CANADIAN PACIFIC

The Expression of a Nation's Character

WORLDWIDE in scope, international in activities, the Canadian Pacific is pre-eminently the expression of a progressive nation's character.

Canadian Pacific rails extend from the Atlantic to the Pacific Ocean, webbing prairies and mountains, reaching out to cities, farms forests, ranches and mines scattered over a million square miles.

Stupendous record in steel of the daring and genius of a young people who fifty years ago dreamed of transforming a virgin wilderness into a nation—and made their dream come true.

Canadian Pacific Steamships, on all seven seas—Canadian Pacific Telegraphs, carrying messages to world's end and back—Canadian Pacific Express, trusted bearer of goods to the farthest places, with money-orders of worldwide currency—Canadian Pacific Hotels, with guests from all the continents.

Gigantic symbol of the vision, enterprise and spirit of the people of Canada.

The CITY

Many years before the first adventurous white man penetrated inland in America, Indians had given the name "Toronto", meaning "Place of Meeting", to the place where their winding forest trails and water-routes converged at an island-rimmed bay on the north shore of Lake Ontario. "Place of Meeting" even more truly today, Toronto at the present time is a great wide-flung city of 750,000 people. It is the capital and social, political, financial and industrial centre of Ontario, and is also one of the world's foremost cultural and educational centres. Its magnificent Government, university and other public buildings, its beautiful residential sections, smart shops, theatres, parks and boulevards are the background for the varied activities which annually attract thousands of visitors to this charming and hospitable City.

The CLIMATE

Toronto's situation on the shore of Lake Ontario is responsible for the uniformly delightful climate which the city enjoys at all seasons of the year. The summers are long, and are distinguished by warm, bright sunshine tempered by cool breezes that blow in across the far-stretching waters. Excessive heat is seldom experienced. The winters are just cold enough to make the air bracing and healthy and although Toronto does not usually have much snow, conditions are such that ice skating and certain other forms of outdoor sport may be indulged in during the season. Spring comes early and as a general rule winter weather does not set in until well along towards the end of December.

POINTS *of* INTEREST

Thickly dotted throughout the city are many parks and pleasure resorts which may well be numbered among Toronto's foremost attractions. Queen's Park, High Park and Sunnyside, with its splendid bathing facilities and almost countless amusement features, are the principal ones. Among other attractions of which Toronto boasts are the Lake Shore Boulevard, the magnificent Provincial Parliament Buildings, the City Hall with its famous clock tower, the University of Toronto with its many beautiful structures, the Zoological Gardens, the Royal Ontario Museum, the Public Library, Exhibition Park, the Coliseum, the Art Gallery, Island Park, etc., etc. Every person, no matter what his age or interest, can find plenty of opportunity for entertainment and enjoyment in Toronto.
