THREE GONE TO DEATH

Engineer Murgatroyd, Fireman Perney and Coal Passer Keeler Victims of a Wreck

Last Monday morning the town of Cranbrook was shocked by the news that the eastbound Soo-Spokane train had been wrecked at Macleod and three good men had been killed: Benjamin J. Murgatroyd, the engineer, A. B. Perney, the fireman, and J. J. Keeler, the coal passer. A pall was cast over the town, and during the forenoon little groups of men could be seen at different places discussing the horrible casualty. Engineer Murgatroyd had lived in Cranbrook for years and was a great favorite with all who knew him, while Fireman Perney, although having come here only a short time ago, had won a host of admiring friends. Mr. Keeler was not so well known, as he was a comparatively new man. When the news arrived Superintendent Erickson was notified and arranged at once to rush to the scene of the disaster on a special, and was accompanied by Acting Trainmaster Corey. The details of the accident are presented as follows, by the Macleod Gazette in an extra issued on the day it occurred:

At about 5.30 this morning the Soo-Spokane Flyer, going east had just passed the Haneyville switch at the junction northeast of town the engine jumped the track, and in a few seconds a scene of terrible confusion, with hissing steam, crashing timbers and flying dirt was on, and in just those few seconds three brave men had lost their lives and dozens more narrowly escaped death. The baggageman, S. Ross, of Winnipeg, came as near death as a man could and escape unhurt. To the memory of brave Ben Murgatroyd, of Cranbrook, the engineer of the Flyer, may all honor be given. He did not regain consciousness and could not tell his story himself, but the fact that the emergency brake was set, and the steam shut off, told the story in more eloquent words than can be depicted with the pen. He undoubtedly could have saved his own life by leaving his post and jumping, but duty was paramount, and in consequence the lives of probably dozens of people were saved and brave Ben has gone to His Maker, leaving a wife and family of five children, and a host of friends to mourn his untimely taking off. Just what caused the accident can hardly be determined but it is presumed it was caused by a defective frog, as nothing apparently was wrong with the engine.

When the engine left the track, the coal passer, whose name is unknown to the railroad people here, must have been either thrown violently from the tender or else he jumped in an endeavor to save himself, as his dead body was found on the south side of the track, sitting up and holding a shovel in his hand, about a rod from the scene of the accident. In falling he must have struck head foremost and broke his neck.

Probably the saddest, as well as the most terrible sight, was what was left of the unfortunate fireman, Perney, formerly of New York, but lately residing in Lethbridge. In some manner he fell beneath the tender and engine and was literally ground to pieces, a foot and part of the face being the largest parts of his body found.

The engineer, Ben Murgatroyd, was found by Baggageman Ross, in the engine cab, with one leg caught beneath the overturned engine. His head was badly crushed and the left foot nearly severed. Dr. Kennedy was summoned at once, and the injured man removed to the Macleod general hospital, where everything possible was done for him. The doctors pronounce the case hopeless, and say the man cannot possibly recover but may live for a few hours. The unfortunate man's wife came up on the freight this morning and is now at the hospital with her dying husband. Much sympathy is felt for her in her sad and heartrending bereavement.

S. Ross, the baggageman, is wondering yet how he is still in the land of the living. As the unfortunate engineer threw on the emergency brake and shut off the steam, the monster engine almost turned a back somersault and ploughed on its side along the side of the baggage car, its huge driving wheels tearing away the timbers of the car and making it a complete wreck. How young Ross escaped without a scratch is a miracle, and he has certainly cause to feel thankful. Had the train not been stopped just when it was, the coach next to the baggage car would have been badly wrecked, also, as it would have been demolished by the drivers of the huge engine, but to the fact of the reversed brakes and that the baggage car plunged into the loose gravel, can be given the small loss of life.

None of the passengers or train hands other than the unfortunate three, were hurt in the least. Some of the passengers were severely shaken up but none hurt.

C. C. Wright, the jeweler, of Fernie, was in the sleeper next to the wrecked baggage car, and he and J. Conran, of Winnipeg, occupied berths at the forward end of the car. "You may imagine our feelings," said Mr. Wright, "when the terrible crash came, and in a few seconds the nose of the big engine, right up to our window, tearing and crushing the car ahead of us. We just shut our eyes and thought we were goners, but thank the good Lord we are still here."

The bodies of Perney and Keeler were brought in yesterday on number five in the baggage car and the body of Murgatroyd was brought in Superintendent Erickson's car, accompanied by the sorrowing wife and children. The funeral of Benjamin J. Murgatroyd and J. J. Keeler was held this afternoon at 2 o'clock. The body of A. B. Perney was forwarded on the afternoon train to New York State, the home of his parents. The funeral was held from the English church, Rev. Flewelling officiating, assisted by J. F. Armstrong, and was one of the largest ever held in this city, if not the largest, all of the business houses in the city being closed at the time. After the services, headed by the two hearses, the great procession of sympathizing friends wound their way to the English church cemetery, east of the city, where the remains were laid to rest. There was a wealth of floral tributes that covered the caskets, and they came from brotherhoods and individuals.

The pall bearers for the firemen were as follows:

J. McLean, C. E. McCurdy, F. Taylor, H. Robinson, B. McFarlane, E. Miller.

The pall bearers for the engineers were as follows:

J. Roberts, E. Roberts, J. Warnock, M. Barney, M. Gillis, C. Yeandle.

It is understood that Engineer Murgatroyd had $6,000 insurance on his life, and if this is true it will provide for his wife and five children in a most comfortable manner.

BASEBALL

Two hot games were played this week between the Clerks and the Town, resulting 15 to 14 for the clerks, and the Shops and Offices the latter winning by a score of 10 to 6.

OPENING THE NEW OPERA HOUSE

Cranbrook's beautiful new opera house was opened last Tuesday evenby the Juvenile Bostonians to a record breaking house. It has been the hope and dream of the people of this town to have an opera house in keeping with the growth of the place, and at last this hope has been more than fulfilled. Messrs. R. E. Beattie, J. G. McCallum, Joseph Brault and S. J. Mighton are the men who displayed the necessary public spirit to give Cranbrook one of the best opera houses that can be found in the interior of the province, and the Herald trusts that they will be amply rewarded on their investment. There are few men who would make such an investment in a town of this size, and very few who would go to the expense that this company has in seeing that what was done in construction and equipment was the best. As a result Cranbrook has an opera house that will afford pleasure to the people, and also give a magnificent assembly room for large meetings of all kinds, as well as balls and parties on a large scale. The lack of space in the Herald this week prevents a detailed description of the house, which will be reserved until the work is all complete, which will not be until next week. George Leask & Co. have the contract for the building.

LABOR DAY LOOKS GOOD

Everything is getting in good shape for a successful celebration on Labor Day. The committee is doing hard work and they propose to leave nothing undone to give Cranbrook one of the best days that it ever had. Arrangements have been perfected for special trains from east and west and on the Kimberley branch.

The booth on the grounds will be let to the highest bidder. Sealed bids will be received by Secretary White up to 5 p.m. next Saturday.

The Labor Day committee will meet regular every Saturday evening at 8 o'clock in Mighton's hall. A full attendance is requested next Saturday evening.

ITS NOT THAT SHOW

There has been a report going the rounds of the town that the Ideal Amusement company that has pitched its tents west of the C. P. R. tracks, was the same show that had trouble in Lethbridge. This is not the case and the management regrets that his company should have been subjected to such an injustice. Chief Despatcher Scott verifies this statement, as he says that this company came from Calgary and did not visit Lethbridge. In this case the report has evidently done an injury to the Ideal Amusement company, and the Herald willingly prints this for the benefit of the people, and to place the show management on the right side.

