Public Notice

New Westminster Public Library.

THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, *in advance*, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of *one* cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can soap all classes, viz.:

Yours Respectfully,

Tuesday Evening, March 22, 1887.

PROVINCIAL LEGISLATURE.

On Friday a lengthy debate took place on the subject of high schools. Mr. Dunsmuir said if the expenditures for education kept on increasing at the present rate it would soon require half the revenue for schools. It was necessary to have free public schools, but he thought three high schools in the province were not required. There were many helping to pay for these high schools who were not able to take advantage of them. It would be better if those who desired to give their children a high school education had to pay for it.—Mr. Semlin pitched into the government on the conduct of the educational department, and Mr. Grant agreed with what Mr. Dunsmuir had said respecting high schools.—Mr. Higgins said he never heard so unsatisfactory a speech from Mr. Dunsmuir before. He did not believe the people of the province wished to do away with high schools. Our young people must be given the same advantage as the young people of other provinces.—Mr. Dunsmuir said there was some talk of the high school at Nanaimo having to be closed on account of the small attendance.—Mr. Theo. Davie believed there was a good deal of force in what Mr. Dunsmuir had said. Three high schools in the province were unnecessary. He was not in favor of making a present of free education to those who were able to pay for it. The increase in the expenditures for education was one of the reasons why it became necessary to negotiate a new loan. In 1878 the appropriation for education was only about $40,000. Those who desired a high school education for their children should pay for it.—Mr. Bole said he considered the principle adopted in the province of establishing high schools at the expense of the taxpayers to be pernicious. He was thoroughly in favor of giving the children of the province a free common school education, but the present high school system was one which gave the well-to-do class an opportunity to give their children what was virtually a collegiate education, at the expense of the struggling settler. He did not think the time of the house could be better taken up at some future time, in view of the great increase in expenditure for education, than in discussing this question thoroughly.—Hon. Mr. Robson agreed with much that had been said. When he had endeavored a few years ago to make the high schools half fee and half free he was met with a perfect storm of opposition. The ground he took then and the ground he took now was that the state had fulfilled its duty when it gave a good common school education. Within a very short time he was convinced that our whole school system would require to be considered and remodelled. The high school at Nanaimo, he explained, had been established under very great pressure. He stated that he believed a mistake had been made when the high schools had been made wholly free, and the house would soon have to consider means of checking the present increasing expenditure for education.—Mr. Higgins strongly objected to closing any high schools where they are required. Fancy, said he, a man who has to work on the roads for $2 per day and have to pay for the education of his children!—Mr. Orr said the high schools were very well for the cities but they were of little advantage to the country districts.—Mr. Prior had intended to bring this matter up if the senior member for Nanaimo had not. He had been told that he would be killed politically for all time if he did so, but if he had to sit in this house with his mouth closed and had to vote against his conscience he would prefer to be killed politically. He could not let this opportunity pass without expressing his disapproval, in view of the large expenditure under this head, of the system which permitted people as well able to pay for the education of their children as he was to give them a better school training at the public expense than probably any member in the house had received.—Mr. Ladner pointed out that if people living in country districts desired to give their children a high school education they had to pay for their board in the city, where they were without the protection of a home.—Mr. Anderson said if the high schools were made only partially free the difficulty was to tell where to draw the line. He thought the house should have some time to consider this matter in order to discuss it intelligently.—Mr. McLeese was in favor of making the high schools self-supporting.—House adjourned till Monday.

A HORRIBLE CRIME.

ST. LOUIS, Mar. 22.—A year ago this month one of the bloodiest murders of human beings known was committed near Erie, Kas. J. W. Sell, a well-to-do farmer, and his whole family, excepting one son Willie, a boy sixteen years old, were found murdered, their heads being crushed and their throats cut. There has been a great diversity of opinion as to whether Willie Sell committed the murder. On trial there was no evidence as the state failed to find any motive for the crime. On the contrary, it proved that Willie was a good boy and that he and his sister were uncommonly fond of each other. The boy confessed last night that his father, on the night of the murder, had quarrelled with his son Watt, who struck his father with the hatchet. Willie obtained the hatchet from Watt and knocked Watt down. The mother and sister came in to the room screaming, and Willie knocked them down. In his frenzy he cut his brother Watt's throat and then declared that if any of the others came to life they would disclose that he had killed Watt, so he cut their throats. This corresponds to the facts as proven at the trial.

THE REVIEW.

