FORTIETH YEAR—No. 30 CUMBERLAND, BRITISH COLUMBIA, SATURDAY, JULY 23, 1921. SUBSCRIPTION PRICE: TWO DOLLARS PER ANNUM.

All Aboard for Colliery Employees' Picnic at Royston

Everything in A1 Shape for Enjoyable Outing—All Equipment Ready for Use.

The big event of the year takes place on Saturday at Royston, when the Fourth Annual Picnic of the Employees of the Canadian Collieries (Dunsmuir) Ltd. will be held. Providing the fine weather continues the event should prove one of the most enjoyable ever held in the district. The various officers and committees have gone to considerable trouble and expense to get everything in good order and the folks who enter the grounds will find that nothing has been overlooked for their comfort and convenience.

The General Committee paid an official visit to the grounds on Wednesday evening and found everything O.K. All the grandstands, refreshment booths, merry-go-round, swings and shoot-the-shutes are ready as well as minor things which experience has shown adds to the comfort and pleasure of those present have been erected.

Place Kick and Throwing the Ball.

In addition to the published programme of sports for the picnic there will be two other interesting competitions. These are (1) Place Kick, and (2) Throwing the Baseball. These two events will be confined to bona fide footballers and baseballers. Prizes for each of these events have been allotted, being the value of $10, $7.50 and $5.00 in each instance.

First Aid Prizes Increased.

The prize money in the First Aid Competition has been increased to $50 for the first team and $25 for the next.

Grand Raffle.

A very important event is the Grand Raffle, for which many prizes have been received. This raffle is restricted to Canadian Colliery employees, each one of whom receives a ticket. The drawing will take place at the conclusion of the sports in the afternoon. All prizes in this event must be claimed by Saturday, July 30. All not claimed by that date will be forwarded to Ladysmith to be used in the Canadian Collieries picnic there.

RESULTS OF HIGH SCHOOL MATRICULATION EXAMS.

The results of the matriculation examinations held in the High School in June have been published by the Department of Education. In Cumberland in the different divisions, three passed and five have the privilege of supplementary examination in the subject in which they failed to acquire sufficient marks to pass. The list is as follows:

Successful Candidates.

Third-class, non-professional—A. J. Fouracre.

Junior matriculation—Richard J. Downey.

Completed junior matriculation — Caroline Richardson.

For Supplementary Examinations.

Those entitled to supplementary examination, and the subject in which they were deficient in, are:

Genevieve McFadyen, physics.

Cyril Allister Michell, albegra.

Vivian Josephine Aspesi, algebra, geometry.

Edward Montgomery Hood, algebra.

Edith Horbury, algebra, geometry.

COMOX BASEBALL LEAGUE FORMED

At a meeting held in Courtenay last week a new baseball league was formed, to be known as the Comox District League. There were delegates present from Cumberland, Courtenay and Union Bay. Mr. McKenzie was in the chair and Mr. McAllister acted as secretary. The latter stated that the Stewart cup would be put up for competition, and that Mr. Thomas Graham had promised medals for members of the winning team.

The following officers were elected:

Mr. Thomas Graham, Cumberland, honorary president.

Mr. Alex. Auchinvole, Union Bay, honorary vice-president.

Mr. Leo Anderton, Courtenay, honorary vice-president.

Mr. McKenzie, Courtenay, president.

Mr. B. S. Abrams, Union Bay, vice-president.

Mr. J. L. Brown, Bevan, secretary-treasurer.

Mr. J. Aitken, Bevan, umpire.

The executive consists of the elected officers and a delegate from each club.

The Schedule.

July 24—Union Bay vs. Cumberland.
July 27—Courtenay vs. Union Bay.
July 31—Cumberland vs. Courtenay.
Aug. 3—Union Bay vs. Cumberland.
Aug. 7—Courtenay vs. Union Bay.
Aug. 10—Courtenay vs. Cumberland.
Aug. 14—Cumberland vs. Union Bay.
Aug. 17—Union Bay vs. Courtenay.
Aug. 21—Courtenay vs. Cumberland.
Aug 24—Cumberland vs. Union Bay.
Aug. 28—Union Bay vs. Courtenay.

Mayor Proved Good Pitcher

Delivered Opening Ball of New League in Fine Style Before Big Crowd—Locals Won

Cumberland 12 runs; Courtenay 10.

On Wednesday evening the first game in the newly formed Comox District Baseball League was played on the local grounds, when Mayor MacDonald took his position on the mound. After a big league "wind-up" he delivered a fast ball across the plate, with which the batter was unable to connect. The Mayor then declared the league open.

There was a big crowd present, the shouts from which could be heard all over town when a good play was given.

A hard and exciting struggle took place betwen the Courtenay and Cumberland teams, keeping the fans on edge throughout the game.

Although the score was large both teams played good ball, while home runs were credited on both sides. The teams got away with a good start, Courtenay securing three runs in the first inning, while Cumberland followed with six, duplicating the same in the second. This finished the scoring for Cumberland, as Courtenay's star pitcher then took charge and kept the local team from scoring. The valley boys kept gradually adding to their tally until the eighth innings, when Boyd finally applied the brakes and put an end to Courtenay's scoring activities. The score by innings:

Courtenay	3	4	0	0	2	0	0	1	0	10
Cumberland	6	6	0	0	0	0	0	0	0	12

The Line-up.

Cumberland		Courtenay.
Kerr	c.	Downie.
Boyd	p.	Larsen.
Plump	1b	McFarline.
James	2b.	Dixon.
Marocchi	3b.	R. Robinson.
Hunden	s.s.	C. F. Robinson.
Westfield	r.f.	McLean.
Harrison	c.f.	A. Robinson.
Bannerman	l.f.	H. Dixon.

GAME AT UNION BAY ON SUNDAY.

The next game will take place at Union Bay on Sunday, when the Cumberland will show the seaside chaps how the game should be played. A good game is expected.

NANAIMO TEAM INFLICTS DEFEAT ON CUMBERLAND

On Sunday evening last the Nanaimo baseball team visited Cumberland for a game against the local ball-tossers. This was their second game during the day, as they had played Courtenay in the afternoon, when they suffered defeat by 5 runs to 2.

Cumberland started out strong, scoring no less than seven runs in the second innings, but they were unable to maintain the gait and did not score any further.

The visitors said that Cumberland has one of the best diamonds on the Island; in fact the ground is so fast that the visitors seemed lost until they got accustomed to it, after which they put up a great game, winning out by a score of 14 to 7.

INTERMEDIATES PLAY HOME GAME ON SUNDAY EVENING

The Cumberland Intermediates will play the local Japanese ball team on the football grounds Sunday at 6 p.m. The line-up of the Intermediates will be: Catcher, D. Richards; pitcher, C. Saunders; 1st base, A. Farmer; 2nd, P. Courtenay; 3rd, A. Sommerville; s.s., R. Robertson; outer field, M Stewart, A Winningham and S. Little. Reserves, V. Dalby and J. Bennie.

Chief White Elk Here Next Week

Appears in Picturesque Show, Thursday and Friday, "Before the White Man Came"

Thursday next will mark the opening at the Ilo-Ilo Theatre of the All-Indian Love Drama, "Before the White Man Came," which features Chief and Princess White Elk, who present a complete and magnificent prologue epilogue for this marvelous feature.

A prologue will be something new for theatre goers in Cumberland, which is in disperse with dramatic reading, recitations, songs and Indian dances, the epoch of which will be long remembered by all who attend the performances. Once the public become accustomed to this accomplishment they will demand this ultra form of entertainment and respond to its magnificence the same as has been the results with all modern theatres in the larger cities throughout the world.

The theme of "Before the White Man Came" is highly exciting, so is its educational and entertaining, unfolding the true story of a young Indian chief who is in love with Che-Wee-Na, daughter of Great Bear, and who is continuously annoyed by The Wolf, chief of the Sioux, a cruel and crafty tribe, who also seeks the hand of Che-Wee-Na, and is determined to possess her by barter or warfare.

An Indian romance, showing the tribal rites, customs, religious cere-

(Continued on Page Two)

Council Adopts Boulevard Plan

Considerable Business Transacted Fortnightly Meeting of Council on Monday.

The regular meeting of the Council was held on Monday night, at which considerable routine business was transacted. Mayor MacDonald was in the chair, and Aldermen Parnham, Pickard, Francescini, Brown and City Clerk Mordy also attended.

Council Agrees to Plan of Mr. Owen for Boulevard on Avenue.