INSTALLATION OF OFFICERS

Key City Lodge No. 42, I. O. O. F. at their regular meeting Monday night installed officers as follows:

Chas. Smith, N. G.
F. H. McKay, Secretary.
J. Manning, Treasurer.
Wm. Harris, Warden.
W. S. McDonald, Conductor.
P. Haywood, O. G.
M. D. Billings, I. G.
V. S. Liddicoatt, R. S. N. G.
Geo. Reese, L. S. N. G.
A. C. Blaine, R. S. S.
H. White, Chaplain.
H. Hickenbotham, Organist.

TWO ADVERTISING TRUTHS

A soap millionaire and an actor manager were talking business.

"I," said the actor manager, "have discontinued the use of posters. My announcements appear in the newspapers exclusively. I have learned that those who don't read the papers don't go to the theatre."

"You are wise," said the soap millionaire. "And I do like you. Long since I discarded every form of advertisement save that of the press, finding that they who didn't read a paper had no use for soap."

NAVY TEA

Rear-Admiral Mead, at a dinner at the Portsmouth navy yard, illuminated with a story an interesting discourse on food inspection. "A sailor," he said, "brought a tin cup to an inspecting officer and exclaimed: 'Taste this, sir. That is all I ask. Just taste it.' The officer took a sip. 'Well, really, my man,' he said, 'this is not bad soup at all.' 'Yes,' said the sailor, bitterly, 'and yet they want to persuade us, sir, that it's tea.'"—Ex.

10,000 TELEGRAPHERS OUT

At the present time there are 10,000 telegraphers in the States who have quit and business is being paralyzed. The strike may extend to Canada. At present no telegrams will be taken at the local office for any point in the States.

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the grown output.

W. W. CORY,
Deputy of the Minister of the Interior

ITEMS ABOUT A LIVE TOWN FROM A LIVE NEWSPAPER

(Kaslo Kootenaian)

Despatches from the tropics claim the banana crop is a failure. Possibly "Old Man" Simpson, of the Herald, can make up the shortage from his output at Cranbrook.

The C. P. R. is considering the project of building a chalet at the beautiful Kitchener glacier. It is an ideal spot for tourists, and for extended view and magnificent scenery is unsurpassed. The immense ice field is only six hours ride on horseback from Kaslo, which is the best route to ascend.

The staff rubberneck observed a party marching along the street a few days ago with a package in his grab hooks. It contained merchandise of some kind or other and on one side bore the cheap John Tim label. The carrier endeavored to hide it at from the eagle gaze of the rubberneck. He was ashamed of it evidently.

In looking back over the old files of the Kootenaian one cannot help observing that early day editors in the Kootenays were a set of very enthusiastic scrappers. Ten years ago there were three weekly papers published in this section for every one at the present time. Brother editors were not nearly so polite then and editorial scraps were frequent. A Nelson journalist was wont to refer to a Sandon cotem, as a "slimy old reptile." A Rossland pencil pusher was addicted to the habit of calling this paper "a dirty old dish rag," while the public were frequently informed through these columns that "the editor of the Nelson Tribune (now defunct) is a liar" with the liar in big caps by way of emphasis. "Purveyor of misinformation," "blackguard sheet," "journalistic scrap bag" were among the mildest expressions used and any pretext at all that would serve as an excuse for a scrap was eagerly welcomed. All this was ten years old. Today a kindlier feeling prevails even during election times, and Kootenay papers are co-operating earnestly in the good work of making public the resources of the finest section on earth.

Buyers of printing do not always realize that the printing press has made many fortunes for advertisers and but few for printers.

At Preston, Kansas, where everything is up to date, and the people are always planning something new, a shocking thing happened. One of the popular society women announced a "white elephant party." Every guest was to bring something that she could not find any use for, and yet too good to throw away. The party would have been a great success but for the unlooked for development which broke it up. Eleven of the nineteen women brought their husbands.

J. J. Atherton, editor and publisher of the Slocan Mining Review, Sandon, came down from that camp on Saturday to see if he could not make arrangements to have our band and fire department in attendance at the Silver City's Labor Day celebration. The pencil pusher of our up-the-gulch cotem, was frequently taken for the genial Sandon brewer, and being a humorist, Jay-Jay took advantage of the situation to have some fun.

The orchards in and around town bear an extraordinary heavy crop of fruit of all kinds this year and in spite of vigorous "thinning" operations props to hold the heavy laden branches up have had to be resorted to. Capt. Angus Campbell has a little pear tree in his front yard, and it has more pears than leaves on it. There are some Royal Ann cherry trees in Geo. Stott's premises, with cherries on as big as small plums. Similar instances of wonders in the fruit line might be given till the cows come home. The thousands of young trees planted in the spring and last fall, have shown a morvelous growth.

WESTERN CANADA TO HAVE A CHICAGO

INEXHAUSTIBLE FLOW OF GAS —EXTENSIVE RAILWAY YARDS —PRODUCTIVE DISTRICT SURROUNDING

Coleridge, Aug. 12.—Only those who have been fortunate enough to inspect the gas well here can form an idea of the future that is surely to come to Coleridge. Secretary N. T. McLeod, of this town, states that he has received daily considerable enquiry relating to business openings and industries.

There is not the slightest doubt from the operations being carried on here now by the C. P. R. but that Coleridge is to be one of the main points of the system. Already extensive yards have been laid out, while a very expensive drilling rig is boring for oil and those who know state that there is oil enough beneath the gas in large quantities.

Speaking of power, Secretary McLeod states that there is power gas available today for a thousand industries. A very rich deposit of fire clay is located on the edge of the town. Much building is arranged for and from the amount of capital that is already interested in Coleridge, it is safe to say that great developments will take place within the next few months.

Being at the junctional point of the Crows Nest railway, a line that taps all of Southern Alberta in itself insures a great volume of traffic then too, four trains on the main line taking care of the passenger service and double as many through freights will be obliged to stop at Coleridge, either for change of crews or supplies, or engines.

The prolificness of the soil of the district surrounding the town of Coleridge has already gone down in history—a territory for bumper crops. There is yet considerable land open for settlement and Secretary McLeod is receiving daily enquiries for the book entitled "The Town of Coleridge and What's Behind It," now being compiled for free distribution.

COLERIDGE WANTS MORE BUSINESS MEN

Nowhere in all Alberta, yea, in the whole West, are there such excellent business opportunities presenting themselves to the wide-awake business man as there are

Future of Coleridge

Behind Coleridge are a number of wealthy men who have banded themselves together to push the town. They believe, as everyone does who investigates, in the future of Coleridge, and will spare no pains or money to bring about, in the near future, such a degree of industry, progress and enterprise at Coleridge as will assure its future and make it one of the most successful centers in Western Canada.

