Figures Do Lie.

The Winnipegers have had an interesting picnic over their election of mayor. The candidates for the civic chair were Aldermen Pearson and Jones, and the contest was very close. On the evening of the day of election it appeared, at the close of the count, that Alderman Jones had been elected, and his friends forthwith hoisted him on their shoulders, carried him to a platform, and made him give a speech and afterwards "set 'em up" for the boys. There was great enthusiasm among the Jones party and they showered congratulations on one another over their hard-earned victory. Before the rejoicers had separated, however, their joy was turned to mourning by the announcement that there had been a mistake in the totalling up of the count, and that Alderman Pearson was elected beyond all doubt by a majority of six. The other party then had its innings, and the mayor-elect for the time being made his speech and returned profuse thanks for the honor conferred on him, and he likewise treated the boys. But these also were doomed to disappointment. The friends of Alderman Jones decided to demand a recount of the votes, because while a recount might place them in a better position, it could not make their case worse. The result was that Alderman Pearson has been counted out, and Alderman Jones counted in with a majority of five votes. The defeated candidate in this case no doubt realizes that the uncertainties of election business are very great.

The Toronto Election.

Details of the municipal contest in Toronto show many remarkable facts. Mr. Howland's actual majority was 2,167, which is 449 over his majority last year. The total vote polled was 16,099, an increase over last year of 2,231 votes. When it is remembered that Toronto has been the headquarters of Toryism and the stronghold of the liquor interest for many years, it will strike one as remarkable that the mayor and a majority of the city council this year are temperance men and Liberals. Mr. Howland has long been a leader in the crusade against intemperance and immorality. The political complexion of the council is summed up as follows: Reformers, 21; Conservatives, 15. But it was not a political contest, and the result is now a party triumph. The *Mail* as well as the *Globe*, and even more than the *Globe*, favored the election of Mr. Howland. The issue was that of clean government and moral reform against crookedness and iniquity. As soon as the result became known Mayor Howland went to Shaftesbury Hall which was packed with enthusiastic friends. When he entered, the vast assemblage stood up and sang the grand Doxology, "Praise God from whom all blessings flow." What a contrast to the usual reception of a party candidate by his victorious caucus! In his address Mayor Howland said the hymn just sung expressed his own feelings. This victory, he said, was one which gave the temperance party paramount control of the city against such influences as had controlled it. It was not a victory for the Reform party or the Conservative party, for Protestants or Catholics, but a victory of the people for the people. He felt personally very humble in the hour of triumph, recognising the greatness of the principle and the smallness of any man compared with the great issues which had been settled by this victory. Other speakers give utterance to similar sentiments, and the *Globe* declares that the election has brought into office "the best council Toronto ever had." It may not be possible to point out accurately the causes which have brought about such a change in the public sentiment of Toronto, but no doubt it is greatly owing to the persistent and faithful efforts of some princely men and women who have been for years devoting themselves to the work of reform. The visits of the evangelists Moody and Sam Jones and Sam Small has also exercised a powerful influence, because these men attracted great crowds and set people to thinking of better things than the accumulation of wealth by doubtful means and the devoting of one's self to personal ambition and selfish gratification.

"Mr. T. C. Wells, Chemist and Druggist, Port Colborne, Ont., writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure sells well, and gives the best of satisfaction for all diseases of the blood." It never fails to root out all Diseases from the system, cures Dyspepsia, Liver Complaint, etc., purifies the blood, and will make you look the picture of health and happiness.

City Council.

The regular meeting of the city council was held last evening. Present were Coun. Elliott in the chair, Couns. Bonson, Douglas, Calbick, Shiles.

A communication was received from T. McElroy, of the Toronto Rubber company, stating that 1,000 ft. Maltese hose had been shipped to the city. Hose $1.10 per foot.

A telegram was received from C. Drinkwater, Montreal, stating that the bonds described in the resolutions which passed the council December 27th, 1886, had been forwarded to Mr. Abbott.

