MINING IN SOUTH EAST KOOTENAY

The Output of Silver-lead Mines Will be Increased An Abundant Supply of Water for Placer Mining.

The Sullivan Group of Mines, under the new management, has largely increased its output. The output of last week was close to 1,000 ton, an increase of about thirty per cent.

Development work is being pushed on the Midnight mine, which is an extension of the famous old North Star mine. It is reported that the Midnight will be placed on the shipping list during the coming season.

But little work is now carried on at the North Star. There is considerable ore in the mine which will be shipped during the the summer.

At the Stemwinder development work will commence as soon as the required number of miners can be secured. The average extent of the ore body, as shown by recent development, is about 100 feet of ore, having ledge matter and ore for nearly 140 feet. A shaft is down some 80 feet all in ore. The owners are having the ore tested by experts to ascertain the best mode of treatment, and there is considerable talk of a concentrator being constructed on Mark Creek, in the near future, in close proximity to the mine.

The St. Eugene mine continues productive and has large reserves of ore. The mine is now in better condition than at any previous time in its history. Recent underground work having disclosed the occurrence in the lower levels of big chutes of ore, the existence of which was not known before.

PLACER MINING.

Prospects are good for an increased yield of gold this season from the famous old placers of Wild Horse Creek. The heavy snowfall of the past winter assures an abundant supply of water for mining. The pipe lines at the Invicta will be extended, several tons of 14 inch steel pipe having been ordered.

The Nip & Tuck Company are making the necessary preparations for work. The big flumes are being cleaned, and new riffles put in, and operations will commence some time in April.

The Burrow-Larsen Company have also ordered a supply of piping, and have commenced preparatory work. It is confidently asserted that the yield of gold, this year will be largely increased, over that of last season for much of the dead work being completed, and a large and ample supply of water being assured.

Owing to the large amount of snow at Perry Creek only preparatory work is going on, but, as usual, Perry Creek will produce a considerable amount of the yellow metal this season.

Meeting of License Commissioners

A special meeting of the Board of License Commissioners was held in the court house Cranbrook Monday to consider the application of J. O'Neil for a license at the Hotel Wattsburg, at Wattsburg. After due consideration the license was granted.

On His Way Home.

Lord Charles Beresford, the English admiral, passed through Winnipeg Tuesday on his way to Ottawa and the Old Country.

In the County Court.

An important action brought on behalf of Ross Bros. & Co., mill-owners of Elkmouth, against D. J. Wilson and Thomas Wilkinson, lumberman of Burlington, Iowa, was heard by his Hon. Judge Wilson of the county court held in Cranbrook last week, the hearing extending over Friday and Saturday the 15th and 16th inst. In April of last year negotiations for the sale to the defendants Wilson & Wilkinson of the milling property and holding of Ross Bros. & Co., were entered into and as a result one of the defendants, D. J. Wilson, remained at Elkmouth in charge of the mill along with Ross Bros., who did not give up entire possession at the time. The defendants at the end of some two months refused to complete the purchase and finally withdrew, Ross Bros. resuming operations. The claim was made by Ross Bros., that the defendants should be liable for the wages of the men, amounting to over $2,500, earned during the time the defendants were in charge and suit was brought to enforce this claim. Judgment was reserved.

W. A. Macdonald, K. C. (Nelson) and W. F. Gurd appeared for the plaintiff's and M. A. Macdonald (Cranbrook) for the defendants.

"BETTER TERMS"

Before the Legislative Assembly this Week.

Members of the legislature are concerned now with the subject of better terms for the province as a result of Premier McBride placing on order the resolution relative to the subject. The preamble of the resolution outlines the course McBride pursued at the convention of provincial premiers at Ottawa in October, when he pressed for special terms on behalf of British Columbia on the ground that the mountainous character of the country made it essential to have much larger appropriations for roads and other public works.

His contention for a commission to be composed of a representative of the province, a representative of the dominion and a representative of the imperial authorities is also gone into. The offer by the premier of $100,000 a year for 10 years to British Columbia, in addition to the regular schedule of increases for all provinces, was turned down by McBride. After setting forth the proceedings at the conference, the resolution concludes with indorsing McBride's stand, and affirms the principle of a joint commission as the proper means of settling the difficulty.

The legislature on Wednesday will be asked to pass this, when a lively debate is sure to follow. Conservative members will support the resolution undoubtedly without a dissenting voice The Liberal portion may be expected to oppose it.

