DAILY BRITISH COLUMBIAN.

VOLUME 1 — NEW WESTMINSTER, B. C., TUESDAY EVENING, AUGUST 31, 1886. — NUMBER 27

Daily British Columbian

Tuesday Evening, August 31, 1886.

The conviction of the anarchists in Chicago disposes effectually of the theory that there is no law in America to suppress incendiarism. Dynamiters from England, communists from France, socialists from Germany, nihilists from Russia and scalawags from everywhere, who have made America a rendezvous, now have notice to quit. The conviction, particularly if it be followed promptly by the hanging of the criminals, will have a wholesome effect both in this country and Europe.—*Oregonian.*

The Canadian Pacific is going about its business with great energy. It has unloaded two tea ships already and two more are to arrive. It has established an agency at San Francisco and is, so we are told, to have one in Portland. But this is not all. It is reaching out into United States territory south of its line and is likely to attract a good share of business. The Stevens county (Colville, W. T.) *Reporter* says: "The Canadian Pacific people are very anxious to get the start of the Northern Pacific railroad into the interior of the country. They claim that they can transport our bullion for less money than the Northern Pacific, and are bound to have a line of boats on the Columbia, and a branch road from Colville to the river. An agent of the company passed through on Wednesday looking up the field."—*Portland Oregonian.*

Big Bear having had a year or so of reflection upon a rather severe diet, has apparently seen the errors of his ways and come to the conclusion that fighting the white man does not pay. It is altogether unlikely that another rebellion of the character of the last will ever take place. The Indians are extremely quiet at the present time, and are apparently thoroughly satisfied, if not thoroughly subdued. Before they undertake another uprising the railroad facilities in the Northwest will have increased to such an extent as to render all portions of the territories easy of access for troops and munitions of war. As to Big Bear, he has been confined for a longer term than the other rebellion prisoners, probably because of the murders committed by his band. But the old man himself does not appear to be a bad Indian, and is spoken kindly of even by the settlers in the Battleford district. The trouble appears to have been that he had lost control of his own band, and suffered, like dog Tray, for being in bad company.—*Winnipeg Sun.*

Talking of speeches reminds me that I have read a most amusing remark made by Lord Randolph Churchill in one of his, a few nights ago. Here is the remark: "Mr. Gladstone has also American gold to help him. Eighty-five members of Mr. Gladstone's party absolutely depend for their living on the almighty dollar." There isn't, prima facie, anything very amusing in it, is there? No. But here is where the amusing part comes in. The laugh begins if we reflect that at the present moment Lord Randolph Churchill is himself—as he has been since his marriage—if not altogether, at all events mainly, supported by American dollars, got through his pretty wife. When he married Miss Jennie Jerome, of New York, and got a bagful of American gold and "mighty dollars" from her papa in exchange for his very trumpery title, he was almost unknown in the political world. An utter failure at Oxford, where he was a well-known "sponge"—as the other undergraduates of his college can tell you—he chanced to be so lucky as to meet at a dinner party in Paris the beautiful American girl who has since become such a prominent character in England. She might have had a hump, or a squint, or a snub nose, it would have been all the same to Lord Randolph, for she had money. If she hadn't had money, I don't think her beauty would have helped her to become Lady Randolph Churchill. Like all other Englishmen of his class, Lord Randolph wouldn't have married any woman who hadn't money, and would have married any woman who had, and when he found that Miss Jerome owned the Union League club property in New York, why he proposed for her "right away." Her acceptance of his little pasty hand was the beginning of the successful side of his career. He knows this as well as anyone. And therefore I say he is no one to sneer at anything American.—*London Letter in S. F. Argonaut.*

Daily British Columbian

Tuesday Evening, August 31, 1886.

