Roberts shall preside thereat, and that the returning officer appoint a poll clerk.

Council adjourned at 10:20 p. m.

COUNCIL NOTES.

A special meeting of the city council is called for Friday evening.

Under the Provincial Education Act, the city has power to tax property within a radius of three miles for the education of non-resident pupils.

Great Loan For Paris.

New York, Dec. 8.—Samuel W. Morris Assistant Secretary of the Girard Trust Company of Phila, sailed from here to-day for Paris. The Girard Company have finished the signing and sealing of the $50,000,000 loan placed in Paris by the Pennsylvania railroad and Mr. Morris is going to that city to attend to the delivery of the issue to the French bankers. The entire issue has been resold in Paris to investors, and this the first transaction between an American railroad and the French investing public is nearly complete. There was required for the execution of the certificates 1,260,000 signatures and the affixing of the same number of seals. The company appointed ten assistant secretaries who signed their names continuously each day for nearly two months.

THE ROARIN GAME.

Bonspeil may be Held at Cranbrook—Want Delegates to Support Rossland.

At a well attended meeting of the Nelson Curling Club, held at the rink on Monday evening last in Nelson, the following communication was received from Rossland:

"A communication from the Rossland club, asking for the support of the Nelson delegates for the bonspeil this year and to hold the meeting at Rossland annually, was read and tabled. The delegates were instructed not to favor the holding of the bonspeil at any one place annually. In view of Cranbrook's application to hold this season's bonspeil at that city the local delegates were left free to support any application they saw fit."

The new rink at Cranbrook is reported to be the finest in this province. The climate is such that good ice can be assured at all times during the season. Cranbrook is centrally located, with the best of railroad accommodations, good hotels, in fact, is the best town in the Kootenay for holding the bonspeil.

Gold Mining Prosperity In Nevada.

Carson City, Nev, Dec. 8.—In connection with the excitement in the gold mines in this state the statement was made to-day that Nevada is now producing as much gold per month as the entire fields of South Africa.

Spokane and Cranbrook

It is reported that arrange ments are about completed to establish a local train between Cranbrook and Spokane. A train will leave Spokane at 6:30 a. m. connecting with No. 6 at Spokane Junction, reaching Cranbrook at 8:30 p. m. No. 5 will connect at same point with a Spokane International train, leaving Cranbrook at 10:15 a. m., reaching Spokane at 7:30 p. m. The above arrangement will give a daily service between Spokane and Cranbrook. It is expected that this time table will go into effect Dec. 15th. The regular service from Chicago, via. St. Paul, Cranbrook, Spokane and Portland will commence May 1.

Municipal Election.

The time of holding the municipal election is approaching. Nominations will be made on the 2nd Monday in January and the election on the Thursday following the second Monday.

The Largest Colliery.

At present the largest individual colliery of British Columbia, and of Western Canada for that matter, is the Coal creek colliery of the Crow's Nest Pass Coal Company, which can handle 4,000 tons of coal in a day of ten hours.

Getting Busy.

The Liberal opposition of this province are getting busy, candidates for the legislative assembly are being selected, and J. A Macdonald, leader of the party, has already taken the initiative and is stumping the country in the interest of his party.

PEOPLE YOU MAY KNOW

Visitors Here and There—People Who Come to Cranbrook and Those Who Go Away.

F. E. Morris of Winnipeg was in the city Wednesday.

Fred Robinson of Fernie was in the city Friday.

R. Clarkson and J. Clarkson of Toronto were at the Cranbrook Wednesday.

B. S. Wright and A. J. Barrett of Nelson were at Cranbrook Wednesday transacting business.

Walter Hoad and M. Hoad of Calgary spent Sunday last in Cranbrook.

C. A. Reid and J. Magee of Spokane were Cranbrook visitors Sunday last.

Mrs. F. H. Parker of Greenwood was visiting friends at Cranbrook this week.

