(From First Page.)

heard from a policeman I enquired for a policeman. The prisoner gave the following description of a man who he said was in with him: "John McDonald, aged 22, wore a brown hat, a light suit of clothes, and a blue flannel shirt, speaks good English, and was formerly in the employ of Egert & Foster." The city was searched but no one could be found answering to this description.

The evidence for the prosecution closed with that of Mr. Jackson, keeper of the lockup.

No witnesses were called for the defence.

Mr. Atkinson addressed the jury on behalf of the prisoner, contending that it had not been shown but the order was genuine and pointing out that no one whose name had been forged to the check had been produced. It was claimed that his conduct in returning to the city when he knew that he was being searched for was not the conduct of a man who had committed so serious an offence against the law as forgery.

His lordship in charging the jury said it was not necessary to prove that any one had been defrauded to establish the charge of forgery. It was simply necessary to show that an attempt had been made to make a document appear what it is not, that there had been an attempt to make a false instrument. The prisoner was also charged under another indictment with uttering a false instrument, knowing it to be such.

The jury retired, and after being out of court for a short time returned with a verdict of guilty. The prisoner was remanded for sentence.

STEALING.

Regina vs. Ah Foon.—The prisoner was charged with, on the 24th May last, stealing goods to the value of $25, the property of Stewart & Peters, on the line of the New Westminster branch railway. Mr. Bole, who appeared for the prisoner, pleaded guilty. Prisoner remanded for sentence.

FALSE PRETENSES.

Regina vs. O'Connor.—The prisoner was placed in the dock and charged with obtaining goods, to wit, beer from Robert Reisterer, under false pretences, and on a second indictment with burglary.

Mr. Atkinson, who appeared for the prisoner, pleaded guilty to the charge of obtaining goods under false pretenses, the crown consenting to withdraw the other indictment. The prisoner was remanded for sentence.

UNLAWFUL WOUNDING.

Regina vs. Nelson.—The prisoner was charged with unlawful wounding. Mr. Bole, who appeared for the prisoner, pleaded guilty to the charge.

GRAND JURY FINDINGS.

The grand jury reported no bills in the cases of Regina vs. Edson, arson; Regina vs. Kumear, robbery; Regina vs. Austin, robbery. True bills in the cases Regina vs. Stott, attempt to murder; Regina vs. Nelson, assault; Regina vs. Wendell; Regina vs. O'Connor, obtaining goods under false pretenses and burglary. This completed the work of the grand jury, who were relieved of further attendance unless new cases should arise or unless they desired to make a presentment.

Court adjourned at 6 p. m. till 10 a. m. Thursday.

THURSDAY, Nov. 11.

Court assembled at 10 a. m. and the case Regina vs. Stotts was called. The prisoner being charged with discharging a pistol with intent to murder Robt. Hannington at Vancouver, pleaded not guilty. Mr. Atkinson appeared for the prisoner. Mr. McColl, on behalf of the crown, explained the case to the jury, and proceeded to call witnesses.

Robt. Hannington, sworn, deposed that he lived at Vancouver and knew the prisoner. On the 12th of July between 6 and 7 in the evening I went home. Gerry Mohoney, who was there, said Stott had been here two or three times to see you. Mahoney, myself, and two men named Fenton and Collet sat down to supper, when Stott came again. Fenton went outside, but returned shortly and sat down again. Shortly after he jumped up and slammed the door, saying "Look out, Bob," meaning witness. I heard a pistol snap at me, I suppose, as I was sitting at the door where he could see me. I jumped up and got behind the door and shortly after a shot was fired. Prisoner came to the door and tried to break it in and succeeded at the second attempt, when he fired another shot. There was only Fenton and myself in the house at the time. Prisoner then went away and I threw an axe after him. He ran towards Mr. Springs. The police afterwards arrested him. We had some words

"I take only one English weekly paper, *The Spectator*, and one Canadian, *The Week*, and as a rule I should be puzzled to say which I should miss most."—From a letter by Thomas Hughes, author of "Tom Brown's School Days."

The Week:

A Canadian Journal of Politics, Society and Literature.

PUBLISHED EVERY THURSDAY, AT $3.00 PER ANNUM.

Independent in politics, THE WEEK appeals by a comprehensive Table of Contents to the different tastes which exist within the circle of a cultured home.

An average of fifteen short, crisp Editorials is given in each number upon CANADIAN, AMERICAN, and ENGLISH POLITICS and LITERATURE.

Amongst the regular contributors is Professor Goldwin Smith; and a distinguished public man in London has kindly undertaken to supply regularly an English Letter. Paris and Washington Letters will appear at regular intervals.

In addition there are special contributions from some of the ablest writers in the Dominion and the United States.

THE WEEK

has now entered upon its third year with most encouraging prospects, and with many new features.

PYÆMIA

Is the most virulent form of blood-poisoning. Less speedily fatal, but not less certainly so, is the vitiation of the blood of which the first symptoms are Pimples, Sties, Boils, and Cutaneous Eruptions. When the taint of Scrofula gives warning of its presence by such indications, no time should be lost in using AYER'S SARSAPARILLA, the only perfect and reliable medicine for the purification of the blood.

SCROFULA

Is a foul corruption in the blood that rots out all the machinery of life. Nothing will eradicate it from the system and prevent its transmission to offspring but AYER'S SARSAPARILLA. This preparation is also the only one that will cleanse the blood of Mercurial poison and the taint of Contagious Diseases. Impoverished blood is productive of

ANÆMIA,

A wretched condition indicated by Pallid Skin, Flaccid Muscles, Shattered Nerves, and Melancholy. Its first symptoms are Weakness, Languor, Loss of Nerve Force, and Mental Dejection. Its course, unchecked, leads inevitably to insanity or death. Women frequently suffer from it. The only medicine that, while purifying the blood, enriches it with new vitality, and invigorates the whole system, is

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

Last night a C.P.R. train on the New Westminster branch struck a horse and a horse near the Brunette sawmill. The mule was killed outright, and the horse sustained very serious injury. This morning he was standing near the track enduring great suffering with no person to care for him, and it is not known whose property he is.

Ayer's Sarsaparilla is a powerful Alterative, and acts directly and promptly. A single bottle will prove its merits. Many thousands of people are yearly saved from dangerous fevers by the exercise of a little timely care in properly cleansing the system by the use of this remedy.

The *Guardian* continues to exercise itself over the recent convention, with the result of which it is naturally greatly dissatisfied. In the last issue of the letter from a member of the *Guardian* staff appears purporting to explain some crookedness in the proceedings. We need hardly say that the statements in this letter are absolutely without shadow of foundation.

Speaking of the Georgie Woodthrope Company which is announced to appear in this city next Tuesday night, the Portland *Oregonian* says: "Certainly a more satisfied audience could not have been gathered in a house of amusement than that which witnessed 'Sly Blossom' by the Georgie Woodthrope Company last evening. It was a smooth and well-balanced performance as one cares to see."

It is announced that a tea-meeting will take place on the 16th inst. at the Sequi school house, and that one of the attractions will be an "election" for which two young ladies are to run.

In this cake there is to be a gold ring, and slices are to be sold to persons who hope to get the ring. Prospects for the Methodist church! We are sorry that those who are entrusted with such matters sometimes adopt measures of a very questionable nature to promote schemes that are entirely unworthy. This election cake business is unworthy of the cause in which it is often made to appear. An objectionable practice does not become less objectionable when employed for a church purpose.

Give Holloway's Corn Cure a trial. It has removed ten corns from one pair of feet without any pain. What it has done once it will do again.

The COLUMBIAN boasts that the despatches received by it on Monday, containing 3,515 words, were the most extensive ever received by any paper in British Columbia. Modesty is certainly not one of the failings of our mainland contemporary. The dispatches are not stolen from the *Times* and *Colonist*, but, through the connivance of the telegraph company, or Associated Press, they are picked off when *in transitu*, and at a merely nominal cost. In other words, to the enterprise of the Victoria papers is due the fact that despatches are received in New Westminster at all. Under these circumstances there is no room for boasting.—*Victoria Times.* Our despatches are certainly the same as received by the *Times* and *Colonist*, but they have been secured honestly, and are paid for at a fair price—not at "nominal" cost as stated by our Victoria contemporary; and we have quite as much ground to boast as any newspaper in the province. Surely the *Times* could not expect to exclude all mainland papers from the privilege of receiving press despatches!

G. A. Dixon, Frankville, Ont., says: "I was cured of chronic bronchitis, that troubled me for seventeen years, by the use of Dr. Thomas' Eclectric Oil." See that the signature of Northrop & Lyman is on the back of the wrapper, and you will get the genuine Dr. Thomas' Eclectric Oil.

COMMONS ELECTION.—We are authorized to state that Mr. Donald Chisholm is in the field as a candidate for the seat in the House of Commons rendered vacant by the death of our late lamented representative, Mr. Homer. dwoc25tc

If those who take an interest in the paper wish to give a practical turn to their good wishes they may do so by recommending it to persons with whom they come in contact. To all new subscribers who pay $2 for 1886 the *Weekly* will be sent for the balance of this year free; i. e., $2 will pay from the present time to the 31st December, 1887. Any person getting up a club of 5 new subscribers and sending $10 will be entitled to receive an extra copy free. In all cases no charge will be made for the balance of this year. to

ABOUT JAPAN.—Rev. Dr. Eby's address on Tuesday night was one of the most interesting ever delivered in this city. Dr. Eby is a very fluent speaker, and his high intellectual attainments and long residence in Japan qualify him particularly to present an intelligent and accurate description of the political, social and religious condition of that country. Japan has a population of 38,000,000 of intelligent people, and this vast country is now absolutely open and free to Christian evangelization. The government protects honestly and firmly all Christian missionaries, and the people everywhere are ready to receive the gospel. Dr. Eby described the various phases of Japanese history during the past 300 years, and the remarkable revolutions that had taken place in social and political customs. The spirit that has been prevailing during the past half-century is one of marvellous progress. The Japanese are anxious to receive and accept any system of politics or religion that can be shown to be better than what they have. The present danger is that materialism and infidelity may take possession of the educated classes, and postpone for many years the conversion of the nation. To prevent this disaster it is believed to be of the greatest importance that a few more strong men should go there—men who are able to stand up for the truths of Christianity against the materialism that has moulded the thoughts of so many scientists of the present day. Dr. Eby is also anxious to have a large church erected in Tokio, the capital city, so as to reach the better classes of Japan. This would require about $20,000, and an invitation was given to all who wished to contribute towards this scheme. The address occupied an hour and a half, and was listened to attentively by the congregation. Rev. W. B. Seccombe occupied the chair, and the regular missionary report was read by Rev. Mr. Tait.

Personal.

Mr. Louis Eckstein came over from Port Moody yesterday and returned to-day.

Messrs. H. E. Wilby and W. E. Sellick, of Esquimalt, two of the oldest residents of Vancouver Island, arrived in the city to-day by way of Port Moody. Mr. Sellick, who owns a large amount of property in Esquimalt, and has resided there for the last 25 years, was never in New Westminster before. Mr. Wilby has been here before and finds that great changes are taking place. He gives the mainland people great credit for the enterprise they are showing. Esquimalt is not doing just as well as he would like. It is near Victoria, and Victoria seems to want everything on Government street, but the prospects for the future he considers very good.

FURRED TONGUE AND IMPURE BREATH are two concomitants of biliousness remedied by Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Heartburn, which harasses the dyspeptic after meals, and all the perplexing and changeful symptoms of established indigestion, are dispersed by this salutary corrective tonic and celebrated blood purifier.

ELECTORS
—OF—
New Westminster District.

GENTLEMEN.—As a successor to your late representative in the Commons will soon have to be elected, I hereby announce myself a candidate for the position.

I purpose publishing an address in which I will give my views on the most important questions affecting your interests, and will visit the different settlements and address the electors before election day.

In Politics, *I am and will be* THOROUGHLY INDEPENDENT.

Yours respectfully,
dwoc25to T. J. TRAPP.

before the shooting about clearing some lots which we were working at in partnership. He wanted more than Fenton and I could make.

Cross examined: After working seven days the amount due to prisoner was $11; he wanted $16, or $2.25 per day; he spoke about settling several times, but would not settle. On the Saturday before the Monday on which the shooting took place he said he would only come once more for his money and would have it if he got his bloody neck stretched for it. There was no one with us when he said it; we were outside the house and Fenton and Mahoney were inside.

James Fenton, sworn, deposed that he was sitting down to supper when he saw the prisoner, who was standing outside the door, present a pistol, aiming at Hannigan. He was not more than four feet away from Hannigan at the time. Witness shouted "Look out, Bob!" and slammed the door. He heard at the same time the snap of a pistol. He looked out of the door, and as the prisoner was cocking the pistol he went in again. Prisoner went to the right of the cabin and fired a shot and then stood before the window snapping the pistol. If it had gone off the bullet would probably have struck witness. Prisoner then burst the door in and fired another shot. The mark of the bullet is on the door. The trouble arose over a settlement about clearing lots. Witness and Hannigan understood that they were in partnership, but the profits were not as large as expected and the prisoner wanted $2.25 per day. When he came on Saturday evening and asked for the money he said as he was going away that he would get it or have his bloody neck stretched. I was standing at the door of the cabin when he said this to Hannigan.

Witness' testimony was not shaken in cross examination.

Court adjourned at 12:30.

GRAND JURY PRESENTMENT.

The following presentment was made by the grand jury to-day: "To the honorable Mr. Justice McCreight: We, the members of the grand jury, beg to inform your lordship that we have visited the lock-up in this city, and as far as cleanliness and good order are concerned everything was perfectly satisfactory. We have also visited the jail, and found it in excellent order and the cleanliness perfect. We take this opportunity of thanking your lordship for the facilties and attentions we have received during our attendance at this court, which has materially assisted in the despatch of business. A. R. HOWSE, Foreman."

AFTERNOON SESSION.

Court reassembled at 1:30. The evidence of A. Spring, J. Mahoney and W. A. Wood was taken, which corroborated that of the previous witnesses. Mr. Atkinson addressed the jury in behalf of the prisoner. Prisoner also made a statement to the *effect* that he was hired by Hannigan and was only trying to frighten the wages out of him with the revolver. His Lordship charged the jury briefly.

The jury after being out of court a short time returned with a verdict of guilty of intent to do grievous bodily harm.

Communications.

Fire Protection.

EDITOR COLUMBIAN.—I do not believe in fault-finding unless one is actually compelled to do so, but I think the subject of this letter is a legitimate cause for a good healthy growl. The subject is the want of proper fire stations on Front street for the use of the steam fire engine in case of fire.

Now this want has been brought to the notice of the council time and again, in fact ever since the engine arrived, but nothing was done until after the last great conflagration; which I have no hesitation in saying was made more disastrous in consequence of the neglect of the council in not providing suitable fire stations on the water front for the steam engine. In fact the water of the river is of no use to the city and the engine in case of fire, because there is no suitable place to set the engine from Dickinson's stable to Ewen's wharf, and to all intents and purposes the hand engine is the only one that could be used, as it can be worked under the freight sheds, and the steam engine cannot. I observe since the last fire that there has been a station built on the river front, but where? in the place of the least importance alongside the mayor's stable (rather curious that) with nothing to protect but Chinatown and the aforesaid stable, worth about, I should say, $25 (and a dirty eyesore at that) while from Chisholm's corner to Ewen's cannery there is not a single place where the steamer could be utilized, and the block so unprotected is worth half the value of New Westminster.

Please excuse this growl, but I think it is about time the denizens of Sleepy Hollow, Council Bluffs, N. W., be aroused, but we must watch if they do that they do not find a way "how not to do it."

OLD FIREMAN.

Mr. R. A. Harrison, Chemist and Druggist, Dunnville, Ont., writes: "I can with confidence recommend Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation -such cases having come under my personal observation."

This Afternoon's Despatches.

Press Telegrams.

PESTH, Nov. 10.—The speech made by Lord Salisbury at the lord mayor's banquet in London yesterday strengthens the position of Count Kalnoski, and the feeling in the Hungarian delegation is becoming composed and members appear less distrustful of Kalnoski. The delegates express the hope that the speech portends a fresh grouping of the powers, similar to that which Count Andrassy evoked at the Berlin congress. A committee of the delegation will meet to-morrow, Count Andrassy presiding. It is probable the committee will demand that the imperial government resist the establishment of an exclusively Russian influence in Bulgaria.

ST. LOUIS, Nov. 11.—Evidence in the express robbery case made public, goes to prove that Messenger Frothingham was accessory, or at least a willing victim in the affair. Discrepancies in his statements to detectives indicate that he knows more of the manner in which the robbery was planned and executed than he would like to tell, and an expert penman who was before the grand jury last Saturday states that the 3 letters signed "Jim Cummings" were written by the same person, and expresses his belief that the man was Frothigham, and that he wrote them before the commission of the robbery. It now transpires that the messenger's trunk was shipped soon after the robbery, and a number of sheets of paper were found covered with copies of the signature W. J. Barrett, manager of the express company. It is supposed the messenger became able to forge his signature so that he might affix it to the order which the robber presented which allowed him to enter the car.

TIRNOVA, Nov. 11.—Waldemar has sent a telegram to the regents expressing his grateful sense of the honor conferred upon him by the sobranje in electing him prince of Bulgaria. He states, however, that the decision as to his acceptance rests with his father, King of Denmark, and adds that other duties may prevent his assuming the rulership of Bulgaria. The prince's reply is considered to presage his refusal of the throne.

LONDON, Nov. 11.—The race for the Liverpool autumn cup and £1000 was won by Milton. Kilcreene was second and Candlema third. 18 starters.

JERSEY CITY, Nov. 11.—The strikers at the hog abbatoire on Hackensack meadows all went back to work this morning at increased wages. The company refused to dismiss two foremen as the strikers demanded, and also refused to treat with a committee from the Knights of Labor who waited on them. After a conference with the committee of strikers the bosses succeeded in making an amicable settlement to the satisfaction of all concerned. Both parties made concessions.

CHICAGO, Nov. 11.—The situation at the stock yards this morning shows improvement. All the packers report their forces increasing. Among the applicants who worked to-day are several of the old men. Contrary to general expectations, the army of workmen which was engaged by Fowler in New York last Monday arrived at the yards and reached their employer's establishment without any protestation. Reports to Gen. Fitzsimmons at 8 o'clock from all parts of the yard show everything quiet.

LONDON, Nov. 11.—It is asserted that three Italian ironclads have been ordered to join the British fleet at Malta.

PARIS, Nov. 11.—Railway traffic in the south of France has been stopped by floods.

A report in circulation declares that Waldemar will not accept the Bulgarian throne.

COPENHAGEN, Nov. 11.—Danish papers generally advise Waldemar to refuse the Bulgarian throne.

PESTH, Nov. 11.—After the election of Waldemar yesterday the Austrian and German ambassadors at St. Petersburg were instructed by their governments to inquire of Russia the name of the candidate it favors as Alexander's successor. If Russia refuses to accept the election of Waldemar, or to nominate a candidate, it will be conceded that she entertains designs against Bulgaria's independence, and in this event Britain, Germany, Austria and Italy will arrive at an understanding similar to the one that existed among them at the Berlin conference.

