CONSERVATIVES MEET

Regular Yearly Meeting and Election of Officers.

The Cranbrook Conservative Association met in Watts Hall on Thursday evening for the purpose of electing officers for the ensuing year and the transaction of other business

Owing to the absence of president J D McBride, vice president James Ryan occupied the chair. Minutes of last regular meetings, were read and on motion adopted.

The election of officers resulted as follows:

Hon Pres A. Leitch
President Wm. Small
Vice Pres. J. Ryan
" " G. H. Thompson
" " Thos. Cavin
" " W. A. Rollins
" " D. J. Johnson
" " V. Rollins
Sec.-Treas. J. Ryan
Executive Committee J. A. Harvey, G. T. Rogers, J. D. McBride, W. D. Hill and S. Mighton

A vote of thanks was accorded to the retiring officers.

It was moved that a memorial be presented to the provincial government asking that the present voters list be cancelled either by district legislation or by an order-in-council.

A committee was appointed to deal with the matter of the existing voters list and to memorialize the government in connection therewith.

J. A. Harvey, G. H. Thompson, James Ryan, V. Rollins and others then addressed the meeting.

It was then moved that this association express their unbounded confidence in the premier and his government, also the late candidate Mr. J. A. Harvey.

A vote of thanks was tendered to S. J. Mighton for use of hall.

The meeting then adjourned until Thursday evening April 25th.

Items of Interest.

The Dominion parliament will likely prorogue in about two weeks.

Col. Sam. Steele is in London and in an interview says that the feeling between the Boers and the South African constabulary is most cordial.

None of the other fellows in the Dominion House have as yet followed the example of Mr. Emerson, and put themselves out of Parliament.

Bank of France Advances Bank Rate.

The gold exodus from France, which has recently been increasing in conjunction with the money crisis abroad, especially in Berlin and New York, is occupying the minds of the critical and practical financiers, while the recent rise of rate by the Bank of France has drawn the attention of the Commercial world to the same object. The Bank of France today raises the rate once more, this time to four per cent.

Estimates Brought Down.

Estimates for the current year were brought down in the provincial house last Thursday.

Cranbrook riding will get $6,000 for roads, trails and bridges, with an additional grant of $2,400 for the construction and operation of a ferry at Wardner, also $5,000 for the government building.

Canadian Government Will Establish Council of Art.

Great satisfaction is felt in the announcement made by the government at the opening of the Royal Canadian Academy of Arts Gallery that the government will appoint a Council, of Art. The members of the Academy had been long trying to secure such a council, and their gratification that the Council is already partly formed is very great. Mr. Reed, president of the Academy, said the commission would have jurisdiction over the national collection of art, the nucleus of which have already been formed at Ottawa, but which had never been put on a proper basis. It will also look after the decoration of public buildings, the erection of public monuments, the purchase of works of art by the government, and the like. It is expected that the Royal Canadian Academy will have a representative on the Council. Academicians report that the announcement of the council has already had a stimulating effect upon the subject of art throughout the Dominion, and it is quite possible, that the number of exhibits will be considerably increased by the next Exhibition.

THE K. C. RAILWAY

Steam Shovel arrives—Work now going steadily ahead

A work engine with a construction train consisting of a steam shovel and ballast unloader and plow, arrived here Saturday afternoon to actively commence construction on the Kootenay Central. The track has already been laid from a point on the C. R. L. Co's track, across Phanton Lake, with a spur into the cemetry hill, whence the supply of gravel for ballasting the track will be excavated by the steam shovel.

W. H. Elson, trainmasters, and Vic. Anderson, chief road master, spent the early part of the week in town, installing the machinery.—Times—Golden.

Appointment.

His Honor, the Lieutenant-Governor in council has been pleased to appoint George T. Rogers to be a justice of the Peace in and for the province of British Columbia.

PUBLIC NOTICE UNDER HEALTH BY-LAW.

Pursuant to the Health By-Law No. 9 of the City of Cranbrook, notice is hereby given that all owners, tenants and occupants of lands, houses or premises within the City, shall clean the said premises and remove all rubbish and noxious, offensive or unwholesome matter from their premises and the lanes adjoining, on or before the 20th day of April, 1907.

Any person refusing or neglecting to obey this notice, may be fined $100.00 and costs or two months imprisonment with hard labor

No further notification will be given. No notification is necessary to substantiate a prosecution.

Dated this 10th day of April, 1907.

By Order Local Board of Health and
E. W. Connolly,
Medical Health Officer.

Clean up the City.

The season has arrived when the Board of Health should put on an emergency staff for the cleaning of the streets Just the moment the filth which has been gathering on the road beds all winter and filtering through the snow, cases to be mud and becomes dust, it constitutes a danger to the health of the city. So long, as it is mud, all that we can do is to gather it up on our rubbers and carry it into our homes. The ladies can do a little better: for they have skirts to pick it up and take it home to be dried into dust which the first brushing will fling into the air of the living rooms But when it lies dry on the streets and sidewalks, then every passing breeze lifts it into the air where we can conveniently breath and swallow it. The civic authorities alone can save us from this by treating the case as an emergent one and putting on a street cleaning gang to make the streets perfectly clean now that the frost has disappeared.

KINGS OF SPAIN AND ENGLAND

Meeting at Cartagena of Alfonso and Edward

Cartagena, Spain, April 8.—King Alfonso, the Dowager Queen Christina and other members of the royal party arrived here at 7:30 this morning from Madrid to meet King Edward and Queen Alexander of England.

The royal yacht Victoria and Albert, escorted by warships, was sighted later in the day and King Alfonso went out to meet King Edward and Queen Alexandra on board the Spanish yacht Giralda. The royal visitors were accorded a magnificent reception on their arrival.

Afraid of Nanaimo.

The Federal government has been notified that it would not be advisable to open Nanaimo with the prospect of the seat being lost. At the request of the machine, Ralph Smith will let go the Yukon job, with his weather eye cast towards the position now occupied by Mr. Templeman

Trafalgar on the Rocks.

Devonport, Eng., April 8.—The British battleship Trafalgar went ashore today on the rocks off Devil's Point, behind the naval victualling yard, at East Stonehouse, while proceeding to Plymouth Sound from Devonport. Six tugs evnetually succeeded in refloating the Trafalgar an hour after she went on the rocks. She was taken into the harbor where she will be docked There was considerable water in the forward compartment.

The "Gym."

Two of the fastest basket-ball games of the season were played during the past week. On Friday night, the Town and "Gym" teams lined up and a fine exhibition of ball was presented to the on-lookers. The "Gym" finally won out with one point advantage. On Tuesday night the Banks and Fire-brigade played a fast and close game, the latter winning out by one point. There are a few more games to be played to finish the series and then the season will close with a grand closing exercise.

DEATH ON RAIL

Eleven Passengers Burned to Death—Eighteen More Seriously Injured.

The most disastrous wreck in the history of the C. P. R. occured Wednesday night twenty miles from Chapleau, Ont., a divisional point east of Fort William, resulting in a dreadful death list and many serious and fatal injuries. Express train number one running at a high rate of speed, was derailed by a broken rail, all the coaches leaving the track and several hurled into the ditch. The tourist coach, carrying emmigrants from the steamer Kensington, took fire, and eleven persons, eight adults and three children, pinned beneath the debris were burned to cinders. Eighteen other passengers were seriously injured and the death rate will be higher. There is no list as yet of the names of the injured and no possible means of identification of those who were burned and details of the affair are very meager.

Saved from Electric Chair.

New York, April 11.—The jury returned a verdict of acquittal against Harry K. Thaw this afternoon. The verdict did not come as a surprise, as almost every one considered it inevitable.

PROVINCIAL GRIEVANCE

The Provincial and Federal Authorities Clash on Fishery Question.

Victoria, April 10.—With the the budget and the fisheries Bill before the house the end of the session is in sight without the aid of field-glasses.

The four days of last week were the busiest of the 18 days of the session. The first University Bill for the reservation of two million acres is within a day or two of the statue book, and the second bill, dealing with the university itself, will be down next week. These are practically all the Government measures to be submitted this session, and prorogation is promised two weeks from today, as evening sessions will now be held until the close.

The fisheries Bill, one of the most important measures of the session, in effect re-enacts, as has been explained, the Act of 1901. That act has never been called into operation because of the Dominion government, following the Privy Council's decision that the province had the right to control its fisheries.

By that agreement the Dominion promised to readjust matters, and effect, among other things, an equitable distribution of the fisheries revenue. But like many federal promises, this has never been fulfilled. Now, the provincial government, weary of waiting six years for the carrying out of that pledge, by the present bill will bring into operation the bill of 1901, and assert provincial rights.

Upon this assertion of provincial regulation and control of the fisheries, there is likely to be a renewal of the conflict with the federal authorities, but the provincial government has determined to assert its rights.

The member for New Westminster has the the honor of presenting the largest petition of the session, one with over three thousand names, all desiring a $2.00 gun license, and the establishmemt of games preserves.

The member for Fernie will point out to the house that for fourteen years the Speakers rulings have not been officially reported, and will ask the Government if it is the intention to have them reported, and if not, why not.

Dr. King will ask the house to reject the Railway Committee's report which threw out Mr Corbin's Kootenay Southern Railway Bill, in favor of the Southeast Kootenay Railway Company, which now has a charter over the same territory, and will ask that the bill be recommitted to the Railway Committee

Colonies to Force Issue.

London, April 11.—The standard says. "It understands that in case the proposal for an Imperial conference voiced by the colonial premiers falls through at the forthcoming colonial conference, the premiers will endeavor to assemble a conference of their own to discuss methods of securing a system of mutual preference in which the mother country shall be allowed to share whenever she admits the principal of preference with her colonies.

King Edward a Spanish General.

Madrid, April 8.—The official Gazette today published a royal decree appointing King Edward an honory captain general in the Spanish army.

Entertain Premiers.

King Edward VII. and the Prince of Wales will welcome and entertain the colonial premiers attending the conference, which begins on April 15.

