ELECTION CARD.

To the Electors of New Westminster City and District.

GENTLEMEN:—At the urgent request of a large number of the Electors of the above Districts, I have consented to become a Candidate, and request your support and patronage.

My political banner is uplifted, and on it will be seen, printed in gold letters, "Straw Hats—good coverings for massive craniums; Men's Fancy Flannel Shirts; Balbriggan Underclothing; Summer Coats and Vests; Linen Dusters; Pique and Fancy Vests; White and Black Plug Hats;" all of which are very suitable wear for the present political campaign, which is liable to be very warm and close. (An endless variety of Men's and Boys' Suits, Felt Hats, etc.)

Electors, rally around this standard, and down with monopolists and—high prices.

I am perfectly sure I can give you better value for your money than any other candidate in the field.

Yours respectfully,

J. E. PHILLIPS,

A CAMBRIDGE TRIBUTE.

The University of Cambridge Will Confer a Degree on Stanley the Great Explorer.

A Wild Man Found in Ontario, Who Has Been Living Naked for 36 Years.

Dastardly Attempt to Blow Up Three Chinamen in Ohio With Dynamite.

More Honors for Stanley.

LONDON, May 27.—The admirers of Stanley at the University of Cambridge have subscribed for a gown to be presented to the great explorer on the occasion of his receiving the honor of the degree conferred upon him by the University. The event is almost unprecedented, for recipients of degrees are usually obliged to buy their own robes, besides paying heavy fees. It is evidently intended that Stanley shall have no annoyance in the matter, but be the guest of the University.

Astounding Depravity.

OTTAWA, Ont., May 27.—A number of reporters went out last night to investigate the case of a man named Zimmerman, who was said to be running about naked and destitute on a mountain six miles southeast of Grimsby. The trip revealed one of the most astounding cases of human depravity ever seen in this country. The reporters found the man and had a talk with him after considerable difficulty. Thinking perhaps that it was some form of religious mania, he was questioned about it, and he answered very intelligently that he read the bible and believed in God, and thought that he belonged to the Presbyterian demonination. Though tried on various subjects he seemed sound enough, except that he could give no reason for the way he was living. The man has been living 36 years stark naked.

Ran in the Family.

COLUSA, Cala., May 27.—Joe Casey who shot and killed Dan Matheson at William's during a drunken row last New Year's day, and who pleaded guilty yesterday, was this morning sentenced to State prison for life. Casey is a son of James Casey who was hanged by the Vigilants in San Francisco, in 1856.

The Work of Desperadoes.

MERRILL, Wis., May 27.—An attempt was made last night to blow up a Chinese laundry with dynamite. The floor was blown into splinters and the machinery and furniture wrecked and windows smashed. Three Chinamen were asleep in the building when the explosion came and a door was blown off its hinges into the bed occupied by Yrp Same, the proprietor. The inmates were not injured. Two men were seen running away from the building a few minutes before the explosion, but there is no clue to their identity.

A Rabid Rabbi.

CLEAELAND, Ohio, May 27.—Quite a sensation occurred here at the celebration of the Jewish feast of weeks, yesterday. The Rev. Weiler, of Baltimore, began his discourse by declaring in face of 800 Israelites that their ideas of the Messiah were ridiculous, that Christ had been on earth, and his second coming would be in the glare of a burning world. Men sprang to their feet in excitement and rushed to the platform and attempted to tear the Rabbi's cap from his head. Several ministers of the German Reformed Church were present and were instrumental in keeping the maddened crowd from doing immediate violence.

Maybe it was Swearing.

LOWELL, Mass., May 26.—Freddie McQuade, a 12-year-old school boy, whose pernicious habit of indulging in profane language so tired the patience of his teacher, Miss Georgia Herndon, that she decided to discipline the lad in a way that was decidely novel, to say the least. She called Freddie before her and in the presence of the other boys and girls scoured his mouth with cloths wet with soap. That night Freddie was taken sick with dyspepsia from which he died after a long illness, and now the boy's parents have entered suit against Miss Herndon. They claim that the application of the soap was really the cause of the boy's death.

The Thirgvalla Again in Collision.

NEW YORK, May.—26.—The Danish steamer Thirgvalla arrived in a leaking condition from Stettin this morning. She reports that on the 19th during hazy weather she was in collision with an iceberg which stove her stern and bowplates.

Salubrious Arizona.

TOMBSTONE, Ariz., May 26. — Robin Hardie, a prominent Los Angeles lawyer, while on a visit with his friend Dr. F. L. Haynes, of Philadelphia, to George Pritchams, a cattle man here, yesterday was shot and instantly killed by some Apache Indians who were in ambush. Haynes' horse was shot under him, but he fortunately succeeded in securing Hardie's horse and escaped.

A Demon's Fell Work.

NEW YORK, May 26.—Another outrage the abduction of an immigrant girl, came to light to-day. Mary Regan, a pretty young Irish girl, who landed in New York from Cork last week and was abducted from the barge office, has gone insane at the home of Michael Galvin, her uncle, at Perth, Amboy. She was drugged in this city after her abduction and subjected to terrible treatment at the hands of an unknown man. Miss Regan was brought to the barge office and examined by two physicians and declared insane. She was sent to the insane asylum at Long Island.

An Amphibious Professor.

NEW YORK, May 26.—A boy from Missouri, named Mercadiecal, proposes to swim across the Hudson River at its widest point with his arms and legs tied together, and holding a dumb-bell in each hand. Some years ago Professor Balbo, a professional swimmer, swam the river at its narrowest point with his hands tied behind his back, but the rope was bound in such a manner as to allow his hands freedom sufficient to propel him. Last July he swam across the Mississippi river with his legs bound, a feat which was deemed impossible on account of the swift current. Among his most difficult performances was that of treading water for two and one-half miles, holding a flag in each hand and swimming on his back, holding a flag in his teeth. He has also made a reputation as a life saver, having rescued three persons from drowning, and he modestly says: "I take more pride in this than in anything I have done."

A Wronged People.

ST. JOHNS, N. Fd., May 26.—The crisis in Ural on the so-called French shore of Newfoundland will apparently soon be reached. Maddened by the neglect of the English Government and the increasing incursions of the French, the unfortunate fishermen of the west coast are banding together to maintain their rights. Under *modus virendi* recently arrived at between the English and French Governments, the captains of war vessels of either country are invested with jurisdiction over the fishermen on the French shore. It is claimed that the French are taking advantage of this power to forcibly expel the Newfoundlanders from their own bays and harbors. A French war vessel entered St. George's Bay and drove out the Newfoundland fishing schooners and confiscated their nets. Naturally the most intense excitement exists everywhere and the fishermen are arming to protect their vessels against French aggression. Her Majesty's sloop of war Emerald has been ordered to the spot.

A Scottish Bark in Trouble.

LONDON, May 26.—The British barque Embleton, from Androssan was reported dismasted off the Chillian coast and has been towed to Monte Video.

No Peace Yet.

