DAILY BRITISH COLUMBIAN.

VOLUME 1 — NEW WESTMINSTER, B. C., WEDNESDAY EVENING, SEPTEMBER 22, 1886. — NUMBER 46

Daily British Columbian.

Wednesday Evening, Sept. 22, 1886.

When any great moral victory is to be gained, in the field of politics or anywhere else, the sympathy of the women of this country will always be found enlisted on the right side; and especially of late years, when merely their sympathies but their words and their deeds. It is the women who have always been and are now the heart and soul of the temperance movement. Women are the implacable foes of the Mormon iniquity. Women are demanding justice for the Indian, and carrying instruction to him and to the negro. *N. Y. Mail & Express.*

The Emperor of China.

It is now settled that Hwang Hsu, who has been titular Emperor of China since January 14, 1875, will definitely ascend the throne on the same day in February next, to be wed by the Imperial Board of Astronomy. So wide a gulf is set between Chinese customs and the customs of American and European nations that the practice of Chinese governments always fills us with amazement. Hwang Hsu was born August 15, 1871, and was proclaimed Emperor, four years afterward, on the death of Tung Chi, the regency being confided to Tung Hsi's mother, who has exercised it ever since, with the assistance of another lady of the imperial family, to assist her in administering the government she selected as her prime minister Prince Kung, who had filled that office for fifteen years previously. He was the uncle of the present emperor, and still further to complicate this strange family compact, she appointed as an honorary member of the council the present emperor's father, Prince Chun. In 1882 Prince Kung, who had been twenty-three years in power, resigned his office, and Chun took his place. Thus at the present time China is governed first by the emperor, a boy of 15; next by the empress regent, the boy's great aunt, and third by Prince Chun, the boy's father, who is prime minister. And over and above all these, sway all them all with a power which none can gainsay, is the Great Secretary of the empire, Li Hung Chang, who lives at Tientsin. In the first week of July the empress regent issued her decree announcing her intention of surrendering the government into the hands of the young emperor. Much of the document reads like a sham — a page of that exquisite fooling in which the Chinese delight. But parts of it are quite statesmanlike. She begins by saying that she assumed the regency with the distinct understanding that she would not be expected to retain it after the young emperor reached years of discretion. She adds that he has been assiduous in his studies for the past ten years, and has devoted his time to fitting himself for the discharge of his duties; that latterly he has been in the habit of opening and reading reports to the throne, arguing on points of policy, deciding questions as they arose, and has shown a capacity to determine between right and wrong; and that for these reasons she has decided that he shall, at the coming winter solstice, conduct the great sacrifices to heaven, with a view to his coronation in February. She states that when she communicated this decision to the emperor and his father they both remonstrated. The young man objected that his education was incomplete, and that he would be better fitted to deal with problems of state if he were granted a few more years for study. The empress insisted, however, observing that a feminine regency could only be justified as a temporary expedient, and adding that the time had come when the young emperor must be prepared to bear the responsibilities of his station. She therefore issued orders that after next February the various Yamens shall take their orders from him instead of her, and she announced that in order to relieve him of a part of his duties she would for the present continue to administer the affairs of the imperial household. It is given out in China that the coronation will be followed very shortly afterward by the marriage of the youthful emperor, and that the lady has already been selected. Those who are interested in the future prosperity of the kingdom, and in the happiness of the coming reign, will hope that the morals of the young monarch will be cared for more closely than were those of his predecessor. — *S. F. Chronicle.*

Public Notice
New Westminster Public Library.
THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, in advance. The papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of one cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can scrap all classes, viz.:
Yours Respectfully,
HENRY W. HUGHES.

Daily British Columbian

Wednesday Evening, Sept. 22, 1886.

The Branch Railway.