D. J. Johnson Gets Contract.

Tenders for the completion of the joint government and municipal building were opened on Wednesday by the Board of Works, and D. J. Johnson's tender of 18 per cent of the contract price of Kerr & Campbell of Fernie, the former contractors, was accepted. The contract price was $3,978.

Court of Revision.

Aldermen Fink, Gill, Hickenbotham and Ryan met in the council chamber on Monday last as a court of revision Owing to the absence of mayor Finlay, alderman Ryan acted as mayor. The applications for rebate were few and the taxes in a few cases changed.

Mr. White of Calgary representing the C. P. R., was present and protested against the assessment of blocks as a whole and desired that the individual lots should be mentioned An appeal for reduction of taxes on a number of lots was disallowed.

MEETING OF COUNCIL

What the City Dads are Doing to Promote the Welfare of the City.

A regular meeting of the city council was held on Wednesday evening. There were present His Worship Mayor Finlay and aldermen Fink, Ryan, Gill, McCowan and Hickenbotham.

The minutes of last meeting were read and adopted.

A communication from Barrister Eckstein of Fernie was referred to the city solicitor for attention.

The report of the chief of the fire brigade was referred to the public school trustees.

A communication from the provincial secretary was read and filed.

On motion the petition of the W. C. T. U. was referred to the police commissioners and truant officer.

Mr. George Hoggarth presented a petition on behalf of certain ratepayers, requesting that by law No. 34 be reconsidered by the electors of the city.

On motion the city clerk was instructed to call a public meeting next Tuesday evening to consider the request of ratepayers re the electric light by-law.

Tenders for the completion of the basement and foundation of the joint provincial and municipal building were read and the contract given to D. J. Johnson.

A communication from the mayor of Sandon was referred to the police commissioners.

Leave was granted to introduce by-law No. 36. By-law 36 was then read the first and second times.

On motion it was decided to fence the nuisance grounds and tenders called for the same.

Alderman Fink gave notice that he will at the next meeting of the council introduce a by-law to give certain privileges to the electric light company.

The council adjourned at 10-10.

Social Gathering

A very pleasant social gathering took place in the Sunday school room of Knox, Presbyterian church on Tuesday evening. Rev. Mr. Main, who is alive to the need of cultivating the "social gift," invited the adherents of the congregation, and especially the strangers and late arrivals to meet in the school room for the purpose of becoming the better acquainted. The ladies of the church supplied the refection which was thoroughly enjoyed by every one present. The evening passed away agreeably and all joined heartily in singing the National Anthem, after which the guests of the evening dispersed, expressing themselves well pleased with the intimation that these social gatherings would frequently take place.

A Small Blaze.

A fire alarm rung in on Friday evening brought out the Fire Brigade in quick time. The fire occurred in the restricted district, and was making rapid headway when the brigade arrived, The blaze was soon under control. The damage done to the house amounted to $400.00 and the damage to the furniture about $150.00.

Appointments.

The following gentlemen have been appointed as commissioners for taking affidavits in the supreme court, for the purpose of acting under "Provincial Election Act" in Cranbrook District:-

For educational purposes during the same year Cranbrook district received a total of $4,524.95.

For maintenance of public roads trails and bridges Cranbrook district received and expended the sum of $4,995.95.

STRIKE IN DOUBT

Committee on Wage Scale the Sticking Point.

The conference of miners and operators at Calgary met again this morning from nine to eleven, when adjournment was taken. The first point raised was the publication in the daily papers of the miner's plan of campaign, which was supposed to be a secret. The miners classed the same as untrue, but showed evidence of being greatly confused by the story. The next point was the scale presented by the operators. A motion was made to have this scale and the scale submitted by the miners, referred to a scale committee, composed of nine operators and seven miners, which is the usual manner of procedure in all conferences The miners refused to consent to this, and a deadlock almost ensued. It was only averted by the miners asking for an adjournment until tomorrow, when they will be prepared to say whether they will let the scales go to the committee or not. If they decide not to, a deadlock is said to be almost certain. After adjournment the miners held a secret session all day but refused to disclose anything of what had been decided upon.

IN PROVINCIAL LEGISLATURE

Better Terms Discussion—Concerning Better Terms.

The debate on the "better terms" resolution will take place on Friday, March 22nd, Premier McBride pointing out that he wished to add to his original resolution and asked leave of the house to do so. The leader of the opposition assented to this.

Voluminous and comprehensive returns have just been presented to the legislature by Premier McBride dealing with the question of the provinces' revisionary interests in the lands covered by Indian reserves. The position of the provincial government is crystalized and emphasized in an order in council bearing date of the 19th of March. This refers to the Dominion order in council of the 21st of September, 1906, in which the Dominion accepts surrender of the described portion of the Tsimpsean Indian reserve in order that the same may be sold to the G. T. P. railway, and recommends that a formal notice of sale be forwarded to the proper officials of the interested railway. The provincial government takes the ground that their rights in the land question having been legally surrendered by the Indians, the property becomes, by virtue of such surrender, land of the crown as represented by the government of British Columbia, and as such only to be dealt with by the government of the province.

Cory Dow is Chief.

A session of the board of police commissioners was held on Thursday to consider a number of applications for the position of chief of police. Cory Dow was appointed chief, at a salary of $100 per month, and D. McLean as constable, at a salary of $90 per month.

INDUSTRIAL COMPANY FOR CRANBROOK

Incorporated for $50,000 Will Manufacture Fire-Bricks—Sewer Pipes and Building Blocks.

Articles of incorporation were signed Thursday for the formation of the Cranbrook Fire-brick & Terra Cota Company by J. D. McBride, W. F. Gurd, J. P. Fink, Paul Handley and F. L. Byron all of this city.

The capitalization of the new company is to be $50,000 in shares of one dollar.

A carload of machinery has been ordered from Park Hill, Ont., and will soon be on its way to Cranbrook.

The incorporators after fully going into the matter, both technically and commercially, have decided that the success of the undertaking is so well assured that they will not offer any stock for public subscription, but will offer to the investing public $10,000 in first mortgage debentures bearing eight per cent interest, redeemable within five years with every likelyhood of being redeemed in the first two years These debentures will be in $50 blocks and will be offered for a short time at a discount of 25 per cent, the idea being to raise a few thousand dollars quickly in order to get to work making fire-brick as soon as possible, as the company has already in sight enough orders to keep the plant busy for nearly one year.

The fire-brick to be made will be from a novel artificial compound fully covered by patents in Canada. These patents with the big deposits of material for making bricks and sewer pipes will all be turned over to the company.

Practical demonstrations have shown that fire-bricks manufactured under these patents stand a higher degree of heat and are not affected by any change of temperature.

Ultimatum Presented

At Calgary on Wednesday afternoon the delegates from the coal miners presented their final ultimatum to the coal operators, which, if not, accepted will cause a suspension of all operations in the mines of the Crow's Nest Pass on April 1st, when the present agreement expires.

The ultimatum is that all agreements now prevailing at the various mines are to continue in their entirety as to conditions and hours of labor, but with an advance of ten per cent on the present rates of wages.

Minimum per day for outside labor is to be $2.50, with wages payable fortnightly.

The operators refuse to talk, but it is almost certain they will turn down the ultimatum and a strike will follow.

It Was Powder.

H. Deacon and H. Hall, two youths of an experimental turn of mind, found a chunk of Judson powder in the vicinity of a barn in the alley back of Hanson Avenue and concluded to see if it was powder. They applied a match, the result was a blinding flash which Deacon received full in the face, which together with his hands are badly burned. The boy, Hall, escaped with a few slight burns. Dr. Green was called to attend to the injuries of the Deacon boy.

Will go to Spokane.

S. S. Carter for a number of years district passenger agent for the Crow Line will go to Spokane as passenger agent for the Canadian Pacific and the Spokane International railways.

SATURDAY, MARCH 23, 1907.

It is time that the city council were beginning to make plans for supplying the city with a sewerage system. Warm weather will soon be the cause of much sickness. This fact must soon present itself to the city "dad's" and the sooner they give their attention to the matter the better it will be for the city.

* * *

The attention of the home seeker has been attracted to the Cranbrook district, and the people are coming to appreciate the agricultural possibilities of this section of country.

* * *

Every new industry formed is good for the district and tends to attract others to consider and secure property.

* * *

"The Gates Ajar" ought to be a popular book with the miners at Kimberley.

* * *

It would be better for the city council to think without talking, than to talk without thinking.

* * *

The common interests of our citizens is a wise and just administration of the affairs of the city.

* * *

At no time in the history of industrial developments in Southeast Kootenay has the outlook appeared more favorable than at present.

* * *

The impression has been, of a numbers of the rate payers of Cranbrook, that in asking for an electric light by-law, that the company were trying to get something for nothing from the city. All that is wanted by the company is the consent of the city to do business for a certain time without any further restrictions, or privileges than they have at the present time. The company announces that the point they are trying to arrive at, is that it is really necessary in the public interest, to increase the service, giving cheaper lights, and providing electric power during daytime. This can only be accomplished by utilizing the water of the St. Mary's river, and the expenditure of not less than $50,000. To raise this large sum, it is necessary to assure the promoters that the company will be permitted by the city to continue business on the same lines that are now granted to the company.