LONDON, May 25.—Persons of a peaceable turn of mind, who have a weak spot in their hearts for arbitration, disarmament and other non-warlike schemes, have had much to grieve them lately. In the first place, Mr. Stanley, who has been a sort of pet with these gentry, has astounded them by sneering at them in public as old grannies and fools. Nothing could be more cynical nor more cruel than the explorer's sudden and candid declaration of contempt for the peace contingent. Heretofore he has always allowed himself to be lauded to the sky as a pioneer of civilization and Christianity, the opener-up of commerce, the deliverer of the blacks from the bondage of ignorance, the friend of the missionary, etc. But now he throws off the mask and stands revealed as a gigantic landgrabber, pure and simple; the acquirer of territory by peaceable methods, if possible, but if not, then by force. At least the religious societies and peace organisations, such of them as have recovered their breath since Stanley's recent speech, are now saying these things about him. They have also found a little comfort in the political happenings of the week. Every nation is increasing its armament. Even little Denmark has felt compelled to show that she can buy guns just like her big neighbors, and she has bought her full proportion at least, namely seventeen 40-calibre steel guns, and twenty-four long range pieces of somewhat less capacity. At home things do not look much brighter for those who anticipate a day of universal brotherhood. The Right Hon. Edward Stanhope, Secretary of State for War, in a speech last night, stated that the Government was giving very close attention to England's coast defenses, which it proposed to greatly improve, and, in fact, to perfect. Defence is not exactly war, but it implies war, and the Secretary's remarks make it clear that no delusion as to the possibilities of disarmament prevail among these who are responsible for the safety of the country, all of which is doubtless regretted by many people besides "peace cranks."

Fun at Tipperary.

LONDON, May 25.—A meeting at New Tipperary to celebrate the success of the new settlement, was held to-day in spite of the Government's prohibition. About 2000 people assembled at Limerick junction to welcome the members of Parliament who came to attend the meeting. After they had alighted from the train Messrs. Dillon, O'Brien and John O'Connor spoke at the station. The police were nonplussed as they had received no orders against such a contingency. They warned the speakers but were not heeded, and they were powerless to go further. Afterwards the speakers drove to New Tipperary, and Mr. O'Brien was about to address a large assemblage there when he was interfered with by the police and the crowd was dispersed, clubs being freely used by the officers. Mr. O'Brien taunted the police with cowardice, but suggested to the people that they offer no undue resistance, as he desired to avoid bloodshed. Mr. O'Brien's attitude undoubtedly ensured a peaceful outcome of the affair, as the people took their cue from him implicitly. They resisted just enough to compel the police to use force, and a good many heads were bruised, but no one was seriously injured so far as reported. Troops were held in readiness throughout the day to assist the police if necessary, but their services were not called into requisition. During the banquet in the evening at the national school two explosives were thrown in the street, but no one was hurt.

A Sensational Crime.

PARIS, May 24.—Paris has been startled by another sensational crime, this time committee in the Hotel des Mathurins et de New York, 53 Rue des Mathurins. This is one of the quiet, shady, rather narrow streets that lie behind the Madeline towards the Boulevard Mal Herbes, selected by Gaborlan as the scene of one of his most mysterious crimes. The circumstances attending this latest addition to the criminal annals of that quarter are of a very peculiar character. Since the Exhibition a commercial traveller named Blevinski, a middle-aged man of Polish extraction, who at one time held a commission in the Russian army and whose mother has been a lady of honor at the Court of the Czar, has been in the habit of putting up at Hotel des Mathurins several times a month. A front room on the second floor was usually reserved for him. During each of his stays in Paris Mr. Blevinski used to receive visits from a good looking woman slightly over 30 years of age, who was supposed to be his mistress. It is now known that this visitor was Mme. Jeanne Wolocstay. Mme. Wolocstay lived on the best of terms with her husband in comfortable apartments in the Rue Brechant and Mr. Blevinski was a friend of the family. On Thursday afternoon she called on Blevinski again and the pair shut themselves up together. On Friday Blevinski was met by the garcon who wanted to arrange the room, but Blevinski refused to admit him, which aroused the suspicion of the landlord, who entered the room and found the woman dead with a bullet wound in her breast. Blevinski was arrested shortly after. When conducted to the police station the prisoner coolly begged the commissary to ask a question as he was wounded. "I assure you," he went on, "that I did not kill Jeanne. She committed suicide because I could not give her the money she required. She shot herself twice with my revolver. I tried to recall her to consciousness, but when I saw that she was dead I wanted to put an end to my own life," and Blevinski showed the commissary that a part of his ear had been shot away.

That Double Barrel.

In New Westminster, Hon. Mr. Robson said (we quote from *Truth*): "He had often been accused in the Legislature for always getting the lion's share of the appropriations for his own district, and on several occasions, on account of this, there had been almost a mutiny in the Government caucus."

In Victoria, Hon. Mr. Turner, as reported by the Government organ, said: "He could not conceive how the city could return an Opposition member in view of the *general and special* good which the Government had done for Vancouver Island on the whole."

That lion appears to move around.

Children Cry for Pitcher's Castoria.

HOT SPRING BUBBLES.

Our Famous Health and Pleasure Resort.—Gaining in Popularity Every Month.

Harrison Hot Springs so little spoken of three years ago have now become as well known as any health or pleasure resort on the Pacific coast, and the day is not far distant when the springs will rival any resort of the kind on the continent outside of Saratoga. The advantages and inducements offered by Harrison Hot Springs are superior by long odds even to Saratoga, the latter being only a health resort, and fashionable gathering place, while Harrison combines in offering a dozen better attractions, and all on the spot so to speak. The waters of the Springs are pronounced by the most eminent chemists as unrivalled for many diseases, and the hundreds of rheumatics who have left the springs completely cured are the best evidence which can be adduced to prove these assertions. As a pleasure resort and sportsman's paradise Harrison Hot Springs stand unrivalled on this coast at least, and it is doubtful if any spot on the wide continent offers the same wonderful inducements. To begin with, the St. Alice Hotel is a really excellent hostelry, well managed, clean to a fault, and offers as fine a *menu* to its guests as the best houses in the Province. It is built about twenty yards from the southern shore of Harrison Lake, and from the balconies can be obtained views much more grand and inspiring than even the world-famed scenes of Switzerland. If the tourist is fond of mountain climbing, he can please his taste in any direction. Only one hundred yards from the hotel is the base of a mountain four or five thousand feet high. This is a nice easy one to begin with, but a dozen more almost as convenient are in sight, ranging from five thousand to twelve thousand feet in height, snow-capped eternally, with an occasional monster glacier thrown in to relieve the monotony of their grandeur. The tops of these mountains are frequented by the mountain goat and sheep, and the valleys between are the homes of the deer, the bear, the wildcat and the panther. Consequently the daring hunter can get all the sport he may desire, and that so easily that he is not forced, as in other sections, to travel for days over a rough country to reach it. Small game, such as grouse, partridge, wild pigeon, duck, geese and swan abound in the neighborhood, and the sportsman who is inclined to the milder forms of sport can also have his fill in plenty. Then again the fishing is excellent—hard to beat in fact. Within an hour's journey from the St. Alice Hotel is a beautiful little lake, fairly alive with the most gamy speckled trout imaginable. Some grand baskets have been taken from this lake, the best being probably that made by Mr. John Boultbee last summer who captured 240 odd in a single day. On Saturday last the same gentleman caught ten dozen in less than five hours fishing, and several other large baskets were made the same day. This is all that is necessary to say about fishing, except perhaps to mention that the proprietors of the St. Alice Hotel have a neat little lodge built on the banks of the lake, where fishermen or hunters who wish to remain a few days can put up with great comfort, and supplied with every convenience for "roughing it" without descending to unnecessary hardships.

Bathing, yachting and boating are three forms of amusement which most people are partial to, particularly the ladies, if one may judge by the hearty and general manner in which they go in for these things at Harrison Lake. In connection with the St. Alice is a fine fleet of sailing and rowing boats, neat, pretty and easily managed, and procurable at all times; and the little bays, far reaching sloughs and the broad bosom of the lake offer the most delightful courses imaginable for boating parties, while secluded nooks at the foot of some pretty little mountain torrent provide the most beautiful picnic grounds or lovers' retreats to be found anywhere. The whole surroundings are grand, poetic and romantic, and it is hard to imagine to what bounds the fame of Tom Moore would have extended had he been privileged with such food for his fancies as this unequalled locality supplies. To the botanist the shores and hills surrounding Harrison Lake are a perfect paradise. Rare and beautiful specimens are to be found at every step, and there seems to be no end to the bewildering varieties in this rich garden of nature.

