootenays, the Okanagan, Northern British Columbia, and Metropolitan Vancouver. These annual conferences, often attended by other officials of the Department, continue to be of particular value to members of the field staff who are thus enabled to meet in small groups to discuss common problems.

Two larger conferences of great value were held. In January 1973 the University of Victoria held its sixth annual seminar for District Superintendents at Harrison. Thirty-six attended. The seminar theme was "Local Autonomy—Myth or Reality." In April the Department itself sponsored a conference in Victoria for all field-service staff. It was devoted mainly to a discussion of ministerial policy and philosophy, with time also given to discussion of building plans, financial matters, accreditation of secondary schools, post-secondary developments, and special education.

Newly appointed members of the staff of District Superintendents, listed in the personnel section of this Report, came to the Department on the first day of their appointments, August 1, to meet and talk with senior officials before taking up their assigned duties in the field. They returned for four days in November for more extensive meetings.

The Division of Field Services was again involved in the selection of British Columbia teachers for developing nations in Africa, Southeast Asia, and the West Indies. The Superintendent was chairman of the selection committee. Fewer candidates were involved this year as the Canadian Industrial Development Agency, under whose auspices the teachers serve their two-year terms abroad, was interested primarily in the field of industrial education.

The Superintendent also served on an external evaluation team concerned with the accreditation of secondary schools and on a committee concerned with the improvement of school bus transportation.

The Superintendent examined the annual reports of District Superintendents who, though primarily concerned with the operation of schools, are also involved in the administrative aspects of the school boards' operations. Among the trends observed was some increase in staffing with additional personnel being used to reduce the teacher-pupil ratio, to work with special classes, and to introduce new offerings in art, music, physical education, etc.; an extension of adult education in some 20 districts and, in others, its transfer to colleges, and increased use of educational television with the use of video-tape recorders.

Constant change is evident in the broad curriculum field, where a high degree of local autonomy is being exercised. Three of the larger districts moved toward alternate schools, though most smaller and medium districts appear to feel that each

school should provide alternatives within its own walls. In special education, rehabilitation classes and learning assistance centres are increasing in number. More districts are appointing counsellors and special education co-ordinators. Occupational programmes are being revitalized or broadened in scope. Work experience programmes in the secondary schools are being expanded to include pupils on vocational-industrial and commercial programmes. Six districts report that they have assumed or intend to assume responsibility for trainable mentally retarded schools originally administered by local chapters of the British Columbia Association for the Mentally Retarded. Clinical teams from British Columbia universities are being used by some districts to assist with the diagnosis and remediation of pupils with learning disabilities. Interdistrict co-operation in providing central services for the hard-of-hearing and emotionally disturbed is on the increase.

In 13 districts the introduction of planned programmes in out-door or environmental education was reported. Eleven districts noted a substantial increase in the number of field trips, some of which take pupils far afield and are of several days duration. Three districts discussed the acquisition of sites for environmental education and one district appointed a co-ordinator of out-door education.

It is interesting to note the degree of community involvement in the schools. During the year three districts reported the establishment of citizens' advisory committees to the board.

HOME ECONOMICS

During the school-year the total course enrolment in home economics and community services was 99,848, an increase of 6,038. The greatest increase continued to be in cooking and food services courses for boys and girls. Home Economics Departments operated in 285 schools, many for the first time.

Members of the Home Economics Branch visited 55 school districts and held district conferences in Kamloops, Kelowna, and Quesnel, as well as meetings with senior Home Economics staffs in Vancouver and Victoria. Liaison was maintained with appropriate people at UBC, in the BCSTA, B.C. Hydro and Power Authority, the Department of Health Services, the Department of Agriculture, and the B.C. Nutrition Co-ordinating Committee. In view of the current need for Home Economics teachers emphasis was given, in various group meetings, to careers in teaching and to teacher preparation.

VOCATIONAL AND INDUSTRIAL EDUCATION (SECONDARY SCHOOLS)

The enrolment in Industrial Education courses during 1972/73 increased by 7.5 per cent over the previous school-year. The total number of Industrial Education courses taken by students in secondary schools was 128,431, which includes Grades VIII to XII, regular, specific, occupational, and special courses. Whereas the Grade VIII courses usually represent a fixed block of time, many students enrolled in Grade IX through to Grade XII spend additional time benefiting from the Industrial Education shop facilities. Girls were enrolled in many courses, especially at the senior level, and a majority of academic students took advantage of the vocational facilities to broaden their basic education.

The number of teachers employed in Industrial Education shops was 1,060, an increase of 3 per cent over 1971/72. Several shop teachers are seconded to the Canadian Industrial Development Agency and to other overseas projects.

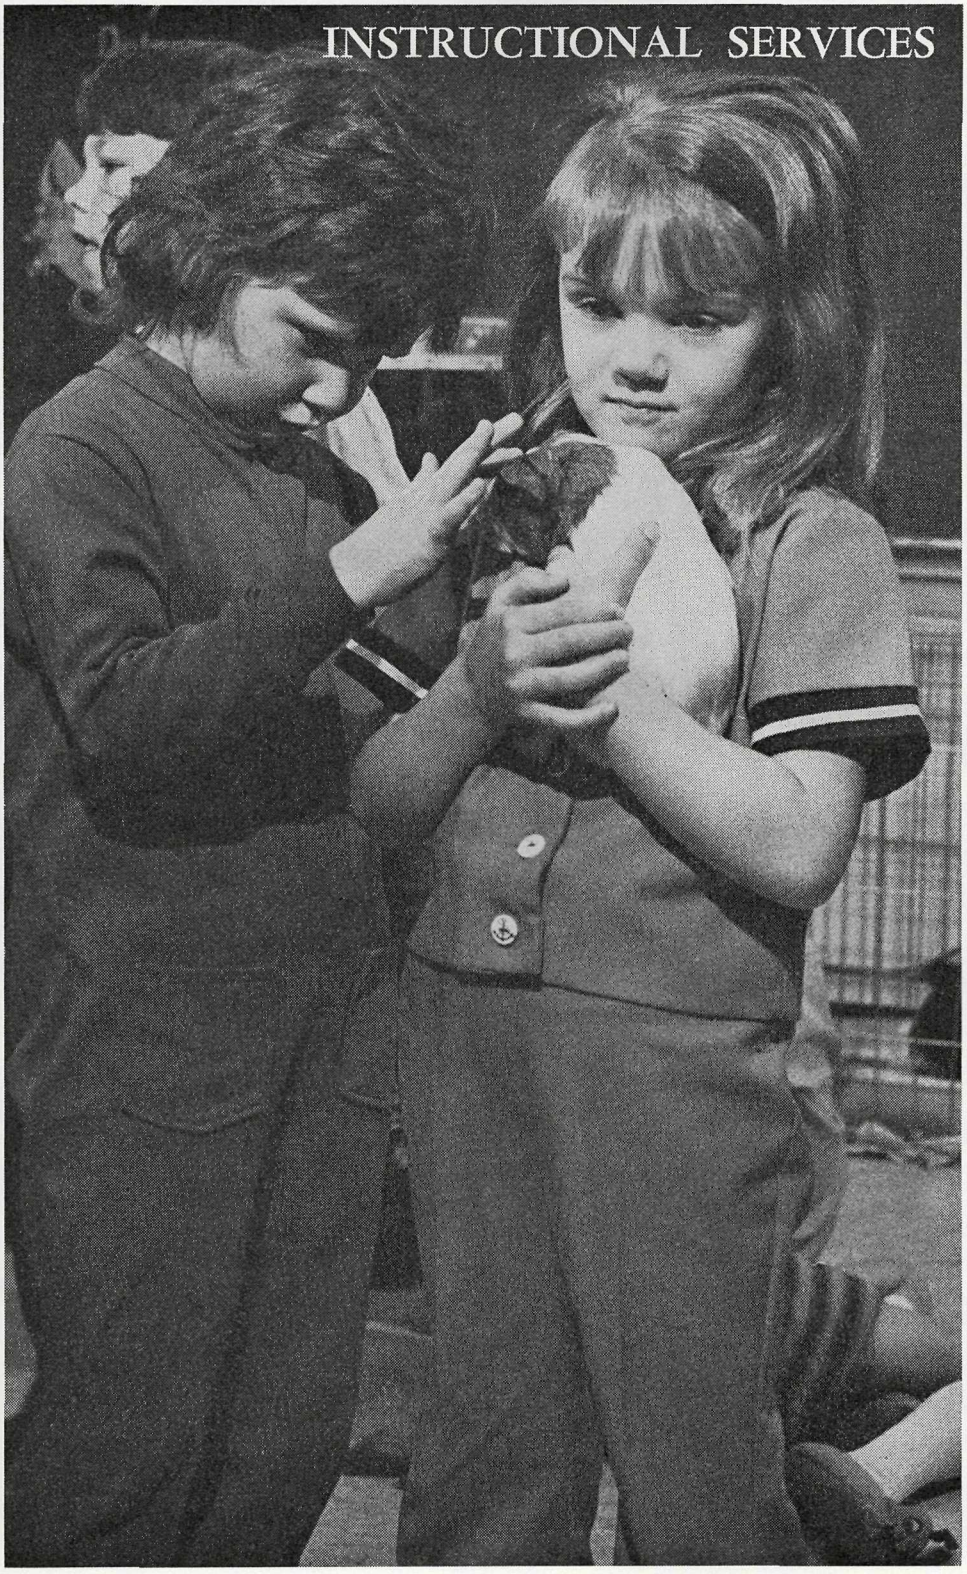
Capital projects under the Federal-Provincial Adult Occupational Training Act Capital Agreement continued within the Accelerated Phase-out Programme.

Under the *Vocational Schools Assistance Act Amendment Act* of 1965, 50 projects have now been completed at a gross cost of $11,621,000. Further projects, costing approximately $1,500,000 per year until 1976, are anticipated. Those districts not large enough to apply for financial assistance under the *Vocational Schools Assistance Act* are providing vocational facilities through referendum procedures.

With respect to teaching and in-service training the Industrial Education Review Committee and the Shop Teachers' Association of the British Columbia Teachers' Federation both supported the Branch's policy of holding workshops in various zones throughout the Province.

In co-operation with the British Columbia Aviation Council, the Director conducted an Aviation workshop in Kelowna. Representative teachers were released by District Superintendents from the whole of the Okanagan, including Kamloops and Revelstoke, so that a number of districts could be involved in a two-year pilot project in the Kelowna Senior Secondary School to complete the construction of an aircraft.

In 1972 the Department of Manpower and Immigration ceased to sponsor clients for training as Industrial Education teachers. Since September 1972 the Department of Education has sponsored selected candidates with suitable industrial experience for a 12-month training period, plus a four-month on-the-job internship. Sponsorship includes tuition, materials, supervision, and facilities. Fifty-four sponsored trainees are recruited each year to take technical and education courses presented by UBC staff in the Department of Education's teacher-training unit on the Willingdon Campus in Burnaby before undertaking the internship on a Letter of Permission basis. In addition to the Sponsored Programme students, up to 18 Regular Programme students are recruited each year. Regular Programme students attend the teacher training unit for two winter sessions and complete a bachelor of education degree prior to certification.



INSTRUCTIONAL SERVICES

DIVISION OF INSTRUCTIONAL SERVICES

The Division of Instructional Services is responsible for supervising and co-ordinating the provision of services in three main areas: Curriculum and learning materials; learning evaluation research and standards; and teacher certification and records. During the year under review, particular attention was given to the development of new programmes and procedures for kindergartens, family-life education, adult-secondary school diplomas, student scholarships, and the allocation of funds for French-language teaching.

In the field of family-life education, new policies were developed to encourage the implementation of family-life programmes.

During the year, new policy was implemented for the allocation of funds for French-language teaching. These funds were transferred directly to school districts in the form of French Language Instructional Support Grants for particular improvement projects initiated by schools and school districts.

There was a marked increased in the volume of correspondence on instructional matters and education generally. This is undoubtedly an indication of an increasing public interest and involvement in education. It is also of considerable assistance to the Department, not only in facilitating the investigation and resolution of particular problems, but also in providing an additional source of ideas, reactions, and suggestions.

RESEARCH AND STANDARDS BRANCH

The Branch's main efforts during the past school-year included attempts to improve the collection, dissemination, and interpretation of educational statistics; testing to determine standards in curricular fields where difficulties might exist, and to relate achievements in senior secondary subjects to the semestering of schools, and finally the dissemination of information to Superintendents in regard to significant research projects that have come to our attention.

The Branch has been deeply involved in the establishment of a teachers' data bank operated by Statistics Canada. Although its location in Ottawa results in some problems it has eliminated much of the duplication that previously existed and has made possible the provision of statistical information to the Registrar and others that previously had to be extracted by hand. Examples are teacher-flow chart and tables that appear elsewhere in this Report, and the data that have been provided to research workers investigating teacher unemployment. Such studies have shown, for example, that 80 per cent of the unemployed teachers had restricted their applications to urban areas which often had decreasing enrolments, and that although the proportion of beginning teachers who were obtained from British Columbia teacher-training institutions had risen rapidly from 68 per cent in 1970 to 77 per cent in 1971 it was still only 84 per cent in 1972.

Total enrolment in all grades, shown in the statistical tables, reached a peak of 537,106 in 1972/73. While this is an all-time record, the increase of 0.5 per cent was the smallest in 30 years. Depending upon the establishment of new kindergartens, a gradual decline may be expected to begin in 1974 or 1975 and last for about eight years. Although decreasing birth-rates in other provinces are now being reflected in pre-school-age immigration to British Columbia, this Province's births increased from 1966 to 1970 and Grade I should increase during the next four years, then decline temporarily for two or three.

CURRICULUM DEVELOPMENT BRANCH

The continuing review and revision of existing courses, the development of new courses, and the provision of guidelines for the organization of the curriculum in both elementary and secondary schools are the main responsibilities of the Curriculum Development Branch. The small permanent staff of the Branch, supplemented by two curriculum consultants on one-year appointments, is assisted by a number of voluntary advisory committees of teachers and other experts who give generously of their time and effort.

During the year, curriculum studies were continued in kindergarten, elementary school social studies, mathematics, junior-secondary school science, biology, English, and industrial education. New studies were begun in the areas of elementary school science, elementary school language arts, the visual and performing arts, Spanish, graphic communication, and community recreation. Nine new or revised courses were prepared for introduction in September 1973 and a total of 97 new titles were added to the list of textbooks prescribed and provided to schools. An additional service was provided to schools by the members of our two library book-review committees who reviewed a large number of books and thus provided the basis for the preparation of annotated lists of suitable school library books.

A new kindergarten programme was prepared and its introduction will coincide with changed kindergarten regulations announced during the year. The Department's advisory committee in the kindergarten area has prepared a resource book to assist teachers in the introduction of the new programme.

A highlight of the 1972/73 school-year was the introduction of a new organizational pattern for the senior secondary school curriculum. Students entering Grade XI in September 1972 became subject to the new regulations which feature increased local authority in the matters of student programming and student evaluation. The first students to complete secondary school under the new regulations will graduate in January and June 1974.

It is also significant that there has been increased use of procedures whereby locally developed courses are submitted for Provincial approval. During the year, 126 such course submissions were reviewed by the Provincial Advisory Committee on the Secondary School Curriculum and 80 were approved for the 1973/74 school-year; 21 were referred back to local authorities for further development and possible resubmission; 21 were considered to be variations of content in existing courses and were not approved. Only four were rejected as not suitable for inclusion in the curriculum offerings of a public school.