It is probably gratifying to all parties except Russia to find that Prince Alexander has been virtually restored to the throne of Bulgaria without fuss or bloodshed. His deposition is one of the most remarkable incidents of modern history, and shows how great a commotion may be created by a few irresponsible men. The scheme was concocted and carried out manifestly without the knowledge or consent of the people of Bulgaria, and both Russia and her Bulgarian sympathisers have completely overreached themselves. Bulgaria and her prince have conducted themselves so circumspectly under the trying circumstances as to win good opinions everywhere, and the way for closer union among these small states seems to have been opened.

At it Again.

It would be quite impossible for the *Colonist* to discuss any question affecting the mainland and island without introducing the "sectional" cry, and we are not surprised to find it accusing the COLUMBIAN of being "furiously sectional" because we questioned its sensational item about Victoria having been decided upon as the Pacific terminus of the C. P. R. In the language employed in the article mentioned there was a total absence of anything that might be termed "furious sectionalism," but that circumstance does not hinder our cotemporary from using the expression when it suits his purpose. An honest journalist would have undertaken to meet fairly the statements put forward against his theory. It is the part of the man who finds his cause indefensible to resort to subterfuges the purpose of which is to mislead. There is no doubt in the mind of any person acquainted with the circumstances that the sensational article of our Victoria cotemporary was utterly destitute of foundation. The purpose of it may have been to boom Victoria or to injure the mainland and the plans of the C. P. R. syndicate. We can imagine no other, and in either case the motive was both sectional and dishonest. Nature has forbidden the extension of the C. P. R. to Victoria, and to overcome the difficulties that lie in the way of such an extension would be a most costly business. It is quite certain that the C. P. R. syndicate has no present intention at least of undertaking anything of the sort. It is not true, either, that the COLUMBIAN manifested any alarm at the rumor. We knew so well that it was a pure fabrication that there was no ground for alarm. But if the rumor had been entirely true, it need not have caused alarm to the people of New Westminster. We have never expected, and do not ever expect, to be the only western terminus of the railway. All we have asked is to be connected by railway with the main line of the C. P. R., and that connection has already been made. But if this were the only terminus, the question of ice would never give us uneasiness. Ice does sometimes accumulate in the river for a week or two in winter, but never to such an extent as to prevent steamers reaching this city with perfect ease when properly equipped. Two years ago, while the river was blocked as much as it is usually blocked by ice, the O. R. & N. Co.'s sidewheel steamer Idaho came twice to the city without any protection but a pine board fastened about her bows. The Fraser River, as far as this city, is navigable all the year, and the ice will not interfere with the operations of any properly equipped steamboat company. The *Colonist* says: "The objective point of all northern railways is Victoria. The Northern Pacific and Canadian Pacific are both reaching out for its trade." This is not true. While all railways on the coast are undoubtedly reaching out for Victoria's trade, as they are reaching out for the trade of every city of importance on the coast, it is not true that Victoria is the objective point of all these roads in the sense of being a terminus. The terminus proper of the C. P. R. is and always must be on the mainland. Beyond that there may be theoretical termini without number, and Victoria may be one of them, as well as San Francisco and Hong Kong.

A Russian journal says that at Baku, on the Caspian sea, it is quite common for pleasure parties to "set fire to the sea." Whenever there is an unusual accumulation of naphtha at the bottom of the sea the surface becomes agitated in a peculiar way, and if the gases hovering over it are ignited, the fire often spreads over a large area, until a strong gust of wind puts an end to the fascinating spectacle.

D. Sullivan, Malcolm, Ontario, writes: "I have been selling Dr. Thomas' Eclectric Oil for some years, and have no hesitation in saying that it has given better satisfaction than any other medicine I have ever sold. I consider it the only patent medicine that cures more than it is recommended to cure." Unprincipled persons are selling imitations of Dr. Thomas' Eclectric Oil. Do not be deceived.

TENDERS.

TENDERS WILL BE RECEIVED BY me until noon on SATURDAY NEXT for removing a house from Lot 3, Block 10, to Lot 7, Block 23, and for certain work thereon. Plans and Specifications can be seen at my office. The lowest or any tender not necessarily accepted.

