5 Monday (Continued)

I am getting more dizzy every hour. The boat still rolls very much. It seems so funny that such a large boat should rock so much but it is awful today. The dishes roll all over the table and you almost roll out of your bunk. I am beginning to think "life on the ocean" is not all cream and honey. Did Uncle Tom tell you I called in to say good bye to him. He marched out "Queen St to the E" so I ran in on the way out.