Ever since the people of this city undertook seriously to go about the work of securing railway connection, they have experienced a constant succession of delays and disappointments. When the scheme was first brought before Mr. Van Horne, he gave it every encouragement. It was intimated that the city might give a bonus of $50,000 if necessary to secure railway connection; but Mr. Van Horne said it had not been the policy of his company to accept from municipalities any larger sum than could be given without creating financial embarrassment, and intimated that a less sum might be found sufficient. The citizens marvelled at the generosity of the man and the company, a quality the existence of which they never expected to discover among railway corporations. After a great many months had been consumed in waiting and negotiating, it was found that the company's demand from the city amounted to a cash subsidy of $75,000, with right-of-way and station grounds. The land required for railway purposes will probably cost $35,000, making the total expense of securing the branch line about $110,000. Fortunately the provincial government consented to furnish one half the bonus, which leaves nearly $75,000 to be provided by the city. If it had not been for the government's aid, we do not very well see how it would have been possible for the city to meet the demands of the syndicate. Those who have kept themselves posted on the progress of railway negotiations know how many difficulties have had to be removed out of the way of a final and satisfactory adjustment, and how willingly the city corporation has met every reasonable request of the syndicate so as to hasten the completion of the road. Mr. Van Horne stated to a deputation last year that the road bed would be ready for the rails as soon as they arrived from England, where they would be ordered by telegraph, and that when they came the road could be completed in a week. The rails arrived sooner than had been expected, and before the road was quite ready to receive them; but if there had been any wish on the part of the syndicate to hasten the completion of the road, trains might have been running long, long ago. The ship New York arrived at Port Moody on the 22nd June, with the steel rails for this branch, and at that time the grading of the line was well under way. By the middle of July the road might have been ready for traffic. Now, it must be well known to the syndicate that the people of New Westminster were extremely anxious to have the branch road opened as soon as the main line, and it was in view of this that they willingly undertook serious responsibilities which otherwise would have been avoided. When the city debentures were deposited in the Bank of British Columbia in trust for the railway company, Mr. Abbott was asked to name a date when the branch would be completed and the money required. He named the 15th of July, a date at which the thing might easily have been accomplished if the syndicate had so willed. It is now the 22nd of September, and for over two months the city has been paying interest at the rate of $250 per month on these debentures which are lying unused in the vaults of the bank, and for this interest we are receiving no benefit whatever. Moreover, it is well known that in securing the right-of-way the council compromised with some property holders on terms that involved the payment of thousands of dollars which otherwise might have been saved if the matter had been allowed to go into the courts. But courts of law are almost invariably sources of delay, and the council deemed it in the city's interest to settle these exorbitant claims so as to secure the speedy completion and operation of the road. We must confess that the result is extremely disappointing. While the city corporation has been straining every nerve, and incurring heavy expenditures, to secure the early completion of the road, the syndicate has not been showing any honest intention of meeting the expectations created by the utterances of its own officials. At the present writing the road is only partly ballasted, about half a mile of it is without rails, there are no sidetracks, wharves or terminal buildings. The city has already expended upwards of $30,000 for right-of way, and is paying $250 a month interest on railway debentures, and still there is no road. We understand that plans for wharf and station buildings were to be submitted to Mr. Abbott to-day; but why were not these plans prepared long ago and the works erected? The rainy season is now at hand, and it would surprise no one if the terminal buildings are not constructed this season at all. Unless the season proves to be unusually dry, building operations can be carried on only at a very great disadvantage. Hitherto we have abstained from finding fault with the conduct of the syndicate towards this city, but it is just as well that the facts may be made known, and the syndicate given to understand that the people of this city are not altogether shutting their eyes to these facts. It is the last straw that breaks the camel's back, and we have reason to fear that unless an honest effort is made to complete the railway without unnecessary delay, public feeling against the syndicate will become positively hostile.

A. H. V.
AYER'S Hair Vigor cures baldness. Hair Vigor restores youthful freshness and color to faded and gray hair. It attains these results by the stimulation of the hair roots and color glands. It rejuvenates the **HAIR** and cleanses it. It restores to the **HAIR** that, either by reason of age or diseases of the scalp, has become dry, harsh and brittle, a pliancy and glossy silken softness of extreme beauty. There is no dye in Ayer's Hair **VIGOR** and the good it does is by the **VIGOR** it imparts to the follicles, and the cleanliness and healthfulness of the condition in which it maintains the scalp.
AYER'S Hair Vigor renews the hair. Hair Vigor is the best cure known for Brashy Hair, Scald Head, Itching Humors, Tetter Sores, Torpid Follicles, and all other diseases of the scalp that cause the falling of the **HAIR** and its fading. Nothing cleanses **HAIR** of the nuisance of dandruff so perfectly, and so effectually prevents its return, as AYER'S HAIR VIGOR. In addition to the curative and restorative virtues peculiar to Ayer's Hair **VIGOR** it is a toilet luxury. The Hair is by far the cleanliest hair-dressing made. It causes the hair to grow thick and long, and keeps it always soft and glossy.
Ayer's Hair Vigor
Contains no deleterious ingredients. Its use prevents all scalp disease, secures against the hair growing thin or gray, and surely cures all baldness that is not organic.
PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.

