SEASON'S WORK ON ENGINEER

New Vein Discovered and Surface Prospecting Continued on Other Well Located Veins

It is possible that some work will be done on the Engineer group, according to George Bunn the owner, who has put in most of the season on the property. This season he finished a fine cabin, built of peeled logs and with a corrugated iron roof, which is as good a home as any during the winter months, and is close to his work.

The Engineer group, consisting of four claims, is located on the south fork of Marmot river, at an elevation of from 2000 to 3000 feet and is easily accessible, being less than five miles from the boat landing. The owner has driven a tunnel 25 feet on a vein that strikes northwest and south east and carries a considerable amount of chalcopyrite and some galena, the vein being pronounced by a mining engineer to be 11 feet in width. This summer this vein was stripped for 75 feet down the hill from the tunnel mouth to where it disappears under a glacial moraine. Some prospecting was also done above the tunnel, tracing the vein's upward continuation. The mountain is very steep.

Another vein, with values principally in silver and lead, lies east of the copper vein and has been traced by open cuts for a distance of over 2000 feet. It strikes north and south, and will intersect the copper vein further up the hill than either have been traced. This summer George found a cross vein which carries silver ore, richly impregnated with bromides. An intrusive dyke, about ten feet in width, parellels the galena vein as far as the latter has been traced. The prevailing formations are quartz-porphyry and argillites.

Election Officers

Ed. H. Mortimer, returning officer for the electoral district of Skeena arrived Monday and appointed G.W.Smith as registrar of voters, and J.P.Hawkinson as deputy returning officer for the rural polling division of Stewart. Mr Mortimer returned to Rupert on the Cardena.

Minerism Wanted

Tom Pope says the camp has geologists, mining engineers, mineralogists, managers, superintendents, stock salesmen etc. but what it needs is "minerism."

QUICK ACTION HECLA GROUP

Henry Hummel and his associates, Frank Blasher and Geo. Mross, have exemplified quick action in handling a prospect they staked on the 15th of September near the head of Texas creek. They already have a ton of ore at the wharf and have arranged for its shipment to Swansea as a smelter test. The ore assays $1.60 in gold, 54.3 ounces silver, $38.00; 21.6 per cent lead, $33.75; 32 per cent zinc, $38.50; 4.1 per cent copper, $11.50; total value per ton, $111.85.

They staked five claims, naming them the Hecla group. The ground has not been thoroughly prospected, having been located only a short time ago, but Hummel says there is a shear zone running through, independent of the vein from which they produced their ore, that he will look into. The property is 12 miles from the bridge across Salmon river at Nine-mile, and two miles from the government trail which is built on a wagon-road grade.

The high-grade shoot from which the shipment came varies from one to three feet in width and its widest part runs under the south Chickamin glacier. Alongside the high-grade is five feet of milling ore.

The shipment was "bulled by hand" down to the trail, but in the spring, when there is plenty of snow, it can be rawhided at a minimum of expense.

H.H.STEVENS M.P. AND GEO. BUSHBY

H.H.Stevens, M.P. for Central Vancouver, and George Bushby candidate in this riding on the Liberal-Conservative ticket, will speak in the Stewart Opera House next Friday evening, Oct. 9. In the afternoon of the same day they will address the voters at Premier. This will be the first time that Mr Stevens has visited Stewart, and although his face is well known through published photographs, many people here will like to meet him personally. "Harry" is a genial sort of soul, (having once been a newspaperman) and is easy to talk to. George Bushby, we already know, although we have not yet heard him declaim upon the public platform. What he will have to say will be vitally interesting, because he is one of our home folks.

Mr and Mrs E.H.Bartholf left for the south Sunday to look after their Nevada mining interests while the snow is in bloom up here.

STEWART-HYDER LOCAL NEWS

EDITORIAL

This Portland Canal District has experienced, and is now experiencing, real mining activity; but we hope that in the course of the next few weeks we will have for our readers news of some of the biggest mining development ever undertaken in this district.

Release of this at the moment, would be premature, but apparently two or three situations are working to a very satisfactory climax and should reach consummation within a short time.

Harry Hicks has returned from a trip outside.

John Lindsey has moved his house from Hyder B. C. to Stewart.

Hugo Stratford, a former resident of Stewart, is back for a visit.

Jack McLeod returned Monday night from a visit in Vancouver.

Only 84 days till Chriatmas. Avoid the rush by doing your shopping early.

C. A. Makenzie has returned from Victoria to look after his mining interests.

Monty Howe has gone out to spend the winter on his estate on Langley prairie.

H. G. Wilcox, representing Pacific Milk, was a visitor in Stewart this week.

Back packers are taking in one and one-half tons of powder for the Gloria property.

Miss Ida Watson returned last Monday night from a visit with Miss Craig in Victoria.

T. V. Wilson, who has put in the summer on the Eldorado, returned to Seattle Sunday.

Gerald Service of the Bank of Montreal, returned last Monday night from a vacation trip.

Jack Littlepage, head of the Riverside, returned last Sunday from a business trip outside.

A daughter was born to Mr and Mrs H. Scovil, at the Jubilee Hospital, Victoria, Sept. 30.

Malcolm MacKenzie, manager of the Premier Extension, lost one finger and had another badly crushed by a rolling rock.

Miss Kitty Noelte, who has been visiting her sister, Mrs J.S.Stickney, for several weeks, left Monday night for Rupert.

Sidney W. Smith, who collects and delivers your laundry every week for the Portland Canal Electric Laundry, was joined this week by his wife and little daughter, who arrived from Toronto.

Ed Fernald has returned from a trip outside.

Campbell & Duke have built a garage back of their store.

Chas. Keary, who has been here all summer, left last Monday night for his home in Lilloet

Chas. P. Hickman, fisheries inspector, A.E.Young with Tim Williams and Alex MacInnes returned Wednesday from Meziadin lake where Mr Hickman made an examination of the fish ladder and conditions concerning the salmon. The run of cohoes is big this year.

GREAT OIL TANK IS BEING BUILT

The foundation for the huge oil storage tank now in course of construction near the Stewart wharf by the Premier Gold Mining Company is completed and the steel work is now well under way. When completed the tank will store 20,000 barrels or 1,000,000,000 gallons of oil. The foundation is built of stone and concrete and is five feet in height. Owing to the sharp incline of the mountainside where the tank will stand, considerable rock work was necessary to level off a space for the foundation. The big steel drum in which the oil will be stored will be 75 feet in diameter and will stand between 45 and 50 feet above the ground level.

NICKERSON WILL BE HERE MONDAY

A wire received yesterday announces that G. W. Nickerson, candidate on the Progressive ticket in the coming election, will address Stewart voters on the night of October 5, which will be next Monday. Others of his supporters will also have something to say.

Here Is Where Jake Was Stung

A well known reputed millionaire mine owner came to Jake.

"What's the price of ham and eggs?" he asked.

"Six bits," said Jake.

"What's the price of ham without the eggs?"

"Four bits," said Jake.

"Gimmee the eggs without the ham," said the millionaire.

Si. Silverman Married

Word has just been received that Silas P. Silverman, well known in this district as manager for his father's mining interests, was married on Sept. 19 to Miss Sophie Dellar in New York, where they have established their home.

GOLD VALUES NEW DISCOVERY

A.R.Casey, who has been prospecting in the Marmot river section, reports the discovery of a gold-bearing quartz vein on the south side of the river, nearly opposite the forks. The vein appears to be a true fissure, running from three to fourteen inches in width, cutting through the grano-diorite formation and traced on the surface for about 1000 feet. An assay obtained gives $110.50 in gold and $3.55 in silver, a total of $114.05 per ton. Casey also found another vein, from which no assays were taken, and which remains to be prospected.

He staked four claims, naming them the Stimulator group. Associated with him are C. W. and H. C. Magee. The property is located about three miles from the Marmot river ship-loading float.

MOOSE PLANNING BETTER SERVICE

The Loyal Order of Moose is out to raise an annual fund of a dollar per member for the Mooseheart-Moosehaven Extension program, which will complete the great work of Mooseheart (Illinois) the home for children of deceased Moose, and Moosehaven (Florida) the gathering place of aged members of the order.

Time and trial have proved that the physically and mentally subnormal and the matured child should not be admitted to Mooseheart, and to admit the other children of a family, frequently meant separation. Sometimes members have been refused admission to Moosehaven because of disease; to correct this the Extension Fund is being raised.

The atmosphere and training of Mooseheart is then open to all, if not at the great center, then at their own homes. When the figures were compiled for the first Extension case, the Mooseheart Governors raised the figure submitted by the associated charities 20 per cent on the basis that the Moose wanted one of their families to live 20 per cent better than any scientific deductions might indicate. Moose care of dependent children is frequently better than the parents were able to give.

