No. 19.

PROSPEROUS GLADSTONE

Many Promising Properties Persistently Developed.

CITIZENS CONFIDENT OF GREAT FUTURE

Located on the Mineral Belt Its Rich Tributary Mines Slowly but Surely Coming to the Front.

G. T. Curtis, Gladstone's general merchant, was down from that prosperous camp yesterday and registered at the Hotel Cascade. Mr. Curtis says work in the mines around Gladstone is steadily progressing. The tunnel in the John Bull is now in 200 feet, the last contract on it having been completed last Saturday. The indications are more positive and promising than ever. The work of crosscutting will now be begun. Mr. Curtis is enthusiastically hopeful, even positive of a prosperous future for Gladstone. It is located in the mineral belt, and nowhere in the Boundary do the mineral veins assay higher, or show up in larger proportions.

Work to Commence on the Onix.

It is expected operations will be begun about the first of April on the Onix mine on Deep creek within sight of Cascade. This mine is owned by Spokane capitalists, who also own the mine at Chewelah, Wash., by the same name. We are informed that it is the intention of the owners to do a large amount of development work on this mine this spring and coming summer. In this connection it may be said that assessment work will be done on a large number of mining claims in this vicinity during the coming summer months, and no one will be surprised if it should happen that several good mines be the result.

Working Claims on Castle Mountain.

A few days since Ernest Gribi, brother of Fred. Gribi, manager of the Cascade Meat market, began work on their claim, the Mascot, across the river and near the railway track. Mr. Gribi has had encouraging assays from this property which he worked last year, and proposes now to keep steadily at it for the season, and give it a thorough prospecting. It is near the Castle creek water tank.

Frank Devon is also working on his property not far from the Mascot, and last Saturday struck some fine copper ore. It appears as

though the boys would be well rewarded for their work this year.

The British Columbia Copper company who are the owners of the Mother Lode Mine, in Deadwood camp, Greenwood, and the development of whose property has been so great that it required the installation of a larger plant for handling their immense ore bodies have just signed a contract in New York with the James Cooper Manufacturing company, of Montreal, for a complete Ingersoll-Sergeant equipment, consisting of a Cross compound steam, compound air, Corliss air compressor. This is the largest plant that has yet come into the Boundary country, and in point of size is second to none now in operation in Canada. A great deal of interest has been centered in the placing of this order owing to the keen competition of a large number of Canadian and American engineering firms.

TOWN AND BOUNDARY NOTES.

Sam Handy informs The Record that he will start his draying business again

Mrs. Julius Black, accompanied by her children went to Eholt last Saturday, where Mr. Black is in business.

C. E. Roberts is the genial mixologist behind the bar at Black's hotel now conducted by A. Ravine & Co.

A force of 50 men are employed on the C. P. R. near Gladstone, where the slide occurred this week, and it is said that the men will be required at that point for some time to come.

Ing Yee, one of Cascade's Chinese laundrymen, attempted to go to Greenwood Thursday but was turned back because he had not conformed with the vaccination regulations.

Greenwood has seized the bull by the horns. No one passing through Grand Forks can enter that town without a clean health bill and a scab on his arm. Even the incoming trains are flagged and searched.

Health Officer Widdicombe desires The Record to call the attention of its local readers to the fact that there are a number of yards and other places in Cascade not in the best sanitary condition, and that the law makes it his duty to remedy these wrongs. If owners do not comply with his request to renovate, it will be done by others at their expense. Officer Widdi-

combe is doing all he can to protect and improve the healthful conditions of this community, and our citizens should render him every assistance possible.

A sneak thief entered the private apartments of Mr. and Mrs. M. J. Quinlivan, at the Cosmopolitan hotel, last Wednesday morning, while they were below in the dining room taking breakfast, and stole a valuable gold watch and chain, belonging to Mrs. Quinlivan. The thief has not yet been apprehended.

Presbyterian Church Social.

The semi-monthly Presbyterian church social will be held next Thursday evening in the Townsite building. Following is the programme to begin at 8 o'clock sharp:

Organ Solo, Miss Darrow; Recitation, Mr. Geo. Ritchie; Song, Mr. G. K. Stocker; Violin Solo, Mrs. M. J. Quinlivan; Recitation, Mr. Dalgleish; Duet, Mrs. Quinlivan and Mr. Stocker; Reading, John Simpson; Song, Mrs. Quinlivan; Hymn, "Nearer my God to Thee," Audience.

