GRANBY BOND GEORGE COPPER

Biggest Deal Since Guggenheim Interests Acquired Control of Premier Mine. To Develop Next Season.

During the past week the Granby company have bonded the George Copper property. This is easily the most important deal made in the camp since the Guggenheim interests acquired control of the Premier mine.

While no definite information is available as to the intention of the Granby people at present, it is understood that, as it is too late this season to do any development work on the property, nothing will be done until the spring when a crew of men will be put on the ground and extensive diamond drilling undertaken. The undertaking being a large one, it is estimated that two years active development will be required to put the property on a shipping basis.

This property is owned by W. B. George of Stewart and his associates, consists of 20 claims, and is situated on the south side of Bear river, six miles beyond the terminal of the Portland Canal Short Line railway (not at present in operation), and some 20 miles from tidewater at Stewart. The claims extend from the bottom of the valley, up the mountain to an elevation of 4000 feet. A cabin has been built by the owners in the bottom, from which point a horse trail was constructed up the mountain to the showings, which are among the largest in the camp. George Clothier, in his report of 1918, on this property, speaking of the showings, saays in part:

The "blue vein" is comprised of three veins contained in a 50-foot minerrlized belt, traceable for 1000 feet or more; the veins aggregating 10 feet of ore, averaging: Gold $4, silver 30 cents per ton, copper 3 per cent. The "white vein," traceable for 2000 feet on the surface. Just west of the big gulch is a showing of quartz and chalcopyrite on the hanging wall 18 inches wide, assaying: Gold trace, silver 0.4 ounces per ton; copper 8.8 per cent; the remaining 36 inches in the footwall assaying: Gold $1.20, silver 0.4 ounces per ton, copper 14 per cent. About 30 feet west of this it was exposed for a width of 9 feet 6 inches this year, of which 4 feet is magnetite carrying chalcopyrite (no assays), 3 feet of fairly solid chalcopyrite, and 2 feet 6 inches of quartz and chalcopyrite; the last 5 feet 6 inches is estimated by W. B. George to average from 8 to 10 per cent copper. Another sample, about 350 feet west of the last, of 40 inches on the hanging wall, gave: Gold trace, silver 0.4 ounces per ton; copper 1.6 per cent. About 10 feet farther west a sample across 36 inches of the footwall assayed: Gold trace, silver 0.4 ounces per ton; copper 16 per cent. On this same vein, 200 feet east the "blue vein," a crosscut this year showed it to be 15 feet wide, of mixed ore, stringers of ore in country rock, and it is thought that the full width has not yet been exposed.

No work has been done on the "green vein," which is about 50 feet south of and parallel to the "white vein." In summing up his report of that year, which is the last one made for public consumption, Mr. Clothier says: "The property appears to improve steadily with explorotion, and with improved conditions should receive the more extensive investigation it is entitled to."

Since this report was made the property was bonded by the Algunican Development company who, after getting into financial difficulties due to slump in European exchange in 1921-2, released it.

Up to the time that they took hold, and since they were forced to give it up, Mr. George and his associates have done considerable work, and shown up large and extensive ore bodies covering a wide area. Great credit is due them for the manner in which they have held on and persevered with their development work under tremendous difficulties.

While the price at which the Granby company have taken the property is not available, it is understood to be of a substantial nature.

Addresses Meeting

W. R. Smith, before leaving for his home in the east last Sunday, addressed a special meeting of the Citizens' Association on Saturday evening last at the Newell hall. His remarks from beginning to the end were of great interest to all present. For speaking of the past as one who took a prominent part in the early development of Stewart, Mr. Smith spoke with authority, and coming as he did from the big centers of the east his optimism for the future of the Portland canal was most encouraging.

Mrs. John Littlepage and her three children arrived in Hyder on the Prince of Wales last week. She will join her husband, who is in charge of development work on the Riverside property.

. . STEWART LOCAL NEWS . .

Mrs. Harry Tanner left, Sunday, for a visit to her home in Seattle.

The Stewart Drug company have just received a new and complete line of batteries, globes and flash lights.

Arthur Collison and R. S. Wood on the fisheries patrol boat Linnett, paid Stewart a visit on Monday last, coming in from the Naas.

Mr. and Mrs. Fred Ritchie of Prince Rupert, after spending some weeks in Stewart, left on their return home, Sunday. Mr. Ritchie is one of the pioneers of the north and was intimately associated with the early developments of the camp. Being interested in mining property, he is also one of the stockholders in the Indian mine.

Get ready for the biggest dance of the season, Stewart hotel, Armistice day.

Harry Zeffertt left for the south on his annual buying trip, Sunday, and expects to return in two weeks time.

H. E. Mowat arrived on the Rupert, Sunday, to fill the vacancy on the local staff of the Bank of Montreal. Mr. Mowat is well known here, having spent several weeks in Stewart during the early part of the year.

A number of the lots recently purchased from the Stewart Land company are being cleared up preparatory to the building of homes. As several of them are located on prominent street corners, great improvements will be made to the appearance of the town.

MANN'S TOWNSITE ON MARKET

Negotiations, which have been under way for sometime, have recently been completed whereby District Lot 443 will soon be placed on the market. This property, which was subdivided some years ago into town lots by Sir Donald Mann and associates, lies immediately east of the railway tracks, and extends from a point near the mouth of Bear river, north to beyond the station.

By the making of these several hundred lots available, at very low prices to the homeseekers of the Portland Canal, the size of the town of Stewart will be materially increased.

While the actual details have not yet been worked out, it is safe to say that this will be the cheapest property ever put on the market in this district, either on the British Columbia or Alaska side, for which an indefeasible title can be given.

It is anticipated that the prices will be such that, with the developments that are to take place up the Bear river valley next season, practically assuring a railway within the next two years or so, the bulk of this property will be sold in a very short time. H. W. M. Rolston of Stewart has been appointed local agent for the company, and expects to receive plans and details of price in the very near future.

George Clothier, resident mining engineer for this division, arrived on the Rupert, Sunday, and will spend some time in the district examining properties.

T. V. Wilson, who has been developing mineral claims that he owns on the west side of the Salmon river glacier, left for Seattle on the Prince Rupert, Sunday, well satisfied with the result of the season's work.

W. R. McDonnell, on his trip to Seattle, made arrangements for some special feature film which he will show at the Pioneer hall, Hyder. The list includes Constance Talmadge, an 8-reel feature, in "The Love Expert." "Love Flower," a W. D. Griffith production of nine-reels. Maximova in "Toys of Fate," seven reels. Charlie Chaplin is included in the bill featuring him in "The Kid." These shows will be September's complete program.

November 11 is the anniversary of the signing of the Armictice which terminated the great war. On that date, and in celebration of it the Citizens' Association of Stewart will give a dance

Hugh McGuire, who has, and is interested in several valuable mining properties in the district, returned, Suhday, from an extended business trip to Toronto, Montreal and New York. Mr. McGuire found on this trip that the district is becoming much better known in the eastern Canadian centers.

Dalby Morkill, P. L. S., who makes his headquarters in Stewart and Vancouver, having completed his work in this district for the season, expects to leave for the south on Sunday, 16th. Going as far as Rupert he will take the G. T. P. train into the interior as far as Smithers, where he has work to do.

Armistice dance, Nov. 11.

A good program is promised the patrons of the picture show in the Pioneer hall, Saturday evening, September 16.

W. Jancowski has been let the contract of redecking the Stewart dock. The work is now well under way and will soon be completed.

Grant Mahood, president and managing-director of the American Mining and Milling company, left for Vancouver on the Rupert, Sunday, on a business trip.

Mrs. Dale L. Pitt and daughter Elizabeth left for the south on the Rupert, Sunday. After placing her daughter in school in Prince Rupert, Mrs. Pitt will leave for the east on an extended visit with relatives.

Mrs. M. R. Jamieson and son Lorne left for New Westminster on the Rupert, Sunday. Mrs. Jamieson, after entering Lorne in college, will spend several weeks with friends in Vancouver before returning.

A. L. Carruthers, public works engineer for this district, and George Young, general road foreman, arrived on the Rupert, Sunday, and are spending the week inspecting the roads, trails and bridges of the district.

Miss Esther Olson, who is in charge of the Hyder school again this year, returned from Seattle via Ketchikan, Wednesday last. She was met, on landing at Hyder, by a number of her pupils, who gave her a very warm welcome.

Mrs. Lewes arrived on the Rupert, Sunday, and will take up her permanent residence with her son, E. A. Lewes. Her daughter, Mrs. Hugo Stratford, came down from the Premier mine to meet her, and spent days in town.

Charlie Hickman of the Dominion fisheries department arrived on the Prince Rupert from New Westminster, Sunday, and left during the week for Meziadin lake and the Naas valley. It is understood that Mr. Hickman will also visit Bowser lake.

The Granby launch "Azurite" arrived in port, Tuesday night, with E. J. Conway, field engineer for the Granby company. Mr. Conway left early, Wednesday day morning, for the George Copper property, which property he is inspecting on behalf of his company.

Harry Jackson, accountant at the Premier mine, returned from his holidays on the Rupert, last week. Mr. Jackson left for his home in New York and the east some two and a half months ago, this being his first holiday since he went up to the mine over two and one-half years ago.

BOND PROPERTY GLACIER CREEK

Claims Situated Close to Stewart Acquired by Financially Sound Interests Very Promising Prospects

The Ruth and Francis property, owned by J. Nesbitt and A. Archie, of Stewart, was this week bonded to influential parties. It being too late in the season to accomplish much in the way of development, nothing will be done to next spring, when it is understood a progresive development program will be put into effect.

This property, which consists of five claims, is well situated on the north fork of Glacier creek, about three and one-half miles from the Bear river wagon road, or a total distance of from 8 to 9 miles from tidewater at Stewart. After leaving the wagon road the claims and the camp thereon are reached by a good horse trail, three and one-half miles in length.

Considerable development work has already been done by the owners, consisting of several tunnels and important open-cutting, thus opening up, and tracing on the surface for some distance. three well defined and strong leads; one of which runs clear across the property, carrying good values in antimonial silver. The strike of this lead is northerly and southerly, with a slight dip to the east.

Two other leads, one of a copper and the other of a galena ore, parallel each other, strike nearly east and west, and stand almost perpendicular.

Three tunnels have already been driven on these veins for the following distances: 25 feet, 45 feet, and 65 feet, each showing good ore, carrying very satisfactory values.

The owners have a good cabin, built at an elevation of 3400 feet.

An interesting feature of the property is the fact that it adjoins M. K. Rogers' Silver Bow group. Its accessibility, ample water power, and plenty of timber make, combined with its good showings, a very interesting development proposition.

Cobbler Arrives

Pete Ferris, formerly saddler in the Northwest Mounted Police, arrived on the Rupert, Sunday, from Vancouver, and has opened a shoe repair shop in Stewart. Being an old country harnessmaker, he is a distinct asset to the district, being able to make and repair saddlery or harness, as well as boots.

GEOGRAPHICAL POLITICS

THE controversy between Progressives who desire to "broaden out" and the United farmers of Ontario who remain closs-conscious, is brought to a point by Mr. Morrison, the organizer of the United Farmers. Speaking in Frontenac a short time ago, he drew the political line sharply between city and country, between farmers and people of all other vocations. To the Frontenac farmers he said: "You are opposed to urban residents, for your ideas and economic principles are just the oppoposite of those held by city residents, and you might just well try to mix oil with water."

Come to look at it this is startling doctrine. It implies that there is no right and wrong, no just and unjust, no wise or unwise general policy. It can hardly be true that a man is infallibly guided to righteousness, justice and wisdom because he lives outside the city limits, and that those who live in town are inevitebly led to error, injustice and foolishness. Mr. Morrison's doctrine is undemocratic. It is the soviet with an agricultural instead of a prole'aiat base. It divides the people into political groups on the basis not of their political opinions but of their place of residence. It expects a man to change his politics when he moves into town or out of town.

The proposition has the advantage that it saves the sluggish elector the trouble of considering political issues. His vote become a matter of geopraphy, so simple that even a moron need not err therein.

FOR CHARITY

THE latest statement about Lloyd George as an author vindicates him from the charge of writing his memoirs for the money that they will bring. Some person made the discovery that if the £90,000 to be paid to the author were all counted as one year's earnings the treasury would take nearly half of it as income tax. Lloyd George might fairly claim that the proceeds would represent the earnings of more than one fiscal year, which would greatly reduce tue rate per cent. But as it appears that he intends to devote the whole proceeds to some war charities, he can laugh at the tax collector as the penniless traveler of Juvenual laughs at the highwayman.

Lloyd George is a solicitor, and never had a great professional income like some of his former colleagues, as Mr. Asquith, Lord Birkenhead, Sir John Simon and Lord Carson. Nevertheless, he is secure from poverty, so that he is simply giving up the opportunity to double his income after retirement. Lloyd George is making the same use of the proceeks of his forthcoming book as Ralph Connor is said to have made of the income of his latest volume, and Canon Scott of his war reminiscences.

WHERE POINCARE FAILS

IT is evidently a good idea for Britain to leave the reporations initiative with France for the time being. M. Poincare is an excellent critic and a fine advocate of the rights of his people. But he has never shown himself great in action. As war president he gave Clemenceau his own way. There is now no Clemenceau to prepare a program and carry it through. The premier wins high approval in France when he makes strong declarations, but strong declarations will not drag reparation money from Germany. So far M. Poincare may claim a large share in the overthrow of Briand the abrupt close of the Cannes meeting, the block of the Genoa conference. the failure of the London conference, and the ineffectiveness of the Hague meeting. These are negative triumphs. Europe waits for him to start something.

TOM MOORE AGAIN

ELECTED for the fifth time president of the Dominion Trades and Labor Congress, Tom Moore occupies in Canada a position somewhat similar to that of Samuel Gompers in the United States. Capitalists and employers do not find either of them lacking in aggressiveness. Their economic doctrines seem to the average man, who is neither employer or employed, to be sufficiently radical. Mr. Moore is always on the side of labor when it claims greater awards and larger influence.

But in the councils of the Labor party he finds himself in conflict with extremists. In the Montreal conference last week he was one of those who emphatically rejected all resolutions of sympathy and cooperation with the Soviet government of Russia.

SWEDEN NOT READY

SWEDEN has tried many experiments in the regulation of the liquor traffic and was one of the first states to establish systems of public dispensaries. But the Swedes are not yet prepared to enter upon the prohibition experiment. The plebiscite required a 60 per cent vote to authorize prohibitory legislation, and the extra dry vote was a little under 50 per cent. Though large wet majorities were given in the cities the prohibitionists seem to have failed to obtain the required 60 per cent even in the country districts. The people cannot be charged with indifference as the vote polled is equal to abont half the total population.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre, second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made preportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 10 acres, may be leased as homesites, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased, conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1918, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers up to ten head.

Big Strike on the Beverley.
Silver Bar Operating.
Esperanza Now Shipping.
Propepties Very Active.

Louis Reynolds, owner of the Beverley group, situated across the bay, a short distance from tidewater, reports striking a rich lead of high grade silver ore and galena on that property. Considerable stripping has been done and a vein of ore, 40 feet wide, uncovered. Stripping, for about 40 feet along the vein, has been done. Work on driving a tunnel has commenced in order to strike the ore body at depth. Some specimens of ore have been taken from the property, and it is very probable that it will quickly develop into a shipping mine, due to its close proximity to tidewater.

The Silver Bar Mining commenced operations last week, building camps on the Silver Bar property, on the northeast fork of the Kitsault river. A. McGuire is in charge of operations and it is hoped to have the camps ready in time for the winter's work.

The Esperanza is shipping about 50 tons of high grade ore to the Tacoma smelter. The ore is at present on the government wharf awaiting the arrival of the boat. This is the first shipment of ore made by the new owners.

MINERAL ACT.

Certificate of Improvement.

NOTICE

Vimy No, 1, Lens, Mons mineral claims, situated in the Portland Canal mining division of Cassiar district. Where located; On the west side of Salmon River Glacier, and opposite the Forty-Nine Group.

Take notice that I, J. Fred Ritchie, of Prince Rupert, B.C., acting as agent for James Daly, Free Miner's Certificate No. 53559C, and Alphonsus M. Sweeney, Free Miner's Certificate No. 53560C, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim. And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 3rd day of August, A.D. 1922. 10

WATER NOTICE

Diversion and Use

Take notice, that Charles Arthur Banks, Whose address is 612 Pacific Building, Vancouver, B. C., will apply for a licence to take and use 0.10 cubic feet per second of water out of north fork of Fletcher creek, which flows south westerly and drains into Fletcher creek, about 700 feet from its mouth. The water will be diverted from the stream at a point about north 40 degrees west, 580 feet from the southeast corner of lot 4019, Hooligan mining claim and will be used for domestic purposes upon the property described as Cascade Falls No. 5 mineral claim. This notice was posted on the ground on the twenty-sixth day of August, 1922. A copy of this notice and an application pursuant thereto and to the "Water Act 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C. Objections to the application may be filed with said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is September 1, 1922.

C. A. BANKS, Applicant.

WATER NOTICE.

Diversion and Use.

Take notice that Lawrence & Workman, whose address is Stewart, B. C., will apply for a license to take and use five cubic feet of water out of Barney's Gulch, which flows in a westerly direction and drains into Bear river, about one mile from Stewart tidewater. The water will be diverted from the stream at a point about 800 feet from foot of mountain and will be used for power (industrially) purpose upon lots 6, 7, 8, and 9, of district lot 866, group 1, Cassiar district. A copy of this notice was posted on the ground on the 4th day of September, 1922. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder on with the Comptroller of Water Rights, Parliament buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is September 8, 1922.

The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $76,177,403; Lode Gold, $105,557,977; Silver, $55,259,485; Lead, $48.330,575; Copper, $166,393,488; Zinc, $21,884,531; Coal and Coke, $225,409,505; Building Stone, Brick, Cement, $34,072,016; Miscellaneous Minerals, $1,210,639; making its Mineral Production to the end of 1921 show

AN AGGREGATE VALUE OF $734,259,619

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,992,725; for the year 1921, $28,066,641.

PRODUCTION DURING LAST TEN YEARS, $336,562,897

Lode mining has only been in progress for about 33 years, and not 20 per cent. of the Province has been even prospected; 300,000 square miles of unexplored mineral-bearing land are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, Victoria, British Columbia.

Boost the man for whom you labor,
Boost the stranger and the neighbor.

CHANGING BACK TO LONG SKIRTS

The flapper soon will be a thing of the past. Short skirts and the display of legs has not come to stay. In fact, at outside coast cities, we are told, they are rapidly returning to the swish of long skirts. And the reason given for the rapid change is because men refuse to marry scantily garbed girls. And in the interest of matrimony—the ultimate aim of every girl—modern feminity is bundling up so it can again mystify man into a trip to the altar.

"When girls, by self-revealment, cease to be mysterious, men no longer wish to marry them," is the way Andrew Tridon, the famous French psychologist put it when asked to analyze the change of style back to long skirts. "Women found they were matrimonially undesirable and that there are things that attract men far more than semi-nudity. Clothes have long been a secondary characteristic of women, as men's interest wanes. The flapper, therefore, to escape spinsterhood, is returning to the good old age of feminine mystery. In the future, something will be left to the imagination."

Kwitcherbelliakin.

Manitoba this year is as good as wheat.

Some people are virtuous because they are fed up, and some because they don't know what they are missing.

Lives of speeders oft remind us we can break the limit too, and departing leave behind us what is left of our home brew.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, **GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.**

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds **AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th**, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.