Tenders for a License to cut Timber on Dominion Lands in the Province of British Columbia.
SEALED TENDERS, ADDRESSED TO the undersigned, and marked "Tender for a Timber Berth," will be received at this Office up to noon on Wednesday the 1st day of December next, for three timber berths of fifty square miles each, more or less, numbered respectively 16, 17 and 18, situate on the west side of the Columbia River, near Golden City Station on the line of the Canadian Pacific Railway, in the Province of British Columbia.
Sketches shewing the position, approximately, of these berths, together with the conditions upon which they will be licensed, and the forms of tender therefor, may be obtained at this Department or at the Crown Timber Offices at Winnipeg, Calgary, N. W. T., and New Westminster, British Columbia.

HEAD OFFICE, TORONTO, CANADA
A HOME COMPANY.
This Association merits the confidence the Public is reposing in it from the following FACTS:—
The Security offered to policy holders is unsurpassed by any Company doing business in Canada.
It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.
Its statements to the public can be readily understood, its cash statements showing every item of income and how expended.
Its position is ascertained annually from a detailed valuation in which every item of liability is included.
Its progress has been unexampled in the history of insurance in Canada.
Its policies are indisputable after three years, and non-forfeitable after two years' existence.
Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.
Liberal Conditions as to Residence and Travel.
J. K. MacDONALD, Managing Director.

VICTOR PERPETUAL Hay Bailing Press!
REID & CURRIE
—OF THE—
PACIFIC CARRIAGE WORKS
HAVE PURCHASED THE SOLE right to manufacture these celebrated Hay Bailing Presses in the Province of British Columbia, and are now manufacturing them at their manufactory, Columbia St., New Westminster. Farmers and others interested are advised to call and see these presses before purchasing elsewhere. They have no equal for economy, simplicity and efficiency.
With this Press there is no climbing up and trampling in the hay and climbing down again and pulling out the bale, as with the old-style presses. Everything is done on the level ground. You don't stop the team to tie the bale. The bale is discharged automatically, and moves itself on to a platform scale to be weighed and taged.
It is the cheapest Press, besides being the best; so every farmer can afford to have one of his own, and it will save him its worth in one season by reducing the high rates of freight to a minimum, and by avoiding loss of time and vexation when you want to be bailing hay.
REID & CURRIE.

The vious failure of the crop was by gust, 1866—twenty years ago.

FOR THE ASYLUM.—Constable Lewis arrived from Victoria to-day with a man named Leech for the asylum.

CLOSED.—Nearly all stores in the city were closed between 2 and 4 o'clock this afternoon in respect to the memory of the late Mr. Homer.

POLICE COURT.—The charge of abducting a klootchman was brought against an Indian in the police court this morning. The case was adjourned.

RECOVERING.—We are pleased to learn that Mr. Willie Higgins, of Victoria, has so far recovered from his late accident as to be able to drive out.

ON THE BRANCH.—There are two trains at work now on the branch line, with a steam shovel and 900 men. If this force had been put on a month ago the ballasting would have been finished before now.

HARNEST FESTIVAL.—Holy Trinity church is very beautifully decorated for the harvest festival services which are being held to-day. Rev. Mr. Croucher preached at this morning's service, and at the evening, commencing at 8 p. m., Rev. Mr. Beanlands of Victoria will deliver a sermon.

GRANITE CREEK.—Recent arrivals from the Similkameen country report mining as fairly satisfactory on the paying portion of Granite creek. Men having claims there have taken out sufficient to pay all expenses incurred during the winter, and have a little over, but nothing has been taken outside of these. At present a good deal of attention is being paid to the old channel, and in drifting for it some very nice nuggets have been obtained. Dirt which pays very fairly has already been struck. There are now between one hundred and fifty and two hundred men in camp. Water at present is very low.

