one, the more liberal his actions towards customers and employes, the more business he will surely do. The worst paying investment for any merchant is that of an underpaid, overworked employe, Employ good help, pay them well, be firm and just in your attitude toward them, and your employes will be teade winners. Work any man behind a counter or at a desk for sixteen hours a day, and you crush his ambition, his manner soon becoming indifferent, he loses interest in his work, and under those conditions is not in shape to be bright and cheerful with customers. It is a well known fact, that upon entering a store, if you A. W. Bleasdell left last ceck for McGill College, Montreal where he takes up—second year work in medicine,

Mrs. H. Watson on Sunday last, that upon entering a store, if you are met in a bright cheerful style, not "fresh," but pleasant and bright, your impression of that store is a good one, and you are apt to go again. On the other hand, if the salesman is slonchy, deling, "a condition brought about by over work, and long hours," your impression of that store is not a good one, and you are not apply to go again.

your impression of that store is not a good one, and you are not apt to go again. The proprietors of large eastern stores have awakened to the necessity, in their own interests, of lessening the hours of work for their employes and of the particular advantage and direct gain to their business in making their surroundings pleasant and congenial. The sweating system has been pretty well abolished in the east, surely Cranbrook, a rising western town will not revive it.

Sir Charles Tupper.

St. John, N. B., Sept. 15.—Sir Charles Tupper, Bart., is here to day enroute to Winnipeg, accompanied by his son, Mr. W. Tupper and the latter's wife and two children. Sir Charles was strongly of opinion that the general elections will take place this autumn. For himself he was out of politics for good, but he would always take an interest in the Conservative party, which had done so much for Canada. He added that Sir Charles Hibbert Tupper was definitely out of politics. Sir Charles spoke very strongly against the contract the government had made with Graud Trunk Pacific as being disastrous to Canada. that the high rate of assessment by the provincial government militated against any notable extensions of the railway system in this province. However, he foreshadowed con-struction of a line from Penticton

THE HOME ..NEWSPAPER..

Furnishes a class of news that cannot be found in the best metropolitan daily or weekly published. It is a weekly record of those events with which you are associated. It tells of the home, the ranch, the individual, the industries that are making fame and fortune for South East Kootenay, the sports of the mountain and the valley. It tells of all that combines to make the mountain homes of British Columbians so attractive, and why people are anxious to return when absent on pleasure or business.

THE HOME PAPER

is not only a joy and a source of information to your own home, but it is a weekly letter to relatives in the old home back east. Western news is always of interest to the old folks at home. No young man living in South East Kootenay should fail to send the home paper to those he has left behind. The father, the mother, the brother or sister, will soon watch for it with anxiety, because it tells the news of the country where the boy is living.

THE HERALD

is the home paper of the district. It covers the news field, it pictures from week to week the life in the west, it tells of the resources of South East Kootenay, the richest district in resources in the Dominion. It is a paper that will give pleasure to you and to the old folks, at home. You should subscribe for it now, for yourself, and you should send a copy back east.

You can afford it. You often spend \$2.00 foolishly and don't miss it. Try this year spending \$4.00 for THE HERALD, one copy for you, one copy for the good old folks at home. Try it for one year. You will never regret it.
