

REGULAR MEETING OF CITY COUNCIL

The City Council held their usual session in the Council Chambers on Monday. Present His Worship Mayor Bate and Aldermen Brown, Macdonald and Milligan.

A communication was received from Brackman & Kerr giving a quotation on oats. This was received and filed.

An account was received from R. Pearce, City Constable, for expenses, transportation, meals and sleeping accommodation in taking John Thompson and handing him over to the military authorities at Vancouver on instructions received from D. A. Provost Marshall. This account amounted to \$33.00 and was referred to the Military Authorities for payment.

The accounts of Simon Leiser & Co., \$11.00; William Douglas, \$32.50; British Columbia Telephone Co., \$2.00., was referred to the Finance Committee for payment if found correct.

The Mayor stated that two soldiers, formerly residents of this city, would return from the front some time during the present month and appointed a committee to draw up an address of welcome to be presented upon their arrival.

Ald. McDonald moved that the city donate \$100 to the sufferers of the Halifax disaster. The Mayor ruled the motion out of order, giving his reason for so doing that the city was short of funds and in all probability would be unable to meet their obligations at the end of the year. Upon the suggestion of Ald. Bannerman R. Pearce, City Constable, was instructed to solicit subscriptions throughout the city and vicinity.

The chairman of the Board of Works reported progress on city hydrants and fire hose.

The ladies of the Maccabees at their regular monthly meeting decided to donate \$10 to the Halifax sufferers.

Berger Andrews, civil engineer has severed his connections with the Canadian Collieries and will leave for San Francisco.

Mrs. William Gordon, of Vancouver, arrived on Wednesday evening. Mr. Gordon is a recent arrival, is in charge of the grocery department of Campbell Bros. Mr. and Mrs. Gordon will take up their residence in this city.

SUPPORT UNION GOVERNMENT

Liberals and Conservatives are United
The People Must Unite to

Win the War

A Laurier-Bourassa Victory means deserting our boys in the trenches for over a year, throwing up our hands and quitting! Don't shout "Kamerad" under the Referendum proposal. Come out and fight for Union Government.

Make No Mistake

IF LAURIER WINS:

(1) Canada will send no more reinforcements to the front, which practically means quitting the war and placing the country in the same class as Russia.

(2) The French-Canadians who have shirked their duty in this war will be the dominating force in the Government of the country.

ARE THE ENGLISH-SPEAKING PEOPLE PREPARED TO STAND FOR THAT?

It is because the French-Canadians have not done their duty that Conscription had to be resorted to.

The French-Canadians have made it perfectly clear that they do not like the war and are against Canada participating in it further. Some of them even go to the length of saying that the soldiers should be brought back from the front. The Nationalists are demanding that the men who have been enrolled under the Military Service Act be disbanded and sent back to their homes. To secure the Nationalist support Laurier-Liberal candidates in Quebec have signed the following pledge:—

"I, the undersigned, candidate in the Federal Elections, undertake by these presents if I am elected, to demand the immediate suspension of the Military Service Act, 1917, and of all its effects until Canadian electors have pronounced by way of plebiscite; and should the majority of the electors condemn it, that it be considered as null from its origin and that in consequence all conscripts be disbanded."
"I also undertake to vote against any Government which should refuse to adopt the above enunciated policy."

WHY CANADIANS SHOULD SUPPORT UNION GOVERNMENT.

Canada in common with the rest of the world is passing through the greatest crisis in human history.

If the free peoples of the earth are to win in this gigantic struggle, if liberty and justice, freedom and right are to triumph, then all national, all sectional, all party differences must be sunk, and they must all unite in one supreme united effort to achieve one common result, namely, the defeat of autocratic tyranny and the triumph of democracy.

In this supreme moment the great political leaders of Canada, realizing that the very existence of the Empire, the Dominion and of British ideals are at stake, have brought about the union of all political parties and formed a Union Government.

During the war there is no longer a Conservative, a Liberal or a Labor party. There is only one Canadian party, one Government with one supreme end in view, namely, the winning of the war in the shortest time possible and at the minimum cost in life and money.

The formation of the Union Government is the greatest thing that has ever taken place in Canadian history. All honor to our Liberal, Conservative and Labor leaders who have sacrificed personal and party interests for the sake of Canada and for the continuance and preservation of British ideals and British supremacy.

But the action of our political leaders must be endorsed by the people of Canada in order to make it an effective reality. That they should do so is in my opinion a bounden duty, a real test of loyalty and patriotism.

