License Amendment.

The bill introduced by Hon. Mr. Robson, to amend the municipalities act, provides as follows: (1.) Subsection 1 of section 110 of the Municipalities Act, 1881, is hereby amended by striking out of line three the figures "$100," and inserting in lieu thereof the figures "$500." This relates to the license fee. (2.) Nothing contained in any statute of the province, or in any by-law passed thereunder, shall empower or permit any municipality, or any of the officers thereof, to issue any license permitting the sale of intoxicating wines and liquors, by retail or wholesale, on the Lord's Day, commonly called Sunday; and every license to sell intoxicating liquors by wholesale or retail hereafter issued shall contain an express reservation to that effect, and such license shall be signed by the licensee. (3.) No such license shall be granted unless a petition or requisition for the granting of such license, signed by at least two-thirds of the residents, other than Chinese or Indians, over twenty-one years of age, living nearest to the premises sought to be licensed, shall be presented to the licensing board to which the application shall be made for the granting of such license. (4.) Any person may appear at the licensing court and oppose the granting of any license applied for, and may present a petition or petitions against the granting of such license. (5.) Licenses to restaurant keepers to sell beer and porter at meals shall be granted and obtained only in the same manner and with and subject to the same provisions and reservations as are provided in the case of retail licenses, and the provisions of this act shall apply to the same.

Provincial Legislature.

On Thursday Mr. Bole reported that the committee could not agree on the lien bill. There were two bills on the subject, one introduced by Mr. Bole and the other by Hon. Mr. Davie, and it is presumed that both possessed such excellencies as to prevent the committee from being able to determine which was the better.—Mr. Orr moved that quarterly statements showing the state of the provincial finances be published in the *Gazette*. The motion was rejected on the ground that the preparation of these statements would be expensive.—Mr. Bole's juror amendment act was read a first time.—The Vancouver amendment bill was pronounced by the speaker a private bill, and ruled out. The speaker decided that as the new city had obtained a special charter through a private bill, it could not be regarded as a public measure, and amendments should be obtained by petition in the ordinary way.—In considering the West minster incorporation act it was found that power had been given to the council to impose a tax on personal property, and many of the clauses had to be changed to make the bill homogenious. It was, therefore, referred back to the committee.

It has lately been proven that coffee is not only a powerful stimulant but has even more valuable properties as an anti-septic. It operates strongly in destroying cholera germs. Similar qualities are suspected to belong to tea.

Of all the deaths from poison in Great Britain, forty per cent. are said to be due to opium. This largely arises, in the opinion of Dr. Wonter Blythe, from the pernicious practice of using soothing preparations to quiet infants and keep them asleep most of the time. One preparation alone has been calculated to be the undoubted cause of death of 150,000 children every year.

The possibility of conveying fish alive during a month's trip was demonstrated near the close of last year, when specimens of several varieties were taken from Paris to stock the waters of Chili. There was considerable loss of salmon, gudgeons, soles and barts, but the carp, tench, eels, minnows, etc., mostly survived. A low temperature and constant circulation of air through the water were kept up on the trip.

LAST NIGHT'S DESPATCHES.

COWARDLY TACTICS.

SAN FRANCISCO, April 20.—The San Francisco board of health, after inviting Capt. Webber and J. D. Spreckles to be present at their meeting to-night, secretly decided this morning to postpone their meeting for a week, but neither of those gentlemen were notified of such change, and consequently were at the board rooms at the appointed hour. They are now determined to secure the release of the passengers and crew by a writ of habeas corpus, and have engaged Mr. Milton Andros, a celebrated admiralty lawyer, to prosecute the case. The outrage committed on the saloon passengers and the stewardess, by forcing them to leave the Parthia and go aboard the hulk, is causing severe comment in the city. The captain and chief engineer are kept prisoners on the Parthia, while the ship's doctor is allowed to go ashore. Party politics, and not opposition to the Canadian Pacific Steamship Company, is the cause of these arbitrary measures. The Parthia is a favorite steamer with intending passengers, and sails on Saturday at noon.

THE LATEST ACQUISITIONS.

LONDON, April 20.—The impression prevails here that the British annexation of the Fanning, Christmas and Penrhyn islands in the Pacific ocean indicates that the Pacific survey which was always regarded as essential to establish the practicability of a Pacific cable, is about to be undertaken. It is alleged that apart from any commercial value the imperial government realizes that such a cable would serve to bring several of the British naval stations within touch of each other.

THIS MORNING'S DESPATCHES.

THE EMPEROR.

BERLIN, April 21.—At 1 o'clock this morning it was stated that the emperor was worse than the last bulletin intimated, but that there was no immediate danger of a collapse.

BERLIN, April 21.—A despatch from Charlottenburg at midnight says that the emperor's condition is again critical. He sleeps, but is feverish and breathes heavily. The canula is constantly becoming obstructed, and is sometimes changed at 3-minute intervals. It has been decided by the doctors to issue bulletins at 9 a. m. and 9 p. m.

A HANDSOME REWARD.

TUCSON, Apr. 21.—Marshal Meade, who arrested and convicted Smart and Green the robbers, has been awarded $4,000 by the Southern Pacific Co.