Mr. Owen attended the meeting and explained his proposal for the boulevard on Dunsmuir Avenue between Third and Fifth Streets. The idea is to have a strip 16 feet wide reserved for shade trees and grass on these two blocks. Mr. Owen informed the Council that besides beautifying the approach to the city, and giving visitors a good impression, the plan would save the city considerable money, as the upkeep of the road would be reduced. The saving in the first two coats of tarvia will amount to about $400.

The plan leaves 20 feet for vehicular traffic on both sides of the boulevard, which is ample, as Mr. Owen informed the Council that Nanaimo's principal street has only 34 feet for this class of traffic, whereas Dunsmuir Avenue will still have 40 feet.

The proposal found favor with all the aldermen, and after detailed discussion, on motion of Ald. Brown, seconded by Ald. Parnham, the following resolution was unanimously carried: "That the Council accept Mr. Owen's plan for a boulevard and proceed with the work soon as possible."

Communications.

Secretary A. J. Fouracre of the G. W. V. A. wrote to the Council seeking information concerning the Soldiers' Housing Scheme, and enclosing names of seven comrades who are desirous of building.

City Clerk Mordy has been in communication with the authorities concerning the same subject, but details of the scheme have not yet come to hand.

Mr. H. S. Clements acknowledged communication from Council concerning the request for $200 from the Dominion government towards improvement of Dunsmuir Avenue, in consideration of the Dominion Buildings on the avenue. Mr. Clements says he is taking the matter up with the Minister of Public Works and it will have his whole-hearted support.

$12 for Memorial Arch.

The Bevan Lumber and Shingle Co. sent a cheque for $12, explaining that this money had been collected for the Memorial Arch fund but had been inadvertently overlooked. The Council received the money with thanks.

Highway Not Classified.

A reply was received from the Public Works Department in answer to information asked as to the classification of highways in Cumberland. He stated that no provision had been made as regards the Cumberland highwys as yet. This notification was a surprise to some of the aldermen as they were under the impression that Dunsmuir Avenue and Fourth Street to the Courtenay highway had been classified as primary highways. Evidently the government has not yet classified these roads, though the Council was asked several months ago to furnish particulars and their wishes in this connection.

Compensation Board Assessments.

Mr. Mordy informed the Council that he had taken up with the Compensation Board the matter of the Council's assessment on labor being paid twice, as the municipality had paid some $14 for the half-year and had also paid $25 to the Canadian Collieries for labor assessment on work done for the city. A reply was received from the Compensation Board stating that the auditor was out of town but the matter would be gone into later.

Bills and Accounts.

The following bills and accounts were read and referred to the Finance Committee for approval:

W. M. Leighton, stable supplies	$16.00
Canadian Collieries, coal	8.30
T. E. Bate, supplies	4.65
Islander	6.50
Fire Department	25.00
Poll Tax Refunds	15.00
Telephone Service	11.20
Electric Light Co.—	
Repairs, Bandstand	7.85
Repairs, city	6.10
Current	36.05
Water	4.34
Water, Isolation Hospital	2.50

A bill was received by the Council from the nurse at the Isolation Hospital for nursing scarlet fever patients,

(Continued on Page Two)

Minto Farmer Is Attacked By Bull

Mr. Tom Pearse Seriously Injured When Mauled by Young Animal on Wednesday

Whilst working in his yard at his farm at Minto on Wednesday morning about nine o'clock a young Jersey bull suddenly turned on Mr. Tom Pearse and threw him down and mauled him badly before the arrival of help in the person of Mr. Nehemiah Harvey, who happened to be passing at the time.

Mr. Pearse is in a serious condition at his home, several ribs have been broken and his head and body badly bruised. It is hoped that no internal injuries have been sustained. Mr. Pearse was unconscious for some hours after he was injured.

Mr. Harvey says that he was passing on the road when he saw Mr. Pearse lying on the ground near the mower. He thought the farmer was looking at the machinery until he saw a young bull make a rush at the prostrate man. Mr. Harvey then came to the rescue with a club and attempted to beat the bull off while he rescued Mr. Pearse from further attacks. The infuriated animal could not be restrained with a club and Mr. Harvey worked round until he could get hold of a fork which was lying near and he then effectually drove off the bull. He called for help to carry Mr. Pearse in, and Mrs. and Miss Pearse came out and all three turned their efforts to carrying Mr. Pearse into the house. The bull then attacked all three and knocked Miss Pearse down, without seriously injuring her, fortunately. The bull was beaten off again and Mr. Pearse borne into the house and Dr. MacNaughton at once sent for.

Mr. Pearse is a man of about sixty and one of the best known and respected residents of the Minto district. His many friends in Cumberland hope for his speedy recovery.

Duncan Oriental Plan Endorsed

To Combat Evil of Orientals Acquiring Considerable Land In the Province.

The Council unanimously endorsed the resolution forwarded from the City Council of the Municipality of Duncan regarding Orientals, at the meeting on Monday night.

The Council thus went on record as opposed to the further acquisition of land in British Columbia by Orientals, either by lease or freehold. On motion of Ald. Brown, seconded by Ald. Pickard, the Council unanimously endorsed the Duncan proposal, which is as follows:

"Whereas it is the desire of every loyal citizen to maintain this province as a white man's country, and

"Whereas for many years there has been a steady influx of orientals into this province, and

"Whereas owing to their lower standard of living these people are steadily ousting the white man from the industrial field, and

"Whereas it is imperative that steps be taken at once to vigorously combat this evil, and especially to prevent any further acquisition of land in B. C. by Orientals, either by lease or freehold:

"Be it therefore resolved: That the Provincial Government be requested to enact a law providing that all transactions bearing upon the conveyance of title to lands and leasing of lands in B. C. be first submitted for the approval of the Municipal Council concerned, and

"Be it further resolved: That copies of this resolution be forwarded to all municipal councils and other prominent public bodies throughout the province, asking for their endorsement, and that copies of the resolution be forwarded to the Premier and Minister of Lands for B. C. asking that legislation on the lines suggested be brought down at the coming session of the Legislature."

I.O.O.F. GRAND MASTER HERE NEXT THURSDAY

Judge John D. Swanson, of Kamloops, Grand Master of the Grand Lodge of British Columbia, Independent Order of Odd Fellows, has notified Bro. J. C. Brown, Grand Conductor, that he will pay an official visit to Union Lodge No. 11 Thursday next, July 28.

This will be an important event in the annals of Cumberland Odd Fellows and the officers invite all members of the order in the district to attend this meeting. They will be well rewarded as Judge Swanson is said to be one of the finest speakers in the Province. The meeting will be held in the Fraternity Hall.

Shooting Affray in Local Chinese Gambling Den

Japanese Cause Trouble in Gambling House and Shoot Chinaman, Who is Recovering

One Chinaman in hospital suffering from bullet wound in back.

One Japanese in jail, charged with attempted murder.

Two Japanese gunmen supposed to be hiding in hills.

Missing from gambling house $1000?

These are the net results so far of attempted robbery from one of the gambling houses in Chinatown early Thursday morning.

About one a.m. intense excitement prevailed in Chinatown when several shots were fired by some Japanese who had been visiting one of the gambling houses.

It appears that the Japanese who are supposed to have recently arrived from Vancouver, were participating in a game at No. 25, and according to the statement of the one now in jail, named M. Shiaga, he placed a few dollars on a gambling table, and lost; one of his accomplices then staked over one hundred dollars, and lost, whereupon he is said to have accused the Chinese of cheating and told his partner to grab the money, which he did—and that started things in quick succession. The Japanese endeavored to leave the house, but met with resistance, Chinese grabbing at the bills amongst the general pandemonium. One of the Japanese, it is said, pulled a gun and fired two shots, one of which hit a Chinaman named Wong Deen in the back. Another of the Japanese, all of whom were armed with powerful automatic revolvers, is said to have fired two shots, but which did no damage.

By this time the excited crowd had reached the street and hundreds of Chinese were emerging from the buildings, adding to the excitement.

Just at this time it happened that Provincial Constable Geo. Bell, of Courtenay, was on the way to Chinatown, looking for Constable Dunbar, whom he had been informed was in that vicinity. Constable Bell was close to Chinatown when the shooting occured and distinctly heard two loud reports and two smaller ones, giving the impression of shots fired from large and small calibre guns.

Provincial Police Arrest Japanese.

He hurried to the scene of the shooting and was soon surrounded by hundreds of excited Chinese, who informed him that the Japanese had been robbing and shooting in No. 25. Con. Bell pursued one of the Japs up the railway line and arrested him. Just before being arrested the Jap threw something into the bush, but it was too dark for the policeman to see what it was. After a hasty search the constable wisely decided to lodge his man in jail, lest he might escape in the excitement, as there were crowds of Chinese around them.