THE LAST RITES.—The funeral of the late J. A. R. Homer, M. P., took place this afternoon. The procession left the family residence at 2 o'clock for Holy Trinity Church, where the solemn services of the occasion were conducted by the Ven. Archdeacon Woods, assisted by the Rev. Mr. Croucher. The church was filled with a large audience who assembled to pay their last tribute of respect to him who was esteemed for his many excellent qualities and an honorable career in public as well as in private life. The body was interred in the Church of England cemetery. Following are the names of the pall-bearers: Senator Nelson, Mayor Dickinson, C. G. Major, J. S. Clute, Donald Chisholm, H. V. Edmonds, Geo. Webster, H. Elliott, Capt. Pittendrigh, Jas. W. Harvey, J. C. Armstrong, J. C. Hughes. The procession was one of the largest ever seen in this city.

NEW FIRM.—Messrs. Shadwell & Walker have bought out Mr. G. Leiser and will take charge of the business the first of October. Mr. Shadwell, who has resided in the city for the past three years, is well known to our citizens as a young gentleman of good character and good business qualities. Mr. Walker, who has represented J. S. McDonald & Co.'s wholesale house of Toronto in this province for the past two years, is known among dealers as a good business man, and has a very good acquaintance with the trade of the province. He is at present returning from the east, where he has been purchasing a new stock, and will arrive about Saturday next. We bespeak for the new firm a not less prosperous career than has been enjoyed by their predecessor, Mr. Leiser, who leaves to take charge of his father-in-law's wholesale house in Victoria, Mr. Lenz being now a gentleman advanced in years.

BRITISH COLUMBIAN EXHIBIT.—A correspondent of the Winnipeg *Sun* says of the C.P.R. exhibition at the great industrial fair at Toronto: "The most striking feature in the whole building is the exhibit which is made by the Canadian Pacific Railway and which illustrates the productive powers of the whole country along its course to the Pacific Ocean. It is an admirable display both for its extent and its impressive character as a whole, and for the variety, excellence in quality, and skill in arrangement shown in the way of details. The attention of even the slowest observer will hardly miss the gigantic section of a British Columbia spruce tree, which stares him in the face. It bears a legend, telling its birthplace and that it is seven feet in diameter. At the foot of this trophy, and on either side, either lying exposed or kept from thievish hands by glass cases, are fine specimens of the mineral wealth of the Canadian great Northwest Territories. At the other end, facing the north entrance, is a similar trophy, the tree section in that case being fir, and eight feet in diameter. Between these two extremities lies the agricultural exhibit, and a most attractive one it is. Between every two of the supporting pillars of the building a miniature arch is constructed by means of bundles of prairie grasses and different sorts of grain. On opposite sides of each pillar is fixed the mounted head of some splendid specimens of the fauna of the North-west. On the tables below, in almost bewildering variety, are arranged samples of the agricultural wealth of the said regions."

George Phillips, of Binghamton, Solane county, Cal., has just completed an organ containing 400 pipes, the longest being 16 feet. All the pipes are made of old newspapers coiled and fastened with a paste made of glue and alum. The woodwork was made entirely of old [illegible] cases, soap goods boxes and the like. He was two years in building this instrument, which is said to have an excellent tone.

O. Bortle of Manchester, Ontario, Co., N.Y., writes: "I obtained immediate relief from the use of Dr. Thomas' Eclectric Oil. I have had asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previously to using the Oil."

Personal.

Sir Edward Watkin arrived at Victoria last night.

Senator Nelson and Mr. Springer, of Moodyville, are in town.

Mr. W. H. Bone, of Victoria, came down river on the Adelaide.

Messrs. A. Ewen, J. H. Todd and Rev. Mr. Tait arrived on the Yosemite.

Miss Ure and Mrs. C. Todd returned to-day from a visit to friends in Victoria.

Mr. Justice Henry, of the Canadian supreme court, arrived per C. P. R. yesterday and went to Victoria. It is expected he will at once proceed to hear the exchequer cases that have been awaiting him. Among these is the disputed ownership of the townsite of Farwell.

Registered at the Colonial: H. J. Sheppard, Vancouver; B. Springer, Moodyville; Senator Nelson, Hastings; R. McGee, North Arm; A. J. Morton, San Francisco; A. E. Kidd, Toronto; H. S. Mason, Victoria; S. Brighouse, Victoria; J. Miller, Vancouver; W. B. Sloan, Calgary; J. A. Campbell, Chilliwhack; H. C. Frank, San Francisco; A. F. Cotton, Harrison Lake.

North Arm School.

(Correspondence of the Columbian.)

The people of this district are to be congratulated on having a neat and comfortable school house. Mr. J. Lund took the contract about the last of August, and had everything completed for starting school on Sept. 20th. The building is situated on the junction of the Granville and North arm roads, and presents a very fine appearance. School was opened by Miss Harding with a fair attendance, which will be increased next week. As an example of the interest taken in this school, it may be mentioned that all the trustees were present at the opening. The people have also shown their willingness to help in this important movement by clearing the grounds, sending their children to school to encourage the teacher, and organizing a Sabbath school. There seems to be a co-operation of parents, trustees, teachers and all concerned in this school, if one may judge from the beginning, and there must be that in any section to have a successful school. It is very creditable to the government that they are always pleased to grant the requests of the people to form new school districts and build comfortable schoolhouses wherein children may be educated and taught what is right by example and precept. But it seems strange that at the same time a place for the manufacture of that which is destroying so many young people should be allowed to be built within a few rods of a school house.

LEADING DRUGGISTS on this continent testify to the large and constantly increasing sales of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and report its beneficent effects upon their customers troubled with Liver Complaint, Constipation, Dyspepsia, Impurity of the Blood, and other physical infirmities, and as a female medicine, it has accomplished remarkable cures.

The Alaskan Seizures.

WASHINGTON, D. C., Sept. 15.—This morning's Washington *Post*, which seems to be the organ of the administration, has a column of double-leaded editorial on Secretary Bayard's position, which bears the impress of that official's authority. It treats the situation in which the secretary of state finds himself under three sub-headings, viz.: First, the Cutting case; second, Mr. Sedgwick; third, the Alaska captures. On the latter the *Post*, or rather Secretary Bayard, says that the capture by an American revenue cutters of three British schooners engaged in catching seal in Behring's Sea, is likely to lead to a lively diplomatic correspondence, and if, as alleged, the sealers were sixty miles from shore, the probabilities are that the act will have to be disclaimed, and this country make restitution, in accordance with the international law that jurisdiction ceases three miles from land. It declares the demand of Canada for the release of the schooners to be ridiculous, absurd, preposterous, because Canada is only a colony, having no more diplomatic relations with this country than Great Britain has with Nevada. The editorial stops with this declaration:—"The government will defend its dignity, and preserve its self-respect, and will act, both towards Mexico and Great Britain, without regard to threats or promises. In regard to Mexico, it is undoubtedly correct, and will maintain the spirit of its demand for the abrogation of laws which threaten American citizens. In regard to the seal fisheries it will enter upon a comprehensive investigation without delay, and will persist or recede with alacrity according to the facts of the case." The article attracts universal attention, as it is the only inspiration of Secretary Bayard upon three of the most important subjects before his department.

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being noncorrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other. my5tc

Latest by Telegraph

This Afternoon's Despatches.

Special to the Columbian.

LONDON, Sept. 22.—Thirty-one unionists voted with the Tories last night against Parnell's land bill; 96 members paired.

BELFAST, Sept. 22.—The city is quiet to-day.

LONDON, Sept. 22.—Ferguson, under foreign secretary, announced in the commons this afternoon that personal communications were passing in London between the representative of her majesty's government and the U. S. minister in the direction of the removal of friction between the fishing interests of the United States and Canada arising out of defects in the present treaties. Churchill gave notice of the intention of the government to introduce, early next session, measures for considerable modifications in the present method of conducting public business in the commons, an announcement accepted as portending further repressive measures against the Parnellites.

ST. JOHN'S, Sept. 22.—During a violent southeasterly gale last night the British schooner Little Gem was struck by a land squall off the headland, keeled over, and immediately sank. She was loaded with flour. The disaster occurred off the precipitous cliffs of Black Head, in Buena Vista bay. Two lady passengers were drowned. The crew was saved by clinging to the bottom of small boats.

WINNIPEG, Sept. 22.—Col. Black, of the imperial army, is in the city, having returned from the Pacific coast. While he was not willing to go into figures, he states that it is the intention of the government to make Esquimault an impregnable harbor, and also to make it an important depot for munitions of war.

PARIS, Sept. 22.—A syndicate of Paris and Berlin bankers have subscribed 600,000,000 francs to carry out a scheme sanctioned by the Sultan for a net-work of railways to connect the Black Sea with the Persian gulf, under the direction of an Austrian engineer.

NEW YORK, Sept. 22.—The regatta committee gave the Newport races to the Galatea, Mayflower, Stranger, and Cinderella.

ST. LOUIS, Sept. 22.—Martin Irons, leader of the late strike last spring on the Gould system, was brought here from Kansas City to-day by Sheriff Skidmore to stand trial on a charge of complicity in the noted wire tapping affair. The grand master workman was interviewed in regard to his recent arrest in Kansas City for drunkenness, and he stated that he was not drunk at the time. He was arrested by an officer who arrested him for vagrancy, and upon examination that charge was withdrawn and he was maliciously rearrested for drunkenness. He says it was a put-up scheme to bring himself and the Knights of Labor into disrepute.

Mr. Henry Marshall, Reeve of Dunn, writes: "Some time ago I got a bottle of Northrop & Lyman's Vegetable Discovery from Mr. Harrison, and I consider it the very best medicine extant for Dyspepsia." This medicine is making marvellous cures in Liver Complaint, Dyspepsia, etc., in purifying the blood and restoring manhood to full vigor.

PASSENGERS.

Per str. Yosemite, from Victoria, Sept. 21.—Miss Ure, Mrs C Todd, A Ewen, J H Todd, C F Green, F Jacks, J Mortimer, Special Constable Lewis and Leach (insane), C Sexmith, Columbus, E A Sharpe, and Rev Tait.

Per str Reliance, from Hope, Sept. 21.—Mrs Fletcher, Mrs Sweeney, J Arthur, W Cotsford, Rielly, Chas Ross, Benson, A F Cotton, Murphy, J E Campbell, W Bone, Mitchell, Demmick, Lehman, Mullen, McLaren, O'Brian, and others.

Mrs. D. Morrison, Farnham Centre, P.Q., writing about Dr. Thomas' Eclectric Oil, says: George Bell used it on his son, and it cured him of rheumatism with only a few applications. The balance of the bottle was used by an old gentleman for Asthma, with the best results. It acts like a charm."

Wholesale City Market.

"I take only one English weekly paper, *The Spectator*, and one Canadian, *The Week*, and as a rule I should be puzzled to say which I should miss most."—From a letter by Thomas Hughes, author of "Tom Brown's School Days."

The Week:
A Canadian Journal of Politics, Society and Literature.
PUBLISHED EVERY THURSDAY, AT $3.00 PER ANNUM.
Independent in politics, THE WEEK appeals by a comprehensive Table of Contents to the different tastes which exist within the circle of a cultured home.
An average of fifteen short, crisp Editorials is given in each number upon CANADIAN, AMERICAN, and ENGLISH POLITICS and LITERATURE.
Amongst the regular contributors is Professor Goldwin Smith; and a distinguished public man in London has kindly undertaken to supply regularly an English Letter. Paris and Washington Letters will appear at regular intervals.
In addition there are special contributions from some of the ablest writers in the Dominion and the United States.
THE WEEK
has now entered upon its third year with most encouraging prospects, and with many new features.
C. BLACKETT ROBINSON,
5 Jordan St., Toronto, Ont.
Sample copies free on application.
THE WEEK is one of the most influential journals in Canada.—Truth, London, England. fe13

Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the **Pimples, Sties, Sore Eyes, Boils,** and **Cutaneous Eruptions** with which people are annoyed in spring and early summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into **Scrofula.** This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying medicine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of **Hereditary Scrofula.**

The medical profession indorse **AYER'S SARSAPARILLA,** and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists: Price $1; Six bottles for $5.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables shew that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"*To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business.*"—*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

Daily British Columbian

Wednesday Evening, Sept. 22, 1886.

Latest by Telegraph

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

LAW PASAS, Mexico, Sept. 21.—Despatches from New Laredo state that the "El Coyotes" family deny that he was killed in the recent battle with the federal troops. It is thought that the troops might possibly have mistaken Juan Villeratone, of the "Coyotes" band, for Coyote, as he closely resembled the leader.

SAN FRANCISCO, Sept. 21.—Arrived, str. Mexico, Victoria; sailed, str. Empire, Nanaimo; schr. Ivanhoe, Seattle.