AMNESTY TO OFFENDERI.

BERLIN, April 21.—An imperial decree has just been issued granting amnesty to all petty offenders in the German army and navy.

ON BALFOUR'S TRAIL.

LONDON, April 21.—Mr. Johnston, member of the house of commons, in speaking at Willesden last evening, asserted that the government had proof that assassins were following Balfour.

TO INVESTIGATE.

NEW YORK, April 21.—The New York state board of arbitration and mediation has decided to begin an investigation concerning the lockout of brewers, next week.

DEATH SENTENCE CONFIRMED.

CITY OF MEXICO, April 21.—The supreme military court of Mexico has confirmed the sentence of death passed on Col. Francisco Arvizgas and Lieut. Benjamin Gutierrez for having authorized the violation of American Territory and an attack on the American police officers at Nogales, Ariz., in January of last year.

WHOLESALE LYNCHING.

KANSAS CITY, April 21.—Reports reached here to-day of the lynching of eight horse thieves in southwestern Indian Territory. A deputy sheriff says the thieves were surprised by a posse of citizens, and a running fight ensued, in which one of the posse was killed. The entire gang were later surrounded and shot or hanged.

LOOKS LIKE CIVILIZATION.

CITY OF MEXICO, April 21.—Governor Gonzales, of the state of Guanajuato, has issued a proclamation prohibiting bull-fighting in that state.

RIOT IN DUBLIN.

DUBLIN, April 21.—Last night a collision occurred between a crowd, who were cheering Mr. Gilhooly, M. P., and the police. The latter attacked the crowd, who retorted with a volley of stones. Many on both sides were wounded.

THIS AFTERNOON'S DESPATCHES.

A CURIOUS CONVICTION.

SPRINGFIELD, O., Apr. 21.—Thos. Dugan and C. A. Bird, prominent hotel proprietors, has been fined $50 and costs each and sentenced to 10 days in jail, for using oleomargarine on their tables without pasting a notice in their dining rooms.

SAD DROWNING CASE.

EAST SAGINAW, Mich., Apr. 21.—Sam. Phillips, 11 years old, son of a prominent merchant in this city, while playing on some logs in the Bayon, this morning, fell in, and Englehart Reidlinger, aged 24, jumped in to save the boy's life. The little fellow clung to his neck and they were both drowned. Reidlinger leaves a widow and one child.

GREAT COAL OIL EXPLOSION.

FORT WAYNE, Ind., Apr. 21.—The Standard Oil Co. suffered a loss of $200,000 in this city to-day by the complete destruction, by fire, of the company's big storage depot, from which the northern Indiana market is supplied. A spark from a passing Wabash locomotive kindled a small blaze in the barn and the flames spread with amazing speed to the monster tanks, which burst with terrific reports, sending parts of the structure 200 yards distant and high over the heads of 5000 affrighted spectators.

SUIT FOR RECOVERY.

NEW YORK, Apr. 21.—Receiver Anderson, of the First National bank of Albion, N.Y., has brought a suit for $250,000 against Whitney & Co., brokers of this city, to recover that amount which President Warner, of the wrecked bank, placed in the brokers hands for speculative purposes. The ground is that the brokers knew it was the bank's money Warner was speculating with, and the checks they received were signed by him as president of the bank.

DEATH AT ANY MOMENT.

LONDON, April 21.—A despatch to the Exchange Telegram Co. from Berlin, timed 3:12 p. m., says the Emperor has been in a critical condition since last night, and his death is possible at any moment. He is perfectly resigned.

AN UNDISTURBED MEETING.

DUBLIN, April 21.—Dillon to-day addressed a meeting of tenants of the Marquis of Londonderry, Lord Lieutenant of Ireland, at New Tonards, County Down. The meeting was not interrupted by the authorities, and passed off quietly.

PARNELL'S ORDERS.

LONDON, April 21.—Parnell has telegraphed to all absent home rule members to attend the sessions of Monday and Wednesday, on which days divisions will be taken on the budget and Irish county government bill respectively.

REVISING THE CONSTITUTION.

PARIS, April 21.—On the re-assembling of the chamber of deputies to-day the committee appointed to consider the question of revising the constitution began work. The committee consists of eleven members. Four oppose revision, while two are in favor of immediate revision. Five desire revision, but are willing to accept the proposal of the cabinet to postpone action upon the question.

CONSIGNED TO EARTH.

UTICA, N. Y., April 21.—The funeral of the late Senator Conkling took place to-day. The services were held at Calvary Church, after which the procession wended its way to the cemetery.

THE SAN PABLO ASHORE.

SHANGHAI, April 21.—The steamer San Pablo, which left San Francisco on March 12th, and arrived at Yokohama April 12th, has stranded near Turnabout Island. Assistance has been sent. Her passengers, mails and specie have arrived here. The vessel lies hard and fast at the mercy of the waves. She is valued at $450,000 and is fully insured.

Late Canadian News.

QUEBEC, April 16.—Creighton, general manager of the Empire, appeared at the police court this morning and gave bail to appear from day to day to answer the charge of libel preferred against him by Premier Mercier.