PYÆMIA

Is the most virulent form of blood-poisoning. Less speedily fatal, but not less certainly so, is the vitiation of the blood of which the first symptoms are **Pimples, Sties, Boils,** and **Cutaneous Eruptions.** When the taint of **Scrofula** gives warning of its presence by such indications, no time should be lost in using AYER'S SARSAPARILLA, the only perfect and reliable medicine for the purification of the blood.

SCROFULA

Is a foul corruption in the blood that rots out all the machinery of life. Nothing will eradicate it from the system and prevent its transmission to offspring but AYER'S SARSAPARILLA. This preparation is also the only one that will cleanse the blood of Mercurial poison and the taint of Contagious Diseases. Impoverished blood is productive of

ANÆMIA,

A wretched condition indicated by **Pallid Skin, Flaccid Muscles, Shattered Nerves,** and **Melancholy.** Its first symptoms are **Weakness, Languor, Loss of Nerve Force,** and **Mental Dejection.** Its course, unchecked, leads inevitably to insanity or death. Women frequently suffer from it. The only medicine that, while purifying the blood, enriches it with new vitality, and invigorates the whole system, is

CUSTOMS.—During the month of August the collections at this port were as follows: Customs, $5,665.91; fines, $50; other revenues, $18.42; total, $5,734.33. For the same month last year the revenue was $4,365.16, showing an increase this year of $1,369.07.

THE ALDER GROVE CASES.—The charges against the ten residents of Alder Grove, who it was alleged had made false declarations as to their right to vote at a school trustee election, came up before Capt. Pittendrigh this morning, but were withdrawn with the consent of the court, an arrangement satisfactory to prosecution and defence having been arrived at. This arrangement, apart from minor details, provides that a new election of trustees in the Alder Grove school district shall take place, the present parties holding office undertaking to resign. The New Wire.

FURTHER PARTICULARS ABOUT THIS IMPORTANT WORK.

The Postal Telegraph company are going to work vigorously with the construction of their line between this place and San Francisco. Gangs of men have started in at different points along the route, and should everything go well the work will no doubt be completed in time for New Westminster to exchange Christmas greetings with San Francisco. At this end Mr. Wise, who has the consract for getting out the poles as far as Whatcom, has gone over some seven or eight miles of his contract, and to-day the foremen will proceed with the erection of the wire which is on hand, and, by the way, was the first freight to arrive over the branch railway. The poles are to be 25 feet in length and not less than seven inches at the top, 35 poles to the mile. The cross bars will be made to receive four wires, though only two will be put up at present, one for local the other for through business. The No. 6 wires used are considerably larger than any that have been heretofore put up in these parts, and should a tree fall across them their strength will be such as to pull down the cross bars before the wires will break. The working of the line will, consequently, stand a better chance of not being interfered with by falling trees till repairers, who will be stationed all along the route, can be on hand and set matters right again. The location chosen for the cable which is to cross the river is near the route of the government cables, which land a few yards south of Brownsville. As it is the intention of the company to work direct from San Francisco to this city, and from here to Winnipeg, and thence direct to Montreal, it will be seen that they intend to organize a first-class service in every respect. New Westminster being the end of a circuit, all business from the east for the Pacific coast and business from the Pacific coast for the east will have to be repeated after being received here, which means work for a large number of operators, so that the importance of this work to the city is worth considering. Vancouver Island will have connection with the line, but by what means is not yet decided on.

From Surrey.

(Correspondence of the Columbian.)

The smoke till lately, was getting quite thick but the late rains have washed it from the air and we can see with ease again.

Contracts for the MacKay-Bennett telegraph line from New Westminster to San Francisco are signed and work will commence in a few days. The line will follow the Yale road to the 10-mile post, thence down the Hall's prairie road to the boundry line. It is looked upon as the forerunner of the railroad. Now the C. P. R. is striving for the Seattle trade and the Bellingham Bay Railway and Navigation Co. has its charter we expect to see the railroad a certainty in the near future.