CINCINNATI, Nov. 11.—The opinion of the U. S. circuit court in the case of the government against the American Bell Telephone Co. was delivered this morning by Judge Sage. It is in the company's favor.

An Efficient Remedy.

In all cases of Bronchial and Pulmonary Affections is AYER'S CHERRY PECTORAL. As such it is recognized and prescribed by the medical profession, and in many thousands of families, for the past forty years, it has been regarded as an invaluable household remedy. It is a preparation that only requires to be taken in very small quantities, and a few doses of it administered in the early stages of a cold or cough will effect a speedy cure, and may, very possibly, save life. There is no doubt whatever that

Ayer's Cherry Pectoral

Has preserved the lives of great numbers of persons, by arresting the development of Laryngitis, Bronchitis, Pneumonia, and Pulmonary Consumption, and by the cure of those dangerous maladies. It should be kept ready for use in every family where there are children, as it is a medicine far superior to all others in the treatment of Croup, the alleviation of Whooping Cough, and the cure of Colds and Influenza, ailments peculiarly incidental to childhood and youth. Promptitude in dealing with all diseases of this class is of the utmost importance. The loss of a single day may, in many cases, entail fatal consequences. Do not waste precious time in experimenting with medicines of doubtful efficacy, while the malady is constantly gaining a deeper hold, but take at once the speediest and most certain to cure,

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business."—*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being noncorrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other. my5tc

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

SAN FRANCISCO, Nov. 10.—Arrived, ship Blue Jacket, from Seattle; str. San Pedro, from Tacoma; Barkentine Malay, from Tacoma. Sailed, bark Arcturus, for Port Townsend; Barkentine San Luis for Port Townsend.

John L. Sullivan, champion pugilist, arrived from the East to-day. This afternoon he obtained a license for a sparring and boxing exhibition to be given at the Pavillion next Saturday evening. Chief of Police Clowley says that he will not permit a prize fight—nothing more than a boxing exhibition.

J. J. Black, an employee of the California Electric Light Co., while repairing wires of the company on a pole on the corners of Market and Post sts. Aug. 11th last, received a shock which paralyzed his left side. Black brought suit in the Superior court to-day to recover $25,000 from the company.

A young man named Andrew Golderson, an artist by occupation, shot and instantly killed his sweetheart, Mamie Kelly, a school girl, in a house on the corner of Polk st. and Ash avenue this afternoon. He was arrested and taken to the new city jail. The shooting was occasioned by jealousy.

Golderson is aged 19 and resides at 241½ Hayes st. His victim was aged 14. One man who saw the deed committed asserts that he saw Golderson rush up to Mamie Kelly, place a revolver to her head and fire. His looks were like those of a madman as he laid down the weapon and took a hurried departure. No communication took place between them. Another gentleman says Golderson was standing on Ash st. as if waiting for some one. The unfortunate girl came tripping along humming a tune and passed him. As she came to the corner Golderson, who had evidently been waiting for his victim, sprang out with a pistol in his hand and said: "Damn you, take that," at the same time firing the shot which took effect in the girl's right eye. The girl uttered a scream as the pistol was presented to her face, but never spoke after the shot was fired, staggering and falling on the sidewalk. Immediately after the shooting Golderson rushed to the new city hall and pitifully begged to be locked up, as he apparently feared lynching.

S. D. Smoleanoff, a Russian resident of this city, claims he has invented a nitro-glycerine bomb. He says he has discovered a liquid with which nitro-glycerine may be mixed making it non-explosive, but by adding another chemical the nitro-glycerine is transformed into its original state. He uses a double shell, the inside one containing a non-explosive mixture of nitro-glycerine and the outer one containing a chemical which liberates the pure nitro-glycerine. Major-general Howard and other officers have pronounced favorably upon it. The French minister of war has sent for details to experiment on the invention.

VIENNA, Nov. 10.—It is reported that Prince Lobanoff, Russian ambassador here, has officially notified Count Kalnocky that Prince Nicholas of Mengretta is the Czar's candidate for the Bulgarian throne and that the election of Prince Waldemar does not meet with the Czar's approval.

