VOL. I. CASCADE, B. C., SEPTEMBER 23, 1899. No. 46.

REGULAR TRAINS RUNNING

C. P. R. Construction Department Now in Charge of New Railway.

OVER 75 ON FIRST BOUNDARY TRAIN

Road as far as Grand Forks is inspected by R. B. Smith, C. E., for the Provincial Government.

Monday, as per schedule, the first regular passenger train rolled into Cascade and the Boundary country, arriving here on time, viz., at 12.52 o'clock, as the railway time tables have it. The train consisted of a passenger coach, a combination baggage and smoking car and a locomotive, Conductor Ed. Chesley being in charge. Every seat in the coach was occupied, there being about 75 passengers aboard. Among those on board were Traveling Passenger Agent Anderson, and Freight Agent Peters, of Nelson, together with our own Jim Martin, M. P. P., of Rossland, and many traveling men. The return trip was made the next day, and trains have been running on alternate days since, according to the makeshift arrangements provided.

The train is called on the timetables second-class, because freight cars are occasionally carried, but the rates of fare are decidedly first-class. From Cascade to Grand Fork, 13 miles, the fare is \$1.00; to Gladstone, 15 1/2 miles, \$1.20; to West Robson, 58 1/2 miles, \$5.35.

This makes the present cost of travelling from Cascade to Rossland or Nelson, all rail, \$7.05 and \$6.65, respectively. It should be remembered, however, that while the road is in the hands of the C. P. R., it is not yet under the operating department, but is run by the construction department. When it is completed through to Midway and accepted, things will doubtless be somewhat different.

The following is plainly printed on passenger tariffs:

"Inasmuch as this line is not yet open for operation, passengers are only carried on trains for their own convenience, and at their own risk, and the company will not be liable in respect of any damage which may happen to the person or property of any passenger."

Provincial Authorities Inspect.

Last week the line as far as Grand Forks was gone over by Dominion Inspector Fellows. This week the same tactics were gone through with on behalf of the provincial authorities by H. B. Smith, C. E., of Rossland. Mr. Smith was accompanied by Chief Assistant Engineer J. G. Sullivan and Engineer Dennis, who is with the tracklayers. The trip was made on a hand car, which was, of course propelled by main strength and awkwardness—by whom does not yet appear. The gentlemen reached Grand

Forks Wednesday night, and returned the following day on the passenger train. Every part of the road, including bridges, and trestles was carefully inspected, and as far as learned found to be in the best of condition. As the C. P. R. is to receive a subsidy of \$4,000 per mile from the province, this inspection was needful as well as that of the Dominion government.

Rumbles From the Rails.

Dick and Mrs. Porter are spending a few days in Spokane.

Jack Stewart and wife left on this morning's train for a week's trip to Vancouver.

Tonight the track will be over the Fisherman creek bridge, eight miles either way to Eholt or Grand Forks.

Thursday the ghost began its monthly walk on the construction, and Paymaster Woodman went first to Greenwood.

Material is now here for the two 150-foot spans for the 1,600-foot bridge over Kettle river at Cascade, and work will commence at once.

If all goes well, the steel should be laid into Greenwood between October 5th and 10th. That is the opinion of Jack Stewart, and no man knows better.

On the west end 1061 feet have been bored in the Bull Dog tunnel near Brooklyn, up to last Monday, and on the east end 828 feet. The exact length of the tunnel will be 2,988 feet.

POISONED AT THE FORKS

George H. Weed, Formerly of Cascade, Died Suddenly.

Was Employed as a Carpenter on the Smelter
--Post Mortem Adjourned Till Monday
--Has Relatives in Wisconsin.

A mysterious case of poisoning occurred a few days since at Grand Forks, by which a man named George H. Weed, a carpenter employed at the smelter, lost his life.

Constable Dinmore being absent, Constable Darraugh was called to take charge of the case late last week and spent several days in Grand Forks. The man died suddenly, and the authorities thinking everything was not as it should be, caused an inquest and a post mortem examination by Dr. Westwood to be held, when unmistakable evidences of poisoning were found. The inquest was adjourned to meet again next Monday.

Weed was employed on one of the bridge gangs, and for a time worked in that capacity at Cascade. For a while he had been employed at Grand Forks as a carpenter, up to the time of his death. His sisters, Eddie Booton and Hattie Roach live in Cedar Falls, Wisconsin. As yet it is impossible to state whether the poisoning was accidental or otherwise.

In Christina's Mines

A Number of Promising Properties Will be Worked All Winter.

A number of claims directly on Christina lake are being advantageously worked this year, with results that are highly satisfactory to their owners.

About two miles from the upper end of the lake, on the west side, is the West End, owned by J. F. Farrin, Boyd and Cameron, of Rossland. This property has been steadily worked all summer, and now has a 40-foot incline shaft. The ore is gold-copper, and there seems to be plenty of it, as there is shipping ore on the dump. When this property was opened up it showed seven feet of fine free milling ore, and average assays give values of \$28. It is the intention to continue work all the fall and winter.