On motion of Coun. Douglas his worship was instructed to acknowledge the receipt of Mr. Drinkwater's telegram and to write to Mr. Abbott stating that on receipt of the bonds duly executed to the satisfaction of the mayor and council Mr. W. C. Ward, manager of the Bank of British Columbia, would be directed to pay the $37,000 to such persons as the railway company may desire.

A reply to a resolution of the council was received from Mayor Dickinson, thanking the council for its good wishes and expressing a hope that many of the old faces would be found around the new board, as he knew they worked in the city's interests. The council was congratulated on the flourishing condition of the city.

W. J. Walker, city auditor, wrote to say that on account of the change in the city clerkship and for divers other reasons it was difficult to prepare a statement of the city's financial affairs, and that he was not ready with one for this meeting.

Two bills received were referred to the new council.

On motion of Coun. Douglas a vote of thanks was tendered to the press for the satisfactory manner in which the council proceedings had been reported.

Council then adjourned *sine die*.

EDITOR COLUMBIAN.—I learn that the teachers of our public school have been greatly disquieted by garbled reports of the few remarks I made at the Methodist church last Thursday evening. I am sure that no word fell from my lips that ought to disturb anyone's feelings. None who distinctly understood what I said could find any fault with the remarks I made on that occasion, as they were altogether of a general character and had no application to our schools more than to any other. The bullion is valued at ten thousand dollars. The men who had it in charge have been arrested. They claim to have been asleep when the wagon was broken into and the bullion abstracted.

The city was rocked from east to west at 4:08 o'clock this morning by an earthquake which lasted seven seconds. No damage.

SIMCOOK, N.H., Jan. 11.—The Simcook Opera House and hotel were burned this morning, and a large amount of other valuable property is in danger. Help from Manchester has been asked for.

BATAVIA, N. Y., Jan. 11.—Seven large buildings were burned here this morning, and at one time the entire city was threatened with destruction Insurance small.

MADRID, Jan. 11.—A fire in Alcazar palace, Toledo, Sunday, resulted in the total destruction of the building. The water appliances were very meagre and the firemen were obliged to allow the fire take its course and to prevent flames from spreading. During the progress of the fire three officers and seventeen men were injured, some of them seriously. The palace was recently restored at a cost of one million dollars.

WASHINGTON, Jan. 11.—Shortly before 3 o'clock this morning a fire in the upper storey of a handsome house, causing the destruction of $50,000 worth of property.

CINCINNATI, Jan. 11.—The conjectnre has been made that Prof. B. Schaff, who took morphine in the jail yesterday and died, was the bomb thrower at the Chicago Haymarket riot. This is based on the fact that his friends in jail were anarchists, and that two of them say he wrote many of the most incendiary articles in the Chicago anarchists organ before the riot. It is thought he feared trial in the police court here, would reveal his connection with the riot and result in his arrest for that crime.

CARLISLE, KY., Jan. 11.—A $50,000 fire occurred here to-day.

BURLINGTON, Vt., Jan. 11.—A dynamite factory at Plattsburgh, N. Y., was to-day destroyed by fire, and an explosion. The shock was felt here, twenty miles distant. Doors and windows were rattled as if by a heavy earthquake, and many hundred people ran into the streets. No lives were lost. The main factory was destroyed, but the storehouse near by, with a large amount of dynamite in it, escaped.

BERLIN, Jan. 11.—The Stadt theatre at Gottingen has been burned.

PARIS, Jan. 11.—Official despatches from Tonquin report that the French troops made an attack on a large rebel force concentrated at Thaubua, but were twice repulsed. During the fighting four French officers were wounded, five European and eight Tonquin soldiers were killed, and 15 Europeans and 27 Tonquinese were wounded. Reinforcements of artillery and infantry will be sent to the French at Strathoa.

EDINBURGH, Jan. 11.—No defense will be made by the Marquis of Queensbury in the suit his wife has brought for divorce.

SAN FRANCISCO, Jan. 11.—At 10:45 a. m. Spanishtown, Cal., was visited by the heavy shock of earthquake felt at this place at 4:15 this morning.

