NOTES AND COMMENTS.

Stranger (to cashier in restaurant)—"Is the proprietor in?" Cashier—"No, sir; he has just gone out to get something to eat. Back in a few minutes, sir."

A western paper has improved on the phrase "in our midst" by making it "in our immediate midst." Some day, perhaps, it will tell of an incident that happened "in its remote midst."

Monarch, survey, dispute and several other words were spoken of. "Now, tell me what a brute is," said the teacher. "I know," answered a little German boy, "that's a lady what's just got married."

By a return brought down in the senate recently it appears that there were 104 veterans of the war of 1812 living on July 1 last, of which 24 reside in Ontario, 52 in Quebec, 4 in New Brunswick, 1 in Nova Scotia, 1 in Manitoba and 4 in the United States. Each receives an annual pension of $30.

Brander Matthews, writing on "The Dramatic Outlook in America," which will be published in *Harper's Magazine* for May, finds evidence of an improvement in the quality as well as in the quantity of the plays written in Great Britain and the United States. The weakest point in American drama, he says, is that the playwright here has not taken the trouble to learn the theatrical technique.

The dismissal of Postmaster Pearson, of New York, to make room for one of the new president's prominent supporters, is exciting much comment. He is not only a model officer, but a Republican, and the fact that President Cleveland refused to remove him, while President Harrison has done so to make room for a hungry placeman, is significant of the difference between the two administrations. It seems to cast a little backward light, also, on the means by which the Republican victory was gained.

The following extract is taken from "Evelyn's Diary," and refers to a Dutch woman, who lived in the seventeenth century:—"Towards the end of August I returned to Haarlem. They showed us a cottage where they told us dwelt a woman who had been married to her twenty-fifth husband, and, being now a widow, had been prohibited to marry in the future; yet it could not be proved that she had ever made away with any of her husbands, though the suspicion had brought her divers times into trouble."

Mr. Secretary Blaine and the Maine senators are said to be hatching an "agressive" policy for the approaching fishing season. Senator Frey wants no negotiation, but a "dignified" insistance on the American "rights"—whatever they may be. But there is a pretty general feeling in Canada that we have gone as far in the way of surrender of our "rights" as it is all "dignified" to go. It ought to be quite safe to say that the two nations which lead the van of civilization could not quarrel seriously over a few codfish; but the fact remains that bullying aggression must be resisted at all costs and hazards.

India-rubber pavement was invented by the German engineer Busse, in Linden, near Hanover, and was first practically used about fifteen months ago for paving the roadway over the Goethe bridge in Hanover. The first experiment proved so successful that during the present year another street in Hanover was paved with india-rubber to the extent of 1,500 square metres. Berlin is considering the advisability of availing itself of the same pavement, and has given it a trial by laying it down over a considerable distance near the Lutzow bank, which example is being followed by Hamburg. The india-rubber pavement is said to combine great elasticity with the hardness of stone, to be completely noiseless, and to suffer neither from cold or hot weather. Moreover, it is not slippery like asphalt, and is more durable.—*Building.*

"I have seen many narrow escapes from death and witnessed many thrilling incidents," said veteran James Tilghman, of Queen Anne's County. Mr. Tilghman was a brave and intrepid officer in Gen. J. E. B. Stuart's command, and is now a prominent member of the Maryland Confederate societies. Because of his reckless daring and chivalrous dash he was dubbed "Headlong Jim Tilghman" during the war, and the name has clung to him ever since. "One of the most laughable incidents I ever witnessed while under fire," he continued, "was the conduct of a long, lank North Carolinian in the wilderness. His leg had been shot off early in the war, and he was supplied with a wooden one, with which, strange to say, he got about with remarkable facility. One day he was charging with his company, and was climbing over a fence, when spat! a minnie ball buried itself in his wooden leg. Ejecting an immense stream of tobacco juice, 'Darn ye, I fooled ye that time!' he yelled triumphantly, and rushed on with his comrades."—*Ex.*

PRISONER'S REVOLT.

MONTREAL, April 18.—The prisoners in the jail at St. Joseph De La Beauce, between Montreal and Quebec, revolted last night and shot down jailor Gadbout and police sergeant Harper. Five convicts escaped. The jailer's young daughter gave an alarm to the villagers, who helped to secure the riotous prisoners. Two of the escaped prisoners, were captured. The police of Montreal are tracking the others.

FELL 175 FEET.

NIAGARA FALLS, N. Y., April 18.—James Munda, an Italian workman, employed on the new Suspension bridge, lost his footing this morning and fell to the water 175 feet below. He rose to the surface and swam towards the boats that put out from the shore for his rescue, but sank exhausted before he could be reached and drowned.

A HARDENED WRETCH.

HARTFORD, Conn., April 18.—John H. Swift was hanged in the jail yard here this morning for murdering his wife on July 7th 1887. He died coolly and unconcerned.

NO TRACE YET.

NEW YORK, April 18.—The agents of Thingvalla line report again no news whatever has been received of fate of the passengers and crew of the S. S. Denmark. The "Alastia," of the Anchor Line, arrived from Gibralter to-day, but her officers had seen no trace of lost vessel or her passengers.

A DRESSMAKER SUICIDES.

SAN FRANCISCO, April 18.—Mrs. Mary Darling, a dressmaker, 25 years of age, the wife of a coachman shot and killed herself with a revolver last night. Business losses and despondency were the cause.

HUGE ICEBERG.

NEW YORK, April 18.—The steamer Darial from New Castle reports having passed a iceberg fully 150 feet high and over 600 feet long on April 2nd. A number of shipping men believe that this iceberg disabled the steamer Denmark.

A CHANCE FOR YATCHTSMEN.

BOSTON, April 18.—General Paine, owner of the yatcht Volunteer which won the international yatcht race last year, has given an elaborate cup to the eastern yatcht club of this city. The secretary of the club has issued the following circular: A challenge cup for international matches between yatchts not exceeding seventy feet water lines has been offered to eastern yatcht club and has been accepted. The club now announces that a match of one or more races will be sailed for the said international cup after the races for the America cup.

NO NEWS OF THE DENMARK.

NEW YORK, April 18.—No news has been received by incoming vessels today of the str. Denmark's passengers.

A TERRIBLE ACCIDENT.

NEW YORK, April 18.—Michael Early, a lineman engaged in removing the wires from the poles on Sixth ave., which are being cut down by the city, was killed this morning. Hugh Reilly, another lineman, severely injured. The accident occurred shortly after 9 o'clock. Work began to-day at seven o'clock. One gang of men continued cutting the wires from 25th st. up, and another began at 23rd st. and took down the poles from which wires had been stripped. About nine o'clock a pole in front of 38th and 6 ave. was reached and two men began to chop the pole while others guided it away from the store windows. On account of the elevated roads it was necessary to support the poles with guy ropes in order to allow them to fall sideways into the street. Early and Reilly were detailed to fasten the guy ropes to the upper part of the building opposite the pole, and managed to lower the ropes from the third story. Those were attached to the top of the pole and drawn tight by the two men. Early was astride the rope and Reilly was standing outside the window holding the rope. At 9:20 the axemen finished and a signal was given to lower he pole. It fell with a crash toward 23rd st. and as it fell loud cries of horror arose from the crowd. The two men had fallen to the ground. Early was lying flat on his face and Reilly on top of him. The crowd rushed to the spot and willing hands lifted Reilly, who was partly conscious, and took him to a neighboring saloon. Early presented a horrible appearance, his head being crushed and blood gushed from five wounds. An ambulance was summoned from the New York hospital and the surgeon who accompanied it said Reilly would probably die in a few minutes. He could find no external injuries but thought he was fatally injured internally. Early was killed instantly. The body was removed to a police station. The men in charge of the work say the accident was due to the men not keeping clear of the guy ropes.

AN AWFUL CRIME.

SPRINGFIELD, Mass., April 18.—Jos. King, a wealthy citizen, 78 years of age, residing at West Farms, a farming hamlet near Westfield Centre, was shot and killed to-day by Edgar King, his eldest son, and the house set on fire and destroyed. Sometime after a shot was heard and the murderer was found lying in a pool of blood, having shot himself. The cause of the crime is traceable to an unbalanced mind. The murderer and suicide had planned the deeds. Four days ago he gave Charles A. Clark a sealed manuscript which he was requested to keep and not open it until some time in the future. The papers were read and revealed the determination of Edgar to kill his father, besides ending his own life. The story of the shooting is brief. At 2 o'clock this morning Mr. King was lying asleep in bed and his wife, who had not undressed, was on the sofa in the some room. The latter was awakened by a revolver shot. The son had stolen in through the sitting room and aimed three shots at his father, one of which took effect over the right eye, one in the neck and the other in the breast. Death was instantaneous. His reply to his mother's pleadings was to send for Clark. He then vainly endeavored to enter the room occupied by his two aunts, Mrs. Tuttle and Mrs. Moore, and failing in this he retired and set fire to the house. The women's screams brought neighbors to the scene. A farm hand, Horace Clapp, removed the dead body from the burning house and a search was made for the murderer, and it was not until some three hours later that the revolver shot attracted attention to the spot, where he was found in dying condition. He died an hour after. The two bodies to-day were viewed by a medical examiner from Westfield, and that of the son was buried this afternoon in manner requested in his manuscript. A pine box only was used and four neighbors, whose names he specified were present; no members of the family attended.

PURELY IMAGINATIVE.

BOSTON, April 18—Charles Francis Adams, president of the Union Pacific, says the report that his company will reduce the guarantee on the Oregon Railway and Navigation Company's stock, is purely imaginative.

FIRE.

LOS ANGELES, Cal., April 18.—The fire in the press room of the Tribune late last night, caused twenty thousand dollars worth of damage.

DROWNED.

HELENA, Montana, April 18.—At Great Falls yesterday, a team ran away with A. G. Benson, one of the leading merchants of this town. The team plunged into the river and Benson, who made vigorous efforts to rescue them, was carried under and drowned.

APPOINTMENTS.

WASHINGTON, April 18.—The president to-day made the following appointments: Edward S. Lacey, of Mich., to be comptroller of currency; Timothy Grey Phelps to be the collector of customs for the district of San Francisco.

STRANGE DISAPPEARANCE.

MINNEAPOLIS, April 18.—Louis Holman, night clerk of the Northern Pacific Express Company, at Brainerd, Minn., this morning received two pkgs. of money, consigned to the 1st National Bank. One contained $15,000 in silver, the other $15,000 in gold. He says he put them in the safe and locked it. Later, when he went to check up, the gold package was missing, and cannot be found.

ELECTRIC PATENTS.

NEW YORK, April 18.—Two patents for the inventions of Eda Weston, ten years ago, covering the armature of electric lighting dynamos and motors now in use, have just been issued to the Westinghouse Electric Co., and are said to constitute a new element of great strength to the Sawyer-Mann-Westinghouse combination. The Edison Co. has taken license under these two patents.

O'CONNOR-SEARLE.

SAN FRANCISCO, April 17.—Wm. O'Connor, champion oarsman of America, received the following cablegram from Searle, the Australian champion, to-day:

SYDNEY, N.S.W., April 17.
To O'CONNOR, San Francisco—England; yes; September; money *Sportsman*. Answer. (Signed) SEARLE.

O'Connor immediately despatched a reply as follows:

SEARLE, Sydney, N.S.W., Terms accepted. (Signed) O'CONNOR.

To a postal press reporter, O'Connor stated that all this telegraphing meant was that he had at last arranged a match with Searle to take place on the Thames, England, in the latter part of September. "I will leave San Francisco," he said, "on Monday next, and go to Tacoma, W. T., where I will row for a purse on May 18th, and at Victoria on May 24th. Toronto, my home, will see me in the first week of June, and then I will make arrangements for the race, sailing for England on the 15th of June. Now that the match has been made, all my other engagements but the Tacoma and Victoria ones will be cancelled." The Hamm-Peterson race, which is to be rowed on Alameda creek, has been postponed from April 26th to May 5th.

OTTAWA NOTES.

OTTAWA, April 17.—Mr. Holton will ask on Monday if the arrangement has been concluded between the Imperial authorities and the Canadian government respecting the defence of the coast of British Columbia.

Mr. Chisholm, M. P., will be convalescent in a few days.

Mr. Weldon's extradition treaty bill, enlarging the scope of extraditable offences and providing for an exchange of prisoners with countries having no extradition treaty with Canada, is sure to become law this session. The government has given notice to transfer it to the government orders. Mr. Weldon is the authority of the bill, which is retroactive in principle. He has received a number of threatening letters, supposed to be from American fugitives.

In the votes to railways to be considered on Thursday, the aggregate of $1,500,000 includes $31,000 to the Alberta Southern Railway.

The house will adjourn on Good Friday but sit on Saturday.

Sir John Macdonald, in reply to Mr. Barrod, said that the government will neither seek to test the constitutionalty of the Jesuit Eestates' Act nor make a grant to enable others to do so.

The bill to amend the customs act passed to-day without opposition.

Mr. Bowell has granted the request of the mercantile community, as he moved in committee to strike out the clauses which provided for adding the cost in land transportation to the dutiable value of imported goods, and also to provide that when the parts of any manufactured article are imported the duty shall be at the same rates as the duty on the completed articles.

One thousand Orangemen met at Bell Corners near here to-day and censured the government and Mr. Dickinson, M. P., respecting their attitude on the Jesuit question. Strong resolutions were adopted.

Navigation is fully opened at Montreal and the ferries will be running to-day.

EDINBURG'S FREEDOM

Mr. Parnell will be Given the Freedom of Auld Reekie at His Next Visit.

Furious Snow Storms in Germany Cause Great Suffering, and Serious Floods Probable.

Sir Charles Russell's Speech in the Parnell Defence to be Published in Book Form.

PARNELL HONORED.

EDINBURGH, April 18.—The town council of Edinburgh has decided by a vote of 8 to 5 to confer the freedom of the city on Parnell.

SHORT STOCKS.

LONDON, April 18.—The only excitement perceptible this week is in sugar, trade and it is felt from the Clyde to the Danube. Complaints of the rise in prices are especially strong from Germany and Austria. The estimate of the visible supply of sugar makes 3,500,000 tons less than it was in the corresponding week of last year.

COPPER.

LONDON, April 18.—The Thursis mine offered first class copper ingots in the Glasgow market to-day at £66.

FURIOUS SNOW STORMS.

BERLIN, April 18.—There have been furious snow storms in Silesia, which have added to the distress caused by the recent floods, and may cause a renewal of the latter.

LABOUCHERE'S CABLE.

LONDON, April 18.—Queen Victoria comes up to Buckingham Palace on Tuesday week and will hold the postponed drawing room on Wednesday, 1st of May, returning next day to Windsor as the Princess Beatrice expects her accouchement next month. The queen desires to get the drawing room over as soon as possible, and the two next ones will probably be held by the Princess of Wales.

ELECTRIC LIGHTING.

From July to November, the Paris boulevards are to be lighted by electricity.

THE VICEROY OF IRELAND.

Lord Londonderry is desperately anxious to resign the viceroyalty of Ireland, but at present Lord Salisbury cannot get anyone to take his place. It is all vastly fine for Mr. Balfour to pay vapid compliments to the Marquis of Londonderry for consenting to retain his office beyond the term of two years upon which he originally undertook it, but somebody knows better than himself that Lord Londonderry received valuable consideration as a reward for his complacency, in the shape of the late Duke of Rutland's Garter, for which he had no claim whatever, but which was flung at him by Lord Salisbury simply as a bribe to keep him at Dublin for another year.

A GOOD MATCH.

The marriage between Prince Christian of Denmark, eldest son of the crown prince, and his cousin Princess Maud of Wales, would be very acceptable at Marlborough House. Prince Christian, who was born in September 1870 is ten months younger than the princess and will be very rich, and he is to inherit the bulk of the immense fortune which came to his mother from her grandfather, Prince Frederick of Netherlands; and she had a dowery from her father, the late king of Sweden.

Lord Dufferin is building a composite yacht at Nivenhoe.

BOOKS AND LETTERS.

Prosper Merimees "*Letters a Une Inconnu*," excited considerable interest owing to the frank expression of Merimees opinions respecting men and women of the French Imperial court. A book has just been published called "An Authors Love," which is by the way of being a series of answers to these letters. The *jeu d'esprit* is very cleverly carried out. The book is not, as the London *World* states, by an American lady.

SIR CHAS. RUSSELL'S SPEECH.

The speech of Sir Chas. Russell in presenting Mr. Parnell's case to the royal commission is to be published as a book in edition *de luxe*, and also in pamphlet form.

DISCOUNT.

LONDON, April 18.—The Bank of England rate of discount to-day is 2½ per cent.

ADMITTED TO BAIL.

DUBLIN, April 18.—Father McFadden, arrested on charge of being implicated in the murder of police inspector Martin, at Gweedore, was admitted to bail, the counsel for the crown consenting.

SUGAR SWEETER.

LONDON, April 18.—The Clyde sugar market is again excited over crushed sugar. Twenty minutes after the market opened to-day everything was sold and prices immediately went a shilling higher.

PARNELL'S SUIT.

LONDON, April 17.—Mr. Parnell has engaged Mr. Arthur Russell in his libel suit against the *Times*. The trial will come off next autumn. The charges are that the *Times* published a *fac simile* of a letter falsely ascribed to Mr. Parnell in 1887 and various other forgeries ascribed to Mr. Parnell. The case will be confined to the forged letters.

THE TRADE IRRITATED.

LONDON, April 17.—There is intense irritation throughout the beer trade over the proposal of Mr. Goschen to increase the tax on malt liquors. The brewers held a meeting to discuss matters, and have informed Mr. Goschen that a deputation representing them will wait upon him to protest against his method of imposing what is apparently to be a permanent tax upon their product. Mr. Goschen is reminded by these gentlemen that Mr. Gladstone once attempted to raise a tax on beer, and lost the premiership in consequence.

THE SAME STORY.

QUEENSTON, April 18.—The National line S. S. Queen, from New York, April 4th, arrived to-day. She passed over the same course as the City of Chester, which sighted the abandoned Denmark. She reports she neither heard nor saw anything of the Denmark nor of her missing passengers and crew.

The lawyers have by common consent agreed to close their offices from this evening till Tuesday morning, which action will be heartily appreciated by citizens in general.

The first base ball match of the season will take place on the athletic ground to-morrow afternoon. The opposing teams will be the first and second "nines" of the Westminster club.

D. J. Levy, of 61, Johnston street, Victoria, B. C., is the only agent H. L. Gabel has in British Columbia. Hold your orders; he will be in New Westminster on or about May 1st, 1889. *tc

The forged notes cases came before Capt. Pittendrigh this morning at the police court, and the charge against J. King was withdrawn by the crown. The other cases were adjourned till Wednesday next.

To-morrow being Good Friday, and a public holiday, there will, according to custom, be no issue of THE COLUMBIAN. The newspaper toiler works perhaps harder than any other class, and consequently needs and appreciates a holiday as much as anyone.

200 lots on the Thorne road, from $65 upwards, on monthly instalments of $10, without interest. These lots are only two blocks from the park, have a good view, are mostly cleared and are only four blocks from the new store. Apply to WM. REIDT, Front street. *

The Westminster rifles were served out with a complete new kit at the parade last night. This fine corps is now better accoutred than any in the province and fully as well as the crack corps of Montreal and Toronto. The new tunics are very handsome and soldier-like.

Children Cry for Pitcher's Castoria

Apart from the early service at Holy Trinity church to-morrow, there will be a special long service commencing at 12 noon and ending at 3 o'clock. It is particularly requested by the rector that the people will refrain from entering or leaving the church during prayers.

Three thousand dollars were offered for a quartz claim on Texada Island yesterday. There is a shaft sunk on the property to the depth of fifteen feet and there is some promising ore in sight. The owner refused the offer point blank. Right here we want to say that our claim has so far returned us a number of "Irish dividends." But then some people are born lucky.—*Courier.*

The str. Princess Louise for Westminster this morning carried away from here the largest single shipment of freight ever known. The shipment consisted of furniture and interior fittings and decorations for a new hotel to be opened shortly at the Royal City named the Queen's. The whole measured 64 tons; is valued at $6,000 and was manufactured by Mr. Jacob Sehl. —*Wednesday's Times.*

The name of the sealing schooner Anna Beck, recently sold by auction at Port Townsend, has been changed to the "James G. Swan." It had been intended to call the schooner "The Duke of York" (after a celebrated Indian chief now dead), but the deceased Indian's son, the "Prince of Wales," objected to the name, as the Indians would think the spirit of the dead duke was sailing around Behrings sea instead of being in heaven.—*Colonist.*

Wonderful Meetings.

The Salvation Army announces a series of "wonderful meetings" to be held on Monday, Tuesday, Wednesday and Thursday of next week. A large number of officers from Victoria, Vancouver and Nanaimo will be present, and the Vancouver brass band will also be in attendance. The meetings on the first three days will be held in Herring's opera house, and the last meeting in the Salvation barracks. Major Young will lead the van, and a most interesting time is promised.

Navigation in American Channels.

Messrs. Prior, Gordon and Mara, M. P.'s, interviewed Hon. Mr. Bowell relative to securing permission from the American Government for the C. P. Navigation Co's vessels to navigate the American channels by what is known as the inside passage. At present U. S. vessels bound for Alaska are allowed to utilize certain Canadian channels between the islands without let or hindrance. The C. P. N. Co. is this year going to put a magnificent vessel on the Alaska route and accordingly seeks the necessary permission to traverse U. S. waters. Hon. Mr. Bowell said he would take up the question with the U. S. authorities at once.

The Largest Casting.

The largest casting which has been manufactured by the Vancouver foundry was turned out on Wednesday in a most successful manner. The casting is the bedplate for the tug boat which is being built by the Royal City Planing Mills. The casting weighs 3½ tons and measures 5 feet by 8. It is strongly ribbed and is good proof of the excellent work which can be turned out here. Besides this there is a large quantity of other work finished and ready to be taken away. Included in this is a condenser for the boat above mentioned and a large number of columns for supporting the fronts of buildings. The manager of the foundry has just closed a contract for building the engines, boilers, etc., of a large steamer. The contract will amount to about $10,000.—*News-Advertiser.*

The Fish Hatcheries.

The number of young fish of all kinds that were hatched and turned out from the several fish hatcheries in the Dominion last year was enormously large, aggregating over 88,000,000. This quantity is far in excess of any previous year. The classification and species were as follows:

Atlantic salmon	8,156,000
Pacific salmon	5,807,000
Salmon trout (Great Lakes)	7,320,000
Brook trout	176,000
Pickerel (Dore)	25,000,000
Black bass (small mouth)	1,000,000
Whitefish	40,650,000

If the fisheries of our lakes and rivers are to be preserved, it is only by maintaining the hatcheries in a high state of perfection, and it is satisfactory to learn that under Superintendent Wilmot the annual product is increasing.

Dredging the Fraser for Gold.

Mr. W. Baines, of Victoria, is in the city, having returned from Boston Bar where he has been locating a section of the Fraser river for the purpose of dredging it for its hidden wealth. Mr. Baines represents a company of English capitalists and has made application on their behalf, to the provincial government for a lease of the section of the river that he staked off. The company has been in readiness for some time to commence operations, but was awaiting the decision of the privy council with respect to the ownership of precious metals in the Railway Belt in British Columbia. Immediately on securing the lease the company will ship all the necessary machinery and appliances for the work from England, and commence active operations.

Who is He?

A romantic story connected with a young Frenchman at Fall River has just been brought to light. His name is Tancred Roussel, and he was left an orphan in Canada at the age of ten years. He had a brother who left home twenty-one years ago—two years before Tancred was born—and consequently the latter never knew of his whereabouts. Some time ago Tancred went from Fall River to Bristol, R. I., to work as a mason's apprentice, and one day entered into conversation with a fellow-employee about his former home in Canada. When he told the workman his name and the circumstances of his life, the latter replied that he knew of another orphan surnamed Roussel, immensely rich, who resided in British Columbia, Canada, and suggested that he might be the brother whom Tancred had doubt of ever being able to find his brother, but finally was induced to send a letter to British Columbia to inquire about the matter. He received a reply asking him to give the names of his father and mother as a proof of his identity. The names were right and the two brothers have been united.—*Rochester Democrat.*

VICTORIA NEWS.

The Theresa Arrives with Rudder Gone and Lays Up for Repairs.—An American Surgeon Thinks Behring's Sea will be Kept Closed.

Special to the Columbian.

The schooner Theresa has arrived from the sealing grounds with her rudder carried away and her keel sprung. She has been hauled up for repairs. She has 150 sealskins.

Dr. Rush, surgeon of the U. S. gunboat Pinta, who has been stationed on the Alaska coast for the past five years, stated yesterday his opinion that the U. S. government would strictly enforce President Harrison's proclamation closing Behring's Sea. In relation to the charges preferred by Gov. Swineford against the Alaska Commercial Co., he says it is his belief the accusations are mainly true. Gov. Swineford made a tour through the country, observed for himself, took copious notes of the actual condition of affairs and reported accordingly.

A Few Minutes Late.

The provincial police last evening received information that a nineteenth century exhibition of barbarism, known to sports as a "prize fight," was in progress at the Victoria driving park. Supt. Roycraft and a posse at once visited the place, but found that the birds had flown. The battle—bare knuckles to a finish—had been fought for $100 a side, between Clem Austin of Vancouver and Billy Nicholles of Victoria; and had been won by the former in 1¼ minutes. It was most unfortunate that the information received by the police came just a few minutes to late, and thereby prevented them from "running in" as disreputable a crowd of rowdies as ever disgraced Victoria with their presence. —*Colonist.*

Annoying the Army.

The Salvation Army is continually subjected to uncomfortable annoyances which would be the cause of a tremendous uproar were any other religious sect the sufferers. Last night a drunken man broke into the circle, while prayer was being held on the corner of Mary and Columbia streets, and wanted to address the meeting. Luckily a policeman happened along and took him to the lockup. This morning he was fined $2.50 and costs. At the meeting in the barracks later on, two drunken men, after listening to the proceedings for a time, went to the door, stouted "Rats!" and scampered off. Such conduct as this must not be allowed, and the Salvation Army must be properly protected, the same as any other religious body.

Press Notes.

The Victoria *Colonist* came out in a new dress on Tuesday, a considerable improvement.

The Blaine *Journal* has passed out of the hands of Cain Bros., and Jos. W. Dorr, the editor, is now proprietor as well. We wish the *Journal* every success under the new management.

A copy of the first number of the Seattle *Leader* is to hand. This is a large eight page weekly, printed on superior paper and devoted to the cause of temperance, and moral reform.

The St. John (N. B.) *Sun* has issued a handsome extra edition of 24 pages. The number is printed on toned paper, and, with the illustrations and the statistical and descriptive matter, is a most creditable publication, and one which speaks well for the enterprise and progress of the "blue nose" city.

The Whitechapel Fiends.

The rising generation of Westminster, if not successful in filling all the high offices in the gift of the country, are most likely to swell the list of inmates in our penitentiaries and reformatories. Some fifteen boys, all of worthy families, whose ages run from 10 to 16 years, have banded together and formed a society which is known by the name of the "whitechapel fiends." They have signs, signals, passwords, grips and peculiar whistles, all of which are most religiously guarded from the uninitiated. Although the title of the society is about as horrible as could be chosen, the boys are far from being fiends in the sense implied. In fact they are not by any means a desperate lot, but what they may eventually become is hard to even guess at. The "fiends" had a club house under Front street, admittance to which was obtained by passing under one of the wharves. The police discovered the rendezvous and forced the youths to seek other quarters, which they did, and so successfully that the authorities tried in vain for some weeks to discover the location. The boys were jubilant and openly laughed at the efforts of the police to find them out. Yesterday chief of police Pearce struck the right trail and successfully located the gathering place of the "fiends." The shell of a huge burnt log, a short distance off Fortescue st., near the slaughter house, was found to be the rendezvous of these wayward youths. Earth had been thrown up on either side, and a portion of the entrance closed up, leaving a hole only large enough for a boy to crawl through. Over the whole was scattered green boughs, and to a casual observer nothing unusual struck the eye. In front of the entrance a handy fire place was arranged, and scattered about were a number of cooking utensiles. The inside was arranged with seats and shelves, and was large enough to accommodate a dozen boys with comfort. The floor was covered with cigarette and cigar stumps, cigarette papers and tobacco wrappers. From the signs observable the chief is of the opinion that many chickens from neighboring roosts have met with an untimely end in this old log. Before leaving Chief Pearce destroyed the club house so that it can never be used for the same purpose again. THE COLUMBIAN has frequently called the attention of parents to the folly of allowing their boys to remain out after dark, but the effect has only been temporary. What happened in Vancouver a few months ago, when the boys formed a society for committing petty thefts, may be repeated in this city, and, if so, the fault will lie more with the parents than with the boys.

It is reported that Morrison, the Megantic, Que., outlaw, has been cornered in a copper mine, which is now surrounded with police, and that his arrest will be effected shortly.

Frank Clarke, the only occupant of F. Clarke's banking house, London, Ont., was astonished Tuesday afternoon when one of two men who had entered the office presented a pistol at his head and demanded what funds were on hand in the bank at that time. Frank, as quick as lightning, seized the revolver, and a struggle ensued, during which the would-be robbers decamped. They are being watched for, and as Clarke can describe them, their capture is almost a certainty.