MADRID, Nov. 10.—The total number of persons condemned to imprisonment for participating in the recent revolution is 2[illegible].

TIRNOVA, Nov. 10.—Stambuloff and Mutkuroff have also resigned from the regency in order to simplify the election of a new regency. They will be both re-elected.

BOSTON, Nov. 10.—E. A. Perry cables to the *Herald* from London this evening as follows: In selecting Prince Waldemar of Denmark as a successor to Prince Alexander the Bulgarian assembly has made a very conservative choice. It was feared that the patriotic party would bring forth Prince Alexander's name and insist that the abdication was legally incomplete till approved of by the great sobranje. This course may be held in reserve should the Bulgarian government find it impossible to avoid the veto power of the Czar in any other way but in fixing upon Prince Waldemar. The assembly shows its desire to avert complication by presenting an unexceptionable prince-elect for confirmation by the great powers and the Sultan. The prince's acceptance of the honor is however very much questioned. He will certainly decline if there is any risk of the Czar's opposition.

GALVESTON, Nov. 10.—A special to the *News* from Corpus Christi says the San Antonio & Arkansas Pass railway was to-day formally opened through to the gulf. Excursion trains brought several hundred people from San Antonio and points along the line. This gives Southern Texas a new outlet to the coast via Corpus Christi.

VIENNA, Nov. 10.—An article in the Warsaw *Gazette* has caused a sensation here. The writer warns Poland that in clinging to Austrian-Hungary she leans upon a declining empire whose miserable collapse is drawing near, that that empire will soon be partitioned as was Poland amid the exultations of one-half the people who are now living in grumbling discontent under the Hapsburg sceptre.

LONDON, Nov. 10.—The *Standard* commenting on the election of Prince Waldemar to the Bulgarian throne says: "It is scarcely probable that the election will dispel the threatening clouds."

TIRNOVA, Nov. 10.—In the debate in the sobranje preceeding the election of Prince Waldemar, M. Stambuloff and others dwelt upon the necessity of an attempt to reconcile Russia, although their hearts were with Prince Alexander. These speakers said the re-election of their late ruler was impossible. The public received the news of Prince Waldemar's election with coldness, Prince Alexander being the popular choice.

WASHINGTON, Nov. 10.—Prince Komatsa, uncle of the mikado of Japan, called at the white house to-day, in company with Princess Komatsa and members of his suite, and paid his respects to the president.

SOFIA, Nov. 10.—After the election of Prince Waldemar to the Bulgarian throne, the president of the sobranje informed the deputies that he was convinced that Europe would ratify the prince's election.

LONDON, Nov. 10.—The duke of Connaught has been appointed commander of the forces in Bombay.

Parliament has been prorogued to Dec. 9th.

CHICAGO, Nov. 10.—There was a collision to-night near Ashland avenue bridge between a crowd of strikers and a squad of infantry, under Lieut. McMillan, who were guarding the bridge. The crowd of strikers and sympathizers, numbering about 50, was determined to prevent packing-house employes from crossing the bridge on their way back to the city at the close of the day's work. The crowd was charged by the squad several times and forced to retire temporarily, but increasing numbers added to its persistency, and a serious conflict seemed imminent. Finally Lieut. McMillan gave an order to load with ball cartridge. The crowd thereupon speedily dispersed, and the employes went on their way without further molestation. No one suffered serious injury.

The Packers' Association held a prolonged meeting with closed doors this evening, and, amid much talking, adopted resolutions which seem to be a complete back-down from their expressed determination to bar organized laborers from employment in the Chicago stock-yards. Mr. Baldwin, secretary of the association, said the resolutions mean just what they said, and that packers intended to run their business without dictation from the Knights of Labor. The resolutions are as follows: Wher eas, at a meeting on the 8th, resolutions were passed concerning the relations between employers and labor organizations; and whereas, we are convinced that said action is an intentional injustice upon numerous persons who may be members of such organizations; resolved, that said resolutions be rescinded and the following be adopted as being more in accordance with the mutual interests of employers and employed: Whereas, the packers are confronted with the fact that their employes are repeatedly leaving their employment without notice to them and to the great detriment of their business; therefore resolved, that while we will not exclude from employment members of such organizations, we will exercise the right to employ and discharge whom we please and conduct our business on the 10-hour plan and according to our best interests. Signed by all the members.