EXETER, N. H., Jan. 11.—Dr. Wm. Perry, the oldest person in Exeter and the oldest graduate of Harvard college, died this morning, aged 98 years. He was the sole survivor of the passengers on the Fulton, the first steamboat to ride down the Hudson river 79 years ago. He was a member of the class of 1811 in Harvard.

BERLIN, Jan. 11.—The reichstag was crowded to-day, the occasion being the calling up of the government military bill in its amended form for second reading. Gen. Von Moltke opened the debate in favor of the second reading on behalf of the government. He said he did not believe that any states should assume the responsibility of increasing the supply of combustible material which at present existed in a greater or less degree everywhere. Strong governments, he contended, were the best guarantee of peace, while the danger lay in the ambition of party leaders and their influence on public opinion. "If any state," said Gen. Von Moltke, "can work effectively to preserve peace it is Germany, who aims solely on the defensive. For this she must be strong and prepared," he continued, "to be involved in war. If this bill is rejected we shall most certainly have war. To-day's vote in the reichstag on the measure will not fail to have its effect abroad. The army alone renders possible protection to all other political institutions which must stand or fall with it. A grant for a short time will not be acceptable. The eyes of Europe are fixed on this body. I appeal to your patriotism to adopt the bill and show the world your readiness to make any sacrifice, even of your own adverse opinion, if the welfare of the fatherland is at stake." Baron Stauffenburg followed Von Moltke, and while he was speaking Bismarck entered. At the conclusion of Baron Stauffenberg's speech Prince Bismarck rose. He said the desire of all the military authorities of the empire is only opposed by Herr Richter, Herr Windthorst, and Herr Grilledberger. It was difficult to conclude peace at Frankfort, and it is still more difficult to maintain. A degree of intimacy and mental confidence exists between Germany and Austria such as never existed at any period of the German federation. We are bound to maintain peace for this quarter of the globe, but for this a strong army is required. Our relations with all the powers are of the best, and our good relations with Russia are beyond all doubt. I should have considered entering upon war on account of Bulgaria as an act of treason against my country.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant *methods of procuring business*, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe*. T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being noncorrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce*. Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. MORNING DESPATCHES.

Press Telegrams.

FORT BIDWELL, Cala., via San Francisco, Jan. 10.—Oary Reed who murdered James Rinn here on Christmas night was surrounded and killed about dusk last evening in the mountains about twenty miles north of here.

NORFOLK, Va., Jan. 10.—A wrecking str. has been engaged in stripping the wrecked German ship Elizabeth to-day and it is taken for granted that the ship is bound to go to pieces. Thus far 16 bodies of the lost crew have come ashore, the last one at 5 o'clock this evening. From a marked resemblance of one of the bodies recovered to that identified as Capt. Halberstadt it is supposed to be a brother or son. The remains of the 5 life-saving men were buried to-day. The people from many miles around attended the services. On one of the bodies a note was found written at Bremen, Nov. 5th, addressed to Frank H. Shaler. Two of the bodies had papers identifying them as Gustave Bolthaver and Gammerman. A sailor's bag has been washed ashore with the name F. Malden written on it.

CHARLESTON, Jan. 10.—There was a slight earthquake tremor here about 8 o'clock to-night. It was felt at Sumville very distinctly but no harm was done.

PHILADELPHIA, Jan. 10. — Alice Oates, the well-known comic singer died this evening at the residence of her husband. She had wasted away greatly under a painful complication of diseases and death came as a welcome relief.

DUBLIN, Jan. 10.—As an outcome of the prohibition of nationalist meeting, which was announced to be held to-day on the occasion of the threatened wholesale evictions at Rosleathere, there was a collision between a crowd of about 4000 persons who were waiting to receive Mr. Dillon and a force of police and drafted village peasants, the latter of whom were armed with sticks. The police used their batons freely and succeeded in dispersing the crowd. Dillon and the Catholic clergymen who were present, while strongly protesting against the action of the police, persuaded the people to return to their homes. The evictions were postponed.

