DAILY BRITISH COLUMBIAN.

VOLUME 1 — NEW WESTMINSTER, B. C., SATURDAY EVENING, AUGUST 14, 1886. — NUMBER 13

Daily British Columbian

Saturday Evening, August 14, 1886.

By the end of the present week harvesting operations throughout the province will have been pretty well completed. Already in some few localities threshing has commenced, and it will not be long ere the new wheat is regularly in the market. Nothing has occurred of late to alter the general verdict already passed, that while the yield may be somewhat below the average the quality is most superior, and the farmers upon the whole have done much better than in any year of the past four. With a fair crop and good prices trade should receive a decided impetus this fall.—*Winnipeg Sun.*

For the present there will be no attempt between the two telegraph companies doing business in Canada to cut rates, existing charges being maintained by the Canadian Pacific. In a few cases, however, where the railway company has direct communication with offices which the Great Northwestern can only reach in a round-about way, there have been reductions, as for instance, Port Arthur, the charge for a ten word message to that place being reduced from $1.50 to 75 cents. It is the intention of the railway company to build a line to the maritime provinces at once, in order that in its operations it may cover the entire Dominion.—*Toronto Mail.*

If ever there was a time when the election of tools of a government was not desirable; if the country was ever called upon to emancipate itself from the slavery in which corruption has bound it, that time is the present. The sickening revelations of the past two or three years are enough to appal the stanchest believer in the country's future. And yet we have a candidate for parliament with the hardihood to claim the suffrages of the electors of Chambly because he has been a place hunter, a minion of one government, willing to be the minion of another, and who not only endorses everything a corrupt administration has done in the past but what it is likely to do in the future in the direction of trickery and corruption.—*Montreal Herald (Independent).*

Although the judges who sat in company on the railway injunctions have not rendered their decisions, it seems to be the general opinion that it will be adverse to the railway company. Should this prove to be the case, it is rumored that the railway authorities have found a means whereby to overcome the obstacle. The scheme suggested is that of piling and crib-work along the whole length of the property in dispute, building it below high-water mark, and thus merely upon the property of the Dominion government. Should this plan be resorted to, and it seems feasible enough, the vexatious delays of the past five months will have been overcome and the iron horse soon will be among us, bringing with it the trade which belongs to the ocean terminus of the finest road on the continent.—*Vancouver News.*

It seems now to be quite well established that the despatches describing death and starvation among the fishermen in Labrador and Newfoundland were largely, if not wholly untrue. It is a pity the authors of these reports could not be identified and adequately punished for their scandalous work. Against such malicious liars newspapers have scarcely a remedy, and the public have no protection. Those accepting their services in the first instance will be twice guilty if they allow them to profit by their miserable fabrications with which they have traded on the sympathies and harrowed the feelings of hundreds of thousands of large-hearted, liberal-handed citizens of both continents. The world has enough of tragedy; people everywhere are burdened sufficiently with demands upon their care and sympathy, without having imposed upon them the heartless fabrications of these cold-blooded liars on space.—*Globe.*

FATE OF AN AWFUL PUNSTER.—Kade Clarton has made £200,000 on her 'Two Orphans'" remarked the dramatic editor. "*That's £100,000 on* each orphan," chipped in the snake editor. "Yes." "Now you don't orphan—" began the horse editor. But he never finished. In exactly one minute and seven seconds his gory remains were shovelled in the coal scuttle with the rest of the dirt.

SITUATION WANTED.
BY A THOROUGHLY COMPETENT Machinist, just arrived from Montreal, and who has had ample experience. Apply at this Office. jly21w1

Daily British Columbian

Saturday Evening, August 14, 1886.

It is stated that the C. P. R. syndicate proposes to avoid further trouble from property owners on Burrard Inlet by constructing the railway on crib work or piles outside of the property. This will surely prove a very expensive way. The cost of piles or crib work in the first instance will be heavy, and the sea worm, whose ravages are very great in the waters of Burrard Inlet, will cut through the timbers and render them useless in three or four years. Wouldn't it be much cheaper to extend the New Westminster branch to Vancouver.