Hardly had the constable safely lodged the prisoner in jail when Choo Hoy, a Chinaman who saw the Jap throw something away, put in an appearance with a revolver which he said he had found in the place where the Jap had thrown something.

The gun was an 8-cartridge one and had six cartridges in the magazine.

Jap Admits Grabbing Money.

The Japanese under arrest told the police that he had grabbed the money in the gambling house, and had thrown it away in the hope of stopping the Chinese following him. He had some of the bills in his possession when arrested, and they have the appearance of having been in a struggle.

Shiaga says he comes from Vernon, joining the other two Japanese in Vancouver before coming to Cumberland.

Following the shooting Dr. Hicks was at once notified and he ordered the victim taken to the hospital, where the Celestial was operated upon and a bullet of about 40 calibre removed from his back. The doctor says that if the bullet had gone in the opposite direction it would have meant instant death.

Appears for Preliminary Hearing and is Remanded.

On Thursday evening Shiaga came up before Magistrate Baird for preliminary hearing, when he was charged with shooting with intent to kill and murder Wong Deen. Mr. P. P. Harrison appeared for the prosecution and asked for a remand, which was granted, the case being remanded to Friday next.

Constable Dunbar and his colleagues have been searching the district for the two desperadoes, but have as yet failed to locate them. The feeling is that they are either hiding in the hills or are endeavoring to leave the district.

SCHOOL SANITATION TENDER AWARDED

Victoria Firm Secures Work at $7540 for Complete New Sanitary System

McDowell & Mann, 646 Johnston Street, Victoria, were the successful tenderers for the construction of a complete sanitary system in the Cumberland Public School, which has just been awarded by the Provincial Public Works Department. The amount of the tender is $7540.

The specifications call for the excavation of the basement and installation of modern wash basins, toilets, septic tank, etc. Part of the installation will be on the upper floor of the school, for the use of teachers.

Other work includes alterations to the fire escape, making it more safe in case of fire.

While the sanitary arrangements in the past have been a disgrace to a public institution, the new installation will place the Cumberland school in the front rank in modern sanitation.

The School Board is also making improvements and repairs to the outside of the school which will cost in the neighborhood of $1000. When the scholars begin the Winter term they will attend a school of which the children and their parents will have cause to be proud.

Rev. Thos. Menzies, Mayor MacDonald and other city officials worked hard to get the government to make these very necessary improvements. Though the government leaves much undone for the good of Cumberland, notably its poor roads, credit must be given them for the splendid manner in which they help the schools.

BROWN CLAN SEAFARER VISITS CUMBERLAND

A visitor to Cumberland during the past week, visiting relations, was Mr. George Brown, chief engineer of the S.S. Wytheville, which has been coaling at Union Bay. Mr. Brown has been with the ship during the past three years, during which time he has visited most part of the globe, the last port of call before Union Bay being Manila. The ship left Tuesday en route to New York via the Panama Canal. On arrival at New York Mr. Brown will proceed overland to his home in San Diego, Cal., for a year's holiday, and at the end of that time he expects to take charge of an electrically-driven ship now in course of construction. Though Mr. Brown is a comparatively young man he ranks high in mercantile life.

The visitor is a brother of Mr. J. T. Brown, Sr., and uncle to J. T. Brown, Jr., the tobacconist and Bobby Brown, the old Cumberland football player.

The seafarer brought a cute little monkey for "Bobby" to play with and from latest accounts he is having all the fun he wants.

BOARDS OF TRADE MEET AT ALBERNI

The annual meeting of the Associated Boards of Trade of Vancouver Island will be held at Alberni this (Friday) evening, when delegates from all boards of the Island will attend.

Cumberland will be represented by three delegates, Messrs. J. Sutherland, A. MacKinnon and T. Mumford. Mr. Geo. Clinton, who is vice-president, will also attend, the party leaving by motor this afternoon, and expect to return tomorrow forenoon to attend the Colliery Picnic.

G.W.V.A. Notes

We again remind the public that Women's Auxiliary, who are in charge of the G. W. V. A. refreshment booths at the picnic grounds, will serve a light lunch for the small sum of 25c.

Ice cream, soft drinks, etc., can be had from the other G.W.V.A. booth, in charge of Com. F. Slaughter.

All members of the above committees are asked to report early as possible on Saturday morning, to either Mrs. Marsh or Mr. F. Slaughter, so that reliefs can be arranged.

Another successful and enjoyable whilst drive was held on Friday night last in the Memorial Hall by the G. W. V. A., when there were a large number of members and friends present. In the whist contest the prizes were won by Miss Parkinson, first lady, and Com. A. H. Scott, first gent; Miss Harrison and Com. A. Waddington received the consolation prizes.

Music for the dancing was supplied by Mrs. R. E. Frost and Mr. C. Danning.

Ladysmith easily defeated the Calgary soccer team at Nanaimo on Wednesday. Although the score was only 2 to 1, the Island team on the play should have scored many more goals.

DR. MACNAUGHTON MET WITH PAINFUL ACCIDENT

Whilst indulging in an early morning game of tennis on Wednesday on the board tennis court, Dr. G. K. MacNaughton had the misfortune to slip on the damp wood and fell on his wrist, which was seriously sprained. Dr. Hicks attended the sufferer.

Council Adopts Boulevard Plan

(Continued from Page One)

and a communication from the Medical Fund in the same connection was also read. It appears that infectious cases do not come under the Medical Fund contract for treatment by the General Hospital, consequently the hospital disclaims any responsibility in the matter. As the cases came from outside the city, the Council claims it has no jurisdiction but is a matter to be settled by the Medical Fund and the government.

Responsibility Undecided.

A bill was received from the Cumberland & Union Waterworks Co. Ltd. for water on account of the Isolation Hospital. As this is the first bill to be rendered in this connection the Council decided to pay it, but will look to the occupier of the hospital to pay the rate in future.

The total receipts for the Memorial Arch funds amounted to $952.91.

Committee Reports.

The Board of Works reported good progress on the clearing of Derwent Avenue below Fourth Street.

Ald. Francescini, chairman of the Health Committee, said the town was fairly clean, but he had received several complaints of rubbish being dumped at the park and set fire to, becoming a nuisance to nearby residents. The practice should be discontinued, said the alderman.

The Board of Health will visit the locality and report at next meeting on the best means of overcoming the trouble.

Ald. Brown suggested the erection of a cheap incinerator, similar to those used by the armies overseas.

Ald. Pickard asked a question as to the status of the newly-acquired school ground, saying one or two ratepayers were insisting that money could not legally be spent on these grounds by the city as they were outside the city boundary. The speaker contended that steps should be taken to incorporate this portion into the city.

Mayor MacDonald suggested that this be done at the next election, to save expense, as a bylaw would have to be submitted to a vote of the ratepayers.

Taxpayers Overstey Payment Date.

Some more or less heated discussion ensued regarding payment of taxes a day or two later than the date stipulated on the tax notices. Two or three persons had delayed paying on the due date and contended that they should not be penalized on that account.

Ald. Pickard thought some discretion should be shown in the matter and such cases provided for.

The Mayor and City Clerk explained that the law is very clear in this regard and the City Clerk had no alternative but to impose the penalty. Had he failed to impose the 10 per cent. penalty he would have laid himself open for trouble with the provincial authorities for violation of the act.

CHIEF WHITE ELK HERE NEXT WEEK

(Continued from Page One)

monies, hunting scenes, savage love and hatred. A lot of things are brought out that few motion picture audiences realize ever existed.

Will Sing from Top of Ilo-Ilo Theatre

Chief White Elk will sing from the top of the Ilo-Ilo Theatre at 7 o'clock on Thursday night. The performance will start immediately following this feat.

On Tuesday last the Victoria Colonist devoted nearly a column to praising the first appearance of this show in the capital city. It says: "That something new, something picturesque, and something which will appeal to all "movie fans" is now being produced at the Variety Theatre was manifested yesterday with the appearance of Chief White Elk, his wife, and the wonderful film, 'Before the White Man Came.' Chief Elk made his debut before the Victoria public at noon yesterday when he sang from the roof of Spencer's building, and later was present at the theatre in his magnificent costume, which in itself is well worth a visit of inspection.

"From the tip of the chief's feathered headdress to his heavily embroidered moccasins, White Elk is a superb picture of an Indian chief. The apron, or scalp bag, is beautifully embroidered with wampum and Indian money, and dates back a generous hundred years, while the cuffs he wears are encrusted with hieroglyphics emblematic of council and friendship.

