REEVE AND COUNCIL OF SURREY,

Gentlemen.—I beg to report that I have audited your Municipaal books, as kept by yonr Clerk and Collector, for the year ending Dec. 31st 1903, together with the Bank pass book, vouchers, and other papers and find the same correct. I find all receipts properly credited, and all payments regularly authorized as shown by your minute book.

The printed reports are correctly made out from the books, and I think, sufficently explanatory without requiring any special comment.

Your Clerk has been very painstaking, and has kept his books in a careful and satisfactory manner.

Thanking you for past favors, I beg to remain,

Yours Respectfnlly,
E. L. Webber.

On motion the account of the Provincial Home against John Armstrong was ordered paid, $71.10, and the account against F. McRae of $78.80 was ordered paid out of the money deposited in the Bank of Montreal for that purpose.

Moved by Co Wickersham sec by Co Cameron, That the Clerk negotiate with the G. N. R. R. Co. for the construction and maintenance of one box culvert 4 feet wide, bottom of culvert to be 8 feet below R.R. rails, for purpose of letting the Shannon and Milton road water through under their track; To obtain cost of such culvert about 40 rods south of station also the cost the above on north limits of Milton road across their right of way; also ask their permission should the Council prefer to construct the same, one culvert required only. Also ask permission for the Council to construct and maintain a ditch on the West limit of their right of way, 9 feet wide and 4 feet deep, from culvert to river. Council would adopt the usual plan of railroad box culverts subject to their instructions. Motion lost. Couns. WHOSE FAULT?

In the wreck of the Clallam, considerable blame is being attached to the captain. Of course, blame may be attachable to every captain of a ship, of this description, for ever allowing himself to be gulled into taking such a worthless tub out of port. But why not impose imprisonment on the incapables who draw fat salaries from the public treasury, to protect the lives and property of the travelling public. This is where the blame should be placed. Why do they not do their duty? Is it because, being suckers, possessed of nothing but political pull, they know no better? Or is it that they receive an additional salary, at the hands of the shipowners, in consideration that they do not look too closely into the condition of their rotten money makers.

We have a strong government in B. C., now, and it will redound to their credit if they make it a point to have all the bottoms, plying in B. C. waters, inspected by a trustworthy expert, not a hanger-on with a corporation pull.

What right has a government to permit obsolete and unseaworthy craft, no matter to whom they belong, to ply to and from home ports without being in a position to tell the public what risk they run by using them as a means of conveyance. A boat, to be fit for travel on the Gulf of Georgia, should be safe enough to go around the Horn.

The Royal Bank of Canada, as will be seen by reference to their ad. on Fourth Page, have opened for business in their temporary quarters. To encourage them in their enterprise, come in and do what you can.

We hope to hear from the Council, sson, that they have been able to induce capital to start up other industries here which will not only help the farmer, but the bank, the grocer, the clothier, the dry goods man, the land owner, and last, but not least, the printer.
