Our Prospects.

There has been no period in the history of Westminster when its prospects of permanent increase were brighter than they are at the present moment. During the past twelve months the city has made immense strides. The value of permanent improvements last year was estimated to be $250,000, but no one ever knew a time when so many buildings were in process of construction and in contemplation as now. The great event of the year was the completion and opening of the branch line connecting this city with the Canadian Pacific Railway. That brought us at once into intimate contact with the whole business world, and supplied the one thing needed to place us among the most favored commercial cities of the province. Along with the railway came the gas works, which added no insignificant item to the programme of advancement. The lighting of the city with gas has done a great deal more than some people suppose to improve it in the eyes of visitors, and stamp upon it the character of permanence. In addition to this, through the enterprise of the C. P. R. and Postal Union, we obtained a vastly more efficient and far-reaching telegraph service. To these very substantial gains it is proposed this year to add much in the way of erecting substantial buildings, and in this a great many citizens will be able to lend material assistance. The adoption of a fire limits by-law last year is producing the results its advocates predicted. Instead of paltry wooden buildings going up within the area covered by the by-law, we are going to have large and substantial brick structures that will be an ornament to the city. It is also intended to make arrangements this year for the erection of a substantial city hall, somewhat in keeping with the dignity and standing of the Royal City. It has been a subject of wonder that a city with a white population of over 3,000, the largest and wealthiest and most influential city on the mainland of British Columbia, should have existed these many years without a public hall of its own. The erection of a $10,000 city hall will put an end to that wonder, and will materially improve the aspect of the city. This year, also, we hope to see the new woollen mill in operation, adding an important item to our local industries, and increasing the importance of this city as a central market for the farming community by which we are surrounded. When the council has negotiated its loan of $75,000, there will be available a considerable sum for other improvements which will add to the attractiveness and conveniences of the city. Among the projects contemplated in connection with this loan are the laying out of a public park, the establishment of a public market, and a large amount of street work. All these schemes are necessary to our requirements. There is a common opinion prevailing among people who have recently arrived in this province that Westminster is, all things considered, one of the most desirable locations to be found anywhere in the country. It has a fine situation, with surroundings that in a few years will be exceedingly attractive, and in point of climate it has many advantages over all the other provincial cities. There is not a healthier city in Canada, and we doubt if there is one anywhere more easily preserved from the contaminating agencies incident to a rapidly-accumulating population. We have a climate as mild as that of any part of the province, and have the advantage of being free from the chilly winds and sudden changes to which others are sometimes subject. Then, the educational facilities of Westminster are surpassed nowhere in the province. Our high school and public schools are known to be excellent, and besides these there are private institutions where may be pursued various branches of study not taken up in the public schools. From a commercial point of view no city in the province is situated more advantageously than this. It commands the trade of the whole of Westminster district, because it commands the trade of Fraser River, the great natural trade artery of the district and the province; and its railway facilities are equal to those of any other city. It is expected that before long the mouth of the Fraser River will be so improved as to admit ships of all classes, and these ships will experience no difficulty in reaching this city. The commencement of regular ocean shipping will be an important era in our civic history. In view of these things, let not the people of Westminster experience discouragement if affairs do not shape themselves just as would best suit them. We have only to put forward the energy that belongs to us, and in the exercise of common sense and enterprise we shall speedily attain to the high position towards which destiny is undoubtedly leading.

NEW WESTMINSTER, B. C.

Board of Directors, 1886-87:

C. M. McNAUGHTEN, Vice-President
W. H. KEARY, Sec.-Treasurer.

MESSRS.
W. N. BOLE, M.P.P.; H. ELLIOTT;

DIRECTORS' ANNUAL REPORT.

GENTLEMEN—In presenting our report for fiscal year ending 31st March, 1887, we beg to state that it will be an utter impossibility to run the hospital free of debt on the grant just voted by the government for the ensuing financial year.

The surgeon has been attentive in his duties and reports a large increase in the number of patients admitted during the year, shewing also that we have received patients from all parts of the province.

There are a number of incurables in this hospital, some of whom were brought from Victoria hospital years ago. The sum of $1,000 a year has been voted for a convalescent home in Victoria, the last few years. The Board think, therefore, that some of these incurables should be shipped back to Victoria.

A great number of improvements have been made during the year, walls and floors repaired, a wash-house built, the two cesspools thoroughly cleaned; the building being old, requires constant repairs, which entails considerable expenditure.

The hospital has been filled to its utmost capacity during the whole year.

The Board desire to thank subscribers for generous substriptions, lists of which are annexed, and without which it would have been found impossible to have kept the institution free of debt; also the congregations of Holy Trinity Church, St. Andrew's (Presbyterian), Methodist and Baptist Churches for hospital Sunday collections, and the following ladies and gentlemen for old clothes, linen, books, papers etc.:—Mesdames C. T. Woods, C. E. Woods, Major, Lennie, H. Elliot, W. J. Armstrong, W. B. Townsend, Douglas, Edmonds, J. W. Harvey, Baker, W. H. Keary, D. Hennessey, Cummings, A. M. Herring, Bronskill, Sisters St. Ann's Convent, ladies W. C. T. U., Bachelors' Ball Hatchery, Messrs. I.B. Fisher, Z. S. Hall, R. C. Bentley, J. S. McDonnell.

The surgeon's report is appended hereto, and gives full details of the work accomplished for the year.

The average cost per day for each resident patient in the hospital, which includes the disbursements on out-door patients, is 67 cents.

W. H. KEARY,
Hon. Secretary.

SURGEON'S REPORT

FOR YEAR ENDING 31ST MARCH, 1887.

To the Members of the Board of Directors:

GENTLEMEN.—I have the honor to herewith present the report on this Hospital for the year ending 31st March, 1887:

Number of Indoor Patients	103
" Outdoor "	60
" Remaining in Hospital	18
" Died	14

Causes of death of the fourteen who died and length of time in Hospitals:—1 typhoid fever, 6 dys; 1 alcoholism, 15 dys; 1 effects of fire at Vancouver, 4 mos. 10 dys; 1 bronchitis, 4 dys; 1 inflammation of bowels, 8 dys; 1 consumption, 2 mos. 26 dys; 1 syphilis; 0 dys; 1 paralysis, 4 dys; 1 aneurism (popliteal), 4 mos. 26 dys; 1 general debility, 2 mos. 27 dys; 1 aneurism (arota), 12 dys; 1 old age, 6 dys; 1 paralysis, 23 dys; 1 dropsy, 5 dys; total, 14.

Although the number of deaths is large the short number of days in the Hospital of a large proportion of them shows that they came in in a hopeless condition.

The places where the indoor patients were received from are as follows:

Victoria	5	Ladner's Landing	2
Cariboo	1	Langley	2
Kamloops	5	Glover Valley	1
New Westminster	35	Harrison River	1
Bonaparte	1	Mud Bay	3
Yale	4	Chilliwhack	1
Port Moody	6	North Arm, Fraser	1
Hastings	4	Boston Bar	1
Moodyville	8	Cassiar	1
Port Haney	3	Fraser River	3
Vancouver	22	Mission	2
Hope	1	Pitt Meadows	1
C. P. R.	9		
Total	103		

The number of incurables now in the Hospital is twelve [12]. This large number requiring to be taken care of from year to year renders it impossible to make a number of desirable improvements in the building, owing to the limited supply of funds. I have introduced the table of residences to show the people of British Columbia that they all ought to take an interest in helping on this institution, which is increasing in usefulness every year, as may be seen by comparing the number of indoor patients of the previous year —seventy-five (75)—with this year—one hundred and three (103).

We still require a lot of draining to be done about and from the building. The floors and walls have been improved and the new wash-room is a great addition to the comfort of the place.

I have great pleasure in thanking a number of friends of the Hospital for presents of clothes, old linen, pictures, books and papers. Again I have to thank the steward, Mr. Charles Digby, for his constant attention to the cleanliness of the building and his kindness and attention to the wants of the sick and his readiness in carrying out all my directions. Before closing this report I must offer my sincere thanks to the medical gentlemen who so kindly offered their assistance to myself whenever required during the past year.