MONTREAL, April 13.—A despatch from Keewatin mills to-day states that the milling establishment at that place, being the largest in Canada, and capable of turning out 1,250 barrels of flour per day, will be started the last of this month.

OTTAWA, April 16.—Judge McLeod gave interesting evidence before the Schultz committee this morning. He said the MacKenzie basin had great mineral wealth, in addition to being a fine grazing country. Its streams were navigable to a large extent.

Further advices received from England by the department of agriculture say sufficient applications have been made ahead for assisted passages as will tax the carrying capacity of the boats, for a month after the expiration of assisted passages.

Despatches received to-day show that seeding operations are general throughout Manitoba and the Northwest, having commenced about the tenth inst.

TORONTO, April 16.—Latest reports from Denison township, to the west of Sudbury, are to the effect that there has been another find of gold, the precious metal being this time struck on the sixth concession.

MONTREAL, April 16.—At a joint meeting of the Ministerial association and Evangelical alliance to-day, a strong protest was made against the erection of the statue to the virgin. A petition against the project, signed by 10,000 Protestants, will be presented to the council to-day.

HALIFAX, April 16.—In the criminal court to-day a colored youth, Jersey Gross, was sentenced to fifteen years in Dorchester penitentiary for setting fire to a barn.

QUEBEC, April 16.—The grand jury to-day returned a true bill against Jos. Ford, Sr., paper manufacturer of Portneuf, for forgery.

An elopement of a fair Lewis street maiden, the daughter of a military officer, is just now agitating Quebec society.

The government has decided to make strenuous efforts to induce Newfoundland to enter confederation. Lansdowne is very anxious to bring about a union before he leaves.

Sunday Observance.

Mr. Bole's Sunday observance bill has met the fate that was expected—the fate which seems to await any measure aiming at moral reform that may come before the present house. Mr. Bole introduced his bill in an appropriate speech, and was immediately followed by Mr. Allen, who could scarcely contain his detestation of any measure which proposed to interfere with one's personal liberty to do wrong. Mr. Duck delivered a long and eloquent address, in which he pictured the horrible cruelties that had been practiced in the name of religion during the dark ages, and seemed to be in a fearful state of mind lest the adoption of Mr. Bole's bill might enable some puritanical fanatic to make a dead Duck of him. If such men as Mr. Duck had lived in the ages to which he referred, they would have gone over very quickly before the relentless bigotry of the men who then held authority in civil and religious matters. But the Sabbath is a necessary and most important part of the religious system that has emancipated us from the delusions of our forefathers, and if it were abolished we should begin drifting back to barbarism. Col. Baker also opposed the bill. We were living in an age of religious thought and action, he said, and ought not to interfere with the beliefs and desires of others; and then went on to quote Rev. Chas. Kingsley as an authority against the strict enforcement of Sabbath observance. Did it ever strike the colonel that if we are "living in an age of religious thought and action," that condition of existence would never have been reached if the principles put forward by *himself had prevailed!* If there had been no Sunday, there would have been no christianity, for the one is a part of the other. Col. Baker need not have appealed to the authority of the late Canon Kingsley for the violation of the Sabbath: he should have appealed to the authority by which the Sabbath has been established. This is a Christian nation, and although we believe in giving perfect liberty to all men to hold whatever opinions they choose, the laws of the nation ought surely to be in harmony with the great moral law book on which they are founded. Any law or theory which comes into conflict with the bible must be regarded with suspicion. Mr. Duck was followed by Hon. Mr. Robson, who maintained that one of the chief glories of our nation was the fact that it was a Christian nation, and he considered there would be serious danger in meddling with the principles upon which our greatness is founded. "Shall we abandon the Sabbath altogether?" asked the hon. gentleman; to which Messrs. Allen and Duck responded, "Why not!" The inference is that these two members at least would be quite content if there were no Sabbath. Mr. Grant brought up the old objection that some people regarded the seventh day as the proper Sabbath, while others thought it should be the first, and people should not be compelled to keep a day in which they do not believe. But if Mr. Grant's generosity led him to apply such a principle as this to all laws, he would speedily discover his mistake. If some of our citizens happened to be Mormons, would Mr. Grant be as willing to abolish the laws against bigamy so as to accommodate their peculiar religious beliefs? Laws are made for the benefit of the majority. It might be wrong to compel a Jew to work on Saturday, but to prevent him from working on Sunday is a very different matter. If Sunday observance is deemed in the interest of the state (and we are sure no one will dispute that it is), the duty of our legislators is clearly to maintain and enforce it; and those (a very small minority) whose consciences rebel against the maintenance of Christian *principles in a Christian country* have the liberty of remaining or going as they think best. While they chose to remain, however, they must accept such laws as seem necessary under our system of government. The debate was closed by Mr. Higgins, who expressed the opinion that our present Sunday laws were good enough if they were enforced. Mr. Higgins seems to have a conscience which, if he had the courage to follow it, would have forced him to vote for the bill; but he voted against it. We believe there is a large and growing sentiment in this province favorable to Sabbath observance. That sentiment has greatly increased during the past year or two, one chief cause of the increase being free immigration from other parts of the country where people have become more accustomed to respect the sacredness of the day. Some parts of British Columbia are inhabited by a race of men who have, through association, become habitual Sabbath breakers, and there are a good many of this class scattered everywhere through the country—and more than one of them has managed to get into the house. The time is not far off, however, when people of this class will not be able to leaven the laws of the country with the loose moral sentiments they are holding.

Alcohol.

Dr. F. R. Lees, translates an essay on alcohol by Prof. G. Bunge, who fills the chair of physiological chemistry, in the University of Basel, and we make quotations from the article as it appeared in the *Reformer* of Glasgow.

"A defender of beer may object, that it is a means of nourishment. Well, it certainly does contain some small portion of carbon-hydrates, as *dextrin and sugar.* (Mr. Livesey, in his malt liquor lecture in 1834, estimated them as one penny worth in the gallon; while Liebig, in 1843 reckoned that in a whole ton there was no more food stuff than is contained in a five pound loaf; or, to be exact, that the food particles in nine quarts of beer could all be laid on the point of a table knife.) But of these carbo-hydrates there is no lack in the food of most men—generally indeed, from ignorance of the one proportion required, there is already too much—an over supply which induces obstruction and so promotes disease. *It is sometimes* asserted, that alcoholic drinks, in their diluted forms, assist digestion. As a matter of fact, the exact contrary is the case. Manifold trials on men and animals—especially experiments on men with the aid of the stomach-pump—and direct observation of the effects of alcoholics in persons with gastric-fisstula (openings into the stomach itself) have invariably shown that even *moderate doses materially retard, or* completely arrest, the digestion of animal food.

That the moderate use of alcoholic drink is not merely useless, but is in a high degree damaging, is established beyond rational denial, by the returns of the English Life Insurance Institution, and by the Friendly Societies, in which the average life duration of the total abstainer is significantly *longer than that of the (so-called)* moderates.

The question of using alcoholics as a means of enjoyment, or luxuries, however, must be strictly separated from their value as either food or physic. As medicine, alcohol has been looked upon as an indispensible drug; but then its very paralysing influence seems to constitute its chief value. Alcohol is one of the milder anæsthics, *and by its paralysing property, induces* through the spinal marrow and brain, heightened reflex excitement. (When the bridle hangs loosely in the hands of a sleepy rider, the steed scampers wildly away.) Heart action being increased by the use of alcohol, it is occasionally useful in threatened collapse. [That alcohol is not 'indispensible' in the great run of diseases, is proved by the ten years' favorable experience of *the London Temperance Hospital*, where it is absolutely dispensed with in 999 cases out of the 1000.] Alcoholics are only justified as a prescription in acute suffering, for 'the alleviations of transitory conditions, just as we may use morphia or chloral hydrate, but not for chronic disease. A common plea, indeed, is that water is so unwholesome! Is it, then, a great labor to conduct water from a neighboring *spring or pure country stream*, and a small thing to fetch wine from Burgundy or Bordeaux?

The fact that 'drink enjoyment' spoils the palate for more natural and enduring pleasures of sense, involves moral sequences of a serious kind—that it also affects the nervous and mental system in higher spheres and functions. The whole mental organs are in close sympathy, and alcohol *equally wastes the force of all* I maintain that the person who renounces alcoholic drinks misses nothing but misery; on the contrary he wins more of life's joys, because possessing more of life's potencies.

Be Circumspect.

An old Chinese proverb says, "Do not stop in the cucumber field to tie the shoe." The *meaning* is very plain. Some one will be likely to fancy that you are stealing fruit. Always remember the injunction, "Abstain from all appearance of evil." Do not stop under the saloon porch to rest yourself, however shady the trees may be, or however inviting the chairs. Some one may fancy you are a common lounger there, and so your good name be tarnished. Don't go to a liquor saloon to get a glass of lemonade, however refreshing it may seem to you. Rather buy your lemons and prepare the cooling beverage at home, where others may share it with you, probably at no greater expense than your single glass would cost you. Somebody seeing you drinking at the bar, will be sure to tell the story, and will not be particular to state that you were drinking only lemonade. Then, too, if you are careless about the appearance of evil, you will soon grow equally careless about the evil itself.—*Union Advocate.*

Neglected Her Children for Rum.

Jane Judge, of Brooklyn, was charged in Justice Massey's court by her brother, with being an habitual drunkard. Mrs. Judge has seven children whom she neglects for the tempting cup. She was sent to the penitentiary for four months, and the children were turned over to the Society for the Prevention of Cruelty to children.

A Texas saloonist, rejoicing over the defeat of the prohibitory amendment in that state exclaims: "Let the preachers go back to their pulpits and the women to their wash tubs."

The colored people of West Chester, Pa., are charged fifteen cents for a drink of whiskey to a white man's ten *cents*, and ten *cents* for a beer to a white man's five cents.

Fifty-six towns in Ohio have passed prohibitionary laws under the permission granted by the Dow laws.

Your Children

Are constantly exposed to danger from *Colds, Whooping Cough, Croup,* and diseases peculiar to the throat and lungs. For such ailments, Ayer's Cherry Pectoral, promptly administered, affords speedy relief and cure.

As a remedy for Whooping Cough, with which many of our children were afflicted, we used, during the past winter, with much satisfaction, Ayer's Cherry Pectoral. For this affection, we consider this preparation the most efficacious of all the medicines which have *come to our knowledge.*—Mary Parkhurst, Preceptress, Home for Little Wanderers, Doncaster, Md.

My children have been peculiarly subject to attacks of Croup, and I failed to find any effective remedy until I commenced administering Ayer's Cherry Pectoral. This preparation relieves the difficulty of breathing and invariably cures *the complaint.*—David G. Starks, Chatham, Columbia Co., N. Y.

I have used Ayer's Cherry Pectoral in my family for many years, and have found it especially valuable in Whooping Cough. This medicine allays all irritation, prevents inflammation from extending to the lungs, and quickly subdues any tendency to Lung Complaint. —J. B. Wellington, Plainville, Mich.

I find no medicine so effective, for Croup and Whooping Cough, as Ayer's Cherry Pectoral. It saved the life of my *little boy*, only six months old, carrying him safely through the worst case of Whooping Cough I ever saw.—Jane Malone, Piney Flats, Tenn. ††

The Security offered to policy holders is *unsurpassed by any Company doing busi*ness in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give *larger profits to any other class*, which method affords superior advantages over the uniform bonus plan of distribution.

Chicago Divorce Court Humors.

"What is your husband's occupation?" asked Mr. F. H. Hoffman, Jr.

"Habitual drunkenness, sir," said Mrs. Dappen.

There was a roar in Judge Collins' court. The divorce mill had drawn in its usual crowd of spectators, open-eyed elbow-nudging, rolling the scandals under their tongues. The case of Dappen vs. Dappen was in progress, and Mr. Hoffman's political fame made the spectators gaze at him with awe.

"I refer," said he, to your husband's profession."

"He made cigars."

"Good cigars?"

"Occasionally."

Mr. Hoffman drew a cigar from his pocket.

"This, your Honor, is one of the defendant's cigars."

"Mark it 'Exhibit A,'" said the judge.

"Had Mr. Dappen any other profession," continued the lawyer.

"Not to my knowledge," said Mr. Dappen's wife.

"Never practiced as a dentist?"

"Not professionally."

"Now, Mrs. Dappen, on your oath, did not your husband extract six of your teeth?"

Mrs. Dappen looked timidly round. Mr. Dappen being evidently out of hearing, she whispered, "He did."

"Did he administer gas, or ether, or any anesthetic?"

"No, sir."

"Did he extract the teeth one after the other?"

"He extracted them all together."

"Had your husband any license to practice as a dentist?"

"I never heard of it. He used to say: 'I will allow you $1 a day. Bring me the accounts every week, and if ever I find a cent missing I will knock your teeth out.'"

"Did he find any deficit in your accounts?"

"One Saturday night I could not balance the books. I was thirteen cents short. Without a word my husband struck me in the mouth. Six of my teeth were knocked out. I swallowed two."

"Have you the other four in court?"

"Yes, sir."

"Mark them 'Exibit E,'" said the judge.—*Chicago Tribune.*

How Opium is Grown.

The interest which the Government of India takes in the opium industry is shown by the pecuniary assistance it offers to poppy growers. The most of those engaging in its cultivation are very poor, and the Government furnishes purposes of irrigation, if the land needs it, and also the requisite amount of seed. Another advance of money is made when the plant appears above the surface of the ground, and still another when it is near time for puncturing the pods. The sowing of the seed occurs the first of November; the plant is in blossom in about three months, and in about another month the poppy-heads, which are about the size of hen's eggs, are ready for being operated upon. These heads are opened every day for five or six times, when the liquid is all extracted. The collected fluid has then to be carefully stirred and exposed to the action of the air so that the water may be evaporated. This process requires another month, when the thickened mass is packed in small jars and then taken to the factories, where it is weighed and its value credited to the owner. It is only occasionally that one man is wealthy enough to own half an acre of poppies, and the most of the plots range from one-sixth to one-twelfth of an acre, and are worked by the owner and his family. The chief opium district is a large tract on the Ganges about 600 miles in length by 200 miles in breadth. There are, however, many other counties besides India engaged in raising opium, and, as is well known, the grand total produced is immense, and the world's consumption is constantly increasing. Indeed, it is claimed that the poppy can be raised profitably in Florida, and it is probable that the manufacture of opium will soon be one of the industries of that State.

Two Kinds of Girls.

There are two kinds of girls: one is the kind that appears best abroad, the girls that are good for parties, rides, visits, balls, etc., and whose chief delight is in all such things. The other is a kind which appears best at home, the girls that are useful and cheerful in the dining-room, the sick-room, and all the precincts of home. They differ widely in character. One is frequently a torment at home; the other is a blessing. One is a moth, consuming everything about her; the other is a sunbeam, inspiring life and gladness all along the pathway. Which will our readers, by God's blessing, strive to be?

Great Inventions.

The fifteen great American inventions of world-wide adoption are: 1, the cotton gin; 2, the planing machine; 3, the grass mower and reaper; 4, the rotary printing press; 5, navigation by steam; 6, the hot-air engine; 7, the sewing machine; 8, the India rubber industry; 9, the machine manufacture of horse-shoes; 10, the sand-blast for carving; 11, the gauge lathe; 12, the grain elevator; 13, artificial ice-making on a large scale; 14, the electric magnet and its practical application; 15, the telephone.

A Creaking Hinge

Is dry and turns hard, until oil is applied, after which it moves easily. When the joints, or hinges, of the body are stiffened and inflamed by Rheumatism, they cannot be moved without causing the most excruciating pains. Ayer's Sarsaparilla, by its action on the blood, relieves this condition, and restores the joints to good working order.

Ayer's Sarsaparilla has effected, in our city, many most remarkable cures, in cases which baffled the efforts of the most experienced physicians. Were it necessary, I could give the names of many individuals who have been cured by taking this medicine. In my case it has worked wonders, relieving me of

Rheumatism,

after being troubled with it for years. In this, and all other diseases arising from impure blood, there is no remedy with which I am acquainted, that affords such relief as Ayer's Sarsaparilla.—R. H. Lawrence, M. D., Baltimore, Md.

Ayer's Sarsaparilla cured me of Gout and *Rheumatism, when nothing else* would. It has eradicated every trace of disease from my system.—R. H. Short, Manager Hotel Belmont, Lowell, Mass.

I was, during many months, a sufferer from chronic Rheumatism. The disease afflicted me grievously, in spite of all the remedies I could find, until I commenced using Ayer's Sarsaparilla. I took several bottles of this preparation, and was speedily restored to health.—J. Fream, Independence, Va. ††

PROVINCIAL SECRETARY'S OFFICE,
28th March, 1888.

The following telegram from His Excellency the Governor-General to His Honour the Lieutenant-Governor, in reply to a telegram from His Honour, stating that it was understood that parties fitting out for Behring's Sea were arming for the purpose of resisting seizure, is published for general information.

JNO. ROBSON,
Provincial Secretary.

TELEGRAM.

OTTAWA, 27th March, 1888.

TO LIEUTENANT-GOVERNOR OF BRITISH COLUMBIA, VICTORIA.

Your Government should issue public notice cautioning persons going on Sealing expeditions to refrain from assertion of their rights by force, and from taking on board arms and ammunition in excess of their usual requirements. The whole matter is engaging the attention of Her Majesty's Government and forms the subject of diplomatic negotiations now in progress. Any intemperate action in the meanwhile would be most detrimental to British Columbian interests and might lead to serious complications and be followed by grave consequences to those concerned.

[Signed], LANSDOWNE.

Delta Municipal Loan By-Law, 1888.

A By-Law to enable the Corporation of Delta to raise the sum of Three thousand five hundred ($3,500.00) Dollars, for the purposes therein set forth.

WHEREAS THE MUNICIPAL COUNcil of the Corporation of Delta has resolved to raise the sum of Three thousand five hundred ($3,500.00) Dollars, for building roads, etc., in said Municipality, as hereafter specified, viz.:

1st, The sum of Seventeen hundred ($1,700.00) Dollars to be expended in planking road from Chilochken Slough Bridge to Mr. L. Guichon's wharf;

2nd, The sum of Nine hundred ($900.00) Dollars to be expended in repairing road from Chilochken Slough Bridge to Ladner's Landing; and

3rd, The sum of Nine hundred ($900.00) to be used in paying off all outstanding Delta Municipal Debentures;

And whereas it will require the sum of Five hundred and sixty ($560.00) Dollars to be raised annually by special rate for the payment of the said debt and interest as is hereinafter mentioned;

And whereas the amount of the whole rateable property of the said Corporation of Delta according to the last revised assessment roll, being for the year 1887, was $286,029.00, irrespective of any future increase of the rateable property of the Municipality and also irrespective of any income from the temporary investments of the sinking fund or any part thereof;

And whereas for paying the interest and creating a yearly sinking fund for paying the said principal of $3,500.00 and interest as hereinafter mentioned, it will require an equal annual special rate of one-fifth of one per cent. on the Dollar:

1st, That it shall be lawful for the Reeve of the Corporation to raise by way of loan from any person or persons, body or bodies corporate who may be willing to advance the same upon credit of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of $3,500.00, and cause the same to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object above recited;

2nd, That it shall be lawful for the said Reeve to cause any number of Debentures to be made for such sums of money as may be required, not less than One hundred dollars each, and that the said Debentures shall be sealed with the seal of the said Corporation of Delta and be signed by the said Reeve.

3rd, That the said Debentures shall be made payable in ten years, at the farthest, from the day hereinafter mentioned for this Bylaw to take effect, at the office of the Treasurer of the Corporation of Delta, and shall have attached to them coupons for the payment of the interest.

4th, That the said Debentures shall bear interest at and after the rate not to exceed 6 per cent. per annum from the date thereof, which interest shall be payable annually at the office of the Treasurer of the Municipality.

5th, That for the purpose of forming a sinking fund for the payment of the said Debentures and the interest at the rate aforesaid to become due thereon, an equal special rate of one-fifth of one per cent. on the Dollar shall, in addition to all other rates be raised, levied and collected in each year upon all rateable property in the said Municipality, during the continuance of the said Debentures or any of them.

6th, It shall be lawful for the said Municipal Council from time to time to purchase any of the said Debentures, and such Debentures shall be so expressed as to entitle the Council to redeem and purchase the same on paying the amount thereof and interest due thereon to the date of such purchase, to the holders thereof, and all Debentures so purchased shall be forthwith cancelled and destroyed and no re-issue of Debentures shall be made in consequence of such re-purchase.

7th, This Bylaw shall take effect and come into operation upon the 1st day of June, 1888.

8th, This Bylaw may be cited for all purposes as "The Delta Municipal Loan Bylaw, 1888."

Passed the Municipal Council the 14th day of April, 1888.

TAKE NOTICE THAT THE ABOVE is a true copy of the proposed Bylaw upon which the vote of the Municipality will be taken at the Delta Town Hall on Wednesday the 2nd day of May, 1888, between the hours of 10 o'clock a. m. and 4 o'clock p. m.

Mrs. Celeste Coon, Syracuse, N. Y., writes: "For years I could not eat many kinds of food without producing a burning, excruciating pain in my stomach. I took Parmelee's Pills according to directions under the head of 'Dyspepsia or Indigestion.' One box entirely cured me. I can now eat anything I choose, without distressing me in the least." These Pills do not cause pain or griping, and should be used when a cathartic is required.

The Chester Comedy Company and Earle family appeared in Herring's opera house last night to a rather small audience. The Earle children are certainly wonderfully brilliant on the trapeze and in their tumbling feats. They performed some very difficult feats in a manner that astonished everyone, and were greeted with much applause. The farces were very laughable affairs and caused much merriment. The combination appear again to-night at the opera house.

Rock Creek Mines.

Mr. T. McKay Lambly, of Rock Creek, who has been paying a visit to the coast, returned home yesterday. He speaks in the highest terms of the quartz on Rock Creek and says the indications are very bright for profitable and successful milling. Several rich claims have lately been discovered, and prospectors are scouring the district in large numbers. An American firm is about to erect a stamp mill of large capacity, and will work it to its fullest extent. Mr. Lambly is confident that Rock Creek will prove one of the richest mining districts in the province.

Served Him Right.

A short time ago one of the men employed on the construction of the Capilano dam determined to get rid of his dog, for which he had no use, by blowing it up with dynamite. In order to accomplish this inhuman act without danger to his shanty and its contents, he took the dog a short distance away, and, after tying a stick of dynamite round its neck, set fire to it. The crackling of the burning explosive startled the poor animal, and in terror it made directly for the shanty and crawled underneath. A moment later there was an explosion, and dog, shanty and all its contents were blown into shreds. It seems rather a pity that the owner of the dog was not in the shanty at the time.

Straightening the Nicomekl.

T. F. Sinclair, who has the contract for the improvements to the Nicomekl and Serpentine river in Westminster district, has forty men at work at the present time. There is one canal being made, 700 feet in length, which will save the navigation of fully three miles in the tortuous course of the Nicomekl. The excavation is 11 feet in depth and 25 feet in width, sufficient for the passage of stern-wheel steamers, which can ascend the stream sixteen miles. The work on the Serpentine river is of small importance as yet, but this stream will also become considerably improved. The improvements in these rivers will result in considerable benefit to navigation and to the drainage of land along their courses.—*Colonist.*

The Secret Out.

Some time since it was stated that Sir William Wiseman would leave Honolulu in a few days under sealed orders with H. M. S. Caroline. His point of destination was then unknown. It is now reported that it was for Fanings Island he was bound, where he landed on the 14th of March and took possession of the island in Her Majesty's name. The British flag was hoisted and a salute fired. On the 15th the Caroline left for Christian Island, which was taken possession of in the same manner and a similar form gone through. Then on the 17th sail was made for Penrhyn island, which was reached on the 22. That island was also taken possession of, the British flag hoisted and a salute of 21 guns fired from the Caroline. This island is the largest of the three taken possession of. Sir William and the Caroline, it is understood, will reach Esquimalt some time in the summer.

Citizens' Meeting.

A meeting of citizens, called by invitation of the mayor and the board of trade, was held at Hyack Hall this afternoon. The meeting was largely attended by representative citizens. His worship Mayor Dickinson occupied the chair and explained that the chief object of the meeting was to take such steps as might be considered necessary to push forward the improvements at the mouth of the river. Speeches were made by Mr. W. Norman Bole, M. P. P., Jno. Lord, Jas. Wise, J. C. Armstrong, D. S. Curtis, S. H. Webb, Sheriff Armstrong, J. C. Brown, W. H. Hancock, D. Robson, T. J. Trapp, Jno. Hendry, Turnbull, and others. It was unanimously resolved that steps be taken to carry on the river improvements vigorously this year, and the following committee was appointed to take the matter in hand: Messrs. Robt. Dickinson (mayor; Jno. Hendry (member of the board of trade), C. G. Major (member of the pilot board), W. Norman Bole (member of the legislature), and E. S. Scoullar. The committee subsequently met and sent a telegram to our representative at Ottawa on the subject of river improvements.

New Westminster Rifle Association.

The annual meeting of the above association was held in Mr. J. S. Clute's office last night, Capt. E. S. Scoullar, vice-president, in the chair. The report of the sec.-treas. was read and adopted, after which the election of the council for the ensuing year was proceeded with. The following gentlemen were unanimously elected to the council: L. F. Bonson, F. R. Glover, A. F. Cotton, Lieut. Mowat, T. J. Trapp, W. Wolfenden and H. Wilson. The general meeting then adjourned and the council meeting opened.

Moved by Mr. H. Wilson, and seconded by Mr. Thos. Mowat, that Mr. L. F. Bonson be president for the ensuing year. Carried unanimously.

Moved by Mr. Thos. Mowat, and seconded by Mr. T. J. Trapp, that Mr. F. R. Glover be sec.-treas. for the ensuing year. Carried unanimously.

It was resolved that a committee, consisting of the presidint, secretary and Messrs. Wilson and Mowat, should solicit subscribers for the association. The secretary was instructed to apply to the minister of militia at Ottawa for Snider and Martini rifles for the use of the association. The matter of getting the range in condition was left with Vice-President Scoullar and the secretary.

Moved by Mr. T. J. Trapp, and seconded by Mr. H. Wilson, that his honor the lieutenant-governor be requested to act as patron of the association. Carried.

The secretary was instructed to request Mr. Chisholm, M. P., to use his best endeavors to secure an appropriation of $300 for the rifle range. Practices will be held every second Saturday commencing on the 28th inst.

Vancouver vs. Westminster.

The return football match between the above clubs came off this afternoon on the cricket grounds. Part of the Vancouver contingent arrived on the 1 o'clock local, but the majority reached here on the 2:30 o'clock train. As usual, the fair sex of Vancouver were conspicuous on the field, for go where they will, the clubs of the terminal city have always a large following of the ladies. The Westminster boys did not lack support of the same description, in fact it seemed as if our ladies turned out even in stronger numbers than at the last match. Among the Vancouverites many of the old players were conspicuous by their absence, among whom was Mr. C. G. Johnson, who is a host in himself. The home team showed few new faces from the last match, but in every case Westminster was strengthened by the change. The teams were composed of the following players: Vancouver, Holt, Clinton, Johnson, Sinclair, Stewart, Brown, Boultbee, Graves, Edwards, Millington, Hutchins, Rogers, Thomas and Watson (captain). Westminster: Back, Dockrill; three-quarter backs, Lewis, Wilson and Hamber; half-backs, Parkes and Turner; forwards, Lister (Capt.), Corbett, McMartin, Mowat, Clapcott, Hall, Port, Pittendrigh and Clute. Messrs. Hammersly and Walker umpires. The game commenced shortly after 3 o'clock, and from the first was hotly contested. Both sides played a splendid game, though Westminster played a much better team game than their opponents. The individual play was at times very brilliant, yet both sides were so evenly matched that there were very few opportunities given for such exhibions. At the end of the first half no advantage had been gained by either side, and the honors stood easy. Both had fought hard and were glad of the 10 minutes breathing spell. When the ball was kicked into play for the last half, Westminster went at it with a rush, seemingly determined to carry the leather into touch notwithstanding all the strength pitted against them. After a few minutes of very hot and not particularly gentle play, Lewis got the ball, and, by a beautiful run got a touchdown for Westminster. Cheers went up on all sides which were prolonged for several minutes. The "try" failed to score a goal, but still the odds were in favor of the home team, and that was great satisfaction. From this point to the close of the match the play was feirce and hot, tumbles were taken and given, and some of them rough ones, with the greatest of good feeling, in fact a man scarcely got hold of the ball before he was on his back with possibly a couple of chaps on top of him. When time was called no further advantage had been gained by either side, and Westminster stood winner by a "try" to nothing. The Vancouverites left about 6 o'clock for home.

Geo. Dodge, sr., a well-known citizen of Emporium, writes that one of his men (Sam Lewis) whilst working in the woods so severely sprained his ankle that he could scarcely get home, but after one or two applications of Dr. Thomas' Eclectric Oil, he was able to go to work next day.

CHAMBER OF COMMERCE.

SAN FRANCISCO, April 17. — The chamber of commerce held its regular quarterly meeting to-day. A memorial addressed to the secretary of the navy was adopted, which presents the necessity of the completion of the monitor Monadnock as a partial defence for this harbor. A memorial to congress urging that an appropriation be made for a suitable postoffice site in this city, and another memorial setting forth the necessity for prompt and favorable action upon the San Francisco quarantine bill, were also adopted. Resolutions were adopted providing for the appointment of a committee to represent the chamber of commerce at the approaching Australian exposition.

A lady from Syracuse writes: "For about seven years before taking Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, I suffered from a complaint very prevalent with our sex. I was unable to walk any distance or stand on my feet for more than a few minutes at a time without feeling exhausted, but now I am thankful to say I can walk two miles without feeling the least inconvenience." *For Female Complaints* it has no equal.

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the childrens' panacea—the mothers' friend. 35 doses, 35 cents. dwmh20ml

Mother Graves' Worm Exterminator has no equal for destroying worms in children and adults. See that you get the genuine when purchasing.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria
