DAILY BRITISH COLUMBIAN.

VOLUME 1 — NEW WESTMINSTER, B. C., THURSDAY EVENING, SEPTEMBER 9, 1886. — NUMBER 35

Daily British Columbian.

Thursday Evening, Sept. 9, 1886.

The native question throughout South Africa becomes more difficult to deal with every year; every governor in succession has his plan, which he carries out to a certain extent, and is then recalled in more or less disgrace; and so the condition of things grows constantly worse. The colonists, left to themselves, would soon settle the difficulty, but only by doing what the Boers do—namely, by establishing a system of serfage or forced labor, repugnant to English ideas. The problem is to prevent the Kaffirs from relapsing into interminable barbarism, without allowing great cruelty as well as such curtailment of their personal freedom as would shock British opinion. Whoever shall solve it will be the political saviour of South Africa, where the Boer question, though a considerable one, is of altogether secondary importance, notwithstanding the prominence given to it by Froude and by English politicians generally. Baron Von Hubner shows that England might easily have retained the Transvaal had she not taken pains to disgust the Boers with English rule. His account of the Boers affords a vivid portraiture of this singular folk, slowly laborious rather than indolent, indifferent to all authority rather than disloyal to any particular form thereof, a survival of seventeenth century society modifying itself painfully and reluctantly under the stress of nineteenth century conditions and environment. —*The Week.*

A scheme is being matured for the construction of a line of railway from a point on the Canadian Pacific Railway at Sikamoose Narrows (near Shuswap lake) to Priest's Valley, at the arm of Okanagan Lake. This would cover a distance of fifty miles, and a further stretch of seventy-five miles would be secured by establishment of steamboat traffic upon Okanagan lake. It is calculated that the running of such a line as this would yield a fair return upon the investment by the carrying trade it would secure from the establishment of direct communication between the Okanagan and Spallumcheen valleys and the outer world. There would be opened up a large wheat-growing area, including the valley of the Coldstream. The lands already under cultivation that would be brought within reach of the line are approximately, 136,000 acres in extent; and there are in addition, irrespective of grazing lands, over 70,000 acres capable of producing wheat. Extensive ranges, offering generous pasturage, lie contiguous to the proposed line of railway, and upon these lands could be fattened large herds of stock, for which the increasing population of the province would furnish a ready demand. Then, again, there are the important timber interests of the country to which the development of this district would form no inconsiderable contribution. All these resources, apart from the conditionally valuable one of the minerals, offer a fair and sufficient guarantee of the building of such a line as proposed becoming a profitable investment. Mr. G. A. Keefer, C. E., who has examined the proposed line, speaks of the country as being exceptionally favorable for the purposes of railway construction, the cost of which he places at $750,000, with a further cost of $48,000 annually for the running expenses of a daily service one way. The cost of constructing a canal through the district was devised by the Dominion government when in 1882 they caused a survey to be made by Mr. L. B. Hamlin, C. E., who reported that such a canal would establish an unbroken navigable water stretch of over 240 miles opening upon a rich agricultural country unsurpassed in the whole province for its fertility. The cost of said canal he placed at its lowest at $27,000 per mile. This proposed railway is one of a few branch lines of the Canadian Pacific that would be of the utmost importance to British Columbia, for it would open up a country capable of stopping the vast commercial leak from which we suffer, viz., the large sum of money that annually leaves this country in payment of imported flour. In this regard the total value of breadstuffs, provision and animals imported into British Columbia during 1885 was $755,799—a sum that most certainly should have been retained in the province, which possesses all the facilities for supplying these sorts of produce, excepting that most important one—inter-communication. This one requirement could be remedied by such a line as proposed, which would form in conjunction with the C. P. R. direct connection between the seaboard and east of the Cascade mountains.—*Colonist.*

Daily British Columbian

Thursday Evening, Sept. 9, 1886.

Woman's Kingdom.

On the fourth page of this paper will be found a memorial from the Women's Christian Temperance Union of this city protesting against the granting of any more liquor licenses. There are some people who seem to imagine that women have no business to interfere in matters of this kind, and that they are not capable of judging of such things. This is a sentiment which, fortunately, is rapidly dying out. There was a time when woman was regarded as an entirely inferior creature, useful only as a toiler and a burden bearer, and quite unfit to take any part in affairs of state. That time is gone forever. Christianity and civilization have elevated woman from an inferior position to one in which she claims and receives almost universal homage. The few who still refuse to pay deference to her physical or mental endowments are those who have not yet fully escaped from the power of barbarism. Woman has shown by many examples that she is not only capable of adorning the home and shining in social life, but that she can, when occasion demands, wield the sceptre of civil authority with judgment, tact and firmness. Even the nations which hold to the theory of woman's inferiority permit her sometimes to occupy the position of queen and arbiter of the national destiny. But those who refuse to give woman any part in the management of public affairs will not deny that she ought to hold authority in the social affairs and the home. If the domestic circle is her peculiar sphere, it must be conceded that her thoughts and her hands should mould and fashion the affairs of domestic government. If she is to be queen of the home, she must have a voice in the regulations by which her realm is to be governed. But there is no one thing fraught with such consequences to the home as the liquor traffic. It has probably wrecked more homes, blasted more lives, and broken more hearts than any other agency, and to this very day it is carrying death and destruction to thousands of happy homes throughout the land. It is against this enemy and destroyer of her own special realm that the women are offering a protest, and their right to do so cannot be questioned. The memorial recites some very excellent reasons why no more licenses should be granted. If it be true, as stated, that more hotel accommodation is needed in the city, it certainly is not true that there is need for more saloons. The new building going up at Custom House Square, for which a license is asked for, is not going to increase the hotel accommodation to any extent. It is simply intended for a saloon, of which there are already far too many. Besides, it almost touches two houses on Blackie st. which are used for purposes a great deal worse than selling whiskey. If it is believed by the license board that saloon licenses are necessary as a bonus for the erection of such hotels as are needed for public accommodation, let them require the accommodation to be something respectable, and not merely three or four bedrooms as a sort of cloak under which to plead the necessity for supplying public accommodation. We are not in favor of granting liquor licenses under any circumstances. There are no circumstances that will justify the establishment of an evil agency, which the liquor traffic is universally admitted to be. But if it is not found possible with our present laws to suppress the evil traffic, it is possible and right that the license board should refuse to increase it under the circumstances now existing. Let not the board dismiss the women's protest as an outburst of sentiment which should not influence their deliberations. It is more than sentiment—it is truth that cannot be refuted. Every member of the board is responsible for the moral as well as the political effect of his vote on this question.

THE WORD "TORY."—This word, according to Defoe, is the Irish *tornigh*, used in the reign of Queen Elizabeth to signify a band of Irish robbers. It is formed from the verb *torreighim* (to make sudden raids). Golius says: Tory, silvestris, montana, avis, homb, et utrunque ulius hared ibi est!" (Whatever inhabits mountains and forests is a tory.) Lord Macaulay says: "The name was first given to those who refused to concur in excluding James from the throne." He further says: "The bogs of Ireland afforded a refuge to popish outlaws, called *tories*." Tory-hunting was a pastime which even found place in English nursery rhymes—"I went to the woods and killed a tory." F. Crossley gives as the derivation *Taobh-righ* (Celtic), "King's party." H. T. Hore, in London *Notes and Queries* gives *Tuaghrigh*. "Partizans of the King." G. Borrow gives *Tar-a-ri*, "Come, O Sing." Another suggestion is the highwayman's demand, *Toree! toree!* "Give! give!" (i. e., your money or your life).—*St. Louis Globe-Democrat.* Certainly.

HALL'S Vegetable Sicilian HAIR RENEWER.

The great popularity of this preparation, after its test of many years, should be an assurance, even to the most skeptical, that it is really meritorious. Those who have used HALL'S HAIR RENEWER know that it does all that is claimed.

It causes new growth of hair on bald heads—provided the hair follicles are not dead, which is seldom the case; restores natural color to gray or faded hair; preserves the scalp healthful and clear of dandruff; prevents the hair falling off or changing color; keeps it soft, pliant, lustrous, and causes it to grow long and thick.

HALL'S HAIR RENEWER produces its effects by the healthful influence of its vegetable ingredients, which invigorate and rejuvenate. It is not a dye, and is a delightful article for toilet use. Containing no alcohol, it does not evaporate quickly and dry up the natural oil, leaving the hair harsh and brittle, as do other preparations.

Buckingham's Dye
FOR THE
WHISKERS

Colors them brown or black, as desired, and is the best dye, because it is harmless; produces a permanent natural color; and, being a single preparation, is more convenient of application than any other.

PREPARED BY
R. P. HALL & CO., Nashua, N. H.
Sold by all Dealers in Medicines.

Public Notice

New Westminster Public Library.

THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a reasonable support is obtained. The terms are 50 cents a month, *in advance*, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of *one* cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for their own credit and that of others. Come one, come all, and you will be attended to by one who can soap all classes, viz.:

Yours Respectfully,
HENRY W. HUGHES.
New West., Aug. 20, 1886. dau23tc

1873. **GRIP!** 1886.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1886.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, *the passing events of Canadian political and social life.* Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any *similar publication on the continent.*

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while *Illus. Cartoons* will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $3 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:

Humor without Vulgarity;
Patriotism without Partizanship;
Truth without Temper.

Only $3 a Year. Postage Free.

Address the Grip Printing and Publishing Company, 26 and 28 Front Street, West, Toronto; or leave your order with your bookseller or other local agent. fe14

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

VICTOR PERPETUAL Hay Bailing Press!

REID & CURRIE

—OF THE—

PACIFIC CARRIAGE WORKS

HAVE PURCHASED THE SOLE right to manufacture these celebrated Hay Bailing Presses in the Province of British Columbia, and are now manufacturing them at their manufactory, Columbia St., New Westminster. Farmers and others interested are advised to call and see these presses before purchasing elsewhere. They have no equal for economy, simplicity and efficiency.

With this Press there is no climbing up and tramping in the hay and climbing down again and pulling out the bale, as with the old-style presses. Everything is done on the level ground. You don't stop the team to tie the bale. The bale is discharged automatically, and moves itself on to a platform scale to be weighed and tagged.

It is the cheapest Press, besides being the best; so every farmer can afford to have one of his own, and it will save him its worth in one season by reducing the high rates of freight to a minimum, and by avoiding loss of time and vexation when you want to be bailing hay.

REID & CURRIE.

Quite a heavy shower of snow fell in the Selkirks on Tuesday night.

At the gasworks workmen have commenced the erection of the gasometer.

The Bulgarian troubles are believed to have been caused by Russian roubles.

For Sale—Hotel doing a good paying business; cheap. Apply at Woods, Turner & Gamble. jy14tc

Levi, the tailor, has skipped from Victoria, leaving several sorrowing creditors unpaid.

Mr. Blackie's building has been cut in two and the railway track is being carried through it.

Auction sales of Port Moody lots take place in Victoria to-morrow and Saturday evenings.

The arch, we are pleased to see, has at last been pulled down. As Sir John would say, "its usefulness had ceased."

Mr. Maxwell Mowat has gone up to Harrison river with two or three men to secure salmon spawn for the hatchery.

The Rithet took down over 3,000 cases of salmon this morning from the Richmond cannery for shipment east over the Northern Pacific railway.

On Wednesday night a telegraph despatch was sent from this city to Toronto at 11:03 and a reply received at 12:17 a. m. The lines are not always down.

The predictions of the gentleman who claims to have known that the recent earthquakes were coming are not assuring for San Francisco, as our despatches will show.

Hop growers in Puyallup valley, unable to get sufficient white and Indian hop pickers, have tried to get Chinese to do the work, but only 60 could be raked up on the sound.

In addition to our new stock of spring goods we have opened an invoice of Diagonals, West of England Broadcloths and French Cassimeres. Walsh the Model Tailor. HERBERT WALSH, Manager. ap21tc

Mr. J. M. Wise, who has the contract for getting out poles for the new telegraph line, has completed the work to Whatcom, and will likely go on to Seattle. The wire is up to a point 6 or 7 miles south of the city.

It is said that on the Teaser being withdrawn from this route and the Isabel taking her place the former will be lengthened and fitted for the northwest coast trade. The Isabel will make tri-weekly trips.

From a private telegram received in this city to-day it is learned that the county of Haldimand, Ontario, was carried yesterday by the Liberals by a considerable majority. The contest has been one of the fiercest, both parties putting forth every effort.

The gloomy fears, the desponding views, the weariness of soul that many complain of, would often disappear were the blood made pure and healthy before reaching the delicate vessels of the brain. Ayer's Sarsaparilla purifies and vitalizes the blood; and thus conduces to health of body and sanity of mind.

It is reported that as soon as repairs to the Princess Louise are completed she will resume the Victoria-Burrard Inlet route, and that the Rithet, which has to be withdrawn from passenger work on the gulf this month, will be followed by the Yosemite.

Ayer's Ague Cure, when used according to directions, is warranted to eradicate from the system all forms of malarial disease, such as Fever and Ague, Chill Fever, Intermittent, Remittent and Bilious Fever, and disorders of the liver. Try it. The experiment is a safe one, and will cost you nothing if a cure is not effected.

HOMES.—There has been a decided tendency of the population to increase lately. One day last week a family of seven children arrived in the city, and yesterday a family of eleven all the way from Scotland came to the Royal city to make it their home.

THAT "TOCSIN OF THE SOUL, THE DINNER BELL," as Byron calls it, suggests no pleasing reflections to the dyspeptic, bilious sufferer. He partakes, of course, but the subsequent torment is egregiously out of proportion to the quantity of food he eats, which lies undigested, a weight like lead in his unhappy stomach. There is a remedy, however, and its name is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. No case is entirely hopeless.

BANFF AND HARRISON.—A gentleman of Montreal who has returned from a trip over the Canadian Pacific railway to British Columbia, states that the newly discovered sulphur springs at Harrison lake, some distance from Port Moody, eclipse the already famous spring at Banff. A party has taken hold of the place and has erected a commodious sanitarium for the accommodation of invalids. The spring comes out of a pool about ten feet square, and the water is so hot as to boil an egg hard in a very few minutes. A road is now being built from the Canadian Pacific main line to the spring, and about $50,000 is being expended on the hotel. The water after it has been bottled a few days loses its sulphureus flavor, becomes effervescent, and is very similar to Apollinaris water. Forty-two visitors were at the springs, and a number of cures were effected upon those suffering from rheumatism and skin diseases.

The people of this country have spoken. They declare by their patronage of Dr. Thomas' Eclectric Oil, that they believe it to be an article of genuine merit, adapted to the cure of rheumatism, as well as to relieve the pains of fractures and dislocations, external injuries, corns, bunions, piles, and other maladies.

Personal.

Mr. John Armstrong, of Mud Bay, is in the city.

Supt. Wilson of the telegraph service went down to Victoria to-day.

Miss Hessie Draper returned home by the C. P. R. to-day from the east.

Mr. John Hendry, manager of the Royal City Planing Mills, returned home from the east to-day.

Mr. J. L. Stamford will shortly go over to Nanaimo to make preparations for gas works in that city.

Mr. J. Rooney, postal clerk on the C. P. R., and R. Y. Ellis, Victoria, registered at the Colonial to-day.

Mr. and Mrs. McKay and family arrived from Scotland yesterday and will make their home in this city.

Mr. Chester Chadsey, of Sumas, came down on the Gladys yesterday and proceeded to Victoria this morning.

Messrs. W. F. Salisbury, paymaster on the C. P. R., and C. W. Rhodes, assistant paymaster, were in the city this morning.

Rev. Mr. Croucher took Rev. Canon Thynne and Rev. Mr. Edwardes up to the Lillooet River this morning for a day's hunting and fishing. They went in the steam launch Iriene.

Supreme Court.

[Before Hon. Justice McCreight.]

TAYLOR ET AL. VS. CARTER. — Action for trespass and motion for injunction. After a lengthy argument on both sides, his lordship suggested that some amicable arrangement should be made for keeping an account of the bricks being manufactured on the property in dispute until the trial of the action. After discussion between counsel, a consent order was made that such account should be kept, and the bricks not sold or removed until trial without an order of court. McColl for plff., Bole for deft.

The Sproule Case.

This case came up for argument before the supreme court at Ottawa on the 1st inst., Attorney-General Davie appearing on behalf of the province of British Columbia. Objection was taken to the proceedings on account of the absence of the prisoner, Mr. McCarthy contending that the case could not go on till he was present. This contention was disputed, and judgment reserved. The argument was then proceeded with on the motion to quash the writ of habeas corpus issued by Judge Henry. Counsel for the crown held that Judge Henry had no authority to issue such a writ. If the court which tried Sproule, and which convicted him had no jurisdiction the prisoner waived all rights to such claim when he entered his plea of not guilty. All pleas of the jurisdiction should be entered before a final plea, which would put the accused upon his trial, be made. The writ of habeas corpus does not lie to reverse the order of any court of competent jurisdiction. This must be done by writ of error and the moment the writ of habeas corpus is used for such a purpose, that moment the court loses jurisdiction. The judgment of Mr. Justice Henry was wrong, the prisoner having been legally tried and convicted by a court of competent jurisdiction and such conviction was affirmed in error. He then proceeded to consider the alleged error set out in the affidavit of the prisoner's counsel in which a diminution of the record was asked and a writ of *certiorari* applied for.

Justice Strong—Were two orders for a change of venue made?

Mr. Robinson, Q. C.—Yes, sir; one was made and signed but when the writ of error was taken out for some reason the judge made a second order which formed the record as made up.

Mr. Justice Strong, in remarking upon the chief justice of British Columbia making this second order for the trial of Sproule after he was tried, convicted and sentenced, and substituting it on the record, said: "In a capital offence the action of the judge in making a second order, as in this case, is a gross impropriety, and if this circumstance were brought before me, although *de hors* the record, I should have struggled hard also to issue the writ of habeas corpus, and at any rate it is a circumstance which ought to weigh for the prisoner. It is a dreadful thing to do after a man has been tried and sentenced that an order should be altered, and if I had done it I should think I had laid myself open to impeachment. It seems hard that the prisoner should not get the benefit of what seems to be a grossly improper act."

Joseph Beaudin, M.D., Hull, P.Q., writes: Dr. Thomas' Eclectric Oil commands a large and increasing sale which it richly merits. I have always found it exceedingly helpful; I use it in all cases of rheumatism, as well as fractures and dislocations. I made use of it myself to calm the pains of a broken leg with dislocation of the foot, and in two days I was entirely relieved of the pain."

From Surrey.

(Correspondence of the Columbian.)

There was nearly a fire at Elgin last Thursday. There was a fire in the brush at the back of the town which crawled down pretty near the buildings, but the rain came down and subdued it before it did any damage.—A young man by the name of Dunn, who was working at the R. C. P. mills camp, had the misfortune to lose his finger. He got it jammed while tending hook, and it had to be amputated. The same young gentleman, while riding around, says he came across a panther with her cubs, and that he whipped up and got away without losing much time. He is rather different from another young man we have here, who on meeting one of the same race with a family of four, got off, tied his horse to a tree, got a stick and attempted to get hold of one of the cubs. Luckily for himself, he failed.—Mr. A. L. Huck, the contractor on the Big Bend canal, has received a letter of praise from the government, commenting on the manner in which he has finished his contract.—A harvest festival is to be held in Christ's church in about three weeks, and a fine time is expected. The names on the committees are of the kind that "never fail."—The Rev. Mr. and Mrs. Bell are happy in the possession of a little daughter, and their first. Of course it is a wonderful baby, for are not all first babies wonderful?—Clover Valley is being well advertised owing to that letter, but I really think that the lady in the case deserves blame as much as the writer of the letter. We all do foolish things at times, and were all letters published I dare say we should laugh often.

Communications.

White Salmon.

EDITOR COLUMBIAN: Since your valuable paper has taken up the subject of salmon fishing, allow me through its columns to call the attention of piscatorial experts to the fact that the river abounds with very small white spring salmon, such as have rarely if ever been seen in these waters, until the present season. As every effect has its corresponding cause, I cannot but infer that artificial propagation is the cause of this. Hoping for enlightenment on the subject through your paper, I remain yours truly,

AN OLD FISHERMAN.

Sept. 8th, 1886.

Lobster and Sockeyes.

EDITOR COLUMBIAN: In your issue of the 24th August Mr. Thomas Mowat informs you of the intention of the fisheries department to promote the cultivation of lobsters on the Pacific coast. I have no doubt this will be carried out, and it will prove a valuable addition to your fisheries. Mr. Mowat speaks of exchanging, giving us sockeyes and speckled trout. Now, the trout might be an addition, but if they are as ravenous on the young salmon fry as the ones we possess, we do not want them. As for those sockeyes, my dear sir, we won't have them, unless when transplanted they will rise to the fly. Mr. Mowat knows well the sportive nature of our salmon, as well as the superior quality of its flesh, and I would just ask him to make a requisition to his department for a few hundred thousand of their ova, to stock the Fraser. If he succeeds I shall have great pleasure in taking them over. I am, sir, your obedient servant,

JOHN MOWAT.

Campbellton, N. B., Sept. 1, 1886.

District Roads.

EDITOR COLUMBIAN.—The announcement lately made through the press that the local government will not spend any money on public improvements this season will be rather disappointing news to the settlers throughout this district. Although I cannot claim (strictly speaking) to be a New Westminster district settler, yet I have for the last 27 years been doing settlement duties in this district; I have bought, from the government of B.C., land at various times, but never for the purpose of speculation. The land that I own at present has cost me, for purchase and improvements, over $2500. The road leading from the south bank of the Fraser to it, a distance of three miles, never was completed according to the contract under the Beaven administration, and the various succeeding administrations have wilfully neglected to complete that part of the road. Petitions have been sent in and promises have been given at election times, but they have, like pie-crust, been as often broken.

Eight years ago, at the general election, I offered myself as a candidate to represent the district and, at a good deal of expense and risk of life and limb, I stumped the district with the view of waking up the electors to the necessity of choosing representatives who would place the settlers in a position to do their own road work; but I found that it was like singing psalms to a dead lion. At the late election I made a similar attempt, but as I had no money bags to shake at them it was "no go." I wish now to remind the electors that my advice would have been better than all the promises they received.

The moral that I wish to draw, and present to the unfortunate settlers of this district, is that, so long as you lend an ear to designing demagogues, of whatever party, so long your taxes will be squandered, your roads and bridges will be impassable, and government, instead of being a blessing, will be a curse to the country. I have travelled the world round and I have never seen a place with so many natural advantages as New Westminster city and district, nor have I ever known a place so badly managed. If it were not that hope is a never-dying principle the heart would get very sick indeed.

"Eternal Hope! when yonder spheres sublime
Pealed their first notes to sound the march of time
The joyous youth began; and not to fade,
When all the sister planets have decayed,
When wrapped in flames the realms of ether glow,
And Heaven's last trumpet shakes the worlds below,
Thou undismayed shalt o'er the ruins smile,
And light thy torch at rulers' funeral pile."

JAMES KENNEDY.

Corns cause intolerable pain. Holloway's Corn Cure removes the trouble. Try it and see what an amount of pain is saved.

Latest by Telegraph

This Afternoon's Despatches.

Special to the Columbian.

NEW YORK, Sept. 9.—General Paine called on Lieut. Henn yesterday morning. He proposed, after the international races, to keep the Mayflower in commission in Marblehead Bay until there should come up a gale of wind, and in this gale he propose to race the Galatea from Marblehead to Cape Cod. Lieut. Henn was somewhat taken aback at this bold challenge and asked time to consider the matter. The news of Gen. Paine's challenge got abroad yesterday, and opinion is divided in yacht club circles in the discussion of the prospects for to-day's race. It is the general opinion that a race across Massachusetts Bay in a gale of wind would be a much better test of the weatherly qualities of American and English champions than a race around Bermuda. One yacht man said, "English papers have been saying that the Galatea is not the fastest boat in England but admits she is unrivalled among racing yachts for weatherly qualities. I don't think any one believes that even the boasted Irix could sail with her in a gale. Now here is a chance for a race of an heroic kind worthy of two great maritime nations, and I hope Lieut. Henn will accept the challenge.

SANDY HOOK, Sept. 9.—Shortly after day-break there was an unusual activity on board yachts and sailing crafts. Mainsails were set while the thick black smoke that rolled from stacks of steam yachts showed they were preparing for the work of the day. All the great throng of people that had filled verandahs of hotels along the narrows on the occasion of the first race and those who had stationed themselves along Long Island or Jersey shores or were perched upon walls and breastworks of the two big forts at the entrance to Upper Bay appeared to have been lifted in one great mass and set down upon the beach at Sandy Hook or Jersey hills between Grove and Navisk Highlands. As far as the eye could reach was black with people. Not only from sea-side resorts did they come, but from inland towns, where the contest has awakened intense interest. Piazzas of all hotels near the sea were occupied by spectators who came down on early trains and boats. Before 9 o'clock the clouds broke away. In the east clearing up began, the wind continuing from east by north-east. In the east it appeared to freshen. At 9 o'clock signal service gave velocity of wind at 12 miles an hour; the mist began to move and it was wet work on board of sailing vessels, and oilskins were in great demand. Vessels coming in from seaward carried tight sails aloft. With wind in present direction the yachts will probably run down to the eastward. At 9:50 wind 20 miles per hour, with light rain.

TURUE, SERVIA, Sept. 9.—Prince Alexander, Stambuloff, Karaveloff, and nearly all the Bulgarian ministers, arrived here this morning in a yacht. The Roumanian troops received the prince at the landing and lined the route along which he passed to the railway station. Alexander took leave of his ministers and officers here. The farewell was very affecting. The Bulgarian aide-de-camp will accompany Alexander from here. He will leave Turne this p.m., and will proceed direct to his parental home at Darmstadt.

OTTAWA, Sept. 9.—It is stated that the Canadian Pacific Railway have decided not to complete the road from Port Moody to the terminus until legislation shall have been secured for that purpose.

DUBLIN, Sept. 9.—The conference of Catholic bishops at Maynoth adopted resolutions to day declaring that the Irish people appreciated Gladstone's efforts in behalf of Ireland, and that they still adhered to their demands for home rule and indignantly deny the Tory assertions that if the Irish people were allowed to govern themselves in domestic affairs the Catholic majority would misuse the power conferred on the Irish parliament and harass the protestants of the country. The resolutions further declare that trouble and disorder in both Ireland and Great Britain will not cease until Ireland's right to administer her own laws is recognized. Walsh, archbishop of Dublin, Cricker, archbishop of Cashel, Maceville, archbishop of Tuam, and 23 bishops were present at the conference when the resolutions were adopted.

Mr. John Magwood, Victoria Road, writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is a splendid medicine. My customers say they never use anything so effectual. Good results immediately follow its use. I know its value from personal experience, having been troublde for 9 or 10 years with Dyspepsia, and since using it digestion goes on without the depressing feeling so well known to dyspeptics. I have no hesitation in recommending it in any case of Indigestion, Constipation, Heartburn, or troubles arising from a disordered stomach."

From Pole to Pole

AYER'S SARSAPARILLA has demonstrated its power of cure for all diseases of the blood.

The Harpooner's Story.
New Bedford, June 1, 1883.
DR. J. C. AYER & Co.—Twenty years ago I was a harpooner in the North Pacific, when five others of the crew and myself were laid up with scurvy. Our bodies were bloated, gums swollen and bleeding, teeth loose, purple blotches all over us, and our breath seemed rotten. Take it by and large we were pretty badly off. All our lime-juice was accidentally destroyed, but the captain had a couple dozen bottles of AYER'S SARSAPARILLA and gave us that. We recovered on it quicker than I have ever seen men brought about by any other treatment for Scurvy, and I've seen a good deal of it. Seeing no mention in your Almanac of your Sarsaparilla being good for scurvy, I thought you ought to know of this, and so send you the facts.
Respectfully yours, RALPH Y. WINGATE.

The Trooper's Experience.
Masven, Basutoland (S. Africa,) March 7, 1883.
DR. J. C. AYER & Co.—Gentlemen: I have much pleasure to testify to the great value of your Sarsaparilla. We have been stationed here for over two years, during which time we had to live in tents. Being under canvas for such a time brought on what is called in this country "veldt-sores." I had those sores for some time. I was advised to take your Sarsaparilla, two bottles of which made my sores disappear rapidly, and I am now quite well.
Yours truly, T. K. BODEN,
Trooper, Cape Mounted Riflemen.

Ayer's Sarsaparilla

Is the only thoroughly effective blood-purifier, the only medicine that eradicates the poisons of Scrofula, Mercury, and Contagious Disease from the system.

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists: Price $1;
Six bottles for $5.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being noncorrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia. Much cheaper and more durable than any other. my5tc

Thursday Evening, Sept. 9, 1886.

Latest by Telegraph

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

LONDON, Sept. 8.—Since an interview between the government and Mr. Parnell has been abandoned Lord Randolph Churchill is disposed to bargain with Mr. Parnell on the basis of government support being given to a single one of Parnell's bills relating to the suspension of evictions. The majority of the cabinet are opposed to any such legislation until next year. Lord Hartington has insisted there be no tampering with Parnell. Chamberlain's section will not vote on the government's Irish bill. Chamberlain who has gone to the country says he will not take a part in the debate and he adheres to his determination to do nothing to embarass the government in dealing with Ireland. Lord Randolph Churchill will offer Parnell fairlites for the second reading of his bill on the 16th inst. on condition that Parnellites offer no obstruction to the passage of the whole of the estimates. Parnellites aiming to retain control of the government insist upon the consideration of Parnell's bill before the estimates. The probable issue will be that Parnell will accept Churchill's offer knowing that the defeat of his bill is certain. Parnell has sent a draft of his measure to Gladstone. The first clause provides that lease-holders may apply to court to fix judicial rents; second, that tenants whose rents were fixed years ago may apply to court for revaluation; and third, that the court pending discussion on applications may suspend ejectment on payment of such proportion of rent as the court may decide to be proper. The government predict that the debate will be short and state that the house will adjourn on the 25th.

NEW YORK, Sept. 8.—A *Sun's* Atlanta special says: A gentleman in this city has a letter written by the Rev. W. H. Harrison, who was first Democratic chaplain of the house since the war, which was written 5 or 6 years ago and in which it was predicted that the South Atlantic coast would be visited by severe earthquakes in August, 1886. He further predicted that at no distant date after the shocks on the Atlantic coast the city of San Francisco would be totally destroyed. He alleged that his predictions were based on scientific calculation.

NEW YORK, Sept. 8.—The deciding heat in the international canoe race was sailed to-day over the usual course. The American canoe Lassie beat the Nautilius with the greatest ease. The international trophy will remain in New York.

LONDON, Sept. 8.—A farewell banquet was given to Justin McCarthy this evening, prior to his departure for America. Parnell presided. In a speech Parnell said that Americans would welcome Mr. McCarthy as the foremost Irishman of the age and the most truthful exponent of the Irish question. Great Britain's first duty he said was to give effect to the principles upon which her own greatness was based, namely, rule of the people by the people and for the people, and also if she pleased to guarantee fair play to a community in Ireland though he hoped there were not many who feared that Protestants would not have fair play. The majority of the Liberal party had supported the Irish bill and he hoped with weapons of legality to enable Ireland to take a position for which God had designed her. McCarthy in reply said he was not going to America on a political mission but merely to pay a friendly visit, as he was extremely fond of Americans.

SOFIA, Sept. 8.—Prince Alexander has signed a deed of abdication and has departed from Sofia. Compact masses of people witnessed Alexander's departure from the palace and thousands lined the route taken by him through the town. The prince stood up in his carriage bowing to the people and saying "Good-bye my brethren." The population were much affected, tears sprang to many eyes and many hearty wishes were expressed for the prince's speedy return. Alexander will go first to Lompatanki. A manifesto was issued by him prior to his departure which says: "We, Alexander, Prince of Bulgaria, being convinced that our departure will contribute to Bulgaria's liberation, having received assurance from the Czar that the independence, liberty and rights of our country will remain intact and that nobody shall interfere with its internal affairs, inform our beloved people that we renounce the throne, wishing to prove how dear to us are the interests of Bulgaria for which we are willing to sacrifice that which is more precious to us than life." After expressing his affection for his subjects and his gratitude for their devotion he says, "I pray God will prosper the country," and concludes by asking the people to obey the regency and the ministry to the end that order and peace may be preserved.

SAN FRANCISCO, Sept. 8.—The thermometer to-day stood 9 degrees higher than yesterday, which was the warmest day of the season. Mercury ran up to 94 in the afternoon, which is the greatest degree of heat reached since 1880, when the thermometer stood at 99.

SEATTLE, Sept. 8.—Republican convention held at Tacoma to-day nominated C. M. Bradshaw of Port Townsend as delegate to congress.

PARIS, Sept. 8.—A man named Blanc was recently released from prison where he had been confined for an attempt to murder his mistress. To-day Blanc forced his way into the woman's room and cut off her head which he fastened with the long hair to one of the shutters in front of the house to the horror of the passers by. He then committed suicide with a revolver.

SOFIA, Sept. 8.—Prince Alexander is accompanied by M. Stamboulloff. The prince will go direct to Darmstadt.

PARIS, Sept. 8.—Soir says it is probable that Mohrenheit's present mission as ambassador to France will be to succeed M. DeGlers as Russian minister of foreign affairs, the Czar being dissatisfied with the course of M. DeGiers in the Bulgarian affair.

LONDON, Sept. 8.—The *Standard* urges England not to oppose whoever may be elected to succeed Prince Alexander. It continues, "if Alexander's successor be pro-Russian he will more quickly bring Austria to a full conviction of what concerns Bulgaria and force Germany to decide whether to sacrifice Austria to Russia or vice versa. Russia is "an old man of the sea," for Austria and Germany which by their recent subversions have got him tighter around their necks than ever.

KANSAS CITY, MO., Sept. 8.—A *Times* Tombstone, Ariz., special says: An American resident of Sonora who has just arrived here brings the news that two days ago Col. Torres with 209 men engaged 2,000 Yaquis and drove them back. Subsequently the Yaquis gathered reinforcements and three or four thousand strong attacked Torres' band. A serious battle ensued, in which Torres lost the greater portion of his men, returning only with a small command. This report is thoroughly authenticated and the present indications are that the Yaquis war will prove a grave matter.

W. C. T. U. Protest.

The following is a copy of a memorial and protest prepared by the W. C. T. U. against granting any new liquor licenses at the license court to be held on the 15th inst:

To the New Westminster Licensing Board:—

GENTLEMEN: We, the members of the Woman's Christian Temperance Union, have seen with regret that at the next sitting of your court, the 15th of this month, application will be made to you by two of our citizens for "license to sell fermented and intoxicating liquors" in their respective anticipated hotels; and we feel it to be our imperative duty to enter our protest against their request being granted.

Doubtless it will be urged that our increasing population requires an increase of hotel accommodation, and that a hotel requires a "bar" to complete its outfit; also, that the sale of intoxicating liquors is desirable to make a public house attractive and remunerative. We are ready gladly to acknowledge the fact of the necessity for increased hotel accommodation in New Westminster, and we wish those gentlemen who are undertaking to furnish it every success, but it is our firm conviction from observation and the expressed feelings of strangers visiting our city that our greatest deficiency, as a city, consists in the scarcity of respectable, well furnished, well kept houses, entirely free from the annoyances consequent upon having a *bar-room* attached; where respectable people and families, accustomed to comfortable homes, can find a quiet resting place. That such houses would be well patronized, and, consequently, profitable to their owners, can be demonstrated from the fact that the Farmers' Home and similar places, where no intoxicants are dispensed, have been overcrowded for the past year, and are known to have *paid* well. There is no reason why a temperance hotel, under the management of one who understands the business, should not be made so attractive and *homelike as to become exceedingly* popular, and there is a large and growing class of the traveling public who seek for just such accommodation and prefer it to all other.

It cannot be pleaded that there is a scarcity of licensed houses among us, for there are no less than six on Front street, within a few yards on either side of the property of one of the applicants; and on Columbia street they can be counted by the dozen; the new house for which a license is asked being built next door to one of them. Besides, if a license is considered as a bonus, offered to induce persons to provide the town with commodious lodging house accommodation, then any disinterested person will say that this building *does not meet the requirement*, for its dimensions prove its design has more reference to a liquor saloon than a hotel, a few sleeping apartments being attached as an excuse for asking a license, knowing that your court has refused to grant saloon licenses for the last two years. It may be thought by some that women do not understand this question, not having so much to do with business and money making as the men. We admit some of us have not, at the same time we claim to have a right to control, in some degree at least, matters affecting the social well-being of the community in which we live, since we have to do with the education of our children and the moral reform of our city quite as much as *yourselves*.

Gentlemen of the licensing board, we feel it to be unnecessary to tell you of the evils resulting from the frequenting of public drinking places by the men of our community, for you know far more of the degradation, misery and crime all around us than we have ever imagined to be possible, but the danger is that you have become so accustomed to see it all, and hear of it, that it has ceased to appear to you so exceedingly sinful; but oh! for the sake of all that is pure and holy in your own homes, we entreat of you not to add iniquity to existing iniquity by granting another "license for the sale of fermented and intoxicating liquors" in our already liquor cursed city. We make this appeal and protest in the name of the absent wives and mothers who in distant homes are following with their prayers their hearts' treasures, exposed as they are to accident, danger and temptation; and we make it in behalf of our own precious boys, who are growing up and going out into our streets. Jesus, who was "touched with the feeling of our infirmities," said, "It is impossible but occasions of stumbling should come, but woe unto him through whom they come! It were well for him if a millstone were hanged about his neck, and he were thrown into the sea, rather than that he should cause one of these little ones to stumble." That these words may sink deep into all your hearts and bring forth action for God's glory, your petitioners will ever pray.

The superiority of Mother Graves' Worm Exterminator is shown by its good effects on the children. Purchase a bottle and give it a trial.

Notice to Persons in Search of Farms.

THE TOWNSHIP OF SURREY CONtains several Farms which are for sale. The land is of excellent quality—the very best in the province. The Reeve and Council are most anxious to secure desirable settlers. Application to them will receive prompt attention. The roads in the township are good, and there are churches, schools, and a town hall.

THOS. SHANNON, Reeve, Clover Valley P. O.

H. T. THRIFT, Clerk, jn12tc Hall's Prairie P. O.

Fire! Fire!

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON, Vancouver;

Representing Goldie & McCulloch, Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of inflammable matter, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Richd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Rand, Real Estate Broker; R. Balfour, Alderman; John Rankin, Real Estate Broker; Pither & Edson, Royal Hotel; H. F. Keefer, Contractor, C. P. R.; J. W. McFarlane, Port Moody, to Vancouver and English Bay; F. C. Innes & Co., Real Estate Brokers; A. W. Ross, Real Estate Broker; Gravely & Spinks, Real Estate Brokers; R. C. Ferguson, Mgr. R. C. P. Mills. je30tc