On the opposite side of the lake, and almost at the water's edge, is the Rainbow, owned by Frank Moller, Fred Smart and John Flank, of Rossland. Mr. Moller worked all the spring on the property, and uncovered a fine four-foot ledge of copper ore. Messrs. Smart and Flank are now at work on the property, and it is their intention to keep it up all winter. The tunnel has been driven about 45 feet.

Chas. Sandner is at work on a trail up the east side of the lake from English Point, so that supplies can be packed in when the lake is not navigable. It will prove a great convenience to those operating in that section.

Shortest Route to Franklin Camp.

Mr. Sandner says that the new Franklin camp, on the east fork of the north fork of Kettle river, which is coming to the front this summer, is only about 20 miles from his cabin at the head of Christina lake. From Franklin camp it is largely a down hill pull to the lake, and with comparatively little trouble a wagon road could be constructed over the route. The only other way of getting into the new camp is by way of Grand Forks, from which place the distance is 65 miles. It can thus be seen that when the new mining camp is ready to send ore to market its natural and most inexpensive outlet will be by way of Christina lake.

Mr. Sandner will go over the route shortly himself, and will then be in a position to give more details in regard to it.

CHRISTINA MINERAL FLOAT.

Fred Grihi is working the Maccot again, just east of town, near the railway.

Work is going on with the Agitator, across the river, adjoining the townsite, and the claim has a good showing.

Bookkeeper Palmer, of the B. C. Store, is putting in his vacation doing assessment work on the Ada

and Ariel claims in the Burnt Basin.

Foreman Thompson has got a good start on the No. 3 tunnel, on the Mystery, in the Burnt Basin. Development is also continuing on the Ennismore, controlled by the same parties.

H. McCutcheon, customs officer at Greenwood, went up to the John Bull, near Gladstone, this morning, in which he is largely interested. The tunnel is now in over 125 feet.

Five practical miners came over from Rossland Tuesday and went up to work on the Cannonball group, thereby doubling up the force. Two shifts will now be worked and development continued all winter.

This week Bowen & Van Cleve purchased a half interest in the New Year claim on Deep creek, about three miles from Cascade. It adjoins several good properties that are being developed. Work will be started on the New Year next week.

BAIL REFUSED TO FIRE BUGS.

Cameron and Mullen Must Stay in Jail Till the Court Meets.

Cameron and Mullen, who were sent to Kamloops jail a few days since from Columbia by Justice Rochussen, to await trial by the county court, will not be released on bail. They are charged with complicity in the burning of the Hotel Columbia on the night of the 17th of July. The case has attracted wide attention, not only because of the heinous nature of the crime, but because it was openly whispered that some sensational disclosures would be made at the preliminary hearing, involving certain prominent individuals. So far, however, the expected damaging testimony has failed to put in an appearance.

The application for bail was argued Wednesday at Victoria, and after due consideration by the court was denied.

One James Stubbs is said to have lit the match that set fire to the pride of Columbia, and several papers have stated that he had been placed in custody in Spokane. On the best of authority, however, the Record is assured that Stubbs is not yet in the toils of the law, on either side of the international line.

The trial of Cameron and Mullen will come up in due course, and is expected to take place at Vernon some time in October.

Ex-Mayor John A. Manley, of Grand Forks, who was called to Nelson, Wash., two weeks ago, is said to be there still, attending to mining business.

J. T. Wilkinson, representing the Vancouver Province, and familiarly known as "Wings," was in Cascade today.

LOCAL AND GENERAL.

Columbia is figuring on putting in electric lights.

George A. Eastman, the banker, went to Eholt on Tuesday.

Boundary's newest town, Summit City, is said to be growing.

It is reported that a "Mr. Hughes, a prominent real estate dealer of Phoenix," was recently robbed at Chesaw.

E. Spraggett's new sawmill, on the north fork of Kettle river, is now running and has a capacity of 30,000 feet daily.

The Columbia Telephone Co. is putting in 50 miles of private lines, to connect the Granby smelter with Greenwood and White's camp.

Dr. Joseph Schaich enjoys the distinction of having purchased the first C. P. R. ticket sold for the first passenger train, leaving Cascade for Robson, last Tuesday.

Constable Dinsmore of Columbia, passed through on Tuesday's stage, on his return from taking Chas. Mullen, charged with complicity in the Columbia arson case, to Kamloops.

Eholt now has a postoffice, and it is no longer necessary to address mail matter via Greenwood. A hundred lots are reported as having been sold there since they were placed on the market.

The every-other-day passenger schedule on the new railway, coupled with the nearly 8 cents per mile charge, is driving a good deal of business to the stages, which are still carrying full loads.

The provincial government offices at Granite creek will shortly be removed to Princeton, in the Similkameen, which is now the center of a very important and rapidly growing mining industry.