R. R. White of Toronto, J. A. Ladiner of Calgary and J. Hanbury of Brandon were registered at the Cranbrook Thursday.

E. W. Rawson, W. C. Parsons and D. McFachern of Vancouver were registered at the Cranbrook Wednesday.

D. R. Yates, manager of the Staples Lumber Co., at Wycliffe, was in the city Tuesday on business.

There was a fall of some six inches of the beautiful on Thursday night which will be of great benefit to the loggers in this vicinity.

J. Chapman of Wattsburg, Wm. Thorpe of Warduer, H. Smith of Calgary and C. Stacy of Wasa were guests at the Cosmopolitan Tuesday.

L. C. Yates of Lewiston, A. C. Pridgon of Yahk, and G. W. Godhart of Sussex, N. B., were guests at the Cosmopolitan Sunday last.

The local curling club is now attending to business. The ice is in fine condition, and the devottees of the "roarin" game have begun practising so as to be in form early in the season.

Next Sunday night Rev. Goodfield will preach in the Baptist church upon the "Necessity of the New Birth." Following this there will be sermons on the nature of the New Birth and also the evidences of the New Birth.

The town is what you make it. So is the home and the best homes have the best pictures. Wait and see Prest's new stock. They have been delayed but the C. P. R. are out on the hunt for them.

Santa Claus is getting busy. The finest selection of Christmas toys ever brought to Cranbrook is now on exhibition at Chas. E. Reid & Co., "the druggists." Bring your children and see the mechanical figures.

"Bob" Winfield, an old time prospector in Southeast Kootenay, was in Cranbrook Friday. He was accompanied by Mr. T. Baker. They left on the Windermere stage during the afternoon for Wilmer.

A. A. McKenna, representing the Harold Nelson Co., was in town Friday making arrangements with the manager of the Opera House for the appearance of his company on December 17 and 18.

A musical treat of rare excellence was thoroughly enjoyed on Wednesday evening, Mr. and Mrs. C. H. Prest had invited a number of friends to their home to attend a recital. No one expected so much, but were all the more delighted when Mr. Morris of Montreal seated himself at the piano and touched the keys. Mr. Morris said in his reserved way that he believed he could play one selection, but after two hours performance all decided he could play any selection. He is an artist of rare ability and never before have we had such a one in our midst. He has studied for years with Paderiskie and other great teachers. Mr Morris left on Thursday for the coast, but it is to be hoped he will soon visit us again.

R. H. Bohart of Wardner was transacting business at Cranbrook Friday.

Rev. C. O. Main. late of the Yukon, will conduct services at Knox Presbyterian Church next Sunday December 9th.

Hill & Co., will occupy one half of the old Fink Mercantile building, putting in a full line furniture and household goods.

Owners of vacant lots in town should remember that there is a Municipal Act dealing with sidewalks on which the snow is allowed to remain.

Dave Breckenridge, representing the Crow's Nest Pass Lumber Company of Wardner was transacting business at Cranbrook Friday.

John P. Larson of Fort Steele was in the city Friday on business. Mr. Larson is a mining man, and during the past season has been placer mining on Wild Horse Creek.

A. C. Bowness, having purchased the store building lately occupied by the Fink Mercantile Co. moved into the new premises today.

Mrs. J. D. McBride, who has been ill for the past month, had a relapse last week but is now slowly improving.

SMALL FIRE TUESDAY MORNING

Building Occupied by A. L. McDermott Partially Destroyed—Loss Fully Covered by Insurance.

The fire-fighters of our city had quite an interesting experience early Tuesday morning of this week, when they were called at 1:15 a. m. to extinguish a flame which was seen to come from the building occupied by A. L. McDermott wholesale liquor dealer. The fire had considerable headway before the alarm was sounded, but the brigade was quickly at work and soon had the fire under control, and the citizens breathed quietly knowing full well that our fire-fighters, with an ample supply of water, were able to cope with any fire of ordinary dimensions.

