LUND VS. LUND.

Plea for Divorce Granted with Costs Against Hill. The Charge of Adultery, but Not Cruelty, Sustained.

(Before Mr. Justice Drake.)

A. O. Lund's cross-examination continued:

Witness had discovered immoral instruments in Hill's bedroom after the 22nd December and had examined it at regular intervals and noted its condition. The witnesses, Johnson and Shepherd were not on very familiar terms. Witness had asked Johnson to accompany him to witness the scene between Hill and the witness' wife. Johnson was unwilling at first to go, and received no fee or reward for his service. Johnson knew that the message calling Lund to Vancouver was a false message. They both listened in the trench to the proceedings in the dining-room.

When in Hill's room after the *denouement* witness admitted that he was not very angry, but "pretty shaky." Witness denied ever having informed his wife's father that he "could not afford to buy grub for her and the children." Witness' father-in-law visited witness' shop last August, but the conversation had no reference to "grub," or witness returning to his wife's bed, or to the production of further family or in any way to the family's affairs. Witness said he had not written the advertisement which appeared in the local newspapers. Mr. Shepherd wrote the notice; he is reporter for the *World*.

By Mr. McColl—Witness had warned several city stores not to give credit to his wife.

Arthur Shepherd was the next witness. He has lived in Westminster about three years. Knows the Lund family very well. Has lived with them since last July. Knows Mr. Hill; he lodged at Lunds. Hill went in there in August. Witness remembered the 18th of January perfectly. Went to his own room that evening and read until about 9 o'clock, when he went to bed. Was awakened at a quarter to 1 by a loud knocking at the door; he got up at once and unlocked the door and went out into the passage, when he heard Mr. Lund say very loudly, "This is the thing you have been prosituting my wife with, you villain." He was greatly excited. Mrs. Lund was standing at the foot of Hill's bed. Lund was walking down the room from the window. Mrs. Lund was very much unrobed. On witness' advice she went down stairs. Johnson stood where he was in the passage. Hill said to Lund that it would be hard to turn a man out of doors on such a night. Lund said he would pitch him and his traps out if he did not go at once. Lund then followed witness into witness' room. Mrs. Lund and some of the children then came into the same room. Mrs. Lund was crying bitterly. She admitted to witness that she had been criminally intimate on several occasions with Hill. This was taken down in writing by witness. [This document, which was signed by Mrs. Lund, was read out by the clerk.] In helping Mrs. Lund down stairs, witness said: "Oh, Mrs. Lund, how could you be such a foolish woman?" She replied: "He told me that he loved me."

Cross-examined by Mr. Eckstein.—Witness had been first informed by Lund that he was suspicious of his wife, on the 23rd December. Witness advised Lund to consult a good firm of lawyers about the matter. Witness said he had a great deal to do with giving the facts of this case to the *World* newspaper of Vancouver.

Witness here asked His Lordship if he was bound to answer questions put to him about his connection with that paper. His Lordship said the witness was not bound to incriminate himself. Witness, therefore, refused to answer the question as to whether he was responsible for the article which appeared in the *World*. The paper was ruled out as it was not in evidence.

In reference to the signing of the confession, witness said that Mrs. Lund was on the verge of hysterics when she signed the paper.

By the foreman of the jury.—Was Mrs. Lund in full possession of her senses when she signed that paper.

Witness.—Yes, perfectly so.

Mrs. Jagers, of Victoria, was next sworn.—Has known Mrs. Lund about a year and a half. Received a letter from Mrs. Lund in January. This letter she destroyed. She could not remember what the letter was about. Another letter was received at a later date and destroyed like the other.

Mr. Lund, recalled, said that he had taken a copy of a letter sent by Mrs. Lund to Mrs. Jagers. He suspected that the letter contained something improper. Mr. Sheppard took a copy of this letter, at Mr. Lund's request. The original letter was mailed to Mrs. Jagers.

Mr. Shepherd, recalled, identified the copy of the letter. The document exhibited was a true copy of the original.

The clerk read the letter to the court. It is scarcely fit for publication.

Dr. DeWolf Smith, sworn, stated the use of the immoral instruments exhibited in court.

A. G. Johnson next took the stand and deposed that he had lived in the city about a year, and knew the Lund family. He went on the watch last New Year's evening with Lund.

The rest of the witness' evidence was mainly corroboration of that given by Lund.

Cross-examined by Mr. Wilson,—He had waited at the spy-hole about an hour on each occasion.

This witness exhibited almost phenomenal density and the cross-examiner's patience was sorely tried. Witness admitted that he had told Lund what he had seen and heard in his "spotting" trips. It was a painful and humiliating recital to listen to.

C. Warwick, called, testified that he had witnessed the marriage ceremony of Mr. and Mrs. Lund.

H. Russell, next called, stated that he knew the Lund family and was in their house on January 6th last in company with Mr. Lund. They went to Mr. Lund's room. They then returned to the kitchen and peeped through the key-hole into the dining-room; they saw Hill and Mrs. Lund in front of the fire. The spies then went away, but returned some time after to continue their watch. The next night they watched again. This time Mrs. Lund was playing the piano and Hill was blowing a cornet over her shoulder.

Mr. Lund was recalled and said that Mrs. Lund had asked him to post the letter which he had copied. Mrs. Lund had acted suspiciously in the case of a former letter, on which he had seen the name Jagers, which made him suspicious. He did not dictate that copied letter to his wife; never asked her to write a compromising letter to any one.

Mr. Eckstein then addressed the jury on behalf of his client. This was one of the most solemn cases which a jury was ever called upon to decide. The breaking of the bond of matrimony was one of the most solemn things that ever came before a law-court. The means which had been employed to discover the alleged adultery were despicable, mean and vile. No honorable man would ever stoop to such means to discover anything however important. Then Mr. Shepherd's conduct in the box was remarkable. His answers and his behavior generally were not those of a sincere man. Mr. Shepherd was evidently in this conspiracy. He admitted it in fact. Then he had copied an intercepted letter from one lady to another, a thing that no man with any integrity would ever condescend to commit. The other witnesses were persons who had lowered themselves to act in the capacity of sneaking spies, dastardly, mean and dishonorable. Then, Shepherd, again, as most of the jury knew, was a man of some education and should have known better than to take any act or part in this matter. It would be clearly shown by evidence why Mrs. Lund came to be in the hall that evening. It was a cold day and the front window upstairs had been left open, and Mrs. Lund went upstairs to close it. That was why Johnson, the spy, found her at the top of the stairs, seized her roughly by the arm and threw her violently into one of the rooms and charged her with adultery. But when they came to listen to the evidence the jury would be able to see how little foundation there was for this charge.

Court adjourned at 5:30 p. m. until 10 o'clock this (Tuesday) morning.

Court sat at 10 a. m. this morning.

There was a good attendance os spectators, very young men making a large part of the audience.

Mrs. Rachael Lund was accommodated with a chair and gave her evidence in a calm, collected manner. Mr. Wilson examined the witness. The evidence dealt mainly with family matters relating to the commencement of the cessation of marital intercourse and the alleged cruelty of Lund to his wife. Witness began to let rooms in her house last July and has had several gentlemen living in the house since that time. These roomers were often invited by Mr. Lund to come into the sitting room during the cold weather. Mr. Shepherd first ceased to make these visits to the sitting room. Mr. Hill continued coming. Shepherd's absence was noted by witness; her husband told her that Shepherd was busy and so kept to his own room. Lund was always quite friendly to Hill and used to talk to him in the most amicable manner. In regard to the cellar door and the trench, and the other means which her husband used whereby to conduct his espionage upon his wife's behavior, they were described in almost the identical manner Lund had described them. On January 18th last, just as witness was returning from up stairs, where she had gone to shut a window before going to bed, the man Johnston seized her roughly by the arm and yelled for Lund. Lund then came up and seized her other arm and she was then marched into Hill's room, where she and Hill were charged with illicit intimacy. Lund was cursing and swearing all the time this was going on. When the trio entered Hill's room that gentleman rose up in bed and wanted to know what was the matter. Witness was then dragged down stairs and cross-examined by Lund and Johnson as to her relationship with Hill. She denied all the charges they made and said she knew nothing of Hill's alleged intimacy with her. Shepherd then brought forward the confession he had drawn up; he had signed it first, and, drawing up a little table, he bade witness sign it, too. She did so because she was afraid of the three men, Shepherd, Johnson and Lund. The latter continually cursed and swore. Witness never read the document, nor was it read to her. Witness was shown the document in court and denied each item in it severally, and with emphasis she never made any such confession. She did not see it written and could not tell when it was written. Before this time witness said Hill had never attempted any familiarities with her; nor she with him. She always retired to rest before 11 p. m. and was never up later than that. She had no hired help in the house. Lund kept the door of his room locked. He told her not to mind it. This began in January. On being asked again as to the matter of retiring at night, witness reiterated her statement that she usually retired before 11 o'clock. Hill was generally the last person in the sitting room at night. Sometimes Hill and she used to practice on the piano in the evening. As to the charge of cruelty, witness said that on the 9th of June last Lund kicked her and gave her a black eye. On this day he came home as she was lifting dinner, and seeing some blood on her face enquired the cause of its coming there. She told him that the baby had cut its finger on some glass and had probably put some of the blood on her face. Lund did not hear the reply clearly, and kicked her, saying, "why don't you speak out? I can't hear you for the children making such a noise." She complained of this treatment and he thereupon struck her on the face and knocked her from one side of the room to the other. From last August Lund had shut off the proper household supplies, and stopped her credit at the various city stores. Flour, potatoes, meat and sometimes a salmon were all the food Lund provided for his family. Witness said she had first seen the immoral implement (shown her in court) the previous day, when Lund showed it her. Witness denied ever having used the epithets alleged by Lund, to have been applied by her to him. Witness' denials of those statements were most emphathic. Witness sometimes corresponded with Mrs. Jagers of Victoria. She wrote her twice in January. One of those letters was written at the dictation of Lund.

Examined by Mr. McColl—Witness said Hill came into the house on the 18th of January about 7 o'clock p.m. Lund went to bed soon after; witness retired about 11 o'clock. Shepherd had come down stairs at about nine o'clock and then retired to his room. She, before going to her room, went up stairs to close a window that had been left open all day. It was while returning from this expedition that Johnson seized her on the landing. Johnson called out for Lund and for that reason she did not call for assistance from Hill, whose room was close by. She thought at first that Johnson was a burglar. Had seen Johnston before on several occasions. When Lund came up in answer to Johnson's calls the two took witness into Hill's room. Here the charge was made that she had been cohabiting with Hill. Hill called Lund a liar and denied the charge. Shepherd came into the room where these proceedings were going forward. He was in his night-shirt. Witness and Shepherd had been on friendly terms since the latter came to the house. Witness had not the least idea what the confession was when she signed it, nor the reason for asking her to sign that document. The letter already mentioned was taken up in detail by the examiner and some slight facts elicited with a good deal of difficulty, from the witness. Witness did not remember having told Rev. Mr. White the particulars of the affair. Witne ssaid she had told a lady friend the facts of the case.

By Mr. Wilson—The reason why she had not called out for assistance or raised an alarm when seized by Johnson was because she was so badly frightened. Hill insisted on coming into the sitting-room although witness objected to his presence there. Shepherd and Hill were both known to Mrs Jagers.

The next witness was Thomas Hill. Mr. Gaynor examined; the same evidence, as has already appeared, was gone over to a great extent. Witness had no fire in his own room and came down to the sitting-room to warm himself on the invitation of Mr. Lund. Lund used to get up and leave the room; witness and Mrs. Lund being thus left together. On January 18th witness came home between 10 and 11 p.m.; he sat a short time in the sitting-room and then went up stairs to bed. He saw Mrs. Lund pass his door a few minutes after reaching his room and heard a window close; then Mrs. Lund returned to the head of the stairs; the next thing he heard was Johnson's voice calling for Mr. Lund. The latter came into Hill's room and accused him of committing adultery with his wife. Hill was then ordered out of the house. Witness denied that any illicit intercourse had ever taken place at any time between Mrs. Lund and himself. Mrs. Lund on the occasion referred to above wore a dark dress and was frightened.

Mr. Jenns cross-examined—Was on the outside part of the bed when Mrs. Lund was dragged into the room by Lund and Johnson. He was in a rising or sitting position. Witness admitted the ownership of the immoral instruments.

Mr. Wilson then examined the witness.

Mr. Williams, father of Mrs. Lund, next took the stand. At the time of Mr. Lund's courtship the Methodist church had directed its adherents to invite young men to their homes to keep them out of bad company. Witness had instructed Lund that he could not keep both families going in food. Lund, he said, was earning a good wage while he, the witness, was only earning $55 a month. The conditions under which Lund had taken his wife from her father were that he should hold family prayers night and morning and keep it up, and treat her kindly. This he had not done. Lund said he could not afford $40 a month to feed his family.

Court adjourned at 12:15 for an hour.

Court resumed business at 1:30 p.m.

Dr. Fagan took the stand. He had heard Mr. Shepherd's evidence the day before. Hysteria leaves the victim totally without will power. From the description of the symptoms as given by witness Shepherd he would say that Mrs. Lund suffered from hysteria. The fit comes from some shock. The degree of will power during the fit depends upon the person.

This closed the evidence.

Mr. Wilson addressed the jury much as follows: The offence which they had been called upon to try involved the honor of a woman and of her children. He drew attention to the position the offence held in scriptural commandments and showed the solemnity and importance of it. Among that class of particular offences which we are enjoined to avoid is this one of adultery. The ancient penalty for a woman caught in adultery was death. It is only one degree removed from murder. You must require the very strictest evidence. If the woman is found guilty the punishment is not imprisonment, not death, but life-long punishment. The learned gentleman then reviewed the case and pointed out the points of more particular importance. This was a very difficult thing to prove; it was a hard matter to catch the parties *in flagrante delicto*. And the evidence should be of the most indubitable character. The husband of this woman is old enough to be her father. The conduct of this man when he discovered his wife's actions with Hill was very strange. When the foul suspicion was aroused in his mind he did not go manfully and attempt to stop these proceedings but commenced to dig a trench under the house in order to trap his wife in adultery. Words failed him (the speaker) to adequately express his contempt for such a despicable piece of villainy and meanness as this key-hole espionage. And yet this man has the hardihood to come into this court and ask you to dissolve the holy bands of matrimony. He tells you that he, while spying through the key-hole, saw Hill kissing his wife; he had been looking for this, he had waited and planned to observe this. Another peculiar thing is that while Lund, Johnson and Russell were spying through the key-hole all the doors were open. It is perfectly unreasonable to think that the two people, Mrs. Lund and Hill, would indulge in their love making with all the doors open and people moving about the house. Mr. Wilson knocked the range of vision statement, *i. e.* from the key-hole to the dining-room table, where Lund says he saw his wife and Hill standing, into fragments. The learned counsel clearly showed that persons standing at that part of the room could not possibly be seen from the key-hole. Shepherd's motive in asking Mrs. Lund if she had any statement to make was severely questioned. Every statement made by Lund had been contradicted by his wife. Had Lund brained Hill on the spot he would have thought him an honest man. An eminent judge said lately that "there are some felonies we are bound to commit," and this is one of them. But, no, this man allows the hammer to be taken from him and then goes down stairs. Hill's conduct was not that of a guilty man; he was as cool as a cucumber; he said the charge was a lie.

The speech of Mr. Wilson was one of the finest efforts of convincing logic and eloquence ever heard in the old court room.

Mr. Gaynor followed Mr. Wilson and sustained most of his predecessor's arguments.

Mr. McColl then rose and took the opposite view of the case from Mr. Wilson.

His Lordship then summed up the case briefly and read the two issues upon which the jury were to base their findings. First that of adultery; second, that of cruelty. His Lordship then detailed the case shortly.

The jury retired at 3:30, after having had certain parts of the evidence read over to them.

The jury returned at 4:40 p. m. with the verdict that Rachael Helena Lund had been guilty of adultery between the 31st of December and the 20th of January. The charge of legal cruelty they found was not sustained.

Mr. McColl asked that judgment be passed upon the co-respondent, Hill. The plea for divorce was accordingly granted with costs against the co-respondent, Hill.

A Leap For Life.

COLUMBUS, S.C., April 29.—A remarkable leap from a moving train was made on Sunday by Vince Story, an escaped convict, who had been recaptured in Georgia, and having been extradited was being taken to the penitentiary. They were on the fast passenger train and the hands of the convict were tied with rope. When passing through Edgefield, the country home of Story, the guard left his side a moment to get a drink of water. The window by the convict had been left open to admit the air, and the guard had hardly turned his back when Story, with his hands tied behind him and the train making over 40 miles an hour, sprang head-first through the window. The train was stopped and backed up, but nothing could be found of the daring convict. The guard remained behind to continue the search.

Tomahawked by Indians.

ALBUQUERQUE, Min., April 29.—News has just reached the city that a prospector named George Ross was attacked by Zuni Indians and almost tomahawked. Ross was on his way to Gallup and stopped in the mountains to cook a meal. While he was preparing to eat some Indians rode up and one of the number advanced toward him and struck him on the head with a hatchet, as he was falling he grabbed his revolver and began firing. This frightened the Indians, who ran away. He rallied somewhat and mounting his horse rode to Fort Wingate where there is a hospital. He was taken from his horse in an almost unconscious condition, his brains and blood oozing from the ghastly wound. He will not survive.

Refreshing Rains.

SAN FRANCISCO, April 29.—Local rains are predicted until to-morrow morning.

Children Cry for Pitcher's Castoria.

CITY COUNCIL.

The City Council met at 8 o'clock last night for the transaction of business. Present—Aldermen Smither, Johnston, McPhaden, Shiles, Sinclair, Hoy Lyal and Batchelor.

His Worship Mayor Brown in the chair.

The minutes of the last meeting were read and adopted.

COMMUNICATIONS.

From T. Ackerman, Chief Engineer of the Fire Department, recommending water, gas and a telephone be supplied to the new fire hall so that the fire engines may be placed there without delay. Referred to the Fire and Light Committee with power to act.

From Catherine Fraser complaining that a stable next her residence on Elliot street is a nuisance. Referred to the Board of Health.

His Worship said the Health By-law constituted the Chief of Police health officer and he should act under the by-law.

Ald. Hoy said this was a genuine case of nuisance and should be remedied at once.

From the Chief of Police, complaining that the street lamps had not been lighted since last Thursday. Referred to the Fire and Light Committee.

It appeared to His Worship that that gas company wanted somebody to take hold of them, by the way they were acting.

From the Chief of Police asking for a railing along the railway track in front of the new fire hall.

Received and referred to the Board of Works with power to act.

From J. Boston, applying for the position of pound-keeper, offering to take the position for $70 per month and find his own horse. Received and filed.

From J. C. Armstrong, in the name of the New Westminster and Burrard Inlet Telephone Co., asking leave to lay poles on the street.

His Worship said he had been keeping his eyes open on this question on the other side. There they seemed to set their poles on the side walk, on the principle, presumably, that it was better to keep the street clear and put the poles on the side walk. Ald. Hoy said it was unfair to turn the streets into a work shop. The company should get a lot and dress their poles there.

Ald. Johnson wanted to know if the company should not be prohibited from putting more poles on the streets. There seemed to be enough of them already.

Ald. Sinclair proposed a time-limit for the poles lying on the streets.

Ald. Hoy thought the Council had better defer action until the Telephone By-law was brought in.

Received and filed.

From D. Robson, returning officer, reporting the vote on the Street Improvement By-law. Received and filed.

From Dr. De Wolf Smith, in reference to two Chinamen from Surrey, reported to be suffering from an infectious disease, and stating that the disease is not infectious. Received and filed.

From J. Balfour, *re* the bridge, as follows: "I hereby offer to construct a traffic bridge across the Fraser river opposite the city for the sum of one hundred and fifty thousand dollars ($150,000). The bridge to be of thirteen spans of continuous girders ranging from 100 to 200 ft. each and a pivot draw span of 232 feet over all, giving two clear openings of 100 ft. each. I will give any reasonable bonds to insure the permanency of the structure for a term of years. Received and referred to a special committee to report on the matter.

The committee on the steamer subsidy will deal with this question.

From T. R. Pearson, for the Methodist church choir, asking for a refund of the licenses paid by the Fisk Jubilee Singers for two concerts given last week. Received and referred to the finance committee.

From A. M. Herring, asking for a sidewalk on certain streets, opposite block 31.

On motion the Clerk was instructed to reply that the Council could not build a sidewalk on Agnes street till the bank was protected, and that there are already two sidewalks on Clinton street.

A petition from G. D. Brymner and about fifty others, regarding the watering of Front and Columbia streets. Received and filed.

From D. S. Curtis and a number of other city merchants, in reference to a daily service of steamers from English's or lower Lulu Island, to Westminster.

Received and referred to a select committee to report on at next meeting. The committee consists of Aldermen Hoy, Shiles, Sinclair, Johnson and Smither.

From D. Murchie, asking for street lines in Queen's avenue and enclosing the $5 fee. Received and request granted.

REPORTS.

The Board of Works Committee reported that they had deputized Ald. Shiles to visit Portland, Ore., to find out all he could about a ferry service. The report of that gentleman is as follows:

Gentlemen:—In accordance with instructions, I proceeded to Portland and collected as much information as possible on the subject of cost and working of ferries, and now beg to report.

The Stark street ferry in Portland has a boat 140 feet long with centre wheel, capable of carrying 32 hacks at once and is run at an expense of $20 per day, and managed by two men; makes a round trip every ten minutes. The river is about half the width of the Fraser and runs the whole twenty-four hours.

This boat is operated on a cable and the system is found to work well. Last winter the regular trips were made without trouble or accident while the river was encumbered with six inches of ice. Although there is a substantial traffic bridge one block from the ferry landing, the ferry continues to be well patronized.

Teams of all descriptions can drive on and off the ferry without the slightest difficulty or risk.

I have arranged to procure drawings of the hull of a similar boat, that is to say, a boat one hundred feet long, and thirty-two feet beam, which I think would meet the requirements of Westminster at present. I may state that the population of the two divisions of Portland amounted to about one hundred thousand before the necessities of traffic procured the building of a bridge.

My opinion, founded on the observations I have made is that a ferry on the principle of that above mentioned would supply all our requirements for some years to come. My opinion is, based upon such information as I could obtain, that the cost of such a ferry boat, complete as I have described, would not exceed $15,000, not including cable, approaches, etc.

I may also state with regard to a bridge, that I waited upon the agent of the Pacific Bridge Company to get information. That gentleman could give no definite estimate of the cost of a bridge until the site should first have been surveyed and properly examined by a competent engineer. This information can be obtained only by the Corporation paying the expenses of an engineer and $8 per day for the time from leaving until return. This is about the substance of the information received. As it is a necessity to have a ferry, I hope the council will lose no time in taking steps respecting the said ferry, as it will take about two years or more to build a bridge.

B. W. SHILES.

His Worship said he had gone over at the same time as Ald. Shiles. He was

FERRY OR BRIDGE.

THIS still continues to be, undoubtedly, the burning local question, and will be until settled. That the problem is now in a fair way for an early solution will be a matter of satisfaction, not only to every citizen, but to many people throughout the District, who are equally interested, as well. The late action of the City Council in sending a committee of investigation to Portland, Or., and the proposal of Mr. Balfour submitted last night, have reduced the whole question to its lowest terms, as it were, and, to carry out the arithmetical metaphor, all that remains is to do a little judicious cancelling and obtain the true answer.

It is true there are other propositions in the public mind—such as a bridge of boats, as advocated by a correspondent in another column—but, without going into the merits of that suggestion, and at the same time with due deference to the opinion of our esteemed correspondent, we hardly think the pontoon bridge idea is just the thing, under all the circumstances; even on our correspondent's own showing it would be something of an experiment at this point, and as he also puts it, "more or "less temporary in its nature." If we cannot agree with our correspondent, however, as to the particular means—a sort of compromise between a ferry and a bridge—by which he would propose to solve the river crossing problem at this time, we can thoroughly agree with him when he says: "Time is the first con- "sideration, the next communication, "be it what it may, should be in work- "ing order this summer if possible."

It will not be out of place to bear this in mind when proceeding to the consideration of the definite question of ferry *vs.* bridge, as defined, on the one hand, by the report of Alderman Shiles and the explanations and remarks of the Mayor, submitted at last night's Council meeting, and on the other, by the proposal of Mr. Balfour, laid before the Council on the same occasion, and previously enlarged upon by the press.

Without going into details, already published, Mr. Balfour's proposal is, briefly, to build a Howe truss, wooden, draw bridge, the draw giving two clear openings of 100 feet each, the bridge being 18 feet above the ordinary level of the river, and the structure to cost the sum of $150,000, and to be completed some time next spring, the contractor agreeing to guarantee the bridge for a limited time and for about one-third of its cost.

From the light thrown upon the ferry subject by the investigations of Mayor Brown and Alderman Shiles at Portland, Or., it would appear—and, in fact, is stated in the official report of the latter, as a committee of the Board of Works, and fully sustained by the Mayor's informal report on the subject—that a cable ferry, amply sufficient for the needs of traffic on the route for some time to come, could be constructed, together with approaches, etc., for about $20,000 and maintained at a current expense very little, if any, in excess of the cost of running the present makeshift ferry. Prior to the information obtained upon the subject by the Portland trip, the most sanguine ferry advocate did not attempt to estimate nearly so low upon the cost of a ferry steamer and approaches as it has been ascertained, approximately, these can be built for.

Some information also—of a general nature, but not by any means without value as bearing upon the question for solution by the Council and the ratepayers—was secured by the Mayor and Ald. Shiles on the bridge question; and we are not surprised that both of the investigators have reported strongly in favor of the ferry, and that immediate steps should be taken by the Council in the matter.

THE COLUMBIAN has from the first urged, what in fact is apparent to nearly everyone, that a ferry must be put on in any event. It would not do to wait even until next spring for a very material improvement upon the present means of communication with the districts south of the river. We are losing ground every day as it is; and a ferry on the same principle as the Portland ferry will give us connection with Surrey nearly equal for all practical purposes, with the present traffic, to a bridge, and give us time to give every bridge scheme that may come up the most careful and thorough consideration, which the subject, indubitably demands, to guarantee against hasty experimenting and costly mistakes. The ferry can be completed and put in running order during the present season, and while it will, we are convinced, give a very satisfactory service until such time as we are able to undertake and complete a proper bridge, the expenditure upon the ferry will not be thrown away, as the demands of the traffic in a few years will in all probability, require, as in Portland, two or three separate means of communication across the river.

CHILLIWACK NOTES.

(From Our Own Correspondent.)

CHILLIWACK, April 26.—Everyone is busy seeding at present, the weather being all that could be asked for. People are expecting we will not get very high water, and a large acreage will be sown. Fall wheat is looking well and promises a good crop.

We have a good chance to improve our stock this year, especially horses. Messrs. Mercer and Young arrived last Wednesday, with a fine Clydesdale stallion, four mares, and three fine Durham heifers and a bull, which are all offered for sale. Messrs. G. Black and S. Brighouse's fine carriage stallion stands here also; a fine specimen of a Shire stallion, belonging to Brown Bros., of Illinois, is here for sale or service, and Steves' (Lulu Island) "Suffolk Punch" is expected, so that we will have a Shire stallion, a Suffolk Punch, two Clydesdales, a carriage stallion, and two or three (as the boy said about the dog, when asked what breed, he replied half collie and the other half just dog) just horse, standing here for service this year.

Mr. Vedder, of Sardis, is giving his new barn a coat of paint, which is quite an improvement. His new house, with its lofty tower, is being pushed forward to completion, and when finished will be the finest residence in this section.

Politics are quiet here just now. Mr. Corbould, without a doubt, is the choice for Ottawa.

We are badly in want of a good hotel at Centreville, and there is a good opening for someone, as every steamer brings some strangers.

The Gladys made the first trip to the landing Wednesday last; on account of the low water the steamer has only been able to get within half a mile of the landing since about 1st December last, but, as the river is rising, they will be able to get up without any trouble.

NORTH ARM NOTES.

[From Our Own Correspondent.]

The fine weather of the past few weeks has been most favorable for farmers, and, notwithstanding the season was very backward, plowing and seeding will be pretty well through this week.

The survey for the canal through the centre of the island for draining purposes, has been made, and the work will shorty be commenced.

The genial presence of Inspector Wilson appeared in our school Friday. He spent about an hour examining the several classes and then left to visit the school at South Arm. Since the fine weather has set in our school has been well attended, and Mr. Jamieson is proving himself a very successful teacher.

The people of Terra Nova will give a social on Wednesday evening, May 7, in the building they have been fitting up for religious service in that immediate nieghborhood. There will be a short programme after refreshments, and a pleasant time may be looked for.

The road to Vancouver has become so much improved that the stage is again on the route, running Mondays, Wednesdays and Fridays.

Those who cross the bridge must still walk a plank. It seems too bad that a work of so much importance should be delayed for lack of necessary material. The iron is furnished by the Albion Iron Works, of Victoria. Though the order was made and most of it sent some time ago, there are still a few pieces wanting.

Mrs. Milligan and children are spending a few days with friends here. Mr. Tuttle leaves to-day for Victoria to attend S. S. Convention, which meets this week.

North Arm, April 29, 1890.

CORRESPONDENCE.

RECKLESS SHOOTING.

EDITOR COLUMBIAN—*Sir*—I think it is high time the authorities of our town should put a stop to loose shooting in the City limits, especially with a rifle. Being out yesterday afternoon for a stroll between the asylum and brickyard property I was somewhat startled to hear rifle shots in quick succession unpleasantly close to me. The farthest of the bullets ranging scarcely twenty feet from me. Then there was a lull for a moment or so during which I tried to see who the marksman was; but being interrupted by the fun starting up afresh, I dropped to the ground. Fortunately for me I did so for just at that moment a bullet from the second volley sang so close to me that had I remained standing I must undoubtedly have been hit. Now this is not the first time this sort of thing has happened me, and I believe I am more than justified by the above circumstance in bringing the matter before the public. Not so much for my poor self (though I value that considerably too), but it might lead to some really worthy person's hurt. Such poor shooting should be stopped by law. Let the party shooting hit what he aims at, or quit the rifle. Should the use of it be necessary, however, to their amusement, let them go where they can't hurt anyone.

I shall feel greatly indebted to you if this can be inserted.

Yours truly,
ONE DULY WARNED.
New Westminster, April 27th, '90.

NEW WESTMINSTER.

OFFER FOR SALE FOR A LIMITED TIME, at the undermentioned Prices, the following Properties on terms to suit.

SAPPERTON.

Lots in the Sub-Division of Lot 2, Suburban Block 4, from $200 per lot.

These lots are mostly cleared, and are very sightly, commanding an unsurpassed view of the Fraser River in one direction, and Queen's Park and the upper portion of the City in the other. This property is only about one quarter of a mile from the Brunette Mills, and is the best locality in Sapperton either for residence or speculation.

WESTERN ADDITION.

A few blocks and lots in the Western Addition to the City of New Westminster, Sub-Division of Lot 172, formerly the White Estate.

This sub-division, consisting of 600 lots, was placed upon the market by us a short time ago, and so eager were purchasers to buy that the entire 600 lots were sold out within one month. We are now offering the above property at slightly advanced rates on behalf of former purchasers. Those who missed the chance of buying at first prices have yet an opportunity of investing at prices that cannot fail to yield a good profit. We believe that this is the best speculative property in the City of New Westminster.

SURREY.

5-Acre Blocks in the thriving Municipality of Surrey, midway between the Cities of New Westminster, B. C., and Blaine, Wash., at from $30 to $40 per acre.

This property is situated on the Hall's Prairie road, near the junction of the Langley Road, the Yale Road, and the Clover Valley Road, within 500 yards of the proposed station of the New Westminster Southern Railway. The land is high and dry, and the soil is first-class. Surrey is one of the most prosperous sections of the District of New Westminster, and is at present enjoying quite a boom in real estate; so that purchasers of this property will get the value of their money in good, rich, solid farm land in a locality which at the same time promises an excellent field for speculation.

NORTH ARM.

145 acres in Lot 155, near the North Arm Road, about 2 1-2 miles west of the New Westminster City Post-office, at $150 per acre.

This is fine fertile soil, chiefly prairie, and lies well. It has become a maxim that cities grow westward, and New Westminster is proving no exception to the rule. City lots west of Edinburgh Street, along the North Arm road, have doubled in value in less than a year, while acre tracts have, in the same time, in some instances more than trebled. When the proposed extension of Columbia Street to the Westerly City Boundary is completed, the North Arm will become the best suburban section of the City. Moreover, it is confidently expected by many that the route of the Electric Railway to Vancouver will traverse this section. Our shrewdest speculators are realizing the possibilities of this portion of the City, and the many sales of acre property in the vicinity recently, indicate that land in the direction of the North Arm is looked upon as one of the best places for investment in the District. Prices are bound to advance rapidly.

In addition to the above we have a large list of City and Suburban Property, at moderate prices and on favorable terms, of which we invite examination.

THE DAILY COLUMBIAN

TUESDAY EVENING, APRIL 29, 1890.

POLICE COURT.

At the Police Court Monday morning, Reuben Elly was charged with cruelty to animals on the information of the Chief of Police. Wm. McKeon was the first witness sworn. He said he had been much disturbed by the bellowing of the calves on the wharf. The next witness was the Chief of Police, who said that the calves had remained on the wharf from Friday evening until Saturday evening, without food or water. Elly said he brings calves down on the Irving regularly and sells them three hours afterwards, generally to Mr. Manahan, the butcher, and therefore he is not responsible for the animals after having sold them. G. Murray testified that the calves had been removed from the wharf at 11:30 a. m. on Saturday. The animals appeared to have been fed during their stay on the wharf. Case dismissed.

John Wagner, charged with having been drunk and incapable, had been let out on bail and forgot to appear in the morning. Bail forfeited.

Mary, a Chilliwack Indian, woman, charged with having been found in a state of intoxication, *i. e.* dead drunk, within the City limits was, after pleading guilty, fined $5 and one month's imprisonment. The severity of the sentence was tempered for Mary, by a hint that her departure from town any time before next day would afford the court a great deal of satisfaction. Mary smilingly went.

Flora Miller was charged with having unlawfully placed rubbish on Cunningham street. The charge was dismissed with costs.

Frank McInnes left $5 bail on Saturday to appear to-day, but his non-appearance led to the forfeiture of the money Monday.

Zee Lee, a Chinaman, stole several articles of underwear to the value of $10, from John McGillvray, and was remanded from Saturday until investigations could be made. His Honor said there did not appear to have been any negligence or criminal intent on the part of Lee.

Street Improvement Loan By-Law, 1890

A By-Law to Raise by Loan the Sum of $80,000 for the Improvement of Certain Streets.

WHEREAS IT IS EXPEDIENT THAT THE Council of the City of New Westminster should provide for the improvement of certain streets in the said City;

And Whereas it will be necessary in order to effect the said improvements to issue debentures of the said City for a sum of money not exceeding $80,000;

And Whereas for the payment of interest and creating a sinking fund for payment of said debentures it will be necessary to raise the sum of $5,600 annually by special rate in each year;

And Whereas the amount of the whole rateable property in the said City, according to the last revised assessment roll, is the sum of $2,540,245;

And Whereas the total amount of the existing debt of the said City is $475,000;

And Whereas for the purpose of raising the said yearly sum of $5,600 an annual special rate of 2¼ mills in the dollar will be required:

THEREFORE the Mayor and Aldermen of the City of New Westminster in Council assembled enact as follows:

1. It shall be lawful for the said Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of $80,000.

2. It shall be lawful for the said Mayor to cause any number of debentures to be made for such sums of money as may be required, but not for less than $100 each; such debentures to be sealed with the seal of the Corporation, signed by the Mayor and countersigned by the Treasurer of the said City.

3. The said debentures shall bear date the 1st day of July, 1890, and shall be made payable in fifty years at furthest from the said date, and the same may be payable in any place or places authorized by law, as may be agreed upon between the purchaser or purchasers thereof and the said Mayor, and the said debentures shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable half-yearly on the first days of January and July in each and every year.

5. For the purpose of forming a sinking fund for the payment of the said debentures, and for the payment of the interest thereon, an equal annual special rate of 2¼ mills in the dollar shall be levied and collected, in addition to all other rates, in each year upon all the rateable property in the said City during the currency of the said debentures or any of them.

6. All moneys arising from the said rate beyond the amount required for the payment of interest upon the said debentures, may be invested from time to time as the Trustees appointed in that behalf may direct, for the purpose of creating a sinking fund for the redemption of the said debentures as they respectively become due, without prejudice to any of the powers conferred upon the said Council by the Act of Incorporation.

7. The proceeds of the debentures issued and sold under the authority of this by-law shall be absolutely set aside for and applied to the purposes hereinafter set forth; and all work paid for out of any of the proceeds of the said debentures shall, as far as practicable, be executed by contract.

8. The sum appropriated for a contingent reserve fund under section 10 of this by-law, together with the amount remaining out of any premium realized by the sale of the debentures issued under the authority of this by-law, after the expenses incurred for printing, advertising, &c., in the issue and sale of the said debentures shall have been paid, shall be set aside as a "Contingent Reserve Fund" and there shall be added to such fund out of the general revenue of the City such sum as shall be required to bring up the total of said contingent reserve fund to the sum of $8,000, and such fund shall be administered as hereinafter provided.

9. When any accepted tender for work to be done under this by-law shall be less in amount than the sum herein appropriated for such work, then in that case a sum representing the difference between the amount of such tender and the amount herein appropriated for the work covered by such tender shall be passed to the credit of the contingent reserve fund created by section 8 of this by-law; and no tender for any work to be done under this by-law, the amount of which shall exceed the amount herein appropriated for such work in a proportion greater than that which the said contingent reserve fund shall at the time of the consideration of such tender, bear to the unexpended and unappropriated amount of the money borrowed under the authority of this by-law, shall be accepted, but the Council shall have power to accept any tender in excess of the amount appropriated for the work to which it refers, and to vote a sufficient sum from the contingent reserve fund to cover such excess, provided that the proportion of the sum so withdrawn to the total of the said contingent reserve fund, as it was before the withdrawal of the said sum, shall not be greater than the proportion of the sum herein appropriated for the work to which the tender refers to the unexpended and unappropriated balance of the money borrowed under authority of this by-law; and in the case of any work which cannot be done by contract, the same principle shall be strictly observed.

10. The proceeds of the debentures issued and sold under authority of this by-law shall be applied to the undermentioned works, that is to say: for the opening or improvement of the streets known prior to the passing of the "Street Naming and Numbering By-Law, 1890," as: Columbia street, $12,000 to widen and improve the present street, and its extension to Royal Columbian Hospital, and $8,000 to extend the street west along Richard street and through Dock Square to the city limits; Carnarvon street, $1,000; Agnes, $500; Royal Ave., $5,000; Queen's Ave., $500; Pelham, $1,000; Montreal, $3,000; Melbourne, $3,000; Leopold Place, $500; Clinton, $300; Patrick, $620; Clement, $1,200; St. George, $2,150; Mary, $1,500; John, $750; Douglas, $5,000; Halifax & Brown (one contract), $2,000; St. Andrew's, $750; Edinburgh (additional to present contract), $1,330; London, $3,000; Merrivale, $500; Blackwood, $500; McKenzie, $800; Streets in St. George's sqr., $800; Streets in St. Patrick's sqr., $1,000; Thorn Rd., $6,000; North Arm Rd., $4,500; Dublin [Thorn Rd. to Montreal], $1,000; Street, unnamed, east of Indian Reserve [N. A. Rd. to Melbourne], $200; Auckland, $200; Trew, $600; Gloucester, $600; Dufferin & Fisher [one contract], $600; Park Lane, $400; Streets, un-named, north and east of Block F, $600; Streets leading to Cemetery at Sapperton, $1,000; Armstrong and Dickinson, $500; Streets in Louisa Gardens and west, $500; Street to be known as Seventh Ave., $3,500; Clarkson, $1,000; for contingent reserve fund, $2,000.

11. Any money remaining at the credit of the contingent reserve fund, after all the work hereinbefore detailed has been executed or placed under contract, may be expended on any street improvements within the city at the discretion of the Council.

12. This by-law, before the final passing thereof, shall receive the assent of the Electors of the City in the manner provided by the "New Westminster Act, 1886," and amending acts.

13. This By-law shall come into force on the 24th day of May, 1890.

14. This By-law may be cited as the "Street Improvement Loan By-Law, 1890."

Read a first time on the 24th day of March, 1890.

Read a second time on the 24th day of March, 1890.

Received the assent of the electors on the 28th day of April, 1890.

Read a third time and passed the 28th day of April, 1890.

By Private Sale.---Bargains.

I HAVE RECEIVED INSTRUCTIONS FROM Mrs. A. M. JOHNSTONE, of Mud Bay, to dispose of her Homestead, which consists of 272 acres of Land, good Dwelling House, excellent Barn and Stabling for 40 head of stock, good Dairy and an abundance of Spring Water.

The property is situated on the sunny side of Mud Bay, the land is second to none anywhere, and parties wanting an investment for their capital cannot do better than take a look at this before investing elsewhere.

Stock and implements can go with Ranch if desired.

TERMS—One-third cash; balance to suit purchaser, at 8 per cent. per annum.

ALSO FOR SALE—THE FOLLOWING:

The West Fractional Half of Section 29, Mud Bay, bounded by the Nicomekl River and the Sea—108 acres.

184 acres, adjoining Sections 16 and 25, Township 4, very near N. W. City.

The North-West corner of Section 68, adjoining the Hastings Townsite—54 acres.

The North-West ¼ of Section XI., Township 2, 160 acres, all first-class land, 10 acres improved and sown to timothy pasture. Log house. Good creek runs along line of property, also the Johnstone Road. This is an excellent ranch.

Lot 261, Group I., Pitt Meadows, 80 acres prairie; 70 acres high brush land. Half of the prairie can be ploughed, and is all hard land. 2 miles from Railway Station.

Stave River Stock and Dairy Ranch. This Ranch consists of 387 acres of land, being Sections 433 and 437, Township 14 and 15.

This property is situated on the Stave River with a frontage on the Fraser River, at which point the C. P. R. Road passes through property. There is one large 2-storey Frame Dwelling House, hard finished, nearly new, worth $1,500. This is elegantly situated on rising ground and commands a view of the C. P. R., the Fraser River and the surrounding neighborhood. The greater part of the land is Prairie, subject to overflow, a good deal of the high land has been improved and fenced, and there are a large number of young Fruit Trees and the usual Out Buildings in the way of Barns, &c. There is excellent Trout Fishing and Hunting on premises and any party or Company seeking a Stock Farm or Dairy Ranch could not be better situated. Coal croppings of unusual promise have been discovered on the Property. This is to be secured at a bargain, and further particulars can be had of the undersigned or of Mr. Clement Stickney at Wharncock Station, who will show any intending purchaser over the same.

For further particulars apply to

T. J. TRAPP, New West.

Several other Farms at Langley and other parts of the District at private bargain. dno18tc

Messrs. Campbell & Anderson have just received a large stock of Eureka garden hose, hose pipes, lawn mowers and garden tools of every description. Look out for adv. to-morrow.

The reason for the small vote yesterday on the Street Improvement Loan By-law is given in a few words: Nobody intended opposing it and therefore the ratepayers did not think it worth while going to any trouble in the matter. The number opposing the by-law was 12 out of about 1,000 voters.

Chief Ackerman earned the gratitude of the Columbia Street people this morning, when he ordered out the fire engine and dowsed the street with water. It was wonderful how quickly the air cooled after the application, and it was noticed that the refreshing breeze was more appreciated than yesterday when every whiff raised a cloud of dust.

Junior lacrosse players are reminded that they are expected to turn out to a man at the practices to-night and to-morrow night. The Vancouver juniors are no novices at the game, consequently if the Royal City boys expect to win they will have to be in good form and play their best game. The match takes place at 3 o'clock on Thursday afternoon.

Met With Bad Luck.

It will be seen by our despatches, that the ship Astoria, laden with steel rails, from England to New Westminster, put into Stanley, Faulkland Islands, for repairs, she being very badly damaged by the severe storms probably encountered while rounding the Horn. As it takes a considerable length of time for advices to reach England from the Faulkland Islands, it is likely the vessel has been repaired some time ago and is now close to her destination unless a second accident has befallen her. The Astoria brings 2,800 tons of steel rails for the Southern Railway.

Old Mother Goose.

Word was received at an early hour this morning that old Mother Goose and a score of her children would reach the city this evening and take possession of the Oddfellows' Hall. As the old lady's visits to this section of the country are few and far between, it may be taken for granted that her present visit will create quite a stir in family circles, and more especially among the little folks who have heard so many of her quaint and veracious stories, and committed the same to memory. It is understood the old lady intends charging a small admission, the proceeds from which will be devoted to laying in a supply of new brooms.

A Sharp Capture.

About 9:30 o'clock yesterday morning while Constable Sawyer was patrolling his beat on Columbia street, near the Crescent, he met a Siwashe he met a with a sack thrown over his shoulder. To an ordinary observer there was nothing about the sack to create suspicion, but the constable is an old sportsman and he scented a gamy flavor, which caused him to order the Indian to open the bag for inspection. The untutored son of the forest was very loth to obey, declaring it only contained *muck-a-muck* but on being further threatened finally opened it and drew forth a package of crackers; then he threw the sack away. Constable Sawyer went over to where the sack lay and searched its inmost recesses, and succeeded in bringing forth a fine pair of mallard ducks and a saw bill. This settled the Indian's guilt, and in less than quarter of an hour he was in the Police Court charged with the offence of shooting game out of season. He pleaded not guilty and ignorance of the law, but the act of throwing the birds away told heavily against him and the magistrate imposed a fine of $10 and costs $2, or in default 10 days imprisonment. Constable Sawyer is to be commended for the capture, and it is to be hoped the law will be strictly enforced in every case of the kind.

Children Cry for Pitcher's Castoria.

Mrs. Scott-Siddons.

The event of the season will undoubtedly be the appearance of Mrs. Scott Siddons at the Opera House, on Saturday evening, May 3rd. It is said that her beauty is as dazzling, her gowns as gorgeous and her manners as fascinating as of old, while her dramatic power has increased since her last visit to our shores. She should be greeted by a large audience. Reserved seats at Herring's drug store.

The South Arm Service.

The South Arm steamboat service advocated by THE COLUMBIAN a few days ago, was quickly seized by our merchants as another opportunity of extending the City's trade. Last night a largely signed petition was laid before the City Council, asking that body to take the necessary steps to have the service inaugurated. A committee has been appointed to consider the matter and report to the Council at next meeting. The report, without doubt, will be satisfactory to the general public, and it may be confidently expected that the new and necessary service will be regularly established within a few weeks. The steamer taking the contract will be obliged to call at all stopping places on the South Arm, including Ladner's and English's, thus placing the City in daily communication with all down river ports.

A New Service.

The New Westminster Electric Supply Company is making arrangements to bring into use in this City what is known in the east as the City and District Telegraph and Messenger Service. This very useful system has become indispensable in eastern cities and towns, and it will become fully as popular here when thoroughly established. The residence or place of business of subscribers to the service are connected by wire with the head office; and an instrument supplied with a number of "buttons" is fixed in the establishment. These "buttons" denote the service required, such as police, fire, cab or messenger, and by pressing the proper indicator the alarm is repeated at the central office and the service immediately supplied. Mr. J. H. Galbraith, manager of the company, is making a tour of the City soliciting orders, and is meeting with satisfactory support.

PERSONAL.

Bishop and Mrs. Sillitoe "at home" to-night and to-morrow night.

Mr. T. J. Trapp has returned home from a trip to the cities on the Sound and Portland.

Mr. S. T. Mackintosh paid a visit to Harrison Hot Springs on Saturday and returned to the City yesterday.

The latest news from the Hot Springs concerning Mr. Peter Grant is to the effect that he is rapidly recovering his health and strength, and should he not suffer a relapse he will be as well and hearty in a month or so as his nearest and dearest friends could wish.

(FROM FIRST PAGE.)

very much pleased with the working of the Stark Street ferry, Portland. The bridge, which was near by was not much more patronized than the ferry, but both of them did an enormous business. The ferry and landings are so admirably constructed that not the slightest tremble is experienced in getting on or off the boat. Teams and passengers patronized the ferry in preference to the bridge, and he had seen a string of vehicles, about forty in number, waiting to cross on the ferry. The president of the Pacific Bridge Company, whom he had visited, told His Worship that a bridge over the Fraser would cost, at least, $200,000. He said he would not guarantee the bridge; any company that did guarantee a bridge could not have very much credit. His company would do the best work they could, but they would not guarantee the work. The impression gained by His Worship, Ald. Shiles and Mr. T. J. Trapp, all of whom visited Portland to-gether, was, that a good ferry would meet all the requirements of Westminster for some time to come. The present ferry over the Fraser had rather prejudiced people against that style of transport, but the Portland ferry was a vastly different affair. A cable to run the ferry would cost about $500. The ferry could be operated quite as cheaply as the K de K, *and with infinitely greater safety.*

Ald Johnson said that outside of the Council he had not heard one word in favor of a ferry and not one against the bridge; everybody seemed to be in favor of the latter.

His Worship said if the people went over to Portland they would change their ideas.

Ald. Johnson said bridges were superceding ferries all over the world. He did not think the people would stand a ferry as against a bridge.

Ald. Sinclair said the shifting sands of the bottom of the Fraser offered an almost insurmountable obstacle to a ferry. Mr. Balfour's offer should be carefully weighed. It was a difficult thing to decide; most of the people wanted a bridge or, at the very least, some substitute for the K de K. It was time the matter was settled.

Ald. McPhaden said he had been calculating on this matter, and he offered some brain-racking statistics thereon. A ferry, at the expiration of five years, would be just as expensive as a $150,000 bridge.

His Worship differed with the last speaker; if the bridge were closed up altogether it would still be costing $11,000 per annum as interest.

Ald. McPhaden—Well, would not the ferry money be costing interest, my dear fellow?

His Worship ably showed how Westminster, at the present stage of her life, could not afford a $150,000 bridge. If we had a town of anything like our own size on the other side, instead of a thinly settled farming district, it would not be so bad, but just now it was totally impracticable.

Ald. Johnson argued for the bridge that the building of such a structure was of more value to this city than all the new streets in the city. The questions of sewerage and water were easily disposed of; the latter would be a paying thing from the start; the former was one of the most easily settled of all, as this city could be drained and fitted with a sewerage system with greater facility than any other city on the Continent. He was willing to stake every dollar he was worth that a bridge was more preferable for this city than the streets, sewerage or water improvements. (Applause.)

His Worship said if Ald. Johnson would show him the grounds upon which he based his opinions he would be most happy to give it his fullest consideration.

Report referrded to the select committee on the steamer subsidy.

RAILWAY LOAN APPROPRIATION BY-LAW.

Ald. Shiles moved the first reading of this by-law. By-law read a first time.

Ald. Hoy asked for further time on Corporate Leases By-law; granted.

Council went into committee on the whole on the Slashing and Clearing By-law, Ald. Batchelor in the chair. Committee rose and reported the by-law complete with amendment. Report adopted.

Council went into committee of the Street Pole and Wire By-law, Ald. Smither in the chair. Committee rose and reported progress and asked leave to sit again. Report adopted.

On motion the Street Improvement By-law was read a third time by title and passed, and directed to be dealt with in the regular manner.

NEW BUSINESS.

Moved by Ald. Sinclair, seconded by Ald. Shiles, that the sum of $400 be granted to the committee, Messrs. Townley and others, for the purpose of procuring instruments for the brass band, on condition that the instruments belong to the City and on such considerations as are contained in the application to be embodied in an agreement between the City and the battery. Carried.

Moved by Ald. Johnson, seconded by Ald. Hoy that a refund of $7.50 be made to Wm. Ritchie, he having paid $10 trade license for one day selling of small wares on the streets.

NOTICES OF MOTION.

By Ald. Hoy—That I intend at next meeting of the Council to introduce a by-law to provide for watering Front and Columbia streets.

Council adjourned at 9:45 p. m. until the usual hour next Monday.

The Strike will End.

DUBLIN, April 29.—The railway management offers to re-instate the strikers and abandon the prosecution of signalmen if they admit that they acted improperly in quitting work without giving notice. The endeavors of Archbishop Walsh to effect a settlement of the trouble have been without result. Davitt, however, addressing the meeting to-night, said he was confident the strike would end to-morrow.

TO THE ELECTORS

—OF—

New Westminster District.

GENTLEMEN:—In view of the near approach of the election to fill the vacancy caused by the death of our late representative (the much-respected D. Chisholm) and as I have stated in my card to you that I am a candidate for that honor, I will now lay before you some of my views on the leading questions which I consider will arise in the near future for consideration.

I have been asked what I mean when I announce myself as a Liberal-Conservative; I reply, "That by nature and education I am a Conservative, but a residence of over 30 years in this Province and much intercourse with our American cousins has had the effect of changing many of my views, and given me liberal ideas, therefore I claim I am a Liberal-Conservative." Owing to the fact that party lines are not defined in British Columbia as they are in the older provinces, I consider that our representatives are not in duty bound to give a *through-thick-and-thin* support to any party, but they should go to Ottawa prepared to give a generous support to all good measures which may be brought before them, and to consider the prosperity of the Dominion as a whole, but our own Province in particular, and should a measure come before them which they consider in any way detrimental to the interests of this Province they should take their stand like true men and vote against it.

I am opposed to a certain extent, to the Tariff, or National Policy as applied to British Columbia. We are a long way from the centres of manufacture in the East, and many articles of every-day use to our Farmers and others, and which we cannot produce at home can be obtained more readily and at shorter *notice from our near neighbors over the* line, and in many cases the articles are better adapted to our needs than those brought from the Eastern Provinces; in fact, much of our Farming and Mining Machinery, Wooden Ware and other articles are brought from the States, although the duties are so heavy. Again regarding our food supply; we do not raise enough to supply our wants, and are obliged to cross the border for it, and are met with such heavy duties that heads of families in this Province pay more than ten to one compared to their compeers in Eastern Provinces. We have had example to the point during the last three months. If we had not received a good supply from California there would have been a meat famine; as it is we are now and have been paying 25 cents per pound for mutton, which is more than ordinary mortals like to pay, and the same state of affairs is likely to obtain again after any long and severe winter, for in spite of "Protection" for the last eleven years our stock raisers are little better prepared to meet hard winters than they were before, and to my mind the only ones who have reaped the benefit of the N. P. are the manufacturers. As a true Britisher I should like to see "Free Trade" but as that seems out of the question, I would advocate "Reciprocity" in many articles which are at present in the Tariff lists, and I hope in the near future to see Commercial Union between Canada and the United States, as I think it would be beneficial to both countries, and the working man would not have to go down so deep into his pockets to buy what he needs to eat and wear. I am aware the Government must have a revenue to carry on the affairs of the country, but I would have "luxuries" pay more and get at the pockets of the richer classes who can better afford to pay taxes.

Owing to the long continued sickness of the late Mr. Chisholm, he was unable to be in his place this session, and very little during the previous one, so we of this District have been practically unrepresented, and our local wants have not been brought before the notice of the House. Had he (Mr. Chisholm) been in his seat, I do not think the Postmaster-General would have been left so much in the dark concerning the necessity of regular mail facilities on the Lower Fraser as he seems to have been when he proposed to cut off the mail subsidy from that important route, and there are other places in the District which need better postal facilities, which I consider should receive that gentleman's earliest attention.

I hope that in the near future our District will reach that point that we may loook for it to be divided and receive another representative. At present I think it is the largest constituency in the Dominion, extending over 1500 miles of territory, and when the census returns are in I think the necessary number of population will be found to demand such additional representation.

The protection of the river banks at Chilliwack, Sumas, Burton's Prairie and other places should receive my earnest attention, also the works for improving the channel at the Sandheads, in view of the expected increase in our shipping interests.

I consider the Province should have control over all railway charters and privileges within our borders.

Our Fishing interests, being of such great importance to this District in particular, I feel should receive more than ordinary attention.

I would urge the cutting of a canal through the Delta lands from the mouth of the Serpentine to Fraser River, also to enquire into the question of cutting one from the Fraser River to Port Moody, which has often been suggested to me.

Immigration, I consider, should be fostered, and encouraged judiciously. Just at present it is coming here fast enough; I would not like to see a large influx pour in at once, as many would be disappointed and go away disgusted and probably give our glorious Province a bad name.

There are many other matters I should like to touch upon, but it would make this address too long. I hope to see as many as possible before the election, when I shall be prepared to lay my views more fully before them and answer any questions. As soon as possible after the arrival of the writ I will arrange for a personal canvass and will send due notice of time and place of meetings.

During my long residence in the Province I have travelled through much of it, from Victoria to Cariboo, and have noted its growth and requirements, therefore, I feel fully competent to bring such matters before the notice of the House in a practical, business like manner.

Should I have the honor to be elected I assure you I shall watch over the interests of this District faithfully and to the best of my ability, not forgetting that I also go as a true British Columbian and to do my duty as such.

Yours faithfully,
WM. B. TOWNSEND.

Children Cry for Pitcher's Castoria.

A Great Explorer Killed.

LONDON, April 29.—The tragic death of F. L. James, the intrepid African hunter and explorer has surprised and shocked all who know of his career in Africa. A cable despatch from the West coast briefly announces that he was killed by a wounded elephant while hunting in the Gaboon country. The James brothers are best known for their journey through the centre of Somaliland, south of the Gulf of Aden. Very few white men had penetrated beyond the seaboard fringe of this country. It is, except part of Sahara, the most dangerous region in Africa to travel in. The people are fanatical Moslems, and few who have ventured into this country beyond the coast hills have escaped death. The British consul at Berber, believing the whole party would be killed, cabled to England for permission to prevent them from going inland. He received permission a little too late to catch the party. While in Somaliland the expedition was in constant danger. The late Mr. James wrote a book describing the discoveries and hair breath escapes of the expedition. He came out of Somaleland unscathed, only to fall a victim to an elephant on the other side of the continent.

Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Surveyor-General.

Lands and Works Department,
Victoria, B. C., 12th April, 1890. dap15td

Stanley in England.

DOVER, April 26.—H. M. Stanley arrived here from Brussels at 3:35 this afternoon and was greeted by cheering thousands. The local mismanagement of the reception arrangements was such *that great confusion occurred at the pier,* The reporters defied the police and a fight at one time seemed imminent. Some of Mr. Stanley's friends, including at London, Kastem Dachet, the Turkish Mr. New, the American Consul-General Ambassador to Great Britain, and Lord Wolseley, were unable to board the steamer in consequence of the prevailing disorder. Stanley replied to the municipal address with a few words of thanks. *At 4:05 p. m., he started for London.*

Thousands of persons assembled at Victoria station this evening to welcome Stanley, and waited patiently for hours in the pouring rain for the arrival of his train. Several hundred who were fortunate enough to be provided with tickets were admitted into the station, but there were some ticket holders who were *unable to make their way through* the crowds and had to share their dis*comforts.* There was considerable disappointment that Stanley did not make a speech notwithstanding the obvious reason for his not doing so. The great explorer was received with cheers, and everybody did his utmost to do him honor. He entered a carriage with Sir Francis De Winton and Baroness Burdette Coutts, and as the open vehicle *was slowly driven away he was again* cheered. He looks thin, though his health is excellent. His most striking feature is his hair, which is white and bushy and has the appearance of a wig. Newspapers all print leaders lauding his exploits and services and extending to him the welcome of the nation.

The People Warned.

ROME, April 29.—Every city in the kingdom is placarded to-day with an order forbidding meetings or processions of any kind on May Day. The placards announce that the Government is prepared to use force.

The American Marquis.

PARIS, April 29.—The Marquis de Mores, was arrested last night. Rumor has it that the police found incriminating literature in the Marquis' rooms, inciting to murder and pillage.

NOTICE.

JAMES CUNNINGHAM HAS HIS OFFICE for the present at Campbell & Anderson's, and he requests all persons indebted to him to *call and settle their bills.*

New Westminster, April 12th, 1890. dap12m1

ELECTION CARD.

At the request of a number of Electors of the District of New Westminster, I have consented to become a candidate for Representative of the District in the House of Commons.

I shall take an early opportunity to inform the Electors of my views on the various questions with which as their Representative in the Commons I would be expected to deal.

WM. H. LADNER.

Ladner's Landing, April 28th, 1890. ap28-dwtc

NOTICE.

NOTICE IS HEREBY GIVEN THAT 60 DAYS after date we intend to apply to the Honorable Chief Commissioner of Lands and Works for permission to purchase 1144 acres, more or less, being land covered by our timber lease, Lot 618, Group 1, New Westminster District.

ROYAL CITY PLANING MILLS CO. Ld.
JOHN HENDRY, Manager.

New Westminster, March 7, 1890. d7mh2m

Land Registry Act.

WHEREAS THE CERTIFICATE OF TITLE No. 3841a, of Charles G. Sexsmith and dated the 22nd day of April, 1882, to certain hereditaments mentioned therein, has been lost or destroyed and application has been made to me for a duplicate thereof.

Notice is hereby given that I will, at the expiration of one month from date, issue such duplicate certificate of title unless in the meantime valid objection be made to me to the contrary in writing.