Frank Smith, mining editor of the Toronto World, which paper pays special attention to British Columbia mining matters, is visiting Boundary camps, and will give them a thorough write-up.

The Greenwood city council has appropriated \$150 to send a mineral exhibit to the Spokane Exposition. Altogether \$350 is to be raised to cover expenses of sending a commissioner with the exhibit.

Railway surveyors have been working around Camp McKinney for the third time, and it is believed that route will be followed

when the road is built from Midway to Penticton—in the dim and distant future.

W. W. Ragsdale, of Bossburg, who won the foot races at the Queen's birthday celebration in Cascade, recently raced with P. G. McLeod at Greenwood, 50 yards, for \$500 a side. The race was declared a draw.

It having been reported that the new railway would not reach Greenwood for months, the Greenwood Miner queried Chief Engineer Tye, who replied that no stone would be left unturned to complete the entire line at the earliest possible date.

Alexander Robinson, M. A., Provincial Superintendent of Education, of Victoria, was in Cascade last Saturday, on a trip of inspection through the Boundary. He looked over the new Cascade school building, now being rapidly pushed to completion.

Tuesday afternoon a freighter named Eagleton, freighting from Marcus to Republic, was badly kicked by his leaders in the quagmire near Hall's bridge. He sustained several painful bruises, but fortunately no bones were broken, and he was assisted to Cascade.

Pushing Work on the Big Dam.

Several days ago Foreman Simmons and men resumed work on the 300-foot dam which the Cascade Water, Power and Light Co. is putting in just above the cascades of the Kettle river. Continued rains, however, forced a temporary suspension of work, owing to the high water. Yesterday Mr. Simmons started in once more, and will soon have a force of 20 men building the dam some 35 feet higher than the structure is at present. It is the intention to crowd the work as fast as possible till completed.

S. F. Quinlivan, who has the contract for getting out the rock for filling the cribs, expects to resume operations in a few days, and will have a force of 20 men in his employ.

Kicking Again at Nelson.

Yesterday's Nelson Miner says: "Cascade has been kicking at the alleged daily mail service supplied to it by stage. For a time at least the town will have three regular deliveries a week. The mail will now go over the new Columbia & Western extension line."

It is apparent that Cascade has lots of sympathizers in its crusade for a decent postal service. In the same issue of the Miner in which the above was printed appears a strong, healthy, well-developed and doubtless well merited editorial protest at the slipshod service with which Nelson is forced to get along with in a postal way. The Miner appropriately suggests that a new inspector be provided if the present incumbent cannot do better work.

Good Reports from North Basin.

Good reports are coming in from the North Basin, which is a new mining section located north of the Burnt Basin. Tom Kellar and other well known prospectors have been spending considerable time this season looking over the fine mineral showings there, and their reports are of a decidedly roseate hue. This will add another to the promising camps of the Christina lake section.

Robert Wood, one of the fathers of Greenwood, has been gazetted as a justice of the peace.

Frank Corte, the Brooklyn mail carrier, has opened his hotel, half a mile below the big tunnel.

D. J. Matheson has sent in his resignation as principal of the Cascade public school. He will be succeeded by John Simpson, who is thoroughly qualified and holds a first grade, class A, certificate.

Rev. J. McCoy will visit Gladstone and the Bull Dog tunnel on Tuesday and Wednesday and hold services. At the tunnel four services will be held, to accommodate the night and day shifts at each end of the big bore.

The Grand Forks Water Power and Light Co. expects to divert 15,000 inches of water from the north fork of Kettle river, for electric light purposes. The undertaking has been submitted to the government authorities at Victoria.

Church Service

Divine service will be conducted by Rev. Joseph McCoy, M. A. tomorrow (Sunday) at 11 a.m. and 8:00 p.m., Standard Time, in the school-house. Sabbath school at 2:30 p.m. in the same place. All are cordially invited to attend.

"COMPANIES ACT, 1897."

Certificate of the Incorporation of the "Victoria Gold and Copper Mining Company, Limited," "Non-Personal Liability."

CAPITAL, \$1,000,000.

I hereby certify that the "Victoria Gold and Copper Mining Company, Limited," "Non-Personal Liability," has this day been incorporated under the "Companies Act, 1897," as a Limited Company, with a capital of one million dollars, divided into one million shares of one dollar each.

The registered office of the company will be situate in the town of English Point, Grand Forks mining division, Yale district, British Columbia.

The company is specially limited under section 56 of the said Act.

The objects for which the company has been established are:

To work, operate, buy, sell, lease, locate, acquire, procure, hold, and deal in mines, metals, and mineral claims of every kind and description within the Province of British Columbia; to carry on and conduct a general mining, smelting and reduction business; to purchase, acquire, hold, erect and operate electric light and power plants for the purpose of furnishing lights and creating power; to bond, buy, lease, locate and hold ditches, flumes and water rights; to construct, lease, buy, sell build, or operate tramways or other means of transportation for transportation of ore, mining and other materials; to own, bond, buy, sell, lease and locate timber and timber claims; and finally to do everything consistent, proper and requisite for the carrying out of the objects and purposes aforesaid, in their fullest and broadest sense, within the territory named.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 8th day of August, one thousand eight hundred and ninety-nine.

[L. S.] S. Y. WOOTTON, Registrar of Joint Stock Companies.

Seigle Free Miner's Certificate No. 1307A, intend sixty days from date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificates of Improvements.

Dated this tenth day of July, 1899, A. D. J. D. ANDERSON.

Certificate of Improvements.

BIRTHDAY, EDISON, ELECTRIC, PICTON, MONCTON and EDISON FRACTION mineral claims, situate in the Grand Forks Mining Division of Yale district.

Where located:—Birthday—on McRae creek and one mile from Christina lake.

Edison, Electric, Picton, Moncton and Edison Fraction—on Josh creek, in the Burnt Basin. Take Notice that I, J. D. Anderson, P. L. S., of Trail, B. C., acting as agent for Richard Plewman, Free Miners' Certificate No. B13250, and Mrs. (Thos.) Addie Gee, Free Miners' Certificate No. 12526A, intend, sixty days from date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining crown grants of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificates of Improvements.

Dated this 26th day of July, A. D., 1899. J. D. ANDERSON.

Certificate of Improvements.

Tammady No. 1, Gold Nuggett and Gold Nuggett Fraction mineral claims, situate in the Grand Forks mining division of Yale district.

Where located:—In the Burnt Basin, west of the Edison group.

Take notice that I, J. D. Anderson, P. L. S., of Trail, B. C., acting as agent for James Peterson, Free Miner's Certificate No. 35467A, intend, sixty days from the date hereof, to apply to the mining recorder for Certificates of Improvements, for the purpose of obtaining crown grants of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificates of Improvements.

Dated this 18th day of August, A. D., 1899. J. D. ANDERSON.

Certificate of Improvements.

Burnt Basin, Burnt Basin Fraction, Jim Blaine and Jim Blaine Fraction mineral claims situate in the Grand Forks mining division of Yale district.

Where located:—In the Burnt Basin, north west of the Edison group.

Take Notice that I, J. D. Anderson, P. L. S., of Trail, B. C., acting as agent for John Hauser, Free Miner's Certificate No. 35631A, intend, sixty days from the date hereof, to apply to the mining recorder for Certificates of Improvements, for the purpose of obtaining crown grants of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificates of Improvements.

Dated this 18th day of August, A. D., 1899. J. D. ANDERSON.

Certificate of Improvements.

MECKLENBURG and MECKLENBURG FRACTION mineral claims, situate in the Grand Forks mining division of Osoyoos division of Yale district.

Where located:—At the head of the Burnt Basin.

Take notice that I, J. D. Anderson, P. L. S., of Trail, B. C., acting as agent for C. S. Wallis, F. M. C. No. 34251A, and Annie M. Brown, Free Miner's certificate No. B13949, intend, sixty days from the date hereof, to apply to the Mining Recorder for certificates of improvements, for the purpose of obtaining crown grants of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such certificates of improvements.

Dated this 12th day of August, A. D., 1899. J. D. ANDERSON.

GOVERNMENT AND OPPOSITION.

The government, according to the figures of the opposition, who seem to be keeping close watch, and spending considerable time in counting noses, is now slightly in the minority. But apparently the lieutenant governor could not or would not see things as the opposition did, and does not call on Premier Semlin to resign and for the formation of a new ministry. The opponents of the government argue, and apparently with good reason, that the Turner government was dismissed last year when it had a better fighting chance than the present government. Mr. McInnes, however, has thus far failed to take that view of the situation.

Mr. Cotton, on his recent trip to points in Kootenay, professed to think that all was serene and that, Joseph Martin having resigned, the trouble and discordant element in the government ranks had been done away with. This is so to a certain extent, but Mr. Martin and the opposition are no small factor yet.

On the other hand, there is still an utter lack of organization in the opposition. The Turner party, so called, is dead and beyond recall, and no Moses has yet appeared to lead the people out of the wilderness into the promised land. While there may be a slight majority against the government, it has yet to be proved that this majority would hang together. If some of the papers that are howling so loudly for Mr. McInnes to dismiss the Semlin cabinet, would spend the same time in organizing a strong opposition, the lieutenant-governor would be much more likely to take action before the legislature meets on January 4th.

Spokane is the latest place to get the smelter fever. It is to be hoped that it will not be the kind that Bob Ingersoll built there, five years ago—one that did not smelt.

"Our growing time" is the way Eastern Canadian journals are now speaking of the present era of expansion in the Dominion. But the next ten years cannot fail to see vastly greater advances, especially in British Columbia.

NOTE AND COMMENT.

Up to this writing, war has not been declared in the Transvaal, and the white winged dove is still hovering around; but said dove does not seem to be having an easy time of it.

New rumors of the break of the mining deadlock in the Sloean are current each week, yet there is no change, and some of the richest mineral properties in the province are still tied up.

Last week 1,200 men, representing \$5,700,000,000 in money, met and deliberated at Cleveland, Ohio, under the title of the American Bankers' Association. This is a good sized pile for a few individuals to control.

The granting of a pardon to Captain Alfred Dreyfus in France in a measure undoes the wrong done a man believed by nearly the whole world to be innocent. It is a politic move on the part of the council of ministers.

Bruce White thinks a railway will surely be built between Northport and Cascade. That is what other far-sighted persons believe. The rich properties of Pierre lake and Deep and Flat creeks, will require and be given a railway outlet.

If the crowded cars on the first regular passenger trains into the Boundary are a fair index of what is to follow, we may soon expect to see this section not exactly blossom as the rose, but assuming a fore-front position in the province.

Republic has had almost as many railways built on paper as the Boundary country had a couple of years since. It is confidently believed that Washington's great mining camp will have a real, live everyday railroad next year.

The Atlin Claim remarks that "The unexcelled (?) mail facilities given to Atlin district no doubt will be continued throughout the year 1899" The mail service in parts of the Dominion is a disgrace to Canada. We speak by the card.

The Greenwood Miner says that "If the present pace keeps up Greenwood will soon have hotels to burn." It strikes us that is just what has happened to about four of them, but perhaps like most new towns Greenwood is too well blessed in regard to hotels.

Joseph Martin has accused Hon. F. Carter-Cotton openly of falsifying the records of the cabinet. Mr. Cotton does not reply to the serious charge, which at least should be denied if untrue. It is not becoming for a minister of the crown to stand in this equivocal light. He owes it to the province

to either disprove the charge or resign his portfolio.

It is only just that no credence be given to the countless rumors in regard to connecting prominent persons in Grand Forks with the burning of the Hotel Columbia, till the full evidence is heard. If it turns out as some profess to think, the law will take its course, and it "grinds exceeding small." The real authors of the crime will get their just dues.

SEVENTY ATTENDED THE FUNERAL.

Of the two Men who Were Killed at The Big Tunnel.

The remains of James Pease, the foreman, and J. Gilbert, who were killed by gas from blasting at the Bull Dog tunnel, were brought to Cascade last Saturday afternoon for interment. Olaf Olson, in charge of the tunnel work, with 70 men came also to attend the funeral, at which Rev. Joseph McCoy officiated.

The two men killed had been among those longest on the work, over nine months, and were warned beforehand not to go into the tunnel as soon as they did. Four others succumbed to the fumes at the same time, but were rescued in time and came to after getting out into the fresh air. Pease and Gilbert were Cornishmen, of middle age, and the former is said to have a family in the old country.

International Day at Spokane.

One of the big days at the exposition this year will be International day, October 10. Special trains and special delegations are coming from all portions of British Columbia, and it is expected that there will be many thousands of people from both sides of the border in Spokane on that day to exchange greetings. The boards of trade of British Columbia are making special efforts to attend each in a body. The following invitation has been sent out to all the mayors, councils, boards of trade and other organizations of British Columbia:

Gentlemen: On behalf of the management of the Spokane Industrial Exposition I have the honor to invite your honorable body to take part in the ceremonies now in course of preparation for International day, Tuesday, October 10th, prox. It will be the ambition, not only of our management, but of the citizens of Spokane generally, to make International day a memorable one. On behalf of the board of control, I have the honor to remain, very respectfully yours,
H. BOLSTER, Manager.

Vernon and Greenwood each expects to shortly possess a steam laundry.

Jack Robertson and George Sharpe have been at Gladstone this week looking after their mining interests.

Lots in Keremeos, in the Similkameen, are now on the market. It is located 45 miles this side of Princeton.

Gold Commissioner Lambley, of Fairview, made a visit to Greenwood this week, in connection with several applications for water records on Boundary creek.

BY THE WAYSIDE

Bruce White came in Monday, in company with Blake Wilson, of the firm of P. Burns & Co., and the two went to Pierre lake, where they recently bonded the First Thought group for \$25,000. Mr. White is much pleased with the property and anticipates great things from it. Substantial cabins have been put up, a dozen men employed, and it is on the program to continue active development work on the property all winter.

It appears as though there would be considerable coming and going between Pierre lake and Cascade, now that the new railway is completed. Many properties in that section are being worked, and some are owned by persons having interests in Kootenay and Yale. This means that the properties are most conveniently reached from Cascade, the distance being only 12 or 15 miles. Bruce White, while here this week, expressed himself as confident that at no distant date a railway would undoubtedly be constructed between Northport and Cascade, as there is an immense tonnage to be obtained from the mining properties on the route. Then the surveys, which have already been quietly made, show that satisfactory grades can be obtained with but little trouble.

The building committee of the Presbyterian church met Monday evening to consider the financial status. In a general way it was quite satisfactory, but the committee wish it understood that a few more subscriptions—even of small amounts—would enable them to pay all bills for construction promptly. Mr. McCoy will gladly receive such subscriptions.

The sage of the New Denver Ledge has a pretty good conception of a hero. Here is his idea of him: "After further deliberation upon the subject, we are still of the impression that one of the noblest works of creation is the man who always pays the printer. When a man throws down two plunks on our marble-topped counter and makes the declaration that he wants this paper for a year, he immediately has our admiration and a receipt. In our eyes he is a greater hero and more of a prince than any of the titled personages of Europe. None of them take this paper. If they did ennui would not be so prevalent in their ranks."

Many in the Boundary are making preparations to visit the Spokane exposition this year—not only because railway fares on the American roads will be cut in two, but because the exposition itself is well worth a visit. The mineral display alone will be thoroughly representative and worth going a long distance to see. There will be any number of attractions at the fair outside of the exhibits. Not the least of these will be the Grand Army Band, of 40 pieces, of Canton, Ohio, sometimes called President McKinley's band, said to be a superb lot of musicians. This one attraction will cost the management a cool \$7,000. Spokane is preparing to entertain immense crowds from October 3rd to 17th, and the indications are that she will not be disappointed.

PEOPLE AND EVENTS

This week the new Presbyterian church is being painted.

The best meal is the market at the Queen Restaurant.

Once again the weather seems settled. We are now past the time for the equinox.

S. W. Bear will decorate his building on Second street with a sidewalk and veranda.

Constable Darraugh returned Wednesday from a trip to Greenwood, Eholt and Phoenix.

Work on the new school building is progressing satisfactorily. The structure has been enclosed and roofed.

J. D. Reed has arrived from Dundas, Ontario, and will have charge of the Cascade Produce Co's. store here.

It is said that Chas. A. Stoess, C. E., who was located in Cascade last winter, will return here shortly to do surveying.

Mrs. Viotor Monnier left for Spokane Thursday morning, where she will visit friends till after the opening of the exposition.

The new Flyer stage line discontinued trips last week, but it is said expects shortly to be in the field with a new outfit.

Contractor Ferguson has completed the foundation for Wm. Anderson's residence, and will soon begin pushing work on the superstructure.

The Columbia townsite people are arranging to build a pleasure park on the banks of the Kettle river, and will have a course for boat races.

W. H. McKay, of Bossburg, one of the vendors of the First Thought group, at Pierre lake, recently bonded for \$25,000, was in town Thursday.

Checks for the second dividend of the Bonanza Mining Co., of Bossburg, were issued Wednesday, and this is expected to be a regular monthly occurrence hereafter. A 5-foot ore body has been struck in the south drift of the 500-foot level.

Harvey Harris, who has been local manager of P. Burns & Co., at Cascade for several months, has been promoted, and after the first of the month, will have charge of the firm's large interests at Rossland.

T. H. Ingram, of the Cascade Produce Co., and representing the Calgary Milling Co. in the Boundary country, leaves today for a short visit to Calgary. He reports his business in this section as being very satisfactory and constantly increasing in volume.

D. P. Barber, who has the contract for clearing the right of way for the Cascade Water, Power & Light Co's. pole lines south from Phoenix, has one camp established and expects soon to put in another. The contract will probably be finished in the course of a month.

Send It Back East.

The Cascade Record will be sent to any place in Canada or the United States for one year on receipt of \$2. It pays special attention to mining in the Boundary and Christina lake sections, and aims to give the most reliable information in regard to this fast developing country.

ALEX. MATHESON, BEN LAVALLEY, Owners.

Notice of Assignment.

Notice is hereby given that Thomas F. Gaine and M. H. Roy, both of Cascade City, in the province of British Columbia, doing business as wholesale liquor merchants and gents' furnisiers, at Cascade City aforesaid, in the premises known as the "Yukon Store" under the name, style and firm of Gaine & Roy, having by deed bearing date the 31st day of August, 1899, assigned all their personal estate, credits and effects which may be sold under execution and all their real estate, to the undersigned George A. Eastman, at Cascade City, aforesaid, in trust for the general benefit of their creditors, both partnership and individual.

The said deed was executed by the assignors, Thomas F. Gaine, on the 31st day of August, 1899, and by the assignor M. H. Roy, and the assignee on the 2nd day of September, 1899.

Dated this 4th day of September, 1899.

GEORGE A. EASTMAN.

Born.

Born to the wife of W. J. Brown, Cascade, on September 18th, a son.

PROVINCIAL GAME LAWS.

It is Now Open Season for Grouse, Ducks, Deer, Etc.

The open seasons for game are, respectively, as follows, both dates being inclusive:

September 1st to February 28th—Bittern, ducks of all kinds, heron, meadow lark, plover.

