The Nelson Canadian

UME I. No. 14. NELSON, B. C., TUESDAY, JUNE 19, 1906. FIFTY CENTS A MONTH

UIT MARKS ACT

uirements are Caus- ng Trouble Locally

KES ARE TOO SMALL

hants Complaining of Short Weight--Growers Harassed by Regulations.

ere is more trouble among the enay fruit growers. This time it ot a private quarrel, but general tisfaction with the conditions cre- by the Dominion Fruit Marks Act the regulations under it.

e first complaint was made by hants to T. Morley, former secre- of the Kootenay Fruit Growers' ciation, that the boxes of berries nder the legal weight of one d. Mr. Morley explained to a paper representative that there is ovision in the new act by which ers are allowed to use the old ber- ups, on condition that they be ed short weight. Other provisions re the name and address of the er to be plainly marked on every . Both these provisions, Mr. Mor- is informed, are being violated. es are being shipped into Nelson, t in weight and not so described, bearing either no name or the e of other than the grower.

. Morley points out that the pursu of such tactics may be productive orse results than irritation among merchants. They may bring dis- t on Kootenay fruit growers in best markets, the prairie prov- s, where vigorous efforts are being e to enforce the act.

nother difficulty in the act by which growers are confronted is the re- ement that the new fruit cup must ain a full quart as well as a pound. J. Sammons, the shipping agent he association, who supervises the sfers at Kootenay Landing, could be seen today, but the reporter call- n the secretary, J. E. Annable, and d also C. G. Broadwood, one of the est shippers.

r. Annable stated that he had heard he complaint from E. F. Gigot, man- of the Hudson's Bay Company's e; that he had called at the store seen several boxes weighed, all of ch met the requirements. Mr. Gi- stated, however, that he frequently ived boxes which were short ght. Mr. Annable had also con- ed with Mr. Sammons, who stated in his opinion there was little, if ground for complaint.

. G. Broadwood thought that unfail- compliance with all the provisions he act was an impossibility, as the es authorized by the regulations are low. A visit to the Bell Trading pany's store bore out the conten- . A box bearing Mr. Broadwood's e and address was seen, in which, n the boxes were full, the berries ld certainly be crushed, and Mr. adwood said that unless they were they would not meet the require- t in weight.

The situation is a peculiar one. The it Marks Act, as amended to date, s framed after consultation with t growers from all parts of Canada, it was hoped that it would be found erally satisfactory. The next visit Maxwell Smith, fruit inspector, will awaited with interest.

TORREY IN OTTAWA.

acks Recreations in High Life and Condemns Bridge.

ttawa, June 19.—Interest in the r's Alexander meeting is increas- nightly. As religious assemblies nowadays, one expects to find a very ge preponderance of women at rch and similar gatherings, and re could perhaps be no greater trib- to the manliness of Dr. Torrey's eals than is afforded by the large endance of men. Dr. Torrey is not sensationalist, but he is a hard hit- . Plain Anglo-Saxon is used to de- nce modern weaknesses and the s which beset, and as a climax there n appeal to the inteligence and the ler instincts of humanity. Dr. Tor- has not yet been heard in Ottawa play on the emotions with pathetic y and death-bed scenes. He rather lines to strong condemnation of wrong; the awakening of the conscience by bluntly painting sin in its true colors. He is more likely, as a first impression, to arouse mental resentment, and it strikes one sometimes that he deliberately aims at that end, and then with the manly plea urges a right intellectual attitude and the facing of sternal problems in the light of future consequences and present duty.

Social sins and impurities are given sledge-hammer blows, and there is no mincing of words nor misunderstanding the arraignments. The addresses are forceful, logical, and worked up to a most effective climax. There is no palliation, no condoning, no extenuating circumstances. It is a straight charge, an honest portrayal of consequences, as understood by the speaker, and a square, manly appeal to quit the wrong and do the right.

Dr. Torrey repeated in Ottawa his attack on bridge-whist, and said:

"I don't know how it is here; but I know how it is in England, and how it is getting to be in the States—how it is becoming the fashion for 'respectable' people to turn their homes into gambling hells; for women to become adepts at bridge and invite young professional men for week-ends and swindle them out of all their money. There has been tragedy after tragedy in what is called 'high society' of unsuspecting girls inveigled into bridge parties, supposing they are not playing for money, and when the night is over they are required to settle; and there has been more than one suicide, and more than one case, sadder, if possible, than suicide, as the result. I want to say that any woman—I care not how high her social position—who has card parties for money in her home, is running a gambling den just as low down in the sight of God and more dangerous than the vilest gambling hell in any city, and she is no better than a common, low down thief."

ENGINEERS ON STRIKE

RUSSIAN RAILROADS ARE TIED UP TODAY.

Disaffection Said to be Everywhere—Parliament Likely to be Dismissed.

St. Petersburg, June 19.—The massacre of Jews at Bialystok has shocked the country and added to the general excitement, and the revelations which the commission of the lower house of parliament sent to investigate the outbreak at Bialystok are expected to make will only add fuel to the flames. Thus far the censor at Bialystok has evidently refused to allow the press correspondents to send anything reflecting on the authorities.

The Golos, a newspaper edited by M. Ulianoff, a member of the lower house of parliament, containing an account of the horrors and charging the authorities at Bialystok with deliberately preparing the riot, was confiscated when it appeared this morning. Despatches from the interior today bring the usual reports of murder and robbery. Strikes are reported at Kaluga, Krement, Chung, Zielomia, Volsk and Usting Veliki, but the success of the attempt to precipitate a general strike is by no means assured.

The Novoe Vremya, however, reports that the engineers of Moscow railroads have decided not to take their locomotives tomorrow. The government has made the most deliberate preparations to meet the strike movement. Military trains are held in readiness at all the stations of St. Petersburg and Moscow. The masons and stonecutters joined the bakers in the strike today, and the butchers will follow the example. The prices of bread and meats have been doubled. The news from Cronstadt continues to be disquieting. The troops sent to the island are camping outside the city.

St. Petersburg, June 19.—In spite of the government's left-handed denial that it intends to order a parliamentary recess, the Rech today expressed the fear that a "coup d'etat" is imminent to the country. To make its voice heard in favor of the dismissal of the ministry and prolongation of the existence of parliament, an official denial had been given out for report that members of the ministry participated in the sessions of the Trepoff Star Chamber at Peterhof, in which it is absolutely decided that parliament must be gotten rid of, and is only hesitating in regard to the method. Three ways are opposed: First, to oppress parliament for three months; second, to dissolve parliament and order nominations based on universal suffrage, in the hope that the temper of the parliament thus elected will be different from that of the present body; third, to declare the council of empire, or upper house, the representative body until a new parliament is elected. There are two features of the situation which make the court camaralia pause—the early necessity for more money and the dismay over the growing disaffection of the troops.

MILL IS RUNNING

Shipment of Concentrates From Ymir Mine

MANAGER HAND PLEASED

Good Ore Coming From 1,000 Foot Level---Gilman Brown Again Reports Favorably.

The mill at the Ymir mine is now in operation with 30 stamps, and concentrates are being shipped steadily to the Hall Mines smelter. The exact values cannot be learned, but Manager E. M. Hand is entirely satisfied, and has sent a very favorable cable report to the directors in London.

Mr. Hand is in the city today. Seen at the Strathcona this afternoon, he said:

"Everything is in good shape now. We are running 30 stamps and shipping concentrates to the smelter here. The ore is coming mainly from the 1,000 foot level on the west side. I cannot give you the values, but it is good ore, and I am well pleased with the results.

"We have now 70 men employed in the mine and mill, and are making good progress.

"We still have our troubles, of course. There is a scarcity of good men for work in the mines. And now the supply of ore sacks seems to have failed. We used to get them from Turner, Beeton & Co. They have none now, and can't get any. The shortage is attributed to the failure of the crop in India, from which the material comes.

"It makes a lot of difference with concentrates. It means waste in the wagons and again in the ore cars.

"Mr. Gilman Brown's late visit and his inspection resulted in the confirmation of his former report and recommendations, which we are now following."

ARMENIAN VS. TARTAR.

Caucasian Lawlessness is Said to be Spreading.

Tiflisland, June 19.—Lawlessness in the Caucasus is growing in spite of the patrols of soldiers and police, and murder and robbery are unchecked in this city. At noon today fifteen brigands, armed to the teeth, boarded a car in the centre of the city and held up and robbed the passengers, killing three persons. No arrests were made. The inter-race war between the Armenians and Tartars is spreading.

WITHIN THE PROVINCE

POLITICAL ROMANCERS ARE AT WORK AGAIN.

Absolute Denial is Given on Unquestioned Authority to Fake Despatches.

(Special to the Daily Canadian.)

Victoria, June 19.—The political romancer is actively at work again. A report is published to the effect ahat the action of the government in deciding to have an investigation of the charges in the Vancouver World against the chief commissioner was the result of pressure on the part of ahe lieutenant-governor, and it is intimated that it is only a matter of a few days before the chief commissioner will be forced to resign.

The Colonist says it is in a position to state on authority of members of the executive that there is absolutely not one word of truth in the published statements which are given to the press simply to discredit the effect of the announcement of the proposed investigation. The initiative was taken by the Hon. Mr. Green himself immediately upon his return from the interior, and the lieutenant-governor neither directly nor indirectly suggested such a course, nor was he in the remotest degree responsible for it being followed. As to the sequel, it will be fully demonstrated. The rumor about dismissal is a contemptible fabrication.

INSURANCE COMPANIES DEFY.

Liable to Forfeit Right to Do Business in California.

San Francisco, June 19.—The following insurance companies, by reason of their failing to comply with Insurance Commissioner Wolfe's demand that they either sign stipulations extending the time for filing proofs of loss to August 18th or furnish the commissioner with their lists of policy-holders, have rendered themselves liable to forfeiture of their right to do business in the state of California: Agricultural American of Boston, American of Philadelphia, Duchess, Eagle, Germania, Globe and Rutgers, Germania of Peoria, Girard, New York of New York, Northwest Fire and Marine, National Union, North German of New York, Spring Garden, Security of Baltimore, Traders' Union of Philadelphia, Westchester, Western Underwriters. The commissioner intends to proceed against these companies without delay unless advised to the contrary by the attorney-general of the state.

He said yesterday: "It will be my business to see that these companies are compelled to meet their just obligations. If any retire without paying, I shall ask that action be taken against them by the insurance commissioner of the states under whose laws they are incorporated."

Race Horse Retired.

Chicago, June 19.—A despatch to the Tribune from Seattle, Wash., says: "W. B. Gates, the old campaigner in the stable of R. R. Rice, the Arkansas horseman, yesterday won his one hundredth race, and now he will get his long promised retirement from the ring. A long time ago, when W. B. Gates was approaching his century victory, his owner, Mr. Rice, announced that as soon as the horse made it an even hundred he would be retired to a life of ease. After his victory yesterday Mr. Rice said he would make good the promise. Gates is a 9-year-old gelding by Prince Royal-Penelope, and has raced on almost every track of importance in the country."

HOLD REGATTA IN JULY

ANNUAL EVENT OF N. P. A. A. O. A MONTH AWAY.

Crews Coming From Victoria, Vancouver and Portland—Prospects of Local Oarsmen.

The annual regatta of the N. P. A. A. O. will be held on the waters of Nelson harbor on Friday and Saturday, July 27th and 28th. The fixing of the date has been announced to J. Teague, secretary of the Nelson Boat Club, by G. H. Kent, of Vancouver, secretary of the N. P. A. A. D., as the decision of the executive committee.

The rowing clubs of Victoria, Vancouver and Portland will all be represented probablp each by senior and junior crews. It is still undecided whether Nelson will enter a senior crew or not. There are none of the present active members who are disqualified from rowing as juniors, and it is not improbable that all the local club's efforts will be concentrated on an effort to win the junior championship.

About five weeks remain for preparation by the local oarsmen, of which full advantage will be taken.

The regatta means a great deal to Nelson. It is probably the only city of the interior with facilities for holding such a water tournament. The visiting crews will all be accompanied by friends and the regatta days will be busy ones.

The city will be illuminated on the evenings of the regatta as during the Dominion Day celebration, and the citizens generally will assist the local club in entertaining their guests.

All arrangements for the races and rules of the course are in the hands of the executive committee of the N. P. A. A. O., of which A. Whealler is president.

MORE ANARCHISM.

Rumors of Plots to Assassinate Roosevelt Revived.

Portland, Ore., June 19.—Statements made by Walter S. Elaszkiwoz, formerly president of the Polish National Society, seem to confirm a recent report that this city harbors an anarchistic society which contemplates the assassination of President Roosevelt. Elaszkiwoz's statements were being made to the police yesterday while he was securing warrants for several members of his society, whom he alleges attacked and beat him on Sunday night for objecting to an alleged misuse of the society's funds. He says that there are about 80 anarchists in the city, and that they hold regular meetings at places northeast of Portland.

Ohio Strike Settled.

Columbus, O., June 19.—The strike of miners in Ohio was settled today, and the men have been ordered to go back to work. The settlement includes the return of union men to the mines in eastern Ohio.

EXPERT'S OPINION

Foreign Architect Makes Investigation

BAD BRICKS AND MORTAR

Said to be Accountable For Serious Loss of Life By Fire and Earthquake.

San Francisco, June 19.—"Dishonest mortar, corrupt conglomeration of sea sand and lime was responsible for nearly all of the earthquake damage in San Francisco," says Dr. T. Nakamura, professor of architecture of the Imperial University of Tokio and one of the most distinguished members of the committee sent to this city by the Japanese government to investigate the effects of the trembler and the fire. After investigations covering a period of several weeks, Dr. Nakamura has completed his labors, and will sail on the Korea to report his conclusions to his government.

"I find," said Dr. Nakamura yesterday, "that much of the damage to San Francisco from the earthquake was due to poor mortar and faulty construction, and the greater portion of the damage to the class 'A' buildings by fire was the result of a misguided use of hollow tiling and so-called fire bricks instead of concrete. It is an easy matter, I have found, to design a building that will be not only earthquake-proof, but practically fire-proof. There has developed, as the result of the earthquake in San Francisco, great prejudice against brick buildings. However, they are largely employed in Japan, where earthquakes of greater severity than the one experienced in this city are not uncommon. The secret of their success, however, lies in the fact that good mortar is used. The mortar should either be composed of one part cement to two parts of sand, or of one part cement, three of lime and five of sand. The bricks should be thoroughly wet before being laid, and when the mortar has set under these conditions a wall becomes practically one stone."

Only Death Brought Relief.

Chicago, June 19.—Frederick T. Power, 40 years old, stage director of the Bush Temple theatre, whose tongue was cut out last December in order to check a cancerous growth, died yesterday, the operation having failed to check the progress of the disease.

PLANT FOR GREENWOOD

NEW WATER WORKS COMPANY GIVES LARGE CONTRACT.

J. O. Gillice, of Allis-Chalmers-Bullock, Tells of Big Order for Machinery for Boundary.

The progressive and ambitious city of Greenwood will soon be equipped with a thoroughly modern plant capable of supplying its needs in respect of light and power for many years to come.

An order has been placed with Allis-Chalmers-Bullock Company, through J. O. Gillice, of Nelson, district representative, by the Greenwood City Waterworks Company, formerly the Greenwood Electric Company. Mr. Gillice spent the latter half of last week in Greenwood completing the negotiations for the contract. Seen in his office today by a representative of The Daily Canadian, he gave the details of the contract.

The plant will be of 125 kilowatt, 4,400 volt, 3 phase, 60 cycle, with an alternating current generator of the water wheel type, directly connected with a Doble water wheel of the "Impulse" type. For the direct current there will be an 8-kilowatt exciter as a unit, which will be similarly connected to a Doble water wheel.

The new plant will furnish all the light required in Greenwood for dwellings, streets, stores and all other purposes, and power in small units for local industries, but not sufficient for the operation of mines or smelters. For purposes of comparison of the capacity of the projected plant, it will be to the Nelson power plant in the proportion of 125 to 750, the Nelson plant being of 750 kilowatts.

"When the Greenwood plant is in operation," said Mr. Gillice, "it will be the most modern and complete plant of its kind in British Columbia."

CHRISTIAN AGAINST JEW.

Disturbances at Bialystok Are Not Yet Settled.

Bialystok, June 19.—The night passed quietly, and the town is resuming its normal appearance. Some street cars are running, and several factories have resumed work. Fully half the patrols have been withdrawn from the streets here and in the suburbs.

The bodies of more than a hundred Jews were buried during the day, but the imposing array of military forces prevented a resumption of the disorders. The correspondent of the Associated Press this evening saw dozens of Christians of the lower classes with sacks on their backs coming from the desolated Jewish quarter to an examination by the soldiers and police. If the sacks contained plunder, none of it was seized.

General Bador, commander of the garrison and acting governor-general, is in personal charge of the troops, which are so disposed that a renewal of the rioting is considered improbable. The Jews, however, continue in a state of panic. As the correspondent passed through the streets strewn with wreckage, they could be seen hastily barricading what was left of their homes. Many of them adopted the artifice of placing ikons of crosses on their doors in order to avoid the attack of the Christians.

MAKE PROMPT PAYMENT

REPRESENTATIVE OF B. C. LOAN COMPANY IN NELSON.

Finds Clients in Good Circumstances—Admires Nelson's System of Fire Protection.

G. Ward, of Vancouver, representing the B. C. Permanent Loan and Savings Society and the Pacific Coast Fire Insurance Company, is in the city. The loan company was once interested in Nelson to the extent of $60,000, but that sum has been greatly reduced by regular payments by the borrowers, many of whom now own their own properties.

To The Daily Canadian's representative Mr. Ward said:

"We are interested all over Canada except in Ontario. We try to manage the business for the benefit of both shareholders and borrowers. A year ago we reduced the rate of interest to borrowers, old and new, from 8 1-2 to 8 per cent. We have always been fairly lenient, too, to borrowers who are temporarily unable to meet their payments.

"So far on the present trip I have visited Fernie, Cranbrook and Nelson, and I find conditions generally satisfactory and rapidly improving everywhere.

"In both my capacities I am interested in fire protection. I visited your fire hall this morning and found it admirably equipped. The system of fire protection in Nelson is remarkably efficient—easily the best of any town of this size in the west.

"Nelson is fortunate in having secured the services of Chief Deasy. I have known him for many years, and know him to be a zealous and thoroughly competent head of a fire department."

Royal Ascot Races.

London, June 19.—The Royal Ascot, England's great race, presented its usual brilliant scene at the opening of the meeting today. The royal enclosure, where King Edward and his guests assembled, was a carnival encounter, and the stands were crowded with the elite of the social world. The king drove from Windsor with his guests in carriages driven by four and ridden by postillions through the great park to Ascot. There was a great gathering of Americans at the meeting, and the royal party included Congressman and Mrs. Longworth, Ambassador Reid, Mrs. Reid and Miss Reid, Mrs. Ogden Mills and Mrs. Cornelius Vanderbilt. The weather, which had been threatening, cleared as the day wore on, and crowds of well dressed people in automobiles and coaches on the road to Ascot made a pretty scene.

Colonial Marriages Bill.

London, June 19.—The colonial marriages bill passed its third reading without comment in the house of lords today. This bill provides for legislation in the United Kingdom of marriages with a deceased wife's sister legally contracted anywhere in British possessions.

Fred Bradley, formerly of Nelson, is now in the dry goods business in Calgary. His store is one of the largest in that city.

SINKING LOWER

Shaft From 500 Foot Level in Ottawa

NEW COMPRESSOR PLANT

Manager R. J. McPhee Speaks of Preparations for Opening New Ore Bodies.

After several years of hard, steady and profitable work, during which shipments have been maintained and development work kept well ahead, the management of the Ottawa mine are about to take a long step forward.

The present deep level is 500 feet down. Good ore has been found in all the upper levels, and steady prospecting has satisfied the owners that they are still comparatively working on the surface. Arrangements are now about completed for sinking from the present lowest level.

R. J. McPhee, manager of the mine, is in the city. In response to a request for news he said:

"Well, we are going to put in a plant for sinking, a complete compressor plant. The machinery is already arriving, and it will be installed as fast as possible. We are going to sink a shaft from the 500 foot level.

"The plant will be complete in every particular, with pumps, hoist and equipment for electric lighting.

"In the meantime we have only a few men working; but as soon as the machinery is installed, the force will be restored to its former proportions, and work will go ahead as before."

The progress of the Ottawa mine means much directly to Slocan City, and indirectly to the Slocan lake district, as the proving of the Ottawa at its lowest levels will greatly stimulate the silver-lead industry in the whole district.

LACROSSE PROGRAM.

Senior and Junior Matches Arranged as Kirmess Attractions.

The Seniors and Intermediates will hold their first contest for the city championship on Thursday afternoon, the game to commence at 3:30 o'clock at the recreation grounds.

The Seniors will line up as follows: Goal, F. Greyerbeith; point, Alf. Jeffs; cover point, Roy Sharp; first defence, Fred Bell; second defence, H. Manhart; third defence, William Davison; centre, Joseph Thompson; first home, H. Bishop; second home, A. Perrier; third home, A. Bishop; outside home, E. Wallace; inside home, A. Jackson.

The Intermediates who will attempt to wrest the banner from the Seniors are: Goal, D. McCallum; point, S. Carley; cover point, B. Smithe; first defence, B. Edwards; second defence, B. Crossett; third defence, E. Carroll; centre, A. H. E. Beckett; first home, L. Steel; second home, Bert Davison; third home, W. Steed; outside home, Ray Ball; inside home, B. R. Bell.

On Friday afternoon the Reds and Whites will contest for the junior championship of the city. The Lacrosse Association considered it advisable to organize teams from the residents on the east and west side of Josephine street, and the first game of a series will be held in the recreation grounds commencing at 3 o'clock on Friday afternoon. Considerable rivalry exists between the players, and it is expected that a spirited game will result. The Reds are:

L. McKermon, Claude Weir, Stewart Newitt, Eric Weir, M. Newitt, W. Laughton, D. Hardie, W. Parker, L. Parker, H. Svoada, E. Matthews and D. Cummins.

The Whites are: L. McCandlish, J. McCandlish, N. McLeod, J. Grant, R. Miller, J. Ferguson, E. Scoley, W. Scoley, H. Kinihan, F. Stevens, F. Grant and W. Newburn.

Army Meat Inspection.

London, June 19.—Lieutenant-Colonel Percy Hobbs, chief instructor of the army service corps school of instruction at Aldershot, sailed from Liverpool today from New York on the steamer Carmelia. He has been selected by War Secretary Haldone to inspect the meat intnded for use in the British army.

Argonauts Arrive.

Henley, June 19.—The Argonaut crew of Toronto arrived here today, and began preparations to resume their practice, interrupted since they left Canada, with the exception of using rowing machines on board ship.

HUDSON'S BAY STORES

Tents, Blankets,
Overalls, Boots,
Mackinaw Clothing.

PROVISIONS
OF ALL KINDS

Everything for the camper, prospector, hunter and lumberman.

HUDSON'S BAY STORES

THE DAILY CANADIAN

Published six days a week by the CANADIAN PUBLISHING COMPANY, LTD Baker St., Nelson, B. C.

Subscription rates, 50 cents a month delivered in the city, or $5.00 a year if sent by mail, when paid in advance.

Advertising rates on application.

All monies paid in settlement of The Daily Canadian accounts, either for subscriptions or advertising, must be receipted for on the printed forms of the Company. Other receipts are not valid.

JUNE 19, 1906.

"By one word we are sometimes judged to be wise and by one word sometimes judged to be foolish. Let us therefore be careful what we say."—CONFUCIUS.

THE POLLARDS.

The city of Nelson enjoyed last week a succession of interesting and praiseworthy exhibitions of the histrionic art, the more fascinating as they were rendered by the Pollard Lilliputians, or juvenile performers.

These little people, chiefly Australians, seem to have captured the affections of the theatre-loving populace in a measure that is scarcely accorded to more mature actors on the operatic and comic stage. There is always something wonderfully attractive about childhood, especially precocious childhood, and in this latter respect the Pollards fill the bill. Children are naturally imaginative, and they are by nature the original imitators and perhaps the truest interpreters of the strange paradoxes that perplex older and wiser heads, after the world's ideas of wisdom. That the Pollards are exceptionally clever is proven by the fact that on their second visit to Nelson they played to houses which increased in numbers with each performance. This is the more an advertisement for them, because the theatre-going people of Nelson are for the most part a discriminating people, and nothing but a clever company could expect to hold the boards with the success which complimented their last visit.

The Pollards were originally one family—a large one, indeed—but their numbers were depleted by natural causes till the opportunity, and even the necessity, arose to replace the absentees with fresh blood. This gave rise to the organization of the training school from which the present Pollard company graduated.

Having said this much, there will be some excuse if we turn to the consideration of another question—one which has been often raised in the minds of even those who have heartily applauded and unstintingly admired the performances of these clever children. That question is of the wisdom or unwisdom of determining at so tender an age the future of these juveniles. Apart from the physiological effects of a life so strenuous as that on the stage, the late hours, the long journeys, and a score of other features which impose a superlative strain upon the physical stamina of those who follow this life, there is in the case of children another and perhaps a more serious question. The constant association of so large a number as those who make up the company, the absence of such discipline as is familiar even in the most carelessly governed home, the extraordinary development of the naturally precocious nature of these children, all combine to surround the question of their future with a seriousness that compel a question as to how far the public is justified in crowning their tour with plaudits and enabling their managers to make financial harvest out of their talents.

Added to this is a still graver question. It is understood that their early advent on the stage is a sort of preliminary or preparatory experience to qualify them for the theatrical life; that as they mature in years and qualification they will be transplanted to higher realms of the dramatic art. Has society the right to encourage the consignment of these innocents—who, presumably, have no choice in the matter—to a life which in after years may be repugnant to them? We do not wish to advert to the well understood dangers incident to life on the stage. Many actors and actresses—probably most of them—attain their years of ripe age without suffering moral deterioration, and we believe the stage has been very greatly relieved of the seriousness of the many charges which were hurled against it years ago. Still, it has its temptations; and while those who enter upon such a career as a matter of choice, fully prepared to take the consequences of their course, may be outside the rights of criticism, the case is different when, from any reason, children of tender years are made the subjects of such adventure. And yet again, while older people may realize, in the interpretation of such pretty little plays as "The Belle of New York" and "The Gaiety Girl," that they are only acting a part, it is a fair question to ask what suggestiveness will these things have on the minds of the utterly innocent, who must in any case have an unwholesome curiosity regarding the relationships in society which they are trained to represent

We do not raise these questions to prejudice the case of the Pollards. They are not the only little people who are on the road. We are only inclined to ask how far is society justified—or is it to be at all justified—in the search for amusement and recreation, in demanding a possible modern slaughter of the innocents We presume that few of those parents who enjoyed to the full the clever work of the Pollards or the Bostonians would consider for a moment the proposition to consign one of their own children to the disadvantages, if nothing else, that such a life inflicts upon the innocents.

POLITICAL SCAVENGERS.

It was reported in our columns yesterday that his honor Lieutenant-Governor Dunsmuir had left early last week for a prolonged holiday in the northern waters of British Columbia, as is his custom year by year. It was also reported that Hon. R. F. Green, chief commissioner of lands and works, had left Victoria for Cariboo on his annual visit to that district. These reports coming to hand will readily explain the arrogant actions of the opposition press. The exchanges are beginning to come to hand, and as they appear to all take their cue from a central office in Victoria, it is not surprising that their utterances should all carry the same political brand and be easily identified anywhere.

The political scavengers of the opposition press are indulging in their filthy work. The time is opportune for the concoction of further scandalous falsehoods, and they seize it with avidity. It is strictly in accordance with their disreputable methods. What they dare not manfully assert they insinuate, hiding behind an "it is said" and "it is reported." These cowardly insinuations and slanderous rumors they send forth from their foul lairs, and a despondent and querulous press gladly prints them in offensive head-lines and display type.

The chief commissioner might very well treat these vaporings of a distorted mind with the silent contempt which they deserve. He might justly rest his reputation upon the record of his department, and the work it has accomplished since he has had its direction. But he has chosen to act in a different way. It is well known that he himself asked for the investigation, and that it was in compliance with his request that the order-in-council granting it was passed. Yet the little curs who dare not even snap at his heels when present, bark their loudest as soon as his back is turned.

The McBride government, in its departmental as well as in its executive work, possesses the confidence of the electors of the province, and this confidence will not be shaken by the irresponsible vaporings of disappointed press agents.

EDITORIAL COMMENT.

The most the Victoria Daily Times ventured to assert respecting the decision of the Hon. R. F. Green to ask for a judicial investigation, as compared with other opposition papers, was:

"It is announced that the government has decided to appoint a commission to investigate the Sehl's Point scandal. Now the public would like to be informed upon two points: whether the premier was forced to take action on the matter by a high authority, and what the scope of the investigation will be."

It seems exceedingly improbable that there is any ground for the fake press despatch.

The attempt on the part of Mr. R. G. McPherson, member of parliament for Burrard, to throw discredit on Sir Charles Hibbert Tupper as he did in his interrogation of the minister of justice on the Brothier case, is another specimen of the small calibre of certain political schools. The idea that Sir Hibbert Tupper would have any influence with a grit minister of justice shows how far out of his way Mr. McPherson was prepared to go in order to find something out of which to make political capital.

William Davidson, of Sandon, independent labor member of the legislative assembly from the Slocan district, was a visitor in the city Saturday, shaking hands with the many old Slocan boys now resident here. Mr. Davidson, when asked about the probability of a provincial election this year, said that he did not expect to see an appeal to the people at present, and not before this legislature had run out its allotted time, which would bring it next year.—Phoenix Pioneer.

Hon. John Burns never gave the labor men better advice in his life than that he gave to them the other day when he warned them of the danger of isolating themselves from the sympathy and help of those who are in a position to render the most powerful aid to the cause of labor.

The thermometer keeps chasing up and down in its efforts to keep track of the weather.

"Did you ever catch your husband flirting?" asked Mrs. Newcomb.

"Yes, dear," replied her friend. "That is the way I did catch him."

A DECAYING CABINET.

Blair, Sifton and Fitzpatrick Scuttle and Forsake the Ship.

The following paragraph, originally appearing as an editorial in the Montreal Gazette, has been going the rounds, and is worth repeating:

"In three years three strong men have left the Laurier cabinet. Mr. Blair was the first of the trio. He had some weaknesses. He ran the Intercolonial railway like a comic opera, and the country paid the price; but he was never in the manipulations of constituencies and men, and where a government's record is not good this sort of cleverness is what it needs. Next, Mr. Sifton left. He is in his way an exceedingly able man, and outside the government has done it better service in defending its measures and its acts than any of the ministers themselves were able to render. Now, Mr. Fitzpatrick has gone. He may not have been Mr. Blair's or Mr. Sifton's equal in the art of winning elections in one way if not in another; but he was their superior in the house of commons, and was there in many ways the most capable of all the cabinet. He had the respect of men of both parties, and what he said was given consideration, because of his personality as well as because of his position. His retirement to take the chief justiceship of the supreme court will leave Sir Wilfrid Laurier with not a tried and strong man of the first rank to support him. Mr. Fielding has been found out. He is losing his looks. Mr. Aylesworth, who was brought in over the heads of all the old Ontario members, has yet to prove what he is made of. The other ministers run from men of moderate ability to those of hardly any ability at all. They are of little help to the premier, nor is he of much help to them. They drift through the sessions of parliament, and seemingly the business of the departments also drifts along. If there was any strength in them they would not have so many charges of mismanagement to defend, and they would proceed to the duty in a way that would at least give the people the idea that they desired to do right and to punish those under them who did wrong. As it is, they are acting as if they feared the light, and did not know well how to keep it from their doings. Their extravagance and lack of foresight has brought the country into a serious financial situation, and at a time when it should be reducing its liabilities, will make it a heavy borrower both to provide for old liabilities and to carry out new, ill-considered, unnecessary and costly works. It does not need a prophet to see what the end will be."

WINNIPEG STREET RAILWAY.

Men Complain That the Agreement is Not Being Kept.

More trouble is said to be probable between the Street Railway Company of Winnipeg and its employees, and serious developments are feared. The men are complaining that the agreement which ended the strike is being broken in some of its most important particulars. The company is said to be carrying on a vigorous campaign to get rid of the union. One clause of the agreement provides that runs and promotions shall depend on seniority and merit, and another that as far as possible the runs shall be arranged so that men shall not work more than ten hours a day. One of the chief complaints of the men is that old and capable motormen and conductors who were prominent in the strike negotiations are being put on undesirable runs and are made to work thirteen hours a day, being told when they complain that they can be done without. There are also other grievances.

The city of Winnipeg is on the anxious seat about how the proposed Sunday observance will affect the running of street cars in that city on Sunday. Rev. Mr. Rochester, the newly appointed secretary of the L. D. A. for the west, telegraphed to Rev. J. G. Shearer to know the worst that might be feared. Mr. Shearer's reply was in substance that the street railway company and the citizens of Winnipeg need have no fear on the subject, as the new bill does not provide any legislation which can interfere with Winnipeg. The only way to stop street cars in that city is by municipal ordinance. It would seem that the L. D. A. is getting farther and farther away from the objects which they set out to achieve in their somewhat heavy undertaking to legislate the people of Canada into a state of moral regeneration. It is a pity that the spirit of commercial rapacity, love of health and pleasure, with irreligion, should so materially contradict the essential principles of a Sunday law.

KEIR HARDY TO COME.

Winnipeg Labor Day Committee Will Invite Him.

Winnipeg, June 18.—The Labor Day committee of the trades and labor council held its first meeting in the typographical rooms, Tribune block, on Saturday evening, when a program was drawn up, grounds selected and other matters pertaining to the celebration of the day discussed. The committee will try and arrange to have Keir Hardie and other labor members of the British house of commons here on Labor Day. Prominent Canadian trades unionists who will attend the annual meeting of the Dominion trades and labor congress in Victoria in September will be asked to make Winnipeg a stopping-over place on Labor Day.

The proposal that the labor members of the British house of commons should visit the colonies arose from amongst themselves. The party forms a considerable and an influential body in the British commons, and it was their desire to become better acquainted with the empire.

It is expected that the party will include J. R. Macdonald, Phillip Snowden, Will Crooks and other very prominent labor men of Britain.

The more you think of some people, the less you think of them.

LOCAL AND PROVINCIAL

There was no docket in the city police court this morning.

William E. Gosnell leaves this evening for Princeton to look after his interests at that point.

The price of silver advanced one point on each market today. No change is reported in copper, lead or zinc.

Dr. S. F. Tolmie, V. S., Dominion veterinary inspector of the province, is in the city on one of his regular trips.

The executive committee of the 20,000 club will hold its postponed meeting in the board of trade rooms to night at 8:30.

Mrs. Arthur and her daughter, Margaret, returned last night from Ontario, where they have been visiting relatives during the past year.

Thomas Kinahan, of the staff of the Bank of Montreal, is about to enjoy a well-earned vacation. He will visit A. H. Buchanan in Spokane.

D. G. Kurtz, who has spent a week in the Kootenay Lake general hospital with an incipient attack of typhoid fever, left the hospital last night.

Parents are again reminded that the school trustees and Principal Sullivan wish to know by tomorrow afternoon the number of new pupils who will enter in August.

A. Carney, timber inspector, is in the city today. He will go to Salmo tomorrow to decide a dispute as to whether certain lands are properly described as timber land.

F. E. Starkey, of Nelson, who was here Wednesday, says the new daily in that city, the Nelson Canadian, is taking well with Conservatives throughout the Kootenays.—Phoenix Pioneer.

W. A. Thurman is back from Winnipeg, whither he was called by his mother's illness. He reports the prairie city still booming and expanding, and real estate selling at staggering figures.

J. G. Billings, of the Yale-Columbia Lumber Company, was in the city from Nakusp last night, and returned this morning. The fire is still smouldering on the hillside, and the company's office has been frequently threatened.

There will be dress rehearsals in the Agricultural hall tonight of all the drills, dances and choruses for Kirmess, including the opening grand march of all participants. Everything is in readiness for the beginning of the three days' carnival tomorrow afternoon.

The attractions of Kootenay lake and river were too great for Lord Aylmer and his aide, Major Eaton, and their trip to Fernie had to be postponed for a day. Major Eaton made a fine catch yesterday of a dozen trout, none weighing less than a pound, which he sent to the Kootenay Lake general hospital.

The examination for entrance to high schools will begin in the senior division of the public school tomorrow morning. Inspector Wilson has three such examinations to conduct simultaneously in Nelson, Rossland and Grand Forks. Miss Scanlan will take charge in Nelson.

The subscription and circulation agent of The Daily Canadian is now calling on the people of Nelson who desire to be enrolled as regular receivers of this paper. "Gratifying success" is the report which he brings to the office each day. New subscribers not receiving their papers regularly please ring up 324.

Hon. Edgar Dewdney says that railway construction in the Similkameen and Nicola countries is being handicapped on account of the lack of labor. The Great Northern would have its road constructed farther were there the men available to do the work. The same complaint was heard in connection with the Nicola branch from Spence's Bridge, which is being built for the C. P. R. On this work Mr. Dewdney says he understood that labor was almost confined to indian workers.

Mining Records.

Four locations, one a placer claim, 13 certificates of assessment work and one bill of sale were recorded in the Nelson mining office today.

E. J. Blanchard recorded the Ruby, on Caribou creek, adjoining the Eureka, located June 1st.

A. Long recorded the Copper King, on Toad mountain, located May 31st.

S. L. Myers recorded the Emma, a mile east of the north fork of the Salmon, located May 23rd.

Pete Peterson recorded a placer claim on the Salmon river.

Certificates of work were issued to H. B. Smith, agent for W. B. Townsend, on the Bankers' Panic and Lucky Bill; to L. E. McFarlane, for himself and J. R. Hunnex, on the Cornelia; to T. H. Newitt, on the Caledonia; to C. W. Anderson, on the Ida; to S. L. Myers, on the Lucky Boy fractional, and, as trustee, on the Little Lucy; to A. Johnson, on the Maggie; to W. Blair, on the Arizona and Dominion, and to D. E. Grobe, on the Commodore, Sunrise and Bonanza.

Pete Peterson transferred a one-quarter interest in one of his placer claims on the Salmon to W. Nordlund for $300.

Price of Metals.

New York, June 19.—Silver, 65 3-4; copper, 18 1-8; lead, $5.75.

London, June 19.—Silver, 30 3-8; lead, £16 15s; zinc, £27 10s.

Mahara's Minstrels Coming.

Headed by the inimitable comedian, Skinner Harris, Mahara's Minstre's will hold forth in royal carnival in the opera house here next Monday night. A roster of 30 colored artists introduced in the best minstrel performance extant, specialties and innovations galore—in fact, everything combined so as to make a clever performance of minstrelsy, opera and vaudeville. Traveling in their own palace car, carrying a magnificent equipment of scenery and effects, dazzling costumes, a brass band and orchestra, and giving a splendid street parade, Frank Mahara seems to substantiate his claim that he has a minstrel aggregation that, if equalled, cannot be excelled.

Mahara's famous challenge band and orchestra will give a street parade Monday at noon.

The subscription and circulation lists of The Daily Canadian are now being compiled. The terms are 50 cents a month delivered in the city, or $5 a year when paid in advance. We shall be glad to enroll your name. We are here to stay.
