Surgical Science.

A New York despatch to the St. Louis *Globe-Democrat* gives a most interesting account of a very singular case. Martin Hogan was a carpet layer, and like his co-operatives he had a habit of carrying tacks in his mouth while at work. On several occasions these tacks injured his tongue and mouth, but as the injuries were slight and of brief duration Hogan did not abandon his dangerous habit. About two years ago, he had a tack wound in the right side of his mouth, but, as usual, he applied to it a large quid of tobacco which he usually had in his mouth, and supposed it would be all right in a few days. But the tongue began to swell rapidly, and became intensely inflamed and painful. It soon increased so in size that it completely filled the mouth, and began protruding from the lips, and kept on growing. The direction of the growth was upward. If it had been the other way the patient could have lived but a short time. Food was given through the mouth in liquid form by depressing the upper portion of the tongue and passing it in slowly. There was some interference in swallowing, and at times it was painful, and more frequently so as time passed. Before his admission to the hospital Hogan had taken a large amount of iodide of potassium, and leeches had been applied to the tongue, but they showed a disposition to let go their hold before doing any good. The tongue had been punctured in several places and blood flowed freely. The growth had been stopped by the use of Lugol's solution and pyroligneous acid, but these speedily spent their force and the growth continued. Upon admission to the hospital Hogan was greatly emaciated from lack of nourishment, and he had a strange feeling or presentment that he was dying all the time and could not be reasoned out of it. His tongue protruded eight and one-half inches, and was about five times as large as the normal size. Several experiments were tried to reduce the swelling, which had changed the entire appearance and structure of the tongue, without any particular benefit resulting, and it was determined to remove the hypertrophied mass close to the lips. The patient was taken to the operating room and ether was administered. When properly anæsthetized a large pair of tongs with serrated edges were locked on the tongue near the tip, and an assistant drew it so that it was on a line with the patient's mouth. Dr. Helfer, the operating surgeon, stood at the right side of the patient. The chain of an ecraseur was passed around the tongue near the entrance to the mouth, and the screw was gradually tightened until it cut clear through the tissue on a diagonal line. Passing to the other side the chain was again applied to the tongue diagonally and the left side was cut off. The two diagonal lines thus met at a point, and the shape of the tongue was roughly designed. But this did not avail anything. The patient rallied from the operation, and in a week the tongue had decreased in size to permit of an examination inside of the mouth. On the upper part of the stump deep ulcers were found, and some of the tissue having been scraped off and submitted to a microscopical examination it demonstrated the existence of an epithelial cancer. The total extirpation of the tongue was all that could be of benefit. The patient was again anæsthetized. An incision was made in the middle of the lower jaw and carried under the point of the chin to the windpipe. The flesh was removed from the bone and the lower jaw was divided in the middle with a chain saw. Then by separating the jaw bone and using the knife carefully the base of the tongue was exposed. The tongue was drawn forward with a prolonged forceps, and while the tension was upon it an incision was made in the flesh just above the hyoidal bone at the base. When the blood spurted from the arteries as the cutting proceeded the vessels were picked up and ligatured, so that there was but little hemorrhage. The entire tongue was removed. The disease had not extended to the base and the tissue appeared to be healthy. After the stump of the tongue had been thoroughly washed a platinum wire, white hot, was applied to it to check the slight oozing of blood by sealing the exposed ends of the bleeding vessels. The jaw bone was then joined where it had been sawed through and the wound in the chin and neck was closed with cat-gut sutures. The operation lasted nearly two hours. The shock was unusually great, and for several hours after the patient had been taken to the cot the indications were that he would not rally from it. A liberal supply of stimulants, however, strengthened the vital organs and brought the patient out of danger. The wound is now healing nicely. The patient shows a disposition to talk, but it requires a practiced ear to tell what he says. It is expected he will be able to leave the hospital in about a week. The hypertrophied portion of the tongue that was removed is said to be the largest on record.

Parliament Opened.

The Speech From the Throne —Measures to be Brought Forward for the Protection of the Fisheries —Chinese Immigration Act.

France and Germany Again at Loggerheads.

GOLDENSON SENTENCED TO BE HANGED.

By Associated Press.

THE OPENING OF PARLIAMENT.

OTTAWA, Apr. 14.—The Dominion parliament opened to-day. The governor-general has, from the throne, congratulated parliament on the general prosperity of the country and the prospect, during the coming season, of peace and prosperity. The Queen's jubilee was referred to and her majesty congratulated on having reached the fiftieth anniversay of her reign. Referring to the fisheries question his excellency said negotiations between her majesty's government and that of the U.S., with respect to which my government has been fully informed and consulted, are still in progress and will, we may be permitted to hope, result in arrangements honorable and satisfactory to both nations. Meanwhile the necessary provision has been made for the protection of our inshore fisheries. Papers of and on this subject will be laid before you. A measure will be submitted giving representation in the senate to the Northwest territories in addition to that which they now have in the house of commons. Other measures will be laid before you, and among them will be found bills for the amendment of acts relating to the government of railways and further amendment of the Chinese immigration acts.

A NEW TRIAL REFUSED.

SAN FRANCISCO, April 14.—Judge Murphy this morning denied a motion for a new trial in the case of Alexander Goldensen, convicted of the murder of Mamie Kelly, and sentenced Goldensen to be hanged June 10th.

