"Birth of A Nation"

THE SUPREME PICTURE OF ALL TIME

May Establish Library in City

Movement Now Under Way To Supply Long Felt Deficiency

OUT FOR MEMBERSHIPS

One often hears it stated that people today have little desire for the better things; that life means but one continual round of pleasure and amusement, the character of which in some cases is extremely doubtful. Reading, except of the newspaper and some story magazines, has been given little consideration. It was of interest therefore, to note that on Monday evening last a meeting was held in the Y.M.C.A. for the purpose of starting a library in Cranbrook, when about a dozen citizens were present. Pending another meeting, called for Monday, March 9th, tentative officers were appointed as follows:

President, G. J. Spreull; secretary, J. G. Cummings; book committee, H. L. Porter and the president and secretary; House and Rules committee, J. M. Clark and Mr. Stewart of the government office; Membership committee, Mrs. P. W. Willis, convenor, Mesdames J. G. Cummings, T. R. Flett, A. A. MacKinnon, J. H. McQuaid, F. B. Miles, F. G. Morris, Miss Flett, F. H. Pym, and Messrs. F. H. Dezall, H. S. Haynes, Rev. F. V. Harrison, and Rev. W. T. Tapscott.

The membership committee will make a canvass for members in the immediate future, the yearly fee being placed at $2.00. It is anticipated that they will have no difficulty in getting at least 120 members in the next two weeks and that the next meeting for the appointment of regular officers will be well attended.

Already offers have been received from citizens, of books for the library, while the book committee are also getting in touch with the Dominion and Provincial commissions at Ottawa and Victoria. The Rockefeller and Carnegie library commissions will also be consulted.

The committee will be pleased to hear from anyone having books they feel that they can spore for the library.

GYROS COMPLETE STATEMENT FROM PIERROT CONCERT

Below is published a statement handed to the Herald by the treasurer of the Gyro Club, giving the receipts and disbursements of the Gyro concert held recently for benevolent purposes. From this statement it will be seen that through the efforts of this club $138.80 was given to two worthy causes. The Gyro Club appreciate the support given them by the merchants of the city and the patronage extended to their performances by the public generally.

RECEIPTS

Donation to Salvation Army Christmas Cheer Fund	30.00
Donation to St. Eugene Hospital	108.80
	$448.50

Certified correct: Al. Knight, Pres.
F. W. Burgess, Treasurer.

Liquor Cases Come Up

A number of liquor cases have been disposed of this week in the police court, among them some of the Kimberley cases arising last week as a result of the raids there. In some instances the customary $300 fine was levied and paid, others again being unable to pay, and therfore forced to the equivalent of a jail sentence. In one instance a man who was charged over a year ago with an infraction of the law, but who has since been in the Uniter States, received sentence of a fine, for the old offence, which was paid. In the two cases of selling feer to non-members agninst the G.W.V.A., one case was withdrawn and in the other case a fine of $300 was omposed.

METHODIST W.M.S. CONCERT AND PROGRAM AT "BIRTHDAY PARTY"

Monday night the schoolroom of the Methodist Church was the scene of a birthday party which was held under the auspices of the Women's Missionary Society of the church. The occasion made one feel in a very touching manner advancing years, as in order to gain admission to the hall it was necessary to produce a penny for each and every year that one was old. The amount collected was about $40.00. (We will not state just who were present).

The chair was taken by Mrs. B. C. Freeman, who announced the following program, which was enjoyed by all present.

Piano Solo ..... Miss Sarvis
Vocal Solo ..... Mr. A. Shankland
Male Quartette
Messrs. Shankland, Shepherd, Lodge and Morton
Reading ..... Miss Myrtle Garden
Vocal Solo .... Mrs. McFadden
Violin Solo ..... Mr. W. Thompson
Solo and Quartette
Mrs. Kinghorn, Messrs Lodge, Morton and Shepherd
Reading ..... Mrs. A. W. Hodgson
Vocal Solo ..... Mrs. J. S. McIntosh
Piano Duet ..... Mrs. Ryckman and Mrs. R. Potter
Vocal Solo ..... Mrs. Kinghorn

After the concert the ladies served refreshments which were much enjoyed by all.

Harbor Commissioner Visits Here

R. E. Beattie has been a visitor in the city since Sunday, and expected to remain for about ten days, looking to the various interests he still retains here. Many old-time friends have been glad of the opportunity to meet him again, and to learn that even while moving in a considerably wider sphere as harbor commissioner, he still retains a warm spot in his heart for Cranbrook.

Big Trout Wins Prize Rod

For catching the largest Kamloops trout in local waters last summer on tackle from the Delany & Sinclair store, T. E. South captured the valuable prize rod, reel and outfit, put up by the firm of Needle and Fishing Tackle Co., through Delany & Sinclair, their agents. The prize was presented to the fortunate winner by H. J. Collier at the Rod and Gun club meeting on Wednesday of last week. A similar prize was won last season by Alex Hurry, his rod being one by Messrs. Alcock, Laight & Westwood, through the Cranbrook Drug & Book Co., the venue boing restricted to Moyie Lake. These two concerns and their local representatives were given a very hearty acknowledgent for the interest taken in the position of the angler.

Coming Events

Tuesday, Feb. 24: Meeting of Rod and Gun Club, City Hall, to discuss game regulations.

Friday, Feb. 26: Wrestling at Kimberley, Nick Bozinis vs. Aaron Davis, at Bigattini's Hall.

Sunday, Mar. 1: Public Meeting at the Auditorium, addressed by Mrs. Rose Henderson.

Thursday, March 5: Dance by the Banff orchestra, in Auditorium, Cranbrook.

Friday, Mar. 6: Women's Institute Hard Times Dance and Whist Drive, K.P. Hall. Cards 8 to 10; Dancing 10 to 2.

Sat., March 7th: "The Dumbells" in "Ace High" and "Oh, Yes!" at the Auditorium.

Fri. & Sat., March 13 & 14: Super-Special production, "Birth of a Nation," at the Star.

Tuesday, Mar. 17: G.W.V.A. Masquerade Ball at Auditorium.

TALK ON TELEGRAPHY AT WEEKLY GYRO LUNCH ON TUESDAY

At the meeting of the Gyro Club on Tuesday last, the members had the pleasure of hearing a very interesting vocational talk on telegraphy by the local C.P.R. telegraph agent, Gyro J. H. McLean. The speaker showed that the method of sending messages by other means than by written or spoken word had been known and used for a long time before the electric telegraph. Bonfires, flag-waving, and similar methods were cited. About 1837 electric telegraphs were developed as commercial speculations. The first ever constructed were laid down by Wheatstone and Cooke on the London and Birmingham Railroad, but were discarded as impracticable. In 1844 the Morse system came into use, this code remaining in use today though many improvements have been made in the instrument for sending and receiving messages.

Mr. George Wilson, of Lethbridge, was a visitor at the luncheon.

DONATIONS TO PIANO FUND BEING RAISED FOR S. W. SCHOOL

The teachers of the South Ward School wish to acknowledge with thanks the following donations to their piano fund:

Challenges Jack Milo

Nelson Moe, of Yorkton, who was referred to in a recent issue, is going to be in Cranbrook on Wednesday next for a wrestling bout with Jack Milo. Moe is the man who claims that Milo has no right to claim the championship title of the light-heavyweights, and therefore sent him a challenge to meet him here or elsewhere. Accordingly, George Anton got busy and arranged a match between them. Both Milo and Moe Claim the light-heavyweight championship of Canada. Moe is an old master at the game of wrestling, and is well known. He has beaten some of the best men in the country. He claims to hold the light-heavyweight championship of Canada as well as a similar championship of Norway and Sweden. The match will be held under Police Gazette Rules, two out of three falls to count. The bout is being put on by George Anton, who deserves much credit for his efforts to provide good clean sport.

Fifteenth Wedding Anniversary

On Tuesday evening of this week a pleasant event was participated in by nineteen or twenty friends and neighbors of Mr. and Mrs. Wm. Henderson, when a surprise visit was paid to their home to mark the occasion of the fifteenth wedding anniversary of the wedding of Mr. and Mrs. Henderson. During the evening the visitors made a presentation to their surprised hosts in the form of a beautiful silver casserole, the gift being handed over to the surprised recipients by Mr. Jack McDonald on behalf of those present. Dancing, cards, songs, and a general pleasant social time sped the time along, and made a most enjoyable evening. Those attending were Mr. and Mrs. J. F. Lunn, Mr. and Mrs. Jas. McDonald, Mr. and Mrs. Jack McDonald, Mr. and Mrs. J. T. Martin, Mr. and Mrs. J. R. McKay, Mr. and Mrs. M. McCrindle, Mr. and Mrs. W. Harvey, Mrs. J. H. Spence, Mrs. A. Swan, Mrs. H. G. Flewelling, Mrs. H. Holdener, Mrs. H. Huggins. The fact of the lights going out did not interfere with the program arranged, the party carrying their own lights when they made their friendly invasion.

Cabinet Miniser In Alberta Says Election Imminent

That a federal election is in sight is the general impression all over the country it being generally felt that the announcement will be made possibly at the close of the session which it is said, is likely to be shorter on this account.

No less a person than Hon. Chas. Stewart, minister of the interior, in the course of a visit to Alberta, where it is desired he shall regain a seat, if possible, has said that there would be an election in the near future, and his mission west was to prepare the way for a Liberal success if possible in Alberta, and to assist in placing candidates in the field.

OBITUARY

THOMAS BATES

After a residence of about twenty years in the East Kootenay, death came on Monday morning, at about 5 a.m., to Mr. Thomas Bates, of Kingsgate. He was brought to the hospital here from Kingsgate the middle of last week, but did not long survive. He lapsed into unconsciousness on Saturday, from which he never recovered. Death was due to long continued and acute rheumatism, developing into other ailments, kidney disease being the specific cause of death.

For many months past the late Mr. Bates had been in anything but good health, and had gone to various places in the States for treatment, but getting little permanent relief. He had not been able to work since last summer, and seems to have gradually lost ground since that time.

He was in his fifty-third year, and first came to this country in 1905. He was at Moyie for some years, working in the St. Eugene mine, where it is presumed he contracted his rheumatism. Later he was appointed a fire warden for the district, and from that post was transferred to the station of the immigration department at Kingsgate. In 1923 he was appointed inspector in charge of the station there.

The late Mr. Bates was born near Burnley, Lancashire, England, One son still resides in the Old Country. and he is also survived by a daughter, Mrs. R. P. Johnson, of Kingsgate, and formerly of this city. Mr. and Mrs. Johnson accompanied Mr Bates to this city last week and were with him when the end came.

In former years Mr. Bates was a well known figure in political circles, being something of a public speaker. He was a staunch Conservative, and was active and loyal in the days when he was able to get around the district, and still a fairly frequent visitor to this city in his official position.

The funeral was held on Wednesday morning, services being conducted by Rev. F. V. Harrison at the Anglican church and at the cemetery.

The only fraternal organization in which the late Mr. Bates had membership was the Loyal Order of Moose, Fernie Lodge.

MRS. MARGARET JOHNSTON

The death took place at the St. Eugene Hospital, at 3.15 a.m., of Mrs. M. Johnson, of Alberta. Deceased had been a patient at the hospital for about two weeks. She had been staying previous to that at the home of her daughter, Mrs. J. H. Corbett, at Lumberton. Since early December. Her home was at Rimbey, Al-Calgary on Tuesday for interment Calgary on Tuesday for int erment there.

Mr. and Mrs. Kirk, of Kingsgate, are in the city to attend the funeral of the late Thomas Bates, also of Kingsgate.

