Public Notice
New Westminster Public Library.
THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, in advance, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of one cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can soap all classes, viz.:
Yours Respectfully,
HENRY W. HUGHES.

PROVINCIAL LEGISLATURE.

Mr. Beaven, replying to the budget speech, expressed disappointment at the absence of any explanation respecting the government's failure to fill the vacant office of finance minister. He regretted that the statements made by the provincial secretary could not be accepted by the house. Instead of the revenue having increased, as a matter of fact it had decreased since 1883, while the expenditure had largely increased. It is true the government did not take advantage of the loan act, but it had borrowed from the bank as large a sum as the loan act covered, and the position of the finances was the same practically as if the loan had been negotiated. The government had the advantage of the dry-dock sale and the increased revenue incident to railway construction, but had failed to make the revenue meet the expenditure. It was not possible now to avoid a loan. During his canvass at last general election he had stated that it would be necessary for the government either to take a loan or to increase taxation, but he never anticipated that the government would do both. But there was a limit to the borrowing power of the province, and the day would come when we should experience the ill effects of adding to our obligations. He was of opinion that land taxes should be ad valorem. There was a great deal of land in the province on which 7 cents an acre would be an excessive tax. He criticised some of the items set down in the estimates, and expressed alarm at the large increase in the cost of administering the affairs of the country. If the attempt was made to increase the revenue by imposing more taxes he thought the ratepayers would rise up in rebellion and demand a change of government.—Mr. Grant contended that the estimates as submitted were misleading. He believed that at the end of the present fiscal year the deficit would be $500,000. There were interests in the province which ought to be dealt with liberally, but he had not confidence in the present minister of finance. It was very important that the mining industries should be encouraged. The educational system of the province was one of which we might be proud. Mr. Grant then proceeded to read a letter from a squatter in New Westminster district reflecting on the provincial secretary, but he refused to give the writer's name. He expressed regret at the action of the house with respect to the Vancouver trouble, and read a letter from a resident of that place reflecting upon the conduct of the provincial secretary whom he credited with the whole matter. The increase, he contended, was not in proportion to the increase of population, and the estimates were not correct. The province, he said, was poorer to-day than it was ten years ago.—Mr. Martin said he must contradict the statement of Mr. Semlin respecting the Ashcroft bridge. The bondsmen were still liable to the extent of $10,000, and the contractors had deposited $500 to cover any repairs that might be found necessary. The contractors seem to have acted in perfect good faith, and the work had been done under the superintendence of a competent officer. He repelled the idea that either Mr. Vernon or himself had neglected the interests of their constituents. He contrasted the expenditures on public works in Yale district under the two administrations, showing how much larger the appropriations had been under the present government. In 1880 the expenditure was $5,170, while this year it is $31,779. It was true the expenditures in his district were less than the revenues, but his constituents were content.—Mr. Orr said the policy of the government had been to empty the treasury when it was full, and to come to the house for a loan when it was empty. The revenue from sales of land at Burrard Inlet had been very small and disappointing, and the revenue tax had not been half collected by the government. He contended that New Westminster district, with a population larger than that of any other district in the province, had not received a fair share of the appropriations. It received scarcely 50 cts. per head, while Lillooet got $15,000 for one bridge.

Mrs. O'Hearn, River Street, Toronto, uses Dr. Thomas' Eclectric Oil for her cows for Cracked and Sore Teats; she thinks there is nothing like it. She also used it when her horses had the Epizootic with the very best results. Do not be persuaded to take any other Oil in place of Dr. Thomas' Eclectric Oil.

THE WRECKED SCHOONER.

BOSTON, Mar. 16.—A dispatch from Orleans, Mass., states that a tug rescued two of the men who were seen clinging to the fore-topmast topsail of the schr. J. H. Ellis, ashore off Nausett yesterday. The rest of the crew were drowned.

GERMANY & THE CHURCH

BERLIN, Mar. 16.—The church bill, as passed by the commission of the Obeshaus, grants religious orders the restitution of their properties. The report of the commission will be placed before the chamber on Thursday next. The measure fails to conciliate the centre party, whose final demands have been formulated by Dr. Windthorst. Those are that the permission accorded in the bill to form bishoprics in Limbourg and Osnabruch be extended to other dioceses, including Cologne, Breslau, Munster and Ermel, and that the bill shall strictly limit and define the powers of the state to veto clerical appointments, and that *discretionary powers of the minister of* worship over the re-entry of religious orders be denied and limited. Dr. Windthorst declares there can be no peace between the church and state unless these demands shall be conceded.

GERMANY WANTS PEACE.

It is reported that the Emperor William, on receiving the French general Marquese D'Absez said: "Tell your compatriots that there is no danger of war so long as I live. I shall use my influence to maintain peace. God will soon call me to himself. I do not wish to leave my people a heritage of blood. Germany shares my desire for good-will with the French.

MORE ABOUT THE EARTHQUAKE.

Letters from Prague refer to the earthquakes around Peizebrain and say the village of Birkenberg was destroyed, the inhabitants taking refuge in Prague.

SUMMER EXCURSIONS TO ALASKA.

SAN FRANCISCO, Mar. 16.—Capt. Ingalls, formerly of the steamer Orizaba, has gone to Port Townsend to take command of the str. Idaho, bound to Sitka, Alaska. Capt. Carroll, of the latter vessel, goes to Portland to take command of the str. Olympian which is being prepared there for summer excursions to Alaska.

CHINA AND ANNAM.

PARIS, Mar. 16.—M. Constanz, French minister to China, announces that the Chinese government has authorized the joining of the Annamite and Chinese telegraph systems.

PROHIBITION IN ILLINOIS.

SPRINGFIELD, Ill., Mar. 6.—After a spirited debate in the state assembly to-day, the proposition to submit the prohibition amendment to the people was defeated by a vote of 78 nays to 95 yeas. Before the main proposition was brought to a vote it was amended and was submitted and adopted. It provides that the state shall be held liable for all property depreciated or destroyed by reason of the carrying of the proposed amendment into effect. This provision was adopted by a vote of 91 yeas to 50 nays.

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being noncorrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indestructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other my5tc

COMMUNICATIONS.

Conservative Association.

EDITOR COLUMBIAN.—As W. J. W. has not replied to your strictures on his suggestion, relating to the formation of a Liberal-Conservative association for New Westminster, and as my letter, endorsing the suggestion of W. J. W., may be considered as included in your criticism, I ask for space to correct what I consider to be most unfair inferences on your part, regarding the aim and working of such organizations.

You deprecate the idea of introducing party-politics into British Columbia, but you have them here already, and in a very objectionable form,—mixed up with all sorts of side issues. The country must, of necessity, be governed by one or the other of the two parties—not factions, the fragmentary state of parties in New Westminster can be more correctly described by that term—into which the great majority of the electors of the Dominion is divided; hence, in order to secure an intelligent exercise of the franchise, the distinctive policy of each party should be kept clearly before the people. You seem to think that "mud throwing" is inseparable from party politics. Such a contention does not appear to me to be logical. When candidates are placed in the field by their respective parties, as the exponents of certain well-defined principles, there is certainly less to be gained by attacks upon their private character, than if they were in the field as free lances—political "Dugald Dolgettics" who make merchandise of their swords.

I have now to notice some very wonderful reasoning on your part, Mr. Editor, which I am charitable enough to attribute to the absence of "Italian skies," and the prevalence of mist and fog in the atmosphere. You say, "the formation of such an association would be most unfair to those who are unwilling to ally themselves with such an organization." *How so?* Is a temperance association, or a young men's Christian association, or an association of Masons or Oddfellows, unfair to those who can exercise their discretion in regard to becoming members? Like all other associations it would be an organization of men who hold opinions in common, on certain lawful, and, as they consider, important subjects, and who for the better accomplishment of their purpose, agree to act in accordance with the adage that "union is strength." W. J. W. is correct in saying that it would be the duty of such an association to see that the name of every qualified Conservative voter was duly registered, and the names of unqualified voters struck off. This, you say, "wears a look of decided unfairness." In the name of common sense I ask where the unfairness comes in? Is such not the intention of the law, and is it not the duty of every good citizen to aid in its administration? As a professed advocate of law and order you are certainly not consistent in condemning as wrong a suggestion to aid in seeing necessary laws executed, by an association having only lawful aims in view.

You say that this—supervising the voters' lists—"brings to one's recollection the tactics pursued beyond the mountains." Well, if you have *recollections* of wrong-doing in connection with voter's lists, "beyond the mountains," or anywhere else, it may account for your disliking the idea of having them meddled with at all. But I can assure you, that if a Liberal-Conservative association is formed here, its object will be to rectify, and not to perpetrate wrong. Your sweeping charge of fraud against conservative committees "beyond the mountains" is "throwingmud" of a very unsavory odor, upon a scale of continental magnitude.

With your permission, Mr. Editor, I will take another opportunity of referring to some of the benefits of such an organization as we have been considering. LIB.-CON.

INDISCRETIONS IN DIET bring on dyspepsia and irregularity of the bowels. Eat only wholesome food, and if the trouble has become permanent—as it is very prone to do—try a course of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. The combined effects astonish and delight the sufferer, who soon begins to digest well, regain functional regularity and improve in appetite; the blood becomes pure, and good health is restored.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the comments which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,100 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business."—*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

Daily British Columbian

Thursday Evening, March 17, 1887.

Is the Organ Mad!

A few days ago we drew attention to the favorable situation of this city as a railway centre, and in the course of our observations mentioned the possibility and importance of the C. P. R. branch to this city being extended to Vancouver. It was pointed out that if this extension were made and the New Westminster Southern and the Delta railways were constructed, the point of junction for all these lines would be at this city, and we should become the great railway centre of British Columbia. We were somewhat astonished to find in the *Guardian* of yesterday an editorial article touching this subject in which the writer, with singular and inexplicable stupidity, endeavors to show that the COLUMBIAN is an "unprincipled traitor" because of the views advanced. Our cotemporary thinks that if the road were carried to Vancouver it would "reduce New Westminster to the status of a way station, and a very small one at that." We do not think many of our citizens will coincide with this view. The largest cities of Canada are not termini of great railways. The Grand Trunk and the Canadian Pacific have their termini not at Montreal, but on the Atlantic coast. Toronto and Hamilton and London are "way stations" on the Grand Trunk, and the only railway of importance terminating at Toronto is the Northern. The true policy of a city that seeks to control the trade of the country is to secure railway connection in all directions. This has been the policy of the cities we have named, and they have grown to be the chief cities of the Dominion. Other things being equal, it is better to be the terminus of a railway than to be merely a way station, but as we cannot be the real terminus of the C. P. R. it will surely be in our interest to have the best connection we can get with the real terminus. Our cotemporary proceeds upon the assumption that Port Moody is to remain the actual western terminus, and that "all hope of the branch or extension from Port Moody to Vancouver is about exhausted." This is surely a most wonderful delusion. Does our cotemporary not know that the road has already been extended to Vancouver, and even to English Bay! Does he not know that the steel rails have been laid, and that fully two weeks ago a construction train went from Port Moody to Vancouver! There is probably not another person in the district, besides our cotemporary and his subscriber, who does not know these facts. If he could keep the terminus at Port Moody, and prevent the building of a city at Vancouver, the circumstances might be greatly changed; but everybody knows that Vancouver has been made the terminus by the C. P. R. company, and it is childish for any person to pretend that the purpose of the company can be changed in this respect. The extension of our branch to Vancouver would not affect the C. P. N. steamers at all. In a few weeks through freight will be transferred at Vancouver, but local freight and passengers and mails will come here by the steamers as they are coming now. Our cotemporary further declares that the effect of the construction of the Delta Railway will be to carry all the produce of the south side of the river to Vancouver by way of Ladners. Then let him oppose the construction of that road and go for Messrs. Orr and Ladner who are putting the bill through parliament! But if the terminus is to remain at Port Moody, and if Vancouver is to become utterly bankrupt, as stated by our cotemporary, why should produce go there when it will be able to reach this city with infinitely less difficulty? To reach Vancouver by the route laid down by our cotemporary it would be necessary for the people of Chilliwhack to go past this city about 12 miles by railway to Ladners, then to cross the Fraser and all its branches and drive over Lulu Island and Sea Island, and then across the peninsula. From Ladners to Vancouver by this route would be not less than 12 miles, of which at least two miles would be by ferry. To suppose that such a route would ever be adopted is too absurd to call for serious argument. If the railways mentioned in the article to which our cotemporary takes exception were constructed, this city would beyond question be the point of transhipment and the distributing point for most of the agricultural settlements. But our cotemporary puts forward the strange doctrine that the effect of the interstate commerce bill would be to cut off the C. P. R. trade from the sound. In some instances this may be, but generally the effect will be the opposite. Under the new bill all through rates on American roads must go up, which will certainly throw a large portion of the through business into the hands of the C. P. R. where that business has not to be forwarded to its destination over American railways. Our cotemporary evidently does not comprehend the provisions of the bill, or he could not have made such an obvious blunder. With respect to the connection between the sound and the C. P. R. at Hope, we have only to say that it is no part of our scheme, and we apprehend that it will never be carried out. The cheapest and most natural railway connection between the sound and the C. P. R. is undoubtedly by means of a line straight across from the boundary to this city, because here the road would find connection with all the other roads of the country, and traffic could be transferred with the greatest facility for every possible destination. We are prepared, therefore, to stand by the article which appeared in this journal on Friday, and to defend its suggestions as being in the true interest of the city and district.

1873. **GRIP!** 1887.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1887.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pungently than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $2 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:

Humor without Vulgarity;
Patriotism without Partizanship;
Truth without Temper.

Only $2 a Year, Postage Free.

A Man Without Arms.

There recently died at Potsdam, St. Lawrence county, N. Y., Richard Donovan, who was in some respects one of the most remarkable men in northern New York. Twenty years ago, when a boy, he received injuries in a flour mill which necessitated taking off both arms at the shoulders. This misfortune did not discourage him. And after recovering his health he went about earning his livelihood as best he could without the use of hands or arms. Part of the time he lived alone, and from the necessity of helping himself he became wonderfully adept in performing all kinds of work, using his feeet and mouth principally. He owned a horse, of which he took the entire care, harnessing and unharnessing, managing buckles with his teeth, and driving with the reins around his shoulders. He built a cow stable, sawing the lumber with his feet, and, with the hammer in one foot and holding the nail with the other, he nailed the boards on as well as most men could with their hands. He dug a well twelve feet deep and stoned it himself. He could mow away by holding the fork under his chin and letting it rest against his shoulder. He would pick up potatoes in the field as fast as a man could dig them. He would dress himself, get his meals, write his letters, and in fact do almost anything that any man with two arms could do.—*Boston Transcript.*

Anti-Mum Society.

The anti-mum social under the auspices of the Woman's Chriftian Temperance Union, held in the Temperance Hall, Victoria, Mar. 14, was, taking everything into consideration, a decided success. The programme was opened bp singing "What Be the Tie That Binds," followed by a Scripture reading by Miss Rowes and prayer by the Rev. Mr. McCrea. Mrs. McNaughten, president pro tem., made a few very appropriate remarks relative to the treasury of the W. C. T. U. A good recitation on "The Little Shoes" and a song, "The Drunkard's Alphabet," by three little sisters, was heartily encored. Five clergymen responded to the invitation of the ladies, three of whom, as well as Miss Rowes, gave five-minute addresses. A W. C. T. U. motto, in large blue letters on white canvas, expressive of three thoughts, "Purity in the Home," "Truth in Politics" and "God in the Government," was prominently placed over the platform, thus giving suggestions to the impromptu speakers. Judging from the sociability of the half hour for refreshments, the audience most evidently felt the responsibility of being anti-mum, consequently good cheer and pleasant chit-chat prevailed. The Royal Band contributed largely to the music of the evening. After an excellent reading by Mr. Archibald, a recitation by Mr. Nichols, solo by Miss Peulrith, and an admirable sacred song well rendered by Mrs. Spofford, this enjoyable and profitable entertainment was concluded by the band receiving a vote of thanks and playing the national air, them and Rev. Mr. McCrea pronouncing the benediction. Surely an entertainment of this character, where temperance is brought before the audience in recitation, speech, reading and song, is educating public sentiment, and must tell on the future weal of this city. It is not, I trust, too late to mention that the neighboring republic was represented in the person of Rev. Mr. Banks, of Seattle, whose Christian and appropriate remarks enhanced the value of the programme.—Com.

Regulating the Elephant.

Everybody had heard that the great elephant was loose, and several families whose gardens he had torn up and whose boys he had trampled upon were certain of it. There was great excitement, and the town held a meeting to decide what should be done. They did not want to exterminate him; in fact many of them did not believe they could exterminate him, for he was a pretty big elephant. Besides, he was useful in his proper place—in shows, in India and in story books.

"Our best plan is to try and regulate him," said an enthusiastic speaker. "Let us build toll-gates all along the route we find he is going to take and make him pay—"

"Yes, but that leaves him roaming around," shrieked an old woman, "and I don't want my boy killed."

"Keep your boy away from him; that's your business. Why, madam, don't you know that an elephant's hide and tusks are valuable for mechanical and surgical purposes, and that he is useful in India? Besides, there's the toll he will pay. We shall by this means get money enough in the public treasury to build schools for a good many boys who are not trampled to death."

"That's the plan! Regulate him! Regulate him!" shouted the crowd.

So they appointed a great many committees, and drafted constitutions and by-laws, and circulated petitions, and by the time the elephant had killed several more boys and trampled down a quantity of gardens they had erected very comfortable toll-houses for the gatekeepers and gates for the elephant, and then they waited in great satisfaction to see the animal regulated.

Slowly the great feet trampled onward; slowly the great proboscis appeared in view, and with a sniff of contempt the elephant lifted the gate from its hinges and walked off with it, while the crowd the crowd stared after him in dismay.

"Well," exclaimed the speaker, catching his breath, "we haven't made much money so far, but the regulatin' plan would have been first-rate if the elephant hadn't been a leetle stronger than the obstruction."

The elephant's name was Whiskey.

A lady writes: "I was enabled to remove the corns root and branch, by the use of Halloway's Corn Cure." Others who have tried it have the same experience.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practically impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. THE BRITISH COLUMBIAN

Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is consistent with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended,

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

A post mortem examination was held on the body of the Chinaman, who died from wounds received in the recent gambling fracas, by Dr. De Wolfe Smith.

General Middleton, commander of the Canadian militia, says it is absurd to talk about war between the United States and England.

A trader at East Saginaw, Mich., recently treated each of his clerks to a cigar and then deducted 10 cents from the salary of each on Saturday night.

It has been suggested that the postmaster should make a rebate to box holders during this month, as there have been no mails worth speaking about.

"At what age should a man marry?" asked an old beau of a charming young lady on whom he inflicted his company. She smiled sweetly and replied: "Not in his dotage."

From our advertising columns it will be seen that arrangements are being made for a grand concert next Wednesday night under the auspices of the Y. M. C. A.

Letters for eastern Canada continue to go via the Northern Pacific Railway. They require an American stamp as well as a Canadian stamp to get them through that way.

Mr. Rithets is after Vancouver again, and proposes to move that the name be changed back to Granville. We are sure the proposition will receive no support in the house.

The pontoon at the ferry slip seems to have been badly engineered from the beginning, and one end of it is now sunk. Ferry slips about this city have cost heaps of money and afforded very small satisfaction.

A $5 greenback appeared in the till of a Newaygo, Mich., bank the other day, bearing the following inscription: "When she goes, save your salary—don't gamble—never play faro bank—the last of a fortune of $10,000."

A musical and literary entertainment and supper is to be held in Olivet Baptist Church on Tuesday evening, the 29th inst. In addition to music, readings and recitations, it is expected that addresses will be delivered by Revs. Messrs. Scoular, Watson and Haddon.

General Wolseley in an interview at London recently, said "he felt sure that a vast and appalling war is certainly in the near future. The rapidly increasing armaments and huge burdens which the several powers are laying upon themselves, and the directions in which these armaments are being developed, must make war inevitable. Whether it will come this summer, or not, there is only one man in Europe who knows, that is Bismarck."

FASTEST ON RECORD.—A despatch from Liverpool says: The steamship Etruria, of the Cunard line, made the run, during the first week of the present month, from New York to Queenstown in six days, five hours and eighteen minutes, which is the fastest time on record.

A FALSE BOOM.—Some parties in Victoria recently exhibited specimens of quartz which assayed $970 to the ton and claimed they had discovered a rich claim on Burrard Inlet. It now turns out that the specimens were from California and that the exhibitors were merely trying to boom a mythical mine.

FOR SICAMOUS.—A new steamer, the Red Star, belonging to the Columbia Milling Co., was launched yesterday at Victoria. After a little necessary preparation the Red Star will sail up the Fraser to Port Hammond, where she will be taken on C. P. R. cars and carried to her destination, the Sicamous waters.

POLICE COURT.—Geo. Blackstock, charged with being drunk, was fined $1 and costs. Ah Sam, charged with being instrumental in the death of a fellow countryman, was remanded until Tuesday. Some time ago, our readers will recollect, three Chinamen were charged with assaulting a fourth Chinaman in a gambling house. This fourth Chinaman died on Monday evening, and it was on charge of this murder that the prisoner was brought up.

THE MEDICAL TALK.—There was a good audience in the Skating Rink last night to hear Dr. Bentley's medical talk to young men. The lecture was excellent as far as it went, but was disappointing to many in its scope and brevity. If the doctor had gone on for another half hour from the point where he stopped he might have accomplished a great deal more for the benefit of his listeners. We hope this subject will be taken up again by the association. For next Wednesday a grand concert is on the programme.

IT WOULDN'T GO.—Two men were leading a yearling calf along Front st. to day, through Chinatown, and when in front of the new Armstrong building the calf suddenly ducked his head and made a rush for one of his leaders. The man dodged his assailant but the calf evidently thirsted for blood for he suddenly started to kick and bunt at everything within his reach. After keeping this state of things up for about five minutes it suddenly started on the dead run and the man, only too glad to get the beast to go, gave it the full length of the rope and started at a 2:40 gait with it.

THE DELAYED MAILS.—As usual, a great many rumors are prevalent on the street, to various effects, as to the arrival of the delayed trains. On inquiry we learn from good authority that the road is almost clear. The mails have been portaged across the Illicilliwaet and it was expected that they would have reached Kamloops in time to arrive here this evening by the special. Owing to the yet unsatisfactory state of the road they were not able to do so. At all events we are informed that the blockade has been raised, and unless further snow storms occur the through train will arrive on Saturday or possibly before. It is possible we may have a through mail to-morrow.

Worms derange the whole system. Mother Graves' Worm Exterminator derange worms, and gives rest to the sufferer. It only costs twenty-five cents to try it and be convinced,

From Surrey.

(Correspondence of the Columbian.)

The council should take some active part in having fixed a small portion of the Mud Bay road on the Serpentine flats, where the corduroy has floated away and left the road almost bottomless and dangerous to both man and beast. A gentleman going across it the other day got his horse down in the hole and had it badly hurt before reaching terra firma. Although the roads all over are in a very bad condition, this is, without exception, the worst short piece, and may be fixed by a few feet of planking laid over the soft place.—Some of the new settlers who came to Mud Bay have already selected farms in the neighborhood of Boundary Bay. One of them, Mr. Robinson, preached an excellent sermon in the school house at Clover Valley last Sunday.—Master Peter Murphy, who has been seriously ill for the past two weeks, is in a very low condition. He is under Dr. Cooper's care.—Several of the butchers of Westminster have been around this vicinity looking for cattle, which are very scarce and command a good price.—There is to be a ball in the town hall at Elgin on Friday next.—Mr. William Shannon and wife, who lately came from the east, are now residing in Westminster.—The young men of Surrey will have to look sharp or some of them will be "getting left," if they let the gentlemen of the adjoining municipality get too familiar, but opposition is the life of trade.—M. J. Shannon is busily engaged in getting out timber for addition to his barn.

N. McRae, Wyebridge, writes: "I have sold large quantities of Dr. Thomas' Eclectric Oil; it is used for colds, sore throat, croup, &c., and in fact for any affection of the throat it works like magic. It is a sure cure for burns, wounds, and bruises."

Mrs. A. Nelson, Brantford, writes: I was a sufferer from Chronic Dyspepsia for a eleven years. Always after eating, an intense burning sensation in the stomach, at times very distressing, caused a drooping and languid feeling, which would last for several hours after eating. I was recommended by Mr. Popplewell, Chemist, of our city, to try Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and I am thankful to say that I have not been better for years; that burning sensation and languid feeling has all gone, and food does not lie heavy on my stomach. Others of my family have used it with best results.

Harper's Weekly.

ILLUSTRATED.

HARPER'S WEEKLY maintains its position as the leading illustrated newspaper in America; and its hold upon public esteem and confidence was never stronger than at the present time. Besides the pictures, HARPER'S WEEKLY always contains instalments of one, occasionally of two, of the best novels of the day, finely illustrated, with short stories, poems, sketches, and papers on important current topics by the most popular writers. The care that has been successfully exercised in the past to make HARPER'S WEEKLY a safe as well as a welcome visitor to every household will not be relaxed in the future.