The St. Alice has at present nearly 100 guests, congregated from all parts of the continent, and every day the list is being increased. The place does not require advertising, the guests on their return home do this of their own accord. After a few days stay it is impossible to leave without a feeling of deep regret, and a firm intention of returning at the earliest opportunity. The place is easy to reach, being only three hours' distant from either Westminster or Vancouver. Parties wishing to camp further up the lake can obtain the Mountain Belle, a fine little steam launch, to transport them to their destination, and at a reasonable cost.

In the vicinity of the St. Alice Hotel a fine little village is springing up, and the place is already supplied with a post office and a general store. Several prominent citizens of Vancouver and Westminster have cottages there, and a dozen more will be erected during the present season. This is only the beginning; in two years a hundred handsome cottages and villas will line the shore of the farfamed Hot Springs.

CITY COUNCIL.

The City Council met at 8 Monday night for the transaction of business. Present—Aldermen Smither, Sinclair, Batchelor, Hoy, Shiles and McPhaden.

His Worship Mayor Brown in the chair.

The minutes of the last meeting were read and adopted.

Ald. Shiles rose to a question of privilege and said that he had been freely accused by various people with having a good deal to do with the police force having been at the Opera House last Wednesday evening; but he thought the proper way to refute such assertions was to call upon the Chief of Police, who was present, to give an explanation of the matter and inform the Council from whom he obtained the instructions to have his men at the meeting. The assent of the Council having been given, Chief Pearce stepped forwarded. He said there had been a good deal of his past history written up and given to the public, and he had no doubt a good deal of it had been read. But a great deal of what had occurred on that occasion was not his blame at all. In the first place the men were not there through his orders or instructions. Only one man was detailed for duty at the Opera House by his orders, as it was the customary thing to have at least one officer at public meetings of all kinds. He himself was off duty and, being down town, took a walk up to the Opera House to hear what was going on. He had no intention of staying, but on entering the hall, he became aware of the presence of certain characters whom he deemed worth watching, so remained.

His Worship.—How many men did you order to be present that evening?

The Chief.—I ordered only one man to be there, sir.

His Worship.—Well, I thought there was a clause in the police by-laws prohibiting more than one police officer being present at these meetings, unless specially ordered.

Ald. Batchelor.—Who instructed the other officers to be there?

The Chief.—I heard that Mr. Thomas Cunningham had wished special constables to be detailed at the Opera House. Officer Sawyer informed me to that effect, but I did not care to take any notice of Mr. Cunningham in the matter, and acted on my own responsibility, but the men went there without my orders.

Ald. Batchelor.—I think it is a very strange thing that the police of this city should be at the beck and call of Mr. Cunningham.

The Chief.—They are not under the orders of Mr. Cunningham at all; the men merely went up there probably of their own accord. I instructed Officer Carty to be in attendance.

Ald. Batchelor.—I heard that there had been an unwarrantable interference with certain persons in the audience.

Ald. McPhaden.—Did you see any sign of disturbance?

The Chief.—Yes, sir; there was a man at the back of the hall who was creating a disturbance, or trying to. I stood alongside of him more than an hour. He was saying that this was not going to be all a one-sided meeting, and he would see about it.

Ald. Batchelor.—Well, it seems very strange to me that people should not be allowed to speak at public meeting of this kind.

The Chief.—Mr. Kennedy was the only person who stood up to speak, and I thought then and think now that he had a perfect right to speak.

His Worship.—I think the Police Committee ought to see to it in future that the police should be instructed not to attend public meetings in uniform. It looks very bad to see the whole force of the city on duty at such meetings. If they wish to go as citizens let them go in civilian clothing, and not rudely interfere in the meeting, or anything of that sort. That will do, Mr. Pearce.

COMMUNICATIONS.

From W. J. Armstrong, Returning Officer, requesting the use of part of Hyack Hall and Begbie street Fire Hall as polling booths for the Dominion and Provincial elections for June 19th inst. Application granted.

From Jas. Cunningham, pointing out the necessity of a drain from John street to Douglas street to carry off the impurities of that section of the city; and relating what he had done, in the way of improvements, saying he spent all he made in this line; and how he therefore deserved a drain. Referred to the Board of Works with power.

From D. Lyal, tendering his resignation as alderman, on the ground that his time is so much taken up with business that he is quite unable to attend the council. On motion, the resignation was accepted and a warrant ordered to be issued for the vacancy.

From Jas. Haynes, complaining of the lop-sided nature of the pound by-law, and saying that it only works in some parts of the city and not in others, and asking that the by-law be repaired at once. Referred to the police committee to report.

From Messrs. W. Turnbull & Co., asking permission to lay building material on Carnarvon street. Granted under the usual conditions.

From the city scavenger, advising the placing of a small box on some telegraph pole, on Columbia street for orders to be left for him.

Ald. Shiles thought the City Hall the proper place.

The scavenger was allowed the privilege of putting up the box he desired.

REPORTS.

The Board of Works reported, recommending the acceptance of of the following tenders for streets: John Patterson, Melbourne street and Dublin street, $4,000; Thos. Allen, three streets at Sapperton, $925. Report accepted.

Ald. McPhaden reported verbally for the Health Committee that in the case of the petition of Martin and others, he had been unable to find any such lot as that mentioned in the petition, and that the petition was evidently meant for the Vancouver Council. In reference to Mr. Jones' complaint, he found that gentleman certainly had good grounds for complaint. Mr. Jones had been promised by several people that a brick wall would be built to prevent the nuisance, and Ald. McPhaden recommended that the city scavenger be sent to clean out the vault. Carried and the report adopted.

UNFINISHED BUSINESS.

Ald. Shiles moved the first reading of the Street Watering By-law. By-law read a first and second time.

Council went into committee of the whole on the Corporate Leases By-law, Ald. McPhaden chairman.

Committee rose and reported progress, and asked leave to sit again.

Council adjourned at 9 o'clock.

PERSONAL.

Mr. James Orr is in the city looking up old acquaintances.

Mr. and Mrs. C. E. Woods, Miss Woods and Miss Jennie Dickinson are spending a week at the Hot Springs.

Mr. Peter Grant, who is now rusticating and renewing his lease of life at Harrison Hot Springs, is rapidly recovering health and strength, and hopes to return home about July first as well as ever. Mr. Grant has abandoned his idea of a trip to Southern California, having come to the conclusion that the waters and climate of Harrison Hot Springs are all that is necessary to his complete restoration of health.

PORT HANEY BRICKS.

[From Our Own Correspondent.]

PORT HANEY, May 26.—Messrs. Purdy & Hill have commenced to re-construct the old McLaren brick-yard, which they recently purchased from Mr. W. J. Harris of Port Hammond. The engine and machine will arrive in a few days from Eastern Canada, per C. P. R.

A Chinaman got too close to the brick-making machine in Mr. T. F. Sinclair's yard a few days ago; the result was a broken cog-wheel and a Chinaman minus a que and otherwise injured about the head.

A Chinese funeral took place here a few days ago. The mourners consisted of two Chinaman and five white men, one of them a member of our council. After the burial a bottle of "samsuey" was left on the grave, much to the disgust of the white men.

Mrs. J. Davidson, eldest daughter of Mr. D. Docksteader, arrived here on Saturday with her two children on a visit, after an absense of four years in San Francisco.

The health of the community is very good at present. A few of us seemed to be suffering with incipient dyspepsia the past few days, but since we have quit trying to digest the rot published in the *World*, of Vancouver, all the bad symptoms have disappeared.