BELFAST, Sept. 21, 3. p. m.—Rioting was resumed at dinner time at the junction of Northumberland and the Falls road by Catholic mill hands stoning the police on duty, to keep the Orange Queens Island shipyard men from coming in contact with the mill hands. The stoning was so heavy and skilful that the police had to retreat as far as Shank hill. Here they were reinforced, when they drove the mob back, capturing a number on the way. While this battle was going on another mob in another locality attacked with stones the Black Watch regiment of Welshmen, although the soldiers were fully armed and in fighting array. The troops with fixed bayonets charged in double quick time on the mob and drove them from the scene, wounding a great number of rioters and arresting two. Still another mob got into a fight in a tramway car stable, and, surging out into the street, threw a passing car from the track and overturned it. The car was at the time filled with passengers. The mob that overturned this car evidently had not intended to do it, as they were fighting a purely religious fight, but the locality was infested with rowdies, and when these loafers saw the car filled with passengers they fusiladed it with stone. The terror-stricken passengers crowded close under the seats and under one another, and shielded themselves as best they could with mats and seat sections. Several were hurt, and their situation was perilous until the military rescued them and escorted them to a place of safety.

LONDON, Sept. 21.—Lord Randolph Churchill, in the house of commons this afternoon, replying to a question, said that in the event of a rising in Bulgaria, which he did not apprehend, the British government would act constitutionally and advise the crown to act as in their opinion would be best calculated to protect the interests of the people. John Morley resumed the debate on the second reading of Parnell's land bill. He thought, he said that Parnell, in his speech last night, had proved his case in regard to the fall in the prices of Irish farm products. Morley contended that the bill provided a better machinery and better methods of answering the government's own admission to the necessity of relieving Irish tenants in some form other than by the appointment of a royal commission. He also believed landlords in Ireland, and not for the first time in history, were making a grievous mistake in allowing this bill to be rejected. (Irish cheers.) Sir Michael Hicks-Beach, chief secretary for Ireland, stated that the government commission to inquire into the working of the land act of '81 would consist of Earl Cowper, chairman, Earl Meltown, Sir Jas. Caird, Judge O'Hagan, and George Cattrell.

LONDON, Sept. 21.—The king of Greece has purchased a large mansion at Copenhagen. It is generally believed there that he contemplates abdicating.

"The Travelling Public"

For the Columbian.]

"How can any man believe that the hotel licensed to sell whiskey is necessary for the accommodation of the travelling public? With the facilities of to-day, *women* travel almost as much as men. Why is it that they do not find a licensed public bar necessary for their comfort? Whoever saw a respectable woman go to a bar and take a drink! Why is it? Are the men of so frail and feeble a constitution that they cannot undergo the fatigue incident to travel without a stimulant, as well as the stronger and more robust woman? If this is so, would it not be well for the good wives of the country, when compelled to travel with their weak and delicate husbands, to provide themselves with a properly constructed and well-filled *"nursing bottle"* for the welfare and comfort of their lords and masters, and save the law the necessity of inflicting upon the country the *infernal grog-shop, with its spirit of sin and body of crime!*

What a vagabond race is the "travelling public." How debased the habits and tastes of "strangers and travelers," when (poisonous) whiskey is by law recognized as indispensable to their comfort! Before our late act intended to drive the tramps from the country, liquor might have been necessary for the "traveling public," but to-day how many of the immense throngs that pass along our great thoroughfares demand intoxicating liquors as a necessity? Do you business men require it? Is there a respectable business firm in the country that would employ as their salesman or agent, entrusted with the management of their affairs, a man whose habits rendered it necessary for him, during his travels, to daily visit these institutions which the law has licensed "for the benefit (rather destruction) of the public?" No; not one. Who is it that demands licensed whiskey while they travel? It is not women; it is not ministers. The opinion of the public to-day ignores the plea of a necessity so far as women and ministers are concerned. Richmond says there is *no necessity* for commercial travelers, lawyers, farmers, artizans, and mechanics to *poison* themselves; for a poison it is, and much of it is very sure poison. To say that a liquor bar in a hotel is necessary to the comfort of the "travelling public" is a base falsehood, and every candid, thinking mind will admit it. It may be deemed a necessity "for tramps, loafers, and politicians," and to put dollars into the owner's pocket. No well-wisher of his race; no intelligent, truly Christian man or woman; no professional man who respects the interests of his client or high-toned moral character; and no laboring man, high or low, who would realize to the fullest extent in mind, body, and pocket, the fruit of his toil, can or will say that a saloon in a hotel is a necessity.