A ball was held in the Elgin Hall, Mud Bay, on Friday, August 27th, and was largely attended by the young folks around. The music was supplied by Murchison Bros., of Langley and Robert Shortreed, of Alder Grove. Mr. F. W. Howay, of Canoe Pass, and Messrs. Mann and Mackay, of New Westminister with others were present. A most enjoyable time was spent and all were pleased with the entertainment provided.

City Council.

The regular weekly meeting of the city council was held last evening. Present, Couns. Lord, (in the chair), Bonson, Douglas, Elliott, Shiles, Calbick, and Ross.

COMMUNICATIONS

were read as follows: From Jas. Pearson, secretary of the municipal council of Chilliwhack, acknowledging the invitation extended to them by New Westminster to attend the reception of Sir John Macdonald, but stated that it had been received too late for them to act. Received and filed.

From Chas. Welsh, asking permission to erect a boot black stand in front of the London Arms saloon, stand to be removed every evening. Request granted.

From J. J. Owens, asking permission to place lumber on the streets for building purposes. Referred to board of works.

From Turpin & Stride, asking that a lane off Royal Avenue be attended to before they removed into their new building. Laid over.

From Henry V. Edmonds asking permission to remove a house from Lot 3, block 10, to Lot 7, block 23, and to have all the usual privileges connected therewith. Granted.

From W. D. Ferris who, having been appointed coroner, asked whether the council purposed to continue to repudiate the payment of coroners' fees, the provincial secretary having informed him at the time of his appointment that the province was not liable.

Mr. Ferris, at request, explained that he was anxious to have this matter settled before entering on his duties. He did not know who paid coroners' fees in other cities of the province, but in Ontario they were met by the municipalities. The coroner's fee was $10, though an inquest might entail much greater expense.

It was the general opinion of the council that if the government appointed coroners it should also be answerable for their expenses, which opinion was concurred in by the city barrister, who, when the matter had been previously brought up, advised the council not to pay the fees. The communication was considered in committee of the whole, but the committee rose and reported without taking any action.

From Z. Smith, applying for the position of city scavenger. Referred to board of health.

From G. E. Corbould, asking that Mr. Turner be instructed to mark the grade of St. Patrick's street and the limits of Manitoba lane. Referred to board of works.

From Thos. L. Briggs, on behalf of John Irving, applying for the renewal of lease of water lots 24 and 25 under the usual conditions. Granted.

FRONT STREET REPAIRS.

The board of works having examined Front street between Mr. Ewen's and the Holbrook house found that the majority of the piles were in as good condition as ever and that only 25 new piles would be required. All timber above the piles they reported would require to be renewed and the total cost of lumber, spikes, labor, &c., for repairs to the same would be about $1,400. Report received and Board of Works authorized to carry out the work.

FIRE COMMITTEE'S REPORT.

The fire committee reported that with the chief engineer of the fire department they had had two meeting's with Mr. Stamford but had come to no conclusion. The committee, however, were of opinion that it is of the greatest importance that the city should have a good supply of water, and recommended that some inducement be offered for the carrying out of a scheme with that end in view. The chief engineer calculated that the city required 15 hydrants, but Mr. Stamford would not give any figures for that number. The water tanks were reported in bad condition and the supply poor and in case of fire the chief engineer was of opinion the fire company would have to rely on the river for water.

RAILWAY MATTERS.

Coun. Elliott reported that a portion of Front street broken up for railway construction was not being repaired the full width as stipulated in agreement. Referred to Board of Work.

J. W. Sexmuth forwarded a bill of $400 against the city on account of being deprived of the use of a building through railway construction. Referree to railway committee. Council then adjourned.

Mr. T. C. Berchard, public school teacher Norland, writes: "During the 1881 I was much troubled with Biliousness and part of the time was unable to attend to the duties of my profession. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure was recommended to me, and I have much pleasure in stating that I was entirely cured by using one bottle. I have not had an attack of my old complaint since, and have gained fifteen pounds in weight."