It is to be regretted that Sir John's reception in this city should have been marred by circumstances which the people themselves could not control. If the party had arrived two or three hours earlier, the reception would have been very cordial, but it could not be expected that any number of our citizens would remain about the streets until 1 o'clock. Sir John will, we are sure, accept the assurance that the people of this city are not indifferent to him as the premier of Canada and the man who has taken such a leading part in securing the speedy completion of the C. P. R.; but they were greatly disappointed in the first place at the announcement that he could only remain part of a day in the city, and, secondly, at the failure of the steamer to arrive within less than four hours after the time fixed.

New Trade Openings.

In connection with the visit of Sir John Macdonald to this province, the *Week*, of Toronto draws attention to possible developments of trade on account of the opening of the C. P. R. It points out that the trade between Great Britain and Australia is twelve or thirteen times as large as that between the United States and that country. And as the C. P. R. brings Quebec and Ontario 15 days nearer Melbourne than Britain is by her shortest route (the Suez canal), it follows that Canada ought to be able to do considerable business with the Australians. Every year Britain sends to Australia clothing worth twice as much as the whole Canadian product; boots and shoes worth $3,665,000, cotton goods of the value of $9,260,000. All these lines are produced in Canada, and might be produced at rates that would permit of their export. It may not be possible for us to compete with the mother country for the Australian trade, but we ought to take a great deal of that part of the trade which now goes to the United States. It is probable that Australians would not object to transfer their patronage from the United States to Canada, if the inducements offered by this country are sufficiently liberal. It is not too much to expect that a grain at least of patriotism may be found mingled with the commercial aspirations of our cousins who rejoice under the same flag that floats over this fair land. Besides the ties of nationality, we have a shorter and cheaper commercial route to Australia than the Americans, and unless we are less enterprising than they, we ought to be able to take the bulk of this trade from them. While the trade of Great Britain with Australia amounts to $134,000,000 per annum, the United States sends $10,500,000, and we ought to get a fair share of that trade.

Sir Harry Lumsden is about to try an interesting experiment in the naturalization of the canvas-back duck of Manitoba upon his Aberdeen estate. He is now, through Mr. Hubbard, obtaining some of the birds in the pin-feather from the marshes of the prairie province, and arrangements have been made to send the first shipment from Winnipeg in the second week in August. The bird is well known as a food in Great Britain, but it has never yet been bred here. Its value as a food may be gathered from the fact that the price of a pair in New York is £1 and in London £2, whereas in Winnipeg the current value is only 25 cents, equal to one shilling of English money. There are some who believe that the bird may be bred with success in British parks, and Sir Harry's efforts will therefore be watched with interest.—*Canadian Gazette.*

MODEST CLAIMS.—The officials of the young city of Vancouver do not seem to be troubled with more than sufficient modesty. A deputation will shortly proceed to wait on the provincial government at Victoria for the purpose of asking certain things among which are the following: (1) That the government will hand over to the city all taxes collected from citizens this year, amounting to between $2,000 and $3,000. (2) The granting of sufficient land on False Creek for a cemetery. (3) The granting of lot 2, block 2, for the use of the corporation. (4) The immediate erection of commodious school buildings. (5) The expenditure in the city of a fair share of the appropriation made for roads and bridges in the district of New Westminster.

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood, build them up, increase their appetite, and rejuvenate their whole system. No other preparation so well meets this want. It touches the exact spot. Its record of forty years is one of constant triumph over disease.

AYER'S Hair Vigor cures baldness. Hair Vigor restores youthful freshness and color to faded and gray hair. It attains these results by the stimulation of the hair roots and color glands. It rejuvenates the **HAIR** and cleanses it. It restores to the hair, that, either by reason of age or diseases of the scalp, has become dry, harsh and brittle, a pliancy and glossy silken softness of extreme beauty. There is no dye in Ayer's Hair **VIGOR** and the good it does is by the it imparts to the follicles, and the cleanliness and healthfulness of the condition in which it maintains the scalp.