Above the store the premises were occupied by R. Patmore and family, and the inmates had a narrow escape not having time to secure their clothing. Mr. Patmore's loss is quite heavy, having no insurance. Mr. McDermott also suffers a heavy loss which is covered by insurance.

Once more the firemen deserve credit for their prompt action and heroic efforts. They are a loyal band of volunteer fire-fighters.

WAS WRONGFULLY INFORMED.

The Nelson Daily News was certainly misinformed this week when it states that during the fire in Cranbrook Tuesday morning that there was but little or no water pressure. The chief of the fire department states that the report is absolutely false, and that he had remarked to the boys that the pressure never was better, and certainly those present could see the two streams playing with a good force. Such reports being sent out are no credit to the sender and one should be careful to get the truth. Yes the pressure was good and water plentiful, so say the firemen and they did the work.

FIRE AT FERNIE

Excellent Work of the Fire Brigade.

At an early hour on Sunday morning fire completely gutted the boot store of J. L. Thornley on Cox street The fire had gained considerable headway before being discovered and for a time there was danger of the whole block being destroyed, owing to the high wind. The work of the fire brigade was excellent and it was due to their well directed efforts that the conflagration was confined to the building in which it originated. An over-heated stove is supposed to have been the cause.

To Nominate Harvey.

It is given out that the Conservatives are to hold a convention in Golden about the middle of December for the purpose of nominating a candidate to contest the Columbia riding in the Conservative interests in the now much talked of coming provincial elections. It is now understood that the names mentioned as likely to be nominated are H. G. Parson, the popular Golden merchant and J. A. Harvey, Cranbrook's leading barrister.—Wilmer Outcrop.

Political Notes.

Mr. J. A. Macdonald has expressed his great regret that Mr. McBride has made "better terms" a party issue Would'nt that jar you?

The most talked of man, to represent Crandbrook riding in the legislative assembly, is J. A. Harvey. All the enemies' guns will be trained against him, if he is selected as the Conservative standard bearer for this riding, but when the smoke of battle is cleared away it will be found that Mr. Harvey is the elected representative of the most progressive riding in this province.

When Premier McBride decides to go to the country it is the opinion of a large portion of the electorate that he will be returned to power by a handsome majority.

United Irish League Proclaimed.

Dublin, Dec. 8.—The proclamation of the Lord Lieutenant and Privy Council dealing with the United Irish League in the countries of Galway and Mayo takes effect to-day. No further meetings of the league will be allowed in the countries mentioned owing to the great number of agrarian outrages recently commited. The executive of the League have announced meetings in spite of the proclamation and trouble is feared. A large force of extra police has been requisitioned.

MOVED INTO NEW QUARTERS

The Fink Mercantile Company at Home in their New Building.

The Fink Mercantile Company have this week entered into their new quarters on Baker street. On Wednesday morning the doors were thrown open for the first time for business, and all is now alive in that place. This is the largest and best establishment now in Cranbrook and is a credit the city and its proprietors. The store is 50 feet wide by 100 feet in depth. On the right is the clothing department and on the left the grocery, while in the center is to be found shelves laden with boots and shoes, and crockery. Down stairs will be found the vegetables and case goods. Upstairs will be seen the tailoring establishment and store rooms, while in front there are two large suites of offices. The whole store is modern in its arrangements. The heating is by hot water, lighted by electricity, the cash carrying system is perfect, there being installed a complete system known as the Lamson's. By this all cash and accounts are handled from the cashier's box. It is expected that a formal opening will take place in the near future.

King Edward Wins Prize.

King Edward VII of England, as an exhibitor, captured first prize with his shire stallion, Prince Victor, at the international live stock exposition, won from lord Rothschild's stallion Gritoon Chamer.

Accidents at Fernie.

George Chilton, a young Englishman working in No. 9 mine Coal Creek, had his right foot severely injured last night, a loaded mine car passing over it. He was removed to his home in west Fernie where he received medical attention. It is not expected he will suffer permanent disability.