After the programme charades, games, etc., will be enjoyed. Refreshments will be served at 10 o'clock.

A Bluenose Gains the V. C.

Osburne Matheson, one of the first Canadian contingent, has won distinction. He enlisted from New Castle, New Brunswick. Was wounded at Paardeberg. Later on came the news that Matheson was the first man into Cronje's laager in the memorable Paardeberg fight, and that his conspicuous bravery had caused him to be recommended for the Victoria Cross, an honor which, if he survives the campaign, he seems shure to obtain. So far as is known Mr. Matheson has achieved the distinction of being the first of the Canadian volunteers to be selected for that honor so coveted by all soldiers.

Politics Beginning to Sizzle.

In many of the larger places in the province the voters are showing an anxiety to know where they are at. So it is with aspirants for official places. Daily conventions are being held by Conservatives, Liberal-Conservatives and Liberals. The leaders on all sides are drilling their forces to go into the coming campaign with vim.

Premier Martin has issued a 22-plank platform, the greater part of which is very good timber. Too many voters, however, will be apt to think that the only use he will make of it will be the same as that of the platform of a railway car, to get in on.

BLOEMFONTEIN SUCCUMBS

General French Enters the Free State Capital.

THE WHITE FLAG HOISTED TUESDAY

Lord Roberts has His Headquarters at the Late Residence of President Steyn, who had Fled to Safer Quarters.

The British forces in South Africa are marching from victory to victory, and the Boer forces are everywhere demoralized. It is believed that the Boer cause is in a state of collapse. Presidents Kruger and Steyn have sued for peace and asked for terms, invoking the mediatorial assistance of President McKinley, but the British authorities will not pay heed to their overtures till the Boer warriors lay down their arms.

A dispatch to the Daily Chronicle from Bloemfontein dated Tuesday evening March 13th says: "Bloemfontein surrendered at 10 o'clock today. It was occupied at noon. President Steyn, with a majority of the fighting burghers, has fled northward.

General French was within five miles of the place on Monday afternoon. He sent summons into the town threatening to bombard unless it was surrendered by 4 o'clock on Tuesday morning. A white flag was hoisted on Tuesday morning and a deputation of the town council with Mayor Kellner came out to Lord Roberts at Spier Kop, five miles south of the town, making a formal surrender of the place.

Lord Roberts made a state entry at noon. He received a tremendous ovation. After visiting the public buildings he went to the official residence of the president followed by a cheering crowd, who waved a British flag and sang the British national songs. They were in a condition of frenzied excitement.

On the Monday afternoon previous to the surrender there was a little sniping and shelling, but the enemy retired.

Lord Roberts has his headquarters at the president's house and there are many of the wounded in the building. The railway is not injured.

The Canadian Patriotic Fund has reached \$180,000 and is still climbing.

NOTICE--Is hereby given that I, the undersigned, will not be responsible for any debts contracted by my wife, Mrs. Aca Thompson, she having deserted my bed and board, and all parties are warned not to trust her on my account.

A. H. THOMPSON.

Impervious Joe Martin, with a sere conscience, steeled heart and a generally petrified condition, goes on ruling as a king or despot, and as a piece of inanimate machinery driven by an extraneous force, regardless of the nice things the press is saying about him. He is wholly oblivious of the murmurings of the wild, wild waves down by the sea. One thing is certain. Joe's enemies can never despoil him of the honor of having been at one time the "first" man of British Columbia. He may kick over the lamp and set fire to the parliament buildings before he is rounded up, but he has achieved honor, rather notoriety, that will cover a multitude of sins when he has completed his spectacular march over the veldt and copies between the "womb of time and the tomb of eternity."

So long as the attempt to conduct the politics of the province on non-partisan lines is followed, just so long will the political field be found overflowing with self-constituted leaders, who will split the voters into innumerable factions and rally them around minor and unimportant theories. All governments must have great fundamental principles of national character. To build up a force behind these principles the foundations must be laid at the beginning in local education. The component parts of the national party are scattered throughout the length and breadth of the land. To unify and crystallize these local units they must be educated along the lines of national political action. Otherwise there will exist a hurly-burly condition such as we have witnessed at Victoria the past three months.