LONDON, Mar. 22.—The naval review will take place on July July 23 to celebrate the Queen's jubilee.

GOLD ON THE BOUNDARY.

MONTREAL, Mar. 22.—Word comes from Ottawa of the discovery of a rich gold deposit in British Columbia close on the imaginary boundary line between that province and Alaska, which may lead to serious trouble if the actual boundary is not defined before an attempt is made to develop these finds. In view of the discovery the Dominion government has decided on sending out a party to make a geological survey of that part of the country. An effort will be made in the coming session of parliament to secure an appropriation to begin the survey of the British Columbia boundary, in the hope that the United States government will co-operate and definitely fix the line.

SHIPPING NOTES.

SAN FRANCISCO, Mar. 21.—Cleared, ship Iroquis, Nanaimo. Sailed, bark John Smith, Port Blakely.

RACING AT LINCOLN.

LONDON, Mar. 21.—This was the first day of the Lincoln spring meeting race for the Bathyanny stakes, about 5 furlongs. It was won by R. Craig's three-year-old colt, "The Gloamin." Sir G. Chetwynds five-year-old gelding, "Goldsmith," was second, and Craven's three-year-old filly, by Albert Victor out of Pampaw, third.

A CATHOLIC UNIVERSITY.

BALTIMORE, Md., Mar. 21.—The *Sun* has the following cablegram from Rome: As anticipated, the Pope today approved of the plan of the Catholic university, which is to be located in Washington. By his instruction the secretary of the propaganda waited on him with a brief, fully, heartily, and emphatically endorsing the project and matter. The Pope confidently avers the judgment of the bishops and places the institution directly and forever under the sole jurisdiction of the American hierarchy. In all the text of the brief are used enthusiastic terms of endorsement. The language of the Pope on the occasion of a private reception to the cardinals, after Thursday's consistory was:—"It will be the pride of our pontificate and the glory of the church in America." The brief will be signed by the pontiff next week. Bishops Ireland and Keane are delighted at this manifestation of cordial approval and will leave for America as soon as the brief is received.

BIRTH.

LISBON, Mar. 21.—The Crown Princess of Portugal has given birth to a son. Both are doing well.

SMALL-POX.

LOS ANGELES, Cal., Mar. 21.—Three new cases of small-pox are reported by a health officer to-day. First in nine days.

COMMONS NOTES.

LONDON, Mar. 21.—Sir James Ferguson, under foreign secretary, in the house of commons to-night said he hoped to lay before the house, before Easter recess, a dispatch from the United States government, relating to the fisheries dispute.

Parnellites are gratified at Morley's amendment and heartily approve of it. The amendment was drafted last week by Morley, Harcourt, and Gladstone, with the view of embarrassing the radical unionists, some of whom, conservatives admit, may possibly abstain from voting. Lord Hartington is aware of the government's plan and has approved of it. He will doubtless carry the bulk of his followers with him. Gladstonians will oppose the coercion bill at every stage.

AN OVATION.

BERLIN, Mar. 21.—The students cheered loudly at Bismarck's Palace where the chancellor, Count Herbert Bismarck, and Count Rautzen were awaiting the procession. In response to the calls of the students, Bismarck opened the window and bowed thanks. A similar ovation was tendered Von Moltke, officers, and generals' staff. The whole affair was conducted in the most orderly manner. Bismarck said he rejoiced greatly in the spirit displayed by them. He expected much from the academy of youth in Germany, as circumstances and times were serious. After referring to the dissolution of the Reichstag he questioned many students separately as regarding their birthplace and the studies they pursued, the number of terms they completed, and the corporation in which they belonged. The Empress also expressed her thanks for the ovation. At one o'clock, when the Curisarier regiment came to relieve the guard at the palace, thousands, who still remained, burst into enthusiastic cheering, which continued so long that at last the emperor came to the window and again thanked the people. His appearance had a magic effect and the cheers were redoubled and the national anthem was again sung.

A MILLIONAIRE'S WILL.

SAN FRANCISCO, Mar. 21.—The will of the late Charles Lux was filed in the supreme court at Redwood today. The first bequest is to his widow, of the Buri Buri rancho in San Mateo county, containing nearly 1,700 acres. To his brother Philip and sisters Barbara and Dorotha, and nephew George, are bequeathed each $25,000. Numerous other bequests are made to relatives and friends and to charitable institutions, amounting to $136,000. All the rest of the estate is bequeathed in equal portions to the deceased's brothers, sisters and nephews. The value of the estate is said to reach into millions.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business."—*Toronto Globe*. Daily British Columbian

Tuesday Evening, March 22, 1887.

