Buys Land at Windermere

Winnipeg, April 8.—Unrest in England and inroads on settled incomes by new forms of taxation are ascribed by a passenger on the latest arrived Empress boat for the remarkable proportion of well-to-do English people among her 1,500 passengers who are making their permanent homes in western Canada. A typical instance is that of Rear Admiral Storry, R. N., retired, who finds his pay will go a lot further in British Columbia and has bought lands in the Upper Columbia valley near Windermere, where he will establish his entire family.

Would Accept Nomination

There is much speculation as to whom will succeed A. S. Goodeve in the commons.

It is said that a large number of the electorate are urging R. S. Green to accept the nomination.

Mr. Green say: "That I have been in receipt of numerous telegrams and letters from the Kootenay requesting me to offer myself as the Conservative candidate in the necessitated by-election. Should I be the choice of the convention, I would gladly accept.

R. F. Green, is one of the most prominent conservatives in British Columbia, and is well and favorably known in Kootenay, and if nominated, would receive the solid support of the party in this riding.

Ministers will Visit North

Victoria, April 8.—Tentative arrangements are already under way by premier McBride in connection with his promise to the citizens of Prince Rupert to visit that city and other points in the district of which it is the centre during the present summer All being well, the first minister intends to redeem this promise and visit the various sections of the British Columbia northern coastal districts soon after his return from the old country, for which he is leaving on Sunday. He will in all probability be accompanied on his northern tour by Attorney-General Bowser, and will visit the Buckley valley and also the Atlin district before returning south.

All outstanding questions affecting these northern areas will obtain personal consideration on the ground during the contemplated tour. At the same time that Messrs McBride and Bowser are renewing acquaintances with the seaboard constituencies in the north it is expected that Hon. W. R. Ross, minister of lands, will pay a visit to the Fort George section, with the object of personally familiarizing himself with the conditions and requirements, and investigating on the spot the merits of numerous controversies over land titles that have recently arisen, in several instances over conflicting and inaccurate private surveys.

Old Friends New Thoughts

Snrprised at Cranbrook's Progress

(By FRED. SIMPSON.)

Hearing directly and indirectly so much in regard to the progress of Cranbrook and this district, I was ready after something over a year's absence to see evidences of improvement in Cranbrook but was not ready to see the material growth that has taken place in the city during the past fifteen or sixteen months I would like to say here that the growth that has taken place in Cranbrook is of a material nature, a growth that shows confidence on the part of the people of Cranbrook to the outside world and that is one of the best advertisements that any city can have. I have observed in my conversation with old friends that there has been a marked advance as to the unanimity of feeling regarding the possibilities of the city, and consequently a much greater improvement towards working together for everything that would prove of benefit to the City and district. Those who have known me here in the past, know that I have always believed in working together and until the people in any city have arrived at that stage it is impossible to secure much in the way of satisfactory results. There have been times in the past when a feeling of dissatisfaction has prevailed when your Board of Trade were simply organizations in name only, but at the present time I am convinced that the Cranbrook Board of Trade has secured the necessary spirit of co-operation that means successful results. Two men may be competitors in business but they should get together when it comes to any work for the promotion of the best interests of their community. It seems as though the people of Cranbrook fully realize that very strong point in progress and are willing not only to act but to contribute for the success of an organization that has only one object in view and that is "A Greater Cranbrook". The buildings that have been erected both of a public and private nature, the sewerage which was absolutely necessary in this city, the improvements of roads leading to and from the city, all combine to make a great and glorious step forward for Cranbrook and the future of her people. As editor of the Herald in the past I was called either a booster or a fool for saying that the Cranbrook district was destined to be a producing district, and that the talk of the mills soon being through and the C.P.R. moving their shops to Wardner, which seemed to be an annual epidemic among a certain class of people, was the rankest nonsense. Cranbrook must depend upon her own industries and the growth and productiveness of her surrounding country. The demand for land and the increase of prices is a practical demonstration of the fact that the people from the outside are now satisfied that Cranbrook has the land and the climate to make fruit and small farming an absolute success. Fill up your lands and handle the affairs of *your city in a businesslike manner*, and Cranbrook will grow as sure as the sun rises and sets.

Yes! "I like Kamloops where I am living at the present time and expect to live there the rest of my life. The altitude is only 1200 feet and the climate delightful. The building of the Canadian Northern down the North Thomson to Kamloops and west to the coast, also south from Kamloops through the Okanagan country means that Kamloops must necessarily become the big distributing point on the main lines of traffic in the interior of British Columbia. The town is rapidly growing, as rapidly in fact as men and material can be secured. Last year with $800,000 in improvement, exclusive of railway improvements, Kamloops stood 18th in the way of improvements of all the Cities in the Dominion of Canada. I would be only be too glad to have any of my friends drop off when they can and see Kamloops for themselves. This is a great country and when one can say a good word for another town they are doing the best, the very best they can for the promotion of their own country and the upbuilding of the province as a whole.

Citizens Leaving Frank

Heavy Fall of Rock

Word has been received all along the Crow Line to the effect that a large number of the business houses in Frank are taking advantage of the warning issued by the provincial government in regard to another slide at that place and are moving out. The Union Bank is moving to Belleview, a short distance from Frank, where they have secured quarters, and it is expected that a number of other business houses will do the same within the next week or ten days, just as soon as the arrangements can be completed.

