

When I held the nine American prisoners in my unit on September, 1942, I thought that they were respectable and honorable soldiers who had fulfilled their duty, and since they had been captured by us, were no longer but persons who did not differ from our neighbors and fellow countrymen, and they were truly merely unhappy fellows with the status of prisoners.

Thus, since the time that they were interned, I used much care to treat them well, and at the same time I tried to send them back to Japan as soon as possible from the dangerous front. Therefore, I am convinced that the treatment they received was excellent.

But you could hardly inagine my surprise when all of a sudden, I was ordered by the C.O., Abe, who used to be always very prudent, to kill the prisoners in the middle of October. Even when taking into consideration that it was issued so peremptorily and its nature was such that from the standpoint of my private feelings, I could not bear it. Moreover, from the standpoint of common sense, it could not be easily comprehended, since it ran utterly counter to my belief of the justice and humanity which I had firmly believed in all my life,

But now, the order was issued, and its solemnity could not be offended, because it was based on the directive from the Central Headquarters, having the reasons behind it which we were not in position to know. I as a military man know well that orders must be obeyed absolutely.

Now I came to be in a quandary, for as an Obara, with all the feelings of a human being, I had not the heart to kill the prisoners, but as the C.O. of the Guard Unit, I had to obey the order. Thus I, who had no authority to take the initiative, had no way to solve this difficulty except by recommending my opinions to the C.O., Abe.

So I made up my mind, and expressed my opinions to the C.O., Abe, to reconsider the matter, and make necessary arrangements to send them back to Japan, as had been decided by us, but because of the order from Central Headquarters, this also was not accepted. Thus the path that I would follow was absolutely decided. Now I could do nothing but to execute the order merely as his tool.

The course left for me, as a man of Obara, was to do the killing as politely as possible.

I did my very best as a man and as a military person. I firmly believe that anyone who had been in my position would not have been able to find a different way from mine. I am still convinced that the measures and attitude that I took were without a doubt just.

My official life had been unfavorable because I clung too much to the justice and rights of humanity. Therefore I devoted myself to building a

happy family life, and especially to the culture of my children. Thus my four children grew up happily and in good health. However, my oldest son was killed at the front last spring; the other three were killed in the City of Kagoshima in an instant by a bonb during an air raid by the United States, and all my property was destroyed. All that is left to me are my 81 year old mother, and my wife, who is pregnant. My only two older brothers engage in agriculture in the United States, and their three sons are attached to the United States Military forces.

I who have believed in justice and humanism as a matter of faith, have come to be charged with unjust and anti-humane murder, and tried before w United States Commission, while I am living bewildered as to what I should do, thinking of my old mother and wife.

How strict and merciless my destiny is! I cannot help but grieve for it. But under the belief that a day will come when destiny will smile again at a life that tried to walk in the path of justice and humanity, I will not cease to utter my conscientious claim that my acts concerning this case were precisely right and were not punishable things.

I implore the commission to realize my spiritual plight and to lead me, who strives to continue to build my road of justice, resisting my nerciless destiny, rightly.

STATEMENT OF ABE, Koso

Because the Japanese Military Forces are directed to be in strict order, by the rigorous command which originates in the supreme prerogative of command of His Majesty the Emperor and penetrates from the Emperor on the top down to a private at the bottom, the primary and supreme duty of a military man is absolute submission to an order.

It is natural enough that throughout my long naval career, "not to discbey an order" has been my primary commandment, and I have never tried to deviate from this obligation for a moment.

As for the nine American prisoners concerned in this case, as I've already stated, I tried in every way to send them to Japan as soon as possible. However, a directive was issued to me from the Highest Naval Central Head-quarters to dispose of them on my island, and I had nothing to do but obey it without question. Up to that moment never had an idea flashed through my heart and mind to dispose of them. Yet, now that a directive came to me which had been pendered and discussed prudently by the Highest Naval Central Headquarters, what path was left for me but to observe the directive subserviently?

Among hundreds and thousands of Japanese military men, since the Japanese forces were established, has there been or is there even one person who thinks he can be charged with his own acts, which he does pursuant to an order that he is merely following? It is above the understanding of the Japanese that such things must be penalized.

From the Japanese point of view, for instance in this case there is absolutely no doubt I am completely responsible for the acts which Captain OBARA and Lt. Comdr. MAIKI did pursuant to my order and Captain OBARA and Lt. Comdr. MAIKI are free from any responsibility. By the same token, the Highest Mayal Central Headquarters is completely responsible for the acts which I and the other two did pursuant to its directive, and I and the other two are free from any responsibility.

Is there anything more cruel in this world than the punishment of the acts which the doer himself thinks to be right, and which all members of the society to which he belongs judge to be right also? Such a punishment forces the collapse of thought, and causes personality to perish.

Just at this very moment, I come face to face with the most horrible contradiction between ideas and reality which I have ever net in my life. I am utterly unable to dream of the reason why such a contradiction might come to be real in this world.

I implore the commission to investigate all the circumstances with its sharp judicial insight, and lead me out of this unimaginable plight.

EIGHTEENTH DAY

United States Pacific Fleet, Commander Marianas, Guam, Marianas Islands. Friday, eptember 6, 1946.

The commission met at 9:30 a.m.

Present:

Rear Idminal Arthur G. Robinson, U.S. Navy. Captain E ic R. Hoag, Dental Corps, T. S. Mavy Colonel James V. Mare, Infantry, Army of the United States Colonel Pierre B. Denson, Coast Artillery Corps, Army of the United States Lieutenant Colonel Adolph Zuber, U.S. Marine Corps, Commander Orville O. Dean, U. S. Navy, Major Donald B. Cooley, junior, U.S. Marine Corps, members and Lieu enant Edward L. Field, U.S. Naval Reserve, and Lieutenant Frederic T. Suss, U.S. Naval Reserve, judge advocates. Vivian Kilner, civilian, reporter. Each of the accused and his counsel and the interpreters.

No witnesses not otherwise connected with the trial were present.

with the consent of all parties to the trial the reading of the record for the seventeenth day of the trial was waived at this time.

Lieutenant Frederic T. Suss, U.S. Naval Roserve, the witness under examination when the commission adjourned, resumed his seat as a witness, He was warned that the oath previously taken was still binding and continued his testimony.

(Examination continued.)

The proceedings of the Board of Investigation were submitted to the accused and to the commission, and by the judge advocate so much thereof as contains the testimony on March 6, 1946, of the before mentioned witness, Major Matoba, Sueo, IJA, was offered in evidence.

The accused objected to the admission of this evidence on the following grounds:

All the accused and particularly Major Matoba, object to this document, the interrogation before the Board of Investigation, being introduced into evidence in this case. CERTIFIED TO B A TRUE COPY

DOC NO 8463 Page 2

The prosecution persists in putting into evidence the proceedings of the Board of Investigation convened by the Commanding Officer, Occupation Forces, Bonin Islands. We respectfully object.

The prosecution states that as a result of the untiring efforts of the investigators these fourteen accused are now on trial before this commission. The accused are fortunate to be tried before this judicial commission instead of the Board which investigated them. They now ask, and particularly Major Matoba asks, that the proceedings of the Board be not admitted into evidence before this Commission.

We object for the same reasons as we have objected before during this trial when the proceedings of this Board were offered in evidence. We ask the Commission to again consider all the objections which have heretofore been made.

In addition we further object and wish to emphasize that the proceedings of the board should not be admitted as evidence before this Commission because of the rule previously cited by the prosecution, found in Wharton's Criminal Fudence, Section 722: "The confessions or admissions made by a co-conspirator or co-defendant after the termination of the conspiracy and in the absence of the defendant, are not admissible against the defendant as substantive evidence to prove his guilt. His confession, therefore, subsequently made, even though by the plea of guilty, is not admissible in evidence, as such, against any but himself."

The prosecution would have this cormission believe that the Supreme Cormander Allied Powers abrogated this fundamental rule when he stated under paragraph 5 (d), section (1): "The cormission shall admit such evidence as in its ominion would be of assistance in proving or disproving the charge, or such as in the commission's opinion would have probative value in the mind of a reasonable man."

