Sentiment in East Kootenay By No Means In Favor of Letting Dr. King Into Seat

The author of the story which has been going round in the daily press this week, to the effect that an acclamation awaits Dr. King in the East Kootenay Riding if he chooses to go to Ottawa as minister of public works, should be congratulated on the wealth of imaginative talent displayed. It is purported that sentiment in the riding among both Liberals and Conservatives alike, is that Dr. King should be allowed to step into the seat won by Mr. R. E. Beattie, and he would likely go in by acclamation at a by-election.

Why is there such anxiety to make an acclamation of the by-election necessary if such a manoeuver took place? The stories which have been appearing in the daily press are seemingly designed to send out the impression that Dr. King would be welcomed with open arms by all sections of the electorate if he came here for confirmation of his appointment.

The facts are that had Mr. Beattie, the elected representative of East Kootenay, has chosen for cabinet rank, the chances are that he would have been accorded an acclamation at the by-election made necessary. But as to finding room for another person, it is only too apparent that the Liberals themselves are far from being at one in sanctioning the retirement of Mr. Beattie under these circumstances. Hence it would seem to be wiser to get the Liberals themselves into one way of thinking before starting on any other section of the electorate.

The Conservatives as an organization have not committed themselves in any way as to their action if Mr. Beattie steps down in favor of Dr. King, nor will they do so until such time as the Liberal policy in regard to the matter is made plain. The fact remains that many people who voted for Mr. Beattie at the election begin to feel that their trust is being treated pretty lightly, and an attempt being made to bandy with public confidence. It should not be forgotten that the successful candidate for East Kootenay went in on less than forty per cent. of the vote cast, and thus about 60 per cent., or 3,600 out of the 5,800 who voted represent Conservative and Farmer-Labor sentiment.

In view of the fact that there is a third element to be considered in the matter, which at least in the Cranbrook riding cut some considerable figure, it can be seen how futile it would be for the Conservatives as a body to seek to make any arrangement looking towards an acclamation for Dr. King. One would think that the more honorable course would be to come in openly and fearlessly and prepared to fight for the seat if necessary. Such a course would be far more likely to secure an acclamation than much scurrying behind the bushes. The hackneyed argument as to what a minister of public works could do for the riding does not carry the weight it might, for the simple reason that Dr. King's term with that portfolio at Victoria has not brought the district any more than a private member could have.

REBEKAH OFFICERS INSTALLED AT MEETING THIS WEEK

At the regular meeting of the Maple Leaf Rebekah Lodge, No. 19, held on Wednesday evening, P. N. G. District Deputy President Sister Adlard, assisted by P. N. G. Sister Baxter, Marshal, installed the following officers for the next ensuing term:

Noble Grand ..... Sister Gilroy
Vice-Grand ..... Sister West
Recording Sec. ..... Sister Keer
Financial Sec. ..... Sister McCallum
Treasurer ..... Sister Johnston
R.S. to N.G. .. P.N.G. Sister Baxter
L.S. to N.G. ..... Sister Palmer
R.S. to V.G...P.N.G. Sister Phillips
L. S. to V.G. ..... Sister Compbell
Chaplain ..... Sister Dingley
Conductress ..... Sister Wolfer
Inside Guardian ..... Sister Hill
Outside Guardian ..... Sister Home
Organist ..... Sister Wallace
Finance Committee — P.N.G. Sisters Flowers, Spence and Gill
Social Committee ... P.N.G. Sisters Spence, Drew and Adlard

At the close of the business, coffee, cake and sandwiches were served by the sisters.

MEETING ON TUESDAY NEXT TO ORGANIZE FOR BOY SCOUTS HERE

There will be a meeting on Tuesday at the Y. M. C. A. of all those interested in the Boy Scout Movement, when the organization of a local Troop will take place. It is hoped that as large an attendance as possible will be on hand to give the movement here a good start off, and to enable a strong body of officers to be elected to take hold. It is felt that some such coordinated movement as this, supported in all sections of the community, will do most good in endeavoring to do something for the boys.

Be on hand Tuesday if you are interested in something that will be of benefit to the boys.

UNVEIL MEMORIAL TO HONOR OF SOLDIER MEMBERS OF CHURCH

Impressive Service Sunday Last at Knox Church to Perpetuate Memory of Heroes

The service on Sunday morning last January 8th at the Presbyterian Church, when the unveiling of the permanent memorial tablet presented to the church by the Ladies' Aid of the congregation took place, was deeply impressive. On the roll of honor in all are sixty names. In the centre, on a tablet of marble are engraved the names of ten members of the church and congregation who laid down their lives in the war. On either side of this are the names of all those who enlisted, engrossed in black and gold on panels of oak, some fifty in all, making a total of sixty names appearing on the memorial. In appearance the memorial is a very pleasing tribute to those it seeks to honor, quite in keeping also with the nature of the building in which it is hung. It is of oak, ornamented just to the proper degree, and consisting of five panels, the centre one of which is of marble, and contains the names of the dead. It is something unique in form, yet very effective.

Special music was rendered for the ocasion consisting of music by the choir, "Hush, Blessed Are the Dead," "Crossing the Bar," Who Are These That Are Arrayed in White Robes," a solo by Mrs. E. Paterson, "In Flanders' Fields," and music by the choir and congregation, "O God, Our Help in Ages Past," "Lift Up Your Heads, Ye Gates of Brass," "O Canada," and Kipling's "Recessional." The music was all appropriate and impressively rendered, and went a long way towards making the service a long-to-be-remembered one.

The pastor of the church, Rev. E. W. MacKay spoke on "The Royalty of Service and Sacrifice" It was a strong message recalling some of the sacrifices endured by the men who fought to make civilization secure, and an appeal to hold dear their memory.

Mrs. C. J. Little, president of the Ladies' Aid, formally presented the memorial tablet to the congregation, after which, with returned men from the congregation and the G. W. V. A. as a guard of honor, Miss Mary Robertson, whose father, the late W. Robertson, is one whose name is inscribed on the memorial as having made the supreme sacrifice, drew aside the flag which had covered it. Capt. W. M. Harris then read the names of the fallen inscribed on the centre panel.

On behalf of the trustees and session of the church, Mr. J. Fingal Smith gratefully accepted into safekeeping the beautiful and appropriate memorial, which he said would be kept as sacred as the walls of the church itself.

Major Hicks, president of the G. W. V.A., spoke briefly representing the veterans, and following this was silent prayer for the two minutes of Armistice Day, and the recitation of the Lord's Prayer by the whole congregation. After the Benediction the congregation remained standing while the organist played the Dead March in Saul. There was a crowded congregation, and in an impressive and reverent fashion honor was done very fittingly to the soldier dead of the church and congregation.

At the head of the marble panel in the centre of the memorial appear the words "In Memoriam," and beneath at the foot is the inscription "Knox Church, Cranbrook." The names of the ten who gave their lives are:

T. Clark
J. Cameron
T. A. Chisholm
R. Henry
W. Montgomery
J. C. Malcolm
A. McAulay
D. L. McEachern
J. McDonald
W. Robertson

The other names appearing on the Honor Roll are:

W. Allen, Dr. J. H. M. Bell, A. Cunningham, H. B. Carter, D. M. Cowan, A. Clark, G. Clark, A. Chisholm, H. Chester, G. Donaldson, K. Eagleseme, W. Findlay, A. Hamilton, W. M. Harris, E. Hannah, G. Kennedy, R. Laurie, W. Laurie, C. Laurie, A. C. Laurie, V. Liddicoatt, W. Leaman, J. Milne, E. Malcolm, J. Murdoch, J. Milroy, C. Morrison, A. Musser, C. McCowan, M. McK. Aulay, M. McAulay, D. McAulay, E. McDonald, J. Mc Donald, C. McDonald, J. C. McEachern, G. S. McCreery, R. McKay, P. Neil, E. Neil, J. Reekie, H. Reid, D. Sneddon, W. Starrett, J. Swanson, W. E. Stephens, E. Stephens, R. Watson, D. Watson, C. Watt.

Mayor Genest Gets Third Term

J. H. Cameron Heads Poll For Alderman; Shankland Gets Majority of One Only

The 1922 Council

Mayor — J A. Genest

City Council — J. H. Cameron, W. S. Santo, A. J. Balment, W. Flowers, J. A. Arnold, G. T. Moir.

For Mayor

J. A. Genest	200
W. F. Cameron	182

Majority for Genest 18

As was anticipated the vote for mayor proved very close, Mayor Genest getting his third term, but only by a majority of 18 out of the 382 votes cast. It was generally conceded during the day that the vote was going to be close, and neither side was looking for a big majority.

After the poll was declared Mr. Cameron made a short speech thanking the ratepayers for the support they had given him, and assuring them that he intended to support the mayor and city council during the new year, everyone working in the best interests of Cranbrook. It was a sportsmanlike little speech, and showed Mr. Cameron to be just as good a loser as he might have been a winner.

For Aldermen

J. H. Cameron	260
W. S. Santo	228
A. J. Balment	227
W. J. Flowers	187
J. A. Arnold	178
G. T. Moir	176
Mrs. Laurie	166
A. A. MacKinnon	164
W. W. Kilby	164
A. E. Jones	155

Of the old council who stood for re-election, only three of the five were returned again. They were Aldermen Santo, Flowers and Arnold. It was a surprise to many that neither Mrs. Laurie nor A. E Jones were returned again, but elections are liable to run very queerly sometimes and one is unable to fathom the why and wherefore of the trend of things. The election of J. H. Cameron was conceded from the time it was known he was out in the field, but even at that the fact that he headed the poll and so far ahead must have been gratifying to himself and his supporters. It was also expected that Geo. Moir would pull a strong vote and make a showing.

On paper the 1922 council looks to be a very creditable body of men, of whom may be expected businesslike handling of the problems which will come up to them.

For Police Commissioner

A. Shankland	118
W. F. Doran	117
A. J. Balment	80
W. S. Santo	54

One to be elected

The fight for first place in the poll for police commissioner was unusually close, being in doubt from the start. By the narrowest of majorities Mr. A. Shankland, the member whose two year term expired, held his place over W. F. Doran. The result at first gave the latter a majority of three over Mr. Shankland, but ballots found in other boxes reversed the result and gave Mr. Shankland his majority.