It was also stated that during the past few days, on account of the warm weather, that the slides which have almost been of a daily occurrence in small quantities since the last big slide, in which a number of people lost their lives, and a large amount of property destroyed, and they have been growing heavier day by day, and it is expected that just as soon as the frost is out of the rocks that the slides will gather in intensity and that great damage may be expected shortly.

Belleview will in all probability take the place of Frank, and that camp will be greatly increased by the number of people that will remove from Frank. Many new residences and business blocks are now in the course of construction there, and it will not be long till the town of Frank is a mere memory of a once prosperous mining town, which for years has furnished millions of tons of coal to the different markets of the world.

A large number of the miners that have made their homes at Frank for several years past have also packed up bag and parcel, and have left for the various coal camps of British Columbia and other western points, where they will engage in mining coal.

Cranbrook-District Auto Association

Large Gathering of Automobile Enthusiasts Splendid Work begun

Annual Meeting

The annual meeting of the Cranbrook District Automobile Association was held in the dining room of the Wasa Hotel, at Wasa on Thursday evening.

The meeting was enthusiastic and showed all the spirit of progressiveness in automobile interests as well as the members co-operating with several schemes for the advancement of the welfare of the district in general.

When the various "auto's" began to arrive at Wasa, during the afternoon, it was evident that a representative gathering was to take place, and one that in all probability would be capable of doing some good work. Some members of the association and the press, enjoyed the hospitality of others in the trip from Cranbrook, via Fort Steele, while a large number of friends, though not automoblie owners, took an earnest interest in the work that was being promulgated in the interests of good roads, and the making of East Kootenay a resort for tourists and pleasure seekers, as well as residents and settlers.

The meeting was called to order by V. Hyde Baver, president, at 8 p. m. about 25 being present; after reading the minutes of the last meeting by the secretary, W. W. Wilson, the members got down to business.

The attention of the meeting was called to several very dangerous places along the road, and road superintendent Read, who was present assured the meeting that this would be attended to at once, he was having some 150 danger boards painted, that would be placed where there was any danger. It was further stated that as various drivers of all kinds of vehicles were apparently ignorant of the rules of the road, it was absolutely necessary that these rules should be obtained and placed in prominent positions so that they could be easily seen. It was particularly drawn to the meetings notice that there were a number of young people who hired teams and at the same time were unaware which side of the road to ride. The meeting suggested that the secretary write to the government for a supply of cotton notices of the regulations governing the requirements so that these could be nailed up in prominent places.

Mr. A. B. Fenwick, of Fort Steele, suggested that attention be given to the making of several of the trunk roads more perfect, at present there was a road between Wardner and Bull River and Jaffray to Elko that was practically perfect, while the road from Bull River to Fort Steele were in fairly good condition, as was the road from Fort Steele, north to Wasa, and all that was wanted now was the repairing of the road from Mud Creek to Wasa, and we would have some of the finest trunk roads to be found in the province. When this is done, we shall be able to drive from Cranbrook to Steele then to Wardner, back home, having an excellent outing, a pleasure trip that would give to visitors a proper idea of what the country was like.

Superintendent Reade, stated that the government was providing an up-to-date rock crusher, and that as far as possible the trunk roads would be macamadized as rapidly as possible.

Dr. J. H. King, suggested that a permanent road committee be appointed to make what recommendations were necessary in connection with the roads and report to the superintendent of roads. This would be of great assistance to Mr. Read, and facilitate the work required, as Mr. Read having some 400 miles of road to keep in repair it was almost impossible for him to fulfill all the needs.

Messrs. A. B. Fenwick, of Fort N. Hanson, of Wasa; and George Hoggath of Cranbrook, were appointed as a committee, to whom all complaints about bad roads will be reported.

Another suggestion of Dr. King, was that as there were such a large number of autoists that were running cars out of Cranbrook, some 50 or perhaps more, and the garages having cars to rent, it would be an excellent plan to organize a tour to Lethbridge to attend the Dry Farming Congress and do a bit of practical advertising of Cranbrook district. A large tent, or even a shell building could be put up for their accommodation and a commissionaire be obtained to look after their various needs. This would mean that there would be a small Cranbrook in Lethbridge and every one would be a walking talking advertiser. Practical effhibits could also be shown to advantage. It was then announced that the excursion was under consideration by the Board of Trade. The president, Mr. Baker, appointed Messrs R. E. Beattie, and A. C. Bowness a committee to mave all arrangements and work in conjunction with the B of T. committee and do what they could to further the project as it would be an admirable scheme.

Road Supt., John Read was elected an honorary member, and several new members signed the roll.

Messers Mott, Supple and McCowan were appointed a committee to draft up rules, regulations and by-laws for the association.

Mr. E. Small suggested that the colors of the association should be Cranbrook colors, White and Green.

Dr. King brought up the question of automobile licenses when crossing the borders of, and visiting another province, which has been a source of annoyance to a number of the members who have made trips into Alberta, the British Columbia license not being respected, even when touring for pleasure, and that a new license must be procured. It was suggested that the matter be taken up with the various associations in the neighboring provinces, also in the States to the south, whereby it will not be necessary to procure an additional license when on a motoring trip. A legislative committee was appointed to look into this matter and report result. Messrs A. C. Bowness, J. P. Fink, of Cranbrook, and A. Doyle of Fort Steele were appointed as a committee.

