Vol. 2. No. 16. LADNER, B C., SATURDAY, JUNE 6, 1903. $1.00 a year

DELTA AGRICULTURAL SOCIETY

RECEIVES GRANT OF $200

Sanitary Matters Discussed and General Business Transacted by the Municipal Council.

A special meeting of the Delta Corporation was held on Tuesday for general business, owing to there being no quorum on Saturday.

Present the Reeve, Councillors Burr, T. Ladner, Embree, Arthur and McCallan.

The minutes of the previous regular and special meetings were read and confirmed.

The Reeve explained that he had called the meeting owing to a telegram from their solicitors stating that Judge Martin could not hear their case against Dr. Wilson until Thursday.

Joseph Shannon wrote a lengthy communication in connection with the deviation of six miles of the Ladner-Chilliwack railway at Port Kells. He had interviewed the Mayor of Victoria and others, who feared they were being side-tracked. He considered the matter important as it would ultimately become the main track to Kootenay and should be an unbroken line from Port Guichon. If it terminates at Port Kells Vancouver would get the bulk of the trade.

The following resolution from the Surrey Municipal Council referring to the matter was also read, this Council being asked to endorse it:

"Moved by Councillor Wickersham, seconded by Councillor Johnston, that the clerk be instructed to write to the Mayor and City Council of Victoria, calling their attention to the fact that the Ladner-Chilliwack railroad is now completed to Cloverdale. From present indications it would appear that the company now contemplated starting the eastern extension from Port Kells, several miles north of Cloverdale, which would virtually side-track Victoria, and request them to use their utmost endeavor to have the extension continued east from Cloverdale." Carried.

Councillor Ladner did not consider Victoria would be side-tracked and did not see why they should pull for Victoria more than Vancouver.

Councillor Burr concurred.

Councillor Embree pointed out that by going to Port Kells the company divided the distance equally between Victoria and Vancouver.

Councillor McCallan remarked that an alteration of the line from Cloverdale had already been surveyed by which the railway would ultimately run direct from Oliver's to South Westminster. The company had announced that they wanted a right of way free from Port Kells to Abbottsford, when they would build right through to the Kootenay, but they were dead off repeating the purchasing plan as they had done in the Delta.

It was decided not to endorse the resolution and the communications were received and filed.

Harry Burr wrote that the original survey of lot 147 line was about 14 feet out and asked that the ground be placed in its original condition so that he could fence and protect his crops. Received and filed.

Councillor Burr also reported that the amount of land involved in Dr. Wilson's claim on the Dove road was only 1-260th part of an acre. Received and filed.

The question of taking over the River road was deferred till next meeting.

It was decided after considerable discussion that the Council remove the thistles and other noxious weeds from the roads and dykes before the 1st of July.

J. F. Stainton applied in person for some loads of gravel to level the road at his scales. Granted.

W. Goudy applied in person for repairs of about 100 yards on the road leading from the Benson to the Goudy roads. Granted.

Councillor Burr said he had called for returns of all monies spent in the various roads but they were not forthcoming.

The Reeve suggested that Councillors should inspect all the roads in the municipality when they would understand what was required.

Councillor Arthur considered if $1,500 was appropriated to a ward the full amount should be expended.

Councillor Ladner referred to sanitary matters about which there had been many complaints. The slaughter houses, pig pens and ditches required attention. He would be about himself but thought some one should see to the matter.

The Reeve reminded the Council of Dr. Fagan's warning last year, and his threat that if not complied with he would take the necessary steps as provincial health officer.

The Reeve and Councillor Arthur were instructed to confer with their health officer, Dr. King, on sanitary matters generally.

Councillor Burr said something must be done with regard to cleaning out the ditches which were rotten.

Councillor Ladner favored a frontal tax, but it was thought that the Council had no power to act.

Councillor Ladner applied on behalf of the Agricultural Society for the usual appropriation. Last year's exhibition had been a great success and it was the directors' intention to erect sheds, fencing and generally improve the grounds. He asked for $400 for prizes and sheds. Councillor McCallan seconded.

Councillor Burr opposed the grant as he had always done. It was not a public park and they only had a right on the ground one day in the year. He was also opposed to the band grant as they only heard the music when the band went to Steveston. He would rather see a subscription list for tree planting on the ground when he would gladly give $5, although he never went there.

Councillor Arthur thought $200 enough and moved accordingly. They should only give the same amount as the government. He favored tree planting and access to the grounds at any time by the women and children and picnic parties, who were all locked out.

The Reeve reminded Councillor Burr that they were authorised by the municipal act to subsidise agricultural societies. He was however opposed to the erection of more buildings. The one already built had cost $400 and was only used for one day. There were sufficient pens and it was only throwing money away. It would be folly in the extreme. They had better improve their roads. He would give $10 towards a subscription for tree planting.

Councillor Embree seconded the amendment.

Councillor Ladner in reply stated that the public had a right to enter the grounds at any time and the gates had not been locked this year. Games, sports and picnics could be held at any time by applying for permission. Provision had been made in the contract with the lessee. The show caused competition, created energy and prevented them becoming fossilized. The society intended to plant trees, but they must have some one to take care of the grounds otherwise it would simply become a commonage.

Councillor McCallan said the show brought new blood to the district, which would otherwise become dormant.

The amendment was carried, the motion only being supported by the mover and seconder.

The council then struck the rate for the year at 7 mills on the dollar, the same as last year.

The rules of order were suspended to enable the temporary loan bylaw to be read three times, which was done and passed. The amount not to exceed $6,000, nor the interest more than 8 per cent. per annum, the note to be redeemed before the 31st December, 1903.

The highway bylaw was read a second time after Councillor Burr, who was absent at the first reading, had enquired why the roads could not remain as they hurt no one. He was very doubtful whether they had power to rescind roads which had been gazetted, and thought their solicitors should be asked as to the legality of the action.

The pound bylaw was then read a second time.

Four tenders were received for the collection of the road tax. One at 50 per cent. and three at 10 per cent., one of the latter stipulating that taxes paid at the office should be included.

On the motion of Councillor Arthur it was decided that the collecting be given to the clerk as usual, at 10 per cent. remuneration.

The Reeve reported that he had shown round the tramway representatives as instructed and that the English representative had expressed himself very much pleased with the prospect.

The following accounts were passed for payment: Alexander, hauling lumber, $8.25; M Smith, $8.75; Sam Kee, work, $8; R H Gillespie, contract, $146.25; E B Noble, repairing track at gravel pit, $44.07: E B Noble, balance of contract, $2,204.20; F Lasseter, $37.50; Delta News, advertising and printing, $20.75; Sing, labor, $3.30; Tom, labor, 62 cents; Geo Ormiston, salary, $60; J Jordan, constable, $18.29; J Jordan, livery, $55.50; Sing, labor, $15; Jim, labor, $12.

The Council then adjourned till Saturday, 13th inst.

Upwards of 400 cars a month are now transferred by ferry from the island to the Mainland. The Chemainus Saw Mill shipped on an average last month five cars a day; Ladysmith an average of from two to three; Shawnigan, one; Sayward, one; the Victoria Terminal railway, one. Haslam, of Nanaimo, has been a regular shipper, and there have been local shipments making up, if not exceeding, the estimate given.

Joseph Martin has resigned as leader of the provincial Liberal party.

DELTA VS. WILSON.

Judge Martin Decides that Tax Cannot be Collected. Damages May be Arbitrated.

The case of Delta municipality vs. Dr. Wilson came up before Justice Martin at Westminster yesterday. On the meeting of the court counsel foa both sides argued the points of the case.

Argument by council was chiefly about a clause in the act which states that the collector shall make a statuary declaration of the tax collected at the end of each year, also that which has not been collected and the reason.

Declarations for two years for the Delta Municipality were not produced and it is presumed were not made.

N. A. McDiarmid, C. M. C., was the only witness called, to produce papers, the other witnesses in attendance being dismissed as the judge did not think it necessary to to heir their evidence.

During the afternoon the judge gave the following as his decision, that as far as damages, if any, were concerned, they could be settled by arbitration, but that the tax can not be collected, owing to the proper returns not having been made by the collector.

Costs to be settled after the arbitration for damages.

PHEASANTS.

Christopher Brown of East Delta, reports a greater number of young pheasants than in any former year. The winter and spring have been especially favorable for game, and the results are visible all over the Delta lands. He is convinced that the pheasant hens breed twice each season, or at least many of them do, although it is the common belief that they only breed one flock unless something happens to the eggs or young of the first brood.

John Oliver, M. P. P., returned home on Thursday.

Charles Gifford has been appointed caretaker of the Mechanics Institute.

The adjourned meeting of the directors for the King's birthday celebration took place last night. It was held with closed doors.

H. N. Rich has received instructions from Mrs. John Kirkland to sell the household furniture, live stock, vehicles, etc., at Hazelgrove on Tuesday, 16th inst.

TRAMWAY FOR DELTA

Last Saturday Manager Glover of the New Westminster branch of the B C E Railway and R H Sperling, acting manager at Vancouver made a visit of inspection to the Delta. They were met at the railway depot, by the reeve and were driven to Boundary Bay, accompanied by a representative of the Delta News. They proceeded by the Goudy road to Sunbury where the visitors boarded the Transfer on their home journey. They expressed themselves as highly delighted with the country and were of opinion that on such level ground they could haul four cars with a small motor to Westminster and Vancouver in two and three hours, at a lower rate than the farmers were paying for their produce at present. Acting manager Sperling is the son of one of the largest shareholders and on the return of the manager from London he proceeds home to report. The company have acquired running powers over the Westminster bridge and their large power station at Coquitlam Lake will be ready shortly when they will have considerable surplus power on hand, which could be utilized for this extension. They are building their own cars at their work shops in the Royal City. Two new large passenger saloons are now under construction, to be called respectively "Delta" and "Surrey," which we hope to see running through Ladner in the near future, bringing excursionists from all parts of the province to the ideal summer resort at Boundary Bay.

CORRESPONDENCE.

(We do not necessarily endorse the opinions expressed in this column.)

READING ROOM MATTERS.

Editor Delta News—Sir:—"Sugarbag's" letter in your last issue touches on a vital question. A little more rigor is required on the part of the promoters of this very necessary institution.

No machinery will work well without lubrication, but it is necessary for the engineers to know that the oil is applied to the proper parts and judiciously applied. At the last general meeting financial matters were vaguely referred to, but no documents were forthcoming—and the subscription list appears to have been mislaid. Anyhow no one knew exactly in whose hands it was. A finance committee was appointed, but there was no report from it at the meeting of directors last week. By the way, is it not somewhat irregular for a meeting of directors to confirm the minutes of a general meeting, as was done on this occasion? It seems a pity that the business men of the town do not take more interest in the Institute. As employers of labor they are concerned in its welfare, and it is their duty to see that it does not fail from lack of advice, supervision and practical help on their part. The present association, let us hope, is the nucleus of a future public library where the young men of the town will find healthy mental recreation when their time is not occupied in work or manly sports. Then other institutions and attractions will be available, but at present the only attractions are the street corners and the top rails of the road fence. Now is the winter of their discontent and now the time for guiding hands.

No business man leaves his office or store at the mercy of any passerby. Why should the trustees of public property? Common sense principles are as applicable to corporate bodies as to private individuals.

I enclose my name and submit myself, yours truly,

SANDBAG.

Editor Delta News: We notice a communication in your last issue from an individual who boasts of the sobriquet of "Sugarbag," and who asserts that a financial statement should be regularly published in The Delta News of the affairs of the M. I. & R. R. We would like to state for the benefit of the public, that each year we have an annual meeting due notice always being given, a statement by the secretary-treasurer, an audit of all accounts, &c., and such work always being satisfactory to the officers and directors, who are elected by the public, all business and books being open for inspection by subscribers at any time and information cheerfully given by any officer. If the critics would take a little more interest in the real work and maintenance of the institution and assist in taking proper care of the M. I. & R. R. We think it would be much more beneficial than anything else that could be done, as at present the work of looking after the Institute has usually fallen on one or two persons, who have done the best they could to keep up and maintain one of Ladner's best institutions.

F. CUTTING, President,
H. LEWIS,
MARGARET STAINTON.

C. Brown of Mud Bay is visiting at the capital.

H. J. Kirkland was at the capital for a few days this week.

Ladner has challenged the East Delta boys for a baseball game on 26th inst. The public schools close on that date.

Miss Minna Calhoun, nurse at the Jubilee Hospital, Victoria, was visiting with her sister, Mrs. J. F. Stainton, this week.

Miss Elsie Lynch of Bradshaw, Nebraska, arrived in Ladner this week and is visiting with her grandparents, Mr. and Mrs. F. Hartnell.

The Ladner band gave its first open air concert on Wednesday evening under bandmaster Fred Land. The weather was suitable and many availed themselves of the occasion to promenade in the vicinity.

HON. RICHARD McBRIDE, PREMIER

CONSERVATIVE GOVERNMENT

Prior Dismissed, Supply Passed and Appeal to be made to the Country on Party Lines.

Hon. Richard McBride is premier of British Columbia, being the first native son to occupy this position and naturally is receiving congratulations from his many friends.

The Lieutenant-Governor after reviewing the report of the committee on the Chimney creek charges dismissed Premier Prior and at once called on Mr. McBride, who has been in charge of affairs for the past week.

The new premier has announced that the government will be Conservative and as such has called into his cabinet: R F Green, minister of mines; Captain Tatlow, minister of finance, and A E McPhillips, attorney-general. Charles Wilson of Vancouver will join the cabinet shortly as president of the council, and the provincial secretary portfolio is to be left open. The premier is chief commissioner of lands and works.

The assembly was prorogued on Thursday and will not meet again until after an appeal to the people on party lines in September.

Charles Wilson will probably contest Cariboo.

The supplementary estimates were passed including fees for counsel in the railway enquiry, after a protest from Joseph Martin; also gratuities for the widows of civil servants, also for preparing the new voters lists and registration, and election purposes. Public works: Delta riding, additional to $4,000 voted, Westminster and Ladner road, conditional on New Westminster city contributing $2,000, $6,000.

Several acts were assented to by the Lieutenant-Governor, including the Victoria tourist hotel bill.

The proceedings closed with the National Anthem.

Rev. L. Amor left on Wednesday to assume his duties at Holy Trinity Cathedral, New Westminster.

The local lodge of Orangemen held a meeting last night to arrange for attendance at the annual demonstration in New Westminster on 13th July. Further particulars next issue.

The reports of the Gamey commission was handed down to the legislature on Thursday afternoon. It exonerates Hon. Mr. Stratton, and fails to implicate Gamey in any wrong doing.

The new cannery being erected at Steveston, on the site of the old Imperial, will be about the largest on the entire river. There are four separate lines of machinery, so that if the supply of salmon is sufficent the cannery will have a capacity of 60,000 to 80,000 cases for the season.

RIC. A. FRASER,
Editor and Proprietor.

SATURDAY, JUNE 6, 1902.

WATER SYSTEM.

"Water, water, everywhere, and not a drop to drink"! That is the cry in Ladner, and is likely to be until the people wake up and put some life into their parochial leaders. It ought to be the other way about. Even if the Delta municipality has not the power or means of undertaking experimental work as a corporation the Councillors are the representatives of the ratepayers and as such should be the leading citizens of any movement for the improvement or betterment of the people they have the honor of representing. To give the Reeve his due, he has time and again brought the matter forward only to receive the cold shoulder from his confreres. Some time back he communicated with a well borer for the Richmond municipality and again with the manager of the Government drill at Ashcroft. In the latter instance a conference, it will be remembered, was arranged with the residents of Steveston, but the latter failed to come up to the scratch. Still later the Council was approached by the manufacturers of boring machinery at Idaho, who offered to sell them a plans at a big reduction owing to the distance. This was thrown out because the machinery might require mending. Again the Council was placed in touch with another American firm, and the fate of that correspondence is still fresh in the memory of our readers. Now the Council has taken no steps to obtain data from other municipalities, and that at least they might easily accomplish in their corporate capacity, they would then have some definite information to lay before a public meeting. It has already been demonstrated that water can be obtained at a reasonable depth in different parts of the Delta. The Creamery Co., the Imperial Farm and the B. C. Investment Co. have all obtained good supplies of fresh water.

In any case the municipality is justified in approaching the Government for assistance for the loan of a drill in this important matter, through the member for the district. In order to avoid petty jealousies, which have no doubt influenced the several suggestions, the Agricultural Society should also be approached and the show grounds placed at the disposal of the experimentalist. If this proposition is taken up it should meet with general approval and our homes will soon be protected from the scourges of famine and disease, which arise from deficient quantity or inferior quality of the water supply. The terrors of a conflagration will also be lessened.

An interesting item at agricultural shows is the sheep dog trials, and such an event would be novel and interesting to the spectators at the Delta exhibition. We throw out this hint to the directors before the prize list is revised. There are several Scotch collies in the district which have been well trained and sheep farmers would be encouraged to bring up their four-footed shepherds in the way they should go. No doubt some of our squatters from the land o'cakes would be willing to assist the committee in the arrangements.

The Redistribution Act comes into force when the present Legislative Assembly is dissolved, and new lists must then be compiled in each electoral district. The first Court of Revision must be held within three months from the dissolution.

TRANSPORT TO VICTORIA.

The Victoria Chamber of Commerce has compiled a report of the transportation facilities of British Columbia and the Northwest to the Capital. It is based on the replies which have been received, but it is somewhat remarkable that neither Ladner or Port Guichon figure in the report. The questions asked were (a) State chief exports from your locality. (b) Have you any suggestions for an improved service between your point and Victoria? (c) Have you any additional information?

The following are some of the replies:

Gibson's Landing — (a) Farm produce, stock and lumber. [b] I do not think that a direct steamer service to Ladner would pay.

Elgin, B. C —[a] Farm produce [exports about 1,000 tons oats and about 1,000 tons of hay annually.] [b] The present Great Northern Railway is going to be of great benefit to this locality, and if rates are reasonable we will be able to trade with Victoria.

Aldergrove, B. C. — [a] Live stock and farm produce. [b] When we get the railroad built, now being surveyed, it will make a big difference and put us in a nice position.

Surrey Centre—[a] Farm produce. b It is suggested that a Victoria firm start a store at Cloverdale and buy anything farmers have to sell.

R. A. & I. SOCIETY.

At the last meeting of the Royal Agricultural Society of British Columbia, held at New Westminster, W. H. Ladner, one of the vice-presidents, was voted to the chair, in the absence, through illness, of President Trapp. Among others present were S H Shannon, Cloverdale; A D Paterson, J W Hollingshead, Ladner, and J M Steves, Steveston. The total revenue at last exhibition was $21,-299.15 and only $100 debts were outstanding. $200 have been received towards the next show. Very few alterations were made in the prize list. In the cattle section it was decided to erase the stipulation that "all except the bull may be bred by the exhibitor" as being superfluous. In horses, trotters are classed as "standard" simply. The first prizes in this section have been raised to $20 and no second or third will be offered in any of the horse classes. The appointment of judges was left to the directors.

Oh, merchant in thine hoar of eee,
If on this paper you should ccc,
Take our advice and be yyy,
And in this journal advertiii,
You'll find the project of some uuu.

The Delta News, Ladner

KING'S BIRTHDAY CELEBRATION

A meeting of the directors was held at C. F. Green's office on Tuesday evening. There was a good attendance with L. Gifford in the chair.

The finance committee reported fair progress but the lists were not yet completed. It was however considered that the following programme could be announced subject to alterations:

Baseball match with a Royal City team, if possible, against a combined Ladner and East Delta team. Prize, value $10.

Football match for boys under 16. Prize, value $5.

Bicycle race, free for all; time limit. Prize, value $4.

Pig race for Chinamen. Prize, value $5.

Trot and pace, $35 added money, free for all, best 2 out of 3 heats, one mile.

Green trot, $25, same conditions.

Running race, $30, half mile.

Pony race, 2 heats, $30, 14½ hands, half mile and repeat.

Novelty race, $10, 3 out of 4 heats, half mile dash.

Entrance for the first three horse events 10 per cent., and for the pony and novelty 5 per cent.

Novelty race, special prize, $3. Donor, R. C. Abbott.

The secretary was instructed to engage a judge from a distance, who would have full powers. He also to authorized to issue posters.

The chairman announced that the band had offered their services, and the proceedings would probablp wind up with a dance in the evening.

W. H. Livingstone was authorized to interview the steamship owners and secure a special boat for the occasion, as many visitors had promised to attend from the Royal City. Boat to leave the city at 10 a. m.

All entries must be made at the secretary's office before noon on the day, catch weights, and the races to start at 1 p. m. sharp. Entrance at the gates 25 cents.

The meeting adjourned till 8:30 p. m. on Friday.

NETS FOUND

Mr. N. H. Bain of the Canners Association, received word on Monday night that the bulk of nets, etc., stolen from the Canadian Pacific Cannery on Empire Day, had been recovered and were on their way back to Steveston. The Fraser River Canneries Association offered $100 reward for their recovery. The case was worked up, and on Thursday last Officers Campbell and Jordan quietly slipped out of town and by Saturday they had recovered the boat, nine nets and some of the lines. The thieves were traced from Steveston to Point Roberts and Blaine, Wash., and the nets, were finally located in Birch Bay, about eight miles south of Blaine. As the nets, etc., were worth over $1,000 the cannery people are very pleased at the recovery of the property.

HIGH WATER

Fearing a recurrence of floods on the Fraser River this Summer, the Dominion Government Meteorological Department has instructed Mr. Baynes-Reid, the local Meteorologist, to establish a series of look-out stations on the Fraser, to give telegraphic warnings, of the state of the water during the seasons of anticipated floods. Stations will probably be added as occasion may require Reports will be seen at the Victoria meteorological office and warnings issued.

JOHN OLIVER, M P P

A noteworthy development of the situation, writes the Times, is the sudden advent into the arena of a totally new force in the person of John Oliver, of Delta. All recognize that his recent service to the province has been of such a marked character as to make of him a factor to be represented with a future administration. Many insist that as the man who almost single-handed carried the investigation which overwhelmed the government he should be given the task of reorganizing the affairs of the province and cleansing departments. His sterling integrity would make him a strong figure in the fight acceptable to almost all classes of Liberals. He has also developed during the last year remarkably in his grasp of public questions and of procedure, and on the stump he is wondefully effective, as Mr Eberts learned to his sorrow iu North Victoria.

MAIL MATTERS

Residents of the Lower Mainland says the Colonist, are about to petition the postal authorities to arrange for the transmission of mails daily by way of the Victoria Terminal Railway & Ferry Co. As the service is at present, it takes residents at Aldergrove for instance, the better part of a week to get a letter to Victoria and an answer, by way of Vancouver; and now that excellent daily communication is furnished by the Sidney route, they consider it inconceivable why the postal department has not made arrangement for increased postal facilities.

The question is to come before the next meeting of the Victoria Chamber of Commerce, but the initial movement is expected from the Delta side.

UNPRECEDENTED FLOODS

Unprecedent floods are raging in Central and Eastern Kansas; Northwestern Missouri, Eastern Nebraska and southwestern Iowa, the result of ten days of almost continuous downpour. The general situation is considered most grave, with no immediate relief in sight. Many lives have been lost, and it is estimated that no less than 25,000 persons have been driven from their homes, many of which were washed away. The property loss will run well up into the millions of dollars.

GREATLY ALARMED

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

H. P. Burbage, a student at law, in Greenville, S.C., had been troubled for four or five years with a continuous cough which he says "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try It. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by F. J. MacKenzie.

The postmaster in a neighboring town has posted the following rules: "No letters will be delivered until they are received. If you don't get a paper the day you expect it have the postmaster to look in all the boxes and down the cellar also. It ought to be there somewhere, and he likes to hunt for it just to please you. If your friend don't write, cuss the postmaster. He is to blame. If he tells you there is no mail for you, put on a grieved expression and say: "There ought to be some." He is probably hiding it for the pleasure of having you call for it two or three times a day." Ask him look again.

LOCAL ITEMS.

Miss Lester of Vancouver was at C. Beadleston's on Sunday.

W. Holmes has lost a valuable draught mare from inflammation of the bowels.

Geo. Adams has returned much improved in health after a sojourn at the Royal Columbian Hospital.

Dr. Tolmie of Victoria, arrived here on Monday morning on private business and left again on Tuesday evening.

John Taylor, K. C., was in Ladner last Saturday in connection with the case of the Delta Municipality v. Dr. Wilson.

Mrs. Kidd, wife of T. Kidd, M. P. P., returned to her home on Lulu Island on Monday after visiting her sister, Mrs. Beadleston.

Col. R. Wolfenden, the King's printer at Victoria, has been gazetted to the Imperial Service Order, which King Edward has instituted for his direct recognition of merit throughout the Empire.

Residents of this school district are called upon to meet on the 27th inst. to elect a committeeman in the place of Thos. Thirkle, whose term of office has expired. The annual meeting also takes place at the same time.

On Sunday evening Dr. King was called to attend a Chinaman named Shing who had been taken suddenly ill. The man, who was about 30 years of age, expired a few minutes after the doctor's arrival from heart failure.

The steamer Transfer was delayed on Monday morning by the Yosemite, which was flying signals of distress in the gulf. Her crosshead cracked while returning from Victoria to Vancouver and the Transfer towed her into Steveston, where the passengers were landed and proceeded by train.

C. A. Colman, missionary to the Chinese, on behalf of the Presbyterian Church, left on Monday for New Westminster stations, after a few days' work in Chinatown and the canneries. This was his first visit since February as he has a large circuit to traverse, extending to Yale.

The Misses Alice and Violet Ladner, daughters of T. E. Ladner, have successfully passed their examinations, both in theory and practice, by the examiner of the Royal Conservatory of Music. The examination took place at All Hallows, Yale. The examiner proceeds from British Columbia to Australia.

The Hit of the Season

Our Millinery Opening, the most successful event ever held in this city. Our aim is to make this store your shopping place, and we intend keeping all that's new and up-todate at prices which defy competition.

Try us for a Carpet

We certainly can suit you if quality, design and price will do it. Our importation this season is very large and we know the goods were bought right. Our range of new colors takes in a magnificent variety o Fawns, Reds, Greens, etc., in Floral and Oriental designs with Borders and Stair Carpets to match, in Wiltons, axminsters, Brussels, Tapestry and Ingrain; in fact we doubt if a finer assortment can be found on this coast. We are selling Carpets.

Our Show of Dress Goods

Each day our range is growing. We can now show you a lovely range of Voiles, Camas Cloth, Nappa, Minstrel Cloths, Serges, Mums Veiling, etc., in all the very newest colorings, at money-saving prices.

Orders by Mail carefully and promptly attended to.

LOCAL NEWS.

Mrs. J. R. Watson has returned from Portland, Oregon.

Mr. and Mrs. D. McGregor were visitors to the cities this week.

Wm. Alexander has added another fine team of fine heavy draught horses to his stables.

Sunday school will be held as usual at All Saint's Trenant tomorrow at 10 o'clock.

Mr. and Mrs. Woodward came over from Vancouver on Monday to visit their nephew, W. H. Smith.

Miss Dement, sister of Mrs. E. A. Bown, has returned to her home in Blaine, Wash., after several days visit.

John Richardson, of Mayne Island, who has been in the Delta for several weeks engaged in shearing sheep, has returned home.

The sports committee for the King's birthday celebration advertise their list of events and ask all interested to look out for their posters giving further particulars.

The Delta corporation call for tenders in this issue for the delivery of brush and rock at the gulfside dyke. Further particulars can be obtained from Councillor McCallan.

Mrs. Brandrith and son left on a visit to Vancouver on Monday. The genial secretary of the Fruit Growers Association is progressing favorably, only a small ankle bone being broken.

A christening took place at the residence of Thos. Foster on Sunday afternoon in the presence of a few friends. The Rev. Oswald baptised the child—Thomas Edward. Some nice presents were received.

H. M. Vasey of Riverside has the cup presented by H. D. Helmcken, M. P. P., for the best draught horse at last year's provincial exhibition. The cup has to be won two years before it becomes the property of the holder.

Ice Cream today at the City Bakery.

The Reeve and Councillors visited the gulf dyke on Wednesday morning and authorized Councillor McCallan to exceed the limit of expenditure in repairs, in consequence of the damage done by the sea. By this means they hope to avoid additional cost next year. In connection with this an advertisement appears in another column calling for tenders.

Ice Cream today at the City Bakery.

Ice Cream today at the City Bakery.

W. E. Fales, the house furnisher of New Westminster, has inaugurated an original $5 sale for one week. Not only one article that can be sold for $5 but combinations of articles such as parlor centre table, lace curtains, curtain chains and curtain poles with full trimmings, wash stand, towel hanger, towel rings, large mirror and many other novel combinations. The entire window space is devoted to show the articles and the sale is sure to be kept up with interest the entire week.

Ice Cream today at the City Bakery.

Loggers will do well to read what Wm. Johnston's big shoe house of New Westminster has to say about the "King of the River" Logging Boot, in their ad today.

Kow-Kure now in stock at the drug store.

Try a bottle of our "Best Sarsaparilla" for a blood purifier and a bottle of Syrup of Hypophosphites for a spring tonic and note results. F. J. MacKenzie.

We wash clothes by the new method. Leave your linen with our agent in Ladner, L. Gifford on Monday. It will be returned to you on Saturday. No tears, frays or buttons off by our process. The New Method Steam Laundry, New Westminster.

There's quality that gives satisfaction, there's excellence that makes health, there's economy and comfort in Nels Nelson's lager beer.

If you want first class Foot Wear

Call at the Leading Boot and Shoe House and you will get satisfaction both in quality and price. Latest styles and up-to-date foot wear unexcelled in the province.