I am Yours Faithfully,
R. I. BENTLEY, M.B.,
Surgeon R. C. H.

TREASURER'S REPORT.

In presenting the accounts for the past year, the Treasurer begs to call attention to the fact that the outlay has been rigidly scrutinized, in which he has been ably assisted by the Steward, Mr. Digby. There seems little prospect of any reduction of expenditure. You will notice that the subscriptions have been liberal and have been a great assistance in keeping the institution free of debt. It is to be regretted that the Government have reduced the grant to the Hospital from $4,500 to $3,500.

W. H. KEARY,
Treasurer.

"DIAMOND CUT DIAMOND."

Familiar Illustration of a "Jewing Down" Contest.

The one price system is so strictly adhered to in city stores that one seldom hears of a contest to be described. Such contests are common in the country and villages.

The following bartering overheard in a small store in a rural district, furnishes a not exaggerated illustration.

An elderly woman, with keen gray eyes looking sharply through steel-bowed spectacles, enters, and casually examines several bolts of lawn lying on the counter.

"Ah, good day, Mrs. H——," says the proprietor, coming briskly forward, anticipating a sale, "looking for lawns?"

"No, I done as I was," says the possible customer, guardedly; "I was just noticing these."

"They're pretty patterns. I just got them in."

"They're all so light."

"Light colors are all the rage this Summer. But here's a black-and-white piece that's just the thing for you. Now, isn't that neat?"

"Yes, rather; but it ain't just what I like. How much is it?"

"Fifteen cents a yard."

"Ain't that dreadful high for lawns?"

"Not for lawns of that quality. Just see how fine it is."

"Yes, but they're selling lawns ev'ry mite and grain as good as that in the city for eight and nine cents."

"Impossible, Mrs.——!"

"Indeed, they are! And one of my neighbors got a good piece for seven cents."

"They are not such goods as this."

"It's pretty nigh the very same thing. I haun't calculated on giving more than ten cents."

"Why Mrs. H——, this coat more than that at wholesale?"

"Oh, I guess not. Anyhow, I can't give but ten cents a yard."

"I can't take it."

"I won't give any more."

"Well, just examine that lawn closely now."

"It looks well enough, but I ain't all sure that it won't fade."

"I'll warrant it not to fade. It's a standard make and fast colors."

"Well, how many yards are there in the piece?"

"Thirteen; just a good full pattern."

"Eleven would be a great plenty for me."

"Now, I'll tell you what I'll do. I'll let you have the piece for fourteen cents a yard, seeing as it's all I've got left."

"Can't you say an even twelve cents to an old customer like me?"

"No, really, I could't."

"Fourteen cents is too much for lawn that's selling ev'rywhere for ten cents."

"Oh, I think you're mistaken."

"Well, see here. I'll give you twelve and one-half cents a yard for it."

"No, I couldn't go below thirteen cents and wouldn't let anybody but you have it for that."

"Well, I'll give you thirteen cents if you'll call it twelve yards."

"But there's full thirteen yards in the piece."

"Well, call it twelve and I'll take it."

"Can't do it."

"I reckon you'll throw in thread and buttons and waist-linings?"

"Couldn't do it for that money."

"Well, say thread and buttons then?"

"I'll throw in a spool of thread."

"And a card of hooks and eyes?"

"Well, I don't know—yes, I will."

"Now, why can't you say buttons too?"

"I really cannot. I am losing money now."

"And you can't make it twelve and one-half cents a yard?"

"No."

"Well, I guess I won't take it; I ain't needing a lawn dress this summer, anyhow."—[Exchange.

The Temples in the Chapel at Vance.

The following is from the pen of the late Lord Beaconsfield, better known as Mr. Disraeli. Readers of our Nation will appreciate this poem in prose which has an interest beyond itself as significant of the fervid religious feelings of the author.

"Manifold art had combined to create this exquisite temple and to guide all its ministrations. But to-night it was not the radiance of the altar and the splendor of stately priests, the processions and the incense, the divine choir and the celestial harmonies resounding and lingering in arched roofs, that attracted many a neighbor.

