ELECTION CARD.

To the Electors of New Westminster City and District.

GENTLEMEN:—At the urgent request of a large number of the Electors of the above Districts, I have consented to become a Candidate, and request your support and patronage.

My political banner is uplifted, and on it will be seen, printed in gold letters, "Straw Hats—good coverings for massive craniums; Men's Fancy Flannel Shirts; Balbriggan Underclothing; Summer Coats and Vests; Linen Dusters; Pique and Fancy Vests; White and Black Plug Hats;" all of which are very suitable wear for the present political campaign, which is liable to be very warm and close. (An endless variety of Men's and Boys' Suits, Felt Hats, etc.)

Electors, rally around this standard, and down with monopolists and—high prices.

I am perfectly sure I can give you better value for your money than any other candidate in the field.

Yours respectfully,

J. E. PHILLIPS,

Columbia St., New Westminster.

BANISHED.

The Young Duke of Orleans is Banished from France and Welcomed by Leopold of Belgium.

Marvellous Feat of Surgery.--A German Surgeon Successfully Replaces Diseased Bone with Ivory.

The Americans are Alarmed at the Enterprise Displayed by the C. P. R. Buying U. S. Railroads.

The King and the Duke.

BRUSSELS, June 5.—On his arrival here to-day, the Duke of Orleans, who was released from prison yesterday, was met at the station by the royal carriage, in which he was driven to the palace, where he breakfasted with King Leopold.

A Feat of Surgery.

LONDON, June 5.—Professor Gluck the well-known surgeon of Berlin, recently removed the diseased knee joint of a male patient and inserted an ivory substitute in conformity with the discovery made a few months ago that such a substitution was possible. The patient has completely recovered and no lameness is visible.

One of the Argonats.

BENICIA, Cal., June 5.—Timothy Sage, aged 77 years, fell from a load of hay on Tuesday and striking on his head was rendered insensible. He lingered till Wednesday morning when he died. Deceased was the oldest citizen of Benicia and came here in 1849. He had one of the first brickyards in this state in this city and in 1861 built what is now the I. O. O. F. Hall, one of the finest brick buildings in California. He was buried to-day by the Masons, being the oldest member of that order here.

Canadian Enterprise.

NEW YORK, June 5.—It is reported that negotiations have been virtually completed for the absorption of the Soo line by the Canadian Pacific. This line runs from Sault Ste. Marie through St. Paul to Boynton, Dakota, 300 miles. If the Canadian Pacific takes over this road it will doubtless renew the subject lately discussed in Congress of the rights of Canadian railroads in the United States.

King of the Billiard Table.

LOS ANGELES, Cal., June 5.—Schefer defeated Ives here to-night on a straight rail game of billiards, making 400 to Ives' 319. In the fourteen-inch back line game Schefer again won. The score of Schefer being 250, and of Ives, 215.

Dirty Milk Cans.

UNION CITY, Mich., June 5.—At a picnic at Runyan lake yesterday, some cans containing milk had not been properly cleaned and those partaking of the contents at dinner, sixty in number, were taken violently sick. All the sufferers are out of danger to-day, but very ill. The doctors say it is a case of tyrotoxican poisoning.

Ottawa Notes.

OTTAWA, June 3.—The Governor-in Council has decided to allow the law to take its course in the case of Henry Smith, who murdered his wife with a poker in February last. Smith will be hanged on the 14th.

The experimental farm this spring sent over 12,000 samples of grain to all parts of Canada.

It is announced that the nature of the aid to be given to the Hudson Bay railway will be $80,000 a year for twenty years on condition that the company build three hundred miles of the road from Winnipeg to the Saskatchewan river, in four years.

POLITICAL NOTES.

Nothing was talked of on the streets yesterday or last night, but Mayor Brown's great meeting. It was conceded on every hand that a more complete victory was never gained in this city.

Business on the political stock exchange to-day was brisk. The latest authentic quotations give the following: "Brown stock, at premium, demand very strong. Cunningham chances, very feeble; going down steadily; no demand, all holders selling out at any price."

Another interesting bulletin from the front, from our special war correspondent, will be found in another column. It will be seen that the noble band of patriots—the dauntless eight—are overcoming all obstacles on their way to the sea, and the Independent corps is plainly in the lead.

A grand political meeting was held in the Imperial Opera House at Vancouver last night, which was addressed in turn by all the candidates for the representation of the Terminal City, eight in number, each speaker being limited to twenty minutes. Capt. R. G. Tatlow and Mr. F. C. Cotton made the best speeches of the evening, and appeared to be the favorites of the electors assembled.

Mr. Thos. Cunningham was slightly and unintentionally misreported in our report yesterday of the meeting on Tuesday night. Mr. Cunningham did not say "he was not sure whether he had voted on the Redistribution Bill or not," as our reporter inadvertently got it, but that remark referred to the five per cent. royalty clause in a railway aid act, whereby certain railway companies were empowered to exact a royalty of five per cent. on all minerals found within their land grants from the Government; and, it should be stated, also, that it was this provision which Mr. Cunningham said he would "have voted against, and taken his chances, an hour afterwards." Mr. Cunningham's explanation for his absence from the House on a certain occasion was necessarily jammed into a couple of lines yesterday. In effect, the explanation was that the time of his absence was the occasion of Mr. Semlin's "want of confidence" motion in the Government, and not when the redistribution question was before the House at all. These corrections and amendments are only just to Mr. Cunningham.

PERSONAL.

The Hon. John Robson arrived in the City to-day.

Mr. J. Johnson, of Centreville, is in the City, a guest at the Colonial.

Mr. D. W. Buchanan, representing that well-known and popular periodical, the Winnipeg *Commercial*, is in the city, and will remain a few days.

Mr. John Kennedy, who for a long time has been driver of the local express between this city and Vancouver, left this morning for Los Angelos near which place he has a farm.

Dr. W. A. DeWolfe Smith left for Montreal on Tuesday last in response to a telegram announcing that his father was seriously ill. Dr. R. E. Walker will take charge of Dr. Smith's patients during the latter's absence.

Messrs. Mowat & Sloan have some choice 1-acre and 2½-acre Brownsville lots for sale. Prices range from $80 to $250 per acre. *tc

Children Cry for Pitcher's Castoria.

DEATH OF BISHOP D'HERBOMEZ.

The Aged Prelate Passes Away After a Long Illness.---Short Sketch of an Eventful Life.

At 9 o'clock on Tuesday evening last, Bishop D'Herbomez, Vicar Apostolic of British Columbia, passed away, after having been confined to his room for about a year. Although his illness, which, like many others of the early timers of the province, arose from rheumatism, causing dropsy, rendering him absolutely helpless during his last days, his intellect remained unimpaired to the last, a very unusual occurrence for men who have spent so long a life of brain work as had His Lordship. It had been apparent for several days that the sufferer's end was near, and His Lordship on Tuesday morning remarked to his attendants that he feared he would not last much longer. Shortly before the time of his expiration the attendant observed a change, and hastily summoned Father Fayard, but before that gentleman could reach the bedside the end of a long, busy, and good life had come. The gentleness and patience for which the deceased prelate was so noted among those with whom he came in contact, were ever noticeable throughout his long and painful illness.

The solemn mass of Requiem for the repose of the deceased's soul will take place at St. Peter's Cathedral, commencing at 9 o'clock to-morrow morning, and will be followed by the interment, which will take place at St. Mary's Mission. The Indians who are at present assembled at Sechelt for a spiritual retreat under Bishop Durien and several priests, arrived in the city this morning to be present for the obsequies, and left this afternoon for the Mission to attend the funeral. All that was mortal of the late bishop was lying in state yesterday, enclosed in a plain casket, at the palace on Blackwood street, and was removed to the cathedral this morning.

So closely was the deceased prelate connected with the establishment of the Roman Catholic Mission in the early days in this Province that we give a

HISTORY OF HIS LIFE.

The late Bishop D'Herbomez was born in 1822, at Brillon, Diocese of Earnbrai, in France. He studied at the Diocesan Seminary, and in 1848 entered the congregation of the missionaries Oblates of Mary Immaculate, after which he was ordained a priest by the founder of the order, Mgr. Eugene de Mazenod, who at that time was the Bishop of Marsailles, and sent to Oregon to join the other members of the congregation, who had established missions in that territory some time previously. Embarking at Marsaillee, he reached Vancouver, Wash., after a voyage of six months, and in 1851 he was removed to Olympia. From thence the Rev. Father Ricourd, Superior of the Oblates in Oregon, sent the deceased priest to establish the mission of St. Joseph at Attanern, Yakima Co., where the late Rev. Father Chirouse was engaged in instructing the Indians.

Recalled to Olympia in 1853 some years were spent in visiting and instructing the Indians scattered about Puget Sound, until, in 1858, at the earnest request of Bishop Demers, of Vancouver Island, he was appointed superior of the Oblates on the Pacific Coast, when he transferred his headquarters to Esquimalt. In 1860 Father D'Herbomez extended his good work to this Province, by sending two Oblate fathers to establish a mission for the Indians of the Fraser River at this city, having previously established one at Okanagan Lake, and 1862 the well-known St. Mary's mission was founded by him. At the request of Bishop Demers, the holy father, created British Columbia into a vicarate-apostolic, with the then Father D'Herbomez, first vicar-apostolic, and on the 7th October, 1864, the latter gentleman was consecrated Bishop of Melitopolis.

After visiting the various tribes of Indians in the interior of the Province, the ever watchful clergyman established the William's Lake mission in 1866, and the Stuarts Lake mission in 1868. Called to the Holy See to take part in the Vatican Council in 1869, he returned, in spite of his bad health, to continue his noble work among the Indians of this Province, and in 1874 he founded the mission at Kootenay. Recalled to Rome in 1887 to attend another council, he returned with his health completely shattered, never again to take an active part in the government of the Vicarate; but on October 7th of last year he celebrated the silver jubilee of his consecration as bishop. His Holiness Pope Leo XIII sent the deceased prelate his apostolical benediction during the crisis of his illness, in October last, and this was repeated a short time before death terminated the sufferings of the veteran missionary.

POLICE COURT.

[Before T. C. Atkinson, P. M., and P. McTiernan, J. P.]

August Anderson, for being drunk and disorderly, was fined $1.00 and costs.

James Preston, for being disorderly within the City limits. This is the individual who raised such a rumpus on Columbia street opposite the Hotel Douglas, where he was employed, Tuesday evening, and whom it took the combined efforts of the whole police force and several citizens to land in the nearest police station. At 6:30 a. m. next morning he gave $10.00 bail and was released.

Jack, a Fort Rupert Indian, for being drunk and disorderly, was remanded.

John, another of the same tribe, for having an intoxicant in his possession, was remanded.

A man well-known among the old inhabitants of the City, was charged with stealing two shovels and a hoe, the property of one Palmer, pleaded not guilty, but after taking the evidence the magistrate salted him down in the Moresby House for one month.

Jonathan, an Indian of the Fort Rupert tribe, was fined $30 and given two months for having a small bottle in his possession.

Jack a brother of Jonathan for having to much aboard was fined $10, and will spend the same time at the Moresby summer resort as will his brother boozer.

INFORMATION WANTED.

EDITOR COLUMBIAN—*Sir:* Would your classical editor kindly inform your readers whether *Eudamidas* referred to by "Juvenis" in your issue of May 31st was a brother of Ajax, the celebrated Grecian hero, or son of Ailens, father of the lesser Ajax. Although "Juvenis" implies by his communication that his *Eudamidas* was a noted personage, the author of the Iliad seems to have known nothing of him. Z.

The Westminster Southern.

The other day Dan. McKeller and Baird took to saddle and went out to where construction work is progressing on the railroad between here and New Westminster. They found 300 men at work. The grade is finished to within four miles of Blaine, and the slashers are now camped a mile and a half north of Blaine, and working rapidly this way. The graders are blowing stumps clear over the tops of the surrounding forest. It is a strange coincidence that both ships loaded with iron for the railroad north from Blaine have put into the Falkland islands, off the east coast of Patagonia for repairs. They are expected to arrive in good season however.—*Blaine Journal.*

MARCHING THRO' GEORGIA.

The Noble Eight are Fighting Their Way to the Sea, With Her Majesty's Independents Well in the Van.

(From Our Special War Correspondent).

MISSION, June 4.—The grand tour of the district candidates was resumed at 4 o'clock on Tuesday morning, when the good steamer Delaware was chartered and transported the party some twelve miles up-river and landed them on the other side at the limekilns. Up to this point the party had been transported,—not with delight of course, but—by the steamer; after this the walk of four miles over a rough trail, full of bog holes and in the midst of a shower of rain, was anything but delightful. On arriving at Agassiz Station, shortly after 7 a. m., a general wringing out was gone through, and the candidates then sat down to wait for 9 o'clock, the hour fixed for the political meeting. The hour came and went, but only half a dozen people turned up, owing probably to the wetness of the morning, consequently no meeting was held. The half dozen farmers, however, were good material for the candidates to work on, and in little knots politics ran high and the situation was thoroughly discussed. From all that could be learned the large majority of the electors are prepared to vote against the present Government, and not without good reason. Many of the settlers have held their lands for 25 years, improved them and paid taxes, but have had scarcely a dollar paid back in the way of public improvements. There is not a public highway in the settlement except the road leading to the Hot Springs, and that only accommodates a few. Promises have been made time and again; stakes have been driven here and there about election time, but with no results; and, consequently, the people are dissatisfied and anxious for a change, which, be it what it may, the settlers argue, cannot place them in a worse position than they are in at present. The feeling certainly is against the present administration, and the settlers say they are not to be humbugged any longer by empty promises.

BURTON PRAIRIE.

Leaving Agassiz at 11.30 a.m., the candidates proceeded by rail to Burton Prairie, and held their meeting in the school house. Twenty-five settlers turned up and Mr. R. Burton was elected to the chair, and Mr. W. Butt was appointed secretary. The chairman filled the position with credit to himself and the meeting. Several ladies were present and seemed to enjoy the meeting very much. The candidates delivered their addresses in turn and were all given a patient hearing. This District is supposed to be a straight Government stronghold, but such does not turn out to be the case. It is true the Hon. Mr. Robson has many friends in the vicinity of Burton Prairie, and that he will poll a good vote there goes without saying, but to say the Government party, as a whole, is strong is a great mistake, which will be amply proved on the 13th. From all your correspondent could learn the people are satisfied that only straight Independent men should be sent to the House, and the ballot paper on polling day will be marked at Burton Prairie for two at least of the Independent ticket. In conversation with several of the leading settlers it was learned that the people of Burton Prairie are by no means in favor of the present Government, and the preponderance of Victorians in the cabinet This they will endeavor to change by supporting Independent candidates now in the field.

Some little amusement was given at this meeting by a question put by Mr. Punch to Capt. Thompson. The latter gentleman had stated that he supported the general policy of the Government, but opposed it in the Redistribution Bill, its land policy and in several other little matters. Mr. Punch asked Capt. Thompson to explain what portion of the Government policy he really supported when he was opposed to so many of the main features. This was rather a puzzle, and Capt. Thompson got out of it by a most evasive reply to the effect that he "supported that part which refers to the advancement of the Mainland generally, and that part in particular lead by Hon. John Robson." As might be expected this naive reply caused a storm of laughter, during which the speaker stepped from the platform and resumed his seat. One peculiar feature of this meeting was that each one of the candidates pledged himself to vote the Government out of power on the first possible occasion. Even Mr. Henderson and Mr. Kirkland and Capt. Thompson promised to do this if the Government failed just once in the quality of the measures laid before the House. From this it is inferred that the Government followers are held by a very light leash indeed, and which is very liable to be snapped asunder on the slightest pretext.

After passing a vote of thanks to Mr. Burton, the chairman, for the able manner in which he had performed his duties, the candidates, bade an affecting farewell to the electors and took up the line of march on foot, *via* C. P. R., for the Mission. The column arrived in great disorder and it was thought for a time that a few of the candidates had been captured by the enemy and taken away to some dark dungeon cell; but these fears happily proved unfounded, for when the roll was called at the supper table the stragglers had all arrived and the ranks were found to be intact and unharmed.

THE MISSION MEETING.

At 7 o'clock the meeting was held in the school house, and was presided over by Dr. Boddington. The candidates went over their platform one by one; all promised the same benefits, all agreed to the same principles, and really left the electors nothing to choose from in the way of platforms, making it only a choice of candidates on their personal merits. Mr. Henderson supported the Government because he had been sent twice to Victoria for money for Chilliwack and each time went home with $500 in his pocket. He considered any Government so liberal and munificent as this should be supported by the entire country. He also pointed out the wonderful fact that the Government could borrow money at fair interest, and he thought that should not be lost sight of. Mr. Kitchen opposed the Government on open ground, denying the liberality of its general policy, and pointing out the many instances of unfairness it had exhibited in dealing with Westminster district, the richest, largest and most populous in the Province. His remarks were well received. Mr. Punch and Mr. Sword laid down their straight Independent platform and promised a faithful service in the interests of the constituency. Capt. Thompson, Mr. Herring, Mr. Sinclair and Mr. Kirkland also spoke, and it was a hard matter to decide who was the most popular candidate.

At the conclusion of the speaking, Dr. Boddington took the platform and made the speech of the evening. He said that if the candidates were only able to do all they had promised the whole eight of them should be elected (laughter). He thought the whole problem resolved itself into the question of the Government's trustworthiness. We all knew what the Government had done in the past, and the problem now is: "If the Government is sent back to power with the same stong following, and the same cabinet retained, what guarantee would the country have that better would be done for us in the future than in the future than in the past; that promises would be better kept than in the past or that a just Redistribution Bill would be ever passed through the House?" There was no guarantee, and consequently he could not support a Government to carry out measures in the future which it had failed in the past. He was inclined to think that if Mr. Robson were returned to power he would do the same thing over again. Mr. Robson seemed to think the country could not get along without him. This was a great mistake; the country would not object seriously to Mr. Robson's retirement and doubtless good and true men would be found who would fill his position with just as much ability and probably to the greater satisfaction of the country. Mr. Robson had childishly threatened to say "good-bye" to Westminster District did the electors fail to send two good Government supporters with him to the House; as far as he was concerned he did not think the country would suffer much loss if the Hon. Premier should speak the parting words. Dr. Boddington concluded by asking the electors to vote only for the Independent candidates: those pledged to a new policy and a new party. The speech was received with the greatest enthusiasm, and so telling were the doctor's remarks that what was at the first supposed to be a Government meeting, turned out to be a Government defeat, which even the candidates on that ticket were obliged to acknowledge.

CORRESPONDENCE.

PUBLIC MONEY.

EDITOR COLUMBIAN—*Sir:* Will you explain why the Hon. John Robson boasts that New Westminster District gets her share of the school funds, when Port Moody school, with an average attendance of 36, and Ladner's, with 38, only get $55 a month each; whilst South Saanich, with an average of 35, gets $80 a month, and a free house, out of the public school money. Why does Centreville not get $80 for the principal, and $50 for the assistant, the same as West Victoria in Esquimalt District gets?

Yours truly,

WATCHMAN.

THE LIEN LAW---LETTER FROM MR. BROWN.

EDITOR COLUMBIAN—*Sir* — I gather from an article in *Truth* this morning that Mr. Cunningham and his friends fancy they have made a telling point out of the fact that I had not read the so-called Lien Laws of the Province. Neither have I read the mass of legal rubbish which, under the name of Lien Laws, the class legislators have attempted to palm off on the workingmen for many years. I know that these laws are not workable—mere samples of how not to do it, in fact. The theory of these legislators seems to be that advanced by Mr. Cunningham at his meeting on May 27th, "that workingmen did not comprehend" what they wanted in this matter.

I have, however, read the Ontario Lien Act, which many workmen who do "comprehend what they want" tell me is a good model. And I have also read a good deal of tolerably sound literature bearing on the duties which men owe to their neighbors, which literature is probably a better guide in such matters as that under discussion, than the legal fossils from the study of which Mr. Cunningham seems to have derived so little advantage.

Let me remind your readers of the fact that at the meeting on Tuesday I made a statement of what appeared to me to be the main requirements---the foundation principles—of a Lien Law, and I think that statement was received with approval by the audience. This would appear to show that I have profited rather more by my study of the subject than Mr. Cunningham has by a brain-sweating which has only led him to the conclusion "that workingmen don't comprehend what they want."

Yours, &c.,

J. C. BROWN.

THE DISTRICT ELECTION.

EDITOR COLUMBIAN—*Sir:* As we have many new comers amongst us who have no knowledge of the peculiarities of Mr. Robson, it will be advisable to recall some facts which will be quite familiar to many of your readers. A bill known as the Settlement Bill was passed in the Local Legislature some six or seven years ago. It was the embodiment of an agreement effected by the Local Government, of which Mr. Robson was one of the Ministers. It was, according to the statements of Mr. Robson and his colleagues, intended to smooth away all the difficulties which existed between this Province and the Dominion Government. One of the real grievances of which this Province had to complain was the great loss to our people in consequence of the non-fulfilment by the Dominion Government, of the agreement to construct a railway. As you may probably remember, the people of the Mainland were the only sufferers, because the suspense and almost paralysis to business created by the uncertainty as to the probable line to be chosen, caused much suffering and in many cases great loss. The Island, *i. e.* Victoria, used every effort to have the line carried by way of Bute Inlet, which would have completely cut off all the centres of population on the Mainland from participation in its benefits. After much discussion the Government at Ottawa agreed to pay to the Province of British Columbia the sum of seven hundred and fifty thousand dollars in satifaction of all claims to the date of the Settlement Bill, and of course at least one half of this sum belonged of right to the Mainland. Hon. Mr. Robson is never ceasing in his assertions as to his indefatigable efforts on behalf of the constituents: did he secure the proper apportionment of the $750,000? Not at all. The whole sum was coolly appropriated by the Local Government towards the construction of the Island Railway, with which the Mainland had not the remotest concern. Some well founded protest, were made by Mainland members against such an unjust disposition of the money, but although their claims were admitted they were told that the Government—as a solatium—would set aside the proceeds from the sale of the Esquimalt Graving Dock—about two hundred and forty thousand dollars—which was to be given to the Mainland. Mr. Robson, of course, saw that this money was paid. Not at all. After a long period of anxious expectation, some Mainland member enquired about the $240,000, when he was told that it had gone into the general revenue! Mr. Robson—at the last election—told the people of this district at several meetings, that a large sum was undoubtedly due to the Mainland from the Dock money, and he was going to see that it was distributed, the largest sums to go to the good communities that elected him and his supporters; but not a cent has ever been received above what the several municipalities were entitled to, from the ordinary appropriations. From this the electors will see that Mr. Robson's promises are like the proverbial pie crust, and it is time that men should be elected who will go down to the Legislature pledged to look after this money. It would be a valuable help towards the construction of a traffic bridge across the Fraser, if it could be even temporarily used in that way; at any rate it must be secured for the Mainland. YEOMAN.

THE DAILY COLUMBIAN

THURSDAY EVENING, JUNE 5, 1890.

AIDING THE DISTRESSED.

On account of the small scale grasshopper plague in the Nicola District last year, the Provincial Government appropriated, at the last session of the House, the sum of $1,800 to aid the distressed settlers to buy seed grain for their fields this year. The evil minded Opposition, of course, took a cynical view of this charitable proceeding, and insinuated that the proximity of the general elections had more than a little to do with the Government's paternalness. On the face of things, it would appear that the Government's intentions were beneficent in the matter; and if real distress did exist, and worthy cases had been sought out and supplied with seed grain (not money), according to their needs and the fund at the disposal of the Government, there would have been no excuse for the most rabid opponent of the Government to find fault.

But, as the appropriation has been administered, a most unmistakable and regrettable scandal has been given rise to, which is current throughout the whole upper country at least. Of this we have been informed verbally by men of the most unquestioned integrity and non-political in their occupations and predilections. To this evidence of the scandal, and also as proving that there are too good grounds for its existence, we quote, by permission, from a private letter received from a prominent Westminster gentleman now in the interior, and who has recently been through the Nicola country. The correspondent in question says:

"I returned last night from the Nicola valley, and while there I learned something about the distribution of the Government grant to the poor farmers of Nicola Valley that ought to be generally known. In the first place, there were only three, some think four, who ought to have received anything, and they were crippled by the grasshopper plague, but outside of these three there was not one who could, if they had had half the self-respect of some of the Siwashes, take a cent from the Government. I will give you a list of such as I can remember who accepted aid that have disgraced themselves by so doing [we put dashes instead of the names given—Ed.]: Mr. —— —— received $150; he is worth from $12,000 to $15,000. Messrs. —— & ——, $200, and Mr. —— is reported as worth $30,000. Mr. —— —— $150, worth $10,000. And this to enable him to buy seed grain, but he had ample grain in his barn for seed; besides he has within a fortnight sold considerable. There are other cases quite as inconsiderate, for instance, Mr. —— ——, who has money at interest and is recognized as a man of means, received $25 to compensate him for damage done by the grasshoppers to a little patch in front of his house. Comment is unnecessary."

The testimony of the above letter is too circumstantial to be doubted, taken together with other trustworthy evidence bearing upon the same subject. Certainly the transactions described do not reflect credit upon either the Government or the undeserving recipients of Government bounty, to put it mildly. If no corrupt motives are, charitably, attributed, gross negligence and utter lack of discrimination in administering the appropriation in aid of the distressed farmers of Nicola must be laid at the door of the Government. According to all the light which is being thrown upon the matter, the alleged distress in Nicola, caused by the locusts last year, has been greatly exaggerated by some one.

PRINCE BISMARCK AT HOME.

The world still rotates although the "active political life of one of the great- "est men that ever directed affairs of "state" has come to an end apparently. Thus we have once more learned the solemn truth that "no man is necessary." One morning civilization awoke to find the "iron chancellor" gone, and for a moment all Europe paused breathless, almost expecting the heavens to fall whilst even in the new world expectant curiosity watched for new developmets of a startling nature in the making of history. Things went on much as usual, men toiled, women wept, and still pursued the race for existence; but although statesmen predicted all kinds of complications and calamities as a consequence of the great man's displacement,

"What gave rise to no little surprise,
No one seemed one penny the worse."

The fact is, Bismarck had filled his part in the world's comedy, and in a very short time will excite much the same kind of interest in men's minds as Cæsar, Alexander, Cromwell or George Washington, a vivid and keen interest without doubt, but of an academic order.

It has been so much the custom to think only of Bismarck as the man of blood and iron, the moulder of a nation, that the more attractive sides of his individuality have been cast in the shade. He is a student, and is so completely a master of English literature as to be perfectly acquainted with the works of our great poets, and almost equally at home in obscure and forgotten works of second rate writers. On the spur of the moment he has been known to quote some twenty lines of *Lalla Rookh*. He is known as being a good landlord, taking an intelligent interest in all agricultural pursuits, a passionate sportsman and a splendid horseman. A first rate shot, he can with a pistol decapitate ducks as they swim on his ponds at Kniephof. His powers of endurance are remarkable. After the battle of Sedan he was in the saddle from six in the morning until midnight.

Sentimentalism is a strong factor in his character. "I took a boat on the "Rhine," he wrote to his wife, "and "then swam in the moonlight to the Rat "Tower. There is something strangely "dreamy to lie on the waters on a still "night, with moon and stars above, and "on either hand the wood capped moun- "tains." Who could imagine such words from the "Raw Head" of the French nursery. The fact is he combines the clear, cool, calculating craft of Mephistopheles with the passionate and sentimental heart of Marguerite. A strong belief in Christianity, not one creed or another, runs through his life. He said "a certain measure of positive "Christianity is necessary to man in "order to prevent him becoming dan- "gerous to society." His loyalty partook of the old cavalier type, "for "God and the King." "By nature I "am disposed to be a Republican; I "derive my sense of duty from God, and "that is why I am a Royalist. Sever "my connection with God, and I am "the man to pack up my trunks to- "morrow and be off to Varzin to reap "my oats." "Christianity," he held, "is "not the creed of court chaplains." Quakerism seems to be the basis of his character, paradoxical as it appears to speak of him as being allied in any way to the teachings of Fox.

Bismarck is not an orator as eloquence goes, but if oratory is tested by the faculty to influence, then he is the most eloquent man in Europe. Now and then he rises into the realm of rhetoric. What a striking phrase was that about the God of battles shaking the iron dice of destiny from His hands!

His private life has ever been most singularly happy. He was his mother's boy, and his relations with his only sister were almost idyllic. His wife is of the true German pattern, simple, homely and intelligent. She wears her plain old-fashioned black bonnet, and amid the cares of state "wishes he was "back among the turnips."

How different is all this from the craft of diplomacy which has come to be synonymous with the name of Bismarck, and yet how natural and manly it all is. He is back among his turnips and his oats now, for which he so often longed when he had kingdoms to play with and it is to be supposed that the long life of patriotic statesmanship will close amid the peaceful surroundings of the country gentleman's career. His bucolic tastes, his love of literature and delight in home, shed a new light on the man of blood and iron. After all there is a deal of humanity in man.

THE DAILY COLUMBIAN

THURSDAY EVENING, JUNE 5, 1890.

FORT LANGLEY ITEMS.

[From Our Own Correspondent.]

LANGLEY, June 2.—We read your exhaustive account of our political meeting here last week with gratification.

Naught exaggerated, and naught set down in malice. A high degree of excitement still prevails, and our projected gathering in a few days to make a choice of three members for Westminster District out of the large number of aspirants for political honors, from which we have to make a selection, bids fair to prove of unusual interest, in the present troubled state of the electoral atmosphere.

As to the Hon. John Robson, there would have been little likelihood of opposition to his re-election but for the redistribution measure of last session and the apparently uncertain action of himself and colleagues in the case of the Mainland representation. You have, however discussed in THE COLUMBIAN this point so ably that your readers are well informed as to what are the real grounds upon which opposition to the re-election of those who drugged the Island voters with their electoral sops, should be grounded.

There was a new English church consecrated on the Prairie here yesterday, Trinity Sunday, by Bishop Sillitoe, who, with his chaplain, opened the sacred edifice for Christian worship. The divine service would have been much more largely attended, but for the very unpropitious weather. The rain, however, was so heavy and persistent that many who purposed joining in the holy ordinance were reluctantly unable to be present, and owing to the same hindrance, a service in the evening which was to be conducted by the Bishop in the school house here, could not be fully attended by the local congregation.

Notwithstanding the continuous downpour the river still gradually goes down, and the water on the prairie lands is fast subsiding.

You may look out for an increase in *the retail price of meat in the Royal* City, if what is reported here be authentic, namely, that your butchers have formed what might be called a "ring," and will not purchase stock from here coming by steamer, unless through one party, who will not buy except at a price fixed by himself. He will then sell to the victuallers. If true, they ought to be looked to without delay. One party had four calves here on Saturday, in fair condition, which had to be brought home again from New Westminster, as he could not dispose of them except through this particular agent, at least so he stated.

Another Sealing Boat.

Capt. J. G. Cox, who returned last evening from the Sound, succeeded, while in Port Townsend, in negotiating the purchase of another very creditable addition to the Victoria sealing fleet in the shape of the trim little 55 ton schooner Mischief, four years old, now lying at Port Townsend. It is expected that the Mischief's transfer to Victoria owners will be completed this week. The U. S. revenue cutter Bear was still in Seattle when Capt. Cox left, awaiting orders. Her destination is as much a matter of conjecture in the Sound city as it is in this city.—*Colonist of Tuesday.*

Burned to Death.

Little four-year-old Nellie Currie, whose parents live on Nelson street, was burned to death yesterday afternoon by her clothes catching fire from a burning root on a vacant lot near where her parents' house is situated. The little child was out playing with her elder sister at the time. When the dress caught on fire the flames spread rapidly, completely enveloping her and frightening her sister, who ran crying for her mother. The mother hurried to the child's rescue, and found that she had fallen over on her face and was lying lifeless on the ground. The arms, hands and face of the little thing were terribly burned, and it is supposed that when it fell it lay in such a way that it was suffocated.—Sunday's *Advertiser.*

Fighting a Panther.

A few days ago, says the *Colonist*, as James Knight, of Shelter Point, near Nanaimo, was working in the woods close to his own house and barn, he heard a series of squeals from a litter of little pigs which were running about the garden. Going in the direction of the sounds he discovered a panther of very large proportions carrying off one of his porkers. Running to the house, with all possible speed, he secured his gun, his dog in the meantime chasing the marauder which took to the trees. Taking aim at the beast, whose glistening eyes shone through the foliage, and whose growls made it impossible to mistake his whereabouts, he brought the animal down, preventing him making a dying charge by a well directed shot into his brain. This brute, and several others of his kind, with the assistance of the bears in the neighborhood, had *latterly made considerable havoc among* the smaller domesticated animals, and it is proposed, ere long, to organize a shooting party with the object of exterminating them.

Mr. Thos. Keith, the newly elected member for Nanaimo City, is a native of Belfast, Ireland, about 38 years old. He has been in Canada nearly four years, and has resided both in Montreal and Vancouver. He has strong views on the labor question, and thinks "that a more progressive policy is needed for the development of British Columbia's unbounded resources." His practically trained mind and good common sense views on the present requirements of this country will, when he gets into Parliament, make him a formidable opponent of old fogeyism.—*Times.*

TO THE ELECTORS OF

Westminster District.

GENTLEMEN:—At the earnest request of a large number of the Electors of New Westminster District, I have consented to become a candidate to represent you in the Provincial Parliament.

I will endeavor to briefly present to you some of the principal points in my platform.

1st. I am in favor of representation by population and will consider it my first duty to secure a fair and just representation for the Mainland.

2nd. I am in favor of dividing the District into Ridings.

3rd. I will endeavor to increase the grant to municipalities from $1,000 to $3,000 per annum.

4th. I would also be in favor of raising the tax on wild lands to such an extent as would prohibit speculators from holding large tracts of land, to the detriment of actual settlers.

5th. I am in favor of the Government adopting a public works policy and borrowing a million dollars, and expending the same on roads and bridges throughout the District and also on a scheme for the reclamation of overflowed lands.

6th. I would strongly urge upon the Provincial and Dominion Governments the necessity of aiding the City of Westminster in the immediate construction of a Traffic Bridge across the Fraser River.

7th. I would also use my best endeavors to have a railroad constructed from Popcum to the Delta.

8th. To repeal clause 9 of the Public Schools Act.

9th. The cutting of a Canal from Mud Bay to the Fraser, thereby draining a large portion of the Delta, and avoiding the dangers of Point Roberts.

10th. The erection of a Traffic Bridge at Pitt River and the extension of the Westminster road through to Agassiz.

I shall also endeavor, if elected, to visit all portions of the District prior to the meeting of Parliament to learn your wants, so as to be in a position to discuss the same intelligently during the session.

In conclusion, gentlemen, I would ask you for your votes, confidence and support at the forthcoming election.

I remain,

Yours faithfully,

dwmy31td ARTHUR M. HERRING.

TO THE ELECTORS OF

New Westminster City.

GENTLEMEN:—In response to a requisition, numerously signed, which has been presented to me, I beg to offer myself as representative of this City in the Provincial Legislature.

I frankly confess that, aside from the great question of the just distribution of legislative power, I would scarcely care to be a candidate. If you do me the honor to elect me I shall make that question my first consideration at all times, and in order to do this it is essential that I keep quite free from any entangling alliances with either Government or Opposition. But to the people and the advocacy of the rights of the people, in this matter and in all others, I can fully and freely pledge myself; and with those, be they on what side of the House they may, who are animated by a similar spirit, I will work cordially.

The present crisis demands special treatment. We of the Lower Mainland are denied our just share of legislative power, and so long as that is the case our true policy, in my opinion—nay, the policy which our own self-respect compels us to adopt—is to return no man to the Legislature who will not make the righting of that wrong his first business. It may safely be assumed that those who shall be found willing to do right in this matter, will be the most likely to do right in others also.

Notwithstanding the utmost devotion to this first question, your representative will have to deal with many other matters, and perhaps it will be sufficient now to say on this point that I believe there is room for a good deal of work before the administration of public affairs can claim to be what it should be—government by the people *for* the people. I should earnestly endeavor to do my share of that work.

I believe I may safely assume that you need no assurance of my deep and abiding interest in everything that makes for the prosperity of New Westminster City.

I am, Gentlemen,

Very truly yours,

dmy16tc J. C. BROWN.

TO THE ELECTORS

—OF THE—

Westminster Electoral District.

GENTLEMEN:—As it is difficult to arrange to see each individual elector before election day, I wish to put before you the platform on which I stand whilst seeking your support.

Up to the introduction of the Constitution Amendment Act, I should have supported the present Government, but I now stand independent of all parties on that measure, pledged *to obtain a fair and just Redistribution Act immediately* after the publication of the census returns; such act to be based as nearly as possible upon population, the abolition of the balance of power and the division of districts into one member constituencies. Outside this pledge I claim the privilege of being allowed to support any legislation of a just and beneficial nature which may be introduced by the Government. I will endeavor to impress upon the Government the necessity of the utmost liberality in the expenditure for the opening up of all agricultural districts and even, if necessary, to borrow money for this purpose.

The conservation of all public lands for actual settlement, and the abolition of all sales of land in large areas, will be one of the chief objects I shall hold in view, and to also assist in the greatest amount of land being brought into cultivation. I would advocate the Wild Land Tax being raised to 25 cents per acre.

It will also be my endeavor to impress upon the Government the absolute necessity of taking steps to assist in the reclamation of the large area of land subject to overflow by the Fraser, so as to render it all fit for cultivation, feeling sure that any money spent in that direction will be a good investment, as the lands will be greatly enhanced in value for assessment.

From the above you will see I stand as a supporter of the Government, except on one measure, and feel sure that you will see that as I am a resident farmer in the district our interests are identical, and I hope to be able to materially advance the interests of the district should you honor me as your representative.

I am, Gentlemen,

Yours Obediently,

LIVINGSTON THOMPSON.

NOTICE OF SALE BY SHERIFF

Pursuant to Execution Against Lands Act, 1874.

In the Supreme Court of British Columbia

ARTEMAS DAVISON, Plaintiff;

WILLIAM CALKINS and A. ENNIS, Defendants.

IN OBEDIENCE TO A WRIT OF *FI. FA.* Issued out of the Supreme Court of British Columbia at New Westminster, on the 2nd May, 1890, and to me directed in the above named suit, for the sum of $615.88, debt and costs, together with interest on same at the rate of six per centum per annum from the 20th November, 1889, besides Sheriff's fees and poundage, &c., I have seized, and will sell by Auction, at the Court House, New Westminster, on

Tuesday, the 3rd Day of June, 1890.

At 1 o'clock p.m., all the right, title and interest of the said A. Ennis, in the lands as described in this advertisement, or sufficient thereof to satisfy the judgment, debt and costs in this action, subject to a mortgage for $1000.00 and interest thereon at 9 per centum per annum from the 21st February, 1888.

District.	No. of Lot.	Concise Description of Property.	Estate or Interest.
New Westminster.	North-East ¼ of Sec. 23, Township 26.	Farming Lands partly improved, with buildings thereon.	Estate in fee.

The judgment was registered in the Land Registry Office, New Westminster, against said land on the 30th November, 1889.

W. J. ARMSTRONG, Sheriff.

dmy17td

The above Sale is postponed until Tuesday the 17th day of June, 1890.

By Private Sale.---Bargains.

I HAVE RECEIVED INSTRUCTIONS FROM Mrs. A. M. JOHNSTONE, of Mud Bay, to dispose of her Homestead, which consists of 272 acres of Land, good Dwelling House, excellent Barn and Stabling for 40 head of stock, good Dairy and an abundance of Spring Water.

The property is situated on the sunny side of Mud Bay, the land is second to none anywhere, and parties wanting an investment for their capital cannot do better than take a look at this before investing elsewhere.

Stock and implements can go with Ranch if desired.

TERMS—One-third cash; balance to suit purchaser, at 8 per cent. per annum.

ALSO FOR SALE—THE FOLLOWING:

The West Fractional Half of Section 29, Mud Bay, bounded by the Nicomeki River and the Sea—108 acres.

184 acres, adjoining Sections 16 and 25, Township 4, very near N. W. City.

The North-West corner of Section 68, adjoining the Hastings Townsite—54 acres.

The North-West ¼ of Section XI., Township 2, 160 acres, all first-class land, 10 acres improved and sown to timothy pasture. Log house. Good creek runs along line of property, also the Johnstone Road. This is an excellent ranch.

Lot 261, Group I., Pitt Meadows; 80 acres prairie; 70 acres high brush land. Half of the prairie can be ploughed, and is all hard land. 2 miles from Railway Station.

Stave River Stock and Dairy Ranch. This Ranch consists of 387 acres of land, being Sections 433 and 437, Townships 14 and 15.

This property is situated on the Stave River with a frontage on the Fraser River, at which point the C. P. R. Road passes through property. There is one large 2-storey Frame Dwelling House, hard finished, nearly new, worth $1,500. This is elegantly situated on rising ground and commands a view of the C. P. R., the Fraser River and the surrounding neighborhood. The greater part of the land is Prairie, subject to overflow, a good deal of the high land has been improved and fenced, and there are a large number of young Fruit Trees and the usual Out Buildings in the way of Barns, &c. There is excellent Trout Fishing and Hunting on premises and any party or Company seeking a Stock Farm or Dairy Ranch could not be better situated. Coal croppings of unusual promise have been discovered on the Property. This is to be secured at a bargain, and further particulars can be had of the undersigned or of Mr. Clement Stickney at Wharnock Station, who will show any intending purchaser over the same.

For further particulars apply to

T. J. TRAPP,

New West.

Several other Farms at Langley and other parts of the District at private bargain. dfe13tc

The Vancouver *Evening Telegram* begins life in that City to-morrow night. It is under the management of clever and experienced journalists.

Tenders are asked by Messrs. Clow & Maclure, architects, up to June 11th for the erection of a residence house for Mrs. Dickson, on Columbia street.

On account of the large amount of tin on board for the canneries, the Louise did not put in an appearance at the C. P.N. dock until 10 o'clock last night.

Every day increases the anxiety felt for the safety of the German barque G. H. Hustede, now overdue at London from Victoria. She is to-day 225 days out.

The snow still clings tenaciously to the mountains. It will probably see the 1st of July. So much snow on the Pitt mountains in June has not been seen for years.

The U. S. revenue cutter Bear, which has been at Seattle for some time, has received her orders (sealed), and has sailed for the north presumably for Behring Sea.

The British barque Astoria, bound from Maryport to Victoria, put into Stanley, Falkland Islands, early in May, with her decks started, her hatches stove and her stanchions gone.

The Requiem Mass for Bishop D'Herbomez will be held at 9 o'clock to-morrow morning and the funeral at 12 noon to the station, whence the body will be taken to the Mission for interment.

We had made arrangements for receiving full telegraphic bulletins of the results of the Ontario elections which took place to-day, but up to the time of going to press no election news had been received.

Good progress has been made by Messrs. Wilson & Wise in the removal of the old buildings on Provost street and to-morrow they start on their journey up Lorne street to their final resting place.

No news has been received of the Queen Victoria since February 14th, when she was spoken in lat. 41 S, long. 57.10. The sealing schooner Carmelite has not been reported since January 22nd, in lat. 30 S.

The river has assumed its normal rate of speed and rowing on it is now a pleasure. Many boating parties took advantage of the beauty of the evening last night and enjoyed a pleasant excursion up and down stream.

The str. Irving left this morning with passengers and freight for up river ports. This afternoon the Irving goes from Chilliwack with an excursion party as far up as Harrison Hot Springs, returning this evening.

A Chinese wrestling match is a curiosity not often seen. Two of the "yaller fellers" had a friendly "up-and-up" test of muscle and skill last night on Front street. Their tactics are similar to the Japanese and consist of pushing and butting.

A paragraph in the North Arm notes yesterday stated that Rev. S. J. Thompson would preach his farewell sermon at that place on Saturday next. "Saturday" should have read "Sunday" of course, and all concerned will please take note of this correction.

Last evening a business meeting of the Sons of England was held in the Royal Temperance Hall, Columbia street. The regalia of the order will arrive from England in another week, when the ceremonies of the formal organization will be performed.

Owing to the press of political matter on our time and attention yesterday, we inadvertently omitted all mention of the decease, on Tuesday, of the late lamented Bishop D'Herbomez. A somewhat extended and interesting obituary notice will be found in this issue.

Trinity Church Club will hold its first meeting in the new club rooms in St. Leonard's Hall on Friday (to-morrow) next, at 8:30 p. m.. Among other subjects to be discussed of interest to the Club will be the question of putting billiard tables in the Club rooms.

The Delaware came down from Chilliwack and way ports this afternoon, bringing 25 passengers, 385 bales of hay, 23 sacks of oats, 20 sacks potatoes, 16 boxes eggs, 10 boxes butter, 6 calves, 2 bundles hides, 13 hogs, 2 cases pottery, and a large consignment of miscellaneous produce.

Puget Sound wreckers intend shortly to commence work upon the hull of the old steamer Idaho, which came to grief near Race Rocks, last year, and now lies in Port Townsend bay. It is supposed that her boilers and something else—it is not known what—are still clinging to her, as a clumsy weight attached to her bottom prevents her floating in less than ten fathoms of water.

The morning paper is acting the bull in the china shop again. In this morning's issue it says that the C. P. R. in its superb new map of its transcontinental system has failed to put Westminster on the map at all. Any one, who examines the map will see that Westminster is printed in large letters where it should be, and is given a large degree of prominence. What's the matter with *Truth's* "dexter optic cord?"

Children Cry for Pitcher's Castoria.

The Knights of Pythias.

To-night the New Westminster Division No. 3, Uniform Ranks of the Knights of Pythias, will be organized by Colonel Richardson, of Nanaimo. A large number of visiting Knights came from Vancouver, Victoria and Nanaimo by this morning's train and will be present to assist in the ceremonies. After these duties of the organization have been performed those present will proceed to the Hotel Douglas where supper will be had.

Meeting at Matsqui.

At a public meeting held at Matsqui on the 2nd inst., Mr. John Maclure in the chair, the following resolutions were unanimously passed: 1. "That this meeting is in favor of the return of three *Independent* members to the legislative assembly, pledged to use their utmost endeavors to obtain a fair measure of Redistribution for the Province; and that a delegate be sent to the convention to be held at Langley on the 5th inst., to vote in accordance with these views."

2. "That Mr. Sim be requested to act as delegate to represent the settlement at the above mentioned convention."

With a vote of thanks to the chairman, the meeting terminated.

No Houses to Rent.

It is astonishing how very few vacant houses there are in the city at the present time, and very few know of this fact until they try to rent one. It is well known that many families are obliged to live in the various hotels until there is an opportunity to obtain a house and indeed several men are obliged to keep their families in Vancouver for the very reason that they are unable to get a house in the city, even though there are a very large large number building in various directions. The real estate men say that they are continually receiving applications for houses, and one agent declares that last month he received at least fifty such applications. This is a very prosperous state of things, and the outlay of a few thousands of dollars in this direction would result in a handsome interest on the amount invested.

The Baptist Social.

A most pleasant entertainment was held in the Olivet Baptist Church last evening, it being the occasion of a reception to the new pastor, the Rev. Mr. Best, late of Brandon, Man., and a farewell to Mr. Fisher, who assumed the duties of pastor at the time of the resignation of the Rev. Mr. Baldwin. The entertainment commenced with songs, choruses, readings and recitations, all of which were well received and enthusiastically applauded. After these exercises were performed Mr. Fisher was presented with a gold-headed ebony cane, accompanied by an appropriate address to which Mr. Fisher replied in feeling terms. Refreshments, which were heartily partaken of by all present, were served by the ladies of the church, and at 10:30 o'clock the audience dispersed well pleased with the evening's entertainment.

Albert Crescent.

Some time ago work was commenced in the Crescent with a great deal of vigor, and every one thought that pretty soon we should have a beautiful terraced slope smiling in the sun, etc. But after the ripping up of the sundry stumps and the shattering of the many great rocks on the ground, a cessation of labor was taken. and it seems likely to be protracted indefinitely. This year's Council have done so much good substantial work, that no one feels like grumbling at them for neglecting one small place. But this Crescent, if finished and laid out as was originally intended, and touched off with a tasty little Turkish kiosk band stand, wherein the city Orphean club could charm the promenaders once a week, why, Westminster would be possessed of a real thing of beauty and a joy for at least several years. The city has not enough of these attractive spots.

Poetry by the Yard.

In the issue of the Sitka *Alaskan* for April 26, just to hand, there are nine and a half columns of "poetry." The toughness of the man who wrote it must have been phenomenal, and only to be equalled by that of him who reads it through. The stuff is positively the most awful ever printed, and the following extract gives a good example of the scholarly attainments of the poet:

"Sure never did an artist conceive a darker scene,
Not even Gustave Dore in his "Wandering Jew," I ween."

The people of Sitka are notoriously healthy or this kind of thing would immensely increase the mortuary statistics of that rising town. The exertions made by the poet in several parts of the poem to get a rhyme are truly heart-rending. It would be a sweet and joyful thing, after reading this "pome," to roll over and die without a groan.

A Smart Vessel.

Mr. Wheatley Bovill, of this city, and Mr. J. Turner, late first officer of the steamer Irving, are having a twenty-ton sloop built by Messrs. McPhee Bros., at their ship yard on the North Arm. Messrs Bovill & Turner are going into the trading business, and will make periodical trips between this city and Sitka, Alaska, taking up a cargo of general goods such as the Indians and settlers up the coast require, and bringing back pelts, furs and skins and other products of the north. The sloop which they are having built will be 45 feet in length, by 11 feet 6 inches beam and is modelled after a plan of Mr. Bovill's. A short distance abaft the mast the deck is raised one foot, thus rendering skylights unnecessary. The boat will have a depth of five feet and will carry a very large centre-board. Her ribs are of 2x 2½ inch oak, with natural knees, and planked with native pine. She will be finished inside with cedar. The deck is to be narrow fir plank, edge grain. The sloop will carry a vast spread of canvas, consisting of mainsail, gaff topsail, fore-sail, fore-stay-sail and flying jib. She will carry a polacca mast, thus obviating top-mast and cross-trees; all her spars will be of specially selected native pine. Her decks will be nearly flush, a low bulwark running completely around the boat. Messrs. McPhee Bros. are making every effort to surpass themselves on this boat, and when finished and ready for sea she will be undoubtedly the most beautiful, and likely the fastest craft in British Columbia waters. The vessel will probably be launched on the 10th inst.

The remains of the late Bishop D'Herbomez were lying in state all yesterday in St. Louis College where a large number took the opportunity of looking upon the face of him whom they loved so well. The remains were removed this morning to St. Charles' Indian church where several hundred Indians attended the services and an opportunity was given to gaze upon the features of him who had done so much for their civilization. All marched past the casket with tearful eyes and bowed heads. The remains were then conveyed to St. Peter's Cathedral where they will remain until to-morrow morning at 9:30 a. m., when they will be taken to St. Mary's Mission.

A new fog horn, operated by steam and compressed air, will be put in service July 1, at the light station at Seabird's point, on the eastern extremity of Discovery Island, Haro strait, B. C. The signal will blow blasts at intervals of one minute of a second's duration. The wooden can buoy, which has been heretofore maintained on Kelp reefs, in Haro straits, off the south-east coast of Vancouver Island, has been replaced by a spar buoy projecting fifteen feet, painted black.—*Colonist.*

Children Cry for Pitcher's Castoria.

SPRING ASSIZE.

(Before Hon. Mr. Justice McCreight and His Honor Judge Bole.)

Court resumed its business at 11:30 o'clock this morning, when the case of Regina vs. Lackinitze was called.

Mr. Blake, for prisoner, asked for a remand on account of the fact that Mr. Beck, of Vancouver, had all the particulars of the case, that he would have been ready, but it was thought that the Sunbury case would come on.

His Worship said that it was a serious inconvenience to the jurors and that he would have to go on with the case at once.

His Lordship then ordered the jury to be called, which was impanelled as follows: J. B. Curr, Alex. Anderson, A. Murcheson, H. Bruce, H. Hodge, J. W. Miller, John Oliver, — Brown, C. Hawley, J. Week, J. A. Green, J. H. Burritt. Mr. Green was chosen foreman.

Mr. A. St. G. Hamersley, Crown prosecutor, addressed the jury, giving an outline of the history of the murder, saying that as there were eye-witnesses to the affair, there would be no difficulty in finding a verdict.

At this stage His Lordship dismissed the jury for an hour, when Mr. Mills, for the defence in the Sunbury murder, made an application to have the trial of the prisoners, Sam, Jim, Annie and Crazy Annie, postponed for six weeks or until the next assizes, and read the affidavit of Stephen Spenser, of Alert Bay, which was to the effect that the father and mother of Sam could give material evidence in his behalf.

After considerable argument the case was postponed until the 8th of July next. The court was then adjourned until 1:15 p. m.

Court resumed again at 1:30 this afternoon when Regina *vs.* Lackinitze, the first case, was taken up.

W. B. Anderson, a Comox constable, swore to the arrest of the prisoners on their way up north.

The afternoon was principally taken up by the evidence of Billy, an Enclutah Indian who was one of a party which left Vancouver on April 17th. Prisoner, deceased, a woman, and witness were the occupants of the canoe.

The Indians landed at Bowen Island, they had been drinking all the way from Vancouver. They had two barrels of whiskey on board and two bottles of the same fluid. Anmut, the deceased, was steering the canoe, when a row between prisoner and the woman who was with them took place. Anmut got up to protect the woman and prisoner struck him a fearful blow on the forehead with a paddle. Annut sank down in the bottom of the canoe covering his face with both hands, prisoner then struck him another blow, killing him instantly. Prisoner, on landing, was chased and captured by Louis, a white man, who handed him over to the police.

The case was proceeding as we went to press.

Heartless Barbarity.

Last Friday morning ten calves were sent to the City from some port up-river. On arriving here the animals were turned into the pens on the C. P. N. dock, and there they remained until Saturday night without a morsel of food of any kind. The wretched little brutes bellowed as long as their strength lasted, and the noise they created kept everybody in the neighborhood awake all night. To the superficial observer there does not appear to be any particular cruelty in keeping the animals nearly forty-eight hours without food or water in a hot pen on which the sun beats down most of the day. But to anyone who takes the trouble to look into the matter there is something particularly devilish—that is the only word that fits the case—in compelling these poor little animals to undergo the unspeakable agonies of hunger and thirst for nearly two days; and then hauling them out as if they were logs of wood or blocks of stone, tying their feet together and piling them one on top of the other in a cart to be driven to the slaughter house. This may seem incredible, but it is true, too true for the credit of the city; and those who perpetrate these shocking brutalities on the dumb animals should be made amenable to the strong hand of the law, and that speedily. Divines in this city have spoken about it, the press have recently spoken about it, and Councils of past years have passed by-laws forbidding the willful torturing of animals, and have, with delightful deference to conventionality, promptly shelved their by-laws, and the offenders go scot-free. What strangers must think of this city, coming here and seeing things like this done almost in our main streets, is not to be divined.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Notice To Builders.

TO THE ELECTORS OF

New Westminster District

GENTLEMEN:—I beg to announce myself as an independent candidate for the Legislative Assembly at the coming election.

As most of you are aware, I am an old resident of the District, and largely interested in its growth and prosperity.

I am in favor of the division of the District into ridings, and shall insist upon our having our fair share of representation, according to our population and resources, in the Legislature.

As this District contributes very largely to the revenue, it is clearly entitled to large appropriations for public works, and substantial grants to the various municipalities.

I am a strong advocate of a free traffic bridge across the Fraser at Brownsville, and should urge that the Government subsidise that work, and I should also press for the construction of a bridge across the Pitt River.

I am utterly opposed to the immigration of Chinese, and their employment on public works of any character.

I am strongly in favor of borrowing the money necessary to develop the agricultural country by opening up roads along the section lines.

I should advocate any reasonable assistance to a railway from Hope down the south side of the Fraser, as such a line would give a vast impetus to the development of our District.

If you do me the honor to elect me I shall do my best to advance our interests in these and other matters.

I am, Gentlemen,
Yours sincerely,
JAMES PUNCH.
Brownsville, Surrey, May 31, 1890. jn2dwtd

TO THE ELECTORS OF

New Westminster District

GENTLEMEN:—I offer myself as a candidate to represent you in the Provincial Legislature, on the platform suggested by the Mainland Association, free from any pledge to either party.

I hold myself at liberty to give an independent support to any Government that may be chosen by the people. As an elector, I think the District would make a mistake should the electors condone last session's Redistribution Bill, by returning either the Hon. Mr. Robson, or candidates hampered by pledges to support his Government, as representatives of this constituency.

Mr. Robson is standing for Cariboo as well as for Westminster District, so there is no need to fear that the Province will be deprived of his services should the majority of the electors agree with me on this point.

I am in favor of dividing Westminster District into ridings.

Any measures that appear to me to be for the benefit of the Province would have my support, and I think that some safe scheme might be devised by which the credit of the Province might be lent for local improvements.

The contract system ought to be more strictly carried out.

I should also like to see some modification of the municipal system, by which localities outside of municipalities might have more direct control of the expenditures in their neighborhoods, so as to secure the most economical and efficient disposal of such funds and relieve the central Government from the invidious task of deciding between different claims.

Speculation in wild lands, whether lumber, agricultural, or mineral, should be discouraged.

Should you elect me I will do my duty to the best of my ability, and trust you will give me credit for honesty of purpose, even should you dissent from my judgment.

Your Obedient Servant,
C. B. SWORD.

COLUMBIAN SUPPLEMENT.

VOLUME VIII. NEW WESTMINSTER, B. C., JUNE 5, 1890. NUMBER 105.

TO THE ELECTORS
—OF—
New Westminster District.

GENTLEMEN:—In view of the near approach of the election to fill the vacancy caused by the death of our late representative (the much-respected D. Chisholm) and as I have stated in my card to you that I am a candidate for that honor, I will now lay before you some of my views on the leading questions which I consider will arise in the near future for consideration.

I have been asked what I mean when I announce myself as a Liberal-Conservative; I reply, "That by nature and education I am a Conservative, but a residence of over 30 years in this Province and much intercourse with our American cousins has had the effect of changing many of my views, and given me liberal ideas, therefore I claim I am a Liberal-Conservative." Owing to the fact that party lines are not defined in British Columbia as they are in the older provinces, I consider that our representatives are not in duty bound to give a *through-thick-and-thin* support to any party, but they should go to Ottawa prepared to give a generous support to all GOOD measures which may be brought before them, and to consider the prosperity of the Dominion as a whole, but our own Province in particular, and should a measure come before them which they consider in any way detrimental to the interests of this Province they should take their stand like true men and vote against it.

I am opposed to a certain extent, to the Tariff, or National Policy as applied to British Columbia. We are a long way from the centres of manufacture in the East, and many articles of every-day use to our Farmers and others, and which we cannot produce at home can be obtained more readily and at shorter notice from our near neighbors over the line, and in many cases the articles are better adapted to our needs than those brought from the Eastern Provinces; in fact, much of our Farming and Mining Machinery, Wooden Ware and other articles are brought from the States, although the duties are so heavy. Again regarding our food supply; we do not raise enough to supply our wants, and are obliged to cross the border for it, and are met with such heavy duties that heads of families in this Province pay more than ten to one compared to their compeers in Eastern Provinces. We have had example to the point during the last three months. If we had not received a good supply from California there would have been a meat famine; as it is we are now and have been paying 25 cents per pound for mutton, which is more than ordinary mortals like to pay, and the same state of affairs is likely to obtain again after any long and severe winter, for in spite of "Protection" for the last eleven years our stock raisers are little better prepared to meet hard winters than they were before, and to my mind the only ones who have reaped the benefit of the N. P. are the manufacturers. As a true Britisher I should like to see "Free Trade," but as that seems out of the question, I would advocate "Reciprocity" in many articles which are at present in the Tariff lists, as I think it would be beneficial to both countries, and the working man would not have to go down so deep into his pockets to buy what he needs to eat and wear. I am aware the Government must have a revenue to carry on the affairs of the country, but I would have "luxuries" pay more and get at the pockets of the richer classes who can better afford to pay taxes.

Owing to the long continued sickness of the late Mr. Chisholm, he was unable to be in his place this session, and very little during the previous one, so we of this District have been practically unrepresented, and our local wants have not been brought before the notice of the House. Had he (Mr. Chisholm) been in his seat, I do not think the Postmaster-General would have been left so much in the dark concerning the necessity of regular mail facilities on the Lower Fraser as he seems to have been when he proposed to cut off the mail subsidy from that important route, and there are other places in the District which need better postal facilities, which I consider should receive that gentleman's earliest attention.

I hope that in the near future our District will reach that point that we may look for it to be divided and receive another representative. At present I think it is the largest constituency in the Dominion, extending over 1500 miles of territory, and when the census returns are in I think the necessary number of population will be found to demand such additional representation.

The protection of the river banks at Chilliwack, Sumas, Burton's Prairie and other places should receive my earnest attention, also the works for improving the channel at the Sandheads, in view of the expected increase in our shipping interests.

I consider the Province should have control over all railway charters and privileges within our borders.

Our Fishing interests, being of such great importance to this District in particular, I feel should receive more than ordinary attention.

I would urge the cutting of a canal through the Delta lands from the mouth of the Serpentine to Fraser River, also to enquire into the question of cutting one from the Fraser River to Port Moody, which has often been suggested to me.

Immigration, I consider, should be fostered, and encouraged judiciously. Just at present it is coming here fast enough; I would not like to see a large influx pour in at once, as many would be disappointed and go away disgusted and probably give our glorious Province a bad name.

There are many other matters I should like to touch upon, but it would make this address too long. I hope to see as many as possible before the election, when I shall be prepared to lay my views more fully before them and answer any questions. As soon as possible after the arrival of the writ I will arrange for a personal canvass and will send due notice of time and place of meetings.

During my long residence in the Province I have travelled through much of it, from Victoria to Cariboo, and have noted its growth and requirements, therefore, I feel fully competent to bring such matters before the notice of the House in a practical, business-like manner.

Should I have the honor to be elected I assure you I shall watch over the interests of this District faithfully and to the best of my ability, not forgetting that I also go as a true British Columbian and to do my duty as such.

Yours faithfully,
WM. B. TOWNSEND.

CIVIC ELECTION.

BY VIRTUE OF A WARRANT ISSUED UNder the hand and seal of the Mayor of the City of New Westminster, and to me directed, public notice is hereby given that I require the presence of the Electors of Ward No. 4, in the said city, at the City Hall on Wednesday, the 11th day of June next, at 12 o'clock, noon, for the purpose of electing one person to represent them in the Council as Alderman in the place of Alderman Lyal, resigned.

The mode of nomination of candidates shall be as follows: The candidates shall be nominated in writing; the writing shall be subscribed by two persons as proposer and seconder, who shall be duly qualified electors of and residents in the ward of the City for which the candidate is nominated; and such nomination shall contain a statement signed by the person nominated that he consents to such nomination. The nomination papers shall be delivered to the Returning Officer at any time between the date of this notice and 1 o'clock p. m. of the said 11th day of June. In the event of a poll being necessary, such poll will be opened on the 18th day of June next, at 9 o'clock in the forenoon, and shall remain open until 5 o'clock in the afternoon, at the following places, namely, at the residence of Henry Hoy, Dickinson Street, in said ward; of which every person is hereby required to take notice and govern himself accordingly.

Given under my hand at the City of New Westminster the 27th day of May, A. D. 1890.

D. ROBSON,
dmy27td Returning Officer.

NOTICE.

I HEREBY GIVE NOTICE THAT MY WIFE Martha Fabadn, having left my bed and board, I will not be responsible for any debts contracted by my said wife. A. TENASSE.

Parliamentary Election, 1890

To the Electors of New Westminster District;

GENTLEMEN:—Having been requested by a large number of electors of this District to offer myself as a candidate to represent you in the House of Commons, to which request I have much pleasure in complying, I beg to state that should you do me the honor to elect me as your representative whilst giving the present Government my free and independent support, I would do my utmost to favor the following amongst the many measures that I consider would be beneficial to the interests of this Province and the Dominion at large.

To urge the further improvements of the navigation of the Fraser and other rivers, the protection of their banks, the improvement of any harbors in this District, and the construction of canals where necessary for the purpose of allowing farmers and others every facility to reach market.

To encourage agriculture by protecting all such articles as can be produced in this Province, and to lower duties on all that cannot, and which are absolutely the necessaries of life, and increase the tariff on luxuries so that the consumer would be even taxed less than at present.

To increase the representation in proportion to the wealth and importance of this District.

To increase and have adequate mail service to all portions of the Province and free letter delivery in cities.

No diminution in the Chinese Restriction Act.

To have the Fishing Regulations amended to meet the requirements of this Province.

To have a Dry-Dock constructed at some suitable point on the Mainland to meet the growing demands of this District.

To urge the exchange of Lands in Peace River for the Lands in the Railway Belt;

And that Mining Machinery be admitted free of duty until such is manufactured in the Dominion.

To appoint efficient Immigration agents in all important localities.

To urge the Dominion Government to contribute to make Roads and Bridges through Dominion lands.

To urge immediate aid in any measure to prevent the overflowing of Dominion lands in this Province and to reclaim those subject to inundation.

Having been a resident of this District for over twenty years and knowing its requirements, I should be in a position to advocate your interests, and also my having had the honor to be your representative for the last four years in the Provincial Legislature would place me in a position of knowing something of Legislative routine.

I hope to visit each polling station during the canvass and more fully explain my views on the various topics of the day, which would be impossible to do in a short address.

I have the honor to be,
Gentlemen,
Your obedient servant,
dwmy13tc WM. H. LADNER.

TO THE ELECTORS
—OF—
New Westminster District.

GENTLEMEN:—As I have already announced, I beg to offer myself as a candidate for the seat in the Commons made vacant by the death of our late member, and I come before you as a supporter of the Government of Sir John Macdonald, reserving to myself, of course, the right to act independently should the action of the Government in any matter seem prejudical to our interests.

I would strongly urge immediate attention to the improvement of the River where required, for the protection of the rich agricultural lands of the District, and if elected, I shall at once proceed to Ottawa and leave no stone unturned to secure the immediate appointment of a competent engineer with a view to the prompt undertaking of this most important work.

As you are aware, the duty on certain kinds of mining machinery has been remitted in this Province as a special concession to British Columbia on account of the special conditions obtaining here. I would strongly urge the further application of this principle of special tariff arrangements, so as to relieve consumers of goods which must be imported, while preserving the protection of our agricultural and other interests.

The land laws of the Dominion, having been framed without close consideration of our requirements, are in many points unsuitable, for example in the conditions as to clearing. I would endeavor to secure immediate reform in this important matter.

Subsidies having been granted to railways in the various Provinces of the Dominion, I should urgently present the claims to similar assistance of railways within our own Province.

Should the City of New Westminster decide to build a bridge across the Fraser, I should use my best endeavors to obtain a substantial subsidy for the work, urging that an undertaking of this character should rank with canals and railways as one entitled to national aid.

The next census will undoubtedly show such an increase in the wealth and population of this District as will constitute an undeniable claim to increased representation in the Commons. That claim, if elected, I shall support to the utmost of my ability.

Although, with the growth of the District, the mail service has been improved and extended, it still lags far behind our requirements. I should give special attention to this part of your representative's work, feeling that it is one which is of vital importance.

I should urge the enactment of such fishery regulations, especially in the issuing of licences, as would, without any injustice to the canneries, the importance of which to the prosperity of the District all must recognize, fully protect the free fishermen, and encourage the settlement amongst us of the greatest possible number of that industrious and hardy class of men.

All enactments and regulations for the protection of white labor would receive my hearty support.

Continued work towards the improvement of the harbors of New Westminster and Vancouver, and the efficient lighting and buoying of the same, is a matter which would have my closest attention at all times.

In a word, I should constantly urge upon the Government the wisdom of a liberal policy in public works in this District, the vast resources of which make it certain that such a policy would be amply justified by results.

Trusting to have the opportunity of seeing every elector before polling day,

I am, Gentlemen,
Very sincerely yours,
dwmy11tc GORDON E. CORBOULD.
