VOL. 5, NO. 37 STEWART, BRITISH COLUMBIA, FRIDAY, FEBRUARY 8, 1924 $5 THE YEAR

OLD MEETING OF IMPORTANCE

rotection Against Fire and Dangerous Roads Forms Principal Theme at Association Meeting

The Citizens Association meeting held in Moose hall Wednesday evening waxed considerably warmer than is usually the case.

After the usual routine had been disposed of the Fire Department was again the centre of considerable discussion, which resulted in several definite steps being taken, those present not being in any way satisfied with the haphazard rut into which things have been allowed to drift.

The secretary read a letter from the Provincial Fire Marshal which stated that the Portland Canal Mining District has been made a Fire District, and that Constable Williams has been appointed District Fire Marshal.

On being requested for information concerning the Act, Mr Williams dealt at considerable length with it, pointing out that he has the right of entry into any building for examination purposes, and can order any chimney or stove set up changed, such change to be made at the expense of the owner. When asked how he would enforce this he quoted from the Act, that any person not complying with a properly issued instruction is liable to a fine, by summary conviction, of not less than $10 and more than $25, and $25 additional for each day's delay in carrying out the order. In the event of a person thinking that he is being imposed upon, and if the cost of alterations is excessive, he can appeal from the decision of the District Fire Marshal to the Provincial Marshal in Vancouver.

Mr Williams said he is going to make an inspection of the town in the course of a few days. This being the case, he was requested by the meeting to investigate the whole situation and report back any recommendations he may deem advisable for more efficient fire protection for the town. In thanking him for his report, he was assured of the heartiest support in any action he may take to clear up a very serious situation.

The next matter dealt with was the dangerous condition of the Stewart-Hyder road. The secretary reported that he had received no reply from Major Taylor, Public Works Engineer at Prince Rupert, to his letter of January 8, pointing out the necessity of some protection being afforded the public on this highway. Some exception was taken by the meeting to Major Taylor's attitude in the matter, and the secretary was instructed to send him a wire asking for information on what is to be done. It was pointed out that the country pays high-priced engineers who travel back and forth at the expense of the taxpayers, and that they should be able to make this road safe.

Neither has a reply to the secretary's letter concerning the proposed highway protection work south of the Bear river wagon bridge to the railway crossing, been received.

Under new business, a resolution was adopted requesting the support of Dominion Public Works Engineer Ford for increased dock accommodation for Stewart during the current year, and instructing the secretary to write to Fred Stork, M.P., pointing out the promised growth this year and asking for his support in the House of Commons for such an undertaking.

A special meeting to consider the fire situation will be called in the near future.

PAYMENT MADE ON TEXAS CREEK

Pat Daly's Principals Make Good On Bond for Ibex And Homestake Groups Of Claims

In spite of an atmosphere of doubt created in certain quarters the payment has been made on the Ibex and Homestake properties on Texas creek, recently bonded by Pat Daly and associates to, it is reported on good authority, the Day interests of Wallace, Idaho. Mr Daly, who left for the south yesterday, will on his his return bring in the necessary supplies to start work. He expects to take the supplies in over the crust and put into effect an ambitious development program as soon as the snow goes.

Accident at Tram Head

While cleaning the gears at the Premier tram head just before going off shift last Sunday, W. Churchill, one of the operators, was caught by the shirt and dragged into the machinery. According to report, had not the shirt torn away he would have undoubtedly been killed; as it was, he had an arm broken in three places and was considerably shaken up and bruised about the body. He is now in the Premier hospital.

STEWART-HYDER LOCAL NEWS

Pat Daly, who is interested in Texas creek properties, left for the south yesterday.

J. P. Hawkinson, of the Exchange Grill, made a business trip to Rupert this week.

W. J. Benson, of the Benson Cigar Store, Hyder B. C., left yesterday for a visit of some months in Tacoma.

Mrs Wm. Hanson and son Walter left on the Cardena for Vancouver, where Mrs Hanson will consult an occulist.

Elizabeth Pitt, who just had to come up from Rupert last week to get acquainted with her baby brother, returned to school yesterday.

The Rev. Edwin and Mrs Moss arrived on the Prince Rupert yesterday. Rev. Moss will hold services in St. Mark's Church next Sunday.

P.S.Jack was among the outgoing passengers on the Prince Rupert yesterday, He is going to Vancouver on business and expects to return about the end of the month.

Bert Smith, assistant manager of the Premier, who has been south, and visiting the Duthie mine at Smithers on company business, returned yesterday but went out again to Rupert.

The dance given by the Winter Sports Club was a pronouced social success. This was the first function of the kind given by this organization, and it's success calls for a repetition.

Father E. Allard, O.M.I., will shortly arrive from the south and will hold services at Stewart on Sunday, Feb, 24, and at Hyder Alasda on Sunday, Mar. 2, at the usual hour of 10:30 a.m.

F. N. Cronholm, controlling spirit in the Cronholm Bartholf mines, whose property is located near the head of the Salmon river glacier, arrived from Los Angeles yesterday, on business connected with his operations. Mr Cronholm has associated with him a very strong group of California capitalists.

Eldorado Officers

The following directors were elected at the annual stockholders' meeting of the Eldorado Gold Mining Company, Inc.: C.W.Wiley, A.W.Leonard, John Ad. Campbell, Thomas V.Wilson and Harold H. Gramm. All the directors are prominently identified with Seattle's financial and business activity. Officers elected by the Board of Directors to serve for the ensuing year are John Ad. Campbell, president; Thomas V. Wilson, vice president and Harold H. Gramm, secretary-treasurer.

Ed Fernald left yesterday for a three weeks' vacation in Portland.

Mr and Mrs John Mellor returned Monday night from a trip to Vancouver.

G.P.Sharp, a mining engineer who has spent some time at the B.C. Silver left for the south yesterday.

Dan McLeod, formerly employed at the Indian mine, who went south recently, returned yesterday.

Danny Hume left yesterday for Alice Arm to help the Government build a bridge across the Kitsault river.

Godfrey Anderson, who is camping with Tim Williams four miles below Georgia river, is in town for a few days.

There will be great doings in Hyder on the night of Washington's Birthday. Watch for announcement next week.

About 15 feet of trestle on 4th st. just west of the Ryan building, caved in Wednesday, blocking the old dock approach.

Dr. H. A. Whillans, physician and surgeon; consultations at office of Stewart General Hospital, 10 to 11 a.m., and by appointment.

The International Service Club will hold their regular general meeting in the club rooms, Ryan building, at 8 p. m. Thursday, February 15.

H.J. McCarten and H. Hurell, who have been employed on the diamond drill contracts of Boyle Bros. in this camp, left for the south Thursday.

Travelers between Stewart and Hyder are much relieved by the fact that the ice hanging from the cliffs along the road practically all came down during the the heavy rain and wind storm Wednesday night.

A.N.Hamm, formerly on the local Bank of Montreal staff and now connected with the Prince Rupert Daily News, arrived yesterday and will spend a week here on business in connection with that paper.

A meeting of the business men of Stewart will be held in the Sourdough Club at 8 p.m., Wednesday the 13th. Certain matters of special interest to every business man will be discussed, and all such are urged to attend.

C.B. Simonds, B.C. Land Surveyor, of Victoria, has compiled a new topographical map of the Portland Canal district, showing all the roads, trails, bridges and the surveyed and better known mining claims. In all, the map is one of the most complete (except for geology) that has ever been made of this district.

MINING NEWS IN PARAGRAPHS

Week's Resume Of Mining Shows Great Activity In Property Development In All Mines

At the Dunwell mine this week very satisfactory progress is being made. During the week the men employed in No. 2 tunnel have been put in No. 3, and are now drifting south on the north-south vein, while the original crew in this tunnel are continuing northerly, the crews working with a view to thoroughly exploring the ore body on this level.

Indian

Work on No. 3 tunnel is well under way. The purpose of this is to cut, at an additional depth of 210 feet, the No, 5 and No. 6 ore bodies opened in No. 1 tunnel, which it is expected will be encountred 600 feet from the portal, and will give a vertical depth of 500 feet on the ore.

Riverside

Work on this property has produced satisfactory results during the winter. Development work under ground totals over 4000 feet, including drifting, sinking and crosscutting. This has opened up two substantial ore bodies and proved considerable ore, with backs of over 400 feet. Sixteen men have been employed steadily throughout the winter. The management have now under consideration the installation of increased plant and machinery, with a view to extracting and preparing for shipment the ore already blocked out.

Premier

The long tunnel from 13-mile is now in approximately 2000 feet from the portal. This tunnel, which was started last fall, is apparently planned for one of the main working tunnels, being 7x9 in the clear, and with 30-lb. steel on the track. The total length, when completed to its present objective, will be 2400 feet, and will give a vertical depth on the Premier ore bodies of approximately 1200 feet.

Daly Alaska

The management of this property have their 1924 development program well under way. The number of men employed has been increased to nine. New track is being taken up for the long tunnel.

Picture show Saturday.

L. D. TAYLOR SEES STEWART

Leading Vancouver Citizen Says Mining Is Coming Into Favor With Terminal City Investors

Louis D. Taylor, three times mayor of the City of Vancouver, owner of the Daily World when that paper was the best and most prosperous news medium in western Canada, the man who stood at the helm and piloted the metropolis of British Columbia safely through the hysterical boom of more than a decade ago, and left the mayoralty chair without a smirch on his good name—and financially "broke"—visited Stewart while the Prince Rupert was in port yesterday and spent the time renewing old acquaintences, every one of whom is his friend.

Mr Taylor has just passed through a strenuous campaign in which he was a candidate for mayor and was defeated by a bare margin of 57 votes, with three candidates in the field and around 13,000 votes cast. He is taking a little tour to "rest his nerves," and went from here to Anyox to visit relatives for a few days, then going to Prince George where he recreated for one summer and conducted the Citizen, then by rail back to Vancouver.

Beside city matters, Mr Taylor keeps well informed on the industrial development of the whole province. "Vancouver," he said to the News, "is waking up to the importance of the mining industry, and I am glad to note that the substantial men of the city are now talking mining instead of mining stocks. We had our experience in wildcatting in 1910, though then it was in keeping with the times. Everybody was going to get rich quick, whether in mines, real estate, lands or timber. It was a pleasant dream—but they have come out of it. Legitimate mining, oil and industrial enterprizes are receiving the support they deserve. The public has also become educated to the fact that it takes the spare money of the many to bring about big developments, and the sane, in fact the only way to centralize this money is by stock issues. I know of no wildcat stock in Vancouver today."

This was Mr Taylor's first visit to Stewart, and from the dock to the town he had his first sleigh ride in 27 years. He blinked a little when he saw citizens going around bare-headed and in their shirt sleeves, with snow up to the eves of the smaller houses.

GRAVE DANGER

IT SEEMS to be a strange thing that a public road can be allowed to drift into such a dangerous condition as has the Stewart-Hyder road.

Last week we published in the news columns a short story, as to how one man, walking out to the Thursday morning boat, was nearly struck by several hundred pounds of falling ice. Others from time to time have had similar experiences, and with the increase of traffic, aud no action taken to remove the menace in soft weather, it is only a matter of time before there will be a serious accident.

It would appear tnat an imperative duty of Government is to make a highway safe and maintain it so.

There is no reasonable nor logical excuse why the local road foreman should not be instructed to remove, during soft weather, the hundred and more tons of ice that is hanging over and above the road in the vicinity of the old dock.

Three or four times during the past week a ton or so has come down, and has been cleared away by the various stage drivers traveling back and forth. Fortunately so far none of this has actually struck a pedestrian or passing team, but this is no reason why such a grave danger should be allowed to exist.

ENDORSATION OF INCORPORATION

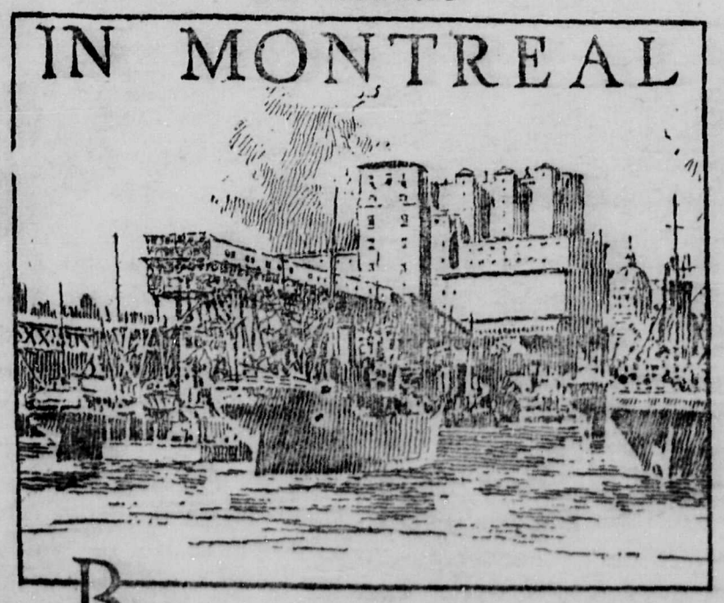
AFTER having observed the effect of incorporation under the Village Incorporation Act, upon the town of Smithers for more than a year, Burns' Lake has decided to avail itself of the advantages to be derived from this Act and do likewise, according to the Observer, dated Dec. 13, a weekly paper published in that small, but thriving community, situated on the G.T.P. main line, east of Smithers.

This will be most interesting to those of our local readers who from time to time have discussed the incorporation of Stewart under this same Act, and who have been watching, from a distance, its operation in the town of Smithers. The fact of its adoption by the near-by town of Burns' Lake would appear to be as a seal of endorsement, as well as a very practical recommendation. One need go no further in search of evidence as to the working out of this Act. It has evidently been very satisfactory in Smithers, and offers considerable advantages, otherwise Burns Lake would not have adopted it.

The paper referred to announces the names of three men who have been appointed by the Government to act as a Board of Commissioners and to hold office until their seccessors have been elected. A Clerk of the Village has been appointed, and these officials, at the time the Observer was published, were engaged in preparing a voters' list, and other details necessary for an election of three Commissioners.

FIRST
of the series dealing with the establishment of the BANK OF MONTREAL at representative points in CANADA and elsewhere

IN MONTREAL



BEFORE any steamship had crossed the ocean, and before either the locomotive or the telegraph had been invented, nine merchants of Montreal signed articles for the formation of the "Montreal Bank," now the Bank of Montreal. That was on June 23, 1817—more than 106 years ago.

Since that time Montreal has grown from a town of less than 20,000 to a city of more than 800,000 population.

The Bank, in continuous and successful operation from those early days down to the present time, has steadily pioneered its way across Canada. Today, through its Head Office and more than 550 Branches, it offers complete banking service—local, national, and international—in every section of the Dominion.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved Crown lands may be pre-empted by British subjects over 18 years of age and by aliens on declaring intention to become British subjects, conditional upon residence, cultivation and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is non-timbered land, i.e., carrying not more than 6,000 feet per acre west of the Coast Range and 8,000 feet per acre east of the Coast Range.

Applications for pre-emptions are to be addressed to the Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Lands Department or any Government Agent.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivation of at least 5 acres, before a Crown grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant, unreserved Crown lands, not being timber land, for agricultural purposes, at the price of first-class (arable) land is $5 per acre, and second-class (grazing) land is $2.50 per acre. Further information regarding purchase of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 640 acres, may be purchased or leased, the conditions including payment for timber or stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under the Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, preference being given to established owners. Stock-owners may form associations for the better management. Free, or partially free, permits are available for settlers, campers and travellers up to ten head.

Dome Mountain Development

Sixty men are now working for the Dome Mountain Gold Mining Co. and there are three camps and crews working in four different places, says the Omineca Herald. The result is that the appearance of that portion of the mountain is being greatly changed and for the benefit of the operating company. The surface ore on all workings is very satisfactory and the faith of the operators is thus far justified. Weather conditions have been ideal for mining and the company is taking advantage of the good sleighing to get in large shipments of the heavier supplies to tide the camp over the spring months when the mountain end of the road will be pretty heavy.

A 300-foot tunnel is being driven to the Cabin vein to open it up at considerable depth. Another tunnel, between 200 and 300 feet, is being driven on the vein to get under the excellent surface showing, and at a depth of 200 feet.

Another crew is drifting on the June vein, and this vein is looking very satisfactory. On the Forks vein, where T.J.Jefferson did most of his work, drifting is being continued. Surface investigations on the Forks claim have uncovered a new vein a short distance from the original workings and it looks very promising.

Duthie Mines, Limited

With a capital of $1,000,000, divided into 10,000 shares, incorporation of Duthie Mines Ltd. was effected for the purpose of carrying out the undertakings on Hudson Bay mountain at Smithers. The registered office of the company will be at Prince Rupert.

Kassan Company New Directors

The annual meeting of the directors of the Kassan Gold Company, was held in Minneapolis January 15. Jeremiah Walker, of Hoquiam, J. C. McDougal of Aberdeen, and Sidney Drake of Seattle, were the directors who attended the meeting from this part of the country. The meeting elected the following directors for the ensuing year:

Jeremiah Walker, of the Walker Lumber Co., Hoquiam, Wash.

A. H. Kuhn, of the Robert Gray Lumber Co., Hoquiam.

J.C.McDougal, lumberman, of Aberdeen, Wash.

Dr. Shorkley, of Mt. Vernon, Wash.

Sidney Drake, of Seattle.

C. E. Updike, banker, of Minneapolis.

A.J.Zackman, banker, of Minneapolis.

Mr Walker was elected president.

The head office of the company will be moved in the next ten days from Minneapolis to Seattle, Railway Exchange building.

The company announces that development and production will be vigorously prosecuted this year, The property is located near Ketchikan.—Alaska Weekly

Capt. J. R. Turner and J. Gaul have returned from Dorreen to Smithers and will spend several days there on business in connection with the Duthie mining enterprises. Snowslides are interfering with driving the tunnel on the Knauss property at Dorreen.

Ore samples of exceptionally good appearance are being displayed in Telkwa by W. Skelhorne from the Hidden Treasure.

The Emerald mine at Salmo has put on several men for development work.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $76,542,203 Lode Gold, $109,647,661; Silver, $59,814;266, Lead, $51,810,891; Copper, $170,723,242; Zinc, $24,625,839; Coal and Coke, $238,289,565; Building Stone, Brick, Cement, $36,605,942; Miscellaneous inerals, $1,358,839; making its Mineral Production to the end of 1922 show

AN AGGREGATE VALUE OF $734,259,619

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,509,963; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1915-1920, $189,922,725; 1921, $28,066,641; for the year 1922, $35,158,843.

PRODUCTION DURING LAST TEN YEARS, $339,280,940

Lode mining has only been in progress for about 33 years, and not 20 per cent. of the Province has been even prospected; 300,000 square miles of unexplored mineral-bearing land are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, Victoria, British Columbia.

TAME CLAMS EASY VICTIMS

Fred Young and Danny Hume returned Tuesday night from a hunting trip down to the mouth of the canal, taken with Walter Blanton, Harry Tanner and Fred Dorey, of Hyder, in Fred's gas boat, the Sea Lion. They took along nets and lines to capture monstrous and ferocious crabs that terrorize the southern end of the canal, and also a complete armament for bagging the wary and succulent clam.

On account of rough water they had little success with the crabs, but the storms and rainy weather had lulled the usually watchful clams into a sense of fancied security, so that the Nimrods could approach them with no caution at all—almost hardly—instead of having to sneak up on them, as would have been the case had the weather been clear. When it rains, the clam gazes soulfully at the sky and forgets—forgets. Thus it was that the hunters bagged several sacks full of these seashore delicacies before the main herd took fright and fled into their sandy shafts.

Aint Nature grand?

The game was stowed in the cellar of the Sea Lion. On the way home a storm was encountered that compelled anchoring over night in Halibut Bay. A heavy swell rocked the boat until the clams were drenched with the bilge, which assays high in distillate. This made them gasp for breath, and when they opened their mouths the distillate ran down their throats and spoiled their flavor. So the net gain of the hunting trip was a total loss.

The party visited Louis Watkins and Jack Lambert at the latter's clam and crab ranch on Sitlin island, and found these two oldtimers in good health but out of spirits.