"White Elk is a chief of the Oklahoma Cheerokee Indians, and his wife is the last princess of the Klamath tribe. Her native costume has veen valued at $5000, and in this dress, over 200 hundred years old, and composed of 22 pounds of beads, she will appear on Thursday at the theatre."

A gentleman burying his wife, a friend asked why he expended so much on her funeral. "Ah, sir!" he replied, "she would have done as much or more for me, with pleasure, only she happened to die first."

G. W. V. A. MEETS EVERY TUESDAY EVENING

The meetings of the Great War Veterans Association are held every Tuesday at 7 o'clock in the Memorial Hall.

NOTICE

May 25, 1921.

On and after May 27th all services and meter loops installed must be in conduit with externally operated switch, all to be grounded and installed in accordance with Underwriters' Regulations.

This applies to meter loops moved from one location to another in the same building.

All wiring must be strictly in accordance with the Rules and Regulations of the Inspector of Electrical Energy for British Columbia, and also the National Electric Code.

Any person moving meters belonging to this Company, altering, disconnecting or connecting service wires will be immediately prosecuted, according to law.

Special attention is drawn to the fact that porcelain sockets and switches are required in certain locations, and new installations will not be connected without them. Old installations in which brass or other metal sockets are installed in prohibited locations after this date will be disconnected. And further be warned that the secondary circuits on the distribution system of this Company are now grounded, and we strongly urge all our customers to see that only porcelain sockets and switches are used when same are within reach of any grounded pipes, concrete floors, etc., and we will not be responsible for any hazards incurred unless such fittings are used.

Our authority for above regulations is written instructions from the Provincial Inspector of Electricity, which instructions may be seen at our office by interested parties.

1000 watches absolutely free. Owing to the enormous success of our previous puzzle advertisement, which gained for us hundreds of new clients, who, being so pleased with their free watch, that they are now our permanant customers, we have decided to further advertise and gain recognition in 1000 new homes, by giving away another 1000 valuable watches, to those who are clever enough to fill in the missing letters in the following phrase.

T-ES- W--CH-S A-E F-L-Y G--R-NT-ED

By correctly filling in the missing letters, you can obtain absolutely free a watch, that will equal for time any solid gold watch made, which is sufficiently proven by the large number of testimonials that we have received. Solve this puzzle correctly and comply with our simple condition of which we will write when we inform you if your reply is correct, write clearly, your name and complete address, so that we may without delay inform you of your success.

WHAT TO EAT IN HOT WEATHER

Don't Consume Heat-Producing Foods if You Wish to Keep Cool in Summer.

Do you enjoy heat? No? Then why not try to cool off? We do try, and try hard, but some of us don't know how. There are the heat-producing foods for example; excellent things in winter—calculated to save the lives of the Eskimos, but hardly what one ought to choose for a meal with the thermometer in the 90's. Yet how many of us know what they are, so that we may avoid them; and how many of us care to know? C. Houston Goudiss puts the case strikingly in an article on "Foods That Cool," in the People's Home Joural. Mr. Goudiss notes that in summer we often see automobile-drivers bring their cars to a stop and get out and see if the engine is too hot. No one thinks of this as unusual. But the same man will alight at a hotel or restaurant, doff his duster, wash his hands and face, and proceed to injure his own human machinery in just such measure as he has tried to protect that of his car. To quote Mr. Goudiss' words:

"With a meal of heavy foods, rich enough in fat and energy-producing elements to satisfy the winter needs of a dweller in the far north, he will endanger not only his personal comfort on this summer day, but also his physical and mental efficiency.

"Compared to the engine in his body, the engine in his waiting car is a crude, rough affair that can stand no end of punishment. Indeed, the watch he carries in his pocket is not so delicately constructed and sensitively balanced as his own digestive machinery—his stomach and intestines.

"Yet does he stop on a hot summer day to think about this machinery; to consider whether or not the food he eats (the fuel by which it is run) is overheating it; whether or not this food is suited to the immediate needs of this most delicate machinery? In nine cases out of ten he does not.

"In nine cases out of ten, men, women and children never stop to think that the excessive heat of summer necessitates strict attention to diet, and that this attention not only pays immediate and large dividends in health, but is the real secret of keeping cool in hot weather.

"We eat food for five main reasons —for heat, energy, blood-regulation, tissue-building, and repair, and the maintenance of that marvelous balance between the working of the vital organs. The temperature of the body in health is the same in summer as in winter. But the work of the body machinery is different in several ways.

"In the first place, elimination of moisture is much more constant and noticeable in summer than in winter. That is why thirst is so prevalent during hot weather. And when we come to a consideration of thirst, we approach one of the main causes for summer discomfort.

"With the thermometer in the 90's and little or no air stirring, with the mind intent upon the wilting effect of the humid atmosphere and the body wearied by its attempts to overcome the fatigue incident to such conditions, nothing seems more tempting than an iced drink. But before you life the frosted glass to your lips—and this applies to any liquid from water to ice-cream soda—let me ask it you ever noticed a pan of potatoes or prunes or any other foodstuff boiling low and, to prevent burning, poured in some cold water?

"If so, you saw how quickly the boiling ceased; it was some moments before the bubbles came back.

"Now the food in your stomach does not boil or bubble, but it is constantly kept in motion so the digestive juices may become thoroughly mixed with it, and this preparation for the real process of digestion and assimilation in the intestines is carried on at an even temperature—between 98 and 99 degrees Fahrenheit. Save for the degree of heat, the comparison with the pan of boiling food is not inapt. As you swallow mouthful after mouthful of the ice-cold liquid, you do to your stomach exactly what the cold water does to the boiling liquid in the pan —you chill its action and halt its function.

"It is necessary to drink more in summer than in winter, but no iced liquid ever should be allowed to enter the stomach, and all cool drinks should be slowly sipped. One real hot-weather danger is the tendency of the kidneys to neglect their work because of excessive perspiration which carries off the body moisture. But perspiration does not perform the function of the kidneys in eliminating poisons, and as warm-drinks are kidney-stimulators, it is unwise to neglect altogether their use during hot weather. In fact, large quantities of water should be taken to supply sufficient for body-evaporation and to keep the kidneys active."

The real cooling influence of any summer drink, Mr. Goudiss reminds us, is its power to increase elimination of moisture and thus, through evaporation keep the surface of the body cool. Hence the wisdom of partaking only of drinks whose temperature is such as to hasten rather than hinder the process of digestion. He continues in substance:

"I have emphasized drinks because they are the first food we think about in summer. If you want to quench your thirst in summer without unduly heating your blood, stick to cool water —varied, if you choose, with a little lemon, orange, lime, or other fruit juice.

"Most persons eat too much meat the year round. What the body does not need for building and repairing tissue must be taken care of, and this excess is burned as fuel, and therefore creates more heat.

"Use meat as a flavor and you have its ideal summer service. Use milk in place of meat and you lay the foundation for a degree of summer comfort such as you have never known.

"With eggs, cheese, and fish, milk completes a list of perfect meat-substitutes for summer use.

"As a general rule we need only about three-fourths as much food in summer as in winter. And since there are foods which will keep the body machinery going without overheating it, why not use them?"

If the man at the head of the table must have meat, says Mr. Goudiss, satisfy his longing with a bit of cold ham or tongue, a piece of chicken or a small chop, a slice of veal loaf or some jellied meat. At the same time, surround him with a tempting array of fresh vegetables, an enticing salad, and a dish of fruit. Moreover:

"As they come along, serve him plentifully with beet, Swiss chard, peas, spinach, string-beans, corn, onions, lima beans, tomatoes, cucumbers, etc. Some of these may be cooked with a bit of meat, thus adding to the flavor. And many of them will provide a generous portion of those necessary food elements, vitamine.

"I know homes in which salads and cereals form the chief item of diet during the summer months, and in which meat is almost wholly ignored. It is a fact that in these homes I hear less complaint about the heat, less insistence on weather topics, than any place I go.

"The folk who live in them eat plentifully of fruit in summer. When it comes to desserts they emphasize gelatine dishes, tapioca and cornstarch puddings, frozen-milk sherbets, water-ices, and plain ice-creams.

Pure, plain ice-cream is a very nourishing food if eaten slowly. But to dump a dish of frozen cream into the stomach on top of a warm meal which already is being prepared for digestion is to throw a monkey-wrench into the works. The stomach must draw on the rest of the body for reserve power to raise the temperature of the chilly mass to that of the blood.