* * *

The expenditure of $50,000 by the Electric Light Co. and the furnishing of power and light day and night will be of great public interest, it will be the means of establishing a number of industries, using power, in our city. The matter should be freely discussed pro and con by the rate payers of Cranbrook.

* * *

Spring has come, plowing has commenced, larks and robins have arrived, ducks and geese are flying northward, and the most beautiful weather prevails in the Cranbrook district.

* * *

Cobwebs are never seen in the store that advertise.

* * *

Some one remarked the other day. "Look out for the boom in the Cranbrook district now that Cranbrook's 100 club has got down to hard work."

The Prospector.

SATURDAY, MARCH 23, 1907.

The Prospector.

Knight-errant of a century that knows no romance, the prospector hits the lone trail for the tall uncut. Razorless, he perforce must grow a beard. Persecuted by the ubiquitous mosquito, suffering all the ills of exposure and privation, he eats his dough boys, smokes his twist and is content. Impelled by an urgent faith, he perserves and fails and is forgotten, or, he finds and is famous.

Unsuccessful, he is spurned and flouted. Successful, he is fawned upon, flattered and not infrequently spoiled.

A badly regulated thirst is not unusual concomitant of the first flush of achievement. For this the one specific is a return to the bush.

But, levity apart, his country owes to the fearless, tireless prospector a surprising debt of gratitude. Were it not for his perfervid enthusiasm, Canada would not now be reaping the rich harvest of Cobalt, nor would she be taking her place among the great mineral producers of the world.

Laws are made with an eye single to the glory of greedy corporations; lobbies are vocal with the clamorings of special interests The broker, the banker, the miner and the operator howl to the legislative moon when all things do not fit their fancies.

But the prospector, unprotected, uncaring mayhap, is silent. He cannot organize, he does not strike. He dies strange deaths *in lone lands. Hymned by no* bard, unsung of poets, the prospector is girding up his loins against another season of peril and flap jacks. We wish him God-speed! Prosperity be with him! Prosit!—Exchange.

REAL SUCCESS IN LIFE.

How a Man Manages His Private Affairs, So Will He Prosper.

The most abused word in the English language is the word "bargain." Very often the word is used in the shoe trade to get rid of shoes in which the virtue has gone out of the leather. Not long since a lot of shoes which had been through both fire and water were sold as "bargains." Soak a pair of shoes in water, then bake them in the oven, and see how the leather breaks to pieces

Success in business means judgement in buying. The failures are caused by bad judgment. Success in life follows good judgment in not wasting money. You will see that every successful man buys boots and clothing of standard known value, steering clear of so-called bargains. The man who buys a Slater shoe knows that he is getting better value than when he buys cheap shoes. The Slater stamped price is cheaper than the unknown shoe reduced from a price originally put upon it by the dealer. The Slater Shoe Company makes the shoe, and makes the price, too.

The man who went out to milk and sat down on a boulder in the middle of the pasture and waited for the cow to back up, was a brother to the man who kept a store and wouldn't advertise because he reasoned that the purchasing public would back up to his place of business, when it wanted something.

"The Housecleaning Season"

Is now on and with it comes the usual fuss and worry. In olden times house-cleaning was looked forward to with reluctance and dread but science has made such "wonderful discoveries" in recent years in "Labor and saving preparation that it is no longer a dreaded necessity but a pleasure. Every housekeeper who avails herself of the up to date methods which are now being adopted knows this to be correct.

Probably you are not familiar with all the New cleaning preparations that are on the market so we will mention a few of the "Best Ones."

"Buffalo Klenzo" an oil preparation, the cheapest and most economical dirt and grease remover known to science.

Makes hard water soft and will do cleaning that an ordinary soap will not touch.

3 POUND CAN 50 CENTS.

KLENZINE.

This is ammonia in powder form and is used for all domestic purposes. It is excellent for the laundry and bath and will remove all smutty and greasy substances that corrode your kitchen utensels.

It will go four time as far as liquid ammonia and is much nicer to use.

2 Pound Package 20 cents.

"Robinson Magic Washing Compound" is a boom to womanhood. Woolens washed with this preparation will not shrink or turn their color but will be made soft and appear like new.

35 Cent Packages.

In addition to the above we have a number of other good cleaners which will be found of great assistance all through the house at any time of the year.

"Diamond Dust" for cleaning silver and metal of all kinds.
