## All-Stainless Steel Scenic Dome Cars Deluxe Sleepers Dining Room Cars Deluxe Coaches

*NEW AS TOMORROW* — Equipment "new as Tomorrow" and the experience of many yesterdays combine to make this new series of deluxe streamlined all-stainless steel cars — first in Canada — the most significant advance in rail travel in Canadian history.

*SCENIC DOME VISTAS* — Scenic Domes open vistas of scenery never before fully appreciated — for both economy and deluxe travel on the longest dome ride in the world — the Canadian Pacific trans-continental Scenic Dome route!

*DISTINCTIVELY CANADIAN* — Decorative treatment in the new cars is distinctively Canadian — from original paintings by members of the Royal Canadian Academy of Arts in the intimate Mural Lounge and Main Lounge of the Scenic Dome Lounge-Sleeper to the flora, fauna and characteristic features of every province of Canada cleverly interwoven by the designer into a complete Canadian pattern. Pastel shades for ceiling and wall treatments in every type of new car are deftly blended with drapes and carpets specially woven in exclusive designs. Etched glass, carved coloured linoleum, plastics, paintings, silk screens and photo-murals carry the Canadian theme into every car.

## Built For Strength Designed For Comfort

*BUILT FOR STRENGTH* — Everything about the new Canadian Pacific all-stainless steel cars, built by Budd to Canadian specifications, is designed for the utmost in travel comfort. Built for strength and high speed operation, designed for comfort, these stainless steel cars are equipped with tight-lock couplers and disc brakes for smooth starts, smooth riding and smooth stops.

*DESIGNED FOR COMFORT* — Deluxe coaches have double toilet and washroom facilities . . . full-length leg-rest adjustable reclining seats. Deluxe Scenic Dome Coffee-Shop Coaches have all-around-vision high-level domes . . . modern coffee shop sections. Bedrooms, compartments and drawing rooms have separate toilets, triple-mirror wash-basins, disappearing beds for daytime comfort and privacy. Roomettes embody the newest features. Curtained berths are built for maximum privacy and comfort. Filtered ice-water circulates in all private accommodation. Public address and music systems. More lounge space than ever before!

typify spacious Coaches

  
The dynamic policy that led to the building of the world's first trans-continental railway seventy years ago, that inaugurated the many other "firsts" in world transportation for which the Canadian Pacific is notable, scores another "first" in Canada with the adoption of Scenic Domes for coach and sleeping car passengers — another step in Canadian Pacific's comprehensive modernization programme!

After an extended investigation and study of the most modern types of passenger equipment in service elsewhere on the continent had been carried out, further improvements were decided upon and 173  all-stainless steel passenger cars are now being delivered for the scenic and historical Canadian Pacific transcontinental route via Banff and Lake Louise!

Light-weight and modern as tomorrow, these new cars typify the modern thinking and forward look of the world's most complete travel system, tailored by nearly three quarters of a century of transportation experience to the fastidious requirements of the world's wisest travellers!

Canadian Pacific invites you to enjoy the world's longest dome ride in the comfort of the latest word in railway passenger equipment; to relax and enjoy your trip in the modern, rail-travel way. Enjoy the economy of luxury — the luxury of economy. Enjoy traditional Canadian Pacific service and "travel relaxed — arrive refreshed!"