Notwithstanding the fact that dishonest and unreliable persons secure government positions, filch from the public treasury and disburse the people's money with recklessness, yet governments must be sustained. Every citizen entitled to a hand in the government of the country in which he lives, owes it to himself, his family, his fellow-beings to prepare to exercise that function with intelligence and persistency. The ballot is a sovereign right which every man may enjoy, and to which great responsibility attaches. Every man so entitled

should be prepared to vote on all questions of government policy submitted to the people. To be so prepared it is necessary that his name should appear on the voters' list. Is your name there, reader? If not, why not? Mr. Angus Cameron and Geo. C. Rose have the necessary blanks and will help you to get on the list.

The Le Roi, War Eagle and Centre Star mines, which for a time have been completely shut down for machinery and repairs are now ready to resume operations. They decided to use the contract system in the future, to pay by the quantity of work done instead of by the day. The men were informed of the new arrangement. Contracts will be let from day to day until the mines are in full operation. The miners have so far refused to take contracts, pending consideration of the matter in meeting.

If it were not so serious, the division of political parties in the province would be very comical. We have the Turner faction and the Eberts faction and the Helmcken faction of the Turner party. We have the Wilson Conservatives and the Tupper Conservatives. We have the Martin Liberals and the Davis Liberals, and the Brown Liberals. There are also other splits to numerous to mention.—Greenwood Times.

The approaching completion of the great Siberian railway suggests to some enthusiasts the possibility of an all-rail route on this continent, connecting with the Russian trans-Asiatic line by the large transfer ferries across Bering Sea. That would make it possible to travel by rail from Jacksonville, Florida, to Paris or Lisbon—seven-eighths of the way around the globe.

An exchange truthfully remarks: "The man who complains the most of the preacher pays the preacher the least; the man who runs down his town does the least to build it up; the man that condemns his home paper, does the least to make the paper a success. He says the town is no good and that it is dead. But he is mistaken—he is the corpse."

About the meanest man in this whole political mixup is that fellow down in Vancouver who said a vicious dog which had been chained up committed suicide by hanging himself because Joe Martin had asked him to join his circus as a cabinet officer.

E. C. Hall, a well known C. P. R. operator at Rossland died very suddenly in that city Monday, having been ill only a few hours. He was a native of Jamestown, N. Y., and leaves a widow.

The close season for trout fishing ended Thursday.

Administrator's Notice.

JOHN GIROUARD, Deceased.

NOTICE IS HEREBY GIVEN THAT BY an order made in the County Court of Yale, holden at Kamloops, dated the 2d day of March, 1900, the undersigned was appointed Administrator of the goods, chattels and credits of the above named John Girouard, deceased. All persons having claims against the estate of said deceased are requested to send in same, duly verified, to the undersigned on or before the 14th day of April, 1900, and all persons indebted to the said estate are requested to remit the amount of such indebtedness to the undersigned forthwith.

Dated this 2d day of March, 1900.
FREDERICK J. FULTON,
Official Administrator for the County Court,
District of Yale.
Kamloops, B. C. 1118.

ASSAYERS.

SELBY BRO'S of San Francisco, California, Assayers and Mining Experts. To the Mining Public of the Pacific Northwest: We beg to advise you that we have opened a branch of our business at No. 205 1/2 Washington St., Portland, Oregon, to accommodate our numerous clients in the Northwest. As our name for prompt and reliable work in the past is known in every mining camp west of the Rockies, it will guarantee our future success. Our certificates are invariably accepted by banks and mining corporations as final. Numerous investors waiting for sound mining property. We are now ready for work. Send in your samples with letter of instructions and charges, and we will give you prompt returns. Our charges are—Gold and silver, \$1.50 Gold, Copper and Silver, \$3.00. Coal, Soil and other minerals, \$5.00 each. Check assays a specialty. **SELBY BROTHERS**, Assayers and Mining Experts, No. 205 1/2 Washington St., Portland, Oregon. Hand Power Stamp Mills for sale—\$80 complete.