Richard Higham, employed at Coal Creek mines, met with a painful accident yesterday and one which necessitated his removal to the Fernie general hospital. While drawing some water near the boiler house he accidently stepped into a hot water tank scalding one foot severely.

Ido Fiarese, an Italian laborer working at the Coal Creek mines, met with a fatal accident at that place yesterday at 7:10 a. m. He was knocked down by a moving railway car and fell under the wheels and was crushed in a terrible manner. The injured man was conveyed to the Fernie hospital were he succumed at 3 p. m. Deceased was 34 years of age, unmarried, and leaves an aged mother in Italy. An inquest is being held today by coroner Bleasdell.

CAN MAKE FIRE-BRICK.

A New Discovery That Will be of Great Benefit to Cranbrook.

The announcement that is made this week that material has been found in the vicinity of Cranbrook from which can be made fire-bricks which will stand the severest test of fire, will be received with general interest. It is not yet known what wealth lies at our doors. The suggestion made that a home company be formed is a good one and it is to be hoped that those most interested will soon undertake the manufacturing of such brick. This would prove a boom to our city and also to the whole district and soon a close relationship could be brought about with other districts. We here give a brief description of the material used, and tests already made of bricks manufacturee.

These bricks are synthetically manufactured from two deposits, one being a very pure clay in the form of silicate of aluminum, and the other being a pure quartz that, chemical anlysis showed to contain 99-90 per cent silica. Both of these deposits are unique in their purity, therefore, a fire-brick can be manufactured to suit the requirements of trade. Thus if an intense heat is to be withstood, a 99% silica brick can be as easily made, as another of lower grade.

There are now on exhibit in J. D. McBride's hardware store, three dozen fire-bricks, one-third regular size, and varying in contents, from 85% SIO-2, to 99% SIO-2. These Bricks have been token at a white heat and suddenly emerged into a tub of ice-water, and were unaffected by this sudden exteem change of temperature. This test is recognized by those who are posted on the subject to be the most severe test that can be applied.

The deposits are situated 8 miles from the Crow's Nest railway and only a few miles from Cranbrook. There is a first class wagon road from the deposits to the railroad, therefore, there are no expensive wagon roads to be constructed.

Mr. Byron has just made public his discovery, although he has been working steadily in his laboratory for nearly three months experimenling on materials from many deposits, but he has only found two deposits that contained the proper ingredieuts that would go together in the right chemical proportions to produce a first class fire-brick. When asked about these deposits he said: "That, without doing any development work at all, there were several thousand tons of the raw material in sight." When asked about his plans, he said: "He would sell out if he could get his price, and thaat he has already had an overture of purchase from one of the big coal companies of the Crow's Nest Pass, who use thousands of dollars worth of these bricks annually."

He also stated that, "he had bee requested by some of the leading business men of Cranbrook to form a company and put in a brick plant and start manufacturing fire brick here in Cranbrook, as it would be the means of bringing to this city thousands of doliars that are now being sent out of the country for bricks of this description.

Bonspiel at Cranbrook.

A meeting of the Kootenay Curling Association was held in Rossland on Dec. 5th, at which the question of where the next bonspiel should be held. After a warm but friendly debate it was decided to hold the bonspiel this season at Cranbrook. The Cranbrook Curling Club was represented by P. E. Wilson and was admitted to membership in the association.

SATURDAY, DEC. 8, 1906.

THE Provincial elections are assured at some time in the near future. There is a square and clearly outlined issue between the McBride government, representing the conservative party, and a liberal opposition, under the leadership of J. A. Macdonald. The common interest of the people is a wise and just administration of the affairs of the province. This we have had in the past three years of conservative administration. The affairs of the government have been conducted in the interest of the entire province. The duty, therefore, of the people, at the coming election, is apparent. A man should have the strength of his convictions, and those convictions should be his guiding line; and he should not hesitate to acknowledge and assert those convictions in the face of any sort of opposition whatsoever. Men are living their lives, and if they are to be men at all, and not mere serfs or mere clingers to the will of others, they must assert themselves as they go through life. Is there any other thing worth living for than to be a man amongst men? A reaction has set in against the opposition party, whose tales of woe and slander have been rebutted time and time again and the silly vaporings against better terms for this province will be the "big stick" that will hammer them down to defeat in the coming election.