Much surprise was manifested when THE COLUMBIAN reached here and the report of the Robson meeting in New Westminster was read. The truth of the matter is the people are very indignant at the suppression of free speech. It would seem we are not a civilized country, but just a back-woods settlement in New Westminster District. We trust that when the sun goes down on the 30th of June that Barnum's saying that "the people like to be humbuged," may not truthfully apply to New Westminster District.

TUESDAY EVENING, MAY 27, 1890.

THE GOVERNMENT AND THE "OCTOPUSES."

Criticising Mr. Beaven's railway policy, which the *Colonist* states to be that railways should be constructed, owned and operated by the Government, that paper ennunicates some sage sentiments which apply, we fear, with too much force, according to unmistakable indications, to the party in power in this Province at the present time. Says the *Colonist:* "We do not desire "to be at all offensive, or to hint that "Mr. Beaven is not a man of the very "strictest integrity, when we say that "no party leader can change human "nature, and that the party which "starts out as the party of purity, when "temptation is placed in its way, when "the opportunity of stealing from the "public crib is placed before its members, becomes *in time as corrupt as circumstances permit it to be.*" The italics are ours. The sentiment is the *Colonist's.* And it goes to show the danger of allowing any party, no matter how well it "starts out" (and we will admit that the present Government, which, essentially, has been in power for eight years, did "start out" well in many respects, *and has done well in many respects* for the past eight years), to hold the reins of power too long, and especially the danger of placing such a large majority, comparatively speaking, at the disposal of any Government, as the party in power in this Province has had during the last two Parliaments. And yet the Premier tells the electors on both Mainland and Island that they should give his Government a larger majority than ever. He would have the Opposition wiped out of evistence altogether. This strikes as a very pernicious and dangerous doctrine. If the Opposition has been weak and despised in the last two Parliaments, it is rather in the interest of the country, abstractly speaking even, that it should be strengthened, reinforced, given a better status, than utterly squelched, as the Premier seems to desire. But evidence is increasing which goes to show that the James Bay stables urgently require, in the public interest, if not a thorough cleaning out, at least a most rigorous and merciless inspection. It need not be imagined, as the organs will try to make it appear, that that these last remarks are directed straight at the Premier, and he alone—that he is the "octopus" we are hunting. The hireling journals have officiously, and unkindly to Mr. Robson, from the first, *pushed him forward* to receive all the blows, with an apparent disinterestedness that is as "checky" as it is "monstrous." They seem to feel that the "octopuses" must be shielded at any cost, and are very willing to sacrifice Mr. Robson on this horrid shrine. We have criticized the Premier, it is true, and shall continue to do so fairly, we hope, but our remarks have been sufficiently clear so that there has not been the slightest excuse for mistaking Mr. Robson for an "octopus." Rather is he, to a certain extent, one of the partially consenting victims of these unmistakable monsters. But to return to the subject, from a slight digression, we would say that, "octopuses" and all being taken into consideration, there are the best reasons, even outside of the redistribution question, why the Provincial Government as at present constituted should not be returned to power with the overwhelming and servile following which it has had in the last two Houses. As for the Lower Mainland constituencies, and, perhaps, Yale District, we hope to see them return a solid, staunch, Independent, Mainland Rights contingent to the next Parliament. We shall not be sorry if other constituencies return good Opposition men, as we believe the party in power needs a thorough shaking, if not rooting, up, to break the accursed rings—call them "octopuses," if you will—that are fastening upon the country through it. We repeat, with the high sanction of the *Colonist*, is it unsafe to allow any party, even a party that "starts out" as the "party of purity," to wallow *secure in power too long. It indubitably* "becomes *in time as corrupt as circum-* "*stances permit it to be.*" It is about time the people awoke, and sent honest, independent, and wide-awake men down to James Bay to look into the books and at least give the Augean stables a rigid inspection. It is a good policy, on general principles, to stir up the incumbents of office and their hangers-on at least once in a decade. There are too many special reasons why such a stirring up is badly needed, in the country's interests at the present juncture. It is just in such places and under such favorable circumstances as the serene repose of a party secure in power, by an unreasonably large majority, from one Parliament to another, that the "octopuses" scoop their nests and lay their eggs. Their eggs have been already laid. Let the free and independent electors see to that they do not have an opportunity undisturbed to hatch their ugly brood.

WE are glad to see that the *News* takes the same view that we have expressed with regard to Hon. Mr. Robson's candidature for this District. In a late number the *News* says: "Probably in "his own interest Mr. Robson could not "take a more judicious step than to seek "for himself an Island constituency. The "people of the Mainland would, by such "an act, understand his recognition of "their views, and when the hour arrives "for the Premier to redeem his pledges, "he would be stronger both in voting "power and popular support than he "will be if he adheres to the plans he "is now pursuing."

NOTES AND COMMENTS.

THE London *Daily News* adds to its announcement that Stanley's marriage will take place in Westminster abbey the statement that if the explorer undertakes any further expeditions his wife will accompany him.

THE Fielding Government, (Liberal), says an exchange, has been returned by a large majority in Nova Scotia. The administration has been a most successful one, marked throughout by a desire to conserve the public good.

THE Quebec general elections take place in June. Nomination has been fixed for the 13th and polling for the 20th. Monsieur Mercier has been wily enough to entrench himself pretty thoroughly in the seat of power, if not in the affections of the people of Ontario; and his Government, also Liberal, or Rouge, bids fair to renew its youth at the polls.

THE Ontario general elections will be held on Thursday, June 5. The campaign will be necessarily a short one, says an exchange, the politicians having not much time in which to get their forces in order and do the fighting. The general consensus of opinion in the East appears to be that the Mowat administration (Liberal) will be hard to beat, and will in all probability get another lease of power.

BOTH the *World* and the *Truth* are now flourishing the following quotation, from the Premier's speech in this city, to prove that the Government is pledged to do away with the "balance of power" theory after the census: "Every mem- "ber of the Government had stated "exactly the opposite. They had stated "it most plainly to the delegation from "the Mainland, and in the Legislature, "and through the newspapers, time and "again, that the Government intended, "when the next census was taken, once "and for all, to disregard and put aside "the unjust theory of the balance of "power. Those who had sedulously "endeavored to mislead the people as "to the Government's intentions in this "matter, had done so wickedly, dis- "honestly and with no good end in "view." We repeat, as we have stated before, the above utterance of the Premier is contrary to the records. But why so diffusive? It would have been sufficient—and better, more honest looking, in fact, and a great deal easier to substantiate—if the Premier had mentioned just one particular occasion on which the Government, "and every member of the Government," had squarely pledged itself on this question. Since the organs are flaunting this utterance, and trying to make the most out of it, we would gently whisper to them: "Quote, brethren, quote." Surely if this pledge was given "to the Delegation and in the "Legislature, and through the news- "papers, time and again," it must appear in cold type somewhere. We must confess we have not seen it. Produce it, brethren; hunt it up and trot it out. In concise but expressive phraseology, "Put up or shut up."

HEADITOR COLUMBIAN.—Knowing has I doo your generhosity in allowin' Tom, Dick and Harry to have a chance to vent there spleen in your influenzial noosepaper, I tak the chance of your placing this leter before the publick, has I do well nos that this is a noosy period.

HELECTSHUN KANDID-ATES.

I hav bin hinformed in the near futur a man from yoor siroundings by the name of Cunning-ham hintended to kandid-ate-it for to wrepresent yoor city, and that he hearn that 'nother man was in a Brown steady about the same hidee, and he com to the konclushun to leave the man in a Brown steady and take the green and tender-footed yous of the Deestric under his politicol whing. Then, dime rumer says, Martial Sincere wants to kiss all the babyees of hour Deestric. No. 3 is Mr. Sardine, or Herein. No. 4 is called Hat-kin-Sin, and perhaps 5 or 6 others from N. W. City. But now, Mr. Headitor, we've got a rite smart man that we're goin to shunt out, his name is Hinder-Sin and we're goin to helect 'im to be one of the kneaded.