Sir Wilfred Laurier has missed the greatest opportunity ever given to a Canadian to have his name handed down to posterity as that of Canada's greatest statesman. His attitude at the outbreak of the Boer War in 1899 is not forgotten, his actions and utterances since the necessity for conscription became obvious cannot be forgotten, his failure to swing French Canada into line with old France and her allies must not be forgotten, and his return to power would simply mean that Canada would take her place by the side of Russia as a nation that had refused to render effective aid to the cause of the Allies. The moral effect of a Laurierite victory would be disastrous, it would be hailed with delight in Germany as a sign of the weakening of the solid front hitherto presented by the whole British Empire, and it would take the very heart out of our men and boys at the front.

No one who longs for the speedy victory of the Allies over Germany, no one who is determined that the British Empire shall continue, and that British

ideals and British supremacy shall remain paramount in Canada can contemplate such a result without being stirred to the very depths of his being.

This is no party question, the very existence of our Empire and our liberties, our very lives are hanging in the balance, and all true patriotic Canadians, irrespective of race or creed, should make it a solemn duty to support by their votes and influence the Union Government, and so ensure the continuance of the fullest measure of Canadian co-operation in the sacred fight for human liberty which constitutes the greatest cause ever entrusted by God to mortal man.

RT. REV. ALEX. J. DOULL,
D. D., Bishop of Kootenay,
Vernon, B. C.

TO THE WOMAN WITH A VOTE

In the past women have had little share in politics, except as they exerted their influence "behind the scenes." And perhaps it was well. We women have had our homes—have loved being "the mothers of the race."

We were inclined to cast a very superior eye upon the petty strife of party politics. We did not see how men, big men apparently, were consumed with party spirit. We asked ourselves "Why cannot men see the principle, the cause at stake and fight for it instead of blindly following a Liberal leader or a Conservative leader. We women, I say, were so taken up with our homes and our children that only in a half hearted way did we care for the power of the ballot. Far sighted ones amongst us saw that in common justice, one half the world should not legislate for the other half, but all should legislate for all.

After hard fighting the franchise was won and Women of Canada is it not a significant fact that the first time in our history that we have been entitled to have our voices heard in Federal vote is on the most momentous question that ever came up in our beloved country.

The question is, "Are we going to send reinforcements to our brave boys at the front or are we going to throw down our arms, refuse help to the bleeding hands thrust out to us, and place ourselves forever in the blackest list of shirkers."

There is not a woman amongst us who would not find it easier to go to the battle front herself, rather than send her 20 year old son. He looks so young to her—she would save him if she only were permitted to go herself.

What then can we do to stop this tumult of war? On the Editorial page of the Globe of a few days ago was this wonderful statement: "The place for a Canadian women's battalion is at the polls. There they can do a great war service."

Women! Are we who are fortunate enough to have a vote at the coming election going to do our duty and be in our place at the polls on that momentous day in Canada's life? And are we going to do our duty and speak to every other woman we meet, on this subject. Are we going to see to it that she understands aright the issue at stake and that she registers her vote?

Our men at the front have a vote. Make no mistaking about it—they will exercise it—How do you think they will vote? They are in the thick of the fray and know all conditions. Do you think they will say: "Let us perish, send no reinforcements, let our sacrifice be in vain?" Women! Do we want to end this war right speedily and bring our brave lads home to us. Then cast your ballot accordingly on Election Day. 'Send men to bring him home.'

WHO WILL RULE?

Are we going to change the name of Canada for "Quebec?" If Sir Wilfrid Laurier wins, Quebec wins, and Canada is lost, If Sir Wilfrid Laurier wins Quebec rule will supersede Canadian rule.

On December 17th, the people must declare for Canada and Canada's soldiers or Quebec and Quebec's slackers. They must choose between patriotism and pea soup.

Who will rule? That is the issue. Must the eight British provinces bow to the yoke of Bourasaa and the men who would dishonor Canada? After December it will be Canadian rule or Quebec rule. WHICH?

IF LAURIER WINS

If Laurier wins Canada becomes another Russia, recreant to her heroic dead, to her allies and to liberty and civilization.

If Laurier wins Canada becomes a "slacker" nation, deserting her men overseas and dishonored at home and among all democratic nations.

If Laurier wins Canada becomes a French-Canadian nation and the Anglo-Saxon loses his honor and nationality.

If Laurier wins self-respecting Canadians cannot afford to remain in this country and share the odium attached to the race.

If Laurier wins—Canada dies.