Special to the Columbian.

CITY OF MEXICO, Aug. 31.—Sedgwick, the special American envoy, had another consultation with Minister Jackson yesterday for the purpose of procuring data for his report to Secretary Bayard on the Cutting case. Nothing is said regarding the rumors in circulation concerning Sedgwick. Minister Jackson has taken no part in the matter.

BUCHAREST, Aug. 31.—Three leaders of the conspiracy against Prince Alexander, including the treasurer, have taken refuge in this city. The government decided to expel them, and notified the refugees that they must leave. The conspirators thereupon appealed to the Russian legation for protection. Telegrams were passing between the legation and St. Petersburg all of last night. Alexander will arrive at Phillipopolis tomorrow.

TIRNOVA, Aug. 31.—Prince Alexander's journey here from Sistova was a series of ovations. The people, headed by the priests, flocked to the different points on the route of the procession and greeted the prince with joyous shouts of welcome. Large crowds left Tirnova to meet the prince at a point five miles distant, and escorted him into town amid great enthusiasm. An address of welcome was presented in behalf of the people. Alexander congratulated Tirnova upon having commenced the counter-revolution in his favor. It is now said Alexander will probably proceed to Phillipopolis to-day.

LONDON, Aug. 31.—In the first heat to-day in the international sculling contest, between Beach of Australia and Bubear of England, Beach won.

ROME, Aug. 31.—Reports from Molfetta, San Marco, Rotonda, Bologna and Ravena show 84 new cases of cholera and 30 deaths.

BERLIN, Aug. 31.—A correspondent of the *Tagblatt* at Franzenbad has had an interview with De Giers, in which the Russian foreign minister stated he would return to St. Petersburg Sept. 3d by way of Berlin, and would have another conference in that city with Bismarck. Nothing has been decided upon regarding Bulgaria in his present interview with the chancellor, as it was not known that Alexander would return to Sofia. De Giers said he did not know what the czar's present intentions were, but he said Russia could not occupy Bulgaria while that country was tranquil. Russia's position would be very delicate and critical should Alexander insist upon the execution of the men who led the conspiracy against him. De Giers spoke in condemnation of Alexander's course, and alluding to England's action in the premises, he said she has used everything that came within her reach as an instrument against Russia.

LONDON, Aug. 31.—The race between Teemer of the United States and Matterson of Australia was won by Teemer.

TORONTO, Ont., Aug. 31.—A Winnipeg despatch says that the baggage of Sir Charles Dilke and Lord Kingston, who recently passed through Winnipeg on their way to the Pacific coast, was seized by the Northwest police on entering the Territories for containing liquors. Sir Charles is traveling under the name of Tetlow.

LONDON, Aug. 31.—Despatches from St. Petersburg state that the leading Russian papers affect to have great fears concerning the fate of Bulgaria. "Where," to quote the language of one of them, "there are two governments and two armies menacing each other with civil war, a speedy pacification of Bulgaria is necessary." The *Novoe Vremyae* declares that Alexander must be prevented from returning to Sofia, and says all Russians would enthusiastically support any steps which Russia might take to stop him.

THE LAWS OF THE MEDES AND PERSIANS were not more immutable than those of nature. If we transgress them we suffer. Sometimes, however, we break them inadvertently. Damages frequently take the form of Dyspepsia, Constipation and Biliousness, which can be easily repaired with Northrop and Lyman's Vegetable Discovery and Dyspeptic Cure, the Great Blood Purifier and renovator of the system.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The ass ts and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe*. T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being noncorrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce*. Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. AFTER DINNER.

Persons who suffer from Indigestion can arrest the progress of that painful malady by the use of an **after-dinner pill**, so composed that it will give tone to the stomach, prevent heartburn, rouse the liver to healthful action, invigorate the kidneys, and thus, through the activity of these organs, promote the natural movement of the stomach and bowels. AYER'S PILLS are so compounded that their action, though mild, effectually produces the above results. They also, in curing Constipation, remove the cause of *Biliousness, Liver Complaint, Kidney Disease*, Rheumatism, and many other serious ailments.

AYER'S PILLS

contain no mineral nor poisonous substance, and do not gripe unless the bowels are irritated, and even then their influence is healing. To continue their effect in constipated or chronic cases, they need only be taken in diminishing instead of increasing doses. For seamen, and inhabitants or travelers in sparsely settled countries where physicians are not at hand, they are of inestimable value. There is hardly a sickness they will not alleviate, and in most cases cure, if taken promptly. To young girls just entering upon womanhood, and to women whose period of maternity is drawing to a close, Ayer's Pills, in moderate doses, merely sufficient to ensure regular action of the bowels, will be found of

Incalculable Value.

Public Notice

New Westminster Public Library.

THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, *in advance*, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of *one* cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can soap all classes, viz.:

Yours Respectfully,
HENRY W. HUGHES.

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

LONDON, Aug. 30.—A portion of the trial heats to decide who shall be contestants in the international sculling sweepstakes on Wednesday were rowed to-day. The weather was scorchingly hot. In the first heat Riel Matterson, of Australia, and Watterson, of Australia, and Wallace Ross were the contestants. The course was from Battersea to Hammersmith. Matterson got the advantage the first half mile, but before the first furlong had been covered Ross drew up on a level with him; at the end of the next furlong Ross led by a length; when 1½ miles (or almost half distance) had been rowed he was two lengths in advance. Directly after reaching this point Ross almost stopped, and Matterson went ahead and at Putney bridge led by three lengths. After this the race was over, Matterson winning leisurely in 18 min. 41 sec. Bubear then rowed over the course, scoring a bye. The course for the second heat was from Hammersmith to Kew. The contestants were John Teemer, of the United States, and George Perkins, of England. Teemer was the favorite, 5 to 1 being offered on him. Teemer at the start rowed a rather snatching stroke, enabling Perkins, who had the best water, to gain a slight lead in the first few hundred yards. Teemer then settled down to a longer and steadier stroke, and soon got on a level with Perkins. He then steadily forged ahead, and when Barnes' bridge was reached he led the Englishman by four lengths. Teemer won eventually without effort, finishing three lengths ahead: time 18 min. 40 sec. The third heat was between Beach, of Australia, the champion of the world, and G. M. Lee, of the United States. The course was from Kew to Hammersmith. Lee led by a couple of lengths for the first quarter of a mile, but after that was beaten at Barnes' bridge. Beach drew away and won the heat easily by three lengths. Betting was 10 to 1 in favor of Beach. Twice during the heat Lee got over into Beach's water and fouled him: foul claimed and allowed.

VIENNA, Aug. 30.—The fourteenth international grain and seed market has been opened here, and harvest reports for Austria-Hungary show the yield of wheat from 5,500,000 to 6,000,000 hectolitres below the average yield: barley, 5,000,000 hectolitres below the average; rice, 3,500,000 hectolitres below. There is a medium yield of malting barley and oats. Other grain available for export is malting barley to the amount of 2,500,000 os 3,000,000 hectolitres, and oats to the amount of scarcely 50.000 metrical centers.

RUSTCHUCK, Aug. 30.—Prince Alexander has been warned to take precautions against possible attempts on his life by panslavist fanatics and followers of the metropolitan element whose party has ramifications in the interior in Bulgaria. Prince Alexander arrived at Sistova at 8 o clock this morning. His entry into town and progress through were one continuous triumph. The prince afterward started for Tirnova, and arrived there this evening.

SYDNEY, N. S. W., Aug. 30.—The government has introduced into parliament a bill providing for the celebration of the centennial of New South Wales in January, 1888. It is proposed that the programme of attractions for the occasion shall include a carnival, regatta, universal exhibition, musical festival, review of the colonial forces, athletic sports, etc. The celebration will be conducted on the grandest scale. The Prince of Wales and other members of the royal family, and members of the governments and parliaments of Canada and other British colonies, will be invited.

