## ARE SAMPLING THE DONWELL

**Premier Company Sends a Crew Up To Thoroughly Investigate Leading Bear River Property**

Bert Smith, assistant manager of the Premier, is down with a crew of expert ore samplers and engineers to thoroughly sample the Dunwell ore occurrances. The work is expected to take at least a week. No information is available, naturally, in regard to negotiations between the Dunwell company and the Guggenheims for the purchase of the property.

## UNITED SERVICES OPEN NEW HOME

The new home of the United Services Club was formally opened last Monday night with an informal party, which sounds paradoxical but is a fact.

The club house, on Sixth street was built entirely by the members, who seem to have sort of a hankering for doing good in the community. Before erecting the club building they built a cenotaph which would be a credit to any community, and put a fence around the hospital grounds, besides performing a few other little tricks of public improvement that do not loom so largely.

Sing-songs predominated in the opening of the club. Old songs, short and snappy, which they used to hum, shout or howl while holding the front, were rehearsed, with Rev. A. W. R. Ashley, himself a buck private and now affectionately called "Our Padre" manipulating the piano and leading the singing. Several specialties were introduced, including a base solo by W. H. Watson, "Hats off to the Stoker;" recitation, "Tale of India," by Guy Lawrence, with musical accompaniment, soft pedal, poco mezzo, or something like that; song by Rev. Ashley, "Stonecracker John;" baritone solo by Frank Bowler, "If I Might Come To You," and encore, "Nirvana."

J. W. Wilson, president of the club, in a few well chosen words first introduced Lt. Col R. D. Davies, who announced the official opening. Col. Davies said one of the important things the club is helping to achieve is the upbuilding of a Canadian nationality. He complimented the boys on their unity of effort in providing such a home, and outlined the usefulness of the club in keeping up the traditions of the Canadian troops and memories of their achievements.

About 10:30 a delectable lunch was served, after which dancing was enjoyed until midnight. The hall was comfortably filled, and guests are high in praise of the entertainment provided.

## PREMIER TAKES THE FORTY NINE

The News is in receipt of the following telegram: "Victoria—According to authentic telegraphic authority received here from the east, the Premier has secured control of the Forty Nine property, Salmon river.

Rolston."

The Forty Nine is one of the best known high-grade properties of the district. It is owned by the Silverman interests of New York, but no development has been done since 1920.

Prior to that time several hundred feet of tunnels were driven and a large amount of diamond drilling done that proved up large ore bodies carrying native and ruby silver.

Harry Howson, the then manager of the mine, has always maintained the Forty Nine is one of the biggest potential mines of the district. It's location has been a deterring factor in its development, as it lies about 21 miles away from salt water.

Special importance attaches to the Forty Nine from the fact that transportation must be provided, which will place a large number of properties, not so well known, on their feet.

## SHIP SOON FROM THE TERMINUS

Shipments of high-grade ore will commence from the Terminus mine May 15, according to H.A. Heywood of Vietoria, former manager and one of the heaviest shareholders, who made an inspection of the property this week and who, in company with B.W.W. McDougall, present manager, left for the south Monday night. Mr Heywood reports the big ore body encountered this winter as opening up both in extent and values beyond expectations and places it among the potential big producers of the camp. He and Manager McDougall came down on foot from the mine, making the trip in seven hours.

About the middle of next month Mr Heywood will return to assume development on the Union group, near the head of Glacier creek.

## STEWART-HYDER LOCAL NEWS

Harry Kerr has gone up to cook at the Emperor.

F.C. Winkler made a trip to Prince Rupert this week.

J. E. Munro returned on the Cardena from a visit in Rupert.

Chas. Adam returned on the Cardena from a short visit in Rupert.

Noel Traversy and Harold Johnson of Hyder made a trip to Ketchikan this week.

Henry D. Rochfort returned Thursday from a successful business trip to Vancouver.

Thos. Powers, wharf superintendent for the Premier, went south Thursday. His eyes still give him trouble.

Col. R.D. Davies left for Vancouver yesterday after attending for a week to business in connection with his mining interests.

John M. Pederson, an oldtime miner from all Alaskan camps, arrived yesterday from Vancouver and figures on settling here.