* * *

There is a noticeable unrest among the leaders of the opposition and the lesser lights of the party. Like Micawber, they are waiting for something to turn up.

* * *

The conservatives are enthusiastic as well as a bit restless, yet a rosy view of the future of the party is taken by the leaders of the party who declare that in the coming election the conservatives will carry the province.

* * *

The conservatives, of Cranbrook, are counting on this riding as a good fighting ground for a strong candidate.

* * *

If you listen to gossip you have no right to complain when you are its subject.

* * *

Too many men act just like dogs—howl a great deal and run around nights. What a pity it is that their ears don't lop.

* * *

What the opposition thinks of itself is of little interest to the province. The size of its bump of self-appreciation has long been known by its actions in past sessions of the legislative assembly.

Kootenay Steel Range

A Good Baker

The oven in the Kootenay Range is scientifically proportioned to the size of the fire-box, so that no more fuel can be burned than is absolutely necessary to heat the oven.

The oven is lined with heavy sheet steel, which is a great radiator of heat and insures a uniform heat throughout the oven. no danger of a loaf of bread being half done on one side and burned on the other.

The Kootenay Range is built on scientific principles throughout, and should be carefully examined before buying any other.

Lead Production for 1906.

Taking British Columbia's production of lead in 1906 at about 30,000 tons (G. O. Buchanan, distributor of the lead bounty, says that "production is now going on at the rate of 30,000 tons per annum,") the value, calculated at the average New York price for the year, less 10 per cent, will be about $3,000,000. The province's production of lead for all years to 1906 inclusive, has reached a total of about 226,000 tons, valued at nearly $18,000,000, more than one-third of which, by the way, has been produced during the last three calendar years. The total amount paid as bounty on lead during the three fiscal years ended June 30th last was $615,000—the appropriation authorized was $500,000 per year. It is believed the market price of lead will remain as high during the remainder of the current fiscal year that there will not be any bounty paid during the 1906-7 period. It is well to remind any who may conclude that because no bounty is payable under existing conditions lead mining is not being carried on, that, as Mr. Buchanan points out, there is no shrinkage in the industry. Similarly there should be kept in mind the fact that a larger tonnage of ore is being mined and a smaller proportion of lead produced does not necessarily mean that the lead mines are "petering out." On the contrary, it shows that, owing to the high price prevailing, ore of much lower grade can be treated at a profit and is being utilized accordingly, consequently what may without explanation appear to be a disadvantage is a decided advantage, since mine owners are under existing conditions able to mine and treat at a profit ore that when the price of lead was much lower was to all intents and purposes of no value to them.—B. C. Record.

WELCOME TO THE NEW STORE

THERE is a time in the history of progressive institutions when the old order of things must give place to a newer and better one.

THE period has been reached in this store when more modern and commodious premises were absolutely necessary to our growing trade.

WE now welcome our many friends and patrons to "THE NEW STORE" where everything sparkles with brightness and cleanliness. Everything is new but the policy of the store remains the same viz, to supply the highest standard of merchandise at reasonable prices combined with excellent service.

The New Premises will facilitate the handling of goods at a minimun of cost. Will enable us to give prompt and efficient service. Will enable us to carry a larger and more varied class of goods. Will enable us to preserve that order that cleanliness so essential in a successful store.

Will Enable Us to do a little better generally than we have done. Our efforts will be directed to the attainment of these objects. If we succeed, as we hope, then we have not built in vain.

Keep Your Eye on this space next week and every week
