Public Notice

New Westminster Public Library.

THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, *in advance*, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of *one* cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, *but those who believe in getting* in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can soap all classes, viz.:

Yours Respectfully,

Monday Evening, March 14, 1887.

PROVINCIAL LEGISLATURE.

THURSDAY, March 10.

Mr. Orr moved his resolution of want of confidence in the provincial secretary, the text of which we published a few days ago. The mover claimed that the provincial secretary had been guilty of using improper influences in his canvass, and that his election was, therefore, illegal, and he had no authority to assume the functions of chief commissioner of lands and works. Mr. Ladner seconded the resolution and said he would not weary the house by recounting the means resorted to by the provincial secretary to secure his election. Hon. Mr. Robson spoke at considerable length to the resolution. He said that if the only considerations involved in the resolution were the persons who had moved and seconded it he would treat it with silent contempt. But his duty to the house and to the country called for an explanation. If questions relating to his election had occupied more of the attention of the house than they deserved, it was the fault of his colleagues, Messrs. Orr and Ladner, who seemed to think their sole mission was to villify, misrepresent and persecute him. He then proceeded to explain the events which transpired during the canvass. He maintained that the very same course was pursued as on previous occasions with the exception that last year he carefully refrained from making any promises of grants until after the election. He called public meetings of the settlers, discussed the wants of the settlers publicly, and, in company with the road superintendent and surveyor he endeavored as well as he could to ascertain where the appropriations could be best spent so as to do the greatest good to the greatest number. He was sure a large majority of the voters in New Westminster district were satisfied with the arrangement, and would not thank their representatives, Messrs. Orr and Ladner, for this motion, as it certainly was not in the interest of the constituency. He pointed out the cause of Mr. Orr's bitter opposition to himself, which arose from personal considerations and not from questions affecting the public good. Mr. Bole said he thought the question was of sufficient importance to deserve further investigation. The charge of bribery and undue influence had been brought against the provincial secretary by his two colleagues. Mr. Orr had affirmed that the provincial secretary declared over and over again to the electors that $100,000 of the dry-dock money was still in the treasury. The provincial secretary had distinctly told the people of New Westminster that they could not expect government favors if they did not return government supporters. He accused the provincial secretary of "barefaced, wilful, corrupt falsehood." He (the provincial secretary) denied that he had made any promises to the electors, but he found from the public accounts that $1,600 had been paid out by his direction without authority from the chief commissioner of lands and works. Mr. Bole proceeded at length to assail the provincial secretary, and concluded by saying that the opposition could not keep the majority from doing wrong, but if the majority were determined to do dirty work for the government the opposition would see that they had plenty of it to do. Hon. Mr. Davie protested against such exhibitions of personal bitterness as had been witnessed by the house. He thought the charges made against the provincial secretary were unjustifiable and unworthy of the member who made them. The provincial secretary, as one of the representatives of the district and one of the lieutenant-governor's advisers, was perfectly competent to confer with the settlers of his district with respect to the improvements desired. He quoted the opinion of Judge Ritchie that there was no impropriety in a minister making promises while seeking election, so long as they were not made to those only who support him. Mr. Grant maintained that the provincial secretary had violated the law. His statement and that of Hon. Mr. Duck respecting the $100,000 balance of dry-dock refund were directly opposed to each other. The province not only had not $100,000 dry dock money in the treasury, but it was indebted for a large amount to the Bank of British Columbia. Mr. Theo. Davie said if the provincial secretary had not had a single friend in the house before the commencement of this discussion, the tirade of untruthful abuse to which he had been subjected should have enlisted as his advocate every right thinking man. The charges were not supported by a shadow of evidence, and those who made them had evidently no faith in their own resolution. If they had been true, any voter in the district could have extracted $500 from him by proving a case of bribery against him in the courts. The only charge against the provincial secretary was that he had caused needed public works to be undertaken in the district of which he was a representative, and it was against this the other two representatives were protesting! After speeches from several other members the motion was put and lost, the opposition members alone voting for it.

ATTEMPT TO ASSASSINATE THE CZAR.

FAREWELL TO DE LESSEPS.

BERLIN, Mar. 13.—The emperor and empress gave a farewell audience to M. De Lesseps to-day. The emperor afterward received the mayor of Berlin, Prof. Braun, and Count Herbert Bismarck. It is reported that on his birthday the emperor will give a personal reception only to members of royal families.

TO BE EXTRADITED.

TORONTO, Mar. 13.- Judgment was given in the high court of justice yesterday ordering the extradition of Dr. Weir, on the ground that there was some evidence of felony. Weir will be handed over to the Michigan authorities. He is charged with criminally assaulting a young girl while she was lying ill in the hospital at Osceola, Mich., thereby causing her death.

A TERRIBLE ACCIDENT.

BOSTON, Mar. 13.—A special to the *Bulletin* reports that a heavily loaded passenger train on the Boston and Providence railroad met with a terrible accident about 7 o'clock this morning between Rosedale and Forest Hill. Four cars are said to have gone through a bridge, and many persons were killed. The wrecking train has left here for the scene of the accident. Advices just received from near the scene of the wreck state that 19 bodies have already been taken from the ruins.

LATER DETAILS—32 KILLED.

BOSTON, Mar. 13, 2 p. m.—The latest advices from the scene of the accident on the Boston and Providence indicate that 32 persons were killed and 40 injured. Among these are many women. Conductor Tilden is among the killed.

JUMPED FROM A BRIDGE.

BOSTON, Mar. 13, 3 p. m.—The accident this morning occurred on the Dedham branch of the Boston and Providence railway, between Forest Hill and Roslindale, at what is known as the Bussey Park bridge, at 7 o'clock. The train from Dedham, consisting of seven cars and a baggage car, under charge of Conductor Tilden, broke through the bridge. The engine and three cars went over safely, but five others fell through the bridge to the road beneath, a distance of 30 feet. The last car, which was the smoker, turned completely over and struck on top of the others, all being crushed almost out of shape. The cause of the accident is said to have been the breaking of the bridge. On the arrival of the wrecking train and physicians from Boston a terrible sight was presented. The cries and moans of the imprisoned passengers, who were almost crushed to jelly, were heartrending.

THE DEAD LIST.

BOSTON, Mar. 13, 4 p. m.—It is stated that the bridge where the accident occurred this morning is a comparatively new one, and that the accident was caused by the truck of one of the cars giving way, causing the car to strike against an abutment of the bridge. The smoking car after it fell caught fire, but the fire department was promptly on hand and prevented any spread. The bodies of the dead have been removed, and of the wounded some are at the hospital and some have been taken home. Among the killed are Conductor Tilden, Sergt. Naylor of the Boston police, Alice Bernett of Roslind, Frank Nevis of Dedham. Harry Gay was mortally injured and is dying. Some of the killed have not been identified. The train was crowded with workingmen, and the most intense excitement prevails among their friends, anxious to learn the names of the killed and wounded.

FEARFULLY MANGLED.

BOSTON, Mar. 13, 5 p. m.—The police say 23 were killed outright, and nearly as many others will die. A. Webster Clapp died in the Forest Hill station, where he had been taken. The engineer when his engine broke from the train kept right on to Forest Hill and gave the alarm instead of stopping to ascertain the extent of the accident. On this account it was impossible to get assistance at once. Officers of the road are present and are doing all they can. Many doctors are there, doing everything in their power. Supt. Folsom says he does not know how many were killed or injured. The bodies of the killed were horribly mangled, some of their heads being entirely severed, and many bodies were crushed beyond recognition.

Railroad Notes.

IMPORTANT CIRCULAR OF THE C P R.

Jay Gould has purchased the St. Louis and San Francisco.

It is supposed the Northern Pacific will build a branch to Astoria.

The Chicago and Northwestern has withdrawn from the traffic association.

The Atchison, Topeka and Santa Fe is trying to get an entrance into New York.

A New York special dispatch says: The Canadian Pacific is making arrangements to carry mails and European travel over its line, but it is not certain whether the China and Australian steamers will touch at San Francisco or only run to Victoria.

Traffic Manager Olds says that he has issued the following circular to agents of the Canadian Pacific Railway: "The enforcement of the provisions of the inter-state commerce law will compel a revision and cancellation of all special local rates on commodities shipped from points in Canada to points in the United States. Agents will therefore give notice to all who are shipping to the United States on through rates that on and after April 1st all such through rates will be void. Every effort will be made to obtain as soon as practicable reasonable rates from American lines from points of connection with this line to the several markets and distributing centres in the United States with which business is now done by Canadian shippers, and due notice of such rates will be given as soon as they are obtained."

Mrs. James Brown Potter

To Appear at the London Haymarket.

NEW YORK, Mar. 4.—A London cable special says: Mrs. James Brown Potter has signed a contract, with the management of the Haymarket theatre. She will act during the current season, appearing first as Anne Sylvester in "Man and Wife" about the last week in March. Bancroft will pay her about three times the salary he paid Mrs. Langtry on her debut. She will play in New York next fall.

Consistency Again.

The *Columbian* thinks that it protects its consistency by advertising hotels and suppressing any reference to the liquor sold in them. That is an ingenious method of satisfying our cotemporary's scruples as regards the bar department connected with hotels, but it is a hotel all the same, and the public smile at the compromise which the *Columbian* makes with principle and practice. Nor might it be out of place to ask whether it was the hotel keeper who withdrew his advertisement out of consideration for our cotemporary's consistency, or was it refused?—*Vancouver Herald.* Our Vancouver cotemporary professes to entertain a very poor opinion of persons who are guilty of unfairness. If his opinion is really sincere he must himself have sunk a good deal in his own estimation of late. In a previous issue he flatly intimated that the COLUMBIAN was permitting its columns to be used for the purpose of increasing the evils of the liquor traffic by inserting liquor advertisements, while professing anxiety for its total suppression. We denied this absolutely, and drew the attention of our cotemporary to the fact that all liquor advertisements were excluded from our columns. Instead of honestly acknowledging its mistake, the *Herald* gives the reply quoted above. If he is not able to perceive the difference between advertising a hotel and advertising liquor, we cannot be held responsible for his lack of discrimination. Hotels are most necessary and useful establishments, but the sale of liquor as a common beverage is neither, being altogether unnecessary and pernicious. The COLUMBIAN advertises the one without scruple because it is necessary and harmless, and it refuses to advertise the other from a conviction that it is a positive and gigantic evil which could be stamped out without injury to the moral or material interest of the people. In reply to our cotemporary's last sentence we may say that liquor advertisements have been *refused* for the reasons given. We had no intention of making this fact public, and would not have mentioned it if we had not been forced to do so by our cotemporary in self defence. Perhaps our cotemporary will now furnish some proof of the sincerity of his own professed desire to advance the temperance reform!

Party Politics.

On Saturday a letter appeared in this journal from the pen of W. J. W. suggesting the formation of a Conservative association for this district. In that letter the writer points out what seems to him sufficient reasons for the formation of such an organization, and points out some of the things which ought to engage its attention. From these we conclude that the purpose of the proposal is to introduce party politics with all the objectionable features that have disgusted so many thoughtful persons in the east, and driven many of the best men out of the political field altogether. This being the object, we are not in favor of the proposals submitted by our correspondent. It is a matter of congratulation that British Columbia has hitherto been very much free from Dominion party politics, and, hence, the unseemly mud-throwing which always disgraces political contests in the east is fortunately of rare occurrence. Among eastern Conservatives, "grit" is the term used to express one's contempt of a political opponent when all other words fail: among Reformers, the word "tory" conveys an equally forcible and uncomplimentary thought. These factions seem anxious not so much to put forward arguments in support of their political creeds as to misrepresent their opponents and blacken their reputation. There are dozens of persons now residing in this district who have taken part in political contests in the east, and who, having observed the comparative absence of partyism in this country, would resist with all their influence any movement looking to a return to the faction fights of days gone by. But in this country the formation of a Conservative association would not only probably lead to undesirable results in the direction mentioned, but it would be most unfair to those who are unwilling to ally themselves with such an organization. According to W. J. W., it would be the association's business to see that every qualified Conservative had his name duly registered as a voter, and to have "non-Conservative voters" struck off the lists when not qualified to be thereon." This would be a work of decided unfairness. It [illegible] one's recollection the tactics pursued beyond the mountains, where the business of Conservative committees is to put on the roll the names of all Conservatives, [illegible] or not, and to [illegible] as many names of opponents as they possibly can. W. J. W. does not say that the association [illegible] would resort to these [illegible] but there is every probability that it would. In this riding parties have not been divided on federal party lines. There is no Liberal or Conservative organization. Liberals are probably few in number compared with the Conservatives, and would not feel disposed to organize a Liberal association. Under these circumstances there would be no person to watch the Conservative agents, and the lists might be simply destroyed as a correct exhibit of the eligible voters. There are other grounds upon which objection to the proposed party organization might be made, but these we cannot now discuss.

1873. **GRIP!** 1887.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1887.

THE AIM OF "GRIP" is to set forth, in in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—*though the latter is equal to that of any* similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $2 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:

Humor without Vulgarity;
Patriotism without Partisanship;
Truth without Temper.

Only $2 a Year, Postage Free.

The Lumber Trade.

Enormous Amount of American Capital Invested in the Lumber Trade of Canada.

MONTREAL, Mar. 4.—J. H. Pope, minister of railroads, to-day drew attention to the enormous amount of capital which is invested in the lumbering trade of Canada, and which would receive a severe blow if the bill stopping all commercial intercourse was put into operation. This is one of the chief lumbering centres in which American capital is largely employed. United States Consul Thomas W. Hotchkiss, when asked whether he had given the question any consideration, said: "I have placed the subject before the department of state at Washington. A large number of Americans who have a pecuniary interest in Canada would be financially ruined were strict non-intercourse established. The amount of wholly American capital at stake would run into the millions."

Items of Interest.

Liszt's remains will not, says the London *Standard*, be removed to Beyreuth.

Henry Irving and Miss Terry are still playing "Faust" in the Lyceum theatre, London, to packed houses.

John L. Sullivan says that Paddy Ryan, when they were in California last, showed the best fight against him of any man he ever met.

Mrs. Langtry is coming to San Francisco in July. She says that she is going to take out naturalization papers and become a citizen of the United States.

Robert Browning informs an ill-natured critic of his latest book that he has had "too long an experience of the inability of the human goose to do anything but cackle and hiss, and that no amount of goose criticism will make him lift a heel against what waddles behind it." This is quoted with great glee in Boston.

It is now said that Cupid has been sending valentines to Secretary Bayard until the state department will follow the example of the executive and the interior department into the state of matrimony. A correspondent says Mr. Bayard will soon marry Miss Sophie D. Markoe, a clerk in his department. She is a beautiful girl, highly connected, and moves in the best Washington society.

In the Gorgeous Cathedral.

PATHETIC SCENE CREATED BY A MOTHER.

Mourning the Loss of Her Son.

A most affecting scene, suggesting in itself an epitomized temperance lecture of the most eloquent character, was witnessed by a dozen or more persons in the Cathedral of the Holy Name, yesterday afternoon. It was about 3:30 o'clock, and the priests were engaged in hearing confessions, while long lines of devout persons, mostly women, were arranged about the confessionals, each one awaiting her turn to enter the box. Suddenly a delicate appearing young woman, poorly dressed and somewhat lame, came in the main doorway, and with tears streaming from her eyes lifted the wraps from the face of a little child apparently about one year old, which she carried in her arms. As she did so she almost fell into one of the rear pews, moaning, "Oh, mother of God, my poor child is gone at last! Great God help me." Then with a suppressed moan, her delicate frame trembling with the great agony she was suffering, she laid the body of the now freed little sufferer beside her on the seat and wept as if

HER HEART WOULD BREAK.

Then, as suddenly as she came in, after hurriedly making the sign of the cross, she tenderly raised her precious burden and disappeared. Strong in her faith, and with an appreciation of God's holy place, she had brought the little sufferer to yield up its spotless soul at the altar of its Creator and before the font where it was baptized at the beginning of its earthly career, scarcely a year ago. While she was sitting with her dead in the cathedral, her young husband and the father of the child was lying beastly drunk in a Clark street saloon, scarce three blocks away. She had been to the saloon, and with the infant dying in her arms tried to rouse him to a sense of their child. The proprietor of the saloon, who had sold the man the liquor, was a witness to this spectacle, but his thoughts, if he had any about it, didn't cause him to take any action in the matter. About fifteen months ago the young woman married the man against the wishes of her parents, who objected to his fondness for liquor. She at first rejected his suit, but upon his representation that by marrying him she could save him she relented and married him. She soon found cause to regret the step. In less than five months after their marriage she attempted to bring him home drunk from the saloon in which he was yesterday. He staggered and fell upon her, fracturing her hips and laming her for life. He went

FROM BAD TO WORSE

and is now a wreck, spending what money he makes in the one resort.

The keeper of this place worships in the cathedral. This morning himself and his well-dressed wife and children will assemble before the brilliantly lighted altar, and while the fragrant clouds of incense are ascending he will thank God that his business is good and that he is enabled to drop a liberal offering in the contribution box. He will not think of his wretched customer; he will not care to picture the cold, wasted body of an innocent martyr to whisky and poverty, with a pale, half-starved and maimed young mother bending over it. What concern is all this of his? Isn't saloon keeping a reputable business, and hasn't he the respect of his fellow man?—*Inter-Ocean.*

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, *manufactured* in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. MR. G. ROBERTSON,
Vancouver;

Representing Goldie & McCulloch,
Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

THE BRITISH COLUMBIAN

Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is consistent with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

A Thought.

BY LILIAN WHITING

If you might always have, love,
The sunshine and the flowers,
And I the cold and loneliness
Of bitter wintry hours—
If any sweetness in my life
Could answer to your claim,
And I might bear whatever loss,
Whatever wrong, or pain
Would otherwise fall to you, love,
As falls the autumn rain—
I think I could not ask, love,
For any happier hours
Than just to know God sends to you
The sunshine and the flowers.

Are you on to the Vancouver *Chestnut?*

Vancouver wants an immigration bureau.

Monday morning—and a blank at the police court.

A car of lumber and a car of sundries were despatched to the interior to-day.

It is reported that the contract for building five miles more of snow-sheds has been let.

In our advertising columns the municipal council asks tenders for a large amount of municipal work.

The Yosemite brought up 30 tons of freight for the city, 26 tons for up-river and 3 tons for the railway.

Five lots and 2 houses on Royal Avenue can be purchased at a very low figure. For particulars apply to Rand Bros. dmh14tc

A man named Augur Thompson was found dead in his cabin at Comox recently. It is thought he was frozen to death.

The str. *Adelaide left this morning* for Chilliwhack and up the river with about 11 tons of freight and 18 passengers.

Hon Wm. Smithe did not go to San Francisco on Saturday. He went to Cowichan instead, where he will rusticate for some time.

Four cars of cattle arrived from Ashcroft to-day. All but ten head were shipped on the Yosemite to Victoria. Van Volkenburg Bros. are consignees for the remaining ten.

At 10:30 next Friday morning Mr. Trapp will sell by auction a lot of Japanese curios, &c., seized for infraction of the customs, and a lot of miscellaneous articles, particulars of which may be obtained from posters.

Vancouver is growling over the adulteration of milk and the people are anxious for the aldermen to take the matter, but report says the corporation never drink milk and have not seen water for so long that they cannot be made to understand why the people grumble.—*Standard.*

The reason why Eve didn't get scared and climb upon a chair and jump upon the table and scream "fire," "pisen," "murder" and "police," when the serpent first approached her was because she didn't have on a long dress for the plagued thing to get tangled in.—*Hartford Sunday Journal.*

In another column James Wise advertises 700 fruit trees from the Jewell Nursery for sale. These trees were purchased by Mr. Wise for his own use, but through failure of contract the ground where he intended to plant them was not prepared, and he is now obliged to sell the trees. This may be a good chance for persons who want to improve or extend their orchards.

A lady writes: "I was enabled to remove the corns root and branch, by the use of Hollway's Corn Cure." Others who have tried it have the same experience.

NEAT WORK.—The alarm of fire at the gas works on Saturday was telephoned to the central telephone office. On receiving it the messenger there quickly rushed to the fire-hall and in [illegible] three minutes from the time that he was discovered the alarm was sounded from the hall. This is certainly getting things down fine.

OFF THE TRACK.—On Saturday a construction train got off the track a short distance west of the Mission. There was a stump in a cut on the road, and it threw the locomotive, [illegible] off the rails. The locomotive [illegible] considerably damaged. A wrecking train was dispatched from Port Moody to clear the track.

SALMON PRICES.—The following are the prices of salmon in New York as quoted by a despatch from there on Saturday: Columbia river, $1.35@$1.45; Sacramento, $1.32½@1.35; Alaska, $1.22½@1.25; British Columbia, $1.25.

MOCK PARLIAMENT.—A meeting is announced for to-morrow night, in Rand's real estate office, at 9 o'clock, *for the purpose of forming a mock* parliament. The committee in charge invite all the young men of the city to be present.

EASTERN MAIL.—Mr. Abbot announced on Saturday evening that the road would be open to-day. Rumors are current that the delayed trains will arrive to-morrow and that a train will despatched for Montreal on Wednesday. Nothing definite is known.

SITTING ON VICTORIA.—A petition praying that a fine of $10 per day be enforced against all transient traders who sell goods in broken packages, is being circulated among Vancouver merchants. The *News* says this action has been caused by a few Victoria wholesale men, who sell to people out of the trade and therefore should be taxed for that privilege.

RUNAWAY.—A team of horses attached to a buggy, belonging to Mr. Hendry of the Royal City planing mills, started up Columbia st. to-day at a terrific gallop. On coming to Dallas st. they turned up that st. upsetting the buggy and throwing the driver, one of the employees at the mill, to the ground. An Indian stopped them before they had gone far. The driver suffered the most damage, having his leg fractured.

WHO IS REED?—Some person writes to the *Colonist* exposing the crookedness of a man named Reed who got away with $100 in Victoria lately. A person of the same name was in this city yesterday asking some Chinamen to deposit $40 as security for the fulfilment of a contract which he wished them to undertake. He borrowed $5 from one of our citizens also, and has not returned it. But whether he is the same Reed mentioned in the *Colonist* we do not know.

CONGRATULATIONS.—On the completion of the Postal Telegraph Line between this city and San Francisco Robert Garret, of the B. & O., sent the following despatch to John McKay:—"I tender you my sincere congratulations upon the completion of your telegraph line between British Columbia and San Francisco, thus establishing the first competing line between the Atlantic and Pacific Ocean since 1877. The competition then was frail and temporary; that which now exists I believe to be secure and permanent."

C. P. R. TRADE likely to pass over the Canadian Pacific in future years is likely to be an enormous one. Full returns of the tea trade of the United Kingdom for 1886, made the aggregate imports from all sources 228,074,232 pounds (191,139,332 pounds black and 6,935,000 pounds green) against, in 1885, 206,605,000 pounds; warehouse deliveries in 1886, 220,889,776 pounds (213,005,776 pounds black and 7,884,000 pounds green) against, in 1885, 220,776,000 pounds, and the stock at the close of 1886, 193,155,456 pounds (99,181,456 pounds black and 3,974,000 pounds green) against 96,215,000 pounds at the close of 1885.

THE NEW WOOLLEN MILLS.—The manager has already disposed of almost all the saleable stock to greedy purchasers. All the machinery, necessary to commence operations, is in its place, with the exception of the engine. The managers some time ago contracted for the engine but the other party to the agreement, at the last moment, refused to carry out his promise. The company are already in negotiation with some eastern firms about the purchase of suitable engine and boilers and it is expected that in a few days a purchase will have been agreed upon. Everything is being pushed forward to have the mill in operation by the 1st of May.

IMMIGRANTS.—The Rev. John Bridger, emigrant's chaplain, of St. Nicholas' church, Liverpool, will most likely come through to New Westminster about the middle of next April, bringing with him some few people from the old country. Mr. Bridger wishes to make it known that he can get as many domestic servants as may be needed for British Columbia. If any persons are in want of either servants or farm hands they can obtain all information as to passage money from Rev. G. Ditcham, Sapperton. It will be necessary that they state in application what wages they will pay, what accommodation they have, and what the services required. Anybody wishing an interview with Mr. Bridger will kindly send to Rev. G. Ditcham, so that everything can be arranged before his arrival. If found necessary, a servants' home will in time be established somewhere close to New Westminster. —*Churchman's Gazette.*

Personal.

W. Norman Bole left for Victoria to-day.

E. E. Rand (Rand Bros.), of Vancouver, is in the city to-day.

O. B. Ackerman returned on Saturday from a visit to his farm at Sumas.

H. N. Rich, of Ladners, came up on the Yosemite yesterday and returned this afternoon.

J. W. Sexsmith came up from the North Arm to-day, and will remain in the city a day or two.

F. Welcome McCrady returned from Vancouver Saturday. He says the terminal city is growing like a mushroom.

Capt. Fletcher; W. Norman Bole, M.P.P.; Senator McInnes, and J. A. Webster were passengers per the str. Yosemite to-day to Victoria.

John Milne, who has been some months employed by the gas company in this city, left with his family for Victoria by the str. Yosemite to-day.

COMMUNICATIONS.

Conservative Association.

EDITOR COLUMBIAN.—The suggestion of your correspondent W.J.W. in your issue of the 12th inst., in reference to the expedience of organizing a Liberal-Conservative association for New Westminster, is "timely and good." Under our, or indeed under any, system of free representation, government by a party must of necessity prevail, and in the vigilance of parties consists the best guarantee that we possess for good government. In order, however, to reap the full benefit of the system, it is necessary that the great parties, into which the citizens of every free country are divided, should be fully organized, in order to secure the unanimous nomination of the best candidates available, and also to enable them to utilize their strength, so as to secure their election. The subject has been receiving the consideration of many here of late, and will likely assume a practical shape ere long.

LIB.-CON.

New Westminster, Mar. 14th, 1887.

N. McRae, Wyebridge, writes: "I have sold large quantities of Dr. Thomas' Eclectric Oil; it is used for colds, sore throat, croup, &c., and in fact for any affection of the throat it wosks like magic. It is a sure cure for burns, wounds, and bruises."

Richmond Council.

Council met in Town Hall, Saturday, Mar. 12. Present, J. W. Sexsmith, reeve, and Councillors Kilgour, Quigley, Nicol and Lindsay. A communication was read from Mr. H. Abbott, superintendent of C. P. R., offering at a very moderate expense to furnish plans and specifications for bridges from Lulu and Sea Islands. Received, and the reeve instructed to interview Mr. Abbott on the subject. The reeve reported having engaged Messrs. Corbould & McColl as legal advisers for the municipality for 1887. Report adopted. The ward by-law (No. 3) was reconsidered and adopted, and the Sabbath observance by-law (No. 4) passed through committee of the whole and received its third reading. Councillor Lindsay submitted the Richmond municipal by-law (No. 5), which was read a first and second time and referred to the legal advisers for inspection and revision if necessary. On motion the board of works was empowered to have a bridge constructed from the north end of the trunk road on Lulu island over the dyke toward the river, and also a similar bridge at the south end of trunk road, Sea Island. Moved by Coun. Nicol, seconded by Coun. Kilgour, that the clerk be instructed to call for tenders for an 8 ft. and 10 ft. ditch (as the case may require) and roadway on Sea Island on road from Presbyterian church westward, ditch to be 4 ft. deep, earth from 8 ft. ditch to be *thrown 4 ft. from ditch and formed* into roadway 16 ft. wide, 8 ft. ditch to be 2 ft. wide and 10 ft. ditch to be 4 ft. wide at bottom. On motion the council adjourned, to meet on Saturday next, the 19th inst.

Mrs. O'Hearn, River Street, Toronto, uses Dr. Thomas' Eclectric Oil for her cows for Cracked and Sore Teats; she thinks there is nothing like it. She also used it when her horses had the Epizootic with the very best results. Do not be persuaded to take any other Oil in place of Dr. Thomas' Eclectric Oil.

INDISCRETIONS IN DIET bring on dyspepsia and irregularity of the bowels. Eat only wholesome food, and if the trouble has become permanent—as it is very prone to do—try a course of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. The combined effects astonish and delight the sufferer, who soon begins to digest well, regain functional regularity and improve in appetite; the blood becomes pure, and good health is restored.

Mrs. A. Nelson, Brantford, writes: I was a sufferer from Chronic Dyspepsia for a eleven years. Always after eating, an intense burning sensation in the stomach, at times very distressing, caused a drooping and languid feeling, which would last for several hours after eating. I was recommended by Mr. Popplewell, Chemist, of our city, to try Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and I am thankful to say that I have not been better for years; that burning sensation and languid feeling has all gone, and food does not lie heavy on my stomach. Others of my family have used it with best results.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,190 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being noncorrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia.