J. P. Hawkinson, proprietor of the Exchange Grill, returned yesterday from the south, where he completed arrangements for his steam laundry here.

H. C. Magee, who is principal owner of the Patricia, Aberdeen and other properties on the Marmot, returned Thursday from Vancouver, accompanied by his son Clifford.

Andy Snyder arrived on the last boat, from Anyox, and may locate here. Before coming to Anyox he was on the mechanical staff of the Middleboro Colliery at Merritt.

Tommy Sherman, night chef at the Exchange Grill, has a ring record of 125 fights with only two losses. He is a good sprinter and jumper, football and baseball artist, and will be quite an acquisition to local athletics.

Jack Chisholm has gone to the Emperor to sharpen steel.

Dr. H. A. Whillans returned yesterday from a visit in Victoria.

Henry Hummel went to Ketchikan Thursday on mining business.

Joe Arseneau of Premier went south on the Prince George yesterday.

Major C. B. North, manager of the B. C. Silver, left yesterday on a business trip to Vancouver.

Jas. Deming of Anyox wants to locate his uncle, Fred Deming, who was an early resident of Dawson and Fairbanks.

D.W. McLeman has his store window full of sports goods—baseballs, bats, raquets, fishing tackle, footballs etc. In fact, everything but the players is displayed. Organize.

Stuart J. Martin and H.J. McKeen arrived from Vernon on the last boat. "Paddy" Martin is an expert assayer. Oldtimers from Hazelton will remember him as one of the live wires in that camp.

J. Freeburn, one of the best known mining men of Alaska and former owner of the famous Chichagof mine, returned to Hyder Monday night. He is reported as becoming interested in the Riverside mine.

**Felix Seppi Weds**

Felix Seppi, well known taxi man and a leading spirit in the Pioneers of Alaska, returned recently to Hyder from the south, bringing along a bride, nee Miss Hazel Johnson, to whom he was married in Seattle on March 16. They took a unique honeymoon trip, touring down through California by auto and visiting the sisters of Felix. They returned north with a new Dodge car.

## SACKING ORE AT THE INDIAN

Ore is being sacked at the Indian mine for shipment from the high-grade shoot on No. 2 level selected for this purpose. Wm. Watson has been appointed underground foreman and has a picked crew of miners concentrating on this work.

The ore will be hauled with "double enders" down to the wagon road, a distance of less than two miles. By this system one horse will take from one to a ton and a half—all that he can hold back—so long as the snow holds, which will be long enough for the initial shipment of 100 tons to be taken out.

## TAKE BOND ON HOBO GROUP

Eddie Hambleton of Vancouver, director of the Daly Alaska, and Wm. Sloan, manager, left for the south Monday night, Mr Sloan's place being taken by L.E.R. Stevens, mining engineer from the Cobalt country, who has been appointed assistant manager.

It is reported that Mr Hambleton secured for himself and J. J. Kahn, president of the Daly Alaska, an option on the Hobo group of claims from Wm. McGrew and Ed Fernald. The Hobo adjoins the Daly Alaska and the Alaska Premier and would be a valuable addition to the Daly Alaska holdings.

## MARMOT METALS MINING COMPANY

The News today received the following telegram: "Victoria—Marmot Metals Mining Company is being incorporated to take over the Montana property. Angus McLeod will be managing director. Head office in Stewart. Work starts about May I.

Rolston."

The Montana was the first property in the Portland Canal district to ship ore at a profit, Ben Lawrence and Charlie Knipple worked it under lease in the early days of the camp, and Angus McLeod and George Bruggy also sent out some high-grades.

The property was owned by H.C. Magee of Vancouver and Stewart, Angus McLeod of Stewart and George Bruggy of Alice Arm. It is one of the most accessible properties of the district being less than four miles from tidewater and topographically situated for speedy and economical mining.

## CONTRACT ON PORTER IDAHO

Preparations are on for the commencement of an aggressive development campaign on the Porter Idaho. Clay Porter, president and manager of the company, has let a contract to Gus Erickson, with whom is associated O. Cedar, for a crosscut tunnel 300 feet in length, to start on the Gem Mts. claim and tap an intersection of two veins near the boundary of this claim and the Lucile. These veins crop on the surface for a distance of close to 3000 feet. It is the intention, when they are reached with the tunnel, to drift both ways on them.

The contractors and Clay Porter have gone up today to size up the situation. Although the snowfall was exceptionally light this winter the weather was cold and the spring is no farther advanced than normal. It may be a week or two before work can start on the Porter Idaho. This will be determined on this trip of inspection.

While the contract tunnel is being driven, Porter will have a crew continuing the old workings, taking out and sacking for shipment the same character of ore that placed this property on a self supporting basis under the former unit plan of operation.

Ike McLaughlan, who left here more than a year ago for Tranquile to enter the ring in a finish fight with T.B., writes that he has just about won the decision.

## DETERMINATION AND FAITH ARE

**Essential To the Investor As Well as the Prospector For Success, Says Leading Mining Man**

If there is any truth in the adage that "The onlooker sees the most of the game," the following opinions expressed by one who has a wide experience of conditions in British Columbia, should be of value.

Lt. Col. R. D. Davies, who recently completed one of his periodical trips to Stewart and the adjoining districts, gave a short interview to the News before leaving. He said, in part:

"If by some process of compulsion or coincidence our leaders of thought in this Province who spend their time guessing about the future of British Columbia from within the four walls of comfortable homes, offices or clubs, and whose knowledge of this great domain is largely restricted to impressions gathered during stereotyped journeys along the beaten track of comfortable transportation routes, could be brought into close personal contact with the men who are fighting to develop the vast natural resources in our province, we might see a speedy end to the heart-breaking delays, frenzied attempts at publicity, and the more or less desperate methods that are often necessary to secure the financial support required to open up our best areas.

"As regards protection for the investor," said Col. Davies, "there is a good deal of self-righteous talk along these lines, and the only true safeguard, after all, is the acquirement of knowledge of actual conditions. This is within the reach of every citizen in the province who sincerely desires to share in the development of the country, and whose desire to invest is influenced by something more than mere cupidity.

"Apart from a reasonable amount of discretion necessary in selecting investments, the attainment of success demands something of the faith and determination shown by the prospector, who frequently sees the whole effort of several years of toil result in failure, but whose belief in the country of his choice leads him to begin over again without any of the bitterness so often shown by many whose contribution represents only a few week's savings."

## OF INTEREST TO TOURISTS

**IT IS pleasing to note that eastern tourists are paying more attention to the attractions of Portland Canal this year than they have done in the past, as indicated in a statement made by B.C.Keeley, Pacific coast manager of the C. N. R., to a gathering of Stewart business men a short time ago. He said that three shiploads of tourists had been signed up by this line to visit this port during the month of June.**

**This shows that the railway and steamship interests have been spreading some propoganda, to fertilize the seeds sown by pioneers of the tourist tribe who have made side trips into this land of delight during the past few summers, and who all said they would be confirmed boosters.**

**It is not so pleasing to note that the summer boat schedule of the C. N. R. calls for a stop on Sunday mornings of only two hours in Stewart. This moves us to ask: "What's the use of bringing tourists here *unless they can be given a chance to see what there is to see?"***

**As we view it, there are two great longings connected with the tourists' western trek. One is to plant their feet on the soil of Alaska, and the other is to cool these same pedal extremities on glacial ice in midsummer. Both of these ambitions could be realized by the tourists here if they were given time to realize them.**

**Alaska is less than a mile from the Stewart wharf. Four hours would allow the visitor to ramble over glaciers to his heart's content. If the ships stop here six hours instead of two, the dreams of the easterners could come true.**

**A prime factor of the western trip is the matter of cost. Many of the people who take this trip are people of moderate means who have scrimped, and saved the pennies, until they could afford to make the great adventure. To them, the extra cost of the far northern trip around the southern edge of the great Alaskan glaciers is prohibitive; but their longing for scenery and the summer ice is perhaps stronger than that which stirs the heart of the traveler to whom expense is no object.**

**Alaska and glacial ice can be reached from Stewart at a cost of perhaps $100 less than by any other tourist route.**

**We believe the C. N. R. officials are in sympathy with obtaining the greatest passenger trade possible for this port. We believe that when they are fully awake to the advantages of this port from the tourists' point of view, they will put on an advertising campaign that will result in an** influx of tourists this way. The Board of Trade of this town has a live publicity committee who are now preparing data and gathering photos which will be turned over to the C. N. R. advertising department.

We hope there will be a spirit of mutual helpfulness stirred up which will result in a threefold benefit—to Stewart, to the C. N. R., and to the tourists.

## OTHER CITIES MUST AWAKE

Vancouver is awake to the importance of the mining industry. Spokane is awakening. Seattle and Portland, so far as the general run of business men in those communities are concerned, do not yet realize that the greatest decade in the mining history of the Pacific Northwest is dawning while they dose.

Much credit for the awakening in Vancouver belongs to the Daily Sun, the morning-and-evening paper which recently took over the property of the World and combined the two issues.

The provincial government is getting solidly behind the British Columbia Chamber of Mines. Big business houses are mailing checks to support the chamber's work. Other similar movements are in progress elsewhere in the province. The Kootenays are organizing, to make certain that the B. C. chamber does not become exclusively a Vancouver instead of a provincial affair.

Leading cities on the American side of the line need to take notice of Vancouver's activities, both for their municipal good and for the good of the mining industry.

Spokane is becoming interested, although mining does not loom as large in the life of the Eastern Washington metropolis as it did in the days when the Paulsen, Hutton, Columbia, Empire State, Peyton and other business blocks were built with the proceeds of mines in British Columbia and Idaho.

Attendance is increasing at the luncheons of the mining bodies, however, and faces of men not previously associated with mining activities are becoming noticable.

This looks good for mining—and it looks good for Spokane.

Now if all the local and sectional bodies can be induced to tie in more closely with the work of the Northwest Mining Association, the return ot prosperty to the mining camps of this great region will be hastened.—Mining Truth.

## IT CAN'T BE DONE

One of the first things an editor learns is that he can't please everybody, says the Cranbrook Courier. The ones who haven't learned this are too dumb to run a newspaper. Human nature is so constituted that some of our readers would like to have us feed them on scandal; some would like to have us tell the unvarnished truth about them, while others would like to jail us if we did. It is a comforting thought to the editor that the Savior Himself did not please everybody while He was on earth. We labor hard to entertain and please our subscribers, but that we should occasionally fail is expected. No matter how old we may grow to be, however, there s one thing that we are never going to forget: That is that an editor can't please everybody, and isn't going to try. If he could, he would be wearing wings on his shoulders in another world instead of patches on his pants in this one.

## SYNOPSIS OF LAND ACT AMENDMENTS

### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

### HOMESITE LEASES

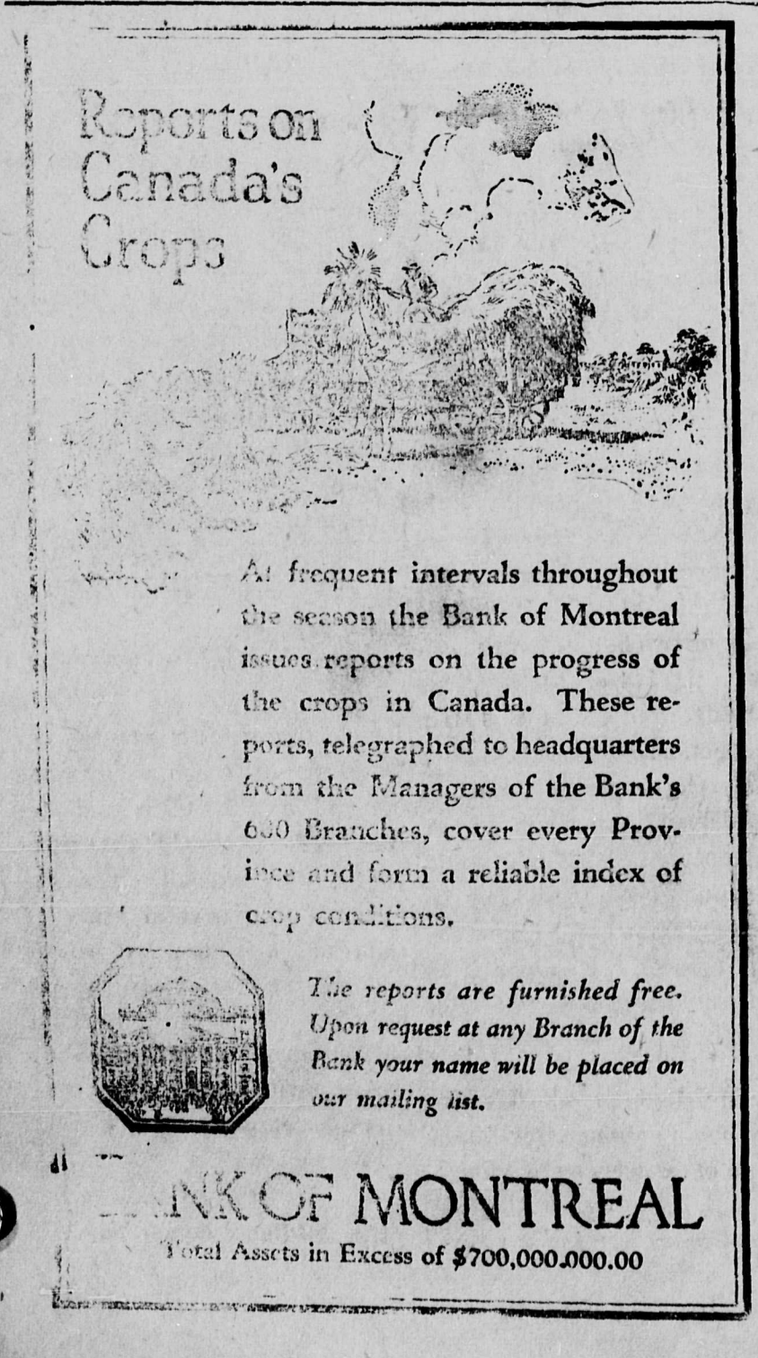
Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

### LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.



At frequent intervals throughout the season the Bank of Montreal issues reports on the progress of the crops in Canada. These reports, telegraphed to headquarters from the Managers of the Bank's 630 Branches, cover every Province and form a reliable index of crop conditions.

*The reports are furnished free. Upon request at any Branch of the Bank your name will be placed on our mailing list.*

BRITISH COLUMBIA
The Mineral Province of Western Canada
Has produced Minerals valued as follows: Placer Gold, $76,962,203; Lode Gold, $113,352,655; Silver, $63,532,655; Lead, $58,152,661; Copper, $179,046,508; Zinc, $27,904,756; Coal and Coke, $250,968,113; Building Stone, Brick, Cement, $39,415,234; Miscellaneous minerals, $1,408,257; making its mineral Production to the end of 1923 show
AN AGGREGATE VALUE OF $810,722,782
The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; 1921, $28,066,641: for the year 1922, $35,158,843; and for 1923, $41,304,320.
PRODUCTION DURING LAST TEN YEARS, $350,288,862
Lode mining has only been in progress for about 33 years, and not 20 per cent. of the Province has been even prospected; 300,000 square miles of unexplored mineral-bearing land are open for prospecting.
The mining laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.
Mineral locations are granted to discoverers for nominal fees.
Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.
Full information, together with Mining Reports and Maps, may be obtained gratis by addressing
THE HON. THE MINISTER OF MINES, Victoria, British Columbia.

# MOOSEHEART FOR VICTORIA

The Victoria Colonist says:

According to W. F. H. Thompson, district supervisor for the Loyal Order of Moose for B. C., Alberta and Saskatchewan, there is a strong probability that there will be a Mooseheart, or Moosehaven, established on Vancouver island. Mooseheart is the celebrated home for children which has been the subject for commendation by a Ladysmith widow with several children who found a refuge there when circumstances rendered it necessary for her to provide for the future. Moosehaven is the home for elderly members, in Florida. Mooseheart has 1300 children, while at Moosehaven there are 300 men and women.

Mr Thompson has recently had the honor of representing the Maple Leaf Legion of Victoria and Vancouver at a gathering of over 300 delegates from all parts of the area covered by the society, which has a membership of 650,000 distributed in 1800 lodges

It has been found necessary to consider the question of larger premises for the benevolent objects of the order, and Mr Thompson learns that a Kentucky lady has given the order acreage on Long Island, 30 miles distant from New York, for a Mooseheart home. Four more Moosehearts are to be built, in each section of the compass, and Mr Thompson, therefore, called the attention of the order to Victoria

"The order, as a consequence, has secured a piece of land three miles outside Victoria, in the Gordon Head district, so that it is possible that Victoria may be selected as a locality for one of these homes," he writes.

He says the membership of the order is expected to reach 1,000,000 before the Mooseheart convention in Baltimore in 1925. Vancouver may be chosen for the meeting of 1927, in which case many would come to Vancouver island.

## IDYLS OF THE FRAY

Come boys, greet the boss
And a beaker we'll toss
To the bucko who makes out the checks.
Tonight he is fine,
But up at the mine,
Tomorrow he'll jolt all our necks.

Here lies, his head upon a chunk of muck,
The brawny miner, paid off yesterday.
The stud game found him strictly out of luck—
The liquor vendor took some coin away.

Yet will he rise, and take his drill in hand,
And break some more high-grade to ship away;
Knowing, alas, his toil is useless and
He will blow in again the next pay day.

Sitting on the stool of repentence
Glooming the leaden hours away,
Wond'ring what he'll get for a sentence,
Wond'ring if he has enough to pay,
Thinking of the shift in the morning,
Knowing that he's been an abject sucker,
Knowing that this spree will be no warning,
H—l—Aint it tough to be a mucker?

Think of the folly and supreme disgrace,
To lead an ancient pack horse by the face;
Bringing down ore to swell the owner's roll,
And all the time not getting any place.

Aye ban von gude blecksmit en vork en da mine,
Mae bed ban o. k. en mae grub et ban fine;
Bote every sax veeks mae pangar Aye drag
En by mae some yin, for hal-for-gude yag.

And now we'll meet the manager who oversees the bunch.
He calls his supper dinner, and calls his dinner lunch.
Observe him closely while you may, he doesn't like the north
And spends his time on steamboats, in riding back & forth.

Dr. H. A. Whillans, Physician and Surgeon. Office, corner 6th and Victoria Sts. Hours, 12 o'clock, noon, to 3 p. m., and by appointment.

## Local Meetings

Board of Trade: First and third Tuesday evenings.

Boy Scouts: Each Friday evening in he Moose Hall.

Citizens' Association: Quarterly and as required.

## Local Stocks

The arrival in town of a crew from the Premier mine to inspect the Dunwell gave the local and outside markets a strong boost in Dunwell and Glacier Creek, as it is the belief of many that whoever takes the Dunwell will also take control in Glacier. All the Glacier creek mining stocks are showing marked improvement. Lakeview holds a steady demand, and as the last 75c issue of this stock is being placed mostly in England a big enhancement in price is looked for in the very near future. Marmot Metals Mining Co. Ltd. (incorporated name of the old Montana group of Marmot River) has found a very ready market, the first issue being oversubscribed, which proves that the Marmot district is greatly attracting the public eye. We are led to believe that this property will be a steady shipper this summer.

The Porter Idaho Co., which will soon be in full operation, have decided to withdraw their issue from the market shortly, ample funds having been raised for operating purposes. Mr Porter states that the mine will continue to ship high-grade the coming summer, and hopes to eclipse his splendid record of last summer. Demand for this stock is very strong, with one of the widest markets of any of the recent incorporations. The general condition points to a big advance in this stock in the early summer.

Local stocks closed in Victoria and Vancouver April 16, 1925, as follows:—

| | Bid | Asked |
|---|---|---|
| B. C. Silver | $ 1.25 | $ 1.50 |
| Dunwell | 4.25 | 5.00 |
| Glacier Creek | .26 | .31 |
| Independence | .15 | .21 |
| Indian | .14 | .15 |
| Lakeview | .50 | .65 |
| Premier | 2.30 | 2.45 |