CURRICULUM RESOURCES BRANCH

Total expenditures by the Curriculum Resources Branch for the purchasing of resources was $4,911,623 which included $45,882 for assisting individual school districts in the purchasing of miscellaneous books and items for library use and classroom teaching aids. In addition to the actual expenditures, the Director acted as purchasing agent for the British Columbia Institute of Technology and the British Columbia Vocational Schools.

AUDIO-VISUAL SERVICES BRANCH

The Audio-Visual Services Branch is engaged in the planning, development, production, or purchase and distribution of a variety of audio-visual materials used in instructional programmes. In co-operation with other Department of Education

branches and committees, decisions are made regarding the appropriate medium, technology, and materials required to meet specific educational goals.

Distribution services use a number of systems for the circulation of audio-visual materials, including 16-mm. films, filmstrips, media kits, and video and audio-tapes, as well as printed materials such as catalogues, guidebooks, song booklets, and French texts which are used to supplement the audio-visual programmes. The traditional method was for individual schools to borrow from the central library for short periods. However, more than 20 school districts are now using a district resource centre to borrow a block of films for one or two months. A recently established preview service for filmstrips and media kits facilitated the growth of local resource centres by offering these materials for extended classroom evaluation before final selections are made.

The newest and perhaps most noteworthy service provided by the Branch is that of duplicating and distributing video-tapes. Under this system, a school district may select from a catalogue of both locally produced and acquired programmes. They are then duplicated and sent to the district resource centre where they may be cablecast, reduplicated, or circulated throughout the district. In the first few months of operation, 750 tapes were dubbed and distributed from the initial "mini-catalogue" of 150 titles. Circulation reports of films and other materials may be found in the statistical tables.

Arrangements with the Canadian Broadcasting Corporation for the co-production of educational radio and television broadcasts were continued and resulted in more than 300 programmes being carried on the CBC networks during school-hours. Many of these programmes are developed and prepared by the Branch. One of them, "Dr. Helmcken's Journal," the story of British Columbia's entry into Confederation, received an Ohio Award for excellence of educational television programming. The award was made for "inspired use of all facets of the medium—script, narration, visual and sound effects, authenticity, music to maintain high viewer attention throughout the unfolding of the pros and cons of the complicated story of Confederation . . ."

The Branch's photographic section, in addition to original photography and copywork carried out in support of other media projects such as television programmes, prepared material for use in catalogues, guidebooks, and other Departmental publications. Major projects in which it was involved during the past year included the complete refurbishing of the Department's display in the British Columbia Pavilion on the Pacific National Exhibition grounds and the preparation of a series of 250 historical slides for use with the course "Civilisation 12E."

Provincial Educational Media Centre

The most noteworthy development during the year was the creation of the Provincial Educational Media Centre. The Centre, which is administered by the Audio-Visual Services Branch under the guidance of a representative Department of Education committee, is capable of producing film, television, and other media forms to meet specific educational needs. It consists of a three-camera, monochrome television studio, a mobile television unit, associated film and sound facilities, and a duplication centre. During the year a small production crew produced some 35 programmes for use in the public schools. Programmes have been produced on field trips for primary grades, British Columbia history for intermediate grades, French language for junior secondary grades, and youth forums of topical issues for senior secondary grades. Negotiations with several film and television produc-

tion agencies in Canada and abroad have yielded the rights to an additional 150 programmes covering a variety of subjects.

EXAMINATIONS AND TEACHER CERTIFICATION BRANCH

The Examinations and Teacher Certification Branch has two primary functions—

(*a*) to prepare and administer senior secondary school Department of Education regular and scholarship examinations, issue statements of standing to all Grade XII Academic and Technical Programme students, administer the Grade XII Provincial Government Scholarship Programme, and to maintain a Provincial registry of these senior secondary school students;

(*b*) to evaluate the academic and professional qualifications of all applicants for British Columbia teaching certificates, to issue appropriate certificates to those who qualify under current regulations, and to maintain a Provincial registry of all certificated teachers.

Reports on the specific activities of the Examinations Section and the Teacher Certification Section of this Branch during the 1972/73 school-year appear later in this Report. In addition to these two primary functions, a number of related duties are assumed by the Branch. The Registrar and Director is Officer-in-Charge of the Teacher Exchange Programme and serves as a Department of Education representative on several committees including the Joint Board of Teacher Education, Provincial Accreditation Committee, British Columbia Student Aid Committee, Department of Education Examinations Committee, and Minister's Advisory Committee on section 18 (7) of the *Public Schools Act*.

A number of changes in policy and procedure were introduced. For many years the services provided by the Branch have included evaluating the educational standing, in terms of British Columbia requirements, of numerous adults who were educated in other jurisdictions or under different circumstances. It was partially in response to this need that the Department of Education developed a system, to start in the 1973/74 school-year, whereby adults who have not graduated from secondary school may qualify for a Grade XII Equivalency Certificate. It is recognized that through work and other experiences many adult nongraduates have acquired skills and knowledge at or above the secondary-school-leaving level. These persons now will be able to earn secondary school equivalency standing by challenging a battery of five standardized tests designed to measure the major generalizations, ideas, and intellectual skills normally acquired through formal secondary school study. Adults who qualify for Grade XII Equivalency Certificates should find them helpful in overcoming the disadvantages of a lack of recognized formal secondary education which presently may be preventing them from qualifying for job promotions, new employment opportunities, or admission to other training or educational programmes.

Significant changes in the Grade XII Provincial Government Scholarship Programme also were made during the 1972/73 school-year. These modifications were designed to encourage a larger number of graduating senior secondary school students to attempt to qualify for scholarship awards, since the new terms provide for a more equitable scholarship competition and remove certain previous conditions which may have been restrictive in some instances.

In contrast to previous years, in June 1973, the Department Scholarship Examinations were written before rather than after the Regular Departmental Examinations and the normal dismissal date for Grade XII students, thereby encouraging

a larger number of capable students to compete. Effective in June, too, the nature of the scholarship award was changed so that each qualifying student was issued a personal cheque for $200 rather than a voucher of varying value depending upon the type of award and the amount of tuition fees payable to the particular post-secondary school institution attended by the student. The scholarship award still is intended to provide encouragement and assistance for further education but no longer are the restrictions on when, where and how the money may be used.

The question of the available supply of qualified and certified teachers in relation to demand continued to be one of major concern in this Branch. Numerous discussions were held with university representatives and others to investigate and determine appropriate action to be taken in response to continuing teacher shortages in certain subject areas. Information and assistance was provided to several university and other official research groups investigating various aspects of the teacher supply-demand question and, in particular, to the British Columbia Research Council which was commissioned by the Minister of Education to undertake a study designed to identify the significant factors in the teacher supply-demand equation and enable more accurate determination of the numbers and types of teachers required in the years ahead.

As the statutory authority responsible for teacher certification in this Province, the Lieutenant-Governor in Council occasionally receives a recommendation that the certificate of a teacher be either suspended or cancelled for cause. This year a special advisory committee to the Minister of Education was appointed to be responsible for improving the procedures followed in reviewing recommendations concerning possible suspension or cancellation of certificates. The advisory committee is representative of the British Columbia Teachers' Federation and the British Columbia School Trustees Association as well as the Department of Education.

During the 1972/73 school-year, new procedures were developed to ensure more equitable and expeditious processing of the applications received for teacher exchanges. The number of applications received from British Columbia teachers considerably exceeds that of the exchange positions available. A total of 42 applications were made for exchange teaching positions commencing September 1972, of which eight were ineligible under programme regulations, 34 went forward for possible exchange matching, and 15 exchanges to the United Kingdom were approved.