It is stated that the wholesale fruit and produce firm of Plunkett & Savage have been considering locating a warehouse here, but reports that that had secured space in the basement of the Hanson block for the purpose were not confirmed by the lessee of the property at the middle of the week.

LOCAL SECRETARY OF Y.M.C.A. ATTENDS CALGARY CONFERENCE

Accompanied by Mrs. Clark, Mr. J. M. Clark left on Thursday evening last for Calgary, where on Friday and Saturday, a conference of secretaries of the Alberta division of the Y. M. C. A. took place. Mr. Clark, who returned on Sunday, states that he had a profitable and pleasant time. Prominent speakers were present to address the secretaries, these being Harry Ballantyne, national general secretary; Stanley Brent, national secretary for Western Canada and Lou Buckley, national boys' secretary.

Mr. Ballantyne spoke on the proposed change in the constitution and gave a lot of information on the financial and other conditions of the Association. From a membership of about 709,000 after the war, there were now over one million. He referred to the large place that the Y. M.C.A. had in the boys' life. They had also been the pioneers in the boys' work.

Mr. Buckley spoke about the big conference that is to take place in June, in Denver, Colorado, where over 600 delegates are to be present.

On Friday, the secretaries attending the conference were guests at a Board of Trade luncheon, where they had an opportunity of hearing Mr. A. M. Belding of the Telegraph-Journal and the Times-Star, of St. John, N.B., who is visiting cities in the central and western provinces, to present arguments in favor of carrying out in full the policy of conducting Canadian trade through Canadian channels. In asking the support of the Board of Trade he presented many arguments in favor of his claims. The Maritimes had a rightful claim as the winter ports of Canada, and the trade through them should be built up, thereby fulfilling pledges given them ever since confederation.

The speaker asserted the right of all ports to be protected and was of the opinion that the whole country would reap a benefit when they are made prosperous from an ever-growing commerce. More people will be profitably employed at the ports; more men engaged in railway transportation and there will be more consumers of what the rest of the country produces.

Local Angler Wins Croft Rod

During the annual meeting of the Rod and Gun Club last Wednesday, the presentation was made of the usual Croft prize rod, which has been made for several years past through their local agents, Moffatt's Variety Store. The winner this year was Mr. Wm. Smith, whose prize cutthroat trout weighed 3 lbs. 1 oz., and was caught in Mineral Lake, near Moyie. The Croft prize is a particularly valuable one, consisting of a $52 Champion Split Bamboo Fly Rod, with agate guide and tip, a $12 Rainbow Vacuum Enamelled Silk Tapered line, of 300 feet, and a $6 single action reel. This prize has been up for a number of years past, and always elicits considerable interest among local anglers. At the Rod and Gun meeting R. P. Moffatt handed the outfit to the winner, and a vote of thanks was tendered him and the firm he represents.

K. P. Anniversary Dance

The members of the local Order of the Knights of Pythias and their friends enjoyed a very pleasant evening in the hall of the Knights on Friday last, when they gathered to celebrate the 61st anniversary of the founding of this flourishing fraternal and benevolent organization. Social affairs held under the auspices of the Knights of Pythias have become noted for being thoroughly enjoyable and this occasion proved no exception. The first part of the evening was spent with cards. Many tables were in play whist being the order. Following the whist, dancing took place, being kept up till the wee small hours, everybody enjoying a very pleasant dance to the music of the Robinson orchestra, who despite the fact that it was their third successive evening engagement were right up to the scratch with their time and snappy music. The refreshments which were provided by the ladies of the Knights, were served about 12.30 and were the subject of much favorable comment, being enjoyed to the full by all.

OFFICERS ELECTED AT ROD AND GUN CLUB MEETING

The annual meeting of the Cranbrook and District Rod and Gun Club was held on Wednesday evening of last week, when the main business put through was the election of officers. Owing to a desire to get as large a representation as possible to discuss other matters, it was decided to adjourn till Tuesday so as to get if possible representatives from other clubs, and other parts of the district, in order to get as wide a discussion on a number of matters, such as fish and game regulations, etc.

The officers elected for the coming year were as follows:

Hon. President ..... Hon. J. H. King
Hon. Vice-Pres. ..... N. A. Wallinger, M. P. P.
President ..... E. T. Cooper
Vice-Pres. .... Dr. G. E. L. MacKinnon
Secretary ..... J. F. Guimont
Executive .... Wm. Whiting, L. Clapp, H. J. Collier, Alex. Hurry, F. H. Dezall, T. E. South, D. Halcrow.

A number of other matters were up for discussion, and were laid over. These included a notification from the department as to the opening of some lakes in the district for Kamloops trout, somewhat earlier than usual, and complaints from Yahk that deer had been killed in that vicinity in deep snow. The usual recommendations are being sought from the club on closed seasons, bag limits, etc, which are to be considered later. In regard to the operation of the hatchery again this season, the same committee in office last year be asked to carry on the work, and a proposal to re-engage J. H. Ryder, who last year did such good work as overseer of the local hatchery, was held over for a week.

A proposal to join in a movement from the Boundary district in the formation of a central association to work in the interests of the interior rod and gun clubs was not considered very favorably, the idea being expressed that it would be preferable to unite the East Kootenay Associations for the most effective work.

During the evening presentations were made as mentioned elsewhere, of prize rods and outfits won by local fishermen in connection with the competitions put on by the local stores.

Star Car Distributor Here

Mr. Godkin, of Calgary, representing the district distributors in that city for Star cars, was in the city for a day or two this week, and also made a trip to Kimberley. Co-incident with his visit here with the local agents, Messrs. Ratcliffe & Stewart, was the arrival also of a carload of 1925 Star sport models, which this firm took delivery of. This is the car hailed as the "car for the millions," with a "million dollar motor," and the smart looking cars attracted much attention as they stood outside the garage.

Arranging for "The Dumbells"

G. G. Garrette, business manager of the Dumbells, was a visitor in the city last week-end, arranging the details in connection with the appearance of his company here on the evening of March 7th. Mr. Garrette has been with the Dumbells in the same capacity since their inception, and reports his company has had a wonderful reception in the big cities where he has stopped. The program here is to consist of the best of their two revues, "Ace High" and "Oh, Yes!" the two being boiled down to a long single program. They take around with them two cars of effects, etc., and the company consists of over thirty people.

Mishaps on Kimberley Road

A double mishap was reported on Thursday from the Wycliffe road. The delivery truck of the Kootenay Trading Co. was burned on the road near Wycliffe, being a total loss. The same day two cars were in collision at Marysville, a stage car driven by Hedley McLeod meeting the McClure dairy truck at a turn in the road. Owing to the ruts it is understood that neither car could turn out to let the other pass. A passenger in the milk wagon had some ribs broken, and while the stage car was able to proceed on in spite of damage it had received, the other car was damaged more severely.

Grant For Govt. Phones

Dr. King Advises Board of Trade Provision is Made To Better Line West

NEW METALLIC CIRCUIT

In response to a request for its consideration made by the Board of Trade last fall, W. H. Wilson, president, is now in receipt of word from Dr. King to the effect that provision is being made by the government in its estimates for the installation of a new metallic circuit on the link in the government telephone lines between Yahk and Creston. Dr. King's letter reads as follows:

Office of the Minister of Public Works
Ottawa,
February 17, 1925

Dear Sir:—

It may be of interest to you to know that we are carrying an item in our Telephone Estimates for this year for the Yahk-Creston telephone line — installation of metallic circuit — $8,000.00.

Yours very truly,
J. H. KING.

The communication was read with gratification at an executive session of the Board held on Tuesday evening, as it is a much desired improvement in telephone comunication between East and West Kootenay.

The Board is also considering its advertising program for the year, and is already in receipt of considerable material from the department of the interior, and the parks commissioner's office that will be available for distribution. A quantity of maps will also be procured from Calgary showing the location of the trail from Alberta points, through Cranbrook and on south by various routes.

Spend Week-End in Fernie

Mrs. A. K. Leitch and daughter Asenath were week-end visitors in Fernie, leaving on Friday and returning on Sunday. Miss Miller of Jaffray accompanied them.

Wrestling at Kimberley

The wrestling fans of Cranbrook and Kimberley will be pleased to learn that on Friday evening of this week, at Bigattini's Hall, Kimberley, there will be a wrestling contest that will be well worth witnessing. The principals in the main bout are Aaron Davis, of Kansas City, who holds the middle-weight championship of Kansas state, and who wrestled with "Cyclone Thompson last week in Lethbridge to a draw. Davis ranges between 165 and 168. It is considered by those who know the two men that they are nearly an even match. His holding Thompson to a draw shows that he is a man of much ability. Davis is here on a tour, in an endeavor to clean up on the Canadian wrestlers. He is on his way to Spokane but stopped over especially to meet Bozinis, "The Greek Flash." Bozinis is in good form and will arrive here from Spokane on Friday, after having wrestled there Thursday night. Those who saw Bozinis wrestle with Sampson and know the wonderful ability of the Greek wrestler are all going to Kimberley to see the go.

Activity at Kitchener

The mill of the Continental Lumber Company at Kitchener, commenced sawing on Tuesday of last week, and has already booked orders that will keep it busy for many weeks. The firm has taken out a big cut of logs, and is putting in a dam up the Goat river, near the Leadville claims to give it a surplus of water to bring the logs down when the stream in low. The cut of logs for the Cranbrook Sash & Door Co., is very large and the report is that sawing will commence at that plant in April. Sleighing is still good at Kitchener and the log and pole haul will probably finish this week. The department of public works has given assurance that the new road between the river and Kitchener, which was built two years ago at a cost of about $22,000, will be surfaced this spring and put in fine shape, and it is expected the cut-off at Arrow Creek will also be built before mid-summer. Up to the present Kitchener is the only point at the east end of the Creston riding to file an application for a beer license.

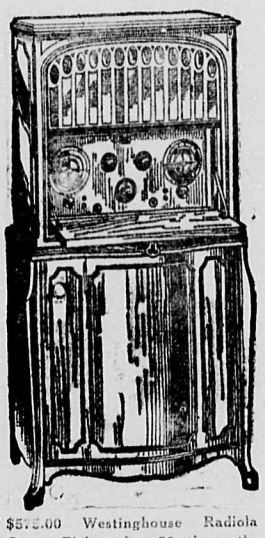
G.W.V.A. Masquerade Ball, March 17th

IN THE AUDITORIUM

Positively The Last Chance

One of the most successful contests ever conducted in Western Canada closes in a few hours. 100 Prizes costing $5,000 are waiting owners. Make us send you one. YOU STILL HAVE TIME. But Don't delay. Start now. It only takes an hour or two to solve this puzzle and send it in to us. You still have plenty of time, only hurry and start on it. Bear in mind that the contest closes February 28th, at Midnight; but anything received Monday, March 2nd, will be accepted.