THE OPENING OF PARLIAMENT.

OTTAWA, April 13.—The various informal proceedings in connection with the opening of the sixth parliament of Canada took place this evening. The governor general's speech will be delivered to-morrow. It is understood that a hope will be expressed by him for an amicable settlement of the fisheries question, but nothing more will be said about the present state of fisheries affairs except that assurance will be given that steps have been taken to protect Canadian inshore fisheries. It is definitely stated that the Dominion government will ask for an appropriation to build a canal at Sault Ste. Marie on the Canadian side to connect Lakes Huron and Superior. It is understood that the purpose of the government is to have an uninterrupted Canadian waterway from Lake Superior to the Gulf of St. Lawrence.

TROUBLE WITH VENEZUELA.

PANAMA, April 13.—A Venezuelan news agency thus summarizes the situation of affairs respecting the British Guiana frontier question with Venezuela: The English have taken possession of all the territory up to Borna and Amacuro, thus depriving us of the exclusive Dominion of the Orinoco river. The Venezuelan government claimed this territory should be evacuated, but the British minister claimed this action of his government was correct. Answer was made to him that his action violated the treaty of 1860, which stipulated that neither party would exercise jurisdiction beyond Pomar, and that if prior to the meeting of the boundary commissioners matters were not placed on the same footing on which they stood in 1850 friendly relations would be interrupted and Venezuela would protest.

THE SHARON DIVORCE SUIT REVIVED.

SAN FRANCISCO, April 13.—The trial of George W. Tyler on an indictment for felony was begun to-day before Judge Hunt and a jury. The indictment charges that on the 18th of May, 1885, the defendant obtained a false affidavit from Isabella Clark, an aged colored woman and inmate of the almshouse, which was presented in court in opposition to a motion for a new trial in the Sharon divorce case.

SHIPPING NOTES.

SAN FRANCISCO, April 13.—Cleared, Br. steamer Wellington, Nanaimo; Br. bark Wallagate, Port Townsend; schr Johann Kepler, Port Townsend. Sailed, Dashing Wave, Tacoma; ship Shirley, Tacoma; bark Esmeralda, Port Townsend.

WANT THE CUSTOMS REGULATIONS REPEALED.

MONTREAL, April 13.—The general passenger agents of the Canadian Pacific railway and steamboat companies, now in session here to arrange the summer excursion tariffs have telegraphed the mininister of customs that the proposed new regulations regarding the admission of travelers' baggage from the United States to Canada are likely to seriously impede, if not altogether stop, tourist travel to Canada. They request that the regulations in question be not put into force until such a time as the companies interested in international travel have an opportunity of expressing their views.

FRANCE AND GERMANY.

BERLIN, Apr. 13.—The *Post* publishes a spirited article to-day on the relations between Germany and France Referring to French Cavalry evolutions at Linneville, it says: "These and similar military preparations along the frontier bear the character of provocation."

RAILROAD OFFICERS.

SAN FRANCISCO, Cal., Apr. 13—At the annual meeting of the stockholders of the Southern Pacific Co., to-day, the following officers and directors were elected: For Central Pacific, Leland Stanford, president; C. P. Huntington, vice-president; E. H. Miller, Jr. secretary; Timothy Hopkins, treasurer; Chas. Crocker, C. F. Crocker, W. V. Huntington, directors. For Southern Pacific: Chas. Crocker, president; C. F. Crocker, vice-president; Timothy Hopkins, Chas. Wayne, W. V. Huntington, N. T. Smith, T. L. Wilcutt, directors. The earnings for the past year show a net increase of more than $15,000,000 over the last year. Directors of the branch lines were all re-elected.

A Highflyer.

The Aerial Steam Navigation company of San Francisco is constructing an air-ship which will soon be tested. The drawings indicate that the vessel will be cigar-shaped, the upper portion being the balloon proper, the lower half the deck upon which the freight and passengers are to be carried. It is expected by the projectors that the machine will be sufficient to lower and raise the vessel without resorting to the old device of increased or lessened ballast. William Patterson, who has the work in charge, says that the machinery will consist of three 12-horse engines; one set to operate the two auxiliary propellers, located at equal distances from each other at the bottom of the car, and one operating the driving propeller at the stern, which better acts also as the rudder. The sole office of the auxiliary propellers is to aid in raising and lowering the ship without the loss of gas. The fuel will be coal oil and steam spray. The boiler, which has already been negotiated for, will be a 40-horse power Herschoff, and will be furnished by Cole Bros., of Lockport, N.Y. Pure hydrogen gas will be used and will be generated in the usual way. Mr. Patterson says the ship will be ready for use about August 1st. He expects it to reach a speed of one mile per minute. Head-winds and adverse currents will be avoided by going above or below their level by means of the auxiliary propellers. Should the balloon burst the ship will be gently lowered by means of a parachute. The balloon will be divided into three compartments, separated from each other by a partition of the same material of which it is constructed, and each entirely independent of the other; so that, if any of them should collapse, the others will remain intact. The length of the ship over all will be 180 feet; breadth over all 48 feet; depth of car, 12 feet; capacity of balloon (hydrogen), 182,000 cubic feet; engines (12-horse power), 3; lifting capacity, 16,000 pounds; total weight, 5 tons.—*S. F. Bulletin.*

NO TIME LIKE THE PRESENT for seeking medicinal aid when what are foolishly called "minor ailments" manifest themselves. There are no "minor" ailments. Every symptom is the herald of a disease, every lapse from a state of health should be remedied at once, or disastrous consequences are likely to follow. Incipient dyspepsia, slight costiveness, a tendency to biliousness, should be promptly counteracted with Northrop & Lyman's Vegetable Discovery and great Blood Purifier, and the system thus shielded from worse consequences.