AYER'S Hair Vigor renews the hair. Hair Vigor is the best cure known for Brashy Hair, Scald Head, Itching Humors, Tetter Sores, Torpid Follicles, and all other diseases of the scalp that cause *the falling of the* **HAIR** and its fading. Nothing cleanses of dandruff so perfectly, and so effectually prevents its return, as AYER'S HAIR VIGOR. In addition to the curative and restorative virtues peculiar to Ayer's Hair **VIGOR** it is a toilet luxury. The Hair is by far the cleanliest hair-dressing made. *It causes the hair to grow thick and long,* and keeps it always soft and glossy.

Ayer's Hair Vigor

Contains no deleterious ingredients. Its use prevents all scalp disease, secures against the hair growing thin or gray, and surely cures all baldness that is not organic.

The West Shore FREE

For the balance of 1885, including the mammoth holiday number, to all who subscribe now for 1886.

With the January issue THE WEST SHORE will begin its twelfth year. Every number contains original illustrations of scenery, towns and industries in the Pacific Northwest, equaling in excellence the best productions of Eastern magazines. The contributed articles, general literature and stories are entertaining and carefully edited, making the magazine a chaste family visitor. The comments on events of interest to this region and the large amount of information concerning our various resources and the progress of development given in every number render it *extremely valuable. No family can* afford to do without it, and every one financially interested in the Pacific Northwest or desirous of learning its resources will find it invaluable.

If the subscription price ($2 per year) is sent in now you will be entered for 1886, and the remainder of 1885 will be sent as a premium.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1886.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak *more definitely and more pleasingly than* whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with *the best papers on the continent.* The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $3 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

Sir John Macdonald.

RECEPTION OF CANADA'S GREAT STATESMAN.

It was officially announced that Sir John Macdonald and party would reach this city by steamer from Nanaimo at 9 o'clock last night. A great many people accepted the announcement in good faith, and until long after 9 the principal streets were thronged by hundreds of citizens and visitors patiently awaiting the arrival of the distinguished tourists. Arrangements had been made for a very hearty reception. The arches across Columbia street were to have been illuminated, a steamer was to have gone down the river with a flotilla of small boats bearing nearly 1,000 torches, and a grand torchlight procession was to have conducted the party from the landing to St. Mary's Mount. Patience has a limit, however; and as the hours kept slipping by and the

CLOCKS BEGAN TO STRIKE

twelve without any visible sign of the expected steamer, men kept slipping away from the streets, until there were left but few witnesses of the great event. It was nearly 1 o'clock this morning when the str. Alexander turned the point three miles below the city. The watchers who remained belonged chiefly to the native population. The streets were almost deserted, and *enthusiasm had long ago evaporated* or surrendered to the embrace of Morpheus. A portion of the flotilla was made ready, however, on the approach of the steamer; the tug started out with its following of gleaming torches, and in spite of the circumstances a very respectable show greeted Sir John and his party. When the procession had reached the Alexander it divided into two groups, and returned in the wake of the steamer. At the wharf Sir John and Lady Macdonald, who were accompanied by Mr. Robt. Dunsmuir, M.P.P., president of the E.&N.R.R., were received by the reception committee and conducted to carriages in waiting. The torchbearers, or as many of them as remained, were got together, formed a guard and the

PROCESSION BEGAN.

It was a strange spectacle, and must have left a singular impression upon the minds of those who witnessed it. The group of dusky-faced natives flaring their torches almost under the noses of those whom the city intended to honor, and the weird shadows which danced behind the figures of the escort, must have struck Sir John and Lady Macdonald with wonder. The Columbia street arch had been illuminated, but the luminous material had nearly exhausted itself before the arrival of the procession, and the beautiful and brilliant spectacle that otherwise would have greeted the spectators had grown

DIM AND DINGY.

The brass band furnished music for the occasion, and there was an attempt made by some one to raise a cheer, but it ended in failure. Anybody who wants to know the reason why it failed may sit up until 1:45 and try it for himself. On one side of the arch were the words: "Welcome to the founder of the Canadian Pacific Railway," on the other: "Welcome to the Fresh-water Terminus of the C.P.R." Besides this arch and the Hyack arch, the streets were gay with flags and evergreens. The party proceeded to the residence of Bishop Sillitoe where they were no doubt glad to escape from public observation and seek the consolations of nature's great restorer. About 10 o'clock

THIS MORNING

the party went out in carriages and viewed the principal points of interest in the city, accompanied by the mayor and parliamentary representatives. At 1:30 they arrived at the picnic grounds at Government House, where a large number of people had assembled. After luncheon, at which many of the leading citizens, the mayor of Vancouver and other representative *gentlemen were present*, addresses were presented to Sir John from the city corporation, the Board of Trade, the St. Andrews and Caledonian Society, and the corporation of the city of Vancouver. These addresses with the exception of that from Vancouver, will be found below. Sir John made appropriate replies to each address, and the party broke up after a very pleasant meeting. Sir John's speech will appear in our issue of Monday. Later on, Lady Macdonald, accompanied by several ladies and gentlemen, drove out to Vancouver, while Sir John returned to the Bishop's residence. It

HAS BEEN ARRANGED

that the party will remain in this city until Monday, when they will go up to Port Hammond on the str. Yosemite, and take the special train there for Ottawa.

TO THE RIGHT HONORABLE SIR JOHN A. MACDONALD, G.C.B., &c.

On behalf of the citizens of New Westminster we beg to tender yourself and Lady Macdonald a most hearty welcome to the Royal City.

It is scarcely possible for any one but a British Columbian to realize the emotions that fill our hearts to-day. A few weeks ago we were rejoicing at the opening of the Canadian Pacific Railway from ocean to ocean; in a few days we hope to witness the completion of the branch line which is to connect this city with that great highway, and we feel that in greeting you we are greeting the man to whom, more than to any other, we owe deliverance from that isolation which has so long restricted our development and retarded our progress. We but repeat history when we say that it is to the wisdom and courage, the far-seeing statesmanship, and the broad and thoroughly national spirit of yourself and your colleagues that we are indebted for the inception and completion of the great work which not merely brings us into communication with the commercial centres of the world, but makes the confederation of Canada an accomplished fact.

Your visit to this province so soon after the opening of the railway is an additional proof to us that you have at heart the interests of every part of the Dominion, and we feel sure that you will carry away with you a more thorough knowledge of our resources and our needs.

We would beg to draw your attention to the importance of improving the navigation of the Fraser River Sand Heads, a work which, when completed, will make New Westminster the Montreal of the Pacific, thus bringing to our wharves the largest class of ocean-going ships.

We trust that both to Lady Macdonald and to yourself this visit to the Pacific will prove of unalloyed pleasure, and once more we most heartily bid you welcome.

Signed on behalf of the council.

R. DICKINSON,
Mayor.

TO THE RIGHT HONORABLE SIR JOHN A. MACDONALD, G.C.B.:—

The Board of Trade of the city of New Westminster desire to welcome you and Lady Macdonald to the Pacific province of our great Dominion, and as we learn your object in coming to this distant province is one more of pleasure than of business, we heartily hope that you will thoroughly enjoy your visit.

We had the honor to present your colleague, the Hon. Thomas White, with an address briefly touching on the several topics of interest to the people of the mainland, and we need not here recapitulate them, as the honorable gentleman promised us to lay the several subjects before the proper departments of your government.

But we cannot allow this opportunity to pass without respectfully drawing your attention to the necessity of deepening the Fraser river at the sand heads and clearing it of all obstructions so as to allow large vessels to reach our docks. We consider this of very great importance, and we have been assured by competent persons that the cost would not be excessive.

We *desire to congratulate you and* your government on the completion of the Canadian Pacific Railway. This occasion must be one of unalloyed pleasure to yourself, having advanced this scheme from the first with such indomitable courage. We regret that our own branch is not sufficiently advanced to allow you to pass over it on your return journey.

Wishing you and Lady Macdonald a pleasant return, and that your health may be greatly benefited by the journey.

On behalf of the New Westminster Board of Trade.

DONALD CHISHOLM,
President.
WM. MCCOLL,
Secretary.

TO THE RIGHT HON. SIR JOHN A. MACDONALD, G. C. B.:

On this, the first occasion when a prime minister of Canada has visited this part of the Dominion, it is with very great pleasure indeed that I, on behalf of the Caledonian and St. Andrew's society of the mainland of British Columbia, bid you a right loyal and hearty welcome. Our society, composed as it is of Scotchmen and sons of Scotchmen, not only from the heather hills and lowland vales of Auld Scotia, but from every province of this broad Dominion and many of her majesty's colonies throughout the world, is, as may be expected, a non-political institution, yet we cannot but feel proud to know that a Caledonian is the distinguished leader and chief of a great political party in this country—a country that in extent of territory is immensely larger than any other dependency of the British crown, and capable of producing within itself, I feel safe in saying, almost everything used by the world of today in peace or war, in commerce and art, in science and manufactures, thereby making Canada a desirable country for all who wish, by intelligent and honest labor, to make for themselves happy homes, free from the fear and annoyances of coercion, eviction or expulsion. We hope that yourself and Lady Macdonald may fully enjoy this trip to our Pacific coast, and have a pleasant sojourn among us and a safe return to the capital. That your visit to this province may be specially marked on the annals of our society, we respectfully ask that you allow us the honor of placing the name of Canada's great statesman, successful chief and gallant knight, Sir John A. Macdonald, at the head of our roll of honorary members.

Again I extend to you a hearty welcome, and wish for you a life of long-continued usefulness in health and happiness.

L. F. BONSON, Chief,

On behalf of the Caledonian and St. Andrew's Society, Mainland of B. C.

AYER'S SARSAPARILLA has demonstrated its power of cure for all diseases of the blood.

The Harpooner's Story.

New Bedford, June 1, 1883.

DR. J. C. AYER & CO.—Twenty years ago I was a harpooner in the North Pacific, when five others of the crew and myself were laid up with scurvy. Our bodies were bloated, gums swollen and bleeding, teeth loose, purple blotches all over us, and our breath seemed rotten. Take it by and large we were pretty badly off. All our lime-juice was accidentally destroyed, but the captain had a couple dozen bottles of AYER'S SARSAPARILLA and gave us that. We recovered on it quicker than I have ever seen men brought about by any other treatment for Scurvy, and I've seen a good deal of it. Seeing no mention in your Almanac of your Sarsaparilla being good for scurvy, I thought you ought to know of this, and so send you the facts.

Respectfully yours, RALPH Y. WINGATE.

The Trooper's Experience.

Maseru, Basutoland (S. Africa,) March 7, 1883.

DR. J. C. AYER & CO.—Gentlemen: I have much pleasure to testify to the great value of your Sarsaparilla. We have been stationed here for over two years, during which time we had to live in tents. Being under canvas for such a time brought on what is called in this country "veldt-sores." I had those sores for some time. I was advised to take your Sarsaparilla, two bottles of which made my sores disappear rapidly, and I am now quite well.

Yours truly, T. K. BODEN,
Trooper, Cape Mounted Riflemen.

Ayer's Sarsaparilla

Is the only thoroughly effective blood-purifier, the only medicine that eradicates the poisons of Scrofula, Mercury, and Contagious Disease from the system.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business."—*Toronto Globe.* T. WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an *indefinite period—it is practically indestructible.* White Bronze being non-corrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other. my5tc

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

NEW YORK, Aug. 13.—The *Tribune's* special from Ottawa says: Grave charges are brought against Mr. Chapleau, secretary of state, who is said to have been the recipient of a bribe amounting to $10,000 from the New York contractors, Smith & Ripley, who had the contract for the construction of the Georgian Bay branch of the Canadian Pacific Railway from the liberal government. The conservatives, on getting into office, canceled the contract, and the contractors sued for damages. To secure Mr. Chapleau's influence, Mr. Ripley signed an agreement with Samuel Chapleau, brother of the secretary of state and sheriff of the Northwestern Territories, to pay him 10 per cent. of whatever sum the government would give the contractors. In addition to this, on Samuel Chapleau's advice, the contractors retained the secretary of state for $500, yet he never did anything in the case.

SAN FRANCISCO, Aug. 13.—Arrived, str. Columbia, Portland; sailed, str. Mexico, Victoria and Port Townsend.

LONDON, Aug. 13.—The cabinet has decided, among other things, to appoint a royal commission to inquire into the Belfast riots. The cabinet finally approved of the queen's speech, and Lord Salisbury will go to Osborne on Sunday to submit it to her majesty. A majority of the members of the cabinet were in favor of proroguing parliament until February unless unlooked-for events in Ireland should make an autumn session necessary. Sir Michael Hicks-Beach, chief secretary for Ireland, expressed confidence in the government's ability to preserve order without having recourse to special legislation.

ROME, Aug. 13.—To-day 131 new cases of cholera and 67 deaths were reported at Barletta, 36 new cases and 9 deaths at Ravenna, 61 new cases and 30 deaths elsewhere in Italy, and at Triest 17 new cases and 5 deaths.

FOLSOME, Cal., Aug. 13.—Fire destroyed 26 of the principal business houses this afternoon; loss $150,000, insurance $ 95,000.

CHICAGO, Aug. 13.—Michael Davitt, the distinguished member of the Land League, arrived in this city over the Lake Shore road to-night, and was met at the depot by a local reception committee, headed by Mrs. Frank Murray, and was quietly escorted to the Grand Pacific, where he was received by Patrick Egan, Alexander Sullivan, Daniel Corkery and several other gentlemen.

The Panama Council.

PARIS, Aug. 6.—One hundred and fifty thousand new subscribers applied for the new bonds issued by the Panama Canal Co. The number has exceeded the most sanguine hopes of the company. M. de Lesseps has issued a new circular addressed to the shareholders in the Panama Canal. He states that over 100,000 shareholders have subscribed for 458,802 shares in the new loan.

Delta Council.

The council met at the town hall on Saturday, the 7th August. Present, the reeve and all the councillors.

The clerk was instructed to reply to the communication from H. F. Heisterman & Co. and the honorable provincial secretary.

A number of accounts were passed and ordered paid. Highway by-law 1886 passed its third reading. Lee Corey's tender for roads was accepted. The clerk was instructed to call for tenders for making one mile of a ditch along trunk road, also for clearing out and enlarging 2½ miles of the Chilochken trunk road ditch. The clerk was instructed to apply to the hon. provincial secretary and ascertain when the government would be prepared to grant the $1500 to trunk road west of bog and the $500 east of bog.

The clerk was instructed to collect the rents due on hall and to charge in future 20 cents each time the hall is occupied. Council adjourned for two weeks, to meet at 7 p. m.

OPIUM IN COFFINS.—A novel discovery has been made on board the steamship City of Pekin at San Francisco. The Pacific Mail company furnish coffins for all the Chinese who die in transit. These coffins are made of the butts of trees scooped out large enough to hold a body. While looking among the coffins Customs Officer Holmes was struck with an idea, to make an examination of the receptacles. The examination divulged 319 pounds of crude opium, of the value of $1800. It was immediately confiscated.

THE THIN CANNOT GAIN IN WEIGHT if they are troubled with dyspepsia, because the food is not converted into the due proportion of nourishing blood which alone can furnish the elements of flesh. But there is no reason, when this wearing, attenuating disease is conquered by Northrop & Lyman's Vegetable Discovery, why there should not be a appreciable gain in weight, which indeed is usually the case. It is a peerless remedy also for Constipation, Liver Complaint, Kidney troubles, and roots out all impurities from the blood.

The Sproule Case Again.

OTTAWA, Aug. 6.—In the Exchequer Court to-day Judge Henry rendered an elaborate judgment in the case of Sproule, the British Columbia murderer, whose discharge he ordered. The judgment concluded as follows, after reviewing the case:

"The constitution of the supreme court in British Columbia is founded on a proclamation of the lieutenant-governor under a statute and his commission. The proclamation provides that the supreme court of civil justice of British Columbia, shall have complete cognizance of all pleas whatsoever, and shall have jurisdiction in all cases, civil as well as criminal, arising within the colony of British Columbia." The unlimited jurisdiction thus given to the court includes the issuing of writs of *habaes corpus ad subjiciendum*, and the discharge of prisoners illegally imprisoned, and in t e performance of that part of their official duty the judges of the court have authority to pursue the practice of the courts and judges in England, and if the judges in the latter country have established the practice of ordering the discharge of a prisoner without requiring him to be brought personally before them, the judges in British Columbia are, in my opinion, at liberty to pursue the same course, and the power is given to a judge of this court. I have considered the objection that, having ordered the issue of the *habaes corpus*, I have no power to adopt the other means now sought for—the discharge of the prisoner, but no case has been cited or argument advanced in favor of that proposition, and I can see no reason why, if one alternative course has failed through the negligence or improper conduct of the sheriff, the other should not be adopted. I have therefore decided to make an order for the discharge of the prisoner." It is expected that the attorney-general of British Columbia will appeal to the privy council against this judgment. If Sproule be discharged he will likely be re-arrested immediately. In an interview the counsel for the prisoner stated that there were only two courses open to the British Columbia authorities: to release the prisoner, or to appeal from the order to the privy council.

Running Niagara Rapids.

BUFFALO, Aug. 8.—The turbulent waters of Niagara whirlpool rapids were again navigated in a casket today, the perilous feat being successfully accomplished by two men. The daring voyagers were Wm. Potts and George Hazelett, two coopers who were employed in the same shop with Graham who made the initial trip about three weeks ago. The barrel boat was ten feet long, conical in form and built of the best locust staves. It was supplied with a keel, rudder, screw wheel and turret, with glass covered peep holes. About 300 pounds of sand ballast kept it right side up. Most of the time the two men lay back to back while passing through the turbulent waters, clinging to handles fastened to the staves. Each man likewise kept on his own side of the cask by means of a canvass sling made fast to the staves. The start was made from the Maid of the Mist landing on the Canada side at 4:25 p.m. A row boat towed the cask to a point just above Cantilever bridge, where it was turned adrift in the middle of the stream. The craft was submerged about half the time while passing through the rapids, but while circumscribing the outer circle of the whirlpool its occupants thrust their heads through the opening and Potts calmly smoked a cigarette. A successful landing was made at Queenstown on the Canada side, five miles from the starting place. The voyage occupied 55 minutes. The feat was witnessed by no less than 15,000 spectators.

Children Playing Saloon.

"I hear that Smith has sold out his saloon," said one of a couple of middle-aged men who sat sipping their beer and eating a bit of cheese in a Smithfield street saloon the other night.

"Yes," responded the other, rather slowly.

"What was the reason? I thought he was just coining money there."

The other nibbled a cracker abstractedly for a moment and then said: "It's rather a funny story. Smith, you know, lives on Mount Washington, right near me, where he has an excellent wife, a nice home, and three as pretty children as ever played out of doors. All boys, you know, the oldest not over nine, and all about the same size. Smith is a pretty respectable sort of a citizen, never drinks or gambles, and thinks the world of his family. Well, he went home one afternoon last week and found his wife out shopping or something of that sort. He went on through the house into the back yard, and there under an apple tree were the little fellows playing. They had a bench, and some bottles and tumblers, and were playing 'keep saloon.' He noticed that they were drinking something out of a pail, and that they acted tipsy. The youngest, who was behind the bar, had a towel tied round his waist, and was setting the drinks up pretty free. Smith walked over and looked in the pail. It was beer, and two of the boys were so drunk that they staggered. A neighbor's boy a couple of year's older, lay asleep behind the tree. 'My God, boys, you must not drink that,' he said, as he lifted the six-year-old from behind the bench. 'Wot's playin' s'loon, papa, an' I was sellin' it just like you,' said the little fellow. Smith poured out the beer, carried the drunken boy home, and then took his own boys in and put them to bed. When his wife came back she found him crying like a child. He came back down town that night and sold out the business, and says he will never sell for drink another drop of liquor. His wife told mine about it, and she broke down crying while she told it." This is a true story, only the name was not Smith.—*Pittsburgh Despatch.*

Vancouver;

Representing Goldie & McCulloch, Galt, Ont.

SIR,—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Rich'd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Rand, Real Estate Broker; R.