FIRST PRIZE



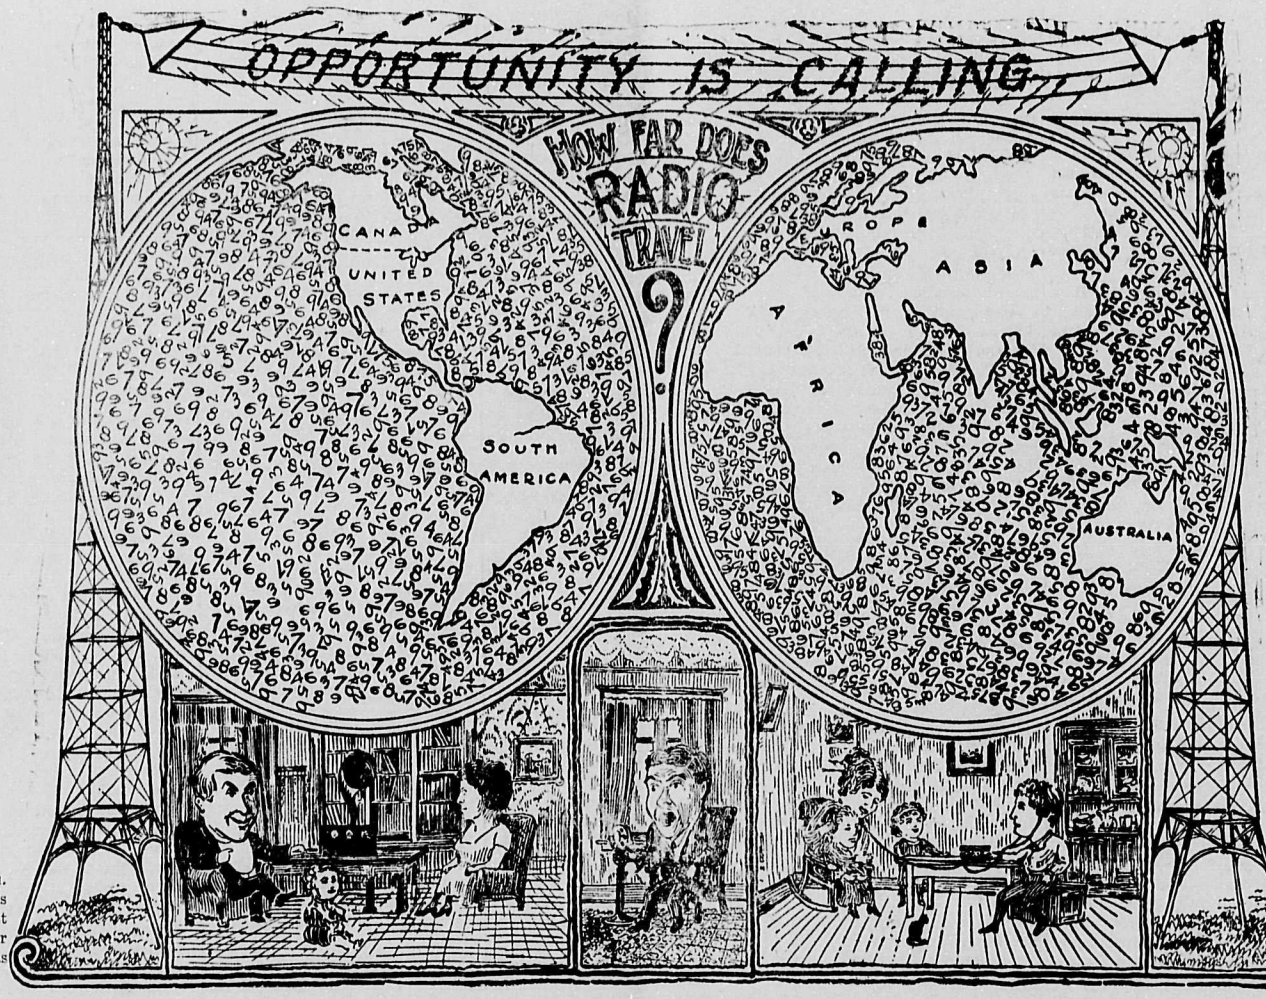
$570.00 Westinghouse Radiola Super Eight, plus 20 times the amount of money sent in up to $30.00.

START COUNTING NOW

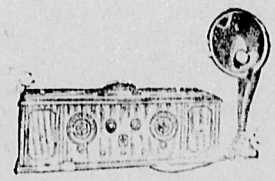
Take a pencil and put down the numbers as you stroke them out, then add them up. We would suggest that you cut the chart into dozens of pieces then check them from all sides.

SAVE THIS PAGE

It may mean $1270.00 to you. One Hundred Free Prizes. This is not a trick puzzle but merely a test of patience and skill. Surely your chance for winning is as good as anyone else's.

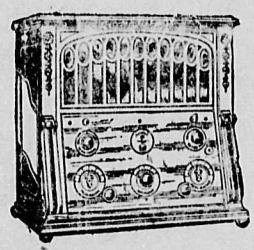


SECOND PRIZE



$350.00 Radio Super-Heterodyne plus 10 times the amount sent in up to $30.00.

THIRD PRIZE



$325.00 Radiola No. 10, plus 5 times the amount sent in up to $30.00.

35 BICYCLES GIVEN

Contestants standing from Sixth to Fortieth will be given the choice of a $45.00 Bicycle (Men, Women, Boys or Girls), or a $45.00 Radiola Three.

$5,000 in Prizes

FIRST PRIZE Has a Value Up to $1,270.00 Choice of—
$670.00 Ford Touring Car, plus 20 tims amount sent in up to $30
$575.00 Radiola Super 8, plus 20 times amount sent in up to $30
$450.00 Cash. plus 20 times amount sent in up to $30

SECOND PRIZE Has a Value Up to $650.00—
$350.00 Radio Super-Heterodyne, plus 10 times the amount sent in up to $30.00

THIRD PRIZE Has a Value Up to $475.00—
$325.00 Radiola No. 10, plus 5 times amount sent in up to $30

FOURTH PRIZE Has a Value Up to $325.00—
$265.00 Radiola Regenoflex, plus 2 times amount sent in up to $30

FIFTH PRIZE Has a Value Up to $110.00—
$80.00 Radiola 3-A, plus the amount sent in up to $30

SIXTH TO FORTY—
$45.00 (each) Radiola 3. or $45 (each) Bicycle.

FORTY-ONE TO FORTY-FIVE Choice of—
$35.00 (each) Radiola Loud Speaker or $25.00 (each) Cash.

FORTY-SIX TO SEVENTY-FIVE—
$14.00 (each) Brandes Table Talker or $10.00 (each) Cash.

SEVENTY-SIX TO ONE HUNDRED—
$7.00 (each) Headset or $5.00 (each) Cash.

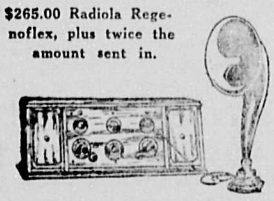
CLOSING DATE IS FEBRUARY 28th - STILL TIME YET!

Much interest has been taken in this competition, and solutions have come in from many of the outside points tin the district, as well as from the city. .. From as far away as Lethbridge even, replies and solutions have been received.

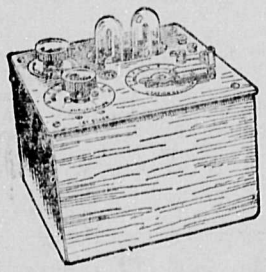
Although the special prize periods have expired, there is still an opportunity ..till ..the end of the month to get solutions in which will rank for the principal prizes. Extra copies of the puzzle may be had free of charge, or copies of the puzzle containing exceptionally plain figures may be referred to.

FOURTH PRIZE

$265.00 Radiola Regenoflex, plus twice the amount sent in.



THIRTY-FIVE



RADIOLA THREE, valued at $45.00 cash, will also be given.

FIFTH PRIZE

$80.00 Radiola Three A, plus the amount sent in.

$2,190.00 IN CASH

The cash prizes to be given away in the contest have a value up to $2,190.00.

THE PROBLEM

The problem is to find the sum total of the figures in the two circles, which, when added together, represent the total number of miles that Canada's most powerful broadcasting station can be heard. Every figure is complete and the drawing is entirely free from tricks and illusions, but like a lot of other things, it is not as easy as it looks. Figures range from two to nine, each standing alone thus, two, three, four five, six, seven, eight, and nine. There are no ones or cyphers in the chart. The tops of the sixes are curved, while the bottoms of the nines are straight. By looking at any figure carefully you can easily tell what it is. However, to pick out all the figures and add them together correctly is a task that requires both patience and skill. This is one of the most attractive figure puzzles that has ever been produced, and it would be worth while to solve, even though no prizes were offered. In the event that no one obtains the exact answer, the prizes will be awarded for the nearest correct solution. Accuracy and patience are the main factors for arriving at the correct or nearest count. Those who display these qualifications to the best advantage will solve the puzzle best.

$5,000 in Prizes FREE

No One Knows Correct Answer

To make sure that no one knew the exact or correct answer to the problem, or how many miles CFCN can be heard, Mr. H. W. Wood, president of the United Farmers' Association of Alberta, Mr. W. M. Davidson, member of the legislative assembly, also editor and publisher of the Calgary Daily Albertan, and Mr. J. I. McFarland, president and managing director of the Alberta Pacific Grain Company, Limited, kindly consented to erase one or more figures from the puzzle chart. This was done at different times, consequently no one knows just what numbers were taken out. Notes of these figures were made by Mr. Davidson, Mr. McFarland and Mr. Wood, sealed and placed in a safety deposit box, where they will remain until after the close of the contest.

Bear in mind that the correct answer was known before the judges erased some of the figures. After the contest is over, the judges will inform the Contest Department just what numbers they erased. These numbers will be subtracted from the original correct answer, thus giving the present correct answer.

SOLUTION AND REMITTANCE BLANK FOR CONTESTANTS

This contest is being run in conjunction with CFCN Radio Broadcasting Station, **All Contestants must use this blank when sending in solutions.** Calgary.

My answer to the problem is .....

I desire to enter your Figure Puzzle Contest, and herewith remit, in accordance with conditions of same, the sum of $ ..... which please place to my credit. Subscriptions collected from the following:

IMPORTANT:—BE SURE AND ANSWER ALL QUESTIONS, AND ADDRESS ALL COMMUNICATIONS TO

The Contest Dept., THE HERALD, Cranbrook, B.C.

General Rules

1. This contest is open to everyone except employees of The Cranbrook Herald.

2. Additional puzzle charts on a good grade of paper may be obtained by writing to this office. They will be mailed to you free of charge.

3. Competitors must fill out the entry blank and enclose a subscription of not less than $2.00, which will be credited to their accounts, both as entrance fee to the contest and as a prepaid subscription to the Cranbrook Herald, which will then be sent at the regular rate until the subscription expires.

4. The full amount of your subscription must be sent direct to Contest department of the Cranbrook Herald.

5. You have the same chance of winning a prize by paying a $2.00 subscription as you would have by paying a larger amount, but the amount of the first five prizes depends greatly upon the amount of subscription money you send in to the Contest Department.

6. The contest is open to both old and new subscribers alike, anyone may help you in collecting subscriptions or solving the puzzle.

7. Subscriptions for $2.00 and over are transferable, a subscription makes a very acceptable birthday or other present. The Cranbrook Herald will be sent to any address specified by the contestant.

8. In case of a tie for any prize a second puzzle will be presented, which will be as practicable and as solvable as the first. Only those tied will be permitted to solve Puzzle No. 2. Should two or more persons be tied for any prize, that prize and as many other prizes following as there are persons tied, will be reserved for them, before any prizes will be awarded for less correct solutions.

9. One person cannot win more than one Regular prize.

10. The Contest Department will be more than pleased to answer all questions regarding doubtful figures in the puzzle.

11. No entries unaccompanied by a cash subscription will be accepted. No solution can be changed after it is once registered.

12. If a subscriber, who has given his subscription to some other contestant to send in, desires later to send in a solution to the puzzle, he can do so. He does not require to send any further payment on subscription unless he wants to.

