FORTY-THIRD YEAR—No. 32. CUMBERLAND, BRITISH COLUMBIA SATURDAY, AUGUST 9, 1924. SUBSCRIPTION PRICE: TWO DOLLARS PER ANNUM

CORBETT GRANTED COMMUTED SENTENCE

Death Sentence Lifted Two Days Before Hanging. Will Serve Life Term In New Westminster Penitentiary.

Arthur Corbett, the wife killer, of Courtenay, on whom the death sentence was passed for the murder of his wife in the little restaurant the couple operated at the neighboring town, has had his sentence commuted to life imprisonment. Corbett was to have been hung Friday. He will be confined in the New Westminster Penitentiary.

Since his conviction, Corbett has occupied a condemned cell at the top of Okalla Jail, in the section which, by the irony of fate, was built for a hospital. Every minute of the day and night since the day of his conviction, Corbett has been under guard.

Business Increases On Waterfront

COURTENAY,—A property deal of interest to Courtenaians was consummated recently when the Builders' Supply Company of which Messrs. Edwards & Orr, are the principals, purchased a strip of river front land from Mr. Joseph McPhee. It is next to the city wharf and at that place the purchasers will carry a most complete stock of every description of mill products.

This week they received one hundred thousand feet of lumber from the Campbell River Saw Mill Company. It was brought to Courtenay by scow, utilizing the Courtenay River for cheaper than rail transportation. Not only does this method of transportation give the firm cheaper cargo rates but the advantage thus gained is distributed among their patrons, because they all get the benefit of the low rate.

This progressive firm was organized fifteen months ago and has made good from the start. Both members of the firm are practical men and give their personal care to every piece of work executed by the men whom they employ. It is the intention of Messrs Edwards & Orr to still further enlarge if business warrants in the future and there is the probability that they will install some modern machinery such as a planer and re-saw. Steadily the use of the Courtenay River is growing in importance and the inauguration of this latest business on the water front should be the means of retaining much business activity on the banks of the river.

Vancouver Team Drop Game 8-7

Umpire J. Bono's obviously raw, and what eventually proved disastrous, snap decision against Worley on first base in the first half of the ninth inning was the only marring feature in a closely contested game which the local nine won from the Vancouver Engineering Works 8-7. Worley, after being hit by pitcher McIntyre was caught sleeping off first base by "Red," Plump had him beat but it looked as if he never touched the base runner, but Bono called Worley out. With the score 8-5 the following batter singled and then enter Sproule who lifted the ball over the left field fence and the score read 8-7. Here the bombastics ended with the score dangerously threatened to be even more than tied by the slugging machine from the Rainy City.

Cumberland Compares Favorably

A good crowd was present to witness the game and went home satisfied with the boys that now grace the Cumberland uniforms are quite capable of holding their own with anything in B.C., defined as amateur—as far as baseball is concerned. Errors were too prolific in the game but there were bright spots in the game that made up for this deficiency on the part of the players. As in the case of Bannerman and Conti, each made big league catches that were appreciated by the fans. The visitors however had the experience of dis-

(Continued on Page Six)

Mr. F. J. Dalby, storekeeper of the Canadian Collieries, is taking a two-weeks' vacation.

Nanaimo's Band Made Tour Of Upper Island

The members of the Nanaimo Silver Band concluded their tour of the northern portion of Vancouver Island by giving a splendid concert on the Recreation Grounds on Sunday afternoon last.

The band gave a concert and dance at the Gaiety Theatre Courtenay on Friday night and on Saturday morning left for Oyster River, where the annual picnic of the Comox Logging Company was being held and for which the band had been engaged. A number of choice selections were rendered during the course of the picnic and in the evening the band journeyed to Campbell River, where they gave an excellent concert, followed by the best dance ever held at the River. Sunday the tourists visited Bevan where they had dinner and played several selections to a large and appreciative audience. Cumberland was reached about two o'clock and shortly after three, the concert on the Recreation Grounds commenced. There was a large crowd present who thoroughly enjoyed the program rendered by this most excellent band. We liked best of all "A Sunday Church Parade" and Humoreske, opus 101, No 7. At the conclusion of the concert, Mr. Thomas Graham congratulated Mr. Smith, the eminent conductor of the band, and hopes are entertained that the people of Cumberland will have the pleasure of hearing the premier band of B.C. at some date in the near future.

SPECIAL MEETING HELD

A special meeting of the City Council on Thursday evening decided to supply the funds for the purchase of 850 feet of twenty-inch sewer pipe at $1.50 per foot and to commence operation of removing the twelve-inch sewer and laying the twenty-inch at a cost of almost $2000.00; also to purchase five hundred feet of Paragon hose at $1.70 per foot from the Gutta Percha Rubber Co., for the Cumberland Volunteer Fire Department, making a total of $900.00 and to renovate and rewire the quarters of the City Police to the extent of $250.00, a total expenditure of three thousand dollars.

Work on the new sewer will commence at once.

Closing By-Law Goes Into Effect On Monday 11th

Cumberland's Early Closing (Amendment) By-Law of 1924, No. 65, comes into effect on Monday, August 11th. By this law, stores now closing at 6 p.m. on week days will, after Monday, close at 5.30 p.m., and on Saturday night instead of the usual 8 o'clock closing they will now shut their doors at 10 p.m.

The By-Law was read for the first time in open Council and passed its first reading on July 21st, 1924; was read and passed its second and third readings on July 21st and was reconsidered, adopted and finally passed in open Council on the 4th day of August, 1924.

Tournament At Tennis Club Goes Into Final Stages

The Cumberland Tennis Club Handicap Tournament, men's and ladies' singles, entered the finals last week in both cases. In the former A. T. Heyland meets Dr. G. K. MacNaughton and in the latter Miss B. Bickle meets Mrs. G. W. Clinton.