September 1st to December 31st—Caribou, elk, wapiti [bull], grouse of all kinds, including prairie chickens, hare, moose (bull).

September 15th to December 14th—Deer, mountain goat, mountain sheep—ram.

November 2nd to March 31st—Beaver, land otter, martin.

Unless specially provided, it is unlawful to shoot or destroy the following: Insectivorous birds, English blackbirds, caribou—cow or calf; chaffinch, deer—fawn under 10 months; elk, wapiti—cow or calf under two years; gull, linnet, moose—cow or calf under 12 months; mountain sheep—ewe or lamb; English partridge, cock pheasant, quail of all kinds, skylark, thrush, and eggs of protected birds.

It is unlawful to buy, sell, or expose for sale, show or advertisement: Insectivorous birds, bittern, English blackbirds, caribou—cow or calf; chaffinch, deer—fawn under 12 months; or doe, elk or wapiti, of any sex or age, grouse of all kinds, except blue grouse which

may be sold during the open season, gull, linnet, meadow lark, moose—cow or calf; mountain sheep—ewe or lamb; English partridge, cock or hen pheasant, quail, robbin, skylark, thrush at any time.

Farmers only may shoot robins in gardens between June 1st and September 1st.

It is unlawful to buy, sell, or expose for sale, or advertisement: Caribou, hare, bull moose, mountain goat, mountain ram, before October 1st; buck, deer, blue grouse, plover, during the close season.

It is unlawful to kill or take in one season more than five caribou, ten deer, two elk, 250 ducks, two moose, five mountain goats, three mountain rams, and to hunt deer with dogs, or kill deer for hides alone

Across the Boundary Line.

Northport expects a great rush of settlers in the fall.

Republic expects to have electric lights in the course of 30 days.

Bossburg keenly feels the loss of trade consequent upon the dropping off of freighting.

Ex-Mayor John A. Manley, of Grand Forks, has been taking an outing at Nelson, Wash.

The money order business at the Republic postoffice runs from \$12,000 to \$15,000 monthly.

Russell stands a chance of losing its only store before long. G. P. Pearsons has been prospecting for a new location.

Bolster, adjoining Chesaw, on Meyers creek, is booming. Some 25 buildings have been erected there within the last two weeks.

Corbin's telegraph line has reached Midway from Republic, and will soon be at Greenwood, and thence to Grand Forks, Cascade and Marcus.

A rumor was afloat that the new town of Chesaw had been allotted to an Indian, and there was much trouble borrowed in consequence. The report has been denied, however.

Now Uses the Back Streets.

A neighboring editor now takes the back streets of his town on account of the way he mixed up the report of a cattle show and a concert, says an exchange. This is the way he made it read: "The concert given by Odessa's most beautiful young ladies was highly appreciated. They sang in a most charming manner, winning the plaudits of the entire audience, who pronounced them the finest herd of shorthorns in the country. A few are of a rich brown color, but the majority are spotted brown and white. Several of the heifers are able-bodied, fine limbed and promise to prove good milkers."

Have you got one yet? What? Why, one of those new maps of the Christina lake mining camps. If you have an interest there, you should have a map. Sent post paid by the Cascade Record on receipt of \$1.25.

It's the best in the world—bar none. The fine job work turned out at the Cascade Record office.

You can get breakfast before the early stage starts at the Queen Restaurant.

Notice.

NOTICE is hereby given that the partnership heretofore existing between Alexander Lynch and John Earle, doing business under the title of the Cascade Sawmill Co., of Cascade City, B. C., is hereby dissolved by mutual consent. The business will be continued by John Earle, who is hereby authorized to collect all outstanding accounts due the late firm, and will settle all accounts owing by said firm.

(Signed) ALEXANDER LYNCH, JOHN EARLE.

In presence of George K. Stocker. Dated at Cascade City, B. C., this 23rd day of August, 1899.

BOUNDARY MINES

Brief Bits From Many Camps.

The Gold Bug, near Greenwood, is clearing ground for an aerial tramway. A carload of ore is being shipped to the Trail smelter.

H. F. Libby is developing the Alice L., on Grenville mountain, and has struck four feet of solid quartz. Assays run \$52 per ton.

A strike is reported from the Norway Mountain Gold Mining Co.'s property, and free gold has been panned from a wide stringer in a five foot shaft.

The crosscut in the Morrison, in Deadwood camp, at the depth of 220 feet is 66 feet in ore, and has not yet struck the hanging wall. The values average \$12 in gold, and 3 per cent. in copper.

The tunnel on the Bonanza, on Grenville mountain, near Gladstone, is in 36 feet, and is looking well. Dr. Edward Bowes and others, of Rosslund, are the owners, and Ed. Terzick is in charge of the work.

Railway graders have opened up another fine ore body on the Oro Denoro, in Summit camp. The main shaft is now down 185 feet, and it is expected that ore shipments can commence as soon as the spur reaches the property.