Mr. Jno. Dillon has commenced an action against Inspectors O'Brien and Davis to recover £2000 damages for malicious prosecution and assault. £1000 damages is for the seizure and detention of moneys and documents in connection with the arrest of himself and others at Loughrea for receiving tenants' rents.

Protestant churches in Ireland will raise a fund to commemorate the Queen's jubilee.

DETROIT, Jan. 10.—The report of Rev. Dr. Ormsby, treasurer of the Irish National League, published to-day, shows receipts and expenditures for the parliament fund during the last five months as follows: July 30th the balance on hand was $60,439.52. Since then $28,769.64 has been received and $65,000 transmitted to the trustees of the Bank leaving a balance on hand of $23,877.02.

BERLIN, Jan. 10.—The official newspapers say that Prince Bismarck will certainly interfere in the debate on the army bill in the reichstag and that he will insist upon the adoption of the 7 years terms conceding nothing to opponents of the measure.

The Wesphalien *Mercury*, clerical official organ, declares that if the government cannot modify the septennate scheme the centre will be signally obstinate and will not sanction a term longer than 3 years.

PARIS, Jan. 10.—*La France* declares that it has authentic information that Germany, Italy, and Spain have formed an alliance against France and that ex-Marshal Bazaine is among the prime movers. The story is discredited here.

CHICAGO, Jan. 10.—Michael Davitt and wife, who are here en route to Ireland, were given a dinner this evening by Mr. and Mrs. Alexander Sullivan at which Bishop Feear and several other prominent Catholics were present. Features of the menu: home rule pudding, California sauce, ice cream, orange and green, with Irish potatoes.

KANSAS CITY, Jan. 10. — $1800, amount of mortgage on Mrs. Witrock's house in Leavenworth was paid through the loan agency in this city to-day, the money having been sent here as alleged from the Adam's Express Co. Fred Witrock's plea was that he robbed the express to discharge this debt and it was said he stipulated with the detectives it should be paid.

SAN FRANCISCO, Jan. 10.—The janitor of the Montgomery block, corner of Montgomery and Washington sts., this morning discovered Col. Henry P. Irving, a well-known lawyer of this city, lying insensible on his bed in a room. The gas was turned on, and it was evident that Col. Irving was at the point of death from asphyxiation. A doctor was called in, but death resulted in 15 minutes. The deceased was a native of the state of Virginia, and aged 83 years. He was undressed when found, and lying across the bed. He left the gas turned on accidentally.

The Abbott Opera company opened to-night in "Traviata" at the Baldwin theatre to a large and fashionable audience. Miss Abbott was in excellent voice and was warmly welcomed. They will go to Portland for a season, returning to the Northern Pacific railway.

LONDON, Jan. 10.—The composition of the new cabinet was announced this evening. Lord Salisbury becomes secretary of state for foreign affairs, the Rt. Hon. W. R. Smith first lord of the treasury, the Rt. Hon. C. J. Goschen chancellor of the exchequer, Rt. Hon. Edward Stanhope secretary of war, [illegible] and Sir Henry Holland secretary of state for the colonies. There is no change in the other cabinet officers. The Earl of Iddlesleigh repulsed Lord Salisbury's offer of a privy seat. Lord Iddelsleigh denies that the condition of his seat debars him from accepting office, and he withdraws from office for life under a strong sense of having been ill treated. His personal friends explain that he preferred his resignation to enable Lord Salisbury to form a coalition cabinet. When the prime minister's efforts in that direction failed Lord Iddlesleigh considered himself entitled to hold the leading portfolio. His lordship in a letter contradicts his alleged ill-health and says his father, family, friends and medical advisers concur in the opinion that the interesting duties of the foreign office have had a beneficent effect upon his health and that he is now stronger than at any time since he left the house of commons. Lord Salisbury's supporters state that they are glad to get rid of Lord Iddlesleigh, as he was of no benefit to the foreign office. Lord Iddlesleigh's son Henry, who is surveyor general of ordnance, threatens to resign, but it is thought unlikely that he will abandon an office which yields him yearly an income of £1500.