With the re-election of Mayor Genest and Mr. Shankland, the composition of the police commission for 1922 remains the same as last year.

WINDERMERE DISTRICT NOTES

(Special to the Herald)

Invermere, B.C., Jan. 4.— Mr. John Laird, the well known paper dealer of Glasgow, has been spending some weeks on a transient visit to his nephew, Mr. Alex Laird, at his bonnie home "Westlake," situated on the banks of Loch Lillian on the benches. Mr. Laird left this week for Vancouver and may proceed westward to the Far East before returning to his home in Newlands, not far from the city of Glasgow, Scotland.

—

Mr. George Watt of West Kilbride is also visiting Mr. Alex Laird at Westlake.

—

Mr. Angus Hay ,the District Agriculturist, has been spending some time in this part. He recently went north and looked into the agricultural possibilities of the country between here and Golden.

—

The annual meeting of the District Agricultural Association and Farmers Institute is to be held here on the afternoon of Monday next.

—

A general meeting of the Windermere District Association of Stockbreeders is called for half past two on the afternoon of Saturday, the 14th inst., at which the accounts and proceedings of the late fat stock show will be reviewed.

PERSONNEL OF SCHOOL BOARD UNCHANGED; BY-LAW IS PASSED

Mrs. Miles Tops the Poll for Trustee; Bylaw Passes by About Two to One Vote

For School Trustees

Mrs. F. B. Miles	265
W. H. Wilson	227
Wm. Henderson	179

First two elected

The result of the election for the two vacancies on the board of school trustees leaves the board constituted the same as last year, the two members whose terms had expired being re-elected by substantial majorities over the third candidate, Wm. Henderson, also a former trustee. The result of the vote is a tribute to the personal popularity of Mrs. Miles in the city as well as an appreciation of the energetic work she has undertaken on behalf of the school board.

For the School Loan By-Law

For the By-Law	246
Against the By-Law	121

Majority in favor 125

The result of the vote on the by-law to provide funds for additional school premises came as a surprise to some who were expecting that the opposition to the measure would come out in force sufficiently strong to kill the measure. The school board, however, made every effort to illumine the minds of the ratepayers on the matter, and at a meeting in the city hall on Tuesday night there is no doubt some misconceptions were removed or straightened out. This meeting was called at the request of some of the residents of the South Ward School district, where it was believed that the chief opposition was likely to come from. There is no question that the passing of the by-law relieves the school board from an awkward position. The extra school accommodation is badly needed, whatever the final form it takes.

ALL PRIVATE STOCKS MUST BE DECLARED, GOVT. DECIDES

Victoria. — Lieutenant Governor Nichol has signed the order-in-council approving of the form which the liquor control board has designed for the use of persons who have private stocks of wines, liquors or other intoxicants which were not bought from a government vendor.

The Liquor Control Act requires that all persons having such stocks must report them to the board.

The order in council says that this form must be "used by every person for reporting to the board liquor which he keeps or has in his possession or under his control which has not been purchased from a vendor at a government store."

The owner of the liquor must state the cost of the liquor item by item, and then make an affidavit that his statements are correct.

Japanese and Chinese liquors are included in those which must be specified.

NO OBSTACLE, SAYS DR. KING—HAS EVERYTHING BEEN ARRANGED?

VICTORIA.— Following a conference this week of members of the provincial cabinet, Hon. J. H. King indicated that there would be no obstacle in the way of his withdrawal from the British Columbia government and accepting the office of minister of public works at Ottawa.

Premier Oliver and members of his cabinet were in conference Wednesday afternoon with Dr King.

After the cabinet meeting the premier said that there would be nothing to announce about Dr. King for some time. This was taken to mean that members of the government prefer to place the whole political situation before the conference of Liberal members here on January 23 and let them decide unhampered by any preliminary announcements made by members of the government.

TELEGRAPHIC BOWLING AT THE Y. M. C. A. ON TUESDAY NIGHT

The Cranbrook boys bowled a telegraphic match against Revelstoke and Nelson in the Y.M.C.A. alleys on Tuesday night, the 9th inst., but failed to make a very good showing, lack of practice being the cause.

The line-up and scores were as follows:

				Totals
Simpson	171	156	157	484
Armstrong	219	156	177	552
Dow	151	156	155	462
Leaman	132	171	177	480
Finlay	128	129	139	396
Johnson	180	197	168	545
Sinclair	161	142	147	450
Delany	189	154	141	484
McLean	142	157	105	404
Clark	114	123	143	380
Totals	1587	1541	1509	4637

Although winning only one point in this match they are not downhearted and intend taking all four points in the next.

Good Number of Candidates up

Two For Mayor, Ten for Aldermen, Three for Trustees and Four for Police Com.

Monday last, nomination day for the civic elections, brought forth a refreshing array of candidates, as compared with some years, when not enough candidates have appeared to fill the vacancies, and it has devolved upon some one to scurry round at the eleventh hour with nomination papers in hand in search for candidates. There were sufficient candidates brought out on Monday to bring about an election for mayor, aldermen, school trustees and police commissioner, and with the by-law to vote on, the property owners within the city were called upon to register their approval or otherwise on five ballots.

There were a few surprises in regard to the nominations on Monday, notably in regard to the mayoralty, where W. F. Cameron and J. A. Genest were nominated, this being a repetition of 1919, when Mr. Genest obtained his first term of office. Mr. Genest's papers were signed by F. H. Dezall and C. J. Little as proposer and seconder, and Mr. Cameron was nominated by Messrs. R. C. Carr and W. A. Nisbet. Mr. Cameron has already served one term as mayor and was for three years on the city council.

For aldermen there were ten candidates for the six seats, and the choice offered to the electors was an unusually representative one All the former aldermen, with the exception of R. J. Binning were re-nominated They were:

J. A. Arnold, proposed by W. A. Nisbet, seconded by J. P. Fink

R. Flowers, proposed by J. Laurie, seconded by A. C. Shankland.

A. E. Jones, proposed by A. Raworth, seconded by F. L. Parks.

Mrs. J. Laurie, proposed by Harriet A. Campbell, seconded by Ellen M. Campbell.

W. S. Santo, proposed by A. A. MacKinnon, seconded by C. J. Little.

The other nominations for alderman were:

A. J. Balment, proposed by G. M. Barney, seconded by R. C. Carr.

J. H. Cameron, proposed by R. A. McBurney and seconded by G. E. Kennedy.

W. W. Kilby, proposed by A. C. Blaine, seconded by R. S. McNeil.

A. A. MacKinnon, proposed by W. H. Wilson, seconded by J. F. Guimont.

G. T. Moir, proposed by T. H. Bronsdon, seconded by J. C. Merrington.

For the two vacancies on the school board, three candidates were put into nomination. The two retiring trustees, W. H. Wilson, chairman of the board and Mrs. E. B. Miles, were both presuaded to have their names brought forward again, and with them is standing Mr. W. Henderson, who was last year a member of the board, but who lost out at the polls. Mrs. Miles was proposed by Mrs. F. M. MacPherson and seconded by W. F. Attridge. Mr. Wilson's nomination papers were signed by W. Shepherd and C. J. Little.

Mr. A. C. Shankland's term on the police commission expiring, he was again placed in the running, along with three others, Messrs. W. F. Doran, A. J. Balment and W. S. Santo. Mr. Shankland was nominated by Rev. R. W. Lee and S. Taylor, seconded by H. Hinton and A. A. MacKinnon. Mr. Doran was proposed by C. P. Macdonald seconded by E. Paterson. A. J. Balment's papers were signed by R. C. Carr and W. F. Cameron, and Mr. Santo was put forward by G. R. Leask and J. A. Genest.

SELKIRK DIV. NO. 473 G.I.A. TO THE B. OF L.E. INSTALLS OFFICERS

At the regular meeting on Monday evening the Grand International Auxiliary to the Brotherhood of Locomotive Engineers installation of officers took place. The following officers were duly installed:

Mrs. A. A. Cameron ..... President
Mrs. W. O'Hearn ..... Vice-President
Mrs. J. T. Sarvis ..... Secretary
Mrs. T. L. Drummond ..... Treasurer
Mrs. T. S. Gill ..... ins. Secretary
Mrs. D. Campbell ..... Chaplain
Mrs. J. J. Fennessy ..... Guide
Mrs J. S. Saunders ..... Sentinel

Mrs. J. S. Roy, the latest Past-President of the Auxiliary, acted as installing officer, and Mrs. G. M. Barney, also a Past-President, filled the office of Installing Marshall.

The appointed officers were as follows:

Mrs. G. M. Barney .. Crescent Marshal
Mrs. A. J. Ratcliffe .... Star Marshal
Mrs. A. H. Johnson ..... Musician

Brandon, Man.—New buildings and improvements to the extent of $325,000 have been completed at the Brandon Exhibition grounds during the past year, according to a report of the directors.

ANNUAL MEETING OF CHRIST CHURCH GUILD ON TUESDAY

The annual meeting of Christ Church Guild was held in the Parish Hall on Tuesday of this week, January 10th.

After the report of the year's work and the financial statement had been read by the secretary and adopted by the members present the following officers were elected for the coming year:

President, Mrs. G. Hogarth.
Vice-President, Mrs. W. Haslam.
Sec.-Treasurer, Mrs. F. H. Pym.
Sewing Committee, Mrs. Meighen, Mrs. Hartnell and Mrs. F. V. Harrison.
Home Workers, Mrs. F. J. Harrison, Mrs. G. Thompson, Mrs. T. Roberts.
Sick Committee, Mrs. Miles.

The tea arrangements were undertaken by Mrs. F. J. Harrison.

Mrs. J. Campbell, Mrs. T. Roberts and Mrs. Miles were elected to the executive.

Very hearty votes of thanks were accorded the officers of last year, especially to Mrs. Haslam and Mrs. Thompson. Mrs. Haslam is to be congratulated on the very satisfactory amount of work achieved by the Guild under her leadership. Although there were no proceeds from dances or theatrical entertainment as in the preceding year, the financial statement showed a total nearly equal to that of last year. The Slaterville branch of the Guild also did excellent work. At the close of the meeting an excellent tea was served by Mrs. P. Adams.

It is not perhaps fully realized what substantial help teh Guild gives to the church. The sick committee see to it that all church members who are sick have flowers or fruit sent to them. The Guild pays for the lighting and cleaning of the church and the taxes on Parish Hall and Rectory. Some years ago it undertook to pay the monthly interest due on the mortgage loan on the Parish Hall and this has been attended to since. Last year a loan of $316.00 was paid off, incurred for Rectory furniture.

Mrs. Hogarth and her energetic helpers have planned a campaign of hard work for the coming year and hope shortly to clear off the mortgage on the Parish Hall. On March 17th they intend to hold a cookery sale; on June 23rd a garden party; and on November 22nd their annual bazaar. The success which such willing and capable workers deserve will doubtless attend their efforts.

KEY CITY LODGE INSTAL NEW OFFICERS FOR ENSUING HALF YEAR

Holding their meeting last Monday evening at the Auditorium, semi-annual installation of officers of Key City Lodge No. 42, I.O.O.F., took place, with a turn out of about sixty members. The installing officer was D.D.G.M. J. H. Cameron, P.G., assisted by Bro. H. White, P.M.G., acting D.D.G.Mar., Bro. J. Beaton, P.G., as acting D.D.G.W., Bro. W. S. Johnson, P.G., acting as D.D.G.S., Bro. S. Fyles, P.G., as acting D.D.G.T., and Bro. W. C. Adlard, P.G., as D.D.G.C.

The officers installed were as follows:

J.P.G. ..... Bro. F. G. Morris, P.G.
N.G. ..... Bro. T. A. Wallace
V.G. ..... Bro. R. P. Moffatt
Rec. Sec. ... Bro. W. M. Harris, P.G.
Fin. Sec. ..... Bro. H. White, P.G.M.
Tr as. ..... Bro. F. G. Morris, P.G.
Warden ..... Bro. A. Burch
Conductor ..... Bro. E. G. Dingley
Chaplain ..... Bro. R. Burch
R.S.S. ..... Bro. D. M. Linn
L.S.S. ..... Bro. H. Fyles
R.S.N.G. ..... Bro. W. D. Gilroy, P.G.
L.S.N.G. ..... Bro. G. Lacey
R.S.V.G. ..... Bro. F. A. Williams
L.S.V.G. ..... Bro. I. Hannah
I.G. ..... Bro. F. Bond
O.G. ..... Bro. S. Fyles, P.G.

Following the installation ceremony and the closing of the lodge a banquet, prepared by the social committee, was attacked with gusto and a session of speech-making enjoyed by the company.

It is probable that sometime this year further alterations will be made to the Auditorium by the lodge whereby permanent quarters will be established by the lodge as a regular meeting place.

SPECIAL EVENTS BEING PLANNED FOR SPRING BY METHODIST CHURCH

Sunday, February 19. — Church Anniversary.

Monday, February 20. —Grand Cantata, "Esther, the Beautiful Queen."

Friday, March 3 — Operetta by Sunday School.

Saturday, March 11. — Ladies' Aid Cookery Sale.

Good Friday, April 14. — Sacred Oratorio, "The Crucifixion," by Stainer.

Easter Sunday, April 16. — "The Passion Play."

Another Empire Zinc Plant

Huge Industry Being Built Up in Tasmania for Zinc Production

The following is an extract from the London Times which describes the electrolytic zinc plant in Tasmania. This electrolytic zinc plant will be the chief competitor of the Trail electrolytic zinc plant, and so will be of great interest to many readers. One paragraph in particular is of interest, and that is that the whole output is sold for seven years ahead on a satisfactory price basis. It will be remembered that the British Government undertook to buy the Australian zinc concentrates for ten years after the war

Shortly after the outbreak of war experiments and inquiries were commenced by a small group in Melbourne, Victoria, for the production of zinc electrolytically. High grade zinc for the manufacture of cartridge brass and other munitions of war was most urgently required by the Allies, and with 70 per cent. of the world's zinc plants behind the enemy's lines, and of the remaining 30 per cent. only a trifle in the hands of the Allies, the position was exceedingly grave. Only by a huge expenditure of cash and energy was the situation even temporarily remedied This narrow escape brought the policy of creating an Empire zinc industry into being. It is not necessary to recapitulate the efforts of His Majesty's Government and the Dominions, but it is sufficient to say that important as were the contracts entered into by the British government and the Australian producers, both for raw concentrates and spelter, they were not more so than the danger disclosed in 1915 and 1916 demanded. It is necessary to emphasize this, for now that the immediate danger has passed, it is popular to decry any effort or expense for defence either of one's country or its trade.

Successful Experiments

The Melbourne experiments gradually extended and were supplemented by exhaustive inquiries and investigations in the United States, Canada, and elsewhere. The Electrolytic Zinc Company of Australasia Proprietary, Limited, was created to carry on the work by the association of the Amalgamated Zinc (De Bavay's), Limited, North Broken Hill, Limited, Broken Hill South, Limited, and the Zinc Corporation, Limited, which companies put up all the capital.

A contract was entered into with the Tasmanian government for the supply of hydro-electric power to a site selected at Risdon, close to Hobart, Tasmania. This contract provides for the delivery within a specified period of 30,000 h.p. at a satisfactory price, and which is sufficient to produce 45,000 to 50,000 tons of refined zinc annually.

The first small experiment at Risdon consisted of a glass cell capable of producing 6 lb. of zinc daily; in a few months this was extended to 600 pounds daily. The results enabled the plant for a 30,000 pounds a day output to be taken in hand, and this when erected was operated with success. Finally the plant now on the point of completion with a capacity of 300,000 pounds of refined metal a day was laid out.

The company was enlarged and turned into a public concern last year. Its nominal capital is £3,000,000, of which half is in 8 per cent. cumulative participating preference shares and half in ordinary shares.

Ore and Concentrates Assured

In acquiring the Mount Read and Roseberry Mines, the Electrolytic Zinc Company secured the most important lead-zinc-silver ore bodies to Broken Hill in Australia. These mines have already over 1,000,000 tons of high grade ore blocked out, and their potential resources are believed to be more than five times this quantity. The Electrolytic Zinc Company is, therefore, apart altogether from its other contracts, assured of all its ore and concentrate requirements for many years to come. The Electrolytic Zinc Company has also 750,000 tons of Broken Hill concentrates, containing, say, 350,000 tons of zinc metal, and these, with the huge resources of the Mount Read and Rosebery mines, places the company in an impregnable position so far as ore and concentrate supplies are concerned.

Makin gallowance for the additional capital expenditure contemplated in associated or auxiliary industries, and for the large amount invested by the Tasmanian government in the Hydro-Electric Power scheme, little less than £5,000,000 will be represented by the Risdon undertaking.

The company will first produce approximately 42,500 tons per annum of 99.95 per cent. zinc and will have the largest individual zinc plant in the world, working, by reason of its geographical and power advantages and its supply of raw material, at a lower cost per ton of metal than any

CRANBROOK, BRITISH COLUMBIA

THURSDAY, JAN. 12th, 1922

RESOLVE !

Build upon Resolve, not upon ruinous regret, the structure of the future. Grope not among the shadows of old sins, but let thy soul's delight shine upon the path of hope and dispel the darkness. ¶ Waste not tears upon the blotted record of lost years, but turn the leaf and smile, oh smile to see the fair white pages that remain to thee.—Selected.

THE ATTORNEY-GENERAL

The province will look with mixed feelings on the departure of Attorney-General Farris from the provincial government. No one would seek to belittle his innate talent as a legal luminary, but there is room for question whether he always used his gifts in the best interests of the province. Even in an after dinner speech recently he could not refrain from a disparaging reference to his most notable critic and opponent in the house, Mr. W. J. Bowser, leader of the Conseravtive opposition. Does Mr. Farris forget that however strenuous the criticism he has been subjected to, it is nothing to that levelled at Mr. Bowser himself, during the latter's tenure of that office? Moreover a $32,000 audit by the new government in 1916 or 1917 failed to reveal anything worthy of bringing in a report on that searching audit. Mr. Farris passes off as "harmless" a little deal in government beaver skins of the same nature that a few years ago in the case of a Conservative finance minister no adjective was too strong to condemn by Liberal speakers.

Chief among the legislative monuments which Mr. Farris has raised, of course, stands the liquor control act. Time has still to record its verdict on this piece of Mr. Farris' handiwork, but it is remembered yet that in order to bring it about *Mr. Farris had to allow, by a* policy of non-enforcement for which he was responsible, a previous act to come into utter discredit. He is according to his own act a measure of enforcement he refused to give the prohibition act, thereby killing it.

To many the time does not seem opportune for a change in this important portfolio, and his successor will take up the burden at a critical juncture. So long as it looks perilously like throwing up the sponge while there is yet time to get out from under a creaking structure, Mr. Farris must expect people to take that view.

FROM THE VIEW-POINT OF OUR CONTEMPORARIES

Sowing The Wind

Do you think it is worth while to make the government of this province a vast liquor-selling machine on the ground that some people desire to make moderate use of liquor, when for every instance of necessary or reasonable moderate use, there are *ten thousand instances of unnecessary* and habit-forming uses of liquor fostered through government stores?

Do you think it is worth while to recruit an army of criminals to smuggle liquor from Canada into the United States, with an accompanying orgy of robbery and murder?

Sowing the wind entails the necessity of reaping the whirlwind; the fact that in the case of narcotics and liquor the sowing is done by the people of one generation, and the reaping by the children in the next generation gives the question greater importance. You are dealing, for weal or woe, with the lives of your children; under the law of averages governing humanity all our children fall within the scope of the questions.

In deciding upon political action respecting narcotics and liquor go into the silence of self-search and enquire of your soul whether you wish to trace a dead soul's epitaph upon the face of any child of yours.

That is the only vital question, the results whereof will mark you and your children for time and for eternity.

A government policy of bringing narcotics and liquors within the reach of children is sowing the wind; and the horror of it is that the children must reap the whirlwind; and the habits of a generation of children once formed cannot be recalled.

The answer should engrave upon the mind the utter impossibility of ever being able, by calling again the day that is past, to take any remedial action once you have by your vote or influence set in motion forces which will trace a dead soul's epitaph upon the face of any child.—Vancouver Sun.

In His Countrymen's Hearts

Though the people cashiered the Meighen government on the 6th ult., we believe that if a poll were taken on the question whether Mr. Meighen should retire or remain in public life, a great majority of the people would vote for his remaining. If a plebiscite were taken on the question: "*Who is Canada's* greatest statesman?" we have no doubt that Mr. Meighen would get far the most votes.—Toronto Mail and Empire.

Civic Taxes

The fact that tax rates all over the country are high is one thing that is *going to make it necessary to seriously* consider the best form of civic government for the future. Civic debentures in some Ontario cities have been allowed to run into such a maze of inexactitude and confusion that it has taken months, if not years, in some cases, to straighten things out. Municipal finance is even more difficult than the same operation in a private company, because of necessity there are many more limitations as to the manner in which business initiative can expand.—London, Ont., Advertiser.

NEW MAP OF NATURAL RESOURCES ISSUED BY GOV'T.

Attention is now being directed towards the country's natural resources, as never before, since it is generally recognized that only by a more widespread utilization of Canada's undeveloped lands, mines, forests, water-powers and fisheries can present day economic problems be solved.

The Natural Resources Intelligence Branch of the Department of the Interior has published a map showing the leading natural resources of each province. In Nova Scotia mixed farming, mining and fishing predominate; in Prince Edward Island fur-farming and agriculture. New Brunswick has large areas of timber, while mixed farming and fruit growing are outstanding interests. In Quebec may be found a wealth of timber for pulpwood, also minerals such as asbestos, graphite and molybdenite, while in Ontario somewhat similar opportunities exist.

In the prairie provinces the prospective settler or investor may obtain adequate returns on capital and labor in either grain growing, mixed farming or ranching, while in British Columbia timbering, fishing, fruit-growing and mining are among the leading industries.

In addition to information on natural resources the map shows all railways and trade routes. An interesting and valuable feature is a series of comparative diagrams illustrating the production and exports of the various provinces. A copy of the map may be obtained free of charge upon application to the Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

TWENTY YEARS AGO

Extracts from the Cranbrook Herald of this date, 1901

A bridge is badly needed over the St. Mary's River at the mouth of Perry Creek. No improvement in the district is needed worse.

Discussion as to the wisdom of applying for incorporation as a city is now taking place, action having been *deferred till this time at the wish of* large property holders, such as the C.P.R. and V Hyde Baker. It is felt that considerable advantage might accrue from incorporation.

Copper cents are being introduced into the west. Keep your business at home and the copper cents back in the east where they belong.

W. H. Bollock-Webster, chief of the provincial police in the Kootenays, has been in the city on an inspection this week.

A. B. Grace and wife of Fort Steele, were Cranbrook visitors last Saturday.

John Macdonald has secured a license and will open a new hotel in Marysville shortly.

THEATRE GOERS APPRECIATE PLAY OF "JUST SUPPOSE"

In the presentation of "Just Suppose" at the Auditorium on Wednesday evening, lovers of comedy-drama were accorded a rare treat. Although the play was of the lighter variety it was nevertheless one of the best of its kind ever presented to a Cranbrook audience.

The caste was of a high order and Graham Velsey proved his talent beyond a doubt in the role of the Prince of Wales as also did Miss Kathleen Wallace (the Prince's sweetheart), and Walter Howe, as the Marquis of Karnaby, to say nothing of the excellent support given them by the remaining members of the caste.

The scenery and lighting effects blended beautifully with the play and helped to give it the refined character which was so pleasing to the audience, which showed its appreciation by persistent applause.

NORTH AMERICAN COINS OFFER INTERESTING STUDY IN NUMISMATICS

Early History Wrapped Up In Old Coins and Tokens Used In Pioneer Days

(Special to The Herald)

Invermere, B.C., Jan. 7th. — The coin collection of Mr. W. A. Hunter of Toronto comprising exclusively coins, medals and tokens of the continent of North America was recently sold by auction through a Philadelphia dealer. There were over 800 lots offered and as these in many cases included as high as twenty pieces it is safe to take as an average that the collection must have contained in the neighborhood of over one thousand pieces.

The collection was one of particular interest to Canadian collectors containing as it did many of the old time Indian medals given chiefs by the ruling sovereigns of Great Britain and also the large bronze medal commemorating the Hundredth anniversary of the founding of the Hudson's Bay Company. These are offerings *which rarely present themselves now* and in the sale they brought very high prices.

In Western Canada the art of coin collecting is one that is rarely heard of. The average man on the street contents himself happy in the belief that if he lays by a sufficient number *of current coins of the realm that is* all that need worry him. Those who advance a little further picture that the coins of Canada or of the provinces which now form our great Dominion consist of the one cent, the five, ten, twenty-five and fifty cent pieces, in all possibly ten or twelve *in number. It may be of passing* interest to them to know that Canadian coin collecting offers to the student one of the largest fields in art that can be taken on cheaply. There is no end of the number of coins, tokens which have passed for money and medals that are obtainable at small cost by patient search. An easy calculation puts them down at say twenty-five hundred pieces. A range of this size of course goes back to the time when the provinces of Canada were in possession of the French, passing on through hard times of the early thirties of the nineteenth century, and the '40 period when the Bank of Montreal, the City Bank, the Quebec Bank and the Bank du Peuple each and all issued their own copper or bronze currency. Through each of the provinces from Nova Scotia on the Atlantic to British Columbia on the Pacific. Only the later provinces *of the prairies are the ones without* a series of provincial coins. Even these however do not lack their trade tokens, such as the barber checks of Tobin of Winnipeg, the hand made tokens used for crossing the Red River bridge at Winnipeg, and above all the numerous and many mediums of exchange from brass to the paper Hudson's Bay blankets which were issued by the Hudson's Bay prior to the federation of 1869. Each and all of these many and numerous pieces have a history of their own and above all each and every series marks a period or event in the history of the British Colonies which now form the Dominion of Canada that are well worth studying out.

Then there are the medals. Medals throughout the Dominion have been struck to commemorate every event of outstanding and of great local prominence and their number is legion. On top of these again are the war medals of which those issued in the late world's war are of present interest.

The western youth who starts in to collect has not the same chances afforded him as he who lives in the eastern provinces but for all that *bulk in the start is the great thing* and there is probably a wider range of foreign money in proportion obtainable in the West than might be had by easy work in the middle or east of Canada. Once get the bulk and the art of distinguishing and bringing into classes soon follows.

Sally,	Beaverdell	41
Company Mines		12,222
Total		12,415

Fredericton, N.B.— Census returns for the Maritime Provinces show New Brunswick with an increase of 10.29 per cent. in population; Nova Scotia for the ten years had an increase of 6.55; while Prince Edward Island has gone back to the extent of 5.54 per cent. The population of Nova Scotia, New Brunswick and Prince Edward Island are 524,579, 388,092 and 88,536, *respectively.*

THIN, FLAT HAIR
GROWS LONG, THICK
AND ABUNDANT

"Danderine" costs only 35 cents a bottle. One application ends all dandruff, stops itching and falling hair, and, in a few moments, you have doubled the beauty of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. "Danderine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right *to the roots, invigorates* and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant.

The Railways of Canada Draw to Your Attention the

NEW RAILWAY RATES!

FOR PASSENGERS

The advance on sleeping and parlor car tickets authorized in 1920 has been cut in half—the advance made on ordinary fares at that time having been completely taken off many months ago.

FOR SHIPPERS

The percentage of advance granted to the Railways in 1920 has been reduced ten points. In addition to a five point drop at the first of the year.

These changes became effective December 1st.

Your cost of Living

YOUR cost of living should be directly affected. If it is not it is because (1) as the railways have pointed out before, the actual money paid for their services is an almost negligible factor in making prices, and because (2) even the huge sum now cut out of the railways' revenues and amounting to approximately—

$25,000,000.00 *

annually—becomes a very small fraction of a cent when split up among the billions upon billions of small and large articles which constitute the freight traffic of Canada during a year. And because

(3) the Court which has the power to control railway rates is not able to direct who is or is not to get the benefit of reductions. In other words, whether these savings in railway charges are passed on to you—or whether they are absorbed in marketing, cannot be controlled either by the railways or the public.

BUT this fact remains: a very great sum of money—enough to build every year a small city, or a Quebec Bridge, or four hundred and fifty of the newest and most powerful locomotives—is now removed from the revenues of the Canadian Railways and should be reflected, at least to some extent, in the family budgets of all Canadians !

WHETHER your railways can continue to function without the revenue thus lost to them, is an experimental problem facing the various managements. It depends largely on whether traffic keeps up or falls off—and whether costs rise or decline. But the managements are attempting the problem cheerfully and with determination to keep Canada's railway service the cheapest, mile for mile, and among the most efficient in the world!

* Estimated.

The RAILWAY ASSOCIATION *of* Canada

FINK'S | FINK'S | FINK'S | FINK'S | FINKS'

OUR BIG SALE STARTS SATURDAY

SALE STARTS SATURDAY MORNING, JANUARY 14th, AT 9 a.m., AND ENDS ON SATURDAY NIGHT, JANUARY 21.

SEVEN DAYS OF WONDERFUL MONEY SAVING OPPORTUNITIES.

DON'T MISS IT—BE EARLY

For many years January has been the time when shelves are emptied of merchandise and the decks cleared for stock-taking on February First, and this year we will excel our efforts in former sales.

Of all the great annual events for which this House is famous, there is none that more forcibly demonstrates the supremacy of Fink's than this sale. This January sale will include the best assortments and the best values of the year. Many new customers are attracted through the satisfactory purchases made by friends who have found the sales abundantly supplied with merchandise just suited to the season's needs, our January sales have become a by-word with all true economists, they afford the opportunity which you cannot afford to miss.

SEVEN STRENUOUS DAYS FOR OUR SALES FORCE BECAUSE ALL ECONOMICALLY MINDED PEOPLE WILL BE ON HAND EARLY TO GET FIRST CHOICE OF THE BIG BARGAINS.

Store will be Closed all day Friday, January 13th

Positively No Exchanges or Refunds made on Sale Goods

CASCARETS 10¢

For Constipated Bowels, Sick Headache, Sour Stomach, Bilious Liver

The nicest cathartic-laxative in the world to physic your liver and bowels when you have Dizzy Headache, Colds, Billousness, Indigestion, or Upset, Acid Stomach is candy-like "Cascarets." One or two tonight will empty your bowels completely by morning, and you will feel splendid. "They work while you sleep." Cascarets never stir you up or gripe like Salts, Pills, Calomel, or Oil and they cost only ten cents a box. Children love Coscarets too.

Listen!

Have you heard about Peps? Peps is a *scientific preparation* put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

Peps contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

FREE TRIAL Cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co, Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

Peps

MOTHER! CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! you must say "California" or you may get an imitation fig syrup.

THE "MAPLE LEAFS" ARE COMING HERE SATURDAY NEXT

An entertainment of a remarkable nature is promised at the Auditorium Saturday night, January 14th, when the famous entertaining troupe of the Fourth Canadian Division, The Maple Leafs, will appear one night in their great overseas revue entitled "Camouflage." This is the identical entertainment these soldier-actors gave behind the lines in France, after they had all seen active service at the front, and which they also presented for two years in England before they come to Canada.

With a record of fifty weeks of triumphant touring through Canada, breaking records in many cities, playing two weeks each in Toronto, Vancouver and Winnipeg, and four weeks at his Majesty's Theatre, Montreal, this brilliant organization will make its appearance locally under the direction of Capt. M. W. Plunkett, who, it will be remembered, has directed the productions of The Dumbells here.

Elaborate and colorful stage settings, brilliant costumes, original and striking feature acts, and individual merit make this show unique in the history of the Canadian stage, according to the verdict of the leading newspaper critics throughout the country.

The entertainment is made up of skits, sketches, concerted numbers, duets, dances, both spectacular and comic, and a series of highly contrasted solo numbers, songs, monologues and dances.

Among the individual members of the cast may be mentioned specifically Harry Ashton, the leading female impersonator, whose work is equal to that of any other female impersonator on the stage today; Jack Kelly who is said to make a perfectly irresistible ingenue; Pat Rafferty, an Irish comedian of rare gifts; Ben Allen, a character man who has made a big hit everywhere; Hughie Williamson, a veritable Theda Bara at vamping, and also a remarkable dancer; Morley Plunkett, one of the best singers of the troupe; Ernie Petch and Bob Anderson, two clever interpreters of comic songs; and Hughie Williamson and Jimmy Graham, dancers who present some novelties in terpsichorean art.

Edmonton, Alta.— The establishment of a finishing station in Belgoum, Holland or France for finishing Canadian cattle prior to their being slaughtered and delivered as fresh beef to London and other centres is proposed by the Alberta Minister of Agriculture. In these countries a shortage of livestock and surplus of pasture is said to exist and these cattle could be brought to the pink of condition after undergoing the long voyage. Canadian grain would be shipped overseas for this purpose.

SAVE YOUR MONEY

Economize—Avoid wasteful spending. Join our Christmas Club and save systematically during the coming year.

Your Saved Money

will come in handy for Christmas or provide a snug nest egg for the starting of a regular savings account. Save a little money every week for the next fifty weeks and on December 11th, next, you will receive a check for the lump sum, plus interest.

We Have Several Plans

that will make it easy for you to Save as you Earn.

Deposit	$ .25	weekly and get	$ 12.50 plus int.
Deposit	.50	weekly and get	25.00 plus Int.
Deposit	1.00	weekly and get	50.00 plus Int.
Deposit	2.00	weekly and get	100.00 plus Int.
Deposit	5.00	weekly and get	250.00 plus Int.

Or join the 1c, 2c or 5c progressive class. The 5c progressive class, for instance, starts with a deposit of 5c the first week; 10c the second week; 15c the third week and so on and at the end of 50 weeks amounts to $63.75, plus interest. Other progressive classes operate in like manner.

The reducing classes start with the largest payment and reduce each week.

Imperial Bank of Canada

CRANBROOK, B.C.

ANOTHER EMPIRE ZINC PLANT

(Continued from Page 1)

other producer in the world, including Germany.

The whole of the output is sold for nearly seven years ahead on a satisfactory price basis.

The potential production of the company's plant may be summarized thus: (a) Approximately 42,500 tons annually of electrolytic zinc, (b) 150,000 tons of sulphuric acid, equal to, say, 300,000 tons of superphosphate per annum; (c) 15,000 tons annually of high quality zic-lead-oxide pipment, for both inside and outside paints; (d) 5,000 tons annually of high grade zinc oxide (lead free) for rubber and paint purposes; (e) 175,000 pounds of cadium annually; (f) 1000 tons of cement copper precipitate as a by-product; (g) 750,000 ozs. of silver annually; (h) 10,000 ozs. of gold annually; (i) 20 tons to 30 tons daily of lithopone.

The raw materials used for the foregoing are: (a) Zinc concentrates from Broken Hill; (b) Zinc-lead-silver-gold ores from the Mount Read and Rosebery mines.

Summary of the Process

The process developed, perfected and employed at Risdon by the Electrolytic Zinc Company of Australasia, Limited, may be summarized as follows: The zinc concentrates are first roasted in specially designed mechanically rabbled muffled furnaces reducing the sulphur content from 30 per cent. to 4 or 5 per cent. without the use of extraneous fuel, the gas produced averaging 6.5 per cent SO_2, which goes to the sulphuric acid plant. A secondary desulphurizing and sulphating roast again in specially designed furnaces reducing the sulphide sulphur to 2.5 per cent. and producing sufficient sulphate zinc to supply all the make-up sulphuric acid used in the subsequent operations of leaching electrolysis, and lithopone manufacture, and also completely eliminating all traces of chlorine.

The leaching of this finely roasted calcine with sulphuric acid produced during the electrolytic production of the zinc. During this leaching, which is carried out by means of air agitation, the acid soluble zinc is carried out by means of air agitation, the acid soluble zinc in the calcines which is 86 per cent. of the total zinc is rendered soluble in the form of sulphate of zinc. A mixture of this solution with the insoluble portion of the calcine is settled in Dorr thickeners 50 feet in diameter and 14 feet high. The clear solution is removed by decantation and the insoluble portion is filter pressed and the filtrate added to the clear solution. The filter cake is washed and the washings added to the clear solution.

This clear solution is purified by agitation with zinc dust and by filtration, yielding a solution of sulphate of zinc suitable for electrolysis and a zinc dust recipitate, which contains commercially recoverable quantities of cadmium copper and basis zinc sulphate. These are later recovered, the cadmium in metallic form, the copper as a 70 per cent. precipitate, and the basic zinc sulphate in a form for return to the electrolytic cells.

Delivery of the Clear Solution

The clear solution is then delivered to the electrolytic cell room and submitted to electrolysis, where the zinc is deposited on aluminium sheets and stripped there from after three days in the form of thick coherent sheets. During the electrolysis the zinc content of the solution is considerably reduced and sulphuric acid is reformed in the solution, which is then returned for the leaching of further calcine.

The sheets of cathode are passed through a drying tunnel to remove all moisture, and then melted in the melting furnace. The molten metal is cast into ingots, and automatically conveyed to the water front to be mechanically handled on to outgoing ships.

The dross from the melting furnace is used for the production of high grade zinc oxide.

The insoluble portion of the original calcines assays 12 to 15 per cent lead, 18 to 21 per cent zinc and 20 ounces of silver. This is treated in modern Wetherill grates for a high grade zinc lead oxide and the clinker is sent to the lead blast furnaces.

The plant is laid on a hillside on the river Derwent, five miles north of the city of Hobart, Tasmania. The wharf at the works has 30 feet of water at low tide, and is fitted with mechanical leading and unloading installations with a capacity of 200 tons per hour. The raw materials, such as concentrates, calcines, coal, etc., are handled by grabs and by a series of belt oenveyors into large storage bins on the foreshore, whence they are conveyed by belts to the treatment plants, being removed from the bins by electric shovels.

The plant side rises on an easy grade to a height of approvimately 200 feet at the high water mark, and is laid out to use gravity wherever possible. The works are connected with the Tasmanian government Railway System (3 ft. 6 in. guage) and the company's private line comes in through the centre of the plant.

Electric Power Supply

The electric power is supplied by the Hydro-Electric Department of the Tasmanian government at 11,000 volts and feeds the power station on the works, which will contain seven rotary converters, each 3,000 kilowatts capacity, transforming 11,000 volts A.C. to 500 volts D.C. These were all manfactured at Rugby, England, by the British Thomson Houston Company. The power house also contains large stationary transformes beaking down the high tension current to 415 volts for driving the motors throughout the plant. The cell room contains 432 large electrolytic cells ocntaining approximately 14,000 aluminum cathodes (British Aluminium Company) and 14,000 lead anodes (Broken Hill Associated Smelters,) and the plant as a whole will use 30,000 h.p. 24 hours per day, 365 days per annum.

Such is the biggest zinc producing plant in the world. Conceived in 1915 and completed in 1921, the harnessing of the Great Lake waters of Tasmania, six years of world-wide study and concentration of effort by the best metallurgical brains in Australia, and the expenditure of £5,000,000 of capital, have given the empire not only the bigest individual plant, but one which will be a profit producer when low prices are closing the plants of America, Belgium, and even Germany.

DR. KING FOR THE CABINET

(Fernie Free Press)

Dr. J. H. King, minister of public works in the British Columbia cabinet, and R. E. Beattie, Liberal member-elect for East Kootenay in the federal parliament, visited Fernie on Tuesday, and a meeting of prominent Liberals was held. It appears that the Hon. Dr. King has been offered the portfolio of public works in the federal cabinet by the Hon. MacKenzie King, and Dr. King wished to ascertain the views of Mr. Beattie and his supporters in East Kootenay riding regarding the possibility of Mr. Beattie resigning in his favor.

The meeting here did not commit itself in any way but left the decision to a meeting which was to be held in Cranbrook later in the day.

Dr. King, Mr. Beattie and several prominent Liberals journeyed to Cranbrook for the meeting.

In an intervew with some of the Fernie delegates they stated that although the meeting was not unanimous in favor of Mr. Beattie resigning his seat in favor of Dr. King, an official statement has been issued, the text of which reads:

After an informal meeting of the Liberal supporters held in Cranbrook last night, R. E. Beattie, member-elect for East Kootenay, offered to resign with a view to opening the seat in this constituency for Hon. Dr. King, who has been offered the portfolio of public works in the federal cabinet by Hon. MacKenzie King.

"The acceptance of Mr. Beattie's resignation was left in abeyance in order that the situation may be thoroughly considered in the different parts of the riding."

Lieut. Ben Allen, late of the 16th Canadian Scottish, now Actor Manager of the 4th Canadian Division "Maple Leafs," who come to Cranbrook in their Overseas Revue "Camouflage" on Saturday, January 14th

SEED POTATO FAIR NEXT MONTH TO STIMULATE INDUSTRY

A Seed Potato Fair will be held at the Opera House, Chilliwack, February 23rd, 24th and 25th, 1922, in conjunction with the annual meetings of the B.C. Dairymen's Association and B.C. Stockbreeders' Association.

Prizes will be given for both certified and uncertified seed potatoes. Those desiring programs can obtain the same in about two weeks' time from C. Tice, Department of Agriculture, Victoria.

On Wednesday evening, February 23rd, addresses will be given on seed potato certification, marketing and diseases of the potato.

This is the first attempt at a Potato Seed Fair in this province and it is hoped it will be successful.

Vancouver, B.C.—It is reported here that a number of Canadian capitalists have under consideration the project of constructing a large elevator at Kobe, Japan. The movement of Canadian wheat which commenced last fall to Japan is responsible. So far 750,000 bushels have been booked to that country.

Vancouver.—Rumors in grain trading circles here have it that the United Grain Growers, Ltd., intend to build a big elevator in Vancouver to take care of the wheat to be shipped to Europe via this port.

QUESTIONS AND ANSWERS ON FORESTRY

Q How many railway ties are used for the Canadian railroads each year and what wood is chiefly employed?

A. About twenty million ties. Jack Pine is the wood used for this purpose. A comparatively recent development has been the creosoting of Jack Pine ties so as to double their life.

Q. I have an island in Georgian Bay on which considerable white pine of large dimensions is growing. Would it be a paying proposition to do some cutting?

A. Better consult the nearest sawmill. Get a practical lumberman to look over your island and estimate the commercial quantity. Don't start cutting until you know your costs and your market.

Q. I have heard it said that of the millions of little trees found growing in a forest only a trifling percentage survive. How far is this true?

A. Ninety-five per cent of the juvenile trees in a forest eventually sacrifice themselves in order that five per cent may live.

Q. Has Ontario any scientific plan whereby the present deterioration of her white pine forests can be corrected?

A. Only last week the Provincial Forester of Ontario announced the scheme whereby ten thousand acres of barren lands should be planted up with pine seedlings each year and this would eventually supply the province with as much mature pine as is now cut annually.

Q. Does our Canadian system of licensing timber differ from that of the United States?

A. Materially so. The people of the United States own less than one quarter of their total forest area whereas the people of Canada own about 90 per cent of the forest area. In Canada we merely lease timber cutting rights and retain state control so as to enforce sensible methods in forest conservation as a safeguard to future generations. The United States unfortunately faces the ticklish problem of applying mandatory laws on forest conservation to private property. In Canada we can enforce forestry provisions on our own estate which is a much simpler job.

Vancouver, B.C.—A new market for Canadian granite is being developed by the Granite Island Quarries of Jervix Inlet, B.C. Sample blocks sent to Australia and New Zealand were very well received, because of splendid coloring and freedom from rust stains and from them have come the orders. The last ship to Australia carried a comparatively large consignment.

LAND REGISTRY ACT (Section 160)

IN THE MATTER of Lots 14 and 15 of Lot 30, Group 1, Cranbrook City, Map 953, Kootenay District.

Proof having been filed in my office of the loss of Certificate of Title No. 4620-1, to the abovementioned lands in the name of Daniel Woodward, and bearing date the 2nd May 1917. I hereby give notice of my intention at the expiration of one calendar month from the first publication hereof to issue to the said Daniel Woodward a Provisional Certificate of Title in lieu of such lost Certificate. Any person having information with reference to such lost Certificate is requested to communicate with the undersigned.

Dated at the Land Registry Office, Nelson, B.C. this 22nd day of December, 1921.

E. S. STOKES, Registrar

LAND REGISTRY ACT

RE APPLICATION NO. 11579-I

TAKE NOTICE that application has been made to register Myles A. Beale and Agnes Elwell as owners in fee under a Tax Sale Deed from the Collector of the City of Cranbrook, bearing date the 6th day of December, 1918, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of the City of Cranbrook more particularly known and described as Lots 19 and 20, Block 27, Cranbrook City aforesaid, Province of British Columbia, Map 669-E. You are required to contest the claim of the tax purchaser within 45 days from the date of the service of this notice (which may be effected by publication hereof as hereunder directed), and your attention is called to section 36, Chapter 127 R. S. B. C. 1911 with amendments, and to the following extract therefrom:—

"and in default of a caveat or certificate of lis pendens being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the names of Myles A. Beale and Agnes Elwell

AND WHEREAS on investigating the title it appears that prior to the 21st day of August, 1916 (the date on which the said lands were sold for overdue taxes), you were the registered and assessed owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of Myles A. Beale and Agnes Elwell unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

Dated at the Land Registry Office, Nelson, B.C., this 9th day of January, A.D. 1922.

E. S. STOKES,
Registrar.

To Erastus Allen Lezert.

I direct service of this notice to be made by publication thereof once a week for two weeks in a newspaper circulating in Cranbrook, B.C.

E. S. STOKES,
46-47 Registrar.

Montreal, Que.—In 1879 the number of miles of steam railways in operation in Canada was 6,484; in 1889, 12,628; in 1899, 17,141; in 1909, 24,104; 1919, 38,896; 1920, 39,196. The tons of freight carried increased from 8,348,310 in 1879 to 127,429,154 in 1920, while the gross earnings rose from $19,925,066 to $492,101,104 during the same periods.

KEEPING UP

Here at the beginning of another year it is perhaps fitting that we should reiterate our promise to those who use Pacific Milk.

As you know, the quality of our product is the same today as it has been from the first and we again say it will not change in the future.

The standard which has given Pacific Milk its tremendous sale will be maintained.

FINDLAY CR'K. TRAPPERS HAVE NARROW ESCAPE FROM DEATH IN WILDS

Immersed in Icy Water One Makes Thirty Mile Tramp For Aid

(Special to The Herald)

Invermere, B. C., Jan. 7.— There was recently fought out to a finish one of those grim occurences which so often come into the life of a trapper or those whose calling takes them into the wilderness of the forest.

Early last fall two men, Walter Hickey, a teamster, and Robert Scott, camp cook, joined together to trap for the winter season up one of the branches of Findlay Creek near to its upper waters. They carried their arrangements to completion and in the early fall moved in for the winter. Up to the present this winter has been an early and severe one, standing out prominently in the meteorological records as one that is cold. This, coupled with the misfortune of going through the ice, is what brought disaster to these two men.

Findlay Creek is one of the chief tributaries to the Kootenay river after it once enters the Columbia and Kootenay river valleys. It is a large stream and has many far reaching branches. These take their rise in the high unpeopled valleys of the Purcell Range of what is incorrectly spoken of as the Selkirks.

Many miles beyond the furthest up habitation the trappers had their headquarters cabin. It was while on the creek that they both slipped into the ice cold water which was flowing down from the nearby glaciers. The weather at the time is reported to have been thirty-five below zero. This cold was so intense as to make it difficult if not impossible to make a fire by which to dry their clothes stiffening on them with the frost acted as conductors to their persons with the result that they had not travelled far before both were freezing. Hickey got into the worst condition and Scott, like a true companion, helped him along the ten or more weary miles which lay before them before they would reach their headquarter's cabin. After building a fire and providing for further fuel and creature comforts for the sufferer Scott then went in search of help. The nearest was at Canal Flats, thirty miles away, and it took him two days in his crippled condition to cover the distance. He reported the case to Game Warden Hardwick Grainger who immediately set in motion for the relief of Hickey. He secured the services of Oscar Ecstrom as guide and helper. Ecstrom has for several years trapped in that locality and knows the country as a book. At the earliest possible moment the start was made with supplies and restoratives. The journey was over rough up-hill country and on snow shoes. It is so rugged and rough in its character that, well seasoned, strong and husky as both these rescuers are, it took them about two full days to reach the cabin where Hickey lay suffering.

Hickey has lived here for many years, having been a freighter for Messrs. Burns and Jordan in the construction of the railway. When the world's war broke out in 1914 he joined up, enlisting either at Cranbrook or Calgary.

It is not an uncommon thing for the trappers to be caught in this way Two are now missing from the neighborhood of Golden. These occurences bring to mind similar ones of years back and one old timer has related to your correspondent how a young man named McVittie many years ago went through into the waters of the Kootenay river, how he did not receive prompt attention and when he reached a settlement his toes were beyond recall. There was no medical attention handy, so after giving such assistance as the slender supply of carbolic acid on hand afforded, they sharpened up a pair of blacksmith's nippers and with this forceful tool cut off the blackened toes, bundled the victim up, freighted him 100 miles to Golden from where he was taken to Calgary where one foot had to be amputated and the toes cut off the other. The patient revived.

While the occurence might have ended tragically, yet owing to the good work of Game Warden Grainger and the happening of milder weather, Walter Hickey was brought into town and is now at the district hospital receiving the best of care and attention from the skilled staff and Dr. E. E. Coy, the district surgeon. Scott, the other man, is so far recovered as to be able to move about and is almost out of medical care.

GOLDEN LAND DISTRICT

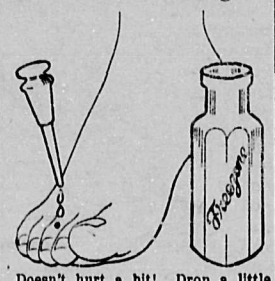
DISTRICT OF EAST KOOTENAY

TAKE notice that Lionel Edward Robin Booth of Alix, Alta., occupation Rancher, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted at the South west corner of Lot 10325, Group I, Kootenay District; thence North 20 chains; thence West 20 chains; thence South 20 chains; thence East 20 chains to place of commencement.

LIONEL EDWARD ROBIN BOOTH.
21st Noember, 1921. 42-50

CORNS
Lift Off with Fingers



Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the callusses, without soreness or irritation.

ATTOR.-GEN. PERSISTS IN DETERMINATION TO RETIRE FROM GOVT.

Despite the felicitations extended to him at the Liberal love-feast at Vancouver last week, and the warm encomiums showered upon him by the after-dinner speakers, Hon. J. W. deB. Farris has not been prevailed upon to reconsider his decision to retire from his dual portfolio as attorney-general and minister of labor in the Oliver government at Victoria. He will hold office till the end of the month, it is announced when his resignation will become effective. He will retain his seat in the Legislature, however, and intends to resume law practice once more in Vancouver.

The appointment of a successor to Mr. Farris as attorney-general will open the third by-election the Oliver government will have to face, and if Dr. Kings succeeds in getting himself transferred to Ottawa there will be a fourth and possibly a fifth involved. Nor would it be surprising if following the big Liberal province-wide convention this month at the Coast there is a further shaking up of the cabinet involving more by-elections. The more there are the more likely it will be that Premier Oliver will call a general election rather than risk so many by-elections which might go against him. It would seem indeed, a more prudent course to pursue for any government in such circumstances.

NATIONAL RAILWAYS LOOKING UP; NOW MAKING SOME PROFITS

OTTAWA.— The operating results of the Canadian National Railway for the month of November were handed to the Canadian Press last week by Major Graham Bell, deputy minister of railways and canals. They indicate a net earning of $734,149.65 for the month, as against a deficit of $1,525,805.14 for November, 1920. The net earning was distributed as follows:

Canadian Northern Railway, $435,-011.03.

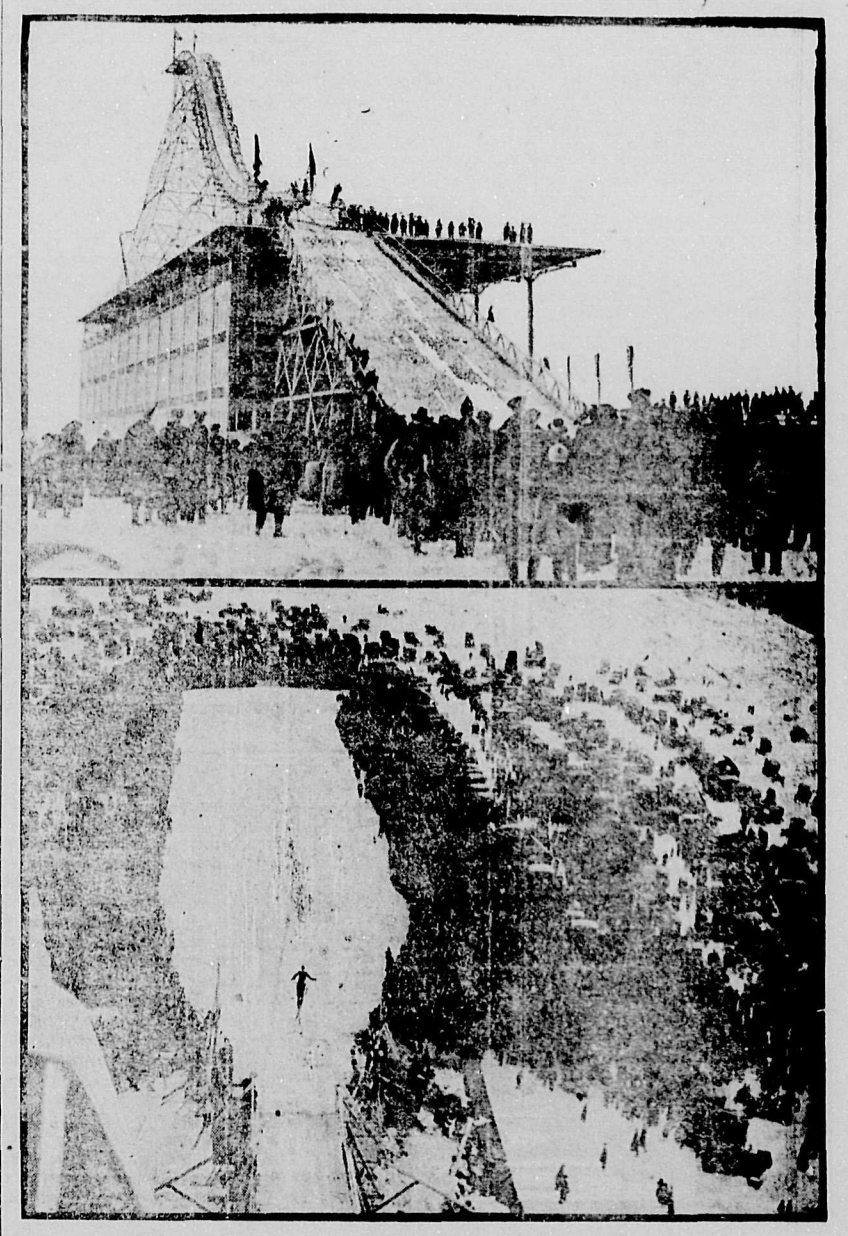
Canadian Government Railways, $256,342.35.

Grand Trunk Pacific, $42,796.27.

Total, $734,149.65.

The total improvement for the eleven months over the same period of 1920, is $17,654,434.52.

Calgary Winter Carnival



At Calgary Carnival last winter. First picture shows the Toboggan Slide, second picture Ski Jumping.

Calgary Winter Carnival will be held early in January, and the programme will include curling and skiing, hockey, skating and all other events usual in winter sports.

The people of the city are giving enthusiastic support to the organizers of the Carnival. Handsome trophies will be offered. Close on forty rinks will be provided for the bonspiel. Daring ski jumpers will attend the Carnival. Speed skaters will turn up from all parts of the West.

Calgary winter carnival promises to be as interesting an event as the Calgary Stampede in the autumn.

ROD AND GUN

Lovers of the out-of-door life will welcome the January edition of Rod and Gun of Canada, which contains many interesting and instructive articles and stories dealing with Nature and her children, in the winter. "Teens Less Twenty," is the title of a romantic story by Charles Dorian, the well known short story writer, which appears in this issue along with several other stories by such well known writers as F. V. Williams, Harry M. Moore, E. T. Martin and others equally famous. For the firearms crank there is the usual valuable Guns and Ammunition department and special articles on rifle and revolver shooting. The fisherman takes a trip along a Nova Scotian trout stream, by Bonnycastle Dale, while Robert Page Lincoln's articles open the road to the thrills of ice fishing. The trapper is taken care of by M. U. Bates and Archie Joscelyn, in the Trap Line department. The January issue of the national sportsman's magazine of Canada is published monthly by W. J. Taylor, Limited, Woodstock.

11 OUT OF 83

cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases — of consumption — of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick —and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted.

When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 50c. box.

Zam-Buk

BAYER
ASPIRIN

WARNING! Say "Bayer" when you buy Aspirin. Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

REDMAC

Redmac has become a household name—you cannot go out to spend the evening without hearing the name Redmac. People of society and those of humble life are today placed on the same plane, they are both human, both subject to the ills of life, Redmac heals them alike, and at the same price. No man or woman is too poor or too wealthy for Redmac. Sold by Cranbrook Drug & Book Co.

Jacob Heppner appeared before Police Magistrate Leask on Monday last in answer to a charge of being in unlawful possession of a returned soldier's discharge papers and service button. The prisoner pled guilty to the offense and had no apology to offer. He was fined $100 in addition to two months imprisonment. It appears that this is the party who for several days had sold maps around the city, inducing sympathetic housewives to purchase maps which were supposed to have been made by the bogus soldier, who was gassed at Passchendale and wounded at Zeebrugge. The tale of woe seems to have appealed to unsuspecting householders but did not have the desired effect on the police authorities. Enquiry is now being made as to the whereabouts of the real owner of the discharge papers, who, no doubt, has had them stolen from him.

W. D. HILL has decided upon a novel idea for four weeks. Kindly read carefully our plan to reduce our very heavy stock of Ladieswear and Staples as well as Boots and Shoes.

We will refund in Cash to every Tenth Cash Customer one-half of their purchase. For instance—A customer purchasing $3.00 worth of merchandise, if she be lucky enough to be the 10th purchaser, will receive $1.50 in actual Cash. Please note carefully that this will mean every 10th Cash Customer, 20th Cash Customer, 30th Cash Customer and so on. But please note that the Customers will commence with No. 1 each morning. Should No. 10 Customer be lucky enough to purchase a Coat, Suit or Dress, or anything amounting to even $50.00 or $60.00, she will be promptly paid one-half the amount before she leaves the store, in Cash.

This Sale is authentic and WHEN HILL PUTS ON A SALE — IT'S GENUINE

This Novel Sale Commences on

JAN. 7th

An absolutely correct accounting will be kept of every purchase and we invite inspection from any reputable person.

THE DRY GOODS SPECIALIST

. Local News .

Mr. Seaton, of Kimberley, was in town for a short time on Monday, on his way up to Skookumchuck Creek.

—

Mrs. D. Jackson, of Calgary, is in the city for a time, visiting at the home of her brother, T. D. Caven.

—

Born.—To Mr. and Mrs. G. W. Patmore, on Saturday, January 7th, a daughter.

—

Paul Nordgren, general storekeeper of Yahk, formerly of Bull River, was a visitor in town on business last Saturday.

—

E. D. Steves, of Lethbridge, Alta., spent a short time in the city this week before continuing his journey to points west.

—

Born.— At the St. Eugene Hospital on Saturday, January 7th, to Mr. and Mrs. J. S. Thornley, a daughter.

