Vol. 15. CRANBROOK, B.C., SATURDAY, SEPTEMBER 25, 1909. No. 39

TIMBER SUPPLY

Is Receiving More Serious Attention.

PROTECTION IS NEEDED

B. C. Should Have Policy to Restore Season's Growth.

With each passing year the possibility of exhausting the world's timber supply and the need of efficient protective measures are receiving more serious attention. A circular issued by the United States forest service gives some facts that should be considered by those responsible for the administration of forest wealth. According to this circular the total yearly drain on American forests, not counting losses from fires, storms, and insects, is some 20,000,000,000 cubic feet. The present forest area of 550,000,000 acres is roughly estimated to consist of 200,000,000 acres of mature forests, in which the annual growth is balanced by death and decay, of 250,000,000 acres partially cut or burned over, on which, with reasonable care, there is sufficient young growth to produce in the course of time a merchantable but not a full crop of timber, and 100,000,000 acres of more severely cut and burned-over forests, on which there is not sufficient young growth to produce another crop of much value. Taken as a whole, the annual growth under these conditions does not exceed twelve cubic feet per acre, a total of less than 7,000,000,000 cubic feet. The forests are being cut three times as fast as they are growing. There is a menace in the continuance of such conditions. The country may never reach absolute timber exhaustion, but the unrestricted exploitation of forests in the past has already had serious effects, and it will have much worse if it is allowed to continue unchecked. White pine, for instance, which was once considered inexhaustable has fallen off 70 per cent. in cut since 1890 and more than 45 per cent. since 1900. The cut of oak, a most valuable hardwood lumber, has decreased 16 per cent. since 1900, and that of yellow poplar 22 per cent. The same results will follow in other woods if they are not conserved.

In commenting on these statistics the Engineering News points out that timber has been cheap and abundant and the people have become careless of its production and reckless in its use. They take 250 cubic feet of wood per capita annually from the forests, while Germany uses only 37 cubic feet, and France but 25. On the other hand, Germany makes her State forests produce an average of 48 cubic feet of wood per acre. This continent has as fast-growing species as Germany and as good or better forest soil. The necessity for more farm land may eventually reduce the total forest area to 100,000,000 acres less than it is at present. It is entirely possible, however, to produce on 450,000,000 acres as much wood as a population much greater than that of the United States will really need if all the forest land is brought to its highest producing capacity and if the product is economically and completely utilized. To reach the necessary condition of equilibrium between timber production and consumption will take many years of vigorous effort. We need not look to individual effort for forest cultivation. Personal enterprise demands more prompt results. It is a misfortune that a similar attitude is sometimes manifested by Governments. British Columbia should now have a policy that would restore by growth each season's destruction. But trees have no votes, and the statesmanship that looks farther than that is not always manifest.

FORESTRY COMMISSION

Continued from Last Week.

J. F. ARMSTRONG.

J. F. Armstrong, Government Agent stated that in his opinion the new regulations made at the last session of the Legislature were a decided improvement but that there was still great need for further action. He made several suggestions for the consideration of the Commissioners.

Mayor Fink of Cranbrook appeared before the Commissioners and brought in a *resolution passed at the* annual meeting of the British Columbia Fire Chiefs, which urged the government to refuse to grant settlers permits to burn clearings during the dry months, and recommending that more stringent penalties be enforced for any infraction of the Bush Fire Act—Fines do not seem to be a sufficiently effective determent, therefore, people guilty of starting fires should be imprisoned. Mr. Fink pointed out that the City of Cranbrook had several times been threatened by forest fires.

OTIS STAPLES.

Otis Staples of the Staples Lumber Company was examined at great length and his testimony was a strong corroboration of the statement of Mr. Leitch and other lumbermen in respect to the necessity for more stability of titles for the timber held under special licence. Mr. Staples gave much valuable information regarding market conditions, future prospects, and the general situation in the interior of the province.

He demonstrated that in the success of the lumber industry every citizen of British Columbia should be directed with the view to fostering and establishing it upon a sound stable foundation. British Columbia mills have very keen competition in their natural market, and the constantly increasing production of spruce and pine lumber in Alberta, Saskatchewan and Manitoba is owing to its proximity to the market and very low freight rates, largely displacing our lumber in a very considerable portion of the northwest. Mr. Staples was particularly emphatic upon the subject of fire protection and declared that if intelligent measures are adopted to prevent fires there should be possible the ensuing of a perpetual timber supply in British Columbia. Cut over limits rapidly reforest provided the young growth is protected and fire kept out.

PETER LUND.

Peter Lund, managing director of the Crow's Nest Pass Lumber Co., Ltd., was another most convincing witness whose evidence fully bore out and confirmed the former statements of those lumbermen who had preceded him on the witness stand. He contended that having the timber of the country in the hands of individuals instead of being a matter of alarm was a distinct advantage to the country. The co-operation of the timber holders could be definately assured by the perfecting of their titles so that there may be confidence and not doubt to the right of special licences. In reserving the right to advance the royalties, the government have in their hands the power of fully protecting the rights of the public, but it is absolutely essential that provision be made for making licences renewable so long as merchantable timber shall remain on the ground, and that rental shall be fixed. No objection could be raised if the Government reserve the privilege of ordering timber holders to remove the timber on any lands suitable for agriculture, should they be required for settlement. The present rental, Mr. Lund considered too high in comparison with those in effect at the coast, and recommended a re-adjustment on a more equitable basis. Present rentals for the very light stand of interior timber are exorbitant, and should be reduced. The timber of the district does not average 5,000 feet per acre as against about 25,000 at the coast. Mr. Lund's evidence was a good illustration of the fact that lumbermen generally are actuated not only by the desire to have their own position improved but are able to look at this problem from the stand-point of the best interests of the whole people of British Columbia, and he showed conclusively that the Province has everything to gain by granting the petition of the lumbermen. In the matter of fire protection Mr. Lund was decidedly of the opinion that the Government should adopt a more efficient system of fire prevention, and he pointed out that the interest and support of the lumbermen was assured in the future as shown by their consistent attitude on this question in the past Mr. Lund thinks that all people should be taxed to pay per rata as it is in the interests of the whole population that the timber resources of the country should be preserved.