As no other protection for the future of the average workingman's family is known than that afforded by Mooseheart, "the school that trains for life," the Moose have decided that it is up to them to tell the world what Moose membership means, thru every possible channel—radio, motion pictures, newspapers etc, in order that the 40,000,000 potential Moose of Canada and the United States may not suffer because they do not know.

HIGH GRADE IS FREE MILLING

Recent Discovery at Head Of Magee Pass Pans Out The Yellow Metal and Assays Well

W. R. Harner, partner of Homer Ficklin in the High Grade group of claims, a recent discovery at the head of Magee Pass in the Marmot river section, was this week showing in a small frying pan a gold prospect he had panned from a selected sample of ore. It showed about an inch of "pin-point" gold, following the usual residue of black sand mixed with powdered galena, and looked as though the rock from which it came should run away up in gold. However, the average assay taken across the vein, which is the third vein found on the property by Ficklin, gave $11 in gold, $32.10 in silver and $16.60 in lead, a total value of $59.70 per ton. Another sample gave $55.50 in gold alone but this does not represent the average, which represents eight feet in width.

The new vein was found since the examination made by R. G. Mellin, the well known mining engineer, who reported most favorably on the showings that he saw.

The new vein runs from three to eight feet in width and will average about six feet. The ore is a decomposed quartz, with some free gold and galena showing. It has been traced through the property for a distance of 2000 feet.

Pack horses can be put through to the showings with a minimum of trail construction, and Messrs. Harner and Ficklin have gone up to figure out a scheme of active development work and production. The claims are only seven miles from deep water transportation.

Some time ago B. B. Smith of Hyder came over and asked for a small representative sample of ores in the district. This week he received a letter of appreciation from Professor Koch, in charge of the department of science, Gallilio high school, San Francisco, for the beautiful collection of ores which he could explain to his pupils. The "Golden State" is coming to Stewart for samples. Draw your own conclusions.

ARE YOU A VOTER?

THE FEDERAL election is to be held on Oct. 29th. The voters' list for this election is now being compiled from the Provincial lists. Both the Liberal and Conservative parties have locally regularly appointed agents for registering the name of any person not on the voters' list for this district, but who by three months' residence is eligible to vote here.

Under authority of the Elections Act of this Province, thousands of people who did not vote at the last Provincial election have been struck off the lists. If you wish to vote in the forthcoming election you would do well to make sure you have not been so struck off.

Every man and woman in this district eligible to vote, should make certain that they are registered; further every man and woman who wishes to see progress in this district, and who is not registered, should at once do so. The requirements of a district are listened to by any Government in proportion to the number of votes that it is capable of polling. The more votes cast here, the more serious is the attention given our needs by either the Dominion or Provincial Governments. Therefore, be a real citizen of the district and take immediate steps to get on the voters' list.

WHY NOT?

For the third time in four years, voters of this riding will be able to vote for either a candidate of one of the old line parties or a candidate of a newer organization.

Fred Stork, sitting Liberal member, George Bushby, Conservative candidate, or G. W. Nickerson, Progressive. All three are excellent men, each capable of being a credit to any constituency.

There are those who deplore a three-cornered contest, and not without reason. A good argument can be made out against such a contest, and yet as good an argument can be made out in favor of it. It is the independent vote that swings elections and in so far as it does that, makes for improvement and progress; it is the vote for which all parties have to play.

There was the time when an independent voter or third party candidate, was looked upon as a sort of heretic, but as time progressed and people read and thought more for themselves, the independent vote increased until today it has assumed considerable proportions.

When it is realized that the national debt of Germany stands at $261 per capita and that of Canada at $262, is it any wonder that there are Independents and Third Parties? However, be this as it may, Stewart will shortly have an opportuniy of hearing all three and more sides of our national problems. The three candidates will be here, supported no doubt by all the heavy artillery available. Let's hope that they are sufficiently honest, and we believe they are honest men, to lay the blame for Canada's present difficulties where it to a very great extent belongs, and that is at the door of the people themselves: For Governments may come and Governments may go, but the national debt goes on forever, so long as the people insist upon whatever party is in power, sacrificing too much to political expediency and not enough to business administration.

FAMILY BANKING

IN keeping with its practice of extending to its customers every proper banking accommodation, the Bank of Montreal directs attention to the fact that many husbands and wives maintain Joint Accounts with this institution—a convenient arrangement whereby either may deposit or withdraw as the occasion demands.

Chequing Accounts for the purpose of dealing with household accounts may also be opened.

