FIFTY CENTS A MONTH

## POPE HITS HARD

### Conservative Statesman on Liberal Record

## ALL PROMISES IGNORED

### Ex-M. P. For Compton Tells of Reck- less Expenditure and Shame- less Corruption.

A large audience greeted R. H. Pope, ex-M. P., in Fraternity hall last evening. They were treated to a rousing speech on the live issues of today in Canada and a forceful exposition of the difference between Conservative and Liberal principles.

R. S. Lennie, president of the Conservative club, occupied the chair. He announced that the meeting was the first of a series to be held monthly during the winter under the club's auspices. The meeting in December will be addressed by either Hon. R. McBride or Martin Burrell.

W. A. Macdonald, K. C., was the first speaker. He referred briefly to what had been done for British Columbia by the Dominion government, giving credit for the aid, though long delayed, to the silver-lead mining industry and for the investigation of the tin deposits.

Turning to provincial questions he extolled the honest and impartial administration of the land laws and timber laws and to the splendid work of agriculture in encouraging and aiding the fruit growing industry.

Mr. Macdonald reviewed the financial condition of British Columbia on the accession to power of Mr. McBride and his friends and evoked the enthusiasm of his hearers as he showed how their honest and intelligent administration of the revenues of the province had brought the province back to a financial equilibrium, restored its ruined credits in the money markets of the world.

Dealing with the question of better terms Mr. Macdonald said it should never have become a party question. All parties in the province had agreed long ago that British Columbia, on account of its peculiar circumstances and high per capita contribution to the Dominion treasury, was entitled to special consideration in any readjustment of inter-provincial relations. Unfortunately the Liberal press had followed Mr. McBride's stand for the rights of the province, stupidly and inconsistently, indeed, but blindly and bitterly.

"Since the Liberals have taken this stand," said Mr. Macdonald, "if Mr. McBride were defeated at the next general election the government at Ottawa would claim, and would be almost justified in doing so, that British Columbians cared nothing about their rights in this most important matter."

R. H. Pope was received with applause. He referred briefly to his 16 years' service in the house of commons, as member for Compton, and then began an elaborate comparison of the two parties. He said:

"In 1878, when we, the Conservative party, were appealing to the people of Canada to entrust the government to us, we promised two things: That we would complete a transcontinental railway, and that we would establish a national protective tariff that would enable all classes of Canadian producers to meet the competition of their American rivals. We accomplished both of these objects."

When the Liberals appealed to you in 1896, what did they promise? To wipe out the last vestige of the iniquitous system of protection, to reduce the national debt, to reduce the annual expenditure, to reform and improve the civil service and to purify elections. Have they done it? Have they even made an honest attempt to fulfill any one of their promises? On the contrary, they have not dared to seriously disturb the tariff; they have added to the national debt, they have doubled the annual expenditure—it was \$10,000,000 in 1896, they have made it \$30,000,000. Their civil service appointments have been almost openly bought and sold, and as for purifying elections, look at Mr. Hyman's last stand for London."

Sir Wilfrid Laurier cannot give British Columbia better terms, although he admits the justice of your leader's claims. But the Dominion treasury

cannot stand it. At the same time millions are available to win elections elsewhere.

"When it was determined that I must be beaten in Compton, a pier was built to give employment to all needy votes. It is useless and always will be. There isn't a steamer on the lake into which the pier is built, and there never will be. At the pier the stream they call a lake is about as wide as this room is less than three feet deep. That is only one of the many channels into which your money goes."

"It is idle to pretend that the growth of perhaps 25 per cent. in population justifies doubling the expenditure. They cannot show any valuable public work for their ten years of power. Where is the extra money gone?"

Mr. Pope then read from the auditor general's report the accounts of the Arctic steamer's expedition, the spending of \$265,000 for supplies for 34 men for six months, more than \$40 per man per day. No one imagined that the supplies had really been bought, but the money was gone. He also referred to the multifarious dealings of one Robert Kelly of Vancouver, who for 15 years government supplies for the Yukon.

Mr. Pope then spoke of the one Dominion department for which credit is claimed, that of the interior. He condemned strongly the giving away of the richest land in Canada to Doukhobors, Galicians and others of alien blood and speech, who will be unfit for many generations for the responsibilities of Canadian citizenship.

Returning to his comparison of the two parties, Mr. Pope said:

"It is true that the Liberals are reaping what we sowed. Canada is, like the rest of the civilized world, enjoying a period of prosperity. The resources of the country opened up by our policy are filling the Dominion treasury now, and the Liberals are enjoying the fruits of our labor. And by the way, they have developed a great taste for fruit."

"But surely it is better that they should be in office when there is nothing important to be done than when any blundering would be costly. Conservatives can remember with pride and gratification that every constructive work done in Canada has been done by his party."

"British Columbia, too, when her credit was gone, her treasury empty and her affairs in utter disorder, found the right party and the right leader to restore it to solvency."

"It is sometimes said by Liberals that Conservatives are as bad as they are. That, at the best, is no defence, for the party in power; it is a very feeble reply for the preachers of purity, who would preach it again if their opportunities for stealing were gone."

"But the records of 20 years show that for every Conservative found guilty of corruption in election contests there have been five Liberals found guilty. And where in all our records can an equal be found for London's disgrace?"

"No, we have sinned many times, in many ways; but don't say we're no better than the Liberals. We cannot be accused of selling judgeships and debauching the bench, we cannot be accused of cabinet direction of election frauds, we cannot be accused of dishonesty and favoritism in the awarding of public contracts. No, a thousand times no. We are not down to the Liberal level."

Mr. Pope then briefly expressed his pleasure in visiting Nelson and addressing its citizens, and with hearty cheers for the king and the speaker of the evening, a very successful meeting came to an end.

## ROUND THE BOUNDARY

### History of the Exploitation of the Sun- set Group of Copper Claims in the Similkameen District.

(Special to The Daily Canadian.)

Grand Forks, Nov. 27.—Various reports have been current here lately regarding the cause of the present inactivity at the Sunset group of claims on Copper mountain, in the Similkameen. In an interview yesterday, R. A. Brown, of Volcanic mountain fame, the original locator of this group, said: "The South Yale Copper company and Jim Hill's experts have turned down the Sunset group, the biggest copper property in the world. When the South Yale Copper company's experts went over the Sunset group last spring I followed them over, knowing I could help them if they would only listen to my practical experience on Copper mountain. I had a long talk with Mr. Underhill of New York, president of the South Yale Copper company. I met him right at Princeton, after he came off Copper mountain and told him about my experience in doing work on the Sunset. I showed him the average assays from the surface down the shaft to the 100 and 150 foot levels, and the assays from the 150 foot level, which went 98 per cent. in copper and 80 cents in gold to the ton. I advised him to put on machinery and sink a shaft down to the 300-foot level and crosscut east and west across one level, which would be 500 feet one way and 600 feet the other way, and

which would cut across the metals at that depth, when they would have the biggest copper mountain in the world."

"Mr. Underhill agreed with all I said. Then he went to Greenwood and from there to New York, but he left implicit instructions with a Mr. Morrison at Eholt regarding the work on the Sunset. I saw Mr. Morrison at once, when he told me that his orders were to go to the Sunset group, get the water as low as possible and then drift along the metal deposits. I told him that they wanted to spend \$20,000 on what I already knew. I also reported this matter to the directors of the South Yale Copper company. This company expended \$16,000 in useless work and contrary to my instructions, it taking them over four months to do the work. I told the South Yale Copper company officials to take note of my report and see if it did not prove itself just as I had stated."

"At this time Jim Hill's experts came and inspected Copper mountain and turned it down. It was then that the superintendent of the South Yale Copper company finally concluded that my report and way of prospecting the Sunset was correct, and he wanted to spend another \$40,000 in diamond drill work following the plans that I had laid out, but when we figured up that it would cost \$10,000 or \$11,000 to prospect the group we made the company the offer that if they would put up the next payment of \$10,000 we would let them have the stock at the same price they had been paying for it. They refused to do this and we shut down the mine after this company had spent \$16,000 in doing useless work on the group."

Mr. Brown further stated that he had had 37 years' experience in mining and that his report on Copper mountain has been corroborated by various prominent mining engineers, among whom is O. N. Scott, who some two years ago was awarded a gold medal by the president of the Mining association of the Dominion of Canada for his report on Copper mountain. Mr. Kellogg, a noted expert of Rossland camp, also corroborated his report on the Sunset group. However, I have no hesitation in stating that 90 per cent. of the mining experts have entirely mistaken their calling and should be following the plough."

Mr. Brown concluded by stating that he had made arrangements whereby he would realize a large sum of money out of his Volcanic and other North Fork properties within two years, and would then expend at least \$30,000 on proving the Sunset to be a copper mine second to none in the world. He stated that he located the Sunset group in the year 1888, and after all these years it was now up to him to prove its value.

## DRAWING CLOSER TOGETHER.

### Germany and America. Wax Cordial Over the Wine.

Berlin, Nov. 27.—Herr Von Tschirsky, secretary for foreign affairs, gave a dinner last night in honor of the American tariff commission. Baron Von Stengel, secretary of the imperial treasury; Herr Von Muehlberg, the under secretary of the foreign office; the German delegates to the tariff conference, and others persons distinguished in public life were present. Herr Von Tschirsky made a short speech, during which he expressed his pleasure at the presence of the American representatives. Ambassador Tower responded, expressing confidence that an understanding between Germany and the United States would be reached upon a mutually satisfactory basis and proposed the emperor's health.

## Packers Observing Law.

Washington, D. C., Nov. 27.—Alonzo D. Melvin, chief of the bureau of international meat industry, under whose office the administration of the meat inspection law, enacted at the last session of congress is carried out, has returned from a Western trip of inspection, which included a visit to the packing houses in Chicago, Milwaukee, Denver and Kansas City. He says everywhere there is apparent the beneficial effects of the execution of the law and a manifest desire on the part of the packers to comply with its provisions. In some places new structures have replaced the old ones and in other establishments extensive improvements already have been made so as to bring them up to the standard required by the meat inspection act for the health and comfort of the packing house employees.

## Offsets the Rebates.

New York, Nov. 27.—A fine of \$18,000 was imposed upon the American Sugar Refining company by Judge Hough in the circuit court today for accepting rebates from the New York Central Railway company.

## Sent Away at Night.

Warsaw, Poland, Nov. 27.—The 190 political prisoners sentenced to deportation were despatched from here during the night on a special train for the northern part of Russia.

## RUSSIAN REFORM

### The Minister of Education Makes Proposals

## OLD POLICY REVERSED

### Elementary and Moral Education to Be Encouraged and Teachers to Be Better Paid.

St. Petersburg, Nov. 27.—The minister of education, M. Kuuffman, has just submitted to the cabinet a plan for the reform of the primary education system of Russia, which, next to the agrarian reform is considered the gravest problem confronting the Russian government.

The most important feature of the minister's proposal is one providing for the abandonment of the old policy, which was in accordance with the dictum of M. Pobiedonostoff, procurator general of the holy synod, that general education was synonymous with religion, and which threw hindrances in the way of efforts of the zemstvo and caused private persons to spread elementary knowledge among the ignorant classes of the Russian peasantry and even imposed a veto on instruction being given in history and other similar branches of education.

M. Kuuffman recommends that the government support, materially and morally, all such efforts and assume the payment of minimum salaries to teachers in the popular schools opened by the zemstvo and other local administrations. As the greatest difficulty in the way of a speedy instruction in moral, obligatory and elementary education is the lack of capable teachers, the minister proposes to enlarge at the state's expense the number of schools where teachers are educated and to increase the allowances made to the existing institutions.

In regard to the schools for the non-Russian population the minister proposes to permit elementary education being given to pupils in their mother tongue on condition that the teaching of Russian history and geography must be in the Russian language.

## CITY IS GIVEN NOTICE

### West Kootenay Company Has Other Use for All Its Power—Proceed- ings of Council Meeting.

The most important disclosure at the city council meeting last night was the notice from L. A. Campbell, manager of the West Kootenay Power & Light company, that the service to the city must be discontinued after December 21. No anxiety is felt, as the city's plant is almost certain to be in operation by that date, and in case of a few days' delay no one doubts that the obliging manager of the company will strain a point in the city's favor.

At the next meeting the council will consider suggestions for amendments to the Municipal Clauses Act, to be presented to the Municipal league at the next session of the legislature.

A grant of \$250 was made to the 20,000 club in aid of its latest advertising scheme.

The council met at 8 o'clock with Mayor Gillett in the chair and Aldermen Selous, Hume, Irving, Rose, Annable and Kirkpatrick present. The minutes of the last meeting were read and approved.

The finance committee's report recommending the payment of accounts amounting to \$2363.22, and two payrolls totalling \$1096.75, was received and adopted.

T. G. Procter, on behalf of the 20,000 club, addressed the council asking for financial assistance in the publication of the club's new advertising pamphlets. He mentioned the mayor's suggestions that cuts of the public buildings, including the new high school, city buildings and the new courthouse, be included in the pamphlets. He thought that the benefit to be derived from the advertising being general, the expense should be borne at least in part by the city.

S. M. Brydges and M. S. Parry also spoke in support of the request. The mayor said the thought if the matter were to receive public support the pamphlets should include mention

of the city power plant and of all city buildings.

Alderman Kirkpatrick thought that any advertising scheme should pay for itself.

Mr. Procter replied that the pamphlet would not contain any direct advertising matter. He mentioned that Earl Grey had so advised.

In reply to Alderman Selous, Mr. Procter suggested a grant of \$250 from the council.

After further discussion Alderman Selous moved that \$200 be granted, provided that the suggested additions to the pamphlet be made and that the club raise \$500. The motion was seconded by Alderman Annable and carried. The deputations thanked the council and retired.

Frank A. Brewer presented a largely signed petition for a sidewalk on Hendryx street, from Baker street to Vernon street. Mr. Brewer and Mr. Bruce White addressed the council, explaining that both Vernon and Hall streets, the only avenues to East Vernon street, were objectionable at night.

Alderman Rose supported the request, and on motion of Alderman Hume and Rose it was granted.

Alderman Rose also asked that a sidewalk be built on Vernon street to the residence of H. Byers, a distance of about 30 feet. The work was left to be done at the mayor's order.

A letter from W. H. Bowes asked that any suggestions for amendments to the Municipal Clauses Act should be forwarded by December 20.

Mayor Gillett thought the matter well worthy of consideration.

Alderman Selous suggested that the undue burden placed upon municipalities in connection with the maintenance of schools should form the subject of complaint. He also wished to have restored to councils financial control over school boards.

The mayor said that the Municipal union proposed framing a new Municipal Clauses Act.

Alderman Annable—We may as well face the fact that we have to build a new \$40,000 or \$50,000 school next year.

Alderman Selous thought every municipality would have grievances to present in connection with the schools.

Alderman Annable—The government of British Columbia gives more per capita for education than any other in Canada.

The matter was left over to the next regular meeting.

A letter from L. A. Campbell dated November 21 read as follows:

"In view of the fact that we are closing a contract that will take up the full capacity of our transformers which we have now in Nelson, we are indeed sorry to inform you that unless you can see your way clear to make a contract for the power which we have been supplying you with for the operation of your lights, we will be compelled to discontinue service 30 days from date."

After some discussion the mayor was instructed on Alderman Selous' suggestion to reply, stating that the city could not enter into such a contract as the city's plant would soon be in operation, but that it was trusted that in case of a few days' delay Mr. Campbell would be able to continue the service for that time.

C. Cammings wrote asking for information as to the position of superintendent of the power plant. The letter was referred to the mayor and city superintendent of electric light.

Three tenders for the removal of the courthouse were received, for \$1175, \$1200 and \$325 respectively.

In reply to Alderman Selous, the mayor said he still thought that it could be moved by day labor at a cost below the lowest tender received.

Alderman Selous asked if the city were committed to the acceptance of the building and its removal.

The mayor—Yes, we are morally pledged to the government. We made an offer and they accepted.

A motion to have it done by day labor under the mayor's supervision was made by Alderman Annable, seconded by Alderman Kirkpatrick.

Alderman Rose still objected to the site and to placing it on leased ground. He admitted that it was impracticable to move it uptown through the fire limits, but he favored moving it simply across the street.

All agreed that the only choice lay between Ward street and Front, on slies less than 100 yards apart.

The motion was then carried, and mayor and Aldermen Rose and Selous were appointed a committee to decide on the site.

Alderman Selous gave notice of a new fire prevention bylaw.

The mayor and Aldermen Hume and Irving were appointed the court of revision.

The ordinary payroll for November was passed.

The city engineer reported that the proposed sidewalk on Cedar street would be very expensive. He had no report prepared on the sewer on the C. P. R. grounds.

The council then adjourned to December 10.

## Clerk Stole Diamonds.

Mexico City, Nov. 27.—Baroness Ergletta, a visitor from Australia, is said to have been robbed of diamonds and jewelry valued at \$6000 at the Hotel Sen here. It is asserted that the baroness put the jewelry in a sealed package which she left in charge of the clerk, when, on her return from a short trip, she found the jewelry had

been removed from the package and in its place was some old coins. Clerk Moorehead resigned his position while she was away and has not been seen since.

## CALGARY DOMESTIC SENSATION.

### Young Wife Beaten and Imprisoned by Brutal Husband.

Calgary, Nov. 27.—Saturday two Danes came to the police station and told a strange story. They live in some shacks near the C. P. R. pumping station. They told how a woman living near to them had shouted through the partitions and asked them to get a police officer as she was locked in. Officer George Herd was detailed to look into the matter and went to the house, accompanied by the two Danes. When near the house they saw the husband of the woman, Alex Galloway, run from the pumping station, where he is employed. He was endeavoring to get to his house. The officer ran also, but Galloway beat him out and unlocked the door. He slammed it in the officer's face, leaving the key in the lock in his hurry. The lock was an old-fashioned one with a snap on the inside and Galloway sprung the snap.

After a time he unlocked it and allowed the party to get inside. It was the most poverty-stricken place the officer had seen for a long time. There was practically no furniture and for a bed a straw mattress was lying on the floor.

Mrs. Galloway, aged 17, stood in the middle of the room and presented a most piteous sight. Her face was battered, bruised and bleeding. Her eyes were both blackened and she could hardly speak. She said she had been tied on the bed and locked in for two days, from Thursday to Saturday. Her husband had again and again assaulted her, as the fiend prompted him.

The unfortunate girl wife was then taken to the Holy Cross hospital, where she is under the care of Dr. Greenwood, who says she will not be in condition to appear in court for three weeks.

The brutal husband says she was too friendly with employees of the livery barn in the city and he did not like it and took that way to show his displeasure. There are two small children in the family. One is at the home and the other is being taken care of by the Salvation Army.

Galloway has been taken to the barracks, where he will be held until his wife is able to appear against him.

## Fort Steele Conflagration.

Just as The Canadian was about to go to press a special despatch was received from Cranbrook stating that the whole town of Fort Steele was being consumed by fire. No further particulars were available at 4 o'clock this afternoon.

## Prices of Metals.

New York, Nov. 27.—Silver, 69 3/8c; copper, no quotation; lead, \$5.75.  
London, Nov. 27.—Silver, 32d; lead, £19 7s 6d.

## STRIKE AT LETHBRIDGE

### Ended Today—Mackenzie King Wires Premier Scott Settlement Has Been Reached.

Regina, Sask., Nov. 27.—Hon. Walter Scott received the following telegram from Lethbridge this afternoon from William Mackenzie King, deputy minister of labor.

"A reply from the company to my letter received at 4 o'clock yesterday was of a nature to facilitate settlement immediately. I had a further conference with the men and the company and arranged for a joint conference between representatives of both. This conference lasted from 10 o'clock till nearly 2 this morning. It will be continued at 11. The result of the conference will be submitted to the body of men at a meeting called for tonight. We seem to have arranged a fair basis of settlement and I have confident expectations the strike will end today. (Signed) W. Mackenzie King."

## Arrested Chinese Gamblers.

Calgary, Nov. 27.—The chief of police made a raid on Chinese gamblers last night and gathered in seven from three dens. A considerable amount of money was taken from the tables and seven Celestials will answer this morning.

The price of silver continues to show wide variations from day to day. After its jump of yesterday it declined five points today on both markets. Other quotations are unchanged.

## DEFIED THE LORDS

### Must no Longer Veto House of Commons

## PEERS ARE DENOUNCED

### Drastic and Final Measures Will Be Taken to Assert Authority on Education Bill.

London, Nov. 27.—The intensity of the political feeling caused by the treatment of the education bill in the house of lords found expression today in an emergency meeting of a general committee of the National Liberal federation, at which a resolution was unanimously adopted urging the government to reject the lords' amendments to the bill and "resolutely to determine that the present parliament shall not come to an end until steps are taken to bring to a final arbitrament the question whether the house of peers should any longer possess the right to veto the will of the people as declared by the house of commons."

The meeting was the largest and most representative of its kind which has assembled during the last 20 years.

The speakers warmly denounced the action of the peers, declaring that the house of commons should not waste another day in considering the amendments to the bill, which should be returned to the house of lords without debate, and the Liberal government ought to apply the only remedy, which must be drastic and final. A letter from Sir Henry Campbell-Bannerman was read in which the premier said that it was realized by all Liberals, "that the house of lords would hasten to assert itself as the instrument of unionism as soon as the country rendered a verdict against the Unionist government and the Unionist policy."

Continuing, the letter said: "Still we may plead guilty to a certain sense of surprise at the violence of the manifestation now that it has come. The educational bill, as passed by the house of commons, was a bill which the country demanded in unmistakable terms at the general elections. It now seems to have been turned into a travesty of its original form. As amended, it perpetuates, if it does not extend, the very grievances and wrongs fixed upon the country by the act of 1902. Of one thing you may rest assured, we will have no tampering with the main principles upon which our bill is founded. If within those limits an arrangement can be reached all well and good. If not, it will be for us to see that on this question of education and on others a way is found by which the wishes of the country may be made to prevail."

## Mixing the Virus.

Manila, Nov. 27.—As a result of the experiments with cholera virus at Bilibid prison 10 prisoners out of 24 who were inoculated have died. The experiments were conducted by Dr. R. P. Strong of the bureau of science. The death of the prisoners took place a few days after they were inoculated. It is declared by the investigators that the fatalities resulted from contamination of the virus with the bubonic plague virus. Cholera virus is in constant use here and it has been proved beneficial previously. It has been used in Spain in thousands of cases and with excellent results. Governor Smith in a statement to the public exonerated Dr. Strong and declared that the commission would take care of the families of the dead prisoners.

## World Owed Him Living.

Schenectady, N. Y., Nov. 27.—Joseph Reilly, a Brooklyn blacksmith out of a job and hard up, last night threw his dress suit case through a \$600 plate glass window of a local department store for the purpose of being arrested and making sure of three square meals a day. He waited for two policemen to arrive and arrest him and was today bound over to the grand jury. The minimum penalty is two years in the state penitentiary.

It's often difficult to get even with people who owe you money.

# ANHEUSER BUSCH... ..AND THE ORIGINAL Budweiser Beer

### LAND NOTICES.

Notice is hereby given that I purpose making application to the Hon. Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at a post placed at the southwest corner of R. Shiel's claim to purchase, marked "M. E. S. S. E. corner," running thence 80 chains north, thence 80 chains east, thence 80 chains south, thence 80 chains west to point of commencement, containing 640 acres, more or less.

Dated the 13th day of October, 1906.

per J. SHIELL, Agent.

Notice is hereby given that I purpose making application to the Hon. Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at a post placed at the northeast corner of R. Shiel's claim to purchase, marked "M. E. S. S. E. corner," running thence 80 chains north to the boundary of T. L. 6881, thence 80 chains east, thence 80 chains south, thence 80 chains west to point of commencement, containing 640 acres, more or less.

Dated the 13th day of October, 1906.

per J. SHIELL, Agent.

Notice is hereby given that I purpose making application to the Hon. Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at a post placed at the southwest corner of M. E. Greenfield's claim to purchase, marked "W. N. P. S. S. E. corner," running thence 80 chains north, thence 80 chains east, thence 80 chains south, thence 80 chains west to point of commencement, containing 640 acres, more or less.

Dated the 13th day of October, 1906.

per J. SHIELL, Agent.

Notice is hereby given that I purpose making application to the Hon. Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at a post placed at the southwest corner of M. E. Greenfield's claim to purchase, marked "W. N. P. S. S. E. corner," running thence 80 chains north, thence 80 chains east, thence 80 chains south, thence 80 chains west to point of commencement, containing 640 acres, more or less.

Dated the 13th day of October, 1906.

per J. SHIELL, Agent.

### ON BETTER TERMS.

Premier's Westminster Address Concluded.

Continuing his address as reported yesterday in The Daily Canadian, the premier said he was not the one to cry secession or separation from confederation, but he would say that if the case is followed up in a constitutional and consistent manner there is no question that the province would win out as it could not be denied the right which is the British birthright.

If the agreement had gone through as arranged in the Quebec conference Prince Edward Island would have gone back \$70,000 ahead of the game though it was not increased in population. Nova Scotia was also not going ahead, but under the arrangement proposed it would have been \$200,000 better. This would have been a good thing to go out on the hustings in a provincial election to talk about as an inducement to support the Liberal party at Ottawa which had given the grant. New Brunswick would be \$200,000, Quebec \$200,000, and Ontario and Manitoba nice little sums. Under the resolution which he could not accept British Columbia would have got \$115,000 more. Though 165 times larger than P. E. I. it would have received only \$15,000 more than it.

Hon. Mr. McBride said he had found it difficult to give the conference an idea of the vastness of things in this province, with its six to seven thousand miles of road and five to six thousand miles of trail to upkeep, its constabulary, schools, etc., with a handful of people taxed with the great responsibility. One member of the conference had suggested that if the province was more economical in its management it would not feel the burden so harshly. The man who made the comment was a supporter of the federal government, and it was met with a challenge to compare. In the Atlin country the province has a belt that is similar in climate and conformation to the White Horse district in the Yukon. The federal government provides the police, jails, courts, civil servants, etc., for White Horse as British Columbia does for Atlin. The conditions are the same. The blue books and records, however, would show that Atlin is governed for one-tenth that White Horse is. Another evidence of the economic management

of the provincial government is that while the public business of the province has easily doubled in its term of government, it is being carried on with perhaps a smaller civil service than when the present government came into power.

Other members of the conference were appalled when told the cost of building roads here, to know that it took \$15 to \$20 to do the work that \$1 would do in the eastern provinces. Hon. Mr. McBride said he had also told the conference that the immediate development of the northern district was anticipated. The Dominion government was busying railways and this carried with it the obligation of roads, trails, bridges, schools, court houses etc., that the province of British Columbia would have to provide. The roads alone would cost over a million dollars. The government could not in decency ask the settlers in the southern part of the province to pay more taxes. A loan could not be raised as that would mean the same in the end. If there was nothing else to warrant the appeal except the anticipated development this should be sufficient to demand prompt and immediate action. It could not be expected that from a new district for years to come that taxes could be collected that would be at all adequate.

Premier McBride said he had made no attempt to make the better terms a party cry. Before leaving Ottawa he had been deluged with telegrams from Liberals and Conservatives saying that he did right. Then on the way home all along the line there had been delegations tendering hearty invitations to stay over for functions to mark the approval of the people of the province of the stand he had taken.

In concluding his address, Mon. Mr. McBride said he had no personal axe to grind, and if the people thought they could do better for the country by electing another government he was willing to step out. But he was satisfied the people did not want a change. The province was never on a better footing, and the future never before gave such promise. "Good old British Columbia is coming to what she has long been entitled to be, the premier province in the confederation of Canada."

### ONE MAN'S INDIVIDUALITY.

How One Can Best Study the Suitability of a Suit.

The loss money a man wishes to spend on his clothes the more important it is that he should give careful thought to every little detail. A garment which must be worn for a whole season must be right or it carries with it discontent whenever donned.

In the web of cloth no man can tell exactly how the suit will fit his individuality when made up. To get the right effect one must wear Semi-ready garments. They are made to the finished-to-order stage, and a man can try a suit or overcoat on and see just how its tone and expression suits his individuality. This effect is only possible in the Semi-ready garment, and is impossible to produce in any but this tailoring system. There is only one "Semi-ready. Sewn on the pocket is the trade-mark label.

J. A. Gilker, the pioneer merchant of Nelson, has secured the agency for the incomparable Semi-ready tailoring.

### TIMBER NOTICES.

Thirty days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works, Victoria, for a special license to cut and carry away timber from the following tract of land situated on the N. & S. railway, in the West Kootenay district: Commencing at a post placed near the N. E. corner of R. E. England's timber claim, thence west 80 chains, thence north 80 chains, thence east 80 chains, thence south 80 chains to point of commencement.

Located October 22nd, 1906. T. J. SCANLAN.

Notice is hereby given that 80 days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands: Commencing at a post placed on the west side of Six Mile creek, planted about a mile west from Bear creek, and about four miles from its mouth, which is six miles west from Nelson; thence west 80 chains, thence south 80 chains, thence east 80 chains, thence north 80 chains to the initial point.

Located October 22nd, 1906. T. J. SCANLAN.

Notice is hereby given that 80 days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands: Commencing at a post placed on the west side of Six Mile creek, on wagon road, about two and one-half miles from Kootenay lake, and marked "Neil McKee's S. West corner post," thence east 80 chains, thence north 80 chains, thence west 80 chains, thence south 80 chains to place of commencement.

Located this 10th day of November, 1906. NEIL MCKEE.

### LOCAL AND PROVINCIAL

An informal meeting of the city council will be held this afternoon at 4 o'clock to decide finally on the new site for the old courthouse.

There will be a meeting of the directors of the Agricultural society tomorrow afternoon at 2 o'clock in the office of Secretary J. E. Annable.

The members of the Churchmen's club extend a special invitation to the ladies of the congregation to be present at their whist party in the club room Thursday evening.

R. Robinson left for the east shore of Kootenay lake this morning to take charge for W. G. Gillett of the construction of a cottage on Lord Grey's ranch for the superintendent.

The funeral of the late Mrs. Orr will take place at 230 p. m. tomorrow from the residence of her son-in-law, J. H. Ringrose, Fairview. Service will be conducted at the home by Rev. J. T. Ferguson.

At tomorrow night's concert in the opera house Alys Bateman will sing "Annie Laurie" by special request. A Mosan-Risch piano has been loaned to St. Saviour's choir for the occasion through the kindness of T. Morley, local agent.

R. A. Renwick, provincial government agent, has received a number of copies of the proceedings of the Kalen island commission, containing all the evidence, copies of exhibits, and the finding of the commission. Those who wish to know the whole truth about the transaction may have copies on application.

The Hindoo arrested yesterday afternoon for causing a disturbance on Baker street appeared in the city police court this morning. He was fined the costs of the court and received, through an interpreter, some whole-some advice on deportment. One drunk was fined the usual \$5 and costs.

The regular monthly general meeting of the 20,000 club will be held in the board of trade rooms this evening at 8:30. A report of the advertising committee on plans for enlarging the proposed pamphlets so as to earn the council's grant of \$200, will be presented. The regular election of committee members will be held.

The Daughters of Rebekah paid a surprise visit to Kootenay lodge, I. O. O. F. last night at the close of the latter's regular meeting. The ladies took possession of Fraternity hall almost before the Conservative meeting had dispersed. Refreshments, music and dancing then helped to pass a pleasant couple of hours.

The final meeting of the Nelson Lacrosse association for 1906 was held last night. T. Deasy, as secretary, reported receipts \$248 and expenditure \$196.20, leaving a credit balance of \$51.80, with probably other receipts to come. As manager Mr. Deasy reported a successful season, with bona fide Nelson amateurs only in the games.

In spite of many other attractions the Pringle company drew a very fair attendance at Sherman's opera house last night, when they presented "Trapped by a Woman in good style. Tonight they will play "A Bashful Lover." Tomorrow night they surrender the house to the Eduard Parlovitz Concert company. They will play again Thursday, Friday and Saturday nights with regular change of bill.

### County Court.

The case of the Montelius Piano company of Vancouver against J. T. Pierre occupied the county court all morning. S. S. Taylor, K. C., and A. M. Johnson appeared. The company claims to have sold a piano to Pierre, who maintains that it was taken only on trial. Judgment was reserved.

After adjournment the case of Glaser vs. French, both of Creston district, was called. S. S. Taylor, K. C., and W. A. Macdonald, K. C., appearing. The plaintiff's claim is for four yearling hogs which he alleges he paid for and which have not been delivered.