Forgetfulness on the part of some of the players to mark the results on the score board, permits us only to publish some of the scores in the various rounds which follow:

Men's Singles

Round 1—Heyland beat Bickle, 2-6, 6-3, 6-1; Sutherland beat Mumford, 6-3, 6-0; C. E. Graham beat Dr. Hicks; Stewart beat Taylor, 6-0, 6-1; Leversedge beat Murry, 6-3, 6-2; byes: T. M. Graham, Vaughan, T. Graham, Stacey, Hamilton, Whyte, Bryan, Fraser, C. Graham and Dr. MacNaughton.

Round 2—Heyland beat Sutherland, 6-3, 7-5; C. C. Graham won by default; Stewart beat Leversedge, 6-3, 6-8, 6-2; T. M. Graham beat Vaughan, 6-2, 6-1; Stacey beat T. Graham by default; Whyte beat Hamilton by default; Fraser beat Bryan by default; Dr. MacNaughton beat C. Graham.

Round 3—Heyland beat C. C. Graham; T. M. Graham beat Stewart 6-3, 6-1; Stacey beat Whyte by default; Dr. MacNaughton beat D. Fraser 6-2, 6-2.

Semi-Final

Heyland beat T. M. Graham; Dr. MacNaughton beat Stacey 6-1, 6-2.

Final is Heyland versus Dr. MacNaughton (yet to be played).

Ladies' Singles

Round 1—Miss Scott beat Miss Mitchell; Miss Bickle beat Miss Gallivan by default; Miss Oliver beat Miss Partridge; byes: Mrs. Stacey, Miss Brown, Mrs. Clinton, Miss Mordy Mrs. Drader.

Round 2—Miss Bickle beat Miss Scott 6-2, 7-5; Miss Oliver beat Mrs. Stacey; Mrs. Clinton beat Miss Brown Mrs. Drader beat Miss Mordy be default.

Semi-Final

Miss Bickle beat Miss Oliver 6-1, 6-2; Mrs. Clinton beat Mrs. Drader by default.

Final yet to be played between Miss Bickle and Mrs. Clinton.

Aged Chinaman Found Dead In Oriental Colony

An aged Chinaman, Mah Woom, was found dead on Saturday last, having apparently hung himself. The deceased was last seen on Tuesday, the 29th July and it is surmised he hung himself that night. Deceased was buried on Saturday afternoon last. He had been a resident of this district for about thirty years and was about sixty years of age.

City Council Will Improve Derwent Sewerage System

The City Council on Monday evening took up the question of building a new twenty-inch sewer from Derwent Avenue across the railroad track also the purchase of one thousand feet of additional fire hose.

In the absence of His Worship Mayor Parnham, the City Clerk reporting him on the sick list, Ald. Alex Maxwell occupied the chair and opened the proceedings of the Council.

W. H. Cope, recently appointed City Clerk, read the minutes and the report of R. J. Selfe, stating that the cash in bank and accounts were all in order.

The Union of Municipalities notified the Council that they would hold their annual meeting at Penticton.

The Chairman of the Finance Committee reported a bank balance of $7670.40; Savings acount $330.86; Cumberland Public Schools $2549.37.

Ald John J. Potter, the Chairman of the Board of Works, said that his department was going on as usual and that the new City Clerk called him in to look over the residence of the Chief of Police, which he found in a very dilapidated condition and in need of repairs. The upstairs was similar to a barn, the wiring would be condemned the moment the Inspector saw it. You could not get furniture up or down the stairway—a most deplorable place, not even fit for a man to batch in.

Ald. Mumford and Mordy also spoke of the condition of the residence.

Ald. Maxwell, Chairman of the Finance Committee and acting Mayor, said he had seen the building and the wiring should receive immediate attention. "It seems to me that these additional expenditures all turn up after our estimates are made for the year," remarked Ald. Maxwell. "I know the stairway is bad."

"Ald. Mordy when you talk about the stairway it means remodelling the whole house." It was left in the hands of the Board of Works to send in a report. In the meantime the Council will get a line on finance.

The New Sewer

The Board of Works wanted to know what was going to be done about the new sewer and hydrants. Hose and sewers became a mixed subject for one hour and a half.

The Acting Mayor said the line of sewer should be surveyed before commencing operations then the cost of pipe came up for consideration. City Clerk reported 21-inch $1.50 per foot, 22-inch $1.90 per foot and 24-inch $2.30 per foot. f.o.b. Vancouver. It was said that a twenty-inch pipe would take the water from two twelve inch pipes. The Board of Works was instructed to engage an engineer to furnish levels for the new sewer and the Council decided to call a special meeting on Thursday to consider the cost of sewer pipe, hose and Police residence.

OYSTER RIVER IS SCENE OF GREATEST PICNIC IN HISTORY OF COMOX VALLEY LOGGERS

Picnic Attended By Large Numbers From Outside Points Who Are Royally Entertained By Logging Company

COURTENAY,—Last Saturday the employees of the Company were the guests of the Comox Logging & Railway Company at a big picnic held at Oyster River. It is safe to say that the employees attended one hundred per cent. and that perhaps more people came from other parts than the camps to this big event than have attended a like event in many years. The train carried the people from the Boom Camp and stopped long enough at Courtenay to pick up those who were not fortunate enough to have the opportunity of reaching the picnic grounds by motor car.

Every preparation had been made for the enjoyment of the picknickers and not one returned home with other than the feeling that the loggers of Comox Valley are ideal hosts. Nothing was overlooked and the children were regaled with all that goes to make an outing for them a success. There was refreshment a plenty. Ice crea soda water, cakes, confectionery and fruit were there in abundance, the youngsters being allowed to have all they wanted.

The sports program was perhaps the most pretentious ever put on in the district, the prizes being of great intrinsic value, resulting in the keenest kind of competition. The contests in which the lumberjacks took part were certainly most interesting, the difference in the times of the various contestants proving that great rivalry existed for the honors. Particularly was this true of the chopping, log-bucking and splicing contests. The log rolling was also as interesting as usual, with the veteran Bob Martin a winner. A glance at the results as tabulated below will give some idea of the great time enjoyed. It was after dark when the picnickers began to return home, some of them not calling it a day until they had taken in

(Continued on Page 7)

STRATHCONA IS BEAUTY SPOT OF CONTINENT

Only Another $50,000 Needed To Make Easy Access To This Paradise Of Pleasure Seeking Tourists.

This has been a banner tourist season for Comox District. Most of our visitors have had a good time because the inducements for a visit to this part of Vancouver Island are perhaps greater than anywhere else in the Province. Here the pleasure-seeker finds fine beaches, great trout streams and lakes; and the most exciting salmon fishing in the world. What sport is more exhilarating than to hook a forty or fifty pound Tyee and have a ride behind him? Once experience the kick that the fisherman gets out of this sport and you will say there is nothing that gives more pleasure. A tourist from the States was in Courtenay on his way home from Campbell River where he had been to the Lakes and also did some trolling off the mouth of the river. He was fortunate enough to hook two beauties. In describing what occurred he said: "One of the fish took me everywhere; up the bay, down the bay and around the bay; I never had so much fun in my life—and I have never seen so many fish as are running at Campbell River this week." This is sport on the water.

There is something of public interest that would make this district the greatest in Canada for tourists. It is a subject that has been talked of to some extent; and one that has been given a good deal of serious thought by the public bodies not only of the Comox Valley but of the entire Island. This is the question of the completion of the Island Highway into Strathcona Park. Courtenaians are vitally interested in this road because their town is the gateway to this great national playground. Already there has been a quarter of a million dollars spent on construction work on the road and in the park. It would cost approximately fifty thousand dollars to complete the road. It has been argued that to let an investment of a quarter of a million dollars lie idle when another fifty thousand could make it the asset it should and would be, is not good business. Strathcona Park is admittedly one of the rare beauty spots of British Columbia, and if made accessible by the construction of another short stretch of road would be as popular as any other resort in America. Elk Falls, described as prettier than Niagara because of their unusual location are on the very edge of Strathcona Park. It has mountain peaks; it has beautiful lakes; it has streams teeming with trout; it has a most luxuriant growth of trees and shrubs. Crown Mountain, than which there is no prettier peak, is in the park. The beauties of Buttles and Campbell Lakes are known far and wide. These too are in the park and if made more accessible by the contstruction of the piece of road advocated, would be the means of bringing ten and perhaps twenty tourists where only one comes now. The question surely deserves further consideration.

Up.-Island Football Assn. Makes Money

The annual general meeting of the Upper-Island Football Association was held in Nanaimo on Monday evening, August 4th, much important business being transacted. Secretary W. Holliday submitted his annual report, (which follows in this article), and which was received with evident satisfaction by the members. It showed a very successful season from a financial point of view. Then followed the election of officers, resulting as follows: President, W. Brown; Vice-President, J. O. Knight; Secy-Treasurer, W. Holliday; Executive members, Jas. Watson, C. McGarrigle, A. E. Thorneycroft, James Quinn, A. Murdoch.

At the meeting it was decided to forward a protest to the B.C.F.A., against playing future cup-tie games on Con Jones' Park unless made larger. Arrangement also were made for receiving the touring Corinthians on August 18th and the local team to play against them was selected as follows:

Goal, T. Routledge, Nanaimo; right back, T. Dickinson, Nanaimo; left back, Cmapbell, Ladysmith; right half McDougall, Captain, Nanaimo; centre half, Conti, Cumberland; left back, McCormick, Ladysmith; outside right Deluce, Cumberland; inside right, Clarke, Nanaimo; centre, Davis, Ladysmith; inside left, Kenny, Nanaimo; outside left, F. Strang, Ladysmith.

Miss Elsie Small Becomes Bride Of Mr. J. Marocchi

One of the most popular weddings of the season was solemnized at the Presbyterian Church, Courtenay, on Tuesday evening at 6 o'clock, when Elsie J. Small, of Minto, became the bride of Mr. John Marocchi, of the firm of Marocchi Bros., Cumberland.

The ceremony which was a quiet affair, was witnessed by only immediate friends of the young couple. Miss Ada Small, sister of the bride, was bridesmaid and Mr. R. Toman acted as groomsman. Rev. Beattie of Courtenay officiated.

Directly after the wedding, Mr. and Mrs. Marocchi left by motor for a honeymoon trip to be spent in Vancouver and Bellingham and on their return will reside in Cumberland.

Board Of Trade Picnic At Kye Bay Wednesday Next

COURTENAY, Aug. 8.—The greatest of annual picnics will be held next Wednesday at Kye Bay under the auspices of the Courtenay and Comox Board of Trade. The reputation earned by the boards in the past years will be fully maintained and an effort will be made to excell the good time that has always been enjoyed at the famous beach resort of Comox district.

A meeting of the board was held Thursday night at which final arrangements were made for the big event and everything is now in good shape. Transportation will be provided from Booth's corner between 8.30 a.m. and 10.30 a.m. and anyone who does not avail himself or herself of the opportunity of going will be disappointed.

ADJOURNED MEETING

The adjourned Semi-Annual General Meeting of the Comox Creamery Association will be held in the Agricultural Hall, on Wednesday, August 13th, at 10 a.m.

C. B. WOOD MAY NOT TEACH HERE

We are almost ready to expect anything in the shape of a change, the latest being in connection with our High Schools. Mr. Alex MacKinnon, secretary of the Board of School Trustees, received a telegram from the Department of Education on Monday. It read:

Department wishes to secure Mr. Wood, Principal of your High School, for Departmental Services. Would appreciate his release by your board. Department will assist you in securing a successor.

The School Board held their regular meeting on Tuesday evening. The telegram was read and the trustees do not seem favorable towards releasing Mr. Wood at this stage of the game, and the secretary was instructed to wire Mr. Wood and talk to the heads of the Educational Department over the telephone.

The latest is to the effect that Mr. Wood wishes to be released to accept a position with the Provincial Normal School.

CUMBERLAND ISLANDER

Published every Saturday morning at Cumberland, B. C.

EDWARD W. BICKLE

SATURDAY, AUGUST 9, 1924.

THE UNKIND WORD

There is a certain class of people who take great satisfaction in saying unpleasant things. They call this peculiarity "speaking their minds" or "plain speaking." Sometimes they dignify it by the name of "telling the truth." As if truths must be unpleasant in order to be true! Are there no lovely, charming, gracious truths in the world? And if there are, why can not people diligently tell these, making others happier for the telling, rather than hasten to proclaim all the disagreeable things they can discover?

The sum of human misery is always so much greater than the sum of human happiness that it would appear the plainest duty to add to the latter all we can, and do what lies in our power to diminish the former. It may seem a little thing to repeat the criticism you have heard of your friend, but if the information is unnecessary and makes him or her unhappy, it is clearly an unkind and unfriendly action.

MOTHER'S PICNIC

The season of picnics is now upon us and those who delight in piling into the old back seat of the Henry Ford and going to the woods to eat their Sunday dinner are now in their glory. Now then, picnics may be fun for the men and the kiddies, but there is little joy in them for mother, who has to cook all the day before, arise early, get the breakfast, dress the children, pack the baskets and attend to all the getting-off part. Then, after the long, hot ride, during which she probably holds the baby on her lap and answers the questions of all the little ones, when the party reaches the grove, all the men go off to enjoy themselves, but mother has to unpack the baskets and get the dinner. By the time dinner is over, the dishes scraped and the baskets repacked, it is time to go home and get supper and the mother is tired out. Verily, there's more work than fun about a picnic for mother.

CURBING CRIME AT HOME

One of the "crying evils" of this age, and in the fullest meaning of that pat expression, is the freedom which the youth have from all restraint of parents. It is almost universally true that the children and youth are allowed to go where they please, when they please, with whom they please, and to read what they please. Many parents seem to think that if the children go to school and make their appearance at meal time, that is all that is necessary. They do not take time to know what they are reading, nor to become acquainted with their companions. This is a fatal mistake. Such children may, by reason of the good influence with which they come in contact, grow up wisely and well; but it is very probable that they will not. It may be set down as a fact that the father or mother who is not both anxious and careful about the influences under which the son or daughter lives, is making a grave mistake. What means this living on the street? What means this making a boarding house of the home? What brooks it that the old home circle with its wholesome reading, quiet conversation and useful games, has become a thing of the past. It means an ill which neither mental culture nor smart ways nor society manners can recompense. Let us have a revival of the old home circle and parental authority, and crime of every grade will diminish.

Sidelights on a Great Industry

A GREAT ASSET OF EMPIRE

BRITISH COLUMBIA IS SOLE SOURCE OF SUPPLY FOR BIG TIMBERS

Province's Lumber Trade Within Empire is Trebled in Eight Years

The resources of the British Empire are the subject of world discussion at present.

No exhibit at the great Fair at Wembley is arousing more telling interest than British Columbia's forest industries' display. It has been described by the British press as the "Finest advertisement Canada has ever had."

Canada has rightly been called "The Softwood Storehouse of the Empire." British Columbia may as correctly be described as its first, last and only stand of big constructional timber.

The British Empire controls 1,555,000,000 acres of timberlands, or one-fifth of the World's growth, but of this about one billion acres are hardwood, which are less in demand than softwood in the proportion of two to five.

Canada contains approximately 90% of the softwood resources of the Empire. Approximately half of this huge stand is in British Columbia, but when it comes to the highest grades of clears and the largest dimension timber the great British Empire is completely dependent on the province of British Columbia.

In 1923 British Columbia exported 124,000,000 feet to other portions of the Empire, as against 33,000,000 feet in 1916, an increase of over 375 per cent. in eight years.

There is no portion of the British Empire with the exception of Canada that can supply its own softwood needs. Inter-trade with the sister Dominions will increase with the market extension work now being carried on by our manufacturers.

It must be remembered that trade begets trade. Every shipment abroad of British Columbia wood products furnishes an opportunity for expansion of our commerce in other directions.

This series of articles communicated by the Timber Industries Council of British Columbia.

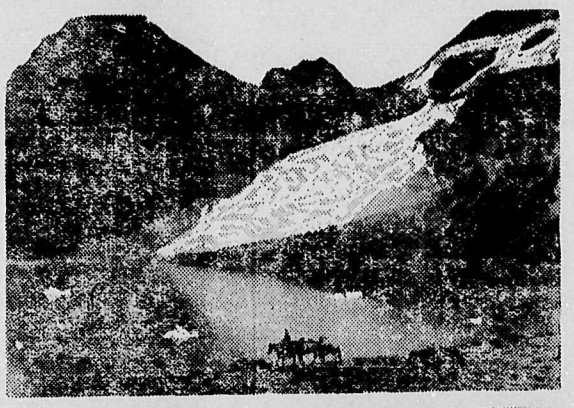
SEEING THE ROCKIES IN COMFORT



NEW steel mountain observation car, Mount Geikie, used on the Continental Limited of the Canadian National Railways for the comfort and convenience of passengers wishing to view the scenic Rockies in comfort. In the central portion of the car there is seating capacity for 36 persons and an additional 14 camp chairs are carried at each open observation end of the car. The car is heated by a vapor heating system and windows in the body of the car extend to the roof, allowing clear vision to passengers while sitting or standing. Comfortable, roomy seats have been provided, which are upholstered with Spanish Pantasote.

37,000 Harvesters Are Required

An estimate of 37,000 harvesters for Western Canada was arrived at by railway and employment officials at a meeting held a few days ago in the Canadian National Railways offices in Winnipeg. It is expected that 19,000 men will be available locally and from British Columbia, the remaining 18,000 to be brought from Eastern Canada.

TRADE WITH JAPAN

That there are possibilities of trade for Alberta in Japan in live stock and other products is the declaration of H. A. Craig, deputy minister of agriculture, who returned recently after superintending a trial shipment of cattle by Canadian National Railways and Canadian Merchant Marine to Japan. Mr. Craig made a thorough investigation into market possibilities there, and finds that there is considerable demand for beef cattle, and also for wool, barley, timothy seed, hides, flour, wheat, lumber butter and cheese.

EXPECT LARGE CATTLE EXPORTS

Already this year the figures for cattle exports from Canada to Great Britain are far ahead of last year, according to H. S. Arkell, Dominion Live Stock Commissioner, in an interview at the Fort Garry Hotel during his recent visit to Winnipeg. Mr. Arkell said he had it from the leading cattle exporters throughout the dominion that they expect a very steady export trade in cattle right up to the end of the year. He had been happy to learn that the various shipments of fat cattle to the Old Country, which had been fed in the open throughout the winter at Edmonton and shipped by Canadian National this spring, realized good prices. "This success should hearten the western farmer, as it shows what is possible in this direction," said the commissioner.

GAME BAG INCREASED

In the new provincial government game regulations for the guidance of sportsmen in the province of Manitoba provision is made that during the shooting season for prairie chicken and partridge the bag has been increased from 25 to 60 birds. This means that every day an individual may go out and shoot that many of these birds.

TRAIN RADIO OPERATOR

THE wireless operator is a familiar and sought for figure on the ocean liners of today. The radio operator aboard the all-steel Continental Limited, the transcontinental express of the Canadian National Railways, is fast becoming known and daily he is fulfilling his part of the work of the regular train crew on that service. The photograph illustrates the uniforms worn by the radio operators, similar in many respects to that of the operator of the ocean liner, but bearing on the lapels and cap the monogram of the Canadian National Railways. The suit is tailored of fine blue serge with double breasted coat with gold buttons and one stripe of gold braid on the sleeve, indicating the rank. The Canadian National Railways are the first company to inaugurate this service as a regular part of their equipment.

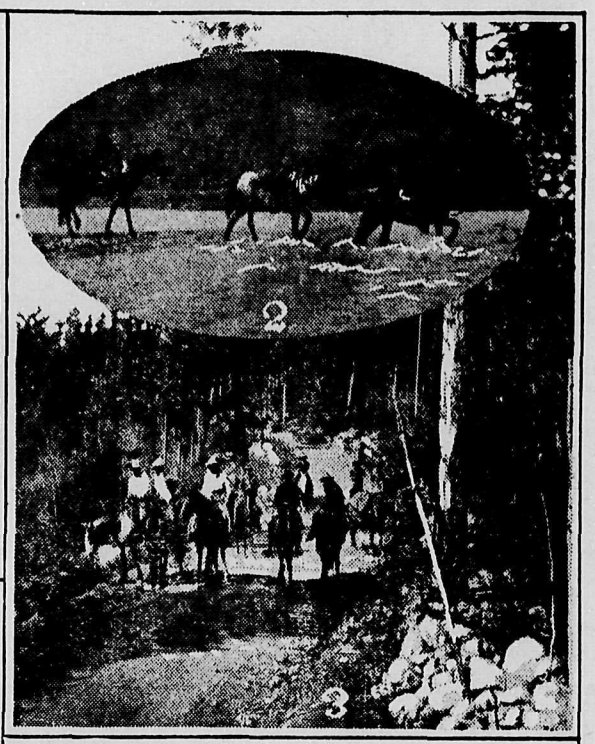
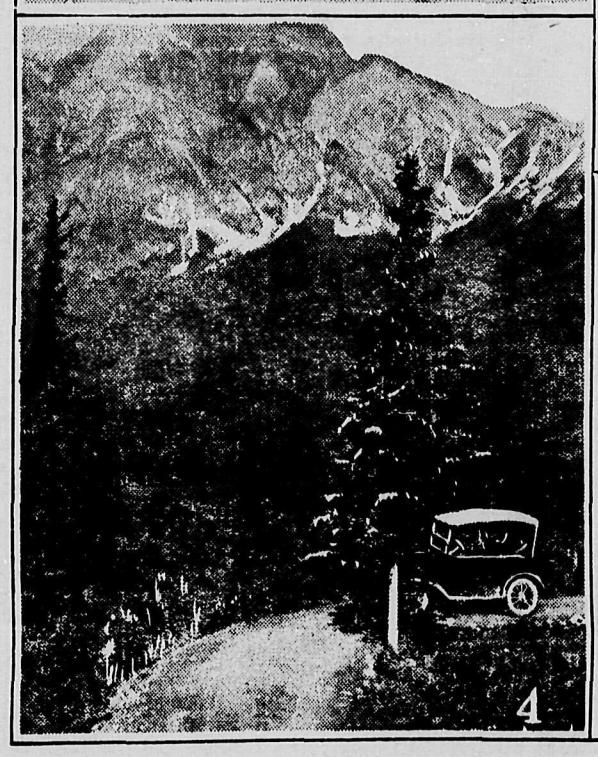
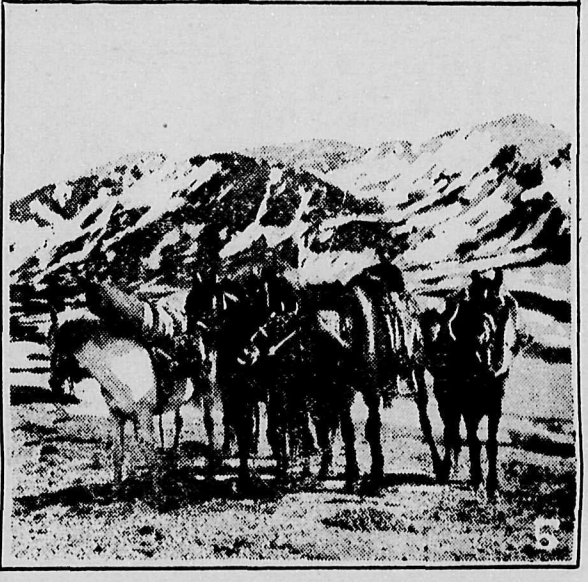
BY MOTOR AND PACK HORSE THROUGH CLOUD WONDERLAND







FOR the man or woman in search of healthful recreation, rest for jaded nerves, and a thoroughly enjoyable holiday, the world offers nothing more entrancing than a holiday in Jasper National Park, Canada's wonderland of scenery, where mountain, crag and torrent vie with one another in claiming the attention and where scenic nature is at her best. Towering peaks rise to the north, south, east and west; mirrored in the beauty of placid lakes whose shores provide shelter for the myriad wild life for which the largest of all Canada's national parks is famous.

Whether the tourist goes sightseeing by motor car or by the more romantic pack pony, Jasper National Park offers him the best that can be found anywhere. Motor roads and pack trails radiate in every direction from Jasper Park Lodge, the magnificent log cabin hotel of the Canadian National Railways, and the tourist may engage either ponies and guides or an automobile and thus see the mountains at his pleasure.

Mount Edith Cavell, named to honor the memory of Britain's heroic nurse, rises by the side of Mount Sorrow, within a short drive of the Lodge and is one of the favorite drives of visitors to the Lodge. The Cavell highway, smooth-surfaced, winds up toward the very foot of the Ghost Glacier, presenting to the visitor a new vista of scenic wonders at every turn. As one rides toward the foot of the glacier, the Athabasca Valley far beneath presents an attractive picture of calm loveliness, while here and there a lake, reflecting blue sky and sunshine, adds its touch to the beauty of the landscape. There are other drives which may be taken in comfort—one may go in an hour, for instance, to the wonderful Maligne Canyon, one of the natural wonders of the entire Rocky Mountain region, where rushing waters go tumbling and boiling through a narrow aperture worn in the rock, two hundred feet below the feet of the tourist as he or she stands on one of the footbridges which span its narrow width. At any turn of the road the visitor may find himself face to face with a bear or a deer, walking calmly across the highway, while on the sides of the mountains he may see mountain sheep or goats grazing.

The tourist to whom riding appeals will find plenty to hold his attention. Pack trails may be followed for miles, when in the company of an efficient guide, one may set forth to explore regions which are beyond the reach of the motor tourist. The wondrous Maligne Lake and Medicine Lake, with their quota of mountains reaching down almost to the water's edge, draw more and more tourists every year.

For years the wonders of Canada's national parks have been better known outside of Canada than they have been to Canadians, but year by year Canadians themselves are realizing that they have, in their own country, scenic attractions which are not surpassed anywhere in the world, and consequently the number of Canadians registering at Jasper Park Lodge is showing remarkable increases. Comfortable, steam-heated cabins are provided for their accommodation, an excellent cuisine is maintained at the main Lodge, where surroundings and service are of the world famous Canadian National Railways standard and every care is taken to see that visitors to Canada's largest and finest national park enjoy their outing to the full.

SENDS CHAMBER OF MINES PIGMENT ROCK WORTH MORE THAN GOLD

"I am sending you a sample of the rock which the Indians used to paint their faces, "writes a man from Lytton to Mr. Henry Browning, secretray of the Chamber of Mines, Vancouver, who received the "rock" Tuesday morning. It turns out, on examination, the find is a valuable one. It is a natural pigment used in the manufacture of paint, and if it can be obtained in volume will prove of great commercial value, Mr. Browning says.

The material is red and feels like soapstone. Mr. Browning and other mining men who have made a study of geology say the samples are of the same material from which the Indians in the days when the tribes warred upon one another, used to paint hideous figures on their faces, and the more warlike Indians farther south used to paint their naked bodies before setting forth with spear and bow and arrow against rival tribes.

The "paint-rock" is comparatively scarce and, according to Mr. Browning, "if there is any great quantity of the rock, it is more valuable than a gold mine."

THE TELEPHONE IS A DAYLIGHT SAVER

Saving daylight is a big topic at this time of the year. Everyone endeavors to make the most of the daylight hours. In these modern times, life each day is fuller, and each hour must mean far more than it did yesterday.

There is no better aid to daylight saving than the telephone. Nothing can help you more to make each successive hour of greater value.

Whether you telephone one mile or one hundred miles it is all the same to the telephone. The telephone saves you hours. It lengthens your day, giving you time for many things.

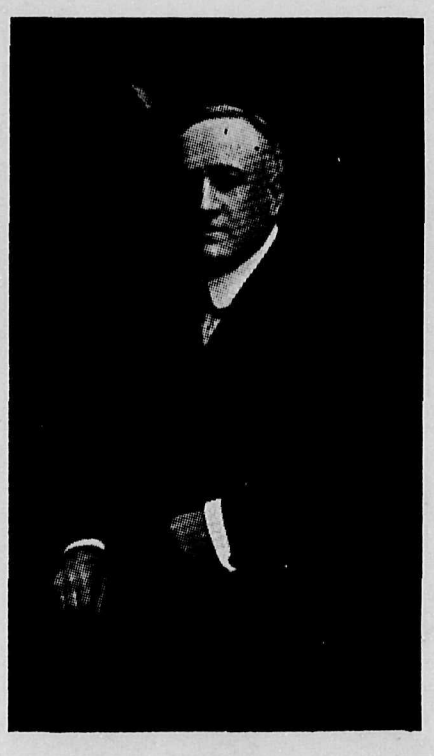
W. J. Bowser Retires As Leader Of Conservative Party



VICTORIA, Aug. 5—W. J. Bowser, K.C., leader of the Conservative party in British Columbia and for more than twenty years a leading figure in the public life of this province, will quit politics for good on Saturday. Mr. Bowser's definite decision to retire from the Legislature was announced to the Evening Sun Tuesday.

"The elected Conservative members will meet in Vancouver at my invitation on Saturday when I shall inform them that I am definitely and finally retiring," Mr. Bowser stated.

"I shall ask the members to select a House leader and then I shall retire and leave them to their decisions. I have been defeated at the polls and I accept the people's verdict. I am finished with politics and I have no regrets. To the new leader, whoever he may be, I wish all success in the work ahead. He will enter upon the work, the difficulties of which are well known to me, with my cordial support."

From men close to Mr. Bowser it was learned that he feels that another man should be given an opportunity to guide his party in this Prvince.

GOES INTO BUSINESS

Formal invitations to the conference in Vancouver Saturday have been sent to all the elected Conservative Members, Mr. Bowser said today. After the Saturday conference, Mr. Bowser intends to take active charge of a number of business enterprises in which he is interested in Vancouver.

R. H. Pooley of Esquimalt and J. W. Jones of South Okanagan appear to be the chief contenders for the leadership now. It is expected that Mr. Pooley will enter Saturday's conference backed by the eight Vancouver Island members and that Mr. Jones will have strong backing from Interior representatives.

No woman can be homely who does this

A simple method which safeguards lovely complexion—the beauty every woman can possess.

No girl or woman can be called unattractive who has kept the beauty and radiance of youthful complexion.

And today millions of women know this simple method. You too may employ it to keep lovely and young the clear, fresh skin Nature gave you.

This is all you need

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse — and repeat the washing. Then rinse again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils— famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive. Let it do for your whole body what it does for the face.

See that you get Palmolive—which is never sold unwrapped. All dealers have it. In a short time improvement will be noticeable, encouraging.

Made in Canada

Vancouver Team Drop Game 8-7

(Continued From Page One)

porting themselves on a mean, treacherous diamond and had eight miscues charged against their fielding record.

Cumberland incidently had a half dozen bungled chances.

Visitors Are Sluggers

If the visitors did not impress themselves favorably on the diamond they certainly made up for this deficiency at the bat. They lifted two balls over the fence in the persons of Sproule and Marrow and again they sweltered "Red's" offerings for three doubles. "Red" was lucky. Cumberland on the other hand did not hit quite so heavy but when they did hit it was in the needed pinches. Once for example did Dan Bannerman enter to bat with the bases loaded, knocked the horsehide down towards and passed the centre field and thus three runs crossed the rubber. The latter, "Tucker" James and Oliver Harrison were the big men with the stick for Cumberland. Dave Richards did everything in great shape Sunday but left his usual brilliant whip to second in the dressing room. Eight stolen bases were recorded by the enginemen.

Each Scored in First

The Engineers scored a run in the first inning, Cumberland retaliating with two runs. The visitors by virtue of a home-run, double and single in the second inning chalked up three more in the second. They held the lead until the fourth inning when Cumberland scored six runs and jumped into the lead 8-4. Three free passes to first, a couple of sacrifice hits, two singles and a double told that particular tale. Cumberland never scored after that inning making the score board read 8-5. Chapman replaced Robinson in the the box in the last of the seventh. The enginemen rallied in the ninth and pushed two more runs, a single aided by a homer, making the final score 8-7.

They Were Satisfied

Immediately after the game Umpire Bono admitted his error in judgment in his call of the last inning which was good enough for the visiting boys who proved themselves excellent sports when they accepted it with such good grace. The home team gave them a good send off after the game and they left with a good impression of Cumberland and the hope they will have the privilege of meeting the home team in Vancouver possibly this year.

Summary

Home runs: Marrow and Sproule; Two-base hits: Bannerman, Payne, Worley and Tolmie; Sacrifice hits: Bannerman, Conti, Richards and Hunden; Stolen bases: Bruce, Worley (2), Tolmie (3), Enwright and Robinson; Earned runs: V.E.W. 6, Cumberland 5; Left on bases: V.E.W. 10, Cumberland 4; Struck out by McIntyre 5, by Robinson 5, by Chapman 3; Bases on balls off McIntyre 2, off Robinson 4, off Chapman 1; Hit by pitcher Marrow, Worley and Smith by McIntyre; Wild pitches, Robinson; Passed balls, Smith; 8 hits 8 runs off Robinson in 7 innings; 0 hits 0 runs off Chapman in 2 innings; Credit defeat to Robinson. Umpire J. Bono.

CANADA'S GOLD PRODUCTION

By 1926 Canada will displace the United States as second among the gold producing countries of the world, is the opinion of Louis D. Huntoon, New York mining engineer, and a professor of mining and metallurgy in Yale University. Canada is now third, Africa ranking first However, according to Mr. Huntoon, Canada's output is increasing rapidly while in the United States since 1915 there has been a rapid decline. Among the provinces, British Columbia ranks first, the Canadian Yukon second and Ontario third. "Few appreciate," says Mr. Huntoon, "the importance of the recent gold discoveries in Ontario, the present output from that province, and the explation and development work which are in progress in both Ontario and Quebec in search of, and opening up, new deposits." He also pointed out that it was a remarkable fact in regard to these recently developed gold fields that they can be reached by Canadian National trains within less than twenty-four hours' ride from Toronto or Montreal.

NEW SALT DEPOSIT IS DISCOVERED

A salt deposit at Kwinitsa, on the Canadian National Railways 64 miles east of Prince Rupert, is attracting attention, as it is the only known salt deposit on the Pacific Coast of Canada. A Prince Rupert company has taken up 14 claims, comprising about 750 acres. An analysis of the brine brought up by pumps shows 96.63 sodium chloride, comparing favorably with well-known salts from different parts of the world. The railway passes through the property, and there is a deep-water boat landing on the Skeena river in front of it.

BOUNDARY MARKED

One of the features of the Alpine camp which has been held this year at the foot of Mount Robson, the highest peak in the Canadian Rockies, was the unveiling on the summit of Robson pass of a monument marking the boundary between Alberta and British Columbia. This ceremony took place on July 31, the date of the annual meeting of the club, and attracted a large number of members to Berg Lake who could spend the entire period in camp.

275,000,000 BUSHEL CROP

Sir Henry Thornton, chairman and president of the Canadian National Railways, during his present tour of the west, has predicted that the prairies will produce a 275,000,000 bushel crop this year.

CHEVROLET

Motor Cars are Economical in First Cost and Upkeep

Because

—They give remarkably high mileage on gas, oil and tires.
—Repairs per mile are extremely low.
—First cost is lowest in the world for a fully equipped, quality car.
—High quality materials ensure long life.
—Dealers and Service Stations everywhere.
—Production is so great that economy in manufacture is made possible to a very great degree.
—Fire Insurance rates are Class A—the lowest rate obtainable. C1616

NAVAL BRIGADE

CAMP AT SPIT

COURTENAY,—About sixty boys of the Naval Brigade are camped at Goose Spit, Comox. Forty of the young sailor lads are from Vancouver, the remainder being from Courtenay. The whole encampment is in charge of Captain Lloyd of Courtenay and Mr. McHugh, of Vancouver.

The boys are given training in Naval exercises, shooting, boating and all that tends to make good sailors. Needless to say they are having a great time. One of the boys from Vancouver, in speaking of the leader of the local brigade said: "The boys certainly like Captain Lloyd; he's just like a father to us."

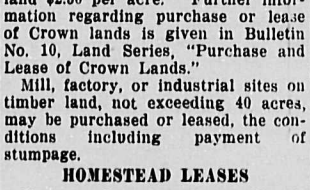
Next Sunday at the camp the boys will hold a field day when they will take part in a sports program to which everybody is cordially invited.

PLEASANT OUTING IS SPENT BY SIX GIRLS

A party of six young buds decided to spend a few days camping, the following being their story:

We, a party of girls agreed to go camping for a few days. The spot chosen was a tiny bay known as Log Bay situated on the east coast of this island and opposite Hornby Island wharf. We were transported by a launch owned by brothers of one of the party to the selected camping ground. Fishing lines were put out when going around Yellow Rock with the result that two fine fish were hauled in, a nice salmon and a huge cod, which later on found their way into the frying pan and saucepan respectively for dinner. After reaching camp the afternoon was spent in arranging our plentiful supply of food stuffs and utensils in camp for convenience and cleanliness also. A row boat for our use had to be procured. We all slept in the open sheltered only by the spreading branches of a sturdy fir. Next morning heart-rending stories were told of a night spent in agony on unaccountably hard bumps on the ground and some vowed they were the victims of bed sores as big as saucers. We set to work with a vengeance and with armfuls of moss and ferns made beds that enticed the liveliest of us into the arms of Morpheus and into a land of the sweetest slumber until aroused by the early puff-puff of a motor launch guided by the hands of ambitious fishermen. The remainder of that day and the ensuing days were spent with fishing, swimming and hiking. Plenty of magazines and novels passed away any lull in our activities. One and all took turns preparing our meals and it was joy all of its own to satisfy wonderful appetities whetted by the sea air and exercise. A dip before breakfast was the order and then dress in the sunshine which poured into our beautiful bay at that special hour. We were lavishly supplied with fuel as the previous storms had flung upon the beach everything in the shape of the smallest chip to the largest pieces of log we could pile on our camp fire. There was no drinking water just handy so we had to row either to our nearest neighbor or to a spring near Eagle Rock after a clamber up of fifty feet up a hillside the water seeker is rewarded with the cool crystal fluid and a sight which only an artist can describe. Between almost perpendicular ledges of moss-covered rock ooze out tiny tricklets of pure sparkling water. Everywhere are clumps of beautifully tinted maiden hair fern in great profusion which have fastened themselves to the rock and hang gracefully downward and wave ever so often in the breeze which creeps in through the fallen branches of the alders and thimble berry bushes growing higher on the cliff form a fitting canopy to complete this scene of rustic beauty. The same launch which had taken us out camping kindly took us fishing several times, trips which we all enjoyed and heightened by an unexpected plunge into the water of several of the crowd ocassioned by the boat being almost stranded on a hidden reef. One young lady reported that she had strained off two buttons with the strenuous work of pushing off the boat, anyhow the buttons were missing caused either by hard work or surreptitiously cut as a joke, probably the latter. As all things must come to an end this enjoyable trip closed by some going home in a car, the rest rowing around Yellow Rock to the wharf where they disembarked. One young damsel who owns beautiful titian colored hair (there were 3 of this type in the party) returned home with a complexion outvieing her hair, but by the liberal application of creams, bleaching powders, lotions, cucumbers and witch hazel, her skin is getting the normal appearance.

A.L.P. Correspondent



SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intension to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding Pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e, carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESTEAD LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

COMOX NEWS

Herb Moore, George Smith, Clifford Wilcox and Jack Kingston are leaving for Edmonton, Alta., via Spokane.

Douglas Ford and wife, of Nanaimo, visited Comox this week. Mr. Ford is now travelling for the Hudson's Bay Co.

John Potter has returned from Alberta and is again engaged with the Hot Shot Logging Co.

Mrs. Haslam, of Vancouver, is visiting her son, Jack Haslam.

Mr. and Mrs. Shaw of Vancouver are visiting their daughter, Mrs. Jack Haslam.

R. McCuaig and wife of Campbell River, were Comox visitors this week.

C. A. Tucker and H. F. Millan, of Rhode Island, U.S.A., are visiting Comox. They came across the continent in a Ford car and report a good trip.

NEWS OF DENMAN ISLAND

Mrs. Preston has returned to Victoria after spending a very pleasant vacation with Mr. and Mrs. Corrigal, her daughter and son-in-law.

Fred Leversedge, the guest of Mrs. Bell-Irving, after being down on the farm for a month, has returned to Cumberland and gone camping with the Scouts at Qualicum Beach.

Mary Robertson, Eileen Kelsey, Norman Chalmers and John Baikie are the lucky ones who passed the entrance exams.

Mr. L. Peterson from Bloedel's, paid a week end visit to Mr. and Mrs. W. Piercy and the party went fishing at Yellow Rock with very poor results.

A jolly football game was played between Denmanites and Union Bay boys. The latter played very creditably and won the game, after which the crowd went to the D.I.A.C.H. and danced to the sweet strains of Union Bay Orchestra. It was early morning when the last of the throng wended their way homewards.

Local Briefs

Mr. Alex Ronald rteurned from Harrison Hot Springs Saturday last.

* * *

Mr. Gordon Mounce, of Nanaimo, was a visitor to Cumberland on Sunday.

* * *

Harold G. Robertson is a visitor in town this week, the guest of Mrs. W. Robertson.

* * *