PARIS, Aug. 30.—It is stated that the pope has accepted the proposal of France to send a representative temporarily to Pekin to study conjointly with the representatives of France and China the conditions for eventual establishment of a permanent nunciosbip to China.

RUSTCHUCK, Aug. 30.—A manifesto has been issued by Prince Alexander. It approves of the measures adopted by the Stambouloff regency; confirms the existing ministry and the appointment of Mulkeuroff as commander-in-chief of the army; thanks the people and the army for their fidelity and resolute attitude in favor of independence; implores God's blessing; and urges all to unite in promoting the welfare of Bulgaria.

BELVILLE, Mich., Aug. 30.—Ben. Elwell, a well-to-do and aged farmer living three miles south of this place in the township of Sumpter, was the victim of a daring robbery last Saturday midnight. Mrs. Elwell awakened with a choking sensation, and immediately awakened her husband who detected the fumes of chloroform in the room. he then attempted to leave his bed, but received a sharp blow on his head coupled with a threat of instant death if he made any outcry. The two burglars then bound and gagged Mr. and Mrs. Elwell, and possessed themselves of a tin box containing $850 in gold which Mr. Elwell had been carefully hoarding for years. The burglars then demolished a trunk in the same room thus securing $900 in valuable papers, bonds, etc. After warning the pair to make no outcry the robbers left. There is no clue, but the general impression is that they were no strangers inasmuch as the robbers knew the location of the money and valuables they secured.

SCRANTON, Pa., Aug. 30.—A terrible explosion occurred this morning in the Fairlawn colliery, resulting in the death of 5 men, and seriously wounding 2 others.

ROCHESTER, Aug. 30.—Madge Dolors, a handsome Chicago girl, accompanied by her backer, Jerry Costello, passed through here to-night for N.Y. where she will make an attempt to jump from Brooklyn bridge for a purse of $10,000.

LONDON, Aug. 30.—It is rumored that the Parnellites intend to oppose the government in its desire to hasten closing the present session. There is a liklihood of night sittings on the estimates. In reply to King Milan's congratulations Prince Alexander said he was touched by Milan's sympathy and hoped to see a Servian agent at Sofia and a renewal of friendship between Servia and Bulgaria.

SAN FRANCISCO, Aug. 30.—The utmost indignation is being manifested at the miserably stupid and wanton killing, early yesterday morning, of young Eugene S. Guirdon by Geo. D. Gardiner. Guirdon had escorted Miss Gardiner to the Mechanics fair Saturday night and returned home with her shortly after midnight. After the couple had bid each other goodnight, and just as Guirdon was turning away to proceed to his home the father of Miss Gardiner appeared in the doorway and calling out to Guirdon "Hold on young man; I've got something to say to you," without further words drew a revolver and fired at Guirdon, the bullet entering his neck. He ran, and Gardiner, thinking he had missed him, pursued and fired 3 more shots, none of which, however, took effect. The murdered man ran a short distance when he dropped. Before expiring he stated to those who came to his rescue that he had been shot by Gardiner because, he said, "I suppose Gardiner thought I brought his daughter home too late." He had barely uttered these words when he expired. The statement made by Miss Gardiner is as follows: "When we stopped at the house Eugene bid me good-night and I passed up the stairs and knocked. My father came to the door and brushing past me said to Eugene, who was just leaving, "Hold on, young man; I've something to say to you," or something like that. Eugene turned round and came back, when father drew a pistol and shot him. I think I screamed "For God's sake, papa, don't!" I saw Eugene turn and run with my father after. I then ran into the house to my mother. Mrs. Gardiner stated that at the time of the shooting her husband must have been intoxicated as he had been drinking when he came home, and complained and quarrelled with her, demanding to know what time she had told Constance to come home. A little while after she knocked at the door and he went out and shot Eugene. Gardiner, immediately after the murder, was taken from his house to where the corpse of the murdered man was lying, and gazing calmly at the blood-besmeared corpse he said to the officers, "I never saw that man before in my life." "Did not you kill him?" "No, sir; I did not." He was, however, taken to prison and locked up in the "Tanks." Later he admitted the crime and informed the officers that the revolver which he had used could be found under the pillows in his bed. His room was visited by the police and the revolver found where stated. Guirdon has been employed as clerk in the office of the Mutual Life Insurance Co., of which his stepfather, Geo. A. Moore, has been president for the past 7 years and bears a most excellent reputation. His intercourse with the ladies was particularly dignified and modest. The slightest breath of scandal has never rested on his name. He was a native of California, and well known in the best circles of society. He is also well known among amateur journalists. Miss Gardiner is about 17 years of age.

QUEBEC, Aug. 30.—It is feared that other animals at Levis quarantine will have to be sacrificed to prevent contagion. The owners of animals are admitted to them only on condition of afterwards burning their clothes and taking a bath. The earth road traversed by the animals will be burned over to a depth of a foot. It is probable the authorities will have to buy all the cattle owned around the quarantine.

Britain and Russia.

LONDON, Aug. 20.—Lord Rosebery's despatch of July 13 to the Russian government relating to the closing of the port of Batoum is published. The despatch says in substance: "There is one direct, supreme, and perpetual interest at stake in this transaction, namely, the binding force and sanctity of international pledges. England is always ready to uphold this principle, and will not falter therewith in the present instance. Therefore the English government cannot recognize or associate itself in any shape or form with this act of the Russian government, which is a violation of the treaty of Berlin, and which will tend to make the conclusion of similar treaties in future difficult, if not impossible, and cast doubt at least upon those already concluded. The other powers must judge how far they will acquiesce in this breach of international engagement." M. De Giers, the Russian foreign minister, in reply, expressed himself as painfully surprised by this despatch. He maintained that the Russian emperor's promise was not equivalent to an obligation. Russia, he stated, was still anxious to contribute to the consolidation of general peace, and he expressed the hope that the powers which fixed and guaranteed its bases would themselves respect them. M. De Giers displays throughout much irritation, and his tone is decidedly menacing.

Another Through Line.

SAN FRANCISCO, Aug. 23. — The Chicago and Northwestern railroad, it is stated, have resolved on the construction of a through line to the Pacific coast. The line has already reached the town of Duchesne, situated about seven miles from Fort Fetterman, on the banks of the North Platte river, in Wyoming territory, 700 miles west of the Missouri river. In two years, it is said, the line will be completed to connect from New York city on the Atlantic ocean to Yaquina bay on the Pacific ocean, and will connect with the Donglas line to complete the system to San Francisco.

Mr. Perpetus Boileau, Ottawa, says: "I was radically cured of piles, from which I had been suffering for over two months, by the use of Thomas' Eclectric Oil. I used it both internally and externally, taking it in small doses before meals and on retiring to bed. In one week I was cured, and have had no trouble since. I believe it saved my life."

Township of Surrey!

Notice to Persons in Search of Farms.

THE TOWNSHIP OF SURREY CONtains several Farms which are for sale. The land is of excellent quality—the very best in the province. The Reeve and Council are most anxious to secure desirable settlers. Application to them will receive prompt attention. The roads in the township are good, and there are churches, schools, and a town hall.

Fire! Fire!

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON, Vancouver;

Representing Goldie & McCulloch, Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Rich'd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Read, Real Estate Broker; R. Balfour, Alderman; John Rankin, Real Estate Broker; Pither & Edson, Royal Hotel; H. F. Keefer, Contractor, C. P. R.; J. W. McFarlaid, Port Moody, to Vancouver and English Bay; F. C. Innes & Co., Real Estate Brokers; A. W. Ross, Real Estate Broker; Gravely & Spinks, Real Estate Brokers; R. C. Ferguson, Mgr. B. C. P. Mills.