"The way you feel in summer is dependent first upon the way you eat If you are going to insist upon food which will add to your body satisfaction or overtax your body machinery you will suffer. But if you will keep your mind calm and your head out of the sun, eat little meat and avoid a surplus of sweet, fizzy drinks, get sufficient sleep and waste no time talking, thinking or reading about the heat, you will have little cause for complaint."

ONE CAT AND THREE BOTTLES OF WHISKY

The captain of a ship had some Scotch in his cabin and wanted to transfer to a thirsty friend in the city, but customs officials barred the way.

Then a taxi backed up against the wharf. The steward received orders from the bridge to produce the ship's cat in a sack. The old man hadn't got off the gang plank before he was pounced upon by a customs official.

"Wotcha got in that sack?" he demanded.

"A cat," was the reply.

"Let's have a look at it," persisted the law.

The bag was opened and out hopped Thomas and scuttled back aboard. The captain chased after it. Presently he appeared with the sack.

"Didja get him?" asked the customs man.

"I sure did and he won't get away again!" was the reply.

"Sorry to give you all that trouble, captain, but duty is duty, sir."

"Don't mention it; I admire you for it. What the service wants is more men like you," said the skipper, as he climbed aboard the taxi with his cask, which this time, instead of the cat, contained three bottles of Scotch.

MEN WHO MUST MARRY

An Anti-Bachelor Bill introduced into the Turkish Parliament, makes marriage compulsory for men over twenty-five.

Defaulters will be fined a quarter of their earnings, which will be deposited in agricultural banks to help peasants to marry. No adult civil servant may be a bachelor.

Gifts of land, loans, and state education for children are held out as rewards for marriage, with a penalty of hard labor for a confirmed bachelor.

BELIEVED IN SIGNS

During a dangerous epidemic in a small Western town every infected house was put under quarantine. After the disease had been checked the health officers were taking down the quarantine signs, when an old negress protested.

"Why, auntie," said an officer, "don't you want me to take that sign down?"

"Well, sah," was the reply, "dey ain' be'n a bill collectah neah dis house since dat sign went up. You-all let it alone."

Less Troublesome Adjustments

As a rule the adjustment you get on a defective tire, dosen't quite satisfy you. Mainly, we suppose, because we are all human and want a little more than we are entitled to.

But even our most private opinions on the fairness of an adjustment, can find no fault with the method of settling claims on Ames Holden "Auto-Shoes."

You are always right with ourselves and the manufacturer. We personally look after your interests. There is no needless red-tape, delay or argument in fixing our measure of responsibility and your compensation. Ames Holden "Auto-Shoes" are guaranteed against any defect in material or workmanship without time or mileage limit. They are adjusted on that basis without quibble or evasion.

BEAUTIFYING THE CITY

In adopting the proposal of Mr. W. A. Owen for a boulevard to be placed in the improvement scheme of the two blocks on Dunsmuir Avenue, we feel sure the City Council has acted wisely. The two blocks from the Post Office to Fifth Street are shortly to be graded and coated with tarvia, to conform with the adjoining portion of the street. The tarvia for this purpose is being subscribed for by the property owners on the two blocks.

A 16-foot boulevard, containing shelter trees and lawn, will still leave 20 feet on either side for traffic, which in this case will of course be one-way. This space will be ample, as instanced by the fact that the main street of Nanaimo has only 34 feet for vehicular traffic, whereas this avenue will still have forty feet after the boulevard is provided for.

The beautifying effect will be very great and give a pleasing impression to visitors, as well as providing shade from the hot summer sun.

Much credit is due to Mr. Owen for his persistent endeavors to improve the appearance of the town.

This example could be copied with good effect on other streets of the city. A few shade trees planted on the sidewalks here and there would add materially to the comfort of residents in summer as well as being pleasing to the eye. Owners and occupiers of houses on the less important streets would add considerably to the appearance of their properties if they would slash the rank weeds that grow so profusely in places, notably the Scotch thistle.

ALBERNI AND REAL ESTATE PROPHECIES

The following clipping from the Port Alberni News brings to mind the wonderful literature put out by real estate peddlers when selling city lots on the hills of Alberni Canal a few years ago. According to them Alberni was destined to be one of the great ports of the Pacific, at which Orient liners would make it their chief port of call, passengers and freight being rushed over the Island, across a bridge to be erected over the narrows and on to Vancouver! Those were the happy days. However, the Alberni paper gives a slightly different impression. It says: Pheasants have nested in our back yard, a wild goose came one day, unenticed, to our woodshed, robins and sparrows fly into our shop through its open windows, ants have gnawed enough material from the wooden sidewalk in front of our office to complete a domain for themselves close to our main doorstep. Last week a panther left its tracks through the surrounding foliage; on Sunday the home team won a baseball game, and today we can hear the lively chatter of strange children as they pick berries from the bushes that grow wild up against the outer walls of our printing house. It is a grand life in this wonderful part of the world, even without the existence of a government booze store.

They propose to licence cats in Vancouver. The licence inspector whose duty it will be to catch the stray ones will have our sympathy.

Canada's share of the reparation which Germany is supposed to pay the British Empire is $300,000,000. It is not expected that the amount of real money the Dominion will receive from the Germans will materially affect the financial barometer.

With reference to the national destiny of Canada, Rabbi Hertz quoted the words of Lord Bryce on New Zealand: "The grandeur and beauty of the country must somehow mould and inspire the people. Those who inhabit such a land can hardly have a commonplace future."

It is all foolishness trying these less-exposure regulations for women's street costumes in Victoria until they can stop the wind from blowing like it does.—Port Alberni News.

An outstanding achievement of the Dominion Department of Agriculture is found in an official bulletin which shows that we are large and careful exporters of a high standard of fresh eggs to Great Britain while we continue to import the Chinese product for home consumption.

They call it a monarchy, but it is King George the Fifth and Lloyd George the Four-Fifths.—Fresno Republican.

Humanity travels in cycles, say economists. The axiom is especially impressive in connection with the air ships planned for the near future. Both the ships of the air and the old-time sailing craft depend upon sails. The only difference is that the airships carry their sails horizontally and manufacture their own wind.

As the Kamloops Telegram remarks, every flagrant violation of the Liquor Act makes prohibitionists. Moderationists who want to retain their restored liberty should be the last to condone anything of the kind.

The great thing in this world is not so much where we stand as in what direction we are moving. To reach the port of heaven, we must sail sometimes with the wind and sometimes against it, but we must sail, and not drift nor lie at anchor.—Oliver Wendell Holmes.

MORALS OF OLIVER GOVERNMENT

Under the above heading the New Westminster Columbian has the following to say: This heading no doubt will provoke a smile on the part of every reader familiar with proceedings at Victoria, for "morals" they have nix; but an examination of the standards governing in lieu of morals is particularly timely in view of the recent performances of master and man.

The liquor warehouse deal is typical and no more dishonest transaction of the Oliver government during its whole career. The party management have been caught red-handed with their hands in the public treasury to secure funds wherewith to reward a henchman and incidentally to punish a backslider from the fold. The raid was originated before the appointment of the Liquor Control Board, but complacently accepted by the Board, as their very profitable positions depend upon their usefulness to the party in possession at Victoria.

Large expenditures are supposed to wait upon the vote of the Legislature, but in this instance the Legislature has been flouted by the expenditure of a hundred and fifty thousand dollars, under arrangements while the house was in session, but concluded without vote and without mention in the Legislature. The proceeding evidently was assumed to be perfectly safe with the present Legislature, because it is doubtful if any member supporting the Oliver government is in position to have inquiry made into anything exemplifying the sources of the fund which elected him and his colleagues.

There is a financial "controller" as part of the top-heavy civil service at Victoria, but this controller is the creature or creation of the party in power, who found in office an auditor-general not likely to countenance the irregular issue of a cheque for any sinister transaction and so removed him and placed the treasury under the control of a new man of their own choice. This is one of the results. The treasury in this case proved wide open to the political raider.

There is a purchasing agent as part of the expensive machinery but he is not permitted to interfere with the larger political grafts. He is good enough to arrange for the purchase of a bottle of ink or a lead pencil, but when a seventy thousand dollar property is to be bought for a hundred and fifty thousand dollars, from a party manager, the purchasing agent is relegated to limbo. That is quite all right with the Oliver government.

For this we have the word, or the writing, which is safer to follow, of "Honest" John himself. Only an appeal to the Lieutenant-Governor to take cognizance of the looting going on in his very presence, caused the Prime Minister to take any public notice of this bold graft. And he has come out with a whole-hearted defence of the thing. Because his government a few months ago made a foolish lease whereby they were to pay one of their henchmen the full value of a warehouse as the rental for five years' occupancy of it, the Prime Minister argues that there is a virtue in substituting purchase at a price which represents nine and a half years' rental!

