

News of Courtenay and Surrounding District

CITY COUNCIL

CONSIDER ESTIMATES FOR THIS YEAR

COURTENAY, March 10.—All members were on hand last night at a special meeting of the city council to consider estimates for the year. Mayor Duncan occupied the chair for the first part of the session which he later vacated for the purpose of presiding at an important meeting of the directors of the Comox Creamery Association. The council is unanimous in getting the Island Highway hard surfaced and a further communication is to be made to Mr. P. P. Harrison, M.L.A., and to the Provincial Public Works Dept. The estimates as tabled last night are as follows:

School total	\$13,171
Public Works	7,680
Police	2,500
Fire Department	1,017

No definite decisions were arrived at at last night's meeting. There is every probability that the taxes as a whole will not be raised this year. The school rate will likely be two mills higher which represents 20 per cent. more than last year. Some of the other rates may be reduced and it is possible that taxation for 1925 may show a slight decrease. City Clerk, Mr. C. S. Wood, says there is no reason for them to be any higher.

ROY CLIFFE STILL SWINGS THE L. A. K. O.

COURTENAY, March 9.—Roy Cliffe is fast making a name for himself in the boxing world. Less than two years ago he fought his first fight as a professional, against Johnny Morgan of Ladysmith. Since then he has improved in a wonderful manner and was recently spoken of by Daymon Runyon as one of the most likely looking light-heavyweights on the Pacific coast. Cliffe has won eleven of his fourteen fights by his famous left arm knockout and in his recent workouts with Tony Fuente, the Mexican heavyweight, he made a great impression on the spectators. There seems to be every reason to believe that Vancouver Island is going to supply the next Canadian heavyweight champion and in the very near future at that. Cliffe, who is at present in California, made his first start in Courtenay two and a half years ago in an amateur tournament held in the Gaiety theatre. At that time he was very raw material and had only just been discovered by Max Blunt, an experienced pugilist, who, in 1917 held the Canadian middleweight championship in France. It is evident that Blunt and his associates were able to give Cliffe the right start which is an important matter to a fighting man. Roy Cliffe has many relations in the Courtenay district all of whom are of unusual stature and very fine specimens of humanity.

SUGGESTS THAT DAILY TEMPERATURES BE RECORDED

COURTENAY, March 11.—An interesting letter has recently been received by the city of Courtenay from a man of wide municipal experience. The letter which was read at the last meeting of the Courtenay-Comox Board of Trade is from Mr. Jas. W. Turner, superintendent of the Waterworks Department, of the city of Edmonton. Mr. Turner who spent a summer vacation in the district last year, and who is charmed with Van-

cover Island, has noticed that the daily temperatures for Courtenay are not recorded although the rainfall is kept and recorded in the meteorological reports as published by the government. It was on his suggestion that the matter of recording daily temperature was taken up by the Board of Trade. Mr. Eric Duncan is to be approached with a view of getting him to keep these records. Mr. Turner felt sure that a record of the temperatures would be of interest in days to come. He had been very interested to read reports in the local paper and in the Victoria Colonist of Courtenay's operations during the past year, and he thought that the city council and the city clerk were to be complimented on the splendid financial showing for the past year 1924.

PLAN OF PROPOSED RIVER DREDGING IS RECEIVED BY B. OF T.

COURTENAY, March 11.—Tuesday night's meeting of the Courtenay-Comox Board of Trade was a very interesting one; and discussions and resolutions of importance took place. The most important communication was a letter from the Federal Public Works Dept., office at Victoria. This letter enclosed a plan showing the channel which it is proposed to dredge from the Comox Harbor flats to the Courtenay River bridge. This would be one hundred feet in width and have a depth of five feet below low water. It is proposed to straighten the channel across a point above the Grain Growers' wharf during the coming season, and if funds are available, to complete the balance of the dredging during the season of 1926. This news was received with much gratification by all present. Captain E. Lloyd, who knows every inch of the river, says the straightening of the channel at the point indicated is of vital importance. It will obviate the two bad turns in the river which are nearly at right angles and which are at times almost impossible to negotiate. The straightening of the channel will also protect the Comox road and will provide excellent booming grounds, making a considerable area of slack water available. Letters of thanks are to be sent to Mr. A. W. Neill, M.P., at Ottawa for his very valuable work in this connection and to Mr. J. P. Forde, the district engineer at Victoria.

There was a reply from the Minister of Education to a letter from the Board pointing out some mistakes in the present school atlas. The author has been requested to make the necessary corrections, it was stated. The Associated Boards of Trade of Vancouver Island are to meet in special session at Nanaimo on March the 18th. A committee was appointed in connection with delegates from

Courtenay. Messrs Hughes, Thomas and Douglas reported for committees entrusted with road improvements, Board of Trade Supper and Board of Trade Dance respectively. All committees were thanked and discharged. The chairman informed the meeting that an effort was being made to get members of the Vancouver Board of Trade to attend the annual meeting of the Courtenay Board, which will take place on the 14th April, when it is hoped that the visitors will address the annual meeting on such subjects as agriculture, lumbering, and transportation.

EQUAL DUTY ASKED ON EGGS COMING IN AS ON THOSE GOING OUT

COURTENAY, March 12.—The resolution which has been forwarded to Mr. A. W. Neill, M.P., at Ottawa, asking his assistance in obtaining equal duty on all eggs coming to Canada, to that imposed on Canadian eggs entering the United States, was the outcome of a very interesting discussion at a recent meeting of the local Board of Trade. Mr. C. Hight, manager of the Royal Standard Feed Company's Courtenay Branch was of the opinion that Chinese eggs which only pay a three cent duty coming into Canada, should be refused admission altogether. The poultry industry is of immense importance to British Columbia he said, and is one of the best industries we can foster for this district. The poultrymen at Duncan, whose flocks are larger on an average than those of the Comox Valley, find that if eggs are a good price for four months it will put them on their feet for the rest of the year, as it would carry them over the breeding season and into the period of good priced eggs again. Few people, he thought, realized that the poultry and egg business in the United States exceeded the grain business by the sum of two hundred million dollars. This however was the startling fact he said; the figures being six hundred millions for the one and eight hundred millions for the other. Mr. R. U. Hurford said it was unfair to allow U.S. eggs to enter under a three cent duty when the U.S. imposed a tariff of eight cents on our eggs going into the States.

200 ATTEND CANADIAN DAUGHTERS' LEAGUE DANCE IN THEATRE

COURTENAY, March 9.—The dance at Headquarters on Wednesday evening which was held under the auspices of the Canadian Daughters' League, was a very pleasant affair. About two hundred people were on the floor and thoroughly enjoyed the splendid dance music. An enjoyable supper was served and dancing continued from nine until two a.m.

20 GALLONS COFFEE CONSUMED BY DANCERS AT HEADQUARTERS

COURTENAY, March 9.—The dance at Headquarters on Saturday night brought out something like a record crowd. It is estimated that three hundred people attended. The dancing was preceded by a banquet in honor of a number of students of the Forestry Branch of the Provincial Lands Dept., who had been stationed at Headquarters for about ten days and was tendered to these students on the eve of their departure. Headquarters orchestra left nothing to be desired in the way of dance music and the catering which was done by Mr. D. M. Isenor was to everyone's liking. The coffee must have been good for no less than twenty gallons were consumed by the thirsty dancers

J. K. MCKENZIE IS PARTNER WITH GEO. H. PIDCOCK

COURTENAY, March 11.—Mr. J. K. McKenzie has joined Mr. Geo. H. Pidcock in the garage business as from the twelfth of the month. Mr. McKenzie is well known in the motor business in Courtenay having been connected with the firm of Blunt & Ewart Ltd., for the past few years. Messrs Pidcock and McKenzie will handle the Dodge cars besides general repair work. The McLaughlin car will now be handled by Messrs Blunt & Ewart, together with the Chevrolet, another well known product of the General Motors Ltd.

WOULD-BE-ROBBER DISGUSTED AT FIND IN CASH DRAWER

COURTENAY, March 11.—A would-be-robber was badly fooled on Tuesday night when he entered the premises of Mr. H. Bryant's leather goods store close to the post office on Union Street. Entrance was made by a back door which opens into the basement of the building. The thief picked up a large rasp with a sharp pointed end and with this tool he made his way up the steps and through the cellar flap to the front store, where he proceeded to pry open the cash register drawer with the pointed handle of the rasp. On opening the drawer he must have been disgusted to see only four small brown coins each of a value of one cent. These he left in the drawer. Mr. Bryant has not missed anything from his stock and thinks nothing was taken. The cash drawer was of no great value and Mr. Bryant is wearing a smile.

GRANTHAM SCHOOL TRY FOR LIBRARY

COURTENAY, March 7.—A good number attended the Grantham whist drive and dance on Wednesday. On this occasion it required twenty tables to accommodate the card players. Miss Jessie Pearce won the first prize for ladies. Mrs. Percy Foreman second, and Miss Gwendoline Jones was awarded the consolation prize. The gentlemen's prizes were awarded as follows: first, Mr. J. Currie, second, Mr. I. Pickering and the booby prize went to Lloyd Swan. The social committee served refreshments which were much appreciated. Dancing to music supplied by Miss McQuillan and Alvin Parkin was enjoyed till midnight. At a recent meeting of the Grantham Parent-Teachers Association a sum of \$20 was voted for the commencement of a permanent library. \$10 of this amount is to be set aside for the purchase of reference books. Mr. Patterson, the school inspector, said it was possible that the education department might supplement this sum with another \$20.

GOVERNMENT LIQUOR ACT Notice of Application for Beer License

NOTICE IS HEREBY GIVEN that, on the 10th day of April next, the undersigned intends to apply to the Liquor Control Board for a license in respect of premises being part of building known as Alert Bay Hotel, situated at Alert Bay, British Columbia, in Comox District, Lot 68, Rupert District, in the Province of British Columbia, for the sale of Beer by the glass or by the open bottle for consumption on the premises. Dated this 9th day of March, 1925. A. A. GIBBENS, Applicant.

KEEP SMILING

When all the world seems blasted blue,
And business is on the bum;
A two cent grin,
With a lifted chin,
Helps some, my boy, helps some.

Every mining camp in the country has had its ups and downs, but a spirit of optimism goes a long way towards making for a return to normal industrial conditions. This applies to coal mining towns as well as to any other industrial centres. For some time the coal market has been in the doldrums but according to newspaper reports the industry is due for a come back, because observers have said that oil, which has been the chief competitor of the black diamond, is falling, many of the great producing wells of the world having gone dry, curtailing the production to such an extent that steam boat companies, large users of liquid fuel, cannot place contracts as they have done in the past. This means simply that there is no certainty as to the supply of oil and that a return to the use of coal will have to be made very shortly. This being a correct deduction there should be some reason for optimism insofar as the mines of this district are concerned. If former large users of coal revert to that fuel, prosperity is not far in the future for Cumberland, as the coal from this camp has always been recognized as the best on the Pacific coast for steam purposes.

Under these conditions we believe that the time is not far distant when Cumberland will be up among the largest producers and that good times will be permanent. A weather vane has some value on a roof—but not in business. Don't change your mind every time the wind blows.

WHITHER BOUND?

Did you ever sit high up in an office building window in a large city and look down on the crowded street below? How like ants the moving throng appears; rushing, seething, spending, paying and playing. Perhaps over on one corner you saw a little band of the Salvation Army on their knees in the street praying. The only ones who gave any heed or thought of what may be to come.

The crowd that is milling around below you are sacrificing health in the dust that is ground beneath their feet. Some are forfeiting friends for money. Some are cheating, others beating, and soon the newsboys will be shrilly crying the morning papers telling of human beings being robbed and murdered—for money.

Before long every mortal in that rushing crowd will be a cold and silent corpse. Every one of them will be carted to a silent hole in the ground where the whispering trees will moan over them. And the thought comes, why do people rush and hurry so, sacrificing health and happiness and peace of mind in that mad effort to get into the thick of things and move with the procession?

Out on the country roads, paved and lined with glaring billboards that shut off the beauty of the view, you will find these same restless souls skimming along in little boxes made of glass and metal, and coughing spurts of smelly gas and smoke. Where are they all going, and why? Would it not be better to rest awhile beside some quiet stream, to sit beneath a fine old tree and dream a bit? Would it not be better to strive for less, to be satisfied with simpler things? Would it not be better to play fair, be square and find more fun in living and less fear in dying?

Quaint customs are popular amongst girls in Paris. They walk abroad accompanied by goats, parrots, cats, and rabbits. Almost any day now we expect to hear of one taking her husband.

GO AWAY

Every man ought to snap down the old roll-top desk, put aside his working tools, and go away a little while, at least once a year. We get stale and weary, looking at the same scenes every day, our vision becomes blurred, and we do not get the proper outlook.

A night's travel in these days of fast trains will put you beyond the narrow boundaries that hem you in. Somewhere in the frozen North, the balmy South, the breezy West or the cultured East, you will find much of interest and instruction.

"But, I can't get away," the poor old chained slave says. Men have thought that for lo, these many years, and then one night the Grim Reaper beckons to them and they go away and stay away. Does the little world miss them? Does the daily grind cease for those they have left behind?

Not long ago a prominent citizen passed away. He was a man who toiled long hours for others. He put in overtime and was a valuable member of society. "It would be hard to fill his place," they said. Scarcely had the mourning friends and relatives turned away from the new-made grave than the community life flowed on. It was like dropping a stone in the placid lake. There was a splash, a ripple, and the surface of the lake was as before.

It is well to do your duty, to be zealous in your undertakings, to practice thrift and provide for the rainy day. But to slave and hoard is wrong. You owe something to yourself, your health and peace of mind. Take a trip and get in touch with humanity. It is a good investment, money well spent. It is worth the cost of the carfare to "meet up" with men who are living in another section, who are facing different conditions from the petty problems that make up your daily existence. If you can't go now, start planning for your summer vacation, and when the time comes, take it.

You will be a long time dead, and the world will never miss you.

OPPOSITES

We're always wanting it hot in the winter time, and in summer we long for the frost. Fat people are forever trying to reduce; thin people try to add to their weight.

The rich imagine they envy the poor, and the poor envy the rich a great deal of the time. What we have we don't want, and whatever we haven't we crave earnestly.

Only a few are satisfied and those few don't admit it for fear they will be accused of having no ambition.

A nation builds a great ship. Immediately some other nation tries to build a bigger one. You erect a fancy home, and along comes another man with an envious eye and determines to eclipse you.

An especially difficult task always invites a challenge to master it.

The conspicuous thing about life is the fact that everybody likes it, but few are satisfied with it.

A modiste says that the objection to the long skirt is that it often trips up the wearer. At the same time, the short skirt has been responsible for the tripping up of many a young man.

POOR SCOTTIE

The manageress of a certain popular inn was a great gossip. One day she talked so long after supplying a customer with a drink that in the end he left without paying for it. Meeting a Scotch friend soon afterwards the customer told him how he had had a free drink, and advised him to go and do likewise. Nothing loth, Sandy went, determining to go one better. He ordered a drink and at once started yarning away to madam. After he had finished his drink and the conversation had lasted a good half-hour he said he would have to be going, and holding out his hand said: "You've forgotten to give me my change, missis."

There is hope for the shingled yet. Pale mauve hair is the latest idea. It matches a blue neck beautifully.

POWELL RIVER PULP AND PAPER MILL WILL SPEND OVER A MILLION

There seems to be no doubt concerning the future of the pulp and paper industry of Canada, some of the big companies that have been operating in the United States preparing to move across the line. It is said that negotiations are under way for the

acquisition by American interests of several of the big paper making plants of Eastern Canada and the increasing of the output.

This is interesting reading, especially in view of the fact that we have close at hand one of the biggest paper mills on the Pacific Coast. The Powell River Company is also making extensive alterations and additions to the mill across the Bay. The site for the new grinder room has been cleared and the construction of the flume down which will be sluiced the earth excavated has been completed. In order to supply water for the sluicing the mill waste flume running into the river mouth has been tapped. The end of the new flume will be moved along as the work proceeds so as to distribute the material being excavated. A larger flume has been constructed to bring down the excavation from the penstock cut, this flume running over the roof of number three warehouse and discharging

into the sea behind the rock fill wall which is being built to retain the fill. The construction of the new sea wall and the excavation for the grinder room foundations and the penstock cut will proceed simultaneously.

Good progress is being made on the temporary trestle which is being constructed just off the mouth of the river and which follows the curve of the sea wall mentioned above. A track will be laid over this trestle upon which the cars carrying rock from the quarry will run, dumping the rock into the sea, in connection with the construction of the sea wall. A quarry has been opened up about two hundred yards from the mouth of Powell River, where the contractors are boring into the solid rock and bringing down the necessary material for the construction of the sea wall. A road has been built along the east bank of the river and a three foot gauge track installed. The rock will be handled by one of the gas locomotives used on the dam, extension of which was completed last year at a cost of approximately three quarters of a million dollars. The Horton Steel Works have been awarded the contract covering the fabrication and erection of the fourteen foot diameter steel riveted penstock, the contract calling for the commencement of the erection of steel by June 1st, this

year. Additional contracts covering generator and grinding room equipment will be let very soon. It has been estimated that the work to be carried out at Powell River this year will cost the company more than a million dollars, and when completed will make the mill one of the greatest producers in the country.

SPRAY CALENDAR FOR CURRENT YEAR ISSUED

The horticultural branch of the Provincial Department of Agriculture has just issued a spray calendar for 1925 which contains full information as to the best sprays and other methods of control to be used in the combating of different insects and disease attacking the various fruits grown in British Columbia. Copies of this useful calendar can be obtained on application to the Department of Agriculture, Victoria, or from any of the branch offices of the department throughout the province.

MANY BIRDS DIE ON OIL-COVERED WATER

Dead ducks and gulls, smothered in oil, lie on the shores of Savary Island, according to word received. Hundreds of birds, at present alive, are starving to death on the waters near the shore because they have been made helpless by vast quantities of crude oil that cover the waters. Similar conditions are said to exist on neighboring islands. Thousands of birds, it is estimated by island residents, have perished in the past few days because of the oil on the gulf. Although oil burners are believed to pump out their bilges in the Gulf, the quantity of oil thus cast adrift is

never sufficient to cause any such condition, it is said. It is believed that the oil which is now seen in the vicinity of Savary and neighboring islands is the cargo of 1500 barrels lost off an oil barge about ten days ago on the Gulf. This barge was being towed to Powell River and she sprung a leak, the water forcing the oil out of her and on to the Gulf. It covered areas with a depth of from six inches to one or two feet, and any bird that alighted in it would be promptly rendered helpless when the sticky mess gummed its feathers and wings.

"OH, DOCTOR!" IS DENNY'S LATEST

Universal Pictures Corporation obtained a "corner" on some of the screen's finest character artists when it selected the cast to support Reginald Denny, star in "Oh, Doctor!", Universal-Jewel coming to the Illo-Ilo Theatre Friday and Saturday, March 20 and 21. The picture is the screen version of the celebrated Saturday Evening Post serial of the same name, written by Harry Leon Wilson, and was directed by Harry Pollard who directed Denny in "Sporting Youth," "The Reckless Age" and the first series of "The Leather Pushers."

"Oh, Doctor!" is the story of a young man who, since childhood had been coddled and nursed and made to believe that only by the greatest care could he live. Through a series of humorous events the story emphasizes the manner of life he leads.