It is the aim of the Bank to be helpful in matters financial.

BEATTY ON RAILWAYS

Whether it is liked or not, E. W. Beatty, president of the C.P.R., has recently, both in Edmonton and Vancouver, handed out a few sugared home truths to those who would, for the sake of their own pockets, or a few more votes, do their utmost to still further add to the financial burden of the Canadian tax payer, with a minimum result to the country and a maximum of result to themselves.

Mr Beatty declared that any such enterprise should permit development of the greatest possibie area between Alberta and the coast. While some of the proposed "cut-offs" such as that by Obed, or Brule, would provide reduced mileage construction, he did not think these proposals were feasible, as they did not afford development of a maximum area. Such cut-offs as suggested would at best be only a temporary relief, and this to the Peace River alone.

In Mr Beatty's opinion, connection by the Pine or Peace passes is more desirable, for for while the initial mileage and cost would be greater, such route would ultimately develop a larger territory, and in his opinion would be more profitable to both Alberta and B. C.

He emphasized his conviction that much of Canada's present railway problem has been incurred by building prematurely, and oft-times in the wrong place. He stressed the fact that the proposal to utilize either the Brule or Obed cut-offs would not tend to open up any extent of new country, as in his opinion would be done by direct rail connection with the coast, through either the Pine or Peace Pass.

Anyone with an unbiased mind and any knowledge at all of Northern B. C. and Alberta, or any knowledge at all of railroading, or the history of railroading in western Canada during the past 15 years, will readily see a great deal of common sense in Mr Beatty's pronouncements.

IN PROBATE

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA
The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $77,382,953; Lode Gold, $118,473,190; Silver, $68,824,579; Lead, $70,548,578; Copper, $187,489,378; Zinc, $32,171,497; Coal and Coke, $260,880,048; Building Stone, Brick, Cement, $42,225,814; Miscellaneous minerals, $1,431,349; making its mineral Production to the end of 1924 show

AN AGGREGATE VALUE OF $859,427,386

The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895 inclusive, $94,547,241; for five years 1896-1900, $57,605,967; for five years 1901-1905, $96,507,968; for five years 1906-1910, $125,534,474; for five years 1911-1915, $142,072,603; for five years 1916-1920, $189,922,725; for the yea. 1951, $28,067,641; for the year 1922, $35,158,843; for the year 1923, $41,304.326 and for 1924, $48,704,604.

PRODUCTION DURING LAST TEN YEARS, $372,604,641

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been prospected; 200,000 square miles of unexplored mineral-bearing land are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than of any other province in the Dominion, or any Colony in the British Empire. Mineral locations are granted the discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, Victoria, British Columbia.

N. B.—Practically all British Columbia Mineral Properties upon which development has been done are described in some one of the annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

PROGRESSIVE CANDIDATE

G.W. Nickerson of Prince Rupert Will Contest Coming Federal Election—Outlines His Policy

I have decided to offer myself as a candidate under the banner of the Progressive Party, which under the leadership of Robert Forke is mainly responsible for the construction of the Prince Rupert elevator, proof of which is given in the statement to the press by Mr Forke when he assumed the leadership of the party prior to 1924. Condensed, it was about as follows: "We will support the Liberal Party as long as they are prepared to give us what we consider to be in the interests of the West, one of which is an elevator at Prince Rupert."

The Progressive Party are also responsible for the reduction in freight rates on grain moving west, and they represent the producers of the wheat that we hope to see flow through this port.

Therefore, it is in your interests to get behind these men, the only party which still retains faith in Sir Wilfred Laurier's policy of rolling back the map of Canada and making it broader and better.

Question of Tariff

So far as the tariff is concerned we find that at the last session the Liberals voted against the Progressives on a resolution endorsing the principle of low tariffs, and against the Torys on one of raising the tariff. The party that I represent stands for a tariff that will put the development of our natural resources in a position where those engaged therein can meet their competitors in the world's markets.

The old pa ties have played political football with the problem of Senate Reform for years, and notwithstanding all that Premier King had to say on this question, during the last two years, his only solution is to appoint more Liberals. We, however, stand for the principle of an elective Senate.

Only Real Exponent

Liberalism as exemplified by Sir Wilfred Laurier and his predecessors has been discarded by the King Government, leaving the Progressive Party as the only real exponents of Liberal principles, who refuse to sacrifice the best interests of western Canada and the Maratime Provinces to the "monied kings" of Montreal and Toronto.