C. M. EDWARDS.

C. M. Edwards, said, he had travelled in the far north, in the district of the Upper Fraser river, that it is thickly timbered with heavy under-growth, and that during the construction of the projected railroads there will be a great danger of destruction by fire, that it might be worth special legislation for protection from fires.

Mr. CHUDLEIGH

Mr. Chudleigh, acting superintendent of the C. P. R., said, the Railway Company has the standard guage for screens as laid down by the Railway Commission. Did not think that engines made so many fires as they got credit for; did not think it practicable for railway companies to clear their right of way entirely as provided by the Acts of Parliament; but that the company did the best they could. Section men are told to put out any fires they see. That patrols with small cars would be practicable but very expensive. That sparks from engines only start fires in grass, do not start fires in logs and brush.

Mr. PIERCE.

Mr. Pierce, said that every effort is made by railway companies to comply with the regulations according to the Act. The right of way he admitted was not cleaned up any better than the law required. A good deal of brush and logs are lying on the right of way that were felled by loggers and left there, but could not tell the exact locality. That whatever extra cost is imposed on railway companies in the matter of fire protection will eventually come out of the shippers in the way of extra charges for transportation.

Mr. FORD.

Mr. Ford, Foreman Mechanic C. P. R., stated that the size of the mash of the screen was ¼ 64-100, and does not claim that engines do not throw sparks.

In reply to question by Chief Commissioner, said, "Sometimes hammers are used to clean the netting and in consequence is broken, that screens have been removed in making experiments in making a heavy upgrade.

E. MALLANDAINE.

Mr. E. Mallandaine, Chief Timber Ranger, C. P. R., said, "he has appointed fire wardens for East and West Kootenay with instructions to put out incipient fires, that the cost this year has been $4,000. Has had difficulty in getting men enough to fight the fires, has great assistance from the lumbermen in fighting fires, finds most of the fires occur along the railway tracks. That he has 5,547,538 acres under his charge, part of which is sold, we fight fires on any man's land, it makes no difference in that respect whether C. P. R. railway lands or not.

ONE DAY'S REST IN SEVEN

Discussed Friday Evening at the Baptist Church.

BY T. ALBERT MOORE

General Secretary of the Lord's Day Alliance—Convincing Talk.

The union meeting of Friday the 17th, held in the Baptist Church in the interest of a more universal observance of a regular one-rest-day in every seven was a gratifying success, from more than one standpoint. Rev. C. O. Main opened the meeting with devotional exercises, in which the audience joined heartily. Mr. J. F. Smith was the chairman of the evening, and the Choir of the Baptist Church assisted in the song part of the programme, rendering an excellent anthem. The speaker of the evening was Mr. T. Albert Moore, general secretary of the Dominion Lord's Day Alliance. His address was a most eloquent and convincing appeal to the reason and sympathies of people on a subject of vital interest to our community and Province. The response of the audience was marked, not only in the generous offering made at the close, but during the address.

A nominating committee, consisting of Messrs. McKinnon, Patmore and Ferguson, appointed early in the evening, reported later on the new officers for the local Alliance executive, resulting in the following appointments by the meeting: Dr. E. W. Connolly, president; Revd's C. O. Main, E. P. Flewelling, R. Hughes and Charles King, vice-presidents; Mr. James Fingal Smith, secretary-treasurer; and the following with these to compose the executive committee: Messrs B. H. Short, J. F. Armstrong, R. A. Racklyeft and D. J. Johnson.

CORRECTED IMPRESSIONS

"I wish to correct one or two false impressions," Mr. Moore remarked in the beginning of his address, "The Alliance was not an organization to force upon the people any particular form of Sabbath observance, as some had reported; but simply to secure for all people one day in seven for rest, leaving to the people themselves, as to how they would spend the day, so long as they did not interfere with the lawful rest of others." "He believed the day should be the gladdest, happiest and most restful and helpful of all the seven, enhancing the value and the pleasure of the whole week. "This is what our Country's law stands for; and this is what we are for, for every class of people, rich and poor, he affirmed." "The Lord's Day Act has some weaknesses; but they are not on the side of a somber Sabbath." he added, both the Presidents of the French Nation and of the United States had, in almost the same words, declared that they regarded the Canadian Sabbath Law as the best in the world. President Roosevelt had said in his hearing on a convention platform before 10,000 people, "I wish we had such an organization as the Canadian Lord's Day Alliance in the United States. The Canadian law, on the one hand, safeguards the rights of every individual in one-day-of-rest in seven; and on the other hand of all corporations in works of necessity."

SPLENDID RESULTS

In the last two years, since the enactment of the new seventh day rest law, more than 85,000 people had been released from Sunday toil. This included 30,000 railway men and 5,000 lumbermen. Vancouver, and many other places in British Columbia are enforcing the rest day, and effectively. Dawson City and other sections of the Yukon have quit Sunday selling and mining. These and a host of prairie farmers could not be paid to return to the old seven-days-in-the-week work. Eighty per cent of the American and other Sunday Yellow Journalism has been cut out by this law and it is a good riddance. One of our big railways has been fined $200 for forcing its men to do a certain class of unnecessary Sunday work. They promptly discontinued this injustice to its employees; and the other of our two chief railway concerns at once did the same for its men. With so many under the employ and command of large and conscienceless corporations with the great handicap to the home and community of a Sabbath desecration and of a seven-day rest-in-the-week-toil, no community can afford to allow the Lord's Day Act to be ignored. These and other interesting facts were enlarged upon by the speaker, who illustrated his points and confirmed his statements in a most effective and sometimes humorous way.