THE Electric Light Company will learn on Wednesday evening next the fate of its bill in the city council asking for a franchise to extend its lines, etc. At the special meeting on Friday evening last, the by-law, No. 138, was being considered clause by clause, the council has listened to a proposition from R. E. Beattie to negotiate for the sale of the plant to the city, but the council with a decision that deserves credit, declined to purchase, knowing full well that the water supply and sewer systems are of much more importance than the electric light system. The city has a limited borrowing power, and the purchase of the water works, is all that it will be possible for the city to purchase in the way of public utilities this year or during the next three years.

* * *

It would be well for the rate payers of Cranbrook to carefully consider this matter. 1st. the city is not at present in condition to purchase the electric light plant, nor will it be for a number of years. This being a fact, and the enlargement of the present system, and the securing of more and cheaper power a necessity by the company, will it not be in the interest of the city that the Electric Light Company receive what they require, from the city, to enable them to secure the funds to enlarge their plant and secure cheaper power. Another fact which may be considered of importance is that the bringing of power from the St. Mary's river to Cranbrook is largely an experiment, and as such, we should, as long as the Electric Light Company is willing, let the company do the experimenting, the rate payers being satisfied with cheaper and better lights, and an ample supply of cheap power.

* * *

Easter trade, Cranbrook, exceeds all previous aggregates and was remarkably strong in the expensive lines of apparel, millinery, foot-ware and sporting goods.

* * *

Voting for or against the by-law giving certain privileges to the Electric Light Company will soon be placed before the people of Cranbrook, and the result lies wholly in the peoples' hands, and we trust with a favorable issue.

* * *

The Crow's Nest Coal company are not worrying much these days about matters that are past and gone never to return, but it would be of interest to the citizens of Fernie if the company would inform the electorate just what it cost the company to have the Liberal candidate defeated in the last provincial election.

* * *

By a vote of 109 to 56 the House of Commons rejected the the motion of Mr. Bourassa for the appointment of a special commission to investigate Mr. Fowle's "Women, wine and graft" charges. Sir Wilfrid resented the action of Mr. Bourassa in decending into the gutter to rake up indefinite charges. He said the proposed committee was of an inquisitional character.

The University Measure.

The hostility which has been displayed by the Opposition in the local legislature to the University Bill will be regarded by the public as very small tactics indeed. Something better than this was to have been expected from Mr. Macdonald, and even from Mr. Oliver, but the speeches of those gentlemen show that in the consideration of a measure for the direct benefit of the country they cannot rise above party feeling. They are willing therefore to sacrifice the Provincial University to a false idea that they are in the assembly to oppose whatever Government proposals are made. At least we will presume that that is the ground on which their opposition is based, as it is the most creditable which can be surmised. Mr. Macdonald's demand is for a perfected university scheme, before the bill should pass, and for a clear indication of where the land grant of 2,000,000 acres was to be located. This is absurd. Mr. Macdonald might as well demand that the faculty should be appointed and the character of the building to be erected should be defined. The government in passing the bill this season is giving substantial recognition to the principle of a scheme which it will require time and labor adequately to work out. Nor can the Opposition with any reasonableness ask that the bill should designate the *land which is to be set aside* as an endowment. That matter is a proper one for the Government to decide later on, nor will any intelligent person seriously harbor the notion that any improper selection will be made. The Government could have no conceivable interest in selecting lands other than those that will furnish in the future a fair basis of support for such an educational institution.

The location of the university, too, is a matter for future consideration and is not one which should be made a political issue. The Opposition leader and members in resorting to such petty criticism as this of public measures abundantly justify the popular verdict given at the recent elections that they are too small to be entrusted with the reins of government. The location of the university might, perhaps, be left to a commission of men not personally interested in active politics to decide, and in any case there should be no attempt made to use the institution as a means for increasing the price of real estate. The arguments of the Opposition were not a whit better or more reasonable than those of the Socialists, and they certainly were too pitiful to deserve notice.—Vancouver Daily Province.

WHERE THE SHOE PINCHES

Price Stamped and Name Branded Shoes caught in the Rising Cost.

Even the Slater shoe dealer sometimes regrets the fact that the price of each shoe is stamped *on the genuine* Slater shoe. Prices of leather and materials advanced so during the past year that a man with a $10,000 stock of shoes bought before the rise had a stock really worth $12,000. Yet the Slater shoe had to be sold for just what it was marked. The price marked could not be erased nor changed, for the Slater Shoe Company would not permit it.

So that the rise in the cost of leather bears hardest on the price-stamped Slater shoe. The unnamed shoe can be sold for any profit which the dealer can impose, while the Slater shoe must be sold at the prices fixed by the maker.

SHIPPING CHINA TO TORONTO.

Some people might not credit that we this week sent to Toronto by express a box containing twenty pieces of expensive fancy china in Doulton, Limoges, and Wedgewood. Yet that is what we did and it is not the first shipment of such china that we have made to eastern cities. Last Christmas we sent to Winnipeg several pieces purchased for their quaintness of design and quality. Only a a few weeks ago we sent to Victoria a handsome tea service of Royal Crown Derby.