DOMEENION NOMINATIONS AND HELECTIONS.

2ndly—Mr. Car-bile, we heer, is No. 1, Mr. Tonnsyend No. 2, Mr. Larder No. 3. Some think in this hop-step-and jump that Mr. Car-bile will be ahead, as he is a sleight one, and thusly the write one for voters to pick on. And now, when the candidates, when they start out on this perlitical champaine, they will make it awful excitin' for the folks of the Rureel Deestric. Now, Mr. Headitor, we xpect to sort out 8 or 9 kandidates to wrepresent yoor Cety, os yoor neebors kind-a-seem to want to git oway from home, as "a profit his without honor in 'is hown, in his own Cety." So, Mr. Headitor, speek kindly to them, to the kandidates. Hereinto-before Vancouver has klamed to be the hub of kreation, but in the near futur Chilawhac will klame the cognomen.

THE DAILY COLUMBIAN

TUESDAY EVENING, MAY 27, 1890.

CORRESPONDENCE.

RELIEVING THE STRAIN.

EDITOR COLUMBIAN—*Sir:*—Allow me to draw the attention of the people of the Royal City, to a far more important matter than even the present political squabbles, viz., the urgent and pressing demand for a good road and a safe and convenient crossing over the river from the business part of this City to the now populous district southward. I noticed this morning that the stage to Blaine was "chuck full" of passengers; and at the City Hotel a number had to remain over from the want of passenger room. One intelligent Canadian who lives on this side of the boundary line told me that the settlers over there are wondering why the people of Westminster don't make an effort to return men to Parliament who will look after the interests of the City and District. He very sensibly pointed the feasibility of establishing a good ferry and opening good roads radiating south, east, and west, to various points in the District whence travel could directly reach Westminster, its natural trading point and remarked a direct even narrow-guage, railway from Westminster towards Blaine would be the best paying and most patronized road in B. C. It is a great pity that people should be so much absorbed in selfish squabbles, instead of directing their energies to the real necessities of the situation.

OBSERVER.

NORTH ARM NOTES.

(From Our Own Correspondent.)

NORTH ARM, May 26.—The approaching elections are taking the attention of the people here as well as elsewhere. Mr. Sinclair has made a personal canvas through the settlement. So, also, has Mr. Kirkland. No police meetings have yet been held.

There have been some loud complaints against the Fairy Queen. When that steamer was granted a bonus by Westminster it was to secure a regular daily service to and from the city. Of late it has been practically reduced to four days in a week. Parties from the South Arm coming over on Mondays are much chagrined to find no steamer.

The marriage of Mr. Alex. Lahore and Mrs. Magee was celebrated at Vancouver on Tuesday of last week. We tender our congratulations, and gladly welcome Mrs. Lahore back to North Arm society.

Quite a number of North Arm people spent Sunday in Vancouver, to enjoy the extra advantages of that day in the city.

Mr. Turner on behalf of the Government came down last week to make a personal inspection and then estimate the cost of making the road thoroughly good from the end of the bridge on Lulu Island, thence across to the South Arm, so that it can be travelled at all seasons. We hope this will not be lost sight of after the elections are past.

We are pleased that the celebration of 24th May and 1st July as national holidays is strongly encouraged by the newspapers of our Province, and yet we venture to say that these potent educators of public opinion should throw out some practical hints as to how these days might be spent so they would in reality foster a spirit of loyalty and true patriotism. As it is, these public days seem only for saloon men and betting characters.

SCAVENGER'S WORK.

ALL PERSONS ARE REQUIRED TO TAKE notice that the following is a copy of Sec. 27 of the "Sanitary By-Law, 1890":
"Sec. 27.—No person not being a licensed scavenger under this by-law, or the employee of such scavenger, shall engage in removing any garbage, offal, swill, ashes, or night soil: Provided, however, that nothing in this by-law shall prevent any person from removing any such garbage, offal, swill, ashes, or night soil from any premises owned or occupied by himself, or allowing such removal by any person using the same for manure, or as food for pigs, poultry, or other live stock, but no payment shall be made, or consideration given or received, for or on account of such removal, other than the thing removed, and every such removal must be made in accordance with the provisions of this by-law."
The penalty for a breach of the provisions of this by-law is a fine of $50, or imprisonment for a period of two months.
D. ROBSON,
City Clerk.

TO THE ELECTORS OF
New Westminster City.

GENTLEMEN:—In response to a requisition, numerously signed, which has been presented to me, I beg to offer myself as representative of this City in the Provincial Legislature.

I frankly confess that, aside from the great question of the just distribution of legislative power, I would scarcely care to be a candidate. If you do me the honor to elect me I shall make that question my first consideration at all times, and in order to do this it is essential that I keep quite free from any entangling alliances with either Government or Opposition, but to the people and the advocacy of the rights of the people, in this matter and in all others, I can fully and freely pledge myself; and with those, be they on what side of the House they may, who are animated by a similar spirit, I will work cordially.

The present crisis demands special treatment. We of the Lower Mainland are denied our just share of legislative power, and so long as that is the case our true policy, in my opinion—nay, the policy which our own self-respect compels us to adopt—is to return no man to the Legislature who will not make the righting of that wrong his first business. It may safely be assumed that those who shall be found willing to do right in this matter, will be the most likely to do right in others also.

Notwithstanding the utmost devotion to this first question, your representative will have to deal with many other matters, and perhaps it will be sufficient now to say on this point that I believe there is room for a good deal of work before the administration of public affairs can claim to be what it should be—government by the people *for* the people. I should earnestly endeavor to do my share of that work.

I believe I may safely assume that you need no assurance of my deep and abiding interest in everything that makes for the prosperity of New Westminster City.

I am, Gentlemen,
Very truly yours,
dmy16tc J. C. BROWN.

ELECTION CARD.

To the Electors of New Westminster District:

GENTLEMEN:—At the earnest request of a large number of the Electors of the DISTRICT OF NEW WESTMINSTER, I have consented to become a candidate for representative of the DISTRICT in the Provincial Parliament.
I shall take an early opportunity of addressing you all at the various polling places, of which you will receive notice. My political banner is unfurled and on it you see emblazoned in letters of gold, REPRESENTATION BY POPULATION, OR SEPARATION.
Up fellow Electors, and rally around this standard! Let us shake off the political shackles that have bound down the Mainland for years and retarded its progress. Let us arise in full strength and independence and secure our just rights at the polls.
I now ask you, gentlemen, one and all for your votes, confidence and support at the forthcoming election.
I remain
Yours faithfully,

By Private Sale.---Bargains.

I HAVE RECEIVED INSTRUCTIONS FROM Mrs. A. M. JOHNSTONE, of Mud Bay, to dispose of her Homestead, which consists of 272 acres of Land, good Dwelling House, excellent Barn and Stabling for 40 head of stock, good Dairy and an abundance of Spring Water.
The property is situated on the sunny side of Mud Bay, the land is second to none anywhere, and parties wanting an investment for their capital cannot do better than take a look at this before investing elsewhere.
Stock and implements can go with Ranch if desired.
TERMS.—One-third cash; balance to suit purchaser, at 8 per cent. per annum.
ALSO FOR SALE—THE FOLLOWING:
The West Fractional Half of Section 29, Mud Bay, bounded by the Nicomekl River and the Sea.—108 acres.
184 acres, adjoining Sections 16 and 25, Township 4, very near N. W. City.
The North-West corner of Section 68, adjoining the Hastings Townsite—54 acres.
The North-West ¼ of Section XI., Township 2, 160 acres, all first-class land, 10 acres improved and sown to timothy pasture. Log house. Good creek runs along line of property, also the Johnstone Road. This is an excellent ranch.
Lot 261, Group I., Pitt Meadows; 80 acres prairie; 70 acres high brush land. Half of the prairie can be ploughed, and is all hard land. 2 miles from Railway Station.
Stave River Stock and Dairy Ranch. This Ranch consists of 387 acres of land, being Sections 433 and 437, Townships 14 and 15.
This property is situated on the Stave River with a frontage on the Fraser River, at which point the C. P. R. Road passes through property. There is one large 2-storey Frame Dwelling House, hard finished, nearly new, worth $1,600. This is elegantly situated on rising ground and commands a view of the C. P. R., the Fraser River and the surrounding neighborhood. The greater part of the land is Prairie, subject to overflow, a good deal of the high land has been improved and fenced, and there are a large number of young Fruit Trees and the usual Out Buildings in the way of Barns, &c. There is excellent Trout Fishing and Hunting on premises and any party or Company seeking a Stock Farm or Dairy Ranch could not be better situated. Coal croppings of unusual promise have been discovered on the Property. This is to be secured at a bargain, and further particulars can be had of the undersigned or of Mr. Clement Stickney at Wharnock Station, who will show any intending purchaser over the same.
For further particulars apply to
T. J. TRAPP,
New West.
☞ Several other Farms at Langley and other parts of the District at private bargain.

By an advertisement elsewhere it will be seen that St. Leonard's Hall will be publicly opened with a concert on Tuesday next, June 3rd. At a meeting of a Choral Union last night it was unanimously agreed by the members to offer their services to Bishop Sillitoe for the opening of this fine new music and lecture hall, and a concert was appointed to be held accordingly.

Truth has studiously avoided all reference to the police imbroglio arising out of Hon. John Robson's meeting last Wednesday evening. But this morning that journal, with characteristic violation of every upright principle and feeling of probity, lays before its readers a piece of the grossest, most deliberate and shameless mis-statement that ever disgraced a public paper. There is not a word of truth in the account of Chief Pearce's examination last night before the Council, as given in the paper called "*Truth*." The evidence has been maliciously perverted, and statements that are the most consummate lies, interpolated.

They Are Uneasy.

The Government organs are trying hard to make fun of the Mainland Association. They declare that there is nothing in its pledge—"any candidate," says the *Colonist*, "can take this pledge with an easy conscience." But the *Colonist* insists on keeping up the "balance of power"—insists upon the election of pledged Government candidates —and sees nothing wrong in the administration of the Lands and Works Department! The ghost of Janus must turn green with envy, if it has a chance to read the organs.

Meeting of Englishmen.

The attention of the English residents of Westminster is called to an advertisement in another column notifying them of a meeting on Friday, the 30th, in the Forresters Hall, to organize a lodge of the order of Sons of St. George. This order is composed of Englishmen, their sons, or grandsons, wherever born, and is beneficial and social in character. Its constitution is similar to most other fraternal organizations, paying benefits in case of sickness; a death benefit on the decease of a member or his wife, with the additional advantage of every member being entitled to the services of a first class physician and medicine, free of charge. It is the strongest order in existence, composed of one nationality, and organized for purposes which are alike creditable to itself and beneficial to its members and the community in which it is fostered. It has a membership in the United States and Canada of 25,000, and over 3,000 of this number are located on this coast in California, Oregon, Washington, Montana, Nevada and British Columbia. Lodges have instituted within the last two weeks at Victoria, Nanaimo, Vancouver and Wellington. It is expected to organize a strong lodge here.—Com.

Children Cry for Pitcher's Castoria.

A Wonderful Case.

A few days ago Dr. Cooper was called to attend upon Miss Kelly, a young lady of this city, who was supposed to have broken her thigh bone by a sudden movement of the leg. Since childhood Miss Kelly has suffered from this leg, and for years has complained of a severe pain at the knee, but for which no reason could be assigned nor any remedy found. Not knowing the circumstances of the case, and supposing the bone had been broken, Dr. Cooper called on Dr. Hall to assist him in setting it. Together they went to Miss Kelly's home and made a thorough examination, which resulted in their discovering that the thigh was sound. Strange to say, the limb had the appearance of being broken, and a medium sized abscess had formed in the flesh. The doctors then tried to ascertain the history of the injury, but could learn nothing more than that Miss Kelly had had a fall from a rock some five years ago, and had bruised her hip. Then, taking this fact to guide them, together with the pains and symptoms, the medical gentlemen came to the conclusion that there was a disease of the hip bone, and that a splinter was causing the abscess and the excurciating pains. The abscess was poulticed for a few days to withdraw the inflammation, and yesterday Dr. Cooper and Dr. Hall prepared to remove the supposed splinter. In making the exploratory incision down to the bone they came across a hard substance, which proved to be a large sized darning needle incysted in the flesh surrounding the bone, the point of which had penetrated one and a quarter inches into the bone. After much trouble the needle was safely withdrawn, the decayed portions of the bone scraped and the wound dressed. The case is one of the most wonderful that has ever come before the medical profession in this Province. It is supposed the needle penetrated Miss Kelly's foot when a child, and gradually worked up to the position in which it was found, and there is little doubt but the operation saved the young lady's life. Dr. Cooper feels confident Miss Kelly will be about again in a few days, completely restored to health and strength.

Blasting Extraordinary.

It is more a matter of good luck than good management that the city coroner has not a dozen or so blackened corpses to deal with every morning after breakfast. The outrageous manner in which Mr. Fraser, the contractor on the North Arm road, is carrying on his blasting operations, is beyond description. No one would believe how bad the thing really is unless he saw the spot. The condition of the locality named, the North Arm road within the city, presents a very singular appearance. Before the door of each cottage, and in many cases not more than ten feet from the walls of these frail structures, enormous pits can be noted; and lying on the edge of these excavations are stumps of vast magnitude. It is hard to believe that these ponderous masses were actually blown out of the solid earth by means of the most tremendous explosives known to man. The proximity of the dwellings seems to render such an assertion absurd. But it is true; with a recklessness worthy of a madman, large quantities of these high explosives—four dinner pails of blasting powder, several sticks of dynamite and a quantity of Judson's giant powder is the usual dose —are placed under the stump, a fuse set and lighted and then the unfortunate inhabitants and their fragile houses have to trust to Providence not to be blown into the middle of next week. It is no fault of the contractors that they are not. Incredible and unwarranted as the statement may seem, no deaths or serious injuries have been reported through this excellent means of acquiring these undesirable things. One death, however, will put a stop to the proceedings, cost the city a pretty penny and forever put a stop to blasting inside the city limits. A death is momentarily expected, as the person who goes up in that direction literally takes his life in his hands. All the roofs and verandahs around that section carry a thick sprinkling of earth, stones and gravel, while the men working on Moody Square are also at the imminent peril of their lives. Showers of stones double the size of a man's fist drop around them all day, after the blasts, and that not one of the men has been killed is truly marvellous. The inhabitants of that part of the city have besought and prayed a cessation of these murderous hostilities in vain; it appears that until someone has his skull smashed in or brains blown out the bombardment will go on unceasingly. The cheapest plan would be for the authorities to assert their power by a timely interference.

Strange Poisoning Case.

This morning at an early hour Dr. J. M. McLean was summoned to attend a man named William Morrison, who was described as suffering from fits. The man lay in a room over Lund's cooper shop. He had been dead five or ten minutes when the doctor arrived. The doctor ordered everything to be left as it was, and, locking the door, gave the key to Officer Smith.

The body during the forenoon was subjected to a post-mortem examination, and every symptom of poisoning was found. Dr. Walker in evidence stated that he found a brownish-colored liquid oozing from the mouth, and when the internal organs were examined he found the stomach distended with gas and a liquid exactly similar to that found at the mouth and in the gullet. The right side of the heart was distended with liquid blood, and the left side was empty. Dr. Walker said that a bottle containing this same fluid was found in the room where death occurred, and he was of the opinion that this liquid was the immediate cause of death. It was apparently mainly composed of tobacco, and seemed to be a decoction of leaves, probably tobacco-leaves. Very strong tobacco would produce the symptoms found on the body of deceased, but it would be impossible to say positively what the ingredients were without analysis.

At the inquest this afternoon a friend of the deceased named Cook, testified that deceased had betrayed strong signs of uneasiness for several days before his death, and confessed to witness that he had once belonged to a certain order and had a falling out with some of those in the lodge, and said something he should not have said, one word only. He uttered the word involuntarily and some one who was near went and told the circumstance. From the trouble which arose over this matter he was perpetually haunted by the fear that he would be made away with, and last night he was especially timorous and said something about certain people coming to burn down the house. He seemed much oppressed with the idea that someone was dogging him intending to do him harm. Deceased handed witness a letter yesterday morning as witness was going out, telling him to take the letter and put it in his trunk so that if anything happened to him witness was to give the letter to the sheriff, which witness did. Deceased also gave witness some money wrapped up in a parcel, saying, "take this, and if anything happens to me you'll see me through." During the night witness was awakened by a terrible groan, and on rising up quickly he saw deceased writhing in great pain, and he seemed to be in convulsions. The doctor was then sent for, but when he arrived Morrison was dead.

Witness suspected that something was about to happen and that deceased was scarcely in his right mind. Witness had known deceased since last fall and lived with him two months. The fact of having given out some of the secrets of the secret society to which he alleged he belonged, seemed to weigh heavily on his mind. He seemed in constant dread of some condign punishment or vengeance from this society, the Free Masons, and on meeting some men about a month before his death, while out walking, he had exhibited every sign of mortal fear. The packet entrusted to witness contained $252.00 in bills and silver, two rings, a loaded revolver and a watch.

The jury returned a verdict to the effect that deceased had come to his death by poisioning during a fit of temporary insanity.

POLITICAL NOTES.

In the Spallumcheen District it is stated that Mr. Donald Graham has given up his intention of being a candidate, but that Mr. Rabbit, of the firm of Wood & Rabbitt, will contest the seat with Mr. Vernon as an Opposition candidate.

Mr. A. E. Raab returned from Revelstoke on Wednesday evening. He reports political matters lively in that burg, with candidates as thick as—well, the woods are full of 'em. He predicts a defeat for the Government candidate in both Kootenays, but of that more anon.—*Sentinel.*

C. A. Semlin, M.P.P., is doing missionary work in West Kootenay, says the *Sentinel*, in support of the Opposition candidates who have taken the field. From the report to hand there will be no dearth of candidates in West Kootenay and the feeling runs high both for and against the Government.

Rumors are rife as to the probable candidates for Yale District in the approaching contest. A meeting held at Nicola this week, at which, by the way, there were present eight electors in opposition to the Government, and seven Government supporters, invited Mr. A. Irwin to take the field as an Opposition candidate, with the understanding that if the Opposition organizer, Mr. Semlin, considers Mr. J. D. Lauder a stronger candidate Mr. Irwin is to retire in his favor. In Nicola District it is said the electors will divide Government vs. Opposition, and the straight ticket will be voted by each party.—*Sentinel.*

Victoria City, it is a foregone conclusion, will return at least two Opposition candidates, Messrs. Beaven and Grant, with even chances for a third, who would probably be Dr. Milne. The other Opposition candidate, it will be remembered, is Mr, F. G. Richards, and the four Government standard bearers are Hon. Mr. Turner, Capt. John Irving, and Messrs. Simeon Duck and Wm. Dalby. Mr. Charles Wilson, a young and likely legal light, was rejected by the Government convention by a narrow minority of votes, but is running "on his own hook," thus having a tendency to split the Government vote in Victoria.

In Yale District Mr. C. A. Semlin, the veteran Oppositionist, is sure to be re-elected, and is very likely to carry two colleagues with him, giving an Opposition gain of two in that District. Lillooet, with its two members, is certain to return two Oppositionists, at least, this time, and Cariboo, with its representation of three, will almost certainly return at least one to swell the ranks of the Opposition, with a good prospect for more.

So certain is it that two Opposition, or rather Mainland Rights, candidates will be elected in Vancouver City, that it has been found impossible to get any one to take the field so far in the "straight" Government interest.

Westminster City will return Mayor Brown, a staunch and tried and able Mainland Rights man, by an overwhelming majority, should anyone, indeed, have the temerity to oppose him on the "straight" Government ticket.

The District of New Westminster will certainly return two, and in all probability three, independent Mainland Rights candidates. At the convention to-morrow at Langley a complete ticket will be selected, and a united and vigorous effort made by all patriotic electors throughout the District to return the unbroken ticket.

Ascent of Mount Benson.

A party of five men consisting of Messrs. J. Brown, jr., J. E. R. Tagart, Thomas Wall, Gladstone Foster and W. Hirkham, were successful in reaching the summit of the big mountain on Sunday. Leaving the city shortly before six o'clock and proceeding by way of David Westwood's ranch, the flagstaff on the top of the mountain was attained at 11 o'clock. Here a long halt for rest and refreshments was made and it was late in the afternoon before the descent was commenced. When about two-thirds up the mountain side the first sign of snow upon the ground was encountered, which quickly became deeper and deeper, the depth in places near the top amounting to 8 and 10 feet. This, instead of being a hindrance was of the greatest service, as the surface was hard and easily bore the travellers. The heavy-weight of the party, however, occasionally came to grief by falling through, and his efforts and struggles to free himself were among the amusing incidents of the day. No large game was encountered, but the mountain japs were met with in large quantities and were much admired. — *Nanaimo Free Press.*

COLUMBIAN SUPPLEMENT.

VOLUME VIII. NEW WESTMINSTER, B. C., MAY 27, 1890. NUMBER 97.

TO THE ELECTORS
—OF—
New Westminster District.

GENTLEMEN:—In view of the near approach of the election to fill the vacancy caused by the death of our late representative (the much-respected D. Chisholm) and as I have stated in my card to you that I am a candidate for that honor, I will now lay before you some of my views on the leading questions which I consider will arise in the near future for consideration.

I have been asked what I mean when I announce myself as a Liberal-Conservative; I reply, "That by nature and education I am a Conservative, but a residence of over 30 years in this Province and much intercourse with our American cousins has had the effect of changing many of my views, and given me liberal ideas, therefore I claim I am a Liberal-Conservative." Owing to the fact that party lines are not defined in British Columbia as they are in the older provinces, I consider that our representatives are not in duty bound to give a *through-thick-and-thin* support to any party, but they should go to Ottawa prepared to give a generous support to all good measures which may be brought before them, and to consider the prosperity of the Dominion as a whole, but our own Province in particular, and should a measure come before them which they consider in any way detrimental to the interests of this Province they should take their stand like true men and vote against it.

I am opposed to a certain extent, to the Tariff, or National Policy as applied to British Columbia. We are a long way from the centres of manufacture in the East, and many articles of every-day use to our Farmers and others, and which we cannot produce at home can be obtained more readily and at shorter notice from our near neighbors over the line, and in many cases the articles are better adapted to our needs than those brought from the Eastern Provinces; in fact, much of our Farming and Mining Machinery, Wooden Ware and other articles are brought from the States, although the duties are so heavy. Again regarding our food supply; we do not raise enough to supply our wants, and are obliged to cross the border for it, and are met with such heavy duties that heads of families in this Province pay more than ten to one compared to their compeers in Eastern Provinces. We have had example to the point during the last three months. If we had not received a good supply from California there would have been a meat famine; as it is we are now and have been paying 25 cents per pound for mutton, which is more than ordinary mortals like to pay, and the same state of affairs is likely to obtain again after any long and severe winter, for in spite of "Protection" for the last eleven years our stock raisers are little better prepared to meet hard winters than they were before, and to my mind the only ones who have reaped the benefit of the N. P. are the manufacturers. As a true Britisher I should like to see "Free Trade," but as that seems out of the question, I would advocate "Reciprocity" in many articles which are at present in the Tariff lists, as I think it would be beneficial to both countries, and the working man would not have to go down so deep into his pockets to buy what he needs to eat and wear. I am aware the Government must have a revenue to carry on the affairs of the country, but I would have "luxuries" pay more and get at the pockets of the richer classes who can better afford to pay taxes.

Owing to the long continued sickness of the late Mr. Chisholm, he was unable to be in his place this session, and very little during the previous one, so we of this District have been practically unrepresented, and our local wants have not been brought before the notice of the House. Had he (Mr. Chisholm) been in his seat, I do not think the Postmaster-General would have been left so much in the dark concerning the necessity of regular mail facilities on the Lower Fraser as he seems to have been when he proposed to cut off the mail subsidy from that important route, and there are other places in the District which need better postal facilities, which I consider should receive that gentleman's earliest attention.

I hope that in the near future our District will reach that point that we may look for it to be divided and receive another representative. At present I think it is the largest constituency in the Dominion, extending over 1500 miles of territory, and when the census returns are in I think the necessary number of population will be found to demand such additional representation.

The protection of the river banks at Chilliwack, Sumas, Burton's Prairie and other places should receive my earnest attention, also the works for improving the channel at the Sandheads, in view of the expected increase in our shipping interests.

I consider the Province should have control over all railway charters and privileges within our borders.

Our Fishing interests, being of such great importance to this District in particular, I feel should receive more than ordinary attention.

I would urge the cutting of a canal through the Delta lands from the mouth of the Serpentine to Fraser River, also to enquire into the question of cutting one from the Fraser River to Port Moody, which has often been suggested to me.

Immigration, I consider, should be fostered, and encouraged judiciously. Just at present it is coming here fast enough; I would not like to see a large influx pour in at once, as many would be disappointed and go away disgusted and probably give our glorious Province a bad name.

There are many other matters I should like to touch upon, but it would make this address too long. I hope to see as many as possible before the election, when I shall be prepared to lay my views more fully before them and answer any questions. As soon as possible after the arrival of the writ I will arrange for a personal canvass and will send due notice of time and place of meetings.

During my long residence in the Province I have travelled through much of it, from Victoria to Cariboo, and have noted its growth and requirements, therefore, I feel fully competent to bring such matters before the notice of the House in a practical, business-like manner.

Should I have the honor to be elected I assure you I shall watch over the interests of this District faithfully and to the best of my ability, not forgetting that I also go as a true British Columbian and to do my duty as such.

Yours faithfully,
WM. B. TOWNSEND.

Parliamentary Election, 1890

To the Electors of New Westminster District:

GENTLEMEN:—Having been requested by a large number of electors of this District to offer myself as a candidate to represent you in the House of Commons, to which request I have much pleasure in complying, I beg to state that should you do me the honor to elect me as your representative while giving the present government my free and independent support, I would do my utmost to favor the following amongst the many measures that I consider would be beneficial to the interests of this Province and the Dominion at large.

To urge the further improvements of the navigation of the Fraser and other rivers, the protection of their banks, the improvement of any harbors in this District, and the construction of canals where necessary for the purpose of allowing farmers and others every facility to reach market.

To encourage agriculture by protecting all such articles as can be produced in this Province, and to lower duties on all that cannot, and which are absolutely the necessaries of life, and increase the tariff on luxuries so that the consumer would be even taxed less than at present.

To increase the representation in proportion to the wealth and importance of this District.

To increase and have adequate mail service to all sections of the Province and free letter delivery in cities.

No diminution in the Chinese Restriction Act.

To have the Fishing Regulations amended to meet the requirements of this Province.

To have a Dry-Dock constructed at some suitable point on the Mainland to meet the growing demands of this District.

To urge the exchange of Lands in Peace River for the Lands in the Railway Belt;

And that Mining Machinery be admitted free of duty until such is manufactured in the Dominion.

To appoint efficient Immigration agents in all important localities.

To urge the Dominion Government to contribute to make Roads and Bridges through Dominion lands.

To urge immediate aid in any measure to prevent the overflowing of Dominion lands in this Province and to reclaim those subject to inundation.

Having been a resident of this District for over twenty years and knowing its requirements, I should be in a position to advocate your interests, and also my having had the honor to be your representative for the last four years in the Provincial Legislature would place me in a position of knowing something of Legislative routine.

I hope to visit each polling station during the canvass and more fully explain my views on the various topics of the day, which would be impossible to do in a short address.

I have the honor to be,
Gentlemen,
Your obedient servant,
dwmy13te WM. H. LADNER.

TO THE ELECTORS
—OF—
New Westminster District.

GENTLEMEN:—As I have already announced, I beg to offer myself as a candidate for the seat in the Commons made vacant by the death of our late member, and I come before you as a supporter of the Government of Sir John Macdonald, reserving to myself, of course, the right to act independently should the action of the Government in any matter seem prejudical to our interests.

I would strongly urge immediate attention to the improvement of the River where required, for the protection of the rich agricultural lands of the District, and if elected, I shall at once proceed to Ottawa and leave no stone unturned to secure the immediate appointment of a competent engineer with a view to the prompt undertaking of this most important work.

As you are aware, the duty on certain kinds of mining machinery has been remitted in this Province as a special concession to British Columbia on account of the special conditions obtaining here. I would strongly urge the further application of this principle of special tariff arrangements, so as to relieve consumers of goods which must be imported while preserving the protection of our agricultural and other interests.

The land laws of the Dominion, having been framed without close consideration of our requirements, are in many points unsuitable, for example in the conditions as to clearing. I would endeavor to secure immediate reform in this important matter.

Subsidies having been granted to railways in the various Provinces of the Dominion, I should urgently present the claims to similar assistance of railways within our own Province.

Should the City of New Westminster decide to build a bridge across the Fraser, I should use my best endeavors to obtain a substantial subsidy for the work, urging that an undertaking of this character should rank with canals and railways as one entitled to national aid.

The next census will undoubtedly show such an increase in the wealth and population of this District as will constitute an undeniable claim to increased representation in the Commons. That claim, if elected, I shall support to the utmost of my ability.

Although, with the growth of the District, the mail service has been improved and extended, it still lags far behind our requirements. I should give special attention to this part of our representative's work, feeling that it is one which is of vital importance.

I should urge the enactment of such fishery regulations, especially in the issuing of licences, as would, without any injustice to the canner, the importance of which to the prosperity of the District all must recognize, fully protect the free fishermen, and encourage the settlement amongst us of the greatest possible number of that industrious and hardy class of men.

All enactments and regulations for the protection of white labor would receive my hearty support.

Continued work towards the improvement of the harbors of New Westminster and Vancouver, and the efficient lighting and buoying of the seas, is a matter which would have my closest attention at all times.

In a word, I should constantly urge upon the Government the wisdom of a liberal policy in public works in this District, the vast resources of which make it certain that such a policy would be amply justified by results.

Trusting to have the opportunity of seeing every elector before polling day,

I am, Gentlemen,
Very sincerely yours,
dwmy14te GORDON E. CORBOULD.