The prosecution can cite no authority for this interpretation of these SCAP rules, except their own opinion. We of the defense maintain that these SCAP rules do not permit putting into evidence the proceedings of the board in question. The prosecution has cited the Horma case as approving the SCAP rules. We respectfully call the Corrission's attention to this case: Application of Masaharu Homma as reported in Supreme Court Reporter, March 1, 1946, Volume 66, No. 9, Pages 515 to 517 decided F bruner 11, 1946: Or motion for leave to file petition for writs of habeas corpus and prohibition and on petition for a writ of certiorari to the Supreme Court of the Commonwealth of the Filingines. The motion for leave to file petition for writ of habeas cornus and writ of prohibition is denied, and the petition for writ of certiorari is also denied on arthori y of Application of Yamas'ita, and CERTIFIED TO PE A TRUE COPY s/E.L. Field, Lt., USNR

Murphy has filed a dissenting memorardum in which Mr. Justice Rutledge concurs. Mr. Justice Rutledge has filed a dissenting memorardum in which Mr. Justice Rutledge has filed a dissenting memorardum in which Mr. Justice Murphy concurs.

We do not admit that these accused were co-consmirators but quite to the contrary, insist that there was no conspiracy nor should they have been joined as co-defendants. They have, however, been joined as co-defendants and therefore such confessions or admissions as any of them made are not admissible against the defendant as substantive evidence to prove his multy.

In our previous objections we stressed the violation of the rights of the individual by this board. We again call the Commission's attention to the Fifth Amendment of the Constitution of U.S. which states that, "no person shall be compelled to be a witness against himself" and of the Sixth Amendment which guarantees that in all criminal prosecutions the accused shall have the assistance of counsel for his defense. Naval Courts and Boards, section 235 states our point very clearly. "The constitution provides that no person shall be compelled to give any evidence against himself."

The Poard of Inv stigation was well aware of the provisions of section 734. Neval Courts and Poards, particularly paragraphs (h) and (c) because under the signature of the Senior Wember of the Board appears the following: "Throughout the duration of the investigation, the members of the board were fully cognizant of the provisions of section 734 (b) and (c), Naval Courts and Boards: but since the evidence concerning the subject matter of the investigation was so involved and the number of Japanese officers and men implicated so large, it was impossible to name defendants and interested parties properly until all evidence had been received, and to accord them fully their rights and privileges before the board. By deviating from the procedure set forth in section 734 (b) and (c). Naval Courts and Boards, the members of the board believe that the investigation was conducted in the most expeditious manner to ascertain the facts properly, and do not believe that the status of any of the Japanese officers or men concerned was materially jeonardized in any way",

That, gentlemen of the Cormission, was what the rembers of the Board of Investigation said, but what are the facts?

The Cormission have before them fourteen of the rany Japanese officers and men whom the board said were not materially jeopardized. The fourteen are now accused of crimes the penalty which may well be death if they are found guilty. Can anyone say that the status of these fourteen Japanese officers and men have not been materially jeopardized?

s/ E. L. Field, Lt., U.S.N.R.

We say that the rights of these fourteen accused have been most unjustly violated and their very lives but in jeopardy.

We also say that ampendix D-14, Naval Courts and Boards, does in no way permit or authorize the abrogation of the fundamental rights guaranteed by the constitution.

We hold that for this Cormission to admit the interrogatories of the Board of Investigation is a violation of an act of Congress which directs that such evidence be excluded.

The judge advocate replied.

The commission was cleared.

The commission was opened. All parties to the trial entered.

No witnesses not otherwise connected with the trial were present.

The commission announced that the objection was not sustained and the document in question will be admitted into evidence.

The interrogation of Major Matoba, Sueo, IJA, before the Board of Investigation was so received.

4. Q. I ask the witness to refer to the record of the Board of Investigation and read such portions thereof as contains the testimony on March 6, 1946 of Major Matcha, Sueo, IJA.

The witness read from the Board of Investigation this testimony of Major Mato', Sueo, IJA, question and answer at a time, and then an interpreter read each question and answer in Japanese as follows:

Major Sueo Matoba, a witness recalled by the recorder, entered. He was warned that the oath previously taken was still binding, and declared as follows:

Examined by the recorder:

- 1 Q Relate the circumstances of the first case of canribalism on the island,
- A The first case of campibalism occurred between the 23rd of February, and the 25th of February, 1945. On that day I went to the Divisional Headquarters, and I personally reported to General Tachibana that the flyer would be executed at the Suyeyoshi Tai. At the general's headquarters, sake was served and the conversation turned to the Japanese forces stationed on Bougainville and on New Guinea, and it was rentioned that the troops that CERTIFIED TO BE A TRUE COPY s/E. lacked provisions and sumplies had to eat human flosh. While I was still at the Divisional Haadquarters, a telephone call came through from the 307th Battalion Headquarters, and it was said that we should come to a party which Colonel Kato prepared for General Tachibana and myself. We walked to Colonel Kato's quarters, and when we arrived, we found that Colonel Kato did not have enough drinks and things to go with the drinks. On account of this fact, the general was not satisfied and the question came up where to get something to eat in line of meat and more sake. The general asked me about the execution and about getting some meat. Therefore, I telephoned personally to my hondquarters that meat and ten (10) sho of sugar cane rum be delivered to the 307th Battalion Headquarters. I do not recall now if the stgar cane rum was delivered or not, but I know that the meat was. The meat was cooked in Colonel Kato's room, and everyone present had a taste of it. Of course, nobody relished the taste.

- 2 Q They all knew that it was human flesh?
- A Yes.

The accused objected to this answer on the ground that the question called for the orinion of the witness.

The judge advocate replied.

The commission announced that the objection of the accused to the answer of question number two was not sustained.

The judge advocate requested that the commission rule on whether the accused had the right to object to individual and specific questions and answers from an interrogation after this interrogation had been previously submitted to the accused and the entire document objected to by the accused but admitted into evidence over this objection by the commission.

The accused replied.

The commission was cleared.

The commission was opened. All parties to the trial entered.

No witnessess not otherwise connected with the trial were present.

The commission announced as follows:

On the point raised by the judge advocate the commission rules that either party may interpose objections to any question or answer in any document introduced in evidence in addition to any objection that may have been made to the entire document. The commission will rule in each instance on the objection raised.

- 3 Q Who actually ate some of the flesh? Who did you actually see eat this flesh?
- Captain Ikawa, General Tachibana, Colonel Kato, Captain Kosuga, and naturally myself. These five (5), including myself, partook of the flesh. I saw each of them eating the flesh. There were three (3) other company commanders of the 307th Battalion and I do not remember who they were, and I do not know if they ate the flesh or not. They were Captain Enjo, Captain Kobayashi, and one (1) from the machine gun company of the 307th Battalion.
- 4 Q Then your previous testimony regarding this matter is not true?
- A Yes, and I apologize for it. It was not true.
- 5 Q Approximately how much human flesh was delivered to the headquarters of the 307th Battalion?
- bout five (5) or six (6) pounds.
- 6 Q Who prepared and cooked this flesh?
- A, Colonel Kato's cook.
- 7 G What was his name?
- A I do not know.
- 8 Q Did Captain Ikawa cook the flesh at the table?
- A Yes, the cook prepared the flesh and Captain Ikawa actually cooked it at the table.
- 9 0 Did either Captain Ikawa or the cook detest carrying out these orders?
- A No, they did not detest it, but I could see on their faces that they did not relish the job.
- 10 0 Was all the flesh consumed at this real?
- A No, each man only ate a few pieces or just a single piece, and I believe that most of the flesh was left over. What happened to the flesh, I do not know.

s/ E. L. Field, Lt., U.S.N.R.

- 11 Q Returning to the persons who actually ate the flesh, are you sure that Captain Kosuga ate some?
- A Yes, I am positive. Pefore I was interned in the stockade, I heard that Captain Kosuga said that he did not eat the flesh, but I know that he did.
- 12 Q Isn't it true that the remainder of the flesh was sent to the Ryodan Shireibu or your orders to General Tachibana's galley?
- A That is not true. I do not know what happened to the left over flesh.
- 13 0 Who ordered it delivered there?
- I do not know. I slept at the 307th Battalian headquarters that night, and I returned to the divisional headquarters the following day.
- 14 Q Is the cause of your not remembering, because you have forgotten or because you were too drunk to know what orders you had given?
- A It might be that I was too drunk to remember giving such orders.
- 15 Q Before the end of the war, did you ever hear Captain Ikawa boast of the eating of human flesh and say that eating a piece of human flesh gave a man the fighting spirit of ten (10) men?
- A No, I did not hear that. I seldom saw Coptain Ikawa after the party. I do not know.
- 16 Q When this flesh was cut from the body of the flyer at the Suyeyoshi Tai, was any delivered to and consumed by the Suyeyoshi Tai?
- I do not know. After we ate human flesh at the 307th Battalion headquarters, various rumors went around the island. I heard of the cating of flesh in other places on the island, and even it it was goat meat, some men would say that it was human flesh, and rumors came on so fast that I do not know.
- 17 0 Did you ever talk to Lieutenant Suyeyoshi about the execution at the Suyeyoshi Tai, or the eating of flesh at the 307th Battalion, or the eating of flesh by the Suyeyoshi Tai, or about anything else in that regard?

CERTIFIED TO BE A TRUE COPY s/E. L. Field, Lt., U.S.N.R.

- A Yes.
- 18 Q What did Lieutenant Suyeyoshi have to say about this?
- A I do not remember.
- 19 Q Did Lieutenant Suyeyoshi ever say, that he or anyone of his command had eaten human flesh?
- A No, I do not remember.
- 20 Q Did General Tachibana say that this should happen to all of the prisoners of war, following their executions?
- Yes, at a conference at the division headquarters in February, 1945, General Tachibana said that supplies would diminish and ammuniti n would run short, and in the end men would have to fight even with rocks, and they would be forced even to eat their own comrades killed in combat, and the flesh of the enemy should be eaten.
- 21 Q You pe sonally heard this?
- A Yes.
- 22 0 Who do you remember was present, who also heard this?
- A Every battalion commander. Not only once or twice, but several times the general said this.
- 23 Q Tas this General Tachibana's idea, or Major Horie's?
- A I do not know, but I believe it was General Tachibana's.
- 24 0 Was Major Horio present at the conference?
- A Yes, he was present.
- 25 C Are you sure about this?
- A Yes.
- 26 Q Did General Tachibana, at this conference, mention the fact that all prisoners of war would be executed?
- A Yes, and that the flesh would be eaten.
- 27 Q Did he rention that these executions would take place on orders from the Imperial Headquarters?

 CERTIFIED TO BE A TRUE COPY

DOC NO 8463 Page 9

A I believe that the Imperial headquarters were of the same policy or had the same policy, and also the higher command of this island had this idea.

- 28 0 Did you ever see any orders from the Imperial headquarters on the treatment of prisoners of war?
- A I did not hear of any and I did not see any. After the fall of Iwo Jima, this island was completely isolated and the Imperial headquarters forgot about us.
- 29 Q Did General Tachibana say that it was the policy, or that he received orders from the Imperial headquarters to execute and eat all flyers captured?
- A I do not know if the general received direct orders from the Imperial headquarters or not, but the general ordered the execution of all flyers, and he said it was necessary to eat them.
- 30 Q Did you hear General Tachibana say, that it was the policy or the order from the Imperial headquarters?
- A I do not recall that.
- 31 0 At that time, was General Tachibana or Admiral Mori in supreme command of the island?
- A Admiral Mori was in command.
- 32 0 Could General Tachibana issue such an order without Admiral Mori's approval?
- A I think that it was impossible to issue such orders without the approval of Admiral Mori.
- 33 Q When Admiral Mori was in charge of the island, was he forceful and did he give strict orders, or was he in charge of his department only?
- A He was a pretty forceful commander and he wanted to know all that went on, and he represented the Navy in any conference which was held on the island. At least he cooperated with the Army in any matter concerning the defense of the island and anything that went on.
- 34 Q When you said, that to execute the flyers was the policy of the higher command on the island, whom did you include in the higher command?

DOC NO 8463 Page 10

A That means all of the men in the Army and the Navy headquarters including the Haken Shireibu. Admiral Mori of the Navy and General Tachibana of the Ryodan Shireibu, approved of the policy. When Major Horie handed over all of the prisoners after examination, they were to die.

- 35 @ When was this agreed upon?
- I believe the question came up of the disposal of flyers around the time of the invasion of Iwo Jima, around February 17th, 1945. We expected the American forces to come a few days after Iwo Jima, and the question of prisoners was settled at that time.
- 36 Q If this policy was not formulated until February, 1945, why was it that prisoners were executed in August, 1944?
- A I do not know. The executions in August took place before my arrival on the island. I arrived on August 16th, 1944, and I heard that the executions in August were ordered by the Ryodan Shirebu.
- 37 Q When was it, that the general ordered that all flyers were to be executed, as close to the exact date as you can recall?
- A It was several days or a week after February 11th, 1945. It was about the 17th or the 18th of February, 1945. The general stated this policy at a conference of all commanding officers, which I attended.
- 38 (Was Admiral Mari or any other naval representative present?
- A Yes, Admiral Mori was present.
- 39 Q Who also from the Navy was present?
- A Lieutenant Commander Kamiura or Lieutenant Commander Shinoda.
- 40 C Was Commander Yoshii there?
- I do not remember. Commander Yoshii commanded the wireless station, so that did not but him on the same basis regarding the defense plans of the island.
- Al C Insofar as you remember, what were the general's exact words?

 CERTIFIED TO BE A TRUE COPY

 s/E_ L. Field, L., U.S.N.R.

- I do not remember the exact words, but the outline of the general's policy, which he told everybody at the conference, is what I previously told you. The general said the invasion of this island is imminent and probably that this would be the last battle prior to the invasion of Japan, and we must fight even though we had no supplies and no food, and that we should fight and live on the flesh of our comrades and that of the enemy. He said "kichiku", meaning beastly, and that was used in regard to the Americans. It was also said that the enemy is a beast. In all orders and all decraes from the Imperial head-quarters this word was always used, and all of the military heads in Japan used the word in speeches, and so General Tachibana used it.
- 42 Q Did you see it in any orders from the Imperial headquarters, or hear it in any speeches made?
- Yes, Prime Minister Suzuki used it in his specches over the radio. It was a byword in any orders or any speeches. This came from the higher command and for all of the personnel it was sort of a byword, and was used in speeches by anyone and everyone. This includes Prima Ministers Suzuki and Tojo. I do not know about the Navy. Admiral Mori and General Tachibana agreed that all flyers would be executed as soon as Major Horie was through with them, and as Major Horie was in the higher command, he must have approved of the plan. Therefore, when Major Horie was through, he turned the flyers over and then they were executed.
- 43 Q Did General Tachibana issue an order, that the prisoners would be returned to the units which captured them for execution?
- A The general did not say anything like that. I believe it was Major Horie's idea to return the flyers to the units which captured them, to encourage them to capture more, and the flyers were returned as a reward to the units.
- 44 Q When prisoners of war were given to Navy units, was the order of execution given by General Tachibana, Admiral Mori, or Major Horie?
- A The responsibility for the delivering of prisoners of war to naval units lies on General Tachibana, but the rest of the responsibility lies with Admiral Meri.

- When flyer was returned to the unit which captured him, did General Tachibana or Admiral Mori issue an order to execute him immediately or was an order issued to execute the flyer when they felt best?
- A There was no definite orders issued by anyone. It was just agreed upon by the higher command and they did it that way.
- 46 Q In other words, there was no specific order from anyone?
- A No.There may be some exceptions like the Suyeyoshi Tai.
 Licutement Suyeyoshi actually asked the naval headquarters
 for permission, and received the approval of the naval
 headquarters for the execution. Admiral Mori thanked
 me for letting him have a prisoner for execution.

- 48 9 Why was the flyer turned over to the Suyeyoshi Tri by
- On February 18, 1945, two (2) Plyers were captured by my unit. On February 27th, one (1) was returned to my battalion from the Haken Shireibu. Lieutenant Suyeyoshi, upon hearing the flyer was returned to my unit, came over to see me and asked me to let him have the flyer. He wanted to show his men an American, and wanted to make his men more accurate in their aim and build their morale. Therefore, I let Lieutenant Suyeyoshi have the flyer.
- 49 0 Previous to the time the flyers were turned over to the Haken Shireibu, hadn't you let Lieutenant Suyeyoshi take the two (2) flyers to his unit and show them to his men, to build morale?
- I do not know. They might have been taken past the Suyeyoshe Tai, but I do not believe they were taken in.
- 50 Q What were the flyer's names?
- I gave the pistol from this flyer to Lieutenant Suyeyoshi.
 One (1) of the two (2) flyers was named Hall, but I do
 not know the name of the other flyer.

- From whom, at the naval headquarters, did Lieutement Suyeyoshi receive permission to execute the flyer?

 I believe that Chief of Staff Shinoda or Kamiura gave the permission or the approval, with the approval of Admiral Mori also.
- 52 C Your previous testimony regarding this matter was not the truth, then?
- A No.
- You said in your previous testimony, that an agreement with Lieutenant Suyeyoshi was made long before. Is this true?
- A I promised Lieutenant Suyeyoshi that I would give him a flyer before the actual date of transfer. The prisoners were still at the Haken Shireibu when I had a talk with Lieutenant Suyeyoshi.
- 54 Q Who actually took the flyer to the Suyeyoshi Tai?
- A Lieutenant Spy was i and sailor?
- 55 Q Who executed the flyer?
- A I do not know. I do not know the details regarding this.
- 56 Q If Lieutenant Suyeyoshi wished this execution to be a morale builder, why did he not order his men to be present at the execution?
- I do not think that the execution was done in secret. I hali we that at least each of the Suyeyoshi units saw the execution, and I also believe that members of the other units stationed on the hill also saw it.
- 57 Q Did Lieutenant Suyeyoshi talk with you about the execution after it hammened, or tell you who performed the execution and the details regarding it?
- A I do not remember if Lieutenant Suyeyoshi said that he was present or not.
- 58 Q Do you remember, that Lieutenant Suyeyoshi said that Lieutenant Morishita performed the execution?
- A No.

- When you told Lieutenant Suyeyoshi that you would give him this flyer for execution, did you at that time tell him that you wanted parts of the flyer's body sent to you?
- A No, I do not remember such a thing.
- 60 Q Didn't you tell Lieutenant Suveyoshi that after the flyer was executed, he should send you two (2) ken of flesh from the flyer's body?
- A I might have said it, but I do not remember. I might have said it as a joke. I was at the divisional head-quarters at the time of the execution, and I did not know about it.
- 61 Q At what time?
- A The time of the execution. So I do not know whether the flesh was sent over or not.
- 62 Q Was any of the flesh from the body of the flyer, killed by the Suveyoshi Tai, delivered to the 308th Buttalian and caten by the personnal of the 308th Battalian.
- A I do not believe so.
- 63 Q When Admiral Mori thanked you for giving the flyer to the Suyeyeshi Tai, did he mention anything about the liver?
- No. After the party at the 307th Bettalion where human flesh was served and eaten, on my way back I talked to Admiral Mori, and told Admiral Mori of the party. It was then that he told me to bring down a little human liver from the body of the next flyer to be executed by the 308th Battalion.
- 64 Q Who was present, when you held this conversation with the admiral?
- A The staff officers were present.
- 65 Q Which ones?
- A Staff Officers Shinoda, Miyazaki, and Kamiura.
- 66 Q Did you report to General Tachibana, that you had turned this flyer over to the Suveyoshi Tai for execution?

DOC. NO. 8462

A Yes, I reported the matter to General Tachibana.

- A Yes, I reported the matter to General Tachibana.

 The general just said, "Is that so", and nothing more.
- 87 Q When this prisoner of war was returned to the 308th Battalion, did he show any evidences of being beaten or improperly clothed or anything else?
- I do not know as I did not see the flyer upon his return.
- 68 Q The two (2) flyers, Ensign Holl and the man captured with him, were they beaten, kicked, slapped, or otherwise mistreated, while they were at the 308th Battalian before they were sent to the Rundar Shiraibu?
- I did not actually see the flyers beaten or mistreated in any way, but I are sumed that they were slapped.
- 69 0 In other words, it was the policy of the Jananese personnel to mistreat and beat the captured Armicans?
- A Ys, I high that every man in the Japanese Army did not think first, and it was natural for him to do that. I meeter Major Herie saying that one (1) of the flyers executed in Argust, told him that he was beaten at least twenty (20) times before he came to the Haken Shireibu.
- 70 Q Did he say by whom?

A No.

The recused objected to the entire interrogation and answers and moved they be stricken from the record, on the ground that the questions were leading; they called for opinions of the witnesse and they were very prejudicial to the rights of the accused, especially the co-defendants Mori and Tachibana.

The commission arrounced that the objection was not sustained.

- A do not know exactly if two (2) or three (3) prisoners were taken to the Yoake wireless station. One (1) cut of the two (2) or three (3), whichever it may be, was sent to the Torpedo Boat Squadron. The prisoner or prisoners who went to the Yoake wireless station went either directly from the Haken Shireibu or from the Ryodan Shireibu. I do not know if there were two (2) or three (3).
- 72 Q How many executions were there at the Yoake wireless station?

CERTIFIED TO BE A TRUE COPY s/E.L. Field, Lt., USNR

I do not know, either one (1) or two (2). The execution was performed by an officer who was present with his sword. I also heard that human flesh from this flyer was served in soup. This was in the soup for both the officers and the enlisted men. I only heard this, so I am not sure. Staff Officer Miyazaki was present.

The accused objected to the last four sentences of this answer on the ground that they are hearsny and requested that they be stricken from the record.

The judge advocate made no reply.

The corrission announced that the objection was sustained and directed that the last four sentences be stricken from the record.

- 73 Q Did you hear that he was present, or do you know that he was present?
- I do not know if Staff Officer Miyazaki actually witnessed the execution or not. However, I am definitely
 sure that Miyazaki was present at the party that night
 at which time human liver was eaten in the officers'
 mess. I also heard that Miyazaki returned to the naval
 headquarters with a portion of the liver. I am absolutely
 positive about this.
- 74 Q How are you sure about this? Did Staff Officer Miyazaki tell you about this?
- A I heard Staff Officer Miyazaki say these things at the navel headquarters. I was present and heard it personally.
- 75 0 Were any of the officers from the Navy base present at the execution, or at the party?
- I do not know, but I know that Miyazaki was at the Yoake wireless station. If he witnessed the execution, or not, I do not know.

- 78 Q Do you know whether or not Commander Shinoda was present at the execution at the Yoake wireless station?
- A I do not know.
- 790 Did Commander Yoshii receive permission or orders from Admiral Mori to perform the execution?
- I do not think that Commander Yoshii received any definite orders regarding the execution from Admiral Mori. However, the admiral must have approved the execution, for otherwise it would not have taken place.

The accused objected to that part of the answer in which the person being interrogated gave opinion evidence, and requested that it be stricken from the record.

The judge advocate made no reply.

The commission announced that the objection was sustained and directed that the part of the answer objected to be stricken from the record.

- 81 Q Was General Tachibana present at the party at Yoake?
- A I do not know.
- 82 Q Did you attend the party?
- A No.
- 83 Q What did Commander Yoshii have to say to you about this, after the execution was performed?

A Yes.

- 85 Q Did Commander Yoshii order the flesh put into the soup?
- A I did not hear if it was a specific order from Commander Yoshii or not.
- 86 Q How soon after the execution, was it reported to Admiral Mori?
- I believe that Commander Yoshii visited the naval headquarters at least once a day. Admiral Mori and his command, I think, knew about it before it actually happened.

The accused objected to this answer on the ground that it was opinion and conclusion on the part of the person being interrogated and requested that it be stricken from the record.

The judge advocate made no reply.

The cormission announced that the objection was sustained, and directed that this answer be stricken from the record.

- I know of one (1) time. I know of once Commander Yoshii was called before court-martial, Captain Izawa of the 304th Battalion was detailed to teach fencing at the Yoake wireless station, and one (1) day Captain Izawa and Commander Yoshii had a quarrel. Izawa drew his sword, whereupon some of the men under Commander Yoshii jumped out and tried to prevent the two (2) men from killing each other. It ended up by Commander Yoshii piercing Captain Izawa, but not killing him, and that is why they have Commander Yoshii a court-martial.
- 89 Q By whose orders was the flyer turned over to the Yoake wireless station?
- The one (1) who went from the Ryodan Shireibu was transferred on the orders of General Tachibana, and the one (1) transferred from the Haken Shireibu was transferred on orders from Major Horie.
- 90 0 Why were these flyers not returned to the units which captured them?
- General Tachibana and Commander Yoshii were very good friends. I think that on the request of Commander Yoshii, General Tachibana gave him the flyers because they were personally good friends, but I do not know for sure.
- 91 0 Did you hear that the other units protested this?
- A I believe that they did not like it. They wanted the prisoner returned to them.

- 110 Q Do you know of an Arrican flyer, who was executed in the Kominato area by the 307th Battalion at this time?
- I do not know any details regarding the matter. But according to what I heard from Captain Kosuga, I was led to believe that there were two (2) men executed by the 307th Battalion. But Captain Ikawa, adjutant of the 307th Battalion, told me one (1). He told me personally. I know no details.

- 119 Q Those are all you know about?
- A Yes.
- 120 Q Is it your ominion that there were others?
- I do not think so. I believe that personnel on Haha Jima captured and executed flyers. It was almost impossible to believe that there were none, and I believe there were executions there.
- 121Q What about Ani Jima?
- A Anybody captured on Ani Jima would have to be sent over to Chichi Jima, and I do not believe that any executions took place on Ani Jima.
- 122 0 Wouldn't flyers, captured on Haha Jima, have to be sent to and questioned on Chic'i Jima also?
- I do not know the actual facts, but I know that Haha Jima used wireless to Tokyo to show how many planes were shot down, and I b-lieve that they executed some flyers. The flyers should have been sent to Chichi Jima from Haha Jima, but none were sent here.

- 124 Q Who was in cormand at Muko Jima?
- A Major Makata of the 304th Battalion.
- 125 Q By whose orders did Corporal Nakamura execute Hall?
- The order for the execution of flyers or prisoners care from General Tachibana or Major Horie. I personally did not know that Hall was returned to my unit. Corporal Nakamura received orders from either Sergeant Major Wada, Captain Sato, or Lieutenant Ono. However, the responsibility lies with me. But it so happens that I did not give the order personally. Therefore, Corporal, Nakamura would know who gave him the order.
- 126 Q You would have us believe, then, that officers under your command would issue orders for an execution without your knowing about it?
- A Yes, the responsibility lies with me, but one (1) of my officers actually gave the order without my knowledge.
- 127 Q Without your order?
- A Hall was the last man to be executed on the island, and they followed the general policy.
- 128 0 By whose order was Doctor Teroki to cut out the liver and deliver it to you?
- A By my order.
- 129 Q If you did not order the execution, why did you order Doctor Teraki to be there?
- A Sergeant Major Wada or Captain Sato came and reported the execution to me. I then ordered Doctor Toroki to go and cut out the liver of the flyer. I gave the order after I received the report that the flyer was executed. That is, the order for the removal of the liver.
- 130 Q How was it, that Doctor Toraki was already at the scene of the execution before it occurred with his corpsmen, ready to perform the dissection?

- 131 (Do you know Sorgeant Furushika?
- A Yes.
- 132 G Why was it that Sorg ant Furushika was scheduled to perform the execution?
- Out of the personnel there were some who volunteered and wanted to perform the execution, and Furushika must have been one (i) of them, Sergeant Furushika was sharpening his sword and polished it up and was expecting to execute Hall, when he was returned to the 308th Battalion. It was not the custom of the Japanese to order an execution. Therefore, only volunteers could do the job. The responsibility lies with me, and I am willing to take full responsibility for what happened. If evidence points to the fact that I ordered the removal of the liver previous to the execution, or if the evidence points to the fact that it was after, I will take full responsibility.
- 133 Q Why is it that an execution would have been performed without your knowing about it?
- A The execution at my battalion was the last. In the beginning, execution were handled through the various channels of cormand, but at the end it was just an understood policy, and it happened that I did not give an order.
- 134 Q Did aryone report to you that Ensign Hall was returned to the battalion?
- A One (1) men out of the four (4) raminoned, told me that Hall would be returned in two (2) or three (3) days. However, nobody reported the fact of his arrival and I did not know.
- 135 Q Did you issue any orders that the flyer was to be executed and that Sorg and Furushika was to execute him, or did you order that the flyer be executed and Furushika was to do it on his own?

- A Captain Kanmuri or Captain Sato, and I do not know which because I received it by telephone.
- 139 Q At that time, did you give any orders to Sergeant Major Wede to go to the Haken S'ireibu and get this flyer?
- A I believe that I told Captain Kanmuri or Captain S to to send someone to get the flyer.
- 140 0 Didn't Captain Sato report to you, when Hall arrived at the 308th Battalian?
- I do not remember. If the 308th Battalion had been transferring the prisoner somewhere or turning him over to someone, I would have given specific order, but on this occasion I did not take care of him.
- 141 Q Why did Corporal Nakamura execute Hall?
- I do not know the exact reason behind Cornoral Nekamira's performance, but I know that the corporal told me that he went looking for Sirgient Furushika and that upon not finding Sergeant Furushika, he executed the flyer in his place.
- 142 0 Didn't you intend that this should be a public execution?

- A Doctor Teraki recorted to me that the liver was brought and left in my orderly's room. As I could not go to the naval headquarters due to air raids, I had it sliced and dried.
- 1450 Wasn't there a party at your headquarte s, the night of Hall's execution?

- A Captain Sato, Warrant Officer Soya, Sergeant Major Wada, Captain Kanmuri and myself ate human liver.
- 147 Q You actually saw these named men eat human flesh?

- 148 Q . What about Lieutenant Watanabe?
- A No, he was not there.
- 149 Q How much of the liver was distributed to the various galleys of the 308th Battalion?
- A I did not ration out any liver or flesh to any of the men, but I heard that flesh was eaten by the men under my command.
- 150 G You do not know which men in your command or which galleys in your command ate the flesh?
- I heard rumors that flesh was eaten, but by what company, squad, or platoon, I do not know. However, it is possible that the machine gun squad and the third company may have been responsible for the act.
- 151 Q Do you remember saying to your officers, that eating human liver was good for the stomach or that liver was good stomach medicine?
- A Yes.

- 152 0 Only once or several times?
- A' Several tires.

- A I had it pierced with barboo sticks and cooked with soy sauce and vegetables, and then took it to the Navy base and we ate it.

- A Lighterant Commander Kariura, Lieutenant Commander Shinoda, Admiral Mori, Staff Officer Miyazaki, Second Lieutenant Isogai, and Ensign Ijima.
- 155 Q Prior to this, had you taken goat meat to the naval headquarters?
- A Yes.
- 1560 Isn't it true that before eating this flesh, the other officers present thought that it was goat meat?
- A All of the members present knew it was human liver. There is no question about it.

I told Admiral Mori that, "I brought you the liver as promised". That was prior to the eating of the liver.

- 159 Q Then, did you see the men you ramed. actually eat the liver?
- Yes, definitely they ate it. While we were eating the human liver, Admiral Mori mentioned the fact that during the Chinese-Japanese war human flesh and liver was eaten as a medicine by the Japanese troops. The medicine made from the liver was named Seirogan.
- 160 0 Are you sure that you did not tell them it was human liver, after they had eaten it?
- A I told them all before, and they knew that they were eating human liver.
- 161 Q Then, did you tell them after they were finished eating it?
- A No, I did not need to. They must have known about it because the conversation turned towards it, and everyone should have known about it. Everyone knew it was human liver.
- 162 Q Are you sure that you did not take any goat meat to the nevel headquarters, prior to this?
- No, I never took any goat meat personally. One (1) time when I sent a lot of things to the naval headquarters; I might have sent some goat meat.
- 163 Q Did Admiral Mori and the others think that this was goat meat?
- Other than Admiral Mori, everyone might have thought that it was goat meat.
- 164 Q Are you sure that this was not done as a practical joke on Admiral Mori? That is, you brought the flesh and told them it was goat meat and let them eat it, and then told them it was human liver?
- A No.
- 165 Q What did A miral Mori, Lieutenant Commander Shinoda, and the rest of the officers think of the idea of eating the flesh of prisoners of war?

A They were all saying that liver was good mercer is the stomach.

- 166 9 In what other cases of cannibalism did you participate?
- A the second three (3) times that I ate human flesh; at the 307th Battalion, 308th Battalion headquarters, and at the Navy base. Other than these, I ate a small pill made from human liver in Singapore.
- 167 0 Then, by your own admission, you are a cannibal?
- A Yes, I was a madman due to the war and that is the only reason I can give for being a cannibal.
- 168 Q What other details of cannibalism do you want to tell us?
- In my previous testimony, I forgot to mention certain matters, that I would like you to know now. The liver of the flyer beaten to death by Captain Nakajima was eaten at the 30%th Battalion headquarters. The liver of Hall was taken to the Navy base headquarters. The liver of the flyer beaten to death by Captain Nakajima was eaten on the day following the execution. The liver of Hall was taken to the naval headquarters and eaten by the personnel whose names I have previously mentioned, that is: Lieutenant Commander Shinoda, Isogai, Kamiura, Miyazaki, Admiral Mori, and Ensign Iijima. The flesh of the flyer executed at the Suyeyoshi Tai was eaten at the 307th Battalion.
- 169 Q Whose flesh was eaten at the party at the 308th Battalion headquarters, the night of the day of Hall's execution?
- I was mistaken. There was no party that night; the flesh was eaten the night after the day the flyer was beaten to death by Captain Nakajima. Regarding the flyer beaten to death by Captain Nakajima, I have heard that the flyer was a rated man and very young.
- 170 Q Insofar as you can remember, what was the exact date of Hall's execution?
- A Sometimes toward the end of March.
- 171 O Insofar as you can remember, what was the date that Captain Nakajima beat this flyer to death?
- A Toward the end of February.

- 172 Q Then the 1 st of names which you gave us, as eating human flesh at the party on the night of Hall's execution, was actually the list of persons attending the party on the evening after the day when Captain Nakajima beat this flyer to death?
- A Yes.
- 173 Q Who removed the liver from this flyer?
- A There were two (2) modical officers at the 308th Battalion. Which one (1) removed the liver, I do not know. One (1) was Doctor Teraki and the other was Doctor Sakabe. If you ask Captain Kanmuri, you could find out.
- 174 0 Who prepared this flesh for the party?
- A I believe it was cooked by my cook, Konishi, on my orders.
- 175 Q Do you recall the other company commander present at the party at the 307th Battalion, when human flesh was consumed?
- I cannot recall the name of the second company commander present, and the one (1) which I listed previously as Kobayashi is incorrect. The man present was Makano. I remember two (2) first lieutenants, Enjo and Makano. They were at the party but I do not know if they ate the flesh or not. I do not know and cannot recall the third man's name.
- 176 C What hampened the day that the flyer was beaten to death by Captain Nakajima? Tell us what you know about it; who reported the flyer was there; what was going on there; what was said to Captain Sato; and so on?
- At the time, my headquarters had notice from General Tachibana's headquarters to hunt for an American officer who supposedly had landed on Nishi Jima. Major Horie told us that it was a high ranking officer, a lieutenant commander or something. We sent a searching party out for two (2) or three (3) days, but the flyer could not be found. Four (4) or five (5) days later, Maikawa Fukuichiro brought in the two (2) flyers he had captured. On that day, I called in my commany commanders and at 1 p.m., we had a party. At 4 p.m., Sergeant Major Wada came there and said that a flyer was found and brought to the headquarters. As the hour was already late, I told him to keep the flyer and bring him to headquarters the next day. Before the end of the narty, Captain

Nakajima left the table, because I reprimanded him for over drinking. Due to over drinking, Captain Nakajima had beaten his men and men from the Suyeyoshi Tai several times. When Captain Nakajima left the table, I think that he went to the prisoner and beat him to death. I did not know at the tire. However, the report was made as soon as Captain Nakajima had beaten him. Therefore, I had to report the matter to Major Harie and General Tachibana. I reprimanded Captain Nakajima for his act on the following day.

- 177 Q At the time the report of a captured flyer reached you, did you order Captain Sato and Captain Nakajima to question the flyer?
- A No.
- 178 Q You gave no orders whatsoever.
- A No, the only orders I gave was that the flyer was to be delivered to the divisional headquarters the next day.
- 1790 Did Captain Sato leave the party at approximately the same time Captain Nakajima did?
- A They did not leave together. However, it was quite possible that Captain Sato left the party before anyone, because he does not drink.
- 180 Q Then, according to your story, the party was continued that night and the liver of this flyer was served?
- A No, not that night. It was on the following day.
- 181 0 So, on the following day you reprimanded Captain Nakajima for beating the flyer to death, and then you had a party at which this liver was served?
- A Yes, that is correct.
- 182 Q Isn't it rather strange, that you should invite Captain Nakajima to this party, when he was in disgrace for beating the flyer?
- I do not know if the captain ate the liver or not. Anyway, Captain Nakajima did not attend the party, because I reprimanded him at 10 o'clock in the morning. I do not know which body was eaten by various men of the companies. Maybe it was Hall's body or maybe it was the Navy man's body. Many men just came and took pieces of flesh. I heard this, but I did not see this. Sergeant Major Wada would know. CERTIFIED TO BE A TRUE COPY s/E.L. Field, Lt, USNR

183 Q By whose orders was this liver taken from the flyer's body, and served at the party?

- A By my orders.
- 1840 Do you remember whether you gave the orders to Captain Kanmuri or Captain Sato?
- A I do not remember.
- 1850 At this party, which officers did you actually see eat part of the liver?
- I have already given you the names, but Captain Nakajima was not present. The liver of Hall was taken from the body on my order. I do not know if I gave the order personally to the surgeon, but I gave the order. The liver was sliced and dried and taken to the Navy base.
- 186 Q Did you have a party one (1) week after Hall's execution, at which time you ate slices of dried liver?
- A No.
- 187 Q What was done with the remainder of the liver from the flyer killed by Captain Nakajima which was not eaten at the party on the day following the execution?
- A I do not know if there was any liver left or not.
- 188 Q Isn't it true that this was kept for your personal ase after being dried?
- A No.
- 1890 In addition to the liver being left in the galley the night of Hall's execution, isn't it true that flesh was also left there?
- A No. Maybe the gall bladder was there, but I do not know. The gall bladder might have been in the galley for quite awhile.

The commission then, at 4:35 p.m. adjourned until 9:15 a.m., Saturday, September 7, 1946.

NINETEENTH DAY

United States Pacific Fleet, Commander Marianas, Guam, Marianas Islands. Saturday, September 7, 1946.

The commission met at 9:15 a.m.

Present:

Rear Admiral Arthur G. Robinson, U.S. Navy
Captain Eric B. Hoag, Dental Corps, U.S. Navy,
Colonel James V. Ware, Infantry, Army of the United States,
Colonel Pierre B. Denson, Coast Artillery Corps, Army of the United States,
Lieutenant Colonel Adolph Zuber, U.S. Marine Corps,
Commander Orville O. Dean, U.S. Navy,
Major Donald B. Cooley, junior, U.S. Marine Corps, members, and
Lieutenant Daniel Flynn, U.S. Naval Reserve,
Lieutenant Edward L. Field, U.S. Naval Reserve and
Lieutenant Fredric T.Suga U.S. Naval Reserve, judge advocates
Vivian Kilner, civilian, reporter,
Each of the accused and his counsel and the interpreters.

No witnesses not otherwise connected with the trial were present.

The record of the proceedings of the seventeenth day of the trial was read and approved.

Lieutenant Fredric T. Suss, U.S. Naval Reserve, the witness under examination when the commission adjourned on the previous day, resumed his seat as a witness. He was warned that the oath previously taken was still binding, and continued his testimony.

(Examination continued.)

- 5 Q I ask the witness to continue the reading of the interrogation of Major Matoba from the Board of Investigation.
- 1900 Was this flyer beaten to death by Captain Nakajima, the flyer for whom Major Horie and General Tachibana were looking?
- A No, this flyer beaten to death was only a radioman.
- 191 Q Who questioned the flyer?
- A Captain Sato or Sergeant Major Wada must have questioned the flyer.

CERTIFIED TO BE A TRUE COPY s/E.L. Field, Lt., USNR

- 192 @ What was the flyer's name?
- A I do not know.
- 193 @ Who would know?
- A I have no idea. Maybe Sergeant Major Wada would know.
- 194 Q Does the name Frazier sound familiar to you?
- A No.
- 195 Q Was Captain Sato at your party, at the time the flyer was brought in?
- A Yes.
- 196 Q Did you tell him to go out and question the prisoner?
- A No.
- 197 Q How could be leave the party then?
- A I am not certain if Captain Sato left the party or not, but it was possible as he was not a heavy drinker.
- 1980 Was it possible that he asked your permission to leave the party?
- A Yes. After the night of February 18th, we gave up the idea of examining or cross-examining the flyers brought in at the various battalions. In other words the prisoner would have to be examined by the Haken Shireibu. Therefore, I do not believe that anyone would so out and question the flyer officially.
- 199 0 You have tried to give us the impression that your reason for eating the flesh was due to the shortage of sumplies.
 Why is it then that only the liver was taken out and caten?
- A My battalion still had sufficient food.
- 200 Q In other words, it was a deliberate act of canribalism?
- Yes. They were going to eat Japanese flesh once the American troops landed here. I even said that when I was killed they would have to eat me. If you question the officers and men under me, they would probably give you the actual happenings at the time. However, what I tell, you know is the truth, but I am liable to make a lot of mistakes.

201 0 According to the resorts we received, human flesh was kept in the ice plant at Biyobu Dani in March, 1945, and rationed out to the various battalions in their meat ration. What information do you have concerning this?

- I do not know a thing about it. I remember once eating meat that made me ask and made me feel it was something unusual. If you ask Warrant Officer Soya, you could find out more about this.
- 202 @ What was the approximate date?
- A It was around this time.
- 203 Q Isn't it true, that liver was left to dry on the line outside of Konishi's galley for weeks following Hall's execution?
- A I do not believe that niecos of liver were dried for a long period. I believe it was gall bladder.
- 204 Q Everyone told us that pieces of liver were left to hang there for weeks, and during that time they decreased in number.
- A I cannot believe that this was liver; they must be wrong. I believe it was gall bladder.
- 205 Q Of what war coimes were you guilty in Singapore?
- A In Singapore I received a pill made from human liver from Major Asaeda Shigeharu.

The accused objected to this question on the ground that both the question and answer showed the character of Major Matoba. No proper ground work was laid for this question and it is highly irrelevant in this case.

The judge advocate did not reply.

The commission announced that the objection was sustained and directed that both the question and answer be stricken from the record.

- 206 Q What duties did you have there?
- I was attached to the staff. I was in the headquarters of General Yamashita, and I worked under Lieutenant Colonel Kern. I had this job because I know something about water transportation. At one (1) time I commanded a battalion.

- 207 Q What battalion?
- A I belonged to one (1) of the battalions in the 18th Division.
- 208 Q What was the name of the battalion?
- A It was a part of the 56th Regiment. The regimental commander was Colonel Nasu.
- 209 Q How many executions did this battalion perform, while you were there?
- A I did not take a single prisoner on my way in Singapore. The prisoners were captured after the city was taken.
- 2100 How many of those were executed?
- A None were executed which I saw. There were so many that I did not bother with them.
- 211 Q How many executions did you perform, while you were attached to the staff?
- A I was busy with the shipping and I did not have anything to do with prisoners or captured civilians, However, the Japanese Army executed thousands of civilians, but not soldiers.
- 212 Q You know about them?
- A Yes.

The judge edvecete did not read questions 213 and 214 of the interrogation. They were highly irrelevant and had no bearing on this case.

- 215 Q How many times did you eat human flesh on the Chinese front?
- A None.
- 216 Q How many times did you eat human flesh in Singapore, other than eating this liver pill?
- A Only this one (1) time.
- 217 0 From whore did this pill come?
- A I do not know where it came from.

218 Q Did you know it was made from human flesh or liver?

A Yes, I was told by Major Asada,

The accused objected to the answer of this question, on the ground that the answer is a confession against the accused and is irrelevant to this particular case.

The judge advocate did not reply.

The commission armounced that the objection was sustained and directed that this answer be stricken from the record.

219 Q Was this pill part of your medical supplies issued by the Japanese Army?

A No. It was dried liver. It was not an issue of the Arry.

220 Q From whose body did it come?

A I have no idea.

221 Q How many executions did you witness in Singapore?

A . I did not see any executions of prisoners.

222 Q What about civilians?

223 C Who ard rod these executions?

A By order of General Yamashita.

224 Q How many executions did you witness on Chichi Jima?

A None, not a one (1).

225 0 How many captured flyers did you personally execute on Chichi Jima?

A None on Chichi Jima. I executed one (1) prisoner in China, a Chinase. This was eight (ξ) vetrs το.

226 0 By beheading or by spearing with bamboo spears?

A By beheading.

At the conclusion of the reading of the interrogation of Major Matoba the accused stated as follows:

Before the judge edvecte continues, we of the defense want to call the attention of the commission to the statement in the interrogation of Major Matoba by the Board of Investigation on Chichi Jima. The opening sentence read was that Major Matoba was recalled as a witness. The defense objected to the entire proceedings of Major Matoba's testimony and therefore can not ask that Major Matoba's entire testimony and interrogation be brought in evidence. But the defense wants to call the attention of the commission to the fact that only part of the testimony was read and not the entire testimony. The defense asks some ruling as to whether the entire testimony should be entered in evidence or just the part that has been read.

The judge advocate replied.

The commission was cleared.

The commission was opened. All north-s to the trial entered.

No ritherses not otherwise connected with the trial were present.

The corrission announced it was aware of the fact that only a part of the testimony of Major Matoba was introduced by the judge advocate. The accused, however, on cross examination, may request that the testimony given by Major Matoba at any other appearance before the Board be introduced in evidence if they so desire.

The orecordings of the Board of Investigation were submitted to the accused and to the commission and by the judge advocate so much thereof as contains the statement of Major Matoba, Sueo, Imperial Japanese Army, on April 16, 1946, was offered in evidence.

Deing offered in evidence for the same reasons that were previously given. In addition, it is a statement against Matoba's interest and the accused is being made to testify against himself. Newhord does it show that this was a voluntary statement or that he voluntered this information of his own free will. It is a statement against the interests of the defendant Matoba, and also the co-defendants, particularly Li ut mort Suvereshi. Therefore we object to the statement being offered in evidence.

The judge dvocate replied

The accused further printed out as a ground for objection the rule written down in Court Martial Order No. 1, on page 72:
"A general court martial received in evidence, over the objection of the accused, extracts from the testimony of the accused before a Board of Investigation as an interested party. The record did not show that he took the stand at his own request, but did show that he was sworn and allowed to testify at length after it was apparent that he was involved in such a way that an accusation against him could be implied, although he was not made a defendant until he had concluded his testimony. It follows, therefore, that his testimony before the board of investigation could have no evidential value in the instant case, and it should have been excluded by the court." So in this particular case the prosecution is atternting to introduce in evidence a statement made after the interrogator could see that Major Matoba was involved.

The judge advocate replied.

The cormission announced that the objections were not sustained, and the statement of Major Matoba will be received in evidence.

The statement of Major Matoba, Sues, Ira riel Japanese Arms, submitted to the Board of Investigation April 16, 1946, was so received.

60 I will sk the witness to read the statement of the accused, Major Matoba, submitted to the Board of Investigation on Armil 16, 1946.

The accused objected to the admission of this document in evidence on the ground of the previous reasons and also on the additional ground that this document is dated on a date previous to the Board of Investigation, and therefore we have no proof that this is an authentic document. Moreover, it was brought out before the procept convening the Board of Investigation was signed.

The judge advocate replied.

The convission announced that the objection of the accused to the introduction of the statement of the defendant, Corneral Nakarura, was not sustained.

The statement of the defendant Nok-rura was received in evidence.

7 Q I sk the witness to refer to the Board of Investigation and read the statement of Cornoral Nobellus, Shigenobu, Imperial Japanese Army, submitted on Il January, 1946.

The witness read the statement of the defendant Nakamura, a certified true copy appended, marked "Exhibit 3".

An interpreter then read this document in Japanese.

The accused objected to that part of the statement which related to the character of Major Matoba on the ground that it is self incriminating evidence, as stated in Naval Courts and Boards, section 235.

The judge advocate replied.

The commission announced that the objection was not sustained,

Cross-examined by the accused:

- 18 Q Was this order that was reported to be signed by Major Matoba on March 9, 1945, actually signed by the major on March 9?

AFFIDAVIT OF

CAPTAIN JOHN D. MURPHY, U. S. NAVY,

DIRECTOR WAR CRIMES, PACIFIC OCEAN AREAS

This is to certify that the undersigned is and has been since 2 October 1945 the Director of War Crimes, Pacific Ocean Areas. In this capacity he has been the direct representative of the Commander-in-Chief, U. S. Pacific Fleet and Pacific Ocean Areas, and the Military Governor of the Pacific Ocean Areas, in all matters pertaining to the investigation and prosecution of war crimes in the Pacific Ocean Areas.

In carrying out the above indicated duties the undersigned has caused investigations to be conducted in the following atolls and islands:

Mariancs Islands
Marshall Gilberts Area
Truk Atoll
Peleliu Island
Koror Island
Babelthuap Island
Anguar Island
Vake Island
Bonin Islands
Yap Island

As a result of the above investigations war crimes were discovered to have been committed at:

Koror Island, Palau Islands
Vake Island
Kwajalein Atoll
Mili Atoll
Aineman Island, Jaluit Atoll
Guam, Marianas Islands
Dublon Island, Truk Atoll
Chichi Jima Island, Bonin Islands
Maloelap Atoll, Marshall Islands

The nature of the established crimes were (a) Mistreatment of Prisoners of War, native inhobitants, and civilian non-Japanese nationals of various countries in Violation of the Laws and Customs of War, and included murder, assault and battery, and canabalism (b) Neglect of Duty in Violation of the Laws and Customs of War (unlawfully failing to protect prisoners of war and failing to control members of the Japanese Armed Forces) and (c) Violation of the Laws and Customs of War (unlawfully preventing the

honorable burial of American prisoners of war).

In so far as my investigations are concerned it is established that a large number of American military personnel, the exact number unknown, were captured alive by the Japanese in the Pacific Ocean Areas. There is attached to and hereby made a part of this affidavit lists, in part, of six hundred ninety-eight (698) persons that are known to have been lost in the areas. Of course many of the persons listed were undoubtedly killed ir battle, but on the other hand many were captured by the Japanese. It is significant that not one of the persons listed or any other American or Allied prisoners of war were found alive in any of the islands or atolls of the Pacific Ocean Areas at the time of the Japanese surrender and subsequent thereto. How many were transported to Japan prior to the surrender has not been determined but from the results of attempts to establish this number it appears that only a relatively few and insignificant number ever reached Japan or were subsequently repatriated to the United States and Allied Powers. Investigations show that one hundred forty-nine (149) Americans were illegally executed by the Japanese military authorities while being held as prisoners of ver in the Pacific Ocean Areas.

All records concerning prisoners of wer captured by the Japanese in the Pacific Ocean /-eas were destroyed by the Japanese authorities and in every instance investigators have been confronted with false information by the Japanese Commanding Officers as well as the deliberate intention or the part of the Japanese to conceal any and all information concerning persons who were known to have been captured alive. Accordingly it has been impossible to determine the specific disposition of each individual concerned. In cases where it has been possible to determine the disposition of specific individuals it has been found that they were unlawfully killed by Japanese authorities.

The following is a brief of war crimes cases which were tried by orders of (a) Commander Marshall Gilberts Area and (b) Commander Marianas frea. This brief shows the names of the principle accused, offenses, place and date of trial, evidence for prosecution, basis of defense, and reports made by various persons concerning the disposal of prisoners of war in various places throughout the Pacific Ocean frees.

Makin Island. Gilbert Isles If a finding or determination of death was made give below a complete statement of facts upon which such finding or determination was based. If reported dead without subsequent report of burial give all available information regarding circumstances of death with identifying date:

Sgt. Allard was a member of the Second Marine Raider Battalion on August 17, and 18, participating in a raid on the enemy on Makin Island and were reported missing as of August 18, 1942. Reports state that considerable difficulty was experienced by this landing force in its withdrawal from Makin Island due to the heavy surf encountered through which landing boats could not be navigated by any means. Enemy planes flow over the area strafing such small boats as were available. No further information has been received regarding Sgt. Allard and on 19 August, 1943 was declared dead in compliance with Section 5, Public Law 490.

CONFIDENTIAL (Declassified 29 July 1946)

MEMORANDUM TO CAPTAIN J. J. ROBINSON, USNR - Room 4B915,
Pentagon Building
Subj: PNAB Contractor's Employees - Partial List of.

- 1. The attached list of Pacific Naval Air Base contractors' employees with their home addresses and occupations is certified to be a true copy of the records available in this Bureau. This list represents the names of those employees who are unaccounted for at the expiration of hostilities with the Japanese.
- As a result of an investigation conducted by a representative of this Bureau, the Commander Marshalls Gilberts Area in a letter dated 19 December 1945 (Confidential), Serial 02541, stated in part, "(a) Ninety-eight (98) American POW's remaining on Wake Island were deliberately executed on the order of the Japanese Commander Rear Admiral Sakaibara, ninety-six (96) of whom with hands tied and blindfolded were shot the night of 7 October 1943 on order of Lear Admiral Sakaibara. Previous to that date one was decapitated on order of Rear Admiral Sakaibara. On or about 15 October 1943 he personally decapitated the last remaining American on Wake."
- As a result of the above, this Bureau notified the next of kin, the U.S. Employees' Compensation Cormission and other interested parties that in view of the fact that all other Pacific Naval Air Base contractors' employees have been accounted for with the exception of ninety-eight, it must be presumed that the ninety-eight employees executed on Wake Island were those that were unaccounted for.
- 4. The addresses given in the enclosed list represent that address of the next of kin or the person that the employee assigned as the next of kin upon his departure from the United States, but does not represent, in all cases, his actual home address.

Based on my experience of over one year in investigated and prosecuting war crimes, and on such matter as is briefed in this affidavit it is the opinion of the undersigned that a policy was adopted by the responsible officials of the process the rial Government, relative to the disposal and treatment at riss were of war, which was in violation of established international law, and the Geneva (Prisoner of War) Convention of 27 July 1929. The pattern of the policy of the Japanese Government seemed to be to require and permit local military commanders to unlawfully kill on the spot all prisoners of war, except certain ones wanted for questioning by higher authority or other specific purposes unknown.

It is further my opinion that the unlawful killings of prisoners of war, which have been proved by trials in specific cases, were done pursuant to the Japanese Imperial Government's sanction.