Notice

IS HEREBY GIVEN THAT SIXTY DAYS from this date I shall apply to the Chief Commissioner of Lands and Works for permission to purchase the following described tract of land: Beginning at a post marked "S. E. Post," situated on the south shore of Texas Point, east side of Christina lake, thence running north 40 chains, thence west to the shore of Christina lake, and from thence following the shore of the said lake to the point of commencement, and containing 160 acres.

Dated this 17th day of February, 1900.
GEO. C. ROSE.

Mining not a Lottery.

Gold mining, when carried on as a business, is nothing more nor less than the application of business intelligence, skill and experience, together with requisite capital, to conditions of earth and rock favorable to the production of the precious metals. The history of every mining camp is that mines are made rather than found. The location of a promising claim, the publication of extravagant assays from surface diggings, do not make a mine, nor yield returns to investors. In every mining camp are found mines, that frequently are the best and most valuable there, which at some stage in their history were operated by novices, not alone in intelligent mining, but also in practical business affairs. They could find surface indications, locate the vein and make the beginning of a mine, but they failed in the crucial test of properly and judiciously expending their capital. After struggling along the property has passed into the hands of practical business men, who have, under careful management, made a profitable mine where the novice had failed entirely. The requisites of successful mining are not alone in possessing the veins containing the precious metals, but also the

knowledge and skill of how to best develop the property for the economical working of it as a legitimate business proposition. The successful management of a mine requires the business qualifications as are necessary to conduct a prosperous manufacturing enterprise or mercantile business, and no other business can offer such inducements to investors as gold mining when properly conducted, and surely no mercantile business, no manufacturing enterprise offers such an attractive field for large, steady dividends. The tariff makes no change in its steady, increasing profits. Political parties may come and go, but the price of gold remains the same, while science and improved machinery constantly reduce cost of its production.

The old idea that mining is a lottery, and a matter of chance, has been exploded the past few years, and is now regarded by sensible people as a safe legitimate and profitable investment, when care and good management are applied to it as in other lines of business.—
Bonds and Mortgages.

It is contended that Canada showed no promptness in sending aid to the mother country in South Africa, yet the fact remains that Canada was the first of the colonies

to put troops on the sea, with the single exception of New Zealand, which was about a week ahead of us. And Canada has sent more men than New Zealand, New South Wales, Victoria, and all the other Australian colonies put together.

JOHN DORSEY, Prop

IN AND AROUND CASCADE.

"St. Patrick's day in the morning."

Mrs. B. Wilcox, of Cascade is spending a few weeks in Spokane, visiting relatives.

Dr. Schaich returned from a trip to Spokane last Monday, having been absent several days.

If a stray cobbler should happen to come this way, he might find it to his advantage to open a shop here.

Dr. Jakes, of Greenwood, Deputy Health Officer for the Boundary district, was in Cascade last Saturday. While here he vaccinated 14 school children and eight or ten adults.

John Earle, proprietor of the Cascade sawmill, has on hand a large supply of well-seasoned lumber of all kinds, and parties in quest of such material will do well to interview Mr. Earle, or send in their order by mail.

The heaving effects of the frost as it is drawn from the ground by the warm sun and Chinook winds has caused a good deal of trouble and expense to the railways. On the Columbia & Western there have been numerous slides, and nearly every day the trains are delayed from one to ten hours.

Rev. W. A. Alexander of Columbia will occupy the pulpit in the Presbyterian church here to-morrow. It is hoped there will be a good attendance at the morning service, it being the only one to be held during the day, as Mr. Alexander will be obliged to return to his own church in the evening. Sabbath school will be held as usual immediately after the morning service.

A few evenings ago two well-known citizens indulged in a competition in the matter of telling "punkin" stories. The "punkins" seen by these gentlemen in their time were considerably ahead of anything mentioned in the Arabian Nights, and fully equal to the famous beanstalk climbed by Jack. The citizens of Cascade should send for the seeds of some of these "punkins," as, when full-grown, they could be hollowed out and used for dwelling-houses. A "punkin" shell would make better walling for a house than persimmons.

A Serious Land Slide at Sandon.

Sandon experienced a disastrous land slide last Sunday. Wm. McLeod was killed, and Mrs. H. Nash and Wm. Lovett were seriously injured, and Rev. J. A. Ferguson escaped from a building that was crushed into kindling wood. Six residences were wrecked.

"Don't keep tellin' po' folks how sorry you is you can't help 'em," said Uncle Eben. "Dey has too much trouble of deir own to stop 'an sympathize wid you."

Spring Cleaning Time is on.

Now that warmer weather is approaching the sanitary conditions of the town should be given attention by our citizens. All unsightly and objectionable refuse matter subject to decay and thereby endanger health should be removed from back yards and other places where their presence is offensive. It is noted that several citizens have already begun this commendable work.

Off for San Francisco.

Mr. Gerald Upton, who came out from London, Eng., some fifteen months since, and who has been during that time in the employ of the B. C. Mercantile & Mining syndicate of Cascade, is arranging to take a trip to the coast cities from Vancouver to San Francisco. Having influential friends in the latter city, he will probably secure a good position or enter business in the metropolis of California. Mr. Upton has many friends here who with the Record wish him success wherever he may go. He is a bright, capable young man, and with due effort will undoubtedly attain to a place of prominence in the business world.

Our Local "Bores" Active.

Cascade is greatly interested in the "bore" war that is going on up the river a little ways. Olaf Olsen now has an army of 50 men boring away in the 400-foot tunnel of the water works, and expects to continue the attack for the next six months before daylight will be visible through the big "bore." Meanwhile contractor Quinlivan is executing a flank movement with a larger army throwing open a big cut, and reinforcements are arriving daily. During this long struggle with huge masses of dirt and rock Cascade is getting the benefit of the big payroll, and is entitled to a place among the chief industrial cities of the Boundary.

NOTE AND COMMENT.

As we see it, to draw party lines means adherence to principles instead of political leaders. It ought to be an easy matter for one to decide which is the safer of the two courses.

F. E. Simpson of the Cranbrook Herald, with other parties—Wm. Doble and Geo. Shier, will go to Cape Nome this summer with a stock of groceries, on speculation bent.

Complaint is made that if the elections are delayed till June, the house cannot meet till Sept. 1st. As the general appropriations expire on the 30th of June, there will be no milk in the public udder for the pap suckers during two months. How saddening it is to contemplate such a fate for a horde of innocent dependents!

Who is there prepared to say that if the Cotton-Semlin government had been established on party lines it would have passed out of existence amid the blaze of distressing ignominy which enveloped it in its last days?

Melbourne, Australia, a city with half a million population and rapidly growing, has taken an advanced stand for municipal ownership. She owns absolutely her gas works, and last year made a profit of over \$1,500,000. The street railway system will soon revert to her when she will transport passengers a distance of three to five miles for one cent. Long ago she adopted the eight-hour law for all city employees. She provides for the free transportation of school children. She furnishes free employment exchanges and one of the finest school systems in the world. Next to Paris it is the equal of any. The municipality gives encouragement to trades unions. The city owns the docks and conducts the steam ferries. She is making tremendous strides in many improvements and it is freely predicted that from now on she will advance much more rapidly in municipal ownership than in the past.

Dr. Lelsie E. Keeley, of gold cure fame, died suddenly in Los Angeles, Cal., a few days ago. People will always be divided on the opinion as to the worth of the gold cure, but it made a fortune of over two million dollars for its discoverer just the same.

Keep your eye on Cascade.

HERE'S A POINTER.

If You Wish The Cascade Record.

To keep thoroughly posted on the fast moving events in the growing Boundary and Christina Lake sections, there is only one way to accomplish it, viz:

Just get in line, follow the crowd and subscribe to . .

It costs only Two Dollars to get in out of the wet, and receive 52 copies of the Record. Printed on good paper with good type and good ink.

\$200,000 Presbyterian Church Burned.

The Second Presbyterian church at Twentieth street and Michigan avenue, Chicago, was destroyed by fire recently. The building was the home of one of the most aristocratic congregations in the city. A reception was being given in the church parlors by the Young People's Christian Endeavor Society of the church, and the assemblage was in the midst of the festivities when the blaze was discovered in the organ on the main floor. There was a wild rush for the exits but all escaped unhurt. The loss on the building and furnishings is estimated at \$200,000.

On Palmer mountain in Okanogan county, Wash., a tunnel 2816 feet long cut eighteen veins. The last vein was 30 feet between walls, with an average assay across the vein of \$25.

NOTICE.

NOTICE is hereby given that application will be made to the Legislative Assembly of the Province of British Columbia, at its next session, for an Act to incorporate a Company with power to construct, equip, maintain and operate telephone and telegraph lines within and throughout the Province of British Columbia, and to construct, erect and maintain such and so many poles and other works and devices as the Company deem necessary for making, completing supporting, using, working, operating and maintaining the system of communication by telegraph and telephone, and to open or break up

CASCADE CITY'S ATTRACTIONS!

MAGNIFICENT WATER POWER!

Now under development. Look at the immense dam, 400 feet long and 50 feet high, now under construction. The flume and tunnel to convey the water will be 16 feet wide, 13 feet deep and 1000 feet long. The water will be conveyed from the mouth of the tunnel to the water-wheels, through two iron pipes, each 8½ feet in diameter and 2000 feet long, with a perpendicular fall of 156 feet.

Excavation for a power-house is now in progress near the wagon road bridge, and the excavation alone will cost \$10,000. Development of this power is now under construction and will be prosecuted as rapidly as possible. A 10,000 horse power will be obtained, which will be used in developing electrical power to be transmitted to all the mines in the Boundary and Christina Lake Districts.

Estimated cost of plant, complete, is **\$500,000.**

Beautiful Christina Lake and Surroundings!

The fisherman's delight and the hunter's paradise. This lake is 18 miles long and from one to three miles in width.

The Mineral Wealth

About Cascade City, while practically undeveloped, is most promising, and marvelous wealth awaits the hand of man to reveal the country's hidden resources.

Look closely at our advantageous location and you will not fail to have a good impression of

Cascade, the Gateway City.

any part or parts of the said highways or streets as often as the said Company, its agents, officers or workmen think proper, and for the purposes of the undertaking to purchase, acquire or lease and hold and sell and dispose of lands, buildings or tenements within the limits aforesaid, and to purchase or lease, for any term of years, any telephone or telegraph line established or to be established, in British Columbia, connected or to be connected with the line which the Company may construct, and to amalgamate with or lease its line or lines or any portion or portions thereof, to any Company possessing, as proprietor, any line of telephone or telegraph communication connecting, or to be connecting, with the said Company's line or lines, and to borrow money for the purposes of the Company, and to pledge or mortgage any of the said Company's assets for that purpose, and to receive bonuses or privileges from any person or body corporate, and with all other usual, necessary or incidental rights, powers or privileges as may be necessary or incidental to the attainment of the above objects, or any of them.

MACKENZIE & MANN'S RAILROAD.

Will Run From Edmonton Through Northern
British Columbia

It is announced from Montreal that Mackenzie & Mann have completed their financial arrangement and that a port in British Columbia will be the terminus of another transcontinental railway much sooner than was generally expected. The line will be called the Edmonton, Yukon & Pacific railway, and will run from South Edmonton in a northwesterly direction through the Yellowhead pass, through British Columbia, and terminate on the Pacific ocean at Port Simpson. The new arrangements look to the completion of a great portion of the road the coming season.

The country around Edmonton is well known to be extremely valuable, while the section of British Columbia that is to be opened up is not unlikely to prove as rich in resources of every kind as the portions of the province now accessible to prospectors and agriculturalists. The connection of the new road with sections of line already constructed and portions yet to be built will eventually make the railroad a transcontinental one.—Victoria Times.

The March number of the Canadian Magazine will be a special military number with colored military cover, the design of which shows the Canadian Mounted Rifles parading on a Canadian street. The organization of the second contingent and the embarkation will be described by two writers and each of the articles will be illustrated with a number of photographs which have been taken specially for this purpose. J. Castell Hopkins writes the opening article in which he gives the history of British Policy in South Africa during the present century. Malcolm Ross, a member of the artillery brigade in the second contingent, has an excellent article entitled "Types of Artillery." C. A. Matthews writes a short biographical sketch of the Minister of Militia. The publishers announce that this will be the finest number of the Canadian Magazine they have ever turned out.