A bill is now before the legislature of the State of Rhode Island which provides that cars shall be lighted either by gas or by electricity, and that no fires shall be allowed in a train, excepting in the locomotive furnace. This should not be a state but a federal bill, and Canada should have a similar one.—*Montreal Witness.*

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the sentiment which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which is a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,300. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business."—*Toronto Globe.* T. E. Pearson & Co. are agents for this company in British Columbia.

Daily British Columbian

Thursday Evening, April 14, 1887.

An Important Event.

When the matter of efficient armament came before the United States congress for serious consideration it was found that the nation was not only destitute of heavy arms and vessels, but without the means of producing them. There are no works in the United States capable of casting heavy steel guns or of producing the heavy steel plates necessary for a first-class ironclad. The government, or, rather, the secretary of war, has just taken a step that promises to remove out of the way the chief obstacle to the production of heavy armaments. The cost of erecting the necessary works and machinery would be such that no firm would undertake the task without an assurance that the appliances when provided would be kept in employment. The war department asked tenders for the production of a very large quantity of steel, 1,300 tons for the heavy guns and 4,500 for armor plates, and a Pennsylvania firm has obtained the contract. It was stipulated that the plant must be ready for operation within 30 months, but the firm intimates that it will be ready in a year and a half. When this establishment has been completed the United States will have within itself military resources which will enable it to become independent of the vast establishments of Europe.

Wants to be a Terminus.

No one will suspect the people or press of Victoria of being led away by patriotism from a contemplation of their local interests. Throughout the length and breadth of the province Victoria enjoys the reputation of being the most selfish and ungenerous place on earth. And this reputation is not confined by any means to mainlanders, nor is it even confined to persons who reside outside of the capital itself. In the provincial legislature not many days ago Mr. Robt. Dunsmuir, M. P. P., who is himself a resident of Victoria, made the following statement: "Victoria has done nothing for the C. P. R., and although he lived in the city he knew it was the most sectional and selfish place in the province. IT WANTS TO GET EVERYTHING AND GIVE NOTHING." No words could more accurately express the existing fact. It is honest, unvarnished truth; and it is a truth for which the whole country, and above above all other places the city of Westminster, has been made to suffer. One of the latest developments of this inordinate greed has just cropped out at the capital. It will be remembered that during last session of the house a resolution was passed requesting the government to use its influence for the purpose of compelling the transpacific steamships of the C. P. R. line to call at Victoria or Esquimalt on their outward and inward trips. During the discussion on that resolution it was stated that if the object of the motion could be obtained, Victoria would become practically the terminus of the steamship line, because the freight and passengers could be transferred there to the island railway and ferried from Nanaimo across to the C. P. R. Everybody laughed at the proposal, which could have emanated from no other source but the brain of a Victorian. In the *Standard* of yesterday we observe an editorial article which may, perhaps, reveal the true purpose of the effort to make the steamships call at Victoria. The *Standard* has seen the steamship time-table which appeared in this journal a few days ago, and it is all broken up at the discovery that Victoria does not anywhere appear on the table. "This city," it says, "being the capital of the province and centre of trade, should be the terminus of the transpacific line." And again: "Our city members have entirely neglected a very important duty by not bringing this terminus matter before the house during its sitting, and using their influence to make this port the ocean terminus of the liners." Could sectionalism and selfishness go further than this? The intention of the Canadian Pacific Railway managers was, of course, to make the headquarters of the new steamship line at the western terminus of the railway; but, for the purpose of gratifying Victoria the whole universe is asked to stand still so that Victoria may become the hub! What do the people of the mainland think of this latest attempt to prevent foreign trade coming to them without paying toll at Victoria? It is quite in keeping with the declaration of Mr. Higgins during the debate on his motion to change the name of Vancouver. In his speech he complained that Victoria did not appear on the letter heads of the C. P. R., and had even been expunged from the miniature map of the C. P. R. line shown on the company's telegraph blanks! Because the company refused to advertise Victoria as the terminus of the road (which was not to be true), it was proposed to change the name of the terminal city! This is statesmanship!

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER Co., 106 Wall St., New York. 8tely

STREET EDUCATION.

City Children and Their Vices—Boys Grow Up to be "Sports" and Criminals.

The leading cities present to the strangers two strongly contrasting scenes, both with little children as the subjects.

What more delightful scene outside of the family circle than the infant class in the day or Sunday-school—innocence, health, and beauty; what one more sad and pitiful than groups of tiny waifs in the streets—neglected, diseased, often deformed, unnaturally precocious and wicked!

Whether he sees the former or not, the traveler is sure to see the latter. Civilization, not to say religion, is put to the blush by such scenes, in which almost babies are the participants.

The writer relates no more than what has come under his personal observation in describing to the reader the education

Newsgirls matching pennies.

of the street; the ways in which our grown-up gamblers and thieves are made.

THE PLACE OF EDUCATION.

It is a notorious fact that vagrant children of the town learn to gamble at an early age.

In the noisome halls of the tenements, on trucks that stand idle in the streets, and even on the pavements themselves, young urchins may be seen daily in fine weather fumbling over greasy packs of cards or tossing pennies to make a little "stake" out of their unlucky companions.

The little fellows are out-and-out gamblers on a small scale, because they play for money.

These little gamblers are bothered by the police, too, and while no one would suspect them of "standing in" with an impecunious roundsman, they fly at the approach of the blue-coats just as swiftly as gamblers of an older growth.

YOUNG GAMBLERS SURPASSED.

Three youngsters were observed by the narrator to play poker on a cellar door in a leading street of one of the largest cities in the United States.

Two of them had hair of a fiery hue and one had the black hair and eyes of a child of sunny Italy.

It was a "jack-pot" that formed the centre of attraction. This particular "jack-pot" contained five cents, three buttons and a piece of coal.

The buttons and coal were penny "chips," to be redeemed by the "banker" the end of the game, or as soon thereafter as his financial resources would permit.

Excitement ran high, for the young Italian had discovered a pair of jacks in his well-worn hand, and allowed that he would just open that "pot" at once.

He opened it at the full limit of a cent, and in duty bound each other young gamester "came in" and drew cards.

"Chase it—the sop," ejaculated red-headed Jimmy as he saw a glimmer of brass bedeck fleck around the corner.

The Italian boy made a dive for the money, but only scrabbled a couple of cents.

His mates rushed pell mell down the street as the officer with mock earnestness came after them like a wolf on the fold.

The officer triumphantly seized the stock of gambling implements on the cellar door, and tossing the buttons and coal into the gutter appropriated the three cents.

It is needless to say that the gambling instruments were not taken to Police Headquarters and destroyed like the roulette tables and gambling paraphernalia of the dens where the "jack pot" attains large proportions.

"BURY THE CENT."

"Bury the Cent" is a favorite pastime with the young dare-devils, who are supposed to make their living by blacking shoes but have times when the industry is not brisk. It is an ingenious way of gambling, and merits particular description.

A small hole is dug in the ground and in the centre is stuck a thin stick.

The players then range themselves about eight feet away, and the game is ready to begin.

There are two ways of playing it.

One way is to pitch a cent as nearly as possible into the hole, and he who comes nearest to accomplishing the feat takes the pennies of his rivals.

The more popular method, because it costs less money in the long run, as a rule, and from its suspense adds excitement to the game, is as follows:

Nobody wins unless a cent actually falls inside the hole where the little twig is.

This is the schedule of losses sustained by each player when any one succeeds in tossing a penny in the hole in the ground:

In the hole, one cent. In the hole and touching the stick, two cents. In the hole and leaning up against the stick, three cents.

As may be imagined, it is not so easy as it looks to throw a penny in a small hole in the ground even at the distance, although the boys think because so skilful at it themselves they can make others effective.

Some bright afternoons when the wind doesn't blow too jauntily, more expert gamblers have been known to sit down, not rise, winners to the tune of twenty-five or thirty cents, at "Bury the Cent."

Such lucky ones are looked on by their comrades as heavy players, and their exploits are themes of admiring comment between times.

Thus early they know the gratification of the successful gambler—a gratification, by the way, which omits its subject for useful occupations.

MATCHING PENNIES.

Matching pennies is a source of great amusement among the tiny Bohemians of the city street.

It is a favorite pastime with them as with John T. Raymond to cry "heads" or "tails" by the heave in twinkly an honest penny.

No disagreement to their minds can be enjoyed than to rope in a little fellow who has the price of a new chicken in his pocket to practice on him the ancient and dishonorable "pennsylvania dodge.

THE PARTNERSHIP DODGE.

Two youngsters are in collusion. One of them holds a cent upwards in the palm of his hand, the other a cent, with its tail upwards.

The victim is told that the old adage wins and when their hands are opposed of course one of the confederates has a head or a tail up the same as he has and the other fellow rakes in the cent.

To allay suspicion the coins are reversed and occasionally the victim is allowed to win back a cent to keep his hopes bright.

DICE.

Dice are coveted highly by the young gamblers, and a set of five does service for a long time among a gang whose members live in the same neighborhood and see each other daily.

The little fellows love cigarettes and gamble with dice to win a few pennies to purchase two or three "smokes" at a time.

Poker dice stands to deport with many of them, but as in "Bury the Cent," they like a prolonged excitement and the usual method is to "shake" until somebody has scored 100 or 200 and the winner collects a cent from each unlucky comrade.

Occasionally when a youngster is flushed with victory to the extent of 5 or six cents he may send one of the players to an adjacent inn to purchase a little rank beer. This abominable stuff can be bought for a few cents the quart. Its dispensers ignore the law, where such law exists, against selling stimulants to children.

CARD PLAYING.

In playing cards street Arabs are tricky as monkeys and never hesitate to take advantage of the dulness or inexperience of an opponent.

Fights arise daily from the discovery of an extra ace or a jack too many, and occasionally a loaded dice, though

A three-card monte sharp.

that is a rarity and is usually borrowed from an older youth.

INDULGING IN FASHIONABLE SPORTS.

In the Summer time a number of these young vagrants club together and buy a 25 or a 50-cent pool ticket on the races whenever the shops are open in which it can be bought.

They get what they consider "sure tips" from some politician or sporting gentleman, whose boots they may black quite often, or who buys newspapers from them, and generally tells them what horse he thinks has a good chance of winning at the leading races.

Occasionally the club makes a little stake which causes as much excitement as a political caucus.

In the same way the boys play policy, but this is not so popular as the small chance of winning in proportion to the investment.

EFFECTS OF THE VICE OF GAMBLING.

Such are some of the favorite ways of gambling among the children of the streets.

To gratify their growing passion for the vice they are not only led to steal, but will stint themselves of necessary food when just good hard cash is in order to stake a diminutive "pile," which may represent the proceeds of a day's work with papers or brush.

The police are powerless to entirely stamp out the evil, for they have many other things to do, and, moreover, a great deal of the gambling goes on in

"Heads or tails!"

secret places—in cellars and alleys where the urchins are secure from observation.

Child gamblers are an outgrowth of nomadic street life and its vicious influences, and some of the "sports" of the future may be found embryo among these young tyros in the mysteries of "jack-pots" and the fluctuations of "penny-matching."

Certainly many of the thieves in all our State prisons have received their education on the street. To experience the fluctuations of gambling in early childhood is a promising way to prevent industry, and to prepare for a lawless, criminal life.

The fact that many thousands of children receive no education beyond that of the streets is not reassuring as to the future.

Certainly a large proportion of these—not all of them will die young—represent the crop of criminals which will infest society in coming time.

There is the needs-be of incessant toil and purpose to gain upon the agencies which educate boys and girls in everything that is bad, and prevent their acquisition of anything promising of good manhood and prudent, reputable womanhood.

Servants of these malign agencies are always busy in their work of depravity.

An Eye to the Future.

"You will come to dear John's funeral, won't you?" said the weeping widow to a lady friend.

"Yes, I'll try to come."

"Yes, do, dear. Your presence will comfort me at my most trying moment. And I'd take it as a particular favor if you'd ask Mr. Ottboy to come also. Try and urge him to come. He is single yet, and used to be very fond of me before I was married to dear John."—[Philadelphia Bulletin.

A Man o Promise.

When Jack protests he'll keep his word
He says so very much about it,
From his own warmth may be inferred
That there's a precious cause to doubt it.
—[C. F. Hamilton in Life.

Business Directory.

The following Business Directory relates only to persons whose advertisements appear in the DAILY COLUMBIAN. It has been found true, as a rule, that persons who advertise liberally are liberal in their dealings, and many persons make it a rule to give preference in their dealings to those establishments which advertise freely. The following list is arranged alphabetically:

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognised by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," *but in cases of Kidney Disease and* Complaints attendant thereon, successful treatment was practically impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. Retailed by A. M. HERRING and D. S. CURTIS & CO., New Westminster; T. McNEELEY, Ladner's Landing; H. McDOWELL & CO., HASTINGS SAW MILL CO., THE VANCOUVER DRUG CO., Vancouver; W. E. McCARTNEY & BRO., Vancouver and Kamloops; J. B. LOVELL, Yale; W. R. MEGAW, Priest Valley; H. CLARK & CO., Kamloops. dwsc27y1

Fire! Fire!

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,

Vancouver;

Representing Goldie & McCulloch, Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and heated, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof.

THE BRITISH COLUMBIAN Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is consistent with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. Address all communications and remittances to

ASSOCIATION.

Guarantee Capital.....$1,000,000

Full Gov'm't Deposit

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

D. S. CURTIS, Agent.

New Westminster, April 2, 1887. dap2m1

NOTICE.

WE HAVE APPLIED TO THE MINister of Interior for license to cut timber on the following described tract of land in New Westminster District:

Commencing at a stake marked B on the east side of Pitt Lake, about two and one-half miles from the head; thence east half mile, thence north one mile, thence west half mile, thence south one mile to point of commencement; also the S. W. ¼ section 17, Township 39.

BRUNETTE SAWMILL CO., LD.,

dap3m1 By W. N. Draper, Secretary.

Estate of Kelly Bros.

TAKE NOTICE.

ALL PERSONS INDEBTED TO THE above Estate are notified that Mr. Henry V. Edmonds is alone authorized by us to receive payment thereof and to give receipts for same.

S. J. PITTS,
F. G. SIMPSON,
JNO. WILSON,
Assignees of Estate of Kelly Bros.

dmh25to

NOTICE.

NOTICE IS HEREBY GIVEN THAT 60 days after date, we intend making application to the Chief Commissioner of Lands and Works for permission to purchase 160 acres of timber lands on Howe Sound, described as follows:

Commencing at a post set on the North shore of Thornborough channel, near its head, thence North 80 chains; thence West 20 chains; South 80 chains; thence East to place of commencement.

ROYAL CITY PLANING MILLS CO. (Limited)

JOHN HENDRY, Manager.

New Westminster, March 1st, 1887. dmh1m3

NOTICE.

NOTICE IS HEREBY GIVEN THAT I have made application to the Chief Commissioner of Lands and Works, for a license to cut and carry away timber from land on the south side of Mississippi Inlet, in the Province of British Columbia, described as follows:

Commencing at a stake set at the east end of said Inlet; thence forty (40) chains south; thence in a north-westerly direction six hundred and forty (640) chains; thence north to waters edge of said Inlet; thence forty (40) chains, more or less; thence [illegible] water's edge back to place of commencement; containing one thousand [illegible] acres, more or less.

A. A. BARTER.

New West., 1st April, 1887. ap8m1

NEW ADVERTISEMENTS THIS DAY.

Lecture ..... Rev. Lennie
Musical Entertainment ..... St Ann's

Daily British Columbian

Thursday Evening, April 14, 1887.

Business is improving.

Eastern mail three hours late.

Six more cars of eastern freight yesterday.

Many small fishing boats were on the river to-day.

A choice lot of Boys' Spring Suits at J. Ellard & Co's. dap13tc

Vestry meeting to-night in Holy Trinity Church.

Some very good quartz discoveries are reported at Yale.

Lumber sells at $23 per thousand in the Rocky Mountains.

There are said to be 600,000 opium-eaters in the United States.

County court opened this morning with an unusually large docket.

Large quantities of eastern flour are arriving in the city for local merchants.

W. B. Townsend is laying a new system of water pipes to his livery stable.

Neither wine, ale, porter, nor brandy has ever been manufactured in Japan.

Sun Shades and Parasols for Ladies and Children in the latest styles at J. Ellard & Co's. dap13tc

Banff is to have a museum. Sir Donald Smith has contributed $500 for the purpose.

It costs $50 to transfer a car of common lumber from Beaver to Donald—a distance of 12 miles.

Velvet Pile, Tapestry, Brussels, Kidderminster, Wool, and Hemp Carpets at J. Ellard & Co's. dap13tc

A large number of emigrants bound for Vancouver arrived at Moody by to-day's train from the east.

William T. Coleman, of California, the latest candidate for the presidency, has a fortune of $20,000,000.

Ladies' Muslin and Cotton Underwear, American styles, just opened, at very low prices, by D. Drysdale & Co. dap11t6

Some desirable two and a quarter acre lots in the suburbs for sale at very low prices. Apply to Rand Bros. dmh26tc

British Columbia, according to the San Francisco *Examiner*, is the retreat of a "boodler" having $6000 in his possession. Who is he?

Spring has already set in in Manitoba. Farmers are ploughing along the line of the railway and the ground is almost free from frost.

The meeting of the building society last evening in the Court House was postponed for a week on account of the illness of the secretary.

The gross earnings of the Northern Pacific for March were $875,873, an increase of over $90,000 as compared with the same month last year.

In yesterday's issue we stated that the Adelaide came down from Chilliwhack. It was the Gladys. The Adelaide at present is not running.

In our issue of Tuesday appeared a report of the Maple Ridge council meeting said to have been held on the 5th inst. It should have been the 2nd inst.

A Victoria gentleman, representing a large brick yard in the Island city, visited the city yesterday with a view to contracting for sales in this city during the coming building season.

We have received a nice assortment of Fancy Tweeds, Black Worsteds and Pant Goods for the Tailoring Department. Suits made to order at reasonable prices, and in good style.
mh2d6tw3 D. Drysdale & Co.

20 cases Boots and Shoes just arrived direct from all the leading houses of the East, and at prices never before known on the Pacific. Call and examine before going elsewhere. Wm. Ross, Colonial Boot & Shoe Store—Old Stand. *

A prominent architect and builder, in conversation with a Columbian reporter to-day, expressed the opinion that before next winter from five to ten million brick would be used, if possible to obtain them, in the erection of good substantial stores and warehouses in this city.

It is stated that Mr. A. P. Macdonald is urging upon the government to grant a subsidy of ten thousand [illegible] for the projected Winnipeg and North Pacific Railway. The route of the proposed line is from Winnipeg to Fort Simpson by way of Grand Narrows and Peace River.

Police Court.—John Brown, a drunk, was fined $1 and costs or in default 5 days in gaol. Juan Romano, charged with selling whiskey to an Indian, was fined $50 and costs or two months in gaol.

French Lumbermen.—A party of French lumbermen, 19 in number, from Restigouche and the Bay of Chaleurs, arrived in the city to-day. They will be employed by the Royal City Planing Mills.

Concert.—By reference to our advertising columns it will be seen that the Sisters of St. Ann's convent contemplate giving a grand musical entertainment on the 28th inst. Tickets $1, children under fifteen, half-price.

Y. M. C. A. Lecture.—The Skating Rink was filled last night by an audience composed chiefly of young men to hear the lecture by Dr. Kent. The lecture was a very interesting one, and was listened to with profound attention throughout.

No Floods.—D. W. Port, who left a few days ago for the east, writes back from Winnipeg. He states that at present there is not much snow in the Selkirks and Rockies, and that it is melting away by degrees each day. He does not think there will be any serious floods in the Fraser, as was feared during the latter part of winter.

Improvements. — Alex. Hamilton has opened out the B.C. monumental works on the vacant premises, corner Church and Columbia sts. He intends going more extensively into the marble trade than heretofore. Messrs. Rudge & Monck are also opening out a similar business in the building formerly used as a barber shop, next to Mayor Dickinson's butcher shop on Columbia st.

Two Indians Drowned.—Yesterday morning as the tea ship George was entering the narrows two Indians and a stevedore put out in a canoe from Moodyville to meet her. On reaching the incoming ship the stevedore climbed aboard her, but the two Indians preferred to remain in the canoe and follow in the wake of the vessel. They had not gone far when a ripple of the tide caught the canoe and upset it, throwing its occupants into the water. Someone on board noticed the canoe, bottom up, floating in the water, but as nothing could be seen of the Indians it is supposed they were drowned.

The Foster Mine.—The new mill on the Foster mine at Clinton started crushing rock on Tuesday morning, when everything was found to work satisfactorily. This is the first quartz mill in the province to adopt the chlorination process, and as a large percentage of our ores are sulphurets it will be understood how much importance is attached to the experiment now fairly begun at Clinton. The company, which is composed exclusively of Victorians and Messrs. Foster and Henderson, is very sanguine of results. If a success, as there is every reason to believe it will be, an incentive will be given to quartz mining which will prove of incalculable benefit to British Columbia.

Real Estate Market—The real estate market is quiet at present. The principal sales duriug the last month have been of farming lands, most of them in the vicinity of Ladners. Some of these sales have been concluded at a very satisfactory figure. One gentleman lately disposed of ten acres near the delta for $100 an acre. Lulu Island lands also sell at a ready figure. Many well to do eastern farmers are arriving in the city lately for the purpose of purchasing agricultural lands. In nearly every case preference has been given to Delta or Lulu Island property. Vancouver property also sells at a fair figure. One dealer reports making $20,000 worth of property during one week. In this city the market is very inactive, although inquiries are being made daily concerning city property; yet very few sales are being made. Dealers however prophesy a tremendous rush for Westminster property shortly. The prices of business property in Westminster and Vancouver are about on a par.

The Fishery Quarrel. -- The Washington correspondent of the New York *World* says: "It is now practically settled that there is to be no execution of the retaliatory fisheries act. A prominent New England man, a high government official, who is well informed about the attitude of the president and cabinet on this subject, says the action of congress is looked upon by Mr. Cleveland and his official advisers as hasty and impulsive, and ridiculously inconsistent with the ability of the government to give effect to the aggressive spirit of the act. He says it is apparent from this outcropping, as in fact has been quite manifest all along, that the ferocious letter of Secretary Manning, and the more temperate but equally firm representations of Secretary Bayard on the fisheries outrages, which had much to do with working congress up to the point of decisive action, were merely part of a deliberate and preconcerted programme of buncombe and bluster, cooked up to scare Canadian officials into something they could not be induced to do by more amicable means. It is now apparent that the Dominion government is not scared and does not propose to recede from its previous hostile position. It is to be expected that American fishermen will be treated more brutally in Canadian ports this summer than they were last year, because the Dominion officials are irritated by the hostility of congress, and because they have the support of the home government, which makes them much stronger than the States from the fighting standpoint."

Jos. Benadin, M. D., Hull, P. Q., writes: Dr. Thomas' Eclectric Oil commands a large increasing sale which it richly merits. I have always found it exceedingly helpful; I use it in all cases of rheumatism, as well as fractures and dislocations. I made use of it myself to calm the pains of a broken leg with dislocation of the foot, and in two days I was entirely relieved of the pain."

Personal.

Peter Grant is in Port Moody.

T. E. Martin of Regina, D. W. McMillan of Winnipeg, and D. E. Brown of Port Moody, went over to Vancouver last night.

At the Colonial: E. Ghout, C. P. R.; F. Richards, Jr., Victoria; G. W. Chadsey, G. R. Ashwell, Chilliwhack; W. Wadham, Ladner's; W. H. London, Lulu Island; James Morrison, Vancouver; H. A. Jones, Vancouver; Henry Woods, W. Leary, Winnipeg; Bolton Rogers, G. T. Hopkins, Seattle.

At the Farmers' Home: Nelson Martin, Wellington, Ont.; R. Watson, Ladners; E. McAdams, Victoria; Mrs. McAdams, Victoria; R. C. Hughes, London, Ont.; F. Thompson, Kamloops; John Starrett, Nova Scotia; T. Dunville, Chilliwhack; Thos. Smith, Chilliwhack; Alex. Macintosh, Huntingdon, Ont.; Esra Hicks, Manitoba; Dr. Kent, South Arm; Jas. Rowling, North Arm.

Give Holloway's Corns Cure a trial. It removed ten corns from one pair of feet without any pain. What it as done once it will do again.

Condensed Despatches.

Eugene Andre Oudine, the French author, is dead.

5,00 brickmakers of Philadelphia are on strike.

The str. Victoria is submerged. 12 passengers were drowned.

Elijah Walters was killed in a quarrel at Napa, Cal., last night.

England has assured Hayti she has no intention of encroaching on Hayti.

A big strike is imminent in Pittsburg between the moulders and employers.

The New York police raided and captured a gang of counterfeiters last night.

John McIntosh shot J. Watt through the heart in a drunken quarrel at Selma last night.

The long continued drought throughout Texas is at an end. Rain has been falling for the last three days.

Ex-Assistant Secretary O'Brien, of the San Francisco harbor commission, has been acquitted of the charge of fraud.

The Pope has written the people of Alsace and Lorraine, counselling them to avoid party questions and to give Germany no cause for complaint.

Nathaniel Hunter rescued a white child from the clutches of a Chinese woman in San Francisco yesterday. This is the 30th child Mr. Hunter has saved.

Mr. T. C. Bergbard, public school teacher, Norland, writes: "During the fall of 1881 I was much troubled with Billiousness and Dyspepsia, sad part of the time was unable to attend to the duties of my profession. Northrop & Lymau's Vegetable Discovery and Dyspeptic Cure was recommended to me, and I have much pleasure in stating that I was entirely cured by using one bottle. I have not had an attack of my old complaint since, and have gained fifteen pounds in weight."

Surrey Council.

Council met on the 9th April, pursuant to adjournment, Coun. Stewart in the chair. Minutes of previous meeting read and approved. Communications received from A. J. Hill, C. E., E. H. Fletcher, Esq., H. D. Chantrill, Esq., Albert Bamford, Esq., John B. Chantrill, Esq. Communications from Mr. Hill and Mr. Fletcher ordered filed, from J. B. Chantrill laid on the table. Couns. Cann and Watson reported they had had the works executed in their respective wards as instructed at last meeting. The salary by-law amendment by-law was finally passed. The revenue by-law amendment by-law was advanced a stage. Coun. Stewart was authorized to expend $75 on the Blackies Spit road and report at next meeting. Coun. Stewart was also instructed to advertise for tenders, to be received at next meeting, for the construction of a bridge on the Wade & McBride road. Coun. Watson was authorized to expend $25 in an endeavor to repair some of the worst places in ward 5, of the Hall's Prairie road, with a view, if possible, of keeping that road open for traffic. Mr. Albert J. Hill offered to do all corporation work, i. e. surveying and civil engineering, at a rate considerably below other offers for the same class of work. Mr. Hill's services are retained for the year 1887. Complaints having been made by a number of persons respecting the action of C. Cardinal in placing obstructions on the old logging road near the Campbell river, now a portion of the Semiahmoo road, the clerk was instructed to notify Mr. Cardinal to remove said obstructions, otherwise the council will enforce the provisions of the road and bridge by-law. The clerk was instructed to notify the government of the almost impassable state of the Yale, Scott's, McLellan and Hall's Prairie roads, and respectfully to request that the projected repairs may be executed at as early a date as possible. Coun. Cann was instructed to invite tenders, to be received at next meeting, for the construction of two culverts to connect the Clover Valley road at its intersection with Yale road. Council adjourned until Saturday, April 23d, 1886, at 1 o'clock p. m.

There is no branch of business which the Inter-State Commerce law will more thoroughly revolutionize than the theatrical business. Combinations have received a death blow for the reason than few can afford to pay full fares for all people, while scenery and excess baggage can be transported only by freight trains or at excessive rates. Since the 1st of April J. C. Duff has recalled four companes embracing two hundred people. Kiraly has closed out a company of 160; Harry Miner is daily cancelling dates for about 300 people in his various companies. John A. Stevens declines to go out with contemplated enterprises, and many others have disbanded, throwing people out of work, to get home as best they may. The coming summer will be one of unparalleled suffering to managers and people alike.

Gilbert Laird, St. Margaret's Hope, Orkney, Scotland, writes: I am requested by several friends to order another parcel of Dr. Thomas' Eclectric Oil. The last lot I got from you having been tested in several cases of rheumatism, has given relief when doctors' medicines have failed to have any effect. The excellent qualities of this medicine should be made known, that the millions of sufferers throughout the world may benefit by its providential discovery."

White Bronze Monuments.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being noncorrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indestructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other my5tc

"I take only one English weekly paper, *The Spectator*, and one Canadian, *The Week*, and as a rule I should be puzzled to say which I should miss most."—From a letter by Thomas Hughes, author of "Tom Brown's School Days."

The Week:

A Canadian Journal of Politics, Society and Literature.

Published every Thursday, at $3.00 per annum.

Independent in politics, THE WEEK appeals by a comprehensive Table of Contents to the different tastes which exist within the circle of a cultured home.

An average of fifteen short, crisp Editorials is given in each number upon CANADIAN, AMERICAN, and ENGLISH POLITICS and LITERATURE.

Amongst the regular contributors is Professor Goldwin Smith; and a distinguished public man in London has kindly undertaken to supply regularly an English Letter. Paris and Washington Letters will appear at regular intervals.

In addition there are special contributions from some of the ablest writers in the Dominion and the United States.

THE WEEK

has now entered upon its third year with most encouraging prospects, and with many new features.

C. BLACKETT ROBINSON,
5 Jordan St., Toronto, Ont.

Sample copies free on application.

THE WEEK is one of the most influential journals in Canada.—Truth, London, England. fe13

1873. GRIP! 1887.
CANADA'S COMIC JOURNAL
GREAT IMPROVEMENTS FOR 1887.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department. The price of *Grip* will hereafter be $3 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5.. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:
Humor without Vulgarity;
Patriotism without Partisanship;
Truth without Temper.

Only $3 a Year, Postage Free.

Address the Grip Printing and Publishing Company, 26 and 28 Front Street, West, Toronto; or leave your order with your bookseller or other local agent. fe14