The gravel pit purchase was under unwilling investigation when the liquor warehouse job was discovered. The investigator was a close personal friend of the Premier, an employee of the government charged with the purchasing of properties for the Pacific Great Eastern mystery. The Prime Minister's choice of investigator is vindicated from his standpoint, by the gravel pit finding made public. This official of the government finds that there was no fault at all on the part of any members of the Sewerage Board who purchased a gravel pit they did not need and have not used, at a price double that at which it was being offered for sale by the owners, and he finds that the only wrong committed was by the official of the government service in South Vancouver who "lied" to the too-confidential board! He has censure, however, for two of the witnesses—a hint to any other "Liberals" who peach on their government. When it is remembered that the man who makes this peculiar finding is the instrument chosen by the Premier to make the purchases for the twenty million dollar mystery being carried on under the name of the Pacific Great Eastern, the ordinary taxpayer has cause for so little worry.

A million dollars or more has been lent to friends of the ministry and others to promise the establishment of industries more or less spectacular. But for the homely industry of farming on Nicomen Island, for instance, it seems impossible to find any money. For five years there has been before the Oliver government an offer from Ottawa to spend about eighty thousand dollars or more for the protection of that Island on condition that Victoria would contribute a quota estimated at twenty thousand. As a clincher to his others "reasons" for not accepting this offer Mr. Oliver stated recently that there being no apporpriation by the Legislature the money could not be found by his government. But why is there is one standard for the finding of money to buy a warehouse at twice its market value, and another and stricter one when money is needed to save settlers—and soldier settlers at that—from ruin?

These are samples of the want of morals on the part of the Oliver government. They constitute a novelty in British Columbia. Whatever may be said in criticism of provincial ministries of the past, their honesty has not been questioned. It has remained for "Honest" John Oliver to be sponsor for the first openly corrupt administration with which this province has been cursed.

LEARN TO SWIM

The law does not require anyone to learn to swim, neither does it force people who are not swimmers to risk their lives on the water. But as long as there are rivers, seas and lakes on this earth, people will continue to avail themselves of the pleasures they offer. Therefore, common sense requires that every man, woman and child who goes on the water or who ever expects to go on the water should learn the art of swimming, at least to a degree where they could, in case of necessity, keep themselves afloat for a short period, says an exchange.

Inability to swim is suicidal in many cases; sometimes it is even murderous. What of the man who, being unable to swim, grabs hold of a swimmer and drags the latter down to a watery grave? Did not the inability of the first result in the murder of the swimmer?

But leaving out of consideration every law but the first law of nature, does not desire for self-preservation demand of everyone the ability to swim? It does unless one is sure that he will never get near enough to deep water to make swimming necessary to save his life. Even then he may fall into a well!

If people would only learn to at least keep themselves afloat in the water for a few minutes, thousands upon thousands of lives wold be saved every year.

HAPPY CHILDHOOD

Every child has a right to a happy childhood. The recollection of a sunny childhood is an auspicious inheritance and a splendid preparation for the strain and burden of life. In China the first four or five years of a girl's life are a continual agony. All the children in India are born old. Go among the submerged masses in any of our great cities and you will find childhood barren and desolate beyond description. To have this joy crushed out of a little life is a sorrowful tragedy that will shadow all its future. Grey skies will often weep above them in the after years; see to it that, so far as possible, these early years are unclouded. Let them have their childhood.

IF YOU HAVE THE MONEY

—build that needed house now. Paint that dwelling, that church, that school. Repair that fence and make the place look more tidy. Build that highway—it is badly needed. Pave that street—it will help your town grow. Improve the waterworks and extend the sewerage system, for they will better the health of your town. Build that church, that school, that courthouse, and go ahead with everything that shows you a red-blooded Canadian, with faith in your country. Now is the time for men—real men—to lead off and do things. Cowards are only slackers. The patriot can do as much in this time of peace for his country as he could do in war. Let's play ball!—B. C. Record.

NEWS IN BRIEF

Seek Annulment of Marriage Which Never Took Place.

Suit for the annulment of a marriage in which the principals declare they did not participate, was filed in the Alameda, Cal., superior court this week. Miss Ethel M. Harvey, of Oakland, filed the suit, asserting that she and Kelsey Hastings, to whom the records shoy her to be married, never were married. She stated that in April, 1921, she and Hastings procured a marriage licence, but that the ceremony was postponed. At a dance which the two attended, the complaint alleges, the licence was taken from the pocket of Hastings and used by others.

Bartenders Get Refund.

The City of Vancouver has another refund of $1,060 to make as a result of the closing up of near-beer bars. A bylaw was put through the council authorizing the refund of $2.60 to each of 480 bartenders for the unexpired time of their dispensing licences.

Women May Soon Smoke on Trains.

The Canadian Pacific Railway will soon be operating sleepers with smoking rooms for women and women's dressing rooms equipped with electric plants for heating curling irons. This company, it is said, will be the first in the world to provide smoking apartments for women on its sleepers, and to recognize that in the matter of comfort and convenience the travelling female has equal rights with the traveling male.

Boy Scouts Increase in All Provinces.

Canada will have approximately 190,000 Boy Scouts within two years, if the plans of the Dominion executive of the association are realized, says Dr. James W. Robertson, C.M.G., chief commissioner. The movement is rapidly growing in all the provinces, and while the total enrollment of boys today was not over 35,000, reorganization in many parts of the Dominion about to be effected will result in a very considerable increase in membership.

Vancouver Council Endorses Duncan's Oriental Proposal.

A resolution asking that all transfers of property to Orientals be submitted to the municipal councils for approval before being consummated, forwarded from the City Council of Duncan, was endorsed by the Vancouver City Council on Monday.

Many Violent Deaths in Toronto.

Toronto is setting a new record for violent deaths this month. In the first nine days twenty-six people died from accidents, including ten from heat and seven from drowning.

Sunday Street Cars in Kingston!

For the first time in a decade Sunday street cars ran in Kingston last Sunday. The general manager of the service, who is Mayor Nickle, decided on this in order to give the people an opportunity to cool off at Lake Ontario Park.

Todd Family Forms Four Million Dollar Corporation.

Incorporation into a $4,000,000 corporation of the cannery, fishery and other interests along the coast of the Todd family of Victoria, is announced. Chas. F. Todd of Victoria is president of the new organization and the head office will be in Victoria. The incorporation into a private company is being made solely for private reasons, Mr. Todd explains.

Imperial Oil Invests Heavily in North.

According to A. M. McQueen, of the Imperial Oil Company, his company has expended to date more than two million dollars in making preparations, bringing in machinery and well drilling crews, and organizing gangs of drillers who are putting down holes from the international boundary north, almost to the Arctic Ocean. In addition to this, the Imperial Oil Company has erected its own machine shop in Calgary, and is doing all repair work on its drilling outfits used in Alberta and Saskatchewan.

Fort Norman Oil Exceeds Belief

The Fort Norman oil fields exceed all expectations, according to the judgment of Fred Furlough and James Darwish of Edmonton, who arrived at Prince Rupert Monday on their way to Edmonton to register claims. They arrived from the north by the Princess Royal, having left Fort McMurray early in March by dog train. They found 120 claims staked with Imperial Oil Company parties active.

In their opinion the Fort Norman region is rich in oil for many miles. Both brought out sample bottles of oil, the color of molasses with a creamy thickness and an odor of gasoline. They claim that a pipe line to the nearest point on the coast, where tankers can call, is entirely feasible and is the only way in which the product can reach the market.

Remains of Pre-Historic Monster.

The discovery of the fossilized remains of a pre-historic monster in the foothills of the Pasquai Hills, near the Pas, is reported by Dr. Ells of the Dominion Geological Department. He found the bones disconnected but in alignment, measuring forty feet in length. Dr. Ells is not prepared to state what class of animal the remains belong to, but regards the discovery of great importance to science.

13,000 Canadians in Seattle.

There are 13,324 Canadians in the city of Seattle, according to figures given out by the census bureau. The total foreign born white population of the city is 73,875. Canadians representing the largest single nationality. Spokane has 3,692 Canadians.

BREAD!

Do you know that bread contains many times the nourishment of other foods?

Do you know that bread and butter or bread toasted with good coffee in the morning is the most substantial breakfast on which to start the day?

Don't stop with one slice. Eat several.

All of Halliday's Bread has a really delicious flavor and lots of nourishment.

Value of Telephone Service

From near neighbor to distant cities and villages, thousands of slender highways made alive by speech converse within the small compass of your telephone. The ears of people are within your call; their voices are within your hearing.

