Vol. I.

CASCADE, B. C., JULY 29, 1899.

No. 38.

STRONG COMPANY FORMED

To Prosecute Development on Four Christina Lake Properties.

VICTORIA GOLD-COPPER MINING CO.

Has a Capital of \$1,000,000, and Will Start Work on a Hundred Foot Tunnel at Once. Details Arranged at Rossland.

This week Frank E. Starkey, D. C. Beach and Jerry Spellman, owners of the Victoria group of gold-copper mineral claims on Christina lake, held a meeting at Rossland, and signed incorporation papers. The new corporation is styled the Victoria Gold and Copper Mining Co., Ltd., and has a capital of \$1,000,000 in one dollar shares. Of this amount 50,000 shares will be placed in the treasury at 10 cents, a good part of which is already spoken for. The new company will be a British Columbia concern, and the head office is to be located at English Point, on the lake. Mr. Beach, who returned from Rossland Thursday, has already gone to the claims, and begun the work of getting the office ready.

The property of the company consists of four full sized claims, the Victoria, Evening Star, Copper Wonder and Copper Mountain, in a solid block, and they extend to the lake shore. The track of the new railway line is already laid across the property, so that immediate and cheap transportation is assured as soon as the company is ready to ship, which it is not believed will be long.

Thus far most of the development work has been done on the Victoria, which has a 30 foot ledge of sulphide ore, assaying \$27, \$29 and \$36, respectively. A Record representative recently visited and inspected the property. Work has already been started on a tunnel to tap the ledge at a depth of 100 feet, and Mr. Beach will take a contract to drive this in for 100 feet or more, working night and day. As Mr. Starkey has been very successful in his mining operations, and is a careful, conservative man, all the capital needed will be readily obtained. Mr. Beach says that he can dispose of \$1,000 worth of stock just to the few who have seen the property and noted the magnificent showing.

Excellent Assays on John Bull.

The John Bull Mines, Ltd., has been steadily developing the John Bull group for months, located close to Gladstone. The members of the company have not been making much noise, but steadily "sawing wood," all the same. A few days ago Hugh McCutcheon, of Rossland, visited the property, and while he was there another contract for driving the tunnel an additional 100 feet was let. The tunnel is now in 70 feet. From average samples from the main

ledge Mr. McCutcheon obtained assays of \$31.68, \$36.36, and \$47.80, respectively, in all values, the principle value being in copper. Owners of John Bull stock are feeling very good indeed at this showing, and believe the property will make a mine. Heretofore the assays have been quite satisfactory, but these are still better. Little, if any, treasury stock has yet been sold, but it is likely that a limited amount will be disposed of.

Provincial Land Surveyor J. D. Anderson, has been surveying the Edison group, Mecklenburg and others in the Burnt Basin, for the purpose of making application to secure crown grants.

LOCAL AND GENERAL.

The Nelson, B. C., base ball team will cross bats with the Grand Forks boys at the latter place tomorrow.

According to yesterday's Nelson Tribune, the Kootenay-Yale saw-mill combine is likely to fall through.

The Ladies' Aid Society are preparing for a lawn party to be given in a short time for the benefit of Rev. J. McCoy.

W. H. McKay, senior member of the firm of McKay & Argall, ferrymen and contracting freighters, of Bossburg, was in Cascade Friday. He will go as far as Greenwood before returning.

"FIGHTING JOE" IS FIRED

Was Virtually Kicked out of Premier Semlin's Cabinet.

HIS RESIGNATION HAS BEEN SENT IN

At the Government Caucus Thursday, the Pugnacious Attorney-General Had Only Three Supporters.

Victoria, B. C., July 27.—Little by little the truth about the government caucus last night has leaked out, in spite of the promises of secrecy by the members who were present. One of the main reasons that Speaker Forester, Munro of Chilliwack and other former Martin supporters went back on him was because of the charges that Attorney General Martin's moral life was not as it should be. Martin boldly challenged those who made these insinuations to put them in writing and sign them, but this, of course, no one was inclined to do. No motion was put to the meeting, as Martin promised that as the majority were against him he would send in his resignation as attorney general. This he did this afternoon, writing his formal resignation and placing it in the hands of the lieutenant-governor's secretary. Of course, it can not be acted upon till the lieutenant-governor returns

from Atlin in a few days more. Martin, however, says he will not resign his seat in the house, but as a private member will remain to fight the men who have ousted him from office.

At 6:30 this evening Martin had a row on Trounce avenue, the most prominent place in the business center, with Walter C. Nichol, editor of the Vancouver Province, the paper that was instrumental in bringing him into public life in British Columbia. The paper, in view of recent events, has gone back on Martin, and this has made him very angry. Nichol approached Martin as the latter was talking with a group of friends and wished the attorney general good evening. Martin would not notice him, and on Nichol repeating the greeting Martin turned round with a contemptuous grunt and taunted Nichol with deserting him, furthermore saying that he had been instrumental in keeping Nichol in his present position. The lie direct passed between them and Martin gave Nichol a great tongue lashing, calling him a "son of a gun," and roasting him roundly. No blows, however, were struck, though it looked at first like a fight.

There appears to be no decision yet as to Martin's successor, though Charles Wilson, Q. C., Vancouver, would, it is said, be Semlin's choice if a seat could be found for him. W. W. B. McInnes, son of the lieutenant-governor, is also spoken of.

IN AND AROUND CASCADE.

Constable Dinsmore, of the Forks, was in town Monday.

For water melons, peaches, cherries, raspberries, etc., go to Francis & Milne.

E. S. Topping, the father of Trail, stopped in Cascade Wednesday night.

One day last week the mercury registered 98 degrees in the shade at Midway.

The Republic Miner does not believe that camp will get railway connection this year.

Rev. Dr. Robertson will occupy the pulpit of the Presbyterian church tomorrow evening.

J. D. Anderson, P. L. S., of Trail, who has been surveying mineral claims in the Burnt Basin, came down Wednesday.

Midway wishes to be represented at the Rossland meeting of the boards of trade of Kootenay and Yale next week. It should be.

W. W. Banning was murdered at Republic Sunday afternoon, by having his skull crushed in with a rock. The assailant is not known.

A large number of the friends of W. B. Paton, of Greenwood, were shocked to learn of his death recently. He was an old timer in the country.

Mr. Eva Smith and Miss Rhoda Stewart, both formerly of Cascade, who were married a short time ago in Vancouver, are now on their way to Europe on their wedding trip.

TAKE IT OVER TO CASCADE

C. P. R. Will Operate New Line to This Point.

ORDERS ISSUED TO THAT EFFECT

Track-Layers are now in Sight of the City, and Will Reach the Kettle River Next Week.

"The C. P. R. will take over the completed portion of the new line as soon as the track is laid into Cascade," said Supt. Jack Stewart, of Mann, Foley Bros. & Larson, to a Record representative this morning. While this was expected, the definite announcement means a great deal to Cascade, and to the entire Boundary district, which has been so long waiting for railway transportation.

Mr. Stewart returned this morning from a few days' rest at Halcyon Hot Springs, and came in over the railway, which is now a trifle over three miles from Cascade. The rails will be over Sutherland creek Monday, and by next Saturday will doubtless reach Kettle river. The pleasant whistle of the track-laying locomotive is now heard here daily, and far up the long grade the workmen can be seen.

Dan Brown and his 50 men are finishing up leveling the grade east of town, and in a few days he will begin the work of widening the grade west of the city some four or five feet. It is done to permit the construction of the flume by the Cascade Water Power Co. Nearly a thousand yards of rock are to be removed, and this work will probably be completed before the additional sidetrack is put in at the station grounds.

It has been decided not to put in false work for the span over Kettle river, at the head of the falls, but to put in the 120-foot span itself, the timbers for which are now in the yards at West Robson. It is the intention to use a lighter steel from Cascade on, than the 73 lb. rail laid in the mountains. None of the lighter weight rails are now on hand.

All the stringers for the bridges come from the coast, and Supt. Marpole is finding it difficult to get rolling stock to handle them. Some 30 carloads are yet required, but special efforts are being made to get in the 10 cars required for the 1600-foot bridge over the Kettle river at Cascade.

It will thus be noted that, as soon as the track reaches Cascade, and is accepted by the C. P. R., this city will be passenger and freight headquarters for some time to come.

Mrs. T. F. Carden and children and F. P. Rathbone, a director in B. C. Mining and Mercantile Syndicate, sailed from London Thursday, by the Dominion line for Montreal, and will come direct to Cascade.

MINES AND MINING

Brief Bits From Many Camps.

On the Pasadena group, in Greenwood camp, 13 men are at work.

Three feet daily are being made in the 500-foot tunnel in the Volcanic claim. A townsite has been laid out close by.

The Gold Bug, in Wellington camp, has 9 men at work. A new plant from the Wm. Hamilton Mfg. Co., will soon be installed.