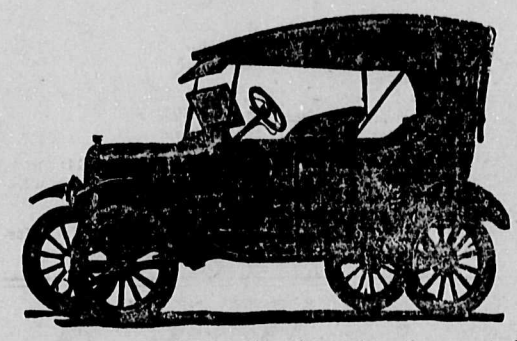
13. All cheques, Postal notes, bank, postal, or express money orders, etc., should be made payable to The Cranbrook Herald.

14. Only those tied will be permitted to solve Puzzle No. 2. There will be no Third Puzzle, and no remittances will be accepted on Puzzle No. 2.

15. The Contest will close in February, 1925, but send in your solution as soon as possible as there are some special prizes for early solution senders.

16. The Contest Department of The Cranbrook Herald reserves the right to alter the rules and regulations. Also to refund subscriptions and disqualify any competitors whom they consider ineligible. Also to finally decide all questions which may arise. Competitors must abide by their decisions.

FIRST PRIZE



$670.00 FORD TOURING CAR plus 20 times the amount of money sent in, up to $30.00.

LUMBERTON CHIPS

Mr. C. H. Werden, president of the B. C. Spruce Mills, Ltd., arrived in Lumberton on Monday of last week, from his home in Ashland, Wisconsin. Mr. Werden will spend some time in Lumberton in the interests of the Spruce Mills.

Mr. Thomas Melville, who is employed in the capacity of watchman, had the misfortune to injure his left leg while performing his duty in connection with his nightly inspection of the sprinkler system. Mr. Melville is confined to the St. Eugene Hospital for the present, and it is hoped that he will soon be able to resume his duties.

The regular social meeting of the Lumberton Club was held last Wednesday evening in the club rooms. A large number of members were in attendance at this gathering, eleven tables of empire whist being in play during the early part of the evening. A lunch was served by the committee in charge of arrangements, this being followed by dancing till midnight. The committee has decided to hold a raffle, the funds from which are to be devoted to a special purpose in connection with the club activities. Mr. J. Bartle, secretary of the club, has kindly donated a hand-painted pillow cover, the work being done by himself. This cover is to be raffled on next Wednesday evening, tickets selling at 25c each. The committee is meeting with marked success in the selling of the numbers and there will undoubtedly be a tidy sum realized from this means of raising revenue. The membership of the club is steadily growing and the interest among the present membership seems to be taking on new life. The attendance this month has exceeded that of any previous month since the organization of the club.

Messrs. I. Poole, secretary of the Mountain Lumber Manufacturers' Association, of Nelson, and A. Martin, of Vancouver, spent Tuesday of this week in Lumberton, on business in connection with the re-assessment which was levied by the government some time ago.

Miss Swanson is spending several days at the home of Mr. and Mrs. K. Lunn.

Pat Downey has been stricken with the gas fever, and has made the purchase of a Ford.

Vancouver.— The industrial committee of the Vancouver Board of Trade is in consultation with representatives of interests that propose to erect a plant for the handling of copra, soya beans and peanuts. Production will be oils and stock feed. This will be the first plant of the kind on the Canadian Pacific Coast. Raw materials will be obtained from the Orient.

GOV'T MAKES BIG IMPROVEMENT ON RED TRAIL; RELIEF WORK

(From the Fernie Free Press)

The relief work provided by the provincial government in the Fernie district is in a fair way to being completed this month.

The work at Crow's Nest, of widening the hill road around the south end of the lake will be finished on the 26th. Notwithstanding the disagreeable weather some valuable work has been done. The entire road has been widened so that two cars can pass at any point. The cost of the work at Crow's Nest will be $10,000.

Good work has also been accomplished at the hairpin turn. The smaller turn on the far side has been completely filled in and the foundation for the trestle across the big cut is in place and the bridge will be rushed to completion before the snow goes. Just about $9,000 has been spent on this work, the trestle will cost $3,500 and another $1,500 will complete the job. The original appropriation for relief work was $15,000, but the total amount spent will be in the neighborhood of $25,000.

The total amount of money spent in the district in 1924 was $85,000; $40,000 on bridges and $45,000 on roads, and it is sincerely hoped that we will be able to receive at least this amount for 1925. Fernie has 426 miles of roads, 125 gravel and 301 dirt, and it takes a lot of money for upkeep. In Superintendent Hayne, the district has a man who is a hustler and if given half a chance would make our roads a credit to the province.

MARCH ROD & GUN INTERESTING TO ALL SPORTSMEN

The stories in the March issue of Rod and Gun in Canada are sure to excite the interest of every sportsman. Staking All on Horse Sense, by E. Dalton Tipping; Western Experiences, by Donald Graham; The Tenderfoot, by Roderick O'Neill, are a few of the interesting stories contained in this number. Canada's Wild Buffalo, By Maxwell Graham, is an article brimful of interesting and valuable information on this subject. In addition there are the regular stories—That Tent and Thirty-Five Below, by F. V. Williams; Slightly Mistaken, by Martin Hunter; Some Adventures With the Great Horned Owl, by Bonnycastle Dale, and Emperor Geese & Queenly Swans, by J. W. Winson, which cover a variety of subjects, and the departmental editors, W. C. Motley, R. . Lincoln, C. S. Landis and M. U. Bates have brought their departments up to their usual high standard, helping to make the March number one of the best yet.

Published monthly by W. J. Taylor, Ltd., Woodstock, Ontario.

Success at 40

Twenty years ago Walter S. Gifford of Salem, Mass., went to work as pay-roll clerk for the Western Electric at Chicago. Last week he was elected president of the American Telephone and Telegraph Co., the biggest public service corporation in the U. S. He is 40 years old.

BEN ALLEN, of "The Dumbells" in "OH, YES!" which comes to the Auditorium on Saturday night, March 7th.

"THE DUMBELLS" COMING TO AUDITORIUM SATURDAY, MARCH 7

The world famous "Dumbells Company," under the personal direction of Capt. Mert. Plunkett, will offer their latest and most successful revue, "Oh, Yes!" at the Auditorium Theatre for an engagement of one night only, Saturday, March 7th.

Among the outstanding features of this new revue are Al. Plunkett's songs, "Do Shrimps Make Good Mothers?" "Cross-Words," and a new "fly" song. Ross Hamilton sings, "The Kiss That I Got in the Moonlight," and "My Dream Boy." "Red" Newman has two great songs, "Let's Keep the Money in the Country" and "How Does the Milk Get Into Cocoanuts?" Another great comedy song is Pat Rafferty's "Lips That Touch Kippers Shall Never Touch Mine." Stan. Bennett has a couple of delightful songs, one of them being "Colonel Lipstick of the Cold-cream Guards." "Jock" Holland leads the beauty chorus in "Where Are The Girls of the Old Brigade?"

There are two great comedy sketches, one called "Red Justice" and the other "Some Billet." In these humorous travesties "Red" Newman, Pat Rafferty, Morley Plunkett, Stan Bennett, and "Jock Holland, are afforded ample scope for their individual characterizations, which are so well known and liked by the "Dumbells" patrons.

Captain Plunkett and his "Dumbells Orchestra" provide a half hour of harmony and syncopation, including in their repertoire a bit of everything from jazz to classical selections.

"Oh, Yes!" is a splendid successor to " Ace High," which broke all Canadian records in its twenty-six weeks on the road. The company remains exactly the same, but the revue is entirely new from start to finish, not a line, song or setting of "Oh, Yes!" ever having been used here before. In fact, this is the first appearance of this company in Cranbrook since 1920.

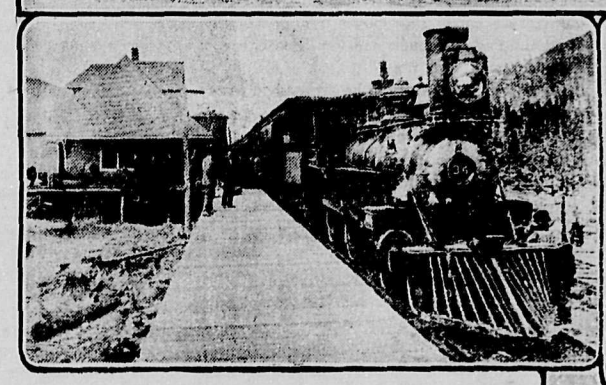
Shot Down

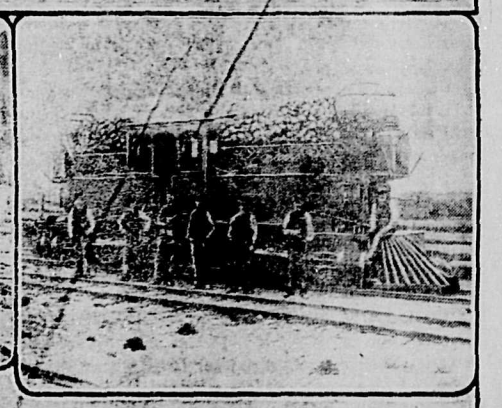
Glenn Young, Dry Klan leader of Herrin, Ill., who was shot down in the latest riot at that place. He leaves a blind widow, who lost her sight in rioting last year. The town is again under martial law.

After eating or smoking Wrigley's freshens the mouth and sweetens the breath. Nerves are soothed, throat is refreshed and digestion aided. So easy to carry the little packet!
WRIGLEY'S
-after every meal

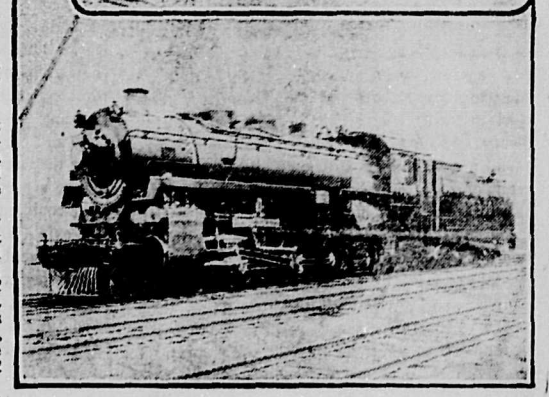
Golden.—After scouring the United States for the right kind of land for fur farming, H. S. Sutherland, of Portland, Oregon, recently concluded the purchase of a large tract of land in the heart of the beautiful Columbia River Valley, 45 miles to the south of here and near to the town of Spillamacheen. There are muskrat houses on Mr. Sutherland's property from which, it is stated, a revenue of $2,400 was secured last season. Cattle and sheep ranching on a large scale will also be undertaken by Mr. Sutherland.

Fortieth Anniversary of Canada's First Trans-Continental System Marks Centenary of Locomotive.





Above is an unknown artist's conception of a test of speed on the Baltimore and Ohio Railway in 1830, between a horse-drawn car and Peter Cooper's diminutive locomotive "Tom Thumb". On the left is seen the first passenger daily from the East at the Canadian Pacific Depot, Fernie, B.C. Right, a double-ended wood-burning locomotive imported to America in 1872, and used on the Toronto Nipissing Railway.—Below, the "2300", representing the acme of locomotive efficiency, as now operated by the Canadian Pacific.



TWO events make 1925 notable in the annals of rail transportation. It marks the centenary of the locomotive engine and the fortieth anniversary of the completion of Canada's first transcontinental, the Canadian Pacific Railway's main line from Montreal to Vancouver. The first opened a new chapter in the history of the world; the second a new chapter in the history of Canada.

Looking back over the events of the intervening century it will readily be agreed that the introduction of the locomotive was one of the most important events in modern history. It has enriched the life of the Old World by delivering to it at low cost the products of the ends of the earth; while it has brought within the reach of the pioneer on the frontiers of civilization highly finished products which can be developed only where a numerous population makes possible a minute division of labor. It has given the settler in Northern Alberta, over 5,000 miles distant from London, a market in that great metropolis just as certain as that enjoyed by the English farmer. It has also made the same settler as much a customer of London as are the people of near-by countries.

