The Daily Canadian

VOLUME I. No. 57. NELSON, B. C., THURSDAY, AUGUST 9, 1906. FIFTY CENTS A MONTH.

...TER LEVEL LOW

...rn Sounded From City Reservoir

...GER LIMIT REACHED

...nt Necessity of Curtailing Use Water in Interest of Safety From Conflagration.

...7 a. m. today a gong sounded ...e city fire hall, indicating that ...water in the city reservoir had ...ded to the danger level. ...gong and the automatic device ...inging it were installed a few ... ago, after several years of agi... for it in the council by Alder... Selous.

...citys' water supply has been ...ubject of exhaustive discussion ...e city council on many occasions. ...as been agreed that the order of ...dence of the various calls on the ...ble supply of water is: First, ...protection; second, necesary do... use, drinking, cooking and ...g; third, power for city light... After these come the water for ...ns and lawns, and for the op... of water motors for industrial ...es.

...last call, in order of the time ... it was sanctioned, is the water ...unning motors. Each permit for ...installation of a motor and grant ...ter for it, has been accompanied ...written agreement to the effect ...the supply may be cut off with... notice in any case of emergency ...whenever the city authorities de... that the available supply of wa... does not justify continuance of ... use.

...e alarm this morning indicates ...that condition has now devel...; that the supply of water in the ...rvoir is no longer sufficient to ...all the demands upon it, and ...efore that some channel of water ...enditure must be cut off at once ...ss the city is prepared to risk ...chances of a conflagration with... sufficient water to fight it.

...lderman Selous has steadily op... ...d the granting of water for mo... on the ground that it is estab...ing a kind of vested right and an ...increased when the city is in the ...ket with electric power, but even ...e on the ground that their oper... is a standing menace to the ...ty of the property by keeping the ...ply of water always near the dan... limit.

...he other members of the council, ...e partly conceding the force of ...erman Selous' arguments, have ...wn great reluctance to curtail the ...ply of water for motors and have ...eatedly postponed the decision as ...a policy to be followed when the ...er plant is completed.

...The problem, one of the most im...tant confronting the city, must ...w be faced. It is patent that the ... of water must be curtailed. The ...ice probably lies between stopping ... motors and prohibiting or greatly ...tricting the use of water for lawns ...d gardens.

The American Peril.

St. Petersburg, Aug. 9.—The Nova ...myа prints a report that at the ...ternational American conference ...w being held at Rio de Janeiro, a ...heme of the United States aiming ... establishing a hegemony in Amer... raises the cry of "The American ...ril," and predicts that "the time is ...t far distant when the Slav, Ger... and Latin races of Europe will ...come united for self-protection ...ainst the combination of Greater ...merica, Greater Britain and Greater ...pan.

The Fool and His Gun.

Guelph, Ont., Aug. 9.—The coro...er's jury here yesterday returned an ...en verdict in the case of Berdina ...wackhammer of Erin, who was shot ...d killed by Peter Wilson, a young ...ockman. The evidence adduced ...ent to show that the shooting was ...cidental and that there was no mal... on the part of the accused toward ...he dead girl or any member of her ...mily.

To Be Compromised.

Madrid, Aug. 9.—The cabinet today ...sussed the protest of the papal ...ncio against governments denying ...h rights of the clergy to refuse bur... in consecrated ground to those ...arried under civil law. It was de...ided by the ministers to maintain ...bsolutely the rights of the civil au...thority. During the discussion the minister of justice, Count Romanones, announced his resignation, so as to give the government a free hand. The nuncio later informed the minister of justice that he had applied to Rome for authority to negotiate with the Spanish government with the view of arriving at a compromise.

NELSON CRICKETERS.

Will Meet Worthy Foemen in Victoria in Coast Tournament.

The plans of the Nelson Cricket club for their excursion to Victoria and participation there in the coast cricket tournament, will take definite form tomorrow. Since the list of available players was published Al. Tregillus has promised to join and C T. Partington has declined.

As a sample of what the local club has to meet at the capital is appended the score made by Victoria in a match with Tacoma, which the former won by 201 runs and 6 wickets. J. C. Barnacle, captain and top scorer of the Victoria team, is well known in Nelson, having resided for some time at Bonnington.

The Victoria scores were:

J. D. H. Warden, b Cameron	11
W. J. D. York, b Cameron	66
L. S. V. York, lbw, b Patullo	12
Baker, c McPherson, b Clark	22
T. B. Tye, not out	58
J. C. Barnacle, not out	84
Extras	11

...UILING AT NEW PORT

Good Progress Being Made Around Lima Harbor for Establishment of Northern Terminal City.

A correspondent at Prince Rupert, the western terminus of the G. T. P., writes: "The G. T. R. terminal city, Prince Rupert, destined to be the model city of the continent, is forging ahead. Already big freight and passenger boats have tied up at her dock, just completed, and unloaded their freight. Two or three boats have run excursion parties up from Port Essington and Port Simpson, and one on the first of July had an Indian brass band in attendance.

A most beautiful stretch of water is Tucks inlet, or, properly speaking, Lima harbor, on which Prince Rupert is situated, but though its scenic beauty is perfect, its value from a commercial standpoint is even greater. It is seven miles long and two miles wide, and almost entirely free from rocks. Thus any number of ocean liners will be able to ply up and down it. Along the shore of Kai-en island the water is very deep, almost thirty feet at low tide. This greatly facilitates the building of wharves, as they need only a very short approach.

Two miles down past the townsite at Seal harbor, a large sawmill for the British Columbia Tie & Lumber company is being rapidly pushed forward. Its owners expect to fill an order for the G. T. P. for 500,000 ties in the next few months. These, of course, will be used in construction from this end, where it is confidently expected track laying will be started in the spring. A party of surveyors are locating the line from Prince Rupert inland, to meet the parties coming west. They have already packed their camp and moved on out of sight. The waters of the harbor are being surveyed and sounded by a government party in charge of Mr. Dodge. A great number of men under Chief Engineer Pillsbury, divided into parties, are surveying the mainland and Kai-en island. At Prince Rupert there are as yet only a number of tents, a shack and a wharf. They are clearing quite rapidly and are well on with a large office building, which, with some more shacks, they expect to complete within a few weeks. The G. T. P. headquarters now at Metlakatla will then be transferred to Prince Rupert.

An immense rush of people up the coast is expected as soon as the town is laid out. Already a number of capitalists from the United States have been turned away who have some to open up sugar refineries, breweries, apartment houses and other money-making enterprises. Any number of prospectors are hanging around doing odd jobs, so as to be in on the ground floor. Many may think that there can be no town near here until the railroad is completed, but it will be an important seaport almost at once.

Next summer may see a line of G. T. P. freight and passenger boats to compete for the Yukon and coast trade against the C. P. R., and in a few years a line will be running to China and Japan.—Toronto Mail and Empire.

Artists Must Refrain.

London, Aug. 9.—The president of the divorce court today announced that the court had decided hereafter that newspaper artists shall not be allowed to make sketches in court, as the practice was embarrassing to unprejudiced witnesses, and because it was not in the public interest pictorially to draw attention to divorce cases.

ADVANCE IS BEGUN

Slight Increase in Price of Lumber

STILL CHEAPEST MARKET

Secretary of Mountain Association Gives Reason for Move---Forced by General Conditions.

The Mountain Lumbermen's association decided yesterday afternoon, just before adjournment of their monthly meeting, to make a slight advance of $1 per 1000 feet in the price of common lumber.

Seen this morning, G. P. Wells, secretary of the association, explained that, while prices on delivery vary with the distance from British Columbia, of individual shipping points, the average increase would not amount to 5 per cent.

The lumbermen have all along contended that the selling prices were too low, and left too small a margin of profit for the millmen under the most favorable circumstances, while the rising scale of wages and cost of supplies threatened at any time to convert the small profit into an actual loss. The small advance is intended as a safeguard against such a contingency.

The resolution to increase the rate has been delayed for nearly a year, owing to the reluctance of many members of the association to even seem to be doing anything to retard the settlement of the new provinces by imposing any unnecessary burdens upon the settlers.

Mr. Wells added: "The price is still far below what American farmers just across the line are paying for lumber, and several dollars a thousand less than the coast lumbermen are charging. That is, the Western farmers are still getting, and will continue to get, their lumber cheaper than any others in the West.

"Besides, the advance, small as it is, will not take effect in most cases for several months. All our mills are working overtime on back orders, which will of course be filled at the old price.

"There may be complaints in some quarters, chiefly from newspapers, I fancy. There is certainly no ground for the complaint. A much greater increase would have been amply justified by the condition of the market, and would still have retained for the association's customers the cheapest Western market."

SURVEY COMPLETED.

Construction of Railroad to Crawford Bay Will Begin Soon.

W. S. Drewry, P. L. S., of New Denver, arrived in the city last night from Crawford Bay, where he has been for some time surveying a road for the McGoldrick Lumber company, from the timber limits to the lake shore.

Mr. Drewry's task is finished and a line has been laid out 11 1-2 miles in length, with an average grade of about 3 per cent, and with no curve of more than 16 degrees. A total elevation of 1400 feet had to be overcome, necessitating 11 1-2 miles in length instead of nine.

The country, Mr. Drewry says, while rugged, presents no great difficulties of construction.

It is understood that the construction of the road is already arranged for and will be commenced without delay.

Japanese Uninformed.

Tokio, Aug. 9.—The Japanese government does not yet posses any details of the Aleutian seal poachers incident and is not therefore in a position to express its views. The news is generally received with regret and the hope is expressed that no unpleasant complications will develop.

Rise in Silver.

Washington, D. C., Aug. 9.—It is announced at the treasury department today that the purchase of silver bullion for subsidy coinage would be resumed. The purchase will be made on Wednesday, beginning on the 15th. About 100,000 ounces of silver will be required each week.

A Sad Ending.

Santa Monica, Cal., Aug. 9.—The unidentified body of a young woman, well dressed, with blonde hair, was found in the underbrush in Santa Monica canyon, a mile above Port Los Angeles, yesterday. The girl had been dead at least a month. It is probable that she was murdered, as there is a bullet hole through the head. No weapon was found anywhere near the body.

ROUND THE BOUNDARY.

Thrilling Experience of a Grand Forks Fisherman.

(Special to Daily Canadian.)

Grand Forks, Aug. 9.—W. J. Penrose, one of the proprietors of the Lion Bottling works, has just returned from a fishing excursion up the North Fork, where he had a most thrilling experience, nearly losing his life by being chased by a big she bear and her cubs. It appears that Mr. Penrose got separated from the rest of the party and was having exceptionally good luck in catching a fine string of fish when all at once there appeared close to him an immense brown bear, and, following close at her heels, were two smaller bears. They headed directly for the frightened fisherman, who at once made good his retreat through the timber and underbrush on the North Fork river. The bears, however, never deviated in the least and kept right after their victim, who was now regarding the situation in a most serious light. Fortunately, Mr. Penrose is a runner of most enviable reputation in the Boundary district, and was able to keep ahead of his bloodthirsty pursuers, but finding that the bears had no intention of quitting the chase and a happy thought occurring to the fleeing fisherman, he luckily dropped his fine string of trout, which acted like a charm in stopping the bears, which at once started to feast on the fish, and enabled Mr. Penrose to make good his escape. It seems that the bear had been attracted by the smell of the fresh fish, which they really wanted more than the proprietor of the bottling works, who really thought that his final hour had at last come.

In the old concert hall, right in the midst of the saloon district of the city, on Riverside avenue, a Salvation Army headquarters has been opened and is in charge of Captain Quaife, formerly of the Vancouver headquarters. He is, assisted by Lieutenants Chatterson and Crosman. They are drawing good crowds and it is understood they will remain here permanently.

A Brilliant Anniversary.

Rome, Aug. 9.—There was a brilliant celebration in the Sistine chapel of the vatican today of the third anniversary of the coronation of Pope Pius X. Cardinal Merry del Val, the papal secretary of state, celebrated mass in the presence of the pontiff, the cardinals and bishops, diplomats and members of the nobility.

Canada Bowlers Win.

Toronto, Aug. 9.—The long series of successful victories won by the British bowlers in Canada was broken on Victoria lawn yesterday, when the Victoria and Three Thistles rinks defeated the famous old country players by seven shots.

GRIFFIN IS COMMITTED

Captain of Steamer Princess Victoria, Which Ran Down Chehalis, Up for Trial at Fall Asizes.

(Special to the Daily Canadian.)

Vancouver, B. C., Aug. 9.—For the present the charge against Captain Griffin, who was in charge of the Princess Victoria, which ran down the tug Chehalis in the Vancouver Narrows, is over. The captain was charged under the criminal code with manslaughter, and after a lot of legal sparring between counsel for prosecution and defense Magistrate Williams this morning committed the captain to stand his trial at the fall assizes. The magistrate expressed the opinion that the evidence before him did not warrant a conviction, but it was his unpleasant duty to send Griffin up for trial at a higher court. Under the action of the court this morning Griffin cannot elect for speedy trial.

There is a possibility that no indictment may be preferred against Captain Griffin, as the feeling is pretty strong here that there was no negligence or misconduct on his part. He was released on bail being provided of $5000.

A Woolly Fortune.

Helena, Mont., Aug. 9.—The largest individual wool clip ever grown on the American continent was shipped yesterday from Billings, in this state, over the Burlington railway to a Boston wool firm. The clip weighed 1,500,000 pounds and 44 cars were required to carry it. The owner refused an offer of 24 cents a pound for the wool.

BIG CALGARY FIRE

Portland Cement Company Burnt Out

HEAVY MACHINERY LOST

Defective Bearing Starts Blaze---Firemen Helpless From Lack of Water.

Calgary, Alta., Aug. 9.—The most disastrous fire ever suffered by Calgary occurred at 10:30 last night, when the immense buildings of the Alberta Portland Cement company, located just east of the city limits, were burned to the ground.

The buildings burned were 400 feet by 200 feet and 200 feet by 100 feet, and were only completed recently at a cost of $100,000.

All the heavy machinery recently brought from England, Germany and the United States and valued at some $175,000 that was in the plant, was burned, but R. P. Butchard, general manager of the company, thinks that, owing to the heavy nature of their construction, they will be but slightly damaged. He places the company's loss at $100,000, exclusive of the $38,000 insurance carried.

The fire is supposed to have started from a defective bearing in the shafting of the main building. The firemen were unable to offer any assistance, owing to the great distance of the plant from the city water main. The company commenced the manufacturing of cement only ten days ago.

SITUATION AT ST. PETERSBURG.

Quiet Is Now Restored and Confidence Increasing.

St. Petersburg, Aug. 9.—The morning papers report that 700 persons have been killed or wounded during renewed fighting between Tartars and Armenians in the Shasha district of Saucasia.

St. Petersburg, Aug. 9.—In view of the improvement in the situation here a number of guard regiments have already returned to their summer camp at Tsarkoeselo. The emperor has arranged to go there on Saturday and spend five days. The empress' yacht Alexandra, which has been under repairs for two years, steamed to Peterhof last night, leading to the belief that the imperial family will soon make their postponed visit to Finnish waters. Court circles are greatly relieved by the prospect of a period of calm, which will give the government an opportunity to inaugurate its program.

Moscow, Aug. 9.—The resumption of work was complete today, but arrests of agitators and chiefs of workmen's organizations continue. Many of the more active of the workmen have been expelled from the city.

Riga, Russia, Aug. 9.—Police patrols guarding the railroad were fired upon from ambush yesterday. One man was killed and one was wounded.

THOUSANDS OF APPLICATIONS.

Numbers of Teachers From United Kingdom Will Storm America.

London, Aug. 9.—Thousands of applications are being made by teachers in all parts of the United Kingdom to take part in the excursions to America being arranged for the coming fall and winter. The offices of Alfred Mosely, who is making the arrangements at this end, are daily besieged with applicants. Unfortunately only comparatively few of those who desire to go can be accepted. About 500 teachers, representing every class, from the kindergarten instructors to the professors of England's greatest universities, will be included in the tours.

The first party, numbering about 30, will sail for America on November 30, and from then until the end of March similar parties will sail weekly. While Mr. Mosely is looking after the preliminary arrangements here, Dr. Maxwell, superintendent of public schools of Greater New York, and President Nicholas Murray Butler of Columbia university, are arranging for the reception and tours of the visitors.

Poison in the Case.

Winnipeg, Man., Aug. 8.—The body of Herbert J. Smith has been brought to Vermillion, Alta. He died after eating canned salmon in a railway construction camp, 40 miles south of there. Three other members of the camp were taken violently ill but will recover. Deceased was aged 28, and was a son of Rev. T. T. Smith, Ilkley, Yorkshire, Eng. He had served with receiving the title of major. He studdistinction in the South African war, led medicine for three years in Canada.

TRAMWAY RETURNS.

Again Show Substantial Profits on the Week's Operations.

The city tramway continues to earn profits. The figures for last week were 4441 pasengers carried and $216.50 receipts. The figures for the corresponding week of last year were 3146 pasengers and $178.55, one of the best week's returns of last year. The receipts for this year to date are $3650.85, against $3379.55 to the same date of 1905.

The average number of passengers carried daily last week was 63, due partly to the presence of tourists in the city, but probably still more to the fact that the people of Nelson are developing the car habit.

While the ordinary receipts from passengers are increasing steadily, and good returns are being made from the parcel delivery service, a further not inconsiderable revenue, and one which does not show in the returns, is derived from the sale of advertising space inside and outside the cars.

HERRING IS INNOCENT

Directors of Chicago Bank Will Be Held Responsible for President's Looting.

Chicago, Aug. 9.—The Tribune today says:

Henry W. Herring, cashier of the Milwaukee Avenue State bank, looted by Paul O. Stensland of over $1,000,000, is in Chicago. He has not been out of Chicago since Monday morning. Herring says he will give himself up at once today, and is absolutely sure he can show to the satisfaction of every one that he had no part in robbing the 2,200 depositors of the wrecked institution.

Chicago, Aug. 9.—Evidence which may lead to the prosecution of the directors for responsibility for President Stensland's defalcation was among the general developments yesnue State bank. It is asserted that they neglected to enforce even ordinary precautions, such as should have made impossible Stensland's operations in fictitious papers. Stensland was never required to account for the vast amount of money which apparently was being borrowed by small tradesmen in the neighborhood, and by small depositors in the bank. The responsibility of the directors is declared to be nothing short of criminal and will be made the subject of an investigation by the grand jury. It is expected that evidence will be laid before States Attorney Healy as soon as receiver Fether and Bank Examiner Jones can complete their report.

Crops in the Middle States.

New York, Aug. 9.—W. C. Brown, vice president of the New York Central railroad system, returned recently from a journey of more than 3000 miles through the Middle West, undertaken with the object of ascertaining the actual crop situation. He visited Illinois, Missouri and Iowa, and has prepared special reports on the conditions in Kansas and Nebraska. In all of these, according to his observations, the crops this year will be remarkable both as to quantity and quality. In speaking of his trip Mr Brown said:

"I believe that the United States this year will harvest a larger quantity of grain of all sorts than ever before and will market it at a better price, considering the size of the crops. The wheat crop in the six states in which I have personally made investigation will be magnificent. Kansas this year is going to produce a wheat crop of about 90,000,000 bushels. Last year it produced 87,000,000 bushels. The corn crop is in splendid condition. In Kansas and Nebraska a corn crop on as large a scale as ever before is practically assured. Iowa will produce 350,000,000 bushels of corn and possibly 355,000,000. In Missouri with the exception of four counties in the northeast, all the counties will have great corn crops.

POLICE COURT.

Three offenders faced Magistrate Crease in the city police court this morning.

One indulger paid five and costs. A vagrant who claimed to be a printer was given two hours to leave town.

A man named Lang was fined the limit, $25 and costs, for carrying a revolver.

HOME TEAM WINS

Nelson Lacrosse Club on Top Again

VICTORY CAME EASILY

Visitors Though Weakened Put up Good Game---Locals Promise Regina Hard Fight.

The Nelson Lacrosse club fully atoned today for their defeat in Rossland some weeks ago. This afternoon on their own grounds they outplayed the Golden City stick handlers at every point, and won practically as they pleased. The game was advertised for 2 o'clock, but it was 2:40 before both teams were ready for the face-off. By that time the grandstand was well filled and a number of small boys had trickled in over, under or through the fence at the west end.

The teams lined up as follows:

Nelso—Goal, F. Bell; point, A. Jeffs; cover point, Joe Thompson, captain; first defence, Stewart; second defence, Perrier; third defence, Davidson, center; Bishop, third home,, C. Jeffs; first home, W. B. Steed; outside home, R. Bell; inside home, Wallace.

Rossland—Goal, Campion; point, McDonald; cover, Sangster; defence, first, Brown; second, Jones; third, McQuade; center, Donohue; home, Buchanan, Clothier, Griffith; outside, Keating; inside, Raymer.

Referee—W. H. Deacon.

From the start it was seen that Nelson was stronger and faster and superior in combination. The result of the match was never in doubt and the interest of the spectators centered in the display of the local players.

It was soon recognized that Manager Deasy has some ground for his claim that Nelson will make Regina play ball for all they are worth when the teams meet here next Thursday. Nelson's team was made up of four old players and eight of last year's intermediates.

The veterans, Joe Thompson, Al and Charlie Jeffs and Alex Perrier, played with the vim and zeal of colts, while the young blood showed also the steadiness of champions. Not one member of the team lost head at any stage of the game.

For the visitors it must in fairness be conceded that they played a hopeless game like good sports. Some of their players were strangers to each other, and a few were almost strangers to the game.

Manager Prest explained at the close:

"It seems impossible for us to get anything like full strength away from home. I know you have the same difficulty. We'll try to do better next time.

Nelson's goals came almost monotonously, three, two, three, in the four quarters, making a total of ten. Rossland's only offence was the result of a desperate effort at the end of the second quarter.

At the beginning of the last quarter, with the score 7 to 1, Manager Deasy called out: "Boys, I want three more." And he got them.

The spectators were treated to a good exhibition of clean sport and critics had no fault to find with the performance of the home team. After nearly two years of inactivity Nelson is again fairly in first-class lacrosse.

Submarine Telephone.

Berlin, Aug. 9.—Experiments were begun today at Lake Constance with a new marine telephone constructed under Professor Pupin's system. The cable is about seven miles long and reaches to a maximum depth of 820 feet. It was laid by the Siemens-Halske company for the Bavarian Wurtembergian and Swiss telegraph companies.

Mining Records.

The only entries in the Nelson mining office today were two transfers: Of the Nellie J. and Mastodon mines on Lost Creek, from J. D. Anderson of Rossland to Elisha Bigelow of Lyndonville, Vermont, for a nominal consideration, and of a half interest in the Cube, on the north side of Whitewater Creek, from A. J. Koebel of Rossland to E. Hurst of Rossland, for $300.

Wealthy Manufacturer Killed.

Cleveland, Ohio, Aug. 9.—A telegram from Erie, Pa., says that Abraham Goldsmith, a wealthy manufacturer of women's garments of this city, was killed beneath the wheels of a westbound Lake Sohre limited there early today.

HUDSON'S BAY STORES

PRESERVING TIME

Crown Gem Jars, Pints per doz., $1.00
Crown Gem Jars, Quarts per doz., 1.25
Crown Gem Jars, Half Gal. per doz., 1.50

HUDSON'S BAY STORES

THE DAILY CANADIAN

Published six days a week by the CANADIAN PUBLISHING COMPANY, Ltd. Baker St., Nelson, B. C.

Subscription rates, 50 cents a month delivered in the city, or $5.00 a year if sent by mail, when paid in advance.
Advertising rates on application.
All monies paid in settlement of The Daily Canadian accounts, either for subscriptions or advertising, must be receipted for on the printed forms of the Company. Other receipts are not valid.

AUGUST 9, 1906.

"By one word we are sometimes judged to be wise and by one word sometimes judged to be foolish. Let us therefore be careful what we say."—Confucius.

CIVIC PROBLEMS.

In common with all other growing cities Nelson has problems for the citizens and civic fathers to consider and settle that are not without their perplexing features. This evolution of electric lighting and power supply is one of the most important as well as one of the most embarrassing of these. The history of the development of electrical conveniences in the city is too long and in some respects too humiliating to be recorded in these columns, and besides it is not so much with matters that are past that we have to deal as with the emergencies and crises that are facing us now. The citizen must be patient and long suffering, indeed, who can look with indifference upon the ominous outlook that we are compelled to face.

After costly and long drawn out litigation with the W. K. P. & L. Co., and with a council elected, the members of which promised us electric light from our own plant by the first of July, we are already well into August without anyone being able to tell us, even approximately, when we may expect the installation of the machinery at the newly constructed power plant.

We do not suggest that the civic officials are responsible for the position in which the city finds itself today, as we know nothing of the terms of the contracts which were drawn with the Allis-Chalmers-Bullock company, but it is a singular state of affairs, and one which cannot be denied, that the company has been playing with the interests of the city in respect to the filling of the contracts. For the second largest manufacturing concern of the kind on the American continent to delay the filling of a paltry order of some twelve or thirteen thousand dollars, as in this case, is at once to convict some one of incompetence, indifference or dishonesty. We believe the local agents of the above named company are entirely innocent of blame in the matter, but it must be apparent to them that the manner in which the company is treating Nelson is not very good advertising in the interior of British Columbia for the company concerned. To further complicate the case, the local agents of the firm in question are apparently unable to give any information as to when we may reasonably expect shipment of the machinery ordered, to be made. To pretend that the factories are working overtime was good enough for a short excuse, but we are informed that orders which have been placed with firm long since the Nelson order was given have been already promptly filled. The patience of the citizens is more than exhausted, and it is no wonder that one of the aldermen naively suggested that the order be cancelled and we deal with some one else.

It has been remarked that the company is under penalty of $50 a day for each day they are delinquent after the first instant, but no one with sense looks upon that as a matter to be taken seriously. Any one who suspects that the Allis-Chalmers company will submit to a fine without litigation is liable to be suspected himself. And how is the city to go into litigation with a firm with millions of dollars of invested capital over a few paltry dollars fine, as it would appear to them. The city cannot endure much more litigation, as it has already had too much, and it must do one of two things, either sit supiely down and to wait the moving of the sluggish pool or else arouse and take such definite action as will discover what are its prospects for its own light and power for the winter months.

* * * * *

The situation presents still other complications. It is well known that the W. K. P. & L. Co. is indirectly approaching prospective purchasers of electric power with a view to ascertaining whether it will pay them to install an independent wire to supply power to purchasers here. The city is hampered in meeting the demands of the users of water motors and has wisely decided to allow no more water consumption for power purposes. The present service is unsatisfactory to all users of water motors, and they are patiently waiting to make the change to electrical power. In the present indefinite prospect of the power station it will be little wonder if the W. K. P. & L. Co. succeed in arranging to supply the local demand, for power at least. We do not know what powers the city would have to restrain them from entering the local field and competing with the city in its own markets, but we do know that the company specified is a determined and progressive one, and if they decide to enter the city and supply power it will cost the city a handsome penny to keep them out, if, indeed, they are at all able to do so.

These are not only live, but burning civic problems and it is time that some action is taken to bring the unsettled condition into something like promise. There may be no collusion between the W. K. P. & L. Co. and the A.-C.-B. Co., but there is apparent collusion somewhere.

ROSSLAND'S FINANCES.

The members of the Rossland board of trade are nothing if not original and a proposal made at their last meeting, as reported in the Miner, is one calculated to make other cities do a little quiet thinking. The finances of the city of Rossland have been for some time in rather a congested state, and, as is natural under such circumstances, representative citizens have been looking around for some method of securing a larger income for the city treasury. The board of trade seriously discussed a proposal to memorialize the provincial government to permit the city to collect and retain the 2 per cent tax which the mines at that place now pay into the provincial treasury. Not only did they seriously discuss this proposal, but they passed a resolution to that effect which will be forwarded to Victoria, and asked the city of Rossland to do the same or concur in the resolution. We shall let the Miner speak for its citizens in the report of the proceedings, which is as follows:

"The affairs of the city are in a rather bad way financially, and now that the burden of supporting the schools has been placed on the city it accentuates the hardships of the ratepayers and the poverty of the municipality. The province collects, in the shape of the 2 per cent tax, about $20,000 per annum from the mines. As Rossland is the only city in the province that is not allowed to tax its one idustry, the speaker thought that it was entitled to receive the sum so collected from the province. With this 2 per cent tax going into the city coffers it would make a marked improvement in the financial condition of the municipality. It was suggested that the board of trade memorialize the provincial government to grant the receipts from the 2 per cent tax, and that the council be requested to co-operate with the board of trade in endeavoring to secure the concession from the government."

While we have every sympathy with the distressed financial condition of the city we are scarcely prepared to see the government establish a precedent so dangerous, as would be done if the Rossland proposal is sanctioned. As an instance of how it might work out, the city of Nelson might ask that the 2 per cent tax now paid by the Hall Mines smelter should be collected by this city, and, indeed, it is not going too far to say that it might consistently ask that all the ores shipped in to be smelted here should be similarly treated.

Fortunately the city of Nelson is not so straitly pressed as Rossland appears at present to be and the proposal, if it came from Nelson, would be scoffed at by the Rossland people. But it would appear to be no more ridiculous to Rossland than their own proposal appears to us. What Rossland ought to do is what so many other places in British Columbia have had to do, that is, bear their difficulties while they last, go slowly in the matter of expenditures, cutting their coat according to the cloth, cultivate a united and patriotic spirit in her citizens, stick together and harmonize all conflicting interests, and make the town what it may well become, one of the most prosperous and wealthy in the country.

EDITORIAL COMMENT.

The Inland Sentinel of Kamloops furnishes an example of political bias in its last editorial, in which, referring to the scarcity of labor in British Columbia, it holds the government responsible, and concludes the article with the following deliverance:

"It is the duty of the provincial government to see that the labor required is forthcoming, or to at least make an effort to secure it."

As the Sentinel does not offer any suggestion as to how this is to be done it leaves room for conjecture that it will take the government at least 20 years.

An Archibald Blue census is all right for the English-speaking provinces, but when Quebec wants her own people counted she puts a French-Canadian hustler on the job.

She—It seems a century since our marriage! I have even forgotten the first day when we saw each other!

He—It is not so with me. I remember perfectly well that it was at a dinner and that there were thirteen at the table.

One sip of this
Will bathe the drooping spirits in delight
Beyond the bliss of dreams—Be wise and taste.

DID YOU KNOW

that the drinks served at our Soda Fountain had tonic properties besides refreshing? We use only real fruit syrups of the finest quality. Fountain, counter, glasses and receptacles are kept scrupulously clean.

CUMBERLAND FATALITY.

Weak Swimmer Attempted Too Great Task and Failed.

Nanaimo, Aug. 9.—A shocking drowning fatality, attended by heroic attempts at rescue, was reported from Cumberland today, the victim being a young man named Angus Munro.

With a number of companions Munro was bathing in Comox lake, and several of the lads, being expert swimmers, swam to a float anchored some distance from shore. Munro, after a while, decided to join them, although he could not swim very well. He procured a light piece of wood and, with this beneath his chest, and against the protests of his companions, struck out for the float.

When about 25 yards out he became frightened and exhausted and called for help. Two of his companions, the Harrison brothers, swam to his assistance and attempted to bring him ashore, but so hard were his struggles that all were in danger of bening drowned, and the rescuers becoming exhausted, relinquished their hold to save themselves. Had the drowning boy heeded instructions they could have brought him ashore.

George Scales arrived on the scene in a boat in a minute later and dived to the bottom and brought the boy to the surface.

All attempts at resuscitation failed, although the body had only been under the water four minutes.

Georgia Minstrels.

Someway or other it always happens that the judicious advertising succeeds. Judicious means many things. Some people better never advertise. This can be said of many shows. Some attractions better never advertise. Managers who are not honest, whose advertisements mislead, and whose shows disappoint, they had better let advertising alone.

The managers of Richards & Pringle's Famous Georgia Minstrels endeavor to advertise nothing but what they can show. They are in a class by themselbes, being the only recognzied nroenimg hrd cmf cmcmc recognized negro minstrels that play the first class theaters, and cannot afford to mislead their patrons.

Some show people are careless in their statements. They become so used to writing "biggest," "grandest," "greatest," "best," and "world's largest" that they can only think in superlatives. They mean to be honest—probably are. They are merely careless, and failure is the price of carelessness.

Go to the opera house on Tuesday and judge if the Georgias are over advertised.

MINERAL ACT

Certificate of Improvements

NOTICE

Gigantic, Giant, First Chance, Chaha'sis, and Twenty Mile Fraction mineral claims, situate in the Nelson Mining Division of West Kootenay district

Where located: On Dundee mountain, between Wild Horse and Bear Creeks.

Take notice that I, John McLatchie, of the city of Nelson, acting as agent for Joseph Sturgeon, Free Miner's Certificate No B510, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements

Dated this 31st day of July, A. D. 1906.

JOHN McLATCHIE.

TENDERS FOR TIMBER LIMITS.

SEALED TENDERS, marked "Tender for Timber Limits, Woodberry Creek," will be received by the undersigned up to noon of Saturday, the 11th day of August, 1906, from any person desiring to obtain special timber licences to cut and carry away timber from the following described lands, situate on the North Fork of Woodberry Creek, in the Ainsworth Mining Division of West Kootenay District:—

Lot 1.—Commencing at a stake planted on the North Fork of Woodberry Creek, about five miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

Lot 2.—Commencing at a stake planted on the North Fork of Woodberry Creek about six miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

Lot 3.—Commencing at a stake planted on the North Fork of Woodberry Creek, about seven miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 40 chains; thence east 80 chains to the point of commencement.

Lot 4.—Commencing at a stake planted on the North Fork of Woodberry Creek, about eight miles from Kootenay Lake; thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to the point of commencement.

The person offering the highest cash bonus will be entitled to special licences covering the limits renewable for twenty-one successive years.

Each tender must be accompanied by a certified cheque, made payable at par in Victoria to the undersigned, for the amount, $460.00, of the first year's fees for such special licences, and the amount of the bonus tendered, and also a certified cheque for $30.00 for cost of advertising said limits.

NEIL F. MACKAY,
Deputy Commissioner of Lands and Works.
Lands and Works Department,
Victoria, B. C., July 19th, 1906.

LOCAL AND PROVINCIAL

A. C. Futcher of the Royal Bank staff returned last night from the coast.

A practice cricket match arranged for this afternoon was postponed on account of the lacrosse match. The cricketers will practice later.

Today was marked by a general advance on the metal markets. Silver rose 2 points in New York, 1 in London; copper gained 2 points and lead advanced 2 points in London.

W. Moore, charged with assaulting J. A. Kelly, was this morning released on his own recognizance, in the sum of $500, Application was made on his behalf by J. O'Shea before his honor Judge Forin.

The regular monthly meeting of the Nelson Board of Trade will be held in the board rooms this evening at 8.30. An effort will be made to enlist the Board's interest in the Cricketers' Excursion to Vancouver.

Investigation of the results of the high school examinations throughout the province shows that Olaf Austad and William Brown, of the Nelson high school, were at the head, respectively, of the senior and intermediate lists

John Pillsbury, head of the Pillsbury Western Canada Land Company, is one of a large party of tourists from Minneapolis at the Strathcona. The party will spend some time in Kootenay and Mr. Pillsbury will obtain a more intimate knowledge than he had, of the extent and value of his holdings.

The Nelson junior baseball team is playing in Trail this afternoon. The following players left for the other smelter town this morning: R. Bard, catcher; W. Ebbs, pitcher; B. Stevens, 1st base; W. Brown, 2nd base; W. Sturgeon, s. s.; L. Jackson, 3rd base; S. Newitt, right field; J. Miller, centre field: F. Miller, left field. E. Ellis, spare.

The Kaslo and the Kokanee had an interesting trial of speed last evening on the up trip. The Kokanee had on board the F. O. E. excursion and caught up to the Kaslo just off Busks Landing. It was evident that a race was on betwen the two greyhounds and the last inch of speed limit was strained for by both vessels. The Kaslo had to make a landing at Clubb's, but she succeeded in beating the Kokanee into Procter by fully 5 minutes. The Kaslo officers are of course jubilant and the Kokanee officers consequently depressed today.

A. H. Green has returned from Siam where he has spent a year in the service of the government as head of a survey department. He describes conditions in Siam as very satisfactory for Europeans, who are invariably well treated by the authorities and by the people generally. He went with the definite intention of spending one year only, and says that had he stayed any longer he feared he should have elected to remain there permanently. He thinks, however, that British Columbia is a pretty good country and on whole preferable to Siam. Mr. Green has benefitted physically by his year in the Orient, and he didn't look exactly like an invalid when he left.

Instead of plain water the street sprinkler dispensed this morning a very mild permanganate solution to render inocuous any obtrusive germs that might have found a resting place in the dust of the streets.

W. E. Zwickey, manager of the Rambler-Cariboo, is at the Strathcona. He says the long tunnel is going ahead and all is well.