An aunt who has little patience with his fears endeavors to restore him to a normal condition of mind. Then comes the necessity of borrowing money enough to permit him to remain ill in luxury and to die in luxury. He will inherit a considerable fortune if he lives three years and after three old Shylocks have been convinced by specialists that he has nothing the matter with him, other than his mental attitude.

Mary Astor has the female lead in a cast of well known favorites, which also includes Otis Harlan, William Mong, Tom Ricketts and Mike Donlin.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding Pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e. carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESTEAD LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Here and There

An unusual consignment passed through Montreal recently in the care of the Dominion Express Company when six Rocky Mountain sheep were shipped to Austria to form part of a zoological exhibit there. The animals, which are valued at \$600, came from the National Park at Banff, Alberta.

Alberta farmers have recently been shipping a new commodity to the market. During the past few years there has been a considerable increase in the number of bee-keepers and last year 160 keepers had a total production of nearly 60,000 pounds of honey, valued at approximately \$15,000. The exact number of bees is not known.

Contract for aeroplane spruce has been made between Vickers Limited, manufacturers of aeroplanes, and Frank L. Buckley, of Vancouver, B.C. The spruce will be logged on the Queen Charlotte Islands and milled at the Buckley Mill at Port Clement, on Graham Island and at Burrard mill, in Vancouver. The contract calls for the delivery of two million feet during 1925.

Canada leads the world in automobile exports in proportion to production, domestic sales or ownership of motor vehicles or to population. Not relatively but absolutely the automobile exports of the Dominion are only exceeded by those of the United States. Since 1920 the motor vehicle exports of Canada have nearly doubled, the increase being from 9.8 per cent. to 17 per cent. of the automobile export trade of the world.

A special train of forty-two cars, containing nearly 900 head of stock for export to Great Britain, arrived at the Canadian Pacific Railway's East End stock yards, Montreal, recently. These, added to shipments from Packerham, Ont., Toronto and other points in Ontario and Quebec, made up what cattlemen claimed to be the greatest concentration of Canadian cattle for export in the history of the trade. From the yards the cattle were shipped by special train to the ship's side at St. John, N.B.

When the round-the-world cruise passengers aboard the Canadian Pacific steamship "Empress of France," reached Egypt recently, they were entertained by Enani Khattab, a prominent sheik holding authority over a large number of villages along the Nile. Unfortunately, the sheik succumbed to a sudden attack of heart failure. The visitors from across the Atlantic before returning to their ship were permitted to attend the funeral, which was conducted in the desert with weird and impressive religious rites, an experience few world-travellers have known.

Anna Lee Scott

Recognized authority on household problems pertaining to the selection, preparation and serving of food for all occasions.

Director of the Maple Leaf Club and author of a remarkable Course on Cookery Arts and Kitchen Management.

FREE

A WONDERFUL COURSE TO INTRODUCE A WONDERFUL FLOUR

You will like Maple Leaf Flour. It makes light, wholesome bread, flaky biscuits and truly delicious cakes and pastries.

You get the same uniform results with Maple Leaf Flour every time you bake. It carries a definite guarantee of uniform quality—every bag contains the highest grade of flour made from carefully selected Canadian hard wheat, milled by modern methods and checked by expert chemists at every stage of the milling process.

To introduce this high-grade flour to housewives, we offer for a limited time a course on Cookery Arts and Kitchen Management—containing all the essentials of a college course in Domestic Science—consisting of 20 lessons—sent you by mail. Every user of

MAPLE LEAF FLOUR
FOR BREAD, CAKE & PASTRY

is eligible for membership in the Maple Leaf Club and can enroll at no cost whatever for the Free Course, of 20 lessons. Membership in the Maple Leaf Club includes the privilege of writing Anna Lee Scott on any problem relating to the serving of special dishes for special occasions, or on any household subject.

HOW TO ENROLL

Coupons will be found enclosed in every bag of Maple Leaf Flour. (24 lb. bag—1 coupon; 49 lb. bag—2 coupons; 98 lb. bag—4 coupons.) Send only four coupons addressed to the Maple Leaf Club, Maple Leaf Milling Co., Limited, Winnipeg, Manitoba, and you will be enrolled without one cent of expense as a member of the Maple Leaf Club and receive the first four lessons in the course. Other lessons will be sent in four monthly instalments—four lessons each month.

NOT SUDS BY THE BUCKET — BUT BEER BY THE GLASS

It is expected that very shortly sale of beer by the glass will be a legalized and popular way of dispensing the amber colored liquid to thirsty ones who happen to have the odd dime in their jeans. Beer by the glass does not mean suds by the bucket as in the old days of the barroom; nor that one will be permitted to loiter around a thirst quenching parlor until he has had so much beer, that he has to hold his head back so it will not

Wm. Douglas FOR Hay, Grain and Poultry Supplies ALL KINDS OF FERTILIZERS
Leave Orders at **Tommy's Hardware Store CUMBERLAND, B.C.**

spill. When a person has to do that he is full and drunks will be absolutely barred from the resort that is fortunate enough to secure a license. The regulations governing the operation of beer parlors are explicit in this regard and no cracking of the law will be allowed. Funnels will be strictly barred, and the only implements of trade in evidence will be the beer glass ranging in size from a thimble to a regular water glass with a flat, not a hollow bottom. If a customer thinks his drink is not large enough he can paw the air, for there will be no rail as in other days. Thou shalt not create a disturbance, nor yet become a nuisance about the premises is a commandment that the attendant in charge of the parlor will have to see is strictly obeyed, for while the offence might not lead to 'Okalla' it might easily lead to the poor house, and from there back to

the good graces of the law there's a long, long trail a winding. Beer drinkers say that they expect better beer by the glass than they are now getting by the bottle. Some of them are conscientious in this expectation, and are doing all in their power to help breweries. A few days ago two boys were seen catching frogs in a pool near town. When asked why they were doing it they replied that their fathers had said that the makers of beer had had no hops for three or four years and after they caught the frogs they could sell them to the breweries where the hops could be taken out of them for the manufacture of good old brown beer. Hops have always been used in the manufacture of beer but this new source of supply will probably be gladly accepted as it will give a perpetual supply at low cost. Then perhaps beer will be cheaper.

City, when a \$50,000 audience filled the reproduction of the Paris Opera for a specially staged performance of "Faust." A night's box-office receipts at the Metropolitan couldn't rival this, nor could the Paris Opera itself, the largest opera house in the world. But in this case the audience didn't pay to see the opera. On the contrary, they were paid to see it. The \$50,000 represents what it cose to have the audience there. It is also probably the first time in history that three thousand people were paid from ten to twenty dollars apiece for looking at an opera.

The audience was used for the "Faust" performance, which is one of the important scenes in Universal's "Phantom of the Opera." In addition to the \$50,000 which was spent for the audience alone, there was of course an enormous expense involved in the one hundred piece orchestra, the ballet of two hundred and fifty, the chorus of eighty and the opera stars and principals.

Lon Chaney has his most unusual role in the "Phantom," it is said, and Mary Philbin and Norman Kerry are the young lovers whose happiness is menaced by his grim figure. Arthur Edmund Carewe, Snitz Edwards, Gibson Gowland and other well known players head a cast of five thousand. Carl Laemmle presents the picture, which was directed by Rupert Julian, as a worthy successor to "The Hunchback of Notre Dame," which he feels it will excel in every respect.

pound wooden box, and while the original product has had many imitators none have been able to produce a cheese of the same uniform quality and flavor because the Kraft process is protected by patents. The Company does not make cheese, therefore, it is not competing with the cheese factories. But it purchases Canadian cheese in enormous quantities, thus keeping the cheese factories busy and adding to their prosperity and that of the farmers. Kraft Cheese is simply a scientific blending of these manufactured cheeses by means of the patented Kraft process which absolutely controls the flavor.

The company has just issued a beautiful recipe book showing over 60 different ways in which cheese may be served. Many of the dishes are illustrated in natural colors. A copy may be obtained, free, on writing to the company in Montreal, mentioning this paper.

NORRIS NOVEL IS MADE INTO FILM

Most romantic stories end with a wedding. "Christine of the Hungry Heart," the new Thomas H. Ince picture made for First National, which comes to the Ilo-Ilo next Monday and Tuesday, begins with a wedding, and the wedding of the heroine, Christine, at that.

But the romance of the story does not end with the wedding, it merely begins at that point. Christine's romance, or romances, lead up to her great sacrifice which finally brings her the happiness that every normal woman seeks.

It is a fascinating story, superbly told, with a fine cast, including Miss Florence Vidor, in the title role, Warner Baxter, Ian Keith Clive Brook, the English actor, and Walter Hiers, the rotund comedian. It was directed by George Archainbaud, and adapted from the Kathleen Norris novel of the same name by Bradley King.

Extraordinary Construction Feat at Famous Mountain Resort

Right, the shell in course of erection. Left, the cover beneath which the construction work is going on. Below, Chateau Lake Louise, as it will appear upon completion.

Architects and builders all over America are much interested in the progress of the re-building of the Canadian Pacific hotel at Lake Louise, Alberta. The site of this building is over a mile above sea level, and the thermometer frequently takes a sensational drop, there being winter days when 56 below zero is on record. It was imperative that the new wing, which is being built to replace that burned down last summer, should be finished and open for the coming season, and that work on it should, therefore, not be interrupted by winter weather.

Several architects and contractors from United States cities, who have visited the site, expressed doubts as to whether the job could be done during the cold weather, particularly in view of the fact that so much of the work consisted in pouring cement. This had to be safeguarded from freezing, and it was finally decided to build a huge wooden, tar-paper lined, shell around the entire space to be occupied by the new wing of the hotel. On the inside of this shell were hung thousands of feet of temporary steam coils, kept hot by 380 horse-power steam boilers, the effect of which was to provide a safe, summer-like atmosphere for the carrying on of the work.

The erection of so important a building in a position so comparatively difficult of access, as is the Lake Louise Chateau, is a matter calling for unusual engineering skill, the task of getting the materials to the site being by no means an easy one. With a night and day service, in spite of ice and snow, over 26,000 tons of material and coal are being delivered by the winding narrow-gauge tramway on a four per cent grade for a distance of 3 1/4 miles from Lake Louise depot to the Chateau. Canadian Pacific forces are supervising the work, supplying steam and electricity and delivering material to the site.

This extension will enable the Chateau to accommodate seven hundred guests in a fireproof building, with every modern convenience, and one of its features will be the magnificent view of the lake and the group of mountains surrounding it from the ball room, rotunda, lounge and dining room through enormous plate glass windows which feature the whole length of the building. The extension was designed by Messrs. Barott and Blackader, of Montreal, who have done other important work in connection with Canadian Pacific hotels and the contract was undertaken by Messrs. Carter-Halls and Aldinger, of Winnipeg.

A. W. NEILL STRESSES NEED OF DEFENCES FOR CANADA'S PACIFIC COAST

(Continued From Page One)

ject of any enemy would be a blockade and destruction of shipping.

Disabilities of League

Mr. Neill stated that we were told that there was no need to talk about war. Mr. Neill averred that he could talk on the disabilities of the League of Nations for some time.

The League was a source of enormous weakness and Great Britain would never have gone into it had it felt that the United States would not enter it.

"We were told that we should remain defenceless. Who was so expressed in his utterances for peace but the German kaiser? Many of the men lay in France today because we had to rush them there unprepared for war. We paid because we

had listened credulously to the assurances of the German emperor."

Advantages Through Disarmament
There was also talk about disarmament. Supposing disarmament was accomplished, it meant a great advantage in one respect only, and that was of an economic nature.

"Disarmament does not stop war," stated Mr. Neill. To a certain extent it encouraged strong nations to attack the weaker ones. Wars took place long before armament, when men fought with scythes and the like.

We should admit the need of some defence. War might occur any day in the Pacific.

Mr. Neill was still speaking when the House adjourned at 6 o'clock.

CORRECTION

In connection with Mr. Bryant's robbery recorded, the following articles are now found to be missing: one horse blanket; one small tent, and one dunnage bag.

SUTHERLAND'S

"OH, YOU TONY!"

**FULL OF PLOTS AND
COUNTERPLOTS**

Washington politics, frenzied finance, plot and counterplot ripple across the screen in the wake of Tom Mix and his well-known four-legged friend, Tony, when the Ho-Ho Theatre begins a two-day run of the William Fox production, "Oh, You Tony," on Wednesday and Thursday, March 18 and 19. Tony does a few stunts of his own and Tom Mix essays what is for him a brand new role, that of a student, and later an instructor of etiquette. Since long spurs and Washington society don't mix, Tom had to discard the "horse persuaders" and try a boiled shirt. He decided to make his cowboy friends suffer with him and they furnish a most laughable spectacle in swallow tails and "two-quarts" sombreros.

Claire Adams has the part of the leading lady and Dolores Rousse shines equally bright as a fair adventuress. Dolores, as a lady of affairs in Washington, carries her part with all the savoir faire that ladies in the diplomatic circles exude like

roses do their perfume. It will be recalled that Miss Rousse joined the Fox organization after appearing in Ziegfeld's Follies for two years.

Despite the fact that Tom Mix gives many excruciating funny examples of "what's wrong with this picture," there isn't a thing wrong with the film production of "Oh, You Tony!" Tom's horse gives performances that will interest all lovers of horses. While we are on the topic of lovers, there is a romantic element winding its way through the tale that will hold all sweethearts in suspense, until the way of the true love is made smooth.

The masculine heart will find it rather difficult not to be fascinated by the charms of Dolores Rousse, who is the villainess on the screen.

CORRESPONDENCE

Cumberland, B.C., March 10, 1925.
Editor, Cumberland Islander,
Cumberland, B.C.

Dear Sir:—

There are times when the perpetrations of juveniles in Cumberland become so wanton that one wonders whether there is ever any attempt made by anybody to try to control them. The mutilation of trees, grass etc., the crimes committed in and around the football field; the invariable smashing up of an untenanted house; these acts have come to be almost accepted as occurrences over which we have no control, like rain and sunshine. But the latest vandalism, that of destroying the War Memorial Arch, is underway, and I am wondering whether this will be treated with the same indifference. Children swinging on the chain fence have fractured the base of two of the concrete posts, and if it was not for iron dowels which I instructed to have placed there as a reinforcement when it was built, the posts would have fallen long since. Children climbing to the top of the monument and leaving wooden staves up there have started to chip the moulding immediately above the arch. Other features have developed which proclaim the beginning of disfigurements which will ruin it. Ordinarily concrete construction is permanent and will stand for centuries unless wilfully attacked. At present as a Memorial Monument its days are numbered, but as a plaything for children it is an unqualified success.

Yours truly,
W. A. Owen.

NOTICE

"The Navigable Water's Protection Act" R.S.C. Chapter 115

The Royston Lumber Company Limited hereby gives Notice that it has under Section 7 of the said Act deposited with the Minister of Public Works at Ottawa and in the Office of the Registrar of Titles at the City of Victoria, in the Province of British Columbia, a description of the site and plans of its proposed wharf, booming grounds, piles and works appurtenant thereto to be constructed on the site known as Lot 151, Nanaimo District and which site is situate in front of the Marine Drive which lies between high tide mark and the North Easterly boundary of Blocks "C", "D", and "E" of Section 4 in Nanaimo District Province of British Columbia, Plan 1478.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this Notice the Royston Lumber Company Limited will under Section 7 of the said Act apply to the Minister of Public Works at his office at the City of Ottawa for approval of the said site and plans and for leave to construct the said wharf and to drive, place and erect the said piles and works appurtenant thereto.

DATED at Cumberland, B.C., this 26th day of February, A.D., 1925.
THE ROYSTON LUMBER CO. LTD.
Per G. K. Uchiyama,
Managing Director.

GOVERNMENT LIQUOR ACT

Dated this 20th day of February, 1925.
R. H. SHAW,
Applicant.

Expresses Thanks

The matron of the Cumberland General Hospital wishes to thank the Cumberland Welsh Society for their kind donation of flowers which was much appreciated.

H. E. Murray left this afternoon for Ladysmith and Victoria.

On Tuesday Mrs. James Hood and Mrs. R. D. MacDonald returned home from Duncan where they have been attending a missionary conference.

Courtesy recalls the customer and invites a new one; discourtesy drives away those you have and keeps away others.

RIPPLES FROM ROYSTON

Mr. R. U. Hurford left on Friday for a business trip to Powell River, and Vancouver, returning on the Sunday boat.

Bathing Season Opens

The bathing season at Royston was opened this week when three of Royston's popular young ladies were observed sporting themselves in the sea.

Celebrates Birthday

Miss Joyce Edwards entertained her school friends at a little party on Thursday afternoon the occasion being her thirteenth birthday. The guests included, Mrs. C. Kelly, Miss S. McMurray, the Misses Evelyn Hilton, Gladys Idiens, Ritsuko Uchiyama, Melgan Navey, Annie Watts, Annie McLeod, Margaret Dunn, and Irene Kelly.

COMOX DISTRICT

ROD AND GUN CLUB

HELD MEETING

COURTENAY, March 13.—A meeting of the Comox District Rod and Gun Club was held here last night. There was a good attendance with the outlying districts including Union Bay well represented. After a good deal of interesting discussion, the following recommendations were passed and will be sent to the Game Conservation Board in Vancouver:

That the open season for deer be from 1st Sept., to 15th November, with a bag limit for the season of three bucks. It was suggested that every license holder be supplied with three numbers one of which must be used as a tag on each deer killed by the licensee. Blue Grouse open season 1st Sept. to October 15th; Willow Grouse, 15th Oct., to 30th November; Pheasants, 15th Oct., to 30th November, with a suggestion that there be an open season for hen birds for two weeks from the 15th Nov. to 30th November. Bag limits for hen birds to be two a day. Ducks, Oct. 1st, to January 31st; Geese, Sept. 15th to December 15th; Brant, Nov. 8th to February 23rd; Bear, Oct. 1st to April 15th.

A resolution was passed asking that a bounty of twenty cents each be placed on crows and that the bounty be collectable from the Provincial Police in the district. It was suggested that notices advertising such bounty be placed in public buildings. An interesting discussion took place as to the best means of exterminating domestic cats who have acquired the habit of prowling in a semi wild state in the woods to the serious detriment of game birds, particularly in the nesting season. It was decided that

every member of the club would shoot such animals on sight.

A letter is sent to the Game Conservation Board with a view to ascertaining the number of Elk at present on Vancouver Island and if an open season was contemplated, what that season would be. Fishing came in for a good deal of attention. A letter will be sent to the Board suggesting an open season for Steel Heads in this district from 1st Jan. to 15th April.

Residents of Parksville made application for membership with the Comox Club and it was decided to take in Parksville members and back the requirements of the Parksville sportsmen as coming from their district.

The secretary, Mr. J. K. McKenzie, was instructed to write to the department of fisheries to find out the habits of trout spawning and the reason for the closed season which at present is from 15th Nov., to last day of February. Mr. Geo. Smart was chairman on this occasion. The membership of the Comox Rod and Gun Club is now near the hundred mark and it is hoped that this number will be trebled before the next meeting.

Surprise Party

Last Friday evening about thirty-three young people called at the home of Mr. and Mrs. Sam Robertson on Penrith Ave., and gave their son David a surprise party. Many different games and dances and songs were enjoyed and guessing contests were very popular. Close to the end of the evening, very dainty refreshments were served to all which they enjoyed to the fullest extent.