The latest report from the Pathfinder is that 12 feet of solid ore has been struck. Development goes steadily on with this north fork property.

A miners' union is to be organized shortly, at Greenwood. James Wilkes, of Nelson, general organizer, will be on hand to complete arrangements.

Railway workmen, while grading for the spur to Summit camp, recently opened up three new ledges on the Oro Denoro property, in which Smith Curtis is largely interested.

A 10-drill air compressor and hoist will be installed on the Morrison, Deadwood camp, as soon as the railway is completed. Ore in the shaft assays \$21 in gold and 1 per cent copper.

Work is about to be started on the Rathmullen group, on the north fork of Kettle river. The property has a 90-foot shaft with a 60-foot crosscut, and so far shows a ledge 30 feet wide.

Camp McKinney was named after Al. McKinney, a prospector, who discovered and named it in 1887. He discovered the now famous Cariboo, which, however, was not well known till 1894.

Word has been received from B. T. A. Bell, secretary of the Canadian Mining Institute, that on the forthcoming visit of the members to British Columbia, the itinerary will include the Boundary section.

A 20-drill air compressor has been ordered for the Sunset mine in Deadwood camp, to come from the James Cooper Mfg. Co., of Montreal. The owners of the property have \$125,000 on hand for development.

The Royal Victoria Mining Co. is the name of the company being formed to take over the Golden Eagle group, on the north fork of Kettle river. It will have a capital of \$1,000,000, and the property is owned by S. Moulton Barrett.

The annual meeting of the Cariboo Consolidated Gold Mining Company of Camp McKinney was held in Toronto a few days ago. From the statement submitted it is learned that the total out-put of the Cariboo to date has been about \$615,000 and the dividends \$348,000.

Henry Johns, well known as the superintendent of the Mother Lode, Deadwood camp, has tendered his resignation, and will soon take charge of the Sunset group, in the same camp, owned by the Montreal Boundary Creek Mining Co. Mr. Macfarlane, who has had charge of the Sunset during its 1,350 feet of development, will be the business manager of the concern, with headquarters at Greenwood.

BIRD NOTES.

The martin is a bird. There are three types: House martins, Sand martins and Joe Martins. The last and least variety is of the swift species, hard to swallow and very indigestible. Unlike the Sand martin, it is opposed to mining operations. It is short-lived, presto maduro, presto podrida. It has bright eyes and a hooked beak, a black coat and a snow white breast. Sometimes over feeds and becomes ferocious after meals. It soars like an eagle and falls like a sand bag. Has even been known to attain great altitude, but cannot survive the elevation and descends abruptly to its normal level. Of inferior craniological development but presents a bill of abnormal dimensions. Its soul is in its feet. Will work only eight hours daily. Is migratory in its habits, an occasional visitor to British Columbia; of no known utilitarian value and likely to disappear as autumn approaches.

Late Metal Quotations

New York, July 27.—Bar silver, 60 3/4c. Mexican dollars, 48c. Lake copper—18.50.

Lead—4.55@4.75.

The firm that fixes the selling price for miners and smelters quotes lead \$4.35 at the close.

Telephone Line Makers.

N. R. Stone, manager of the Columbia Telephone Co., was in town Thursday, and stated that the switchboard for the Cascade exchange was at Bossburg. It will be brought up at once, and the exchange installed without further delay. The Columbia Co.'s wires are now strung through to Camp McKinney, and conversation can now be carried on from Spokane to that point—nearly 200 miles. In a few days the loop into Rossland will also be completed.

Business with the Nelson & Vernon Co. has been so good that they are now sending messages by telegraph, the only two instruments being at Greenwood and Rossland. The telephone wires are being used for this service, the advantage being that no additional wires are required. Local offices, however, are not permitted to cut out.

LOCAL AND GENERAL.

In another column of this issue will be noted the advertisement for tenders for Cascade's new school building.

W. K. Esling, publisher of the Trail Creek News, and J. M. Worth, also of the smelter town, were in Cascade this week on a trip through the Boundary.

D. W. Moore, ore buyer for the Trail smelter, stopped in Cascade this week, on his return from one of his periodical visits to the prospective shippers of the district.

John Dorsey and wife were in town Tuesday, en route from Gladstone to Eholt or other upper Boundary points, where he expects to locate in the hotel business.

Chief Engineer Tye and Chief Assistant Sullivan, of the Columbia & Western, returned Thursday

from Penticton, whither they went with Messrs. Whyte, Marpole and others of the C. P. R. party.

Paul Corcoran was sentenced to 17 years for complicity in the murder of James Cheyne in the Coeur d'Alene riots last spring.

N McLellan & Co. have five cars of feed awaiting the coming of the new railway, which will probably have to come the old way to get here in time. Victor Monnier has a car of Pabst beer routed over the new line.

Rev. J. McCoy returned Wednesday from the meeting of Kootenay Presbytery at Rossland, and reports a successful session. Cascade's pastor was placed on several important committees of the new organization.

Louis and Moses, the two Indians who were found with V. Monnier's horse, had their hearing before Justices Rochussen and Matheson on Monday. There being no witnesses, the noble red men were permitted to depart. Mr. Monnier has the cayuse.

Frank Draper arrested at Republic some days ago for horse stealing, is also charged with the murder of a man on the Kettle river two years ago, and is in close confinement. The body of the young man killed was found between Curlew and Midway near Toroda creek ferry. He was last seen alive with Draper, and the two were quarrelling.

TENDERS FOR SCHOOL.

Sealed tenders addressed to the undersigned and marked Tenders for Country School, Cascade City, B. C., will be received until 12 o'clock noon on the 10th day of August, 1899, for the erection of a school house in Cascade City, B. C. Plans and specifications will be on view at the office of the undersigned and at the office of Angus Cameron, Postmaster, Cascade City. Blank forms of tenders shall also be supplied to intending bidders. The undersigned will forward after 12 o'clock noon, the 10th day of August 1899, all tenders as marked to the Department of Land and Works, Victoria, B. C.

Signed,

D. D. FERGUSON, Secretary School Board.

FOR THE GOOD OF BOUNDARY.

Mr. Stanley Mayall, one of Cascade's delegates to the meeting of the boards of trade of Kootenay and Yale, which will be held in Roseland next Thursday, believes that in many respects the interests of the different parts of the Boundary section are identical. Accordingly, he has addressed a letter, on behalf of the Cascade delegation, to other organizations in Boundary, suggesting a conference of the delegates from this section, prior to the general meeting, for the purpose of talking over interests that are mutual to Boundary residents in general, and thereby arrange for some line of action at the convention that will be beneficial to all.

The idea is a good one, and appears to meet with the approval of others interested. If the Boundary delegates recommend and vote for certain measures, they are more than likely to be given the approval of the convention, and the recommendation of the convention as a whole to Dominion or provincial officials will undoubtedly receive the consideration deserved. It is highly probable, if the conception of purely local needs does not keep the delegates too far apart, that, we shall, within a reasonable time, secure a number of needed changes that would otherwise be many, many moons in arriving. The united voice of a convention of this character, when lifted in a righteous cause, will be given due attention in the legislative halls at Victoria or Ottawa.

Laurier and War.

The Alaskan boundary dispute has reached that stage where Premier Laurier has seen fit to assert that, unless the Americans consent to arbitrate the knotty problem, there will be war. This was said after Senator Fairbanks' published statement that he did not think the Americans would agree to arbitrate.

Sir Wilfred is an able man, occupying a high position, and while, as a matter of course, his political opponents criticise him severely, he should be given credit for doing what he thinks is the best for the country. However, it appears that he was a trifle hasty in making the

above utterance. Possibly it was done with the idea of showing the American senator that he meant business. Yet there is a general belief that the British North America act did not confer upon him the authority to declare war, as that duty is one of those reserved to the mother country, and England would exhaust every known expedient before such a resort.

Before the gold fields of the far north were known to be so valuable, but little attention was paid to the difference in opinion as to the exact location of the boundary line; but since its richness was proved it becomes an exceedingly important matter. That the two English speaking peoples of the world should go to arms to settle such a dispute is inconceivable. Representatives will undoubtedly get together and finally agree upon a basis of settlement, even though it requires extended deliberation to accomplish it. The world will not go back in its advanced civilization. If it did, such gatherings as The Hague peace conference, now drawing to a close, would be a farce, and few doubt but that it was entered into in all sincerity

NOTE AND COMMENT.

"The passing of Joe Martin" is the way nearly every journal in the province refers to the Manitoba statesman these days.

Cape Nome, north of St. Michaels, where gold was said to be plenty, is proving to be worthless. Only salt is said to be found there.

New York City is now being afflicted with a lock-jaw epidemic, according to the press reports. It's a pity it could not strike Victoria—at least, in a mild form.

Several days ago it was heralded far and wide that a sulphur spring had been discovered near Grand Forks. This explains the hot times between the rival townsites thereabouts.

The Victoria Colonist says that we may live and flourish a thousand years and not witness such a political circus as is now being presented in this province. Verily, several thousands of them.

Few in the interior will dispute the Rosslund Miner's assertion that what is desired most is a change of government that will pay some attention to the wants of the inland constituencies. The majority of the people have little interest in either side of the Martin-Cotton muddle.

Many Slocan mines are said to be idle yet on account of the eight-hour law. A few are running, but the majority are silent as the grave. Some are being operated on the contract system. In the Boundary the \$3.50 wage is being quite universally paid.

MARTIN'S HOHENLINDEN.

In Rosslund, when the sun was low,
And Joseph Martin dressed to go
To that big banquet, don't-oh-er-know?
His spirits surged tumultuously.

In the great dining hall so bright,
When the gong struck at eight of night,
All robed in evening dress—quite right—
Sat Martin in his finery.

But Rosslund saw another sight.
'Twas Joseph in his own true light,
A man whose thoughts were dark as night,
A model of stupidity.

Each speaker, spotlessly arrayed,
With wit and humor there essayed
To compliment the man who made
The centre of this gathering.

Then Joe' turn came, as was expected,
And, as of yore, he naught neglected
To run the whole show, none excepted,
The province looking on.

He dwelled at length on this and that.
Some say he talked right through his hat,
And others asked, "Where are we at?"
While all were bored most grievously.

Then Joe grew warm, his temper riven,
And vowed that never, under heaven,
Should any province cash be given
For court house or such flummery.

He fumed and swore and tore his hair,
And in his wrath he did declare
That those who were assembled there
Were hoboes from their underwear.

The combat deepened, and one brave,
Hating to hear a Martin rave,
Struck at his face and said, "You knave!"
Martins are but small poultry.

Then Joe, ashamed, those 'round did greet:
"You've woven Rosslund's winding sheet,
She'll get her court house, but I'll beat
This crowd before I've done with it."

Tenders for Cascade's School House.

Secretary Ferguson, of the Cascade school board, has received word from the department of lands and works at Victoria, that plans and specifications for the new school building in Cascade have been prepared, and that tenders for the work will be called for immediately. Notice to this effect will probably appear in this week's official Gazette. This apparently definitely assures the construction of the building this summer.

Much Heavy Freighting.

At least 40 six-horse teams passed the Cascade custom house before noon last Monday, heavily loaded with Boundary freight. Several of the outfits were bringing in mining machinery. If the C. P. R. wishes to secure the tonnage of this section, as soon as the track gets to Cascade—in a few days, now—something better than the already published construction tariff will be needful. That schedule is quite an encouragement to freighters.

New Gladstone Hotel Man.

The Gladstone hotel, at Gladstone, has changed hands. John Dorsey, the old manager, having sold out to Albert W. J. Belgrove, who has a year's lease on the premises. Mr. Belgrove is said to be the right man in the right place, and thoroughly understands his business. The house will be run in first-class style, and will doubtless enjoy a large patronage.

Dr. Frank J. Ewing, who had charge of the contractors' hospital at Brooklyn last summer, was in town Monday. He now has charge of Foley Bros., Larson & Halversen's railway hospital at Port Hill.

Rev. Lemuel H. Wells, bishop of the Spokane Episcopal diocese, with Rev. Mr. Bartlett, of No. Yakima, Wash., were in Cascade Wednesday, on the way to Republic and the American Okanogan. Father Pat, of Rosslund, who has a penchant for the Dewdney trail, was here at the same time.

PASSING THROUGH

"Jack" Hanley, probably the best known character in the world of mining in this northwest country, was in Cascade Wednesday. He was en route to Republic where he is directing development on the Insurgent, of which he is a heavy stockholder. Mr. Hanley has been interested in mining in these parts for the past 15 years, and was superintendent of the famous Old Dominion, at Colville, during its balmy days. The Old Dominion is regarded by mining experts to be the most scientifically developed mine in the state of Washington, and it is due to his ability that nearly \$2,000,000 in dividends were paid.

During the past year Mr. Hanley has been devoting his time to the development of the Bonanza, near Bossburg, of which he owns a quarter interest and which recently passed into the hands of a wealthy Toronto syndicate at a fancy figure. Mr. Hanley thinks that time will prove his Insurgent property to be one of the best mines in the great camp of Republic.

Rev. Dr. Robertson, of Winnipeg, Presbyterian home missionary, who will occupy the pulpit of Cascade's church tomorrow evening, is the right man in the right place, having been in the work for years. His strongest point is adapting himself to circumstances. This is shown by an instance in early days in Kootenay. Coming to a certain mining town, the only possible place to hold service was a bar-room. The use of this was granted, providing it did not interfere with business. During the service a man came in for a drink, and the exercises were temporarily suspended while it was being furnished. The doctor was preacher, chorister, hat passer and all, but says he thinks good was accomplished that day, notwithstanding the peculiar surroundings.

Last Thursday Rev. McCoy received a check for \$25 from Dr. Robertson to be applied towards the new church now being erected in Cascade. Dr. F. J. Ewing, who was in town early in the week, an old Ontario acquaintance of Mr. McCoy, has also generously contributed a similar amount. The trustees, by the way, state that if this should meet the eye of any one of a similar turn of mind, a few more subscriptions like the above would be greatly appreciated.

C. C. Chipman, of Winnipeg, chief commissioner of the Hudson's Bay Co., who was in Cascade with the party of C. P. R. railway officials last Saturday, is looking the Boundary over with a view to putting in another branch or two in the future. He was delighted with the situation of Cascade, and its outlook for the future. He has not decided yet where the new branches will be. At present the nearest stores of this great concern are located at Vernon and Nelson, but of course they get but little of the Boundary trade.

Jack Stewart, of the firm of Mann, Foley Bros. & Larson, left Sunday morning for Halcyon Hot Springs for a brief season of rest.

Certificate of Improvements.

CANNONBALL, DEADWOOD and ALMA mineral claims, situate in the Grand Forks Mining Division of Yale District.

Where located:—On Baker Creek, about one mile east of Christina Lake.

Take notice that I, J. D. Anderson, P. L. S., of Trail, B. C., acting as agent for E. Dalby Morrell, Jr. F. M. C. No. 33662A, William C. Williams, F. M. C. No. 84617A, John Spaulding, F. M. C. No. 12362A, Orr Graden, F. M. C. No. 18609A, Geo. S. Armstrong, F. M. C. No. 12387B, and A. W. Seigle Free Miner's Certificate No. 1807A, intend sixty days from date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificates of Improvements. Dated this tenth day of July, 1899, A. D. 47 J. D. ANDERSON.

Lands.

Notice is hereby given that sixty days after date I intend to make application to the Chief Commissioner of Lands and Works for permission to purchase the following described tract of land, viz: Commencing at a post located about one mile north easterly of the junction of McRae and Day creeks and about six miles from Christina lake, Yale district, thence running forty chains east, thence one hundred and twenty chains north, thence forty chains west, thence one hundred and twenty chains south to point of commencement, comprising four hundred and eighty acres. WALTER C. ARCHER. Rossland, B. C., June 1st, 1899. 39

Notice.

Notice is hereby given that the partnership heretofore existing between Peter Nelson and Charles Johnson, under the firm name of Nelson & Co., conducting the Montana Hotel at Cascade B. C., is this day dissolved by mutual consent. (Signed) PETER NELSON. CHARLES JOHNSON. Dated at Cascade, B. C., June 30, 1899. P. O. Address, Box 74, Cascade, B. C. 39

Notice.

Take notice that the partnership heretofore existing between us, the undersigned, as hotel keepers at the towns of Wardner and Cascade, B. C., under the firm name of Eckstorm & Simpson, has this day been dissolved by mutual consent. The business will be continued by C. J. Eckstorm, who assumes all liabilities of partnership and to whom all debts due the partnership must be paid. Dated at Cascade, B. C., March 1, 1899. Signed, C. J. ECKSTORM, F. E. SIMPSON.

Witnesses, O. N. Johnson, for C. J. Eckstorm. Matt Rockendorf, for F. E. Simpson. 39

Church Service

Divine service will be conducted by Rev. Joseph McCoy, M. A. tomorrow (Sunday) at 11 a.m. and 8:00 p.m., Standard Time, in the school-house, Sabbath school at 2:30 p.m. in the same place. All are cordially invited to attend.

BY THE WAYSIDE

The promoters of Grand Forks are doing some excellent advertising in one way and another, but occasionally they draw to a large extent on their imagination, and make statements that are far removed from the truth. For instance, it has been published far and wide that arrivals number from 100 to 150 daily. A little figuring will show the utter absurdity of such a remark. A town can never get prominence by such perversion of facts. It may go for awhile, but the reckoning day is sure to come.

In the language of the day, the Columbia Review has not been doing a thing to the vice-president and manager of the townsite company. Throwing grammar, ethics and a few other things to the winds, it sails into him with hammer and tongs. Here is the way the Review puts it in a recent issue:

"The business of advertising a town, free gratis is slightly too philanthropic a movement for us. We would like very well to do so if we had the stuff, but that, unfortunately, is our weak point. But on the other hand we would not mind throwing in a few extras if we seen the people who get the benefit of our labors deserved it."

The Columbia Stage people, contractors for carrying the mail, it is said, assert that when there is any kicking on poor mail service it always comes from Postmaster Cameron, of this place, and from the Cascade Record. Mr. Cameron only does his duty, and adheres to the rules of the postal department, in sending in the many "kicks" that he does on the mail service. The Record, also, believes it would not be attending to its duty if it did not show up the negligence of the mail carriers. This week again, on Tuesday and Thursday, important sacks were carried through, to the great annoyance and inconvenience of our people. We submit it to the community in general, or to any individual in particular, if there is not more than ample grounds for complaint over the prehistoric, antedeluvian, careless, no-account service given to Cascade by the Columbia Stage Co. A 16-year-old boy, with a good canyuse, could do infinitely better. No wonder the people say with vehemence, "How long. Oh, Lord, how long!"

If, as is currently reported, John R. Reavis, of the Republic Miner, has bought out the Grand Forks Miner, the latter town is to be congratulated. Mr. Revis is a journalist of wide experience, and will undoubtedly give the Forkers a clear, up-to-date weekly, a paper of which they may be proud. There is ample support for such a journal in our sister town, and the man who made such a success of the old Rossland Miner, will, we believe, repeat it in his new field.

Horse stealing is growing altogether too prevalent in these parts, and a few examples made of the thieves would have a healthy effect on the reprehensible fraternity. An organized gang is believed to be in existence and at work.

KETTLE RIVER PLACER GROUND.

Thought to be Valuable on the Head Waters of our River.

Fred. Williamson in a letter to George Doyle, says the Nelson Tribune, gives a description of a new placer district which has been discovered about nine miles from the head waters of the Kettle river. The new field is about 30 miles from the Arrow lake through Fire valley, and some 60 miles over the wagon road from Vernon to the McIntyre mine, and five miles over a trail from the McIntyre mine.

Two claims were being worked when Williamson arrived. On one of them he writes that J. Worth is taking out \$5 a day, and on the other J. Lodge is doing something better than \$4. The former is working on bedrock and has from five to six feet of good pay gravel in an old creek bed. Lodge has about four feet of pay gravel and is working on a clay bottom. Williamson says that there is lots of ground both above and below the claims of Worth and Lodge, and he has taken up some of it. There is more or less copper float in the neighborhood, but the weather so far has been against prospecting.

Mr. Doyle says that the placer ground in which he is interested will pay about a dollar a yard, and that the wash is about 15 feet deep. One outfit has built a flume about 3,000 feet long, and others are

opening up their ground. The best way in is by Fire Valley, although there is considerable timber on the trail.

YALE-KOOTENAY LUMBER COMBINE.

Gigantic Company to Take Over Saw Mill Plants.

A short time since a meeting of the representative sawmill men of Kootenay and Yale was held at Nelson, for the purpose of considering the advisability of forming a combine, or, as it would be better known nowadays, a trust. At this gathering the subject was discussed in detail, and a temporary organization was formed. Those present were in favor of organizing a strong company to take over the various plants and stocks at an appraised valuation, payment to be made in paid up stock of the new corporation.

In accordance with these suggestions, the secretary is now in communication with the owners of those mills not represented at the meeting, and it is confidently believed that the combination will be organized as expected. One object of the proposed organization is to prevent cutting in prices, which prevailed to some extent. It is said the average rate will be raised \$5 per thousand feet.

Among the concerns represented were the large Genelle mills, the Nelson mills, the Blue mills of Rossland and Greenwood, and oth-

ers. The Cascade sawmill owners think favorably of the scheme.

Send it Back East.

The Cascade Record will be sent to any place in Canada or the United States for one year on receipt of \$2. It pays special attention to mining in the Boundary and Christina lake sections, and aims to give the most reliable information in regard to this fast developing country.

Notice of Assignment.

Notice is hereby given that Thomas F. Gaine and M. H. Roy, both of Cascade City, in the province of British Columbia, doing business as wholesale liquor merchants and gent's furnishers, at Cascade City, aforesaid, in the premises known as the "Yukon Store," under the name, style and firm of Gaine & Roy, have by deed bearing date the 15th day of July, A. D., 1899, assigned all their personal estate, credits and effects which may be sold under execution, and all their real estate to the undersigned, James H. Good, of Cascade City aforesaid, Broker, in trust for the general benefit of their creditors.

The said deed was executed by the assignors and assignee on the 15th day of July, A. D., 1899.

All persons, firms, and corporations having claims against the said Gaine & Roy are required to forward to the said assignee full particulars of their claims, duly verified, and the nature of the securities, if any, held by them, on or before the 21st day of August, A. D., 1899.

And notice is hereby given that after the said 21st day of August, A. D., 1899, the assignee will proceed to distribute the assets of the estate among the parties entitled thereto, having regard only to the claims of which the assignee shall then have had notice; and that the said assignee will not be responsible for the assets, or any part thereof, distributed to any person or persons, firm or corporation of whose debt or claim he shall not then have had notice.

A meeting of the creditors and the said assignors will be held on Friday the fourth (4th) day of August, A. D., 1899, at the hour of 2 o'clock in the afternoon in the said Yukon Store premises at Cascade City in the province of British Columbia.

Dated the 17th day of July, A. D., 1899.

IN AND AROUND CASCADE.

The Columbia Review now comes out with "patent innards." Republic has voted to issue bonds for \$15,000 for educational purposes.

Refreshing rains Saturday and Sunday brought the mercury down temporarily.

The city of Vernon is advertising for tenders for putting in the new water system.

This week several shipments of mining machinery passed through Cascade, en route to the upper country.

Dr. G. M. Foster, formerly of Cascade, but now at Greenwood, has been reported ill with typhoid fever for several days past.

Those doing business with Bossburg will be interested to learn that the American postal authorities have at last made Bossburg a money order office.

Last Sunday was a great day for fishing, and a great many took advantage of it. Deep creek and Kettle river above the falls were the favorite resorts. Good luck generally was the result.

Where has the long looked-for boomlet that was predicted for Eholt, Summit and a few other places gone? Some say it has moved up the hill to Phoenix—a likely town, by the way, already.

Late reports indicate that the C. P. R. surveyors have been successful in finding an easy grade from the West Fork of Kettle river to Pentiction, and it is once more stated that the construction of the road from Midway to Okanagan lake will be pushed forward without delay.—Vernon News.

And not Dead Yet,

A Kananis paper tells of Sante Fe section foreman, who sent in the following report to the road master:—"McWhorter's bull struck at the long siding and killed. We found him along-side the track and he was not quite dead then. I borrowed a gun and shot him three times, killing him again. Dennis Sullivan then struck him another blow on the head and finished him. The bull is now dead."

Commenting upon this exciting anecdote, the Toronto Globe remarks—"This resembles the terrible carnage that has attended the attacks on Mr. Sifton. Sir Hibbert killed him when he collided with him in his first speech. Sir Charles killed him again at Sherbrooke, and Sir Hibbert finished him on Tuesday night. There is a slight difference in the two cases however,—Mr. Sifton is still alive

Perpetrated at Republic.

The perpetration of the following is laid at the door of the Republic Record:

With apologies to the comedian, as he's not in town: "Jim Blaine and Tom Thumb made a call on Princess Maude, of Butte and Boston, and gave a Trade Dollar for a Stray Horse. They saw an Insurgent shinning up a Lone Pine after a Mountain Lion with a Black Tail. Katie Hayward was standing on a Deer Trail gazing at the Evening Star. She's got the only Golden Harvest on the Reservation, and when Sullivan met his Waterloo on the glorious Republic he staked her to a Morning Glory—how would you have liked to Ben Hur.

Dominion Estimates for the Province.

The Dominion estimator, lately brought down, include the following:

Telegraph line from Bennett to Dawson and Atlin City, \$147,500.
Queenselle to Atlin, \$225,000
Rossland public buildings, \$15,000.

Nelson public buildings, \$15,000.
Victoria customs, \$1,000.
New Westminster customs house, post office, etc., \$15,000.

Vancouver drill hall (revote) \$8,000.
Kamloops public buildings (revote) \$3,000.

Atlin post office fittings, \$1,500.
Columbia river at Revelstoke, \$20,500.

Two fish hatcheries, one on the Fraser and one on the Skeena, \$12,000.

New and complete map of the Christina Lake Mining Camps. Brought down to April 1st, 1899. Price \$1.25. Sent post paid on receipt of price by the Cascade Record, Cascade, B. C.