Examinations Section

The school-year 1972/73 was the final one in which Regular Departmental Examinations were provided by the Department of Education. This brings to an end the era during which Grade XII graduation on an academic programme was at least partially determined by performance in final Departmental examinations. During the year, plans were made for all students graduating from Grade XII after June 1973 to have their final standing in each course determined by the school. Secondary school statements or transcripts, as well as graduation diplomas, will be issued directly by the school rather than by the Department of Education.

During the 1972/73 school-year, Grade XII Regular Departmental Examinations covering 12 courses were prepared for each of January and June, and the same number of scholarship examinations was provided for June only.

Senior secondary school students who did not qualify for recommendation standing in an examinable course were required to write the appropriate Regular Grade XII Departmental examination in either January or June, and had their final

standing in that course based on the average of the mark determined by the school, plus the mark achieved on examination.

Under regulations in effect during the 1972/73 school-year, Grade XII students entering the scholarship competition were required to write scholarship Departmental examinations in two courses. While the regular Departmental examinations were entirely objective in formate and machine-scored, the scholarship examinations were predominantly subjective, and were marked by experienced senior secondary school teachers. In June, Provincial Government Scholarships were awarded on a rank basis to all qualifying students who achieved averages of 70 per cent or higher. A total of 2,998 students entered the scholarship competition, an increase of 400 over June 1972, and 1,774 qualified for awards compared with 1,460 in the previous year.

Garry Nicholas Tarr, of Hillside Secondary School in West Vancouver, ranked first in the 1972/73 Grade XII Provincial Government Scholarship competition and won the Governor-General's Silver Medal with an average of 99.0 per cent. The Governor-General's Bronze Medal was awarded to Duncan Lewis Scobie, of Mount Douglas Senior Secondary School, Victoria, who ranked second in the scholarship competition with an average of 98.5. Honourable mention went to Betty Joan Corbett, a student of Delbrook Secondary School, North Vancouver, who, with an average of 98.0 per cent, placed third in the competition.

Teacher Certification Section

For some time there had been concern about the lack of a suitable professional preparation programme in the Province for persons with specialist experience and training who were needed to instruct students in certain vocational subject areas, including chef's training, instrumental and band music, and some aspects of commerce. In the summer of 1971, new regulations were approved providing for the professional preparation of these persons, and for a new type of credential, the Instructor's Diploma, to be awarded to those completing the programme. At the same time provision was made to discontinue the former preparation programme leading to the Vocational Instructor's Certificate.

In brief, persons having journeyman qualifications or equivalent training plus related trades, business or industrial exeprience, and who are instructing in an approved specialty area on a Letter of Permission basis may seek admission to the new Instructor's Diploma programme. This comprises integrated on-campus and in-service study and supervised professional preparation extending over a period of some two or three years. Those completing the programme will be issued an Interim Instructor's Diploma which may be made permanent upon completion of two years of satisfactory service. All Instructor's Diplomas will be endorsed as to area of specialization, and may be endorsed as to the type of school in which they are valid.

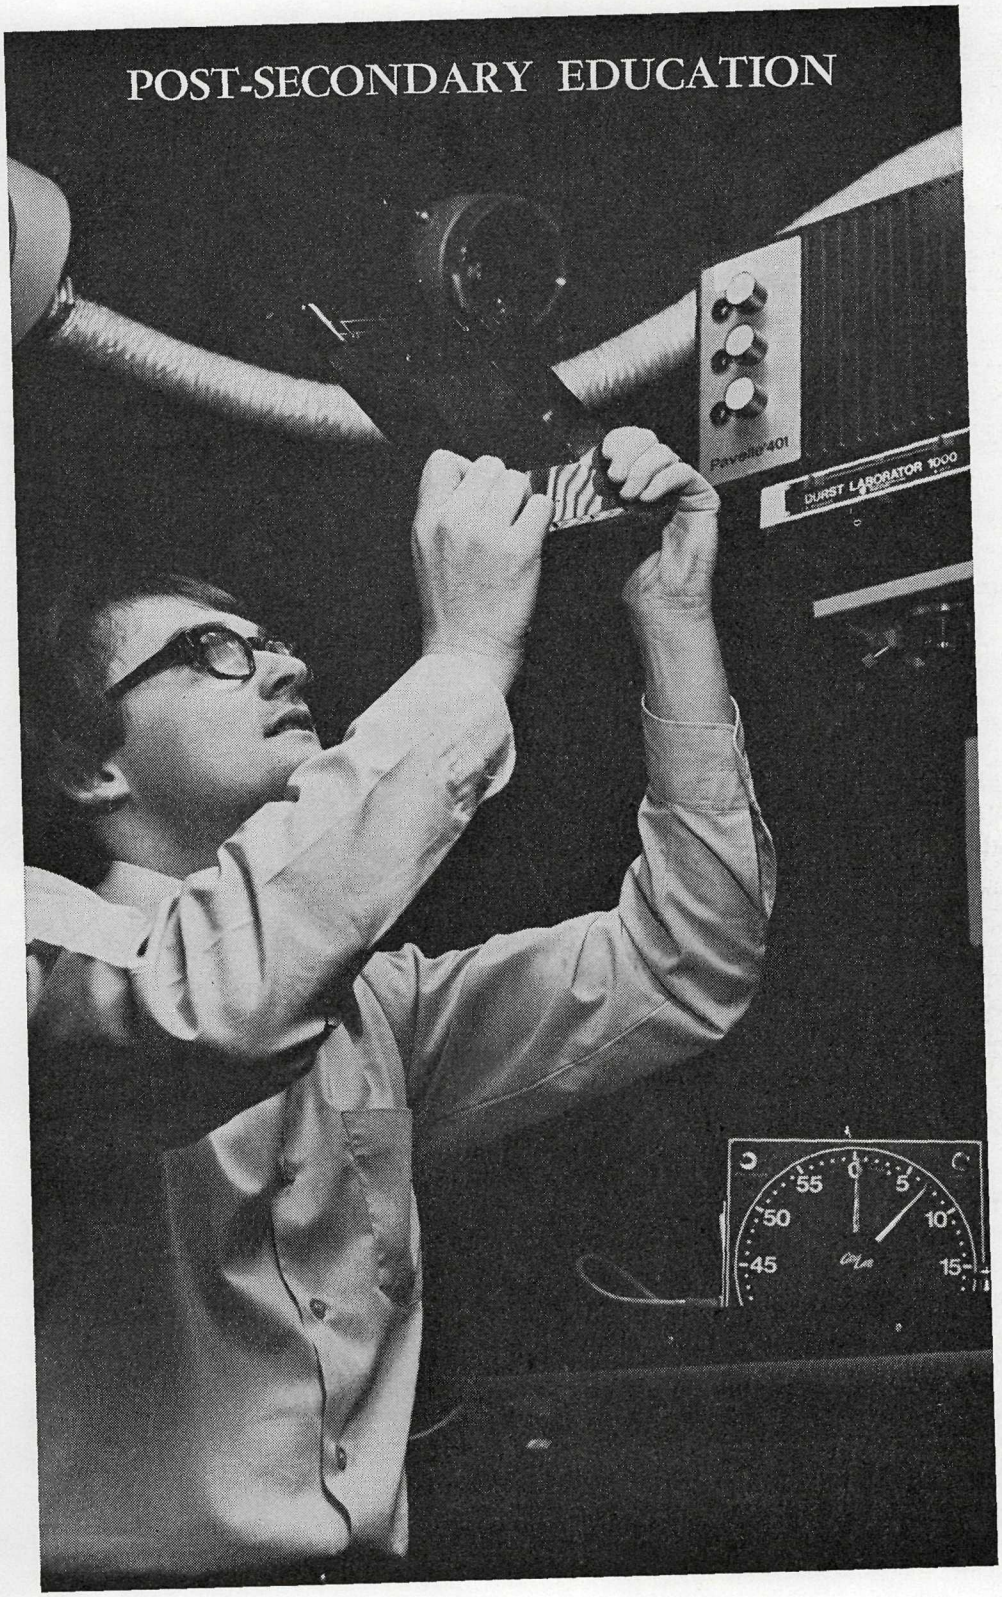
Eligibility for admission to the Instructor's Diploma Programme is determined by a special Steering Committee appointed by the Joint Board of Teacher Education. In the first summer of operation, 1972, some 80 persons had their applications approved.