The following officeres were elected for the ensuing year:

Hon. President. N. Hanson.
President, V. Hyde Baker.
Vice-President, Dr. J. H. King.
Sec-Treas., W. H. Wilson.
Directors, Dr. F. W. Green.
A. B. Fenwick.
Geo. Hoggarth.

A vote of thanks was extended to the president for his services during the past year, and congratulations on his being the first president of the association.

Messrs V. Hyde Baker, Dr. King, G. Hoggarth, E. Small, A. C. Bowness, M. Quain, V. Hyde Baker, E. Mott, Patrick, Myers, Fink, Hanson, Fenwick and McKowan, all had their cars lined up in front of the Wasa Hotel and enjoyed the hospitality of the proprietor.

Attack on Consul

Calgary, April 8.—Crazed with cocaine and suffering under the hallucination that her father and mother were being detained from entering Canada through the action of the American consular officials Camille Bates, a colored woman, made a determined attack on Col. E. Scott Hotchkiss, American consul, in his office in the Grain Exchange building at noon today. Only quick action on the part of Chief Cuddy, Detective Richardson and Symonds saved the consul from being seriously hurt by the dope crazed woman, who was breaking the furniture in the office and attempting to close with Col. Hotchkiss whom she was menacing with a long hatpin when the policemen arrived.

London Capitalists Coming

Word has been sent out from Ottawa that a party of 100 capitalists from London, England, would be in Canada in May for a tour of the Dominion. It is expected that they will visit Kootenay during their visit to British Columbia.

Royal Visit

If the plans now being completed for the Cartier centennary celebration are carried out the Prince of Wales will visit Canada in the fall of 1914, as the guest of the Dominion government. The proposal for the visit of the Prince came officially from Prime Minister Borden, and has the enthusiastic endorsement of the Duke of Connaught The formal invitation will be prepared immediately and forwarded by the Duke to England.

It is proposed that the Prince make a complete tour of Canada, including the Yukon.

The City Council Meet

Rates will be 30 milles with a rebate of 5 cents if paid before June 30th

The city council met in solemn conclave on Wednesday evening, Mayor Bowness presiding supported by Aldermen Johnson, Clapp, Cameron, Erickson, Campbell and Atchison.

The School Trustees being in attendance Aldermen Johnson and Cameron moved that they be heard. Carried. H. White, and N. Harrison, then spoke on behalf of the Board in respect to an account of $681.00 that had been referred back last week, explaining that the Government was giving the $15,000.00 to them with the understanding the city council bought the land. The present school is full to its limit and anotherischool will soon be necessary. Mr. ite said that although the sch ol was outside the city limits it was in the school area and in a district which was growing fast.

The Mayor asked the city solicitor if the council was compelled or rather forced to pay anything the School Board like to ask. Answer—Yes, if the sum is to be used for maintainence.

Mayor Bowness:

Then the School Board can go on asking and we must be compeled to pay until all the city revenue is taken up and nothing is left for city improvements.—Yes! if necessary.

Mayor Bowness, then I think it is a gross injustice and the law should be altered.

Aldermen Campbell and Clapp moved that the $681.00 account be paid.

S. Macdonald asked the council for an 9 hour day on behalf of the city employees giving the council the information that no where in British Columbia is anyone of the city men worked for more than 8 or 9 hours, also making the request that the men receive $3.00 per day instead of $2.75 their present wage. The council told Mr. Macdonald they would consider it.

The council then settled down to business having before them the several estimates from the several departments. It was at once seen when these were read that the spirit of improvements had invaded everyone, and the new spirit that has invaded the citizens to an higher worth and a respect for the city of which we all hold a part had surely invaded the very council chamber.

Estimates for Improvements

The total estimates for improvements for the current year are as follows:

Revenue account from 1911	$4,597.65
Tax Sale surplus	426.01
School Board	15,849.60
Debenture repayments	18,297.18
Finance Committee	8,200.00
Fire and Police	14,150.00
Board of Works	8,315.00
Health Committee	1,346.00
Water Committee	10,004.61
Total	$81,185.05

The above estimates will necessitate a tax being made on the ratepayers of 30 mills with a special rebate of 5 mills if the rates are paid before the 30th of June, this actually amounts to 25 mills net.

To cover the estimates of the water committee and certain other improvements the council will put through a by-law and raise the amount on the water revenues, the by-law will be to raise about $20 to $25,000. By moving this by-law and raising the money in this way the cost of the several local improvements will not fall so heavily on the ratepayers, as a matter of fact they will receive the improvements and not realize how it has been paid for as in this way it will be spread over a number of years.