We are sorry to observe a marked change for the worse in the Vancouver *News* of late. The other day we drew attention to the unparliamentary language in which it referred to the majority in the provincial legislature who refused to vote for Mr. Orr's bill, declaring them to be "degraded banditti." In its issue of Sunday it publishes an editorial article headed "Bobbie the Boodler." This article is devoted to Mr. Dunsmuir, and in it are made use of the most ungentlemanly and uncalled-for expressions. Mr. Dansmuir's particular offence was an expression of the opinion that Vancouver needed a severe reproof for its shameful treatment of the Chinese. He had surely a perfect right to express such an opinion, and the same opinion is held probably by a large majority of the people of British Columbia. The language made use of by the *News* is, under the circumstances, disgraceful.

Some days ago in referring to the retirement from the bench of Judge Greene, of the supreme court of Washington Territory, we stated that he retired with the confidence and good will of those whose good will is worth striving for. The Seattle *Post* of a late date pays a very flattering tribute to the ex-judge, and says: "Nobody professes to believe that during his long official career he has ever ceased to strive to do right, as he saw the right, or that he has ever knowingly failed to measure out exact justice between man and man. * * * He has been a student, too, of that greatest of all books, the Bible, and his life showed it. He has turned its pages and read its lines with that earnest desire to understand its great truths which is characteristic of such men as he. In all things he has been a student. In all things he has been a learner. He enjoys the reputation of being the best read man in Washington Territory, and that reputation is one well earned. In his retirement from judicial life, Judge Greene carries with him the wishes of all people for his future success and happiness."

Much interest is felt everywhere in Stanley's expedition for the relief of Emin Bey, who has been for months besieged by hostile savages in the heart of Africa. There is, perhaps, no man living so well fitted as Stanley for such an exploit. It is not a case in which military strategy and generalship alone are likely to be called into exercise. There are thousands of savages in the region through which the rescuing party is to pass, who must be conciliated rather than killed, and Mr. Stanley's experience and tact in this direction will be worth more to him than a regiment of soldiers. These dark-faced people are not only hostile and warlike, but they have an uncomfortable yearning for human flesh as a choice dish at their native feasts, and white men are specially sought after with a view to the gratification of this very appetite. There is a universal wish that Stanley's illustrious carcass may never grace the festive board of an African prince, but that his mission may be successful. Emin Bey's administration has been such as to entitle him to the sympathy of all the civilized world, and everywhere anxious hearts will be looking for tidings from Stanley and the dark continent.

We are informed that many of the electors in this district are very indignant at the course pursued in the provincial legislature by Messrs. Orr and Ladner, especially inasmuch as they were the members who moved and seconded the resolution of impeachment against their colleague the provincial secretary. Mr. Ladner was elected as an independent member, and some who supported him did so on the assurance that if elected he would give the present government an independent support. But he has been one of the bitterest occupants of the opposition benches, and his attitude towards the provincial secretary has been especially hostile and vindictive. By placing himself in this position he has accomplished nothing for his constituency, but has alienated the government and barred himself from any support for which otherwise he might reasonably have looked to the house. The opposition of Messrs. Orr and Ladner is so conspicuously the result of personal dislike of the provincial secretary that it cannot be justified or excused on any ground of honest conviction. If the present government had treated the district shabbily, one might suppose there was some ground for the never-ending hostility of these gentlemen; but in the house the other day the provincial secretary showed, with remarkable clearness, how differently this district had fared under the present government and the government which preceded it. In four years of the previous administration the appropriations for roads and bridges in Westminster district were $28,904, whereas the present government spent during a similar period for these purposes $266,205! No argument can stand against such facts as these. We learn that in some parts of the district some of those who supported Mr. Ladner, believing in his independence, are seriously discussing the propriety of giving a public expression of their disapproval of his conduct.

Miss Mary Campbell, Elm, writes: "After taking four bottles of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, I feel as if I were a new person. I had been troubled with Dyspepsia for a number of years, and tried many remedies, but of no avail, until I used this celebrated Dyspeptic Cure." For all Impurities of the Blood, Sick Headache, Liver and Kidney Complaints, Costiveness, etc., it is the best medicine known.

1873. **GRIP!** 1887.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1887.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1888. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $2 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:

COMMUNICATIONS.

Building Societies.

EDITOR COLUMBIAN: Observing in your valuable columns a few weeks ago several articles touching the formation of a building society, I would ask the liberty of communicating to your numerous readers through the same medium a few of my ideas on the subject. I believe that a building society here, if properly conducted, would do a vast amount of good to the city, and be a lasting benefit to all concerned. What New Westminster, or any other city, wants is permanent population of working people, and the surest way to secure this desirable object is to insure for the workers an interest in the place, viz., houses of their own. Besides relieving them of the everlasting drain of rent, this would also tend to make them better citizens. The man who has something at stake in a country is ever ready to defend that country in times of danger or invasion, but the man who has nothing to lose except his life, unless he is exceedingly patriotic, will seldom take very heavy chances of losing that. All men who earn their living by their industry, whether by wielding the pen or the shovel, being agents in the production or exchange of lawful commodities, I term workers. Their interests are identical, and they being the producers of all wealth, it follows that the welfare of the nation depends upon their welfare; as we have it from the best authority that the decay of *nations has invariably been brought* about by the enslavement of toilers, and a man without property or interest in his country is little better than a slave. Now, one of the best ways for the workers to acquire an interest in the country and reap the benefit of their own industry is to co-operate in building or other societies. It should therefore be the endeavor of all who have the true welfare of the nation at heart, whether workers or not, to promote such enterprises. Workers who have no ties to bind them to any particular place when business gets dull in their locality invariably leave for some more favorable field of operations, i. e., more favorable for the time being; but the general movement to such points naturally has the effect of causing another movement in another direction. The consequences are that the workers spend most of their hard earnings in traveling from place to place, thereby enriching those leeches of society, railway and steamboat corporations; and although perhaps getting higher wages for a time, they are losers in the end, and seldom if ever do as well as the men who stay in one place, taking the bad times along with the good, being literally tethered to the *locality* by having no rent to pay. I am speaking in general of married and single men. (Single men as a rule have more rent to pay than married ones, if they could only realize the fact.) I could say much more in favor of establishing building societies, but the benefits to be derived from such a movement both by the workers and the country are so apparent as to admit of no argument. I will not, therefore, trespass further on your valuable space, but wishing every success to the promoters of this praiseworthy scheme, and recommending it to the earnest consideration of all, I am, etc., ALEX. HAMILTON.

Accomplished His Work.

Mr. Henry Rosener, general manager of the Pacific Postal Telegraph Cable Co., accompanied by his private secretary, Mr. Francis, sailed on the steamer Oregon last night for San Francisco. Mr. Rosener has been in the Pacific Northwest since September last, giving his personal supervision to the construction of the new line from New Westminster, B. C., to San Francisco, by the way of Portland, and has successfully accomplished one of the most difficult tasks ever undertaken in this country since the completion of the great transcontinental railways. The enterprise was commenced at a time in the year when men usually begin to house themselves against the storms of winter, but Mr. Rosener had the great work before *him, and he did it.* There was no cessation of his labors from the day he landed in Portland until the day he departed, in the steamer last night. What he has done for the Northwest the readers of the *News* have now an opportunity of seeing for themselves. He has constructed 1,100 miles of the most complete telegraph line in the United States, the connecting link between the two great oceans; he has given the people of the Pacific coast a competing telegraph and cable line, making it possible for them to escape from monopoly and extortion; and it has been done in such a quiet and unobtrusive way that many were not aware that so great an enterprise had been accomplished. Mr. Rosener has made hosts of friends in Portland and all over the Northwest, who will always welcome his return.—*Portland News.*

Cultured Committee Men.

Anyone who has known what it is to have dealings with the unlettered school committee men will appreciate the following:

"Give a sentence in grammar," said *a committee man to an applicant for a* country school.

"He sits down."

"'Taint right. It should be, 'He sets down'."

"That haint right nuther," said the second committee man. It's 'He sot down'."

"Gentlemen, you air all wrong,' solemnly observed the third committee man, inflating his chest till he resembled a pouter pigeon.

There was an expectant silence, when the latter proceeded:

"It's 'He has sot down'."

The council looked doubtful, but he added with confidence and emphasis: "You all need to be mighty spry ef ye pass my catekisin'!"

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver:
Representing Goldie & McCulloch,
Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

THE BRITISH COLUMBIAN Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. *It is desirable that a daily newspaper* should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is enconsistt with its professions. In con*sequence of this business change all ac*counts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.
