FIFTY CENTS A MONTH

## KOOTENAY FIRST

Should be Motto of Local Fruit Men

## EASE HELPING RIVALS

K. Lindsey Advises Independent Work Instead of Contributing to Provincial Exhibit.

In the report of the quarterly meeting of the British Columbia Fruit Growers' Association, held last night, which appears on the third page of this issue, Maxwell Smith is quoted as saying that the prairie provinces of Canada—he objected to the term "Northwest"—as applied to them—would remain the best market for British Columbia fruit, and that, while triumphs at exhibitions in London were invaluable as advertisements for the province, the greatest and best efforts should be devoted to gaining the favored place already secured in the markets of the prairie provinces.

Another visitor to the city, interviewed last night, emphasized the same point, and added many things that may be found worthy of serious consideration by Kootenay fruit growers.

R. K. Lindsey, of Winnipeg, western manager for the Montreal Star, has spent several weeks travelling round Kootenay in the interest of the Star and of several other enterprises with which he is connected. He fully endorses the claims of the local fruit men, but this district is not inferior as a fruit country to any other in Canada, and urges that even greater efforts than in the past be made to impress that fact upon the Canadian public, especially the public of Manitoba, Saskatchewan and Alberta. Mr. Lindsey says:

"To the great majority of people in Manitoba, British Columbia fruit land means only Okanagan. The fame of the Okanagan and other large fruit patches has produced that result. It should be the aim of Kootenay men to get a name for their own fruit. That cannot be achieved by participating in general provincial exhibits, but only by special Kootenay exhibits.

"I am convinced that Kootenay is a better fruit country than Okanagan. Its product is at least equally good, the land requires no irrigation, and transportation facilities are far superior.

"I have seen in The Canadian that the Kootenay Fruit Growers' Association will send exhibits to the Winnipeg fair and a few others. That is an excellent move; but they should do more. They should exhibit at all the prairie fairs.

"Every farmer who grows wealthy in the prairie is going to move sooner or later to a milder climate. At present Okanagan is getting a hundred to Kootenay's ten. That proportion can be reversed.

"Exhibits should be accompanied by strings of photographs, as many as possible. Your people here don't seem to realize how keen the interest is. Every one examines such photographs.

"There would be no expense in sending such exhibits, and a good profit instead. I am certain that the C. P. R. company will give free transportation. The salary of a man in charge for about three months would be the chief cost, and that would be more than paid by the profit on sales. Mr. Palmer sold every pound of fruit he had last year in the provincial exhibit, and got top prices for the whole of it. The fruit could be replaced regularly, and the first consignments sold to advantage.

"See what would be accomplished by this move. The ranchers would be selling their fruit in the best market they have and improving their hold on it; they would be advertising their resources in the best possible way, and they would be interesting and attracting more ranchers to this district by the best class, successful farmers with both capital and experience."

## A FRATERNAL EMBLEM.

Masonic Symbol to Travel Round the World.

Chicago, July 6.—Eight hundred Masons of Illinois, Ohio, Indiana and Wisconsin assembled at the Englewood Masonic temple last night to witness the presentation of the Masonic silver trowel to the Mystic Star lodge of Englewood. The trowel, which is to travel round the globe as a symbol of brotherly love and affection in the order, is to remain in possession of the local lodge for thirty days and then continue on its long journey. The trowel was started on its trip by the Justice lodge of New York city last October,

and already has passed to seven different grand jurisdictions and states in the United States and Canada. Twelve years will be required for it to go the required journey.

## WANTED TWO MAILS A MONTH.

Edmonton's Aspirations 25 Years Ago—An Interesting Relic.

E. F. Gigot, manager of the Hudson's Bay Company's store in Nelson, has in his possession a copy of the sixth number of the first volume of the Edmonton Bulletin, the publication of which was begun by Frank Oliver, now minister of the interior, in 1881.

The Bulletin was then a four-page paper, but the pages were about six inches long and four inches wide. It was then a weekly.

The most interesting thing in Mr. Gigot's copy is the editorial urging united effort on the part of the citizens of Edmonton to secure a semi-monthly mail service to and from Winnipeg and Port Macleod. That was 25 years ago. Now Edmonton is the capital city of a big rich province, and will soon be one of the most important points on the line of three transcontinental railways.

## ECHOES FROM HENLEY

BELGIANS' VICTORY UNEXPECTED, BUT POPULAR.

Sketch of Members of Argonaut Crew—Winners' Advantage in Having Pick of Their Country.

The Belgian eight carried off the world's championship and the grand challenge cup at the Henley regatta held yesterday, and for the first time a foreign crew will hold the trophy for 12 months. A great deal was expected from the Argonauts of Toronto. Every man in the Canadian crew was a giant in stature and trained to the limit. They defeated the First Trinity (Cambridge) crew and the Thames rowing club, but went down to defeat before the Cambridge crew in the semi-finals. The victory of the Nautique de Gand eight was unexpected, and the time made, 7 minutes and 9 seconds, is 18 seconds over the record made on the same course by the New College eight in 1897. For some unexplained reason the Leander club did not enter a crew, and it was known that the sympathies of the members were with the Argonauts. The Leanders held the championship for nine years.

Three lengths separated the Belgians from the Englishmen at the finish of the race, and it was apparent that the Canadian and Cambridge crews were no match at any time for the plucky foreigners. They have contested annually, and the pick of Belgium's best oarsmen proved that it is not a wise course to divide up the crews in the manner adopted by the English. The universities of the United States and England enter a number of boats, and the clubs of the various cities also take part. In the second heat, when the Argonauts defeated the Thames Rowing Club, the time made was 5 seconds faster than the winners were called on to row in order to defeat the Trinity Hall crew in yesterday's race. The victory of the Belgians was unexpected, and now that the fatal thirteenth contest for the championship has resulted in the downfall of the crack teams of England and America, it is to be hoped that the next regatta will find the trophy in the hands of a crew from the Canadian side. The Belgians met defeat year after year, but their persistence ended in victory. They deserve the congratulations showered upon them, and will, no doubt, make every effort to retain the proud position won after so many struggles against the best oarsmen in the world.

The Argonaut crew, with their ages and weights, are as follows:

Weight, Age, Height.  
Joe White (stroke).185 42 6.1 1/2  
Don Mackenzie (7).170 30 6.4  
Body (6).....175 28 6  
Fellows (5).....197 21 6.5  
Walsh (4).....187 28 6.4  
Kent (3).....174 28 6  
Grubbe (2).....175 24 6.3 1/2  
Thompson (bow).165 24 6.1  
Lou Dixon (spare).160 25 6  
London (cox).....115 — —

This makes an average weight of 176 1/2, average age, 28, average height, 6 feet 2 inches.

Don Mackenzie is a brother of Archie Mackenzie of Rossland.

Not Dead Yet.

Revelstoke, July 6.—W. C. Wells, M. P., has again determined to be a candidate in the Liberal contest for Northeast Kootenay. He had intended retiring from politics, but on his recent trip through the district he met with such an enthusiastic reception everywhere that he has determined to run again. It is stated that Mike Carlin again. It is stated that Mike Carlin again. It is stated that Mike Carlin again.

Franchise Assessments.

Sacramento, Cal., July 6.—Both the Western Union and the Postal Telegraph companies have been assessed

here on their franchises, and are making a fight before the local board of equalization on the ground that if Sacramento can enforce the payment of tax on franchises, every city, town and hamlet in the county where they have offices may do likewise. The contention is made on behalf of the companies that they are operating under federal franchises, and therefore are not amenable to laws imposing franchise taxes in cities and towns.

## SUSPENSION OF HOSTILITIES.

Salvador and Guatemala to Become Reconciled.

Washington, July 6.—The state department has been notified through a cablegram from American Minister Coombs, dated yesterday at Guatemala City, that efforts are being made to prevent hostilities between Guatemala and Salvador as a result of an alleged breach of neutrality by Salvador during the progress of the insurrection which has just failed. Mr. Coombs says that Senor Paez, a special envoy appointed by the president of Salvador, is already on his way to this city, and he (Mr. Coombs) is about to leave immediately for Washington to confer here with Senor Paez and the officials of the state department and endeavor by negotiation to bring about a peaceful settlement of the difficulty. Meanwhile the government of Guatemala has agreed to suspend preparations for war with Salvador pending the conclusion of the peace conference at Washington.

## WILD LIFE.

Victoria Magazine Devoted to British Columbia Sports.

The July number of Wild Life, of Victoria, a magazine of sports, is to hand. It is an excellent number, full of interesting articles on British Columbia recreations.

Dan O'Sullivan, the veteran coach of the James Bay Club, contributes an article on Amateur Rowing in Victoria; W. F. Burton describes "My First Grizzly;" Rev. W. W. Boulton writes on boxing and lacrosse, while ladies' hockey, baseball, yachting, trap shooting and other sports are also dealt with in interesting style.

J. Irwin, of Nelson, contributes a letter protesting against any further steps towards game protection, and incidentally expressing grave doubts as to the accuracy of hunters' stories for publication.

## ROUND THE BOUNDARY

INDEPENDENCE DAY DULY CELEBRATED.

More High-Grade Ore Locations Are Discovered in Franklin Camp.

(Special to The Daily Canadian.)

Grand Forks, July 6.—The silver medal presented by the Eastern Townships bank for the pupil obtaining the greatest number of marks in division "D," was won by Miss Ethel Cook at the recent school examinations here.

Charles J. McKenzie and Miss Anna Sherrall, both of Grand Forks, were married by the Rev. T. G. McLeod here yesterday. Both the bride and groom are unusually popular young people.

Howard H. Lewis and R. McIntyre, of Seattle, accompanied by George A. McLeod, have just returned from a tour of inspection of Franklin camp, and were greatly impressed with what they saw.

The American portion of the community celebrated the Fourth of July this year in right royal style by exhibiting a most elaborate display of fireworks from a high mountain directly east of the city. The Grandby smelter officials also had some excellent fireworks, which would have done credit anywhere.

The Riverside and Copper are the names of the two rich locations recently made near Franklin City townsite by Dan Morrison. These properties are now being developed by means of surface stripping, and high-grade copper ore is exposed to view on all sides. The ore found is exactly similar to that of the Maple Leaf. It is reported today that a deal of much importance to the camp is pending for the Copper and Riverside claims.

Hank Watlin, a pioneer prospector of the Boundary, has just returned from Franklin camp, where he has been working on the White Bear group. He has been doing stripping work on this group, and has exposed several big copper leads. He says that in one place on the White Bear property there is five acres of ground that wherever you sink shipping ore can be taken out. The White Bear group consists of five claims called the White Bear, Black Bear, Little Cub and Big Cub and the Lucky Jack. This group is owned by a syndicate of Grand Forks business men.

An assay of \$40 in gold alone was made from samples of ore taken from the Dawn property in Franklin camp, which adjoins the White Bear group. The Dawn is owned by Peter Donaldson, of Grand Forks, and others.

## REIGN OF CRIME

Forces Polish Policemen to Resign

## ENGLAND AND FRANCE

Have Demonstrated Sympathy With Russian Democratic Ideals—Germany Opposed.

St. Petersburg, July 6.—The Reich today discussed the efforts made in the British house of commons to induce the government of Great Britain to send a fleet to Cronstadt. It says:

"Whether the fleet comes or does not come, the sympathy of England and the English with the struggle of the Russian democracy for constitutional institutions is already proved. The same is true of France. As regards Germany, she is the sole supporter of the old regime in Russia. Emperor William prefers to maintain the sources of weakness of the Russian state in order to profit thereby. But Emperor Nicholas should remember the danger of outside influence. It was the Duke of Brunswick's threat to destroy Paris if King Louis was harmed, which forfeited the king's head."

Warsaw, Russian Poland, July 6.—The reign of crime and terrorism is so great here that the police have decided to resign. A few days ago, as a measure of protection, the system of police beats was abandoned and the police were formed into patrols for mutual self-protection against bomb throwers and anarchists. But this only made it easier for the terrorists to shoot them. The governor-general, when apprised of the decision of the police to resign, threatened to arrest and punish those who failed to appear for duty.

St. Petersburg, July 6.—During the debate in the lower house of parliament today on the Bialystok report, another priest, Father Arandski, a radical member from the Do provinces, fiercely denounced the policy of the government, which he declared, instead of being directed to pacifying the country, seemed to be deliberately provoking anti-Jewish riots and every manner of class and race riots by the spread of proclamations against the Jews and revolutionists.

Batoum, Trans-Caucasia, July 6.—The mutiny of the troops here is ended. The ringleaders escaped, whereupon their followers yielded and are confined in the fortress.

St. Petersburg, July 6.—Rioting occurred today among the employees of the government printing office, where the plates for the paper currency are engraved and printed. The men left their work and went into the courtyard of the building singing the "Marseillaise." Gendarmes and Cossacks were summoned, and drove back the demonstrators into the building, where, after some parleying, they returned to work.

Interior Minister Stolypin has removed General Kourloff, the governor of Minsk.

General Kourlog was held to be responsible for the anti-Jewish excesses at Minsk in November last, and M. Arakantzeff, in the lower house of the Russian parliament, urged that he be tried on that charge. The higher Russian authorities decided not to prosecute the general.

## REGATTA CREW CHOSEN

NELSON WILL TRY FOR JUNIOR CHAMPIONSHIP.

List of Officials and Committees—James Bays' Representatives for Senior Fours.

The following were named at last night's meeting of the boat club to take charge of arrangements for the regatta of the U. P. A. A. O.:

Commodore—A. Wheeler.  
Vice-commodore—Dr. Hall.  
Ensign—C. Waterman.  
Umpire—R. C. Hart.  
Starters—F. D. Arundel and L. B. DeVeber.  
Judges—Captain Gore, A. H. Buchanan, W. H. Kent.  
Official timekeeper—A. Ker.

## Committees.

Entertainment—Messrs. Smyth, Wragge and Arundel.  
Finance—Messrs. Fraser, Teague and Wragge.  
Program—Messrs. Nott, Manhart and Sharpe.  
Course—Captain Gore, Messrs. Hunter, Larsen, Manhart and McIntosh.  
Decorations—Messrs. A. Perrier,

Fotheringham, Hopkins, Hearn, Bell, Johnstone, Ledwell, H. Manhart, Pate-naude, Bell, Cummins, George Gore and W. Davidson.

Reception—Messrs. H. Briggs, Buchanan, DeVeber, Beattie, Gillespie, Gibbs, Proctor, Robinson, Gilm, Kurtz, Leith, Seattle, McLean and Chief Deasy.

The crew that will represent Nelson in the junior four race will be composed of: Archie Bishop, bow; R. Sharp, No. 2; N. McIntosh, No. 3, and F. Nott, stroke. The crew is the same as that which was only defeated at Portland last year by an accident, except that Archie Bishop replaces Harry Bishop at bow and is replaced by McIntosh as No. 3. Captain E. C. Wragge thinks the crew has an excellent chance of winning the junior championship.

Regatta programs will be published early next week, when entries from Victoria, Vancouver and Portland are received.

In the senior fours the James Bays will be represented by: Austin, bow; Kennedy, No. 2; Jesse, No. 3; Donaldson, stroke.

## ANARCHIST IS FOUND.

Had Almost Reached the Scene of Operations.

New York, July 6.—A despatch from Seattle on July 3rd reported that the police of that city, acting at the instance of the German government, had raided the house formerly occupied by August Rosenberg, a bricklayer, and had found a plant for making bombs and infernal machines. Rosenberg left Seattle for Hamburg, Germany, on May 1st. At that time the German government received a warning from Seattle that an attempt would be made to assassinate the German emperor.

Altona, Prussia, July 6.—An alleged anarchist named Rosenberg, who is reported to have left Seattle, Washington, for Germany recently, was arrested here yesterday.

London, July 6.—A despatch from D. R. McLellan, who is in Seattle, reported that a news agent named August Rosenberg had been arrested with having designs on the Emperor William.

## Beginning Early.

Charlottetown, P. E. I., July 5.—Queen's county Liberals here have nominated ex-Premier Warburton and George Simpson as candidates for the next house of commons elections.

## EQUITABLE ASSURANCE

OFFICERS APPEAR BEFORE A SELECT COMMITTEE.

Say British Policies Are Well Secured, but Foreign Confidence Not Yet Recovered.

London, July 6.—Paul Morton, president of the Equitable Life Assurance Society, and Emery McClintock, vice-president of the Mutual Life Insurance Company of New York, appeared today before the select committee of the house of lords on life insurance companies. Mr. Morton explained the methods by which the Equitable was conducted, and called attention to the special provision made for the security of British policy holders by the \$500,000 deposit in the Bank of England. He considered that the investigations had clearly shown the sound financial position of the society, but he admitted that confidence in it had been restored more in America than abroad.

GETTING DOWN TO BUSINESS.

Oyster Bay, July 6.—Sir Joseph Ward, premier of New Zealand, took luncheon with President Roosevelt at Sagamore Hill today. Before proceeding to the president's home, Sir Joseph said he was most interested with the president in the possibility of negotiating a reciprocity between the United States and New Zealand.

The latter country, he said, had a surplus of wool and gum. New Zealand could negotiate a treaty with the United States, he said, without reference to the British government, and he was prepared to take the official preliminary steps in that matter, and was anxious to do so before he leaves the country. He said he should endeavor to leave the matter in the hands of the British embassy at Washington on his departure from the country.

## Price of Metals.

New York, July 5.—Silver, 64 5/8; copper, 18; electrolytic copper stock, 18 1/4@18 3/8; lead, \$5.75.

London, July 5.—Silver, 29 15-16d; lead, £16 10s; zinc, £26 17s 6d.

## Trains and Steamers.

Crow boat—25 minutes late.  
Slocan train—On time.  
Coast, Boundary and Rossland train—On time.

A man finds that he can learn a great deal if he doesn't "know too much," and something from everybody and thing.

ascribing the former's success to Meckel's instructions. The emperor of Japan conferred the grand cross of the Order of the Sacred Treasure on the general after the battle.

## ALPHONSO'S NEW CABINET.

Personnel Changes, but Policy Remains the Same.

Madrid, July 6.—King Alphonso today sanctioned the appointment of the following ministry to succeed the cabinet headed by Morley Prendergast, which resigned yesterday:

Premier and minister of war, Field Marshal Lopez Dominguez; minister of foreign affairs, Senor Gullon; minister of the interior, Bernabe Davila; minister of finance, Navarra Reverter; minister of public works, Garcia Prieto; minister of marine, Senor Alvarado; minister of instruction, Amalio Clemente; minister of justice, Count Romanones.

Although the Moret cabinet disappears, the new ministry represents the same general policy, consisting of prominent men representing the various liberal groups in the senate and chamber of deputies.

## TO BEAT THE ICE TRUSTS

NEW ZEALAND WILL NOT BE CAUGHT NAPPING.

Municipalization the Safeguard Against Rapacity and Exorbitance of Combines.

New York, July 6.—Sir Joseph G. Ward, K. C. M. G., premier of New Zealand, accompanied by Lady Ward and his daughter, arrived here yesterday on the White Star liner Majestic. Sir Joseph is on his way to New Zealand. He and his family have been invited by the New Zealand government to take luncheon with the emperor on July 10th.

Sir Joseph was for many years postmaster-general of New Zealand, and lately filled the important position of minister of railways. He has been visiting in England, and attended the recent international postal congress at Rome. He was asked yesterday what action would be taken in New Zealand if an ice trust increased the price of the commodity to consumers to get more than a reasonable profit. He said:

"The solution of that problem is simple. If any man or company should buy up all the ice plants, control the supply of ice on hand, and then push up the price to consumers, we would immediately build ice plants and give the people all the ice they wanted at a small price and fair profit. We had a similar condition to arise at home in the coal industry, and we put it down quickly."

When the question of the government regulation of railroads and other great aggregations of wealth which oppress the masses was referred to, Sir Joseph said the measures taken would have to be drastic to be effective. He suggested as a remedy extensive publicity obtained by an impartial and thoroughly honest system of investigation. Concerning the operation of railroads in New Zealand, the premier said:

"We have the largest per capita of wealth in the world in New Zealand, and we have proportionately the lowest rate of taxation. We have the cheapest public utilities and probably the most efficient. Our railroads haul people cheaper than any in the world, and nowhere are the railroads operated more economically. Whenever we find that any public utility is earning more than 3 1/2 per cent., we reduce the charges to the public."

Oyster Bay, July 6.—Sir Joseph Ward, premier of New Zealand, took luncheon with President Roosevelt at Sagamore Hill today. Before proceeding to the president's home, Sir Joseph said he was most interested with the president in the possibility of negotiating a reciprocity between the United States and New Zealand.

The latter country, he said, had a surplus of wool and gum. New Zealand could negotiate a treaty with the United States, he said, without reference to the British government, and he was prepared to take the official preliminary steps in that matter, and was anxious to do so before he leaves the country. He said he should endeavor to leave the matter in the hands of the British embassy at Washington on his departure from the country.

## STILL IMPROVING.

Tramway Returns for Week Again Above Expenditure.

The tramway returns for the week ending Sunday, July 1st, were again above expenses, amounting to \$183.50. The same week of last year was also a good one, with receipts of \$174.60. The gain for the week of this year is therefore only \$8.90.

The receipts for the year to date are \$2,493.90, against \$2,620.20 for the first six months of last year. But the average weekly earnings for the first six months of last year were only a fraction over \$100; for 1906 they are over \$130.

The last two weeks have far exceeded the average. If the present rate is maintained for the balance of the year, the deficit will be about \$1,500, and the city's share of it only \$600.

Silver recovered two points on each metal market today. Lead and zinc on the London market have declined three and two points respectively.

## TO WAIT A WHILE

Preston's Dismissal is to be Delayed

## A LABOR-LIBERAL'S VOTE

Motion For Dismissal was Defeated Rather Than Embarrass Government.

Ottawa, July 6.—On the fisheries bill Mr. Brodeur announced the intention of the government to proclaim Hudson bay as a portion of Canada. The Arctic would leave for the bay in a week or so, and it was the intention to patrol the bay annually. Whalers would be charged a license of fifty dollars.

Power in the senate sought to secure an amendment of the Emigration Act under which a feeble-minded child could enter Canada when accompanied by parents.

Scott said the bill would allow a government agent to exercise discretion. The amendment was rejected by 24 to 12.

Mr. Coultier, deputy postmaster-general, returned home yesterday after attending the international postal convention at Rome.

In the house on Wednesday, Lake (Qu'Appelle) called attention to a report in the Regina Standard stating that H. J. Moberley, who was convicted of ballot-box stuffing, had been rewarded by the federal government by being appointed an enumerator in northern districts, thus furnishing him the unique opportunity of putting on the lists fictitious names and covering up his tracks in the matter of ballot stuffing in the mushroom polling places in the north.

Mr. Fisher couldn't say whether Moberley had been appointed or not. He had a list of the enumerators, but had not looked at it. He promised to lay it on the table of the house.

"If his name is there, will you dismiss him?" asked Mr. McLean. The minister would not promise to do so.

Mr. Hughes drew attention to a cablegram to the effect that the Salvation Army was sending 10,000 emigrants to South America. It was the duty of the government to divert the proposed emigration from South America to this country.

Hon. Mr. Oliver replied that only yesterday he had seen representatives on this very matter, but they said the people referred to were not as good a class of settlers as the army had sent to Canada and hoped to send in the future. They might do very well, however, in South America.

On motion for supply, Mr. Monk moved an amendment declaring that, owing to facts brought out before the public accounts and agriculture committee, and for other reasons, W. T. R. Preston should no longer be continued in the public service. Mr. Monk made a powerful speech justifying his motion.

Mr. Oliver's reply was weak. He pleaded with him to wait for a little while to see what the government will do after full investigation.

MacDonnell and Bristol read communications from trades and labor councils all over Canada urging Preston's dismissal.

Verville (Labor Liberal) agreed with the amendment, but would not vote for or against it, as he did not want to embarrass the government.

The amendment was defeated by 84 to 39.

## STILL IMPROVING.

Tramway Returns for Week Again Above Expenditure.

The tramway returns for the week ending Sunday, July 1st, were again above expenses, amounting to \$183.50. The same week of last year was also a good one, with receipts of \$174.60. The gain for the week of this year is therefore only \$8.90.

The receipts for the year to date are \$2,493.90, against \$2,620.20 for the first six months of last year. But the average weekly earnings for the first six months of last year were only a fraction over \$100; for 1906 they are over \$130.

The last two weeks have far exceeded the average. If the present rate is maintained for the balance of the year, the deficit will be about \$1,500, and the city's share of it only \$600.

Silver recovered two points on each metal market today. Lead and zinc on the London market have declined three and two points respectively.

There is nothing more eloquent than silent industry.

## ADVICE TO FRUIT MEN

PRACTICAL ADDRESSES BY THREE VISITING EXPERTS.

Maxwell Smith, Dominion Inspector, Praises Work of Provincial Government.

The quarterly meeting of the British Columbia Fruit Growers' Association, held in Nelson yesterday, was divided into two parts. In the afternoon a demonstration of pruning and caring for fruit trees was given in the orchard of J. A. Kelley, Fairview, by T. A. Brydon.

In the evening a meeting was held in the board of trade rooms, at which three short practical and helpful addresses were given by the visiting experts on subjects of primary importance to fruit growers, especially to beginners.

Maxwell Smith, Dominion fruit inspector, took occasion to praise very warmly the work done by the British Columbia government in encouraging the industry and assisting so liberally in advertising it abroad.

The meeting was called about 8:30, with the president, James Johnstone, in the chair and about 30 members present.

H. E. Croasdale rose and asked that a general meeting of the Kootenay association be held at an early date to consider matters of urgent importance. He offered to prepare a requisition if necessary.

The president explained that it was hard to get a meeting at this season unless for a special purpose.

Mr. Croasdale stated that the question of labor was a vital one. Many ranchers refused to plant strawberries on account of the uncertainty of labor. He promised to put in a request to the directors.

Mr. Johnstone then introduced T. A. Brydon, president of the provincial association, remarking that the attendance was remarkably good considering that the farmers were now in the middle of their busiest season.

Mr. Brydon spoke briefly of the objects and privileges of the provincial association, stating its chief aim to be assistance to beginners. He then proceeded to speak of planting, and especially of preparation for planting. He advocated thorough cultivation of soil, or falling that, cultivation of strips for rows of trees. He advised fall planting if all conditions of soil and moisture were good; otherwise spring planting was safer. He recommended dealing with the nearest nurseries and constant reference to the experience of successful neighbors.

Young nursery stock, he said, should be very carefully handled, and the roots well protected from frost and from bruising. Care, however, need not imply slowness. The roots should be cleaned; holes for planting should be about four feet in diameter and 18 inches deep, with good soil above, firmly pressed down.

Prevailing winds should be studied, and the trees leaning to windward, with the longest branches on that side. Cuts in pruning should be on the side away from the sun. One-year-old trees were, he thought, the best.

In reply to questions of H. E. Croasdale, Mr. Brydon advised planting cherry trees in the fall. He declined to offer any advice about peaches.

Referring to the question of pruning and the afternoon's work, he said: "You are not pruning half enough. You are spoiling your trees. They are growing far out, with long, thin branches that cannot carry fruit. Planting year-old trees, you should be masters of the situation. Cut them down and carefully select the branches you will let grow. Your branches do not taper; they are too straight, and therefore weak. Keep your trees low. Do most of your work from the ground; attend to convenience, to the health of the trees, and to light and air. Keep the pyramidal form of the tree. Don't waste the strength of your tree on unnecessary branches. Prune thoroughly in June."

"Your fruit has made a record in the world's market, and the responsibility of maintaining it lies with you. You can grow the finest fruit."

A question of Mr. Johnstone's was answered by advice not to pinch off all branches, but to wait for winter pruning when possible.

Mr. Brydon also warned against over-burdening. He said: "Some of you are growing four apples where you should have one. That cannot last. It will exhaust the tree. You will gain in the long run by reducing the output now."

J. C. Metcalfe spoke on the cultivation of small fruits. He thought Nelson's output remarkable for the short time the ranches had been in bearing. He strongly advised the cultivation of rhubarb as an easy and very profitable crop, easily handled and always in demand. Rich soil is the only requirement.

On the subject of strawberries he said: "Work your soil well. Get a fine surface and keep it." He discussed the various methods of planting, recommending the hedgerow system, or the hill system. The distance between plants should vary from 15 to 22 inches, according to variety.

He advised careful choice of shipping berries for outside markets, the Albany being generally suitable.

He advised mulching with hay or straw at the first sign of frost. Fern would do, he replied to Mr. Croasdale, if it did not dry up, but was useless for enriching the soil.

New plants should be taken from a special propagation bed. Plants are exhausted by one crop, and should not be kept in bearing thereafter, as the fruit deteriorates and the soil is impoverished.

Raspberry cultivation, Mr. Metcalfe

described as very easy and profitable, especially the Cuthbert. He recommended 3-12 feet between hills and 6 feet between rows. He advised removal of canes each fall.

The only cure he knew for berry pests was cutting out and burning. Many of Mr. Metcalfe's statements were in reply to questions by John Hyslop.

A new berry, the Logan, was next dealt with, a cross between the raspberry and cane blackberry. It is, Mr. Metcalfe said, a popular and profitable berry, but not a good shipper. The Burbank, a cross between the raspberry and evergreen blackberry, is smaller, but a better shipper. Cane blackberries, Snickers, Laughtons, Erics and Taylors were also recommended, though Laughtons are subject to pests. Evergreen blackberries are the most productive of all, and trees should be planted about 30 feet apart.

Currents, gooseberries and blackberries were dealt with briefly, the bush form being recommended.

In conclusion Mr. Metcalfe strongly advised adherence to a few good varieties for the sake of the markets. To Mr. Croasdale he said that the Northwest would never raise fruit in a commercial way.

Maxwell Smith, who was introduced as "our old and valued friend," was heartily cheered as he rose. He indulged for a few minutes in reminiscence of his predictions as to Kootenay fruit growing, which were laughed at everywhere as late as four years ago. He was still surprised at the rapidity of the development and the great spread of the "fruit-growing fever."

He said the greater the supply the greater the demand and the better prices. He thought that the prairie provinces would always be the chief, and a perfectly satisfactory market for British Columbia fruit, which has already displaced there the product of all other districts.

In reply to James Johnstone's reminder that London merchants wanted to take more than Kootenay could ship, Mr. Smith said: "I'm glad to hear it. Those exhibits in London are the best possible advertisement. The provincial government is entitled to the greatest credit for it."

Continuing, he told of his own efforts to persuade the prairie province people that British Columbia fruit was equal to that of Ontario. It was a shipment by T. Sterling, of Kelowna, to England that first convinced them of the fact.

On orchard cultivation Mr. Smith advised thorough clearing away of rocks and stumps and deep cultivation to form a receptacle for moisture. He strongly recommended ploughing the sub-soil and pulverizing the soil as perfectly as possible to preserve soil moisture, which increases in proportion as the solid particles of sand or loam are broken up.

In reply to Mr. Croasdale Mr. Smith said that irrigation certainly affected flavor, but not necessarily unfavorably. He added: "I am not yet convinced that even your favored district will not yet need irrigation. There are enterprising real estate agents in Okanagan valley who are taking in suckers every day by telling them irrigation is not needed on slopes where water can hardly be got."

He advised cutting of cherry trees to check the growth of sap, and so promote bearing. No crop of any kind should come under the branches of trees.

Digressing, Mr. Smith warned his hearers that next year every party to the use of ill-fated fruit boxes would be prosecuted.

Mr. Smith concluded with an appeal for co-operation and kindly wishes for the success of all.

On motion of Messrs. Croasdale and Hyslop, a vote of thanks was passed to the three speakers, to which Mr. Brydon replied.

There's a world of difference between wishing and willing.

## NOTICE.

TAKE NOTICE that I intend to apply at the next sitting of the Board of Licensing Commissioners for the City of Nelson, for a transfer to George Harrison of Nelson, B. C. of my License to sell fermented liquors on the premises known as the Lake View Hotel, Vernon Street, Nelson, B. C.

Dated the 14th day of July, 1906.  
 AUGUST THOMAS.  
 Witness, W. A. MACDONALD.

## TIMBER NOTICE.

Thirty days after date I intend making application to the Honorable the Chief Commissioner of Lands and Works, for a special license to cut and carry away timber from the following described lands, commencing at a post placed on the southern boundary of Timber License No. 5275, and about 10 chains N. 7th of the N. W. corner of lot 328 (S. 1. West Kootenay, running thence west 80 chains, thence south 80 chains, thence east 80 chains, thence north 80 chains to point of commencement.  
 Dated 19th April 1906.

Thirty days after date I intend to apply to the Commissioner of Lands and Works, for a special license to cut and carry away timber from the following described lands, commencing at a post marked J. E. A. S. W. corner, planted on the west bank of Cayouse Creek where the creek intersects the east boundary of lot 18817 and running north 160 chains, thence east 40 chains, thence south 160 chains, thence west to point of commencement.  
 June 9th 1906.

Notice is hereby given that, thirty days after date, I intend to apply to the Honorable the Chief Commissioner of Lands and Works, for a special license to cut and carry away timber from the following described lands, situated on Lemon Creek, the district of West Kootenay: Commencing at a post placed on Lemon Creek, eleven (11) miles from Kootenay Lake, adjoining lot 2585, marked "B. W. S. E. corner post," thence forty (40) chains west; thence eighty (80) south; thence forty (40) chains east; thence eighty (80) chains north to point of commencement, containing three hundred and twenty (320) acres, more or less.  
 Dated the 20th day of June, A.D., 1906.  
 BRUCE WHITE.

## LOCAL AND PROVINCIAL

There were no cases for the city police court this morning.

D. Wilson, school inspector, left this morning for Kaslo, where A. Sullivan is in charge of the high school examinations.

Charles W. Rhodes, of Victoria, is in the city. Mr. Rhodes is a heavy stockholder in the Brackman-Ker Milling Company, and is here on business connected with that company.

At a special meeting of the board of license commissioners of Ymir district, J. A. Dewar and J. A. Kelley sitting, J. Walker was granted a license for an hotel at Erickson Siding, near Creston.

At the regular meeting of the Sons of England last night several new candidates were initiated and a social time was indulged in. There will be another meeting tonight to arrange for a lodge outing.

The Nelson lacrosse club has accepted an invitation for two matches in Rossland in connection with the miners' union celebration on the 16th and 17th instants. The Nelson team will be practically the same as that which defeated Rossland here on Monday by 4-1.

W. A. Thurman's tobacco store is being renovated and refitted. New and handsome furniture is being put in, including two big plateglass showcases. When alterations are completed the establishment's appearance will be in keeping with the quality of the stock carried.

A meeting of the special committee of the University Club to consider ways and means of advocating the endowment of a provincial university will be held in Dr. Arthur's office on Monday at 4 p. m. The members are Dr. Arthur, Revs. J. T. Ferguson and F. H. Graham, A. L. McKillop, C. M. Fraser, W. J. Baird and R. J. Clark.

This morning Alex. Carrie, architect, gave a contract to John Burns for the building of a residence for J. A. Gilker on Victoria street, near Kootenay. The building will cost about \$1,500. Work on it will be started at once, and will be prosecuted steadily until it is finished. Mr. Carrie has taken office rooms in the Griffin block.

The Canadian Pacific Railway Company has arranged for an excursion to take place on Sunday afternoon next at 2 p. m. from the city wharf. The palatial steamer Kuskanoosk will make her initial passenger trip, and will sail up into the lake and make a general lake-tour.

The fare has been fixed at 50 cents for the round trip. No doubt many citizens will avail themselves of this opportunity for a Sunday afternoon outing.

Mayor Gillett said today that owing to complaints of interference with improvements at the recreation grounds, the rule made by the council of 1904 would again be enforced. Permission to use the grounds must be obtained at the city hall, where the key will be kept, and to which it must be returned. Parties to whom the grounds are let will be held responsible for any damage. Plaques will also be posted offering rewards for information leading to conviction of thieves or destroyers of property.

**ACCIDENT AT SMELTER.**

**Italian Laborer Badly Burned by Explosion of Hot Metal.**

This morning at 9:30 an Italian employee at the Hall Mines smelter, named Romano, either in ignorance or by accident dropped a pot of hot metal in the settler, where it immediately exploded. Romano was terribly burned about the head, breast, arms and hands. Dr. Hall was summoned at once, and Romano was conveyed to the Home hospital, where he lies in a serious condition.

Nothing is known of the injured man except his name and nationality. He has not been long in Nelson.

P. H. Burnham, agent for the G. N. R. company at Grand Forks, is in the city on one of his regular trips. He says that the company will do its best to divert tourist traffic to Kootenay. H. M. Adams, of Seattle, general freight traffic manager for the west, will be in Nelson next week to confer with the local agents and with the Nelson whole salers.

**40 Acre Farm FOR SALE**

A valuable farm for sale, situated in the heart of the fruit growing country. 40 acres, 3 acres well cleared and about 70 fruit trees planted, are bearing some this year. A good cabin, root house and stable on the property, also a nice spring. The land is of the very best quality, and can be all worked. It is beautifully situated on Howser lake, West Kootenay, one mile from post office and store and two miles from C. P. R. branch to Trout Lake. Splendid farm for potatoes. There have been four crops in succession without manure, and the last crop was as good as the first.
