Daily British Columbian

Monday Evening, Oct. 15, 1888.

NOTES AND COMMENTS.

The Chicago *Tribune* has been undertaking an enquiry on its own account as to the fate of divorced women, and states that 75 per cent, of these persons marry within a year. The inference is that remarrying is the principal object for which divorces are generally sought, and is an evil resulting from the too easy divorce laws.

Mr. C. Smyth, late Astronomer-Royal for Scotland, informs the London *Times* that a respite from the prevalent wet weather in Britain may be expected inasmuch as a total change recently took place "in the physical constitution of the upper regions of the atmosphere," pressaging a period of comparative dryness. This will be good news to the English people who have been holding up umbrellas for months. It suggests an enquiry whether the weather men on this side of the Atlantic have the same intimate knowledge of the "upper regions."

Premier Mercier has got down off of his high horse and is behaving quietly and sensibly in the matter of his vetoed act. An exchange says: Premier Mercier, of Quebec, has taken the proper course in issuing the proclamation giving effect to the veto of the Magistrates' District Court Act. A refusal to do so would have been a revolutionary proceeding. He has also issued another proclamation constituting the new Magistrates' Court under the law of 1869. This court will have jurisdiction up to $50. The law of 1869 was not vetoed, and the time has long since passed when it could be. The salaries of the new magistrates under the Act are only $1,200 each a year, but it is hinted that a measure will be passed next session to increase them. Up to the limit of the powers, the new Magistrates' Court will have concurrent jurisdiction with the Circuit Court; but it is thought that the option of resort to it will not be extensively used.

The *Monetary Times* says: Some time ago Mr. Blaine, in an oblique defence of American trusts, ventured the statement that England was honey-combed with similar trade devices. On the part of England, the *Times* made an emphatic denial, which was no doubt true. Now we are told that Andrew Carnegie, of Pennsylvania, has brought the European makers of iron rails into a combination with American. Mr. Carnegie ostentatiously displays, in Europe, the wealth which, by the aid of a war tariff, he has been able to wring from American consumers, and it may easily be conceived that he has inspired his European competitors with envy. The bargain is alleged to have been struck at a meeting held in Glasgow. Mr. Carnegie appears to have vouchsafed the information that an advance in prices would benefit American rail manufacturers, which means himself in a supreme degree, but he forgot to say that people who consume anything carried on abnormally high priced rails will have to pay an unnecessary price. It will be interesting to scan the details of this agreement, and to see if an attempt will be made to extend the trust to other British manufacturers. England owes her hold over the markets of the world to the cheapness and quality of her manufactures. If ever, in an evil hour, her manufacturers consent to exchange natural cheapness for artificial dearness, the knell of her industrial supremacy will be sounded.

A GREAT ELEVATOR.—Quite a marvel of hydraulic engineering is the recently completed canal-boat elevator at Les Fontinettes, France. The aparatus consists essentially of two plate iron sections, called lock-chambers, each poised on a piston working in the cylinder of a hydraulic press. When these lock-chambers are of equal weight, they assume an equal level on the opening of a valve to connect the water-columns of the two cylinders; but on making the weights sufficiently unequal, one chamber is brought to the level of the upper canal and the other to that of the lower. Boats of 300 tons are thus enabled to pass from one canal to the other—a change of level of 53 feet—in three minutes, whereas two hours was formerly required to pass the locks. The chambers are 130 feet long, 19 wide, and 7 deep, and each weighs 800 tons when full of water. The hydraulic presses, the largest in existence, are 55 feet in height and 6½ in diameter, and the internal pressure that they have to resist is 27 atmospheres.

LAST NIGHT'S DESPATCHES.

THE RECENT PLOT.

LONDON, Oct. 13.—It has transpired that the recent plot to assassinate the Emperor of Germany, while journeying from Munich to Vienna, was engineered by Herr Peukert, the president of the Fonteny Club, of London. He himself remained in London, however, as it was not safe for him to go abroad. Penkert was closely watched by an agent of Prince Bismarck in 1887, and strong efforts were made by them to fix upon him the primary responsibility for the Trafalgar square riots with a view of predisposing Lord Salisbury to consent to his extradition should occasion arise for his removal to Germany. It is now thought likely that a request, if not a demand, will be made for him by the German chancellor to the end of making an example of him which will terrify his associates in Switzerland and Germany.

PETTY WARS.

LONDON, Oct. 13. — Considerable anxiety prevails at the British foreign office over the news from India, Afghanistan and South Africa. The situation is summed up in two little wars in India at a point so distant from each other as Sikkim in the Black mountains, while Afghanistan is in a ferment of rebellion which threatens the supremacy of England's friend and protege, the present Ameer Abdurah Rahman. Last but not least, a disastrous event to England is the reported killing by the Usutus of King Usibequ another friend and protege of England, in Zanzibar, whereby the capture, imprisonment and death of England's great prisoner, King Cetewayo, is avenged.

TO-DAY'S DESPATCHES.

RAILWAY NEWS.

CHICAGO, Oct. 15.—Henry Villard and President Colby of the Wisconsin Central road have arrived here. Villard has just returned from a trip over the Northern Pacific, and he has also gone over the line of the Wisconsin Central with President Colby. The trip has given rise to the story that arrangements are on foot for a close alliance of the two corporations. President Colby has repeatedly denied that the Wisconsin Central is to be leased to the Northern Pacific, but it is well known that a large portion of the securities of both roads are held by the same people.

A DRUNKEN ROW ENDS FATALLY.

LOS ANGELES, Cala., Oct. 15.—During a drunken quarrel yesterday among three Mexicans, David Levia, about thirty years of age, shot and killed Pedro Lopes, an old man. Levia surrendered himself.

A SENSIBLE LETTER.

COLUMBUS, O., Oct. 15.—Judge Thurman in his letter of acceptance, says: "President Cleveland's administration has been marked by such integrity, good sense, manly courage and exalted patriotism that a just appreciation of these qualities seems to call for his re-election. I am also strongly impressed with the belief that his re-election would powerfully tend to strengthen that feeling of fraternity among the American people that is so essential to their welfare, peace and happiness, and to the perpetuity of the union and our free institutions. I approve the platform of the St. Louis convention and I cannot too strongly express my dissent from the heretical teachings of the monopolists that the welfare of people can be promoted by a system of exorbitant taxation far in excess of the wants of the government. The idea that a people can be enriched by heavy and unnecessary taxation; that a man's condition can be improved by taxing him on all that he wears, on all that his wife and children wear, on all of his tools and implements of industry, is an obvious absurdity."

MURDERED BY AN UNKNOWN.

NEW YORK, Oct. 15 — Antonia Giacona, an Italian, was fatally stabbed last night in front of the Cooper Union while a meeting was in full blast in the big hall and many people were walking along the crowded street. The unknown murderer escaped.

ROAST GERMAN.

ZANZIBAR, Oct. 15.—Three sailors who deserted from the the German gunboat Moewe, taking with them a quantity of ammunition, and roamed about the country killing natives, have themselves been killed and eaten by natives.

A DYNAMITING LUNATIC.

NAPA, Cala., Oct. 15. — A man named Webb, the patient who escaped from the insane asylum two years ago, was captured yesterday. He made four attempts during the past week to destroy the asylum with giant powder cartridges.

SILENT CONTEMPT, SAYS BERGMANN.

LONDON, Oct. 15.—The *Daily Telegraph* prints an interview with Dr. Bergmann in which he states that he will take no notice of the charges Dr. McKenzie makes in his book against himself and other German surgeons who attended the Emperor Frederick.

CONSPIRACY AGAINST THE DUTCH.

LONDON, Oct. 15.— Advices from Java say a conspiracy against the Dutch residents was discovered at Madison. Forty-two ringleaders were arrested, and eleven others who refused to surrender were shot.

THE GREAT STRIKE OVER.

CHICAGO, Oct. 15.—The great street car strike has ended. The strikers have secured an advance in wages, but the scale is materially lower than what had been insisted upon by them up to the very last. They got only about one-third of the increase asked for. On the other hand all reforms demanded by the men in the system of working are conceded and all strikers are to be re-employed. The men employed by the company since the strike began will also be retained. The minor questions at issue will be settled by arbitration. One of the old employees assaulted a new gripman at Garfield ave. barns at noon to-day. The gripman drew a revolver and shot the stranger seriously in the leg. There is much excitement.

THE EXCLUSION ACT UPHELD.

SAN FRANCISCO, Oct. 15.—U.S. Circuit Judge Sawyer gave an oral decision this morning in the two Chinese cases argued last week to test the constitutionality of the Scott exclusion act. The judge's decision, which is concurred in by U.S. District Judge Hoffman, holds that the act is constitutional and that all Chinese who have arrived here since its passage and who may hereafter arrive must return from whence they came. The written decision will be rendered this afternoon.

SERVED HIM RIGHT.

ST. LOUIS, Mo., Oct. 15.—Bill Johnson, a nego employed by C. G. Newman, a young farmer at Cochrane, Georgia, assaulted the latter's wife on Friday during Newman's absence, and fled. A crowd of 300 men captured him yesterday and hanged him to a tree and riddled him with bullets.

A FINAL ADJOURNMENT.

WASHINGTON, Oct. 15.—Oats of Alabama offered a resolution in the house to-day for a final adjournment on the 18th inst. It was laid over until tomorrow.

NOT EATEN.

LONDON, Oct. 15.—Zanzibar dispatches deny the report that the natives are canibals and had eaten the Germans slain by them. It is true, however, that their bodies were mutilated in honor of their fetich.

GREAT FIRE.

GLASGOW, Oct. 15.—A block of seven story buildings and a three story block opposite were destroyed by fire yesterday. Loss £100,000. Four firemen were injured.

ABUSE ONLY.

BERLIN, Oct. 15.—The semi-official press abuses Mackenzie's book, but no attempt is made to refute the statements published.

YELLOW FEVER.

JACKSONVILLE, Oct. 15.—Up to noon to-day there was fifteen new cases and no deaths. The relief committee has reduced the number of persons fed from 16,000 a fortnight ago to 9,000.

A WORTHY PROPOSITION.

MADRID, Oct. 15.—[illegible], minister of the interior, informed the council that the English government has proposed to the European and American governments to prohibit Pacific ocean trade in arms, dynamite and other explosives and alcohol. Senor Armijo, minister of foreign affairs, said that the American government had declined to assent to the proposition. The council decided to assent if the other nations would do likewise.

A SMALL RIOT.

CHICAGO, Oct. 15.—At six o'clock this morning the first car was run out from Garfield avenue barns and proceeded on its way without molestation. The next six cars were then run but after going three blocks were attacked by a mob who made an assault upon the new drivers and conductors. Stones and missiles were freely used and an attempt made to drag the new men off the cars but the police appearing the men ran away. At 10 o'clock everything was quiet and the cars are running as usual.

WHEAT.

LIVERPOOL, Oct. 15.—Wheat quiet but steady. Cala., 8s. 1½d.

CHICAGO, Oct. 15. — Wheat was panicky to-day and prices took a considerably downward turn. Nov. dropped 5c., closing at 109⅞; May 112.

SAN FRANCISCO, Oct. 15.—Wheat weaker and 2½c. lower. Nov. 163; Dec. 166.

NEW YORK, Oct. 15.—A very weak feeling prevailed in the wheat market to-day. Nov. closed 3¼ and Dec. 3⅛c. under Saturday's closing; Nov. 108⅞; Dec. 110⅞; May 114⅞.

GERMAN JEALOUSY.

BERLIN, Oct. 15.—McKenzie's book is not allowed to be sold in this city. The police are seizing copies exposed for sale at all the book shops in Berlin.

M'KENZIE'S BOOK SEIZED.

BERLIN, Oct. 15.—Forty thousand copies of McKenzie's book were seized at Liepsic by the police to-day.

A BUILDING COLLAPSES.

GLASGOW, Oct. 15.—The block of buildings adjoining the one on Buchanan st., burned yesterday, collapsed this morning and is totally ruined. Loss on this block, £50,000.

R. C. Bruce, druggist, Tara, says: I have no medicine on my shelves that sells faster or gives better satisfaction than Dr. Thomas' Eclectric Oil, and the sale is constantly increasing, the past year being the largest I have ever had. One of my customers was cured of catarrh by using three bottles. Another was raised out of bed, where he had been laid up a long time with a lame back, by using two bottles. I have lots of customers, who would not be without it over night.

Job printing of all kinds neatly done at the COLUMBIAN office. Prices will be found as low as at any other office in the province.—Adv.

Children Cry for Pitcher's Castoria

Daily British Columbian

Monday Evening, Oct. 15, 1888.

On the 23rd of this month, as will have been seen by an advertisement in our columns, there will be an extensive auction sale at Vancouver, of provincial government lands, situated principally on the North Arm of the Fraser River and lying between there and the city of Vancouver. This is most eligible property for agricultural and other purposes, and should bring good prices at this time. There is one matter, however, in connection with the sale of this land that is cause for regret, and we call attention to it with the hope that the government may be able to devise some way, even should it be irregular, to provide a remedy commensurate with the exigencies of the case. We are informed that there are at least four *bona fide* settlers occupying claims within the tract to be sold. It would appear that these settlers "squatted" on the land in question during the time that it was held as a Dominion railway reserve, as many others have done throughout the province on Dominion lands, hoping in time to secure a title to the land. Subsequently, when the railway belt was definitely defined, this land reverted to the province. By repeated representations at Ottawa, such arrangements were made by the department of the interior as enabled squatters on Dominion lands to obtain possession of the land which they had improved and *bona fide* settled upon. Had this provincial land chanced to be included in the forty-mile Dominion railway belt, the settlers, or squatters, in question would doubtless have been able to secure a title, as have others under similar circumstances; but, as it is, they occupy an anomalous position with regard to their holdings, no provisions existing to confirm them in possession. A fair valuation, it is true, of the lands and improvements has been made by the government, with which, we understand, the settlers are satisfied, so far as valuation goes. They, naturally, however, feel it a hardship to be obliged to give up their homes and the lands they have improved, or else bid against speculators to retain them. What they wish, we believe, although they cannot, perhaps, claim it as a right, is to have the privilege of purchasing the lands upon which they have settled at the nominal price per acre of provincial government land. Squatters are not always deserving of sympathy. Indeed, in some cases it is quite the reverse—where they deliberately and premeditately settle upon land for purposes of speculation. But the cases we have mentioned are those of *bona fide*, permanent settlers, in whose possession the land will be of infinitely more value to the province than if held by speculators, as is quite likely to be the case if sold. The government have shown a commendable disposition to encourage in various ways immigration and actual settlement, appreciating the value of such to the country. A penny saved is said to be a penny gained. Acting upon this principle, we would ask the government even to strain a point, if possible, and endeavor to retain four or five good settlers by enabling them to secure possession of the lands upon which they have settled and placed valuable improvements, although they may have no legal claim to a title. We do not ask the provincial authorities to take our word in this matter exclusively, but to investigate for themselves and act accordingly. We trust the government may see their way clear to take some such course as we have indicated.

We have received a marked copy of the Sioux City (Iowa) *Journal*, with a circular enclosed, signed D. H. Talbot, Sioux City, who is a large stock raiser in the American northwest, asking us to co-operate with the object of securing the removal of the embargo against American cattle going through Canada, *en route* to foreign markets. The *Journal* thus defines the subject and the interests affected: "The subject is that of the shipment of cattle from points in the northwest across Canadian territory for exportation direct to English ports. It includes shipments to be made from United States ports, the cattle having been shipped from the northwest through Canadian territory and back into American territory to be embarked from American ports for export, as well as shipments which go across Canadian territory to be embarked for export from Canadian ports. While this is the direct subject, affecting primarily the cattle interests of the whole northwest, it is hardly less important—indeed, it is ultimately more important—as affecting the railroad and other interests of the northwest." The *Journal* goes on to show that it would be of inestimable advantage to cattlemen if they could ship by the new "Soo" line or the other railroads in the new upper lake route, and thence by Canadian roads to Quebec for export, thence to England, which would be a great advantage over shipments to Chicago or any other way to New York for export. The advantages are twofold. The route is stated to be 471 miles shorter between Sioux City and Liverpool than between the same points via New York, and in summer the more northerly route by land and water affords a cool and healthy passage for cattle, thus making a great saving in the matter of shrinkage. "If this northern and cool route could be used," says the *Journal*, "it would not only result directly in the full occupation of the market of England by American cattle growers, but it would also immediately lead to competition in cattle rates between here (the American northwest) and the seaboard. It would do another thing of vast importance. It would render the northwestern cattle growers independent of the great Chicago beef ring, a monopoly which has usurped the profits of the whole cattle industry." The *Journal* adds: "But the American cattleman is as completely shut off from the benefits of this route as if they did not exist. This is done under guise of quarantine regulations—upon pretense that the American northwest is an infected district. The result is that American cattle are not allowed to be shipped across Canada until they have been quarantined ninety days on the frontier, and that, too, at a single point, viz., at Sarnia. The expense of such a quarantine, and the delays and other expenses involved, are virtually an embargo on cattle traffic, and an embargo of the most effective sort." The advantages sought so far would appear to be all on one side; but it is stated that all the Canadian northwestern provinces want the embargo removed, and Canadian business men generally, especially (which is quite natural), all transportation companies, both railroad and steamship. Mr. Talbot, in the interest of the cattle raisers of the American northwest, has been stirring up both the United States and Canadian governments to action in this matter, and considerable correspondence is quoted on the subject. One of these is from the Dominion department of agriculture, setting forth the origin and necessity of the quarantine on American cattle. It is stated, however by American cattle raisers that the necessity for this quarantine does not now exist, there being no American cattle now infected with pleuro-pneumonia, but that the embargo is still maintained at the instance and in the interests of cattle raisers in the older provinces in the Dominion. "The object to be attained," says the *Journal*, is primarily to have this embargo removed so that American cattle can be shipped, without any quarantine, in bond, directly across American territory to point of embarkation for export. That is to say, the Canadian and imperial governments should be brought to recognize the fact that the northwest actually is not an infected district. If those governments refuse to recognize the truth and insist that it is "infected," then they should be brought to establish the quarantine, not on the Canadian frontier, but at the initial points of shipment, as at Sioux City, and then allow them to go in bond direct to the seaboard. This would be a remedy, though not so satisfactory as the one previously mentioned." This latter arrangement, at least, we should imagine, might be made. We do not believe in any unnecessary artificial trade restrictions, on general principles, and, although the matter in question is not one affecting us as British Columbians to any appreciable extent, the greatest good to the greatest number demands that trade be left unhampered so far as is compatible with international relations and revenue purposes.

NEW
Boot and Shoe
STORE.

DOLLARS SPEAK!

LADIES, IF YOU WISH TO GET reliable goods at low figures, read the following:—

I take much pleasure in announcing to the public of New Westminster that I have opened out a large and well assorted stock of MEN'S, WOMEN'S AND CHILDREN'S BOOTS, SHOES AND SLIPPERS in all qualities. These goods were expressly manufactured for me by the celebrated Ames, Holden Boot and Shoe Co., of Montreal, and having purchased for cash and intend selling for the same, I am prepared to dispose of these goods at prices which cannot but be satisfactory. Come and look at the stock, compare prices and you will acknowledge I am able to give you bargains.

WM. JOHNSTON,
Columbia street, New Westminster.

Perfect Hair

Indicates a natural and healthy condition of the scalp, and of the glands through which nourishment is obtained. When, in consequence of age and disease, the hair becomes weak, thin, and gray, Ayer's Hair Vigor will strengthen it, restore its original color, promote its rapid and vigorous growth, and impart to it the lustre and freshness of youth.

I have used Ayer's Hair Vigor for a long time, and am convinced of its value. When I was 17 years of age my hair began to turn gray. I commenced using the Vigor, and was surprised at the good effects it produced. It not only restored the color to my hair, but so stimulated its growth, that I have now more hair than ever before.—J. W. Edwards, Coldwater, Miss.

Ayer's Hair Vigor,
Sold by all Druggists and Perfumers.

IF YOU ARE SUFFERING from debility and loss of appetite; if your stomach is out of order, or your mind confused; take Ayer's Sarsaparilla. This medicine will restore physical force and elasticity to the system, more surely and speedily than any tonic yet discovered.

For six months I suffered from liver and stomach troubles. My food did not nourish me, and I became weak and very much emaciated. I took six bottles of Ayer's Sarsaparilla, and was cured. —J. M. Palmer, Springfield, Mass. ††

Ayer's Sarsaparilla,
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by Druggists. Price $1; six bottles, $5.

NOTICE.

NOTICE IS HEREBY GIVEN THAT thirty days after date we intend to apply to the Chief Commissioner of Lands and Works for permission to lease for timber purposes the following described lands, situated in New Westminster District, B. C., on the southerly side of Harrison lake, and about twenty miles from Harrison hot springs:

Commencing at a post planted at the south-west corner of Plot No. One [1] of Martin & Son's application for the Harrison Saw Mills, dated September 24th, 1888, post marked H. S. Mill; thence 160 chains north, 76 deg. west, to a post marked S. W. post, H. S. Mill; thence 20 chains north-east to a post marked N. W. post, H. S. Mill; thence east 165 chains to a post marked N. E. post, H. S. Mill; thence 40 chains south to place of commencement —containing about 300 acres.

Public Notice

THE ATTENTION OF THE PUBLIC is hereby directed to the "Provincial Health (small-pox) By-Laws, 1888," issued by His Honour the Lieutenant-Governor in Council, under authority of the "Health Ordinance, 1869."

Having been appointed Provincial Health Officer for Districts lying south of Fraser River, I hereby give notice that the provisions of said By-Laws will be strictly enforced, and all persons are required to govern themselves accordingly.
R. I. BENTLEY, M. B.,
Provincial Health Officer.
New West., Oct. 8, 1888. doc6m1

[L.S.] HUGH NELSON.

BY-LAWS ISSUED BY HIS HONOUR THE LIEUTENANT-GOVERNOR IN COUNCIL,

UNDER THE AUTHORITY OF THE "HEALTH ORDINANCE, 1869."

HIS HONOUR THE LIEUTENANT-Governor of British Columbia, by and with the advice of the Executive Council of British Columbia, acting under and by virtue of the provisions of the "Health Ordinance, 1869," enacts as follows:—

1. Whenever small-pox is present in any locality without the boundaries of any Municipality, the Provincial Health Officer nearest to such locality shall at once cause the patient to be removed to an isolated hospital, tent or other suitable place, or cause such person to be otherwise sufficiently isolated, and shall see that he is properly cared for, and shall take proper measures for the disinfection, or, if necessary, the destruction of all clothing which may have been exposed to the contagion, and for the disinfection and purification of every conveyance, rail-car, steamboat, railway, vessel, carriage, or other vehicle which may have been exposed to the contagion.

2. Such Health Officer shall have, in his discretion, full power to place in another building or tent all persons who may have been exposed to the contagion, and shall cause them to be supplied with all necessaries until the period of incubation of the disease shall have elapsed, and no such person shall go, or be permitted to go, abroad, until he or she has given satisfactory proof of successful vaccination within the preceding seven years, or shall have obtained a medical certificate of insusceptibility to the vaccine disease, nor until the clothing or effects worn or carried by or with him or her have been properly disinfected, if the same have been exposed to contagion.

3. To assist the Health Officer, he shall have full power to employ persons to be nurses, sanitary policemen, and otherwise to aid in the prevention of the spread of the disease, and may himself give and enforce such reasonable directions for the same purpose as to him may seem expedient, and the nearest Government Agent shall see that all articles and necessaries required by the Health Officer are furnished.

4. It shall be the duty of every medical practitioner who shall attend upon, or give medical or surgical advice, to or about any person suffering from small-pox, to give notice forthwith after he shall have commenced so to attend or give such advice, to the nearest Provincial Health Officer. When a householder knows that a person within the house occupied by him is taken sick of small-pox, he shall immediately give notice thereof to the nearest Provincial Health Officer.

5. The Provincial Health Officer before mentioned is and includes any person appointed Health Officer under the "Health Ordinance, 1869," by the Lieutenant-Governor in Council.

6. The foregoing provisions shall have no effect within the limits of any Municipality, save as hereinafter mentioned.

7. In case the Council of any Municipality, whenever small-pox is present, or likely to occur therein, shall fail to make or carry out proper provisions to prevent the invasion or spread of small-pox within the Municipality, and complaint thereof shall be made to the Lieutenant-Governor by the Council of any adjacent Municipality, it shall be lawful for the Lieutenant-Governor in Council, acting upon such complaint or in his discretion upon other information, to order that these regulations shall, until otherwise ordered, apply to and be in force within the Municipality in which such neglect occurs, and thereupon any Provincial Health Officer shall have, within and in respect of such Municipality all the authority with which he is clothed in respect of localities without Municipalities, and in such case all disbursements and expenses paid by the Province, in the carrying out within such Municipality of the foregoing regulations, shall be paid by such Municipality.

8. These regulations may be cited as the "Provincial Health (small-pox) By-Laws, 1888."

Dated at Victoria, this 3rd day of October, 1888.
By Command.
JNO. ROBSON,
doc5m1 Provincial Secretary.

SECRETS OF THE DEEP.

The Sea Yielding Up Her Dead.

"Let me introduce you to the most famous diver in America," said my companion, as we sat in a little cafe in a small seaport town in Southern California.

A few moments later I was presented and in conversation with Romano Hernandez Garcia, the king of the divers. He was over 6 feet in height, tall for his race, well proportioned, with eyes deep in his head that blazed with a hidden fire when he became excited. Garcia told me a story, and I relate it as he gave it me:

"I was engaged some 10 years ago to examine a man-of-war that had sunk off a South American port, and had two assistants to help me. One backed out at the last moment, so two of us went down.

"The ship had, it was supposed, gone down with all on board, and we were expected to send up the bodies and make a thorough examination.

"The ship lay in about 50 feet of water as clear as a crystal, and before we went down we could see the fishes swimming about through the rigging. My partner went down the foremast and I the mainmast, reaching the deck about the same time.

"We found her lying at an angle of about 28 degrees. The sand had washed up against her port side even with the deck, so we could have walked off on to the bottom. This prevented our making an examination of her bottom, as it was supposed that she had been blown up by a torpedo, though I am sure she was lying at anchor, under sail with ports open, and was capsized by a squall. We found the ports open, and the anchor out with 100 fathoms of chain.

"It was midday when we struck her, and it was as light as day on her deck.

"I went aft to go through the after companionway, and found it closed by a big boom, with the wheel broken, and rammed against it in some way.

"Going forward, we found the hatches all closed, so we concluded that there were dead men near at hand. We determined to try the cabin first, so began work at it with the bars, and shortly had it open.

"As we cleared the wreckage it sprang open like as if some one had pushed it, and immediately out there came an officer in full uniform disfigured horribly. He rose up before us quickly. Then came another, until four went sailing up toward the boat. You see, they had been drifting there, and of course came out as soon as the hatch was raised.

"You may be sure that I was not anxious to go into such a place, but I had to. I looked around for my partner: he was sitting on the boom with his head down, and if he hadn't been in armor I should have thought him sick, but he got up as I motioned, and we went down the ladder.

"Heaven deliver me from such another sight," said Garcia. "As I reached the floor the room seemed to be completely filled with dead people.

"They were floating overhead, some standing upright with hands outstretched, some appeared to be swimming, others were grasped in each other's arms, while many more were strewn upon the floor. I began to ease them out of the door, when they quickly rose upward to the surface.

"Even I, hardened as I was by many such scenes, was horrified.

"After we had cleared the cabin we went into the staterooms, but most of them were empty. The officers had evidently had some warning, and had made a rush for the cabin, but as the doors opened out and had become jammed, they were literally penned in.

"Things were just as they had left them. Light articles were floating about, but the tables and heavy chairs were in place.

"We made a thorough examination, and then went up, and when they unscrewed the other man's helmet he was out of his head, and it was months before he got over it. I learned afterward that he was a green hand at it."

SOMETHING TO BE THANKFUL FOR.

A Deathbed Scene in a Military Hospital.

Nurses in hospitals are rather apt to lay too much stress on the advantages received by the patients and their duty of thankfulness, but still it is the poor soldier who suffers the most from always having his causes to be grateful flung in his teeth. Witness the following true story:

Chaplain—"So poor Hopkins is dead. I should have liked to speak to him once again, and soothe his last moments; why didn't you call me?"

Hospital orderly—"I didn't think you ought to be disturbed for 'Opkins, sir, so I just soothed him as best I could myself."

Chaplain—"Why, what did you say to him?"

Orderly—"'Opkins,' sez I, 'you're mortal bad.'

"'I am,' sez 'e.

"'Opkins,' sez I, 'I don't think you'll get better.'

"'No,' sez 'e.

"'Opkins,' sez I, 'you're going fast.'

"'Yes,' sez 'e.

"'Opkins,' sez I, 'I don't think you can 'ope to go to 'eaven.'

"'I don't think I can,' sez 'e.

"'Well, then, 'Opkins,' sez I, 'you'll go to 'ell.'

"'I suppose so,' sez 'e.

"'Opkins,' sez I, 'you ought to be wery grateful as there's a place perwided for you, and that you've got somewhere to go,' and I think 'e 'eard, sir, and then 'e died."—London Hospital.

A Philosophical Problem.

In a recent number of the Medical News appeared a note from a correspondent whose professional eminence is an unqualified indorsement of the accuracy of his observation, in which he writes:

"I remember being jolted over the crossings in a baby wagon by a nurse, and resolving to tell of her as soon as I could speak."

In reading the above it occurred to us that it would not be amiss to ask the writer how he knew that there was such a thing as speech and that he would ever be able to exercise that faculty.—Science.

A Model Cow.

A witty auctioneer described the excellence of a cow he was offering for sale, in the following verses:

Long in her sides,—bright in her eyes,
Short in her legs,—thin in her thighs,
Big in her ribs,—wide in her pins,
Full in her bosom,—small in her shins,
Long in her face,—fine in her tail,
And never deficient in filling her pail.

Significant.

Ethel: "Mamma, I think Frank means business."

Mamma: "Why, what makes you think so?"

Ethel: "He gave me a pair of sleeve-buttons last night, and they were linked."—[Kentucky State Journal.

Scrofula

Is one of the most fatal scourges which afflict mankind. It is often inherited, but may be the result of improper vaccination, mercurial poison, uncleanliness, and various other causes. Chronic Sores, Ulcers, Abscesses, Cancerous Humors, and, in some cases, Emaciation and Consumption, result from a scrofulous condition of the blood. This disease can be cured by the use of Ayer's Sarsaparilla.

"I inherited a scrofulous condition of the blood, which caused a derangement of my whole system. After taking less than four bottles of Ayer's Sarsaparilla I am

Entirely Cured

and, for the past year, have not found it necessary to use any medicine whatever. I am now in better health, and stronger, than ever before.—O. A. Willard, 218 Tremont st., Boston, Mass.

I was troubled with Scrofulous Sores for five years; but, after using a few bottles of Ayer's Sarsaparilla, the sores healed, and I have now good health.—Elizabeth Warnock, 54 Appleton street, Lowell, Mass.

Some months ago I was troubled with Scrofulous Sores on my leg. The limb was badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy failed until I used Ayer's Sarsaparilla. By taking three bottles of this medicine the sores have been healed, and my health is restored. I am grateful for the good it has done me.—Mrs. Ann O'Brian, 158 Sullivan st., New York.

Ayer's Sarsaparilla,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price $1; six bottles, $5.

TIMETABLE

AUCTION

PROVINCIAL

Government Lands

—ON—

NORTH ARM OF FRASER RIVER, AND ADJACENT LANDS, NEW WESTMINSTER DISTRICT.

TUESDAY, 23rd OCTOBER

AT 11 O'CLOCK, A. M.

I have been instructed by the Chief Commissioner of Lands and Works to sell by Auction

AT VANCOUVER, B. C.

Several parcels of fine agricultural lands, situate on or near the North Arm of Fraser River, being sub-divisions of Lots 325, 326, 329, 330, 331, 332 to 339, 149, 150, 156, 175, 164, 155, 182, 163. The subdivisions of these Lots contain from 27 to 172 acres each; the location of these lots is shown on the present maps of the District.

The farms in the immediate vicinity of these Lots are considered the finest agricultural properties in British Columbia. Some of the lots front on the North Arm, and others are in the immediate vicinity of the same.

Steamers run daily from New Westminster and Vancouver, past these valuable properties.

ALSO,

Lots 623 to 679, and Lots 700 to 736.

All situate between the North Arm of Fraser River and Vancouver City. The North Arm Road from Vancouver runs through these Lots, and there are other roads laid out that will give access to each of them. This property commences about 2½ miles south of Vancouver City and is bounded on the west by the C. P. Railway Land Grant, and is surveyed into lots containing from 5 to 55 acres each, maps of which will shortly be ready for distribution.

All the lands to be sold are well adapted for agricultural, dairy or orchard purposes, and on account of their close proximity to the markets of Vancouver and New Westminster cities, will be desirable properties for families seeking a home or for investment.

The C. P. Railway are now constructing a fine wagon road from Vancouver to the North Arm of Fraser River and Lulu Island. They are also surveying a line of railway through these properties with a view of connecting with the United States system of railways at Seattle.

These lands may fairly be considered as the most valuable ever offered for sale by auction in British Columbia.

Fresh Eastern Oysters by the can at R. J. Armstrong's. dse26tc

The city council meets to-night for the transaction of business.

Fresh Eastern and Native Oysters, served in every style, at the Club. *

The Fagan-Cooper case comes before the supreme court to-morrow.

The traffic to and from Vancouver to-day, by stage, was unusually large.

W. H. Vianen had a fine deer on exhibition to-day which weighed 200 lbs. dressed.

First class Board and comfortable Rooms at Miss Yeo's, Columbia st., opposite Catholic church *

Messrs. Walker & Shadwell, of the Bon Marche, are advertising dry goods and clothing at cost for cash.

The str. Irving left for up river ports this morning with 25 tons of merchandise and 20 passengers.

White & Gee, of Blaine W. T., have started a line of passenger stages between that town and Westminster.

The barque Nanaimo will have all her cargo aboard by to-morrow night, and will clear for sea before the end of the week.

A savings bank, in connection with the post office, will be opened at Kamloops this month.

Mr. T. J. Trapp's sale of city lots at the Colonial hotel on Saturday night was a great success. The prices showed a large advance on previous sales.

Mr. F. Crake has just received a fine assortment of Plated Ware and Jewelry, suitable for wedding presents, which he is prepared to sell at very low rates. doc15t6

A request signed by four clergymen has been sent to Mr. D.L. Moody, the great revivalist, to visit this city before leaving the province. It is almost certain Mr. Moody will accept the invitation.

At the police court this afternoon an Indian, named Johnny, was fined $25 for having liquor in his possession. A Chinaman named Ah Pou was sent to jail for one month for supplying liquor to Indians.

The Vancouver *World* is the authority for the statement that the Hon. Robt. Dunsmuir will shortly establish a daily steamer service between Nanaimo and Vancouver. The steamer Isabella has been purchased and is being fitted up for the route.

Every wife and mother in the country should know the great value of Ayer's Sarsaparilla, as a blood purifier. It gives tone, health and strength to the vital organs, corrects all irregularities, and expels impurities from the system. Young and old use it. Price $1.

The str. Princess Louise arrived from Victoria yesterday afternoon with 120 tons of freight and 55 passengers. She cleared on the return trip shortly after the arrival of the Pacific express. It is understood this fine steamer will remain on the Victoria-Westminster route all winter. The popular staff of officers from the Rithet have been transferred to the Louise.

Lost a Finger.

This morning Edward Stephenson, engineer of the str. Clara Port, while working among the machinery had the misfortune to get his hand caught, and before he could release it one of the fingers was cut off just below the middle joint. He was taken to Dr. Hall's surgery where the necessary operation was performed on the damaged finger. The doctor thinks Stephenson will be able to resume his duties in three weeks time.

The Southern Railway.

Matters in connection with the Southern Railway are progressing most favorably, and, despite the many nasty insinuations made against it, both at home and abroad, the company continues to keep the work moving forward and meets its bills with promptness. Since the 10th inst. $10,000 has been paid out in wages and on work contracted for by the company. The right of way contract is rapidly approaching completion and the cross-sectioning of the line is also very well advanced.

The Newsboy.

The American barque Newsboy, Capt. J. A. Johnston, from San Francisco, arrived in port yesterday to load lumber at the Royal City Mills for Sydney, Australia. The Newsboy is very heavily rigged for her size and when loaded will draw 18 ft. of water. Her length is 169 ft. and beam 38 ft. On the trip from San Francisco she encountered a heavy gale, during which some of her rigging was carried away. She will commence loading on Wednesday and will be ready for sea in 20 days. Her loading facilities are very convenient for rapid work, she being rigged with both bow and stern ports. The Newsboy will carry away between 700,000 and 800,000 feet of lumber.

Children Cry for Pitcher's Castoria

The Fleming Cup.

The competition for the Fleming cup, presented by the late Capt. Fleming, once a very prominent man in connection with Fraser River navigation, took place simultaneously on Saturday afternoon at Victoria and New Westminster. The weather was unfavorable at both places, which accounts for the low scores made. Bombadier Winsby, of the Victoria Artillery, made 41 points, and Corp. Turnbull, of the Westminstey Rifles, scored 46 points, thus winning the cup for the royal city. Pte. Chamberlain was a good second with a score of 42. The ranges were 300 and 600 yards, 7 shots at each range. The cup must be won twice in succession before it becomes the property of the winner.

No Tickets for Westminster.

A family leaving Montreal last week for Westminster applied to the C.P.R. ticket agent for tickets to this city. The agent informed the family that he could not sell tickets to Westminster as he was not allowed to punch them for that station, but the rate to Vancouver was the same and they would have to take tickets for that point. The baggage-master would not check the baggage to Westminster and it went to Vancouver from where it was re-checked to this city a few days afterwards. *All this occasioned the travellers* considerable trouble and annoyance. Westminster's agreement with the C. P. R. was to the effect that it should be placed on the same footing as Vancouver in all matters, but there seems to be a great reluctance on the part of the railway to fulfill its obligations.

From Glengarry.

The following extracts from a letter received by a gentleman in this city, this morning, from a friend in Glengarry, Ont., may be of some interest to our readers: "We have had scarcely two days of dry weather here since the beginning of harvest. We have been visited lately by three awful cyclones which came from the direction of British Columbia, and they did such strange things. They took cattle up in the air and let them down in other fields; rooted potatoes out of the ground and sent them some acres in the direction from which the wind came. Some farmers were nearly ruined by them. We sustained no loss except that of a few ornamental trees. The Balm-of-Gilead tree, at the gate, which they tell me you planted in the spring before you went away—over twenty-four years ago—was blown down. It had grown to be a big tree."

"C" Battery Removal.

At the request of the majority of the aldermen, Mayor Grant postponed the meeting called for last evening to discuss the proposed removal of "C" Battery. The telegram printed from Sir A. P. Caron and from our correspondent would seem to definitely decide the question. There is no doubt that a strenuous effort was made to secure the removal of the battery to Vancouver. Happily, it has been unsuccessful, and though it may not now be necessary to protest and remonstrate, the fact that Victoria's citizens were prepared to resent the shabby treatment intended will have its due effect. As it is, we have rather to thank the Imperial government than the Federal for settlement of the point. A Vancouver newspaper jocosely remarks that if we don't take care they will tow Esquimalt itself to Vancouver. If the feat was possible, we have no doubt it would be attempted.—*Colonist.*

The Great Revivalist.

An immense audience, numbering almost two thousand; grand, soul-inspiring music and a sermon replete with startling truths, made the Saturday night service in the roller rink one long to be remembered by all who came to listen to the great evangelist, Dwight L. Moody, that evening. After the singing of several hymns Mr. Moody took for his text the 10th verse of the 19th chapter of Luke and proceeded to give a magnificent discourse on the love of Jesus for man, His power to save and His joy at welcoming the sinner who calls out to him from the lowest depths of sin and despair. On the conclusion of the address, one after another in the audience rose to request the prayers of God's people. Mr. Moody then offered up an eloquent appeal for the lost, an appeal to the Master to strike conviction to every heart. "Just as I am, without on plea," was sung by everyone standing and the immense audience was dismissed with the benediction.—*Colonist.*

The Wrestling Match.

The wrestling match at Vancouver on Saturday night between Cameron of Victoria and Richardson of Winnipeg was awarded to the latter, although he did not win it. Cameron won the first fall and during the second a lamp was knocked down and broken at a time when both men were struggling on the floor. Cameron wished to stop as the broken glass was cutting him, but Richardson having the advantage would not give it up, and, as the referee did not stop the round, the struggle continued. When the men finally separated without either winning a fall it was found both were terribly cut, Cameron especially. At this point a fight between the referee and one of the backers took place and created much excitement. Time was finally called for the third round but Cameron was too badly cut to proceed and the referee gave the match to Richardson. Great dissatisfaction was manifested at the decision and Cameron promptly entered a protest. He also expressed his willingness to wrestle Richardson for any amount. Another match will probably be arranged.

No family living in a bilious country should be without Parmelee's Vegetable Pills. A few doses taken now and then will keep the Liver active, cleanse the stomach and bowels from all bilious matter and prevent Ague. Mr. J. L. Price, Shoals, Martin Co., Ind., writes: "I have tried a box of Parmelee's Pills and find them the best medicine for Fever and Ague I have ever used."

The Southfield Mine on Fire.

A dispatch from Nanaimo this afternoon says that at four o'clock a fire broke out in the Southfield mine of the Vancouver coal company. The fire was supposed to have been caused by spontaneous combustion, and was ignited first at the foot of the air shaft. The fire is now under control and is expected to be extinguished by to-morrow morning. Many men were at work at the time but all escaped safely with the exception of three who were slightly injured by falling rocks. Several hundred men will be out of work for three months.

Why suffer with that aching head when you may be cured with Ayer's Cathartic Pills? Send a 2-cent stamp to Dr. J. C. Ayer & Co., Lowell, Mass., for a set of their attractive album cards.

Lytton Assizes.

Before Mr. Justice Walkem.

After Mr. Justice Walkem reached Lytton, on Monday last, Prisoners Michael Brady and an Indian, committed for indictable offences, were, by his direction, brought before him at half past 7 a. m., and required to elect whether they wished to be tried before him personally under the Speedy Trials Act or before a jury at the assizes, to be opened at 10 o'clock. Both prisoners chose the latter. This course saved the community the expense of jurors' attendance for probably two days.

At 10 a. m. the assizes were opened and Mr. Semlin chosen foreman of the grand jury. Owing to what has been stated they had no indictments to consider.

Regina vs. Indian Baldy—Prisoner was tried at the last assizes for robbing an Indian woman and taking money from her person. The jury disagreed, although, as the judge stated, the evidence against the prisoner could not be clearer. He had consequently been in prison ever since—that is for several months. The judge therefore suggested that as the money had been spent and as the prisoner had been confined so long, the crown officer should discontinue the proceedings and consent to the prisoner's discharge, which was accordingly done.

Under the Speedy Trials Act, Brady, a nightwatchman on the C. P. R., was then tried for stealing a revolver from one Glasted, another C. P. R. watchman. Mr. Eberts prosecuted for the crown. After hearing the evidence the prisoner was acquitted.

Indian Tom was then tried for assaulting Mrs. Morens, by striking her when he was drunk with the barrel of his gun and attempting to ride into her house. On the evidence the prisoner was found guilty and got 12 month's imprisonment with hard labor. The prisoner's defence was that he was so drunk he did not know what he was about.

A. Maybee, Merchant, Warkworth, writes: I have sold some hundreds of bottles of Dr. Thomas' Eclectric Oil, and it is pronounced by the public "one of the best medicines they ever used;" it has done wonders in healing and relieving pain, sore throats, &c., and is worthy of the greatest confidence.

Personal.

C. F. Green, of Ladners, was in town to-day.

C. D. Rand returned to Vancouver this morning.

G. A. Kelly went over to Vancouver this morning.

Capt. Worsnop, of Vancouver, spent Sunday in town.

L. Pither and wife returned from Victoria yesterday.

Miss Townley, of Vancouver, was in the city a few hours to-day.

Miss Elliott, of Vancouver, is the guest of Mrs. G. D. Brymner.

Mr. Ralph, a government surveyor and a well-known "old timer," is in the city.

Miss Black and Miss Webster went over to Vancouver and will visit there for a week.

W. H. Ladner, our ever popular M. P. P., came up on the Princess Louise yesterday and returned home to-day.

Canada's Dignified Stand.

MONTREAL, Oct. 13.—At a dinner given to Herbert S. White, the newly-elected member of parliament for Cardwell, last evening, Hon. J. M. Chapleau, secretary of state, in response to the toast, "The federal parliament," said: "Canada is now passing through a crisis camly, cooly and wisely. In the United States there is great excitement over their election and politics; but, as the English paper said, Canada has given an example to the world in the cool way she had taken it. The United States tried to frighten her with commercial union, annexation, and unrestricted reciprocity; but she was well before and is better now, and does not wish to change. The diplomacy of the premier will be vindicated on the 7th of November, whichever party gets in."

While he (Chapleau) did not desire to disparage the United States, he would say that if they were to annex themselves to Canada it would do them good. Movements toward the United States are the only one thing destructive to Canada's industries, and whatever she has striven for during the last ten years.

THERE IS A WIDE DIFFERENCE between medicines which affect merely the symptoms of disease and those which affect its cause. The first are useful as palliatives, the second, if of genuine efficacy, produce a radical cure. To the latter class belongs Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Thoroughness of operation is its special attribute in all cases of Biliousness, Costiveness, Indigestion, Kidney Complaints, and Female Weakness.

Meteorological Report for Week Ending Oct. 13th, 1888.

Saturday	57.0	43.0	R

Cloudy; rain off and on. 11th, first snow in mountains; 12th, heavy winds.
A. PEELE, Capt'n.

Late Canadian News.

GALT, Oct. 8.—Excitement over the poisoning case continues at fever heat. Examination of the candies reveals the fact that a hole had been made in the bottom of each box and strychnine poured in and covered over with chocolate. The opinion that there is a woman in the case obtains credence. The ends of the boxes were sewn up, the sewing being done so neatly that only a woman or tailor could have done it. The funeral of Meta Cherry took place yesterday and was largely attended.

MONTREAL, Oct. 13.—The grain business has been paralyzed at this point by the breakage in the Cornwall canal. There are hundreds of bushels of wheat, corn, peas and oats detained above the canal. Ocean vessels are already detained here by its non-arrival.

To-day's snow fall, as recorded at the McGill University observatory, was 5.8 inches. This is the heaviest early fall on record in Montreal. The previous heavy falls in early autumn, during a half century, were on October 24, 1853, when two inches fell, and on October 26, 1862, when six inches were recorded. In 1860 there was a snow fall on Sept. 29, but it was unappreciable.

The snow storm had the effect of detaining many incoming vessels, while those in port were completely weather bound until nearly noon.

Do not delay in getting relief for the little folks. Mother Graves' Worm Exterminator is a pleasant and sure cure. If you love your child why do you let it suffer when a remedy is so near at hand?

B. C. Provincial Exposition Subscription Fund.

For the purpose of raising a fund to contribute towards the patriotic and worthy object of making the next annual provincial fair, to be held in this city, a grand and unprecedented success, the undersigned agree to contribute the sums opposite their respective names (to be paid into the association or to trustees competent to receive the same, on or before 6 months from the date of the last provincial exhibition, and to be applied to preparing exhibition grounds and buildings in this city, for increasing the amount offered in prizes, and for furthering the exhibition in other ways):

IMMENSE SALE
—OF—
DRY GOODS, CLOTHING
HATS, CARPETS,
LINOLEUMS, OIL CLOTHS, ETC., ETC.
Commencing Oct. 10th, 1888.

As we have decided to retire from the retail Dry Goods business this season, we now place our entire stock on the market at

WHOLESALE PRICES. NO RESERVE.
EVERYTHING MUST BE SOLD.

$6,000 worth of Clothing, Hats and Men's Furnishings.
$20,000 worth of Dry Goods, Carpets, Oil Cloths and House Furnishing Goods, etc.

☞As we are known to carry one of the largest and best assorted stocks in the Province, it will not be necessary to enumerate. An early inspection will convince the public that we mean business, and that the stock must be closed out before the end of this season; therefore we have placed our goods at prices lower than have ever been offered before in this Province.

REMEMBER—The Stock must be closed out by the end of the year.
CALL EARLY WHILE THE ASSORTMENT IS GOOD.

TERMS—Under $100, cash; over $100, secured notes at three months, with interest.