Our stand on immigration is that the successful and contented settler is the natural and best immigration agent, and that it is not in the interests of the country to spend the public money on propaganda and subsidies to immigration and shipping agencies while our people are emmigrating, in such large numbers, to the United States.

Vital Local Issues

My stand on vital local issues, such as a square deal for our halibut fishermen in their home port, a steamship service for the Island that will have a tendency to establish a fishing and farming population by enabling them to get their produce to market, equai treatment with Vancouver by our railway and steamship line, and all other issues affecting the welfare of this constituency are well known to you. For these principles I shall continue to fight.

I will be delighted to discuss all questions in open debate with the Liberal and Conservative candidates, at as many points within the Riding as can be mutually arranged.

My election will be carried on mainly by friends who are interested in the welfare of Central and northern British Columbia. We have not the advantage of an extensive party organization, therefore, it behooves those who believe that the interests of western Canada can best be served through the Progressive Party to do all in their power to win this election. It is conceded by the press and the public that the Progressive Party will retain the balance of power for the next Parliamentary period, as they have during the past four years.

Record of the Party

Time and money will not permit me to visit all points of the riding, therefore those of you whom I do not see will, I hope, take me on the record of the Progressive Party which has stood for the people.

Sincerely yours,
G. W. NICKERSON,
The Progressive Candidate.

George Frizzell is campaign manager and R. W. Cummings, secretary attending to the offiee work.

G. W. NICKERSON
CANDIDATE **PROGRESSIVE** CANDIDATE
WILL ADDRESS
PUBLIC MEETING, OPERA HOUSE
AT 8:30 P. M.
Monday, October 5

Mr. Nickerson and his supporting speakers have a real message for every voter in Stewart, that will be of the greatest possible interest.

Every voter owes it to himself to be present at this meeting in order to get a clear conception of the issues of the day.

WHY STAND UP? COME EARLY

CAMPAIGN COMMITTEE

Local Stocks

(Quotations by H. W. M. Rolston & Co)

The demand during the week centered on Marmot river stocks and even though there was no appreciable advance, large amounts of the cheap offerings in both Porter Idaho and Marmot Metals were quickly picked up. There are rumors in town of a spectacular gold strike on the Marmot river near the Marmot Metals property.

By past records it appears that this is always the quiet time of the year and it has been a surprise that local stocks have stood up as well as they have. By the amount of ore being shown up, some of the properties of this district offer the best speculative investments now open to the public in the mining world.

When active operations start on the Dunwell a much higher level is looked for in this stock, and as continued developments on the Dunwell naturally prove up veins that have been traced into surrounding properties, a much stronger market is expected in most of the Glacier creek group.

Local stocks closed as follows:

	Bid	Asked
B. C. Silver	$ .90	$ 1.25
Dunwell Ex R	1.25	1.60
Dunwell R	1.40	1.75
Glacier Creek	.06	.11
Independence	.—	.15
Indian	.02	.04
Lakeview	.—	.35
Premier	2.10	2.40
Terminus	.—	.45
Silver Crest	.05	.12
L&L Glacier Creek	.16	.22
Victoria Mines	.—	.30
Marmot Metals	.10	.15
Porter Idaho. Co.	.15	.19
Rufus	.—	.18
National Silver	.—	.25
Vancouver	.—	.50
Ore Mountain	.—	.25
Bay View	.10	.12

Residence close in, cheap for cash. Rolston & Co.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 30th day of June, A. D. 1925. 10

MINING MEN HURT RAILWAY ACCIDENT

One of the gasoline speeders on the Dolly Varden railroad, while going through to Camp 8 recently, jumped the track and turned turtle, landing at the foot of the embankment.

John Strombeck, owner of the Toric mine, had both bones in the left arm broken and bruises on his body.

Elmer Ness, of the Kitsault Mining Co., received a badly wrenched knee and lacerated arms.

T. Taverner, driver of the speeder, had the car go over him but escaped injury.

BASEBALL IS OVER BUT WHY WORRY

Oh why this melancholy grief about the sere and yellow leaf that marks the passing of baseball? It doesn't matter—not at all. Although the prospect may seem drear, the hockey days will soon be here; and wont it seem serene and nice, to chase the puck around the ice? So do not moan about your fate, for other sports will compensate.

Dr. H. A. Whillans, Physician and Surgeon. Office, corner 6th and Victoria Sts. Hours, 12 o'clock, noon, to 3 p. m., and by appointment. [

Put your order in now for alder wood, 14 and 16 inch.
Split it yourself.