The certificate of evidence as contained in the bill of exception and record of court in the anarchist cases was completed to-day, and will be signed by Judge Gary to-morrow. It is expected that 24 hours later the matter will be laid before the supreme court. The document covers 16,000 pages of type-writing, the preparation of which cost $3,000. No record of state was ever more voluminuous or cost a like amount.

COLUMBUS, O., Nov. 10.—The official vote of the state election received at the office of the secretary of state gives Robinson (rep.) 340,895; McBride (dem.) 329,314; Smith (prohib.) 28,657; Bonsall (greenback) 1,902. Robinson's plurality is 11,581.

Fatal Shooting Accident.

Last Sunday afternoon, the 7th inst., a telegram was received in Yale that a man had been shot at Harrison river, and at first it was supposed that another murder had been committed by tramps, many of whom are traveling over the C. P. R. at this time of the year, and it is feared some will be heard from during the coming winter. On the arrival of the western bound train in the evening, it brought the body of Henry W. Bateson, who had left his home in Yale that morning on a shooting excursion to Harrison river accompanied by Henry Schofield and Charles Atherton. It would appear that while the three were standing on the line near the Harrison swing bridge they observed some waterfowl on the lake. Schofield fired, but missed the birds, and Atherton's gun did not go off. The latter, after opening the breech of his rifle, was about to discharge the left-hand barrel, when Bateson made some remark, which caused Atherton to suddenly turn around, and in doing so his foot caught in one of the railroad ties, turning him forward, and his gun exploded, the contents, No. 2 shot, entering the stomach of Bateson. The poor fellow exclaimed, "Oh, Charlie, you have done for me," and fell to the ground. Schofield immediately ran down the line to procure assistance, and finding that the bridge keeper was unable to leave his post, hurried on to the storekeeper, Mr. Barker. During Schofield's absence Bateson threw his arms around Atherton's neck and in great pain murmured, "Oh, Charlie, what will my poor wife say—this comes of shooting on Sunday, the Lord have mercy upon me," and continued to pray until Schofield and Barker came up, the train following soon after. The dying man was carefully placed on the train, and at Agassiz's hot bricks were placed at his feet and cloths soaked in warm water laid on his stomach, to relieve him of the fearful agony he was suffering. Every possible care and attention was paid by his two friends and others, but between Ruby Creek and Hope, and whilst Atherton was bending over him in tears, the poor fellow breathed his last. The deceased young man was employed as a blacksmith in the C.P.R. workshops at Yale, 32 years of age, born in Yorkshire, and leaves a widow and three young children.—*Colonist.*

A. B. Des Rochers, Arthabaskaville, P. Q., writes: "Thirteen years ago I was seized with a severe attack of rheumatism in the head, from which I nearly constantly suffered, until after having used Dr. Thomas' Electric Oil for nine days, bathing the head, &c., when I was completely cured, and have only used half a bottle."

Fire! Fire!

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver;
Representing Goldie & McCulloch,
Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Rich'd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Rand, Real Estate Broker; R. Balfour, Alderman; John Rankin, Real Estate Broker; Pither & Edson, Royal Hotel; H. F. Keefer, Contractor, C. P. R.; J. W. McFarland, Port Moody, to Vancouver and English Bay; F. C. Innes & Co., Real Estate Brokers; A. W. Ross, Real Estate Broker; Gravely & Spinks, Real Estate Brokers; R. C. Ferguson, Mgr. R. C. P. Mills. je30tc

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple, and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immensurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required, to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria.