"The altar was desolate; the choir was dumb; while the services proceeded in hushed tones of subdued sound, and sometimes even of suppressed anguish; gradually, with each pause and change, a light of the altar was extinguished, till at length the 'Miserere' was muttered and all became darkness.

"A sound as of a distant and rising wind was heard, and a crash, as it were the fall of trees in a storm. The earth is covered with darkness and the veil of the Temple is rent.

"But just at this moment of extreme woe, when all human voices are silent and when it is forbidden even to breathe 'Amen,' when everything is symbolical of the confusion and despair of the Church at the loss of her expiring Lord, a priest brings forth a concealed light of silvery flame from the corner of the altar.

"This is the light of the world and announces resurrection, and then all rise up and depart in silence."

It Would Keep the Court Busy.

A comical case was recently brought before the Probate Court in this district.

A petition was preferred to the court to put a woman under a conservator, on the ground that she proposed marrying a worthless fellow, who was in pursuit of a little money she had saved. It does not appear that she was of unsound mind except in this particular direction.

Unluckily the suit was withdrawn, and we shall never know whether a court of probate can be put to any such useful purpose as the petitioners claimed. If it is to place every one under a conservator who designs marrying foolishly it will certainly be a very busy tribunal.—[Litchfield (Conn.) Enquirer.

The Gift of Great Utterance.

Some years ago there lived in Greene county a much interested citizen, who, if he were living to-day, would have no use for a telephone.

Without any apparent effort he could make himself distinctly heard a distance of five miles. It was a common thing for neighbors living two and three miles to hear the orders to his hands in the morning. His whispers were heard further than loud speaking of ordinary men.—[Greensborough (Ga.) Herald.

He Knew Her.

Mrs. Citon de Voreadd: "Is this bridal veil material good? Will it wear?"

Moses Schaumburg, Jr.: "You pay it was first class. It will never vear out no matter how many times you tear it. Don't you vant some of our indestructible corset clasps, Mrs. Citon de Voreadd?"

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practically impossible previous to the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal medicine.* Being immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent cure for diseases, disorders and ailments of the Kidneys, Bladder and allparts of the Urinary System, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

Daily British Columbian

Monday Evening, June 13, 1887.

The council meet to-night.

A clean sheet at the police court this morning.

The Dunsmuir arrived Saturday evening from Nanaimo.

The chain-gang were set to work on the streets this morning.

The William Irving went up to Yale and way ports this morning.

The famous French *artiste* Rhea, opens to-night in the Victoria theatre.

Senator McInnes has withdrawn his bill granting free passes to legislators and judges.

A Chinaman fell beneath the wheels of a construction train near the Junction on Saturday and was killed.

It is proposed to christen the new park, which is to be opened during the jubilee celebration, the Queen's Park.

Mr. Bonson successfully erected his tall flagstaff to day. To-morrow morning he will hoist the jubilee flag up about 100 feet.

Tenders are asked for the erection of an agricultural hall at Chilliwhack. For particulars see advertisement in another column.

The rifles and artillery will parade at the Drill Shed to-morrow morning at 11 o'clock, and march to the battery to fire the jubilee salute.

The str. Bithet cleared at 1 o'clock this morning for Victoria. She had on board about 100 tons of freight, most of which is composed of general merchandise.

Five Dominion surveying parties are at work in the province, and section posts are being planted along the line of the Canadian Pacific from Port Moody to the summit of the Rockies.

The streams in the mountains are subsiding slightly. A few days ago they were booming at a furious rate, carrying everything before them, being no respector of bridges, railway track or toll roads.

The eastern train arrived on time to-day with its usual complement of passengers. Among the passengers were a number of Norwegian emigrants bound for Seattle. They embarked in the Bithet for Victoria.

Engine No. 96 of the C. P. R. came in contact with a passenger coach on Saturday evening in the railway yard. The pilot of the engine was considerably damaged. It was taken to Vancouver yesterday to be repaired

Messrs. Insley & Wintemute's sailing-boat the "Laura," has been overhauled and painted and is being rigged with new sails. She presents a neat appearance and looks as though she will be second to none in to-morrow's race.

The str. Adelaide left yesterday morning at 7:30, with a party of excursionists for St. Mary's Mission. She returned at 7:30 last evening. Those aboard report having a pleasant time at the Indian gathering at the Mission.

The Chinese are gradually gaining a foothold in Vancouver, and are now ten times stronger than they were three months ago. One of the tyhees is building a row of cabins and is reported to have purchased the land on which he is building.

We learn that Mr. Collins, a noted English mining engineer and expert, is expected to arrive shortly for the purpose of inspecting the silver mine lately reported to have been sold to an English syndicate for one million. Mr. Collins will probably also examine the Queen Silver Mine.

We have received a very cordial invitation from the mayor and chamber of Commerce, on behalf of the citizens, to attend the celebration of the completion of the Northern Railway to Tacoma. This celebration is to be on the 4th and 5th of July, and promises to be in every way worthy of the occasion. Our friends across the boundary know right well how to celebrate when there is a good cause.

Mr. R. U. Winslow, Toronto, writes: "Northrop & Lyman's Vegetable Discovery is a valuable medicine to all who are troubled with Dyspepsia. I tried a bottle of it after suffering for ten years, and the results are certainly beyond my expectations. It assists digestion wonderfully. I shall myself with no apprehension, as I can now eat entirely free from distress, which every dyspeptic will know, and unpleasantness after each meal."

GOOD TIME.—A cablegram was received from Mr. Hugh Boyd on Saturday last. It stated that he had arrived at Belfast on the preceding day. He experienced a pleasant voyage across the Atlantic and had arrived in Belfast 15 days after leaving Westminster.

APPOINTMENT.—The following appears in the *Canadian Gazette* of the 4th instant:—British Columbia Brigade of Garrison Artillery, No. 1 Battery, New Westminster—To be 2nd lieutenant provisionly: Bombadier Thomas Mowat, *vice* James Edward Phillips, whose resignation is hereby accepted.

SCHOOL TRUSTEES.—The annual election of school trustees for the city will be held next Monday, 20th inst., in the Council Chambers at Hyack Hall. The present trustees are Messrs. J. S. Clute, T. J. Trapp, and J. A. Calbick, who retire this year, and Capt. Pittendrigh, Wm. Johnston, and Wm. Ross, who retire next year.

LATEST FROM GRANITE CREEK.—The latest reports from Granite Creek are to the effect that very little mining is being carried on except on benches. The water is very high there at present. Some excitement is caused by the report of the discovery of some rich quartz ledges and placer diggings in Rock creek. About 75 men are there now.

THE JUBILEE.—The COLUMBIAN staff would be well enough pleased to shut up shop and take two holidays like white men in honor of the Queen's jubilee, but as subscribers might object, we have decided to issue a paper as usual to-morrow, and take Wednesday only as a holiday. There will, therefore, be no COLUMBIAN issued on Wednesday.

FLOWER THIEVES.—Several residents of the city, who are possessors of pretty flower gardens, have been very much annoyed lately by the depredations on their gardens of bands of children, who pluck all the choice blossoms and otherwise mutilate the flower beds. To say the least this is very annoying, and should these youthful flower-thieves continue their pilfering depredations no doubt the assistance of the police will invoked to check this nefarious practice.

THE BAZAAR.—Our readers are reminded of the bazaar to be held in the Drill Shed to-morrow, commencing at 11 a. m. The ladies have provided a large number of useful and fancy articles which it is announced will be offered at fair prices—*and no person will be solicited to buy!* Luncheon will be served at noon. Refreshments during the day and evening. A conversazione will be held in the evening, with music, refreshments and promenading. Admission in the evening 25 cts.

MAPLE RIDGE SCHOOL ENTERTAINMENT.—An excellent entertainment in behalf of the public school was given on Friday evening, 10th inst., at Maple Ridge. The programme consisted of recitations, vocal and instrumental music. The talented vocalists Mrs. Seccombe, Mrs. Webber, the Misses Pemberthy and Braden, and Messrs. Harris and Robertson, were frequently encored. Some excellent recitations were given by the scholars. The proceeds amounted to $18.55, which will be expended on prizes to be awarded at the closing exercises of the school.—COM.

KICKED BY A HORSE.—A small child of Mr. Robt. Wintemute met with a serious accident this morning. It is supposed that the child, who is a very fearless little girl, was chasing some of the horses that are allowed to run at large on our streets, and that one of the beasts kicked her. She was found unconscious, and carried into the house and medical aid sent for. The doctor, on arriving, examined the little one. The wound consists of a deep gash in the forehead. Some of the bones around the eyes are fractured, but it is not thought that the injuries are very serious. At last accounts the little girl had recovered consciousness and was doing well.

THE OLD LOCKUP.—In company with the mayor and a few other citizens the provincial secretary to-day went through the old gaol grounds which have long been an eye-sore to the region where they are situated. It was agreed to have the buildings and the old walls pulled down and the lot cleared off and graded, and the provincial secretary gave instructions to that effect. Persons whose residences or offices are situated in this vicinity will be delighted to learn this. It is hoped that next year a bill may be passed through the legislature conveying this site to the city in consideration of the corporation having given up possession of the square upon which the new gaol was built.

THE PARK.—This morning the mayor and several other prominent citizens waited on the provincial secretary with a view to obtaining permission to occupy a portion of the park on jubilee day, and make certain improvements until such time as by proper legislation the land could be handed over to the corporation. The provincial secretary said he was in favor of the park going to the city for the purpose of making it a public park, and would lay the matter before the executive council. The deputation came away from the interview with the impression that it would be safe enough to go on with park improvements and trust to the willingness of the government to secure the necessary legislation to give possession.

A. D. Noyes, Newark, Michigan, writes; "I have enquired at the drug stores for Dr. Thomas' Eclectric Oil, but have failed to find it. We brought a bottle with us from Quebec, but it is nearly gone and we do not want to be without it, as my wife is troubled with a pain in the shoulder, and nothing else gives relief. Can you send us some?"

Job printing of all kinds neatly done at the COLUMBIAN office. Prices will be found lower than at any other office in the province.—*Adv.*

DISAPPOINTED NORWEGIANS.—It was stated in this paper not long ago that a number of families (about 20) from Norway had arrived and gone to Valdez Island with a view to establishing a Norwegian colony there. It was the intention of these people to engage in fishing, and in connection with this they proposed to carry on farming operations on a small scale. A few days ago the party returned, and they are now in this city awaiting developments. They say that they came out to the country on the strength of a report from two Norwegians who had been sent out for the express purpose of examining the situation and resources of the province. That report was favorable, the commissioners having selected a site for the new settlement on Valdez Island, and secured from the government a free grant of 80 acres for each family. They declare that the report of the commissioners, however, was not a true statement of facts, and that the circumstances of the proposed location are not at all agreeable to them. Complaint having been made to the provincial secretary, who happened to be in the city this morning, he made arrangements at once to send two or three representative men of the party up the coast to make such explorations as may seem judicious so that they shall be able to find another location more suitable to their circumstances. Mr. Donald McGregor, who is intimately acquainted with the coast and inlets and logging camps, has charge of the party as guide. He expects to start in a few days, and will probably be absent two or three weeks. These twenty families are the vanguard of about 100 Norwegian families ready to come to British Columbia as soon as sufficient assurance has been received that they can better their circumstances here. The prompt action of the government in sending out an exploring expedition with the object of securing this colony is most commendable.

Personal.

Hon. Jno. Robson left for Victoria on the Rithet to-day.

W. W. McMillan (McMillan Bros.) of Winnipeg, is in the city.

John Hendry and C. M. Beecher, of the Royal City Mills, are in Vancouver to day.

E. E. Rand, of Vancouver, and A. Rand, of this city, returned from Harrison Hot Springs to-day.

D. McNair, of the Royal City Planing Mills, returned from Port Hammond on the C. P. R. to-day.

The Pacific Liners.

The Abyssinia Soon to Arrive.

Capt. Webber, manager of the C. P. R. Pacific steamers, states that it is not the intention of the steamers to call at Victoria, either on the inward or the outward voyage. The moment the Abyssinia touches the wharf at Vancouver the unloading of her cargo will begin. It will be sent onward to New York on express trains and there transferred to one of the fast lines of ocean steamers. It is the desire of the company to make the fastest possible time between Hongkong and Liverpool. At Vancouver she will load 3000 tons of Wellington coal, which will be transferred across from Departure Bay. She will leave on the 20th inst. on her return voyage. The captain says the result of the first voyage is eagerly watched all over the world, as to a certain extent it will decide the future channels of commerce. It was a mistake in telegraphing that her passenger list of Chinese was so large, there being only eight instead of eighty. These will be sent to 'Frisco by the first outgoing steamer.

Public School Report.

At a public meeting in the Hyack Hall this morning (Mr. J. S. Clute, chairman of the school board, presiding), the city school trustees presented their annual report, which was read by the secretary, Mr. T. J. Trapp, as follows:

The board of trustees for the New Westminster public and high schools begs most respectfully to report:

That the different branches of the public and high schools are in a flourishing condition; that the number of scholars that has been in attendance during the year has been 423, and the average attendance 211; that the children have shown a marked improvement in their studies, and that 13 pupils have passed for the high school. There has been a great increase in the number of pupils attending the schools, especially in the lower divisions, and the government have made arrangements to furnish another room, which will be available after midsummer, and to provide for another teacher. The government have met the board in this particular in a very liberal manner and have promised to provide more suitable accommodation the coming year.

The appropriation for incidental expenses has been expended in the usual way. The school grounds and buildings are in good repair, and with present arrangements carried out the board will have much cause to congratulate the public generally upon the position of educational affairs in this city, and they take this opportunity of expressing their high appreciation of the efforts of the teachers to advance the pupils and make the schools under their charge (what they are to-day) second to none in the province. In conclusion, the board would most earnestly call the attention of the parents of pupils in attendance at the public schools to the advisability of being present at all examinations as their presence on such occasions gives encouragement to both teachers and pupils and evinces an interest in the school and the cause of free education.

T. J. TRAPP, Secretary.

The Canadian Pacific Railway is seeking a direct route and entrance to Boston, and is about leasing the Boston, Lowell and Maine line. The price to be paid, it is understood, will be the value of its shares based on an 8 per cent. valuation for the first five years and 7 per cent. thereafter. The lease is for 99 years.

The First C.P.R. Steamship.

The Abyssinia Coming Up the Straits.

We are indebted to the C.P.R. telegraph service for a dispatch dated at Vancouver at 3:30 this afternoon, stating that the steamship Abyssinia, the pioneer steamer of the C.P.R. trans-Pacific line, is passing up the Straits. Mr. J. S. Clute, collector of customs at this port, received a dispatch stating that the Abyssinia will reach Vancouver at 9 o'clock to-night. She will not touch at Victoria. Mr. Peter Grant, of the customs, goes over to-night to receive her, and Mr. Clute will go over in the morning.

Jubilee Day.

PREPARATIONS FOR THE CELEBRATION.

The Royal City of Westminster will celebrate the Jubilee of Her Majesty to-morrow and the day following. The committee have spared no pains to make the celebration the means of attracting visitors from all parts of the province to our city. The C. P. R. is running excursions from other places to the city and return at one price. The river steamers will also give reduced rates on the two celebration days. To-day many of the citizens are busy decorating their places of business with evergreens.

The programme for to-morrow is as follows: In the morning the militia will parade at the Drill Shed and march to the battery and fire a royal salute. Afterwards the new park will be opened and christened. Horse racing will follow, and at 2 p. m. the boat racing will occur. In the evening a grand torchlight procession will take place on the Fraser, in which many Indians will take part. The programme for Wednesday is equally as attractive.

A COMPLETE REVOLUTION in the state of the stomach harassed by Dyspepsia is caused by using Northrop & Lyman's Vegetable Discovery, or great blood purifier, a medicine specially adapted to renew healthy activity in that organ and in those which most closely co-operate with it, the bowels and the liver. Easy digestion, an increase of appetite and a free secretion of bile, mark the radical change which it produces.
