PALATIAL PASSENGER LINERS

AORANGI AND NIAGARA

These vessels are in every way the most up-to-date passenger liners operating between the Pacific Coast and the Antipodes. The "Aorangi" a new vessel, is a high speed motor ship, the first of her kind in the world. The "Niagara" is also a modern liner, driven by reciprocating and turbine engines, oil burning. All the modern devices for comfort and safety have been employed in their construction. The dining saloons are apartments of spacious proportions, and the cuisine is famous for its variety and high standard. There are ladies' rooms, music, lounge, writing and smoking rooms and on the "Aorangi" a commodious verandah cafe. Each stateroom is furnished with an electric fan, thus insuring comfort when the temperature rises.

CANADIAN PACIFIC

CANADIAN PACIFIC RAILWAY LINES — WORLD'S GREATEST TRAVEL SYSTEM

You have missed a most delightful experience if you have never travelled in daylight over that marvellous section of the Canadian Pacific main line which skirts the North Shore of Lake Superior between Heron Bay and Fort William.

On the westward journey first sight of Lake Superior is caught at Heron Bay and from here on, until the bold mass of Thunder Cape is glimpsed between the towering grain-elevators that line the waterfront at Port Arthur and Fort William, one splendid view succeeds another. The line itself is a marvel of engineering. At times the tracks run low along the edge of the lake. Again they sweep in gigantic circles, hung high above the rocky shore on ledges cut in the sides of the great cliffs. Now they plunge deep into the primeval forests, the home of moose, deer and bear, past little lakes that swarm with game fish, up steep grades and down to the wooded floors of long valleys. The scenery reaches climaxes of astonishing charm and impressiveness at Peninsula where the great humped-up islands off shore look like the fantastic islands of some elfin baker, at Coldwell and its pretty little bay that winds in between the high cliffs, at Jackfish where the track winds snakelike on ledges around the narrow arms of the bay, in the lovely hill-enclosed valley at Schreiber, in the view of Lake Helen to the North as the train crosses the Nipigon River just past Nipigon River Bungalow Camp, in the circuitous passage around Nipigon Bay, and in the broad reach of Thunder Bay and the far-off out-stretched shape of the Sleeping Giant seen across the broad waters.

Autumn adds to the majesty and splendor of this north country. The hills that roll away in serried ranks to the horizons become covered with browns and golds of a hundred hues, the waters of old Superior turn to a deeper blue, and the sun floods the crisp cool air with silvery rays that reflect dazzingly from the age-worn sides of the cliffs and rock-girt islands.

Save the Forests

NINE out of ten forest fires are let loose by human hands. An abandoned campfire, a glowing cigarette, a pipe-heel, or other innocent-looking cause! Only a tiny point of flame which an hour hence becomes the fuse to a gigantic disaster!

Put out your campfire. Put it dead out. And in ten minutes go back and put it out again.

Leave the woods as green as you found them. There is a multitude of folks who have to follow in your footsteps.

Guard the forest every chance you get. Not because it's the Law, but because it's Right.

(A Message from the Canadian Forestry Association).

STOP-OVER ON SLEEPING CAR TICKETS

First class sleeping car tickets reading from or through Winnipeg or St. Paul or Minneapolis, Duluth or Superior to Mission, B.C., or beyond, or vice versa, are good for stop-over at Winnipeg, Calgary, Banff, Lake Louise, Field, Revelstoke, Sicamous or Penticton for a period not exceeding 60 days. No stop-over is allowed on tourist car tickets. Stop-overs may be arranged for at points not shown above by paying local sleeping car fare from point to point.

"Transpacific" and "Round-the-World" passengers are allowed stop-over on their first class sleeping car tickets via direct lines, as well as on their railway passage tickets at any station on Canadian Pacific Railway.

In order to avail themselves of stop-over on sleeping car tickets as per first and second paragraphs above, it is necessary that passengers hold railway passage tickets good for stop-over. Accommodation in Compartment Cars, Standard Sleeping Cars and in Parlor Cars will be sold only to holders of First Class Transportation.

Two persons of SAME PARTY travelling together and boarding car at same station, for a journey involving night occupancy will be allowed to occupy a berth on one berth ticket, four a section on one section ticket, four a compartment on one compartment ticket, and six a drawing-room on one drawing-room ticket provided each presents first class railway transportation. To, from or between points in the United States one Railway passage ticket is required for occupancy of a section and a minimum of two railway passage tickets for occupancy of a compartment or a drawing room in sleeping car, except that for **Compartment** via Soo Line—C.P. Route via Emerson or Portal or via C.P. and S.I. Rys. via Kingsgate one and one-half tickets only will be required.

Canadian Pacific Railway agents, named below, have car diagrams for locating passengers. Other ticket agents will secure accommodation on application to them.