The locomotive engine made its first appearance in Canada in 1837 on the Champlain and St. Lawrence Railroad. This road was only 16 miles long, and ran between the town of La Prairie on the St. Lawrence River and St. John's on the Richelieu. This railway was opened in 1836, being operated by horses during the first year.

However, it was not until with the incorporation of the Grand Trunk Railway in 1852 that the railway era in Canada really began. While a beginning had been made in 1837, still during the next fifteen years only 50 miles of line were added. The Grand Trunk linked up Ontario and Quebec, and gave both provinces direct connection with the Atlantic coast through Portland. It also laid the foundations for direct connection between that port and Chicago. Much railway building followed in Ontario. The next project of importance was the building of the Intercolonial, which was begun in 1868, and completed in 1876. This gave Ontario and Quebec direct connection through Canadian territory with a Canadian port on the Atlantic open all the year round. In the meantime an agitation for the building of a railway to connect Ontario and Quebec with the Pacific Coast culminated in the incorporation of the Canadian Pacific Railway.

On November 7th, 1885 at Cragellachie in Eagle Pass, a gorge in the Gold Range, British Columbia, Sir Donald A. Smith, afterwards Lord Strathcona and Mount Royal, drove the last spike in the main line of the Canadian Pacific Railway, thus connecting Montreal with Vancouver. This was a notable event, not only in the history of Canada, but of the British Empire. By the connecting of the Pacific Coast with Montreal Canada secured its first transcontinental railway. Indeed, it was the first real transcontinental on this continent, for while in 1869 the east coast of the United States was connected with San Francisco by rail, and several other such connections have been added, still even now no single railway in the United States extends from Coast to Coast as does the Canadian Pacific in Canada. November 7th was also a notable day for the British Empire in that the Canadian Pacific provided a short cut from Britain to the Orient. As Sir Charles Tupper in his Reminiscences has pointed out, it brought Yokohama three weeks nearer to London than it was by the Suez Canal.

The history of the Canadian Pacific Railway is the history of Greater Canada. When it was first proposed there were only four provinces in Confederation, Ontario, Quebec, New Brunswick and Nova Scotia. Between 1870 and 1873 Prince Edward Island, Manitoba, and British Columbia entered, the last mentioned on the express condition that it would be connected with Eastern Canada by a line of railway. At that time Manitoba was a mere postage stamp in dimensions, and the regions between it and the Rockies were unorganized territory.

The promise of the Canadian Pacific not only brought British Columbia into Confederation, and gave Canada a window on the Pacific; but the building of it, by establishing direct and quick communication between the east and the west fixed the destiny of the vast regions west of the Great Lakes and north of the 49th parallel. The ties of sentiment were thus strengthened by the economic link of steel. Fifty years ago it was by no means certain that the territories between Lake Superior and the Rockies would not pass into the hands of the United States. The shortest route from Eastern Canada to Fort Garry, now Winnipeg, was via Chicago and St. Paul. Trade moved north and south rather than east and west, so that political absorption seemed likely to follow American economic penetration.

It is with the development of Western Canada that the fortunes of the Canadian Pacific have been indissolubly linked. As it has expanded the West has grown. In 1885 there were hardly more than 180,000 people in the whole country west of the Great Lakes. As a result of the Riel Rebellion the country was also in a state of utter confusion. Still the year 1885 marks the real beginning of the period of western development. The country continued its policy of aggressive construction by adding feeders to its main line. This encouraged settlement, for settlers felt themselves secure as long as they were not too far from the railway. Note how the population on the plains began to increase. In 1885, when there were not more than 1,000 miles of railway there were only 130,000 people in that vast territory between Winnipeg and Calgary and Edmonton, one-half of whom were located in Manitoba. Within the next 20 years, the prairie provinces, with about 4,500 miles of railway, had a population of 800,000. By 1923 these provinces had 20,000 miles of line, of which 8,500 belonged to the Canadian Pacific, and their population was 2,000,000.

The driving of the last spike at Craigellachie also marked the opening by the company of the most aggressive and sustained immigration and colonization campaign that Canada has witnessed. From that time to the present the company has spent nearly $70,000,000 on its immigration and colonization activities. And it got the immigrants too. During the years preceding the incorporating of the company immigrants were coming to Canada at the rate of only 36,000 a year. This was a very light inflow, for away back in 1832 as many as 52,000 were received; but during the period 1881-91 immigration was very nearly trebled; that is it came at the rate of 92,000 a year. Indeed, during the last two decades of the last century the Government seems to have left immigration pretty much to the company, for during the 1882-1902 period, the total expenditure on immigration was only $5,475,000, as compared with an appropriation of $3,400,000 this year. Through the company's agencies have come the greater proportion of the over 5,000,000 immigrants received during the last 40 years.

Coincident with the driving of the last spike at Craigellachie the company launched out as a promoter of foreign trade and transoceanic travel. In this department not only has it been by far the most important factor in Canada, but one of the most important within the British Empire, which is saying a great deal, when it is recalled that the latter is the greatest commercial unit that the world has ever seen. Within less than nine months after this spike had been driven there arrived at Port Moody, the then terminus of the Pacific, a brig with the first cargo from Japan for the railway That little brig the "W. B. Flint" of 800 tons, has grown into a great fleet of over 400,000 tons, sailing on two oceans, and linking Europe, America, Asia, and Oceania. In 1887 a regular trans-Pacific service was established, and in 1902 a similar service was launched on the Atlantic. Begun originally as a feeder to the freight department of the railway, the passenger feature of these steamship services has now become of chief importance. As an evidence of how the trans-Pacific trade has grown it may be said that in 1885 Canada sold to China only $5,972 worth of products and to Japan only $21,780 worth, whereas during the 12 months ending October, 1924, her sales to China were $14,612,482 and to Japan $26,879,033.

ANOTHER MILESTONE

IF the Herald may be permitted to point it out, without having first referred it to the great self-constituted I AM of East Kootenay journalism, this issue of the paper marks an entry into the twenty-seventh year of history. This period bridges a long span. It harks back to the time when Cranbrook was an uncertain point in a sparsely settled district that the pioneers were hopeful of, but not sure about. They took the chance, and those that have stayed with Cranbrook all through these years have had the satisfaction of seeing steady development without any boom madness. Steady industrial influences have grown in the city and district and carried the place along as they have prospered, till now Cranbrook's strong position is due to the fact that it leans not upon one of nature's resources, or any single industrial activity, but has a variety of interests contributing to its business pulse.

As might be expected in steering a course of such length in a growing western town, the paper has had shoals and narrows to navigate, and the pilots have changed more than once. Through thick and thin, however, in times when the horn of plenty seemed close at hand, or when the editors found it necessary to tighten their belt in lieu of a meal; and whatever the personal opinion on national and other issues of its editors may have been—through it all the paper seems to have stuck pretty close to its purpose of being a mouthpiece to echo the story of the development and opportunities of the place, and to champion whatever might seem to be the various steps through which the ends striven for were to be attained by the community.

Sins of omission and commission by former regimes are hard to live down. No atonement can in some cases suffice for them. Nevertheless it must be recorded at this time, at the turn of another page in the volume of the years, that an adherence to principles is worth while. A refusal to compromise on a number of questions has cost money in the form of business which might have been had, has cost support which may still be had as a sort of reward to recede from positions taken up—but the allurements have been passed up. Hard work is the outcome of such policies, but at least there is satisfaction in the maintenance of an uncompromising front.

The outstanding event in the year just closed from the point of view of Herald annals is the launching of a newspaper enterprise in the town of Kimberley by the proprietors of this paper. Contrary to the studied reports being circulated, this second paper is not being issued as a localized edition of another paper, or vice versa, but for reasons of economy which must be obvious it is found expedient to print the two papers in the same establishment. This in no way prevents them being separate identities as newspapers.

With the continued goodwill of its widening circle of friends, and those whose sense of fairness cannot be warped by every wanton influence brought into play, the Herald faces another year determined to merit to the utmost the friendships it has had evidence of.

* * * * *

SHOULD WATCH BOTH ENDS

USING its customary procedure, the government gathered information against a club in the city for selling beer illegally, and has been engaged in prosecuting the case. The premises in question are duly licensed to sell beer, but restrictions are laid down as to whom it shall sell to. The general opinion is that the place was being conducted along generally similar lines to other clubs at various points. The law provides that the beer shall be purchased through government stores in the regular way by individual members, and lockers provided for keeping the beer, members being allowed the privilege of going there to drink, and taking a friend. But the point arises if the government had knowledge, as it must have had, that the beer on these premises was not being consumed regularly why steps were not taken to put the purchase on the footing called for by the strict letter of the law. In other words, if the government allowed irregularities in the purchase of the beer, is it not a natural conclusion that there will also be some laxity in the enforcement of the regulations surrounding its consumption?

By the simple expedient of tightening up its liquor store sales, the government could largely eliminate the necessity for such distasteful episodes as invariably occur when information is procured in this way by informers. The police have a good idea of the ultimate disposal of a good deal of liquor purchased in a perfectly legal way, and they should be given free access to the records of the stores where the liquor is procured. The government would be better employed in watching its sales than in checking up the resulting cases of over-consumption. It's just like stopping to bind up some small scratches when there is an artery bleeding.

The government's policy of making the sale of beer freer and less restrictive has not secured the desired results in stopping illicit or irregular sale, and now it is proposed to open the regulations wider when there will be a new crop of law infractions to contend with.

* * * * *

PEACE TIME HEROES

THE diphtheria or "black death" epidemic recently at Nome, Alaska, provided an epic of heroism that was compressed down in the daily newspapers to far less space than it deserved by the volume of other news more spectacular perhaps, and so more appealing to the public. While columns were being devoted to the efforts being made to reach a man imprisoned in a Kentucky cave, a very few inches sufficed to tell the story of the self-sacrificing labors of a doctor and a nurse in combating an epidemic which might have taken toll of hundreds of lives had it not been checked. Prompt remedial measures with such supplies as were at hand and the stringent enforcement of what restraints and restrictions were known to be in the public interests to prevent the undue spreading of the disease, together with constant and unremitting toil till such time as additional supplies could be brought in from the outside world by means of dog teams—these were incidents in the story of how these two people battled to stave off the inroads of the grim reaper into their outpost community. It is a story which could be paralleled in many unrecorded cases, and underlying them all is the same self-sacrificing spirit and devotion to duty in the face of overwhelming discouragements and handicaps.

EASTERN interests are said to be urging the government at Ottawa to grant a subsidy to allow of the establishment of a coke industry there. This is a market hitherto supplied almost entirely from United States points. The government would be acting on a sounder principle, however, if they devoted their energy and the people's money to building up the existing coke industries in this country, and helping to widen the market for these so that they could compete with the imported product. There are coke plants in the Crow's Nest district that could supply a far wider demand than at present exists, and if the government were to assist by way of rebated freight rates on the long hauls to the east, work would be provided for many more men in the district, and a general condition of prosperity could be built up on a more satisfactory basis than by means of a new subsidized industry.

* * * * *

THE PRIME MINISTER HEARS FROM QUEBEC

Evidence that the Dominion government will not go very far with its proposed curbing of the Senate is accumulating.

The Prime Minister is already hearing from Quebec. The temper of Quebec is plainly against any tampering with the British North America Act. Quebec's religious liberties and civil and legislative rights are defined and guaranteed by that Act.

Quebec will reason that if the British North America Act can be altered to allow one government to restrict the powers of the Senate, it may some other time be changed to let some other government lessen Quebec's representation in the Dominion House, or abolish the use of the French language as an official language in Canada, or do some other thing injurious to the citizens of French Canada. The alarm has already been sounded in Quebec.

If the members of parliament from that province resist the move to amend the B.N.A. Act, in what position will such action leave the King government? The Western Progressives who are demanding the head of the Senate, are the balance of power in the House of Commons, but so far as Premier King is concerned, the Quebec members are the power itself. It is by their permission that the King government exists. The Prime Minister can not do anything that they oppose. They may allow him to amend the British North America Act, but if they do it will be a sure proof that an astonishing change has come over French Canada in respect to protection of the rights there enjoyed as a French-speaking minority. — **Calgary Herald.**

TWENTY YEARS AGO

Extracts from the Issue of The Cranbrook Herald of this Date Twenty Years Ago.

The road appropriation for the district is announced as $12,610; $738 being spent in the town of Cranbrook.

—

Several carloads of piling, all over a hundred feet in length were this week shipped from Kimberley to Montreal. It was considered a remarkable shipment, the piling being the longest ever sent out of this country.

—

Present indications point to much activity in the Columbia Valley this summer. The survey of the K.C.R. from near Jaffray 180 miles north to Golden is completed, and construction is expected to commence very shortly.

—

The St. Eugene concentrator broke all records one day last week, when in a twelve hour shift over 196 carloads of ore went through, making 132 tons of concentrates.

—

A fire at the entrance of the St. Eugene mine endangered the lives of fifty men or so working in the tunnel, when the timbers caught fire, and the smoke and fumes were blown in through the tunnel by the strong draft. Fortunately the men at work were able to make their escape.

—

The dispute between the B.C. Telephone Co. and the light and power company, over the telephone situation at Fernie, has ended by the former selling out to the latter at a handsome figure. So Fernie's telephone war comes to an end.

Summertown, P.E.I. —Fox ranching continued to prosper in Prince Edward Island during the past year, some $3,000,000 being realized from the sale of live foxes and pelts. The desirability of the island's foxes for foundation stock has brought about a heavy demand on the provincial stock and during 1924 shipments have been made to Upper Canada, Manitoba, Alberta, British Columbia, Oregon, Washington, France and England.

BIBLE THOUGHT —FOR TODAY—

Bible Thoughts memorized, will prove a priceless heritage in after years.

Thursday, March 5

WHEN THOU PASSEST through the waters, I will be with thee, and through the rivers, they shall not overflow thee; when thou walkest through the fire thou shalt not be burned, neither shall the flame kindle upon thee.—Isaiah 43:2.

Vancouver.—One hundred British farm families will reach the province early next spring. These are the forerunners of 3,000 families that are to come out and go on the land in Canada. Provincial and British government assistance is being given them to get started.

LAND REGISTRY ACT (Section 160)

IN THE MATTER or Lots 16 and 17 in Block 2 of Lot 4683 Plan 1293

Proof having been filed in my office of the loss of Certificates of Title Nos. 5952-1 and 6254-1 to the above mentioned lands in the names of Charles Oscar Nelson and John Sanderson, and dated the 20th of August, 1919 and the 30th of September, 1919, respectively:

I HEREBY GIVE NOTICE of my intention at the expiration of one calendar month from the first publication hereof to issue to the said Charles Oscar Nelson and John Sanderson provisional Certificates of Title in lieu of such lost Certificates. Any person having any information with reference to such lost Certificates of Title is requested to communicate with the undersigned.

DATED at the Land Registry Office, Nelson, B.C., this 16th day of February, 1925.

A. W. IDIENS,
Registrar

Date of first publication, Feb. 19th, 1925 52-4

KIMBERLEY AND WYCLIFFE NEWS

KIMBERLEY NEWS NOTES

School inspector V. Z. Manning was in town in his official capacity on Wednesday and Thursday.

Mr. W. M. Archibald spent several days in Kimberley this week.

Mr. Bowman, of the Kootenay Music House Nelson, was a business visitor the end of the week.

Mr. Bingay, of Trail, was a town visitor the end of last week.

Mrs. (Dr.) Hanington returned home on Wednesday last, having spent several weeks at Victoria and Vancouver.

Mr. J. J. Warren of the Consolidated Mining & Smelting Co., paid a visit to Kimberley on Saturday last.

Mr. Brown returned to Kimberley on Monday, having spent several days at Creston.

Mrs. C. A. Foote entertained a number of curlers on Friday evening in honor of the winners of the "Montgomery Cup" and their friends. Covers were laid for fifteen at the banquet table, and a very enjoyable evening was spent.

Mickey Edmunds left on Sunday for Kaslo, where he has been transferred to the branch of the Bank of Montreal at that point.

Alex. Fergus left on Monday for Hamilton, Ontario. He expects to be away for several months.

The ladies of the Catholic Church are still hard at work preparing for their big affair on the 17th of March.

Another program is in preparation for presentation at the Orpheum in aid of the Union Church, more detailed particulars of which will be published shortly. This will be of a strictly amateur nature, and patrons may look forward to a real treat.

The Native Sons of Canada are holding forth on Wednesday night in the Oddfellows' Hall, and a big time is anticipated. Members from outside points will be here in full force.

Miss Rulo of the Sullivan mine, who was recently operated on for appendicitis at the St. Eugene hospital, Cranbrook, returned home on Sunday.

WYCLIFFE NOTES

Mr. and Mrs. O. Bourgeois, formerly residents of Crescent Valley, have taken up residence in Wycliffe, Mr. Bourgeois having entered the employ of the company as stockman.

Messrs. Bert Sang and Alex Derby, of Cranbrook, were in Wycliffe on business on Tuesday last. These gentlemen arrived in state, and 'tis said that during a business talk Bert so far forgot himself as to quote, "custom built cigars with automatic windshield wipers." We fear the genial salesman had lost his grip on things and mixed the genus automibilis with the fragrant weed.

Mr. Roy Barrows, who has been receiving treatment for a badly injured foot, in the St. Eugene Hospital, returned on Wednesday last. He will have to depend on crutches for locomotive power for some weeks to come, however.

Mr. and Mrs. A. P. Adlard were Tuesday evening visitors at the home of Mr. and Mrs. W. B. Fulton.

Thursday evening's hockey game on Cranbrook ice, between the All Stars and the Kimberley team, a return game for the close and hard-fought battle enacted at the mining town the preceding Sunday, was a severe wallop to the A.S., and was not such a good brand of hockey as was the first game. Play was very much one-sided in the first and third periods, with Kimberley generally leaning on the All Star nets. The second canto was the best of the game from the spectators' viewpoint and produced plenty of action. The final score was 11 to 5 in Kimberley's favor.

Bert Allen of Calgary, took the ice with the locals in Thursday night's game, and gave a good account of himself, proving to be a hard and willing worker who shakes a fast pair of blades.

Fire destroyed the goods van of F. Haddad of Cranbrook, about two miles from Wycliffe on Thursday last presumably starting from defective wiring. The car, with the exception of the actual chassis, was completely destroyed.

The condition of Mrs. J. Pederson, who is critically ill with pneumonia, remains unchanged at the time of writing. It is sincerely hoped by everyone in Wycliffe that with the expert medical attention she is receiving her dangerous illness will yield and give place to returning health and strength.

At the home of his parents, Mr. and Mrs. Thos. Ireland, Master Harry Ireland was host to several of his boy friends on Friday night. An enjoyable evening was spent playing games and contests. The young guests were Tom Clark, Alec Yager, Harold Johnson, Bobby Leggett, Geo. Quick, Jim Tanner, George Tanner, Joe Taylor and Hannes Poho.

Mrs. A. Staples entertained at an enjoyable bridge, at her home, on Friday evening last. First prize was won by Mrs Yager and Mrs. H. Houle received the consolation. The following ladies were the guests of the evening: Mesdames Frederickson, Yager, Clark, Houle, W. Johnson, Caldwell, J. S. Staples, Crowe, Miss M. Baxter and Miss M. Harrop.

Mr. Walker, representative of the Nelson Daily News, was in Wycliffe on Monday of this week, on business in connection with that popular publication.

The heavy thaw of the past two or three days has created much satisfaction, mixed with dismay. Hockey has gone by the board, but Messrs. Crowe and Clark were seen in deepest conference the other day, and we are of the opinion that the baseball bug is rousing from its winter's sleep. A good part of the town is under water, hollows that are generally mud holes have become miniature lakes, roads are under a foot or so of mud and water and some of the local car ownrs have had to anchor their garages to prevent them from taking a voyage. There's a notion though that spring is here and nobody kicks.

Messrs R. Allen and E. Mapson, of Calgary, who have been engaged in audit work here for the past week, lft on Saturday for Waldo.

SHIPMENTS OF ORE RECEIVED AT THE TRAIL SMELTER

Uniforms for Provincial Police

The provincial police will appear in new distinctive uniforms at the spring assizes, it is announced from Victoria, the order applying to all parts of the province. The material has arrived at police headquarters, and arrangements are now under way to have the material made up. Uniforming the members of the force has been one of the ambitions of Attorney-General Manson and Col. McMullen, superintendent of the force, since the reorganization of the force a little while back. The new uniforms will be of khaki color with green epaulettes, cord riding breeches and leather leggings. Sam Browne belts with gun holsters will be worn. The hats will be similar to the style now worn by the mounted police.

THE SALVATION ARMY

HANSON AVENUE

Have you attended the Win-One Campaign meetings yet?

If not, be sure and come on Sunday afternoon at 3 p.m., when a very special meeting of great interest will take place.

Monday night will be a time of great excitement for both young and old. Special service of reading and song, entitled, "Christie's Old Organ." After the program the children will receive their prizes for last year's attendance at Sunday School.

Other meetings, Tuesday, Thursday and Friday at 8 p.m.

Swimming Pool For Fernie

Alfred Cummings and Geo. Quail were appointed a committee from the Rotary Club to get busy on the swimming pool proposition and stir up the general committee who are supposed to have the matter in hand. At a public meeting held last summer a committee was appointed to choose a site and get the work going, but owing to the unsatisfactory condition of the labor situation it was not thought advisable to proceed with the work. However, the site was selected, and as the industrial situation has cleared there is no reason in the world why a start should not be made just as soon as the frost is out of the ground. The public are behind this worthy and badly needed community proposition and hope that there will be no further delay in the matter. An expert in Calgary is preparing plans and specifications in connection with the proposed pool. The present idea is for a pool 105 feet long and 35 feet wide, the top of the concrete structure to be would be commenced as soon as the about two feet above the ground. frost was out of the ground.—Fer-Mr. Cummings stated that the work nie Free Press.

East Kootenay Looks Bright

A MINING RESUME, BY J. F. HUCHCROFT, IN SPOKANE MINING TRUTH

Cranbrook, B.C.—As the tonnage production of British Columbia advances in a general way, so does the East Kootenay in regard to silver-lead-zinc, and this might be said to be due almost entirely to the great Sullivan mine, located at Kimberley, which has sprung from a mere mining camp, a few years ago, to a leading place in East Kootenay's business life.

With a modern milling plant installed at an approximate cost of $1,500,000, and an annual payroll of approximately $2,000,000, the Sullivan is producing at an accelerating rate, as may be seen from the following figures supplied by the Cranbrook Board of Trade in their annual report:

Sullivan ore shipments for the last 12 months were: Zinc, 56,467 tons; zinc concentrates 65,684 tons; lead concentrates 124,780 tons; iron 1,943 tons.

North Star and Stemwinder

The North Star and Stemwinder groups at Kimberley are also being thoroughly developed under new management supported by Eastern Canadian capital. Considerable diamond drilling is being done on the former, while on the latter, shaft sinking is now under way and drifting from the lower level that will be obtained is in contemplation. The work now is in ore and is expected to be so throughout. Those in a position to form an opinion in regard to the future of these two properties are most optimistic and anticipating another heavy producer for that camp.

The Globe Mining Co., operating on Copper Creek, are steadily developing their property by way of incline, with a view to blocking out a considerable portion of the ore in sight, and commencement of shipments within the next few months. Their ore is carrying excellent values in antimony, silver and copper, and once shipments commence they may be expected to continue regularly.

The property now under control of W. S. Santo of Cranbrook, and located on Bull river, near the falls, is being developed steadily and two shipments have already been made. The first being only a trial lot, has proven so satisfactory that a second is now in transit. While no definite statements are being published by the owner, still, it is assumable that shipments would not be continued or other development continued unless the results were proving satisfactory.

Lead-Gold on Perry Creek

Messrs. Powell and Bird are developing a lead-gold property on Perry Creek from which high grade ore is being obtained at lowest available depth by tunnel and drift. If present indications continue for another short distance, in all probability they will be able to commence shipments or install machinery and carry on more extensive development. Much local interest is being manifested in this undertaking.

Hell Roaring Creek properties are being given considerable attention this season. Messrs. N. A. Wallinger, M.L.A., and associates are continuing drifting on their lead property there. Upon returning from a recent trip into the property Mr. Wallinger reported most satisfactory results and the ore body showing added strength, in both size and values.

It is reported that considerable work will likely be done on the Angus group in the same valley this season.

Interested parties are now in Cranbrook, awaiting the opening up of the season when thorough testing of the Dominion group, located some four miles above St. Mary's Lake, will commence. This property has been lying idle some time and will benefit largely as a result of the present market prices for both lead and copper which make it possible to handle its known ore body to advantage.

Aurora and Society Girl

In the Moyie region considerable preparatory work was done last year by the Armstrong syndicate, of Spokane, upon Aurora and Society Girl, but the work has been closed down for the winter and pending completion of plans for the coming season.

In the former a considerable tonnage of lead-zinc ore is available for mining as soon as re-timbering and other necessary preparations may be completed. Machinery will have to be installed to work to advantage. Transportation facilities are needed but are obtainable at no great expense. If the present indications are supported by further work in the ore bodies in all probability this property will soon become a shipper.

In the latter named property some considerable more work must be done before it would be wise to decide upon the future operations. Both have been on the shipping list in the past and have been developed to considerable depths. It is most encouraging to see these properties being tested out by responsible management who will avoid the costly errors of the past in their history. Their proximity to the old St. Eugene, which was a heavy producer at one time and carries the same vein system, is sufficient alone to warrant their thorough testing.

Windermere District

In the Windermere district a considerable force of men is being employed by Mr. Purlain, of Vancouver, in preparing a lead property on Horse Thief Creek for shipping. While not much publicity has been given this venture, it is worth while watching the results as the best of engineering advice and management is behind the undertaking and the mineral possibilities are known to be of the best.

The Paradise continues to make regular shipments, having 246 tons in January of this year, and 1,387 tons during 1924 of lead ore to its credit. Further north the Monarch is now reported to be under a new control and continuing operations. It shipped 101 tons during 1924.

The Wild Cat, near Invermere, shipped 38 tons last year and is expected to continue this season.

The St. Eugene dumps were fairly well tested out last season and 51 tons of lead and 15 tons of zinc tailings shipped to Trail smelter for trial purposes. Much local interest is being manifested in these tests, but as nothing of an informative nature is being made public the results are yet to be demonstrated.

Gypsum Land For Cash

Recently a sale of six claims of gypsum-bearing lands near Wardner, B.C., was put through on a cash basis by local residents disposing of their recent locations to the Manitoba Gypsum people. Whether or not this will lead to development operations is yet to be seen. As the known quality and quantity of gypsum available is highly satisfactory, in all probability in the course of time important operations may be expected.

In a general way much optimism is being displayed by mining property owners. Many examinations are pending. 1925 looks bright to all.

FERNIE IS MULCTED $2800 FOR TWO LIQUOR CONVICTIONS IN CITY

A reply to the letter sent by the council to the attorney-general's department, asking for information as to how the deduction of $2800 from the city's portion of the liquor profits was arrived at, was received from the Liquor Control Board and read at their meeting last week.

They stated that all accounts had been verified by the Comptroller-General's department and that it was not the policy of the board to make public the activities of secret service agents. It stated that board officers had been in the city during the fiscal year from October 1, 1923, to September 30, 1924, at various times and had secured substantial convictions for breaches of the Act. It also stated that it was the policy of the board that when they believed the Act was not being satisfactorily enforced in a municipality, board officers were sent to do the work.

Before placing the letter before the council, Mayor Irvine had requested Chief Anderson to go carefully over the records and make a report. The Chief's report showed that during the time stated Liquor Control Board officers had only secured two convictions in the city of Fernie, while during the same period the city force had conducted raids and had secured 57 convictions under the Liquor Act. The city clerk was instructed to write the board and so notify them.

LAKE WINDERMERE NOTES

(Special to the Herald)

Invermere, B.C., Feb. 21.— A delightful evening was spent on St. Valentine's eve, by the superintendent, teachers and friends of Christ Church Sunday School, Lake Windermere. This took the form of a fancy dress dance coupled with games, as held in McKay's Hall, Athalmer, on that occasion. Fully seventy children appeared dressed in costume. From near eight o'clock till ten was given over to their exclusive amusement—the children had the floor, might truly be said. Prizes were offered to the six children who by ballot the "grown ups" should decide were most attractively dressed. It was hard to make this choice amongst such a varied and wonderful collection but finally the scrutineers declared that the prizes had fallen respectively to baby Skivington as Cleopatra; and Jackie Lord as a Leghorn Rooster, in the under six year old class; and to Barbara Scott, as a Cross-word Puzzle, and Bryan Gore as the celebrated cat Felix in under 11 years of age; and to Catherine Pye as Night and to Master Joseph Peters as "Yes! We Have No Bananas".

—

Rev. Dr. Ferguson, of Calgary, Superintendent of Presbyterian Missions, was in here this week.

—

Mrs. John R. Davey is visiting Mr. H. H. Peters.

—

Mrs. E. G. Erickson is away on a visit to Creston.

GIRLS! A GLEAMY MASS OF BEAUTIFUL HAIR

35c "Danderine" So Improves Lifeless, Neglected Hair

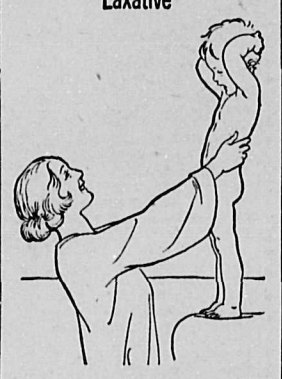
An abundance of luxuriant hair, full of gloss gleams and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine is delightful on the hair, a refreshing, stimulating tonic— not sticky or greasy! Any drugstore.

Mother!

Watch Child's Bowels

"California Fig Syrup" is Children's Harmless Laxative



Children love the pleasant taste of "California Fig Syrup" and gladly take it even when bilious, feverish, sick, or constipated. No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels without cramping or overacting. Contains no narcotics or soothing drugs.

Tell your druggist you want only the genuine "California" Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

B. C's LOSS

At a recent meeting of the B. C. products bureau of the Vancouver Board of Trade, surprising figures showing the loss of this province through the purchasing of imported products were given by Mr. W. L. Macken of Chilliwack, past president of the Associated Boards of Trade of B.C.

The $7,000,000 sent out of British Columbia last year would have kept several hundred people here working.

That's important.

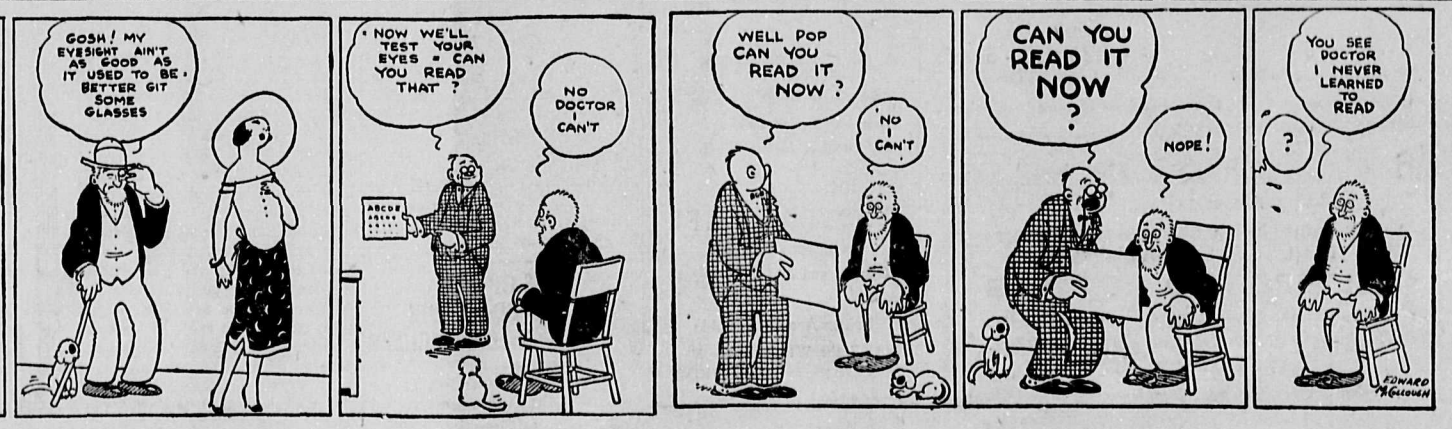
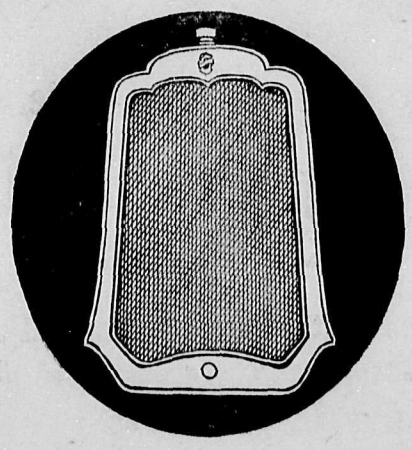
AUTOCASTER





The Refined

OLDSMOBILE SIX

is better Value

OVER forty thousand owners have proven Oldsmobile to be the outstanding value in the light-six field.

The Refined Oldsmobile embodies all the tried and proven features that have won Oldsmobile popularity. In addition, it has many new refinements and improvements—the revolutionary DUCO satin finish—strikingly distinctive radiator design—cowl lamps and other recent developments in automobile construction.

No other car can offer such value in a six-cylinder car at anywhere near Oldsmobile price. See the Refined Oldsmobile and judge for yourself.

Victoria. — British Columbia in 1924 shipped 410,000,000 feet of lumber to foreign markets. For the entire year more than 200,000,000 feet have been taken by China and Japan. American markets consumed 100,000,000 feet, most of which is going to the Atlantic seaboard via the inter-coastal route and the Panama Canal. The United Kingdom took approximately 31,000,000 feet; New Zealand and Australia 27,000,000 feet, and India and Egypt 3,000,000 feet each.

Montreal. — The volume of new construction work initiated in Canada during 1924 was below the 1923 figures, but a noticeable quickening took place during the closing months. The total value of construction undertaken last year was $276,261,100, as compared with $314,254,000. in the year previous.