On the Pathfinder, on the north fork of Kettle river, the tunnel is in 142 feet and is in ore all the way except 35 feet. A main double-compartment workingshaft has just been started, which is expected to strike the ledge at a depth of 400 feet.

The Minnehaha, at Camp McKinney, is said to have the largest boiler ever brought into that camp, being 80 h-p. President Montgomery, of the company owning and operating this property, has recently returned to Toronto, well satisfied with the development.

In 63 days 12 gold bricks, worth \$5,940 were turned out of the mill of the Camp McKinney Mines, Ltd., owning the Granite and Banner claims. This was done with a 5-stamp battery, the capacity of which will be doubled shortly. About 15,000 tons of \$14.50 ore is estimated to be in sight in the mine.

Beaverton camp, up the west fork of Kettle river, is attracting considerable attention. One lead on the Washington and Idaho claims has six feet of solid galena, that averages \$40, and many assays run higher. Prominent mining men are taking considerable interest in the camp.

One of the latest mining strikes made by railway graders is on the Snowshoe, in Greenwood camp, where the workers on the spur cut through a 70-foot vein of ore south of the present shaft, which can be traced 700 feet. It runs high in gold and silver and is a rich chalcopryite. It is the intention to send samples to the Spokane Exposition.

Capitalists and mining men are giving considerable attention to Keremea and Twenty Mile claims in the Similkameen, where a number of new and rich discoveries have recently been made. Work is being pushed on the Nickel Plate, Ramshorn, Shamrock, Goldconda, Opulence, Elkhorn and a

number of others, many of which will be worked all winter.

About 11,000 tons of ore are now blocked out in the Jewel mine in Long Lake camp and about 500 tons on the dump. Thus far over 1000 feet of shafts, drifts, upraises, etc., have been done, and the property is expected to be put on a dividend paying basis next year, when the cyanide plant is in operation. It is owned by the Jewel Gold Mines, Ltd., of London, England, with a capital of £80,000.

Work has been started on the big Seattle claim, on the north fork of Kettle river, over which so much litigation has taken place. Options from those interested have been obtained and placed in the hands of a trustee. The claim has a ledge from 50 to 350 feet wide, and was located by Robert Clark, one of the litigants. Great things are expected as a result of the work now going on.

Columbia Stage Co. Sued Again.

C. J. Pfrang has sued the Columbia Stage company for \$5,000 damages.

On September 9th Pfrang was a passenger on one of the company's stages between Bossburg and Grand Forks. While en route the Jehu on the box became indifferent to the safety of his charge and ran upon a large stick. It flew up striking Pfrang the full length of his left side. It was a terrific blow and caused painful injuries on the head and leg. It caused deafness in the left ear, a damaged eye, and other injuries. Pfrang says he spent \$125 for medical attendance, and lost \$100 in time. He asks, through his attorney, W. C. Morris, \$5,000 damages, and the sum spent for treatment and that sustained through forced idleness. —Republic Pioneer.

General Mining News

Over 85 camps will have an ore exhibit at the Spokane Exposition, Oct. 8-17.

It is reported that another compressor will be put in by the Noble Five in the Slocan.

Fine ore running \$85 and \$90 per ton, has lately been struck in the Wilcox mine at Ymir.

For two months ending September 1, 230 locations and 257 assessments were recorded in Trout Lake City.

The Iron Mask mine, at Rossland, is increasing its ore shipments and now averages eight cars a week.

Drifting has been started on the big 40 foot ledge at 1000-foot depth in the Palmer mountain tunnel, in the Okanogan.

Good things seem to be the order of the day in New Denver district. Numerous mineral strikes and developments have taken place.

A find considered most important has been made on the Deer Park at Rossland. It was made on an old unexplored working, and average assays give \$12.27 per ton.

The results of the Hall Mines smelting operations for the four weeks ending September 1, 1899, are: 4115 tons of ore were smelted: Containing, approximately, 79 tons copper, and 51,720 ounces of silver.

The Lade group, situated on Gainer creek, a tributary of the south fork of the Lardo, about ten miles from Ferguson, is probably the most uniformly rich property in Kootenay. It is a gold ore and assays frequently indicate values of \$800 to the ton. Ten tons of sorted rock were shipped from the property, which, after deducting all charges for mining, packing and freight and treatment, yielded the owners a profit of \$240 per ton.

W. A. Carlyle, formerly superintendent of the B. A. C. properties in Rossland, has accepted the offer of the Rio Pinto copper mines in Spain of \$25,000 per year to take charge of those properties. He will leave Rossland on December 1, and will take charge on the 1st of next April. His salary commences at the new year. The Rio Pinto employs 14,000 men and is the third largest producer in the world. It has been worked for centuries, and last year paid \$4,005,000 in dividends upon a capital stock of \$90,000,000. The shareholders are in England, Scotland and France, the Rothschilds having the control.