—

The Methodist Ladies' Aid will hold a sale of home cooking in the old gymnasium on Saturday afternoon, March 11th. Afternoon tea will be served.

—

There will be a lightning tournament at the Chess Club meeting on Monday evening next at the Y. M. C. A., and as many members as possible are asked to be present.

—

W. J. Ratcliffe is expected to leave the hospital this week, where he has been making good recovery from his accident last week. He was out on crutches on Thursday, election day, though it will be some time yet before he recovers the proper use of his leg.

—

J. A. Buckham, of Golden, spent a couple of days in Cranbrook the middle of the week It is understood he was the harbinger from the Liberals of the Columbia riding and came to report on the feeling of that section in respect to the advent of Dr. King into this riding for federal honors.

—

Chas. Johnson, of the city police, is nursing a sore finger as a result of a tussle on Wednesday night with a demented prisoner from Yahk who is being held under restraint at the city goal. Con. Johnson sustained a badly bitten finger.

—

Franklyn Kenneth Hall, the infant son of Mr. and Mrs. Hall, of Bull River, died today, Thursday, at noon time. Born only on Sunday last, the little fellow seemed to get a splendid start in life, weighing at birth over eleven pounds. A day or two later however he was taken with convulsions, and it seemed little could be done to save him. The funeral will probably be held tomorrow, Friday, interment being made in the local cemetery, service being conducted by Rev. F. V. Harrison, of Christ Church. Much sympathy is felt for the bereaved parents and family. Mr. Hall came in from Bull River to this city on Tuesday.

—

An alarm of fire was raised just before two o'clock on Tuesday morning, when the building used by Frank Passmare on Cranbrook Street, near the G. W. V. A., was ablaze. The fire had apparently originated from an old stove used to heat the building. Fire seems to have fallen out of the bottom of the stove, burning away the support of the stove, which then collapsed. This was the state of affairs discovered by the firemen. The fire had got a good hold on the floor, and the alarm was not given till signs of fire were seen through the roof. Prompt work by Chief Reece and the brigade soon got the blaze under control. The location is a hazardous one for a fire to get started in, the buildings close adjoining being old and for the most part of an inflammable nature. No car was in the building at the time, and the damage is estimated at about five or six hundred dollars.

Sanitary and Heating Engineers

Con. W. H. Laird was a visitor here this week from Yahk.

—

Mr. T. Hickey, of Erickson, spent Wednesday in the city.

—

Mr. A. W. Greenwood, of Fernie, was in Cranbrook for a short time Wednesday.

—

Born.—To Mr. and Mrs. Hall, of Bull River, on Sunday, January 8th, at the Cottage Hospital, a son.

—

Mr. H. Purcell, well known resident of Kimberley, spent Monday in Cranbrook.

—

Mr. G. G. Moffatt of Fernie was a business visitor here for a short time the early part of this week.

—

There was a good crowd at the Hard Times Dance held on Tuesday evening, at the G. W. V. A. Hall. The Cranbrook Dance Orchestra provided good music, and dancing was continued till well into the morning.

—

Born.—To Mr. and Mrs. Robert Eley, of this city, on Saturday, January 7th, a son.

—

The Oddfellows are holding a dance in the Auditorium on Wednesday evevening of next week, Jan. 18th. Music will be provided by the Cranbrook Orchestra.

—

The Curling Club Dance on Burns' Night, the 25th inst., promises to be one of the big events of the season, and already indications are seen that it is going to be one of the most successful events of its kind ever put on.

—

Constable John Roberts has been off duty for a short time this week as a result of injuries sustained on Monday night when at the fire on Cranbrook street he fell in the darkness into an automobile pit in the building.

—

His Honor Judge Thompson has this week been in Fernie holding court. Among the cases to come up was that cancerning the holding-up of Kerr and the alleged theft of some of his whisky last fall. Three men were brought back from the States in connection with this episode.

—

Word has been received in the city to the effect that immediately after leaving here last week Dr. King was in the Comox-Alberni riding, presumably to ascertain whether any opportunity would offer to obtain a seat in that constituency for the dominion house in case the negotiations in the East Kooenay riding fell through.

—

The curlers started in this week in earnest on the competitions, and play has been going on in the Galt and Fink competitions lately, as well as the wind-up of the president and vice-president's competition. There has been a wonderful run of good curling weather this season, and the four sheets of curling ice at the rink have been in almost constant use.

—

The Herald has received from Mr. Robert Finlay, a subscriber of Ilford, England, some views of his district, among which are some showing Cranbrook Park in that neighborhood. A number of stories are advanced as to how this city got its name, and one wonders when the name occurs a number of times in the Old Country, to which part this city owes its name. Mr. Robert Finlay, by the way, is a relative of Mr. Jas. Finley, well known in this city.

—

The annual meeting of the Cranbrook Agricultural Association was called for Friday evening last, but the response was so poor that no meeting could be held. This has disappointed those interested in the Association, and it has been decided that it is useless to try and call any further meetings till such time as the public evinces some interest in the matter. It is possible some further effort may be made to stir up a little enthusiasm, but if it is felt that the people of the do nat care about the work of an agricultural association, nothing further will be done.

BUXTON KEY CASE

Fits vest or hip pocket or ladies handbag without bulging, because it spreads the keys out flat. Comfortable to carry; saves wear on cloths. Each key in a definite location, easy to find — even in the dark! Keys easy on, easy off, but held securely. Each hook holds two keys. All leather.

50c to $3.00

W. H. WILSON
Jeweler

W. S. Cameron of Skookumchuck was a visitor in the city Wednesday for a short time

—

Born.—To Mr. and Mrs. R. P. Johnson, of Kingsgate, B.C., on Thursday, January 12th, at the Cottage Hospital, a daughter.

—

Wilber Hill who was brought in from Bull River to the hospital here has been making good progress toward recovery during the past few days.

—

Rev. J. A. James, of the Presbyterian Church, Creston, will conduct the services in Knox Church, Cranbrook, on Sunday next. Rev. E. W. MacKay will be at Creston where he will conduct anniversary services.

—

The Fleishman Cup seems to have taken pretty firm root in Fernie, still another attempt made this week to lift it proving abortive. The some two rinks, skipped by A. W. Hodgson and W. F. Cameron wert down to Fernie on Wednesday, and the former lost out by two points, and the latter by one. There is nothing like trying, and if the curling season only lasts out long enough—though this is not saying just how long it would need — the trophy will yet come to Cranbrook, and to stay for a while, it is hoped.

AGENTS FOR WILLIS PIANOS

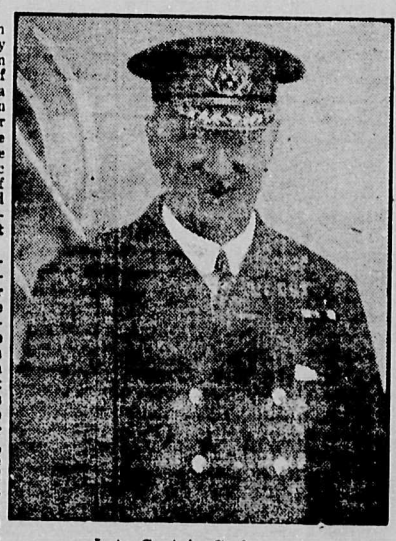
SEE THE WILLIS PIANOS NOW HERE

A Famous Sea Captain

Late Commander of the "Empress of France."

The Canadian Pacific recently lost by death in England one of their popular sea captains when Captain Ebenezer Cook, R.N.R., late commander of the Canadian Pacific liner "Empress of France" passed away at his residence at Great Crosby.

After conveying Mr. A. J. Balfour and other prominent Peace Conference delegates across the Atlantic, Captain Cook was taken ill on arrival at Quebec. He was lying ill on the steamer on her return voyage, and when the steamer reached Liverpool he was removed by ambulance to his home, but too late to recover.



Late Captain Cook.

The late Captain Cook, who was 53 years of age, was a man of fine appearance, and possessed a most courteous and genial disposition. He was looked upon as one of the most capable commanders sailing from the Mersey, and he performed excellent service during the war years.

Captain Cook was born at Tayport, and joined the Allan Line in 1893 as fourth officer of the "Carthaginian." Within four years he was promoted to chief officer of the "Tunisian," and he became the Commander of the "Orcadian" in 1907 On the commencement of the war the Admiralty placed him in command of the "Victorian," and later he was given the command of the "Alsatian," at that time flagship to the 10th Cruiser Squadron of the North Atlantic.

Following the Armistice, the Canadian Pacific Company retained him as commander of the "Alsatian," which liner, following her conversion from war service, was renamed the "Empress of France." Captain Cook has since sailed regularly on this liner, and he was very highly esteemed by ocean travellers, including such distinguished passengers on the "Empress of France" as the Duke and Duchess of Devonshire, Lord Byng (Governor-General of Canada), and the Rt. Hon. Mr. A. J. Balfour.

The high esteem in which the late Commander Ebenezer Cook was held manifested itself at the funeral which was attended by a large throng of mourners, colleagues and friends. The funeral service was offered at St. Luke's Presbyterian Church, Great Crosby, the service being conducted by the Rev. J. Vaughan, M.A., Vicar of Great Crosby. Captain Cook was a prominent member of the Masonic Brotherhood, being attached to Crosby Lodge 3714. At the funeral the Canadian Pacific Steamships Limited were represented by J. A. Martin, London Manager, who also represented Sir Thomas Fisher, general manager; Capt. J. V. Foster, Liverpool Steamships manager; W. J. Sargent, consulting engineer; Capt. Maxwell, marine surveyor; D. Hallan, chief catering superintendent; W. Davies, dock superintendent; Capt. A. H. Sargent, R. N. R.; A. C. Wilson, shipping master; T. McNeil, Liverpool general agent; C. P. R., who represented Sir George McLaren Brown, European general manager; R. A. Swain, passenger agent, C.P.R. A large number of the officers and staff of the "Empress of France" and "Empress of Britain" were present.

Many beautiful floral tributes were laid on the grave.

"Empress of France" arriving at Quebec, on which Captain Cook made his last trip to Canada.