Telephone service cannot be estimated by usual values. Imagine how complete a revision of methods of living and working would have to be made if the telephone ceased to operate! The miracle of the telephone is realized at all times, and its ceaseless service puts its value almost beyond price.

YOUR TEETH

TEMPORARY TEETH When They Are Abscessed

By REA PROCTOR McGEE, Editor of "Oral Hygiene."

If you had a pet rattlesnake around the house it might not do you any harm, but of course you could not reach an agreement upon that subject with the limited brain power of the snake and so you would be taking a big chance that the armistice would be broken.

Your child could have one or even several abscessed temporary teeth with no apparent injury to his general health, but what assurance have you that the apparently harmless collection of pus is not poisoning the child?

When the abscess really strikes and becomes acute, then there is no question about the damage it does.

Then abscesses may not only cause rheumatism and heart inflammations but the eyes and kidneys and any or all of the bodily structures may be attacked.

When a temporary tooth abscess burrows down the inside of the jaw and gets behind one of the protective walls of fibrous material that separates the layers of muscle in the neck, a very serious infection develops which is frequently fatal.

In order to save the life of the child a very delicate operation must be performed, and that quickly. Don't take chances with abscesses of the temporary teeth. They are not only very dangerous, but the abscessed teeth cannot be used and the good teeth are not allowed to do their work because one tender spot in the mouth will interfere with chewing.

Of course, the best plan to avoid abscesses of the baby teeth is to take good care of children's teeth from the day they appear.

This is the easy method and it is also the safe, sure method. Therefore it is the common sense method. Begin at the beginning. Later may be too late.

PYORRHOEA CAN BE PREVENTED AND CURED

That pyorrhoea is not the irresistible enemy of the teeth that it has for years been generally considered by the public at large and by many dentists, was the emphatic contention of Dr. A. W. Ward, of San Francisco, in a lecture delivered in Vancouver before the joint post graduate meeting of the Washington, Oregon and British Columbia Dental Associations.

It is only recently that the importance and possibility of the prevention and eradication of focal infection have been recognized, declared Dr. Ward, who asserted that this branch of dental science is at once the most important, the most abused, and the least thought of.

Dr. Ward contended that, except in very advanced cases, pyorrhoea can be cured and loose teeth will tighten up again of themselves after the existing infections have been cleared away and the basic cause of the disease removed. He quoted cases, including those of persons suffering from consumption, diabetes and other diseases, to prove the self-recuperative power of the teeth and gums when properly assisted.

Root of the Evil.

Uneven side stresses, caused by failure of the teeth to meet properly in the processes of biting and mastication, he intimated, were the root of the evil, and the grinding of these surfaces to permit perfect harmony of action absolutely prevents the future occurrence of pyorrhoea. In cases where the disease already exists, every vestige of diseased tissue must be removed, and only in desperate cases is this impossible.

INSECTIVOROUS BIRDS BIG ASSET TO COUNTRY

It may appear startling, but it is a fact that if all the insect pests ravaging our crops could be suppressed, and all the plant and tree diseases eradicated, and the increased revenue derived by the country thereby could be turned into the Dominion Treasury, there would need to be no question of taxation. This idea is largely substantiated by the fact set forth by the entomologist of the Dominion Department of Agriculture that a conservative estimate of the annual loss in Canada to field, orchard and garden insects is upwards of $200,000,000. As our authority says: "To this huge devastation must be added the enormous annual destruction caused by forest insects, stored product insects, etc." Upon this statement the entomologist founds a well-sustained argument in favor of the protection of insectivorous birds, such as the prairie horned-lark, the robin, the somewhat despised crow, the red-breasted nuthatch, the western tanager, the myrtle warbler, the chickadee, grouse, gulls, and many other kinds.

In the state of Iowa it has been estimated that tree sparrows annually devour something like 895 tons of weed seeds! Speaking of the robin, an investigator in Toronto found that a single bird kept in confinement ate 165 cutworms in one day. Another authority states that a brood of prairie horned-larks consumed 400 cutworms in one day. This same authority, namely, Mr. Norman Criddle, Dominion entomologist in Manitoba, declares that six crows are capable of consuming three bushels of grasshoppers in one season. It is recorded that in certain places in Manitoba have been saved from destruction by the pestilent grasshopper owing to the presence of a large flock of gulls.

In light of these facts it is gratifying to be informed by the Dominion entomologist, Mr. Arthur Gibson, that the importance of protecting our useful birds is becoming more and more recognized, especially by farmers and fruit-growers.

EGG-LAYING CONTESTS BEGIN IN NOVEMBER

The Dominion Experimental Farms will conduct a third series of egg-laying contests beginning November 1, to continue for 52 consecutive weeks.

The Canadian contest will be held at the Experimental Farm, Ottawa.

A provincial contest will be held in each of the provinces, that in British Columbia being held at the Experimental Farm, Agassiz.

The Canadian contest is open, but the provincial contests are only open to entries from within the provinces in which the respective contest is held.

Space Being Limited Any Entry May Be Refused.

The entry fee for the Canadian egg-laying contest at Ottawa is $15, and for a provincial contest, $5. One-fifth of the entry fee must accompany the application, which must be received before August 15th. The balance must be paid upon notification of acceptance of the entry, which will be by September 30. Should the entry not be accepted, the first payment will be refunded, but should the balance of the entry fee not be received by October 10, the application will be cancelled and the first payment forfeited. Failure to forward the pen when instructed automatically forfeits the fee, and the application is cancelled. All cheques or money orders must be made payable at par in Ottawa, and made out to the "Accountant for Egg Laying Contests."

Entry forms and rules and regulations will be supplied upon application to the Dominion Poultry Husbandman, Central Experimental Farm, Ottawa, or to the Superintendent of the Experimental Farm at Agassiz, B. C.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Customs and Telegraph Building, Bamfield, Vancouver Island, B.C., will be received until **12 o'clock noon, Wednesday, August 10, 1921,** for the construction of a Customs and Telegraph Building, Bamfield, Vancouver Island, B.C.

Plans and specifications can be seen and forms of tender obtained at the offices of the Chief Architect, Department of Public Works, Ottawa, the Resident Architect, Victoria, B. C., the Superintendent of Dom. Bldgs., Dept. of Public Works, Vancouver, B. C., and the Dominion Telegraph Agent, Bamfield, B. C.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up an odd amount.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,

Loyal Order of Moose

"P. A. P."

Why You Should Become a Member

BECAUSE:

——1,000,000 men have banded together for its support.

——1,100 Children are being given a home and education.

——98 Widows and 22 Aged Men are being maintained at Mooseheart.

——It is acknowledged to be the greatest Philanthropy of the day.

——It is based on the greatest and most sincere standards.

——You should be recognized as one of its many supporters.

——Eminent Philanthropists have appreciated the noble work that Mooseheart is doing and have donated large sums of money to its support.

——As a member of the L. O. O. M., you can be an equal sharer in the glory of building and maintaining Mooseheart. Thinking men everywhere realize that the Loyal Order of Moose offers an opportunity for personal philanthropy that would be impossible under any other condition. Lodges located in more than sixteen hundred cities in the United States, the English speaking world and France, welcome men of this spirit.

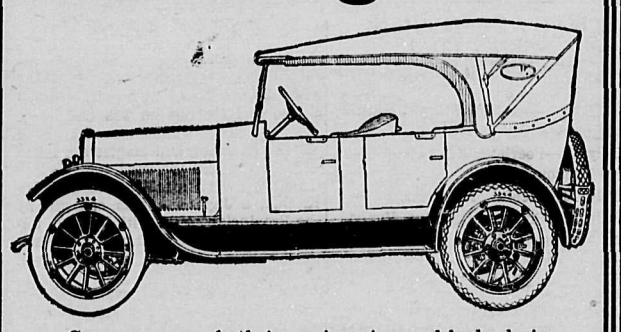
SICK, ACCIDENT AND FUNERAL BENEFITS ARE PROVIDED IN LOCAL LODGES

Philadelphia Lodge has 30,000, Seattle 4,000 and Vancouver 2,000 members. Why should not Victoria have a Lodge of 1,000 and Cumberland 300 members?

A LODGE IS BEING ESTABLISHED IN CUMBERLAND—The Charter Fee is $10.00; $1.00 Medical Fee. Monthly Dues, $1.25.

See Organizer Thompson at the Eagle Hotel, Cumberland, in the Evenings, or make an appointment.

McLaughlin



Sane progress, both in engineering and body design, won the unquestioned leadership in motor car sales enjoyed by the McLaughlin—"Canada's Standard Car." Thus the Master Six is better known and more widely used by business men than any other high-quality car.

This nation-wide acceptance has created for the Master-Six a fixed value that makes its purchase a sound business investment.

"HELIOTROPE"

A Tremendously Appealing Picture Drama of a Father's Love For His Daughter.

To motion picture devotees who have wondered whether a popular photoplay could be produced in which sex love would not be the predominant theme, the phenomenal success of "Humoresque" came as a convincing answer. "Humoresque" will be shown at the Ilo-Ilo Theatre shortly.

Now Cosmopolitan Productions, who made "Humoresque," the great picture of mother love, have come forward with "Heliotrope," declared to be an equally great picture of father love. It was adapted from Richard Washburn Child's story of the same name.

"Heliotrope" is the deeply appealing drama of an ex-convict's supreme sacrifice in giving his life to insure the happiness of his daughter, who throughout it all remains innocent not only of his heroic deed, but of his very identity.

Alice Hasdock, the daughter, is a convent girl who, spending a vacation at the millionaire home of her best chum, falls in love with the son of the house, and they become engaged. Alice has not seen either of her parents since her babyhood and thinks she is an orphan. Her father is "Heliotrope Harry" Hasdock, serving a life sentence in the penitentiary. Her mother, Josephine Hasdock, is a thoroughly bad character, an accomplice of crooks. To "Heliotrope Harry" in his cell comes the news from a former pal that his wife is planning to blackmail Alice. Her scheme is to reveal herself to the girl as her mother, threaten her with an expose of the fact that her father is a convict, and thus extort money from Alice's millionaire-fiance. "Heliotrope" is half-crazed with rage against his wife and anxiety for Alice, whom he loves dearly. In his despair he goes to the kindly warden and begs release from jail to save his daughter. Through the warden's appeal to the governor of the state, "Heliotrope" is granted a pardon, but only on condition that no violence be done to Mrs. Hasdock by his hands.

"Heliotrope" agrees. His scheme of revenge is more subtle than that. How he works it out and how finally he places his villainous wife in a position where she will never be able to harm Alice is worked out in a picture that for sheer appeal and dramatic suspense is said to have been seldom equalled on the screen. Frederick Burton, Diana Allen and Wilfred Lyell interpret the chief roles in "Heliotrope." It is a Paramount picture, and will be shown at the Ilo-Ilo on Saturday.

MARY PICKFORD PLAYS BOTH MOTHER AND SON

"Little Lord Fauntleroy" Will Be Released This Fall—Mary Says the Work is Hard.

For the first time in the history of her career as a motion picture actress Mary Pickford is appearing in practically every scene in the picture she is now producing. This feature is a cinemazation of "Little Lord Fauntleroy," scheduled as a Fall release by the United Artists' Corporation.

In this production Little Mary plays a dual role, appearing as the little lord and also as his mother, and if it so happens that she is not in the scene as Fauntleroy, then she is there as Dearest, his mother.

"I am sure I never worked so hard in my life," said Mary, "but the novelty of playing two parts in one picture keeps the work from becoming a task."

"POLLYANNA" FIRST PICTURE SHOWN IN THE MEMORIAL THEATRE

Mary Pickford's "Pollyanna" is to be the first picture shown at the Shakespeare Memorial Theatre, situated in Shakepseare's own garden at Stratford-on-Avon, when this theatre follows the lead of so many others and is converted into a picture theatre on September 12. "We feel sure," says an editorial in the London Daily Graphic, "that if Shakespeare were alive today he would be one of Mary Pickford's greatest admirers, and he would simply love her in this glad play."

ONE FOR EACH

"Five cents' worth of liniment and five cents' worth of cement," asked the boy of Frost, the druggist.

"Want them tied in separate packages?" said the druggist.

"Yes, I guess so," answered the boy. "One is for mother—the cement, I guess; she wants to mend the teapot."

"And the liniment for father?" coached the druggist.

"Yes," said the boy. "He is what mother broke the teapot on."

MOOSE LODGE

List of Charter Members Filling Up—You Can Still Join at the Charter Rates.

Organizer Thompson is making good progress with the formation of a Moose Lodge in Cumberland. His list of 50 charter members is filling up quickly and the lodge will soon be an accomplished fact. He states that persons can still join at the charter rate of $10, even though they are not on the list of charter members, though being on the list is an honor worth having, as it will be a perpertual record of those who formed the local lodge.

CRONK BRINGS AN IDEAL AUTOMOBILE INNER TUBE

Mr. E. J. Cronk surprised his friends when he blew into town Wednesday evening on a brief business trip to the district. "Teddy" looks the same as ever, only perhaps a little more so, minus the red coat of the mounties. Mr. Cronk is here in the interest of some agencies he has for the Island, one of which is an American invention, an auto tube that is practically non-puncturable and unwearoutable. If it does get a minor puncture it will automatically close up, but should a big spike puncture the tube it is only the work of a few moments to close the hole.

Mr. Cronk is meeting with ready sales of this tube, as it only requires a glance to see the great benefit to be derived from equipping cars with them. Another line Mr. Cronk is handling is "Motorlife," which greatly increases the efficiency of the motor and saves 25 to 50 per cent. in gasoline bills, a very important consideration in these days of high-price gas.

Husband: "I wonder what we shall wear in heaven."

Wife: "Wel, if you are there, John, I imagine most of us will wear surprised looks."

A cynic is a man who has eaten a bad dinner or loved the wrong woman.

ILO-ILO THEATRE

HELIOTROPE HARRY IS OUT!

Famous Players-Lasky Corporation presents

Heliotrope

A Cosmopolitan Production

A gift of flowers from her husband! And their perfume froze her soul! For now she knew that "Heliotrope Harry" was free. Out of prison to save his daughter's happiness. Out to wreak vengeance on this inhuman, blackmailing mother! Yet he never lifted a hand against her. His victory was far more terrible—for more noble—than that. "Heliotrope" stands as the greatest story of father-love ever filmed.

A story as big as Humanity's heart

Personal Mention

Mr. C. J. Parnham and Mr. T. H. Carey motored to Nanaimo Wednesday to witness the football game and attend a Masonic Lodge meeting in the hub city.

Mrs. Leversedge and children went to Denman Island on Monday for a week's holiday.

Mr. and Mrs. James Dick are camping at Little River for the summer.

Chief Constable Stevenson, of the Provincial Police, Nanaimo, accompanied by Inspector Robert Owens and Indian Constable Thos. Cornell are in the district on official business.

Mr. C. F. Earle, District Passenger Agent for the Canadian National Railways, was in town on a business trip on Tuesday.

Miss J. Emery, who has been on a week's visit to Mrs. Gowen, returned to Vancouver on Thursday.

Rev. Thos. Menzies, M.P.P., was a visitor in town Wednesday evening.

Captain Yates of Nanaimo came up from Nanaimo Wednesday evening to attend the meeting of the Royal Arch Chapter.

Mr. E. J. Cronk, formerly in charge of the North West Mounted Police in this district, arrived Wednesday on a business trip.

Mr. Jas. T. Brown went to Vancouver Friday morning to undergone treatment from the eye specialist.

FRUIT AND BLOSSOMS ON TREE.

A very unusual sight is to be seen on a pear tree in Cumberland. At Stevenson's on corner of Derwent and Third is a young pear tree which has considerable fruit on it, and in addition several of the branches have blossoms in full bloom.

NOTICE

Canadian Colliery Employees' Picnic Committee

All claims against the Canadian Collieries' Picnic Committee must be in the hands of the Secretary not later than August 6th, 1921.

"Mother," asked the little boy, "when the fire goes out, where does it go?"

"I don't know, dear," answered mother. "You might just as well ask me where your father goes when he goes out."

POLICE COURT

Agnes Wallace and Bella Hyde, inmates of Chinatown, were arrested over the week-end by the Provincial Police and let out on $25 bail each. They failed to answer the charge on Monday morning and Magistrate Baird ordered the bail forfeited.

Before Magistrate Baird on Monday K. Oda, a Japanese, was charged by the Provincial Police with being in unlawful possession of liquor in Chinatown, and was found guilty and fined $50 and costs.

Mah Sing, of Bevan, was fined $10 and costs for being the inmate of an opium joint.

C. W. O'Neil, of Union Bay, was charged by the Provincial Police with exceeding the speed limit while driving an automobile. He was found guilty and fined $15 and costs.

"The Sunday School class was singing "I want to be an angel."

"Why don't you sing louder, Bobby?" asked the teacher.

"I'm singing as loud as I feel," explained Bobby.