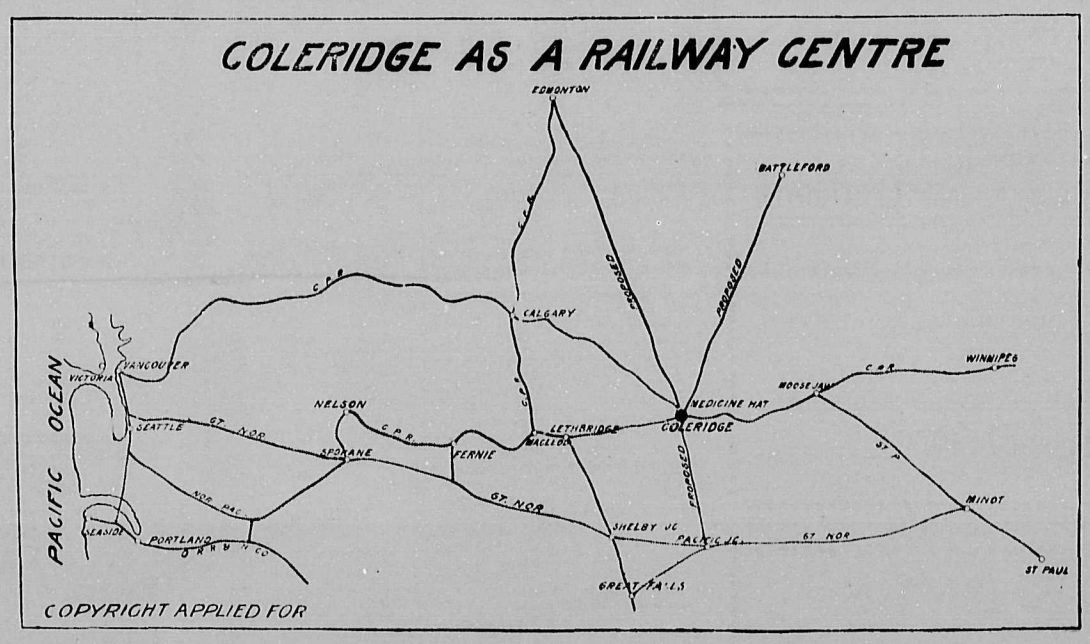
IN THE TOWN OF COLERIDGE

To men who have ability and small capital the town of Coleridge, Alberta, with natural gas well, offers many manufacturing propositions

Business Opportunities

It will only cost you one cent to write a postal card to the Secretary and get the list of Business openings. It's your opportunity to establish yourself at the beginning of the town that will soon be the largest railway point on the main line of the C. P. R. between Winnipeg and the Pacific Coast. Eight passenger trains a day will stop at Coleridge, and all freights will tranship at this point.

650 POUNDS PRESSURE OF NATURAL GAS



There is a good reason why people are considering Coleridge in preference to older towns as a MANUFACTURING SITE; Coleridge has an abundance of Power, Light and Heat---enough for a million people. Power in the form of gas is really, generally speaking, most preferable to manufacturers. It is especially desirable in pottery, brick, moulding, refining, brewing and glass works.

Brick Clay

There is no finer brick, pottery and fire clay in the West than the banks of fine clay which are present in immense quantities adjoining the town.

You Can Make 300 per cent

The very fact that the price of lots at Coleridge today is the first price assures the investor that at no future time will lots be secured at a lower price, nor will many days elapse before the Townsite Company will advance the price on every lot. It is a rational estimate that lots that are selling today at $150 will be worth $300 inside of six months.

Price Low Easy Terms

Besides the price being low, the terms are very reasonable and really places the

Purchase of a Lot in the town of Coleridge

today within the reach of anyone. Had you not better write the Secretary a postal card and get full information and plan of the lots to choose from.

ADDRESS DEPT. 123, CARE OF

The Secretary, Coleridge, Alberta

PINCHER CITY

The New Prairie Town which is setting a pace in rapid growth that is puzzling some of the Older Towns to keep sight of.

WATER WORKS

An amount sufficient to install an up-to-date Water Works system has been subscribed for and the work will be rushed to completion. Few, if any, towns of its age are thus equipped.

The new $60,000.00 steel wagon bridge over the Old Man River, 3½ miles directly north of Pincher City, has just been completed, thus connecting a vast, well settled and developed farming district, with the Elevators, Market and Stores there, which trade previously had to go to Macleod, 25 miles to the east. This trade alone would support a fair sized town.

The Crops in the district are admitted to be the best in Alberta this year, which ensures prosperity for all in the vicinity.

The $15,000.00 new Hotel will be ready for business in a couple of weeks. A first-class Blacksmith Shop opens for business this week. A School at an early date is assured. A $2,000.00 Church is under erection, together with many residences and other buildings.

As an example of its rapid growth, we may state that on April 1st this year there was one store in Pincher City. Now there are seven.

A SMALL INVESTMENT WILL BRING BIG RESULTS

Those who wish to engage in business, or to make a sound and profitable investment would do well to call and talk it over.

BILL MINER BREAKS JAIL

Vancouver, Aug. 8.—Bill Miner, the notorious Kamloops train robber and three companions, escaped from the New Westminster penitentiary at 4 o'clock this afternoon. Up to the present they have not been captured, although the neighborhood is aroused and every possible guard and policeman who can be secured has been rounded up and pressed into service.

Bill Miner, together with three convicts, J. W. Clark, W. J. Woods and A. F. McClosky, were working in the penitentiary brick yard, they apparently excavated a hole under the *brick smoke stack and escaped into* another field of the prison grounds. Although this yard is surrounded with high fencing the fugitives managed to scale this and got clear away.

Their absence was first noted at 4 o'clock and an alarm was immediately turned in. All the prisoners at work in the grounds were mustered and marched back to the penitentiary and the whole force of guards set to work to find the missing men.

Warden White is away but the situation has been taken charge of by Deputy Warden Bourke.

In the neighborhood of the jail is a lot of brush, into which the men disappeared and this is being thoroughly searched by the guards. Every police center in British Columbia and the State of Washington has been notified and efforts will be made to capture the fugitives as they head for the boundary line.

Bourke stated to press representatives that the escape was due to negligence on the part of the guard whose duty it was to patrol the brickyard. Miner was in for life on a charge of train robbing near Kamloops. Clarke hails from Nanaimo and was serving a three years' sentence for forgery, of which one year had expired, while Wood is a Victoria man and was serving a similar period for theft. He also had been in custody a year.

McClosky was sentenced in Vancouver for housebreaking. His punishment was seven years, of which he had served three.

Deputy Warden Bourke is of the opinion that the escape must have been engineered from the outside.

The crime for which Bill Miner was sentenced was the robbery of the C. P. W. westbound express, five miles west of Ducks, on the night of May 8, 1906. He and his accomplices, William, alias Shorty Dunn, and Lewis Colquhon, were captured near Douglas lake on May 14. Dunn was, like Miner, sentenced by Mr. Justice Irving to life imprisonment, while Colquhoun was given 25 years. Neither of his pals were with Miner when he escaped.

WHALEN IN WILD RACE FOR TRAIN

SPECIAL TRIP FROM WALLACE TO SPOKANE COST $1 A MILE

Coeur A'Alene, Idaho, Aug. 8.—One of the most exciting, sensational and varied special trips in the Northwest occurred Tuesday night. The distance covered was between Wallace and Spokane, aggregating 110 miles.

The story is best told in the words of Claude Burlingame, who traversed the Coeur d'Alene lake to Harrison and back, covering 50 miles of water. He said:

"T. H. Whalen, a prominent mining man of Wallace, where he is largely interested, telephoned to Mr. O'Brien, manager of the Hotel Idaho, this city, Tuesday night, for a fast launch to meet him at Harrison, and to arrange for an automobile to take him on to Spokane. My launch, the Clipper, was immediately procured and dispatched with all haste to Harrison, starting at 11 o'clock p.m. and reaching there at 1 a.m., making the twenty-five miles in two hours. A wait of two minutes occurred when Mr. Whalen arrived, having pumped *through the mountain shadows* a hand car the greater distance of 50 miles from Wallace in order to make connections with the early train leaving Spokane at 6.15 a. m. He left Wallace, intending to come by a railroad velocipede, but it refused to work, whereupon he arranged for a relay of horses every 10 miles through the mountains, when a friend suggested to take a hand car.

"From Harrison to Coeur d'Alene fast time was made, the Clipper being rushed to its utmost speed. As soon as Mr. Whalen reached here, though cold and chilled crossing the lake, he was hurried into an automobile in waiting, A. S. Bird having charge, and arrived in an abundance of time at Spokane to make train connections, thus completing one of the most successful and sensational trips ever made at a midnight hour."

Mr. Whalen was called east by the dying condition of a near relative. The trip of 110 miles is reported to have cost more than $1 per mile, and was covered in a little over eight hours by velocipede, hand car, launch and automobile, including all delays.

MOYIE'S BIG PAY ROLL

(Moyie Leader.)

Moyie has a payroll of $46,500 a month, or a little over $1,500 a day. Not many mining camps in British Columbia can boast of such a payroll. Nor are there many camps more prosperous. There is not a vacant house in the place, and the *hotels are turning people away every* day. If the town is to grow, more houses must be built.

Today the St. Eugene breaks all records, paying out $38,500. There are 400 men on the payroll.

The St. Eugene is probably the most valuable asset of the Consolidated Mining & Smelting company, of Canada, which also controls the Trail smelter, the War Eagle and Center Star and other properties. On August first the company paid a dividend of $120,000.

The Consolidated company has a capital of $5,500,000, in $100 shares. Of this amount, up to a short time since there were issued 48,338 shares, although it is understood that more of the treasury shares have now been issued. Dividends have been paid quarterly by this company, at the rate of ten per cent per annum, and the dividend paid last week is the sixth sent out at two and one-half per cent per quarter, and makes a total of about $714,000 so far paid to shareholders of this company.

THE CRANBROOK HERALD

$2.00 A YEAR. THE PAPER THAT IS READ BY THE PEOPLE AUGUST 15, 1907

CRANBROOK HERALD

By the Herald Publishing Company, Limited.

Editor and Manager.

The Herald is worth $10 a year. It costs only $2. No man in South East Kootenay can afford to be without it, and everyone living outside of the district, who is interested in the progress of this section, should read it. It publishes the news while it is news. It is controlled absolutely by the publishers. No clique, party or individual dictates its policy. It don't try to please the people. It's desire is to publish a newspaper that will be a credit to the community. Send in your subscription and you will be thankful ever afterward.

Advertising rates $1 per inch per month, no more and no less.

Reading matter 15 cents per line to non-advertisers; 10 cents per line to regular advertisers.

If you desire to reach the people of South East Kootenay you must advertise in The Herald.

The Herald has a first-class job plant, and its work is of the best. The Herald don't want charity. It wants a square deal on your job work. If we can't suit you in quality and price, kick, and send your work to some Cheap John house in the east that never spends a cent in Cranbrook.

MORE THAN

4,600 a Month

This is the guaranteed circulation of the Herald

Press room and subscription lists open to investigation by advertisers at any time.

The Herald gives a dollar in value for a dollar in money. The advertiser has the right to know what he is receiving for his money. The Herald is one paper that courts investitigation.

OBSERVATIONS

BY THE OLD MAN.

BOUND TO BE AN AGRICULTURAL COUNTRY

Evidences are accumulating steadily to show that South East Kootenay is bound to be a great agricultural and fruit country. It has been demonstrated that strawberries will grow here in profusion and of the best of flavor, as this was done the past year by W. F. Doran and V. Hyde Baker, and was done before by William Hamilton. This year Mr. Hamilton has on his ranch just outside the city, fruit growing in such abundance that it is a pleasure to see it. There are currants, gooseberries, cherries, raspberries, plums, etc., and much credit is due to Mr. Hamilton for what he has accomplished in the fruit line. Monday T. S. Gill left at this office a box of English gooseberries grown on his lot right here in town, and not one of the berries was smaller than a pigeon egg, and many much larger. Monday John Leask visited the farm of E. C. Smith, on the prairie just north of the Mission and only a few miles from Cranbrook, and returned filled with praise of the possibilities of the soil of this district for agricultural purposes. He said that potatoes were growing there in a manner that he had never seen before, and other roots as well. He brought back with him samples of wheat and oats that will compare with any raised on the prairie. On Monday evening J. T. Williams, who has a home and two lots on Baker Hill, showed a Herald representative his garden. The sight of that garden would open the eyes of people of the eastern provinces who imagine that all that can be raised in this part of British Columbia is pine timber. There were two rows of peas so heavy with well filled pods that they were breaking down their supports, and potatoes, cauliflower, onions, lettuce, radishes, beets, cabbage and celery, and all growing as if they were in a hot house. The Herald prints these facts, and gives the names so that any one doubting the statement can easily verify everything that is said. There is more chances for people making money out of the soil in this district than anywhere in the west for the reason that the market is right here. It is easy to sell anything in the way of roots and fruit at good prices, and the market will continue to grow better each year. There is money made in mining and there is money made in lumbering, but time will demonstrate that one of the great industries of this section in the future will be agriculture. The land is here in abundance, the soil is all right and the climate is all that could be desired. Lands around Kootenay and Arrow lakes could have been bought four and five years ago for one and two dollars an acre, that are now selling for $100 and $200 an acre. There is land around Cranbrook that can be bought for $5 and $7 an acre that will be selling in three years for $25 and $50 an acre if not more. The facts of today support the prophesy of tomorrow.

Really, now, what is the use of a newspaper saying that it has the largest circulation in its community unless it has it? What is the use of a newspaper spending money advertising in outside publications that it has the largest circulation in its community unless it has it? It is impossible to fool the people that way. This fact is demonstrated by the people always placing their advertising in the paper that has the circulation. The Herald charges the highest prices for advertising of any weekly paper in the interior of British Columbia or Alberta, but it is always full of advertising. When a newspaper can deliver the goods it can get the advertising. The Herald tells what its circulation is and delivers the goods. Look at the Herald this week. The people know.

The editor of the Cranbrook Herald has a scheme in embryo to purloin Moyie lake and fix it up at Cranbrook. The citizens of Moyie, headed by Editor Smyth and Hugh Watt, M. D., are defying Cranbrook to take a thimbleful.—Sandon Review.

CRANBROOK LAND DISTRICT

DISTRICT OF KOOTENAY

Take notice that Frank William Green, of Cranbrook, B. C., occupation, Physician, intends to apply for a special timber license over the following described lands:

No. 1. Commencing at a post planted about 1¼ miles south of St. Marys River, 10 chains south of "S." Lot 33 and bounded on the west by east line 1592, thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to point of commencement, and containing 640 acres, more or less.

Frank William Green.
Dated July 15th, 1907. 21-6t

LOCAL NOTES

PICKED UP ABOUT THE CITY BY ASKING QUESTIONS OF MANY PEOPLE.

Dr. Harvie, of Moyie, is in town.

James McNeil visited Fernie yesterday.

T. T. McVittie was in town on Tuesday.

George Hoggarth visited Spokane this week.

Miss Davies, of Fernie, is a guest of Mrs. E. H. Small.

Louis Chenier, of Wardner, has been in town a few days.

C. D. McNab has returned from his trip to the coast.

J. McNabb and family have returned from their trip to the east.

R. Little, of Fort Steele, was a Cranbrook visitor last Tuesday.

J. McNabb and family have returned from their trip to the coast.

Mr. Anderson, the principal of the schools, is visiting in Calgary.

WANTED—A dining room girl at Queens hotel. Best of wages. 19

F. J. Smyth, of the Moyie Leader, was in town Monday and Tuesday.

The water pipe has been laid to the rerecation grounds on the hill.

Mrs. D. Burton and children returned Tuesday from a visit to Creston.

WANTED—Woman for general housework. Apply Mrs. S. H. Hoskins. 19

Jos. Tannhauser, of Fort Steele, spent a few hours in Cranbrook Tuesday.

Kootenay ranges, all sizes, for all people, and satisfaction for all at Patmore Bros.

F. C. Collins, of Seattle, traveling passenger agent of the C. P. R., was in the city yesterday.

Thomas Stark returned Tuesday from a well earned vacation which was spent at the coast.

The spur to the new mill of the Standard Lumber company, just north of town, is being built.

With the advent of fine weather work is progressing again at a great rate on the new Cranbrook hotel.

WANTED—Position as engineer in sawmill. References furnished. Apply E. H., care of Herald office. 21

J. Mighton, of Woodstock, Ont., was in town last Monday visiting his brother, S. J. Mighton and wife.

FOR SALE—Large lot with house partly built, in good situation; city water. Apply A. B., Herald office.

Harry Bradford, of Wycliffe, left today for a trip to the coast and expects to be gone about ten days.

WANTED—A dining room girl; wages $35.00 per month. Apply International Hotel, Moyie, B.C. 18-4t*

First-class room and board for respectable men. For terms apply Mrs. Boyey (near John Laurie's) 21-4t*

MILCH COWS FOR SALE—All kinds and at prices that will make them good investments. G. P. Tisdale. 8-tf

WANTED—Party with five hundred dollars to go in with me on excellent real estate deal. Apply Box 30, Herald. 21*

We aim to give satisfaction. The Kootenay range bears us out in this statement, as all are satisfied.—Patmore Bros.

Frank Dickenson returned Tuesday evening from Spokane and other points in Washington, where he visited friends.

WANTED—Experienced man to run moulding machine. Steady work year round. Apply Cranbrook Sash & Door Co. 20

R. Patmore went to Nelson Tuesday and will be employed on the mail car between that city and Rossland the next two weeks.

Mr. and Mrs. McLaws, of Winnipeg, and Miss Wilson, of St. Thomas, were guests of Mr. and Mrs. G. Erickson last Sunday.

Mrs. J. H. Scott has returned from her visit to Moose Jaw and was accompanied by her sisters Misses Josie and Evangeline Nevin.

"Monty, the Shine Man," has embarked in the news-stand business and now keeps for sale all of the leading publications of the world.

That new cigar case at Mighton's is proving very popular, and will have to be enlarged very soon to meet the demands of his customers.

Barney Mullan, who gave Jim Burrows such a go in Fernie recently, is in town arranging for another contest with Burrows in this city.

Miss Bella Moran, of Lethbridge, who clerked in the post office of that city for several years, has joined the staff of the Cranbrook post office.

J. E. Kennedy has been confined to the hospital the past week where he underwent another operation on his injured leg, but it is doing nicely.

Mrs. H. Oklands, of Fernie, is in the city a guest at the Cosmopolitan with her husband, who has the contract for the C. P. R. sewer in this city.

It is not an easy matter to decorate a hardware window so that it will look attractive, but there is an artist who accomplishes this difficult feat at J. D. McBride's store. The one they have this week is unique and attractive.

Patmore Bros. have secured the contract for heating the new Cranbrook hotel by steam. That is a guarantee that the work will be done right.

Nurse Salmon will be ready for calls at any time. Address: general delivery, Cranbrook, or call at the north end of Van Horne avenue. 214t

Stewart Bruce, brother of Mrs. DeVere Hunt, has returned to his home in Spokane, after a pleasant visit in this city where he lived at one time.

FOR SALE—A seven room house in excellent repair, best of location, at a price and on terms that will satisfy any customer. Address X. Y., care of Herald.

Mr. and Mrs. Oliver Burge went to Spokane last Monday. Mr. Burge has not been well for some time and he has gone there to consult a specialist.

"Mickey" Gillis, one of the old time Crow engineers, but now running out of Calgary, came in yesterday to attend the funeral of the railway men killed at Macleod.

FOR SALE—Patent refrigerators, no sweating or dropping in provision chamber. New pans put into every other box to keep provisions cool and dry.—Joseph Maycock. 18-3t*

William Tarrant, of Custer, South Dakota, left for Spokane and points in Idaho last Tuesday after spending some time up the St. Marys looking after his mineral claims.

Rev. and Mrs. William Boulton from Moyie have been spending a day or two at the Methodist parsonage with Mr. and Mrs. Hughes. They return to their charge today.

Messrs. A. Leitch, S. Taylor, P. Lund, A. McDougal, D. R. Yates, A. E. Watts, W. F. Gurd and P. Hanbury were among the local lumbermen who visited Nelson on Monday.

Bert Ross returned from North Bay last Monday where he was called by the serious illness of his father, whom he left getting along as well as could be expected under the circumstances.

George McNabb, an engineer of Lethbridge, and Fred Rooney, the well known hotel man of that place, are in town today to attend the funeral of the railroad men who were killed at Macleod.

Patmore Bros. have just received a fine lot of the popular "Kootenay" ranges. If you are needing a range you cannot do better than to tie yourself to a Kootenay, and your satisfaction is guaranteed.

Fruit and vegetables delivered the same day as picked. Orders taken now for melons, tomatoes, cucumbers, peaches, apples, pears, nectarines, plums, cabbage, brunells, sprouts, cauliflower, savory, artichokes; also poultry and eggs. Brown & Williams, Creston, B. C.

Next Sunday night the subject for discourse in the Methodist church will be: "The Power of a Handshake." Bible classes for men and women at 3 o'clock every Sunday afternoon to which all are welcome. Open air service at 8.45, weather permitting. A harvest festival will be held in September, all who have gardens are requested to send something to decorate the church with on this occasion, the flowers and fruit will be sold on the following day. Save the specimen vegetables and fruits for this event.

ELKO AND TOBACCO PLAINS

(From our own correspondent)

What's the matter with Elko? She's all right.

The Elko baseball team went to Fernie August 5th, to compete for the $150.00 hung up by the Fernie Athletic association, which should disband and reorganize quicker than a spring lamb can jump a thistle. If they ever expect people from other towns to patronize their sports, they want to cut that grabber element out out altogether. Take and put them in the river—even if it does spoil the fishing.

When Fernie came to Elko July 28, they were treated to the best the town could give. When Elko went to Fernie they were treated worse than yellow dogs. But what can you expect from a lot of grabbers who are always looking and ready to divide what don't belong to them.

Elko won that hundred and fifty dollars fair and square, twice over, with nothing up their sleeves but a vaccination mark and an empty stomach. They were at the depot at 6.30 o'clock waiting for the C. P. R. way freight excursion train and arrived in Fernie very late, and then were as busy as bird dogs in a game preserve to get playing ball. They were informed by the sports committee to play Eureka. Eureka, kind reader, is a town on the Great Northern main line, running on the south line of Tobacco Plains, the big red apple country, where the dollars grow on the trees. The lakes are full of fish and pheasants roosting on every tree. The Eureka boys all gentlemen, 22 carat. Hall-marked. The game between Elko and Eureka was the best ball game ever seen in South East Kootenay, both teams being well matched, good sports and all the players gentlemen, and was won by Elko with a score of 8 to 6. Then it was up to Fernie to play the star twirlers from Elko, and of all the bone-headed, feeble-minded, locoed ball-players, it was ever our lot to jostle up against, the Fernie bunch sure take the sour dough biscuit. They are too mean to eat a cold potato in the moonlight for fear their shadows would ask them for a bite. Elko conceded everything to them—then they could not win. The train was leaving for Elko and some of the players had to leave, grabbed their store clothes and come home. Manager McEwen and several others stopped over to get the prize money. Why, no! Did you ever know a grabber give up anything he once got his paws on. Hear, oh heavens, and sports keep away from Fernie. It seems too bad that some of those Fernie sports couldn't have been drowned when they were little babies. You are all right, Billy Tuttle, and you did everything you could for Fernie, but it was impossible for them to win in daylight and we hope you will see that Elko gets the money. They want to buy a monument with it. Let us "pray," after which Manager McEwen will recite that pathetic ballad: "They might have all been ball players but they come to soon."

The brass band that plays the loudest does not make the most music.

Several miners from Coal Creek spent civic holiday at Rock creek and took back 240 trout.

George Ingham brought down a party of Fernie's 400 for a visit to Sheep mountain.

There is a party of mining experts from Butte City looking over the Sheep mountain copper properties.

Mr. John Todhunter came up to Elko from Fording river to spend a few days with his family at Cumberland house. Master Albert, his youngest son, returned with him Wednesday.

Messrs. Butterfield and Sweet, of a big Chicago firm of photographers, have been in Elko several days this week taking views of the alps around Elko. In conversation with these gentlemen we found they had been induced to come to South East Kootenay through the glowing accounts they had read in copies of the Cranbrook Herald, they had read in Chicago, throughout the middle west States, Kalispell and Spokane. Would Simpson please inform us of some place where the Herald can't be bought, borrowed or stolen?

Last Monday a vast concourse of the beauty and the chivalry of Elko went up to Fernie to spend civic holiday.

There was a Dandy lion in Elko this week from Bradstreets.

Mr. Foster, of Sparwood, was an Elko visitor this week.

Curiosity is looking over other peoples affairs and overlooking our own.

W. G. Ross, the hustling manager of the A. MacDonald company, wholesale house, of Fernie, passed through Elko this week and raised a beautiful umbrella over a straw hat, shook his fist at the writer and left via the C. P. R. for the town of mysteries and missing links.

Say fellows, Harry Orchards parents sure raised a pippin.

J. Hueston, of Elko, has been engaged as sawyer by the Sparwood Mill company. Mr. Hueston and family came to Elko from Okotoks and was sawyer for the Pugh & Livingston Mill company and one of the most popular men in the company's service. On account of the mill closing down and being unable to procure cars and not knowing when the mill would start up again, Mr. Hueston was induced to accept his present position.

W. C. Leacey left Monday, August 5th, for New Westminster and now old Bill Miner has escaped the government might keep our Bill there to hunt him up.

Alex. Bimie, of the Thistle Livery stables, gets some big timber contracts and is working big outfits of men and teams.

Miss Madeline and Miss Alice Phillipps, of Fruitlands, Elk river, went up to Cranbrook Saturday.

It was reported that the Fernie pitcher displayed almost human intelligence.

J. H. Relance and a party of Claresholm and Toronto capitalists were in Elko this week looking up bargains.

Miss Inez Holbrook entertained her young friends very pleasantly Friday evening at her home, which was prettily decorated for the occasion. Card playing and games were indulged in after which refreshments were served.

Next to the sunlight of heaven is a cheerful face. There is no mistaking it. The bright eye, the unclouded brows, all tell of that which dwells within.

You just bet Dug McKee can play ball, and Ray Hirtz is a crackerjack and plays the game from start to finish, and Robey is sure a prince on the diamond and knows baseball better than any man in the Crows Nest Pass, Cranbrook, Eureka, Moyie, in fact everybody that was anybody rooted for Elko.

Willie Laurie, of Campbell Bros. & Wilson, of Calgary, Alberta, and his celebrated Horne gave exhibitions in Elko Saturday.

Fernie's ball team went down like McGinty to the bottom of the sea.

W. A. Frost returned from Montreal and left for Cranbrook. He reports beautiful weather on Tobacco Plains and reports great activity among the hay diggers, who are working eight hours before dinner and picking fruit the rest of the day.

We don't feel a bit sorry for the Fernie ball players, because after they have been born a few more times, the mud will be washed off their brains and their souls will have a chance to get some fresh air.

Mr. Gusty, general manager of the P. Burns company, was down to Rooswlle buying up big fat cattle and the Fernie people will be enjoying beefsteaks they can cut with a paper knife in a few days.

There's nothing so balmy as a clear conscience.

That Fernie's baseball team should be close herded by their friends is no dream.

Fred Zellors brought in a string of saddle horses from Tobacco Plains this week and intends shipping them to Edmonton this month.

So help my Josephine boys but isn't Fernie a fierce burg.

Cranbrook will celebrate Labor Day, September 2nd in letters a foot high and visitors to that saintly city will be made welcome and more than welcome, and the winner in any event will get the money with religious punctuality. No siree. The Cranbrook sports wasn't raised on jaw bone and green gooseberries. See Cranbrook September 2nd.

Mike Quinlan, captain of the Rock Creek quarter circle roundup, got the cattle bunched up and is close herding them on the banks of Muddy creek. Mike is one of the most daring and swiftest riders that ever straddled the ridge pole of a wild cayuse and often rides into Elko from Rock Creek kineries in 32 seconds with his face as red as Casey's nose and a heart as big as a wash tub, and a passion for going some, and has been known to take a horse out of a delivery wagon and nurse him home at 200 to 1.

Contractors outfits are arriving at Gateway for the Great Northern extention. This will make a good market for the honey, hog and onion crop on Tobacco Plains.

Pitchfork Bill, manager of the Timothy Meadow Hay farm, Tobacco Plains, says its the biggest and best crop he ever put up.

John Hanbury, of Brandon, Manitoba, the big tyee of the North Star Lumber company, is spending a few days in Elko, Jaffray and Cranbrook.

There are three new residences going up in Elko.

Bob Skibbeck and Frank Adams returned to Elko from the St. Marys country this week and are enjoying fine rib roasts from the Elk river.

Elko, without a doubt, is the grandest place to spend a vacation this side of the pearly gates of the New Jerusalem. Come and see for yourself.

Morris Daly was in Elko for a few days last week.

Mr. and Mrs. John Mott, of the Hoffman house, gave a grand display of fireworks in honor of the ball team Tuesday night.

We really don't know for sure if Old Man Simpson will have Moyie lake moved before Labor Day or not. However, we are writing to Dr. Watt and Editor Smyth, of the Moyie Leader, to find out. We have not the least doubt but that Old Man Simpson's intentions is to make Cranbrook a seaport town, providing he can get the water.

WARDNER

(From our own correspondent)

Mr. Ole Wisner spent a few days last week with his brother, Mr. Otto Wisner.

John McDiarmid returned on Thursday last after spending a couple of months with friends and relatives near Collingwood, Ont. Jack is more enthusiastic over the west than ever. He says there is no place like British Columbia.

George Gunn, who has been employed as "edger" in the Crows Nest Pass Lumber company's sawmill for the past three years, left last week to take a position with the North Star Lumber company of Cranbrook.

Louis Eng, recently of Wardner but now of Baynes Lake, was in town Friday. Louis is doing well, he has a ranch on shares, twenty-five acres are under cultivation, and his crops are the best in this part of the Kootenays, and he expects to have large profits later in the fall.

Mrs. Williams, of Jaffray, came up to Wardner on Friday to do some shopping at the Crows Nest Pass Lumber company's big departmental store.

Don't be a knocker.

Duncan Kennedy, of Fernie, recently of Vancouver, has accepted a position with R. H. Bohart. Dunc. was employed here for a year or more before going to Vancouver. This looks well for Wardner. All who leave here are sure to return sooner or later.

Mr. and Mrs. Jim Brown spent Friday last in Fernie.

Bob Dempsy, who has been in the Cranbrook hospital for a few days suffering from a broken rib, returned home this week. You can't kill Bob.

George Wales, grain buyer for the Claresholm Lumber & Grain company, of Claresholm, Alberta, called on Thursday to renew old acquaintances. George has a host of friends here who were all delighted to see him again. He reports the grain business as being very dull.

Bert Heney left for Fernie on Monday evening last.

Gus Rinman, the popular, obliging and efficient cook, recently employed by the Crows Nest Pass Lumber company, at their boarding house, has resigned his position and gone to Edmonton. His many friends here wish him every success.

The whipping post should be set up in every county jail for men who beat their wives and unmercifully beat horses.

There is no reasonable excuse for any man to live in a town if he doesn't like it. If you have no word of commendation to say for your town, its institutions or people, emigrate. You wont stop the town clock by going away. The church bells will have the same musical ring, the little dogs will play just as well and the pure air, bright sunshine and sparkling water will have the same health-giving properties. Speak a good word for your neighbor if you can, if you cannot, don't everlastingly enlarge on their faults. If you have become thoroughly disgruntled move away, go somewhere where things will suit you.

Miss Roselle Couzens has sufficiently recovered as to enable her to leave the Cranbrook hospital and return to the home of Mr. P. Lund.

This is the time of year when most people take their vacations and enjoy periods which run usually from a week to a month of release from toil and care. Residents of the mountains seek the plains and valleys those in plains and valleys go to the mountains, those of the inland seek the seashore, and bathe in the salt water and listen to the surf; those in the treeless belt hunt for a wooded country, while the country people like the roar and bustle of the city. What people on vacation want quite as much as rest and recreation is as complete a change as possible from their regular and usual environment. Although the late Russell Sage declared that vacations were unnecessary, but few agree with him. And most mankind find that a short cessation from work amid new surroundings, is a wonderful tonic for the health and spirits and a conservator of energy.

A couple of the boys belonging to the Wardner baseball team helped Elko last week to clean up Fernie and also one of the Uncle Sam's would-be baseball teams. When you want to see a right good game of ball, come to Wardner.

Mrs. A. Sheppard and little daughter Amy, left last Saturday afternoon on an extended visit to friends in High Bluff, Man.

Mr. Mutz, of Fernie, was in town on Monday on business.

Mr. Parker left last Sunday on a business trip to Winnipeg, Man.

Mr. Stewart, tie inspector for the Crows Nest Pass division of the C. P. R., was in town Monday.

Robert Grey attended a meeting of the Oddfellows in Cranbrook on Monday night last.

MOYIE

(From the Moyie Leader.)

Mrs. J. P. Farrell arrived home Monday from a visit with relatives in Boston and other eastern cities.

Mr. and Mrs. Stephensen left Wednesday for the coast. They will probably locate in Victoria.

Mrs. R. Campbell and children were at Ryan this week visiting with Mr. and Mrs. A. C. Cook.

Harry Dimock will leave today for Sherbrooke, Que., where his wife and children are spending the summer. While east he will go to Halifax, his old home, and remain there a short time. He will return to Moyie with his family in about a month's time.

The condition of Tom Summers has changed but very little in the past week. He is still in Spokane under the treatment of physicians and two eye specialists. There still seems to be a chance of saving the sight of his right eye, but it is only a slight chance. He is at the Sacred Heart hospital.

Mrs. Lenihan, of the St Eugene boarding house, is spending a day or two in Cranbrook, having some dentistry work done.

Arthur Pitman left yesterday for the old country, and will be away for a month or six weeks.

C. Hungerford Pollen, capitalist and promoter of the Kootenay Central railway, spent a few hours in town last Saturday.

Robt. Sandy is back to Moyie after an absence of several months. Mr. Sandy spent most of his time while away in Goldfields, Nev., and in San Francisco.

B. E. Taylor's family arrived Wednesday from Kimberley and they have now taken up their residence in the Stephensen house, on south Tavistok street.

T. T. McVittie and wife, of Fort Steele, W. Eassie, a recent arrival from British Guinea, and D. McDonald, of Scotland, spent a day in Moyie this week viewing the many points of interest.

The C. P. R. is making an investigation as to the cause of the wreck which occurred at the Moyie switch two weeks ago. A strong effort will be made to lay the blame where it belongs.

SORE FEET

Sore, hot, aching or blistered feet are cooled and healed by Zam-Buk. Store girls, postmen, policemen, farmers and all who stand and walk a lot should test its value!

Zam-Buk also cures chafing sores, insect bites, sunburn, ulcers, eczema, heat sores and all skin diseases and injuries. Gives ease in cases of piles.

50c. a box at all stores, or Zam-Buk Co., Toronto.

The Truth About Scotch Whisky

THE safest and most refreshing of all beverages is Whisky and Soda. Where wines and other stimulants are forbidden, Whisky, diluted with some suitable mineral or aerated water, and prescribed by a physician at the proper time, has always a highly beneficial effect.

Scotch Whisky has long been acknowledged the best. It has almost entirely superseded French Brandy over the greater part of the world. This is owing to the skill and care which have, of recent years, been devoted to blending. Malt Whisky, by itself, unless very old, is heavy and unpalatable, and is extremely hurtful to the digestive organs when taken freely.

Scotch Grain Whisky, however, being made from the finest grains and malted barley, and distilled practically pure by modern appliances, is frequently preferred. No stronger evidence of its purity can be given than this, that one of the most eminent Professors of Chemistry in England has used Cambus Grain Whisky for nearly thirty years.

The blending of Malt and Grain Whiskies has within recent years been reduced to a science, the result being a combination which avoids the heaviness of the "All Malt" Whisky and imparts a distinct delicacy to the Blend. Of course both kinds must have age. Nothing is harsher than Malt Whisky unmatured.

"The London Wine and Spirit Trade Record," of 8th May, 1905, in discussing the recent controversy regarding "all malt" Whisky, says:—

"It is much to be regretted that the agitation some time ago regarding 'all malt' was conducted on the extreme lines it was, as the change from blends of grain and malt to 'all malt' was much too extreme and it is admitted that 'all malt' is not desirable, and the English stomachs which it suits are few and far between."

We are Proprietors of ten Scotch Distilleries, famous for their makes of Grain and Malt Whiskies, and we hold enormous stocks of both kinds of spirits.

"KING GEORGE IV."

is a pure blended Scotch Whisky, guaranteed for age, quality and flavor. It never varies. It has obtained Gold Medals (Highest Awards) wherever exhibited in competition with other blends. For General Table Use it stands without a rival.

OBSERVE CAREFULLY ALL LABELS, CAPSULES, CERTIFICATES AND CORKS, AND THUS AVOID INFERIOR IMITATIONS

"KING GEORGE" WHISKY is known everywhere, but should there be any difficulty in obtaining it, please send us a postcard for our nearest Agent's name and address.

We also sell CALEDONIAN, recognized as one of the best.

PART IV.

"WATER CLAUSES CONSOLIDATION ACT, 1897."

1. This is to certify that "The Cranbrook Electric Light Company, Limited," a Company duly incorporated under the provisions of the "Companies Act, 1897," and which has been registered under the "Power Companies' Relief Act, 1902," for the purpose of exercising the rights, powers, privileges and priorities in and by oart IV. of the said Act created, granted and conferred, has submitted its undertaking to the Lieutenant-Governor in Council, for approval, and that the said undertaking, as shown by the documents and plans filed, has been approved, and that the same is as follows:

The erection of a dam across the St. Marys River, in a rocky canyon about one mile above the railway bridge upon which the Canadian Pacific Railway crosses the St. Mary's River, as shown on the plans filed and marked "B"; the erection of a power house to be situated at or close to the dam, the water under a 30 inch head passing through turbine water-wheels in the power house, thence through the tail race into the river again; the erection of all necessary pole lines. The power will be utilized to supply light, heat and power chiefly to the City of Cranbrook and the inhabitants thereof, to operate railways, tramways, sawmills and other industries of any nature or kind, and to consumers generally of light, heat or power in the Fort Steele Mining Division of East Kootenay.

Eight thousand miner's inches of water are to be presently taken from St. Marys River, in East Kootenay District; five thousand miner's inches of the said eight thousand miner's inches so to be presently taken stand already recorded in the name of the Company, which record is hereby approved and confirmed, and the intended application of the Company for a further record of three thousand miner's inches, and of such further records not exceeding thirty thousand inches, from out of the said St. Marys River, according to the requirements of its business and the extensions to be subsequently undertaken is approved; provided that such approval shall not be construed as giving the Company any absolute right to such records when applied for.

2. And this is further to certify that the Company proposes to commence its undertaking by the construction of a dam across the St. Marys River and the necessary excavations and gradings, and by the construction of a power-house at the site of the dam, and by the erection of poles and stringing of copper or other wires thereon, for the purpose of conveying the electrical energy created by water-wheels at said dam to the City of Cranbrook and its vicinity and intervening points.

3. And this is further to certify that "The Cranbrook Electric Light Company, Limited," shall have duly subscribed before it commences the construction of its undertaking and work, or exercises any of the powers in that behalf conferred by the "Water Clauses Consolidation Act, 1897," Part IV., five thousand (5,000) shares of one dollar ($1.00) each. The further amount of capital required to fully complete the undertaking and work to be provided by the issue of first mortgage bonds or debentures of "The Cranbrook Electric Light Company, Limited," to be issued from time to time, or all at the same time, to an amount not exceeding in the whole one hundred thousand dollars ($100,000).

4. And this is further to certify that the time within which the said capital, viz: five thousand dollars, is to be subscribed is fixed at one year from the date hereof, and that the time within which the said undertaking and works are to be commenced is fixed at one year from the date hereof, and the date by which all of the proposed works shall be in operation is two years from the date hereof.

Fred J. Fulton,
Clerk of the Executive Council.

Dated this 2nd day of May, A. D. 1907. 18-4t

LOCAL NOTES

PICKED UP ABOUT THE CITY BY ASKING QUESTIONS OF MANY PEOPLE.

Engineer Charlie Harris and bride arrived today from the east.

Try a Kootenay range to keep your water hot. You make no mistake.—Patmore Bros.

Mrs. Effie Eggleston and Mrs. A. Jones, of Wetaskiwin, were the guests of Mrs. Fred Parsons the past week.

Mrs. Sondan, who had been visiting her sister, Mrs. Lester Clapp, returned to her home at Rosalia, Wash., Monday last.

John Wilson, of Farnham, Quebec, father of Wilson, the jeweler, left today for his home after a pleasant visit with Cranbrook relatives. Mr. Wilson has made two visits to Cranbrook and he was very much impressed with the change for the better in the town during the last three years.

D. J. Elmer, of Kingsgate, was in the city a few days this week. Mr. Elmer says that they will not hold their city election until next February, and was filled with chagrin last Tuesday evening while at the new opera house because this pride of Cranbrook is larger than the one they have at Kingsgate.

S. J. Mighton will take over the room now occupied by Laing's barber shop about the middle of September and enlarge his tobacco store to double its present capacity. Mr. Mighton's increased trade demands more room for the large stock he is carrying and he will arrange for improvements in this way.

There will be a meeting of the Cranbrook Liberal association at Mighton's hall tomorrow (Friday) night, at 8 o'clock for the purpose of electing officers, electing delegates to the Vancouver convention in October and transacting such other business that may be presented. A large attendance is desired. Remember the hour, 8 o'clock, sharp.

Word has been received from Peck MacSwain, who is now in Tacoma Washington, working on one of the newspapers in that town. Frank Dickenson saw him last week while there visiting his brother, and says that "Peck" has crawled up on the water wagon and declares that in the future he will carry a regular meal ticket and ride in varnished cars.

The remains of Thomas Thomas, the man who was drowned at Marysville the day the other two men were drowned, by endeavoring to ford the river, were found by an Indian near the Mission last Saturday and they were brought in Sunday. He was identified by a man named Hicks who came from England with him, and it is said that he leaves a wife and five children in the Old Country.

W. D. Hill is spending this week among the furniture manufacturers of eastern Canada and writes to his manager here to keep pushing the sale of furniture as he will order enough this time to fill two store rooms. He will go on to New York the latter part of the week to look up the latest in men's furnishings, so it would be well for the Cranbrook public to be prepared for some novel creations when W. D. orders that stock.

Mr. Laidlaw, who has charge of the grocery department of the Fink Mercantile company, is an artist as a window decorator, and produces some effects that are extremely pleasing to the eye. Mr. Laidlaw's latest effort is a camping scene and everyone who has seen the window has nothing but words of praise. The scene is a perfect picture showing the tent, the canned food supplies, the lake and outlet, the embers of a camp fire, the refuse pile back of the tent where old cans and empty bottles are thrown, copies of the Cranbrook Herald, fishing tackle, in fact everything that makes a camp outfit complete. Mr. Laidlaw is now figuring on a window for Labor Day and there is no doubt but that it will be one of the best.

One of the best dramatic offerings in the coming autumn will be a magnificent production of a famous play under the management of Clifford Lane Bruce. Having had such a lengthy experience in the theatrical requirements of the West, Mr. Bruce feels confident that this forthcoming presentation will be the success of the season, besides giving Canadians an opportunity to witness a drama which otherwise would not reach them for many seasons. Miss Helene Scott, for four years leading lady with Harold Nelson, has been specially engaged for this tour, while the other principles of the company are now being selected in New York. No return dates will be played as the management is negotiating for an Australian tour to begin shortly after Christmas. Name of play will be announced later.

EXPLANATION

Several regular features of the Herald had to be omitted this week owing to the demand for advertising space, among them the railway column, which is greatly regretted by the management.

WANTED

Man to contract for sawing lath at our Jaffray mill. For particulars apply to North Star Lumber company, Elko, B. C. 15-tf

DO YOU LOVE MUSIC?

Have you a musical instrument? If not, the DOLCEOLA is just what you want. It is played with keys like a piano, and having a similar action. The DOLCEOLA has a sweet, harp-like tone, and is endorsed by leading musicians everywhere.

The DOLCEOLA is the easiest instrument to learn by note. It is convenient to carry.

Agents wanted. Good profit.

For further particulars apply to Mrs. Histon, Cranbrook, General Agent for B. C.