In September 1972 the full-time teaching force of the Province numbered 22,123, net decrease in teaching positions of 468 or 2.1 per cent over last year's 22,591. It should be noted, though, that increased financial support made available to school districts subsequent to September resulted in a number of additional teacher appointments being made in the autumn of 1972 after these statistics were tabulated. Of the 1971/72 total teaching force, 20,163 or 89.3 per cent again were teaching in

British Columbia in the new school-year, while 2,428 or 10.7 per cent retired or otherwise left teaching between September 1971 and September 1972. Exclusive of staff changes during the school-year, new teacher appointees in September 1972 numbered 1,960.

Statistical tables elsewhere in this Report contain considerably more teacher information—qualifications, salary ranges, etc.

POST-SECONDARY EDUCATION



THE DIVISION OF POST-SECONDARY EDUCATION

The 1972/73 school-year was the first in the life of the Division of Post-secondary Education, which was constituted in January 1973, through the amalgamation of the former Divisions of Post-secondary Services and Technical-Vocational Services and authorized, as an autonomous unit in the Department, to report directly to the Minister. A. E. Soles, former Superintendent of Post-secondary Services, became superintendent of the new division. J. S. White had retired earlier as Superintendent of Technical-Vocational Services after serving with distinction in the Department for 17 years.

The Division of Post-secondary Education thus became responsible for Department of Education relations with the public universities and colleges, and for the Institute of Technology, British Columbia Vocational Schools and continuing education. Internally, the Division has been organized into four functional areas, each under a director—Academic Programmes, Technical-Vocational Programmes, Finance and Administration, and Planning and Research.

During the year the three public universities continued to provide valuable services to the Province on their own campuses as well as through assistance to colleges and service on a number of boards and committees. Among their more interesting developments are the planned establishment of a Faculty of Law and a School of Public Administration at the University of Victoria, which will accept their first students in September 1974. A French Language Training Centre is being planned at Simon Fraser University, using funds provided by the Government of Canada, to serve students, teachers, civil servants, and the public.

It is now clear that the nine colleges in the Province continued to have a substantial social and educational impact on the Province through their structure, the number of people they enrol and the diversity of their programmes. They represent a significant departure from the traditional educational enterprise in that they are not overwhelmingly academic institutions. They recognize the need for comprehensive continuing education programmes to serve a wide range of evolving social purposes, for flexible re-entry routes into more formal educational channels and for local-interest programmes not otherwise available.

The division of the 105,536 persons who enrolled in the colleges during 1972/73 indicated the broad acceptance given to the institutions. Academic programmes attracted 11.4 per cent of the total enrolment; technical-career programmes, 5.4 per cent; preparatory courses, 14.5 per cent; vocational programmes, 24.6 per cent; and continuing education and community services programmes, 44.1 per cent.

A major policy change initiated by the Minister of Education concerned the provision of facilities for colleges. The Minister announced that the Government would now pay for 100 per cent of the capital costs of core campuses for colleges. This superseded the former policy under which the ratepayers in a college region were called upon to pass a referendum authorizing the College Council to pay 40 per cent of capital costs. All of the colleges are planning to expand their present facilities or build new ones.

Capilano College is building on a site in North Vancouver and will occupy the facility in September 1973. Malaspina College is well advanced in the planning of a new campus, with the expectation that construction may start in the fall of 1973. Other colleges are at various stages of planning.

A number of special studies were undertaken during the year respecting post-secondary education. A committee was formed under the chairmanship of Dean Ian McTaggart-Cowan to study the provision of post-secondary education in the Kootenays. Another, chaired by Dr. Brian Burke, undertook a study of student services, including the awarding of scholarships and bursaries. A study was instituted, in co-operation with Alberta, concerning the provision of post-secondary opportunities in the Peace River and East Kootenay areas, that might serve both provinces. A committee was also established to make recommendations on various aspects of the college-vocational school melding programme which is expected to be finalized in 1974. Seven colleges and vocational schools now operate under single administrations.

Several standing groups continued to meet in the interests of better education, among them the Academic Board; the Provincial Consultative Committee for Technical, Vocational, and other Career Education, which is an advisory and co-ordinating group; the College Principals Association, and the B.C. Forecasting Committee, concerned with producing post-secondary enrolment projections.

TECHNICAL AND VOCATIONAL PROGRAMMES

The Division of Post-secondary Education's Technical and Vocational Programmes Branch performs most of the functions of the former Division of Technical and Vocational Services and is directly responsible for the Institute of Technology and Vocational Schools not melded with a college. During the year, it continued to co-ordinate programmes with business and industry, the Federal Department of Manpower and Immigration, the Provincial Department of Labour, and other Federal and Provincial departments. Its Curriculum Development Section reviewed many existing courses and developed new ones. In addition, emphasis was placed on improved methods for the academic upgrading of members of the labour force so they could proceed to further vocational training.

The Branch enrolled nearly 35,000 persons in full-time vocational training programmes, and in addition provided up-grade courses on a part-time basis for another 45,000 persons. This represents a gain of some 30 per cent in the last three years.

Department of Education Institutions

As stated, the Division of Post-secondary Education is directly responsible for the operation of the British Columbia Institute of Technology in Burnaby and for four vocational schools—British Columbia Vocational Schools in Terrace, Dawson Creek, and Burnaby, and the B.C. Mining School at Rossland.

At the Institute the year was marked by yet another high job-placement rate (74 per cent as early as graduation date) and by programme expansion. An economics option was added to the Building Technology, a landscape horticultural option to Biology Sciences and a psychiatric nursing programme. The Extension Division, which provides advanced technical training to meet the demands of industry, continued to grow with respect to both students and course offerings.

At the vocational schools, Burnaby in particular, increased demands for training have resulted in some double-shifting. At Rossland the B.C. Mining School made preparations to begin training in underground as well as open-pit operations offered previously.

ADULT EDUCATION

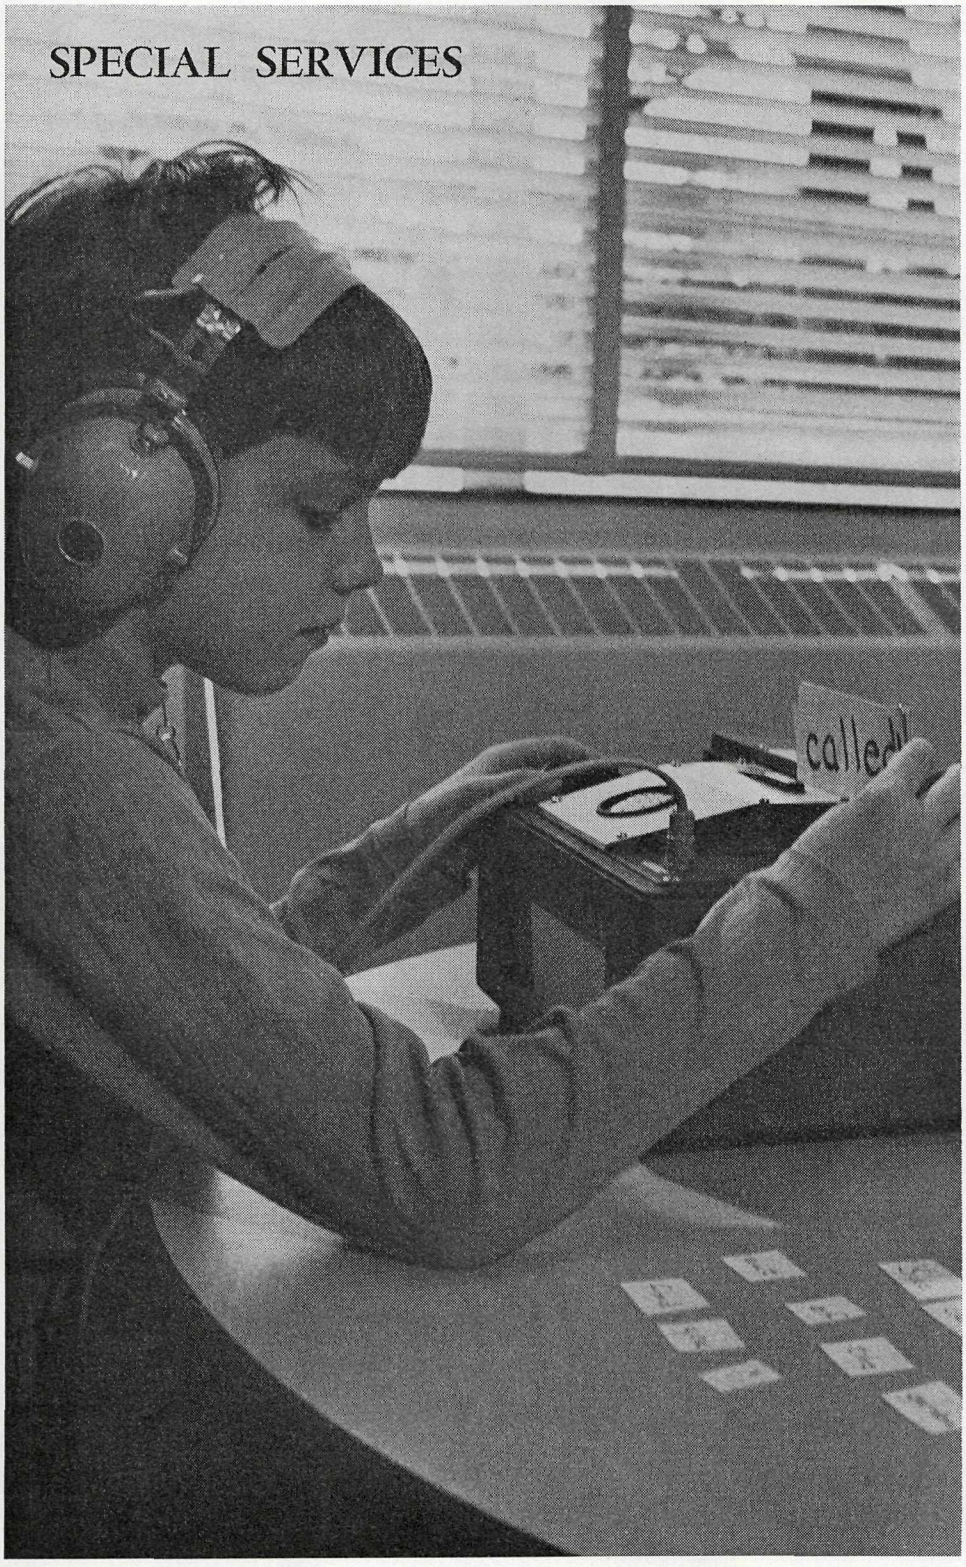
The Adult Secondary School Programme was revised during 1972/73 to permit adults a wider choice of courses. Although the total number of adults participating in the continuing aspect of public school education was down slightly in 1972/73, it must be recognized that colleges and vocational schools continued to offer a growing number of oportunities. The Division participated in arrangements for the establishment equivalency tests which enable adults to qualify for the equivalent of high school graduation without having to undertake a formal course of studies.

STUDENT SERVICES

During the year, policies and procedures in the administration of financial awards and assistance to post-secondary students were reviewed. The Government's scholastic awards were made available to a larger group of students with more elasticity in their application. The amounts of money provided were on a more equitable basis. The Provincial bursaries were associated more closely with the Canada Student Loans Plan and were granted to students in financial need on less stringent criteria than at any time previously. In both scholarships and bursaries more authority was delegated to the financial awards officers at the designated institutions.

The Student Services Branch was involved in the administration of several other financial-aid programmes. It administered the Summer Work Grants Plan for Imperial Oil Limited under which that company provided bursaries of $1,000 each to 27 post-secondary students employed during the summer in fields associated with their programmes of study. The Branch was responsible for co-ordination and administration of the Summer Language Bursaries Programme, set up by the Council of Ministers of Education of Canada, in which English-speaking British Columbia post-secondary students undertook immersion courses in the French language in Quebec while French-speaking students were able to study English in this Province. The exchange involved 560 students, and a Federal expenditure of more than $340,000. The Branch also assisted in administering the Federal-Provincial Bilingual Training Programme (Post-secondary) financed by the Federal Department of the Secretary of State in which British Columbia became a participating province early in 1973. Ninety-eight teachers of French in this Province received summer bursaries of up to $300 each to assist them in taking an immersion course to improve their oral French. At the same time a number of fellowships were made available, in amounts up to $2,000, to assist students wishing to take a year of full-time study at a Canadian French-language university.

SPECIAL SERVICES



DIVISION OF SPECIAL SERVICES

The Division of Special Services has several areas of responsibility. It approves, for the purposes of section 180 of the *Public Schools Act,* special education programmes operated by boards of school trustees and programmes set up under section 20 of the *Public Schools Act.* It is responsible at the Department level for health services provided by boards of school trustees and for liaison with other Government departments and private agencies in matters concerning the education of the handicapped. The Division also contains four branches—Jericho Hill Schools for the Deaf and the Blind, Correspondence Education, Indian Education, and Guidance Services.

During the 1972/73 school-year, 1,335 aprovals were granted for special education programmes by school boards, an increase of about one-third in 10 years.

Section 20 of the *Public Schools Act* authorizes tutorial assistance for pupils in isolated areas. Fifty-seven pupils, of whom 51 were elementary and six secondary, were provided such assistance in co-operation with the Correspondence Education Branch during the school-year.

The education of mentally retarded children is carried out in classes operated as part of the public school system or in classes operated by local chapters of the British Columbia Association for the Mentally Retarded supported by grants made through boards of school trustees. Each year more classes are, at the request of the local chapters, being taken over by the school boards. There is also a trend towards integrating the trainable mentally retarded into regular schools rather than using separate facilities. Building modifications and special accommodation provisions make this a practical proposition. Subjective evaluations of the effects upon the trainable mentally retarded themselves are favourable.

In 1972 the Association operated 34 schools in 41 school districts for 436 pupils. Twenty-seven school districts operated schools for 1,168 retarded children.

Special Education in Elementary and Secondary Schools

Parallel to the increase in the number of special education programmes has been an intensive effort to improve their quality. Members of the Special Education Teachers' Association and the Professional Development Section of the British Columbia Teachers' Federation spearheaded the effort. A critical development was the inclusion of parents and representatives of many allied disciplines in many in-service training sessions.

During the 1972/73 school-year the groundwork was laid for changes in the provision of services to children. Following the legislation making kindergartens mandatory, the system of approvals was modified to make it possible for school boards to carry out intensive preventive measures at the kindergarten levels. At the secondary levels the single programme available, the Occupational Programme, has been supplemented by two strategies. Following a report of a group of District Superintendents a single approval, known as Learning Assistance-Secondary, was set up to allow individual school districts and schools to tailor special assistance to meet their specific needs. A further strategy was to arrange an increased number of alternative programmes jointly planned, financed, and operated by the Departments of Health Services, of Education, of Human Resources, and of the Attorney-General.

With the increased flexibility in the programmes available to school boards to meet the needs of children with special problems, there has been an increased effort

to avoid labelling and segregation. The retention of children in regular classes with supportive help to students and teachers has underlined the urgent need for widespread in-service training for all teachers in selected aspects of learning disabilities. The growing flexibility in the school system is making integration progressively easier.

An interdepartmental liaison structure was formalized in January 1973 through the formation of the Ministers' Committee for Children by the Ministers of Health Services, Education, and Human Resources with a secretariat representing the various departments. The work carried out so far indicates that progress toward an integrated service delivery system appears an urgent necessity. Up to June 1973 the Committee had laid the groundwork for a very considerable number of alternate programmes at the secondary levels for students with severe problems. These are largely modelled on the very successful programmes pioneered by the Boys' Club of Victoria in Victoria and Sooke. These latter programmes have successfully rehabilitated 75 per cent of their students.

CORRESPONDENCE BRANCH

In annual reports of recent years it has become the custom to emphasize some facet of correspondence education in the Province and then to present statistics connected with the particular year. In the 100th anniversary year, 1970/71, the emphasis was on historical highlights of the Branch since its beginning in 1919. In 1971/72, it was a review of course writing as developed and practised by the Branch. This 1972/73 report deals with the variety of courses.

The number of courses offered in 1972/73 was 185, covering the major-subject fields of English, social studies, mathematics, second languages, science, technical, and vocational subjects generally, and special vocational courses which apply more particularly to adults. There were 23 English courses, among them basic English instruction from Grades I to XII, and, courses in office orientation for commercial students, writing, short-story writing and Bible literature, and three courses in English as a second language which applies to New Canadians, French Canadians, and some native Indians. English upgrading courses for adults were also included.

Languages other than English included a total of 21 courses in French (5), German (5), Italian (1), Latin (5), and Spanish (5), with Russian in the planning stages. All the second-language courses with the exception of Latin were offered with long-playing recordings and the option of using cassette player-recorders. Fifteen of the 16 science courses also included equipment—laboratory kits and instructions on how to make other equipment from materials readily available in the home.

There were 15 social studies courses, including economics, law, geography, and history, and 21 mathematics courses. The latter included a mathematics for adults course which is the equivalent of the Basic Training for Skill Development Programme offered in British Columbia vocational schools and practical mathematics and industrial mathematics designed for those adults who need basic mathematics in a vocation.

General technical-vocational courses numbered 40, among them agricultural, pictorial and commercial art, auto mechanics, diesel engines, electricity and electronics, and a number of commercial courses.

Some of the 24 courses which applied more particularly to adults have already been mentioned. Others which deserve special mention are business law and loan granting for credit union officers, electricity for the building trades, library work for community librarians, and steam engineering and heating courses. These courses were designed to assist in special situations. The credit union courses added to the

background of credit union officers at a time when credit unions were expanding at an accelerated pace. The business law course also prepared people for the notary public examinations as prescribed by the Institute of Notaries Public. Electricity for the building trades is the theoretical background for the British Columbia Class C Electrical Certificate of Competency. Library work for community librarians was developed in co-operation with the Library Development Commission as part of a training programme for community librarians. The steam engineering and heating courses prepared candidates for the Department of Public Works Boiler Inspection Branch examinations.

In conclusion, it is possible to state that the range of courses offered via mail from this Province far exceeded that of any other similar branch in Canada during 1972/73 and former years. New courses are constantly under consideration in an effort to further serve persons in British Columbia who could benefit from the instruction.

The statistics which follow show a decline in enrolment from 1971/72. This may be attributed to the disappearance of Grade XIII courses, recurring uncertainty caused by postal strikes, the continued building expansion and improvement of transportation services in isolated areas of the Province, and the growth of post-secondary services in vocational schools and regional colleges.

General enrolment—	1971/72	1972/73
Grades VIII–XIII and Special Vocational Courses	14,712	----------
Grades VIII–XII and Special Vocational Courses	----------	13,499
Grades I–VII (Victoria)	694	770
Grades I–VII (Pouce Coupe)	115	111
Total students	15,521	14,380

GUIDANCE SERVICES, TEACHER RECRUITMENT, AND YOUNG VOYAGEUR PROGRAMME

In 1972/73, this Branch was responsible for co-ordinating teacher-recruitment activities, the direction of the Department's Guidance Services, and the organization and administration of the Young Voyageur Programme in British Columbia. It is an interesting comment on the changes of the past 15 years that the first of these has shrunk from occupying virtually two-thirds of the time to less than one-fifth, while the last has grown from its small beginning in 1964 to more than one-third.

In the teacher-recruitment operation a complete revision of *Teaching in British Columbia* was undertaken during the year and distribution was made to schools and other interested agencies such as the British Columbia Teachers' Federation. In addition a revision of the Future Teachers Club Handbook was completed.

Attention continued to be given to special areas such as home economics and commerce, where teacher supply is not always adequate. Every opportunity was taken to give publicity to this, both in speaking to public school and university students, and to such bodies as the Joint Board of Teacher Education. To the latter body the suggestion was made that specific details of the supply situation be provided to all those starting a teacher-education programme. There were 31 Future Teacher Clubs reported in the schools, from a high a few years ago of 120.

The year proved to be one of continuing modification of the school Guidance Programme. Following consultation with representative guidance teachers and counsellors, a supplement to the introduction to the Revised Guidance Programme

was prepared and distributed. A wide variety of experimentation in handling the Guidance courses was reported by schools. The Branch continued to issue Guidance Bulletins and send out guidance material which was largely occupational. Among the material was a booklet prepared by the Women's Division of the Ontario Department of Labour suggesting a large variety of occupations for women.

Young Voyageur Programme

During the six weeks from June 30 to August 15, 30 units of 21 students each visited this Province for seven to 10 days, and a like number of students from British Columbia travelled to other provinces. An attempt was made this year to have as many as possible of the visiting units and their hosts spend one or two days in Victoria.

In an effort to support the educational significance of the programme, a substantial amount of material about British Columbia, including copies of *Beautiful British Columbia* magazine, was sent to all who expected to visit the Province. Our own students were encouraged, through briefing sessions, to be prepared to answer questions about British Columbia and to learn something about the part of Canada to be visited. Students were also urged to discuss current Canadian thinking with their counterparts.

JERICHO HILL SCHOOLS

During the 1972/73 school-year the Jericho Hill Schools for the Deaf and Blind enrolled 285 students. Two hundred and twenty-three were deaf or hard of hearing and 62 blind or partially sighted. Forty-one sight cases and 103 hearing cases lived in residence. Attendance was down very slightly from the previous year as integration of pupils into regular school classes and provisions for classes in local settings proceeded. The Deaf School can now give or arrange for instruction from kindergarten through college, university, or vocational school training.

INDIAN EDUCATION BRANCH

The British Columbia Department of Education has under its jurisdiction, through the Federal-Provincial Agreement for the education of the native Indians of the Province, close to 75 per cent of the Indian school population.

The growing awareness of their problems has prompted the Provincial Government to undertake counter-measures. School districts which enrol significant numbers of Indian children in their schools apply to the Special Services Division for Instructional Unit Approvals so that they can begin to develop programmes of instruction to meet the needs of their Indian pupils. These additional approvals, amounting to more than a quarter of a million dollars in the last school-year, were over and above the tuition which is paid on their behalf.

During the year the Department of Education acquired the services of G. N. Wilson, B.A., as a consultant on Indian Education. He undertook the development and assessment of school programmes designed to meet the needs of the Indian children in the public school system.

TABLE 1.1 NET ENROLMENT[1] AND AVERAGE DAILY ATTENDANCE

Enrolment in the public schools rose from 534,523 to 537,106, with all of the increase occurring in the secondary grades. Total elementary school enrolment actually decreased by 1,585 despite an increase of 2,560 in Kindergarten.

Type of School	Number of Schools	Net Enrolment of Pupils				Attendance of Pupils	
		Boys	Girls	Total	Per Cent of Total	Mean Daily Attendance	Per Cent of Enrolment
Senior secondary	23	11,477	11,426	22,903	4.3	18,088.6	78.98
Secondary	117	50,503	49,017	99,520	18.5	83,562.4	83.97

Elementary	1,214	166,628	157,042	323,670	60.3	299,545.4	92.55
Totals	1,529	275,237	261,869	537,106	100.0	481,686.2	89.68

[1] Net enrolment is the total number of students on the register on the first day of school, plus new arrivals during the school-year, minus those who transfer to another British Columbia public school or class.

In addition to the number given above, there were enrolled:

Secondary School Correspondence classes, regular students (exclusive of the 3,184 officially registered in other schools)	1,918
In the Elementary School Correspondence classes, regular students	762
Under section 20 of the *Public Schools Act,* pupils receiving instruction	40
	2,720

Adult Education

Canadian Vocational Training Programme—

Secondary School Correspondence (adults only)	8,397
Elementary School Correspondence (adults only)	79
Public colleges and British Columbia Institute of Technology—	
Full time	10,304
Part time	9,809
	236,209

[2] Includes 118,522 nonvocational.

TABLE 1.2 DISTRIBUTION OF PUPILS BY GRADE AND SEX

The following table provides a distribution of pupils by grade and sex for the school-year 1972/73 and a comparison of the totals with 1971/72. Although decreases in primary grade enrolments will spread upward to Grade IV in September 1973, junior and senior secondary enrolments are still increasing and net immigration continues at a high level. With only moderate immigration and present retention rates, the peak enrolment in Grade VIII will not be reached until September 1976, and total secondary school enrolment should continue to rise until 1977/78.

Grade	Boys	Girls	Total 1972/73	Total 1971/72	Ratio 1973:1972
Secondary					
Grade XII[1]	16,587	16,376	32,963	32,978[2]	1.000

TABLE 2.1 DISTRIBUTION OF FULL-TIME EQUIVALENT PROFESSIONAL STAFF AND PUPIL/TEACHER RATIOS* BY TYPE OF SCHOOL.

The number of teachers employed in the different types of schools and the average number of pupils per teacher are shown in the following table. The net pupil/teacher ratio remained almost exactly the same from June 1972 (22.88 pupils per teacher) to June 1973 (22.86 pupils per teacher). Schools enrolling secondary grades had slightly higher ratios than last year, but schools enrolling elementary grades had slightly lower ratios.

Type of School	Number of Schools	Supervising Principals	Instructional Staff			Total Professional Staff	Average Number of Pupils per F.T.E. Staff Member		
			Enrolling Divisions	Special Staff	Total Instructors		Enrolling a Division	Instructing	On Total Staff
Senior secondary	23	22	755.5	295.5	1,051.0	1,073.0	30.32	21.79	21.34

[1] The total expenditure for public schools was borne by the Government.

[2] Excluding unknown expenditure made for incidental expenses in city school districts.

[3] Since 1922/23 this amount includes the annual grant from the Government to the Provincial universities and since 1963/64 to school district and regional colleges.

[4] Since 1955/56 this amount is exclusive of capital expenditures from by-law funds.

TABLE 3.2 EXPENDITURE FOR EDUCATION, CALENDAR YEAR 1972

(Exclusive of Capital Expenditure for By-law Funds)

	$	$
Total Expenditure by school districts (including colleges)		461,321,694
Add—Department of Education expenditures for administration, Correspondence Schools, Teachers' Pension Fund, free text books and maps, adult education, vocational and technical schools, grants to colleges, universities, and school districts, etc.	425,505,748	
Less—Government grants to school districts included in school district expenditure:		
Direct grants	203,783,797	
Grants to reduce local taxation	70,235,537	
Total Government grants to school districts	274,019,334	
Gross total other Department of Education expenditures		151,486,414
Grand total expenditure		612,808,108

TABLE 3.3 COST PER PUPIL, CALENDAR YEAR 1972

	$	$
Grand total cost of education		612,808,108
Deduct—School district expenditure not affecting pupil cost:		
Colleges and other nonoperating expenditures	31,284,984	
Debt charges	49,081,379	
Current nonshareable capital	3,998,108	
Total school district reduction	84,364,471	
Department of Education expenditures for post-secondary and adult education, correspondence schools, technical and vocational schools, grants to colleges not included in school district deduction, universities, etc.	131,834,778	
		216,199,249
Total operating costs		396,608,859
Operating cost per pupil for year based on daily average attendance of 481,686.2		823.38

Total net enrolment in thousands	.....	467	490	513	527	535	537	+70

It will be noticed that during the six-year period an increase of 70,000 pupils was accompanied by an increase of only 76 schools, most of the increase in enrolment being accommodated by building larger schools or additions to existing schools. As a result, the average enrolment per school increased from 267.6 in 1963 to 352.8 in 1972. But in 1972/73, for the first time in 30 years, the trend was reversed and the average decreased to 351.3.

Thirty-eight ungraded "Type O" schools enrolled children in special classes, an increase of one school during the year. When three schools which were kindergartens are excluded, there remain 35 schools enrolling special students only.

TABLE 4.2 SENIOR SECONDARY SCHOOLS

Three additional schools enrolling only Grades XI and XII were opened in 1972/73 and the enrolment increased by 1,957.

District Number and Name	Number of Schools	Number of Divisions	Number of F.T.E.[1] Teachers	June Net Enrolment
22. Vernon	1	28	45.3	895

89. Shuswap	1	23	34.0	692
Totals	23	758	1,073.0	22,903

[1] In Tables 4.2 through 4.8, data on teachers are expressed in full-time equivalents and apply to school-attached personnel only, i.e., the totals do not include district-wide professional staff.

TABLE 4.3 SECONDARY SCHOOLS

There was no increase in the number of schools enrolling Grades VIII to XII during the year, but the enrolment in such schools increased by almost 1,000. Secondary enrolments are forecast to increase to about 223,000 in 1978 from 204,880 in June 1973. It should also be noted that Grade XII enrolment in June 1973 was slightly lower than it was in June 1972, although it was based on a larger age population.

TABLE 4.5 ELEMENTARY-SENIOR SECONDARY SCHOOLS

Although the number of schools enrolling students in the elementary grades right through to Grades XI or XII remained the same, the enrolment in such schools dropped by 4,833 from June 1972 to June 1973. The reason for the large drop in enrolment was the reallocation of some Grade VII students in two large Vancouver schools to other schools in that district, which caused these two schools to be recategorized as secondary rather than as elementary-senior secondary.

District Number and Name	Number of Schools	Number of Divisions	Number of F.T.E. Teachers	June Net Enrolment

TABLE 4.7 ELEMENTARY SCHOOLS

The decreasing number of British Columbia births from 1961 to 1966 has resulted in a decrease of 4,145 in the Grade I to Grade VII (excluding kindergarten) enrolment from June 1972 to June 1973. Kindergarten enrolment, however, increased dramatically by 2,560 from June 1972, after two consecutive decreases in 1971 and 1972. Grade I enrolment should stay about the same for two more years and then begin to rise again. There were two more elementary schools this year, but about 40 fewer full-time teachers.

TABLE 4.8 SUMMARY OF ALL SCHOOLS

The total number of schools increased during the year from 1,515 to 1,529, but total enrolment (K to XII) rose only 2,583. If kindergarten enrolment is not included, the total Grades I to XII enrolment was almost exactly the same in June 1972 as in June 1973. (There were only 23 more in June 1973). This was the result of declining elementary enrolments and secondary increases that were somewhat lower than were expected. Grade I is expected to start to increase again in September 1974 and secondary enrolments should reach a peak in June 1978 and then start to decrease.

The number of full-time equivalent teachers employed in schools, excluding district-wide teachers and supervisors, increased by 78.1 from 22,280.8 in June 1972 to 22,358.9 in June 1973.

District Number and Name	Number of Schools	Number of Divisions	Number of F.T.E. Teachers	June Net Enrolment