WM. KENT, M.D.

A Bloody Affair.

SPOKANE FALLS, Sept. 12.—News was received here late last evening of a terrible tragedy which occurred on the Grand Coulee, ten miles north of here, last Tuesday evening. It appears that a man named Paine committed murder in Missouri several years ago and was sentenced to be hanged. He made his escape and came to Washington Territory and settled in the Okanagan country. His whereabouts became known and a requistion was sent on here for his apprehension. The warrant was placed in the hands of J. Hubbard, an officer of this place, and in company with F. Aiken, he left here last Sunday morning to make the arrest. When they arrived in Okanagan City they were informed of the desperate character of Paine, but catching him unawares they succeeded in making the arrest without trouble. The prisoner was then handcuffed and put on a buckboard, and the party started for Spokane.

They had proceeded about forty miles on their way when they were overtaken by Paine's son, a young man about twenty-five years of age. He rode up within a short distance of the party and, without a word being exchanged, dismounted and commenced shooting at the officers with a Winchester rifle. The third shot struck his own father, who fell out of the buckboard and instantly expired. The officers returned the fire with their revolvers at first, but the range being so long Hubbard called to Aiken to pass him a Winchester rifle and go to the horses' heads, which he did. Hubbard fired about three shots when a bullet from Paine's rifle struck him in the chin and he fell.

Aiken, thinking Hubbard was killed jumped into the buckboard and whipped up the horses. He had only proceeded a short distance when one of the horses dropped dead from the effects of a bullet. He then mounted the other horse and went about three miles farther, when it gave out, being wounded in the leg. Aiken then walked about ten miles to a farmhouse. Early next morning a party went back to the scene of the tragedy and found the dead bodies of Hubbard and Paine. Hubbard had got up, walked about 200 feet from where he fell when Aiken left, and it is supposed that young Paine had come up to him and shot him in the back, as he was shot through the body. The officers at Okanagan were notified and an inquest held. There is little hope that young Paine will be captured.

A Business Woman.

Emma Abbott is not only a first-class manager and singer, but she is a shrewd woman of the world. She has worked up a vast amount of free advertising, for she says herself that she would rather be ridiculed than not spoken of at all. But she has plenty of pluck and courage, and she has just shown it in a contest that she has had in New York city. One of the dramatic weeklies that makes a living by attacking the profession found out that a singer engaged by Miss Abbott was interested in a rival publication. The editor endeavored to have the singer discharged. Failing in that, the sheet devoted a broadside to Emma, calling her "an old cat" and other opprobrious epithets. Miss Abbott did not gratify the fellow by a libel suit, although that was what he wanted. She went quietly to the American News company and formally notified them that if they did not stop handling the sheet in question she would sue them for damages that had already been incurred. The News company did not want the annoyance of a suit, and so quietly dropped the paper, and the editor lost his whole valuable circulation in a day, and from a very valuable property in his line he has been swept off the face of the earth. It shows what a long head the little prima donna has, and that she has not knocked about the world for so long for nothing.

A Good Investment.

Speaking of the local newspaper, the eminent Judge David Davis, of the supreme court of the United States, says: Every year every local newspaper gives from $100 to $4,000 in free lines for the sole benefit of the vicinity in which it is located. No other will do or can do this. The local editor, in proportion to his means, does more for his town than any other ten men, and in all fairness man with man, he ought to be supported, not because you happen to like or admire his writing, but because a paper is the best investment a community can make. It may not be brilliant or crowded with great thoughts, but financially it is more of a benefit to a community than the preacher or teacher. To-day the editors of local papers do the most work for the least money of any men on earth. Subscribe for your local paper, not as a charity, but as an investment.

George W. Childs of the Philadelphia *Ledger*, not only lives in gorgeous style in Philadelphia and has a magnificent estate at Wootton, but maintains a charming residence at Long Branch, and now contemplates the erection of a monumentally superb mansion in Newport. There are very few noblemen who spend the money annually that Mr. Childs spends. They can't afford it. Already a very, very rich man, with an income from his paper of over $1000 a day, Mr. Childs finds it a very easy matter to spend in the course of the summer $250,000.

Have you tried Holloways Corn Cure? It has no equal for removing these troublesome excrescences, as many have testified who have tried it.

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver;

Representing Goldie & McCulloch, Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof.