After a few remarks by Revd's. Hughes and King and a hearty vote of thanks to Mr. Moore, the meeting closed with the benediction.

THE TOP OF THE EARTH

A Cranbrook Expedition Just Returned From Somewhere.

Baker Hill, near Mt. Fisher (via wireless) Sept. 21st.—The Baracan Polar expedition of Cranbrook, B. C. have just returned from an interesting evening on "The Ice of the Earth". Repairs were on at the Norbury Station; but the party, equipped with a few Buckeye Mirroscope-Stereoptican observation instruments, finally got under way and into interesting regions. The route, somewhat circuituous, was via San Salvador, Washington, Niagara, Old Fort Gary, The Rockies and up by the way of Hudson Bay to the Artic Circle. Polar transportation, ice fields, floes, bergs, Eskino and negro, etc., were studied with considerable interest and scientific observations were made for the benefit of future exploits.

With the aid of the electric search light, from the Cranbrook Power House, a view of the coveted Nort Pole was obtained about ten o'clock by the German chronometer, when that man, Uncle Sam, was discovered there at his old annexation business. His colors were "nailed" and the party could clearly see him with his right arm around this ancient land-mark of No Man's Country in the act of walking off with it. To the delight, however, of the Canadians this act of piracy was brought to a sudden halt by Sir Gilbert Parker's chain to which was attached the explanatory "anchored to Ottawa." Uncle Sam on this, appeared from another view to move off quickly as if on thin ice from the imbroglio over the Cook vs Peary problem. On arrival at the pole it was noted, according to Commander Peary's soundings, (the more reliable,) that the terra firma of this Pole was a mile and a quarter or more directly below where the party stood. No one ventured the terrible descent.

There were no serious accidents, but one of the party, a hard worker, showed early symptoms of the dread arctic frost-sleep. Vigorous treatment was promptly resorted to. Another of the expedition, like Capt. Bartlett, returned before reaching the "prize of three centuries." All had *their "sensations that made* sleep impossible for hours." Two intrepid spirits of the gentler sex, the wife of the leader and her sister, with a remarkable small boy, born south of the 88 parallel accompanied the party and had charge of one of the instruments. No other kind of spirits were allowed, this expedition being *right up-to-date.* There was the sensation of cold; but, on the return, arriving at our last igloos (a wellknown grub shack which had slipped from its old position) the Baracans set no more holes in their belts, but warmed up with a kind of hot "cocoa", chocolate fudge, brown bread and yellow butter, and a final *scientific observation* with some discussion. After this, there being no serious entanglements to negotiate, the party struck the right trail and made a dash for home at a good pace.

WILL RUN AGAIN

W. R. Ross Interviewed Concerning Comiag Election.

A rumor to the effect that W. R. Ross, M. P. P., would not contest this riding in the coming election caused a "Free Press" representative to call on our local member yesterday. Mr. Ross was very busy preparing for his trip to Victoria, but made the following statement in response to the rumor.

"You may say for me that I expect the question of who will be selected as the Governments candidate in the ensuing election whenever it is to take place, will be settled in the usual way, namely by a properly Constituted Nominating Convention.

For myself I may say that if I am again honored with the nomination by such a convention, I shall be pleased to accept the same, and moreover I have every reason to believe I can carry the election to a successful result. At any rate I will do my best as I have always done in the past.— Fernie Free Press.

Boys Brigade

The Boys Brigade will meet again as soon as the Gymnasium is vacated by the School authorities, and the winter schedule of the Gymnasium *is also being* prepared. Some good basket ball teams are expected to play this winter, and all who are lovers of this excellent and healthful sport should make application for a place in the teams. It is hoped that the Athletes, the Maple Leaves and the Banks will put their respective teams on the floor, and it is hoped the C. P. R., and the Firemen will also be represented. The authorities are hoping to have things in shape soon, a good ventilator has been cut in the roof which will be greatly appreciated by the players, other additions for the comfort of the Boys are being considered.

Mr. James Breechen will be glad *to hear of any prospective players.*

Ewing Connolly

The marriage of Miss Ethel Connolly, a well known resident of the city, and a prominent worker in the Methodist Church, to the Rev. H. P. Ewing, B. D., of Rossland, took place on Wednesday morning at the residence of her brother at 9-30. A few intimate friends attended the ceremony. The witnesses signing the certificate being E. W. Connolly, M. D., and Mr. Hobart E. Connolly; Rev. R. Hughes officiating.

The happy couple left on the west bound express for their Rossland home amid the good wishes of a large number who had assembled to see them off. On Sunday last, Mrs. Ewing was presented with a handsome clock by the members of the choir of which she has been the successful leader for some time.

Royal Wedding

Lisbon, Sept. 12.—King Manuel will leave Portugal for England, where he is to visit King Edward Nov., 20. He will stop four days in Madrid to return the visit of King Alfonso.

It is generally understood that the King's betrothal to the daughter of the duke of Fife will be announced from Windsor Castle and that King Edward will confer the order of the garter upon King Manuel in honor of the engagement.

YELLOW LABOR IS WANTED

On Mountain Section of the G. T. P.

CLAIMS MR. SCHRIEBER

White Men Say the Work is too Hard—Other Work Completed.

Ottawa, Sept. 22.—A development of the last week has been a demand by the Grand Trunk Pacific for the privilege of using Oriental labor on its Mountain Section through British Columbia. The demand first came through Mr. Collingwood Schrieber, Government consulting engineer for the G. T. P., an old and confidential officer of the Government. He gave an interview this week in which he said: "The mountain section of the Grand Trunk Pacific Railway will never be built, at leas not until you are gray-headed, unless the contractors are allowed to get in other than white labor.