Montreal.—Pulp and paper manufactured in Canada during the eleven months ending November 30, 1924, totalled in value $129,124,165, as compared with $126,464,550 in the corresponding period a year ago, according to a statement issued by the Canadian Pulp and Paper Association. Pulp products accounted for $43,157,380 of the total value, while paper manufactured had a value of $85,966,785.

MOTHERS LIKE TO TREAT COLDS WITH VAPORS

Direct Treatment with Vaporizing Salve Immediately Reaches Inflamed Air Passages.

It is no longer necessary constantly to dose the children in treating croup, bronchitis, sore throat, or deep chest colds. Many Canadian mothers now use the "outside" remedy, Vicks VapoRub, for the cold troubles of all the family, because it is just rubbed over throat and chest—there is nothing to take. When so applied Vicks gives off medicated vapors which are inhaled directly into the inflamed air passages, loosening the phlegm and making the breathing easier.

At the same time Vicks is absorbed and stimulates the skin like a liniment or plaster and thus aids the vapors inhaled to break up the congestion.

At all drug stores 50c a jar. For free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P. Q.

FERNIE GIRLS TAKE LONG END OF SCORE WITH CRANBROOK

Friday last, the Cranbrook girls' team, the Canucks, with the addition of two or three players from the Bluebirds, journeyed to Fernie to play a return match with the famous Swastikas, who the previous Saturday night had defeated the Canucks' team by a score of 3-0. The Cranbrook girls hoped to give a better account of themselves, having additional players from the Bluebirds team for their forward line, and in this they might have been successful but for one thing—excuse us we should say one lady— who had not played with the Swat-Stickers in their game here. This was Mrs. Kirkpatrick, who was a regular wizard, quick as a trap, had a shot like a rifle, and manipulated the puck as easily as most girls could a powder puff. The Cranbrook girls hold no grudge against this player, but if they meet again they would rather she stay at home.

The Fernie team proved themselves a high class organization as a hockey team. They beat the local girls by eight to nothing in a fast game, adverse ice conditions hampering both teams. Mrs. Kirkpatrick was responsible for the major part of the score, as she scored six goals, and figured in the other two.

The Swastikas as a team, possess everything that is required in the make-up of a good club. They play their positions, back check, and their combination is exceptionally good.

As for the Cranbrook team, considering that some of the players hardly knew one end of the stick from the other at the beginning of the season, they have nothing to be ashamed of. To play well, hockey has to be practiced for a long while. The Cranbrook forwards tried their best to penetrate the Fernie defence but were unable, Marjorie Burton being the only one at all successful. Frances Drummond, despite the large score against her, was credited with some good saves.

While eight-nothing might correctly tell the story of the game, "ate nothing" does not apply to the rest of the time the team spent in Fernie, as the Swastikas saw to it that they were feted and dined in right royal style. Dances, teas and house parties were given in their honor. Both the team and the fans from Cranbrook are loud in their praise of the pleasant manner in which they were entertained.

Fernie scored four goals in each of the first two periods, a portion of the last period Mrs. E. Kirkpatrick was subbed, this possibly accounting for the fact that no goals were scored.

The teams lined up as follows:

F. Drummond	goal	N. Commons
S. McCallum	def.	B. Graves
A. Wright		J. Richardson
D. Greaves	for'ds	F. Hamel
A. Moir		M. Steeves
M. Burton		A. Costa
A. Wallinger		E. Kirkpatrick
E. Patterson		A. Schagel
		Mrs. Donald

The Cranbrook girls take consolation in the fact that so far as their own scoring was concerned, they did no worse away from home than they did at home.

With a score of eight to nothing against them, it was absolutely impossible for the team to return without an alibi, consequently when they arrived several of the players had their heads bandaged or were patched up with plaster. Some of the spectators on the platform were about to call for the ambulance when the farce was detected.

The Cranbrook players and fans enjoyed the games at the rink on Saturday night between Fernie and Some of the Cranbrookites at the game were Mrs. A. K. Leitch, Miss Miller, of Jaffray, Verne Woodman, Dr. Huffman, Charlie Clapp, Will Leigh, Jimmy Logan and ???

Ottawa.—The total value of the principal field crops of 1924, as now estimated for the whole of Canada, amounts to $948,663,400, an increase of $49,497,200, as compared with 1923. The totals for 1924 are composed of the following items: Wheat $325,332,000; oats, $208,752,000; barley, $59,837,000; rye, $14,126,700; other grains, $51,246,700; potatoes, $49,102,000; hay, clover and alfalfa, $174,298,000; root and fodder crops, etc., $47,091,000.

Meeting of Baptist Brotherhood

The Baptist Brotherhood met on Tuesday evening in the basement of the church, in a special gathering, when about twenty-five or thirty men of the congregation were present. Notwithstanding that the lights were out for the evening, the men managed to account for a very hearty supper, which had kindly been provided by the ladies, but which was served entirely by Brotherhood members. At the conclusion of the supper, A. D. Bridges, president of the Brotherhood Bible Class, took charge of the program, and outlined the aims and objects of the Brotherhood, which was organized last fall, in connection with the Sunday School. W. D. Gilroy gave a pointed talk on "Ruts," showing how easy it was to get into set ways, and pointing out how much more essential it was that these ways be exemplary. J. M. Clark brought greeting from a brotherhood of a sister church, and Rev. W. T. Tapscott gave an inspiring talk on "The First Task." Under the leadership of Mr. H. L. Porter, who leads the class on Sunday mornings in connection with the Sunday School, a helpful round table discussion took place, and the objectives of the movement were outlined more clearly. In about six weeks another meeting of the same kind will be held, when the men will entertain the ladies of the church and Sunday School, and following this there will be another gathering to which the Brotherhood which meets in the Methodist Church will be invited. The Baptist Brotherhood will also take under consideration a project to hold a summer camp in connection with the church at some place in the district suited to the purpose. The Baptist Male Quartette also rendered two selections during the evening.

CHEVROLET

New

New Radiator

Large Honeycomb Radiator with highly-polished nickel finish shell, adding greatly to the appearance of the car.

New Clutch

Single plate dry disc type—easier, smoother, more positive, requires no lubrication. Clutch and flywheel fully enclosed.

On Thursday night of last week the Home Workers of the Anglican Church entertained at a card party in the Parish Hall, when an enjoyable whist drive was held. The high prizes were won by Mrs. F. G. Morris and Mr. J. G. Cummings. Refreshments were enjoyed at the conclusion of the cards and an enjoyable social period was had before the gathering broke up.

We carry a full line of Men's Women's and Misses' Shoes.
W. F. DORAN.
Our low prices win every time.

Road Supt. Hayne will commence the work of building a new road into McBain's Lake as soon as spring opens. The new road will strike the southern end of the lake and a branch will run along the shore on each side. It is expected that the work will cost about $2,500. Quite a number of Fernie people have acquired property along the lake front and the new road will be a godsend as the one big drawback to McBain's as a summer resort has been the poor road into it. — Fernie Free Press.

Ignorance of the law did not save Robert Saunders, late of Alberta, now of Wilmer, from a $50 fine for trapping without a permit, when he came up before Magistrate E. M. Sandilands, of Wilmer. He paid the fine in preference to going to jail. Saunders was arrested at Firlands by members of the provincial police, according to information received at headquarters here, and it was found he had fourteen traps out. These were confiscated and he was brought up before Magistrate Sandilands on Friday, and pleaded guilty, and also ignorance of the trapping regulations.

It costs you nothing to try. When ordering your bread to-morrow, just ask for one loaf of City Bakery Bread. 36tf

The annual dance of the Tennis Club was held last Wednesday evening at the Parish Hall, when a very enjoyable time was spent, which has become a fixed idea and a customary expectation in regard to this function. Requests are being voiced that the dance be repeated again after Lent. The prizes won in the competitions are usually distributed at this dance, but owing to some of the men's events not having been concluded, this could not be done at this time. The hall was suitably decorated for the dance, and the usual dainty refreshments were in evidence. Robinson's orchestra provided the music.

THE FINK MERCANTILE CO., LTD.

BORN. — At the Cranbrook Cottage Hospital, on Wednesday, February 25th, to Mr. and Mrs. F. A. Williams, a son.

Mr. F. G. Perry of Fernie, is in the city for a few days. Fred has just returned from Ottawa and other Eastern points where he has been in attendance on the meetings of the federal fruit commission, whose report was recently tabled in the house.

It is announced that Dr. Large, who is commencing dental practice here, is now receiving patients at his office above the C. P. R. Telegraphs building, near the Imperial Bank, between the customary hours.

An effort is being made in the city to establish a branch of the Pythian Sisters, which is understood is meeting with success. Anyone wishing to become members of this order should get in touch with Mrs. Patton, the convenor of the membership committee.

A. E. Jones is making considerable improvements to the home of Len Richardson, on Cranbrook Street. The house has been raised on to a substantial foundation and re-floored and a porch built alongside the kitchen. This with other interior work will improve the place to some considerable extent.

The most serious interruption for some time in the light and power service to the city took place on Tuesday evening, when shortly after five o'clock the current went off suddenly and remained off till about two o'clock the following morning. The Kimberley line was not affected, it is stated, and the cause of the interruption was said to be a tree which fell across the line near Camp Eight, Bull River.

Girls' Patent Leather Slippers, Goodyear welt, sale prices, 8 to 10½ $3.00; 11 to 2 $3.50, at
A. STRANGE, Armstrong Ave.

Many who heard the Rhondda Welsh Male Choir when last here will regret to learn of the death of the secretary of that organization, Mr. Trevor Evans, which occurred at San Diego, California, on February 6th. Mr. Evans will be remembered by all who heard him here as having a wonderfully sweet and sympathetic tenor voice.

Ernest Wood, for many years local manager for the Canadian Bank of Commerce, has received word that he has been appointed assistant inspector for the bank in the province of British Columbia. The promotion will necessitate the removal of the family to Vancouver. During their stay in Fernie, Mr. Wood and his amiable wife have always taken a prominent and active part in every move for the good and welfare of the city and their departure will be keenly regretted. They expect to leave in about two weeks' time. C. G. Bennett, of Creston, has been appointed to Mr. Wood's position with the bank in Fernie. — Fernie Free Press.

For the past year the Canadian Pacific Railway and the Great Northern Railway have been negotiating with a view to using one line of track from Elko to Natal. This would be a saving of half the upkeep on a line over 50 miles long. Recently engineers for both lines have been making a complete survey of the situation and it is quite possible that an early announcement will be made. One line could easily handle all the business on this stretch of road without working any particular hardship upon the settlers in the valley. As the Great Northern has a much better grade than the C. P. R., the chances seem to favor it as the permanent line. If the idea is carried into effect, the abandoned right of way would make a wonderful trunk road for autos through the valley. It would be a real speedway for fifty miles. — FernieFree Press.

Mr. and Mrs. Geo. Appleyard, who returned last Friday from a trip to the Eastern States, are selling their household effects and will shortly leave for New York, where Mr. Appleyard has purchased a seat on the New York stock exchange. It is said the price paid was something like $100,000. We understand Mr. Appleyard will represent large interests in Minneapolis and St. Paul. During their residence here Mr. and Mrs. Appleyard have made a host of friends who sincerely regret their departure. — Fernie Free Press.

Owing to unexpected delays, it was not found possible to commence the hearing of the appeals against the claims made at the instance of the provincial government against some lumber and other concerns of the district, for alleged arrears arising from under-assessment in past years. Judge Brown of Grand Forks who will hear the cases, could not reach the city in time for the hearings on Tuesday, and the cases will therefore be held over for a day or two pending his arrival. Legal representatives will appear for both sides it is understood.