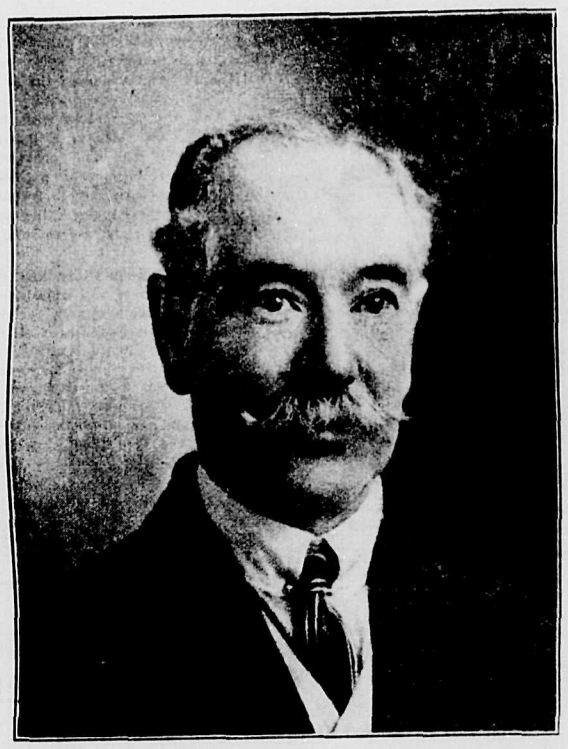
18th Year CRANBROOK, B.C., APRIL 13. No. 15.



The Alqertan, of Calgary, a paper that cuts many ridiculous political figues, in commenting on the appointment of A. S. Goodeve to the railway commission has the following bit of satire: " He may be a good man and he may not be a good man. He was not a good member of parliament, and has not been such a conspicuous success in anything that he should be singled out for this important office for any such reason."

The Albertan, of Calgary, a paper "That Mr. Goodeve may be as strong as any members of the commission. But that it is doubtful; Mr. Goodeve will represent British Columbia, the coast province. He has no connection with the great prairie west, the broad and promising west. Mr. Greenway's successor should have been a prairie farmer from Alberta, Saskatchewan, or Manitoba. Instead a small business man from a small interior British Columbia town was taken."

The Albertan's editor, has no conception of British Columbia or its people. Every member of parliament from British Columbia, proved themselves to be statesmen second to none in the House of Commons, and Mr. A. S. Goodeve was not the least of these seven great men who represented a province that is larger, richer, and more progressive than any of the provinces named by the Albertan And we can assure the editor of the Albertan, that he cannot name a man in Alberta, who is more in touch with all conditions of western life than A. S. Goodeve, who was a pioneer in the very provinces named by the Albertan long before the knowing scribe had the courage to leave his mother. Don't worry you tenderfoot editor, Mr. Goodeve can make good in any sphere of life, and the people of the prairies and the far west will recognize his abilities before he serves many months on the railway commission.

Political Chaff

The fat time has fallen apparently to the Conservatives over the Dominion, while Liberal opponents are suffering the lean times.

British Columbia is Tory and every seat with the exception of only two Socialists. It is said that they have a sign out saying "No Liberals Wanted."

Fred. Starkey, of Nelson, passed through Cranbrook on Wednesday enroute for Winnipeg to attend the Roblin banquet . It is said that Mr. Starkey has heard the buzzing of the political bee, and aspires to the seat in the Dominion House made vacant by the resignation of A. S. Goodeve.

Looks as if we should have two by-elections in the Cranbrook riding this year. One for a Dominion representative, also one for the provincial legislature.

The appointment of A. S. Goodeve as a Railway Commissioner will be received with universal satisfaction in the west, especially British Columbia, and Kootenay.

Elecrion of Officers

At an annual meeting of the Cranbrook Conservative Association held in Campbell & Mannings hall on Monday evening the following officers were elected for the ensuing year:

Wins Dog Race

Nome, Alaska, April 8.—A. A. (Scotty) Allan, driving the team of Malamute dogs owned by Mrs. Chas. A. Darling of Berkeley, Calif., won the All-Alaska sweepstakes, crossing the finish line at Nome at 1:32 o'clock this morning. His time for the 412 miles from Nome to Candle and return was 87 hours and 32 minutes, five hours and 32 minutes more than his time last year, when he won the race with the same dogs.

A. Holmson, driving Johnson's team of Siberian Wolfhounds, holder of the record of 71 hours, 14 minutes and 20 seconds, was second, driving into Nome one hour behind Allan. C. Johnson, driving Fox Ramsay's dogs was third, arriving half an hour after Holmson. The Oliver dogs, driven by Blatchford, were in such poor condition from their long drive over the hard snow trail that they were hopelessly outdistanced and did not show in the final dash of 50 miles.

The race was one of the hardest in the history of the sweepstakes. Allan was pressed hard by the three leaders during the greater part of the drive, and it was not until he was on the last 50 miles that his dogs showed their superiority and kept the pace that gave him a safe margin of victory, making an average of seven miles an hour on the homestretch. His dogs were in good condition and were on their feet at the finish.

In spite of the cold and the early hour, the stands were filled when the dogs came in. Although Mrs. Darling's dogs were the favorite from the first, betting was heavy and a large amount of money changed hands. The prize for this year's race was $5,000.

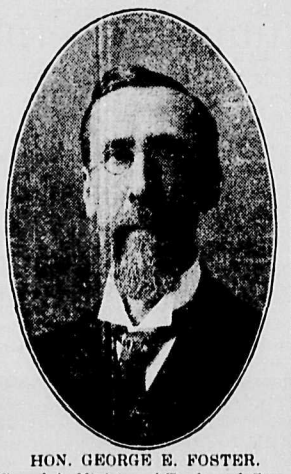
Empire Trade

The Right Hon. Lewis Harcourt has announced the completion of an Imperial trade commission, the representatives to be Lord Incheape, chairman, Sir Rider Haggard, Sir Charles Owen, L. T. Garnett, a cotton manufacturer of Manchester, and Wm. Lorrimer. Glasgow members of parliament had been deliberately excluded in order to avoid a question of party politics. The commission also include Messrs Geo. E. Foster, of Canada; Donald Campbell, of Australia; Mr. Brewing, Newfoundland; Galley Ten

Sir David Craaf, South Africa; Sir J. Ward, New Zealand; and W. A. Robinson, secretary of the commission.

Mr. Harcourt defending the government against the charge of dilatoriness in respect to resolutions of the Imperial conference, enumerated a dozen matters which has been given



HON. GEORGE E. FOSTER.
Canada's Minister of Trade and Commerce and Representative on Imperial Trade Commission.

effect to, including the modification of the Japanese treaty, the Copyright Act, strengthening the appeal court and naturalization. The government succeeding in releasing the Dominion from treaties with Mexico and Sweden. He hoped the labor of the trade commission would be concluded before the next Imperial conference was held.

The Times is disappointed with the British names on the Trade Commission and says that on the other hand the Dominions have nominated some of their best men. Hon. George E. Foster is a man of great authority in Canada, and other nominees bear witness to the seriousness with which the Dominions regard the inquiry.

The Pall Mall says that the government not only struck fiscal questions out of the scope of the inquiry of the Trade Commission, but appointed three or four enemies of Imperial preference. However, Sir Rider Haggard, a pioneer of South African progressism, and Hon. George E. Foster, who are stamped with Hon. Joseph Chamberlain's own approval, may be trusted to represent the continuity of the true Imperial spirit.

Extremes meet when the kitten plays with its tail.

To run a newspaper without occasionally publishing an item that is untrue, or without giving offense, is like running a railroad without having accidents and smash-ups. It can't be done.

Local pride is a great business builder,— knocking is the surest way to wipe a place off the map. Let's all be practical boosters for the old town. Let's start today! And let's keep it up all the time.

It is amusing to see how inflated with importance some people become after reading the report of the director of the Dominion Census and find that he has padded the population of their town enough to give it a place on the map for the first time.

When mother and the youngsters ask father to go with them for a little picnic party, there is one king of 'em who says this' "what's the use of going away for a picnic. Throw the dining-room table out and spread the dinner on the floor, then let all the flies in, throw some dust on the sandwiches, sprinkle a few ants in the water, turn the hose on ourselves to remind us of the rain which invariably comes when we are farthest from shelter and cap it off by crowding in the pantry and hanging to the shelves for the usual time to ride home. Nix on any picnic for me'"

Don't be a loafer, don't class yourself a loafer, don't hang around loafing places. Better work for nothing and board yourself than sit around the corners with your hands in your pockets. Better for your mind, for your own respect. Bustle about if you mean to have anything to bustle for. Many a poor physician has obtained a real patient by riding hard to attend an imaginery one. A quire of old paper tied up with red tape, carried under a lawyer's arm may procure him his first case, and make his fortune. Such is the world. To him that hath shall be given. Quit droning and complaining; keep busy and mind your chances.

"The time to be jolly is when everything is going wrong and you are down in the mouth with the blues. That is a mighty nice thing to preach; but almighty hard to practice. How is a fellow to be jolly when he gets out of bed on a cold morning, steps on a tack, burns his fingers while lighting the kitchen fire, finds his pet dog poisoned, goes down to business and finds two sight drafts to pay and no money in sight, gets a letter from his mother-in-law informing him that she is sick, and so on through the day. Show us a fellow who wouldn't wear the corners of his mouth in curl papers under those circumstances.

No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns. This applies to all kinds of business—general stores, dry goods, grocers, furniture dealers, manufacturing establishments, automobile dealers, mechanics, professional men and in fact all classes of business men. This does not mean that you should have a whole or even a quarter of a page in every issue of the paper but your name and business should be mentioned if you do not use more than a two line space. A stranger picking up a newspaper should be able to tell just what business is represented in a town by looking at the business mentioned in the paper. This is one of the best possible to a advertisers. The man who does not advertise his business does an injustice to himself and his town. He is the man who expects the newspapers to do the most free advertising and free boosting for his town. The man who insists on sharing the business that comes to town but refuses to advertise his business is not a valuable addition to any town. The life of a town depends upon the live wide-awake and liberal advertising business men.

HOW TO LIVE ON TWENTY-FOUR HOURS A DAY

(By Arnold Bennett. George H. Doran Company)

"You have no time"? The moments whizz ;
This can't of "lack of time" is plaguy.
O Man, you've all the time there is:
What more has Gould or A. Carnegie ?

But use your wealth of time with awe ;
What goes is gone beyond retrievement.
Remember, Time's the only raw
Material of All Achievement.

Observe this miracle, a Day,
Replete with four-and-twenty hours
Of which but seven, let us say.
You spend in work with laggard powers ;

You slept through nine (and rose too late);
Sixteen are gone—enough to scare you,
But how about the other eight ?
Account for these ! Ha, ha! I dare you !

Don't waste the time you pass on trains,
But concentrate on some wise tenet
Of Epictetus; try your brains
On mighty thoughts by Arthur Bennett.

And when you've done your daily stint,
Don't loll around and think you're tired,
But work at something. Take a hint.
Gird up your loins and don't stay mired !

But ninety minutes thrice a week,
Employed in any high endeavor
Will help to gain some goal you seek
And make you more profound than ever.

Read something big; or, if at heart
You hate the very name of "Letters"
And scorn Philosophy and Art,
Review the lore of money-getters,
The Rise and Fall of Real-Estate,
The craft the bunco-man relies on
At all events don't vegetate,
But live, expand your horizon.

In short, as Dan C. Beard once said,
While chewing on a Wheeling stogy
"Just think a bit; 'twill hurt your head,"
Who knows ? You might become a Yogi !

Arthur Guiterman.

There is some question whether or not the eating of fish produces brain power, but there is no quibble over the fact that catching fish produces liars.

Takes Interest in Public Highways

ESSAYS ON "WHAT GOOD ROADS MEAN TO CANADA" ARE POURING INTO OFFICE OF CANADIAN HIGHWAY ASSOCIATION.

New Westminster, April 10.—Young people throughout Canada are taking a great deal of interest in the essay competition fostered by W. J. Kerr, president of the Canadian Highway Association, who has offered valuable gold, silver and silver gilt medals for the best essay on "What Good Roads Mean to Canada."

Although public announcement of the fact was only made two weeks weeks ago, the headquarters of the Canadian Highway Association already resembles the committee room of a college just before graduation. Every day from three to twelve essays are received by the secretary, P. W. Luce, who has in hand the classification and preliminary judging of the essays submitted. The reading of the papers and the awarding of the prizes will be done by a competent committee selected because of long experience in newspaper and magazine work, and that the judgement of these men will give general satisfaction is not to be doubted.

Some of the papers received by the secretary bear the marks of earnest and careful preparation. Others, of course, as can be expected are written in a haphazard and careless manner and are not to be counted as serious competitors for the valuable prizes. All entrants, however, whose papers show evidence of study of the subject will be presented with a souvenir pin.

Some of the competitors are only fourteen years of age and others are approaching the limit of eighteen years, but the majority are from sixteen to seventeen years of age.

Papers have been received from Harriston, Ontario; Killam, Alberta; Glace Bay, N. S.; Renfrew, Ont., Montreal, Toronto, Cornwall Souris, Winnipeg, Brandon, Strathcona, Saskatoon, Dauphin, Vernon, Summerland, Okatoks, New Westminster, Nelson, Vancouver (19! Victoria (7), Nanaimo, Chilliwack, Coquitlam, Creston and many other places.

Up to the present the essays submitted by the boys show more careful thought and deeper study than those submitted by the young ladies, but in the opinion of Mr. Kerr this does not mean that the girls will be left behind when the competition is decided. He believes that the girls are taking their time and going more deeply into the study of the economics of Good Roads and that during the two weeks preceding the close of the competition there will be a large number of carefully prepared papers received from the members of the gentler sex.

Secretary P. W. Luce has prepared a circular which he is sending to all children who require information that will help them in the composition of the essay. This circular is only intended as a guide, and while it is of considerable assistance to the children, it does not give those who receive it any unfair advantage over those who have already prepared their papers and forwarded to him. He was induced to get out this little leaflet because so many children were writing him for advice that he felt he could not afford the time to answer each letter individually. Any prospective competitor can obtain one of these slips by sending a letter to the secretary at the headquarters of the association, Room 4, Cunningham Block, New Westminster

The I. W. W.

(From Victoria Week.)

Premier McBride and Attorney-General Bowser have lost no time in making it perfectly clear that they intend to maintain law and order in British Columbia, and that they will not tolerate undue interference, still less acts of violence on the part of anyone, and especially on the part of that motley aggregation of "mouthers" who are organized under the title of the I. W. W. This is an American organization which has made more than sufficient trouble for the government of many States south of the Line. It has been denounced by the Press, condemned by peaceable citizens, and driven out of several cities at the nozzle of a water hose. Its sole object seems to be to set up conditions of industrial strife, to engender bad feeling between employer and workmen, to make a noise at the street corners, and incidently to "loot." It is greatly to be regretted that it is not physically possible to resort to the water hose at every point where these irresponsible agitators crop up, but there are other means of quenching their ardour hardly less effective, and the Government of British Columbia may be trusted to discover them. The pity of the matter is that men of this type injure the cause of labor bring odium upon decent organizations, and alienate public sympathy in many cases where labor has a just cause for complaint. The professional agitator is not only a public nuisance, but a public scourge. There is no longer any place for him in England. It may take some time to suppress him in the west, but his ultimate suppression is as certain as the rising and setting of the sun.

Elko Notes

Quite a number of people including Mr. and Mrs. Chas. Klingensmith, drove over to Baynes Lake on Monday and enjoyed the Easter Monday dance. The Baynes people enjoy themselves and no mistake.

"Billy" Woods, contractor, Elvo, took to himself a wife on Monday last. Good luck, "Billy."

Mr. and Mrs. Birnie, Mrs. J. M. Taylor, Mr. and Mrs. Wm. Kerr, were out motoring on Monday evening. Mr. Kerr is getting to be an expert motorist.

Mr. and Mrs. A. Birnie, visited Fernie on Monday, they were present at the wedding of Mr. and Mrs. Wm. Wood.

We are enjoying very pleasant weather at Elko, and a few visitors are to be seeo. Elvo is a pleasant holiday resort with its beautiful hills rivers and waterfalls.

Mr. Adolph, of Baynes Lake Lumber Co., and Mr. C. McNabb, of the Waldo Co., were Elko visitors in the beginning of the week.

A horse belonging to the North Star Lumber Co., while being shod at the Elko Smithy, by George Ross struggled so hard that he strangled himself. It was a terror to all the blacksmiths in the Crows Nest Pass.

Matters in connection with the new church in Elko do not appear to be going smoothly. A house divide against itself cannot stand.

Yes! it was a good charivari "Billy" was quite liberal and treated the folks handsomely.

Mr. Fred. Roo, J. P., spent the week at Rooseville.

The crocuses are in full bloom at Elko. Come and get a button hole.

Met a gentleman, an Elko gentleman, I should say; in the woods on Sunday with a gun, photographing equipment, etc. He looked very lonely for want of a female companion that used to accompany him in his rural wanderings. It was too bad of him not to marry the girl.

Only A Tramp.

"He's only a tramp," said the papers,
When telling the news of the day,
Of how a poor man was discovered,
Just breathing his last by the way
And that was the epitaph written;
And scarcely his spirit had fled,
When many around him had gathered
To morbidly gaze on the dead.

Messieurs, let us pause and consider,
Right here o'er his mortal remains
A clue we, perchance, may discover,
'Twill be a reward for our pains.
From whence had he come, and bound whither,
His birthplace, and name to denote
What's this? Ah! Messieurs, 'tis a letter
Concealed in the breast of his coat.

We'll read: "My dear husband, this letter
I write to you, hoping 'twill be
Another strong link in love's fetter,
Which binds you so closely to me:
My heart's dearest throbs of affection
I send to you, darling, and pray
Kind Heaven, for health and protection,
And speedy success on your way.

"Our children are silently sleeping;
I many times kiss them for you;
But Freddie is ailing from weeping,
And baby is troublesome, too.
Yet, cheerfully darling, I'll labor
Till you some employment secure,
I'm helped by a kind-hearted neighbor,
Who feels for the friendless and poor.

"This morning our Jennie ran sprightly
To kiss me, she whispered me: 'Ma,
Kind angels converse with me nightly,
And give me good tiding of pa.'
God favor our little romancer
With virtuous dreams all her life,
Impatiently waiting your answer,
Your faithful affectionate wife."

Then silently stood each spectator;
Their eyes were overflowing with tears;
Their lips—where the name of Creator,
Had never been mentioned for years—
Were now breathing prayers full of pity
To God, with an earnest desire
For those in a far-distant city,
Deprived of a husband and sire.

The tale can be told by that letter,
Denied all employment at home,
His wretched condition is better,
Away o'er the land did he roam:
Repulsed by continued denials,
He came to seek rest on this sod,
At last there's an end to his trials,
He rests with a merciful God!

And "only a tramp" said the papers,
When telling the news of the day,
Of how that poor man was discovered
Just breathing his last by the way
That was the brief epitaph written;
But scarcely the letter was read
Till many Samaritans gathered,
To tenderly care for the dead.

Only a Suffragette

The London Daily Telegraph considers Mr. Lloyd George "elusive" we wonder what it thinks of the Countess of Warwick

That this illustrious lady is not the only suffragette of whom it might be said, "You knaw her by her dog."

That thirty years ago she was the richest heiress and the most beautiful woman in Devonshire, and now she is only a "dog-gone" suffragette.

To hear one everlastingly complain and growl proceeding from what is aptly called a "chronic kicker" is as much as one can stand. This would be a better plan than to have every agreeable thought chased away by this evil spirit of disputatiousness is more than flesh and blood would if the people who lose their tempers would never find them again.

There are many good and valuable lessons to be taught in the public schools, but chief among these is the lesson of obedience. Well disciplined school children make law abiding and patriotic citizens. The enforcement of sensible and reasonable discipline in our schools means better citizenship. The teacher who does not guard well this important point has missed her or his calling.

TO CURE MENINGITIS.

Apply turpentine from base of skull down the spine, then fold a piece of flannel, which after being folded, is 3 or 4 inches wide, then saturate with turpentine, then place from base of skull down the spine, then cover with a piece of dry flannel. Take a hot iron and iron down the spine for several minutes. Let the patient lie on side and place hot iron, not too hot at back of neck over the flannel. Continue until patient is relieved of pain, applying more turpentine as needed.

This is the way a physician cured many patients in Illinois while another lost all his patients my sister being one of them, about two or three years ago. I was successfully treated in this way. Will answer any ques- I can about this treatment. I am for saving life as life is a pery precious thing. Lula Francis, Sulpher, Oklahoma.

"THE WHITE SISTER."

Plays that have a religious or church title usually frighten and drive away the ordinary play goer from the theatre, leaving the patronage to the church element of society who only patronize such plays. It is not so with the great Viola Allen success "The White Sister" which the charming actress Jeanne Towler and her splendid company will present at the Auditorium on Monday April 15. Although "The White Sister" is the story of a Nun, it breathes of all the passionate love of the Italian race in an intensely human manner. It has all the beauty and fragrance of the peaceful convent life and again it pulsates with the fiery spirit of the impetuous soldier-lover. The great conflict between a woman's earthly and spiritual love is fought through four inspiring scenes that hold the auditors spellbound in their seats and never for one second loses its griping interests until the final curtain falls and the audience leaves the theatre happy in thought that, "the right has been done." "The White Sister" affords opportunity of acting of superior quality and gives Miss Towler a chance to demonstrate her right to her position as the most beautiful American emotional actress. The production is strikingly picturesque and presented with the same minute attention ta details that characterized the original Liebler and Co., production in New York.

Every good citizen should take the keenest interest in the welfare of his own town,—The stores, the churches, in fact, everything that goes to make prosperity and happiness. When this is done there is never any need to apologize for a towns existence or for anything it contains.

Roosevelt Makes Gains

Chicago, April 9.—Roosevelt beat Taft by 20,000 in this city, and in most of the other counties by three to one. Champ Clark is leading Wilson in Chicago by nearly 100,000 and three to one in other counties.

Rider May Die

Calgary, April 9.—While riding in one of the classes at the horse show this morning, Percy Sawtelle, a local horseman, was terribly injured when his horse threw him over its head and his feet remained in the stirrups so that he could not get free. His right arm was torn from the socket, and he was otherwise terribly trampled. He is expected to recover, although his condition is critical.

By-Election in Kootenay

The appointment of A. S. Goodeve to the railway commission is an accomplished fact. Mr. Goodeve will shortly resign his seat in the commons, now that he has commenced his new duties, and there is no doubt but that an election will take place sometime late in the fall.

The Prospector suggests the name of a man that would appeal to the electorate in both east and west Kootenay, and one that would be elected to fill the seat made vacant by the retirement of Mr. Goodeve, we refer to Mr. Otis Staples, of Wycliffe.

Martin Burrell

Ottawa, April 8.—Hon. Martin Burrell, who left for the west tonight to attend the banquet to Premier Roblin at Winnipeg, he will, upon his return to Ottawa, arrange for the transfer of the $500,000 subsidy appropriated for distribution among the provinces under the agricultural act. The money to be spent will be handed over to the provincial governments after the passing of the necessary legislation by the local legislatures. The money, so far as this year is concerned, will be given to the provinces with few restrictions as to the details of expenditure, but plans for applying the money will necessarily be submitted to the minister of agriculture here for approval.

C. C. James, who is to draw up the plan under which the federal subsidy for agricultural aid is to be applied after this year, is now in Toronto, where he is taking the preliminary steps before leaving, next month for a tour of the provinces.

Mr. Burrell while in Winnipeg will probably take up the question of federal and provincial co-operation in agriculture with the Manitoba government.

Takes seat on Commission

Ottawa, April 8.—The railway commission held a sitting and A. S. Goodeve, M. P. for Kootenay, the newly appointed member of the commission, took his seat for the first time. The case dealt with was not an important one. The Pere Marquette railroad which has several branches in Canada, has been for years in a precarious condition financially and a short time ago became insolvent. It was put into a receivers hands and the exchequer court appointed Frank W. Blair, Dudley E. Waters and Newman Erb as receivers in Canada. These appointments were confirmed by the railway commission today.

Price $5.00 box, or 3 boxes for $10.00. The Scobell Drug Co., St. Catharines, Ont.

Additional Locals

That the cost of city government is mounting higher and higher every year. This should be applied specifically to school purposes, and not to general city developments.

The Country Girl Dance which was to have been held this week has been postponed to Wednesday April 24th. In addition to the dance there will be rendered at intervals selections from "The Geisha" and "Country Girl", these will be of a short and pleasing and entertaining character. If you do not dance it will be worth your while to take a seat in the gallery seats being reserved for that purpose at a nominal charge.

The Overseas club held a very enjoyable dance and whist drive on Tuesday evening in the Carmen's Hall. Mr. J. Brake acted as floor manager. The winner of the whist drive were Mrs. E. Clark and Mr. W. Marshall, there was some 16 tables with interested players who sat down to the game. The Geurard Orchestra furnished the music for the dancers, the members said that it was aqsolutely the best dance they had ever held.

Invite Taft

A recent issue of the Lethbridge Daily News, contains an invitation extended to President Taft to participate at the Seventh International Dry-Farming Congress to be held at Lethbridge, October 21. President Taft, cannot attend the Congress, or go to Lethbridge, as the President of the United States cannot visit any foreign country while he is president.

The Bright Side

I've always sought the silver lining
whene'er a cloud appeared;
No foolish tears of vain repining
have trickled down my beard.

When I encounter grief and sorrow,
I say, "It cuts no grass,
For things will come my way to-
morrow — misfortunes always
pass."

At diver's times when people saw me
wear grins and sing a song,
They stopped me to rebuke and jaw
me, and said, "Your head's on
wrong;

To go around and chortle when woes
are thick as rats,
Shows that you're dippy, foolish
mortal, your belfreys full of
bats.

And still, when I saw sorrows thicken,
My hopeful song was sung,
And now that I am sorely stricken
in years
I still am young.

My heart does not with age grow
colder—'twas never steeped in
tears;
And I know men who seem much older,
who've lived but half my
years.

Whene'er I see a grouch I strike it
and knock its features in;
The more I live the more I like it—
because I learned to grin.

This habit kept my life a-shining,
and when I come to die
I still shall seek the silver lining,
and find it, by and by.

Walt Mason.