"The conditions in British Columbia as regards labor are particularly bad." continued Mr. Schrieber. "There seems to be some white men walking about the streets of the town but they will not go on railway construction work. They say that it is too hard. of course it is not as agreeable as city life, but if white men will not do it some one else will have to, as the work must be done. At present there are graded the first hundred miles from the Pacific west. The rails are arriving for this section now. The contractors for the first sections are Foley, Welch and Stewart, a first-class firm. They have only been able to get a couple of thousand men for the work so far, and they have obtained them only by payment of three dollars a day and board. This is more than contractors can afford to pay for navy work. There are still four contracts to be let for mountain work and in the course of the next two years there should be at least twenty-five thousand men on the work. With all the men required it would take four years to complete the mountain section from Wolfe Creek to Prince Rupert. Under the conditions of labor now existing in British Columbia goodness only knows how long it will take to complete the line."

Could not white men be brought in to do the work? was asked."

"They could, and they have been, but after arriving they leave the work and leave the company out of pocket for the cost of their passage money.",

Mr. Schrieber added that on the prairies the demand for laborers by farmers has temporarily demoralized the construction gangs. The farmers are paying three and a half dollars a day for men, the railway contractors cannot hold them. However, this is only temporary condition.

Immediately after the foregoing interview had appeared in Liberal newspapers Sir Charles Rivers-Wilson and Mr. Hays unexpectedly visited Ottawa and had a conference with Sir Wilfrid Laurier. The impression in the city, among Liberals as well as Conservatives, was that part of their business was to press the request to which Mr. Schrieber had already given the seal of his approval. Indeed, Mr. Hays all but admitted it.

On reaching Montreal Sir Charles Rivers-Wilson paid his compliments to the Government for the botch it has made of the stretch of the Transcontinental from Winnipeg to Superior Junction, the district where Major Hodgins charged graft prevailed. After speaking enthusiastically of the G. T. P., line west of Winnipeg he went on: "There is only one bitter taste left in my mouth," continued Sir Charles, "and that is the condition of the portion of the road which is under Government contract, east of Winnipeg to Superior Junction. On our side we have built a magnificaent road from Winnipeg west to Edmonton, and have also constructed the necessary line from the head of the Great Lakes to Superior Junction where the G. T. P., joins the National Transcontinental and a magnificent road it is.

Census and Politics.

Ottawa, Sept. 22.—We in Canada are in the habitsaying that we manage public business superior to that in vogue in the United States. We hear a great deal about the spoils system, and it is assumed that we are free from that evil. What we do not hear of so much is the steady advance of Civil Service reform *among our neighbors.* A while ago the Canadian Government, twenty years behind that of the United States, applied a measure of Civil Service Reform to the inside service, i.e., to a portion of that body of Civil servants which is maintained in Ottawa. The outside service it has steadfastly refused to subject to *this reform. Census employment* belongs to the class as belonging to the outside service; probably the greater number of them will be employed throughout the country as enumerators and other field workers, and the employment of most of those who will work at the Capital will be of a temporary nature. The United *States will take its census in* 1910. Canada will take her sus in 1911. The United States Government has taken steps to place the 7,000 temporary clerks who will be appointed in the Census Bureau under the system of competitive examinations: and as for the field staff. President Taft has issued a peremptory order to the Cabinet Minister responsible that these men are not to take any part in politics, under pain of summary dismissal. The United States census of 1910 will be conducted as a scientific operation and will be kept as far away from party politics as the Civil Service Commission and a very powerful President can manage between them.

President of C. P. R.

A distinguishe party of C. P. R. officials headed by Sir Thomas Shaughnessy, the president, are expected to arrive at Cranbrook to-morrow. The party consists of William Whyte, second vice presihent of the corporation, R. B. Angus of Montreal, and E. B. Osler of Toronto, both directors of *the company.*

Sir Thomas Shaughnessy is on his annual tour of inspection throughout the entire C. P. R., system.

A deputation from the Cranbrook Board of Trade will meet and hold a conference with Sir Thomas.

Current Comment

Toronto News: Lord Strathcona can remember when Calgary was called whiskey point.—By Edmonton people no doubt.

Toronto Telegram: Guelph complains that it has been getting too much water in its whiskey, when it *prefers too much whiskey in its* water.

Chicago News: Canada is claiming all the land this side of the pole that Peary and Cook stubbed their frozen toes against on their way north, and if has borrowed warships to substantiate its claims

Presbyterian Church

At 11 o'clock, Children's service. This is Children's Day among the Presbyterians throughout Canada, and parents are urged to plan to have all the children present at the service.

A beautifully printed responsive service has been prepared by the committee in which all take part. The subjects of two short addresses are, "What the Bible has done for us," "And what use we are making of the Bible.

At 3 p. m., Sunday School and Bible class.

At 7-30, Regular evening service.

All are welcome.

C. O. Main, pastor.

Masonic Temple

Construction work will commence on the new Masonic Temple next week. Contractor D. J. Johnson has the contract. The estimated cost of the new Masonic home is *$10,000.* When completed it will be the finest, and most modern lodge building between Vancouver and Winnipeg.

The Grand Lodge of British Columbia will hold its next regular convention in Cranbrook.

Baptist Church.

The morning service at the Baptist Church will be of special interest to parents and school workers. Subject of sermon, "The Path-Finder". At the evening service Pastor King will take for his subject "The Make-up of a Man." A special invitation is extended to all young people.

HOLMES—MACDONALD.

On September 22nd. at Brussels, Ont., Mr. A. B. Macdonald, of Cranbrook, was united in marriage to Miss Kathleen L. Holmes of Brussels The newly married couple will make their home in Cranbrook.

Farmers' Institute

The Fall Meeting of the Farmer's Institute was held at the Government building Friday evening. Mr. Brice Wright, of Wintor, Alta., lectured on live stock.

Additional Locals.

Dr. Connolly, of Pinto, Sask., was in the city this week.

Mr. and Mrs. A. L. McDermott, were at Spokane this week.

Mrs. D. J. McLennan was visiting friends at Fort William this week.

Mr. and Mrs. W. Oliver, of New Westminster, were in the city Friday.

F. W. Godfrey, of Victoria, M. P. DeWolf, of Bonners Ferry, was in the city Friday.

Grant Boulangee, of Stettler, Alta., was in town this week on business.

Prof. H. C. Salmon, was at Spokane this week taking in the big Exposition.

Mr. and Mrs. A. Taylor were at Spokane this week attending the big exhibition.

Contractors Geo. R. Leask & Co., commenced work on the new Imperial Bank building this week.

It is rumored that the City will take over the plant of the Water Supply Company on the first of October.

Rebekah Lodge celebrated its fifth anniversary on Wednesday evening. A sumptuous repast was prepared by the ladies.

Mr and Mrs. D. B. Dalmage left Thursday for Winnipeg, where Mr. Dalmage will engage in the real estate business.

Died— The little daughter of Mr and Mrs. J. J. McDonald, on Wednesday. The funeral took place Friday from St. Mary's Church.

The City water engineer has received another supply of 18 inch pipe, and the connections with the town mains will be made shortly.

The wives, sisters and daughters of the Locomotive Engineers of Cranbrook will form an auxiliary Association as soon as the organizer arrives.

QUEBEC AND THE CENSUS

Brings Forth some Curious Results.

QUEBEC IS STANDARD

From Which Representation in Other Provinces is Obtained.

Ottawa, Sept. 22.—One's confidence in the impartiality of the last Canadian census is rather shaken by some considerations brought forward by the Ottawa Citizen. That Journal has been examining the returns off the last general election and arrives at some curious results. Everyone knows that after each census the representation in Parliament is re-arranged, Quebec being the standard the population of Quebec is divided by sixty-five and the resulting figures is the unit of representation by which the voting strength of the other Provinces in Parliament is decided. Quebec being the source of strength of the Liberal Government, it becomes the object of that Government to get the last ounce of value out of the voting strength of that Province. It has been the standing charge ever since the taking of the last census that the pains taken to cause Quebec to make a good showing *in the matter of population* compared in a remarkable manner with the much more moderate zeal shown elsewhere. It is difficult of course to produce absolute proof in matters of that sort, but the figures adduced by the Citizen can only be regarded as confirmatory of the suspicion.

A total vote of 281,232 in Quebec returned 64 members to Parliament. In Ontario a total vote of 462,560 returned only 85 members. In Nova Scotia a vote of over 111,000 was required to secure a representation of 18 members, while not a great deal more than twice that number in Quebec returned over four times as many members. Thus the average number of votes per member stands approximately thus:—

Quebec, 4,400; Ontario, 5,440; Nova Scotia, 5,400; New Brunswick, 5,800; Prince Edward Island, 5,120; Manitoba, 6,800; British Columbia, 5,340; Alberta, 6,560; Saskatchewan 6,000.

It should be stated that the proportion of voters who went to the polls seems to be as high in Quebec as Ontario, so that this singular discrepancy cannot be explained away by the theory that the French Canadians do not go to the polls as freely as their English speaking fellow Canadians.

Other curious figures brought out by the Citizen show that Winnipeg polled 17,453 votes and has one member in the House of Commons, as compared with the vote of 1,831 in Soulanges; that Halifax with a population fifteen times larger than Soulanges had only two members and the largest vote polled in any Quebec constituency was slightly over 10,000. The smallest and practically the only small vote cast in any Ontario constituency was over 2,700, or one-third greater than Soulanges. In the matter of area we find large tracts in northern Ontario, such as Nipissing, being accorded only one member for over 8,500 votes cast.

Masons 7,000 Feet Above Earth

Chicago, Sept. 17.—Aerial Lodge No. 1, A. F. and A. M., was formed in the balloon Massachusetts at an elevation of more than 7,000 feet, this being the first meeting of the kind ever held, says a Greenfield, Mass., dispatch to the Tribune.

The lodge was conducted with all the Masonic observances possible under the conditions. J. J. Van Alkenburg of South Framingham was worshipful master, Jabez Benton of Winchester was senior warden and Charles J. Gliden was junior warden.

The balloon started from the grounds of the Aero club of New England at Pittsfield in an attempt at a height record, but the atmospheric conditions were not suitable and the balloon got into a "pocket" of clouds. At the highest point recorded by the barograph, 7,200 feet, in the midst of the dense clouds, the Masonic ceremony took place.

Automobile Militia

Ottawa, Sept. 22.—Arrangements are under way for the formation of an automobile corps in connection with the Ottawa militia. It is said that upwards of 100 automobiles will be available to assist in field manoeuvers here on Thanksgiving Day and it is expected that a trial will be made of the practicability in transporting troops, carrying supplies, keeping up lines of communication, etc. If the experiments prove satisfactory here, the military department may encourage the formation of similar corps in other cities.

Wright Makes New Record

Berlin, Sept. 18.—Orville Wright made a new record today at Templehof field for sustained aeroplane flight with one passenger. He remained in the air 1 hour and 35 minutes, carrying Captain Englehardt. He broke his record made July 27 when he stayed up with a passenger for 1 hour and 12 minutes.

Mr and Mrs. W. A. Sullivan, of Lethbridge, were Cranbrook visitors Friday.

Cranbrook Livery

We ask you to call and try our new Consignment of new and Up-to-date rigs for Winter and Summer. Just received Toppir and Reliable Horses at your disposal. Give them a trial and be convinced.

ESTABLISHED 1896

A. B. Grace,

PUBLISHER AND EDITOR.

The *most* charitable construction that can be put upon Peary is that the loneliness and dangers he encountered at the pole have affected his ego. For downright boorishness and bumptuous egotism his equal has not *before been in evidence on* this continent. Why could he not have let all the facts in connection with Dr. Cook's discovery have been properly presented and weighed by competent authorities before he began to hurl *epithets and give the lie?* As it now stands Dr. Cook has the sympathy of the under dog. If he can establish his claims that he reached the pole a year before Peary did the latter will have only enhanced Cook's *achievement by the bitterness with* which he has assailed him.

If Cook did not reach the pole his claims will be his own condemnation. Cook's claims, if untrue, would have enhanced Peary's achievement while *Peary has succeeded only in making* a cheap brawler of himself at the best. His voiciferousness leads to the belief that he himself is afraid of Cook's success. It is probable that both have reached the pole. If that *is demonstrated the luster of Peary's* achievement will have been dimmed for all time by his unseemly attitude and language, both of which were entirely un-necessary whether Cook is telling the truth or not.

*It is deplorable that such an ex*ploit as the discovery of the North Pole should have been marked by such impetuous and foolish denunciation as has been given to the world by Commander Peary.

• • • •

Lumbermen contend that railways operating in the timbered areas of the state are not using all possible caution to prevent forest fires. The law requies all locomotives to be *equipped with spark arresters* and it is said that this requirement is not generally observed. But better still, the timbermen say, it would be if the railways could be induced to use oil as a fuel. Then there would be *no sparks to set fire to timber* adjoining to right-of-ways. Campers who fail to put out their fires are also the cause of many forest fires. Losses this year have been heavy, despite the activity of the Washing*ton Forest Fire Association; but the* campaign is beginning to make headway.—Bonners Ferry Herald.

• • • •

It will be put down to the credit of 1909 that in that year the wireless *on a sinking ship first summoned aid* from ships below the horizon; that the four-day trans-Atalantic boat became a fact, that Shackelton carried the British flag to within 111 miles of the South pole, or 340 miles farther than any predecessor; that Cook and Peary announced their discoveries of the north pole, and that man made practical conquest of aerial navigation, an uninterrupted flight of 117 miles at 36 miles an hour being achieved in a heavier-than-air machine.

• • • •

Honesty is the best policy. As Dr. Cook is not a member of the Army and Navy Union, and not an officer, *but only a professional gentleman*, it may be all right to throw "gold bricks" at him. It is dollars to cents that the Doctor will make good and show the world, and Mister Peary that he was the first man at *the pole.*

• • • •

It is not difficult to understand how Peary attained to the pole, provided he knew that Cook was going to claim he got there first. Such un*sportsmanlike conduct* would have a tendency to make a man hot, so the frigidity of the pole would not have much effect.

• • • •

Voters should remember than an election will soon take place and that it is absolutely necessary to know that your name is on the list in order to have a vote. See to this important matter at once.

What Our Trade-Mark Means to You

IT means that the flour contained in bags and barrels so trade-marked is decidedly whiter, a great deal stronger and more nutritious than other flours.

It means that the flour has been properly aged to mature its full strength.

It means

"More bread and better Bread"

and better pastry, too.

It means elimination of uncertainty—"your money back" if Purity fails to give entire satisfaction.

Costs more than the other kind, but worth the difference.

A Poor Weak Woman

As she is termed, will endure bravely and patiently *agonies which a strong man would* give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice *free of charge* and in *absolute confidence* and privacy by writing to *the World's Dispensary Medical Association*, R. V. Pierce M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are *world-famous for their astonishing efficacy.*

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription.

IT MAKES WEAK WOMEN STRONG.
SICK WOMEN WELL.

The many and varied symptoms of woman's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (1008 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed free on receipt of 50 one-cent stamps to pay cost of mailing only. Address as above.

PETITION FOR EXPROPRIATION OF WATER RECORDS.

To His Honour,

The Lieutenant Governor in Council

The petition of the Municipal Corporation of the City of Cranbrook humbly showeth:

Whereas the Water Supply Company, Limited, was on the 12th day of March, 1904, duly incorporated under the provisions of the Water Clauses Consolidation Act 1897, for the following amongst other objects:

To construct and operate a water works system for the supplying of the town of Cranbrook in the province of British Columbia, and the locality adjacent thereto, and the inhabitants thereof, with water.

And whereas the said Company on the 12th day of July, 1904, under the provisions of the Water Clauses Consolidation Act 1897, obtained a certificate from the Honourable Mr. Justice Irving, pursuant to section 55 of the said act,

And whereas the said Water Supply Company, Limited, pursuant to their charter of incorporation and the said certificate, have constructed and maintained works for the supplying of water to the inhabitants of the City of Cranbrook and vicinity, and are now operating the same.

And whereas on the 10th day of October, 1904, the Company obtained a record of one hundred inches from the waters of Joseph Prairie Creek to be used in the supplying of water to the inhabitants of Cranbrook and the vicinity thereof.

And whereas negotiations are now pending between the city and the Company for the sale by the Company to the City of the Company's licence, works and lands, including the said water record.

And whereas the available amount of water in Joseph Prairie Creek is approximately 1000 inches.

And whereas the existing records on Joseph Prairie Creek are as follows:—

John Shaw, record dated 4th December, 1868, transferred and assigned to Leon Fouquet, 150 inches

J. T. Galbraith, record dated the 23rd day of May, 1872 300 inches

J. T. Galbraith, record for milling purposes dated January 7th, 1874, 500 inches

James Baker, record dated March 1st, 1886 500 inches

B. C. Southern Railway Company, record dated the 16th day of February, 1899 20 inches

J. W. Robinson, record dated the 17th day of September, 1900, 500 inches

Wm. McKenzie, record dated 2nd day of December, 1899, 20 inches

Malcolm B. Heath, record dated 16th day of October, 1900 100 inches

Water Supply Co., Ltd., record dated the 10th day of October, 1904, 100 inches

Malcolm Horie, record dated the 3rd day of January, 1908 175 inches

Erastus Liezert, record dated the 21st day of September, 1908 100 inches

And whereas the record of John T. Galbraith for milling purposes dated January 7th, 1874, is as follows:—

Water record in favor of John T. Galbraith, the right to 500 inches of water to be used for milling purposes to be taken out of Joseph Prairie Creek about 1000 feet above the Custom House and conducted in a ditch or flume to the sawmill on John T. Galbraith's property and to be returned to Joseph Prairie Creek at about 600 feet below the Custom House.

And whereas the record of James Baker, dated the 1st of March, 1886, is as follows:—

1886, 1st of March. Water record of James Baker. Joseph Prairie Creek record in favor of James Baker, the right to divert not exceeding 500 inches of water from Joseph Prairie Creek to be taken from two points on said Creek above Munroe's cabin, for agricultural purposes for a term of ninety-nine years.

And whereas the City are desirous of expropriating 500 inches from the said records and to acquire a licence in respect thereof to be used for municipal purposes only, under the provisions of the Water Act 1909.

And whereas the holder of the milling record of John T. Galbraith has not for a period of fifteen years made use of the said record or water thereby granted.

And whereas the said John T. Galbraith or his assigns have no works in connection with the same.

And whereas the holder of the record of James Baker dated 1st March, 1886, has not made use of the same nor constructed any works in connection with the same.

And whereas the lands upon which such records were to be used, being the lands owned by the said John T. Galbraith and James Baker on the dates respectively of their water rights, and which are affected or capable of being irrigated by said water re lots 4, 5, 22, 29, 35, 25, 24, 28, 27, n 33, in group one (1), in the district of Kootenay, which said lots have since been subdivided and sold in part, and constitute the city of Cranbrook and vicinity.

And whereas the persons whose rights it is proposed to acquire are the owners of the lands situate in said lots.

And whereas the name of the nearest stream available for the purpose of the municipality, other than the waters of which it is proposed to expropriate, is Gold Creek, being situate from eight to ten miles distant from the municipality.

And whereas the approximate estimate of the cost of bringing water from the said Gold Creek to the municipality is from $120,000.00 to $150,000.00.

And whereas the amount proposed to be paid to the existing licensees or their assigns for the extinguishment of their rights, the acquisition of their works and for their loss generally, is one dollar ($1.00) to be paid forthwith.

And whereas your petitioners deem it to be necessary for the proper maintenance of the water supply system, that the water should be stored by means of dams or reservoirs or in such manner as your Honour may direct according to plans to be hereafter furnished, and at such places as your Honour may direct.

Now your petitioner humbly prayeth that Your Honour will be pleased to grans leave to your petitioner the Municipal Council of the Corporation of the City of Cranbrook.

1 To expropriate from the said records of John T. Galbraith dated the 7th day of January 1875, and the record of the said James Baker dated 1st day of March, 1886, five hundred (500) inches, or thirteen and seven-tenths (13 7-10) cubic feet per second, of water to be taken from Joseph Prairie Creek in the District of Kootenay in the province of British Columbia, and the works (if any) constructed thereunder, and to acquire another licence in respect thereof.

2 To store the said water by means of dams or reservoirs or otherwise and at such places as Your Honour may direct.

And your petitioners will ever pray:

(Seal) The Municipal Corporation of the City of Cranbrook,

J. P. FINK, Mayor.

THOMAS M. ROBERTS, City Clerk.

TAKE NOTICE that the above petition will be presented to His Honour the Lieutenant Governor in Council on Tuesday, the 5th day of October, 1909, at the hour of 11 o'clock in the forenoon, at which time any person affected by the same may be heard.

Dated this 25th day of August, 1909.

G. H. THOMPSON,
Solicitor for City of Cranbrook, whose address for service is Reid Block, Baker Street, Cranbrook, B.C.
35-4

LAND NOTICE.

—o—

Notice is hereby given that I, Geo. Wilson, accountant, sixty days after date intend to apply to the Chief Commissioner of Lands and Works at Victoria, for permission to purchase the following described lands in East Kootenay.

Commencing at a post planted at the south west corner of lot 5970, thence running south about 50 chains to timber license No. 21582, thence east 40 chains, thence north to lot 5970, thence west to place of beginning.

George Wilson.
Dated August 20, 1909. 35-9

CRANBROOK LAND DISTRICT

—o—
District of East Kootenay.
—o—

Take notice that the Crothers Lumber Company, Limited, of Cranbrook, occupation, lumber company, intends to apply for permission to purchase the following described lands, Commencing at a post planted at the north west corner of timber license 36554, thence west forty chains, thence south twenty-five chains, thence east forty chains, thence north twenty-five chains to place of beginning.

Dated August 26, 1909. 36-9

CRANBROOK LAND DISTRICT.

—o—
District of East Kootenay.
—o—

Take notice that Jacob Pius Fink of Cranbrook, B. C., occupation merchant, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the southeast corner of lot 7317; thence south 60 chains; thence west 40 chains; thence north 60 chains; thence east 40 chains to the place of the commencement.

Jacob Pius Fink.
Dated August 20, 1909. 35-9

NOTICE.

—o—
Public Inquiries Act.
—o—

Notice is hereby given that sittings of the Commission appointed under the "Public Inquiries Act," for the purpose of making inquiry into all matters in connection with the timber resources of the province will be held at the following points on the dates set opposite each, namely:—

Vancouver—August 23rd, 24th, 25th.
Seattle—August 26th, 27th, 28th.
Kamloops—September 7th.
Vernon—September 8 and 9.
Revelstoke—September 10 and 11.
Nelson—September 13.
Cranbrook—September 14 and 15.
Fernie—September 16.
Grand Forks—September 18.

Owing to the members of the commission having accepted an invitation to attend the meetings of the First National Conservation Congress of the United States, to be held in the auditorium of the Alaska-Yukon-Pacific Exposition, Seattle, Washington, on August 26th, 27th and 28th inst., the meetings on the last day of the commission in Vancouver, advertised for the 26th, and the meetings at New Westminster, August 27th and 28 have been cancelled. Arrangements for the holdings of meetings at these places will be announced later. The meeting at Kamloops will be held on the 7th of September, and not on the 30th as originally advertised. Otherwise the itinerary remains the same. Announcement will be made later if it should be decided to be necessary or advisable to hold meetings at other places.

CANCELLATION OF RESERVE.

—o—

Notice is hereby given that the reserve on lot 4,836, G. 1, Kootenay District, notice of which bearing date of February the 3rd, 1909, was published in the British Columbia Gazette of February 4th, 1909, is cancelled, in so far as the said Reserve prevents the acquision of said lands by pre-emptors, under the provisions of section 33 of the Land Act.

ROBERT A. RENWICK,
Deputy Commissioner of Lands.
Lands Department,
Victoria, B.C., August 3, 1909. 36-12

COAL AND PETROLEUM NOTICE

Notice is hereby given that 30 days after date, I intend to apply to the Hon. Chief Commissioner of Lands and Works for a license to prospect for coal and petroleum on the following lands situate in the District of Southeast Kootenay, British Columbia, in Block 4593: Commencing at a post that is planted at or near five mile east of the 39 mile post on C. P. R. survey line which is the western boundary of lot 4593, and being the North West corner post of the Oliver Crockett claim
thence south eighty (80) chains;
thence east eighty (80) chains;
thence north eighty (80) chains;
thence west eighty (80) chains;
to the point of commencement, making 640 acres more or less.

EAST KOOTENAY

(DISTRICT LOCAL NEWS)

FERNIE.

FERNIE FREE PRESS.

Arch. Leitch, of Cranbrook, attended the sitting of the timber commission here this week.

We are informed by J. W. Bennett that loud roars of supplication to Jupiter Pluvius were ascending to Olympus from the vicinity of Cranbrook last week. These prayers were copiously answered.

A. E. Watts, of Wattsburg, was in the city Thursday last.

Secretary Anstie of the Mountain Lumbermen Association accompanied the Forestry Commission in their rounds of the country.

The Court of Revision for voters' lists closes on October 4. Every qualified male should see that his name is on the list.

MICHEL REPORTER.

The pay-roll for September totes up a little over $62,000.

If current rumors are to be relied on, the past prosperity of our town isn't a patch to what's coming our way.

Foley's Superba Chocolates

"The Chocolates with the Whipped Cream Centres."

Both our "Superbas" and Canadian Girl" Chocolates are famous for their rich, delicious 'Whipped Cream Centres."

Description won't describe them. You must taste them for yourself.

All Foley's Chocolates please the palate and are good for you

Foley Bros. Larson & Co.

Edmonton WINNIPEG Vancouver

An automobile road through British Columbia is proposed. John D. will possibly subsidize it as it would increase the consumption of gasoline.

The steam shovel is here at last with a gang of men, grading and filling in the sidings recently laid, and "busy" tells the story of the C. P. R., here the past week.

Ore Shipments

Following are the ore shipments from mines in the Cranbrook district for the past week and year to date:-

St. Eugene	353	16,402
North Star	160	1,140
Total	513	17,542

Presbyterian Church.

Sept. 19th.

Morning service at 11 o'clock.

The members of the Maple Leaf Rebecca lodge will attend this service in a body. The sermon will be appropriate.

Sunday School at 3 p. m.

Evening service at 7-30.

September 18th is the bicentenary of the birth of Dr. Samuel Johnson, and the address will be a brief study of the life and works of this remarkable man. Carlyle calls him a prophet.

Methodist Church.

Morning service at 11. Fellowship meeting at 12.

Sunday School rally at 3, when parents are invited to attend with their children. There will be a specially prepared service with responsive readings by the children and teachers, Pastor and Superintendent.

Children on the Cradle Roll have been invited, and it is hoped that a large number will be present. Special hymns will be used for the occasion, and all who attend will be provided with a printed order of the service.

Epworth League Prayer Meeting at 7.

Evening service at 7-30. Subject:- "The Responsibilities of Knowledge, or the Danger of an Evil Choice."

Tuesday. League Meeting at 8. Consecration evening, Subject:— "The Making of a Christian." Paper by Mrs. I. Manning.

Thursday. Prayer service at 8.

Friday. Choir practice at 8.

Next Sunday, October 3rd. Childrens service at 11.

What They are Saying

That it is time the Government corked up all spark-spurting, bush-firing C. P. R., locomotives.

That the Exhibition authorities, here would do well to add to their fine list or rewards a number of prizes for samples of the various minerals found in the Cranbrook district, this is an eye-opener.

That one of the finest view-points of mountain and prairie may be had from the roof of the new Public School. What about the roof garden idea, Mr. Trustee?

That in view of the large number of visitors, and others, "half-seas-over," trying to navigate this part of B. C., during the Exhibition, Cranbrook may secure a sea port reputation.

COAL AND PETROLEUM NOTICE.

PATMORE BROS

Heating and Plumbing Engineers

OUR AIM—Is to give the comfort-seeker the fullest sense of comfort with the least sense of apparatus—the most satisfying results at the least expense of fuel and of labor, with freedom from repairs, and a durability equal to the life of the buildings in which the heating systems are installed.

Our Systems of Heating meet these requirements exactly. They are the efficient, silent, reliable servant of the house owner—an adjunct which does more for the cheer and healthfulness of home-lifeth an any other material feature or decoration of home

NATURES FERTILIZER

To get the best results from your fruit trees you must put nourishment into the ground.

Try Our Dried Blood Fertilizer
Blood and Bone Mixture
Tankage.

P. BURNS & CO.

Phone 10 P. O. Box 3.

Ham and Bacon

Our smoked meats are always fresh stock. We are sure that if you try them once you will agree with us that they are the best flavored and most wholesome smoked meats you have ever eaten.