Negotiations between Mr. Chamberlain and Mr. Morley are tending toward an agreement on the land bill on the basis of Mr. Chamberlain's former proposals to limit the operations of the bill to the purchase of smaller holdings, thus requiring a total capital guaranteed by the exchequer of £15,000,000.

Rord Randolph Churchill, replying to an address of confidence from the Primrose League, expressed gratification and satisfaction that the signers of the addrefs are more generous in their judgment than many conservative members of parliament who have condemned him, although they have no information as to the causes of his resignation. He says he cares little whether such hasty and adverse criticism modifies or not after he has been allowed to make a public explanation, the approval of such persons being as worthless as their disapproval.

The *Telegraph* lays stress upon the many rumors of war. Now Russian influence favors the Franco-German conflict in order to enable her to carry out her own eastern plans.

Henry Stafford Northcote, son of Lord Iddleseigh, has contrary to expectation resigned the office of surveyor general of ordnance.

British Columbia's Exhibit.

A Montreal paper says: It is a common thing to have Britfsh Columbians described as wanting in enterprise and as being antiquated in their methods. Those who have been educated to hold such opinions of our brethren of the Pacific coast would have such ideas very much disturbed by visiting the British Columbia exhibit which is now being shown by the Canadian Pacific Railway Co. in New England. The newspapers of New England are loud in their praises of this exhibit. The *Democrat*, of Plymouth, Mass., says: "It is very much the best agricultural exhibit we ever saw." This is pretty strong testimony as coming from a Massachusetts Yankee. We cannot name all the exhibitors, although everyone deserves special mention, because many of the specimens arrived without the sender's name attached; whether it had been rubbed off or never put on we cannot say, but it is a great pity, for among these are some of the finest specimens. We saw a sample of spring wheat grown by Mr. A. B. Knox, Okanagan, very bright in color and very plump and large, which was pronounced at the Toronto and Sherbrooke exhibitions to be some of the finest looking wheat shown. Mr. Reece sent what was perhaps the best wheat where all was so good. To describe the apples, pears, vegetables, etc., the only adjective we can use is colossal. Golden russets, baldwins, Northern Spies and 20oz. pippinsgrown by S. W. Kirkland, of Ladner's Landing; russets by Mrs. Evans, of Chilliwhack; desert apples by Wm. Dowlehan; gloria mundi, gravensteins, norther spies, and Dutch magnolias by A. C. Wells; white oats from Chilliwhack; enormous beets, carrots, 20-oz. pears, mammoth potatoes, some weighing 41 lbs., very fine Indian corn and well-cured specimens of bunch grass, sender unknown, among the exhibits. There was also a box of minerals from Illecillewaet. The specimens are very rich and lead one to suppose that money could be profitably invested in Mr. D. W. Corbin's neighborhood. Mr. Corbin sent these minerals. A small box of quartz from the Quesnelle Mining Co., sent by Jas. Reid, of Quesnelle, is most attractive and has been pronounced by judges to be of a very profitable kind, being very soft. It is gold and silver bearing quartz and comes from Hixon Creek, sixty feet from the surface. All these fruits, vegetables, and minerals were exhibited at the exhibitions of Toronto and Sherbrooke, and they are now visiting in the C. P. R. exhibition car all the New England towns. The enterprize shown by the worthy farmers and miners in sending their products so great a distance is commendable and will have as a sure result the bringing to their fertile valleys a number of the very best class of settlers, both from the eastern provinces of Canada and from the New England States. We wish we had space to quote more of the comments of the New England newspapers. Suffice it to say that none but the most favorable opinions were expressed concerning the exhibits from British Columbia.

A friend, who had just returned from a country boarding-school examination, told me of an answer a child gave the examiner, which I think too beautiful not to be recorded. The examiner asked the class the meaning of eternity, when a little girl stuck up her eager arm and said, "Please, sir, God's life."—*London Globe.*

I have lots of customers, who would not be without it over night.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. MR. G. ROBERTSON,

Representing Goldie & McCulloch,

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:
